Grand Opening

North Sydney's New Book and
Variety Store.

We have just purchased the
entire stock and good will of the
North Sydney Book and Variety
Company and are doing business
at the old stand.

We have converted the store,
by improvement and by the
addition of the latest books, by
the popular authors of the day,
by new stationery of varied
styles and quality, into an up-to-
date city bookstore.

Commencing on Thursday next
for one week we will give a 20
per cent. cash discount on China-
ware and other novelties.

G. W. LOVETT

BEZANSON'S

MORE TALES OF TREACHERY. LURED TO AN AWFUL DEATH

Brutal Treatment Inflicted by the Boers on Canadian Soldier.

Trooper Alfred Simpson, a member of the Canadian Mounted Rifles, under the command of Colonel Evans, in writing to his parents in St. John, N. B., gives an interesting, yet harrowing, account of his experience in the Boer war.

He was captured by the Boers in the Hart's River battle. The Boers were then marching on the Hart's River and he was taken prisoner. He was then taken to a farm where he was kept for several days. He was then taken to a farm where he was kept for several days.

He was then taken to a farm where he was kept for several days. He was then taken to a farm where he was kept for several days. He was then taken to a farm where he was kept for several days.

MANAGEMENT OF THE FARM

Letter from Mr. F. W. Nelson

Written for the Herald

It is a common saying that the business of farming is a hard one to get on a satisfactory basis. These are the reasons which give us more annoyance, or which are more difficult to get on a satisfactory basis.

WEDNESDAY, JUNE 18, 1902.

AD COMMENT.

The system of operating railways in England is not only perfect as a passenger, of the millions carried was killed during the war. The employees did not fare so well, however, as there were eleven killed.

During the peace services in St. Paul's cathedral, London, on a recent Sunday a dove entered the cathedral and during the service continued hovering above the big congregation. This happy and pretty omen has attracted great attention in England, and the event has been put in verse.

The great strike in the Pennsylvania coal region is not likely to end soon if the conduct of the mine owners indicate anything. They are now garroting their works with armed special police at great cost. This does not look as if the owners are willing to give up the struggle. It may be said that the workmen show fully as much determination to keep up the fight.

The Governor-General of Canada is off to the Coronation. Sir William Strong, Chief Justice, will administer in the absence of Lord Minto. A curious fact has developed, that our Governor-General is the only high official who has gone to the Coronation whose salary will be deducted. During Lord Minto's two months' absence his loss of pay will amount to \$8,000, which will go to Sir Henry Strong.

All the Provincial Premiers in the Dominion, excepting Premier Parrott of Quebec, are off to attend the Coronation. The Quebec Premier gives an excuse that he has no time. There would be some excuse for Premier Ross of Ontario, with his existence of his government in doubt, but the public is unable to see that the Quebec Premier has anything to keep him from being present at the King's Coronation if his inclination were in the line of duty. His action causes considerable adverse criticism.

It looks as if President Roosevelt has decided to take a hand in the great labor disturbance in the coal regions of the United States. He has sent an official to investigate and report to him the cause of the trouble. If he brings about a settlement of the great strike he will have a walk over in the next presidential contest. A feature of the strike that attracts attention is that it is comparatively free from serious disorder. There are one hundred and seventy-five thousand men out of employment now, and very little has so far occurred to disturb the place. This is highly creditable to the coal miners.

The German press do not take kindly to the restoration of peace in South Africa. Germany had designs on South Africa before the war began and would have interfered against Britain when war was declared but did not dare do so. With the exception of France by all the nations of the world, Britain has won the peace over by kindness. No part of the cost of war is to be levied on their farms. Not only this but they are to receive assistance to begin anew in 1914, or rather those of them who will go back to their farm homes. The rich mines of South Africa, however, are to be taxed and from this source a good part of the big debt created by the war will be paid.

Sir Michael Herbert, a young man heretofore have been in the position

scheme of water conservation and irrigation. The committee is now sitting. The people are now looking to Canada for food stuffs and large quantities, it is expected will be exported to Australia.

It is said that the value of some of the Democratic campaign tractors in the United States has been reduced seventy per cent. by the close of the Boer war.

The British people must be as fond of their tea as their beer. A comparison has been made of the per capita consumption of tea during the three years 1898-1900 of the principal countries of Europe, and the United States. From the figures given it appears that in Great Britain over six pounds of tea per head of the population are consumed annually. The total consumption of tea in Great Britain exceeds that of all the other European countries and the United States included.

