## FELL EIGHTY FEET

Brooklyn Girl Took a Mighty Tumble and Still Lives.

New York, Sept. 4.—After a fall of 80 feet into the gorge of the Kaaterskill Falls, in the Catskill mountains yesterday, Miss Caroline Schroeder, of Brooklyn, was found to be unhurt, save for a few bruises, according to a special to the World. The water plunges over a precipice 280 feet in height, and on one side of the gorge is a sheer rock jutting out 80 feet below the summit. Miss Schroeder ventured too near the edge of the gorge, lost her balance and fell. The people saw her body whizz downward. They saw it rest for a moment in the balsam boughs, and then disappear in the mist of the dense foliage below.

Three men descended on ropes and found the young woman unconscious. Physicians in attendance, however, said that while severely bruised, she would suffer no serious consequences.

## SPECIAL TRIP

Demented Newspaper man made Ocean Voyage to Commit Suicide.

Falmouth, Eng., Sept. 4.—The Wilson line steamer Buffalo, which passed the Lizard last night and signalled that she had broken her shaft, arrived here to-day. The captain reported that a newspaper man named Joy had committed suicide by taking poison during the voyage. In a letter to the captain, he requested that his remains be buried at sea, which was done. Joy wrote that he took the voyage especially to commit suicide. He directed that certain of his belongings be sent to Josephine Job, and left presents for the stewards and stewardesses.

## IRISH KING

Queen Draga Picks a Milesian for Alexander's Successor.

New York Sept. 5.—A cable from Belgrade says:—Queen Draga has decided on a successor to the Serbian throne in the event of her dying without offspring. Her choice is Lieut. Nicholas Lanevitz, a young officer of her household, who is an Irishman by descent. He is a dashing young fellow with Irish urbanity and liking for the fair sex. He has been a strong partisan of the Queen in her troubles with her husband's advisers. Lanevitz is a grandson of a famous Irish officer in the Russian army, who was one of the Lanes of Roscommon.

## MUCH YUKON GOLD.

Ottawa, Sept. 4.—Commissioner Ross of the Yukon, arrived here this morning. He said sixteen million dollars' worth of gold had been taken out by Aug. 1. On the subject of the royalty he had not said in the interview on the coast that he was in favor of a reduction. What he did say he thought the royalty could be more easily collected as an export tax. He declined to state what his opinion was as to a reduction, but would communicate it to the minister.

## COMMANDANT BOTHA DRIVEN INTO A TIGHT CORNER

His Force Tied up in the Mortimer District With Horses Exhausted —Invaders Threaten Zuurbrak Pass, Cape Colony.

London, Sept. 5.—The going to and fro of certain persons between London and Cape Town is to be stopped by the Government. The Pall Mall Gazette says the mails of other suspected persons have been examined, and that important correspondence has been seized.

### LOYALISTS COMPLAIN.

A Durban despatch says:—Representations have been made to Milner that the British refugees are not nearly so well treated as are the Boers, and are suffering terribly. The transportation by railroad of supplies for the Boer refugees prevents the British returning to their homes. Foreigners, it is said, are allowed to move about as they are inclined. The refugees are threatened with ruin through accumulating liabilities. The feeling prevails that the proposed settlements are not fair to the new colonists, and that a just proportion of the responsibility for the war and the expense involved is not shown by them.

### BOTHA IN A CORNER.

A despatch from Cape Town says:—The forces of Gen. Botha and Dorrance have driven Gen. Botha into the Mortimer district. Nearly all of Botha's horses are in an exhausted condition and fully one-quarter of his command is dismounted. Botha captured 30 remounts.

### THE INVADERS.

Boer invaders are threatening Zuurbrak Pass, Cape Colony, which commands Swellendam. The place is well defended, however, and it is not likely that the Boers will attempt to enter the town. Scheepers' Boer command passed close to Montague, and had a slight brush with the local scouts. They had spare horses and were apparently well equipped. A column of troops has gone in pursuit.

## BIG PENINSULAR FAIR WILL BE HUGE SUCCESS

Splendid Meeting of the West Kent Agricultural Society Last Evening —Judges Appointed for the Various Classes.

Chatham is going to have one of the best fairs this year that has ever been known in the history of the West Kent Agricultural Society.

This was clearly demonstrated at a meeting of the directors of the society last evening. These men are putting new life in the work of the society and are bound to do all in their power to make Chatham's Fall Fair a grand success.

Already applications for space and entries for the prize list are coming in almost as fast as the secretary can handle them. Merchants wishing to occupy space in the main building, however, should apply at once; or they will be unable to secure it, as already a large amount of it has been taken.

The merchants and manufacturers are coming up nobly with their subscriptions and, as a result, there is already a large amount of money in the treasury. The president of the society, Mr. Chinnick, and Mr. McNeillage waited on the Council of the Township of Chatham and succeeded in obtaining a grant of \$75. It is fully expected that the other townships will do equally as well in helping the fair along.

There are a number of special features provided for the fair, which will be held on the 8th, 9th and 10th of October this year, amongst which is a horse race, 250 class, half-mile. There will also be a number of farm-ers' and free for all races.

The meeting last night was called

chiefly for the appointing of the judges for the different departments. There were present, Messrs. President Chinnick, Sec.-Treas. Henry Robinson, John Dowling, D. A. Hutchinson, S. Stone, Alex. Dolsen and J. Anderton. John Burky was given the contract for supplying straw and water, the former at the rate of \$2 a load, and the latter for \$6.

A. J. Dolsen was appointed to attend to the selling of the tickets.

J. W. Fleming reported that he had written to Adam Beck, of London, asking him to act as a judge on horses.

As yet he had received no reply.

