

NO RECALL FOR MR. BRYCE; DISGRACEFUL UNIONIST ATTACK

Sensational Story of American Plot Built Up By Tariff Reform Journals From Taft's Letter—British Ambassador Has Full Confidence of His Government.

[Canadian Press.]
New York, May 2.—A cable to the New York Times from London this morning says:

In this morning's papers it is semi-officially announced that there is no foundation for the rumor that Ambassador Bryce has been actually or virtually recalled from the Washington embassy. It is declared to be his intention and the intention of the Government that he resume his duties immediately on the ex-

pires the "disgraceful tactics of the Tory press" in attacking Ambassador Bryce. The Chronicle says the whole fiction arose out of the phrase in President Taft's letter that reciprocity would make Canada "only an adjunct of the United States," and that on this letter the tariff reform journals here had built up a sensational story of an American plot in the hope of helping the high protectionist party in Canada. The Chronicle's parliamentary writer, after emphasizing the fact that there is not a vestige of truth in the rumor of Ambassador Bryce's recall, says:

Bryce a Success.

"Between Sir Edward Grey and Ambassador Bryce the happiest personal and official relations exist. Mr. Bryce enjoys the full and unreserved confidence of the British Government, and his career in Washington has been the greatest success in our ambassadorial service for the past twenty years. Whenever Mr. Bryce retires, and in the nature of things, as he is now well up in years, that cannot long be delayed, he will do so at his own will, and his departure from Washington would be deeply regretted by our foreign office."

The same journal's Washington correspondent cables a column, giving the views of prominent politicians, all of whom agree that the criticism that Mr. Bryce failed to keep his Government informed of what was happening is utterly unwarranted.

Officials at the state department, says the correspondent, were very frank in stating that the ambassador could hardly be blamed for his failure to know President Taft's views, which were quite unknown until Mr. Taft revealed them in his effort to crush Mr. Roosevelt in the fight for Massachusetts delegates to the Republican convention.

AMBASSADOR BRYCE.

piration of his holiday, which, it is pointed out, actually began before President Taft's letter in reference to Canadian reciprocity was published.

Disgraceful Tactics.
The Daily Chronicle condemns in strong

TEN DAIRIES HAVE BEEN CUT OFF AS RESULT OF INSPECTION

Five More Are Under Surveillance and May Find Sales Stopped.

Ten dairies which have been supplying milk to the city have been cut off as a result of the recent inspections made by Dr. Tamin, veterinary inspector. Five more are under observation, and if they are not improved in a very few days, they too will be cut off.

Dr. Tamin has not finished his inspection, but laid before Dr. Hutchinson and Dr. E. Williams, chairman of the board, the results of his investigations so far, and it was decided to forbid the dairies from serving dirty milk to citizens.

"The scarcity of feed and generally bad conditions of the winter have left some of the dairies very insanitary," said Dr. Tamin. "The ten we cut off were altogether unfit to furnish milk to the city. There are five more that we have under observation. They must be improved or they will be forbidden to supply milk."

WHISTLE BLEW FOR 100 MILES; PEOPLE ON TRAIN ALARMED

Rather Humorous Incident as Result of a Slight Mishap.

People within two or three miles of the C. P. R. track from Komoka to Windsor were startled and puzzled yesterday afternoon by the continued whistling of the engine on the express that leaves here about noon for Windsor.

blew all the way to Windsor, where in order to stop the noise it was necessary to let all the water out of the boiler of the engine.

There were many conjectures along the line as to what was the cause of the noise. The most popular was that the cow was still ahead of the train and was setting a record as a pace-maker.

At Chatham it was thought that the train was threatened by fire and at Windsor the citizens decided that it was celebrating the arrival of a new phenom at "Rube" Deneau's training camp, and many of the sports of the town laid wagers that Berlin would win the Canadian League pennant.

RAISE THE SUM OF \$100,000 TO BUY FACTORY SITES

The Council Will Consider the Proposition on Monday Evening Next.

The next regular meeting of the city council will be held on Monday night. The awarding of contracts for nearly \$14,000 worth of fire apparatus and for \$39,750 for an incinerator, will be the most important questions. W. E. Seagrave & Co., Walkerville, have been given the contract, as far as No. 3 committee has the power, for a motor combination wagon for \$6,800, and for an aerial truck for \$5,725. Lawrie & Lamb, Montreal, have been recommended for the incinerator contract.

Brazier, as assistant city engineer, will be ratified, and other minor business will be dealt with.

The manufacturers' committee will probably meet on Tuesday evening next. It is possible that some information will be furnished regarding the C. N. R. and other matters.

Factory Sites.
The question of purchasing factory sites by raising a subscription of \$100,000 from citizens, will come up. For some time Mr. J. Grant Henderson, commissioner of industries, has been gathering information on the subject from many American cities, and will submit this to the committee.

LONDON IS NOT READY FOR UNDERGROUND WIRES

When Conduits Are Ready the City Will Follow Hamilton's Lead.

The city of Hamilton is the first municipality in Ontario to take steps under the new Beak act compelling all telephone and telegraph companies to place their wires underground. There will be no such attempt made in London for some time yet.

Wherever it has been tried it has worked with the most pronounced success. There is no question but that the committee will adopt the plan.

City of Hamilton. Chairman Pocock stated to the Advertiser, "That corporation is the first to make a move under the new act. We will not do so at the present time, because we have not sufficient conduit room. They run now from the Grand Trunk to Fullarton street on Richmond, and from Wellington to Bidout streets on Dundas. When we cover north Richmond and east Dundas we will be in a position to have all the wires on these streets put underground. As the conduit system extends we will take them down from other streets. This will take some time, of course. The petitions for the extensions are about ready, and they will be sent to the council in a very few days in all probability. We expect to complete them this year. If they agree amicably, easy arrangements will be made. If they will not deal with us in a friendly way, we will be compelled to take action against them."

LEVEE BROKE.
Baton Rouge, La., May 2.—The Mississippi River protection levee in front of Bayou Sara, La., broke at 11 o'clock. According to the report here there is no chance to save the town from inundation.

HAVE YOU EVER NOTICED?

By John T. McCutcheon.

(Copyright, 1912, By John T. McCutcheon.)

That when little brother is allowed to go out with the older boys—

He can be knocked down, stamped on—

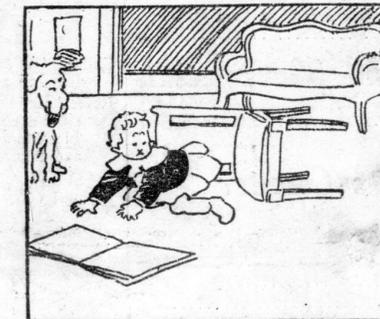

and thrown over without—

open uttering a whimper.

BUT

Just let him fall down when mamma's sympathetic car is near—

and you will hear him wail to beat the band.

DETROIT MAN APPEARS TO BE THE FAVORITE

Water Commissioners Have Not Yet Decided Upon a Parks Commissioner.

The water commissioners have not decided upon a parks commissioner as yet, but will probably do so within the next week. Mr. W. Dilger, of Detroit, is most favorably spoken of, but the salary is thought to be too high for London. He asks \$2,000 a year, and the commissioners are not yet persuaded that they can afford to pay that amount of money for the position.

PLACE LIBRARIES IN THE SCHOOLS

A Sample Portable Library Is Submitted to Mr. Carson.

In connection with the plan for the establishment of a public library system in the schools of the city, the manual training classes have an opportunity to assist in the scheme.

MORE CARS ON SEVERAL LINES RESULT IS AN IMPROVEMENT

London Street Railway Is Losing No Time in Meeting the Demands of the City—Switches To Be Changed and Other Moves Made to Better the Service.

Changes to improve the service of the London street railway have already been inaugurated, and more are now getting ready to be made.

The addition of two cars to the Oxford street line was the first move. Today other cars were put on, and the results so far are said to be quite satisfactory.

At the present time Dundas cars run from Pottersburg to West London. Under the old system, the Dundas cars ran from Pottersburg to Richmond street, and then around the loop. The West London cars ran as far as the fair grounds and back to West London.

In future the Dundas cars will serve both Pottersburg and West London.

A New Service.
A new line, to be called the Quebec street line, will operate on Dundas street, running from Quebec to Richmond, and around the loop—Richmond, York, Ridout, and then east on Dundas.

MAYOR GRAHAM IN TORONTO TO TALK OVER C. N. R. EXTENSION

His Worship Will Also Lay Incinerator Plans Before Provincial Officers.

Mayor Graham is in Toronto today on city business, Ald. Richter being acting mayor. It could not be learned definitely on what business his worship was engaged, but it is hinted at the city hall that it is very important.

It is certain, however, that he will lay the plans for the proposed incinerator before Dr. Bruce Smith, inspector of hospitals and charities, and also before the Provincial Board of Health. According to the public health act, both must give their approval to any plans, and his worship will lay them before the proper parties. Ald. Richter insists on having the approval of the provincial authorities in writing, and this will probably be secured.

GUARANTEE BONDS UP TO \$300,000 FOR PORT BURWELL RADIAL LINE

Committee of Representatives From Municipalities Interested Will Endeavor to Have This Accomplished—A Conference With London Board of Trade.

At the conference held on Thursday afternoon between representatives from the various municipalities interested in the traction line from London to Port Burwell in the board of trade rooms here, a committee was appointed to interview the councils of the various corporations in an attempt to have them guarantee \$300,000 of the bonds of the road. The promoters owning the charter of the London, Aylmer and North Shore road, now lapsed, will be asked to submit a definite proposition as to the price they will accept for their holdings.

A Representative Meeting.
The meeting was very representative. Dr. Sinclair, Aylmer, and Mr. J. C. Dance, Kingsmill, explained the position of the old charter. It was issued in 1901. The promoters were given power to issue bonds up to \$3,500 a mile. The right-of-way had been procured to the lakeside, and all the preliminary work up to letting the contracts had been done. Some five per cent. bonds had been sold, and

many had been given to the promoters as a bonus. However, the scheme fell through, and a judgment for \$10,000 had been obtained against the charter by Mr. W. Warnock, of Aylmer. The only other liability was that for 100 shares.

Offer for Charter.
On motion of Mr. J. C. Dance and Mr. Phillip Pocock, the secretary, Mr. J. Grant Henderson, was instructed to write the owners of the charter, asking them to submit within fifteen days an offer for their holdings.

Guaranteeing the Bonds.
The question of the amount of bonds the various municipalities should guarantee was brought up by Mr. A. W. White, and a discussion of some length followed on that matter. Continued on Page Eleven.

MABEE'S CONDITION CRITICAL; HAS A SECOND OPERATION

Chairman of the Railway Commission Close to Death In Toronto Hospital.

[Canadian Press.]
Toronto, May 3.—"The condition of Judge Mabee, chairman of the railway commission, is more serious this morning owing to paralysis of the bowels, due to gangrenous appendix."

"An operation was performed this morning to relieve this. His condition, though very critical, is not hopeless."

The above bulletin, issued by Dr. H. A. Bruce and Dr. J. E. Elliott at 10:40 o'clock this morning at St. Michael's Hospital, indicates the danger in which the chief commissioner of the Dominion railway board lies. It is a danger which is confirmed by the anxious faces of his medical attendants, and their refusal to comment on his condition till after a prolonged consultation after which the written bulletin was handed out.

LONDON'S SHARE WILL BE \$100,000

This Is the Estimate Now of the City's Liability in Guarantee of Bonds.

London Will Be Amply Protected, President Reason, of the Board of Trade, Told The Advertiser.

It is estimated that the city of London's share of the bond issue for the proposed traction line from London to Port Burwell will be \$100,000, or one-third the amount of the guarantee of \$300,000, decided upon at the meeting here on Thursday. The remainder of the money needed to construct the road, variously estimated to cost from \$500,000 to \$900,000, will be raised by the sale of stock to private persons. It will be on a strictly business basis, and the delegates present on Thursday were optimistic that the whole amount needed could be raised without any trouble whatever.

"The amount has not been definitely decided upon," said Dr. Harr T. Reason, president of the board of trade.

"You may rest assured that the city of London will be protected. The bond issue to be guaranteed is but \$100,000 a mile, and the road, under any circumstances, would bring twice that amount under the hammer. If the city did guarantee \$100,000, it could readily be seen that the corporation was amply protected."

CAN'T BE AVENGED.
Detroit, May 2.—According to Immigration Inspector Frick of this city, no action can be taken in Detroit or in the United States to avenge the death of Anna Hales, the year-old Toronto girl who drank a fatal dose of poison here Wednesday after a trip to this city with a Toronto businessman, when told that she must return to her parents. The businessman is alleged to have fled to Canada, and it is said his offer is not extensible. The two Toronto friends of the businessman who are accused of aiding his escape also have returned to Canada. Arthur Hales, the father of the dead girl, returned to Toronto yesterday with the body.

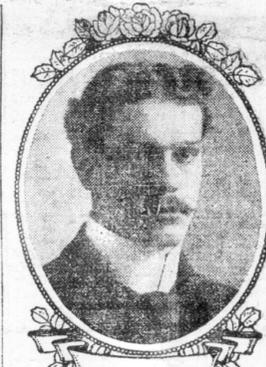

GREAT OPPORTUNITIES FOR THE SKILLED MECHANIC NOW

Principal Radcliffe, of Normal School, on Industrial Education for the Youth.

The step that is being taken by the board of education to secure information regarding the number of students who would attend a day industrial school, will be opened in London next September, is meeting with the hearty approval of the citizens, and judging from the number of inquiries received by Mr. H. B. Beal, the principal of the night school being conducted in the Alexandria school, and the applications which are coming in, there is no doubt that the need of industrial education is fully appreciated by the parents and students.

Principal Radcliffe, of the London Normal School, and until a few years ago principal of the London Collegiate Institute, is well qualified to speak on the subject. He says:

"The question of choosing an occupation is an anxious one for both the youth and his parents. Competition is very keen in professional life, and the monetary rewards are not so great as they once were. It seems to me that the skilled mechanic has great prospects. The demand for his services is great, and will be still greater. There are opportunities for advancement, and social respect for people who can do things. The bright boy who has a taste for mechanics should eagerly accept the course offered at the Industrial School. The first graduates of all institutions are likely to be assisted with great interest in their welfare."

MR. A. M. PIPHER.

GRENFEW APPOINTED

Will Be One of the Commissioners for Peace Arbitration.

Ottawa, Ont., May 3.—The Canadian Government has appointed Dr. Wilfrid Grenfell and Prof. Prince as commissioners to arrange with British and American commissioners for the celebration of the hundred years of peace between Great Britain and the United States.

CAN'T BE AVENGED.

Detroit, May 2.—According to Immigration Inspector Frick of this city, no action can be taken in Detroit or in the United States to avenge the death of Anna Hales, the year-old Toronto girl who drank a fatal dose of poison here Wednesday after a trip to this city with a Toronto businessman, when told that she must return to her parents. The businessman is alleged to have fled to Canada, and it is said his offer is not extensible. The two Toronto friends of the businessman who are accused of aiding his escape also have returned to Canada. Arthur Hales, the father of the dead girl, returned to Toronto yesterday with the body.

WEBSTER'S NEW ILLUSTRATED DICTIONARY COUPON

MAY 3

SIX COUPONS OF CONSECUTIVE DATES

Any Book by Mail, 22c Extra for Postage.

FARMERS ARE RUSHING THEIR SPRING WORK

Making Every Second Count Now to Make Up for Lost Time.

[Special to The Advertiser.]
Ingersoll, May 3.—The old saying, "Make hay while the sun shines," is certainly applicable to the farmers at the present time. Late in commencing their spring work, they have been making every second count since the advent of real spring weather this week. They have been on the land early and late and according to reports much work has already been accomplished. Weather conditions are now very favorable for seeding, and vegetation generally is showing a rapid growth.

Roller skating will be introduced here in the course of two or three weeks. Mr. George Mason is having a floor put in the Arena, and as soon as the work has been completed the roller season will be inaugurated. It is expected the opening of the Arena will take place on May 15, of this month, when a ball will be held under the auspices of the Daughters of the Empire. Roller skating will be a very interesting amusement in Ingersoll, and if it appeals to skaters with the same force as ice skating, it certainly will be very popular.

