rade militated against the spirit of recent regulations.

The arguments presented to the government in advocating shorter hours of sale on ordinary weekdays have been pressed strongly in reference to the new proposal. The case of the workingman who is now relieved of the temptation of a morning "nip" before work, is revived, to show that his salary envelope is in especial danger on the last afternoon of the week.

Decision of Hamburg-American Line to Reduce Rates Causes Other Companies to Prepare for Sweeping Cuts Which Will Mean the Loss of Millions.

The next regulation will probably close all bars in the province at 1 o'clock on Saturday, and for the entire day on legal holidays.

Such legislation would round out the restriction laid on the traffic last year, whereby the morning sale was materially shortened. It has been felt, moreover, that the Saturday afternoon trade will take the cardinal of the Sacred College. In shipping and government circles there is an intense feeling of resentment against this forced situation, which is said to have arisen from a desire on the part of the Hamburg-Amerika Line to assert to the world the strength of its individual position. Communications which have reached here and are also known to have been duplicated to the emigration centres clearly indicate that the companies, in face of the present situation, are preparing to Believed to Have the Westpurg reduction of rates.

chance of obtaining contracts. The judge continues:

"The Fred Armstrong Company and J. R. Seager now contend that they were not required to supply the radiation asked for so long as they guaranteed to supply the heat required.

"This was not in the contemplation of Mr. Bishop at the time the specifications were drawn up by him, as stated in his evidence: ne purposely called for a larger amount of radiation than some people would consider necessary, because of the position in which he was placed with regard to the necessity for having the schools heated quickly."

Rooms Were Cold.

His horor next referred to the contention of the Fred Armstrong firm, that they gave value for the amount of money they received for contracts. He continues: "In the case of Mr. Seager and Keith & Fitzsimmons, their contracts have not been concluded, owing to the amount of radiation installed by them has resulted in this insufficiency for the purpose of heating the different rooms, and additional radiation has been required to be added to give the heat required. They, however, were merely following the methods they found had been adopted and carried out successfully by the Fred Armstrong Company. In all these schools numerous complaints have been received from time to time that all the rooms in the schools were not properly heated, and occasionally classer had to be dismissed by reason of the cold."

Under the head of "checking repairs, the judge says, "the evidence showed that repairs were not superintended in a proper way, the number of hours charged for by different tradesmen were not checked up, nor was the material used checked; since the commencement of this irvestigation a new system had been adopted of reporting in writing, but it has been shown that even under this system the repairs have not been watched or inspected as they should be. In my opinion a large amount has been lost by reason of the want of business management in connection with extras and repairs."

It was shown that Charles Wilkes, caretaker of the Technical S

It was shown that Charles Wilkes, caretaker of the Technical School, demanded and received \$5 from the Fred Armstrong Co. for assisting them in connection with their work at the school after nours, that some years previously he had received \$9 from the painting contractors at the Louisa Street School in connection with his work. It was also shown that the Fred Armstrong Co. had presented Mr. Carscadden, formerly caretaker of Dufferin School, with a reading lamp at Christmas some years ago.

Vague and Careless.

Referring to specifications the report says:

"It was shown again and again."

Referring to specifications the report says:

"It was shown again and again during the investigation by witnesses giving evidence on almost all the trades employed in the erection of these schools that the specifications were drawn in the most vague and careless manner, leaving room for serious differences of interpretation and resulting in many accounts for extras charged to the board which should have been covered by the specifications.

"It was also shown that overlapping occurred in the specifications of different trades, that is to say, two or more trades being required to do the same

work.

The loss to the board in consequence of these loose specifications is difficult to ascertain, but in my opinion it would amount to a large sum and was the result of gross carelessness on the part of those drawing the same, and the want of proper supervision."

of those drawing the same, and the want of proper supervision."

Knew it Was improper.

With regard to the connection of school officials with outside matters, Judge Winchester comments that Mr. Bishop, who was connected with the Schools Supply Company, which at one time did business with the board, took every precaution to keep to himself the knowledge of his connection with the company, "thus showing that he was aware that it was improper for him to be connected with a company having

## BLAME THE TARIFF FOR DEPOPULATION

Members of the Dominion Grange Says Protection is Unfair to Farmers

MUNICIPAL OVERSIGHT

Of Highways is Advocated in Resolution at Final

The government and the provincial highway engineer were highly commended for appointing a commission to obtain information as to the best system of improving the roads thruout the entire province by the members of the Dominion Grange at their resumed session yesterday.