Messrs. Scholfield, Austin, Sheldon and Stone were appointed a committee to wait on the City Council to receive their usual grant of \$300.

Messrs. Stone, Austin and Scane were appointed a committee to arrange for securing water and electric light.

The secretary was empowered to install a telephone in the office at the fair grounds.

The following judges were then appointed:—

Poultry—Mr. McNeil, London.

Fine Arts—Mr. Hunt, London.

Ladies' Dept.—Mrs. T. K. McKeand, Miss J. Ryan, Miss Laura Wilson, and Mrs. Robt. Smith, of Dover.

D. A. Hutchinson was appointed to assist the judge on Durham cattle; Robert Smith, the one on dairy cattle; W. Newkirk, the one on hogs, and J. Catton, the one on sheep.

It was decided to hold their next meeting a week from Wednesday at 4 o'clock, when the directors will go to the fair grounds and see what improvements and repairs will have to be made. They will then meet again in the evening.

## WITHOUT CLOTHES

Small-pox Nurse Travelled From Saginaw to Bay City in Bathrobe.

Bay City, Michigan, Sept. 4.—According to Dr. M. C. Bristol, the Saginaw board of health is composed of a peculiar lot of people. His story was told at a special meeting of the board of health of this city yesterday. The doctor's sister-in-law, Miss Amelia McGilvery, a nurse, attended numerous small-pox patients in Saginaw county, and a short time ago, was taken with the disease herself, and sent to the detention hospital. The Saginaw authorities asked the family, who live here, to send a nurse, and Miss McGilvery's sister, Muriel, went to care for her, although she was not immune. A few days ago, between 10 and 11 o'clock, at night, Miss Muriel appeared at Dr. Bristol's home here, clad only in underclothing and bathrobe, in which garments she had walked four miles from the Saginaw detention hospital to a street car, and came to this city in an interurban car. Miss Muriel's story was that before her sister had fully recovered, Dr. Ryan, who was in charge of the hospital, wanted to take a vacation, and ordered the patient discharged and the place disinfected. The sisters were placed on the lawn and left there several hours, waiting the pleasure of the health officer, and Muriel was then told to go home, but given none of the clothing, being forced to make her way in the attire which she wore when she reached here. Miss Muriel came down with a mild case of small-pox a day or so after her arrival, and is now being cared for by Dr. Bristol.

## COERCION

Such Measures Have Been Decided Upon by France Against Turkey.

Paris, Sept. 4.—The correspondent of the Associated Press here learns that the first coercive measure against the Sultan of Turkey has been decided on by the French Government. A decree has been drawn up, and probably will be signed tomorrow, expelling a number of Turkish agents, whose mission has been to pay on the young Turks in France. This list contains several names well-known in Parisian society. It is also learned that the Sultan has telegraphed to Munir Bey, recalling him to Constantinople.

The Temps says it is thought in diplomatic circles that the Sultan will profit by the fortnight's respite accorded him by the Czar's visit to France.

Constantinople, Sept. 4.—Munir Bey, Turkish ambassador to France, has been ordered to return to Constantinople.

### THE RACE POSTPONED.

Rat Portage, Ont., Sept. 4.—It is a disappointed crowd in Rat Portage owing to the failure to pull off the championship boat race this afternoon. The morning was fine and warm, with no breeze. About 1 p. m. a stiff wind got up and raised quite a choppy sea. The judges steamed over the course in their boat, but decided to postpone the race for an hour or so in hopes of the wind dying down. At the expiration of that time they again went over the course and postponed the race until 7 p. m. At the time, however, there was still such a swell in the bay that the men were unable to race, and it was decided to call the race off until 4 p. m. tomorrow. There was big crowd down, but the attendance was not so great as was expected. Betting was very slow and ruled at two to one on Gaudaurist the finish, but there were few takers.

THURSDAY, SEPT. 5.

### STRANDED.

The approach of the long arctic winter finds, as usual, a large number of gold seekers stranded at Nome, says the St. Thomas Times. Without money or opportunity to earn any, hundreds of men who have spent the summer in prospecting must either obtain free transportation back to the States, or become chargeable on public charity. As they are anxious to get away, and the town is anxious to get rid of them before winter sets in, some way will undoubtedly be found to secure the necessary transportation, but in the meantime much genuine hardship must be endured. In this connection it is alleged by some of the victims of the greed for gold that a widespread conspiracy exists to lure people into Alaska by wonderful tales of rich strikes and unexplored regions full of valuable claims yet untaken. Once landed by the steamship companies which are alleged to be concerned in the conspiracy, the stranger becomes the prey of outfitters, guides, men with claims to sell and a host of swindlers who quickly relieve him of all the cash, and then leave him to starve or find his way home as best he can. Sometimes, it is alleged, it is the intention of those who thus lure prospectors that the victims shall never return. The methods of these sharks, as described by one newspaper, are artful.

When the average young man leaves Portland for Seattle he is immediately beset by sharks whose purpose is to ensnare him. It is represented that a new company is being formed, the members of which are to take ship on a certain day. The advance money for the enterprise will be furnished by the developer, who will take the youth's agreement to work out the amount. His actual cash goes into the purchase of an outfit at Seattle. He lands at his destination to find himself moneyless, friendless and a slave to an unconscionable conspiracy from which he cannot escape. He is as verily a slave as the Mexican peon. All the ship companies stand together, so that he can find no exit. He works, and perhaps dies, while the conscienceless developer returns home with the blood money of a hundred victims.

