

SEVEN DEAD, MANY BADLY HURT, IN MOTORCYCLE ACCIDENT

Racer Drove Machine Into Electric Light Pole, and Live Wire Caused the Gasoline to Explode—Dozens of Spectators Badly Burned.

[Canadian Press.] Cincinnati, July 31.—Seven are dead, three will die according to attending physicians, one other is probably fatally injured and eleven others are seriously injured, as the result of a motorcycle accident at the Mason Motorrome, across the river from the city, last night. Odin Johnson, of Salt Lake City, captain of the Cincinnati team, which was contesting at the Motorrome, for some reason that will probably remain unknown, drove his cycle to the extreme top of the circular track, crashed into an electric light pole, broke it off and the contact of the live wire with his machine exploded the gasoline tank, throwing the burning fluid over a score of spectators. Killed Instantly. Johnson paid the penalty with his life, while Wm. Davis, aged 5 years, is likewise dead as a result of the accident. Six others, two women and four men, cannot live, while others are registered at the Kentucky Hospital as in a serious condition. A large number of others who cannot be located were burned in almost a certainty, as several drug stores in the vicinity of the place were kept busy for an hour after the accident, a critical condition and are not expected to live.

Another Fine Advertiser Baby

Miss Marguerite Bamed, five months old, and tipping the scales at twenty pounds, is likely to be a favorite at the baby shows this season if her parents see fit to enter her. Marguerite is the daughter of Mr. and Mrs. John F. Bamed, of 877 Trafalgar street, East London, and is sweeter even than she looks. Those "zoozy-zoozy" children, all dimples and smiles. The Advertiser has been told about a little Scotch baby, the first to be born under the Lloyd George insurance act in Scotland. Will the parents kindly send in his or her picture?

ENGLAND REFUSES TO TAKE PART IN GREAT EXPOSITION

Trouble Over Panama Canal Is Likely Behind Move to Withdraw.

British Foreign Office Declines To Give Any Reasons For Action.

[Canadian Press.] London, July 30.—Great Britain has decided against participation in the Panama-Pacific exposition at San Francisco in 1915. Notification of this determination of the British Government was conveyed officially to Washington early this week, the dispatch merely stating that Great Britain was not in a position to participate in the San Francisco exposition. No reasons were given. Both the British foreign office and the United States ambassador here decline to discuss the matter or to reveal the cause of the reversal of the announcement made some time back that Great Britain had decided in principle to participate in the exposition. It has been mooted for some time, however, that the dispute in regard to the Panama Canal tolls might possibly lead to this result, and the present declaration of non-participation is attributed to that cause. DISLIKED PLACES. [Canadian Press.] Washington, July 31.—After exhibiting much concern over the places which would be assigned to prospective exhibitors by the management of the Panama-Pacific exposition, the British Government has finally decided to participate. The long delay in acting upon the invitation to participate in the fair, extended a year, has been the cause of deep concern to the management of the exposition, particularly as formidable opposition had likewise developed in Germany, where certain of the great trade associations, such as those representing the steel and iron manufacturers, had formally requested the German Government to decline the invitation. Others Hostile. In an unofficial way it is said that dissatisfaction on the part of great commercial nations with certain features of the pending tariff bill, which they felt bore hardly upon their trade, was the reason for the attitude to be taken by the British Government. But the senate finance committee has amended the tariff bill in a manner thought to make it unobjectionable to those nations. It was fully expected that they would see their way clear to accept the invitation.

OFFERED TO BUY TECUMSEH PARK AND PRESENT IT TO THE CLUB FINE ACT OF HON. C. S. HYMAN

Option Expired, But Owners Refused to Renew It—Expected That by Next Year Club Will Own Grounds, and Transform It Into Modern Athletic Arena.

Hon. Charles S. Hyman recently made an offer to the directors of the London ball team that if a suitable price could be secured for Tecumseh Park, he would purchase the field for the team. This public-spirited offer followed the taking of an expiration of an option on the park. The directors of the club had secured an option from the owners, and it expired at a certain date, as while the directors would like to have had the park for the team, they did not feel that it would be advisable to undertake the purchase at the time. As a consequence the option expired. Offered To Buy It. When Mr. Hyman heard that the directors had been attempting to secure the park, he quietly told one of the members of the board that if the option could be renewed he would purchase the park and turn it over to the team. He specified that the offer should not be made public, but it has leaked out. It is understood that the owners of the park declined to accept a second option, and that for the present, at any rate, the negotiations are off. The ball club is anxious to secure the park, however, and it is said that before another season has come round the directors will be in possession of the park, thanks to the generosity of one of London's first citizens.

Make Over Park. The directors have in mind a pretentious scheme for improving the park and for making it an all-the-year-round athletic grounds. An arena for hockey would be constructed, and all sports would be encouraged. The present diamond would be shifted, and new stands erected of steel and concrete construction. Meanwhile the directors feel that citizens should be proud of the fact that the game has so loyal a supporter in the Forest City as Charles Smith Hyman.

CHAS. S. HYMAN

NEW HAVEN RY. HAS SOLD BIG TROLLEY LINE

New York Firm of Electrical Engineers Buys Western Massachusetts System. Sale Was Planned Some Time Before President Mellen Resigned.

[Canadian Press.] Boston, July 31.—The sale of the Western Massachusetts Trolley Lines by the New York, New Haven and Hartford to a firm of electrical engineers in New York was announced here today by authority of President Charles S. Mellen. The purchasers are Sanborn and Porter, of 50 Williams street, who have taken over the New England Investment and Security Company, the holding concern owning the Springfield, Worcester, Pittsfield and other Western Massachusetts trolley lines. Bought Common Stock. The purchase was consummated through the acquisition of the entire common stock of the New England Investment and Security Company of \$100,000, which alone has voting power. The \$4,000,000 preferred stock of the investment company is owned by the public and dividends of 4 per cent on the issue are guaranteed by the New Haven Railroad, which also guarantees \$100 per share in the event of liquidation. The New England Investment Company also has outstanding an issue of \$15,000,000 notes, guaranteed principal and interest by the New Haven. Sale Was Planned. In the sale to the New York engineering firm, who will act as managers, it is understood that the price paid for control has taken into consideration release of the New York for its guarantee. It is said that this sale was planned before Mr. Mellen tendered his resignation from the presidency of the road and that it does not necessarily mean the disintegration of the New Haven trolley system. Mr. Mellen confirmed the sale in a message received here today from New York.

MANY MAROONED BY HYDRO PRANKS ON ROLLER COASTER

Also Stalled in the Incline Ry., When Juice Went Off Wednesday. In the City the Lights Flickered On and Off—Same Old Trouble, Say Officials.

Caught half way up in the roller-coaster, and half-way down in the incline railway, summer excursionists at Port Stanley were marooned for hours Wednesday afternoon by the breakdown of hydro power—the motive force that makes the wheels "go round" down at the beach. All that prevented serious accidents on the scenic railway and the incline one, were the "dogs," that act as clutches on the cars. After perspiring for an hour and more in the box-like "cabin" of the incline railway cars, the occupants decided to walk. The majority of them were of that type that never desisted by nature, to indulge in mountain-climbing—especially down-mountain-climbing. Their efforts provoked salvos of applause from spectators, quarters of perspiration and the usual new vocabulary of cuss words. It was "some" hot at the beach, but the words of the luckless travellers who were suspended in mid-air, something along the lines of Mahomet's coffin, were "hotter" than the sands of the beach and the glare of the sun. Hydro Off Here. While hydro was playing pranks on the beach in the afternoon, and leaving a trail of exploded anti-profanity philippic in its wake, an incident of holding up St. Thomas for power until 2:40 a.m. today, it also went off in London. At 3 p.m. Thursday afternoon the "juice" was shut off, after several interruptions of a few minutes only that had occurred earlier in the day. At that time it was off for half an hour. In the evening, too, it was "flickering." It was off three different times, but only for a few minutes. Automatic tripping of the circuit-breakers through breaks in the transmission lines, are the causes ascribed for the shorter interruptions, while the one of half an hour's duration is blamed on insulators again. No Information. At the local offices of the hydro-electric, no information as to what had caused the break in the St. Thomas line has yet been received. The local engineer, however, declared that it was likely insulator trouble again, the stretch between London and St. Thomas, and especially the St. Thomas station, having more than its share of the breaks which occur from time to time in various sections of the lines. Hydro was not the only power that went in trouble in London yesterday. London Electric current was also off, the juice having disappeared in the afternoon at 4 p.m., and being off for an hour and a half.

EXCITING INCIDENT AT DEPOT WHITE GIRLS WITH BLACK MEN

Agent of Y. M. C. A. Tries To Separate Party of Colored Men and White Women and Is Subjected to Torrent of Abuse.

Two colored men and two white women were the central figures in an exciting incident at the Grand Trunk station this morning at 11 o'clock. The four came to the station and were noticed by Miss Curry, the agent of the Young Women's Christian Association. She thought that there might be a case where supervision was required, and approaching the quartette, she told the women that they would have to leave the station. Abused Miss Curry. This they refused to do, maintaining that they were married to the colored men, and that they had a right to go where they pleased. They followed up their explanation with a torrent of abuse directed at Miss Curry, and someone asked that a policeman be called. Two officers came to the station, and after the excitement had quieted they went away. The quartette showed tickets to Chatham, and stated that no one could prevent them from going together. Miss Curry's Good Work. Miss Curry is on constant watch for suspicious characters at the station, and when she noticed the white women with the colored men, she suspected that it might be an attempt to take the women across the border. The thanks she got for her noble work from the women were several stings of the lips of a hardened man, according to the statements of bystanders. Miss Curry acts the part of mother to many a girl who is a stranger to the station to return to their homes, and there are few girls who make the waiting-rooms a rendezvous at present.

