© 1998

Technical and Bibliographic Notes / Notes techniques et bibliographiques

The Institute has attempted to obtain the best original copy available for filming. Features of this copy which may be bibliographically unique, which may alter any of the images in the reproduction, or which may significantly change the usual method of filming are checked below.

- Coloured covers / Couverture de couleur
- Covers damaged / Couverture endommagée
- Covers restored and/or laminated / Couverture restaurée et/ou pelliculée
- Cover title missing / Le titre de couverture manque
- Coloured maps / Cartes géographiques en couleur
- Coloured ink (i.e. other than blue or black) / Encre de couleur (i.e. autre que bleue ou noire)
- Coloured plates and/or illustrations / Planches et/ou illustrations en couleur
- Bound with other material / Relié avec d'autres documents
- Only edition available / Seule édition disponible
- Tight binding may cause shadows or distortion along interior margin / La reliure serrée peut causer de l'ombre ou de la distorsion le long de la marge intérieure.
- Blank leaves added during restorations may appear within the text. Whenever possible, these have been omitted from filming / Il se peut que certaines pages blanches ajoutées lors d'une restauration apparaissent dans le texte, mais, lorsque cela était possible, ces pages n'ont pas été filmées.
- Additional comments / Commentaires supplémentaires:

L'Institut a microfilmé le meilleur exemplaire qu'il lui a été possible de se procurer. Les détails de cet exemplaire qui sont peut-être uniques du point de vue bibliographique, qui peuvent modifier une image reproduite, ou qui peuvent exiger une modification dans la méthode normale de filmage sont indiqués ci-dessous.

- Coloured pages / Pages de couleur
- Pages damaged / Pages endommagées
- Pages restored and/or laminated / Pages restaurées et/ou pelliculées
- Pages discoloured, stained or foxed / Pages décolorées, tachetées ou piquées
- Pages detached / Pages détachées
- Showthrough / Transparence
- Quality of print varies / Qualité inégale de l'impression
- Includes supplementary material / Comprend du matériel supplémentaire
- Pages wholly or partially obscured by errata slips, tissues, etc., have been refilmed to ensure the best possible image / Les pages totalement ou partiellement obscurcies par un feuillet d'errata, une pelure, etc., ont été filmées à nouveau de façon à obtenir la meilleure image possible.
- Opposing pages with varying colouration or discolourations are filmed twice to ensure the best possible image / Les pages s'opposant ayant des colorations variables ou des décolorations sont filmées deux fois afin d'obtenir la meilleure image possible.

This item is filmed at the reduction ratio checked below / Ce document est filmé au taux de réduction indiqué ci-dessous.

10x	14x	18x	22x	26x	30x
12x	16x	20x	24x	28x	32x

The copy filmed here has been reproduced thanks to the generosity of:

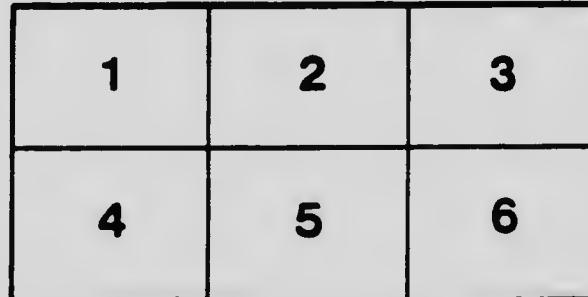

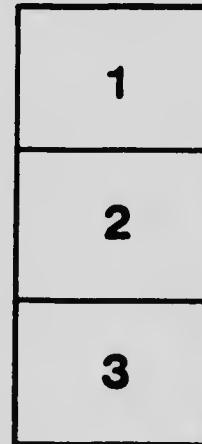

British Columbia Archives and Records Service.

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol → (meaning "CONTINUED"), or the symbol ▽ (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

British Columbia Archives and Records Service.

Les images suivantes ont été reproduites avec la plus grande soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole → signifie "A SUIVRE", le symbole ▽ signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

Journal Canadian Mining Institute. Part of Vol. XI.

A PARTIAL BIBLIOGRAPHY OF PUBLICATIONS REFER-
ING TO THE GEOLOGY AND MINERAL INDUS-
TRY OF ALBERTA, BRITISH COLUMBIA
AND THE YUKON.

By J. C. GWILLIM, Kingston, Ont.

The following classification of literature dealing with the exploration, geology and mining of these regions, is not complete. It has been compiled chiefly from three relatively accessible sources, namely, from the reports of the Geological Survey of Canada, and the Provincial Bureau of Mines, and the Canadian Mining Institute transactions.

The inclusion of some purely geological reports of the more remote districts seemed advisable, as offering first aid to those who go into them with the purpose of mining.

The reports of the Geological Survey provide our chief source of information in respect to the economic geology of these areas; and it may be stated that Alberta, British Columbia, and the Yukon, have received a great service from the Canadian Geological Survey, from the days of Richardson and Dawson, to the present summer when eight field parties were working in these provinces. The publications of the Geological Survey are, in most cases, free, and will be sent on application by the Librarian of the Department at Ottawa.