The committee of the "Caledonia Society" have all the details in connection with the Dominion Day celebration well in hand. The work has been receiving systematic attention, and the prospects are bright for a red letter day.

A building in course of construction on Charles street east, adjoining the garage of Staples & Brebner, will materially improve conditions at that particular point. The new building replaces one which has reached a state of dilapidation, and was anything but an ornament. The new building will be occupied by Mr. Robert Staples, as a carriage repair shop. Its dimensions are 24 by 38 feet, and it will be of red brick.

A happy event took place at the home of Miss C. Henderson, when she was surprised by about twenty-five of her young lady friends who tendered her a miscellaneous shower. The "collection" embraced many useful and ornamental articles, all of which testify to the popularity of the recipient.

AN EDUCATION AT NOMINAL COST

Splendid Up-to-Date Work, With Maps, Charts and Color Illustrations.

IS A RARE OPPORTUNITY

All Advertiser Readers Have Chance to Get This Invaluable Book.

One of the most interesting educational offers laid before the public is embodied in the new coupon plan by which a beautiful leather-bound copy of Webster's New Illustrated Dictionary may be obtained by anyone at a nominal cost.

This beautiful, handy, authoritative and instructive edition, elaborated with color-plate illustrations on a wide range of subjects, and embracing the latest census, with map, is the ideal dictionary for students of all ages, for the office or for the home.

The regular book store price for the full leather edition is \$4, and the book has been pronounced by experts the most handsome and useful volume ever issued at such a price. But it is now possible to obtain the same work, with all color plates and charts, for only 98 cents.

Cost is Merely Nominal.

Any person who clips six consecutive dates of dictionary coupons from The London Advertiser will be allowed the benefit of this truly remarkable rate.

The charge is simply to cover the cost of packing, express from the factory, checking, clerk hire and other necessary expenses incident to the handling of such great numbers of books as this offer will cause to be distributed.

Everyone is cordially invited to visit The London Advertiser office and examine the books. They themselves are the most convincing evidence of the liberality of this offer.

There are three different styles of binding. First, there is the \$4 full limp leather edition, flexible, printed on Bible paper, with red edges and rounded corners. Besides the regular contents, revised to date by the best English and American authorities the volume contains more than 600 illustrations, many of them on rich color plates, and 16 pages of valuable and official charts. All of this for six consecutive dictionary coupons and 98 cents.

Then there is the regular \$3 edition, which is exactly the same as the \$4 book, except that it is bound in half leather, with olive edges and square corners. It contains all the maps, charts, color plates, etc. A copy of this may be had for six consecutive coupons and 81 cents.

The third edition is \$2 a copy in the market. It is plain cloth binding, with the same paper and the same illustrations as the other editions, but with the color plates and charts omitted. This may be had for six consecutive coupons and 48 cents.

Any book ordered by mail will be 22 cents extra for postage.

Call and examine these books. They may be seen at The London Advertiser office.

Charles have removed to Toronto, where they will make their home in future.

While working in the mill yard of John Hawes, on Tuesday, Mr. Len Whitmore received a badly bruised leg by having it crushed between two logs.

Mrs. Strobidge has returned to her home in Detroit, after a pleasant visit with her parents here, Mr. and Mrs. James Scott.

W. C. Chambers, M. P. P., has returned from his western trip.

Rev. T. D. McCullough conducted the funeral services of the late Martin Engles, held here on Wednesday.

Mrs. Jos. Goodwin is visiting with her daughter, Mrs. Rason on the 4th of Minto.

Dr. Geo. McQuibban, of Plattville, visited recently with his parents here.

Mr. Charles Edgar has removed his music store to the store recently vacated by W. O. Ball. Mr. Robert Shortreed intends opening up a fish store in the building made vacant by Mr. Edgar.

The following citizens have purchased automobiles: Messrs. A. A. Stepler, J. J. Pritchard, J. S. Collison, Dr. T. R. Henry, Albert and Percy Dryden.

The assessment roll is now in the hands of the clerk, A. J. Stewart, and is open for inspection and all appeals against the roll must be in the hands of the clerk not later than May 14.

HARRISTON MEETING

Miss Edna Beatty is New President of Epworth League.

[Special to The Advertiser.]
Harriston, May 3.—The annual meeting of the Epworth League of the Harriston Methodist Church, the following officers were elected: President, Miss Edna Beatty; secretary, Miss Minnie E. Moore; corresponding secretary, Miss Bertha Darcy; treasurer, Miss Ida Stinson; first vice-president, Miss S. Bateman; second vice-president, Miss Edna Grills; third vice-president, Miss E. J. Smith; fourth vice-president, Miss A. Scott; fifth vice-president, Miss Bartlett; pianist, Miss Pridham.

Mrs. James Cummings is removing to Toronto, having rented his house on King street to Wm. Edgar.

Rev. Mr. West, of Bluevale, will preach in Guthrie Church on Sunday.

Mayor Spotton was in Owen Sound recently on business.

Among the local citizens who are entitled to the Fenian Raid grant are Messrs. George Brown, E. M. Reynolds and James Thomson.

Mr. and Mrs. John Garlig and son

When the Food Ferments

Chronic dyspepsia is essentially a disease of the intestines rather than of the stomach. The trouble is caused by the food passing too slowly along the alimentary canal and fermenting instead of being digested.

It will be found that the liver is sluggish and the bowels constipated. The fermenting food gives rise to gas, which crowds the lungs and heart, gives rise to belching wind, and to smothering sensations. The stomach gets sour, the food repeats and leaves sour taste in the mouth; you feel out of sorts and are unfit for work or pleasure.

By using Dr. Chase's Kidney-Liver Pills you get rid of this congested condition of the digestive organs in quick time. The liver is awakened at once, the bowels are regulated and the system is thoroughly rid of the poisonous waste matter which has been causing so much trouble.

SATURDAY NEWS OF THE SMALLMAN & INGRAM STORE

The straightforward news of a trustworthy store is of interest to nearly every newspaper reader, and the information contained in this store's daily announcements will prove to be of decided benefit to every one who will cultivate the habit of pausing at this page. Made of extra quality navy blue serge, double-breasted, three-button coat with wide, roomy knickers. We will guarantee these Suits to be the biggest \$5.00 value we have yet produced. See these Blue Serge Suits before paying more for boys from 8 to 15 years. Special, suit \$5.00

FINE WOOL, LINEN AND COTTON—Full range in all lines of Men's Summer Underwear, in two-piece or combination suits. Prices. 50c to \$3.50

RICHMOND STREET SECTION.

Get Your Summer Shirts Saturday \$1.25 to \$2.00 Qualities for 95c

The makers are practically done with summer stocks—it's our end of the season now. Yours comes last in the wearing of these Shirts. We have had several clearings this season already. The makers have found an outlet in this store for their stock clearings, and the men of this city know, too, the value of these sales. Saturday's lines are from the best maker in Canada of high-grade goods, and include a fine assortment of styles worth from \$1.25 to \$2.00, the balance of this season's output, which includes all sizes from 14 to 17½. Not a very big lot in this purchase, but the best quality yet offered at this price, and all this season's choicest patterns and colors. About 50 dozen in all. Sale price 95c

Come early for first pick. The \$2.00 Shirts will go to first buyers.

See Window Display, 95c. Regular \$1.25 to \$2.00.

Saturday Derby Day An Outclearing at \$1.00

Soft Hats, too. The season's outclearing will be made Saturday. We do not wait until the straw hat has made its appearance to get rid of the odds and ends in felt, and then wonder why people won't buy, but out they go now while you need them, for we feel we are pretty near the end of our season for these, while you have yet two months—May and June—to wear your felt. Brown and black, stiff and soft, \$2.00 to \$2.50 Hats. Out they go Saturday. Your pick for \$1.00

Cortese Orchestra
MAIN FLOOR BALCONY AND RESTAURANT
SATURDAY AFTERNOON.
STRAWBERRIES AND ICE CREAM, 10c.

Served for 10c, 3:30 to 5:30
SLICED TOMATOES, BREAD AND BUTTER
AND CUP OF TEA OR COFFEE, 10c.

LONDON, FRIDAY, MAY 3.

LOOK TO THE LAKES, TOO.

A correspondent of The Advertiser, signing himself "Sheet Anchor," is doing a public service by directing attention to the need of better life-saving regulations for vessels plying inland waters. He is in close touch with the conditions of navigation, and speaks from personal experience. Here is one incident he relates:

"A short time ago I was delegated to look into the conditions existing; this was principally owing to the fact that I advocated a reduction in insurance rates if a decent standard was set and maintained on board vessels in regard to lifeboats, buoys and bells. As Montreal has been on the front in leading itself over its happy condition, I will take it first."

"I boarded one of the steamers running between Montreal and Quebec. Several hundred passengers were on the same boat. Things called lifeboats were on the upper deck; they contained vegetables in a state of decay; junk and filthy, worn and broken rowlocks and plugs conspicuous by their absence. The so-called lifebelts were entirely rotten, and when I touched them they almost fell to bits, and their number was very much less than what the very lax regulations require. Another passenger and his wife noticed my actions. They asked me if I expected an accident was going to happen. I said I hoped not. We exchanged cards, and he said he was astounded that such a condition of things was permitted. I then looked up the captain; I asked him if he had lifeboats enough for all on board, and he replied that he did not know; few of them ever do. I asked him what would the passengers do if necessity arose to use the lifeboats, and he said he thought they could use the chairs, of which there were plenty!!! Now, the chairs happened to be made of sinking birch. But even if they were float, what chance would the passengers have for their lives, who would be compelled to use them?"

"Not only are life-saving provisions inadequate on many lake steamers, but there is no law against overload. Every season of lake navigation claims its scores of victims, and points an accusing finger at law-makers and vessel owners. As was said when the Bessemer went down, a Pimssell life is needed for lake carriers, as well as better life-saving equipment. The Titanic disaster has stirred the maritime nations to some sense of their duty to human life, and the inland waters of this continent ought not to be lost sight of in the greater interests of ocean navigation."

THE GRAND TRUNK'S HALF YEAR.

The printed report of the Grand Trunk Railway Company for the half year ending Dec. 31, 1911, has reached this country, and has a pathetic interest in that it is the last chapter in the story of Charles M. Hays' administration, and was submitted at the last meeting of directors which he attended.

The report shows that for the half year ending Dec. 31, 1911, there were gross receipts of \$4,135,775. The working expenses totalled \$2,110,870, leaving net receipts of \$2,024,905. Other revenues from various sources brought the total net receipts for the half year up to \$2,185,055, compared with \$1,081,256 in the corresponding six months of 1910. A table shows that the receipts were divided as follows:

Passengers\$1,239,376
Mail and express 206,563
Freight and live stock 2,541,350
Other receipts 148,546

The railway during the six months carried 6,812,734 passengers, an increase of 716,297, and 10,261,656 tons of freight, an increase of 1,371,492.

The chief engineer reports that the mileage of the railway has been increased to 3,545 miles in comparison with 3,536 miles in 1910. The total average cost for maintenance per mile was \$1,341.55. New steel rails had been laid to the extent of 42,709 tons in the six months.

In every department, the report would indicate, the prosperity of the company was of greater degree than before. While operating charges were larger, the increased receipts more than offset the advance.

THE CRIPPLED MAIL SERVICE.

It was the intention of the postoffice department under the late Government to make numerous readjustments of the eastern mail service so as to take the fullest advantage of the Flying Post. Letters posted in the afternoon and evening at many points east of Toronto would have been carried on the Flying Post to all parts of Western Ontario. When the train was inaugurated the last mail train from the east reached Toronto at 10 p.m., and it was not possible to effect wholesale changes in railway tables in a few months. But the department was working toward that end in order to further improve the mail facilities of this part of the province. The withdrawal of the mails from the Flying Post, as a piece of partisan spite, has upset the plans. In addition, thousands of letters posted in Toronto at night, hitherto carried on the Flying

Post, cannot be collected in time for the 11:20 p.m. train, which replaces it, and will fail to reach many Western Ontario points the next day. The Flying Post could have been made an air being made a growing convenience to nearly a million people in this district. The Government withdrew its aid in the hope of destroying it because it carried a certain newspaper with which the Postmaster-General was at odds. But the train will run as before, and thousands of eastern letters that could have been sent out from London on the early morning trains will not reach the city until nearly noon, and will not reach many points in Western Ontario the same day. This is what the district is paying for partisanship in the postoffice.

Haleybury has been made the county seat of Temiskaming, and will soon begin to worry about a site for municipal buildings. London is not the place for pointers.

The London and Lake Erie Traction Line has been a boon to London and the country traversed by it. The projected London and Port Burwell line promises similar results. There is no field so ripe for radial roads as the district around London.

Mr. Balfour complains that the powers of the Irish Parliament would be so hampered that good men would refuse to serve in it. This destroys the other Unionist complaint that the Irish Parliament would destroy the integrity of the United Kingdom.

The whole force of the Canadian Government is being exerted to separate two Hindu women in Vancouver from their husbands and send them back to India with their children. As the women are British subjects, the case suggests one of the problems of Empire, to say nothing of Christianity.

Thomas Hardy will be given the gold medal of the Royal Society of Literature. An honor like this means little to him in his old age, after a successful career. It would be hard to say whether his powerful pen has diffused more pleasure than gloom. Tess is a masterpiece, but a mighty mournful one. The doctrine that man is the sport of blind chance is not comforting.

"Though in the day of our strength backed by the British navy, we may have to be tricked into an independence, we may find rougher and less indirect methods employed if that navy is destroyed, and we are left defenceless at the mercy of the 'nation of ninety millions.'"—Montreal Star.

These are shameful words. The case for naval expenditure by Canada cannot rest on such grounds. The United States as a possible enemy has been ruled out of British naval calculations. If there were many newspapers or public men in the States talking as mischievously as the Montreal Star, those calculations might have to be revised.

THE FADDIST.

(George B. Staff in Lippincott's.)
 There was an old woman,
 And what do you think?
 She grew fat and healthy
 On victuals and drink.
 But now her digestion
 Is all in a riot,
 Because she got cranky
 And tackled a diet.

WORLD'S RECORD LINERS.

Line	Length	Gross Tons
Great Eastern (1858)	650	18,215
City of Paris (1859)	527.6	10,570
Kaiser Friedrich (1898)	584	12,000
Oceanic (1899)	485	16,900
Lusitania (1907)	790	52,000
Olympic (1910)	582	45,000
Titanic (1912)	523 1/2	52,310
Imperator (prob. 1913)	510	50,000

THE IDEAL CITY.

(Lowell.)
 What makes a city great and strong?
 Not architecture's graceful strength,
 Not factories that extend their length;
 But men who see the civic wrong
 And give their lives to make it right
 And turn its darkness into light.

What makes a city full of power?
 Not wealth's display or titled fame,
 Not fashion's loudly boasted claim;
 But women rich in virtue's dower,
 Whose homes, though humble, still
 Are great,
 Because of service to the State.

THE IDEAL CITY.

(Lowell.)
 What makes a city men can love,
 Not things that charm the outward eye,
 Not gross display of opulence;
 But right that wrong can not remove,
 And truth that faces civic fraud,
 And smites it in the name of God.

But Justice, Love and Brotherhood.

LIGHT.

(F. W. Bourdillon.)
 The night has a thousand eyes,
 The day but one;
 Yet the light of the bright world dies
 With the dying sun.

The mind has a thousand eyes,
 And the heart but one;
 Yet the life of a whole life dies
 When love is done.

KILL THE BRUTE.

(London Opinion.)
 Diner—Waiter, kindly remove this egg.
 Waiter—What shall I do with it, sir?
 Diner—I think you'd better write its neck.

MISS-CALCULATIONS.
 (Brooklyn Life.)
 "I am 35 years old," announced a woman of 56 at tea last week.
 "And I am 26," said a woman older. Then turning to a girl of 17, who stood near by, she asked: "How old are you, Ethel?"
 "Oh," replied Ethel, "according to the present reckoning, I'm not born yet."

THE LAND OF LETTERS
 (By Special Arrangement With the Winnipeg Telegram.)

