CHILD LABOR WAS VITAL QUESTION FOR LEGISLATURE

Cries of "Lost" Greet Hon.
F. G. Macdiarmid's Amend-
ment to Factory Act.

ORDERS-IN-COUNCIL

Sam Carter Objects to Legis-
lation That Must Be "Rea-
sonably Enforced."

Child labor in the flax fields of Ontario was the subject of an interesting discussion in the legislature yesterday, several members expressing their dissatisfaction with any permission of it even under government inspection by order-in-council.

The house was in committee of the whole on Hon. Mr. Macdiarmid's bill to amend the factory, shop and office building act, providing inspection for flax picking, flax pulling and other camps.

Mr. Proudfoot thought this bill as drafted would hamper employees in securing help if permits had to be obtained from the minister.

Sam Carter backed up the same view. He also objected to legislation that had to be "reasonably enforced."

Mr. Proudfoot further objected to regulations being made by order-in-council. He did not believe there was any law by order-in-council that must be reasonably enforced.

Mr. Proudfoot, however, did not believe the city must take responsibility in dealing with so important a matter as the employment of labor, especially of child labor.

Allan Stodholme interpreted law by order-in-council as making permissible what the law said shall not be done.

Mr. Proudfoot: That is just it. They are doing it right alone.

Mr. Stodholme: A good deal was permitted during war-time in regard to the employment of children ordinarily would not be tolerated. The times are all over, and we must get down to reasonable things that will in law be satisfactory to employer and employee.

Test of Endurance.

Mr. Proudfoot: In his part of the country the flax pullers come from Indian settlements and there are many under age engaged in it, whom it is a duty to see subjected to what is a test of human endurance. The hours of labor should be fixed by law and not left to the discretion of the employer.

Hon. Mr. Macdiarmid replied that the hours of labor would receive careful consideration. But in the flax pulling industry the hours of labor are irregular, and it seemed to him it would be only practical to leave the hours to the inspectors of the department.

C. M. Bowman: Is it not a fact that most of the flax pulling is done by contract? Does the contractor come under the regulation?

Hon. Mr. Macdiarmid: The contractor would know what he had to comply with.

Sam Carter: In this case you allow mean people to get in who will work children unfairly.

Mr. Calder: The only practical regulation you can make, according to my experience in flax pulling, is to prohibit child labor altogether.

The bill was reported amid opposition of cries of "lost." Mr. Hurdman moved the second

UFA IS RECAPTURED; BOLSHEVIK IN PERIL

London, March 28.—A despatch from Omsk announced that Admiral Kolchak's army, as a result of a brilliant attack and much hard fighting, has recaptured the town of Ufa, which recently was occupied by the Bolsheviks. The despatch adds that the red army is now threatened by this development.

AN OPEN VERDICT AT RHYL INQUEST

No Evidence Adduced to Show How Fatal Wounds Were Inflicted.

Rhyd, Wales, March 28.—An open verdict was brought in by the coroner's jury which investigateded the death of five Canadian soldiers during the rioting at Kinnel Park on March 5. The inquest was completed today, when the coroner, at the coroner's suggestion, "that the soldiers came to their deaths by the wounds described by the doctors but that there is no evidence to show that the wounds were inflicted." Evidence was taken which showed both the rioters and defenders of the camp fired hall ammunition, but no one was identified as having actually killed one of the soldiers.

Evidence that drinking was an aggravating cause of the riot was submitted today at the coroner's inquest by Major Collier. Capt. Scott stated that the Russian element in the camp was responsible for the rioting as well as the drink. Testimony was given that the soldiers firing hall cartridges and from officers who swore that no order was given the men opposing the rioters to use ball ammunition or their bayonets was also taken.

Major MacLean, commander of the camp, said that a general court-martial would be opened very shortly.

Major F. St. George, assistant provost marshal, said no particular person had been identified as having killed any of the victims. He did not think there was any likelihood of such evidence.

Monroe Doctrine Hits Snag In the League Covenant

Paris, March 28.—The Australian peace delegates have pointed out that the proposed amendment to the league of nations covenant regarding the Monroe Doctrine, providing for recognition of the binding force of the policies here-tofore applied, would validate and confirm Japanese claims to preponderance in China and the Orient.

Parliament in some quarters that the opposition which has developed on this account may jeopardize the amendment. Experts are trying to find a formula that will overcome this objection and, meanwhile, the amendment has been withheld from insertion in the covenant.

MAYOR MAY PROCLAIM CIVIC DAYLIGHT SAVING

Bylaw Could Not Be Enforced if Passed, Says City Solicitor--Council and Board of Trade Solid for New Time.

Conjectures are being advanced by many regarding the action of the mayor will take on the daylight saving question which for the last few days has been puzzling the minds of citizens of the city. Pending the final action in the matter, Sunday morning will see a very awkward situation. At two o'clock on the morning of that day the railways will advance their clocks one hour and if Toronto follows suit likewise it will find itself one hour behind all abroad, which will make it to say the least, very inconvenient for travelers. On the other hand should Toronto adopt the daylight saving plan the rural points in the country will be one hour behind.

By the 12th month amendment passed by the Dominion parliament, these rural points are able to stand on their own rights, holding that they are carriers of Ontario and are independent.

Conjecture is also advanced, however, that the city must take responsibility in dealing with so important a matter as the employment of labor, especially of child labor.

Allan Stodholme interpreted law by order-in-council as making permissible what the law said shall not be done.

Dr. Reid said that he had no doubt that the minister would make such a statement when the house was considering the war appropriation vote of \$350,000,000.

Liquor Complaints.

Mr. D. McKenzie reported to the minister complaints he had received of the improper use of customs warehouses in Nova Scotia. He said that liquor was stored away there, and shipped to other countries.

Warehouse licenses were given to men in the liquor business, although there was prohibition in Nova Scotia. He had brought it to the notice of A. L. Sifton last year, who promised redress, but they would not do so.

The minister replied that the customs department granted no bonded warehouse licenses in any province without the consent of the provincial government.

There might have been liquor stored at the time prohibition came into force, but they would not allow the licensee to take in new supplies without the consent of the local government.

Mr. McKenzie said that if they had no licenses they were imposing on a credulous public, for they said they had. There was no board or no authority in Nova Scotia to grant such licenses. He declared that the liquor came in carloads of pressed hay.

Promises Investigation.

Dr. Reid thought Mr. McKenzie was mistaken, but he promised that the officers of the department would investigate.

Mr. McKenzie said there were warehouses of the kind he had described in New Watertown, Glace Bay and North Sydney.

Mr. J. H. Sinclair said that nearly every train that left Montreal for the Grand Trunk contained packages and the liquor was sometimes drunk on the train.

Liquor had been going into the province for three years, and there had been no prosecution by the minister of justice.

Mr. McKenzie said the minister would be doing a great service to the cause of temperance in Nova Scotia and would win the gratitude of the good people of the province if he would take action. Dr. Reid promised.

Discussion then turned to a vote of \$300,000 for salaries of officers and inspectors of existing coal.

Dr. Reid informed the committee that since prohibition came into force the use of illicit stills throughout the Dominion had increased eleven hundred per cent. The number of illicit stills seized last year was 1,000, but this year it had grown to over one hundred. Asked for a list of the seizures by provinces, he read the following: Ontario, 37; Quebec, 25; New Brunswick, 1; Nova Scotia, 3; Manitoba, 6; Alberta, 13; Moose Jaw, 7; Vancouver, 11; and Victoria, 2.

The item was passed and the house adjourned at eleven o'clock.

GENERAL OTTER ADDRESSES Q. O. R.

Sir William Speaks at Sergeants' Mess Banquet.

