CHAPTER XX.

It was a great misfortune, or she felt it so, that Mrs. Alwyn's conscience, worn fine under roughish usage, still asserted its existence sufficiently to keep her extremely irritable for some time after her younger daughter's departure.

With the common perversity which values what is lost or flung away, Mrs. Alwyn now acknowledged that the child of her second marriage had some rare endowments of brain and soul, and the notion that she had so worked them as to get no social credit thereout, but had let them go into paltry-paid servitude, was wormwood to her. For one-and-twenty years she had had that youngest-born to carp at Now she missed her, hugged her conceit too closely to confess it, and took umbrage at all whose questions constantly reminded her of the girl's absence, and of the entanglement sh had drawn upon herself by promoting it. Suffering under this condition, described by her servants as "bein' so nobody couldn't please her with nothin'." the malaise of Mrs. Alwyn pervaded the household, and set everwidening circles of gossip astir.

It was on one of June's last days when Hills appeared at the glass door of the morning-room, asking if his mistress or Miss Villiers would tell Grev begin where I left off, Gilbert?" him what color Miss Sydney wished Miss Hurst questioned, handing down "they stocks grafted. The flags of five nations have floated over Canal Street. Slaves have been sold on its corners and French nobility has sunned itself in its clubs waiting for another revolution in Paris. It has had more history than any other American street and the northern tourist passing along its length still sees many things which make him think he has an ocean between himself and home. On the whole, its skyscrapers are not as impressive to the stranger as the threestory cisterns which soar aloft on every hand in its residence section.

the Motor for your own mistakes.

#### The Cause

of quite a lot of motor trouble is, you have been feeding your motor with unsuitable oil.

#### The Remedy

is to use Oil that is recommended by a reliable and experienced manufacturer.

#### **POLARINE OIL**

is the result of fifty years' experience in furnishing lubricating service to the leading engineering works of the World.

POLARINE represents the modern process of making one grade of motor oil which will lubricate all types Mo-

## The 'Leader' Grafonola

The "Leader" is veritable triumph of the "Columbia" Company's. It is a beautiful instrument and possesses all the charm of the Grafonola at its very best.

It has full, rich, mellow tones that can be subdued at will, so as to make it suitable for a small room, or again can be made to produce a magnificent volume of sound that just as easily fills a large hall. The

"Leader"—which well merits its name—forms a handsome addition to any drawing-room. Come and hear some grand opera records on it.

"When I was younger I was ambitious to be a public benefactor in a small way, and I boosted every scheme for the general good. There were two bands in our town, and it struck me that it would be a fine thing to have evening band concerts in the park, so I got up a subscription paper starting if off with \$25 in my own name, and then circulated it around. Many of our leading business men contributed as generously as they eculd, for nearly every man wants to help make the people happy. So one of the two bands was chartered, and began giving concerts, and the local paper printed an editorial giving me credit for the innovation, and

#### THE GREATER QUESTION.

At this season of the year for Farmers with up-to-date ideas is, what are the best means to use to get the best returns from the land.

Fertilizers must be used liberally

if large returns are looked for. There are several good chemical fertilizers which may be recommended, but Sulwhich may be recommended, but Sulphate of Ammonia has been proved to give the best returns, and is the most valuable and economical source of Nitrogen for agricultural purposes.

For vegetables, grass, and all leafy crops, about one and a half cwt. per acre is the best quantity to use, and this should be applied when the plant is making it's growth, as well as be-

once a week for a month. This quanphate to a fine powder, and mix with four or more times its own bulk, for the purpose of diluting the manure, which is very powerful.

I wish to state that I am well satisfied with the results which your Company have given me in connection with my Endowment Policy No. 47,775, which matures on the 17th of March.

I find that the returns give me over \$424.00 more than I have paid in premiums, in addition to the protection that I have had luring the Policy term. I consider this all the more satisfactory taking into account the fact that the dividends were applied as a Bonus every five years. It is clear, therefore, that the hopes which the supposed "offer" to Germany aroused were entirely without foundation. The second fact is equally grave. It has hitherto been taken for granted that Admiral von Tirpitz had expressed himself on behalf of the German Government as heing ready to consider some such 'offer" as Mr. Churchill was understood to hold out. Sir Edward Grey has declared that this impression of Admiral von Tripitz's words was not borne out by the terms he actually used.