It seems hardly credible that a conspiracy of this kind can be so widespread as is alleged, but it is certain that large numbers of men are stranded in Alaska, every fall, and that there is great suffering among them. The number of those who have made lucky finds is small, and the number of those who have drawn blanks is very large. It is so in every gold field, but in Alaska the risks run by the man of small means, and the prospector who depends mainly on his personal effort are much greater than in more temperate regions, and this fact ought to act as a deterrent on those who are tempted to try their luck in the mines. No one ought to go to Alaska to prospect for gold, or for that matter, for

any other purpose, who has not sufficient means to maintain himself for several months, and he ought to make sure of his return passage by buying a round-trip ticket to begin with.

### THE UNSPEAKABLE TURK.

The greatest irony of all modern history, says The Westminster, is the persistence of the Turkish Empire within the continent of Europe. According to all known laws of historical nemesis, poetical justice and ethical retribution, such a potentate as the present Sultan should have been impossible any time in the nineteenth century, and yet we find him pursuing his mad career well into the twentieth. The intrigues of relatives, the threats of foreign governments, and the indignation of the civilized world seem unequal to the task of either improving him as a ruler or ridding the world of a fiendish despot. His Oriental cunning seems equal to every emergency, and he manages to survive every international crisis. So the strange comedy will go on with its alternations of awful massacres, petty wars, and political assassination, probably until the present incumbent of the Turkish throne gives place to another equally bad if not worse.

### CHANGING SENTIMENT IN THE SOUTH.

That old saying: "It is always darkest just before the dawn," may apply to the lynching situation in the south. During the past two months indications of a dawn of better conditions have been numerous. They have not been confined to any particular locality, but on the contrary, they came from widely scattered sources. Within three weeks eight negro prisoners who have been jailed for crimes have been preserved from lynching by as many determined sheriffs. The bold sheriffs did their duty in the states of North Carolina, South Carolina, Georgia, Alabama, Texas, Mississippi and Kentucky. Thus men accused of crime were accorded the right to a fair trial, and six states were preserved from disgrace.

A still more notable occurrence took place in Wetumpka, Ala. Some time ago a negro named Robert White shot and wounded a white man, and was locked up in jail. A mob gathered and White was taken from the jail to an adjoining swamp and hanged by the lynching party. This has usually been the end of a lynching event for public opinion in the locality, if it did not wink at the punishment of crime, with crime, at least did not support an arrest and punishment of the lynchers. In this case, however, the public morals appear to have been awakened, and George Howard, one of the lynchers, and a prominent white citizen, was arrested and brought to trial. Howard, feeling secure in the protection of his color, and in the prejudice against the blacks, confessed his part in the affair, and gave up the names of his associates. To his surprise Howard was convicted of complicity in a murder and given a life sentence. The others, whose names he gave, have been arrested, and they are expecting the same kind of treatment. A feature of the case is the fact that the jury was composed entirely of white men. It is, of course, probable that executive clemency will be extended to these offenders after

### LOST HIS BUSINESS!

Ill-health "puts the shutters up" in many an honest man's business, and there are thousands of cases on record where the only saving power on earth to take them down again is South American Nerve.

"I was completely prostrated with Nervous Debility. I had to give up business—doctors only helped me temporarily. I was the most dispirited man alive when I started taking South American Nerve, but the splendid cure I had read gave me hope, and I had not taken half a bottle before I found relief. I took twelve bottles, but am cured."—E. Errett, Merrickville, a.

**STEAMER URANIA**  
Commencing June 17th the Lake Erie Nav. Co. Steamer Urania will leave Rondau every Monday, Wednesday and Friday, at 4 p.m. and Sunday at 10 a.m. for Cleveland, Ohio. Special train leaves Chatham Monday, Wednesday and Friday 2 p.m. to connect with boat. No one ought to go to Alaska to prospect for gold, or for that matter, for

they have been given a sharp lesson. For they have merely followed an established custom, but there is a suggestion in the action of this court that lynching is assuming a new, and not altogether favorable aspect in the localities where it is most practiced.—Detroit Tribune.

We haven't found time yet to calculate how many new authorized books the schools are to have this season.

The Liberal-Conservatives of Chatham met last evening and selected their representatives to Saturday's big convention, when the coming Provincial member for Kent will be chosen. This gathering promises to be one of the largest, most representative and most enthusiastic in the political annals of this district.

The soldier boys of our Regiment are in harness again. Capt. Massey had the members of D Company out for the initial drill last night. Other companies will follow. A little energetic work this fall should place the drill of our men among that of the best of them. But the target practice—how about the target practice?

The season of half-holiday closing is over as far as the merchants who promised the vacation to their employees—and kept their promise—is concerned. But the employees of the Banner-News are to-day revelling in just such a half-holiday (P) "as they had last Thursday and every other Thursday for the past two months."

The Press crowd, says the Hamilton Times, had a most interesting time. They saw almost everything from the verdure-clad meadows of Arcadia to the wet, salt ocean; and they indulged in all sorts of experiences from a Dan McGillicuddy oration to a railway collision. There's nothing like enjoying yourself while you're young and frisky.

It was an excellent idea on the part of the Public School Trustees to have a telephone service established in the various schools, especially at the reasonable rate they secured. The service will be a great convenience to the parents and public, and its inauguration evidences the progressive character of the Board and their anxiety to provide the best equipment possible in accord with proper economy.

## THE MARKET

## THE LOCAL MARKETS

Planet Office, Tuesday evening, September 3rd.

The following grain gossip was given to The Planet by Harry Stevens, of the Canada Flour Mills Co.:

Wheat market at the mills has been a lively one the past two weeks. Farmers twenty miles from the city are bringing wheat to Chatham to obtain the high prices paid by the local millers. This should be a great boom for the stores and banking institutions of the city, for where the money is paid, to the farmer, that is where he is making purchases. The price is two cents lower to-day than yesterday, 66c. being standard.

