FRUITEEN PAGES—FRIDAY MORNING AUGUST 31 1906—FOURTEEN PAGES

CURB TRUSTS A PARAMOUNT ISSUE PRODUCTION OF GOLD RELIEVES MONEY STRINGENCY FREE TRADE REMEDY FOR MONOPOLY

Bryan, Hops of Democrats, Given Great Welcome on Return From World Tour—Advocates Income Tax and Says British Government is More Responsive to Public Sentiment Than That of U.S.

POINTS FROM BRYAN'S SPEECH.
ARBITRATION
There is a perceptible growth in sentiment in favor of settlement of international disputes by peaceful means.
NAVY NOT DEBT COLLECTOR
We may not only promote peace but also advance our commercial interests by announcing as a national policy that our navy will not be used for collection of private debts.
COLONIALISM
Our nation has lost prestige rather than gained it by our experiment in colonialism. We have given the monarchist a chance to ridicule our Declaration of Independence. We should lose no time in announcing our purpose to deal with the Philippines as we deal with the Cubans.
CONGRESS NOT RESPONSIVE
In several of the nations of Europe the legislative department of government is more quickly responsive to public sentiment than is our congress.
INCOME TAX
The income tax which some in our country have denounced as a socialist attack upon wealth has the endorsement of the most conservative countries in the world.
LABOR AND CAPITAL
In advocating arbitration of differences between large corporate employers and their employees I believe we are defending the highest interests of the employees, the employers and the public. The struggle to secure an eight hour day is sure to be settled in favor of the workingmen's contention.
THE MONEY QUESTION
The unlooked-for and unprecedented increase in the production of gold has brought a victory to the advocates of bi-metalism.
THE TRUSTS
The paramount issue is the trust issue.
TARIFF
The tariff question is closely allied to the trust question and the reduction of the tariff furnishes an easy means of limiting the extortion which the trusts practice. Few manufacturing establishments would dare to enter into a trust if the president were to put upon the free list articles competing with those controlled by a trust.
RAILROAD DISCRIMINATION
Absolute equality of treatment at the hands of the railroads would go far toward crippling the trusts.
PUBLIC OWNERSHIP
An increasing number of all parties see in public ownership the sure remedy for discriminations between persons and places and the extortionate rates for the carrying of freight and passengers.
I prefer to see only the trunk lines operated by the federal government, and the local lines by the several state governments.

New York, Aug. 30.—Mr. Bryan's entry into New York this afternoon was a series of ovations, beginning with his landing at the Battery at 4 o'clock and reaching an early climax when he arrived at the Victoria Hotel, 27th-street and Broadway, an hour and fifteen minutes later.

Here the home-coming Nebraskan fairly was mobbed by the thousands of persons who had gathered outside the entrances and the hundreds who had forced their way into the corridors. Finally an entrance was effected by the police and Bryan reached the lobby-stairs. He was hailed and called upon for a speech, and then the crowd surged about him, cheering lustily all the while.

Twelve thousand persons, many of them women, were seated by 7 o'clock and an hour later not a vacant seat was to be seen. The heat in the garden, once the crowd had assembled, was so great that a large portion of the glass was pushed back, leaving only the stars as a canopy. The galleries early were jammed to their utmost capacity. Hundreds of policemen were on duty to act in case of emergency and fifty firemen were detailed at various stations in the giant structure.

Mr. Bryan was presented at 8.40. As he crossed the audience was on its feet as one man. The cheering which began at that instant did not end until 8.45, and only after Mr. Bryan had waved his hands frantically in an effort to still the waves of noise which rolled in from the audience and beat upon the speaker's ears. At first the man for whom the demonstration was planned, stood bowing and smiling. Then his attitude was one of apathy. This at last grew to one of indifference as the cheering died away in reverberating echoes along the girdered roof. Mr. Bryan began.