Yesterday I said that I found the atmosphere of Anne Sedgwick's new novel, "Tante," to be hot and oppressive. This is due to the superfluous talk about art and music and such topics. Literature is represented by a sickly young aesthete, a follower of Walter Pater, a man whose very name is enough to condemn him, for he is called Mr. Claude Drew. Madame Otraska made much of him because he had written poetry and essays. "Artemis Wedded" was by him; that was poetry; and "The Bow of Ulysses," that was prose. Claude, the exquisite one, is described in this little etching: "Mr. Claude Drew was suave and elegant, and his high, stocklike collar and folded satin neckwear gave him a somewhat recondite appearance. With his dark eyes, pale skin, full, smooth, golden hair, and the vivid red of an advancing Hapsburgian lip, he had the look of a young French dandy drawn by Ingres." A few lines further on we are informed that Claude's luminaries were "large, jaded eyes, lustrous, yet with the lustre of a surface rather than of depth; dense, velvety, and impenetrable." You are not surprised to learn that this disciple of Pater, this velvety-eyed son of Apollo, deserted his wife and eight children. When he begins to purr about the function of art, no wonder the temperature of the room goes up rapidly, and you feel that you must move nearer to the open window. But we must not blame Anne Sedgwick for reminding us that there are plenty of Claudes in the world. You find them riding on the top wave of an effete civilization, and they are the persons that inspire healthy-minded people with disgust for literature and art.

I suppose there must be some egotism in every writer or painter or musician, but every artist should recognize the fact that the grace of humility and self-effacement is a beautiful virtue. You cannot help being interested and amused as you contemplate the enormous egotism of a Byron, a Victor Hugo, or a Wagner, but you know you never could have lived with those monsters of self-conceit. And when we descend to the small fry, the little whippersnappers, perhaps of our own circle, who can never forget themselves for five minutes at a time, are they not the most tiresome people we know? Literary persons, great or small, who mouth platitudes about art and talk superciliously of newspaper English, always makes me long for a seat near the open window. They are oppressive. The healthy writer, be he great or small, famous or obscure, is he who is conscious of his own limitations, who forgets those books or articles which he has produced, and lives for the work of today and tomorrow. Fitzgerald says somewhere that Sir Walter Scott "did not give a curse for what he had written." I believe that is why the world loves old Sir Walter. He was human and healthy. And much as the public hates the modern journalist, I believe he comes within hailing distance of Sir Walter in his hatred of cant and egotism. When once he has delivered himself of his article or of his day's work, he straightway proceeds to forget all about it, and the public forgets it, too. Consequently, we find a freshness and directness about most newspaper writing which atones for much looseness of construction and roughness of phrase. Walter Pater, the Oxford exquisite, and Claude Drew, the ill-placed dandy of literature, find no place among those who are near to the great heart of humanity.

RAN FULL SPEED INTO ICE FIELDS
 Despite Warnings the Titanic Did Not Slow Down, Even After Dark.
 BRITISH INQUIRY OPENS

The Seamen's Union Allowed to Participate in the Investigation.

[Canadian Press.]
 London, May 2.—The Attorney-General, Sir Rufus Isaacs, addressed the wreck commission which is investigating the loss of the White Star liner Titanic to-day, setting forth the facts and an understanding of the Government, and laying special emphasis upon the evidence that a speed of 21 knots was maintained after the warnings of ice ahead had been received, right up to the moment of collision.

The whole of the forenoon session was taken up with this statement, which brought out little that had not already developed at the earlier inquiry at Washington. The attendance of spectators was small. A group of admirers, survivors of the sea tragedy, who arrived here on the Lapland from New York, and had been subpoenaed to testify, were objects of interest.

When the court opened, Lord Mersey, who heads the commission, granted permission to President Lewis of the Seamen's Union, and to an attorney for the Imperial Mercantile Guild to participate in the proceedings. The union is a new organization, composed of 4,000 Southampton sailors. Two hundred and twenty-eight of its members were employed on the Titanic, and of these only 170 were saved.

The inquiry is to extend over several weeks, and will be devoted largely to technical details. The court today displayed the greatest interest in the warnings of the disaster. Captain Smith and the Titanic on the day of the disaster, April 14, Lord Mersey inquired particularly on this point, finally asking: "Am I right in supposing that she ran right into the region where the ice was after a warning that ice was there had been received?"

"Yes," replied the attorney-general. Sir Rufus said that the Titanic's capacity was 2,547 persons, and that she carried 34 lifeboats, 2 of which collapsed. The Titanic carried 1,517 passengers and 812 persons in her crew. She sank after 2 1/2 hours, and a number of watertight doors designed to still float in the event of any two adjoining compartments being flooded would have floated to the top of the bulkheads would be 2 1/2 or 3 feet above the water.

WALKS OFF THE CAR, FALLS UNDER WHEELS

Grand Trunk Yardman Meets Death in Mimico Yards.

[Toronto, Canadian Press.]
 Toronto, May 2.—While walking along the top of a train on the transfer between Mimico and York this morning, J. H. Wray, a grand trunk yardman, walked off the end of a car and fell beneath the train, receiving injuries from which he died in a few minutes. He was one of the ninth car from the locomotive, and it is believed that he was at the sudden slackening of speed caused him to lose his balance. He was 50 years old, and had been employed by the Grand Trunk for the past 21 years. Five children, the eldest of whom is a boy of 19 and the youngest 4 years old, survive.

A MOVE FOR PEACE

Mexican Congress Likely to Deal Directly With Rebels.

[Washington, May 2.—The appointment by the Mexican Congress of a peace commission to treat directly with the revolutionists for a cessation of hostilities, is regarded by state officials as very significant. It is believed by them to indicate that the Mexican Congress, wearied of the long-drawn-out insurrection, has determined to act on its own initiative in endeavoring to terminate the war. No indication has reached here as to whether President Madero has given his approval to this action on Congress.

FACE WAS LITERALLY COVERED WITH PIMPLES.

Four Different Doctors Did Her No Good.

Two Bottles of BURDOCK BLOOD BITTERS Cured Her.

Bad blood is directly the cause of the face breaking out in pimples, and it is impossible to eradicate them unless you put your blood into good shape. Burdock Blood Bitters is compounded from roots, herbs, barks and berries, and is without a doubt the best remedy procurable for the purpose of driving all the blood impurities out of the system. Mr. Geo. E. Miller, Clavering, Ont., writes: "Last fall I was very much troubled with pimples. My face was literally covered with them. I went to four different doctors, but they could do me no good. One day a friend advised me to use Burdock Blood Bitters, so I got two bottles, and before I had taken all the first one, the pimples had nearly all disappeared, and by the time I had taken all the second one the pimples had disappeared completely, thanks to Burdock Blood Bitters. I would advise anybody who is troubled with any blood trouble to use Burdock Blood Bitters. Manufactured only by The T. Millburn Co., Limited, Toronto, Ont."

CUSHMAN WAS FINED FOR RAISING A RIOT

Also Bound Over in Sum of \$200 to Keep the Peace.

George Cushman, who on Tuesday night last made the village of Melbourne fully realize that local option commenced on Wednesday, appeared before Squire Chittick this morning. He pleaded guilty on two charges, the first, that of assaulting Hugh Thornley, and the second, of carrying concealed weapons.

On the first he was bound over to keep the peace for one year and furnished bonds amounting to \$200 to that effect. On the second charge he was fined \$5 and the revolver was confiscated. He paid the costs of the court amounting to \$14.75, and by agreement will also pay \$15 for the rent of the automobile that took the county constables to Melbourne on Tuesday night.

Crockett—Talbot. Miss Maggie S. Talbot, daughter of Mr. W. H. Talbot, of London Junction, was married to Mr. Sidney C. Crockett, of Dorchester, by Rev. G. N. Hazen, on Tuesday, April 30. They were attended by Miss P. Duncan, of Dorchester. After the ceremony, which was of a quiet nature, they left for their home in Dorchester.

CARRIES OLYMPIC MAIL.

New York, May 3.—The steamer Libania, which arrived today from Liverpool and Queenstown, brought 5,210 sacks of mail, which includes the mail of the Olympic, which put back to Southampton on account of a strike of the stokers and firemen. This number of sacks is about the quantity of mail carried by a steamship at Christmas.

Make the Liver Do its Duty

Nine times in ten when the liver is right the stomach and bowels are right. CARTER'S LITTLE LIVER PILLS.

GENUINE must bear signature.

WATER COMS. TO TAKE OVER THE BUILDINGS

Ald. Richter Had a Conference In Regard to the Fair Grounds.

There was a conference between Chairman Pocock, of the water commission, and Ald. Richter today regarding the care of the buildings on Queen's Park. Ald. Richter took the position that the buildings are now the care of the commissioners, since the parks have been turned over to them, and in consequence, they will have to pay the insurance.

After some discussion, Chairman Pocock asked Ald. Richter to send a communication to the board, outlining what the commissioners were to do in the matter, and they would comply.

"We will look after the buildings if we are required to do so," said Mr. Pocock. "The insurance rate is \$1.55 per \$100, and we also keep a man to look after them, and I think we can improve on that rate somewhat."

Ald. Richter will prepare the communication, submit it to the finance committee this afternoon, and if satisfactory send it on to the commissioners.

Come Here for Holeproof Hosiery
CHAPMAN'S
 Another Suit Special
\$10.98

We are going to sell \$15, \$17.50 and \$20 Suits tomorrow for \$10.98. These are the actual values of these handsome Suits, which we purchased at a special price. Every garment is this season's models, and the identical styles that are being sought after. Coats are lined with satin polonaise. Come tomorrow and see the beautiful materials and the thorough manner in which they are tailored.

CYNTHIA GREY'S CORRESPONDENCE

Has Money to Sell.
Dear Miss Grey: Being a constant reader of The London Advertiser, I would like very much if you could answer the following questions: 1. Where could one obtain information on the value of old coins? 2. What could I use on sweet peas to keep the insects off? Thanking you in advance, I remain
A READER.

Seven Problems.
Dear Miss Grey: I will you please tell us how to write a letter of condolence to a boy who has just lost his father? 2. How long after the death should the letter be written? 3. Is it wrong for a girl of sixteen to have a boy for a girl of sixteen to evening, and should she let him kiss her? 4. We are both fair with blue eyes. What colors are becoming? How long should our dresses be? 5. Is it right to accept a boy's picture when he is going away? 6. Should girls always accept invitations from boys, or should they sometimes refuse? 7. Hoping to see these soon in print as we have to write that letter of condolence, we remain,
A LITTLE LOVE BEES.

THE NEW COIFFURE.
In the latest coiffures stiff lines are religiously avoided. Hats and collars are tabooed entirely—the only permissible aid in building up the coiffure is the lightest and airiest of foundations when the high effect is desired. In every way possible soft outlines are emphasized.
The collars are loosely twisted; puffs are long and without stiffness.

Advertiser Patterns

9218—Ladies' Tucked Shirt Waist.
A simple tucked waist is always well liked. The one here illustrated is made with two tucks over the shoulders. The model is easily made and always smart. It requires no trimming, but may be made in a combination of materials. In lightweight satin may be used for its development. The pattern is cut in sizes—22, 24, 26, 28, 30, 32 inches bust measure. It requires 2 1/2 yards of 27-inch material for the 32-inch size.
A pattern of this illustration mailed to any address on receipt of 10 cents in silver or stamps.

PATTERN DEPARTMENT OF THE ADVERTISER.
Please send above-mentioned pattern, as per directions given below, to:
Name.....
Street Address.....
Town.....
Province.....
Measurement—Bust..... Waist.....
Age (if child's or misses' pattern).....

CAUTION.—Be careful to enclose above illustration, and send size of pattern wanted. When the pattern is best measure, you need only mark 22, 24, or whatever it may be. When in waist measure, 22, 24, 26 or whatever it may be. If when misses' or child's length measure, only the figure representing the age, is not necessary to write "inches" or "years." Patterns cannot be returned, but less than one week from the date of order. The price of each pattern is 10 cents in cash or in postage stamps.

great loss in the death of his father—You wish to extend your deepest sympathy to him. This could form the keynote of your letter. 2. They are usually sent within the fortnight following the bereavement. 3. If your parents are willing that he should come, it is not at all wrong. As to pretty ought to tell you that a girl kiss her, and usually lessens their respect for her. 4. Mixed tweeds, and shades of blue and green. About six inches from the floor. 5. Yes. 6. If you want to go, and mother is willing, if you cannot accept say so. 7. Your question is a little vague. Stories of the out-door world, history, biography, folklore tales, and fiction by standard authors, would afford form suitable reading matter for 16-year-old girl.

Buying a Home.
Dear Miss Grey: My mother and I are thinking of buying a house in London and making our home here. If we get a real estate man or firm to charge us for doing it? I see by The Advertiser that the rate of taxation in London is 23 mills. If we owned a house for which we paid \$2,000, would we have to pay 23 mills in the \$2,000? If a house costing that amount would be assessed for that much, what very much for the information. Sincerely yours,
K.

Programme of National Council

Afternoon.
Meeting of executive committee.
FRIDAY, MAY 31.
Morning.
Committee of arrangements.

The Saving Habit
Most women dread house-cleaning; and it is little wonder, if one could see into their attics and closets. They have the "saving mania," and have hoarded it all their lives; and many a one, especially she who has stayed in the old home, has not only her own, but the accumulation of generations of women before her.
Their pleas "being saving and having things when they are wanted." But see the piles of old papers, and magazines, and books that are never looked at, but that might have given so helplessly out of date. The broken furniture, never to be mended, that would make some less fortunate woman happy. The discarded clothing, and hats, and shoes that are hung away until attacked by moths and mildew, which might have done so much good. The trunks and boxes of half-worn quilts and blankets, not good enough to use and too good to throw away. And besides all these things that might have given so much comfort, are quantities of utterly useless trash.
How can any selfish woman be so selfish, and so self-abusive at the same time, as to keep what benefits her in no possible way, and yet makes her so much extra work every year? Why not dispose of things to the best possible advantage as they become useless, and save half the work of the spring overhauling as well as do a great deal of good?
But some people do not do it. They do not. They say, and it is a half-truth, "it is always a good thing to have things that you can give to the poor who put away so many things because they can afford to replace them with something better, when their more fortunate sister would use them to shreds. Her good fortune accounts for her good fortune, not the saving for her good fortune."
Why not try for a while to "save" comfort and suffering and the time and labor required to care for the contents of the attic?—Women's Home Companion.

ROYAL YEAST MAKES PERFECT BREAD

ROYAL YEAST MAKES PERFECT BREAD
CAUTION.—Be careful to enclose above illustration, and send size of pattern wanted. When the pattern is best measure, you need only mark 22, 24, or whatever it may be. When in waist measure, 22, 24, 26 or whatever it may be. If when misses' or child's length measure, only the figure representing the age, is not necessary to write "inches" or "years." Patterns cannot be returned, but less than one week from the date of order. The price of each pattern is 10 cents in cash or in postage stamps.

For a Youthful Figure

The lines of this frock of brown linen are new, there being a decided flare at the lower edge of the skirt. A banding of linen insertion is used in a way which is quite novel, and pongee showing bright pink flowers in natural colors. A pink pongee girdle is worn.

Hats for All the Children

□ We have a very large assortment of children's hats; all sizes, shapes, colors and prices.

GRAY'S Dry Goods Millinery Ready-to-Wear GRAY'S

RAISE SCHOOL AGE AND TEACH PRACTICAL THINGS, HER THEORY

MRS. WILLIAM B. OWENS.

Vocational training of the young in public school will solve a big economic question, according to Mrs. William B. Owens, Chicago, whose husband is supervisor of the Chicago Normal School.
"Thousands of children," she says, leave school at fourteen, when they have only gone as far as the fourth or fifth grade.
"A great number of these do not know anything about work. They are not prepared to meet life's problems nor to solve the question of living.
From this class many girls go to questionable houses. From this class many boys join the ranks of the criminals.
"The school age limit should be raised to at least sixteen. The solution of the difficulty is the vocational school as part of the public school.
"The child leaving school at fourteen, unprepared for anything is naturally picked up by the big employer who gives out pitiful wages. The result is worn out children and a serious economic condition."

The Birthday Calendar
IF THIS IS YOUR BIRTHDAY
A journey or change of business will be fortunate for you and will free you from many unhappy occurrences.
Those born today will be socially successful and fond of travelling and change. In business they will be fortunate and will enjoy luxurious living.
Has it occurred to those clever milliners that their judicious mixtures will enable us to economize substantially in hats, since one green, blue and red creation will combine amiably with any number of frocks.