Col. Lynch, who was elected to the British House of Commons by the constituency of Galway, Ireland, is now in jail in England for treason. He went to South Africa and fought in the war against Great Britain and on the side of the Boers. The crime is serious because he, as a member of Parliament, joined the enemy of his country in war. No sooner did he land in England than he was arrested. For a like offence men were executed in the recent and former wars and Col. Lynch escapes with a sentence of a term of imprisonment he will do well.

The official returns give the total majorities of the Conservative candidates over the total majorities of the Liberal candidates in the recent Ontario election as 7,333. The majorities are as follows: In favor of Conservatives 21,467 In favor of Liberals 14,134

Excess in favor of Conservatives 7,333 Notwithstanding that the Conservatives polled such a large majority of the popular vote, the Ross Government has a majority of three of its representatives elected. This is the result of electing representatives by constituencies.

Referring to Canadian affairs, the New York World, in a eulogistic editorial calls this country "Great Little Canada." The occasion for this is a review of Canadian statistics for the past year, giving the resources of Canada as \$10 per head of population compared with \$7.70 for the United States. The New York paper did not forget to note the fact that Canada spent \$12,000,000 on railways, canals and public works. The World, however, has not overlooked our debt of \$66 per capita, compared with that of the United States which is \$14.52. But our foreign commerce at \$12 per capita, compared with the United States commerce \$33 per capita offsets the State's business.

There is another phase of the French Shore question which is giving the Newfoundland arbitrators trouble of late. The French merchants on the two hundred miles of coast are now importing from St. Pierre, Miquelon, large quantities of liquor and selling it indiscriminately and cause thereby a good deal of drunkenness and demoralization among a normally quiet and temperate people. Several disturbances have occurred at Bay St. Lawrence and policemen were unable to cope with it. Of course the liquor besides being of the worst quality, is smuggled in in defiance of the law, declaring that they have a perfect right to do as they please under their rights. This question will shortly be a leading topic, as Mr. Chamberlain and the British Government are pledged to procure a settlement with the French Government of the old-standing French shore dispute.

Most all the other large countries heretofore have been in the position

The present railway facilities—both station, yard and wharf—is the answer. A disgrace to the government, the authorities of the town, and citizens who continue to submit to such treatment.

Through the bungling and incapacity of Mr. Scriber, and other engineers of the Department of Railways, hundreds of thousands of dollars are being wasted at other points—the Strait of Canso for instance. But at North Sydney with its important connections—connections with foreign countries, there is no expenditure for badly needed facilities to accommodate traffic and trade by which the railway is the most benefited.

At the close of the last session of Parliament certain parties announced from the house tops that the government had placed in the estimates \$40,000 for the improvement of terminal facilities at North Sydney. We believe there was a vote of some kind, but if there was there is no move to expend the money. But no one knows better than the Hon. A. G. Blair, and his officials, that \$40,000 is altogether inadequate to provide anything like proper railway facilities at North Sydney.

We referred to the growing trade of North Sydney and the connections with Newfoundland and St. Pierre. We may also add the development now going on at Sydney Mines; North Sydney being the outlet and inlet for Sydney Mines. The Department of Railways appears oblivious of there being any such place as Sydney Mines, and the development going on there, all of which require increased facilities there and here. Oh, no, nothing will be done to provide increased railway facilities until business becomes, as it is during the construction of the Steel plant in Sydney.

We call upon our representatives, both federal and provincial, to urge better railway facilities for North Sydney. We also call upon the Town Council and Board of Trade to take immediate action. There is too much supineness too, on the part of the citizens with regard to their rights. Insist on action by your town government. It is time for action. There has been too much inaction all round.

FUR SEAL STILL TROUBLING

The law enacted five years ago at Washington prohibiting the importation of sealskin garments into the United States from Canada or England has had no perceptible effect on preventing pelagic sealing in the Behring Sea by Canada as was intended. Thousands of people who wore seal garments while entering Uncle Sam's domain had their garments seized or obliged to pay a high duty. Finding that the seal law did not stop pelagic sealing on the part of the Canadians, it is now proposed by the Committee of Ways and Means at Washington to kill all seals in the Behring Sea, except 10,000 females and 1,000 males, unless means can be devised to put a stop to pelagic sealing. The bill proposed by the committee authorizes the President to open negotiations with Great Britain for a review of the existing regulations, in order to preserve the seal industry from extinction, failing which the drastic remedy before mentioned shall be put in force. It is thought at Washington that the seal law is not being enforced.

tend and destroy what they have built up. Railway trains, collides, electric wires burn what they are meant only to illuminate, and peaceful men and women are ground or crushed to death. The story of the fire in the Chicago sanitarium recently tells the marrow with its horrid details. Those poor manacled men, wearing with bleeding hands at the iron work which barred their escape from the flames that roared and leaped behind them, the crowd below insane with sympathetic fury, but unable to help, form a picture so awful and heart-rending that the records of warfare seldom afford any parallel.