Mr. Bryan said, in part: "The first message I bring from the old world is a message of peace. The cause of arbitration is making real progress in spite of the fact that the nations most prominent in the establishment of the Hague Tribunal have themselves engaged in wars since that court was organized. There is a perceptible growth in sentiment in favor of the settlement of international disputes by peaceful means."
After reviewing the work of the inter-parliamentary union, in which he participated, Mr. Bryan said: "I believe that if our nation would propose to make with every other nation a treaty providing that all questions in dispute between the parties should be submitted to the Hague court or some other impartial international tribunal for investigation and report before any declaration of war or commencement of hostilities, it would find many nations ready to enter into such a compact. I am sure from the public utterances of the present prime minister of Great Britain, Sir Henry Campbell-Bannerman, that such a treaty could be made between the two great English-speaking nations and their example would be followed until the danger of war would be almost, if not entirely removed. I confess that my aversion to killing increases with the years. Surely the creator did not so plan the universe as to make the progress of the race dependent upon wholesale blood-letting. I prefer to believe that war, instead of being an

ARRESTED FOR DESERTION.
Montreal S. S. Company Will Prosecute for Jumping of Job.
Deserting from an ocean liner has caused another sailor to be arrested, but nothing John Bishop, a fireman on the Turbulin, was arrested by P. C. McKee yesterday afternoon because he left the Allan liner Victorian, Bishop is locked up on No. 1 station, and an officer will be here for two weeks.
Late in the big steamship companies have been taking pains to look after men who do not fulfill their agreements with the boats, with a view to making an example, and thus preventing other desertions.
Will Enquire.
Hon. J. P. Brodeur, minister of marine, has informed the navy that he is asked by the R. & O. Navigation Company for an explanation as to the occurrences his worship complained of recently.

Brodeur Wants to Quit Parent For His Place

Cabinet Change Which is Next to Occur—Recorder Weir of Montreal One of Three New Judges for Quebec—By-Election Postponed.
Ottawa, Aug. 30.—(Special.)—The much-talked-of meeting of the cabinet took place today but very little was done, being only the appointment of judges to the Quebec bench.
The reason for the delay of public business is simply that the cabinet has come to another deadlock. The comfortable and secure appointments before the next general election, which seems to hang over them like a night mare, has infected the Hon. J. P. Brodeur, minister of marine and fisheries. That hon. gentleman has informed Sir Wilfrid Laurier that he must have the remaining vacancy on the supreme court bench. The premier is averse to this, and the apparent basis of the deadlock is the dangerous want of confidence which it is creating in the minds of the electorate, but Mr. Brodeur is obstinate, hence the deadlock.
Call is Out for Parent.
Today the ministers discussed the eventuality and it was agreed in the circumstances that nothing better could be done than to bring the Hon. S. N. Parent into the cabinet and give him the department of marine and fisheries. The latter was thought of first, but the premier considers that Quebec needs marine and fisheries more.
This is the real cause of all these delays which have been frequent of late. Mr. Emmerson and Mr. Brodeur, as mentioned at today's meeting, the minister of railways left this morning for Moncton and St. John, and the minister of the interior is in Europe.
By-Elections Delayed.
As expected, the dates for the impending seven by-elections were not fixed, in view of the appeal to the supreme court over the finding of the judges in the Fielding election trial. He dismissed the personal charges against the minister of finance. However, the supreme court is called for Oct. 2. It is not likely that the dates for the by-elections will be arranged until after that.
As mentioned, the only real business accomplished was the election of three judges to the Quebec bench. L. P. Demers, M.P. for St. John's and Iberville succeeds Judge Lefebvre, who has been transferred from Sherbrooke to Quebec; Hon. J. C. McCorkill, provincial treasurer, appointed to the vacant vacancy caused by the death of Judge Andrews, and Recorder Weir of Montreal, the last named being totally unopposed.

New Solicitor-General.
The question of the appointment of a solicitor-general came up, but nothing was done. The suggestion was made that E. B. Devlin, M.P. of Wright County, a brother of the member for Galtway, should get the office. This would not only give the office to the Province of Quebec, but give it to an Irish Catholic, for whom it was created in the first instance. Mr. Ferguson should, of course, get the appointment, but Premier Gouin of Quebec is unsparingly opposed to this.
After the cabinet meeting Sir Fredrick Borden left for Montreal. He sails for England to-morrow.

