Vol. XXXIX. No. 48.

WOLFVILLE, NOVA SCOTIA, FRIDAY, AUGUST 20, 1920.

\$1.50, payable in advance.

Cricket

KENTVILLE vs. WOLFVILLE

The fourth match of the present season between the above-named teams took place last Saturday and resulted in a well earned victory for the visitors. Each team has now two games to its credit. Another match will be played on Saturday. For Kentville, Lieut. Young, of Cornwallis, greatly distinguished himself at the wicket and carried his bat. The score was as follows:

WOLFVILLE	
Saunders, b. Holland	0
Herbin, c. Young, b. Fosberry	3
W. Bauld, run out	1
Spittal, b. Holland	7
Robinson, c. Morel, b. Fosberry	6
Koppel, run out	2
Phipps, c. Nelson, b. Fosberry	0
G. Bauld, not out	8
White, b. Holland	0
Smith, b. Morel	1
Extras	3
Total	31

KENTVILLE	
Holland, b. Robinson	8
Bolton, c. White, b. Robinson	1
Walker, c. W. Bauld, b. White	0
Plevy, c. W. Bauld, b. Robinson	0
Henshaw, b. Robinson	0
Fosberry, b. White	12
Simpsen, l.b.w., b. Robinson	6
Grundy, b. Spittal	0
Morel, c. Porter, b. Spittal	19
Total	36

CRICKET NOTES

The local cricketers went to Bridgetown on Wednesday where they suffered a bad defeat, the Bridgetown eleven beating them by one inning and four runs.

There are now five cricket teams in the Valley—Windsor, Wolfville, Kentville, Bridgetown and Annapolis.

Bridgetown plays Annapolis on Saturday afternoon next Thursday.

On Thursday of last week the Windsor cricketers defeated the Bridgetown eleven by the score of 65 runs to 50.

The Windsor team met the West Indians on Wednesday at Windsor. The visiting team played with the men and made 90 runs in one inning. Windsor, with a full eleven made 108 in two innings. The victory therefore remained with the visiting team which is an exceptionally strong one and probably unequalled in the province.

A movement is now on foot to play the West Indians on Labor Day with a team drawn from all the Valley clubs.

Another match between Wolfville and Windsor will shortly be played, probably next week.

KINGS CO. BOYS' BASEBALL

The Wolfville Tuxis Boys and the Kentville Boys played a game of baseball on the Campus, Wednesday afternoon, which resulted in a win for the visiting team by the score of 12 to 6. The local team showed lack of practice and did not show anything like their usual game. The visitors took the lead in the first innings and kept it throughout the game. The score by innings was as follows:

Wolfville	0 2 0 1 0 1 0 0 2	6
Kentville	2 1 0 1 2 1 5 0 x	12

The teams were made up as follows:

KENTVILLE	WOLFVILLE
M. Schofield	c. C. Langille
B. Schofield	p. B. Elderkin
Leitch	1b. G. Rand
Sanford	2b. A. Brown
J. Walsh	3b. R. Baird
R. Redden	ss. W. Bartheaux
E. Redden	l.f. W. Kennedy
Harvie	c.f. G. Kennedy
H. Corbin	r.f. V. Rand

It was stated at the game Wednesday, that it was played to decide who should have the cup. We thought that this had been decided some time ago. A schedule was drawn up and all the games played with the result that the Wolfville boys won three games, Kentville two, and Canning one. We should like to know why this extra game was necessary. Can anyone enlighten us?

Waraw now seems to be saved from the Bolsheviks. The Poles, led by French officers, are driving back the Soviets and threaten to cut their communication lines.

Haying operations have been very seriously interfered with during the past two weeks by unfavorable weather.

"Beautiful Wolfville"

Makes Steady Progress in Favor

It is a pleasure to visit different sections of our town and note the improvements made from time to time. Wolfville has the reputation of being a very pretty town and citizens generally appear anxious that this reputation should be maintained and enhanced. As a result each season sees changes and improvements in private property on every hand. Probably no town in the Maritime Provinces has a larger proportion of pretty homes and well-kept grounds. This is very gratifying to any person who has at heart the best interests of the town and hears with pride the flattering expressions of visitors. We cannot afford, however, to rest upon our oars. There are yet many improvements to be made in order that Wolfville may be made the beauty-spot nature has destined it to become. Much progress has been made in recent years in our streets and public grounds, but there is still much to be accomplished. Next season ought to see the construction of modern sidewalks on the principal streets and the institution of a system of more careful attention to the little details that make all the difference between a well-cared-for and a neglected town. Our cemetery and public grounds are deserving of much more attention than they receive. THE ACADIAN would like to see a movement inaugurated looking to a general policy of town improvement which would merit and receive the hearty support of citizens generally. This year a number of fine new residences are being erected and the rapid growth of recent years and the increased prosperity which prevails justifies the expenditure of our best efforts for civic advancement.

REFERENDUM IN NOVA SCOTIA

In November, 1919, Federal Legislation was enacted, providing that if the Legislative Assembly of any province passed a resolution that the vote of the electors be taken for, or against, the importation, and the bringing of intoxicating liquor into the province, a proclamation would be issued announcing the date and arrangements for the taking of the vote.

The Legislative Assembly of Nova Scotia at the last session of the House passed the necessary Resolution, and it has been forwarded to Ottawa. The vote will be taken on or about the 25th of October of this year.

Under the terms of this Federal Legislation, it is well to note:

1.—If more than one-half of the total number of votes cast are in favor of prohibition of importation, the law comes into force.

2.—The law provides that (a) No person shall import, send, take, or transport into the province, any intoxicating liquor, for beverage purposes. (b) No person shall either directly or indirectly manufacture or sell or contract or agree to manufacture or sell any intoxicating liquor to be unlawfully imported, set, taken, or transported into the province.

3.—Liquor may be manufactured, and imported for sacramental or medicinal purposes or for commercial or manufacturing purposes, but not for the manufacture or use thereof as a beverage.

4.—The penalty for first offence violation of the law is \$200.00 to \$1000.00, for second and subsequent offences, six to twelve months imprisonment.

As the date of the Referendum is October 25th, it is hoped that there may be thorough organization in every county.

The Valley Real Estate Agency reports an excellent string of buyers coming to the Valley and some interesting sales recently, among which may be mentioned the property of the late Joseph A. Bancroft, M. P., of Round Hill, Annapolis County to a Halifax man and the fine farm of Pearl G. Smith near Aylesford to a young Montreal banker. On Tuesday of this week Mr. Hsley and Mr. Roop made four sales in this county as follows: the farm of Mr. H. L. Eagles at Highbury to Mr. C. E. Barnes of Halifax; the farm of Major Gordon Ralph at Avonport to Mr. Roderick McKinnon of Sydney; the farm of Mr. Frank Hale at Cambridge to Mr. Gibbons of Halifax; and the farm of Mr. C. L. Charlton at Waterville to Mr. Theodore Smith of Halifax. This we believe constitutes a record for one day's sales for any farm agency in Eastern Canada.

N. S. Tennis Tournament

Wolfville Players Make Good Showing

Bad weather interfered with the Nova Scotia Tennis Tournament last week so that the events were not finished until yesterday. Dr. C. E. A. deWitt was the only Wolfville player to get into the finals, and up to going to press we had not heard the result of his match with R. Dawson, of Bridgewater, for the championship. The results of the sets in which local players took part since last Thursday were as follows:

Saturday's Playings:
R. Dawson, Bridgewater, defeated R. W. Tufts, 6-3, 6-2.