DOMINION NEWS.

Owing to the large immigration of Norwegian contract laborers to Canada, the authorities of Norway have prohibited foreigners from hiring laborers for export.

The dead body of a woman named Mrs. Octave Nehan, was found in the woods at St. Lazare, Que., the other day, where she had been strangled to death. There is no clue to her murderer.

Rev. W. G. Lane, of Parrsboro, who went to South Africa with the First Contingent, is to receive a pension of £100 a year for life, from the British Government, for having contracted rheumatism during his stay in Africa.

What may be termed the first gold to arrive from the Klondike this season arrived at Vancouver on the steamship Princess May on Friday. Approximately \$150,000 in dust came on that boat. About \$70,000 came down on the City of Seattle.

John White, a successful farmer at Fort Lawrence, N. S., on Friday received information from Louisville, Ky., stating that his brother James F. White, of that city, had died leaving an estate valued at \$234,375 to be divided equally between himself and another brother, William, who resides in Louisville.

Mr. Munroe, M. P. P., for North Renfrew, Ontario, who died the day he was elected by a large majority at the recent Ontario elections, owes his death to a neglected tooth. The molar ulcerated but he was so busy with his election campaign that it was neglected and blood poisoning developed.

Francis Martin, 65 years of age, of Ottawa, was arrested on Monday by Inspector Hogan, of the Dominion Police, assisted by two local officers, on a charge of having in his possession tools for the purpose of manufacturing counterfeit coins. It is said that Martin was arrested 20 years ago in connection with the counterfeiting of notes on the Banque Nationale.

A man named William P. Brown, who for many years held an important position with the old Halifax Gas Co., suicide in Point Pleasant Park, Halifax, Saturday evening by drinking a cup of carbolic acid and then sealing a bullet into his brain. He was 70 years of age and leaves a wife and family who reside in Devonshire, England. Despondency and ill health thought to have been the cause of the rash act.

A bold robbery was committed Monday morning in Montreal, when Mrs. George Wilson, living at 311 Beaubien street, was gagged and bound by three men, who afterwards stole a sum of money, which was in the house. Mrs. Wilson went into the basement, when the men sprang upon her, and during the binding and gagging she was seriously injured. When found she was unconscious. Her life is despaired of.

The Canadian Coronation arch in London will certainly be one of the novelties of the Coronation. The structure of wood will be only a background for a representation of the cereal products of the colony. The leaves of the maple and other re-

Local Items.

The storm of the 6th and 7th inst. has done much damage to the fisheries on the Cape Breton coast, particularly the lobster fishery. Since the storm lobsters are scarce and some factories are closing this week.

The two big steamers, Montcalm and Milwaukee, employed to carry horses from St. John, N. B. to South Africa, have had their trips cancelled. They will come to this port for orders. The horses purchased for South Africa are now to be sent to England.

There is a rumor about town that the Nova Scotia Steel Company have decided to move their offices from New Glasgow to Sydney Mines. The report may or may not be true. The company have not made any public statement on the question yet. The change will come later, however.

The construction work on Vooght Bros' mammoth building has been lagging for some days awaiting steel girders, etc., from the works of the Dominion Bridge Co. It is said the Dominion Bridge Co. are unable to fill the half orders coming in. Here is a hint for the two big steel companies in this section of the Dominion.

A rather serious accident occurred Friday night on Queen street. A team belonging to Hennigar's livery was driven into the ditch which is being excavated for the sewerage system. The occupants of the team were thrown out and the horse was badly cut about the limbs and body. It was with great difficulty that the animal was taken out of the sewer. This accident was the result of carelessness driving.

In charging a jury lately in an important criminal case a Manitoba judge delivered himself as follows: "Gentlemen of the jury, if you believe what the attorney for the defence has said, you will bring in a verdict for the defendant, or if you believe what the attorney for the plaintiff has said you will bring in a verdict for the plaintiff, but, if, like me, you do not believe what either of them has said, I do not know what the devil you will do."

Councillor R. Musgrave, of the firm of R. Musgrave & Son, returned by express Monday after erecting three steel bridges in Western Nova Scotia the first at Canning, Kings County the second at Margaretsville, Annapolis County, and the third at Martin River, Lunenburg County. These bridges were manufactured at their works North Sydney. This firm has several orders for steel bridges on hand and which are now under construction.