PROCESS BUILDING AFIRE DUE TO MEDDLESOME MAN

Foiled With Gas Generator and Blaz Resulted That Did \$1500 Damage—Manufacturers View the Fair—Retail Merchants and Their Troubles.
Those three strong men of Canada, Messrs. Manufacturers Wholesale and Retailer, had their innings at Canada's National Exhibition yesterday, while Mr. Banker, who dry-nurses everybody, sat and looked on approvingly, and Mr. Farmer and Mr. Citizen stood to one side and admired.
These half-dozen gentlemen have the present and the future of Canada in their hands and their success depends on their co-operation, but nothing so enables them to realize this as getting together at the big show. The directors luncheon was a pleasant opportunity for such an object, and while the three orders first mentioned were bankers enough present to make quite a clamor they permitted their money to talk. The trained lions were of an appreciative audience and were naturally pleased to find themselves in such good company.
The fair was an exceptionally fine one, and the 40,000 is given as the attendance, the grounds were not so thronged as to render sight-seeing disagreeable. The crowds, however, were very great, and not a vacant seat could be found on the grand stand. Judging from the proceedings yesterday afternoon was fortunately not of a serious nature. The trained lions were the occasion of another accident.
The playing of the Second Life Guards Band yesterday established the fact that the highest concert order, and is rapturously received. Such numbers yesterday as "Cavalleria Rusticana," selection, the Reminiscences of the "Poppy" music, Corporal Jesse Tannhauser, and the excerpt from Schubert's unfinished symphony in B minor, indicated the most cultured taste and the highest skill combined with a desire to please those who believe they like "poppy" music. Corporal Jesse's piccolo solo was encored. Corporal Harman will play a cornet solo every evening from 8 cents to 25 cents per day.
Today is Press Day, and the newspaper men of the province will own the

PLANO WORKERS WILL STRIKE BOTH SIDES ARE DETERMINED

300 Men Quit Work at 5 p.m.—To-Day and Prospects Are for General Tie-Up.
Three hundred piano and organ polishers will go "out" at 5 o'clock this evening. All factories of that nature in the city will be affected. While the men profess confidence, the manufacturers declare that they will not accede to the demands made. The men submitted an agreement which is so ridiculous that we will not consider it, said one.
If the woodcarvers and other workmen quit in sympathy, which is not unlikely, 1000 men will be involved.
The manufacturers concerned are: Heintzman & Co. Limited, Toronto Junction; the Nordheimer Piano Company, Toronto Junction; the Newcombe Piano Co., Limited; Mason and Rieker Piano Co., Limited; Gourlay, Winter and Leeming, the Mandelsohn Piano Company, and the Gerhard Heintzman Company, Limited.
The strikers comprise local unions 20 and 31, branches of the International Union of Piano, Organ and Musical Instrument Workers. They claim to have absolute guarantee from the international organization of financial support during the campaign.
The strike was decided upon at a mass meeting in the Labor Temple last night, which was largely attended and of unanimous mind.
The situation as explained by General Agent J. E. Virtue, is this: On Aug. 20 an agreement was submitted to the manufacturers asking for a wage shop (employing none but union labor); abolition of the contract system, at present in vogue in the piano trade; Aug. 21 at 5 p.m., containing apprentices to a proportion of 1 to 3 mechanics; also lengthening the apprenticeship term of 3 to 4 years to 4 to 5 years; a wage increase of 15 per cent, in both piecework and day work above the present prices, which vary from 28 cents to 35 cents per day, with no change in the number of day hours.
At present they are working nine hours, with time and a half for overtime.
Having received no reply by Aug. 27, the matter was discussed and an ultimatum presented Aug. 28 notifying the employers that unless a settlement was reached the men would strike Aug. 31 at 5 p.m.
This last communication was ignored, and nothing heard from the manufacturers, except indirectly that they were prepared to fight.
There are at present 300 instruments in course of construction in Toronto, and the season is said to be the busiest. The men hardly expect to get all the 15 per cent. increase in wages asked, but hope for a substantial gain.
The Employers' Association will manage the strike so far as the manufacturers are concerned.

TWO QUICK RUNS.