E. Foster and J. Butler, Bedford, defeated Dr. deWitt and R. W. Tufts, 6-3, 6-2.

H. W. Kirkpatrick and Miss H. Douglas, South End, defeated A. Chute and Miss M. Chute, 6-0, 6-4.

P. Hallisey and Mrs. R. F. Dawson, Bridgewater, defeated P. G. O'Brien and Miss DeWolfe, 12-10, 6-4.

Monday's Playings:
A. Chute defeated Clarence Grant, New Glasgow, 6-4, 6-4.

G. Smith and A. Voight, North Sydney, defeated F. G. O'Brien and A. Chute, 6-2, 6-3.

Tuesday's Playings:
H. W. Kirkpatrick, South End, defeated A. Chute, 6-2, 3-6, 6-4.

Dr. deWitt defeated K. Tremaine, Windsor, 6-0, 6-2.

Dr. deWitt defeated H. W. Kirkpatrick, South End, 6-3, 6-3.

F. G. O'Brien defeated A. T. Campbell, Truro, 6-0, 6-8, 6-3.

R. Dawson, Bridgewater, defeated F. G. O'Brien, 4-6, 6-0, 6-3.

Wednesday's Playings:
Dr. deWitt defeated E. Halliver, Sydney, 6-4, 6-3.

A MUSICAL TRAY
The concert given at the Opera House last evening was a musical treat that was greatly appreciated by a good-sized audience. From the opening number, an artistically rendered trio—violin, piano and cello, by Messrs. Bowen and Richmond, with Miss Bullard, to the end of the well rendered program, those present were delightfully entertained. Mr. Lewis Pick, of Boston, who is spending his vacation at his home here, was heard with real pleasure by many old friends in several numbers. Mrs. Embree, of Kentville, always a favorite; also had a prominent place. The other performers were Miss Edith Bullard, soprano; Mr. Richard Bowen, baritone; and Mr. Lyander Richmond, cello. All are artists of a high order.

GASPEREAU NOTES

Our usually quiet little community has an unusually large number of visitors this summer whose presence is much enjoyed. Mr. and Mrs. M. M. Martin, of Southboro, Mass., are guests at the home of the former's brother, Mr. J. D. Martin. Mrs. Sheridan and daughter, Miss Lois, of Boston, are visitors at the home of Mr. and Mrs. James Gertrude.

Mrs. Austen Eagles, of Massachusetts, is visiting at the home of Mrs. Woodworth.

A number of friends from New England are guests at the home of Mr. and Mrs. N. O. Benjamin.

Mr. and Mrs. J. S. Millett, also have a number of relatives visiting them.

Plans are now being made for our annual Sunday School picnic, which will be held shortly.

The proposal of the Council and School Board to purchase the property on Acadia Street, formerly occupied by the late Robert Schofield, for school purposes will be considered at a public meeting to be held in Temperance Hall on Monday evening of next week. This property adjoins the school property on the East and would be the most natural acquisition for growth. The price to be paid is \$9,000 and citizens will be asked to vote that amount at the meeting on Monday evening. At this meeting the plans of the School Board will be unfolded. It is understood that these include the proposition of THE ACADIAN last week with regard to a domicile for teachers and outside pupils. There should be a large attendance of citizens so that the pros and cons of the situation may be duly considered and fully discussed.

Greenwich Notes

Preparations are being made this week for the re-opening of our school next week. Miss Bowes will be in charge, with Joyce Harvey as assistant. One great advantage for use of school, the coming term, will be good water in the school room. The school house was never connected with any of the water systems before, the old way of carrying water in a pail, being the order.

The many friends in this place are glad to hear of the steady recovery of Mr. C. C. Brown, of Hantsport, from his recent serious illness.

Mrs. Fred Forsythe is visiting Mrs. Arthur Leslie—nee Dorothy Brown—at Dartmouth.

Mrs. James Harvey spent the day last Saturday at the home of her father, Mr. C. C. Brown, Hantsport.

Miss Verta Lantz, of New Ross, a former school teacher here, recently spent a week-end here with her cousin, Mrs. Hazen Bishop.

Mr. H. H. Marshall, is much improved in health.

Mr. James Walsh, Spring Garden Road, Halifax, visited recently at the home of his brother-in-law, Mr. John Murphy, of this place.

Mr. Burpee Bishop very recently made another trip to Yarmouth, thence around the shore and home, with his Ford car. He was accompanied by his sister, Miss Lillian Bishop, also Miss Jennie and Mary Johnson, of Wolfville, and Miss Dorothy Williams of Berwick. A week's outing was enjoyed by all.

Mr. Murray A. Forsythe recently left for the Canadian West, on one of the Harvesters Excursions. Good wishes follow him.

Mr. Charlie Fenwick is working in a stone quarry near Halifax. His brother John returned home from same place a few weeks ago.

Miss Irene Kelly, of Massachusetts, visited several days recently at home of Mr. and Mrs. T. A. Pearson.

Miss Charlene Pearson returned home about two weeks ago, having given up her position at "The Pines," Digby.

Mr. and Mrs. T. Andrew Pearson and family motored to Digby and back on Saturday.

On the recent hot Sunday, August 1st, Mr. and Mrs. George Bishop and family motored to Scotts Bay where they enjoyed the cooling sea breezes all day, returning in evening. On the same day, Mr. and Mrs. Byron Cox and daughters, accompanied by Miss Marion Bishop, motored to Halls Harbour, finding it delightfully cool.

Miss Christine Harvey and Miss Betty Fenwick recently visited, in Aylesford, at the home of Mr. and Mrs. William Brown.

Mrs. Lee Bishop entertained the girls club at her home last Friday evening.

N. GRAND PRE NOTES

Mr. and Mrs. Doyle of Halifax, have been spending a few days with Mrs. M. L. Dimock.

Mr. and Mrs. Robt. Chrscholm, of Wolfville, who have been spending the summer with Mr. F. R. Welton, have returned to their home.

Mrs. Gillispie and daughter Mary, of Halifax, have been visiting Mrs. Dimock.

Miss Evelyn Palmeter has been visiting relatives in Hortonville.

Mr. and Mrs. Harry Low, and twin sons, of Halifax, are spending a vacation with Mr. and Mrs. Maurice Dimock.

Miss Kate Palmeter is home from Halifax for a vacation.

Mr. and Mrs. Everett Palmeter motored to Bridgetown last week.

Canning Notes

Another fine tern schooner was launched on Saturday by Messrs. Lockwood and Hatfield, at their yard at Canning. She was christened the "Fieldwood," her dimensions being: length, keel, 136 1/2 ft.; breadth, beam, 33 1/2 ft.; net register tonnage, 434 97-100; class 13 years "Bureau Veritas."

This schooner is for Captain Harold Richard, of La Have, and will be fitted with all the latest equipment and is a fine looking, well-built schooner, a credit to the builders. This launch was one of the prettiest sights ever witnessed in Canning.

Mr. and Mrs. Stabb, of New York, are the guests of Dr. and Mrs. Walter Dickie, Barton.

Miss Edna Sullivan, Boston, is the guest of Mr. and Mrs. Alphonse D. Sullivan, Delhaven.

Dr. and Mrs. Kenny, of Winchester, Mass., and Mrs. Dobson, of Neponset, Mass., are guests of their parents, Mr. and Mrs. S. W. Hubbard.

The United Baptist church, which served dinner at the launching of the "Fieldwood," on Saturday, realized \$140, the "Division" table adding \$20 to its funds.