More than a hundred members and friends of the sergeants' mess of the Q.O.R. enjoyed a thoroly a banquet held last night at McConkey's Cafe on Queen street, when Major-General Sir William Otter, the aged veteran of the old regiment, and Brig-General Sir Henry Pellatt, the present honorary colonel of this famous unit, responded to the toast of "The Regiment," with both welcome and warning as to the responsibilities soon to be shared by the men returning from the field of honour. "I am one of those who refuse to believe that there is such a thing as peace," said Sir William Otter. "Therefore, let us in peace even be prepared for war. The struggle in Europe is not yet finished, and there still hangs over the ancient land a feeling which may any moment disrupt the nations and shatter our countries to their foundations." The aged general feelingly referred to the history of the Queen's Own Rifles since its organization in 1866, tracing its exploits through many campaigns and down thru the great year to its present high state of efficiency and honor page in the annals of Canadian regiments.

Vivid Elegy.
Proposing the toast of "Canada," Lieut-Col. W. V. Steele, following a vivid eulogy of the regiment, eloquently recited Wilfrid Campbell's famed ode to Langemarck, and Thomas Hook, M.L.A., responding, pointed to the glorious possibilities of Canadian citizenship of the future, reciting the history of the Canadian militia from the days of the federation thru the days of the Boer War, when it boasted 40,000 volunteers on to the glories of the present era. The Canadian militia said Mr. Steele had ever been suzerain to the whim of a politician in Ottawa, but came the day when General Sir Sam Hughes was appointed to the thankless task of ministering to the needs of this department. It was an ancient history that Sir Sam had revolutionized the system until it had become an efficient machine of recruitment so ably administered during the early period of the great war.

Major Reg. Gear, ex-mayor of Toronto, when he entered the hall, was given a vociferous ovation. Troops were proposed for the comrades overable responses from Sergeant-Major Reeves, W. C., and Lieutenant A. Kirkpatrick, respectively. Regiments were read from Mayor Church from Leveson Col. Leveson and from the Hon. Dr. Cody. Among those present were Major-General Sir William Otter, Brig.-Gen. Sir Henry Pellatt, Colonel Frank Pellett, Captain Alexander Barr, president of the Goldsmiths' Guild, and other well-known Toronto citizens. Frank Oldfield delighted everyone with his song, "Sussex by the Sea," and W. J. White, the humorist, recited with feeling, "Nurse Cavell."

WOULD DEVELOP BIG WATERWAYS

Great Lakes Canal Scheme Endorsed by Associated Boards.

SOURCE OF POWER

Claimed That It Would Provide Energy to Run Railways.

Addressing the Associated Boards of Trade yesterday afternoon with regard to the following resolution submitted by the Welland Board of Trade:

"Resolved that this board recommend that the department of transportation and canals begin at an early date the necessary plans and surveys for the building of a canal and river system from the foot of Lake Ontario to Montreal, of a character and capacity to conform with the plans for the new Welland ship canal, in order that the department may be able to proceed with the work at an early date."

W. M. German, president of the C. N. R. and the C. P. R. would likely have to take over the Grand Trunk, the development of the St. Lawrence canal scheme was more necessary, however, and would require a huge expenditure on the part of Welland Canal.

It would be useless unless the system was extended thru to tidewater. This would give direct water route from Fort William to Liverpool, and provide the farmer in the northwest with cheap transportation for grain that could be devised. Another advantage of the scheme said Mr. German was that it would provide an enormous source for the development of electric power, which could be used to operate the government railways, thus saving millions of dollars now expended every year in providing coal for the railroads.

Slightly Amended.

On the suggestion of K. J. Dunstan, Toronto, the last four words of the resolution "as early date" were replaced by the words "as soon as financially and commercially permit."

The resolution was then adopted.

On the motion of John Elliott of Belleville, the associated boards expressed approval of the government's highway policy.

A resolution was also passed asking the Ontario government to give early consideration to the question of extending the Timiskaming and Northern Ontario Railway from North Bay to the Georgian Bay at Parry Sound.

St. Herbert Ames, chairman of the national war savings committee, explained the government's war saving stamp campaign, asking the delegates to use their influence on behalf of the scheme in their own districts.

Another canal scheme, the French River Waterway to connect Lake Nipissing and Georgian Bay was also endorsed, the resolution containing the request that the federal government make provision in 1919 estimates for the work.

J. Young, of North Bay, estimated the cost of electric power to North Ontario industries would pay the interest for the cost of construction.

Huge Saving.

Cyril T. Young of the eastern land department of the C. P. R. claimed that the buildings the canals would save the \$6,000,000 required to extend the C.N.R. to North Bay and ensure the transportation of 60 per cent of the western grain, now carried to the seaboard by American railways.

DANCING DISPLAY BY SOMERS SCHOOL

Physical-Training Pupils Give Remarkable Performance at Massey Hall.

Among the many charming performances given in Massey Hall by pupils of Somers School of Physical Training, that of last night ranks with the best. A large number took part, some of whom were mere tots of four or five, the manner in which they all did their part calling out much applause from the large audience present.

The opening number was a picturesque tableau with solo songs and dances representing the children of the nations, the appropriate costumes and artistic grouping of performers and flags making a most attractive showing. The sailors' hornpipe by Elizabeth Vance, the highland fling by May Brown, and Freda and Muriel Pike and an Irish jig by Jean Coram, were all danced in fine time. The vocal duet, "When Ya Gang Aw, Jamie," was sung in good voice and with nice interpretation by Margery McKinnon and Clarissa Buffham.

Solo Dances.

Following this came a number of solo dances, Verna Watson, whose artistic work is now well known to Toronto audiences, leading in a Spanish dance. Later there was a gay exhibition of La Petite Parisienne arranged by herself, and the music composed by M. H. Ryer. "The Letter" dance, presented by Isabel McMillan, was quaint and very graceful. Others who did good work in this group were Betty Elliott, Frances Smith and Betty Burnham. "The School Girl" was sung by Margery McKinnon, winning her a good round of applause.

The closing feature, representing "Springtime," a delightful fancy involving fairies, flowers, butterflies, showed and told in a most artistic way. Verna Watson, personating spring, was the climax of an altogether clever and artistic program, every number of which reflected credit on the performers and their instructors.

The piano accompanist was Miss Hazel Harwood, and the orchestra music was directed by Harold Faira.

POLICE SEIZE BIG SHIPMENT OF DOPE

Many Pounds of Opium, Cocaine and Morphine Seized in House of Colored Man.

Walter Parker, colored, living at 161 Bleeker street, was arrested yesterday by Plainclothesmen Waterhouse and McMahon, charged with having drugs for other than medical purposes. He was seized with several hundred dollars' worth of drugs. Parker's home, and they are of the opinion that he has been supplying "dope fiends" here with shipments received by him from Montreal.

In Parker's home, Waterhouse and McMahon found over 1,000 pounds of cocaine, 4 bottles of morphine and a large tin containing one quart of a diluted drug. An express shipment of drugs was delivered at the Berkeley street house, and after Parker had signed for the delivery, he was taken to police station. A statement to the police is said by them to have admitted having such shipments as that seized yesterday sent to him from Montreal.

CUT WITH STILETTO FROM EAR TO CHIN

Italian Charged With Stabbing Fellow Countryman, Who Felled His Assailant.

John Trelo, of 28 East Gerrard street, was arrested last night by Constable Aspin on a charge of wounding. Trelo is alleged by the police to have stabbed Sebastian Badimo 18 Poulets, cut the face with a stiletto during a fight at the corner of Queen and Sherbourne streets. Trelo stabbed Badimo on the right side of the face just below the eye. The cut continued down the side of his face to his chin. Badimo, after being wounded, struck Trelo a blow in the face with his fist. He struck his assailant with such force that he dashed him and Trelo sagged down on the curbside of the street. Policeman Adams was summoned and made the arrest.