C. F. R. Outward Ship Beats Record Over Ten Hours.
Montreal, Aug. 30.—The Canadian Pacific R.M.S. Empress of Britain, from Rimouski, Aug. 25, at 9.30 a.m. was reported 100 miles east of Maine Head, Aug. 30, at 4 p.m., and is due at Liverpool about 7 a.m., Aug. 31, having beaten the record over the course from Rimouski to Liverpool by Belle Isle by over 10 hours.

THE SICHE GAS EXHIBIT.

The sixth consecutive yearly exhibit of the Siche Gas System, now on view in the manufacturers' annex—better known as the Siche Gas Building—will well worth seeing. This system has taken medals yearly since 1902, receiving gold medal and diploma last year. Its main advantages are that there is absolutely no storage of gas and consequently no danger. Though thousands of Siche machines are in daily use in this country, there has never been an explosion of a Siche Gas Machine anywhere. Advertisers will find the two samples of illuminated signs "Siche Gas" shown at the north and south ends of the building worth investigation. These signs are much more effective and clear than the ordinary incandescent electric signs, being very distinct and easily read at a distance of over a furlong. Besides lighting the manufacturers' annex, the Siche System is employed for the fifth consecutive year to light the C.P.R. building. Mr. Dockrell, energetic representative of that railway, is boasting that he has the best lit building on the grounds.
Visitors to the Siche exhibit are displaying much interest in the instantaneous hot water heater, which boils water from the city main at the rate of a gallon a minute. The First Proof Siche is the only first proof gas machine made in the world. The model, complete with forced draught blowpipe and further special features, shown in connection with a full line of cooking and heating apparatus. The company is giving away matchboxes and neat hat pins as souvenirs. The fact that an inexhaustible supply of chintze (the raw material for Siche gas), is now assured for Canada, at a rate that will cut the cost of the gas practically in two, is increasing the volume of sales of Siche gas machines to such an extent that the company is to-day more than a month behind its orders.

OVERCOME BY SMOKE.

Fort William, Aug. 30.—Jos. Smith, an American laborer, lost his life in a fire that destroyed the general store and boarding house of J. F. Crittill & Son at Kakabeka Falls. The theory is the lamp exploded and the flames spread so rapidly that the man was overcome by smoke.

BANK PRESIDENT SUICIDES CORONER CONFIRMS RUMOR

Receiver Earle Suggests Plan by Which Creditors Will Get Dollar for Dollar.
Philadelphia, Aug. 30.—The suspicion that Frank H. Hipple, president of the embarrassed Real Estate Trust Company, who was found dead at his home in Bryn Mawr, Pennsylvania, last Friday, committed suicide was confirmed today by coroner Joseph N. Egan.
Since the death of Mr. Hipple, the family physician and the coroner maintained that he died of cerebral hemorrhage, while taking a bath. The coroner today said:
"When I went to Bryn Mawr Friday morning to investigate the sudden death of Mr. Hipple I discovered he had committed suicide. I decided to suppress the fact for a few days in order to prevent a run on the trust company."
I thought if there was anything wrong in Mr. Hipple's transactions the directors would have a chance to make up whatever deficits there were." He added that his action was voluntary and had been approved by several men prominent in legal affairs.
The coroner stated that Hipple had placed the muzzled of an 8-caliber revolver in his mouth and shot himself. The ball lodged in the brain. The shooting took place in the bath-room early in the morning. Mrs. Hipple was not aware that her husband had killed himself until the arrival of the family physician.
Receiver Earle said today that his plan for the reorganization of the Real Estate Trust Company was to ask the creditors to take preferred stock in the trust company for their claims, and appoint their own officers in the appointment. The British and French Motor Car Co., Limited, Mutual Trust Building, 147 Broadway, New York, gives of famous English and French Cars, before purchasing.

LIBERALS HERE WEDNESDAY MAY TALK OF LEADERSHIP

G. W. Ross Has Not Intimated Intention to Resign, But Crisis May Be Precipitated.

The annual meeting of the general Reform Association of Ontario will be held in Toronto on Wednesday next. H. M. Mowat, K.C., who is president of the association, is at present on the ocean and will be home for the gathering.