The "Canadian Girls in Training," met at the home of Mrs. Arthur Ward, on Monday afternoon. After the business meeting, a delightful social hour was spent.

Walter Covert, of New York, is the guest of Hon. A. M. and Mrs. Covert.

Rev. F. Friggens, conducted the united services of the Methodist and Baptist churches, on Sunday last. The beautiful violin trio, by Mrs. Charles Sinnett, Miss Kathleen Rand and Miss Minnie Miller, and the solo by Miss Mina Johnston, of Windsor, added much to the service.

A wedding of unusual interest was solemnized at the home of Mr. and Mrs. Walter Mosser, Parrsboro, on Tuesday afternoon, August 10th, when their daughter, Vera Irene, became the bride of the son of the late Mrs. Arthur D. Ellis, of Canning. The ceremony was performed by Rev. H. M. Manzer, of South Hampton, only the immediate relatives being present. After the ceremony, Mr. and Mrs. Ellis left for a short motor trip through the province, after which they will reside in Canning.

The funeral of Edith, wife of Gordon Irvin, which took place from her late residence, Brooklyn street, on Sunday afternoon, was a large and representative one, the service being conducted by Rev. Mr. Whitman, of Biltown. Mrs. Irvin was the daughter of Mr. and Mrs. Rufus Thorpe, of Delhaven, and was beloved by all who knew her. She leaves to mourn their loss her husband, and five children, Henry Elmer, Harold and Fred and Ethel; her parents, Mr. and Mrs. Rufus Thorpe, Delhaven; three brothers, Harry, of Lynn, Mass.; Glenforth, of Denver; and Renforth, residing in Melville; and five sisters, Mrs. Brown, of Lakeville; Mrs. Harry Thorpe, of Kentville; Ether, of Boston; Violet, of Wolfville; and Hazel, residing at home. Interment was at Biltown.

Mr. Archibald A. McNeil, of Millville, has been appointed returning officer for this county in connection with the prohibition referendum to be held on October 25th.

The fifteenth annual convention of the Union of Nova Scotia Municipalities will meet in Windsor on Wednesday, Thursday and Friday, August 25, 26, 27. Among the speakers will be Mrs. Laura Haliburton Moore, whose subject will be "Women and Municipal Work."

DANCE

BY THE SEA!

EVANGELINE BEACH

Friday, August 20th

Boston Jazz Band in Attendance.

Notes and Comments

The newly-formed Canadian Teachers' Federation have decided to ask double the salary of 1914 for 1921.

Let us be of good cheer, remembering that the misfortunes hardest to bear are those which never come.—Lowell.

Self mastery is gained by little victories at a time, and every new victory gives us fresh strength for greater victories in the future.

The Federal Government has endorsed the Ontario-Quebec proposal to expend Forty Million Dollars on building and maintaining good roads.

An immense colonization project is to be launched in Great Britain and the United States in November for the purpose of inducing desirable residents of these countries to settle on 20,000,000 acres of arable land in the prairie provinces of Canada.

A big iron ore discovery in Newfoundland is reported by L. Netten, a Bank of Montreal man, St. John's. The find, which is at Indian Head, Port au Port peninsula, is described as "a mountain of hemities iron ore, and is declared to be inexhaustible.

When the next general election for Parliament is held England will have at least a dozen prominent women in the labor party field as candidates for the House of Commons. Practically all of these women have a national reputation as social workers and reformers.

Peace for the United States and the world by this nation's entrance into the League of Nations with "interpretations," not disturbing its vital principle was pronounced Saturday by Governor James M. Cox, the Democratic presidential standard-bearer, as his paramount policy.

Premier Meighen will be one of the speakers at a big public meeting at Truro, Tuesday evening, August 24th. The other speakers at the meeting will be Hon. Hugh Guthrie, minister of militia, and Hon. F. B. McCurdy, minister of public works, who is contesting the county in the portfolio by-election of September 10th.

Mr. Frank E. Smith, member of the House of Assembly for Shelburne county, has tendered his resignation to the Provincial Secretary, in order to make his seat available for Hon. E. H. Armstrong, Commissioner of Works and Mines, who failed of re-election in Yarmouth county. The by-elections will probably take place the first week in September.

Every ton of sea water contains about one grain by weight of gold. There are more than 40,000,000,000 tons of water in a cubic mile, and the oceans are estimated to contain 300 cubic miles of water. Thus, according to this reckoning, there are about 90,000,000,000 tons of gold in the sea, or more than all the gold mines that have ever been discovered.

The Democratic candidate, Cox, has openly declared the League of Nations to be the dominant issue in the present campaign. It will now be up to Senator Harding, the Republican candidate, to make a definite clean cut statement of his position. Between now and November the people of the United States will have plenty of opportunity to discuss the pro and con, and the world will await their decision.

Pallid Cheeks Mean Anaemia

New Health Can be Obtained by Enriching the Blood Supply

When a girl in her teens becomes peevish, listless and dull, when nothing seems to interest her and fainties do not tempt her appetite you may be certain that she needs more good blood than her system is provided with. Before long her pallid cheeks, frequent headaches and breathlessness and heart palpitation will confirm that she is anaemic. Many mothers as the result of their own girlhood experience can promptly detect the early signs of anaemia and the wise mother does not wait for the trouble to develop further, but at once gives her daughter a course with Dr. Williams' Pink Pills, which renew the blood supply and banish anaemia before it has obtained a hold on the system.

Out of their experience thousands of mothers know that anaemia is the sure road to worse ills. They know the difference that good red blood makes in the developments of womanly health. Every headache, every gasp for breath that follows the slightest exertion by the anaemic girl, every pain she suffers in her back and limbs are reproaches if you have not taken the best steps to give your weak girl new blood, and the only sure way to do so is through the use of Dr. Williams' Pink Pills.

New, rich, red blood is infused into the system by every dose of these pills. From this new rich blood springs good health, and increased appetite, new energy, high spirits and perfect womanly development. Give your daughter Dr. Williams' Pink Pills, and take them yourself and note how promptly their influence is felt in better health.

You can get these pills through any dealer in medicine or by mail postpaid at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

WHAT ENGLAND DID

Mr. Owen Wister, a noted American, writing on what England did in the war says:

"Through four frightful years she fought with splendour, she suffered with splendour, she held on with splendour. The second battle of Ypres is but one drop in the sea of her epic courage, yet it would fill full a canto of a poem. So spent was Britain's single line, so worn and thin, that after all the men available were brought, no more ammunition was coming to these men, the last rounds had been served. Wet through, heavy with mud, they were shelled for three days to prevent sleep. Many came at last to sleep standing; and being joggled awake when officers of the line passed down the trenches, would salute and instantly be asleep again. On the fourth day, with the Kaiser come to watch them crumble, three lines of Huns, wave after wave of Germany's picked troops, fell and broke upon this single line of British—and it held. The Kaiser, had he known of the exhausted ammunition and the mounded dead, could have walked unharmed to the Channel. But he never knew."

MOOSE SEASON OPEN OCTOBER 1

The open season for moose for 1920 begins on the same date as that of last year, but ends a fortnight earlier. That means an open season of six weeks, beginning October 1st, and ending November 15th. Many of the guides favor a season beginning September 15th, and a resolution favoring an earlier season was passed at the recent meeting of the Guides Association at Yarmouth. A majority of the hunters throughout the Province, however, appear to favor the later season, which leaves the animals undisturbed during the first half of the mating season. It is expected that the shortening of the season this year will result in the saving of a considerable number of moose. The market has also been further restricted, so that no moose meat may be sold except between October 4th, and the 20th day of the same month.