Oats are being marketed freely; mixed oats at 31c and white at 32c. Barley is also being delivered in fair quantities at 90 to 92c per cwt. Corn is considerably lower in sympathy with the western market, 53c. being the highest paid for shelled yellow corn.

The deliveries of beans are practically nothing. Farmers will soon have the new crop on the market, which will be a much larger one than anticipated a few weeks ago. Buckwheat is out of season.

The following are the prices:

Wheat, 66c.  
Mixed oats, 31c.  
White oats, 32c.  
Barley, 90 to 92c.  
Corn, shelled, 53c.  
Ear corn, 48c.  
Beans, primes, \$1.50.  
Buckwheat, 50 to 55c.

## HAY.

Hay—Coming in our local market very well, shippers report demand as steady at low prices.

The following are the prices:  
Hay, clover, \$5.50 to \$6.  
Hay, baled, \$6.50 to \$7.50 per ton.

## HENRY CLEWS' REPORT.

Henry Clews, in his weekly report to this journal, says:—

"We are up against a crop situation which, if not discouraging, is certainly less encouraging than last year. We are assured of good wheat and hay crops. The former is especially important; for, owing to the shortage in Europe, we are sure of a good export demand at satisfactory prices. This means a high degree of prosperity for all the wheat-growing regions, good hauls for the railroads and a favorable effect upon our foreign trade balance. This is the best that can be said of the crop situation. Prolonged drought in some sections and too much rain in others have been anything but beneficial to crops in general. The injury to corn is already familiar. Late corn has shown great improvement during the last three weeks, and crop estimates are being steadily raised; but it is altogether too early yet to place any fixed reliance on the estimates of yield, late corn being especially liable to frost damage. Should corn escape frost and the weather continue favorable the remainder of the season, we might easily harvest a crop of 1,400 to 1,500 millions; but the frost possibly makes a very important 'it.' Fortunately the partial loss of the corn crop will prove in no sense a calamity; but in spite of favorable effects it will enforce economy among large numbers of farmers and of necessity be a check upon business activity. Its effects will be felt among merchants by the railroads, and in the provision markets during the fall and winter months, rather than now. Another important crop is feeling adverse weather conditions, and that is cotton. Too much rain in some sections and too little in others.

## Township Councils.

## DOVER COUNCIL.

The council met on August 26th. The members were all present and minutes of the previous meeting were read and adopted.

Joseph E. Gore and Eusebio Poissant appeared before the council, and asking to have a part of the Given road in the fifth concession, west of Big Point Road, diverted so as not to pass diagonally across their lands, as it now does, to the injury of said lands, and causing much inconvenience to said owners.

John Morden and John Bourbe were heard at some length, and complained about the 17th concession Road between the Baldoon street and the Town line, and wanted the ditch in the middle of the road filled in, and the concession road opened up in its proper place. A report was read from

## THE NEW BABY

Opens up a new world to the loving mother. If it is a strong, healthy baby that new world is a world of happiness. If it is a weak, fretful child the new world is full of anxiety. It has been proven in thousands of cases, that the use of Dr. Pierce's Favorite Prescription makes all the difference between strength and weakness in children. Healthy, happy mothers have healthy, happy children. "Favorite Prescription" gives the mother strength to give her child. It makes the baby's advent practically painless and promotes the secretion of the nourishment feeding of the nursing child.

"I have been using Dr. Pierce's Favorite Prescription and can say it is just what you advertise it to be," writes Mrs. Victor J. Madin, of Leonardville, Kan. "I began taking it just two months before baby came and was greatly benefited by its use. The doctor who attended me said I did about as well as any one he had seen (as I was sick only about three hours), and also that your 'Favorite Prescription' was 'one patent medicine' which he did have faith in. We now have a darling baby, boy, strong and healthy, who weighed nine pounds when born. During this month he has gained three and one-half pounds. Have never given him one dose of medicine."

Dr. Pierce's Common Sense Medical Adviser, in paper covers, sent free on receipt of 31 one-cent stamps to pay expense of customs and mailing only. Address Dr. R. V. Pierce, Buffalo, N. Y.

Dr. J. S. Agar, medical health officer of Dover, in reference to the complaint made against the dumping of refuse and causing public nuisance on lots owned by James Paul, in Woods survey.

Mr. Wright reported having repaired a bridge over the Bachand drain on the 8th concession and Big Point road.

A communication was read from A. Dymond, principal of the Ontario Institution for the Blind, at Brantford, in reply to the clerk's letter of inquiry.

Moved by Trudell and Wright, that the clerk prepare and post and publish in the newspapers, the notices required by the statute that the council intend to pass a by-law diverting a part of the Given road in the 5th concession west of the Big Point Road. Carried.

Moved by Wright and Grant, that a grant of \$40 be made from the general funds to improve the 17th concession road between the Baldoon street and the Chatham and Dover town line by filling up a ditch wrongfully made in the middle of said road a few years ago, and that Mr. Crawford be appointed to have the work done at once and report to the council. Carried.

Moved by Crawford and Grant that Simon McNairne, Jos. B. Crow, Robert Wilmore, Wm. Payne, William Gordon and Edmund Files be each paid \$1 for making pathmaster's returns. Carried.

Moved by Trudell and Grant, that the clerk serve on the reeve of Chatham township certified copies of the Boyle drain by-laws. Carried.

Moved by Wright and Grant, that the reeve be appointed to ascertain the state of the progress of the work of improvement on the Wilcox-Ouellette drain, and report to the council. Carried.