Traction Company Was Minus Hydro For Twelve Hours

For the eleventh time in the month of July the hydro-electric power, which propels the cars of the London and Lake Erie Transportation Company, was off Wednesday and today for more than twelve hours. The power went off at 1:30 o'clock and did not come on again until after 2:30 o'clock this morning. The power plant of the company was going after 3 o'clock, but a great many intending passengers, who came before that hour, refused to take the trip when it was found power had been off. As it was a half-holiday in the city, the line was prepared to handle a large business, and General Manager Warburton stated today that he believed the company had lost several hundred dollars. The break was the longest to come during the month of July. The other interruptions were of short duration. The railway company was told that the usual line trouble, caused by lightning or defective insulators, was the cause, although assurances were readily given that there would be no further interruptions. more than any other London has experienced during the present year. The humidity has not been relieved by the breezes that accompanied several of the previous hot weather spells, and the result has been an increased stickiness and uncomfotableness. Here's the Record. The way the weather has "sizzled" for the past five days is: Sunday ..... 91 Monday ..... 90 Tuesday ..... 91 Wednesday ..... 93½ Thursday (2 p.m.) ..... 91½ Wednesday's record ran a close second to that of July 4, when it was 94. This record is 1½ degrees higher than that of 1912, when the hottest day was on July 9—92.5. The lowest of this year (40 on July 6) is half a point lower than the 1912 bottom level, that having been reached on July 1—68.5. This past month there have been eight days when the thermometer was 90 or over. The three others, besides the past five days, were July 1—90; July 3—90, and July 4—94. There was less rainfall this year than last, during July. The record for 1912 was 4.37 inches; for this year it was only 3.60 inches.

IT'S STILL STICKY, BUT CHEER UP, FOR RELIEF'S AT HAND

Barometer Is Dropping and Mr. Mercury Is Due for a Dive.

But Last Three Days Have Been the Most Uncomfortable of Summer.

Going down! After five days of sweltering, strenuous, melting, and a few other varieties of heat, the barometer is dropping and the thermometer is taking a downward trip. However, as the temperature was standing at 91½ at 2 p.m., it's a sure sign that Mr. Mercury never took a high-spired express elevator when he started on his downward course. Hottest of Year. London has had some hot weather this year. It has been unusually warm, both during the present month and during June, but the past five days have been the hottest of the year. Starting with a record of 91 on Sunday, the mercury has been over 90 ever since. Yesterday it went up to 93½ almost the record for 1913. Wave Is General. The heat is general—both in the area it covers. Everybody's feeling it, and everybody's feeling it. Heat prostrations and affection have been reported from not only London and vicinity but from all over the country. The July month end hot spell is one that has made itself felt, possibly

LEGACY OF TWO THOUSAND AWAITS AN EX-LONDONER

Robert Burton, Formerly of This City, Cannot Be Located By Lawyers.

Robert Burton, formerly proprietor of a cigar store on Richmond street north in this city, is being sought by Chief of Police Regan, of Buffalo, in response to a notice, that important news awaited him here. A small fortune has been left him in London, England, and it is to apprise him of this fact that his solicitor, Mr. T. W. Scanlon, is endeavoring to locate him. It was rumored that the fortune was a large one, \$100,000 or more, but it was stated that it will probably amount to only \$2,000. Burton has not yet been located in Buffalo. He was last heard of as residing in that city, after removing from London several months ago. It is thought possible that he may have heard of his good fortune and gone to England to claim the legacy which had been left him. Oiling South London.—South London is now receiving its share of street oiling. Five tank cars, containing approximately 20,000 gallons of oil, have arrived, and will be mostly placed on the streets of South London. City Engineer W. N. Ashplant is also carrying on street improvement on Stanley street, prior to closing it, the road being scarified and rolled.

FIERCE ATTACK ON NEW TARIFF BY REPUBLICAN

Dakota Senator Declares That Schedule Will Injure, If Not Destroy, the Producers.

Loss in His Own State, After Good Crops, Would Be \$15,000,000

[Canadian Press.] Washington, D. C., July 31.—Characterizing the Democratic tariff bill as "neither fish, fowl, nor herring," a measure not framed on scientific principles of either free trade or protection, and declaring it will not benefit the consumer, because it will injure wheat, wheat, wheat, in foreign countries, under the provisions of this bill four farmers would lose in a single year more than \$15,000,000. A Heavy Loss. "The great industry of agriculture," he said, "is again the subject of an unjust onslaught and discrimination. I call your attention to the fact that in my state alone, where in 1912 we raised more than 140,000,000 bushels of wheat, with wheat crops in foreign countries, under the provisions of this bill four farmers would lose in a single year more than \$15,000,000. A Mere Pretence. "If it is pretended," said the senator, "that by this means the farmers' market for wheat will be extended, it is a mere pretence and nothing more. The countries which find it to their interest to maintain a duty on wheat or on flour are those countries which have no wheat they want to sell us, and to which it, consequently, makes no difference whether or not we maintain a duty on wheat and flour. It does not affect them. Why then should the fact that we are willing to remove our duties on wheat produce be any incentive to them to remove theirs? On the other hand, countries which have wheat they wish to export to this country—and this consideration applies especially to Canada—have no market for our wheat. They will no doubt, very willingly remove their duties in return for our admission of their wheat free of duty."

RECENT FIGHTING MORE FAVORABLE TO THE BULGARS

Greeks and Serbs Were Very Anxious to Arrange a Truce.

Terrible Loss of Life Shown By Statistics Regarding Casualties.

[Canadian Press.] London, July 31.—The alacrity with which the Greek and Servian delegates to the Balkan peace conference at Bucharest consented yesterday to a five days' truce, bears out the indications emanating from Greek sources that transport difficulties were hampering the Greek operations, and that the recent fighting had been more favorable to the Bulgars than the Greeks were willing to admit. This seems to be further confirmed by the Sofia semi-official dispatch stating that the Bulgars had won victories on the upper Bregalnitz River, the plain of Lechovo and in the Mesta Valley. It is expected that the conference at Bucharest will last two or three weeks, and the chances are said to favor peace being arranged. Heavy Loss of Life. London, July 30.—The Balkan wars, beginning when the allies attacked Turkey, and continuing when they disagreed among themselves, causing almost ceaseless fighting since last October have cost the belligerents a total of more than 350,000 lives and a billion and a quarter dollars, according to estimates by correspondents in the field. The estimated figures are: Soldiers Killed. First War. Second War. Bulgaria ..... 80,000 60,000 Serbia ..... 30,000 40,000 Greece ..... 10,000 30,000 Montenegro ..... 8,000 Turkey ..... 100,000 Totals ..... 228,000 130,000 Money Spent. First War. Second War. Bulgaria ..... \$300,000,000 \$150,000,000 Serbia ..... 160,000,000 100,000,000 Greece ..... 70,000,000 50,000,000 Montenegro ..... 400,000 Turkey ..... 400,000,000 Totals ..... \$930,400,000 \$300,000,000 Grand total, \$1,230,400,000.

SIR GEO. GIBBONS BACK FROM TRIP TO ENGLAND

Was Greatly Shocked Upon Learning Tuesday of Col. Little's Death.

Sir George Gibbons and Mr. George S. Gibbons have returned from a trip of several weeks to England. Sir George arrived in London this morning from the east and his son joined Mrs. Gibbons at their summer home. Until his arrival at Boston the day before yesterday Sir George was unaware of the recent death of his old friend, Lieut.-Col. J. W. Little, and the news was a severe blow to him. Shocked at Death. "I have been so shocked at the sad news that I do not care to discuss other matters at present," said Sir George. Col. Little and I were for many years associated in the business world and in the public life of London. A better business man and more sagacious citizen I have never known. He was patriotic-spirited to a marked degree, thorough in the good work he did for London. I had heard of his illness, but believed I had to be safely on the way to recover. Called cables to reach me and a telegram to Boston was the first intimation I had. Sir George was in England on Privy Council business. He expressed his appreciation of that august tribunal, the Empire's greatest judicial clearing-house. He declined to discuss the financial situation as it concerned Canada just at present. Mr. George S. Gibbons returned from his trip with greatly improved health.

Held Up Clerk And Took \$1,400

[Canadian Press.] Burlington, July 31.—Fred Fleisch, night clerk at the Brant House, Burlington, was held up during the night, while duty at the hotel, and robbed of \$1,400, according to a report made to the Hamilton police today. Details of the robbery are meagre. The hotel people refuse to discuss the matter. It was stated today that during the night two men entered the hotel and held Fleish up at the point of a revolver. They bound and gagged him and then rifled the cash register. The money belonged to guests.

LONDON TO BE PHOTOGRAPHED FOR THE MOVING PICTURES

Notable Places and Characters To Be Snapped While In Action. Mr. Thomas Logan, manager of the Majestic Theatre, has arranged to have London photographed in action on Aug. 14. An operator will be in the city on that day, and will take moving pictures of notable places and characters in the Forest City. The Irishmen's picnic will be held on that day, and it will be given a share of the 1,000-foot reel to be taken here. The co-operation of Mr. Gordon Phillips, industrial commissioner, will likely be sought in an effort to secure a series of pictures that will do the city proud. The reel will not only be exhibited locally, but will go to other cities, and will have an advertising value in making London known to the world. Anyone with a unique idea for portrayal in the film with a local background, should communicate with Mr. Logan.

THE WEATHER.

TOMORROW—THUNDERSTORMS. Forecasts. Toronto, July 31—S.w. wind; fine and very warm. Friday—Southwesterly to westerly winds; few scattered thunderstorms, but mostly fair and warm. Temperatures. The following were the highest and lowest temperatures during the 24 hours previous to 8 a.m. today: High. Low. Weather. Victoria ..... 74 56 Clear Calgary ..... 78 40 Clear Winnipeg ..... 75 59 Clear Port Arthur ..... 64 56 Cloudy Port Hope ..... 68 50 Clear Toronto ..... 88 63 Clear Ottawa ..... 88 56 Cloudy Montreal ..... 82 56 Clear Quebec ..... 75 56 Clear Father Point ..... 66 46 Clear

ROUMANIANS ADVANCE.

[Canadian Press.] London, July 31.—The Roumanian troops, according to the Times' correspondent at Sofia, have advanced to Philippopolis, in Eastern Rumeia, 86 miles northwest of Adrianople, and to Talar Pazarjik, 23 miles northwest of Philippopolis, and by reason of the fact communication with Eastern Rumeia as well as Northern Bulgaria, now are threatened.