Another amendment of the Game Act passed at the recent session of the Legislature, extends the close season for ruffed grouse (birch partridge) to October 1st, 1922.

The parliament of the new republic of Czecho-Slovakia has fifteen women members.

A suggestion that the universities of the English-speaking world should get together and confer with the object of establishing an institute which would set a standard of spoken and written English and do for the English language what the French Academy has done for France, was made by Robert Donald, chairman of the Empire Press Union.

DOES NOT ADD TO BUSINESS COST

Subject of Advertising Dealt With Interestingly by Expert

At a recent gathering of business men interested in the subject of advertising, Jos. F. Johnson, D.C.S., Dean of the New York University School of Commerce, gave an address on the subject of "Advertising as an Economic Force."

"As an economic force," said Dr. Johnson, "advertising gives birth to new wants, and so creates an economic demand for goods, thus tending to increase the demand for this labor. No matter how wonderful your invention, or how fine the quality of your goods, people will not buy unless they know what you have. Therefore, you simply must advertise."

"It is entirely wrong to look upon the expense of advertising as one of the costs which add to the price. The truth is quite the contrary. Without advertising, large scale production is absolutely impossible, and large scale production is the 'sine qua non' of low prices. Someone has estimated that the business men of the United States in normal times before the great war were spending one billion dollars a year in advertising. A mushroom economist would immediately jump to the conclusion that the poor ultimate consumer footed this enormous bill. If we could get all the facts, however, I have no doubt we could prove that this billion-dollar expenditure for advertising reduced prices to such an extent that at the end of the year the American people were more than a billion dollars better off than they would have been had some fake economic czar begun the new year with the edict against advertising."

THE SCHOOL TEACHER AND THE LOCAL PAPER

In the university of Wisconsin Press Bulletin appears the following paragraph "More power to the real friends of the country press—now is the time to rally around your home papers and do everything possible to insure their weathering the present situation. The community without a newspaper is no place in which to live."

Commenting on this matter, the Belleville Intelligencer said—"There is a close link between the teacher's work and the local paper. The teacher's work is closely linked up with the work of the newspaper; one cannot fail to influence the other. In many cases the teacher takes a real interest in the local paper, and from time to time makes contributions of news and articles and suggestions to the editor. On the other hand the newspaper gives plenty of space to school news, and gladly chronicles anything of interest to the pupils and their homes. Sometimes the teacher assumes a supercilious attitude to the local paper of one of complete indifference but this, surely, is not common. Teachers everywhere should study their responsibilities as citizens, and one avenue for their community spirit is the promotion of the welfare of the home paper, especially at this time when the struggle for existence on account of the scarcity and the price of paper is so intense."

FOOD—THE GREATEST PROBLEM

"I make the statement without fear of contradiction that food production is the greatest problem of the world to-day. Soil fertility is fundamental to food production. It is of greatest importance, since it lies at the foundation of success in all branches of Agriculture. It will be the duty of the Department of Agriculture to see that our production per acre is increased in every way possible. With this duty will be coupled the bringing in of more people to increase the rural population, and the adjustment of present farm conditions in Canada so as to make them sufficiently acceptable to retain the Ontario boy on the farm."

The above were thoughts expressed by the Hon. Manning Doherty in his address before the Second Annual Conference of the Canadian Fertilizer Association at the Ontario Agricultural College, Guelph.

WHY MUST WE CONTINUE OUR W.C.T.U. EFFORTS WITH UNABATED ZEAL?
By MRS. C. B. BIGELOW

Because the reforms inaugurated by it must needs be consummated, and persistent, persevering and continuous action, projected into and through these coming crucial days, is required to accomplish the object before us. True patriotism demands the most insistent prosecution of the efforts that lead up to our ideals.

We have only recently reached the place where we can do effective work. Through many years of struggle and discouragement we bent our energies to the attainment of the height whereon we

now stand and because of past experiences and achievements, there has come to us a wider opportunity, a greater power and a larger vision.

We must not fail our country now, when it is so evident that nothing but the bulwarks of righteousness, established by minds inspired with God-like thought, and hands imbued with His omnipotence can protect and perpetuate our national existence.

God grant to each of us, wisdom to measure up to our increased responsibility, with an ever deepening appreciation, both for ourselves and others, of the prayerfully planned, ready to hand activities presented us by the W.C.T.U.

Summer Heat Hard on Baby

No season of the year is so dangerous to the life of little ones as is the summer. The excessive heat throws the little stomach out of order so quickly that unless prompt aid is at hand the baby may be beyond all human help before the mother realizes he is ill. Summer is the season when diarrhoea, cholera infantum, dysentery and colic are most prevalent. Any of these troubles may prove deadly if not promptly treated. During the summer mother's best friend is Baby's Own Tablets. They regulate the bowels, sweeten the stomach and keep baby healthy. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.,

MILLIONS FROM LUXURY TAXES

Canada's new luxury taxes are adding millions of dollars to the revenue of the country. Collections from all sources of the Inland Revenue branch for July amounted to \$9,982,051, as compared with \$4,336,452 for the corresponding month of last year, or an increase of \$5,625,599 which is more than 100 per cent increase.

On the excise tax side the amount collected last month totalled \$6,944,457, as compared with \$969,299 for the same month last year. This is another abnormal increase which reflects the effect of this year's legislation.

"Your Teeth"

By REA PROCTOR MCGEE, M.D.
D.D.S., Pittsburgh, Pa.

CHEWING

When a Frenchman has a deformity of the jaw that throws his chin over to one side, the French doctor says he has the face of the "village chanter." Have you noticed the tendency of amateur singers to spoil an otherwise good performance by singing out of one corner of the mouth or by twisting the face in a displeasing manner.

This face distortion is not necessarily confined to singers; we all do it to some extent.

The reason is nearly always to be found in the mouth. Yesterday I broke a tooth and ever since I have drawn my lip down to try to hide the spot. Our natural inclination is to try to hide any infirmity particularly when it is new. If the cause of this effort is not removed, the cover-up act will become a habit that will remain long after the original reason for its use will have been forgotten.

If a tooth becomes tender or the surrounding gum becomes inflamed, the bolus of food that is to be chewed will unconsciously be shifted to a spot that is more nearly normal.

This results in the rapid progress of tartar formation upon the teeth in the whole unused area. Soft foods and mucus will join the tartar so that presently a vile tasting and smelling mass, seething with bacteria, is permanently located in the waiting room of the main station of the route between your dinner-table and your stomach. In addition to being contaminated when this condition is present, the food is only partly chewed. When a habit in chewing is formed that is not normal, the contour of the face is always altered and the facial expression is changed. This is because some of the muscles of the face, which are also muscles of mastication, are not doing their proper share of the work, so they atrophy, which means, grow smaller.

Some of the face muscles have more than their usual amount of work to do, so they grow larger.

With one side of your face growing smaller and one side growing larger it doesn't take much of an architect to figure out the fact that you will have a crooked face if you don't chew right.

You cannot chew right unless your mouth is healthy.

REVIVING OLD MEADOWS

To renovate old meadows, harvest the hay crop early. Just as soon as the field is clear, disc, harrow or cultivate the surface sufficient to break some of the sod surface so that seed sown will come in contact with the soil.

Sow a mixture of the following:—

- Timothy 6 lbs.
- Red Top per acre, 6 lbs.
- Alsike 6 lbs.