Badimo was taken to St. Michael's Hospital by the police to have his cuts attended. It required 19 stitches to close the wound in his face. He was later allowed to leave for his home.

NELSON PARLIAMENT'S QUESTION

Replies to Spruce Pulpwood. Nelson Parliament's question regarding spruce limits in the Black Bay district of Nipigon was also answered. The permit granted by the government to James Horrigan & Co., in 1914-15, was on representations of the municipalities of Port Arthur to relieve labor conditions. Under the permit 15,080 cords were cut, at 60 cents per cord, and the permit was renewed in 1915-16, when 4,155 cords were cut, and again in 1916-17, when 5,274 cords were cut. The order-in-council prohibiting the export of spruce pulpwood was passed January 13, 1910.

Mr. Proudfoot gives notice of the following resolution:

"That in the opinion of this house the time has arrived when the province should be placed on the statute books of the province providing that the election of members of this legislature and municipal councils shall be made on a form of preferential voting, and this house therefore urges on the government the placing of bills before the house so as to effect this reform."

Mageau will ask the government: "On what basis as to price has liquor been sold under the Ontario Temperance Act to (a) residents, (b) the general public?" What is the amount of license fee which vendors under the Ontario Temperance Act have to pay? What is the number of licensed vendors in the province? When were they appointed? In what places and what were their names?

Mr. Racine will ask the government: "What amount was received by the department of public highways during the fiscal year 1917-18 in respect of automobile licenses?"

William Reilly, 231 Berkeley street, was last night arrested charged with a breach of the military service act. Reilly was released on bail.

CHILD LABOR WAS VITAL QUESTION

(Continued From Page 1).

reading of a bill which he had before the house, suggesting changes in the public health act. It proposes enabling municipalities to establish abattoirs and enforce inspection of all meat sold in the municipality.

Already Covered.

Hon. W. M. Ross said some of the provisions of the bill are already covered by the Dominion law. There does not seem to be demand at this particular juncture for further restrictions in the food supply.

The bill was withdrawn.

Mr. McGregor moved the second reading of a bill to amend the municipal act so as to prohibit the erection of garages in residential sections of towns over 5,000.

The bill goes to the municipal committee.

Hon. G. Howard Ferguson introduced a bill to amend the northern and northwestern Ontario development act.

Hon. G. Howard Ferguson in the absence of the minister of education introduced a bill to amend the teachers' and students' superannuation act. He explained that the bill is of a technical nature affecting the working out of the present laws but involve no new principles.

Mr. Mageau introduced a bill relating to foxes and other fur-bearing animals in captivity.

The government intended to bring in a bill extending the moratorium for another year. Mr. Mageau yesterday introduced a bill which would enable mortgagees to foreclose on six months' notice.

Hon. Mr. Hehir moved the second reading of a bill respecting aid to rural municipalities to establish community halls and athletic fields in rural districts. The aid is limited to 25 per cent. of the cost of the building, exclusive of the cost of the land, and not to exceed \$2,000 in any one case.

On Equal Terms.

J. C. Elliott interpreted the bill as permissible within the opinion of the minister. Would it not be better to have a standard that would be open to all municipalities to comply with on equal terms?

Hon. Mr. Henry replied that it would be very difficult in rural municipalities to get a standard of conditions, and unless the department had discretionary power the object of the bill might be defeated. The government is only feeling its way into the proposition.

The bill was read a second time; but the opposition and the U. F. O. members are prepared to debate its value.

Mr. E. W. J. Owens, Toronto, moved a bill to amend the municipal act, contracting the time allowed for the resignation of persons nominated at municipal elections. If nominated for two offices the candidate must elect one office and if nominated for three default shall be deemed nominated for the office for which he was first nominated. The bill also regulates the erection of awnings, rents, junk-yards, shops, garages for hired motors, location of gasoline or oil depot, of structures, excavations, etc., in privately owned land immediately adjoining a highway.

J. C. Elliott, West Middlesex, said in smaller municipalities shortening of the time for resigning nomination would work hardship.

In the absence of Joseph Russell, E. W. J. Owens, Toronto, as part of the Toronto delegation, moved a bill to amend the road load of vehicles act, limiting the rate of speed in accordance with tonnage for the protection of road surfaces. All self-propelled vehicles other than traction engines, by this amendment, must be equipped with rubber tires, 4-ton trucks to be limited to 10 miles an hour on highways, and 6-ton trucks to 6 miles an hour.

Mr. Owens also introduced an amendment to the wage-earners and mechanics' bill, intended to obviate certain difficulties that have arisen in construing the present law and placing sub-contractors on the same plane as contractors in regard to the period of filing mechanics' liens.

Abitibi Pulp.

Mr. Richardson's question on the order paper touching the limits in the district of Iroquois Falls, controlled by the Abitibi Pulp & Paper Co., was answered by Hon. G. Howard Ferguson. The company had told the government to Ogdensburg and Albany on August 15, 1912, and were assigned to the Abitibi company on conditions, including an annual bonus of \$5000 in addition to the crown dues of 40 cents per cord for spruce and 20 cents per cord for other wood. By an agreement with the government, the Abitibi company paid the first five annual payments in advance.

Nelson Parliament's question relating to spruce limits in the Black Bay district of Nipigon was also answered. The permit granted by the government to James Horrigan & Co., in 1914-15, was on representations of the municipalities of Port Arthur to relieve labor conditions. Under the permit 15,080 cords were cut, at 60 cents per cord, and the permit was renewed in 1915-16, when 4,155 cords were cut, and again in 1916-17, when 5,274 cords were cut. FILM WHICH STOPPED DETROIT TRAFFIC

Rupert Hughes' Masterpiece Will Commence at Allen on Monday.

The "Unardonable Sin" will be presented at the theatre commanding Monday, and the showing of a tremendous production marks a new inroads in Detroit five weeks ago, it stopped the traffic in the busy streets during an extended run. Never in the history of the city has either a picture or a play made such a decided impression upon the public. Detroit, and altho the production is now in its sixth week of an unlimited engagement, capacity houses are the rule at every performance.

The Toronto engagement will mark the third consecutive presentation, and the load of vehicles acts.

The Detroit engagement will mark the fourth consecutive presentation, and Messrs. Jules and J. L. Wood have arranged to give it a royal send-off. The Allen Concert Orchestra, under the direction of Luigi Romanelli will be enlarged to thirty pieces, assuring the public of the best musical accompaniment possible. On account of the tremendous cost of this production, the prices are high, ranging up to \$1.50.

The convenience of their patrons, the management has arranged to

present the six performances of "The Unardonable Sin" daily; the feature starting at 11:15 a.m., 3:15, 5:15, 7:15 and 9:15. No tickets will be sold after the beginning of the picture, the last time in the evening. It is the picture has been from the beginning, and wide publicity is being given to the commencement of each performance.

M. O. H. WILL APPEAL KINGSFORD FINDING

Dr. Hastings Says Acquittal of Fraser Devoid of Elements of Sense.

Dr. Hastings, M.O.H., was exceedingly wrothy yesterday when the action of King Edward against Dr. J. B. Fraser for taking Jack McLeod, a young lad, from his school under quarantine, because known to be tubercular, was upheld.

He declared that there was no interference with a quarantine officer inasmuch as there was no one present.

According to the magistrate's interpretation the medical officer of health and the department will have to keep a man at every door of every place under quarantine.

"In my judgment such an interpretation is destitute of even the elementary principles of sense," he said.

RED PUBLICATION.

The propaganda committee of the Soldiers and Workers' Council has issued another circular to returned soldiers, the new Red publication: "The New Solidarity," being among the pamphlets circulated abroad.

Manchester Unity, I.O.O.F., Has Capacity House at Concert

So great was the patronage given

the first annual concert of Manchester Unity, I.O.O.F., at Canadian Foresters' Hall, last night, that the sale of tickets had to be suspended, leaving a capacity house to meet the artistic in a most enjoyable program.