J. G. Lethbridge stated that so far the farmers had not taken the interest in this important question that they should, and suggested that a committee be appointed to draft a scheme for the best method of improving the roads. The committe was formed and submitted the following report for the approval of the members, which was adopted: "That there should be municipal control of construction and maintenance of highways, subject to regulations by the public works department; that expenditure should be controlled by a commission appointed by the municipalities concerned; that the provincial government provides 50 per cent. of the necessary funds by increasing the tax on rallways and taxing automobiles according to their horsepower; that cities and towns separated from counties be required to pay 25 per cent. of the cost of construction and maintenance; that the balance of the money required be supplied by the municipalities thru which the roads pass and the cities, towns and villages to which they lead; that federal aid be allotted to municipalities on the basis of assessed values."

Several speakers were of the opinion that the automobile owners of the province should help to pay for the construction and maintenance of good roads thruout the province.

Who Will Pay?

J. G. Lethbridge stated that some of the cities were willing to aid in the construction of the rural roads, saying that the board of trade of Hamilton had suggested that the cities pay 25 per cent. of the cost of roads a certain distance out from each city. Another suggestion made was to put a tax of half a mill upon the assessable value of city property to go into a provincial fund for the bullding and maintenance of the rural highways.

James McEwing, M.L.A., J. C. Dixon, J. G. Lethb

appointed a committee to meet the roads commission at Guelph in January.

An affiliation of all the different farmers' associations thruout the province with the Dominion Grange will probably result from the present meeting. A resolution was passed which stands for the organization of a coroperative association, and a committee was appointed to advance the project as quickly as possible.

Resolutions asking changes and an increase in the British preference were passed by the grange without discussion as follows:

"That the protective tariff as it now exists and it as has stood for many years places an unfair burden upon the farming industry for the benefit of the manufacturing industries; that these facts are largely responsible for the conditions which are forcing population from the rural districts into urban centres and that this movement from country to townhas now reached a point where rural depopulation threatens the whole national fabric, industrial, social and political." Upon these premises they resolved "That in justice to agriculture and in the interests of our national life it is imperative that the tariff be so adjusted as to remove in toto the burdens under which agriculture has labored, to the end that agriculture may be made more profitable and attractive and the balance between city and country be restored."

"We recommend a gradual increase of the British preference such as all of the British preference of the British preference such as all of the British preference such

restored."
"We recommend a gradual increase

"The operators objected to the telephone," he declared, "because it might make them lose their jobs."

NEW CUNARD STEAMER FOR CANADIAN SERVICE

LONDON, Dec. 18.—( C. A. P.)—
The experiment of the Cunard Co. in regard to the Canadian passenger service, has been very successful, and they have today placed an order for another vessel to be engaged purely as a Canadian trade vessel, which is to be called the Aurania. It will be 520 feet long and 14,000 tons gross, and carry second and third class passengers.

"IDEAL OF CHRISTMAS GIVING IS RESTORED TO NATION BY SPUGS"

Real Story of the Spug Movement &

HERE are 14,000 organized Spugs in the world to-day. Thirteen months ago the species was unknown. The next dictionary will contain the little word, with the interesting history of its derivation and an illuminating definition. The word came into being to

red and the word invented by Mrs Angust Rela mont, formerly Eleanor Robson, actress, and the daughter of Madge Carr Cooke, dear to theatregoers as "Mrs. Wiggs of the Cabbage Patch." In November, 1912, Mrs. Belmont offered a suggestion to the members of

the Vacation Savings Fund, an association of working girls formed by Miss Anne Morgan, and in which she is the leading spirit. The suggestion was to the effect that the girls band together as "The Society for the Prevention of Useless Giving." In other words, become SPUGS.

[Copyright, 1913, by L. K. Hirshberg.]

T HE lips have been compared aptly to cherries ripe, as well as to roses overwashed with dew. A pair of clean lips means more than a pure heart. They indicate exquisite physical health, just as two red roses on a stalk in June signify vegetable health and perfect development. Just as the entrance to a palace or the vestibule that leads to a treasure trove is guarded well by armed men, so the lips are the firm guardsmen of the outer works of your body. Just as the passages to important places are difficult to pass: just as you must run the gauntlet of one functionary after another before you can enter the sacred precincts of the Vatican, or even the White House, so the invading bacillus, or the poisonous food, must first escape the alert

Comfort and Warmth in Carpeted Floors

Notwithstanding the prevalence, and perhaps some advantages of the use of rugs-there is nevertheless a great deal to be said in favor of the old-time notion of covering floors entirely with a rich, warm carpet, and this is still in favor with a great many of the best housekeepers everywhere. Particularly for the winter months this practical method of treating floors is recommended, giving, as it does, a comfortable, warm appearance to a room not obtainable in any other way. Our assortment of good, serviceable, decorative carpets is large and varied.