The following by-laws were read, finally passed:—(1) A by-law to provide for the cost of maintenance of Little Bear Creek drain in the township of Dover. (2) A by-law for the Boyle drain outlet. (3) A by-law for Gray drain deficit. (4) A by-law for the Boyle drain outlet deficit in Dover. (5) A by-law for the Crawford drain deficit.

The council then adjourned. J. WEISH, Clerk.

## HELD UP AND ROBBED

**An Arkansas Express Robbed and Stranded.**

Robbers Elope With the Engine and Cannot be Located—Believed That They are Railroad Men.

Texarkana, Ark., Sept. 4.—No. 1 Cotton Belt passenger train, leaving Texarkana at 9:25 p.m., in charge of conductor Armstrong and Engineer Henderson, was held up and robbed last night near Elyria, four miles south of Texarkana.

The train was flagged by one of the robbers, who forced the fireman to go back and cut off the mail and express car, and returning, forced the engineer to give up the management of his engine. One of the robbers ran the engine, man and forced the express messenger to open the car. The robbers then blew open the safe with dynamite, securing, it is said, a very large amount of booty. The exact amount is withheld by the railroad and the express people, but it is known that a very large shipment was made on this train.

The robbers next cut off the engine from the mail and express cars, and forcing Engineer Henderson to get off they took the engine, in charge of the robber-engineer, and went south at full speed. At 11:40 o'clock this morning the engine had not been found. No passengers were molested, though they were badly frightened.

The robbers were evidently in possession of all facts concerning this particular shipment of money, together with a schedule of the train, as their scheme was successful in every respect. A suspicious character was seen to board the head end of the train on leaving Texarkana. Railroad employees here are confident that the robbery was committed by railroad men, from the manner in which they cut off the cars and handled the engine. The gang numbered five.

The spot selected for the robbery was well adapted for this kind of work, being very wild and heavily timbered. The conductor and several passengers walked back to Texarkana, a distance of four miles. The sheriff in pursuit of the robbers. At this hour the passenger train stands in two pieces, with the engine's whereabouts unknown.

St. Louis, Mo., Sept. 4.—Only meagre information has been received at the offices in this city of Vice-President and General Manager Britton of the St. Louis Southern Road (Cotton Belt), regarding the robbery of a passenger train last night near Elyria (Texas) Station. After blowing open the express safe with dynamite, it is stated the robbers secured two sacks of loot. They then transferred to the engine, on which they decamped. Engineer Henderson followed on a handcar which he secured from a nearby section house, and came up with his engine about four miles from the scene of the robbery. The machine had been deserted by the robbers, who, the engineer believes, were all in the engine. The robbers escaped in railroaders. The train was delayed about four hours. The robbers did not molest the passengers, nor did they attempt to break open the mail car.

Two possums and a pack of bloodhounds from the pen at Rusk, Texas, are after the robbers. Engineer Henderson was unable to give a definite description of the gang. They were all closely masked, but he is sure they were young men.

## INVASION OF ENGLAND.

Paris, Sept. 4.—Col. Delanney has an article in the Vie Illustrée to-day, in which he discusses the possibility of a French invasion of England. He says that taking into consideration the superiority of the French guns, the quality of the officers and men, and the bravery of the officers and men, he is full of hope for the day when the navies of France and England will measure strength.

## PEARY FINDS SVERDRUP.

Gothenburg, Sept. 4.—News that Lieutenant Peary had found Sverdrup on the western side of Greenland, apparently unprepared to round Greenland, has caused considerable anxiety. It was hoped that Sverdrup would find Andree on the eastern side, Andree's brother, residing here, believes him to be living.

## EXCITEMENT IN HUNGARY.

London, Sept. 4.—The Vienna correspondent of the Times says that on the reassembling of the Hungarian Parliament there was much excitement over the attempt to force action on the petition asking for the indictment of ex-Premier Baron Banffy for an alleged scheme to overthrow the constitution. Herr von Szell, the present Premier, declared the charge "nonsensical."

## FRENCH RELIGIOUS ORDERS.

London, Sept. 5.—The Brussels correspondent of the Times says that in spite of the adverse action of the bishops the influx of the French religious orders into Belgium as a result of the operation of the Law of Associations continues. A very pretty event took place Monday afternoon at the residence of Mr. and Mrs. Burgess, Williams street, when their eldest daughter, May, was married to Frank Shardon, an employee of the Wm. Gray & Sons. The bride was very becomingly dressed in white silk, trimmed with lace, and carried white roses, while the bridesmaid was dressed in pale blue with white lace over it, and carried white roses. The happy couple left on the nine o'clock train for Toronto, and will also take in the Pan-American. The couple will make Chatham their home. The ceremony was performed by Rev. Dr. Hannon.

LEFT TO HIS WIDOW. New York, Sept. 4. — The will of Louis Thurston, late of New York, who died some weeks ago at Manhattan, Germany bequeaths an estate estimated to be worth between \$2,000,000 and \$3,000,000. The bulk of the estate is left in trust for his widow.

DIAMOND SMUGGLER CAUGHT. Chicago, Sept. 4. — Diamonds and other valuables worth \$25,000 which were recently slipped into the country by a prominent Chicago man on his return from Europe, without payment of duty, have been seized by J. J. Crowley, special agent of the treasury department in this city. An effort is being made to settle the case with as little publicity as possible. It is probable that the owner of the valuables will pay all the costs, which will amount to something like \$10,000, and thus avoid prosecution.

## PRETTY WEDDING.

Last evening at the residence of Mr. Angus Tuck, Harvey street, a very pretty wedding took place, when Richard J. Jewell, of Northwood, Rev. F. J. The happy young couple left last evening on their wedding tour to the Pan-American and other points east, and on their return will take up their residence in this city.