It was said last night by F. G. Inwood, the secretary, that routine matters would be dealt with.
On the street, however, there is a good deal of talk of the new leadership. Clearly the agitation is being worked up to get rid of the old leaders and the old issues, and if the Liberals talk at the convention as they do on the street the heads of the incompetents will be demanded.

But there is no situation to face. Mr. Ross has not expressed the slightest intention of resigning. If he does not retire before the convention the association will elect itself an advisory position, for the bulk of the party, while desiring a change, will not wish to force a resignation, and a few of the more outspoken ones may precipitate a crisis.

A leading member of the association to the World has there undoubtedly was a good deal of dissatisfaction which might manifest itself at the convention.
Another said he did not think it was for the association to choose a leader. "Mr. Ross is still leader of the parliamentary party in Ontario—it is for the party in the house to choose a new leader if they want one."
"Who will succeed Mr. Ross?"
"The World has suggested some good men. But I fancy no one in the party will presume to pick a leader till the old one retires."
"The World has suggested some good men. But I fancy no one in the party will presume to pick a leader till the old one retires."
A. E. Kemp, M.P., was asked if a call had been issued for a gathering of the Conservative and Liberal Reform association, he was reminded, usually got together in fair time.

SUNDAY'S POLITICAL POW-WOW.

Montreal, Aug. 30.—(Special.)—A good deal of interest is taken here in the Sunday demonstration in Ontario—it is for the party in the house to choose a new leader if they want one.

COOLER.

Observatory, Toronto, Ont., Aug. 30.—(Special.)—With the exception of a few local showers in Eastern Quebec and New Brunswick the weather to-day has been fine throughout the Dominion. The temperature has risen slightly in the Prairie provinces, and continues quite moderate elsewhere.

Lower Lakes, Georgian Bay, Ottawa Valley and Upper St. Lawrence—Fresh to strong westerly to northwesterly winds; fine and a little cooler.
Lower St. Lawrence and Gulf—Fresh to strong winds; mostly fair, with local showers.
Maritime—Moderate to fresh southwesterly to westerly winds; partly fair, and warm with local showers.
Superior—Northwesterly winds; fine and cool.
Manitoba—Fine and a little warmer.
Saskatchewan and Alberta—Fair and warm.

AT THE EXHIBITION

Continued From Page 1.

grounds. The new press building is visited all day long by strangers in search of the interesting and curious, who look on with wonder at the production of copy. To-day is also the last day of the cat show.

Almost a Bad Fire.
A young man wearing a white vest and an engaging smile is indicted with having caused a rather destructive blaze that sprung up in the process building about 8:30 o'clock last night. The loss is estimated at a little over \$1500, divided up as follows: Canadian Westinghouse Company, \$1000; W. C. McGregor, \$500; Simplex Gas Co., Oakville, \$25.

The Westinghouse Company had a large exhibit of ornamental gas and other fixtures, which were badly damaged. A. E. Fleming of Hamilton, who is in charge, fixes the damage as given above, and states that no insurance is carried. The McGregor Co. had a stock of souvenir post cards, buttons, etc., the whole being insured for \$1000. The Simplex Gas Co. in the process building exhibited the fire started, have on show a number of gas engines, generators, etc., which were little affected.

The statement of a young man, Brecken, who is a demonstrator for another exhibit, is that he saw a young man in light summer attire lean over an acetylene gas generator and press forcibly upon the valve, the result of which those in charge claim would be to open the carbide feed, causing such an over-generation of gas that it would escape. The stranger smiled when he saw he was being observed and disappeared.

The escaping gas ignited from a jet overhead, causing a small blaze among the burlap draperies in the quarters that an explosion took place, but this the exhibitors deny.

The firemen were quickly on the spot and aided by eight or ten policemen of the relief squad, the blaze was soon extinguished. The chemical engine did very effective work in stamping out what was agreed by exhibition officials and firemen to have been a very dangerous fire, which, with a little more headway, would certainly have done serious damage if it did not entirely destroy the building and contents.

Attention was heard from the Westinghouse Company to the effect that the generator had been leaking during the day, and that those in charge had been warned that there was danger. The explanation given to the exhibition management is that the generator was injured in transit to the fair, and that it was found necessary to keep on generating gas to expel the air that had been admitted.