Goderich Boy Is Dead From Kick

[Canadian Press.] Goderich, July 31.—Joseph Reinhart, an Ashfield Township boy, 6 years of age, received fatal injuries while driving to town with his parents today. Their horse was frightened by an automobile and started to kick the boy, who was sitting with his back to the dashboard, receiving the first kick on the back of his head. An inquest will be held.

LONDON, THURSDAY, JULY 31.

EARL GREY'S GREAT DESIGN.

Perhaps no single scheme of improvement has added more to the impressiveness of the central part of Old London in recent years than the new thoroughfare, the Kingsway. It has transformed one of the shabbiest districts of the metropolis, a slum area, into one of the finest. The huge demolition of property which accompanied the improvement has left a magnificent vacant site between the Strand and the entrance of the Kingsway, an area which looks like an expansion of the Strand.

This widened portion of the famous thoroughfare is bounded on the north by Aldwych, a noble crescent lined with handsome buildings. Within a stone's throw are the Law Courts, Temple Bar, St. Clement's Lane, and St. Mary-le-Strand churches (the latter overlooking the site), the Temple, Glaston's statue and other points of interest. The illustration in another column of this page will furnish an idea of the situation and surroundings.

That indefatigable Imperialist, Earl Grey, is at the head of a movement to put this site to a pan-Britannic purpose by concentrating on it all the offices of the British Dominions, now widely scattered over London, and hard to find. He would establish there "a great organ and brilliant symbol of Empire." Upon these two and a half acres he hopes to see an edifice arise which will be the riveting object of an area through which every stream of metropolitan life flows, and will proclaim itself urbi et orbi in a fashion to which St. Paul's and the Palace of Westminster offer the only parallels.

The structure would not be merely ornamental; it would house a permanent exhibition of Empire products, and be an instrument for the extension of Empire trade and for the guidance of emigration. Earl Grey has secured an option on the site for three years, from the owners, the London County Council, who have agreed to grant a 99 years' lease at a rental graduated up to the fifth year, when it would reach the permanent rate of £50,000. Meanwhile the option is invested in a syndicate, with the title of "The Dominion Site, Limited," of which Earl Grey is chairman, the other directors being Lord Plymouth, Sir Starr Jameson, Sir J. Henniker Heaton, George McLaren Brown and Harry E. Brittain. The further progress of the scheme must be guided by its reception at the hands of the Dominions themselves. They may make themselves the joint owners of the site and building, or lease both from an independent corporation.

In this project there are at least none of the objections that lie properly against some so-called Imperialistic schemes. The Dominions will part with nothing but their money and they will retain control of their investment—unlike the Canadian Government's naval proposals.

THE VOICE OF THE "BRITISH-BORN." During the last electoral campaign we heard a great deal about the "British-born." They were especially labelled and set apart as a peculiar class of Canadians, different from the ordinary native of the country. They were appealed to as people whose loyalty to the Empire must necessarily be superior to that of other Canadians, and who were, therefore, the natural defenders of British connection, and natural opponents of anything that could be imagined to injure that connection, especially any truck or trade with the Yankees. Mr. Arthur Hawkes was the selected mouth-piece of the loyal Conservative-Nationalist combination, in its appeal to the British-born to vote against the Liberals because their reciprocity policy meant disruption of the Empire, or at all events dangerous intercourse with the United States. And there is no doubt Mr. Hawkes did yeoman service for Mr. Borden and his allies. How far sectional appeals to one class of Canadians affected the result of the contest we are not able to say. But Mr. Hawkes did his best for the party, and great was the praise he received from the victors for his help.

Now the people who praised Mr. Hawkes in 1911 are in a dilemma. Two years ago he was a pattern loyal Imperialist. Today he is an object of amazement and a target for some abuse. He is opposing the Borden contribution policy, a policy which is the highest type of loyalty, according to Conservative oracles, and actually favors a Canadian navy, which on the same authority, means a "separatist" policy. Oh, what a fall is there. The champion of imperialism actually supporting the Liberal policy, actually condemning the Borden proposals. Is it possible that support of the Conservative idea is not such a test of either loyalty or common sense as we were

told it was? Either that or else Mr. Hawkes has suddenly become a deep-dyed traitor.

In an article written for The Nineteenth Century this gentleman shows up Mr. Borden's vacillating naval attitudes, his desertion of his avowed policy of 1911, his unholy alliance with the Nationalists on the navy question. No argument, he says, no appeal to the wisdom of the admiralty, no alarms over an imaginary German menace, no excuses of any kind, can get rid of the fact that in reversing its naval policy the Conservative party failed to serve either Canadian or Imperial interests, and grievously marred Mr. Borden's character as a true servant of his King and country. That is what the Liberals have been saying all the time, and for saying it Mr. Hawkes' old friends have been "howling their heads in shame," "pointing the finger of scorn," "boiling with indignation," and in similar ways trying to prove their loyalty.

"I am for a Canadian navy," Mr. Hawkes tells his readers, "because I am all for the grandeur of the Britannic name throughout the world; for the only freedom wherewith we are free; and because of an unconquerable faith in the genius that is embodied in our institutions." And the idea of a Canadian navy being a menace to British connection he dismisses in these words: "The unspoken, but under-standable feeling in Britain that a Canadian navy, under Canadian control, would be a subtle menace to Britannic unity is a natural result of the unregenerate political insularity ascribed to the natural man. It is just as unnecessary to Britannic unity, because history abundantly against it."

Reading Mr. Hawkes' article one could imagine it came from some disloyal, separatist Liberal paper. No doubt there are many Conservatives who hold the same views, but partly allegiance forbids their expression. Mr. Hawkes, being "British-born," has evidently not been domiciled in Canada long enough to become a thorough-going Canadian Tory. He has no hesitation about puncturing the air-blown bladders of the party he worked with two years ago. And, of course, the people who once used him, and were fulsome in his praise, now turn on him, and abuse him.

The British Empire is still the best place on earth, in spite of some of the professional Imperialists. These are the days when journalists perspire over the task of writing articles on "How to Keep Cool." Doesn't it seem paradoxical that the British Admiralty is building flying machines to detect submarines? Senator Stone, of Missouri, accuses the Republicans of trying to produce a panic. Why not? It would be their only effective argument against tariff revision.

A sleep-strike is Sylvia Pankhurst's latest ruse. The satirist described certain poets as "sleepless themselves to give the others sleep," but Sylvia resorts to sleep in order to give the authorities no rest. Liberals believe that a Canadian national spirit is compatible with British unity. Conservatives talk as though Canadianism and Imperialism will not mix, and they presume to treat Canadianism as a species of separatism.

If all this dissatisfaction over Intercolonial Railway affairs is caused by an honest attempt to put the road on a sounder business basis, public opinion will support the Minister of Railways so long as his backbone remains firm. Ontario Liberals will join in congratulating Hon. Alex. MacKay on his victory in Athabasca, which will be followed by his admission to the Alberta Government. Ontario Conservatives have been waxing a heap of sympathy on Mr. MacKay.

The captain of the New Zealand Dreadnought says correctly that "Canada has a perfect right to choose whatever plan she thinks best in the naval defence of the Empire." But the Government will not give her an opportunity to make a choice. The St. Thomas Times and the Stratford Herald, both Conservative, declare for a Canadian navy—after an emergency grant. So far so good, but they have no warrant for saying this is Mr. Borden's idea. As there is no emergency, why not start on the navy at once?

FAVORITE FICTION. "I Don't Like to Knock Off Work; I Am Taking This Vacation Merely to Please My Family." "Why, I've Known That Man Ever Since He Was Knee High to a Grasshopper." "It Will Not Be the Least Bit of Trouble, Madam, I Assure You, to Hunt Up Those Friends of Yours While I Am in New York City." "Yes, I Take a Little Liquor Once in a While for Medicinal Purposes; I Really Hate the Taste of It." "Take a Seat, Miss Jones Will Be Down in a Moment."

VOTING FOR HANDSOME MEN. "Uncle Joe" Cannon is firmly convinced that the voting women of Illinois will select the handsomest man who is running for the political offices which they have a voice in filling. "Uncle Joe" may think he knows women. Perhaps he does know the women of a generation ago, but he certainly does not know the woman of today or he would not make such a rash prediction. The keen, businesslike woman, who is rapidly forging to the front as the prevailing type of American femininity is not nearly so likely to be fooled by mere good looks as her grandmother was. In her personal progress to a thinking individual she has thrown off some of the womanish characteristics and has become, in her intellectual at-

titude at least, somewhat masculine. Met, as most women will testify, not only have an instinctive distrust of the very handsome members of their own sex, but very often entertain a positive dislike for them that only concrete evidence that they are "good fellows" in spite of their good looks can remove. Western education to look beneath the surface, even while appreciating an attractive exterior in itself, demand that the handsome appearance be backed up by more solid accomplishments.

A DEED AND A WORD. [Charles Mackay.] A little stream had lost its way, Amid the grass and fern; A passing stranger scooped a wet Where weary men might turn; He walled it in and hung with care A ladle at the brink; He thought not of the deed he did, But judged that all might drink. He passed again, and lo! the well, By summer never dried, Had cooled ten thousand parching tongues, And saved a life besides.

A nameless man, amid a crowd, That thronged the daily mart, Let fall a word of hope and love, Unstudied, from the heart; A whisper on the tumult thrown, A transitory breath— It raised a brother from the dust, It saved a soul from death. O germ! O fount! O word of love! O thought at random cast! Ye were but little at the first, But mighty at the last!

HIS WAY. [Yale Record.] Bride—If you really love me so much, what would you do if I fell into the water? Happy Bridegroom—Why—er—I would lay out a gigantic sum to have the lake drained. CHRONIC BUNGLER. [Exchange.] The topic that was being talked in Washington related to the proper training of children, which reminded Congress Oscar Galloway of Texas, of an incident that occurred in one of the small towns in his state. For the fifth time, the Congressman said, a colored boy was arrested on a charge of appropriating chickens, and the magistrate decided to try an appeal to the lad's father. "Look here, Rastus," said the magistrate, when the father appeared in court, "this is the fifth time that your son Ebenezer has been in this court, and I'm tired of seeing him here."