Signor Marconi will not be at his new station at Glace Bay on coronation day to send the first message through his wireless system to King Edward. It is reported that he is ill. This is to be regretted, as a message of congratulation to the crowned King would be a great advertisement for the new system. It may be taken for granted that the fault is not Signor Marconi's. He is ambitious, and his social ambition is said to be to know all the great men of the times. Wonder if he knows the members of the North Sydney Town Council?

It is reported that an important meeting of the Strait of Canso Bridge Company is to take place in a few days, with a view to organization to the beginning of construction of the bridge. The new ferry steamer, the Scotia, which cost, with approach and repairs since she arrived on this side, over half a million dollars, has proved such a gigantic failure that the Government is likely now to favor the construction of the bridge. The Scotia is lying idle at the wharf at Mulgrave and is an "eye-sore" to the supporter of the Government. There has been terrible blundering in the whole affair and while Hon. Mr. Blair has to bear the censure of the public for the failure at Mulgrave the fault is not his but the incompetent staff.

Local Items.

The marriage of Mr. Winslow Baldwin of the W. U. Cable Staff, to Miss Lottie Rudderham is to take place this morning in St. John's church of England.

The tourist travel to Cape Breton this summer promises to be large. The "Grand O'Or" Steamboat Co., have already many enquiries from intending visitors in the United States.

Mr. Lovett of the North Sydney Book & Variety Co., has imported a fine line of flags, fireworks, and material necessary for the illumination and decoration of residences for Coronation Day.

The large scow that was built on the ballast ground for Capt. David Rudderham, was successfully launched on Monday evening. The scow has a capacity of one hundred and seventy tons.

The Supreme Court opens in Sydney on Thursday next. The docket so far includes 57 cases, 14 of which are criminal cases. This is the largest docket at any single session of the Supreme Court in the history of the County.

In the marine hospital at Point Edward there are nine patients. One is a small pox victim and the others are members of the crew of the Norwegian ship Alameda which arrived at this port several days ago. The latter are down with scurvy of a very virulent type.

The Gloucester schooner Arthur Binney, which arrived at this port about two weeks ago, with a case of small-pox on board was released from quarantine on Saturday morning. The patient is still in the hospital at Point Edward. His case is a severe one.

The Victoria County Sabbath School Association held a very successful convention at New Campbellton on Tuesday, June 10th. County President J. T. Burchell occupied the chair. Twenty-five Sabbath schools throughout Victoria County reported either verbally or by letter. The meetings were well attended, the church being filled at both afternoon and evening sessions.

All hope for the safety of the sealing schooner Hatzios was abandoned on Friday on the arrival of the Government steamer Quadra at Victoria, B. C., which was despatched in search of the missing vessel. The Hatzios, it will be remembered was one of the Pacific coast sealing fleet, and was commanded by Capt. Dalry, of Point Edward. Besides Capt. Dalry, the Hatzios carried a crew of five whites and twenty-four Indians.

The grand picnic under the auspices of the Sons of England Benevolent Society, will be one of the features of the celebration of Coronation Day, at Sydney Mines. A special programme of athletic sports will be held on the picnic grounds. All the events will be well contested as suitable prizes are offered to competitors. This picnic promises to be one of the most successful that has ever been held in the Mining City.

The commencement exercises of Mount St. Joseph's Academy, which are always of exceptional interest to the parents of the students who attend that institution, were held on Monday. The large number of visitors who witnessed the exercises were highly delighted with the excellent programme rendered by the students. The efficiency and finish which characterized such number on the programme was a fitting tribute to the ability of the instructors and careful management of his institution. The programme consisted of vocal and instrumental music, readings, recitations and drills. The reading, "The Clock on the Stairs," by W. W. C. B.

BOAK ROBERTSON NUPTIALS.

Fashionable Wedding in Calvary Baptist Church Yesterday Morn.