THE WORK

on PATTERSON'S TORONTO CHOCOLATES is unsurpassed. In every stage of their manufacture the utmost care is used to insure extreme cleanliness, accuracy of measuring and weighing, and every means to produce the best possible goods.
The result—well.
Come in and taste them.

Goes Farther
Three drops of Shirriff's True Vanilla go as far as six to eight drops of ordinary vanilla. Shirriff's is the real extract of Mexican Vanilla Beans. Aged until its strength, bouquet and flavor are fully matured. Try a bottle

A TOO COMMON TRAGEDY.
We have careful thought for the stranger; And smile for the sometime guest; But oft for our own bitter tone.
Though we love our own the best, Ah, lips with the curve impatient, Ah, brow with the shade of scorn, 'Twere a cruel fate were the night too late To undo the work of the morn.—Mr. E. Sangster.

TO IRON APRONS.
A linen apron is ironed on the right side to make it smooth and glossy. The order of ironing is as follows: Iron first the bands and bib until dry. If the apron is long, the gathers should then be ironed across from selvage to selvage, and lastly, the lower part of the apron, being careful to keep the hem straight.
A muslin apron is ironed according to the same order, but less it is

WILL BAKER, SOUTH LONDON MAN, LOOKS GOOD TO BRANTFORD FANS

Manager Kane's Squad Had Good Work-Out—Pitchers Appear To Be In Good Shape—Martin Killilea Reports at Hamilton and Completes Manager Lee's List.

Brantford, May 2.—At last they have arrived! The baseball squad is here and everyone is talking ball, from the kids who play truant to see the men practice, to the old veterans who have seen the game for years.

Five pitchers were out yesterday, and all were given a chance to lumber up, though Amby kept the men lobbing up straight easy ones.

Tasker in Condition. Dick Tasker, the hero of many a game last year, was the first man to get a chance in the box.

Boyle is rather light, but from his showing in the field yesterday he ought to be useful to the club this season.

Baker Looks Good. Baker, the London boy, was the fifth pitcher. He has a perfect build and a nice pair of shoulders.

Some To Be Let Out. This lot will be reduced by the end of the week when one of the infielders, an outfielder and one of the pitchers will be let out.

TROUBLE OVER FURSDONN. Guelph, May 2.—Star Mason, one of the most promising pitchers in the league last year, has reported to the Guelph club, and was out at practice this morning.

With the Candidates at the Woodbine. Toronto, May 2.—The work of the King's Plate candidates was the feature of yesterday's trials at the Woodbine.

HENS BEHIND IN WORK. New High Records in Food Prices Expected at New York. [Canadian Press.]

Byron and London. Free Telephone Service Likely in the Next Few Weeks. [Special to The Advertiser.]

Busy on the Land. Dorchester: Farmers Have Quite a Lot of Work to Do Yet. [Special to The Advertiser.]

The Allen Trial. Witnesses Tell of the Shooting Up of County Court House. [Canadian Press.]

Britton Plays with Moore. San Francisco, May 1.—Pal Moore proved a mere plaything at the hands of Jack Britton, of Chicago, in their lightweight battle here last night.

Make a Note of the time you save in one day by riding a bicycle IN ONE DAY.

THE time saved between house and business on each trip during the day—on the trip home at night.

Multiply that time by the days in the week and the weeks in the season. The result is almost unbelievable.

If your time is worth anything it can be made to be worth more with a

"Perfect" Bicycle. The "PERFECT" is so easy running that riding is a delight. It is so strongly built, so handsomely proportioned and finished that it is the best value and most satisfactory machine made.

Come in and get a catalogue and see both the Cushion and Rigid Frame Models.

LONDON HORSES WIN AGAIN AT TORONTO

Third Day of the Toronto Horse Show Was a Notable One for Enthusiasm.

Toronto, May 3.—The third night of the Horse Show was notable even more than any of the previous nights for the large attendance and for the enthusiasm displayed by the onlookers at the performances of the horses.

Jumping Competition. Twenty-seven of the best jumpers in the country competed in the open jumping contest, which was the last event of the evening and was won by Hon. Clifford Sifton.

The trotting class provided some real excitement for the onlookers. As the contestants were flying around the ring before the eyes of the judges, Lulu Mazzia, driven by Mr. Watson for Miss Wilks, collided with Dress Parade, driven by Mr. T. A. Crow.

London horses figured in the following events: Class 27, amateurs only, middleweight hunters—1, Elmhurst, Hon. Clifford Sifton; 2, Sir Edward, Hon. Adam Beck.

Class 18, high steppers for King Edward Hotel challenge cup—1, Earl Grey, A. Yeager, Smeaton, London; 2, Sir Thomas, Hon. Adam Beck; 3, Lady Norfolk, Mrs. Adam Beck.

DELAWARE LINE WAS CONSIDERED. London and Lake Erie Met Representatives From District Affected.

PROSPECTS ARE BRIGHT. Party Left This Morning for St. Thomas and Will Go Over Proposed Line to Aylmer.

The directors of the London and Lake Erie Traction Company will go over the proposed extension of the line from Lambeth to Delaware.

On Thursday evening there was a conference between the representatives from Delaware and the directors of the company—Messrs. T. H. Purdon, K. C. John Purdon, John Milne, W. K. George, and George H. Woods.

However, after some discussion it was decided to go over the line proposed, and hold another conference, at which a formal decision will be made.

Messrs. T. H. Purdon, John Purdon, John Milne, London; W. K. George, Geo. H. Woods, Toronto, and Manager Moser, of the traction company, left this morning for St. Thomas, where they will be met by Mayor Price, Mr. A. E. Horton, J. Bell, and other members of the council of St. Thomas.

This will first inspect the traction line, and new buildings in St. Thomas, later taking automobiles and traversing the route of the proposed extension to Aylmer.

Butter in sight is not likely to balance with the public demand. The price for potatoes would go to 35 cents, but it is not for Irish and English importations.

Free Telephone Service Likely in the Next Few Weeks. [Special to The Advertiser.]

Byron, May 3.—The Byron Telephone Company, Limited, connecting with the Bell system at Byron, where the sixteen party lines centralize, are negotiating with the Bell Company for a flat rate to London, and it is expected that in the course of a few weeks Byron subscribers will have the privilege of free "talk to London."

Dorchester: Farmers Have Quite a Lot of Work to Do Yet. [Special to The Advertiser.]

Dorchester, May 3.—There is still a good deal of spring work to be done in many parts of this district, and farmers are more than pleased to see weather conditions that will enable them to make up for the long delay they have experienced.

The usual parties of spring anglers are beginning to put in their appearance. Yesterday a number of London fishermen were here and spent the day in a search for trout and other fish.

With the Candidates at the Woodbine. Toronto, May 2.—The work of the King's Plate candidates was the feature of yesterday's trials at the Woodbine.

of The London Advertiser

Requires That You Simply CUT OUT and

Present Six Coupons

Printed elsewhere (daily), clipped on consecutive days, and the expense bonus amount here set opposite any style selected (which covers the items of the cost of the packing, express from factory, checking, clerk hire and other necessary expense items).

Reduced Illustration of the \$4.00 Book. This Dictionary is not published by the original publishers of Webster's Dictionary or by their successors. It has been revised and brought up to the PRESENT DATE in accordance with the best authorities from the greatest authorities, and is published by the well-known SYNDICATE PUBLISHING CO., of N. Y.

BOSSSES VS. PEOPLE THE ISSUE, SAYS "T. R." Roosevelt Carries His Fight for Presidential Nomination Into Maryland. [Canadian Press.]

Salisbury, Md., May 2.—Col. Roosevelt carried his fight for the presidential nomination into Maryland today, beginning his campaign in the state at Salisbury.

In his speech here Col. Roosevelt said he felt he had the right to come to this part of the country to make his appeal, as he believed the present contest to be greater than a mere party struggle, and that it was one in which he was entitled to the support of the men of all parties.

The colonel left Salisbury by special train for the remainder of the day's tour, which will take him through Eastern Maryland to Wilmington, Del.

Witnesses Tell of the Shooting Up of County Court House. [Canadian Press.]

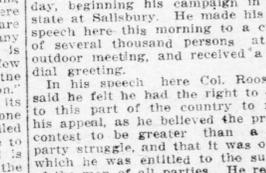

Wytheville, Va., May 3.—Witnesses for the commonwealth in the Floyd Allen case today continued to tell of the shooting up of Carroll County court house. The prosecution is endeavoring to prove not only that the accused shot and killed Commonwealth Attorney Boster, but that he and his fellow classmates had previously conspired to murder court officers and jurors if he should be convicted of the offence for which he was about to be sentenced to a prison term when the shooting began.

PRESENTATION TO A TEACHER. St. Thomas, May 4.—John P. Cook, assistant principal of Wellington street school, severed his connection with the local teaching staff on Wednesday and left yesterday for Swazburg, a village near Woodstock, to become principal of the school in that place. On his closing day, Mr. Cook was presented by the students in his class with a pair of gold cuff links, and by his fellow-teachers, with a gold-headed umbrella. Mr. Cook takes Monday next. He will be joined at his new home there in a week or so by Mrs. Cook, who will spend the interval at her home in London.

NEW YORK PARADERS INSULT THE FLAG. Torn Down and Trampled in New York Demonstrations. New York, April 3.—The Stars and Stripes were torn down and trampled under foot, and a red flag substituted during a fierce fight at a May Day meeting of the Socialist party and affiliated unions in Union Square last night. That a serious panic did not ensue is believed to have been due to the fact that the Socialist party, on the outskirts of the crowd did not know what the trouble was. Responsibility for the tearing down of the flag is disclaimed by the Socialists. They assert that members of the Industrial Workers of the World committed the act. The Socialist representatives on the platform appear to have done their best to protect the national colors.

The big American flag was finally torn down and hurled to the ground. Miss Caroline Dexter, a member of the Socialist party, a tall, muscular woman, showed her way to where the fallen banner lay. "Men like you should be shot," she cried as she gathered up the flag. She met no resistance, and carried the flag home with her. With nothing but red banners to decorate the platform, the meeting proceeded, but the program had to be given up, and the speakers were mostly from the ranks of the Industrial Workers of the World.

EMIL BOAS DEAD. New York, May 3.—Emil Boas, resident director and general manager of the Hamburg-American Line, died early today at his home in Great Neck, Conn., of pneumonia. He had been ill since last Saturday, and grew rapidly worse last night. Mr. Boas was 68 years of age.

EMIL BOAS DEAD. New York, May 3.—Emil Boas, resident director and general manager of the Hamburg-American Line, died early today at his home in Great Neck, Conn., of pneumonia. He had been ill since last Saturday, and grew rapidly worse last night. Mr. Boas was 68 years of age.

"It Certainly Is A Treat To Get Sugar Put Up This Way"

As you know, Redpath Extra Granulated Sugar is refined under conditions of superlative cleanliness. Every precaution is taken to ensure absolute purity. This new 5-Pound Sealed Carton preserves that purity—brings the sugar to you just as it left the refinery, untouched by human hands.

The Redpath Package protects you fully from inferior sugars which are sometimes sold as

In the Carton you are sure of getting five pounds full weight of genuine Redpath Sugar, which for over half a century has been acknowledged as Canada's best. Besides, you get a handy box in which to keep it.

If you prefer to buy a considerable quantity at a time, take a case of 24 Five-Pound Cartons. The case takes up little room, and the packages are so convenient in the pantry. Of course your Grocer will still sell you Redpath Extra Granulated in barrels or in 20 or 100 pound bags if you wish. Buy it in original packages and be sure you get the genuine Redpath.

Canada's Finest Sugar At Its Best.

THE LAST VOYAGE OF THE DOGAL MARBL BY RANDALL PARRISH

"Very well, then," I said, "you have chosen your bed, now you lie in it. Mr. De Nova, get the stokers below and start the fires. We'll push her for it hard. You men stand by for a double funeral in an hour; you have a dead man for and aft. Now stop lively, my hullies."

A WEAK, ACHING BACK CAUSED HER MUCH MISERY

Those who have never been troubled with kidney trouble do not know the suffering and misery which those afflicted undergo. Weak, lame or aching back comes from the kidneys, and when the kidneys are out of order the whole system becomes deranged.

Y. M. C. A. TENNIS CLUB ORGANIZED

Membership is Placed at 40, and Prospects Are Very Bright. At a meeting held in the Y. M. C. A. parlors there was a very large attendance of the men of the association interested in tennis, and the Y. M. C. A. Tennis Club for the season of 1912 was organized.

THORNDALE MEETING

Mrs. R. Stephenson Was Elected President of Women's Institute. [Special to The Advertiser.] Thorndale, May 2. — The Women's Institute held its monthly meeting yesterday at the home of Mrs. James Angus. There was a very good attendance, considering the busy season of housecleaning and sewing.

STRICKEN SUDDENLY

Mrs. Mary McIntosh, of Petrolia, Sustained Stroke of Paralysis. [Special to The Advertiser.] Petrolia, May 2.—Mrs. Mary A. McIntosh, widow of the late Andrew Smith, died very suddenly yesterday at her home on Wingfield street. Mrs. Smith had suffered from paralysis during the past winter, but had recovered sufficiently to be about as usual. About 4 o'clock she was suddenly stricken, and died in about an hour. These children are at home: Robert Smith, bookkeeper for the Canadian Oil Refining Company; Miss May, of the public school staff; and Miss Ida, of the public school staff at Fort William. The funeral will be held on Friday at Hillside Cemetery.

Nothing remains but to commit their bodies to the deep, and may God have mercy on their souls. [To Be Continued.]

Stay In Western Ontario!

May Day Finds New Opportunities Unfolding on Every Hand--
Delaware Farmers Want Radial Road to Give Access to Markets

SCIENTIFIC FARMING ON THE INCREASE

Opening of Active Season Finds Spirit of Healthy
Unrest Stirring Western Districts.

[By Arthur C. Bowman, Advertiser Correspondent.]

May Day, 1912, finds agricultural enterprises advancing throughout the whole western province. Settlers from England and the United States are flowing into the border counties, land long unused except for grazing purposes, is being converted into truck gardens and apple orchards, and on every hand are found ample evidences of increased appreciation of home opportunities, of greater interest in scientific methods as applied to the tilling of the soil, and the kind of unrest and stirring of ideas which makes for progress and prosperity. There is scarcely a district in the Western Peninsula where some new crop, some agricultural innovation of some departure from old methods has not been tried out with gratifying success. In North Middlesex and Huron counties the growing of potatoes and increased attention to orchards has achieved much for the farmer's pocketbook.

Much Land Redeemed.

In Lambton County attention to the study of soil and an appreciation of local advantages has resulted in the conversion of much land formerly regarded as but little better than waste into thriving young orchards. Near Thedford land covered with shale rock, long considered hardly worth its taxes, has advanced in price from \$23 to \$60 per acre because of the discovery that peach trees grew and flourished amazingly when rooted in this seemingly inhospitable soil. A well-directed publicity campaign has turned the eyes of thousands of people to the fertile acres of the Ontario border and has brought home to thousands more the greatness of home opportunities.

In Essex County the work of conserving the old apple orchards is being entered into with an enthusiasm never before witnessed. Even in the palmy days before the advent of the San Jose scale no such numbers of men were interested in the apple industry. So great has been the demand for chemicals used in spraying that the available supply has been exhausted. The amount of money put upon the trees in the shape of various sprays, preservatives and "tree medicines" will mount into the thousands of dollars, to say nothing of the amount of labor employed in pruning, scraping and cultivation. Indications are that the crop of 1912 will be among the largest in history.

Land Companies Busy.

No less than six land syndicates are said to be in operation in different parts of the western province. They are engaged in buying up every available acre of land which is for sale, draining, fencing, improving and finally disposing of the regenerated farm to settlers from the United States, who are attracted by the relatively low prices, combined with the intensively fertile soil. Along the Thames River English companies have settled several colonies of truck farmers, who promise to make the low lying flats one vast kitchen garden.

Never were there better farm buildings, and never was there such keen, intelligent discussion of crops, soils and returns. Bank accounts are the rule, and business methods, according to men who should know, are fast displacing rule of thumb and guesswork in farm management. Real estate dealers report a slight but steady trickle of settlers from the West who have made money and are coming back to settle down in the old home country, or who have become convinced that the opportunities of the Banner Province are better than anything the West can offer.