"I don't blame yo', judge" responded the father, a little sadly, "I've tired of seeing him here myself." "Then why do you bring your son to court?" demanded the magistrate. "Why don't you show him the right way?" "Say, judge," earnestly replied the father, "I had done gone and show'd the boy the right way a dozen times, but somehow he alius git caught wid de chickens on him."

A DIFFERENT ENDING. [Louisville Courier-Journal.] "Had quite an adventure lately. I gave an old gentleman my seat in a street car and he insisted on taking my card." "And now he wants to give you \$25,000, eh?" "No; now he wants to sell me an encyclopedia on dollar payments."

A HINT TO SIR JAMES. [Hamilton Herald.] On Labor Day, when a great deputa-tion will wait upon Sir James Whitney to press for tax reform, the Premier will have a fine opportunity to announce that he has been studying the question and that he is willing to admit that perhaps he may have overlooked one or two points in favor of the reform asked for. We shouldn't wonder if he can be brought to make some concession like that.

HARD THINKING. [M. A. P.] It is of Sir Herbert Tree that a new golf story is told. He says that he is in particularly bad form on the links, and at one of the tees he made such a poor drive that he felt compelled to comment upon it to his caddy. Half apologetically he turned to the youngster and said: "Did you ever see worse play than that?" The caddy maintained a stolid silence, and Sir Herbert, thinking he had not heard his remark, repeated: "I say, did you ever see worse play than that?" The caddy nodded his head. "I heard ye," he said, "an' I'm just thinkin'!"

NEW WATERPLANE. [Victoria Colonist.] A new hydro-aeroplane, designed by an Italian, is engaging the attention of the British admiralty. It is said to have remarkable stability in both air and water. Two mechanics can climb about the machine while it is in full flight, and it is as easy to steer as a light boat. Flying with a 100 horsepower engine, its pilot has carried four passengers. Events in the development of aviation are moving rapidly.

EARL GREY'S IMPERIAL PROJECT. They might have got "Texas" Burdell out to open that 12-inch shell found in the incinerator. He may be recommended as a good safe opener. Are you carrying around a transfer impression of the London grandstand on the back of your negligee? We changed ours also. How, asks the Toledo Blade, is a man with a corn on one foot and a bunion on the other to put his best foot forward? A King these days is looked upon generally as a nine spot.—London Free Press. What could dear Major Beattie have thought when he read these words of sedition? The public has a good long memory fortunately. It is not forgetting that good roads are the first need of London. Has your favorite murderer been released yet? Neither has ours. You should see our bald-headed bachelor baby editor gloat over the pictures he receives each day just now. His greatest lament is that he has no locks for the infants to pull. Whenever there are scouts in the grandstand to watch the home players, the kind of a scout the boys need is one like Col. Cody, with a lariat in each hand. The hay fever brigade is getting ready for its annual turnout. Why not have a monster street parade? Guelph has been having an old boy's reunion. His brother did not come, and almost spoiled it all.

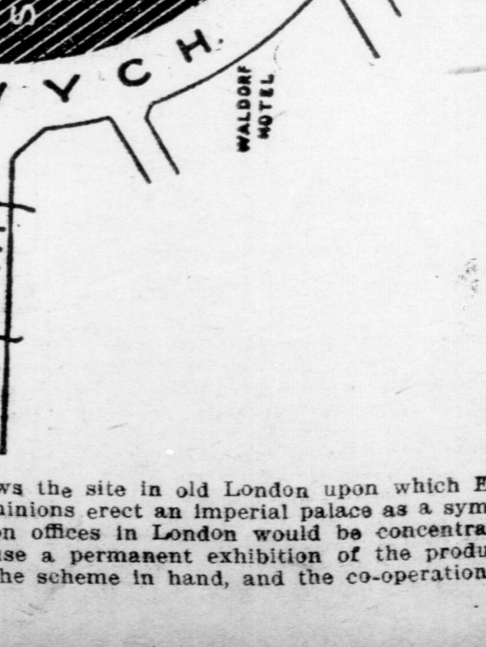

PLEASE REMEMBER 5 O'CLOCK CLOSING During the Summer. CHAPMAN'S Decidedly Low Prices in Our Alteration Sale. Summer goods are being rapidly cleared. CHAPMAN & CO., 239, 241, 243 Dundas Street

A FEW LINES MUST ANYTHING. THE WEATHER. Beautiful, bally sticking hot. FORECAST. One tinkling pitcher, breezes from the fan belt.

SHOULD WORRY. Like an orange you get skinned. They might have got "Texas" Burdell out to open that 12-inch shell found in the incinerator. He may be recommended as a good safe opener. Are you carrying around a transfer impression of the London grandstand on the back of your negligee? We changed ours also. How, asks the Toledo Blade, is a man with a corn on one foot and a bunion on the other to put his best foot forward?

WOULD LIKE TO, BUT. Died—At noon today, in our boarding-house, A. Cater Pillar, accidentally drowned in cauliflower sauce. In-terment in Friday's soup. Friends and acquaintances please take warning. Kindly omit (caul) flowers.

Will Not Call For Margin on Bonds. [Canadian Press.] Washington, July 31.—Secretary McAdoo today emphatically declared that the treasury would not call for more margin on the United States 2 per cent bonds to secure national bank circulation because of the decreased market values of those securities. Officials of the treasury today stated that the provisions of the currency bill for the retirement of the bond-secured currency was originally drawn in accordance with the exact recommendation of a committee of the American Bankers' Association and was later amended at the suggestion of Secretary McAdoo, so that all of the outstanding 2 per cents would be redeemed in cash with interest with interest at the end of 20 years. The treasury holds that the bond retirement provision as now constructed materially increases the privileges of the holders of the 2 per cents.

FORESTERS TO VISIT SARNIA. Six Hundred Delegates To Be Entertained on August 18. A SPLENDID PROGRAM. SARNIA BRANCH OFFICE, 209 Front Street. Office hours 9 a.m. to 9:30 a.m., 3:30 p.m. to 5:00 p.m. [Special to The Advertiser.] Sarnia, July 31.—Six hundred Forester delegates will visit Sarnia on Monday, Aug. 18. Arrangements have been made with all the hotels to take care of the visitors, and the auto owners of the town will take the delegates for a run down the river road. A band concert will be given at the pavilion for their entertainment, with a car ride to the beach included. Sarnia is said to have more Foresters in proportion to the population than any other town in the world.

Rushing Work on the New Water System. [Special to The Advertiser.] Sarnia, July 31.—The excavating machine to be used in the construction of the new waterworks at the lake-shore, has arrived from Toronto, and has started digging operations. The pipe for the force mains will be laid inside of two weeks and will be laid in position as soon as expedient. Those in charge of the construction are satisfied with the way the work is going on, and it is expected that the most difficult parts of the job will be finished before cold weather sets in.

FACTORY STARTS. New Overall Plant Will Shortly Employ 100 Women. [Special to The Advertiser.] Sarnia, July 31.—The Larned-Carter overall factory of Detroit have opened their branch here and expect to have some 50 employees at work as soon as possible. All the machinery has not arrived yet, and when it does, the working staff will be increased to 100. Most of the employees will be women and girls. The factory is located in Alexandria Hall over Neal's bakery.

SARONIC REPAIRED. Big Northern Navigation Boat Was Disabled by Broken Eccentric. [Special to The Advertiser.] Sarnia, July 31.—The steamer Saronic, of the Northern Navigation Company, arrived in Sarnia yesterday, in tow of the tug Reid. The Saronic broke her eccentric while rounding Point Aux Barques, and the steamer Saronic was dispatched to her aid. The Saronic brought the disabled vessel as far as Port Sanilac, where she was met by the Reid, which brought the vessel the rest of the way to Sarnia. A gang of men were put to work on the boat at once to repair her engine, and she is again ready to sail.

STREETS ARE DUSTY. [Special to The Advertiser.] Sarnia, July 31.—Citizens are complaining because the hills along the waterfront are not sprinkled according to contract. Most of the streets down town running to the river terminate in hills, and these are dusty enough to arouse rotet, especially the one leading to the ferry dock.

FROM ALL PARTS THEY ARE COMING TO MIDDLESEX CO. The County's Campaign of Advertising Is Beginning to Bear Fruit. Inquiries From United States, New Ontario, and Various Parts of the Dominion. The campaign to advertise the advantages of the County of Middlesex is already beginning to bear fruit. In a large increase in the number of immigrants coming to settle around London, Mr. S. F. Glass, president of the Greater Middlesex Association, stated that the results had been extremely satisfactory. Not only were immigrants from the mother country being attracted, but also people from Uncle Sam's territory and other parts of the Dominion. A letter was received this morning from a man in New Ontario, stating that he had been reading some of the literature sent out by the Greater Middlesex Association, and he was desirous of locating here.

One Difficulty. The difficulty of getting incoming immigrants to settle in the country instead of flocking into the cities, Mr. Glass admitted to be one which would require attention. The chief difficulty seemed to be in getting farmers to take married men with children. "If the farmers would provide a house on their farm where a man and his family could live, I think they would find it a paying investment," he said. "The majority of these people want to get out on the farms, and if provision could be made for their families they would gladly go. If they could be given a house, and perhaps a couple of acres of ground for their own use, they would remain with him at least for a number of years. In the case of the young unmarried men, they often leave on short notice, leaving the farmer in the lurch."

Similar arrangements as those suggested prevailed in some of the eastern provinces, he stated, and had been found to be a great success. Some solution of the problem will have to be reached shortly, as the scarcity of houses in the city is making it next to impossible for some of the newly-arrived families to find a dwelling place.

Refused To Let Patient Come In. [Canadian Press.] Toronto, July 31.—The city medical health department will hold an investigation to determine the circumstances attending the refusal of Dr. Hayward, surgeon in charge of the Toronto general hospital, to admit a Jewish patient, suffering from measles, late last evening. The man was admitted on order of Dr. Hastings, medical health officer, after he had been refused admittance a couple of times, and after the police had interested themselves in the case. Dr. Hayward contended that he was justified in refusing to take in infectious cases, and the incident is said to urge the necessity of an isolation hospital, especially for measles patients.

ARE REFUSING MAIL. [Canadian Press.] Ottawa, July 31.—It is announced by the postoffice department that owing to renewal of Balkan hostilities, Hungary, Roumania and Servia are declining to accept mail for forwarding to Bulgaria.