When the seed has been sown, run a spike tooth harrow over the surface to cover the seed. Next apply a top dressing of barn yard manure at the rate of 12 tons per acre. This work should be done immediately after the seed is sown. The earlier the seed is sown the stronger the growth of plants will be to withstand the winter. Manure applied early will revive the growth of the young plants, revive the parts of the old meadow that is unbroken and will be well incorporated in the soil before winter sets in. Low pasture lands can be revived in the same way and seeded early in August.

JOHN FIXTER,
Supervisor of Illustration Stations.

DO YOU KNOW

That approximately 100,000 people are employed in the fishing industry in Canada?

That the revenue derived from the fisheries of this country in 1919 exceeded sixty millions of dollars?

That in no other country in the world with the exception of the United States is artificial propagation of fish conducted on such an extensive scale as in Canada, and no where is there a better system employed?

That the Dominion of Canada is between two of the greatest fishing areas in the world, the banks of the Atlantic and those of the Pacific?

That Canada has 12,500 miles of indented coast line on the Atlantic and Pacific prolific with edible fish, and also 200,000 square miles of interior waters from which to draw fish supplies?

That Canada has the opportunity of placing herself in the very forefront as a fish producing country?

That we people of Canada last year consumed less than 19 pounds of fish per capita, while the people of Great Britain used more than 54 pounds per head?

That we have not yet awakened to the wealth of our fisheries?

Ask for Minard's and take no other.

Use B-H Paint—it Pays

B-H Paint will withstand the severe "climate test" of many hard Canadian winters. Speaking more definitely still, there is one paint that carries a 100% guarantee on every can.

B-H PAINT "ENGLISH" 70% Pure White Lead (Canadian Grade U.S.) 30% Pure White Zinc 100% Pure Paint

Famous for its covering capacity and durability. It has a base 100% pure, to which is added a fine turpentine and an exceptional linseed oil from the B-H mills.

Some dealers can sell you paint which costs less per gallon than B-H, but it will not have the B-H guarantee of quality and permanence—neither will you have the certainty that a gallon will show the greatest covering capacity.

Even at the slightly higher cost of B-H you will find when the job is done that the ultimate cost is lower—very much lower.

Another thing, just look at any house that was painted, maybe years ago, with B-H and see the "finish" that still remains.

THE PUBLISHING OF A NEWSPAPER

Many of our readers and but few of those contributing to our news columns or buying of our advertising space know much of the work entailed in "getting out" a weekly newspaper. This fact is demonstrated by the actions of a number of the people with whom the publishers of THE ACADIAN have business relations.

For efficient operation it is necessary that work on the next issue be begun almost immediately after the publication of the previous issue. Unlike a daily office with its big battery of typesetting machines and a large force of make-up men, where news and copy of the day is handled in twenty-four hours, a weekly office has but one machine and operator and copy must be coming along throughout the week if the paper is to be published on time.

It is a not infrequent occurrence for us to receive on Thursday contributions covering matters that have transpired early in the week or even the week before. These articles could be given better attention if in the hands of the printers on Monday or Tuesday when little copy is available.

We feel sure that it is only through lack of knowledge of the operation of a printing office that contributors hold back their copy until the last moment. Before the make-up man can lay out his pages he must have before him the advertising for that issue, and, too, a weekly paper is printed in sections—in the case of THE ACADIAN four pages at a time—and it is therefore apparent that the actual process of printing requires some time.

Copy for changes of advertisements should be in the hands of the printers not later than Tuesday noon, as is stated each week at the head of our editorial columns. If received earlier than that so much the better. We noted recently a positive announcement of a paper printed on Thursday that no copy for changes of advertisements would be accepted later than Monday. Tuesday noon is the latest time THE ACADIAN can safely fix for the receiving of such copy. New advertisements can usually be dropped into a later form in which it is customary to reserve space for such emergency calls.

We have dealt with this subject at greater length than we had intended, but feel sure that it is only necessary to fully acquaint our friends with the facts in order to obtain their hearty co-operation, which will permit of our publishing in good time each week.

Let us have your news items while the news is new, even if close up to publishing time.

The earlier advertising copy is received the better treatment it will receive.

The advertising that counts is the advertising that tells the customer what he wants to know—not only what the dealer has for sale, but also what prices he offers. In fact the latter is the important point. The average person knows what articles are for sale in a drug store, grocery, hardware or dry goods store, or any other store, and he doesn't take much stock in the announcement that "their goods are the very best and the cheapest." It is when you quote him figures that he begins to take interest. The great departmental stores know this and their advertisements bristle with figures.

The Calgary Herald probably represents the general opinion of Canada when it says "Ireland has a place in the British Empire which will be far more glorious than anything she can hope for as an independent nation. Commercially, industrially, socially, the future of the Emerald Isle is bound up with the United Kingdom and the overseas Dominions."

With the price of beans to bask down to 7 and 8 cents a pound, Boston is almost herself again.—Boston Globe.

The difference between the tallest and shortest races in the world is one foot four and a half inches, and the average height is five feet five inches.

AN ESSAY ON ANATOMY
Teacher asked the class to write an essay on the subject of "Anatomy." Here is Willie Bink's effort:
"Anatomy is the human body. It is divided into three parts, the head, the chest and the stummick. The head holds the skull and the brains if they is any; the chest holds the liver, and the stummick holds the food and the vowels, which are a e i o u, and sometimes y."

Bad temper is like the scorpion which stings itself. Every fit of anger injures most the soul that indulges in it.

Items of Local Interest

The Provincial Educational Association will meet at Wolfville next week, beginning on Tuesday.

The Charles Murphy place was sold at public auction on Saturday last, the price paid being \$2925. The purchaser was Mrs. John Martin.

Next Wednesday will be Visitors' Day at the Kings County Boys' Camp, and every one should make it a point to visit on that day.

The pulpit of the Baptist Church will be occupied on Sunday next by Rev. F. H. Bone, of St. John, a former Acadia student who has many Wolfville friends.

Mr. C. A. Bentley has sold his place at Berwick and is moving to Wolfville. He will occupy the house on Gaspereau avenue recently owned by Mr. W. M. Brown.

Patrons of the Opera House will be interested to hear that the Majestic Players, of Halifax, will be here on September 11th, in a play entitled "39 East."

The pulpit of St. Andrews' church was very acceptably filled on Sunday last by Rev. Mr. Irving, of Newport, who preached two thoughtful and helpful sermons.

The Dominion Archives Department has presented a captured German gun to the town of Wolfville and it arrived this week. It will probably be placed on the post office grounds.

Mr. E. Percy Brown, with one patrol of Boy Scouts, is now in camp at Sunken Lake. Next week the full camp will be in operation. Visitors' Day will be on Wednesday, August 25th.

The Presbyterian Sunday School held its annual picnic on Wednesday at Starr's Point. The day was one of the most delightful of the season and the young people enjoyed a very pleasant outing.

The walls of the main portion of the Acadia Memorial Gymnasium have been completed and the building roofed in. It is expected that the building will be finished by the time College opens.

The work of paving Linden avenue is progressing rapidly. The first layer of stone has been placed and a start made on the second layer. The street will soon be ready for the first coat of Tarvia.

The preacher at the Baptist church on Sunday was Rev. Ross Eaton, of Mattapan, Mass. Rev. Mr. Eaton, a native of Canada and a graduate of Acadia is a clever and interesting speaker.