The interior of Calvary Baptist Church presented a beautiful appearance yesterday morning, it having been artistically decorated with ferns and potted plants for the marriage of Miss Lillian K. Robertson, second daughter of Mrs. Eliza Robertson, and one of North Sydney's fairest young ladies, to Mr. Stanley D. Boak, of Halifax. The marriage service took place at 9.15 a. m., but before that hour the church was filled with friends of the happy young couple who were to be united in wedlock. The bride was led to the altar by her brother, Mr. John C. Robertson. Miss Florence Copeland was bridesmaid, while Mr. George B. Robertson acted in the capacity of groomsmen. Professor Moore rendered the wedding march. Rev. F. M. Young assisted by Rev. D. McDougall, of Baddeck, performed the interesting ceremony. The bride looked charming in a very handsome travelling costume of the new castor shade with picture hat to match, and carrying a shower bouquet of bridal roses. The bridesmaid was gowned in a dress of lavender, roman silk with white shifon picture hat, and carried a bouquet of pink roses. Miss Edna Musgrave and Miss Alice Young acted as ushers. Immediately after the ceremony Mr. and Mrs. Boak were driven to the station where they took the morning train for a trip through the principal Canadian cities. The very many magnificent and costly presents that were received by the bride were striking evidence of her popularity and the high esteem in which she is held. Mr. S. D. Boak, who at one time was manager of the Union Bank of Halifax, in North Sydney, and who resigned that position to enter into partnership with his father to conduct the wholesale dry goods business, which is known as A. B. Boak & Co., Halifax, and which his father to conduct the wholesale dry goods business, which is known as A. B. Boak & Co., Halifax, and which has gained such an excellent reputation throughout the Province, is also very popular in this town, and his very many friends join with the Herald in extending congratulations to him and his fair bride.

The standard time-table of the Intercolonial has been issued and the trains on this time-table began Monday. The early express departs from Sydney at 6.40 and North Sydney at 7.20 a. m. The second, or fast express, leaves Sydney at 10.00, and North Sydney at 10.10 a. m. In the evening the first express arrives at North Sydney at 6.45 and Sydney at 7.30. The second, or fast express, arrives at North Sydney at 10.20 and Sydney at 10.30.

The regular freight or accommodation train leaves Sydney at 8.15 and North Sydney at 8.55 a. m. for Point Tupper and all intermediate stations. This train arrives at North Sydney at 12.25 and Sydney at 2 o'clock, p. m. Passengers from stations east of Point Tupper coming to North Sydney to make purchases can return the same night by a train which is met at the junction from Sydney by the first express from North Sydney at 7 o'clock, p. m.

B., is visiting friends in town.

THE SUMMER TIME TABLE.

The Old Standard Time System a Thing of the Past

The summer time-table of the Intercolonial has been issued and the trains on this time-table began Monday. The early express departs from Sydney at 6.40 and North Sydney at 7.20 a. m. The second, or fast express, leaves Sydney at 10.00, and North Sydney at 10.10 a. m. In the evening the first express arrives at North Sydney at 6.45 and Sydney at 7.30. The second, or fast express, arrives at North Sydney at 10.20 and Sydney at 10.30.

The regular freight or accommodation train leaves Sydney at 8.15 and North Sydney at 8.55 a. m. for Point Tupper and all intermediate stations. This train arrives at North Sydney at 12.25 and Sydney at 2 o'clock, p. m. Passengers from stations east of Point Tupper coming to North Sydney to make purchases can return the same night by a train which is met at the junction from Sydney by the first express from North Sydney at 7 o'clock, p. m.

The standard time-table by which the trains were previously run is now changed to local time. Now the twenty-four hour system of notation is used, in which the hours are numbered from one to twenty-four, beginning at one o'clock in the morning. The afternoon and evening hours run from 13 to 24, and those not familiar with the system may readily reckon by adding or subtracting 12. Thus, 10 o'clock ordinary p. m. time into railway time, 12 is added, and 5 in the afternoon for instance, would be found to be 17 o'clock. To reduce the time-table figures to ordinary p. m. time, subtract 12, and thus 19.35 would be found to mean 7.35 minutes past 7 in the evening. The advantage of this system is that it prevents mistakes from the confusion of a. m. and p. m. in reading time-tables and in the operating of the railway generally.

The different committees appointed to prepare for North Sydney's celebration of Coronation Day, have made pleasing progress with the arrangements. The entire programme was submitted to the general committee yesterday afternoon. The celebration will commence at 7 a. m., by the firing of a salute, ringing of bells and tooting of whistles of the steamers in port. The procession of the Polyorchians will take place at 7.30. This procession which will no doubt be most interesting and amusing will be composed of novelties of every description. The monster parade at which all the fraternal societies and school children will march, starts at 10 a. m. A prominent feature of this procession will be the trades part, as nearly every prominent mechanic will be represented. Immediately after the procession in the morning speeches will be delivered by a number of prominent citizens from a platform which

..Dainty Summer Things..

Ladies' Tailoring
We address ourselves to-day to the conservative ladies
who dress well, who like to carry their individuality into what
they wear; who are particular about their attire—to those
who never did, possibly never will wear ready-made. Ladies
tailoring springs to your thoughts at once.
For those who prefer something a little better than the
average, we make jackets, blouses and Capes to order at
prices within the reach of moderate means.
We are in a position where we can guarantee satisfac-
tion to the extent of refunding money if necessary.
Samples sent promptly on application.