Janie, Good-Time Summer Girl, Twists Tom's Thumping Heart Easily as She Twists His Auto's Wheel

Another Picture and a Fable From the Fascinating Pen of ALICE GODDARD.

BY ALICE GODDARD.

Grandmother raises her hands in horror and mother stifles a sigh as they hear the distant honk-honk of Tom's machine, for haven't they just seen it driving past WITH JANIE AT THE WHEEL.

HELPS FOR THE DOG DAYS

To keep the kitchen cool in hot weather, if the kitchen has the morning sun, keep the windows open; if there are shutters, keep them bowed; if not, keep the shades partly down until the sun is away from the windows.

Meanwhile Janie drives the car as well as though she was not listening with all her soul, for Tom is saying: "I love you, darling, because you can drive a car—swing an oar, and cut the water with as clean a stroke as I."

Dainty Holder For Bridal Linen

One of the dainty devices to add to the beauty of the bride's household chest is the band of ribbon to hold piles of sheets, pillow slips, towels, tablecloths and napkins in order.

The Poets' Corner

A DEED AND A WORD. A little stream had leapt away Amid the grass and fern;

Romping Frocks for Holiday Wear

Every child in holiday times wants to be clad in serviceable, hard-wearing clothes, which can be romped in and not ruined.

PROBLEMS OF THE FAIR SEX SOLVED BY CYNTHIA GREY

[Correspondents are requested to make their inquiries as brief as possible, and to write on one side of the paper only. It is impossible to give replies within a stated time, as all letters have to be answered in turn as they are received. No letters can be answered privately.]

How to Pickle Carrots. Dear Miss Grey: Here is a recipe for pickle carrots. They are delicious, and I advise housekeepers to try them.

A Point of Grammar. Dear Miss Grey: As I have had a dispute as to which pronoun should be used in the following sentence, I come to ask your advice.

Send Her Thanks. Dear Miss Grey: Thanks so much for the Goop pictures. I do hope that I was no bother. Yours sincerely,

Yes, Mary, Call Again. Dear Miss Grey: I have never written to you before, but as others have

Troubled. A—Turpentine, squirting from a small oil-can into the cracks and crevices of bedsteads, etc., is very effective. This should be done once a week for several weeks at least, and then once or twice a month.

Dear Miss Grey: Will you please publish recipes for corn relish and chopped ripe cucumber pickle. Thanking you in advance,

Recipes Wanted. Dear Miss Grey: Will you please publish recipes for corn relish and chopped ripe cucumber pickle.

Dear Miss Grey: I have had both the recipes you ask for, but unfortunately cannot locate them just now. I must appear in your good-natured readers' eye in this column.

Tea-Table Talk

Men fall asleep in church more readily than women because they pay more attention to the sermon!

Women Note Other Things

But a woman, while she listens to the sermon with one ear, is busy (perhaps quite unconsciously) noting what every other woman says.

She Voted All Right

There is an amusing little story going the rounds as to how one Winnipeg woman succeeded in voting.

When You Rest

Rest! Insist. Stretch out. Seek the hammock. The snake-like skirt.

Beware the Points

Shoes are becoming more and more pointed, and women are growing more and more to like them.

The Chic Little Parisienne Beauty as She Exists in Great Numbers in Gay Old Paris, Sketched and Described by Billie Burke.

REDRAWN FROM BILLIE BURKE'S SKETCH. [By Billie Burke.] THE RITZ CARLTON, PARIS, FRANCE.

You know, of course, that every gown is made now as the French express it, in the "mode a donner du vent", which is most ugly unless you are as thin as the girl in the picture, and have no abdomen at all.

Daily Menu

FRIDAY. BREAKFAST. Sliced Oranges. Cooked Cereal. Cream. Beef Hash on Toast.

The Sanctity of the Personal Letter

There are many families the members of which are devoted to one another, and who respect each other's personal belongings, but who seem to have no sense of delicacy in regard to each other's letters.

Ratine Thread For Tub Frocks

There is a new kind of washable cotton thread for crocheting and embroidering. It is rough and woolly-looking like Turkish toweling and called "ratine."

ALL THE NEWS THAT IS NEWS

A DAY IN THE SPORTING WORLD

SIDE LIGHTS ON MANY SPORTS

Well, You've Got to Hand It to Mutt for Trying, Anyway :-: By "Bud" Fisher

LONDON PLAYS ERRORLESS BALL, WINNING BY 4 TO 1

One of the Largest Crowds That Has Ever Sat in Tecumseh Park Cheer the Boys on Boosters' Day and See Fine Exhibition of Ballplaying—Matteson Steals a Base and Makes a Fine Play When London Was In Deep.

Poor old Peterboro. It was really a shame to do it; but just to show them that they are not in London's class, and that the loss on Tuesday afternoon was quite an accident, the Indians went in and trimmed them to the tune of 4 to 1, playing errorless ball.

It was "Boosters' Day in London, and one of the largest mid-week crowds that has ever witnessed a ball game in Tecumseh park, was on the job to cheer the boys on to victory. And it is a safe bet that not one of those who paid their little mite to get into the grounds, begrudged it, for London put up one fine game after another.

Our old friend Frank Fox, who was on third, the Peterboro line-up being changed on account of Trout's injury received Tuesday, was responsible for two of the errors, and several fans in the stands were heard to remark: "The same old thing, Fox!"

Matteson There as Usual. Short and fat Matty Matteson was there as usual, stealing a base and catching in great style. His good right wing was in excellent shape, and the Peterboro players were afraid of that whip of his, and hugged first considerably.

Looney Bierbauer made one bone-headed play when, with two out, he stopped a grounder between first and second, and tried to throw out the runner on second, instead of getting the batter, which he could have done easily. No one was covering second, and as a result, both men were safe. Looney deigned himself, during the rest of the game, however, playing consistent ball at all stages.

ST. THOMAS WINS AND MOVES TO THIRD PLACE

Defeat Leafs by a Score of 3 to 2, Making Third Straight Win—Clements Was Strong.

St. Thomas, July 30.—The Saints added another step to their onward march back to first place today when they defeated the Leafs by a score of 3 to 2, making it three games in a row. Clements, for the Saints, was strong with men on bases, fanning Behan in the sixth and Schaffer in the ninth with the bases full. Wright being intentionally walked in the latter instance. Third Baseman Eddie Wright acknowledged the best third-sacker in the league, jumped the team on Tuesday night, and went to his home in Detroit. Wright left the club at a very inopportune time as the management have been asked to place a price on him by a major league club.

PHILADELPHIA, July 30.—Bush bested Wellman in a pitchers' contest today, and the Athletics won the first of the series from St. Louis by 2 to 1. The winning run was scored by the Mack-men in the fifth inning on Denny Murphy's long drive to Williams, and Schang's long drive to Williams. Murphy's long drive to Williams, and Schang's long drive to Williams.

NEW YORK BLANKED CHICAGO Through Clever Work By Fisher. Philadelphia, July 30.—The local Intermediate Lacrosse Club defeated the Brantford O. A. L. A. team here today by the score of 7 to 6, pulling out victors after being beaten at half time by the score of 5 to 2.

By shutting McCormicks out by a score of 1 to 0, the Orioles got one step nearer the top of the Commercial League Wednesday night. To win the honors of the series they must beat the Greene-Swift team in the next two games. McCormicks were able to secure only one hit off Callahan, but scored on Clark's error. The score: McCormicks 0, Oriole 1.

ST. LOUIS LOST TO PHILADELPHIA

Bush Had the Better of a Pitchers' Duel With Wellman. SCORE WAS TWO TO ONE.

New York Blanked Chicago Through Clever Work By Fisher. Philadelphia, July 30.—The local Intermediate Lacrosse Club defeated the Brantford O. A. L. A. team here today by the score of 7 to 6, pulling out victors after being beaten at half time by the score of 5 to 2.

NEW YORK BLANKED CHICAGO Through Clever Work By Fisher. Philadelphia, July 30.—The local Intermediate Lacrosse Club defeated the Brantford O. A. L. A. team here today by the score of 7 to 6, pulling out victors after being beaten at half time by the score of 5 to 2.

THREE DEAD AND \$1,000,000 LOSS BY BIG STORM

Washington Swept by the Most Destructive Hurricane in Years.

Hailstones on Windows Put an End to the Tariff Debate.

Washington, July 30.—An awe-inspiring rain and windstorm, which resulted in the death of at least three persons, and wrought much damage to the parks and public buildings of the capital that has been done by nature in a decade raged over Washington for an hour this afternoon.

The White House grounds, regarded as the most attractive of all the public grounds of the country, were literally devastated. The damage to the city is estimated at \$1,000,000, but the marring of the capital's beautiful parks is something that cannot be expressed in dollars.

The wind attained a velocity of 53 miles an hour, according to the weather bureau, and the rainfall for the hour was a fraction more than two inches. Old-time residents of Washington declared they never had witnessed such a storm here, and these statements were borne out by the records of the weather bureau.

CLEANING UP TODAY.

Washington, July 31.—The national capital awakened today to a city-wide house-cleaning, and citizens and city employees alike joined hands in an effort to clean up the litter and debris in the streets, left in the wake of the cyclonic storm of yesterday afternoon. No accurate estimate of the monetary damage done by the tempest is yet obtainable, the greatest havoc having been occasioned through the breaking and the leveling of many of the finest buildings, which cannot be replaced. Late reports from outlying districts disclosed damage to property greater than was at first predicted.

Search is being made on both the Maryland and Virginia shores of the Potomac River for countless launches and small craft that were scattered from their moorings like chaff. It is feared a number of them have been sunk, although so far as known at the present time there was no loss of life.

County Treasurer Dies at Sandwich

[Special to The Advertiser.] Windsor, July 31.—County Treasurer George A. Whitehouse is dead at his home in Sandwich, after an illness extending over two months. He was 73 years old, and a son of the late Wm. Whitehouse, whose family were descendants of the United Empire Loyalists. His father served as a dragoon in the war of 1812, and was a lieutenant in the Government side in the rebellion of 1837. He received his early education in the public school in Sherston, afterwards attending grammar school at Welland, and the Toronto Normal school, from which he was graduated as a teacher.