It is not believed that the stranger's interference with the valve was malicious, but was a simple case of meddling without intent to do harm. A pile of burning rubbish on the lake front gave them another run. Harry Caldwell, a young man employed by the Simplex Co., had his face slightly burned in trying to put out the flames. He denies emphatically that there was any explosion, and this is born out by Douglas Riddout, the insurance agent, who was close at hand.

The Directors' Luncheon.
It fell to E. M. Trower to make during the ripple in tranquillity of the directors' luncheon at the exhibition yesterday. Rev. E. L. Green, Belleville, asked a blessing, and the viands were as appetizing as usual. Acting President George read letters of regret from C. C. Ballantyne, Montreal; George Booth, and T. L. Moffatt. Mr. Trower was the last speaker called upon, and the assembly was dismissed as soon as he concluded, but his anxious remarks were the subject of general comment.

Mr. Trower is secretary of the Retail Merchants' Association, and he said he was pleased at the happy relationship growing up between the three great interests of the Dominion, which was recognized in the joint attendance of the manufacturers, the wholesalers and the retailers, at the luncheon. To some extent "made in Canada" goods were put aside by the retailers when they had to seek other markets for styles of goods different from those made in the country. This was a point to be considered.

Mr. Trower then took occasion to call attention in a friendly but emphatic way to the compulsory section of the criminal code. It was put on

he declared, by men who had no interest in the retail business, and was a blot on the statute books. The retailers were asking to have this section amended, he said, so that they could meet together and not have a policeman rolling up to their doors afterwards to take them into court.

The Retail Merchant.
There were some present who were not interested in the matter, and he desired to enlist their sympathies. The retailers had hitherto been looked upon as the prey of all classes, yet they were most numerous, they carried the largest stock in merchandise, and they had the largest investment in buildings.

It was generally supposed that the postoffices belonging to the government; as a matter of fact the government owned 400 of them, while 11,000 were owned by the retail merchants of Canada. They were paid starvation wages to take care of the mail, and spent most of their time distributing catalogs from the mail order firms of the big cities.

Debs to Manufacturers.
President George, in opening, said that the success of the exhibition and of the country generally was largely due to the manufacturers of Canada, to whom the day was devoted. The output was something of which the country might be proud. The exhibition had a capital effect in bringing manufacturers into competition, as the proximity of their goods led them to strive to outvie each other.

J. P. M. Stewart, general secretary of the Canadian Manufacturers' Association, had spent many years in the study of business conditions, but he purposed to confine himself to the fair. There had been a time when the manufacturers did not take the interest in the exhibition which they did now. In the last few years they had brought themselves into line with the farmers, with the result that the fair had been given a place in the first rank. An opportunity was given the people to see foreign and domestic goods side by side, and to judge for themselves. It was now recognized that "Made in Canada" was a label to be proud of, and the manufacturers were glad to give it a prominent place. He congratulated the officers of the fair on its success.

President George told how some years ago two American manufacturers, not being able to obtain them otherwise, got cards printed "Made in Canada" to place on their United States exhibit.

Hon. John Dryden: They meant this card was made in Canada. (Laughter.)

Way Down East.
Morley Wickert had just returned from a trip in the maritime provinces and he fell for the Nova Scotians and New Brunswickers that they were only beginning to realize that they belonged to Canada. It was one of the problems manufacturers had to face to get the maritime provinces to feel that their interests and those of Ontario were identical.

T. A. Russell was introduced as the third graduate of Toronto University who had become a manufacturer, and who was to speak at the luncheon. He contented himself with complimenting the directors on their success.

Hugh Blain, as both manufacturer and merchant, said it was only for a few years that he had tried to sweeten the cloth he was wearing. He was glad that the waterfront was to be improved. It might lead to entertainment as well as picturesqueness, and instead of Sebastopol and land heroes they might have Nelson and Togo represented in the spectacles of the future.

Rev. A. L. Gean, Belleville, of the Retail Merchants' Association, who was explained that as well as wearing the cloth he was interested in drugs, and he added his voice to the general chorus of praise. As a Belleville, he thought Toronto was gradually drawing all the little towns into itself. They had all to be banded together, manufacturers, retailers and plumbers, and a union was strength.