But Controller Church never would trust the people, because The Telegram does not believe in trusting the people, and we know from The Telegram what Controller Church's policy is. He has adopted an obstructive policy all year long, and whatever Mayor Hocken tried to do to get the agreement to the people, he tried to head it off.

The result has been a long series of delays, the last of which resulted from what Controller Church and his organ described as a "bomb," when the harbor consistence is better condition than the average street railway's. He said the intangible assets would undoubtedly be got back under proper management.

We can only surmise that Mr. Moyes is doubtful that the city would manage the railway properly. If we shared that doubt we could not recommend the purchase of the railway conscientiously, but we feel certain that Toronto can secure as good management—perhaps better—for the railway as for the hydro-electric system, or as the government does for the T. and N. O. Railway, or as the Harbor Commission renders.

it clear that this right had been valued for the company by Mr. Arnold and himself at about \$16,000,000, and this was discounted to represent the value of the intangible assets to the city, to the reduced sum of \$11,500,000. He had not the slightest doubt that the company could get that amount of money out of the railway in profit, but he thought the citizens should seriously consider whether they would pay out \$11,500.000 now in order to get it back, as he believed they would. States Department of Commerce, Sec-retary Redfield discloses for the first time the attitude of President Wilson's time the attitude of President Wilson's administration in regard to the regulation of industrial corporations. It states, that there are immediate and well-known conditions which ean and should be remedied by law. Among these is the present requirement that restraints of trade must be shown to be unreasonable before they are rebe unreasonable before they are removed. To remedy this the report proposes that all restraints of trade shall be presumed unreasonable until their reasonableness is proved. In other words, the burden of proof is

placed upon the associated corpora-tions instead of on the state, a vital amendment which, if enacted, will have far-reaching results and enable the interests of the public to be far more easily and effectively protected. The report also suggests the stan-dardization of fundamental charter provisions for every corporation doing an interstate business, and that no stock and bond issues should be per-

## EGGS ARE DOWN TO SIXTY CENTS

That Price is Justified, Say Dealers, Owing to Scarcity.

WHY HENS DO NOT LAY

Owners Often Neglect to Give Proper Food and Exercise.

The high cost of living is something patent to all. To reduce this exorbitant cost and to find reasons why it exists are problems with which not a few are wrestling. Among others the Household Economic Housewives' League, in accordance with the lines of their work have protested against of their work have protested against eggs at present prices, with a view to forcing a much lower rate, the limit agreed upon being 35 cents a dozen, this being considered a reasonable price by the members of the league. In search of different views upon the subject a representative of The World yesterday made a series of calls. The first visited was a College street groduce. Here 65 cents per dozen was given as the price of eggs. "Do you consider this dear?" asked The World. "Not while eggs are so scarce," the "Not while eggs are so scarce," the possible."

In one of the big stores cases of new-laid eggs exposed with the sign "65 cents" above them, and in another store round the corner from the first eggs labeled new-laid were ticketed "75 cents."

Drop of 15 Cents.

The next place interviewed was a wholesale establishment. Here it was learned that a big drop had taken place in eggs. Last week they had to pay 65 cents; yesterday the new-laid eggs had been received at 50 cents a dozen, a difference of 15 cents in a few days

Back to Eggs. To get back to the eggs. In the same large store in which new laid eggs were selling for 65 cents a dozen, fresh eggs" were in process of testing -that is, a light was thrown below number of the eggs set out in a wire casing, in such a way that the light would detect any flaw—and all appeared to be in first-class condition. These

were selling at 45 cents a dozen.
From an individual interested in hens and eggs was learned the secret of making hens lay. At first one thought of having it patented, but for the general good concluded to give the good news forth to the four winds of the world. To make hens lay then, the chief requisite is exercise. No exercise, no eggs. This is quite in keep-ing with the different systems of physical culture, massage and gymnastics recommended for humans. Why, then, should not the theory of exercise be

The one who gave the recipe said: "I knew a man who invested in five hens. His neighbors laughed at him and said 'the hens will cost you quite but precious few eggs you'll get.' 'Just wait a while,' said the man "and you'll see I'll get five eggs every day." And he did."

The Scheme Worked. His method was this: When the food was prepared he placed it in a large pan and then covered it with sand in such a manner that the hens had to do a deal of scratching before they were able to eat. He also hung a cabbage and a piece of fat bacon above the pan, so that, like the sword of Tantallus, they were always in sight, but not easy of attainment, and the hens used a good deal of energy in trying to reach the prize that seemed just within their grasp. The plan worked. The hens laid each an egg per diem, and their owner boasted proudly of

the success of his plan.