The Western Ontario tobacco crop was bigger than ever, and in spite of lower prices the amount of money distributed among the growers was something staggering. Successful experiments in the more northern counties have seemingly opened up a new field for the cultivation of the weed and prospects for this year's crop seem good.

What's the matter with Western Ontario, anyway?

Delaware's Sulphur Springs Are of Medical Value

Chemical Analysis Shows the Waters of Middlesex
Village Equal to the Famous Wells
of Carlsbad.

[Special to The Advertiser.]

Delaware, May 1.—In connection with the agitation for a radial railway between this village and London, there is a movement for the commercial exploitation of Delaware's sulphur springs. These springs, which contain an exceptionally large percentage of sulphur mixed with other materials, were discovered some years ago, during oil operations. They have continued to flow steadily summer and winter ever since the underground reservoir, which feeds them, was tapped by the drill. So high is the percentage of sulphur that a twenty-five cent piece will be turned black within half a minute after being placed in the water. An analysis by experts of the Western University shows the chemical constituents of the flow to be identical with the famous medicinal waters of Carlsbad, in Germany.

Several interests have considered the idea of erecting a sanatorium to make use of this water, but the project has always been abandoned as unprofitable because of the lack of transportation facilities. With the convenient access afforded by a radial railway it is thought however, that such an institution might find ideal conditions for the care of the sick, together with an unfailing supply of curative water.

Money in "Spuds"

Middlesex farmers are finding a bonanza in potatoes even at present prices. Last year's potato crop was in many cases the best on the farm, and in Delaware and Caradoc where tubers are extensively grown, many large profits were realized.

There's money in "spuds" even at low prices, as is shown by the record of Dr. James Baird, who is reported to have cleared \$600 from 10 acres at only 60 cents per bushel. William Wyatt got \$180 at \$1.80 per bushel from a 1-acre patch. There are many other instances nearly or quite as good, and with the prices of potatoes still availing, the outlook is good for large returns from this year's crop.

Spring Stirrings

Essex County is to have a publicity campaign. County and municipal bodies have subscribed money for the publication of a pamphlet advertising the county's resources.

The demand for seed corn grown in Western Ontario this year exceeded the supply.

Thousands of fruit trees are being set out in the border counties.

Land prices in some sections have advanced more than 20 per cent, during the past twelve months. Real estate dealers report a general upward trend and increased activity in farm sales.

Basket factories are working to capacity in anticipation of the fruit season, and tile manufacturers are in many instances behind in their orders because of extensive drainage operations.

The Associated Advertising Clubs of Ontario towns and cities will confer with a view to secure proper publicity for home advantages.

Interest in radial railways is being manifested in various parts of the province. Several projected lines promise to open up many square miles of territory to more complete development.

DELAWARE AFTER RADIAL LINES

Two Clergymen Lead in Better
Service to Middlesex
Village.

Enthusiasts Believe Electric Cars
Would Bring Growth and Prosperity—Beautiful Home Sites

[By The Advertiser Commissioner.]
Delaware, May 1.—Two clergymen are heading the march of progress in Delaware, the Middlesex village which has outgrown its stage routes, and is beginning to cry for electric cars. They are Rev. Francis Leigh, rector of the Anglican parish, and Rev. F. O. Nichol, of the Presbyterian Church. Serving the spiritual interests of the community from their pulpits, on week days these men find time and thought for the benefit of the community. In their capacity as members of the board of trade, these men are engaged in furthering the "Stay in Ontario" movement by working for better transportation facilities in their home village.

Have Outgrown Stage.
The villagers of Delaware have outgrown the ancient stage which takes them to London and the outside world and are clamoring for a radial railway. Such a railway, say its advocates, would transform Delaware from a quiet village into a wide awake suburban community filled with beautiful homes. Farmers along the road would prosper and the city merchants would be able to sell them more goods, while the local trade would also prosper. The potatoes, eggs, garden truck, straw, and other farm products grown near the city would find a new and quick outlet to the markets.

Fully convinced of the truth of these assertions, both clergymen and host of the businessmen of the community are boosting with a will, and it looks as if their ambition must soon be realized, either by an extension of the London street railway's line from Springbank or a branch of the London and Lake Erie traction line connecting at Lambeth.

Continued on Page Eleven.

MIDDLESEX FARMERS GETTING INTO FIELDS

A May Day Auto Trip Through Ontario's Cattle
Ranches—Orchards Show Care.

[By The Advertiser Commissioner.]

A May Day automobile trip through portions of Middlesex and Huron Counties showed, so far as the city men were able to judge, many indications of a busy and prosperous season. Not a great deal of ploughing had yet been done, but in many places spring work was already far advanced. Seeding was in progress on some farms, while on others the sod lay untouched by the ploughshare.

In the great majority of cases, however, the work of breaking up the land was just beginning. Most of the fall wheat seen by the newspapermen looked healthy, and gave promise of a good crop, while in the vicinity of Delaware the car rolled past dozens of old orchards which showed evidences of careful pruning, scraping and cultivating. In the more northerly parts of Middlesex there were even more common.

Herd of Steers.

Going north from Strathroy numerous bunches of cattle were encountered, and further along the roads were literally full of steers being driven to pasture after their long sojourn in winter quarters. Most of the animals looked healthy and in good condition, and farmers along the route stated that more cattle were being fattened this

year than ever before. This part of the county had suffered from Western immigration to a large extent. In fact, Fred Nettleson, a farmer living near Strathroy, informed the Advertiser that not much more than half the available acreage was farmed, largely because of the lack of labor. Instead the farms of those who move away are rented or bought outright by the remaining farmers and used for grazing purposes. Many large farms, he said, were rented entirely for the grazing they afforded.

"There is no question but that it is more profitable to farm 100 acres than to graze it," Mr. Nettleson told The Advertiser.

Lack of Labor.

"But there is very good money in fattening cattle when you have not labor to work the farm. My father and I recently got hold of 200 acres from people who had left the country, and we shall use it largely to feed cattle. Those boarded-up houses you saw along the road were cases of the same sort. In each instance you will find that most of the land is being pastured simply because it is the only thing to do with it. Under present conditions it is more profitable to devote a large portion of a large sized farm to cattle than attempt to work it short-handed."

MERCHANTS SAY GROWTH WOULD FOLLOW RADIAL

Delaware Would Attract Farmers and City Men—
A Great Egg Production.

[By The Advertiser Commissioner.]

Delaware, May 1.—"Large numbers of retired farmers who now go elsewhere to make their homes, would move in here if we had better communication with outside places," said a Delaware merchant to an Advertiser representative.

At present it is necessary, when going elsewhere, to either keep a horse or take the stage. The stage trip to Lambeth and London is long and disagreeable, especially in cold weather. In order to get into London any other way, we have to drive either to Lambeth or Mount Brydges to make connections.

Nearly all the farmers between here and London drive into that market, as it is. If we had a railway, not only these men, but also many who live at or near Melbourne, Southwold, Enderburg, Middlesex and other places would bring their products to the city for market. The number of people who would use such a road is certainly large enough to justify its construction.

Then, too, there is the shipping proposition to consider. Most of our farmers near here have small acreage and devote considerable attention to garden truck and poultry, which they sell in the city. From this district alone there are about 2,000 dozen eggs handled every season.

In fact, egg production is one of the most important phases of agriculture in this district.

A FRESH CALF.

[Special to The Advertiser.]
Windsor, May 2.—Albert Evans, an Essex farmer, is the owner of a cow which recently gave birth to a calf with five legs, the fifth one of which is located between the two front ones, is fully

Colds Most Fatal At This Season

This is the time of year when colds seem to turn into pneumonia or quick consumption and to prove more generally fatal than at any other season. With many people a cold follows another during the winter months until finally the human body becomes so run down that it can no longer resist the attack of the germs which cause lung trouble.

The best rule is to never allow a cold to get farther than the throat, and this you can do by the prompt use of Dr. Chase's Syrup of Linseed and Turpentine. Do not wait for chest colds and bronchitis to develop. Keep this well-known medicine as a constant on hand in case of emergency. Dr. Chase's Syrup of Linseed and Turpentine loosens a cough, aids expectoration, and soothes and heals the irritated and inflamed membranes

Try PURITY—the every-purpose flour

for bread, rolls, buns, biscuits, layer cakes, short cakes, griddle cakes, fruit cakes, pies, puddings, cream puffs, tarts, ginger snaps

IN the making of everything for which flour is required, PURITY FLOUR gives admirable results. Among thousands of cooks it is spoken of as "The every-purpose flour."

No matter what you may desire to make, use PURITY FLOUR. The results will give you a higher degree of satisfaction than you've ever experienced when ordinary flour was used.

There is added deliciousness to the flavor,

extra quality in every ounce of the bread, or the cake, or the biscuits, or whatever you may make with PURITY FLOUR.

PURITY FLOUR gets its finer flavor, greater strength, extra nutritiousness and higher-quality

from the high-grade portions of the hard wheat berries. All the low-grade portions are excluded during its process of milling. PURITY FLOUR will cost you slightly more than ordinary flour. But it's worth more. It costs more to make it.

The present huge demand is your proof of how firmly PURITY FLOUR has established itself among the thousands who place quality before price.

PURITY FLOUR

"More bread and better bread" FLOUR "More bread and better bread"

Reminder: On account of the extra strength and extra quality of PURITY FLOUR, it is necessary, for best pastry-results, to add more shortening than you are accustomed to use with a "blended" or Ontario wheat flour. Add more water when making bread.

Add PURITY FLOUR to your grocery list right now.

MET AT CLANDEBOYE

Women's Missionary Society of Exeter District Heard Good Reports. [Special to The Advertiser.] Clandeboye, May 2.—The seventeenth annual convention of the Exeter district of the Women's Missionary Society was held in the church here yesterday. The attendance was very large, and the programme was long. There were three sessions, morning, afternoon and evening. The surrounding auxiliaries showed great improvements in the mission work during the past year. A very interesting address was given by Miss Virgo, a re-

turned missionary from China, on the customs of the Chinese. Solos were given by Mrs. (Dr.) Orme, of Lucan, and Mrs. E. Blee. Music was rendered by the Clandeboye choir and the Granton auxiliary. In the evening an address was given by Miss E. McKenzie, of London. Refreshments were served in the basement of the church in the afternoon and evening. It was arranged to hold the next convention in Parishill. Mr. Thomas Rosser, of Denfield, is spending a few days with Mr. E. A. McKenzie. Miss E. McKenzie, of London, is spending a few days with friends here. Mrs. M. Love, who has been visiting

relatives in Blyth, has returned home. Miss J. Cunningham is spending a few days with friends in London. **MARVELLOUS RELIEF FOR CORNS, BUNIONS, SORE FOOT LUMPS.** Five corns on five toes for five years. Was he lame? You bet. That man was a chump—sure he was. One quarter spent on Putnam's easy em. In good style—lifts them out quick—without pain, and never fails. This is why Putnam's is superior to the cheap imitations that afford the dealer more profit. Use only "Putnam's" Extractor. Sold by druggists

A PECULIAR CASE Stolen Knives Were Found Under the Floor of Hen House. [Special to The Advertiser.] Thamesford, May 3.—A curious case of petty thieving came to light here recently. Mrs. Kennedy, when turning over a plank in her hen house found one dozen pearl-handled pocket knives, and on investigation found Kester & Son's name on a card. The thief apparently took them and forgot where they had been hidden, as they were tarnished, as if they had been there for some time.

MITCHELL CALLED INTO CONFERENCE

Former Head of the Miners Helping to Bring About a Settlement.

AGREEMENT IS EXPECTED

Miners May Convene to Pass Judgment on Tentative Agreement.

[Canadian Press.] New York, May 3.—John Mitchell, former president of the United Mine Workers of America, and now vice-president of the American Federation of Labor, participated today in the deliberations of the anthracite mine workers' representatives over the course to be pursued in dealing further with the operators' increased pay, recognition of the union, and other changes not included in the tentative agreement rejected yesterday by the joint conference of operators and miners. Mr. Mitchell was closeted for over an hour with William Green, of Ohio, representing President John White, of the miners. The conference between Mitchell and Green was also attended by the district presidents of the anthracite miners in the three affected districts. None of the miners was willing to discuss the nature of the negotiations, but each expressed the opinion that an agreement of some sort with the operators would be reached.

Immediately upon the adjournment of the conference, the executive boards of the miners' organization in the three anthracite districts, comprising 22 members, held a meeting. Mr. Green said that the object of the meeting was to decide whether the miners would hold a convention to pass upon the tentative agreement or ask for another conference with the operators. It was expected that a meeting would last well into the afternoon. John Mitchell declared that he had absolutely nothing to say regarding the situation.

ITALIANS VICTORIOUS AFTER FIERCE FIGHT

Turkish Positions to the East of Tripoli Have Been Captured.

[Canadian Press.] Paris, May 3.—General Reissol, commanding the Italian forces to the east of the city of Tripoli, has, according to information received here through an Italian source, attacked and captured the Turkish positions at Lebda after a lively combat. The Turks resisted fiercely and lost 200 men killed. Eight Italians were killed and 57 wounded. Lebda is the name of the locality bearing the ruins of the ancient town of Lepcis Magna. It is situated 60 miles east by south of Tripoli on the Mediterranean coast. Lebda, which is also known by the name of Khoms, was formerly surrounded by strong walls, and with its suburbs was about four miles in circuit. The city was then divided by a river, which fell into the ancient port at the entrance to which were two strong forts. The ruins of the town are now half buried in sand. The walls include the remains of magnificent structures in marble, porphyry and granite.

PETITIONS FOR RECOUNTS

Taft's Managers Want Them in Nearly All Cities and Towns.

[Canadian Press.] Boston, May 3.—The filing today of petitions for primary recounts may delay until June the issuing by the Secretary of State of the certificates of election to the Republican and Democratic delegates to the Chicago and Baltimore conventions. Petitions for recounts were filed by the Taft managers in nearly all the cities and large towns. Recounts were also asked in many of the Congressional districts, and by the Roosevelt delegates in the eighth and tenth districts where the press returns gave Taft the delegates by narrow margins. No statewide effort was made by either the press or the campaign managers to tabulate the vote for alternates, but in this city returns from 200 of the 297 precincts showed that the Taft alternates at large received 11,548, while the alternates who were designated as "for Roosevelt" polled

Badly Ulcerated Leg

Zam-Buk Cured Her When So Bad She Had to Use Crutches.

For varicose sores, bad leg or chronic ulcers, without equal as a healer. A proof of this is just to hand from Montreal. Mrs. T. Edwards, of 164 Amherst street, writes: "Some time ago a bad sore broke out on my left leg near the ankle. For a week or two I did not need it, but it got so bad that I could hardly walk. I sent for our doctor, and he told me that I would have to lay up with the wound. I did so for three weeks. At the end of that time the ulcer healed a little, but I could only move about by using crutches. "The sore then broke out badly, and the doctor told me that the only thing that would cure it would be an operation, and that I should have to lay up for a year. This, I knew, was impossible, as I had a family to attend to. "My son had come and cut on his finger by using Zam-Buk, and he advised me to give this balm a trial. I did so, and in less than a week's time it gave me wonderful relief. It stopped the pain which had been so bad that many nights I did not get a wink of sleep. In a very short time the wound was so much better that I had no more sleepless nights, and was also able to move about and do my work. I persevered with Zam-Buk, with the result that the wound is now perfectly cured, and the limb is as sound and strong as ever. To any person suffering from ulcerated sores, I would say, "Try Zam-Buk." Zam-Buk is just as good for piles, abscesses, boils, scalp sores, blood poison festering wounds, cuts, burns, scalds, bruises, eczema, eruptions, and all other injuries and abscesses. All druggists and stores, 50c box, or Zam-Buk Company, Toronto, for price. Refuse harmful substitutes and imitations. Have you tried Zam-Buk Soap? 25c a tablet.

10,327. Yet the Roosevelt delegates at large polled 834 more votes than those placed to President Taft. Taft won the preference in Boston by 510 plurality.

7TH REGIMENT CHAPTER WILL GIVE PRESENTS

Ladies to Take Part In Interesting Event on Monday, May 13th.

