How to Heat a House.

THE UNCOMMON SYSTEM.

... The ...

Safford Patent Radiators

Are the dominant force of the world's Heating Apparatus. They have replaced others. They have taken highest awards against the world's congregation of what is best.

The baton of command belongs to the inventor, Clarence "Safford."

The only Radiator in the world made in the same way as all Steamfitters' every day work—is the "Safford." All threaded joints, cannot crack. No bolts or packing used.

Coal is money, why not save it
by using the . . .

T. J. C. INJECTOR

the most economical Boiler
Feeder in the world.

20 PER CENT. SAVED

in coal over any other make : absolutely auto-
matic ; easily attached ; applicable to all kinds
of Boilers.

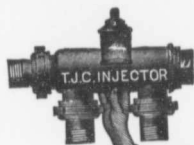

NOT EXPENSIVE.

Will outwear any other make and is simple in
construction. It is easy to operate, and is the
most powerful feeder in the world.

THE

T. J. C. INJECTOR

is the best because you cannot possibly go
wrong with it. With high or low steam the
result is equally satisfactory. It combines the
utmost simplicity with perfect efficiency, and
any boy can operate it.

Correspondence solicited.

In view of the interest shown in British Columbia Mines and Mining by Eastern Capitalists, we beg to draw their special attention to our ability to furnish any machinery necessary for the successful operation of Hydraulic and Quartz Mining.

We have a large plant equipped with the most modern machinery and tools.

We have a staff of expert, experienced workmen thoroughly schooled in the building of Mining Plants, and we are in a position to execute any contract for any point in British Columbia and Northwest Territories, including the Yukon District, and guarantee satisfaction.

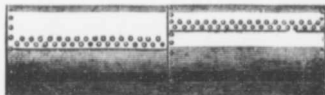

Being situated practically in the very heart of British Columbia Mining activity, we are in close touch with mining requirements.

On orders placed with us, you are saved enormous freight rates on heavy machinery from far Eastern points.

We make a specialty of

**HYDRAULIC RIVETED STEEL PIPE
 AND HYDRAULIC GIANTS**

and guarantee them equal to the best in the world.

THE

MANUFACTURERS' LIST

BUYERS' GUIDE OF CANADA

AN INDEX OF ALL ARTICLES MANUFACTURED IN CANADA WITH A
CLASSIFIED LIST OF EMINENT FIRMS WHO
MANUFACTURE SUCH ARTICLES.

THE MANUFACTURERS' LIST CO.,
PUBLISHERS,
MONTREAL, CANADA.

Entered, according to Act of Parliament of Canada, in the year nineteen hundred and one, by
THE MANUFACTURERS' LIST CO., Montreal,
in the office of the Minister of Agriculture, at Ottawa.

PREFACE TO CONTENTS.

While the classified headings in section 5 of this work are arranged alphabetically, the sub-headings are not, making it, in many cases, compulsory to consult the Index to Articles for the number under which it will be found in the body of the book.

The technical classification and compilation of this publication requiring the use of one hundred and ten thousand figures, it would be phenomenal if a work of such magnitude could be published without some errors.

THE MANUFACTURERS' LIST CO.,

MONTREAL, CANADA.

PREFACE.

THE MANUFACTURERS' LIST, Buyers' Guide of Canada, is issued for the third time in ten years, improved, enlarged and more valuable than ever to the Manufacturer.

We wish to draw the attention of our patrons to the character of the publication, which we have made thoroughly Canadian; no advertisements appear in the book other than of Canadian producers, and all articles herein enumerated are produced in Canada.

The book is for use at home and abroad, to hold and obtain trade for Canadian Manufacturers. The copies which are distributed abroad should bring inquiries and orders to Canada, and those distributed throughout Canada should be the means of keeping in the country orders which might otherwise be sent abroad.

We thank our advertisers for the confidence which, by their continued patronage, they have shown in the work, and we will endeavor, during the next four years, to give their advertisements a large circulation.