To sum up—Eggs really seem scarce Anything rare is high priced. The reason why eggs are scarce is that those having the care of hens are not generally conversant with the best modes of carrying on the work At Guelph a few days ago government representatives declared that \$2,000,000 is lost to the Dominion anmually because of careless methods of

The dog grew to love the boy and would follow him all around, never happy when out of his sight. They had joyful times together, playing in the yard, and the little boy named him "Rover."

One night, after they had all gone to bed, the boy thought he heard a noise as the something was scratching at his door. So he got out of bed, opened the door, and there was Rover scratching away with his paws. The dog usually slept in the kitchen on a soft mat, and was not allowed to come upstairs, so the boy told him to go back to the kitchen and lie down. MEN'S XMAS GIFT

With the Christias sease right upon us, the matter of this of gifts be-comes increasingly urgent. For those in a quandary, especially over that everin a quandary, especially over that ever-acute trouble, presen's suitable for men, the well-known firm of Hickey & Pascoe offer a real relief. They carry a thousand and one different style ideas, every one smart, distinctive, appeal-ing. This is not surprising, since tacir business enables them to select and particularize just the thing that appeals to the normal male mind a quantity, that to the normal male mind, a quantity that few can fathom. An inspection of their special lines in men's Xmas haber-dashery will be an instructive lesson, and also an escape from an almost unsolvable dilemma. Their store, Yonce street, is open evenings.

HERZOG IS THE GOAT.

CINCINNATI, Dec. 18.— Charles Herzog, recently pur-chased from the New York Na-tional League club, was today selected as manager of the Cin-cinnati team for the season of 1914.

Views of both sides of the million bushel C.P.R. Concrete Grain Elevator at Transcona, Man., which recently settled on its foundations and now stands intact at an angle of 30 degrees.

# Concrete Withstands The Severest Tests-

IN the San Francisco earthquake and the Ohio floods, concrete structures withstood the terrific tests of fire, water and vibration without damage.

Now, right in our very midst, comes a striking illustration of concrete's enormous power of resistance and durability.

This great concrete structure, built only to resist the pressure of grain from the inside, while filled almost to capacity with 55,000,000 pounds, or 27,500 tons of grain, has settled to an angle of 30 degrees from its original perpendicular position.

In the settling the walls were subjected not only to the terrific twisting strain of their own weight, but to the weight of thousands of tons of grain as well.

This structure still stands intact and examinations have failed to discover the slightest evidence of collapse.

## Not One Dollar of Loss To Owners of Grain

THIS illustration of the ability of concrete to withstand the severest test, contains an important lesson not only for the farmer, but for business men, contractors, engineers and architects.

Think of the irreparable loss to the owners of the grain, had this elevator been built of some destructible material a material that would have collapsed almost as soon as the settling commenced, and which would have entailed not only the loss of the building, but almost a total loss of its

We have published a number of books which contain the most complete information and beautiful illustrations of almost every use of Concrete (City and Farm Buildings, Roads and Pavements) for the farmer, builder, businessman, manufacturer and everyone interested in a material of such permanence and economy.

## STOUFFVILLE FAIR A RECORD BREAKER

Town Crowded With Visitors Earlscourt District Has the From All Parts of York County.

HORSE EXHIBIT

Turkeys, Ducks, Geese in Abundance—Some of the Best.

All roads leading into Stouffville were well patronized by the two thousand people who flocked in from all over York to the Christmas fair, which was held in the auditorium yesterday. The day was perfect and the roads being in excellent condition facilitated the bringing in of exhibits from all over the county. The entries numbered something like five hundred, making a record for the fair. Stouffville fair has always been famous for the splendid horses exhibited, and yesterday proved no exception to the rule, one of the exhibits was the poultry showing, and many were the remarks passed regarding the fine turkeys and chickens. Messrs, J. M. Gardhouse, Weston; Fauty, Brooklyn, and J. Torrance, Markham, were the judges for the horses. The committee, thru whose efforts the fair was such a success, were Dr. F. A. Dales, Messrs, Geo. Collard, W. Shaw, F. Rac, J. Helse, A. Lehman and H. Boyd.

### WESTON

Weston

Word was received here yesterday of the death of Mrs. Lees of Riversdale, Bruce County, mother of Mrs. R. J. Bull of Weston, at the ripe age of 89 years. Mrs. Lees was born in Rothes, Scotland, and came to Canada with her family about 1829. They lived for a time in Quebec, but settled in Brant in 1837. Some years after Mrs. Lees was married and settled in Bruce, being one of the earliest pioneers, where her descendants survive. The late Mrs. John Maclean of Toronto, who diel at the same age some years ago, was an elder sister. One brother, Mr. William Findley, now in his 93rd year, still lives in Brant County.