The Seventh Regiment Chapter, Daughters of the Empire, are taking a part in the presentation of prizes to the men of the regiment, which the officers intend to make on the evening of May 13, in the Armories. The chapter is giving a prize to the best shot in the tyro match, and also one for the man bringing in the largest number of recruits during the year. At a meeting held on Wednesday afternoon, the ladies of the chapter made arrangements to serve refreshments during the evening to the prize-winners, and also to members of the regiment with their friends. The mayor and aldermen will be invited, and Col. Hodgins and other staff officers will also be present.

At this meeting, the Seventh Regiment Chapter decided to hold a musical in the Armories on the afternoon of May 9. Committees were arranged as follows: Convener of all committees, Mrs. A. A. Campbell; music committee, Mesdames Watson, Brown, Mc Crimon and Cl. T. Campbell; team-room committee, Mesdames Mortimore, W. D. I. Wright and C. W. Belmont.

Musical numbers are being prepared by Mrs. McKillop, Mrs. Arthur Little, Mrs. Jordan and others. Members of Daughters of the Empire Chapter in St. Thomas and Strathroy have been invited to attend.

NEW GROUPING OF GOVT. BUILDINGS

Landscape Artist Planning an Improvement at the Capital.

Ottawa, May 3.—Work on plan for the improvement of Ottawa as far as grouping government buildings is concerned, was begun this morning by S. G. Todd, landscape artist of Montreal, who has been retained by the Government for this purpose. New departmental buildings are needed by the Government, and the sites have been secured, but no construction work will be commenced until the report on grouping has been made.

FIREMEN ON EASTERN SYSTEMS DEMAND INCREASE IN PAY

Companies Say Expenses Would Increase \$30,000,000 Per Year on Lines.

New York, May 2.—The firemen employed by eastern railroads have followed the example of the engineers and made a demand for an increase in pay. This is what the railroad managers are waiting for the trainmen, conductors and other employees to step forward and ask for more money. The difference between the railroads and the Brotherhood of Locomotive Engineers have been left to a board of arbitration to adjust.

One of the demands made by the locomotive firemen is that on coal-burning locomotives in freight service a fireman and an assistant fireman shall be employed. This would mean the employment of 14,000 additional firemen. As the railroad managers figured it out last night, the demands of the firemen, if granted, would mean a yearly increase of between \$25,000,000 and \$30,000,000 at the expense of the railroads. The engineers asked for about \$8,000,000. Chief Carter, of the firemen, was notified today that the conference with railroad managers would hold a meeting as soon as possible and consider the demands of the firemen.

VICTIMS OF TITANIC WRECK INSURED FOR BIG SUMS

Life Insurance Companies Must Pay Out About Three Millions.

New York, May 2.—The latest reports from the life insurance companies as to their losses by the Titanic disaster are published in the current issue of the Insurance Press. With a few exceptions all the figures are taken from the direct reports to the press. The total loss on the part of those companies who have made up their figures comes to \$1,881,111. The Northwestern Mutual Life heads the list with \$500,000. Next comes the Mutual Life with \$246,000, the Equitable Life with \$175,000, the Pennsylvania Mutual \$125,000, the Travelers \$100,000, the Pacific Mutual \$100,000, the Manhattan \$84,500, the Metropolitan Life \$82,000, the Massachusetts Mutual Life \$50,000, the Prudential \$50,000, the New York Life \$47,351, the Germania Life \$39,000, the State Mutual of Worcester \$30,000, the Provident Life and Trust \$27,000, the Aetna Life \$25,000, and so on down to the Dominion Life of Waterloo, which like most of the Canadian companies, lost but a few thousands.

The largest insurance carried by a single passenger aboard the Titanic was on the life of Herbert P. Goff, of North Dakota. His life was insured for \$148,750. The next largest was that of John B. Thayer for \$50,000. Mr. Thayer, 100, carried \$129,000 worth of accident insurance. Some of the larger life policies and the names of those carrying them follow: Edgar J. Meyer, New York, \$50,000; Geo. D. Wick, Youngstown, Ohio, 47,500; Benjamin Guggenheim, New York, 25,000; Charles M. Hays, 25,000; Wm. B. Silver, Duluth, 22,500; Walter M. Clark, Los Angeles, 20,000; Isador Straus, 20,000; Wm. T. Stead, London, 10,000; Major Katt, 2,000; Henry Sutcliff, Jun., Buffalo, 1,125. The Metropolitan Life Insurance Company paid the first claim on the life of a policy-holder lost on the Titanic, on the life of Henry Sutcliff, Jun., of Buffalo.

Cattle and Produce Markets For Other Markets See Page Eleven

PRODUCE.

TORONTO, May 2.—Local trade quiet, with Ontario wheat in demand from millers. Sales were made today at 11.05, outside. In Winnipeg wheat futures lower in sympathy with Chicago. Cakes generally heavy. Flour—Winter wheat, 90 per cent patents, are quoted at \$4, at seaport, and at \$4.10 for home consumption. Manitoba flours are firm, as follows: First patents, \$5.70; second patents, \$5.20; and strong bakers', \$5, on track, Toronto. Manitoba Wheat—The market is quiet, with prices weak. No. 1 Northern is quoted at \$1.18, on track. May ports, all-rail; No. 2 Northern, \$1.15, and No. 3 at \$1.12, on track. Bay ports, all-rail. No. 1 Northern quoted at \$1.10, Bay ports, No. 2, at \$1.07, and No. 3 at \$1.04. Bay ports, Ontario Wheat—The demand is good with prices very firm; offerings continue light. No. 2 white, red and mixed are quoted at \$1.03, outside. Peas—Trade quiet, with No. 2 shipping peas, quoted at \$1.25, outside. Oats—Receipts limited and prices unchanged. Car lots of No. 2 Ontario quoted outside at 49c to 50c, and No. 3 at 47c to 48c, outside. No. 2 Ontario 1 1/2c to 2 1/2c, on track, Toronto. No. 1 extra W. C. feed, 52 1/2c, all-rail, and No. 1 feed, 51 1/2c, all-rail. Barley—The market is quiet, with prices nominal in the absence of offerings. Corn—The market is firm. No. 3 American yellow quoted at 83c, track; Bay ports, all-rail. Rye—There is nothing doing, with prices nominal. Buckwheat—Market quiet, with prices unchanged at 70c to 72c, outside. Bran—The market is unchanged. Manitoba bran, \$25, in bags, Toronto freight. Shorts, \$27.

CHICAGO, May 2.—Despite a private forecast that the Government report would suggest a winter crop 72,000,000 bushels less than a year ago, the wheat market today sagged because of a lack of buyers. Closing prices ranged from last night's level to 3/4c to 1/2c below. Latest trading left the market lower 1/2c to 3/4c lower to 1/2c advance. Oats unchanged to 1/2c off, and provisions strong out from the same as 24 hours before. The market for Midwestern weather in the winter wheat-growing sections was a factor in today's market. Between the opening and the close July fluctuated from \$1.09 1/2 to \$1.10 1/2, with last sales at \$1.10 1/2 to 10 1/2, a loss of 1/2c net. Corn ruled a little firmer early on account of rain in Illinois, but relaxed when country sales from Iowa increased. July ranged from 77 1/2c to 78c, closing 3/4c to 5/8c lower at 77 1/2c to 77 3/4c. A little weakness characterized oats as a result of unloading by pit longs. Outside bids touched for July proved to be 53 1/2c and 54 1/2c, with the close 1/2c under last night at 54c even. Provisions averaged lower because of large receipts of hogs. WINNIPEG, May 2.—Quiet trading was the feature of the wheat market today, and prices opened 1/2c to 5/8c lower on May and the daily options. Following the opening there was a further decline of 1/4c to 3/8c in sympathy with the wheat cables, finally closing 3/8c lower for all months. The cash demand was extremely poor, and prices 1/2c to 1c lower, with offerings fairly heavy and export trade inquiry reported the quietest for the last six months. Oats were also slow, with bids steady. Five-a-shed, 40c, and inspections for the week ended April 29 were 4,000 cars, against 1,889 last year, with the month of April seeing 14,248, against 7,024 last year, being more than double. Cars to the number of 500 are being inspected daily, showing the heaviest receipts for some time. Cash grain: Wheat—No. 1 northern, \$1.07 1/2; No. 2, 95c; No. 3, 92c; No. 4, 88c; No. 5, 85c; No. 6, 82c; No. 7, 78c; No. 8, 75c; No. 9, 72c; No. 10, 68c; No. 11, 65c; No. 12, 62c; No. 13, 58c; No. 14, 55c; No. 15, 52c; No. 16, 48c; No. 17, 45c; No. 18, 42c; No. 19, 38c; No. 20, 35c. Corn—No. 1 yellow, 77 1/2c; No. 2, 75c; No. 3, 72c; No. 4, 68c; No. 5, 65c; No. 6, 62c; No. 7, 58c; No. 8, 55c; No. 9, 52c; No. 10, 48c; No. 11, 45c; No. 12, 42c; No. 13, 38c; No. 14, 35c; No. 15, 32c; No. 16, 28c; No. 17, 25c; No. 18, 22c; No. 19, 18c; No. 20, 15c. Oats—No. 1 white, 52 1/2c; No. 2, 50c; No. 3, 48c; No. 4, 45c; No. 5, 42c; No. 6, 38c; No. 7, 35c; No. 8, 32c; No. 9, 28c; No. 10, 25c; No. 11, 22c; No. 12, 18c; No. 13, 15c; No. 14, 12c; No. 15, 8c; No. 16, 5c; No. 17, 2c; No. 18, 0c; No. 19, 0c; No. 20, 0c. Rye—No. 1, 85c; No. 2, 82c; No. 3, 78c; No. 4, 75c; No. 5, 72c; No. 6, 68c; No. 7, 65c; No. 8, 62c; No. 9, 58c; No. 10, 55c; No. 11, 52c; No. 12, 48c; No. 13, 45c; No. 14, 42c; No. 15, 38c; No. 16, 35c; No. 17, 32c; No. 18, 28c; No. 19, 25c; No. 20, 22c. Barley—No. 1, 45c; No. 2, 42c; No. 3, 38c; No. 4, 35c; No. 5, 32c; No. 6, 28c; No. 7, 25c; No. 8, 22c; No. 9, 18c; No. 10, 15c; No. 11, 12c; No. 12, 8c; No. 13, 5c; No. 14, 2c; No. 15, 0c; No. 16, 0c; No. 17, 0c; No. 18, 0c; No. 19, 0c; No. 20, 0c. Clover—No. 1, 12c; No. 2, 10c; No. 3, 8c; No. 4, 6c; No. 5, 4c; No. 6, 2c; No. 7, 0c; No. 8, 0c; No. 9, 0c; No. 10, 0c; No. 11, 0c; No. 12, 0c; No. 13, 0c; No. 14, 0c; No. 15, 0c; No. 16, 0c; No. 17, 0c; No. 18, 0c; No. 19, 0c; No. 20, 0c. FRIDAY, MAY 3, 1912.

SHOULD FIGHT STREET-RAILWAY

Water Commissioner Stevenson Made Fiery Speech In East London.

THE PROGRESSIVES MET

Question of Whether or Not the Company Use Niagara Power Does Not Enter Into the Matter.

The troubles with the street railway company were not forgotten last evening by the members of the East End Progressive Association at their annual at home in Society Hall, the present conflict between the municipality and the corporation being spoken of during the course of the social gathering.

"We should fight the street railway company to a finish, and give them no quarter," Water Commissioner Dr. H. A. Stevenson declared. "They should be compelled to live up to the law as individual citizens are. The question of whether or not they are to use hydro-electric power should make no difference. We are made to obey the by-laws, and while I am very sorry to speak severely of the street railway company, I say no more than the magistrate would say to any one of us should we disregard all legislation. An efficient service must be provided, and if not the city stands prepared to take over the system. I would pay \$125 for the stock quite readily."

President Reginald Christian presided, while an excellent musical programme was provided. Mr. James Lee sang several "Cocor" numbers that were really good. The songs were of the Albert Chevalier type, and made a hit. The entertainment consisted of musical selections by George W. Turnbull; song, G. H. Balch; comic recitation, Mrs. Case; songs by Vulcan Male Quartette; recitation, Miss Winifred Oates; piano duet, Miss Pearson and Lily; song, Mr. E. R. Doughty; song, Mrs. E. Lee, and song by J. J. Holbrook. Miss Edith McBride acted as accompanist.

MR. H. A. BRAZIER NAMED ASSISTANT

Toronto Man Appointed to City Engineer's Department By Board of Works.

NEW WALKS TO BE LAID

Main Streets Are To Be Improved at Once—Contracts for Supplies Were Let.

At the regular meeting of the board of works, held on Thursday evening, Mr. H. A. Brazier, at present connected with the city engineer's department, Toronto, was recommended for the position of assistant city engineer, to succeed Mr. I. F. Willistie. The salary to be paid was fixed at \$1,500. There were a number of applications, but Mr. Brazier was the choice of City Engineer Wright and the committee.

New walks on Dundas and Richmond streets, in the business section, will be laid at once. The committee recommended that walks be put down by a two-thirds vote of the council on west Richmond, Garding to Dundas; east Dundas, Richmond to Talbot, and east Richmond, Dundas to King. This will give the council power to put down new walks on both sides of Richmond from Fairlawn to York, and on both sides of Dundas, from Wellington to Ridout. City Engineer Wright stated that work would be commenced probably next week, and rushed through as rapidly as possible. City Engineer Wright stated that F. Hutchinson, of West London, refused to take his team out on the night of the threatened flood in West London, and asked for instructions in disposing of his case.

"File the communication," declared Ald. Coies. "We will know what to do with him when he asks for work from the city."

Tenders for Supplies.

The tenders for supplies for the year were opened, and contracts awarded as follows: Casing, London Foundry Company, if unless scale of wages is paid; not, the Vulcan will be given the contract; hardware, James Cowan & Co.; blacksmith's supplies, James Cowan & Co. and James Wright & Co.; lumber, Dymen, Baker & Co.; cement walks, Geo. Alexander, unscrubbed river, Ward 1, 18-foot and 24-inch, W. H. Bann; curb and gutter, W. H. Bann; gravel, screened river, Ward 1, W. J. Quick; Ward 2, George Alexander; Ward 3, W. J. Quick; Ward 4, George Alexander; pit screenings, Ward 1, W. J. Quick; Ward 2, 3 and 4, W. J. Quick.

Those present at the meeting were: Ald. Robinson (chairman), Ald. Moore, Ald. Coies, Ald. Blandford, City Engineer Wright and Secretary F. Hughes.

LOBO SCHOOL.

Following is the report of S. S. No. 1 for March and April: Class V.—Alice Jackson 636, Willie Ferguson 590, Gordon Carmichael 510, Basil Bowman 521. Class IV.—Alda Walsh 410, Lillias Jackson 378, Joy Graham 274, Jessie McIntyre 314, Edna Walsh 129, Lizzie McNeil 167. Class III.—Fred Mahon 334, Fred Hick 322, Sam McNeil 259, John McNeil (absent). Class II.—Rosy Hick 421, Viola Bowman 366, Ralph McIntyre 359, Lizzie Sells 286, Myrtle Beech 216, Elizabeth Wile 222. McKellar.

COMMISSION TO SETTLE MATTER

Water Commissioners Will Ask Hydro-Electric Body to Fix Price of Street Lighting.

CITY SAYS ONLY \$25,000

Water Commissioners Want \$30,000 to Light the Streets—Water Supply Increased.

The hydro-electric commission will be asked to settle the dispute between the city council and the water commissioners relative to the cost of street lighting in London. At the meeting of the commissioners held on Thursday afternoon, General Manager Glaufitz informed the members that official notice had been received from the council that they would pay only \$25,000, not \$30,000, as demanded by the commissioners for street lighting. Mr. Glaufitz read a section of the hydro-electric commission to the effect of giving the hydro-electric commission the power to regulate the rates.

"The way to settle the question would be to allow the hydro-electric commissioners to do it," said Mr. Glaufitz. "Experts will decide what is right and what is wrong."

"We want to settle the question," said Chairman Pocock. "There is such a difference between us and the city council that an appeal to the hydro-electric commission is the only way to dispose of the matter."

Many Technicalities.