All the numbers were enthusiastically applauded. Among the popular artists were Miss Barbara Foster, Francis Oldfield, Duncan Cowan, and Miss J. H. Gandy, who was a most satisfying accompanist. The new capacity house of I.O.O.F. in the war is large and the proceeds of the concert go to aid the widows and orphans' fund of the order.

SALVATION ARMY BURIES VETERAN

Lack of Co-operation Allowed Funeral Without Military Honors.

NEW TRAFFIC MANAGER OF NATIONAL RAILWAYS

D. O. Wood, for eighteen months assistant to the director-general of the British ministry of shipping at Montreal, has been appointed traffic manager of Canadian National Railways.

He will have general supervision of export and import traffic, and of arrangements made for the transportation of such as the C. N. R., Atlantic and Pacific Coast ports. His office will be at Toronto.

Mr. Wood began his railway work with the Grand Trunk in 1883, as a billing clerk. He became general clerk to the general freight agent at Toronto, 1888 to 1892, and later chief clerk in the same department until 1902.

In conclusion Comrade Turley emphasized the fact that the G. W. V. A. helped the returned man and the man in khaki, irrespective of his membership, and had often helped men known to be biased against the association, thus assuring the basic principle of the society, comradeship.

A service was held over the remains under the auspices of the Salvation Army, at whose premises numbered only a few members, officials, instead of the larger number which might have comprised a military funeral. Comrade Carmichael, commenting upon the case, suggested the advisability of having the military authorities place a gun carriage at the service of an army funeral, and also pointed out that irrespective of the question of the social or financial status of any man who had seen service in some seat of war, his funeral should be conducted as a military interment, with every honor possible to the occasion.

G. A. C. POSTER SHOW IS FULL OF INTEREST

More than 2,500 admission cards have been sold by the management of the G. A. C. poster show which is in charge of both J. C. Heevey and Comrade Peacock, formerly of the 2nd Battalion originals.

Among the artistic posters on review were the spectacular feature study of ruin and desolation around the Statue of Liberty in New York harbor, with German planes "raiding" from every angle in the background. "That London Shall Not Perish, Buy Bonds," another poster full of expression was that of the German eagle on the top of a tower of Pisa, its feet wringing with the blood of defenceless victims. Reaching up to this eagle was the name and rank of the poster, Peacock, who sang as he reached higher and higher, "On Faur," "We shall get him yet," Kaiser Wilhelm, as the arch fiend at "morning prayer" with Meppelstoches and myriads of other horrors descending to the throne of hell with subject lesser men was another striking effect noted.

Comrade Price believed that the collection would prove interesting to the returned soldier as evidence of the means taken throughout the allied countries to induce public support of a patriotic cause, and believed that the poster show was now being fully appreciated.

UXBRIDGE INVITES BATTALION MEMBERS

Toronto Men of 116th Battalion Welcome to Reunion of Local Battalion on Monday Night.

Uxbridge will hold a reception next Monday night to all members of the 116th Battalion, which was originally organized there. Colonel Peacock, V.C., and others will have to receive his late command. Arrangements have been made to accommodate all out-of-town men overnight, and a welcome will be given to all Toronto members who care to take advantage of the invitation. Uxbridge Junior Relief Club are responsible for the arrangements.

R. C. D. MEMORIAL IN AMIENS CATHEDRAL

The archbishop of Amiens has sanctioned the erection of a bronze tablet in Amiens Cathedral to commemorate the garrison of Royal Canadian Dragoons in Picardy. This tablet will have inscribed upon it a synopsis of the various engagements of this famous unit with a list of those who paid the supreme sacrifice.

CENTRAL BRANCH, G. W. V. A.

The past week has been a busy one for Central Branch, G.W.V.A., the number of callers applicants for membership, claims for investigation and adjustment, appeals for distress relief, and so on, exceeded the previous year, and, in an encouraging sign of the growth of the branch, "That is just how we want it to be," stated Secretary Brockbank.

Preparations are well under way for the concert which is to be held under the auspices of central branch at the Massey Hall on March 7. The committee in charge of the arrangements is sparing no effort to make this the banner concert of the season, and the talent and program will be of a very high standard. The idea is to eliminate the impression that any entertainment provided by soldiers' or

W. E. TURLEY WILL NOT VENTURE ON PROPHECY

Provincial Secretary G. W. V. A. Says Many Members Favor Entry Into Political Arena.

"It is quite correct to assume that members of our G. W. V. A. are zealous both of getting into G.W.V.A. into the political arena and of widening the scope of membership," said W. E. Turley, provincial secretary of the association for Ontario, to The World. "On the other hand it is unsafe to state any opinion as to the outcome of either the provincial or the Dominion convention in this regard. As you realize, the majority always wins the day, and whatever the wish of the majority so the association. Constitutions may be changed from year to year provided majorities at conventions decide that they shall."

Persons are to be found that the G. W. V. A. will become a great political party in the Dominion in the course of time. I do not believe that the present is an opportune moment for our association to make any move in that direction. If the majority of delegates decide to champion the cause of the national branch we may expect to have. Other delegations would fit it to the Dominion convention. We can rest assured that our popularity will be maintained along the lines already taken. I do not believe that the acceptance of grants will in any way cloud our sense of right and wrong, nor will it be a factor in the way we should be governed by those bodies which have been influential on our behalf. The \$50,000 grant, for instance was made by the Ontario legislature because the people believed that ours was an organization which could be trusted to do well with the grant and to use it for the benefit of those for whom the grant was given."

In conclusion Comrade Turley emphasized the fact that the G. W. V. A. helped the returned man and the man in khaki, irrespective of his membership, and had often helped men known to be biased against the association, thus assuring the basic principle of the society, comradeship.

A service was held over the remains under the auspices of the Salvation Army, at whose premises numbered only a few members, officials, instead of the larger number which might have comprised a military funeral. Comrade Carmichael, commenting upon the case, suggested the advisability of having the military authorities place a gun carriage at the service of an army funeral, and also pointed out that irrespective of the question of the social or financial status of any man who had seen service in some seat of war, his funeral should be conducted as a military interment, with every honor possible to the occasion.

Rev. Ben Spence Calls for Provincial Meeting to Be Held May 20 and 21.

Rev. Ben Spence, secretary of the Ontario Alliance, for the total prohibition of the liquor traffic, issued the preliminary call for a provincial prohibition convention to be held at the Massey Hall, Toronto, on May 20 and 21.

Complaints will be called upon by the Ontario Alliance executive to organize in each electoral district for the election to the Ontario legislature of a supartner of the Ontario temperance act, or equally stringent prohibiting legislation at the next provincial election.

PASSENGERS TO EUROPE.

Messrs. A. F. Webster & Son, general steamship agents, 52 Yonge street, will hold an open general meeting on Saturday afternoon at the Labor Temple to discuss many important matters which will be of interest to passengers.

SATURDAY MORNING, MARCH 29,

Daylight Saving.

In no way does a government lose respect so fast as by a show of stupidity. It was merely stupid to tell the farmers they could vote as they pleased, and to tell the railways they must bow to the inevitable, and follow the rest of the civilized world. Canada in the matter of daylight saving has shown herself in her parliament as the Bolshevik of the west.

All the more does the government lose respect when the quality of the advocacy of refusal to adhere to the daylight savings plan is considered. Such speeches—as those of Messrs. John Best, Archie McColl, J. E. Sexsmith, Dr. Edwards, and a few others on this matter, were simply silly. They consider private and individual rather than public interests, and it is because the government countenanced this that it was wrong in its action.