The Annual Reports of the Provincial Mineralogists, contain much statistical information relating to production and progress, together with reports or summaries of the conditions in the respective mining divisions. There are also incorporated in these volumes, special reports upon mineral or coal areas, by the Provincial Mineralogist, the Provincial Assayer, and others competent

to investigate them. The British Columbia reports, and also various bulletins on, and maps of, the mining districts of the Province can be obtained free, or for a small sum, on application to the Provincial Bureau of Mines at Victoria.

The transactions of the Canadian Mining Institute appear to round out our field of information, by giving detailed studies of mines, mining geology, and mining operations. This is a source of information which is likely to increase as the Provinces develop. Volume V is especially valuable in papers relating to operations in British Columbia. It would make this paper too cumbersome if one ventured into a description of the material within the titles cited. Attention, however, may be called to those having an asterisk, as affording much detail information concerning the area or areas to which they refer. The work of Dr. G. M. Dawson is always valuable, and his observations cover a large portion of the country here considered.

Concerning the selection of papers and authors in this compilation, I am largely indebted to the Geological Indices of D. B. Dowling and F. J. Nicolas, also to the index of the Canadian Mining Journal, up to Volume VI. Any important omissions may be added. The list is lengthy, but it is a tolerably available one.

The abbreviations used, are:—

G. S. D.—Geological Survey Department, Ottawa.

M. M.—Report of the Minister of Mines, Victoria.

C. M. I.—Journal of the Canadian Mining Institute, Montreal.

WESTERN ALBERTA.

CAIRNES, D. D.—Foothills south of the main line of the C.P.R.
G. S. D. Summary, 19 5.

*DAWSON, G. M.—Preliminary Report upon the Bow and Belly River region with special reference to coal deposits.
G. S. D. 1880-1-2, or No. 167 and Map No. 171.
Report upon the Rocky Mountains between the International Boundary and Lat. 51° 30'. G. S. D. 1886.

DOWLING, D. B.—Coal fields of the Foothills from Old Man River to the Athabasca. G. S. D. Summaries 1903-04-05-06, and maps of Sheep Creek, Cascade and Costigan coal basins.

* Cascade Coal Basin & maps. no 266. G.S.D. 1907.

- Stratigraphy of the Cascade Coal basin, Vol. VIII,
C. M. I.
HENRETTA, C. M.—Bankhead Coal Mines, Vol. VIII, C. M. I.
GWILLIM, J. C.—Notes on the life history of coal seams, Vol.
VIII, C. M. I.
*LEACH, W. W.—The Blairmore-Frank coal fields with map.
G. S. D. Summary 1902.
*McEVOY, JAS.—The Yellowhead Pass Route with map, from
Edmonton to Tete Jaune Cache. G. S. D. Summary 1898,
or No. 703 separate.
STOCKETT LEWIS AND WARDEN, B. R.—The Anthracite
Breaker of the Pacific Coal Co'y, at Bankhead, with plans.
Vol. IX, C. M. I.
SMITH, F. B.—Coal Mining in the North-West, and its probable
future. Vol. V, C. M. I.
WHITESIDE, O. E. S.—Across the Pitch versus up the Pitch.
Vols. II and IV, C. M. I.

EAST KOOTENAY.

- BLAKEMORE, WM.—Pioneer work in the Crow's Nest Areas.
Vol. IV, C. M. I.
Future of the coal and coke supply of B. C. Vol. VI, C. M. I.
Iron deposits near Kitchener. Vol. V, C. M. I.
Bull River iron deposits. M. M. 1900.
LYLE, W. A.—Report on E. Kootenay. M. M. 1896.
ALESS, C. V.—The coal creek colliery of the Crow's Nest
Coal Co'y. Vol. IV, C. M. I.
Notes on the geology and a few ore deposits of South
Eastern B. C. Vol. V, C. M. I.
DALY, DR. R. A.—Geology of the International Boundary. G. S.
D. Summary 1904.
*DAWSON, DR. G. M.—Report and Map upon the Rocky
Mountains. G. S. D. 1886.
DOWLING, D. B.—Northern extension of Elk River coal fields.
G. S. D. Summary 1905.
LEACH, W. W.—Crow's Nest and Elk River coal fields. G. S. D.
Summary, 1901.
McEVOY, JAMES—East Kootenay map sheet. G. S. D. Sum-
mary, 1899.

- Crow's Nest coal field and map. G. S. D. Summary 1900.
Notes on the special features of coal mining in the Crow's
Nest Pass. Vol. VII, C. M. I.
- ROBERTSON, W. F.—Report on East Kootenay. M. M. 1898.
Reports including observations of McEvoy, Selwyn and
Leckie and Baker, M. M. 1901; Bulletin and map of Flat-
head oil fields.
Reports on Windermere and Fort Steele. M. M. 1903.
Report on the Fernie Coal Mines Explosion (separate), 1902.