The dance at Evangeline Beach on Friday evening of last week was well attended and proved to be a very pleasant affair. The music by the Boston Jazz Band was much appreciated. It is expected that another large gathering will enjoy this evenings programme.

Prof. George E. Sanders, Dominion Entomologist, who has just returned from a trip through the Province, brings news of the infestation of the Army Worm. He states that 1.5 of the grain crop in Queens County is infested. The pest has also been found in King's, Colchester, Annapolis and Yarmouth Counties. It is a dark colored worm, 1 1/2 inches in length. Owners of grain fields should plough a back furrow against them, as deep as possible, and dig a post hole, 1 foot deep in the furrow, thus protecting the clean fields from those infested. The march is generally from the grass to the grain field. The last two infestations of Army Worm were in the years 1879 and 1914.

Mr. Charles A. Bentley has sold his well known fruit farm near Berwick to Mr. Philip Hsley, manager of the Valley Real Estate Agency of this town. The property is located in what apple men call the finest fruit district of the whole valley and the 25 acre orchard on the farm produced in 1918 a \$6000 crop; an \$8000 crop in 1919 and has a 2000 barrel crop on it this season. The farm comprises about 175 acres apart from the orchard and the farm buildings are lighted by electricity. The buildings are also supplied by a private aqueduct water system. Mr. Hsley has already let the contract for extensive improvements to the property which he believes to be one of the finest commercial propositions of its size in the fruit district.

CANADA AT OLYMPIC GAMES

The Canadian athletes are making a good showing at the Olympic Games which commenced on Saturday. The 110 meters hurdles was won by a Canadian, Earl Thompson, of Prince Albert, Sask., who went over the hurdles in 14.45 seconds, beating the world's record of 15 seconds.

The total scores in the athletic events—track and field—at the finish of Wednesday's events in the Stadium were as follows: United States, 107 points; Finland, 49; Sweden, 20; England, 24; France, 12; South Africa, 7; Italy, 7; Canada, 7; Norway, 5; New Zealand, 3; Estonia, 3.

Business Locals

To Let—A Garage. Apply to Mrs. Ruffee, Gaspereau avenue.

We have one car Portland Cement arriving next week. Geo. A. Chase, Port Williams.

Lost—Between Hantsport and Wolfville, on July 9th, a gray tweed coat. Finder please leave at this office.

WANTED—By private individual, few pieces of old or antique furniture, preferably dining or fancy chairs, dining and card tables, sofa or sideboard. Reply to Box 11, THE ACADIAN office with full description regarding price, condition, age, etc. 47-31

Five building lots on Westwood ave. for sale, trees bearing, splendid situation, will be sold at reasonable price for immediate purchase.

J. D. CHAMBERS.

A number of very pretty articles of crochet work in the window of THE ACADIAN Store this week have attracted considerable attention, particularly from the ladies. This is the work of Mrs. B. O. Davidson, who takes orders for every description of work of this line. The prices are very reasonable.

Get free illustrated catalogue fruit and mixed farms offered in rich beautiful Annapolis Valley.

VALLEY REAL ESTATE AGENCY WOLFVILLE, N.S.

An odd way of testing carpet to see if it is a true Persian produce is in vogue in Persia. A piece of red-hot charcoal is dropped upon it, which leaves a round singed spot. If the carpet is of the first quality the singed wool can be brushed off with the hand without leaving a trace of the burn discernible.

It is estimated by a Chairman of the Winnipeg City Housing Commission that 2,000 houses must be built each year to take care of the normal increase in the Winnipeg population.

A London landlord who advertised a four-room flat at a rent of \$3 a week awoke in the morning to find 600 applicants outside his door.

NOTICE!

RATEPAYERS' MEETING

NOTICE is hereby given that a public meeting of the rate-payers of the Town of Wolfville, will be held on Monday, the 23rd day of August, A.D. 1920, at eight o'clock p.m., at Temperance Hall, in the Town of Wolfville.

The meeting is convened by order of the town council, under provisions of "The Towns Incorporation Act," for the purpose of submitting to the rate-payers a proposal of the council to purchase the "Schofield Property," so called, on the south side of Acadia Street, for school purposes; and, if such proposal be approved by the rate-payers, for authority to borrow a sum not to exceed \$10,000 for such purpose. Such purchase has been recommended by the school board and approved by the town council.

By order, H. Y. BISHOP, Town Clerk A. D. 1920

DEPARTMENT OF MILITIA AND DEFENCE

Notice to ex-members of the Canadian Expeditionary Force.

Notice is hereby given to all concerned that ex-members of the Canadian Expeditionary Force who are entitled to and who require post-discharge dental treatment must submit their applications to the District Dental Officer at the Headquarters of the District in which they reside on or before 1st September, 1920. Applications for dental treatment received after 1st September, 1920, will not be considered.

(Sgd), EUGENE FISET, Major General,

Deputy Minister, Militia and Defence, Ottawa, August 3, 1920.

Note.—Newspapers will not be paid for this advertisement if they insert it without authority from the Department. (H.Q. 3361-1-22)

MOTORS AND MOTORING: A Page Full of Interest to the Owner or Prospective Owner of an Automobile.

HERE IS ONE WAY TO STOP FIRE IN CAR

When the car catches fire—then what? The first thing to do is to try and keep calm and not throw a lot of water where it will do the most harm. Water in the generator will do a lot more harm than good and will damage this part of the electric system permanently.

If the electrical system is short-circuited and fire arises from this source, the first thing to do is to disconnect the battery terminals so that no current will flow through the system.

If the fire is on the carburetor side of the motor, stop and throw sand in. Do not use water. If you do the fire will spread all over the car in no time at all.

If the fire starts in the dirty, oily drip pan under the car, then throw sand or dirt into the blaze. Again, do not use water.

Of course the best solution of the problem is to have a good fire extinguisher in the car and to use it in case of fire. Then you know that nothing can happen that you cannot control.

Backfiring in the carburetor is sometimes a cause of fire, but not nearly so often as most motorists think. If this happens, the way to fight it is to throw sand in and then try and smother the fire with a blanket, robe or coat.

The main thing is to act quickly and decisively and beat the fire before it gets big enough to beat you.

WATER IN CRANK CASE

Not all truck operators realize how much water collects in the crankcase especially at this time of the year. This water mixes with the oil, forming an emulsion, which has a low lubricating value. All this to emphasize the importance of refilling the crank case with fresh oil every 1,000 miles or oftener, if possible, after the crank case has been thoroughly flushed out with kerosene.

Difficult grades can be made with greater speed and less fuel in intermediate than if the engine is permitted to labor in high to the point of stalling. Contrary to popular supposition the engine will cool better if it is not obliged to labor excessively.

CARBURETOR TROUBLE

Many cars have no provision aside from a strainer in the tank for keeping out dirt from the carburetor. Owners of such vehicles will do well to fit a trap in the fuel line. All the big carburetor makers offer these traps, which are to be placed in the line near the carburetor or in the bottom of the tank. The trap catches all the dirt and water and should be cleaned out regularly once a month.

TORONTO.—Advice received by Willys-Overland, Limited, states that an economy record has been established by one of their stock cars. Across the United States, 3,442 miles from New York to San Francisco, with an average of 32.6 miles to the Imperial gallon of gasoline, is the new transcontinental economy record.

The run was started from New York, eleven States being crossed with all their variety of rough country roads, broken mountain trails, stretches of mud and weary wastes of desert-land. Yet the car arrived in San Francisco ready and fit to make a return trip.