Those There.
Among other guests present were: G. T. Somers, president of the Standard Bank; Dr. Moorhouse, Watson Griffin; J. Hewitt, B. W. Ziemann (Preston); L. V. Marchessault (West Shefford); M. J. O. Thorne, J. B. Boomer, F. L. H. Sims, W. A. Fraser, W. K. McNaught, W. J. Murray, H. G. Ellis, F. B. Hayes, W. B. Digman, G. B. Meadows, J. B. Fitzsimons, Fred Dane, E. C. Boeck, W. R. Perrin (Chicago); J. Herbert Mason, George Irving, M. H. Irish, Wm. Gordon, H. C. Ellis (Ottawa); J. A. Beaudry (Montreal); J. G. Watson, W. B. Rogers, E. G. Scrymgeour (Oshawa); G. L. Hillman, J. G. Howarth, A. C. Casselman, R. Patterson,

Chas. S. Meek, A. W. Allen, W. R. Watson. The ideas committee at the exhibition may be proud of the interest taken in the women's building, as evinced by the number of visitors pouring through it at almost all hours. One of the great attractions to the fair sex are the lace articles loaned by the Countess of Aberdeen, now Lady Leighton, of Scotland. One of these is a lace shawl of Carrickmacross work. The other is a valuable specimen of Irish needle point. In the same case are shown a pair of gauslets with a satchel and missal, once the property of Mary, Queen of Scots. The collection of painted china this year surpasses all previous displays, and while the admiration of all is almost the despair of some who have been hoping to compete in the future.

Among those awarded first prizes for china paintings were Minnie H. Brown, best collection; Mrs. C. Flanagan, miniature portrait; Miss Bauld, best amateur collection; Mrs. N. S. Morrison, and Mrs. J. Nettie, 2; B. Robinson, London Junction, dessert set and punch bowl; Mrs. John Langley, dinner set; Mrs. F. A. Patterson, Hamilton, cup and saucer; Lennoxide pitcher and plaque (three firsts); L. Hunter, Brampton, 5 o'clock tea set; Mrs. Seymour, large vase; Miss M. F. Isaacs, small vase; Miss J. J. Nairn, jardiniere; Miss Kingsford, handmade pottery.

Here and There.
The Judging.
The horse judging in the large horse ring resulted:

Fair of ponies in harness, over 13 hands 1 inch up to 14 hands 1 inch—1. Mead and Robinson's Lady Grey. Single roadster, trotter, gelding or other 13 hands and over—1. Miss K. L. Wilks, Galt, Rhea W.; 2. Miss K. L. Wilks, Galt, Emma Hoyt; 3. John E. Russell, Ed.; 4. Hugh Scott, Eley B.; 5. D. Woolley, Port Ryerse, All Ablaze.

Single horse, gelding or mare, 16 hands and over—1. Robt. W. Davies, Todmorden, Jingo Bell; 2. Miss E. L. Wilks, Galt, Queenie Sphines; 3. J. Russell, City, Barrett; 4. J. B. Stretton, Brussels, Dart. Road drivers (trotters)—1. Miss K. L. Wilks, Galt, Emma Hoyt; 2. John E. Russell's Ed.; 3. Burns and Sheppard's Toronto Belle; 4. Miss K. L. Wilks' Toronto Belle.

Single horse, gelding or mare, 15 hands and under 15.2 hands—1. S. H. McCoy, St. Catharines, Cabie Boy; 2. George Pepper, Toronto, Craigton; 3. Hugh S. Wilson, Dolly Dollars; 4. A. Yeager, Simcoe, Minuet; reserved; Graham, Bentley & Co. Acroby.

Standard bred, single horse, gelding or mare—1. Miss K. L. Wilks, Galt, Emma Hoyt; 2. Dicky, Daniel, Midland, Daisy Buckner; 3. Crow & Murray's La Belle Buckner; 4. J. M. Gardhouse, Weston, Clay Lady; reserved, Miss K. L. Wilks, Galt, Lady Creesus.