Mayor Graham explained that there would have been no trouble had Mr. Glaufitz given Ald. Richter the information he desired in the beginning. Although he was arguing from a totaly different standpoint than Mr. Glaufitz, there is no question but that he would have soon discovered where he was wrong, had he been allowed to go into the figures as he had a right to do.

"The subject bristles with technicalities," explained Chairman Pocock. "It was not a question for an accountant, but for expert electricians."

"Ald. Richter is amenable to reason," continued his worship. "He would have soon discovered where the mistake was."

After some further discussion, it was decided to allow the matter to go to the hydro-electric commission for settlement.

Manager Glaufitz reported that he found the supply at Springbank decreasing, and on investigation discovered many of the conduits filled with roots. The system had been partially gone over, with the result that the supply had been increased 300,000 to 400,000 gallons.

Water for the G. T. R. Chairman Pocock and General Manager Glaufitz will take up the matter of supplying the Grand Trunk Railway with water. For some years the company have not been customers of the city, but with the present large supply of water it is thought that they can be accommodated.

Commissioner Marr, chairman of the parks advisory board, reported that he had received applications from many men for the position of park superintendent. Mr. W. J. Dinger, of Detroit, was very highly recommended. The commissioners will hold a special meeting to decide whom to appoint.

Clerks in the waterworks office will work from 8 o'clock until 1 o'clock on Saturdays during the summer. The change was made on the suggestion of Chairman Pocock.

On motion of Mayor Graham, it was decided to ask the council to construct a sidewalk on the north and east sides of Victoria Park.

Those present at the meeting were: Chairman Philip Pocock, Commissioners John Marr, J. H. Chapman, Dr. H. A. Stevenson, Mayor Graham, General Manager Glaufitz and Secretary E. Hill.

10,000 IS NOW UNITED STRENGTH

Canadian Socialists Claim That Present Merger Has Effected This.

A MAY DAY MEETING

Speakers included Rev. G. W. Dewey, Messrs. H. B. Ashplant and Fred W. Daly.

The members of the Social Democratic party conducted their May Day celebration Wednesday, concluding in the evening with a meeting in Albion block, at which addresses were delivered by Mr. Henry B. Ashplant, Rev. George W. Dewey, of Empress Avenue Methodist Church, West London, and Mr. Fred W. Daly.

That the merging of the Canadian Socialist Federation with the Social Democrats gives the united party a strength of 10,000, was the announcement made by Chairman Sales. The May Day celebration, he declared, is the outgrowth of a movement among the laboring classes, while Labor Day of September had been given by the capitalistic administration.

The profit system, whereby manufacturers are made wealthy at the expense of the great majority, or the consumers, should be taxed out of existence, was the opinion expressed by Mr. Daly. The British coal strike was reviewed, and the speaker predicted that more serious trouble is brewing.

An Aggressive Campaign.

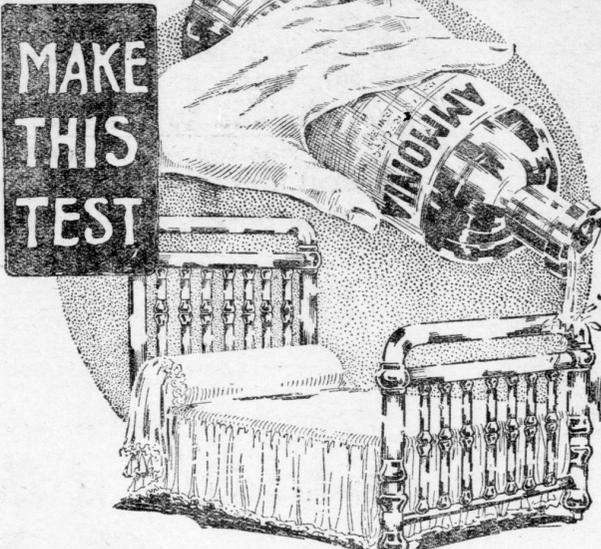

An aggressive industrial campaign should be carried on among the workmen of London, said Mr. Ashplant, and in this manner the influence of the socialists could be used to great advantage in obtaining the establishment of municipal departments for the distribution of milk, bread and other supplies.

The socialists' salutation of "Comrade" appealed to Rev. George W. Dewey, who stated that he had never before attended a socialist's meeting. Great forces, he declared, are accumulating, and these will come together in an unfriendly contact before very long. The Social Democrats are not assisting in bringing the conditions about, but have recognized the trend of evolution and are prepared.

That all men are not born into the world on the same footing cannot be denied, he said, and pointed to the fact that in one Toronto pastorate he had

Gigantic Sale of Brass Beds That Are Insured Against Tarnishing

Commencing Saturday, May 4

MAKE THIS TEST

Lowest Prices Ever Thought of

Five Year Insurance Policy with Each Damard Lacquered Bed

Come in and let us demonstrate the indestructibility of the Damard Lacquer Finish. We want you to touch a few drops of ammonia or wood-alcohol on a bed finished with ordinary shellac enamel and see how it immediately cuts through to the brass. Then we want you to pour the alcohol or ammonia from the same bottle on any of our Damard Lacquered Beds, rub it vigorously with a cloth, and CONVINC YOURSELF that our beds are PROOF against the cleansers that must be used to remove spots and stains. We will PROVE to you that we can sell the finest Brass Beds made, insured for five years, at almost half the price of the ordinary kind.

\$70.00 Damard Lacquered Insured Brass Bed for .. \$49.50

NO PROSECUTION NO FOLLOW INVESTIGATION

Senator Smith Says That Is Not Within the Scope of Titanic Commission.

New York, May 2.—Senator Smith, chairman of the Titanic investigating committee stated today that a report will be submitted to Congress as soon as the investigation is completed. He said:

"I am not prepared just now to say how soon this will be. It will contain many recommendations, based not upon the idle hearsay suggestions of novices, but upon the practical, sworn evidence of marine experts, and will conduce to every point that will assure the absolute safety of ocean travelers. It will advocate many reforms—so many that I am not prepared to sketch even its salient features now."

"Will your report suggest that any one should be prosecuted as being in any way culpable for loss of life?"

"No, our report will be entirely within the lines of our own jurisdiction. It will speak for itself. We have made a painstaking investigation no point was overlooked, and we have gotten the facts. How we get them doesn't matter."

HEROIC CONDUCT OF TWO PRIESTS

Survivors of Titanic Say They Went Down Consoling Others.

Chicago, May 2.—Survivors of the Titanic who have reached here, especially those from the steerage, tell of the heroism of two Catholic priests, who, after assisting women and children into the last boat, gathered about them the doomed passengers and calmly sought to comfort them in the face of approaching death.

The story of hope and faith evidenced in that hour by Father Byles, of England, and Father Perushoetz, a German, entitles them to a high place in the roll of honor. The America, a Catholic review of the week, repeats the story of eye-witnesses.

The first news of the disaster brought the priests to the scene, where they joined with the other men in assisting to preserve order and insure the safety of the women and children. When men of all nationalities gathered about them and sought comfort and hope, the two priests raised their voices and calmly, as if in the sanctuary, repeated over and over again the rosary.

A man, according to the story of those present, was turned away. The priests ministered to Catholics, and non-Catholics alike. The sinking vessel listed more and more the crowd about the priest grew larger and all joined fervently in the prayers. Those in the boats pulling away from the deck, but it is related that in the last moment, when the lights went out, no shrieks were heard nor cries of terror from the group when the faithful pastors serenely and devoutly sought to comfort those about them.

ALLEN JURY COMPLETED

Hundreds of Witnesses Called for Court House Murder Case.

Wytheville, Va., May 2.—Floyd Allen, the mountaineer, today faced the twelve men who are to try him for his life for his part in the court house tragedy at Hillsville. The jury was completed last night after an entire day spent in securing the last four talesmen, and the members were sworn immediately after the defence had stricken off four names under the peremptory challenge privilege.

More than 200 witnesses have been summoned to testify in all of the ten cases, but there has been no amendment as to which ones will be used in the case now on trial, or as to the order in which they will be called.

Although he is indicted for five murders, he is called upon at this time to answer for the killing of Attorney Foster.

STALLED AT THE SOO.

Sault Ste. Marie, Ont., May 2.—At noon today sixteen heavily-laden freighters were anchored abreast the Port Arthur that the channel was clear of ice. Captain Barton, of the Northern Navigation Company, at Port Arthur, wired this morning that an east wind was holding the ice in the bay, and so far tug Whalen was the only vessel to make Thunder Cape. Duluth is open, and many vessels are passing through, bound for there. It is likely that before the day is out there will be about 25 vessels stalled here.

HAY FAMINE CAUSES BIG JUMP IN PRICE

In Chatham as High as \$25 Per Ton Is Being Paid.

(Special to The Advertiser.)

Chatham, May 2.—Chatham is experiencing a severe hay famine. There is not a liverman in the city who has over a ton of hay on his premises, and it is impossible for him to get any. Some of the livermen have no hay at all, and the horses are suffering as a result. A carload of baled hay arrived in the city yesterday morning, and was given out a bale at a time to the hungry livermen who were on hand bright and early to get it. Some who arrived a little late didn't get any. The hay was disposed of at \$3 a cwt., which is an exceptionally high price for this district. The price of hay at present in Chatham is anywhere from \$21 to \$25 a ton. Some of the livermen are feeding old clover and screenings to their horses, and unless they can get them out on the grass pretty soon they don't know what they will do.

SENT AUTO OVER BLUFF TO MAKE A "BLUFF"

The Winnipeg Authorities Investigating a Mysterious Disappearance.

(Canadian Press.)

Winnipeg, Man., May 2.—Gilbert K. Lacey, manager of the Green Motor Company, whose automobile went over a high bluff into the Assiniboine River on Sunday night, supposedly drowning its occupants, is thought by the police to have gone to the United States, deserting his family, and sending his machine over the bluff to leave the impression of a fatal accident having occurred. His hat was found where the car took the 100-foot fall.

Photographs and a description of the missing man have been sent to all the United States police officers. Just why Lacey, whose record is good, should have resorted to such a thing, the police do not explain. Mrs. Lacey thinks her husband, who is subject to fits of mental aberration, is wandering around without knowing his identity. He was not in debt and had not an affinity.

SUICIDE AT TORONTO

Leaves a Letter Telling How to Dispose of His Money.

(Canadian Press.)

Toronto, May 2.—With his room filled with gas and the jet turned on, fell, Frank Lanctot, who has a sister living in Montreal, was found dead in his bed at 140 Jarvis street this morning. A letter addressed to the manager of the Bank of Montreal at Belleville, and another to "Soeur Lanctot," Montreal, were found in his pockets. The former letter was as follows:

"When you receive this letter I will be dead. I give \$50 to the hospital for Sick Children and \$100 to who will look after my remains. My sister's address is 40 St. Jean Baptiste de la Congregation, Notre Dame, Montreal. Ask her to look after my remains. If she refuses, give \$100 to Mme. Frote, 1615 Danforth avenue, East Toronto. Ask my sister first to bury me. You can keep the rest of the money.—Frank Lanctot."

DINED BY COMMONERS.

London, May 2.—The members of the Panama-Pacific Exposition commission were the guests of the Government at luncheon at the House of Commons today. Lord Beauchamp, first commissioner of works, representing the Government, heartily welcomed the delegates and assured them that the exposition had found cordial support in this country. Others present representing the departments of the Government immediately concerned were Sir Edward Grey, the foreign secretary; Sydney Baxton, president of the board of trade; and Lewis Harcourt, secretary for the colonies.

TWO ENGAGEMENTS.

Ottawa, May 2.—Two interesting engagements, effecting one of Ottawa's oldest families, are announced today.

The marriage of Miss Morna Bate, eldest daughter of the late Lieut.-Col. H. Allan Bate and Mrs. Bate, and grand-daughter of Sir Henry Bate, K. C., M. G., to Mr. William Coristine, of Montreal, will take place in All Saints' Church, Ottawa, on Saturday, June 1.

The marriage of Miss Dorothy Walters, elder daughter of Mr. and Mrs. H. McDonald Walters, and grand-daughter of the late Joseph Doutré, Q. C., to Mr. Llewellyn Bate, youngest son of Sir Henry Bate, will take place in All Saints' Church on Monday, June 3rd.

ACCIDENT ON RHINE.

Cologne, Germany, May 2.—The tourist steamer Niederwald soon after leaving her pier for a trip up the Rhine today, collided with a ferry-boat and was so damaged that the captain was compelled to run her ashore at once.

The accident created a panic among the steamer's passengers, not one of whom, however, was injured.

BANK PRESIDENT HELD.

Cincinnati, Ohio, May 2.—E. E. Galbraith, president of the Second National Bank of this city, was arrested here today by a United States marshal on a charge of misapplication of the bank's funds. The bank was recently discovered to be in an embarrassed condition, and is now being operated by the members of the Cincinnati Clearing House Association.

ZEPPELIN CHALLENGES.

Berlin, May 2.—The Germania today prints a story that Count Zeppelin, the builder and operator of airships, some time ago challenged Theodore Lerner, who was secretary for the Zeppelin Arctic expedition, to a duel, but that the matter has not yet been decided, depending upon the outcome of several lawsuits between the principals.

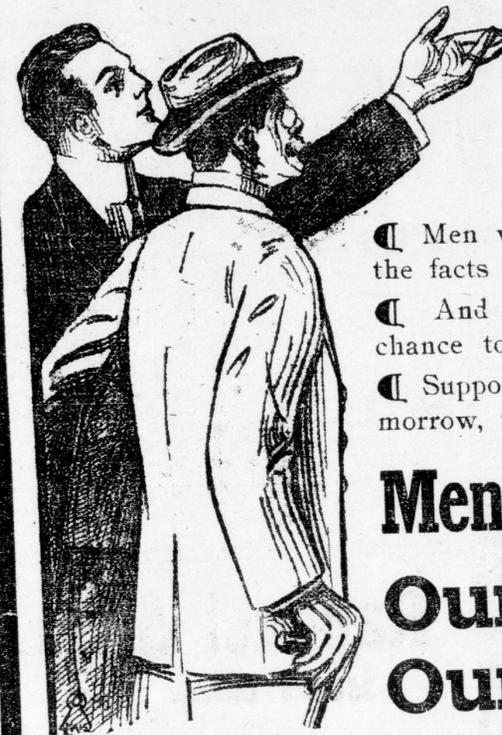

SPRING IN ALASKA.

Fairbanks, Alaska, May 2.—The steamboat Tetlin, the first to leave Fairbanks this season, has departed for Fort Gibbons, at the junction of the Yukon and Tanana rivers. The Tanana is clear of ice, but the water is the lowest at the break-up in the history of interior Alaska, and the Tetlin scraped several bars. The Yukon is breaking up fast.

No Matter What Price You Pay For GRAFTON CLOTHES

YOU WILL BE SURE TO GET

- 1. At least 25 per cent more for your money than you can get in any other store.
2. Better quality fabrics, better tailoring and more all around satisfaction than you can get elsewhere even by paying 25 per cent more.

Of course, there's a reason for better values. When you buy of us you buy directly of the makers and save the middleman's profit. You will also be able to choose from a larger variety of styles, patterns and colors at every price than you'll find anywhere else. Men who have investigated are our best customers. They know the facts to be exactly as we state them. And in these days of ever-increasing expenses, isn't such a chance to save worth investigating? Suppose you start by looking into these special offers for tomorrow, which we have listed below:

- Men's and Young Men's Suits
Our \$8.50 Suits Would cost \$10 to \$12 elsewhere
Our \$10 Suits Would cost \$12.50 and \$14 elsewhere
Our \$12 Suits Would cost you \$15 and \$16 elsewhere
Our \$14 Suits Would cost you \$17 and \$18 elsewhere
Our \$16 Suits Would cost you \$20 and \$22 elsewhere
Our \$20 Suits Would cost you \$25 and \$28 elsewhere

SARNIA WOULD BE A C. N. R. TERMINAL

Every Effort Will Be Made to Secure New Radial Line.