This great record is all the more remarkable because of the conditions of this economy test. Spanning the continent has usually been a contest against time. The Overland run was directed against high costs of gas, oil, tires and upkeep.

In these days of increasing talk about the scarcity of gasoline, the Overland record of 32.6 miles to the Imperial gallon of gas in a continuous night-and-day punishing drive of 3442 miles cannot fail to have a pocket-deep interest for every man and woman who drives a motor car.

Neither was the record established by experienced drivers. In crossing the eleven States on the route this car was driven by 25 different men, none of whom had ever seen or handled the car before it arrived in the town where they were told to meet it.

The object of the run was to determine a national standard of economy and stamina for the light-weight car, a class in which the Overland has created a sensation because of its many new features, including the Triplex Springs, designed to ward off the jars and jolts of the roughest roads, and thus prolong the life of the car while protecting passengers from the usual road discomforts.

MAY RATION GAS IN UNITED STATES

A gasoline rationing system to be applied throughout the entire United States is being considered by big refiners. Before adopting the rationing system refiners plan to issue a nation-wide appeal to the country to cut down joy-riding.

Consumption is reported as 13,000,000 gallons a day. Production is 11,000,000 gallons a day.

Refiners say it is impossible to increase production. They say oil now is being produced faster than ever before. In June, for instance, 11,087 wells were being drilled.

THIS REALLY HAPPENED

Franklin Freeman, who lives on Franklin Street, in the village of Franklinton, in the county of Franklin, has just purchased a new Franklin car through the Franklin sub-dealer in Franklin county, North Carolina.

The present demand for automobiles in Sweden is 300 per cent. greater than that prevailing in 1914.

Did you ever look at your fan belt when you found your engine overheating? A slipping belt means the fan is going at a slower speed and does little cooling for the engine. Tighten up the belt every once in a while or ask a harness man to do it for you.

THE ENGLISH LANGUAGE

"There isn't much I don't know about the English language," boasted the long-haired man in the club.

"I'll test you," a friend picked him up sharply. "I'll dictate a paragraph to you."

With an assured air the boaster seized his pencil, but his jaw dropped as he heard:

"As Hugh Hughes was hewing a yule log from a yew tree a man dressed in clothes of a dark hue came up to Hugh and said: 'Have you seen my ewes?'"

"If you will wait until I hew this yew tree I will go with you anywhere in Europe to look for your ewes," said Hugh.

Empire Press Delegates in Evangeline's Land

(1) Delegates taking a bucket of water from Evangeline's well.

(2) The Statue of Evangeline just after the unveiling by Lady Burnham.

Five continents were represented at the unveiling of the statue of Evangeline, Grand Pre, Nova Scotia. Nearly all those present belonged to the Imperial Press Conference party, and the unveiling ceremony was performed by Lady Burnham, who said:

"Evangeline is the beautiful conception of an American poet whose verses we learnt to read on both sides of the Atlantic when we were children. History has shed another light on the Acadian story. We see today that British policy was not as black as it was painted. Whatever may be the truth of this story, as a woman, and an English woman, I shall always regard it as one of the most painful episodes in our annals. Thank God those cruel old days lie behind us forever, and from the fate of Evangeline has sprung a great wave of sympathy which has been carried on the healing hand of time. It is a good omen that the beautiful sun, God's healing hand, should be resting upon us all today, who are here to do honor to that sweet woman. Under those rays in your wonderful land so full of beauty and promise the old hatred is dead. I have now the great honor and privilege of unveiling the statue of

Evangeline. The statue, which is of bronze, is the work of Henri Hebert, from a model by his father the late Philippe Hebert, a descendant of the Ac-

dians of whom Evangeline was one. It is a magnificent work of art, and was presented to the Park at Grand Pre by the Dominion Atlantic Railway, which is now part of the C. P. R.

BATTERY DETERIORATION

Knowledge of the reasons which cause batteries to become discharged will insure the length of service to the battery almost indefinitely.

Here are 14 reasons for battery deterioration:

Frequent starts with but short runs. Insufficient input to battery on account of short runs at low speed.

Use of headlights while standing at the curb.

Ignition switch left on battery over night.

Unnecessarily high candlepower lights, including spotlights.

Lamps left burning over night.

Moving car in garage or elsewhere on the power from battery.

Prolonged attempt to start in cold weather without priming, and without warm water in radiator.

Prolonged attempt to start without investigating engine troubles such as poorly adjusted carburetor, dirty or cracked spark plugs, gummed and sticky valves, carbon.

Starting and lighting system, worn-out generator brushes. Sticking of points in automatic cutout. Loose belt (leather). Loose connections.

Loose connections, generator motor or battery terminals, fuse box, ground wire, switch or spark plugs.

Ground, due to loss of wire insulation through chafing.

Corroded battery terminals.

Inrequent testing and water filling of battery.

RECKLESS USE OF BRAKE IS COSTLY

An authority on tires says that a motorist cannot jam on his brakes without affecting his purse. Locked wheels are immediately responsible for tire bills. To prove this he demonstrated a new casing which had been driven only a few miles, yet the rubber was scrawled away, exposing the fabric. At the very moment the wheels were locked by the brakes, the tire was passing over a stone, which was dragged along with the tire. This stone sawed right through the fabric in one spot and punctured the inner tube. This careless customer, obviously the author of his own misfortune, complained that there was a "weak spot in his tire!" Yet all his trouble, delay and disappointment were caused by smashing on his brakes when he should have applied them gently. As a matter of fact, a car will stop more quickly in almost every case if the brakes are applied gently.

HAS EVERY MAN HIS PRICE?
The liquor men find it hard to get men to champion their cause. When they wanted a United States lawyer to contest constitutional prohibition on their behalf it is said they offered Charles E. Hughes a cheque for \$150,000. His answer was, "I would not champion this cause before the courts for any sum of money you could name." They then went to William H. Taft and gave him a signed cheque to be filled out for any amount he might choose. He said, "Gentlemen, you couldn't pile enough gold on this continent to induce me to take your case before the courts and the public, for I would have you know my conscience is not for sale." "All men have their price." Have they? Better try it and see. You will find it isn't true.

A Tonic Worth While

Do you need a Tonic? Are you out of sorts? Have you indigestion, liver troubles, or are your nerves out of tune? If so just try Vital Tablets. They are a wonderful Tonic. They clear the complexion, purify the blood and tune up the whole system. Get a box from your druggist, or by mail from The Scobell Drug Co., Montreal. Price 50c a box or 6 boxes for \$2.50.

Towards the end of September the flotilla of naval vessels comprising an oil-burner cruiser, the Aurora, two destroyers and two submarines, which are the gift of the British Admiralty, will arrive at Halifax.

TIP TOP TEA

As the electric telegraph was an advance over previous methods of communication, so is "TIP TOP TEA" an advance in quality over all other teas.

Choice Building Lots FOR SALE IN THE TOWN OF WOLFFVILLE.

Five Building Lots each with a frontage of 52 feet in the above location in the town of Wolfville offered for sale at a reasonable price.

The lots are owned by Mrs. Alice G. Merchant and adjoin the lands of Acadia College and are part of the Estate of the late W. C. Blackadder.

These lots must be sold at once as the owner is desirous of realizing their value.

For further information apply to Eugene T. Parker, Box 678, Halifax, N. S., who has full power to negotiate a sale.