The railways are the backbone of time observance in any country. Everything else does and must regulate itself by their schedules. When they arrange to adopt the improved time, there is nothing more to be said. The post office will observe the new time. So will the telegraphs. So will the newspapers, the banks, the stock exchanges, and all other businesses depending on railway, post office or telegraph service.

It is probable that the city authorities will make proclamation this morning to the citizens to move their clocks on one hour before they go to bed tonight. This at any rate is the action that should be taken. Otherwise, hosts of people tomorrow will find themselves an hour late for the trains, the mails and other public services.

A Cloud in the West.

A letter has been addressed by the Toronto Branch of the Postal Clerks' Association of the Dominion, to the cabinet ministers, the Toronto M.P.'s, the mayor, and the president of the board of trade, calling attention to the fact that the western clerks will strike or Tuesday next if their reasonable demands are not granted, and that it will be morally impossible to keep the Ontario and eastern service out of the strike if steps are not taken at once to remedy the grievances which the government had in one case at least undertaken last August to correct, and with which they have repeatedly been made acquainted.

It appears to be another case of "government by riot," such as we referred to recently. The government will not act until prodded into action, altho no man in his senses would attempt to carry on a business and ignore such essential conditions of stability.

The inequality of salary between eastern and western postal employees, which the government last August agreed to rectify, still remains. Seven months even in war-time is a somewhat prolonged period to leave a promise unimplemented. When a request is not only moderate, but is actually consented to, there is no excuse for neglecting it and failing to give satisfaction.

The strike that threatens thru the inaction of the government may lead to grave consequences, and it is highly undesirable at the present time to give just cause in Canada for a revolt against conditions admittedly in need of improvement. There are many restless elements in society which would only be too glad to seize on the pretext of a government employees strike to air their Bolshevik proclivities.

The postal clerks have at all events warned the government of what they fear, and have made their modest request. Can the government be moved to expedition?

Col. Pratt's Remonstrance.

Lieut.-Col. Pratt delivered his son in wholesome fashion to the legislature and some others on Thursday, who will hear of it later. He has never lacked courage, and the jibes of The Times-News, whose camouflage does not seem to have altered its character, and the jeers of an Ottawa organ, will not obstruct the assimilation of the facts. Every returned man has a similar tale to tell, but every returned man is not in the position of Colonel Pratt, and able to tell it.

In a general way all he had to say has been repeated privately for months, and if the authorities did not know of the conditions, they were even stupider than had been supposed. We all realize that perfection of organization and management is unattainable, but this generalization does not ex-

clude those who have permitted the grosser laxities to exist and continue.

Importance of Measures for Women.

Once women were given the vote it would have been absurd to deny them the right to be represented by persons of their own sex. It is a long time since parliament refused to regard a woman as a person. Perhaps that's why the word came to be considered an opprobrious epithet. "Who are you calling a person?" is a question enshrined in light literature. Now every intelligent woman aspires to be a person within the meaning of the acts and the provincial government, realizing, no doubt, the strength of the vote enfranchised last year, have taken the next logical step. A few clever women in the administration would help considerably.

Women on receiving the vote immediately assume a greatly enhanced importance. Their needs and their grievances are brought to the front, and logical and reasonable steps in government involve the redress of all long-standing evils.

Among these the government has chosen to take up the case of the widows left without adequate support. Women with children labor under a handicap not appreciated by any who have not had the experience. The inappreciation is well marked in the case of the pension board, which thinks \$10 a week sufficient for a soldier's widow to live on. It might be "perhaps" in a valley farm away down east, but not in Montreal or Toronto or Winnipeg or Vancouver. The extra \$2 a week for a child is also inadequate.

The provincial government is not doing unnecessary service in taking up this question of women's pensions. In fact, if we are to adhere to the idea which is becoming popular, of excluding all alien immigration, it will be necessary to encourage the rearing of children by the endowment of mothers for their children as long as these survive, and up to an age when they can make a living and protect themselves. If our population is to be increased in the natural way, the children who are born must be saved alive. This makes all the more lamentable the foolish opposition in the city council and board of control to the measures adopted by the department of health in Toronto.

It is not the children that are born but those who are saved alive who add to the population, and the reduction under Dr. Hastings in infant mortality has been notable and effective. It is the sure way of adding to our population. The new legislation for women in the provincial house will assist in this object.

Fine Finance.

Commissioner of Finance Bradshaw has ably demonstrated the principles of sound finance in his latest budget, and the star-shell which he has exploded in the proposed tax rate brilliantly illuminates a municipal field where principles are not over-strongly entrenched. Mr. Bradshaw was not only careful of expenditures but he insisted on a conservative estimate of revenue. It makes all the difference in the world whether we show a creditable balance sheet, paying as we go, with a lowering tax rate, indicative of good financial management.

The last few years of civic finance present a striking contrast with the previous twenty. Mr. Bradshaw must be supported in the work he is doing so well, and the principles he has laid down must be observed without variation.

THE MAID QUESTION—A HOUSEKEEPER'S VIEWPOINT.

Editor World: I must state that the reader who wrote the article in this morning's paper in regard to the way citizens are being thrown out of work to make room for returned soldiers is fully justified in making his complaint. To the soldiers who were here, I say, give the best, but fill up your houses with those who lived in Toronto before the war, so why should our own population have to walk the streets looking for work in vain to make room for them? We should be given employment in their own towns and cities. My father was recently laid off, with the number of other men, from his work in the shipyards. He has had vocational training, and were starting at a much lower than the union rates of wages. Where does just reward come in? Come on, men, let us employ our housekeepers rather than employ out-of-town girls are engaging Chinamen.

Barbara Finds Proof of Cheque Given Neil by Blanche Orton.

CHAPTER XLV.

One rainy morning about a week after Mrs. Orton's dinner party, I went downtown to do some shopping. Neil had been so disgruntled and moody that I thought I would surprise him by making a visit to his office. I had hardly been able to refrain from questioning him more at length about his actions at the dinner, but had compelled myself to wait.

I still held firmly to the idea that it was my right to know all that concerned him, even tho', after all these years, he still refused to recognize it as my right. But early impressions are very strong. At home father and mother had discussed the slightest matters pertaining to everything concerning his business, as well as the household, which makes for happiness.

Having kept my maids for as long as nine years at a stretch, I have not had much occasion to advertise, but if I have to do so, I shall certainly insert "No Union girl need apply" and know many of my friends intend to do the same. I am afraid that my housekeepers rather than employ out-of-town girls are engaging Chinamen.

Baseball M.-O. League Opens May 15 • Boxing Prelims Decided • Bowling One High Score At Tournament

NEW SCHEDULE FOR MICH.-ONT. LEAGUE

Mileage Low in the New Draft—Utilize All the Holidays.

Detroit, Mich., March 28.—Members of the schedule committee of the Michigan-Ontario League met in Detroit today and made a complete revision of playing dates from the chart first submitted. The new schedule holds the mileage low, and is changed considerably in construction.

This is to provide for every possible Sunday in Michigan that can be utilized as well as to have holidays of both countries utilized. The season starts May 15, closing Sunday, Sept. 7, in Canada, and three days later in the United States. The close will be modified so that the tournament will be decided by a double-header arrangement. As now framed, the special dates are:

At Home.

Twelve Sundays, six Saturdays, three holidays.

Bay City—Eleven Sundays, eight Saturdays, two holidays.

Hamilton—Seven Saturdays, four holidays.

Brantford—Seven Saturdays, four holidays.

Kitchener—Six Saturdays, three holidays.

Guelph—Eight Saturdays, four holidays.

Away.

Flint—Six Sundays, seven Saturdays, three holidays.

Saginaw—Five Sundays, seven Saturdays, three holidays.

Bay City—Four Sundays, seven Saturdays, two holidays.

Hamilton—Seven Saturdays, four holidays.

Brantford—Six Saturdays, four holidays.

Kitchener—Six Sundays, seven Saturdays.