## RECUPERATIVE EFFECT.

Considered with reference to its recuperative effect, there is not so much good in the ordinary vacation as there is in a single bottle of Hood's Sarsaparilla. The latter costs \$1; the former—well, that depends; how much did yours cost last year? Hood's Sarsaparilla refreshes the tired blood, sharpens the dulled appetite, restores lost courage.

## TO TORONTO

City Editor Spry, of the Banner-News, was joined by the Business Staff of the Globe.

D. W. B. Spry, late of the Banner-News, has accepted a responsible position in the business department of the Toronto Globe, and has assumed his new duties. The Planet sincerely congratulates Mr. Spry on his advance in the newspaper world and wishes him every success in his new sphere.

Mr. Spry, who was formerly connected with the Barrie Examiner and St. Thomas Journal, came to this city some five years ago to take a position with the old Banner. When the management assigned in August, 1900, he was placed in full charge of the paper, filling the positions of business manager and editor during the time of liquidation—no easy task — with considerable ability. With the establishment of the Banner-News Mr. Spry became a valued member of the staff and remained as such until his present promotion to larger fields.

Mr. Spry will be missed in this city. His services as adjutant of the 24th Regiment have been very instrumental in the rapid progress of the local militia from organization to its present proficiency, and his departure will leave a vacancy hard to fill. Mr. Spry was also one of the most prominent members of the Masonic craft here. He held the positions of 3rd and 2nd Principals in Wellington Chapter, No. 47, and in Kent Proscopery, No. 20, was presiding preceptor. Prior to this he served as marshal, constable and presiding preceptor. He was appointed to the Provincial Priory of London, No. 1, under the Great Priory of Canada.

Mr. Spry is storing his furniture in Chatham, as, owing to the ill health of Mrs. Spry, he has been compelled to give up house-keeping for some months.

Chathamites will all wish Mr. Spry much success in his new sphere.

## CUT TO PIECES

Arthur Beretz was Killed in Detroit by a Street car Yesterday.

Detroit, Sept. 4.—Arthur Beretz, the 7-year-old son of John Beretz, 93 Thirty-first street, was run over by a Michigan avenue car at Twenty-fifth street and Michigan avenue this morning and instantly killed.

With some other children, Arthur was playing on Michigan avenue this morning, when an ice wagon came along. The little fellow started across the street to get a piece of the ice and failed to notice Michigan avenue car No. 609, which was coming down the avenue at full speed.

The undertaker, James Cotter, saw the boy coming and sounded his gong. He also made an effort to stop the car, but its momentum was too great. The little fellow was gathered up by the fender and rolled under the wheels, the car running at least half a block before it was brought to a standstill.

When the car was finally stopped and the body was dragged from under it, it was found that the boy's head was crushed and his right arm and leg literally cut to pieces.

The body was gathered up in fragments and removed to the hardware store of H. R. Ziegler & Son, 1040 Michigan avenue, and Coroner Hoffmann was notified. An inquest will be held.

The body was later removed to J. F. Schmalzriedt's undertaking rooms, 1435 Michigan avenue.

The boy's mother was notified of this accident by some of Arthur's little playmates. Her distress was pitiful.

## JAPS ARE MAD

They are in a Furious Passion at Hawaii an Insults to Their Women.

Yokohama, Aug. 21, via Victoria, B. C., Sept. 4.—To say that a hornet's nest had been stirred up in Japan would but mildly express the effect of the news of alleged outrageous treatment of Japanese ladies by quarantine officers of Hawaii. Nothing in the course of all the relations between America and Japan has aroused so much press indignation or such strong popular feeling.

The incident shows clearly the difficulties that are before the American government should the Japanese be discriminated against in the framing of immigration laws. Any such discrimination would destroy the friendly relations which have always existed between the two governments.

One of the leading Tokyo papers points out how jealously western powers guard their flag and their national reputation against every indignity or insult. It cites the actions of Britain and holds that Japan lacks self-assertiveness and might win a larger measure of respect if it insisted on receiving it.

**JAPS DOMINATING CHINA.**  
The post-ponement of the return of the Chinese court to Peking until October on account of the prevailing heat is perfectly understood here and recognized as the part of the program of delay which will ultimately end either in the retention of the present stopping place, or the choice of some other interior city as the capital of the empire.

That the court will never return to Peking while that city is under the domination of foreign troops is not reckoned as among possibilities. In the meantime the growing influence of Japan over the Chinese government is evidenced by the appointment of a Japanese officer to organize the police force of Peking, and by the acceptance of the recommendation of Yuan Shikai that the Chinese army be modeled on that of Japan.

Maj.-Gen. Fukushima has started for Shanghai and it is reported that this is preliminary to the dispatch to that place of a battalion of Japanese troops so that the nation may range itself alongside of Britain and Germany in any development which may occur in the valley of the Yangtze.

## The Great Kidney Specialist.

The Famous Physician Who Has Made Kidney, Bladder and Urinary Diseases a Life Long Study.

DR. ZINA PITCHER.

For many years in the hospitals of Detroit and Professor of Genito Urinary diseases in Michigan College of Medicine, Dr. Zina Pitcher devoted his time to the scientific study of diseases of the Kidneys, Bladder and Urinary Systems.

By this exclusive devotion to one branch of medical investigation Dr. Pitcher was enabled to perfect a treatment for Kidney troubles that far surpasses any other remedy.

After testing it extensively in private and hospital practice and demonstrating its incomparable superiority to all other forms of treatment, Dr. Pitcher decided to give this great boon to suffering humanity at large and not confine it exclusively to the circles of his private and hospital patients.