PREPARING BEES FOR WINTER
(Experimental Farm Note)

The successful wintering of bees is often ascribed to luck. But investigations carried on at the Central Experimental Farm, Ottawa, during the past eight years, show that there is very little ground for this view. Of 348 colonies wintered during this period, both in the cellar and out-of-doors, only seven per cent were lost, and this loss was ascertained in nearly every case to be due to definite causes, the principal causes being unwholesome and granulated stores and starvation. Most of the colonies lost from unwholesome stores did not die outright but became so weak that they had to be united to others.

The secret of success in wintering bees lies in their proper preparation. This preparation needs to be begun in July when it is important to see that the colony contains a good, fertile queen, preferably one raised the same year, which will raise a large number of young bees in the late summer months.

Each colony needs about 40 pounds of wholesome stores for the winter and early spring, and this should be in the hive before the end of September in most places. Clover honey and syrup made from refined (not brown) sugar are wholesome. This year, owing to the high cost of refined sugar, it may be hard to provide sufficient good stores, especially in some parts of Ontario and Quebec where the clover was killed last winter, and chances may have to be taken with honey that the bees gather from other plants. Buckwheat honey is wholesome, but some of the honeys, for example, that come from wild plants in the fall are inclined to cause dysentery and death.

Winter protection is very important. If the bees are to remain outside, no better protection can be given than the 4-colony case made large enough to hold about four inches of packing consisting of shavings, or dried leaves a year or more old, around the sides and beneath the hives, and double this thickness on top. The apiary must be well protected from wind.

If cellar wintering is followed, the bee cellar should be comparatively dry and it should be well insulated to prevent much variation in temperature. For a few colonies in a cold locality a boarded-off portion of the basement of the beekeeper's residence makes a good bee cellar and a furnace in the basement is an advantage. If the stores are wholesome and the bees have been brought in before severe weather, the best temperature for the bee cellar is between 45° and 50°F. If however, dysentery has developed, the higher temperature will cause restlessness and a few degrees lower will be advisable.

Minard's Liniment Co., Limited.
Gentlemen,-- I have used MINARD'S LINIMENT on my vessel and in my family for years, and for the every-day ills and accidents of life I consider it has no equal. I would not start on a voyage without it, if it cost a dollar a bottle.

CAPT. F. R. DESJARDIN,
Schr. Storke, St. Andre, Kamouraska.

Lillie: Yes, I am engaged to Bobby, and he gave me this ring--isn't it sweet?
Her Best Friend: Charming, dearest, but you'll find when you've worn it a few days it will leave a black mark on the finger--it did on mine. --Fading Show.

Do you know of any exceptions to the rule that all successful merchants are advertisers? And have you noticed that the most successful merchants make the largest use of newspaper space?

A thirty-five foot yawl has just crossed the Atlantic in less than sixteen days, says the St. John Telegraph. On the way heavy seas were encountered, but the craft stood up well and without mishap. The Shamrock and Resolute, each more than twice as long as this boat, were unable to leave their moorings in what old sailors called a "stiff breeze."

CANADA HAS BIG CROPS THIS YEAR

OTTAWA, Aug. 12--Canada's 1920 wheat crop is estimated by officials of the Agricultural Department at 262,338,000 bushels as compared with the final estimate of 193,260,000 bushels last year. The oat crop is expected to go to 496,966,400 bushels, as compared with 394,387,000 bushels in 1919. Barley also shows a substantial increase the figures being 63,438,500 bushels as against 56,389,000 bushels last year.

These preliminary estimates are based on the actual condition of the crops on July 31st. Daily reports to the Department have been such that no appreciable change in the estimate is expected.

The total yield of hay and clover is estimated at 12,853,900 tons from 10,400,150 acres, an average of 1.25 tons per acre, as compared with the last year's record total of 16,348,000 tons. Of alfalfa the total estimate is 388,700 tons for the first cutting as compared with last year's final total of 494,200 tons.

Flax seed is nearly doubled, the estimate being 10,597,700 bushels as compared with 5,482,500 bushels last year.

The total yield of potatoes is estimated at 124,312 bushels as against the final estimate of 125,575 bushels a year ago.

HEAVY DROP IN N. B. APPLE CROP

FREDERICTON, N. B., August 7--Provincial Horticulturist A. C. Turney, announced today that the apple crop in this province this year would amount to only sixty percent of last year's crop. This was owing to the prolonged drought in sections which caused a heavy drop in the young apples. The bulk of the crop consisting of Dudley winter, McIntosh and Wealthy varieties would be fairly good, but the Fameuse and Alexander crops would be much lower than last year.

A woman operating a chain of tea-rooms at several of the fashionable resorts in Florida and along the New England coast is said to have made a profit of \$30,000 during the past year.

All this talk about the possibility of paper suits of clothes might interest folk more if they did not realize that, at the present price of newspaper, the paper suits are liable to cost more than those most people are now wearing.

Personal Paragraphs

Miss Mary Raymond, of New York, is visiting in town.

Mrs. K. B. Craig, of Waterville, was a visitor in town this week.

Mr. Cecil Flick, of Halifax, is visiting his mother, Mrs. H. E. Flick.

Mrs. J. W. McMahon, of Halifax, is visiting her mother, Mrs. Ruffee.

Mr. H. P. Davidson, of this paper, spent Sunday with friends at Waterville.

Rev. J. H. MacDonald has been spending a few days in Digby, a guest at the Pines.

Mrs. C. M. Murray returned last week from a very pleasant outing at Evangeline Beach.

Miss Belle Patriquin, of Halifax, is spending a few days in town, visiting relatives.

Rev. E. M. A. Bleakney occupied the pulpit of the Windsor Baptist church on Sunday last.

Mr. Alline Huntington, of Schenectady, N.Y., is spending a few days in town visiting old friends.

Mr. and Mrs. J. F. Kennedy, of Halifax, are visiting the latter's parents, Mr. and Mrs. R. E. Harris.

Mr. L. B. Fielding is having a well earned vacation which he is spending with friends in Cumberland county.

Miss Erma Taylor returned on Monday from Falmouth, where she had been spending some weeks visiting relatives.

Miss Margaret Weeks has arrived from the South and will visit her mother at the College Residence for some weeks.

Mrs. C. A. Brown and son, Vernon, are spending a few weeks at Mrs. Brown's old home at Hampton, Annapolis county. Mr. Brown spent the week-end with them.

Rev. Guy Bleakney occupied the pulpit of the Gaspereau Baptist church on Sunday evening last. Miss Stella Bleakney sang a solo which was much enjoyed.

Rev. Guy Bleakney, Rev. E. M. A. Bleakney and wife, and Mr. A. W. Bleakney are on a motor trip around the South Shore.

Miss Jennie Pineo, of the Telephone Exchange, is spending a well-earned vacation at Melvern Square, accompanied by her mother, Mrs. Howard Pineo.

Mr. and Mrs. B. O. Davidson have had as their guests this week Mr. and Mrs. E. R. King, of New Bedford, Mass., who have been spending the summer in Nova Scotia.

Mr. Walter P. Copp, of Ottawa, a graduate of Acadia University in the class of 1906, has been appointed to the position of Professor of Civil Engineering at Dalhousie University.

Mr. Robie Murphy, of Port Williams, a returned soldier, who went to England the latter part of May and was married "over there" about the middle of June, returned home with his bride on Monday evening.

Mr. Brenton Vaughn, of Everett, Mass., a Wolfville boy who left here a good many years ago, was in Wolfville with an automobile party last week. He expressed himself as much pleased with the progress made by the old home town since he last visited it. Mr. Vaughn is leaving shortly for Cuba where he will charge of the very large work of constructing a water-pipe line eighty miles in length.