Guelph—Six Sundays, eight Saturdays, two holidays.

Saginaw—Five Sundays, seven Saturdays, three holidays.

Bay City—Four Sundays, seven Saturdays, two holidays.

Hamilton—Four Sundays, six Saturdays, three holidays.

Brantford—Six Sundays, eight Saturdays, three holidays.

Kitchener—Six Sundays, nine Saturdays.

London—Seven Sundays, six Saturdays, two holidays.

Efforts have been made to make the schedule as equitable as possible without shifting the teams so that mileage will eat up profits. In this connection, towns that get Victoria Day are considered less favored than others which really get the holiday named falling on the last day of the week. If there are any changes desired, they can be made which interests interested will show the advantage.

Copies of the schedule will be mailed to all clubs by the 1st of April.

President Mr. Riddell of London, as soon as the chart was put in type, This will give opportunity for careful study and analysis before the next session.

President Jackson took up with the committee the matter of Bay City and Flint clubs, but this was not satisfactory.

The progress has been satisfactory.

Setting this has been slow, because of the many diverging statements, and because of misunderstandings.

Mr. Jackson, in his letter to the club, says:

"The cause of most worry, can clear immediately if it furnishes evidence now presented."

When the committees was in session J. Ira (Slate) Davis, asking for an umpire's job, being received. That makes it a season. The writing of the constitu-

In a New Role

Kingston, March 28.—According to an Ottawa report Frank Shaughnessy is hoping to organize an international baseball league with Ottawa, Kingston and numerous other Canadian cities. So far as Kingston is concerned it appears to be a pipe dream, as baseball enthusiasts here know nothing about such a scheme.

JOHNSON WILL WAR TO THE DEATH ON FEDS

Council for Baltimore Club Reads Interview to the Jury —Gossip.

Washington, March 28.—The counsel for the Baltimore Federal League Baseball Club, in the trial of its suit against the American and National Leagues and others for damages, under the Sherman Anti-trust Act, went to the jury a newspaper interview in which Ben Johnson, president of the American League, was quoted as saying that the "Feds" would be fought until the last out.

The defense objected strenuously to the admission of this evidence, but was overruled. In the interview the American League president was reported as saying that the Federal League was a joke, and had no money, no parks, and no players that amounted to anything.

Johnson, who was called to the stand, said he was asked what provision had been made for the Baltimore Club and learned that there was none.

Three of the men who have been selected are Jack Sheehan, Winnipeg; Bill Murley, Moose Jaw, and Frank Boyle, Regina. Saskatchewan expects to name a manager in the course of a few days.

SHOT INTO FOURTH PLACE IN SINGLES

Cleveland Roller Only Man to Get in the Money Yesterday at Toledo.

Toledo, O., March 28.—Bowlers from several states found the marks too high in the minor events of the American Bowling Congress tournament here today and one of them was able to move into a place among the first ten in any department.

Bowling on one of the late afternoon rounds J. Schlemmer, member of the Gregg All-Stars of Cleveland, the team that took second place last night with a score of 2825, rolled 685 in his singles today and went to the fourth place in standing.

Schlemmer had a total of 1399 for his nine games, which gave him sixth place in the all-events, one point behind the third place.

The highest score of the day in the two-men event was made by E. Schroeder and J. Hauser of Chicago, with 1227.

The Riverside boating tournament opened last night in the Riverside Park, with 21 boats altogether, that included some rattling good preliminaries. There was a fair attendance of regular boating fans and, the quite orderly, they at times exercised their own prerogative of filing an objection occasionally to the decision of the officials as far as the particular judges were wrong.

In the lightweight class, Leeman (Classics) displayed an aggressive game against the Riversides.

Scotter, winning both games of the night, was the first boat of Joe Burke in the final bout in the heavyweight class.

McDoulton of the Classics was an excellent boat, but the Riversides and Burke were roundly applauded.

The straight left of the elongated east-end boat Scotter, winning both games of the night, was the first boat of Joe Burke in the final bout in the heavyweight class.

This was the second boat of McDoulton, who was much faster and was not afraid to mix it with the husky ex-champion.

PLAYS, PICTURES AND MUSIC

"Oh, Boy!" at Alexandra.
Starting Monday evening for a week's engagement at the Royal Alexandra will be the return of the "Oh, Boy!" which has been seen recently. The business was so enormous and the popular demand for its return so great that it was decided to again play Toronto.

It is the original big cast that delighted the Princess Theatre, New York audiences for two years and the production returns intact in every detail. When "Oh, Boy!" was first presented it created a furor, and made a record never before equaled by any musical play, of never having a vacant seat for two years. "Oh, Boy!" is produced by F. Ray Comstock and William Elliott. It is the "intimate type" of musical comedy in which there is a close association between the players and the audience. The story and lyrics are by Guy Bolton, and the music is by Jerome Kern.

Bessie Clegg, the famous premier danseuse, assisted by Elsie and Edouard Canson, will come to Shea's Theatre as the headline attraction of the bill next week. Miss Clegg calls her offering "A 1919 Dance Revue." Maude Lambeth, Ernest Ball, the Prima Donna, and the comedians, all well known here to need any introduction. It is sufficient to say that they have a host of new songs and piano solos.

Homer Dickens and Grace Deacon have a bright paprika of song, dance and chatter while Al Shayne describes his farce "The Girl Next Door."

Jim Imhot, Conn and Corcoran present "In A Post House," a riot of laughter, while Parsons and Irwin have a bright little sketch entitled "A Message From the Front."

Harry Quale, Margaret Maso and Helen French will also entertain.

Music will be as usual on Wednesday and Saturday.

Florence Nash in "Romance."

Among the season's most interesting events in this city, coming direct from a four-months' run at the Morosco Theatre, New York, will be the engagement of the Princess Monday night, April 1st. Nash in "Romance," a romantic comedy of quaint serious and genuine human appeal.

The production, made by Charles Emerson Cook, for the first time of Davis Belasco's closest Lieutenant, is headed as one of the most artistic of the current year, also has the most remarkable action for adaptation to the assumptions of Miss Nash's distinctive gifts of comedy and emotional acting, her superb cast boasts of such well-known names as Orson Johnson, Harold Howard, Ben R. Graham, Clare Weldon, Walter Regan and Dorothy Chaston.

Emerson Cook, in his departure from the prevailing fashion in plays, far from the cry of war, it goes back to the quantity picturesqueness period of 1910, the period of "Romance," "Bohemian," and "Maytime."

The play received its quaint title from its leading character, Rembrandt, so called "because there is too much history in a child and not enough for a man."

"The Bride Shop" at the Grand.

If there is any theatregoer of the fair sex in this city who does not want to see the latest creations of Poiret, Redfern, Gordon, Mimes, Farnham, and Wannamaker she had better not attend the performance of George Closs' magnificent production of the famous musical comedy success "The Bride Shop," which will be the attraction of the Grand Theatre. Well planned on "Welles" and Le Fevre have a most dazzling and bewildering array of silks, satins and lingerie displayed during the evening ever witnessed in any theatrical performance in this or any other city. Twenty thousand dol-

lars would be a small estimate of the amount of money expended by Mr. Closs in costuming the show, the book of which is by Fred. DeGresso, who wrote the well-known plays, "The Purple Rose," "The Enchanted Flö-Flo," and several other well-known musical successes, while the lyrics have been furnished by that clever writer of popular songs Dari MacBoyle, whose "Forever is a Long, Long Time," and "The Voice of the Wind" are the reigning hits of the New York Hippodrome show, and whose collaborator, Walter L. Rosemont, furnished the music.

At Week at Shea's.

Bessie Clegg, the famous premier danseuse, assisted by Elsie and Edouard Canson, will come to Shea's Theatre as the headline attraction of the bill next week. Miss Clegg calls her offering "A 1919 Dance Revue."