He has placed his remedy before the public under the name of Dr. Pitcher's Backache Kidney Tablets and so confident is he of the positive curative qualities of these Tablets for backache, lame or weak back, drowsiness, headaches, pain in the loins, brick dust deposits in the urine, puffiness under the eyes, swelling of the feet and ankles, scalding, irritation, frequent rising at night, dribbling, inflammation or ulceration of the bladder, gravel, Rheumatism, Bright's Disease and Diabetes (except in the last stages), bad taste in the mouth, coated tongue, constipation, puffy and pasty appearance of the face, dropsy, backache and weakness of women, urinary weakness of children and old people or any symptomatic indications of Kidney disease that to anyone suffering from any of the above troubles, who uses the Tablets faithfully, according to directions, and derives no benefit therefrom, their money will be cheerfully refunded.

Dr. Pitcher's Backache Kidney Tablets are 50 cents a box at all druggists or sent by mail. The Dr. Zina Pitcher Co., Toronto, Ont.

## EXPERT BANDITS

Neatly Held Up and Looted a Train Near Eylan, Arkansas.

Texarkana, Ark., Sept. 4.—No. 1 cotton belt passenger train, leaving Texarkana at 9:25 p. m., was held up and robbed, near Eylan, four miles south of Texarkana last night. The train was flagged by one of the robbers, who forced the fireman to go back and cut off the mail and baggage cars, and forced the engineer to give up the management of his engine. One robber, who, it appears, is an expert engineer, ran the engine and express car about a mile from the point where the stop was made, and forced the express messenger to open his car.

The robbers then blew open the safe with dynamite, it is said, a very large amount of booty. The amount is withheld by the railroad and express people but it is known that a very large shipment was made last night on this train.

The robbers, after securing the loot, cut off the engine from the mail and express cars and forcing Engineer Henderson to get off, they took the engine in charge of the robber engineer, and went south at full speed. At 1:30 o'clock this morning the engine had not been found.

No passengers were molested. Railroad employees here are confident that the robbery was committed by railroad men.

The sheriff and posse have been summoned to go in pursuit of the robbers. At this hour the passenger train stands in two pieces, with the engine's whereabouts unknown. So far as known no one was injured. There were four men in the gang.

### FATAL RACE RIOT.

Indianapolis, Sept. 4.—Two hundred negroes and whites engaged in a riot at a merry-go-round in this city last night. Henry Mills, white, was fatally shot by Henry Miller, colored, and Wallace Pickett was shot in the head. Henry recovered. The trouble started by John Noel, manager of the merry-go-round, attempting to put negro children off.

### STRANGLED TO DEATH.

Kittery, Maine, Sept. 4.—The body of Sarah Waldron was found to-day bearing evidence of murder. It was found near a road in the vicinity of the old fort at City Point. The woman apparently had been strangled to death, and there were indications that the body had been dragged to the spot where it lay. The Waldron woman was about 30 years of age. The police were not long in finding a clue, and an Italian named Pasquale Cavichio was arrested at noon as he was about to take a train for Boston. The police say the victim had been in the habit of frequenting questionable resorts, and that the suspect often had been seen in her company. The coroner, after an inquest, concluded that the woman had been choked to death.

### THE PROTEST

Report that the Entire Election List will be Sawed off.

Toronto, Sept. 5.—The Dominion election petitions filed at Osgoode Hall up to date show three Liberal and three Conservative contests. Of these but two—one of each party—have dates fixed for hearing. The other four have had absolutely nothing further than the filing of the petitions done with a view to bringing them to court. It is rumored that the entire list will be sawed off. The petitions filed up to date are: Ottawa, Thomas Birkett, Con., fixed for hearing on Sept. 16; Ottawa, N. A. Belcourt, Lib., to be heard on Sept. 19; Cornwall, R. P. Pringle, Con.; North Wellington, Edwin Tolton, Con.; South Ontario, Wm. Ross, Lib.; and North Bruce, James Halliday, Lib.

### WAR SHIPS COLLIDE

Cruiser Wacht Sank in the Baltic After Striking Battleship Sachsen.

Berlin, Sept. 4.—The commander of the German fleet manoeuvring in the Baltic telegraphed to-day from Sassnitz, Island of Rugen, that the third-class cruiser Wacht had been sunk off Arkona, after having been in collision with the battleship Sachsen. It is not known whether there was any loss of life.

The Wacht was a steel cruiser of 1,250 tons displacement, built in 1887, and 282 feet long, had 31 feet 6 inches beam and drew 13 feet 9 inches of water, and carried 126 men.

Berlin, Sept. 5.—Later advices from Sassnitz regarding the sinking of the Wacht show that there was no loss of life.

### CHATHAM'S CHANCE

Indiana Manufacturers to Locate Big Glass Factory in Canada.

Ottawa, Sept. 4.—Canada may get a big glass industry. The Canadian immigration agent in Indiana, E. T. Holmes, has induced a number of glass manufacturers to visit Canada to see what inducements the Dominion offers for the manufacture of glass. The Indiana manufacturers have been relying on the supply of natural gas for their fuel, but this gas is failing, and to substitute other fuel available in Indiana, will be most expensive. The manufacturers must look for other fields, and Mr. Holmes has been telling them about the opportunities Canada offers in almost any part. The manufacturers require a certain grade of sand and cheap fuel, and it is believed they can get both in many places in Canada, looking for sites. An official of the interior department says one of the interior department bury, Indiana, employ from 500 to 800 people, and the pay roll amounts to \$50,000 a month.

### LIBRARY BOARD

Proceedings at the Regular Session Held Last Evening.