In 1886 he was elected reeve of Maidstone, and held the office for 11 years before retiring. In 1889 he was selected as warden of the county council. In March, 1892, he was appointed county treasurer.

Young Traveller Attempts Suicide

O. L. Stevens, of Strathroy, is in a Hospital in Toronto.

[Special to The Advertiser.] Toronto, July 31.—O. L. Stevens, formerly of Strathroy, is in the hospital here in a serious condition as a result of attempting to commit suicide by jumping into the water at the foot of Bay street.

He was only saved after a long struggle with Frank Monk, who jumped in after him. Artificial respiration was resorted to to revive Stevens, and he was then taken to St. Michael's Hospital. He will recover.

Stevens was hurt in a wreck on the G. T. R. near Mount Forest some months ago.

LOCAL IMPROVEMENTS

More Than Double Usual Amount of Work is Under Way.

[Special to The Advertiser.] Sarnia, July 31.—According to the town engineer there is twice as much local improvement work in Sarnia this year than in years previous. The town contractor is busy, all the time, putting down sidewalks and curbs, and property-owners all seem anxious to improve their frontage. The work is well done, much better than under former contractors, and this in itself appears to be a big inducement.

Strewed Wreaths For Titanic Victim

[Canadian Press.] Boston, July 31.—Wreaths, fashioned by members of the family of William T. Stead, the London editor and author, who were lost in the Titanic wreck, were cast into the sea from the deck of the Cunarder Franconia as that vessel lay with engines stalled, over the grave of the Titanic last Sunday afternoon. Fifteen hundred men and women stood with bowed heads during the ceremony, while the ship's band played "Nearer, My God, to Thee."

S. E. COSFORD, OF LONDON, ELECTED C. A. S. E. PRESIDENT

Delegates From All Parts of the Province Attending Big Convention at Owen Sound.

[Special to The Advertiser.] Owen Sound, July 30.—S. E. Cosford, of London, was elected president of the Canadian Association of Stationary Engineers at the annual convention here today. Other officers are: Past president, J. A. Robertson, Stratford; vice-president, W. A. Heath, Hamilton; conductor, Robert Dyson, Guelph; doorkeeper, E. Hooley, Owen Sound; secretary, A. Kastella, Ottawa; treasurer, W. E. Archer, Toronto.

HYDRO OFF MANY HOURS

Latest Breakdown Caused Many St. Thomas Factories to Shut Down.

NO LIGHT DURING NIGHT

[Special to The Advertiser.] St. Thomas, July 31.—Hydro was off for many hours yesterday. All factories using the power had to shut down and the city street railway was out of business after 1:30 in the afternoon, which inconvenienced a great many citizens, who wished to spend the Wednesday half-holiday at the parks and ball games.

The Traction Company operated its cars to Port Stanley by means of its auxiliary steam plant.

Last night the city was in darkness, the only street lighting installation being that of the hydro.

British Party Is At Port Arthur

[Canadian Press.] Port Arthur, Ont., July 31.—The British parliamentarians who arrived on Wednesday were guests of J. J. Carrick, M. P. After a trip around the "Twin City" harbors they expressed astonishment at the development displayed. Lords Emmott and Sheffield, Messrs. Pierce, Greenwood and Crooks inquired specially into the capacity of the elevators and facilities for handling the crop.

BLAME ENGINEER

Wyoming Jury Investigates Death of Miss Norma Roberts.

[Special to The Advertiser.] Wyoming, July 30.—At the inquest here today into the death of Norma Roberts, the jury under Dr. Calder, of Petroleum, returned the following verdict: "That Miss Norma Roberts was struck by G. T. R. engine, No. 222, going west, about 7:10 p.m. on July 29, between lots 18 and 19, concession 2, Plimpton. We, the jury, find, according to the evidence, that Engineer Clarke was negligent and careless in regard to his duty, or he would have seen the cattle and girl on the track before he did, and perhaps have averted an accident."

LUMBER WAS BURNED.

[Canadian Press.] Lethbridge, Alta., July 31.—Fire of incendiary origin broke out in the yard of the Western Canada Lumber Company at Barons. All the buildings and 200,000 feet of lumber were burned. Total loss \$15,000; covered by insurance.

HON. A. G. MACKAY WINS SEAT IN ATHABASCA

Will Be Taken Into Premier Sifton's Cabinet Very Shortly.

Edmonton, Alta., July 30.—With eight out of twelve polls heard from in the deferred Provincial election in Athabasca, Hon. A. G. MacKay (Liberal) has a majority of 141 over the Conservative candidate, Major J. H. Woods, of Athabasca Landing. The remaining four polls, which are at far outlying points, will not be heard from for several days, but it is not probable they will affect the general result. Mr. MacKay's election is now conceded by the Conservatives. The fight was a bitter one, and nearly all the prominent politicians on both sides in the Province took part during the past few days.

It was announced some time ago that Mr. MacKay would be taken into Premier Sifton's cabinet in the event of his election. Mr. MacKay, who was formerly M. P. for North Grey, Ont., was defeated in the recent general elections in Alberta, though he made a surprisingly good run.

WYOMING JURY INVESTIGATES DEATH OF MISS NORMA ROBERTS.

[Special to The Advertiser.] Wyoming, July 30.—At the inquest here today into the death of Norma Roberts, the jury under Dr. Calder, of Petroleum, returned the following verdict: "That Miss Norma Roberts was struck by G. T. R. engine, No. 222, going west, about 7:10 p.m. on July 29, between lots 18 and 19, concession 2, Plimpton. We, the jury, find, according to the evidence, that Engineer Clarke was negligent and careless in regard to his duty, or he would have seen the cattle and girl on the track before he did, and perhaps have averted an accident."

BLAME ENGINEER

[Canadian Press.] Lethbridge, Alta., July 31.—Fire of incendiary origin broke out in the yard of the Western Canada Lumber Company at Barons. All the buildings and 200,000 feet of lumber were burned. Total loss \$15,000; covered by insurance.

PRODUCE AND CATTLE MARKETS

LIVE STOCK.

TORONTO, July 31.—The run at the Union stockyards yesterday totaled 98 cars, containing 1,509 cattle, 1,804 sheep, 1,382 hogs and west calves. The market today continued slow. Another large run did not tend to help prices at all, and as a result very little stock was sold. All shipments today were of a very poor grade, but as long as the warm weather continues there is not likely to be any improvement. There was very little difference in the price from the opening day, though some grades, such as common cows, were selling very low. The calves shipped in today were far from being excellent stock, with the result that the cattle trade experienced a drop of from 50c to 75c. There were, however, a few choice calves offered, and these sold at \$2 below the price of two weeks ago. Sheep were steady with yesterday, but like other markets, were a poor trade. Hogs remained firm, and were, as they have been for several weeks, the best seller on the market. The supply is just about right for the demand, and there will hardly be any drop in prices until the demand falls off. There is no doubt that today's conditions will be carried to the close, and that only a complete change in the character of the weather will revive the market. Its future tone does not depend so much now on the size of the runs as it does upon climatic conditions. In the meanwhile, both dealers and shippers are losing money, while the market is about as stagnant as it can possibly be. Quotations were:

Table with columns for Butcher cattle, choice, cwt., \$5.25 to \$5.50; Butcher cattle, medium, \$5.25 to \$5.50; Butcher cows, choice, \$5.00 to \$5.30; Butcher cows, medium, \$4.50 to \$5.00; Feeders, per cwt., \$2.50 to \$2.75; Canners, good veals, \$3.00 to \$3.50; Cows, common, \$3.00 to \$3.50; Lambs, spring, \$7.50 to \$8.00; Lambs, common, \$4.00 to \$4.50; Ewes, light, \$4.50 to \$5.00; Ewes, heavy, \$3.00 to \$3.50; Bucks and culs, \$2.00 to \$2.50; Hogs, f. o. b., \$9.90 to \$9.90; Hogs, fed and watered, \$10.25 to \$10.25; Hogs, weighed off cars, \$10.40 to \$10.40.

## DOMINION SENT MANY DELEGATES TO CONVENTION

Most Important Work Was Undertaken at World's Sunday School Meeting.

Missionary Emphasis Was the Dominant Note of the Gathering.

[Special to The Advertiser.] Zurich, Switzerland, July 31.—The Canadian delegation to the World's Sunday School convention, which closed here recently, was the largest in proportion to population of any country in the world.

The Canadians, after the convention, held a big banquet in the Hotel Glockenhof.

There were 2,600 registered delegates at the convention. The missionary emphasis the dominant note of the convention, and the reports of the six great commissions, appointed many months ago to study the present conditions, needs and opportunities of Sunday school work among all people, and on every continent, were presented in a manner that has thrilled every member of the convention, and proved a great incentive to the planning of marked advances in the work during the coming triennium.

**Splendid Reports.** These great commissions in the order of their reports were: Continental Europe, Bishop John L. Nuelson, of Zurich, chairman; Rev. B. M. Tipple, of Rome, secretary; India, Sir Robert Laidlaw, of England, chairman; Rev. Robert Burgess, of India, secretary; Hawaii, the Philippines, Japan, China, and Korea, Mr. H. J. Heinz, chairman; Frank L. Brown, Brooklyn, secretary; South Africa, Rev. F. B. Meyer, London, chairman; Black, Liverpool, secretary; Mohammedan Lands, Bishop J. C. Hartzell, L.L.D., Africa, chairman; Rev. S. M. Zwemer, D.D., Arabia, secretary; Latin America, Robert E. Spear, New York, chairman; Rev. H. S. Harris, New York, secretary.

A vast reservoir of valuable information, correct, thorough, and up-to-date, has been provided by these commissions, and because of the investigations and reports there will be a clearer concept of the Sunday school problems of the world.

The reports will be published in the official book of the convention proceedings, edited by Mr. Charles G. Trumbull, of Philadelphia, and will make a most helpful contribution to Christian literature.

**In the Orient.** The commission to the Orient, of which Mr. H. J. Heinz is chairman, made the most elaborate report, occupying an entire evening. The 29 members of the party who spent four months on the way to Zurich under the leadership of Mr. Heinz and Mr. Brown, left San Francisco March 1, and visited Hawaii, Japan, Korea and China, making a thorough survey, holding conventions, conferences and public meetings.