Maude Lambeth, Ernest Ball, the Prima Donna, and the comedians, all well known here to need any introduction. It is sufficient to say that they have a host of new songs and piano solos.

Harry Quale, Margaret Maso and Helen French will also entertain.

Music will be as usual on Wednesday and Saturday.

At Lowe's Theatre.

"The Better Half," featuring Alice Brady, at Lowe's Theatre and Winter Garden next week is an adaptation of the novel "Michael the Wife," telling how the more virtuous wife took her sister's place by her husband's bedside when he was seriously endangered his sight. In his latest comedy tour "Love, Rosalie," Fatty Arbuckle treats us to many a wild soiree, but we may be surprised that all wonder who does them Leo Pernick, Ethel Rose, and the Imperial Ballet, the dancing sensation of the New York Winter Garden show, will headline the bill.

Next week the Star Theatre, always a surety to secure big out-of-the-ordinary motion picture features will offer a novelty military site, called "The Treat Men Roughs."

She is a fine foil for Bowman, who has both the Croix de Guerre and the D.S.C. Van and Carrie Avery have an amusing bit of fun in "Michael Sirloin Men," featuring Mr. Avery's bliscase of the original "Rascals."

Fentell and Cecil offer new melodies, songs and piano solos; Cliff Clark, the versatile vendor of variety; Johnson, Baker and Johnson, wonderful juglers; Lowe's English Graphic Weekly, the "Mutts and Jeffs" animated cartoon entitled "Fireman, Save My Child," are other

entertaining features billed.

At the Hippodrome.

"The Man Hunter," the William Fox master production that took all New York by storm, will be the attraction of the Hippodrome next week when William Fox, premier motion picture star, will be seen in the leading role. One thrill follows another in rapid succession and the scenes investigate and photographically record itself well planned on "Welles" and Le Fevre have a novelty comedy attraction that is a bright feature of the vaudeville bill.

While the Ten Navasas Girls in song, dance and instrumental numbers are a pleasing feature of the bill. McLaugh-

lin and Evans are two clever comedians with some bright, new, laugh-provoking material; Minnie Harrison, a dainty singing comedienne; Anthony Rogers, the comic dramatic actor; Doris Melrose in song and dance novelties, and the Pathé News and Comedy complete a well balanced bill.

Liberty Girls at Gayety.

The Liberty Girls, "the show with a star" will be at the Gayety Theatre this week as the Queen's Theatre has been given to the "Follies" and the girls are the foremost of burlesque shows.

It is by America's best Irish comedian, Jack Conway, who is supported by some of the best talent of the stage, including them being James J. Collins, Lester Clegg, Frank W. Martin, Tony Williams, Dick Morgan, Michael Kelly, Harry Kit, Miss Barry Metton, Lilian Ross, others. Clara Clifford, Hilda Gage and others. The Liberty Girls chorus comes in for a great deal of applause, as they offer many novelties among them being a vocal group number, entitled "The Organizations of the World."

Wainstock's Military Maids.

The Military Maids Company at the Star Theatre make their debut this week with the regular Monday matinee.

With the regular Monday matinee, Wainstock's Military Maids will bring to the city the show of all shows. Mr. Wainstock has spared no expense to make this production the lead of all other extravaganzas.

With a notable all-star cast, featuring Leo Stevens, Harry Hartigan, Peter Graham, Andri Martin, Virginia Keay, Doris Claire, A. Ellsworth, Edith Randell, Eddie Hall and a large bevy of girls.

At the Strand.

Today the last performance of "Virgins' Wives," the most discussed photoplay of the day dealing with married life, will be given at the Strand Theatre. This sensational story by Owen Johnson, produced magnificently by the Regent, will be shown at the Strand April 7. While Father Kelly is a Catholic priest the play is in no way sectarian. With his gentle philosophy, he has kept with his love for humanity, a fervent concern for the welfare of his flock, and a desire to destruction. The characters in this play are vividly drawn and the situations are projected graphically.

Lectures at Massey Hall.

"With the Empire's Fighters," will be held at the Empire's Fighters, in Massey Hall twice daily.

The film is of fascinating and absorbing interest. But the film and the circumstances under which he took the film deserve to be known and cannot fail to be appreciated. The film, which is to be shown at the Canadian Film Festival at the Canadian Open House week April 7. While Father Kelly is a Catholic priest the play is in no way sectarian. With his gentle philosophy, he has kept with his love for humanity, a fervent concern for the welfare of his flock, and a desire to destruction. At the Strand.

Next week the Strand Theatre, always a surety to secure big out-of-the-ordinary motion picture features will offer the public a treat along new lines. This will be the presentation of the life of Col. Theodore Roosevelt, an absolutely unique film production. Roosevelt is one of the most remarkable personalities ever known. In many ways there was never another like him. His life, works, and adventure make a story more wonderful than fiction, and this elaborate motion picture makes it all the greater drama and a historical record of the most intense interest. The Roosevelt feature picture will be shown all next week, and as an added attraction the Strand will present Charlie Chaplin in his "imitable comedy, 'Shoulder Arms.'

Triple Bill at Regent.

Three features will mark the program offered at the Regent next week. Constance Talmadge will be seen in "The Goose," the new "Roxie," Rosalie, and the Imperial Ballet, the dancing sensation of the New York Winter Garden show, will headline the bill.

musical comedy called "Head Over Heels" known since its long run began in New York last summer for the unique quality of its story and the lively style of its Jerome Kern music.

The principal comedian in support of Mitzi will be Robert Emmett Keane, the Irish-American who succeeded Raymond Hitchcock in the position of manager of "The Manhattan"; Charles Judels, Dorothy Mackaye, Boyd Marshall.

"Ziegfeld Follies" Seat Sale.

The management of the Princess announces that it is now prepared to receive mail orders for the important engagement of "Ziegfeld Follies" week commencing Monday, April 14. During this week three performances will be given on Wednesday, Friday (Good Friday), and Saturday.

"The Rosary" Coming.

Father Kelly, a priest of the modern world, with a deep insight into human nature, and a great love of his fellow man, will be the main character of "The Rosary," which is to be a second revival at the Grand Open House week April 7. While Father Kelly is a Catholic priest the play is in no way sectarian. With his gentle philosophy, he has kept with his love for humanity, a fervent concern for the welfare of his flock, and a desire to destruction. FARM IMPLEMENT PRICES AND DUTIES

THERE is a wide difference between statements of Western grain growers and the manufacturers relative to the prices of Canadian-made agricultural machinery and comparable implements produced in the United States. The Canadian Reconstruction Association has made an investigation of such prices at a number of points in Western Canada and at places directly south in the Northwestern States.

As a result of the inquiry the Association submits the following comparisons, believing them to be accurate. The quotations are *average*, retail, one-payment prices in the United States, for 1919 Spring delivery, of a standard 7-foot binder equipped with sheaf carrier and fore carriage, as compared with the *highest*, retail, one-payment prices in the districts mentioned in Canada. The prices are for implements which compete regularly in foreign markets, where the Canadian-made binder is said to sell for even a higher price than the binders made in the United States.

The prices quoted are much higher than were prices before the war, but the comparative figures show a very similar relation to those quoted by Sir Thomas White in the Canadian Parliament in April, 1914, as a result of an enquiry made under his direction by Mr. Costello, an official of the Canadian Customs Department, who was sent to Western Canada and the Northwestern States expressly to secure information as to prices and the effect of the tariff duties on agricultural implements.

The figures given above and those reported by Mr. Costello seem to show that the Canadian price is not, as sometimes stated, the United States price plus the duty. In some cases, agriculturists in Manitoba appear to pay more than is paid by the farmers at points directly south in the United States, but such does not seem to be true of farmers generally in Western Canada.

