The Images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed payer covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated Impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated Impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol → (meaning "CONTINUED"), or the symbol ▼ (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too lerge to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

D. B. Weldon Library University of Western Ontario (Regional History Room)

Les Images suivantes ont été reproduites avec le plus grand zoin, compte tenu de la condition et de le notteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, solt par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par le dernière page qui comporte une telle empreinte.

Un des symboles sulvants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole → signifie "A SUIVRE", le symbole ▼ signifie "FIN".

Les cartes, pianches, tableaux, etc., peuvent être filmés à des taux de réduction différents.

Lorsque le document est trop grand pour être reproduit en un seul cliché, il est film 5 à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent i/2 méthode.

A PAMPERED PRESS AND POLITICAL PRINTING.

SOME SAMPLE JOBS.

The public Press should guide public opinion by honest discussion of public affairs. If the Press be corrupted by the party in power, its guidance is a fraud; and its discussion is but the purchased advocacy of a hireling.

Can a newspaper have a shadow of honesty in its criticisms of the acts of a Govern-

Can a newspaper have a shadow of honesty in its criticisms of the acts of a Government from hich it draws, through gross evercharges, the money which sustains it? To be plain—Can you believe the statements, or trust the conclusions, upon political topics, of a newspaper which is allowed, and even encouraged, to rob the country of large sums every year?

There are regular Contractors for the Government Printing, who do the work at fixed prices. Yet the Ministers take work away from their Contractors to give it, at much higher rates, to political favorites.

Take that loud-mouthed advocate of the Ottawa Ministry, the "Hamilton Spectator." In one year, 1884, it received \$17,897.18 for job printing along from the Government. At honest rates this would give a sufficiently handsome profit to blind the eyes and silence the tongue, but it was pointed out by a prace

blind the eyes and silence the tongue, but it was pointed out by a practical printer (Mr. Somerville, of Brant,) in the House of Commons, that out of the above sum there was a total excess of \$13,287.04 over the fair and regular price of such work! Can any one believe a statement in that newspaper? Is not everything tainted which comes from such a source?

Next, examine the record of the Montreal "Gazette," the property and organ of the Minister of the Interior. In 1884, it received for printing and advertising, over \$18,000. Of this sum, \$9,211.15 was paid for a Pamphlet on British Columbia, on which there was an overcharge of \$5,805.82 over and above the ordinary business profit! No wonder that newspaper defends every job and corrupt action of the Ministry.

There are small fry in the tory press, who are equally as greedy and unscrupious as the large newspaper sharks. Take, for an illustration, the case of the Prescott "Messenger," a small sheet published in the County of Leeds and Grenville. The Government decided to publish a German emigration pamphlet, and instead of calling for tenders for the work, or giving it to one of the German printing offices in the country, they gave the work to the Prescott "Messenger," which had not a letter of German type in its office. If there had been a saving of money in this course it would have been justifiable, but, on the contrary, there was enormous loss. The "Messenger" was paid \$6,871.65 for the pamphiet, and two G man printing establishments in Waterloo County calculated that they could have one the work for \$1,500, and made a fair profit. In this single transactor, therfore, the Government paid out of the public funds a bribe of \$5,071.65 in excess of the fair cost to this newspaper. Many a farm in that county can be bought for that sum, which was enough to furnish that newspaper office with all its type and material, and a new steam press and engine besides!

This charge was brought on the floor of Parliament by Mr. Somerville, it was not

denied, and it cannot be contradicted.

The French Government newspapers in Quebec demanded a share of the spoils, and they got it. The Courier de St. Hyacinthe printed the List of Civil Service Employees, the 1884. The Government began by supplying the job office of that paper with the type required at a cost of \$3,931.02. When the work was done the proprietor cent in his bill for \$8,493.98. This was submitted to the Queen's Printer, a Government Official, who reduced it to \$7,688.74. Before passing this account, the Auditor-General, who is independent of the Government, compared it with the contract rate for departmental printing, which was the only rate he could legally allow, and cut it down to \$5,331.40. This threw the responsibility of any overcharge upon the Government, and they were quite equal to the emergency, for they actually passed an Order of the Treasury Board on 15th March, 1884, directing the payment of \$7,688.74 over the head of the Auditor-General, who had certified that this was just \$1,857.34 more than the lawful rate payable by the Government. (See Auditor-General's Report of 1885, page vi.)

Electors of Canada can you trust the Government organs to guard the public Treasury when they share in the plunder? As well might you trust the wolf to guard the flock from danger!