[Special to The Advertiser.] Sarnia, May 3.—It is likely that an effort will be made here to induce the Canadian Northern Railway to bring one of their radial lines to Sarnia instead of Grand Bend. The company it is reported, intends to construct a system of electric lines, one of which will be a road to Lake Huron, by way of Grand Bend. Boosters here, however, will doubtless try to bring the line to Sarnia, arguing that this town is more logically situated for the proposed line than Grand Bend.

would add greatly to the lengthy list of summer resorters, who spend the season here. Also it would be the means of forcing the Grand Trunk and Pere Marquette Railroads to adopt special rates to Sarnia during the tourist months, a plan which they have steadily ignored, and which has been earnestly advocated by local men interested in the resorting business for some time. It is understood that the Canadian Northern is very anxious to construct this proposed line to Lake Huron, but it is not believed that they had an important object in view when they chose Grand Bend over that town. A new railroad here and especially an electric line would do wonders for the local beachers, both in the real estate and excursion line.

also come in for its share of the trade and the resorters.

SIDDONS—WHITE

Former Sarnia Girl Becomes Wife of Ingersoll Man.

[Special to The Advertiser.] Port Huron, May 3.—The wedding of Miss Minnie Esther Siddons, of Sarnia, daughter of the late John Siddons, of London, Ont., and Harry A. White, of Ingersoll, was solemnized at the home of the bride's sister, Mrs. W. F. Stevenson, here, recently. A number of guests from Sarnia were present at the ceremony, which was performed by the Rev. Mr. De Vona, of St. Paul's Church.

MAY FALL THROUGH

Proposed New Sarnia Ferry Service May Not Materialize.

[Special to The Advertiser.] Sarnia, May 3.—From present appearances it looks as if the proposed new ferry line for this town has fallen through. It is said that the two Quebec men were well satisfied with the outlook here for the operation of a rival line, and believed that a money-making ferry business could be easily built up. The fact that the company now operating controlled all the available landing sites, proved, however, to be a serious impediment to go up against, and the prospect has been quietly dropped.

Among the transient guests on the local hotel registers today are: M. B. MacMillan, of Toronto; J. E. Demme, Toronto; Roy King, Chatham; R. F. Loelin, Detroit; H. G. Callomere, London; Harry Taylor, London; J. McLeod, Crosswell, Mich.; Miss Bestwick, Detroit; Mrs. L. F. York, Detroit. Neil Leckie has purchased the residence of William Kennedy for \$2,600.

A MATTER OF TENDERS

Only One Offer Received To Construct the Incinerator Plant, and the Matter Was Deferred.

At a special meeting of the city council, held on Thursday afternoon, the appointment of Mr. A. M. Piper as building inspector for four months was ratified. The salary was reduced from \$100 a month to the rate of \$1,000 a year. The contract for the incinerator was not let.

The appointment of Mr. Piper at \$100 a month was recommended by No. 3 committee. Ald. Richter thought the question had not been sufficiently considered by the council. He wanted to know whether or not a practical builder, a man with experience, would not be better qualified to test and oversee the construction of buildings than an architect. He favored the appointment of a builder.

However, Mayor Graham declared that all the arguments were in favor of an architect, who was trained to know the qualities of materials, etc. His training was general, not particular.

Ald. Bennett said that the salary was rather high, and suggested that it be placed at the rate of \$1,000 a year. This, he thought, would be sufficient. This motion carried.

A minority report submitting the tender of Lawrie & Lamb, Montreal, to install and equip an incinerator for the sum of \$39,750, was presented by Ald. Coles, but was laid over.

"I think we should have an opportunity of looking into this matter before we decide on it," declared Ald. Richter. "The plans, specifications, tender, and everything connected with it should be given to the aldermen, so they would be in a position to vote intelligently on the matter. We can not decide on the tender until we do get that information."

"I would like to know whether or not tenders had been called for," asked Ald. Johnston. "I think it is most important that we get more than one tender if possible. We are not rushed for a day or two, and the whole business could easily stand over. Surely there are other concerns manufacturing this class of machinery."

Mayor Graham explained that there was no intention to spring the deal on the council.

The Mayor Explains.

"We simply desire to give you an opportunity to go into the matter before the regular meeting of the council," said his worship. "Everything will be placed at your disposal, and you may urge for yourselves just what the proposition is." Ald. Robin-

son and myself have gone into the question very thoroughly, and we have decided that the incinerator we are recommending is the best that can possibly be secured. The price is reasonable, and in every way we are getting the best of it. It is a big proposition, and we ask you to look into the matter before we decide. The matter is laid over.

As there was no other business to be disposed of the council adjourned. Those present were: Mayor Graham, Ald. Richter, Bennett, Johnston, Wright, Ashplant, Murphy, Ross, Moore, Coles, Blandford, and Robinson.

WILL IMPROVE SCHOOL

Dutton Education Board Will Adopt Reports of Inspector.

[Special to The Advertiser.] Dutton, May 3.—At a meeting of the high school board, the report of Inspector J. E. Wetherell, who recently visited the school, was read. In regard to the efficiency of the school the report is all that can be desired. In reference to the equipment of the building, the complaints that have come before the board are reiterated. The service for years are reiterated. The board will see that these defects are at once removed.

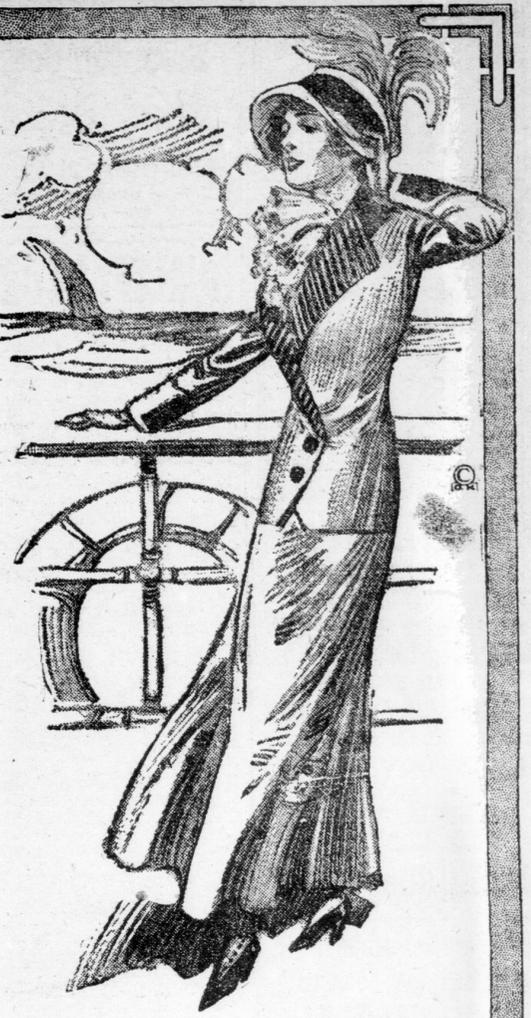

As to the work of the school the report says: "I am glad to report that on the academic side, the school is in a better condition than it was on the occasion of my visit in November, 1910. The organization now leaves little to be desired, and the regulations of the education department have received due attention. The board has concluded to make a number of improvements to the building during the summer holidays, as suggested there-in."

A communication was read from Col. W. E. Hodgins, of the first division, London, in regard to the organization of a cadet corps in connection with the school, and pointing out the advantages of such an organization.

Miss Anna Hamilton has returned to Toronto after spending several weeks with her parents, Mr. and Mrs. Leslie Hamilton.

Mr. J. C. Cannell, of Toronto, is visiting relatives here.

Mr. A. L. McPherson, of Brantford, has resumed work on the well he is drilling in Ekfrid Township, seven miles south of Glenora, Mr. Duncan D. Kerr, of Wallacestown, is the driller.

Clearing Sale of Suits--\$11.95 Worth Up to \$22.50

The Luxury of Hot Water

In the Bathroom

Plenty of hot water at any time, day or night, is what distinguishes a real bathroom from a make-believe.

In the Kitchen

Hot water is absolutely indispensable. Can you think of anything that so lightens kitchen labor as to have plenty of steaming hot water always ready?

In the Laundry

Wash-day demands an unlimited supply of hot water. At such a time a coil gas water heater is most appreciated.

We make it our business to know all about the latest and best water heaters for all requirements, from the cottage to the palace.

Come in and let our Appliance Department talk with you about the best heater for your particular case.

OFFICERS TO BLAME

Captain Brown, of Government Steamer Suspended Over Accident.

Ottawa, May 2.—Another moral from the Atlantic that caution has prior claims to speed in navigation was drawn this morning by Captain Demers, Dominion wreck commissioner, in making his report on the grounding of the Government steamship Earl Grey, near Pictou, N. S., a fortnight ago. The ship grounded in a fog, and was rather seriously damaged.

Captain Demers found that the accident was due to negligence on the part of the ship's officers and pilot. The captain, Angus Brown, is found to have made serious error in judgment in proceeding at full speed in a fog without taking soundings. Moreover, there was no lookout.

Pilot McGregor, Fraser was also found to have been negligent, and Second Officer Gallant is reported to have lacked the necessary technical qualifications for the position. He and Captain Brown are suspended, which practically means the permanent loss of their positions. The pilot was reported to the Pilotage Commission at Pictou for discipline.

WANTED FOR THEFT.

[Special to The Advertiser.] Sarnia, May 3.—Chief of Police Forbes has sent one of his force to Col. Lingwood with a warrant for the arrest of Charles Swain, who is being held there. Swain is one of the two young men who some time ago, it is alleged, stole quite a sum of money from Mrs. Chivers, who keeps a boarding-house here. The other young man was arrested in Windsor about a week ago, charged with a similar theft.

A Correction.
A typographical error last night in Watson & Way's advertisement had the closing hour on Saturdays as 7 o'clock instead of 6 o'clock. Commencing tomorrow, the new store will close every Saturday at 5 p.m.
Meds. Held Banquet.
After convocation last night, the graduating class held a farewell banquet at the Tecumseh House, at which about 30 members of the class were present. Dr. James Campbell, president of the year, was toastmaster, and short speeches were delivered by Dr. Moriarty, Dr. MacAuley, Dr. Yealland and others.
Finger Amputated.
Edward Hynes, of 359 Adelaide street, an employee of the D. H. Gillies mills, had his right hand badly lacerated in a machine while at work yesterday afternoon, the amputation of the middle finger being necessitated. Hynes was removed to Victoria Hospital, where the operation was performed.
Policemen Resign.
P. C. John Cobden, a young Englishman, who has been on the police force for the past year, and who a few months ago distinguished himself by rushing into a burning house, together with Sergt. McDonald, and rescuing several of the inmates, including an old man, has tendered his resignation, and will return in a short time to his home in England. P. C. Eldon McRoberts, a cousin of P. C. Cecil McRoberts, has also resigned after four months with the department.
Day Industrial Classes.
Principal H. B. Beal, of the Industrial School, will be in his office in the Alexandra School tonight and tomorrow night from 7:30 to 9:30, to meet parents who desire to send their children to day industrial classes. If special interest is manifested, it is the intention of the board of education to open a day school along the line of the night classes now being conducted in the Alexandra. Parents who would like to talk the matter over and secure all possible information in regard to the subjects to be taught and the benefits which will accrue to the pupils, should see Mr. Beal tonight or on Saturday night.

Practical Cold Storage
Costs no more than ordinary cold storage or storing with coal tar preparations, which discolor the finer furs.
Every article stored with us, no matter how small, is taken care of separately, and hung by itself.
All articles stored by us are electrically cleaned and cleaned, restoring the natural gloss to the fur.
Risk of loss by fire, moth or burglary, there is none. The receipt we send you insures you against loss.
Absolute cleanliness is a feature of our storage system, there being no meats, butter and the like in the building.
A winter's wear has probably left some repairs to be attended to. We can attend to same for you.
Charges are 3 per cent on a fair value, or your own valuation, if you wish.
If you will write, or phone No. 817, we will send for your furs and a receipt for same will be mailed immediately. Respectfully,
BELTZ & COMPANY
PRACTICAL FURRIERS.
DELIGHTFUL SCENERY ON RUSSIAN RAILROADS
Observation Cars of C. P. R. Will Make the Journey More Interesting Than Ever.
Following closely upon the arrangements the Canadian Pacific Railway has made with the Austrian Government for the privilege of running observation cars upon their lines, with the same enterprise the C. P. R. simultaneously made provision for around the world tickets to be good over the Trans-Siberian Railway. The traveler taking this route has various options, according to the fares paid and the connection with the railway—which has never before opened its arms to any outsider, can be made by the Canadian Pacific Railway's Royal Mail Trans-Pacific Steamships at Yokohama, Kobe, Nagasaki and Shanghai, and thence by a variety of routes in connection with the Trans-Siberian. The whole time required for the entire trip from Vladivostok to Dairen to Moscow or St. Petersburg is between nine and ten days. The distance between Vladivostok and Moscow is about 5,425 miles, and between Vladivostok and St. Petersburg about 5,500 miles. The journey is through most interesting country. Siberia is a land of great fertility, well wooded and watered, and along the routes are many important towns and cities which are bound to attract attention of the tourist. A magnificent panorama is afforded the traveller by the delightful scenery of the great lake Balkal consisting of 35,000 square miles, and the tunnel and loops by which the Khingan Mountains are crossed, possess great interest. The trains carry sleeping and dining cars in which meals are served at reasonable rates. It must not be overlooked that all travellers in Russian territory must be provided with a passport issued by his own Government and bearing the signature of the Russian consul, which has to be presented to the Russian authorities on entering and leaving Russia, and when staying overnight at hotels in Russia. This arrangement came into operation on May 1.
CARD OF THANKS.
Mr. and Mrs. George Watts, of 114 Simcoe street, wish to thank the City Gas Appliance, also the Stratton & Dyer City Manufacturers, and their many friends for the beautiful flowers and their many kindnesses shown to them during their sad bereavement.
BUYS FINE HORSES.
Pond Mills, May 2.—Henry Home, of Osmer, Elfrink Township, has purchased 2 pair of pure-bred Clydesdale fillies, two years old, from Mr. A. Elliott, here, for \$550.

COAL FIGHT MAY BE ARBITRATED
Baer Wants Controversy To Go Before Anthracite Strike Commission.
SEEKING A SETTLEMENT
Conference Being Held by Miners' Full Committee to Consider the Situation.
[Canadian Press.]
New York, May 2.—Representatives of the United Mine Workers of America held another meeting today to determine what course they would follow as the result of their rejection of the agreement drawn by the sub-committees of the miners and coal operators, which was presented for ratification at a meeting of the full committees of both sides of the controversy yesterday. Former State Senator William Green, of Ohio, who has acted as chairman for the miners in the absence of President White, still believes that a settlement will eventually be reached without a strike.
The conference today was prepared to consider two courses of action: First, should a convention of the miners be called to approve or disapprove the action in rejection of the agreement of the sub-committees, and second, whether the miners' committee should ask for another conference with the operators with the view of obtaining further concessions. A convention of miners at either Scranton or Wilkesbarre would not only pass upon the agreement of the sub-committee, but would consider the proposition of President Baer, of the Reading Company, that the whole controversy be submitted to the surviving members of the anthracite coal strike commission of 1902.
Mr. Baer told the miners yesterday that he considered that the full committee of miners were morally bound to stand by the action of a sub-committee, and that until the matter had been submitted to a referendum vote of the miners, the full committee were in no position to ask for further concessions from the operators.
Meanwhile the suspension of mining in the hard coal region is continued.

[Canadian Press.]
New York, May 2.—Representatives of the United Mine Workers of America held another meeting today to determine what course they would follow as the result of their rejection of the agreement drawn by the sub-committees of the miners and coal operators, which was presented for ratification at a meeting of the full committees of both sides of the controversy yesterday. Former State Senator William Green, of Ohio, who has acted as chairman for the miners in the absence of President White, still believes that a settlement will eventually be reached without a strike.
The conference today was prepared to consider two courses of action: First, should a convention of the miners be called to approve or disapprove the action in rejection of the agreement of the sub-committees, and second, whether the miners' committee should ask for another conference with the operators with the view of obtaining further concessions. A convention of miners at either Scranton or Wilkesbarre would not only pass upon the agreement of the sub-committee, but would consider the proposition of President Baer, of the Reading Company, that the whole controversy be submitted to the surviving members of the anthracite coal strike commission of 1902.
Mr. Baer told the miners yesterday that he considered that the full committee of miners were morally bound to stand by the action of a sub-committee, and that until the matter had been submitted to a referendum vote of the miners, the full committee were in no position to ask for further concessions from the operators.
Meanwhile the suspension of mining in the hard coal region is continued.