The Canadian manufacturers claim that farmers west of Manitoba buy binders at lower prices than do farmers at places directly south in the United States and, indeed, that Canadian agriculturists generally purchase farm machinery more cheaply than do the farmers in any other country in the world.

For comparison, the binder has been considered because it is a fairly standardized implement. In the case of drills, mowers and certain other farm machinery there is a wide difference in the products of various manufacturers, and price comparisons are apt to be misleading. Comparison is possible, however, between the prices of wagons. The inquiry made by the Canadian Reconstruction Association, and supported by actual signed orders, seems to show that a purchaser in Southern Manitoba pays \$163.50 (one payment, retail price) for a 3½-inch arm, 3-inch tire, Canadian-made wagon, complete with seat and box, while a farmer at Devil's Lake, North Dakota, has to pay for a comparable wagon \$170.00. The price at Havre, Montana, appears to be \$185.00, as compared with \$168.00 at Maple Creek, or any other point in Southwestern Saskatchewan.

The executives of Canadian implement companies state that they have not at any time sold farm machinery at a lower price in the foreign than in the domestic market, under similar conditions and when the difference in cost of transpor-

tation is taken into account. On that proportion of their output which is sold abroad, Canadian manufacturers are entitled to a rebate of 99 per cent. of the duty which they have paid on materials entering into their products. It is claimed that the United States and Canada are the lowest-cost producers of agricultural machinery in the world. These two countries have an advantage over domestic producers in foreign markets. Competition is less keen and prices are higher than are prices in Canada. Government reports show that during the war overseas prices in Great Britain, France, Australia, Argentina and elsewhere have been much higher than those

The tariff on agricultural implements yields about three million dollars revenue annually to the Dominion Treasury—income which should have to be made up in some other way if the duties were removed. Besides, there is the revenue from customs duty paid by the farm implement manufacturers on imported machinery and materials. In addition, the farm implement industry in Canada, through taxes and otherwise, helps to support provincial and municipal services and provides a considerable market for the products of a large number of other Canadian interests. The tariff duty,—in the case of binders, mowers and reapers now only 12½ per cent. of the Customs valuation, or in reality not more than 10 per cent. of the retail selling price,—helps to retain the market for Canadian manufacturers, enabling them to produce in larger quantities and at lower unit cost. The annual wage and salaries bill of the agricultural implement industry to Canadian workers is about \$20,000,000 and close to 100,000 persons are dependent upon this income for their livelihood. The annual value of the farm implement

the agricultural implement companies purchase materials of various kinds, the interests of many thousands of additional workers are involved.

If, by abandonment of the Canadian tariff duties, the United States manufacturers of farm machinery were enabled to capture a larger part of the Dominion market, it is said that serious harm might be done to the Canadian industry and the foreign manufacturers might then exploit the Canadian grain growers by charging higher prices, on account of there being little or no competition from domestic producers.

Before removing or lowering the duty, it is desirable that Parliament and the public should have definite information as to whether or not the present duty more than compensates for the higher costs resulting from the geographical situation and other factors over which the Canadian manufacturers of farm machinery have no control. They also should know whether the Canadian farmer could obtain any lasting advantage from removal or modification of the present duty. Who pays the duty? Does the tariff help to retain the Canadian market for Canadian-made implements, thus contributing to a lower unit cost of production and at the same time providing employment at good wages for Canadian workers and a market for the products of other Canadian industries? Have the manufacturers of implements taken any undue advantage of the tariff to charge excessive prices? These questions should be studied and answered. Until they can be answered and until the tariff problem can be considered in its entirety, there is reason to suggest that the demand for removal of the duties on agricultural

SURPLUS EXPECTED IN SOUTH AFRICA

Acting Finance Minister Says Customs Revenue Continues to Be Buoyant.

Reuter Cable.

Capetown, South Africa, March 28.

In the debate on the budget laid before the union assembly, Acting Financial Minister Burton announced that owing to the continued buoyancy of customs revenue, there would probably be a surplus for the expiring fiscal year of 100,000 pounds sterling, instead of a deficit of £30,000. He expressed the fervent hope that workers and employers would confer with view to the early conclusion of the British government had displayed more readiness for nationalization of the public services than any government, but it drew the line at ship-

ment.

Mr. Cresswell, Labor leader, wholeheartedly supported the motion, emphasizing the success of Australian state enterprises. He appealed for a similar policy in South Africa.

Mr. Upington, Labor, ridiculed the motion as absolutely impracticable.

Mr. Blackwell, Unionist, commented at length on the success of state projects in Australia and asserted that Australian cargo ships repatriated in preference to those of countries which exceeded two millions sterling.

He eulogized the very skilful purchase by Premier Hughes of ships at the most opportune moment, and then proceed to entail the profits gotten out of enterprises by the commonwealth.

MADE GERMANY PAY
FULLEST INDEMNITY

Premier Borden, in Special Cable, Denies Report That the Had Been Any Change in Policy.

Ottawa, March 28.—Sir Thomas White left the house this afternoon, referred to a report from London attributing to Sir Robert Borden the view that no indemnities should be exacted from Germany. Sir Thomas said he asked the liberty of drawing the matter to the attention of the prime minister, who, in reply, had sent the following cablegram:

"Report alluded to is absolutely unfounded and indeed absurd. You are well aware that I have given an explicit denial to any such statement. We are making every effort to procure from Germany the fullest indemnity that she is able to pay."

BRITISH LABOR'S STAND AGAINST BOLSHEVISM

London, March 28.—At a meeting of the executive body of the National Socialist party and the socialist members of parliament yesterday, a resolution was unanimously adopted urging the government to adopt a preliminary peace at the earliest possible moment "in view of the chaos and unceasly developing throughout Europe as a consequence of the delay in fixing the terms of peace."

At the same meeting arrangements were made for carrying on special propaganda throughout the country, especially in the industrial centres, with a view, it was stated, to exposing the dangers and fallacies of Bolshevism. A series of meetings will be held, which will be addressed by leading socialists, including Henry M. Hyndman, the socialist party leader, and Will Thorne.

WILL NOT PURCHASE THE SALMON PACK

London, March 28.—(Reuter Cable).—In order that canned goods importers and distributors may take the responsibility for purchasing their supplies in 1919, the pack of American and Canadian salmon, the food controller states it is not his present intention to purchase the pack or requisition the supplies on arrival in England. It, however, circumstances render it necessary, maximum prices may be imposed for the sale of this salmon.

BRANTFORD GATHERING ASKS HARBOR WORK

Representatives of Grand Valley Centres Protest Against Delay in Improvement of Port Dover.

Brantford, Ont., March 28.—A strong protest was presented this afternoon over the failure of the government to provide funds in the estimates for the improvement of the harbor at Port Dover, which is to cost \$360,000, by a gathering of civic and business representatives from all the centres on Lake Erie, Northern Railway, and in the Grand River area. Two resolutions were carried, one to be sent to the acting premier and the minister of marine, asking him to insist that the promise of Hon. F. E. Carver had not been met, and that money was to be used for other purposes, but not for this, while the second resolution pledged the delegates to work in securing a huge petition asking that the work be gone on with this year.

Striking Quebec Shipworkers Return After Lapse of Day

Quebec, March 28.—With the promise that a delegation would go to Ottawa early in April to ask the minister of labor to fix a uniform scale of wages for shipworkers throughout Canada, a hundred strikers at the shipyards of the Tidewater Construction Company at Cap de la Madeleine, Three Rivers, decided last evening to return to work today after a one-day strike.

Canadian Manufacturers Said To Favor Daylight Saving

Montreal, March 28.—The executive committee of the Canadian Manufacturers' Association considered daylight saving yesterday. No report of the meeting was handed to the press, but it is understood that it was strongly in favor of the re-introduction of the scheme.