The regular monthly meeting of the Library Board was held last evening in the library hall. The following members were present, Messrs. Scullard, Davis, Twohey, Smith and Dr. Charteris. The minutes of the last meeting were read and adopted.

A communication was read from the Public School Board notifying the Library Board of the appointment of F. F. Quinn to the place of R. S. Hughes. Moved by Dr. Charteris, seconded by Mr. Twohey, that 500 post cards be ordered for the use of notifying borrowers whose books are over due, etc. Dr. Charteris said that he had ordered The Planet not to do any more reporting on the library books without an order from the Board. His action was approved.

The account of Jos. A. Tilt for \$3.35 was ordered paid, and the gas account of \$5.50 was also ordered paid.

Moved by Mr. Davis, seconded by Dr. Charteris, that the treasurer be called on for \$100.

The salaries were ordered paid.

The librarian's report was read and adopted. It was:—

Received for fines ..... \$2.94  
Received for cards ..... 1.270  
Received for catalogues ..... .45  
Strand ..... .40

Total ..... \$6.49  
The meeting was then adjourned.

### REVISION OF VOTERS LIST

Notice is hereby given that a court will be held, pursuant to the Ontario Voters' List Act, by His Honor the Judge of the County Court of the County of Kent, at the Town Hall, Township of Dover, on Tuesday the 17th day of September, 1901, at the hour of 10 o'clock in the forenoon, to hear and determine the several complaints of errors and omissions in the voters' list of the Municipality of Dover, for 1901.

All persons having business at the Court are required to attend at the said time and place.

Dated this 31st day of August, 1901.

### OUR CENSUS

Pointed Expression of Opinion From Ridgeway Upon Our Figures.

Ridgeway Dominion.  
It is our opinion that The Planet has had the better of the Census Commissioner in the controversy over the Chatham Census figures. If Chatham has gained only forty-three in population in ten years appearances are very deceiving. The Commissioner admits there are more houses and more families than in 1891, and appears to think that fact proves the former census to have been wrongly taken, while the natural conclusion is that there are also more people now than then if properly counted. The commissioner further admits that his men omitted several families, and one gentleman writes The Planet that although residing in a corner house his family of six was omitted from the count. Every resident of Kent is interested in the growth of the county town, and few believe that it has but held its own in ten years.

### JACK'S JOKE STIRRED STRIFE

Genial Wine Clerk and his Irrepressible Humor Caused Hilarity to get into Trouble.

He Became Much Excited and Sought Aid From the Police to Deal With his Exaggerated Lits.

The man who wrote the chorus "A Policeman's Lot is not a Happy One," in the "Pirates of Penzance," evidently knew what he was talking about; at least some of the local officials have reason to believe so. Last night about eleven o'clock a colored man named Harris, to all appearances under the influence of liquor, created quite an excitement in town by spreading the report that he had lost \$150. Shortly after eleven he rang up Chief Young at his residence, Harvey street, and in a very excited voice asked him to come down town right away, as he had something very important to tell him. The Chief enquired the nature of the trouble but the man appeared to be too much excited to give much information. The Chief advised him to look up a policeman on the street, but the man would not be contented until he had seen Mr. Young, as he had been robbed of a large amount of money.

When the Chief got down town he found the man talking to Officer Groves. Upon enquiring what was the matter, the man told his story. This time, however, the sum of money missing, had wonderfully diminished. After relating a number of minor incidents which had happened to him during the last three or four years of his life, he suddenly informed the Chief that he had lost the large amount of \$4. After a little more parleying, the sum was again reduced to \$1.75, and finally he said he had lost a receipt for \$1.75, he had paid for a book on the South African war.

It was about half-past 12 o'clock before the man got through with his story and naturally, by this time the Chief and Groves were pretty well disgusted. The man was finally advised to go home and keep quiet.

The facts of the case, as found out later, are these: The man Harris was in the Garner House bar at ten o'clock last night creating a row by singing and yelling. Jack Smith, the bartender, wishing to get rid of him, stepped up to him and asked him for a piece of paper. The man handed through his pockets and finally produced the receipt, and handed it to Smith, not noticing what it was. Smith went through the form of writing on it, gave it in an envelope addressed to Mr. O'Mara, of the Idlewild Hotel, and asked Harris to deliver it for him. Wishing to be obliging, Harris took the note to Mr. O'Mara, who immediately saw through the farce and ordered him out of the house. Harris, however, had caught sight of his receipt in Mr. O'Mara's hand, and again ordered him out of the house.

Harris then started out with his sensational story about this \$150.00. Chief Young investigated the matter and the whole thing ended in a huge joke.

### Autumn Wear for Boys

Put yourself in the boy's place and consider what kind of duds you would want to wear—especially to school.

Neat, shapely garments made to stay in shape as long as possible, tough cloth that doesn't roughen for every hard rub, friendly serviceable colors that can hide a spot or a fruit stain.

Yes, and good sewing. When you sew for a boy you've got to give your mind to it. Linings, trimmings and buttons will fly apart some day unless they're extra well-anchored.

That's the principle we go on. And, speaking of buttons, there is a machine in the factory now that sews them on. It's one of the newest modern marvels, that machine—sews a 4-hole button as cheerfully as the 2-hole kind, and makes a firmer job of it than you can by hand.

We do not hesitate at all to say that these 2 and 3 piece suits of ours are the best value mothers can buy in Chatham for the prices. Purchasers shall judge whether we claim too much, and we welcome the judgment that is built on experience and honest comparison.

2-piece suits range up to 13 years in size; 3-piece up to 16 years. Many moderate prices in tweed, worsted and fancy suitings.