**SHOT HIS SERVANT** A Mexican Soldier Felled Mexican Who Was Trying to Escape.

[Canadian Press.] El Paso, Texas, July 31.—Corporal Smith, of Troop A, Second Cavalry, U. S. A., shot Ismael Monteros, a soldier of Col. Toribio Ortega's command, said to be his personal servant, at Tornillo Ford, on the Rio Grande, yesterday, as Monteros was attempting to cross the international boundary fully armed and on horseback, according to reports received by Gen. H. L. Scott, today.

The corporal's bullet cut a furrow in Monteros' scalp and felled him from his horse. The Mexican has been attended by the army surgeon at Fabens, and is being held as a prisoner, together with five other Mexicans and three wagonloads of provisions.

## CORRUPTION CHARGES PROMISE SENSATIONS

Officers of German Army Got Bribes for Giving Out Information Regarding Contracts.

[Canadian Press.] Berlin, July 31.—The sensational disclosures of corruption in the German army made by Dr. Karl Liebknecht, the Socialist deputy in the Imperial Parliament, on April 18, came up today before a court convened to try the military officers charged with accepting bribes for information of pending Government contracts for arms and ammunition.

Widespread interest was aroused by the trial. Four officers of the ordnance department were brought before the judges. They were Lieut. Tillan, Lieut. Hoge and Schieder, to whom was entrusted the supervision of many of the armament and arms contracts at various arsenals and factories throughout Germany. Chief Clerk Pfeiffer and two non-commissioned officers of the ordnance corps also were in the prisoners' enclosure.

## Knights of Anvil Went to the Port

Annual Outing of London Horsehoers and Hardware Men.

London horsehoers and hardware men had their annual picnic to Port Stanley on Wednesday afternoon. About 500 of the knights of the anvil and their families journeyed to the lakeside and enjoyed the cool breezes, while their less fortunate friends had to sweeter in the city. They put on a fine program of races, including every one in their efforts to provide an interesting afternoon. A special feature was the tug-of-war between two picked teams from James Wright & Co. and Cowan's, Wright's team won with two pulls out of three.

## WESTERN CROP MAGNIFICENT

Sir Donald Mann After Inspection Tour Is Well Pleased.

Winnipeg, Man., July 31.—"With a clearing sky the promise of abundant crops and better railway facilities to move those crops Canada need not be pessimistic," declared Sir Donald Mann, on his arrival after a western tour of inspection.

## RAILWAYS ARE READY

[Canadian Press.] Winnipeg, Man., July 31.—"With a clearing sky the promise of abundant crops and better railway facilities to move those crops Canada need not be pessimistic," declared Sir Donald Mann, on his arrival after a western tour of inspection.

## HEAVY STORMS

Winnipeg, July 31.—Reports from Carman, Manitoba and other points in Southern Manitoba tell of severe storms Wednesday and at both places had destroyed and badly damaged standing crops. At Carman barns and outbuildings were blown down, the property loss amounting to several thousand dollars.

## KELLEY PROTESTS GAME.

Manager Kelley announced last night that he had protested yesterday's game on the ground that "Umpire Owens was in the wrong when he called H. Bradley out for interference."

Referee—George Young.

## BILLION DOLLAR BUDGET PASSED BY FRENCH GOVT.

Had Been Hotly Debated in Both Houses for Thirteen Months.

In View of Big Expenditure Recent Loan to Mexico Is Regretted.

[Canadian Press.] Paris, July 31.—The budget for 1913, which the Chamber of Deputies voted last Friday, was finally adopted by both houses late last night. It had been under discussion for thirteen months, as provided for by it, are expected to total more than a billion dollars. Mutual concessions were made by both the Chamber of Deputies and the Senate before the measure was finally adopted. Notable among them was the consent of the Senate to the clause proposed in the Chamber of Deputies abolishing after Jan. 1, 1915, the existing householders' taxes and substituting therefor a sliding scale income tax.

In the chamber last night Deputy Perreault made a motion for the protection of public savings. He said he regretted that the Government had not prevented the recent loans to Mexico. Discussion on the motion was postponed until the next session, after the Minister of Finance said that he would not authorize any new loan issues in the meantime.

## Builders' Outing To Advertise City

Cleveland Will Learn About "The Best City in Canada."

Secretary Hunt, of the Western Fair, and Publicity Commissioner Phillips are going with the builders on their annual excursion to Cleveland on Saturday, and the excursionists while in Cleveland will advertise the Western Fair and London, "The best city in Canada for home or business." A quantity of suitable advertising matter will be taken along, and the committee will arrange for its distribution. The Cleveland builders will be invited to visit London during the week of the fair. The builders invite the public to join them on Saturday. Particulars are given in today's advertising columns.

## Monthly Statements

There is no manner of doubt that the Burroughs makes the best statement machine on the market today. It meets all the requirements of successful statement handling. It prints the months, dates; prints the dates, for instance, in red; gives you totals of credits and totals of debits; purchases and paid on accounts.

With a special statement carriage or with roll statements, either one, you can handle statements about three times as quickly as you can handle them by hand. We can prove it in your office.

## FEDERATION OF LABOR IS PROBING BIG QUESTIONS

Appoints Committee On Conservation To Co-operate With National Congress.

[Canadian Press.] Atlantic City, July 31.—In a statement issued yesterday Samuel Gompers, president of the American Federation of Labor, shows that many matters other than those bearing directly upon workers and industrial conditions were considered at the conference of the executive council which ended here Tuesday.

The appointment of a committee on conservation to co-operate with the national conservation congress, the appointment of a representative to attend the convention of the National Society for the Promotion of Industrial Education, and the selection of G. W.

**Na-Dru-Co Laxatives**  
accomplish their purpose with maximum efficiency and minimum discomfort. Increasing doses are not needed.  
25c. a box at your Druggist's. 174 National Drug and Chemical Co. of Canada, Limited.

Perkins, president of the Cigar-makers International Union, as representative of the federation at the international labor congress at Zurich, Switzerland, in September, were among the important actions taken.

Decisions were also rendered in many of the disputes which had arisen among subordinate organizations, according to the statement. The trouble between the steam shovellers and dredgemen was settled by the issuance of a charter to include members of both organizations.

In the case of the boiler-makers and iron shipbuilders, as opposed to the bridge and structural ironworkers, it was decided that the agreement entered into between these organizations in November 1910, is still in effect, and that any disputes that may arise between them is to be submitted to arbitration, provided the presidents of the two organizations are unable to reach an amicable adjustment.

The appointment of a committee on conservation to co-operate with the national conservation congress, the appointment of a representative to attend the convention of the National Society for the Promotion of Industrial Education, and the selection of G. W.

Financial and Commercial

MARKET OFFERINGS WERE ALL LIGHT TODAY

This morning's market was smaller than usual, the offerings in all lines being light. The highest price for wheat was \$1.25, and oats were lower, selling from \$1.05 to \$1.12 a cwt.

Table of market offerings including Wheat, Oats, Potatoes, Apples, and various other commodities with their respective prices.

Table titled 'CHICAGO BOARD OF TRADE' showing prices for various commodities like Wheat, Corn, and Oats.

Table titled 'TORONTO STOCK EXCHANGE' listing various stocks and their prices.

Table titled 'LIVE STOCK' listing prices for various types of livestock such as cattle, sheep, and pigs.

Long Run Fatal to Valuable Horse

Frightened by an automobile horn, a blooded horse, owned by W. Robbins, a farmer living at the corner of the Gore road and Clarke's sidewalk, dropped dead after having run many miles.

ONE KILLED, FOUR INJURED

A Grand Trunk Fast Freight Crashed Into Herd of Cattle. THE ENGINE WAS DITCHED. Montreal, Que., July 31.—An official statement issued by the Grand Trunk Railway says that about 4 o'clock this morning near Otter Lake, Ontario, a freight train consisting of two locomotives and 23 cars ran into a herd of cattle, resulting in the ditching of the locomotive.

Ingersoll Growers Swept Prize List

Won First Three Awards for Oats in the Crop Competition. [Special to The Advertiser.] Ingersoll, July 31.—After two days of arduous work Mr. Henry Grove has completed his task of judging the oat crop of the farmers in contiguous territory who were contestants in the standing crop competition conducted by the Ingersoll, North and West Oxford Agricultural Society.

IRISHMEN'S PICNIC GOES TO PORT AS USUAL

**Firemen Out Twice.**—The fire department had two runs Wednesday, one to a grass fire at Pine and Oak streets, and the other in the evening to the G. T. R. crossing and Clarence street, from where a false alarm was sent in.

**Law-Making Record.**—Ontario has established a record for law-making during the present year. Mr. Lud K. Cameron, the provincial King's printer at Toronto, has just received a few advance copies of the sessional statutes for 1913 from the Government printers and examination shows that in multiplicity of legislation they are the greatest that has been. The volume contains 1,772 pages, by far the greatest ever issued by the Ontario Government. It will be a few weeks yet before the public can be supplied with copies.

**CHEER, BOARDERS, CHEER!**

Reported From California That We Will Have a Pruneless Winter.

Cheer up, boarders; there's pleasant news from the seat of war! If all reports are correct, the boarding-house keepers will run out of their favorite wear on this year, and prunes will no longer be fired at the innocent boarders three times per diem. Stewed prunes, raw prunes, prune sauce, baked prunes, pickled prunes, prunes that are fat, prunes that are lean, and all other various and sundry forms of prunes, are scheduled to be conspicuous by their absence this fall and winter. Advice from California is to the effect that excessive heat has caused considerable damage to the 1913 prune crop, and for that reason a short harvest is expected. When this sad news will be broken to thousands of boarders from coast to coast, the old chorus of "We should worry," will be sent skywards till another earthquake might seem to be in progress.