(Special to The Toronto World).
GODERICH, Dec. 18.—In the case of
Ezra Brennan, hotelkeeper at Grand
Bend, who came up for trial this morning, on a charge of perjury, in the local option bylaw at Grand Bend last January, Judge Doyle, after a careful consideration, threw out the case, agreeing with the defence lawyers, Dickson and Haverson of Toronto, that while it is an indictable offence in common law to bribe in legislative and mynicipal elections. municipal elections an exception is made, and special provision applies to bribery in election and bylaws. The offence here being not an indictable one, but punishable by legal proceedings for recovery of a penalty under the municipal acts, which specially apply to such cases, and as the time for acting under these clauses had long since elapsed, nothing could be done.

#### CARRIED TOO MUCH LIGHT WHICH DAZZLED TRAFFIC

New York Auto Owner Fined for Having Lamps on Car That Shone Excessively.

NEW YORK, Dec. 18 -(Can. Press.) Harris. Many motorists have been fined here for failure to provide their cars with lights, but the first penalty for carry-lights, but ing too much light was imposed by a police magistrate today. Clifford Schaufel, the owner of the car, was Clifford fined \$10 under a new law, which forbids motorists to show lights bright enough to dazzle traffic. To determine whether Schaufel's lamps vio-lated the law the magistrate held court last night on a street corner and had the defendant drive past-

### EXPORT TAX ON FOXES.

REGINA, Dec. 18.—To discourage exportation from Saskatchewan of foxes, provision is made in a bill, introduced in the legislature by Hon. W. R. the urtimate idea of having the leasing terms reduced materially. McIntyre sold down to 150, a new low record of the year. There were few transfers made and this price can hardly be taken as the actual trading value of the stock. On the face of sales at that price it may be conceded, how ever, that the negotiations for gaining an entrance from the Pearl Lake property via their low level shaft into McIntyre holdings have fallen thru. This is a proposition to which many McIntyre stockholders have been looking forward.

### **NEW HIGH RECORD** MADE BY ROYAL BANK

Fiscal Year Marked by Steady Progress-Bank Maintains Itself in Strong Financial Position.

MONTREAL, Dec. 18 .- The business of the Royal Bank of Canada reached a new high record in the year ended on Nov. 29 last, as shown in the fortyfourth annual financial statement, just issued. During this period the profits reacned a total of \$2,142,100.22, after deducting all enarges of management and other expenses, accrued interest on deposits, full provision for bad and doubtful debts and rebate of interest on unmatured bits.

Members Standard Stock Exchange, COBALI AND PORCUPINE STOCKS This total of \$1,737,200 being deducted This total of \$1,737,200 being deducted from the sum at the disposal of the bank, left a balance of \$1,015,119.58 in the profit and loss account at the end of the year. The net result of the year, therefore, is that the profit and loss account has been increased by \$404,900.38 after all deductions for expenses, dividends and appropriations have been made.

# RECORD YIELD OF

Chicago Pit Turns Suddenly Bearish-Other Grains Sold Off.

CHICAGO, Dec. 18.—Belief that only positive calamity will prevent a record yield in 1914, carried wheat today to a much lower level. Heaviness prevailed at the close, which was at a net decline of 1 to 1%c. All other leading staples, too, finished at a loss, corn % to %c, oaots ½ to %c, and provisions 2½ to

oaots ½ to %c, and provisions 2½ to 7½c.

From the outset holders of wheat showed it.creasing discouragement, largely as a result of the government crop report. Notwithstanding vigorous attempts that were made to support the market, prices gradually slipped lower, and at the end were at the bottom point of the day. Active short selling made the weakness more acute.

and at the end were at the bottom point of the day. Active short selling made the weakness more acute.

Heavy Short Sales

One bear leader alone was credited with sales that totaled several million bushels. Such aggressiveness did not develop until after one particular expert had recorded his opinion that even allowing for abnormal damage the outlook was for a larger winter crop than any year known. It was also contended that plowing operations implied a decidedly increased acreage of spring wheat, and that the joint conditions of the winter and spring crops made the prospect, as a whole, one seidom paralleled.

Influenced by the bearish course of wheat, corn also headed down grade. Favorable weather for shipping from the interior-added to sentiment against the bulls. Besides, shipping call was poor.

Oats sagged with other grains. Lack of outside buying caused comment.

Altho provisions started out strong on account of an advance in the hog market, the weakness of cereals acted later as more than an offset. Selling, of ribs especially, was on a large scale.