**Detroit Excursion.**  
On Saturday, Aug. 2, the Grand Trunk Railway will sell round trip tickets to Detroit at \$1.85, good going on 11:43 a.m. train, and returning on any train (except No. 16), up to and including Monday, Aug. 4. R. E. Ruse, C. P. and T. A., Clock Corner. 85u

**Civic Holiday.**  
For Civic Holiday, Aug. 4, the Canadian Pacific will sell return tickets at rate of single fare, good going Saturday, Sunday and Monday, Aug. 2, 3 and 4. Return limit, Tuesday, Aug. 5. No tickets will be sold at a less rate than 25 cents. Call at city ticket office, corner Dundas and Richmond. 85u

**Simple Home Remedy For Wrinkled Faces**  
[From Popular Toilettes.]  
Thousands of women are spending fortunes in their frantic efforts to remove the signs of premature age from their faces. When in this state of mind a woman will spend almost any amount of money on worthless wrinkle removers, of which there are many. If these women only knew it, the most effective remedy imaginable is a simple, harmless face wash which can be made up at home in less than a minute. They have only to get an ounce of powdered sawdust and half a pint of witch hazel at the drug store and mix the two. Apply this daily as a refreshing lotion. The effect is almost magical. Even after the first treatment a marked improvement is noticed, and the face has a snug, firm feeling that is most pleasing.

**REMAINS COMPOSED UNDER SERIOUS CHARGE**

Reported That Miss Liley Has Made Statement to Officers.

Miss Carrie Liley, the young woman who is held at the county jail on a charge of infanticide, remains unemotionally composed and self-possessed. She does not appear to realize that appearances point to a serious case against her. Charles Webster, the man at whose home she had been living with her mother, has not been detained or apprehended as a witness. So far none of the authorities who have the case in charge have any information that would point to Webster's cognizance of or participation in the girl's action in burying the child in the yard of his home. It is understood that Miss Liley has given out a statement to some of the officers working on the case, which results of the post-mortem examination of the child's body may have some bearing on.

No startling developments are expected, however, pending the coroner's inquest on Friday. Miss Liley while living with her mother and father on Palace street for several years in this city, is said by London people who knew her to have borne an excellent character.

**Fire Chief John Attkin is going to have the pleasure, if there is any, in riding 'round in a 22-horsepower, \$825 runabout. If the council passes the recommendation of the fire, water and light committee. The committee last night opened bids for the chief's car, and after considering prices selected the cheapest. The chief ought to have a better car to stand up to the work required of it, but explained that the council would approve of a low-priced one only. Accordingly, the recommendation was made, despite the statement of the chief that he was afraid of its inability to negotiate heavy winter roads.**

Chairman E. Rose and Market Clerk Charles Maier were appointed to investigate complaints of leakage from basement stall tenants of the market house. The chairman, Ald. Hubert Ashplant, City Engineer W. N. Ashplant, and Waterworks Superintendent Thomas Hodgkinson, were delegated to select a site for a new water drinking fountain that is to be installed on Richmond street, between Queen's avenue and King street. Reports are to be forthcoming at the next session of the committee on the proposed east end market, the

**PHOTOPLAYS BASED ON BIBLE STORIES MAY BE BARRED**  
Those Depicting Scenes of Violence Would Break Film Regulations.

Not Necessary to the Teaching of Scripture History, Say London Pastors.

Mr. R. C. Newman, provincial inspector of moving picture films, has been receiving numerous inquiries from producers and religious organizations, anxious to use photo-plays of Bible stories, asking whether exceptions to existing regulations would be made permitting battles and other scenes of violence to be depicted in battle plays. The decree of Herod, calling for the slaying of the firstborn, the scene of the massacre, and the destruction of cities, among other Bible incidents, are now prohibited from being used on the photo-play stage. Rev. W. R. McIntosh, of King Street Presbyterian Church, expresses the opinion that exceptions might very well be made to the provincial regulations in favor of Bible stories in which the moral purpose redeems the element of cruelty and violence.

Ordinary stories of violence, Indian massacres, tales of wild west desperadoes and the like, there is no moral lesson and therefore no excuse for their representation in moving pictures. Pictures Not Necessary. Rev. H. Mitchell, of New St. James Presbyterian Church, believes, however, that the Bible can be taught without the moving picture, and that the provincial regulations need not be overstepped in the case of Bible photo-plays. In his opinion the moving picture does a great deal of harm to the eyesight of its patrons. "We all like pictures," said Mr. Mitchell, "but if the regulations forbid certain Bible scenes, we can get along without the photo-play."

**Some Dangers.**  
Rev. Dr. Flanders, of the First Methodist Church, declined to express a general opinion. He would like to see the pictures first. Bible stories adapted to photo-play representation were no doubt beneficial in familiarizing the young with the Bible, but the danger of the producer making his Bible plays unduly sensational, with a view to making them more popular with his picture theatre patrons.

**HUNDREDS OUT TO CHESLEY GARDEN PARTY**  
Substantial Sum Was Secured For Public Playground at School.

About four hundred people were present at the garden party given by the Chesley Avenue Mothers' Club, on Tuesday evening, on the grounds of the Chesley avenue school. The affair was a great success, over \$75 being realized. The money will be devoted to the needs of the public playground which the Mothers' Club is endeavoring to establish at the school. The visitors at the garden party were entertained by a splendid program. Mr. E. R. C. T. was chairman of the board of education, presided, and spoke a few words of encouragement and help. He was heartily in favor of making the school a social centre for the district in which they are located, and he hoped that the present gathering would be only one of many such.

Rev. R. W. Riddford also spoke, expressing his heartiest approval of the playgrounds movement. The band of the First Hussars was present and favored with numerous selections during the evening. Capt. Tobson sang several solos in pleasing style, and selections by the Excelsior Male Quartet were also greatly appreciated. A feature of the evening's entertainment was the Scotch dances by Miss Gladys Conner and Miss George, music being furnished by Pipers McLeod and Russell. Booths at which were dispensed ice cream, peanuts, popcorn, candy and home-made preserves, attracted a large throng, and the financial success of the event was assured.

**RECOMMEND RUNABOUT FOR FIRE CHIEF ATTKEN**

It's a Low-Priced One, However, and May Not Give Adequate Service.

**Strike Leader To Study Conditions**  
[Canadian Press.]  
Boston, July 31.—To study the methods of the Industrial Workers of the World, Thomas Mann, who led the coal miners of England in the great strike in that country last year, arrived in Boston on the steamship Franconia last night. A delegation of leaders of the Industrial Workers of the World, including William Yates, of Lawrence textile strike fame, met the leader at the dock. After a conference of several hours, Mann left for Pittsburg, where he will make his headquarters during his stay on this side.

Those contemplating a seaside trip should bear in mind the excellent train service offered by the Canadian Pacific. Fast Express trains leave Montreal 9:15 p.m., daily and 9:00 a.m. daily, except Sundays, for Portland and other Maine Coast Resorts. Connecting trains leave Toronto 9:00 a.m. and 10:30 p.m. daily. Day train carries dining car and parlor car and night train standard sleepers to Montreal. Through standard sleepers for St. Andrews, N. B., leave Montreal 7:25 p.m. daily. Connecting train leaves Toronto 9:00 a.m. daily. The Canadian Pacific is the only line operating through parlor and sleeping cars between Montreal, Old Orchard Beach, Biddeford, Saco, Kennebunk and Kennebunkport. Full particulars from any Canadian Pacific agent or W. Fulton, city passenger agent, London. 76n-tyw

**CONDUCTOR REFUSED TO BACK UP TO THE BODY**  
Coroner's Jury Decides Death of Young McIntyre Was Accidental.

"That the deceased Frederick McIntyre came to his death by being struck by passenger train No. 5 on the west-bound track of the Grand Trunk Railway," the coroner's jury at the inquest into the death of the 15-year-old Frederick McIntyre, who was struck and killed by the International Limited about a mile and a quarter west of Dorchester Station on the evening of July 24. The inquest was held at Dorchester Wednesday evening, Coroner Dr. Warren Doan presiding.

Such was the verdict of the coroner's jury at the inquest into the death of 15-year-old Frederick McIntyre, who was struck and killed by the International Limited about a mile and a quarter west of Dorchester Station on the evening of July 24. The inquest was held at Dorchester Wednesday evening, Coroner Dr. Warren Doan presiding.

**Wouldn't Back Up.**  
The rider, respecting the disposal of the body after the accident, was added by the jury on the strength of some of the evidence offered at the inquest, in which it developed that the engineer after bringing his train to a stop was desirous of returning to the spot where the accident occurred, but was prevented by the conductor of the train, who refused to back up.

Engineer Harry Overend testified that he brought his train to a stop as soon after the accident as possible. He saw the body thrown about thirty feet onto the other track and saw it roll between the rails. He sent the brakeman to tell the brakeman to protect the rear of the train. On getting a signal from the brakeman he started to back up. He immediately received orders from the conductor to stop. "We'll not back up a foot," he is alleged to have said. The conductor was not subpoenaed, and consequently his side of the story was not heard. The brakeman told the body from the tracks, while the conductor notified the authorities in the village by telephone. The train then proceeded.

**How Accident Occurred.**  
Both the engineer and fireman on the passenger train saw the boy standing on the track, apparently absorbed in watching a passing freight train. The engineer blew the whistle, and started the automatic bell ringing immediately on seeing the boy on the tracks. When he appeared to pay no attention he set the brakes and shut off steam, but the train was travelling a mile a minute and he could not bring it to a stop in time to prevent the fatality.

The engineer and fireman of the freight train were both called, but could throw no light on the tragedy beyond the fact that they observed the youth on the track as they were passing. They did not know that the accident occurred.

Dr. P. C. Banghart read the results of the post-mortem examination. The dead sustained frightful injuries, death being instantaneous.

The jury was made up as follows: Messrs. W. H. White (foreman), Robert Farquhar, R. A. Carruthers, Gardner Merrick, Benn Johnston, J. E. Markle, John Rennie and Peter Topham.

All liquor stores—demand Canada Club. Carling, London.

**JOHN MILNE DEAD**  
Eminent British Seismologist Had Travelled All Over the World.  
[Canadian Press.]  
Newport, Isle of Wight, England, July 31.—Professor John Milne, the eminent seismologist, died here today, aged 63.  
He was well known all over the world, as he has made extensive travels in America, Australasia, China, Japan, the Southern Seas, and Europe. For 20 years he was employed by the Japanese Government for which he established a chain of nearly 1,000 earthquake-recording stations. He also completed a solemn survey of the world for the British Association.