Single horse, gelding or mare, 15.2 hands and over, amateur only—1. J. J. Dixon's Montreal; 2. James Worth, Fascinator; 3. S. H. McCoy, St. Catharines, Mikado; 4. Dr. W. A. Young, Toronto, His Majesty King Edward VII.

Saddle horse, gelding or mare up to carrying 150 lbs. and over—1. Hugh S. Wilson's Fantasia; 2. Crow & Murray's Glenwater; 3. A. Yeager, Simcoe, Guy Thorne; 4. Cumberland Stables, Cumberland Princess.

Green hunters, lightweight, up to carrying 140 to 150 lbs.—1. Crow & Murray's May Bird; 2. H. S. Wilson's May Queen; 3. Crow & Murray's Wood; 4. H. S. Wilson's Rollicking Girl.

MUST WEAR MORE CLOTHES

Staff Inspector Archibald Visits the Igorrote Village. The morality department got busy again yesterday and visited the Igorrote Village. Staff Inspector Archibald ordered more clothes put on the men, and that they must be kept in the enclosure and not brought outside for a "ballyhoo."

Mr. Felder, who is in charge of these far-easterners, consulted Manager Orr. The morality committee visited the village and were unanimous in their opinion that there was nothing to concern them. The morality committee also expressed the same opinion.

Manager Orr instructed Mr. Felder to go on and give his instructive exhibition to the men, but he had been doing before the expert critics of the morality department had visited him. The amusement committee of the exhibition are so well pleased with the "village" that they have asked Mr. Felder to return next year.

How it is Made.
The whole world is eating shreaded wheat and benefiting by it. It's a case of all the people knowing a good thing all the time. Over one million bushels of wheat biscuits made one day and over one thousand bushels of choice wheat are used in this huge undertaking. In the process building exhibition visitors can see shreaded wheat biscuits made. They can also sample them, with plenty of cream and sugar. The process of manufacture is extremely simple and clean. In glass bowls may be seen the wheat before being separated from the chaff and foreign substances.

Then it is boiled and partly dried, after which the shreading machine prepares it for the ovens. The sales are enormous. The biscuits advertise themselves. "Biscuits" are also made at the exhibit.

Buy Hair-Look Young.
It ought to be considered bad form to be bald headed, when one considers the almost natural remedy that "The Pimper Stove" is putting on exhibition in the manufacturers' building. There one can see hair that is made from real hair in a manner that would confound the closest observer. There are towels and wigs and waves and the prices are moderate.

To look well and present a good appearance is a necessity in all of us and this is true of men as much as women. It is for this reason hundreds of visitors are carefully inspecting the Pimper exhibit.

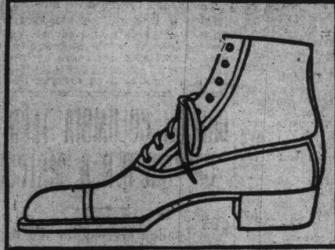

Loves His Rabbit.
When a splendor down the Midway announced in startling terms that the big snake would eat twenty live rabbits, the crowd gathered round the big snake to whisper. Her standing near to whimper. Her dreading the thought of his mother's dress

HAS CRACKLESS VAMP

IMPROVEMENT NUMBER ONE

A Cracked Vamp

A Foot-rite Vamp

Why? We'll tell you what the vamp is, then why. The vamp is the leather between the box toe seam and the instep seam.

This is why Foot-rites have crackless vamps. They're made of "Normal Calf," a leather almost as soft and supple as the live calf's skin. Never heard of a live calf's skin cracking, did you?

Foot-rite linen canvas linings are cut on patterns which fit the insides with watch-like accuracy. Fitless linings cause permanent diagonal vamp wrinkles, which split the leather.

Foot-rites are almost waterproof, hence soak up little water. The repeated drying of water-soaked boots eventually brings cracked vamps.

The Foot-rite toe-freedom box toe, being uncollapsible, holds the vamp leather arched and smooth, which prevents splitting at the vamp-toe seam.

The Foot-rite wrinkleless vamp improvement keeps out vamp wrinkles which undermine and crack the vamp leather.

And being shaped over foot-sculpture lasts, Foot-rite insides are precisely the same shape and size as the feet that inhabit them, which compels the leather to crease straight instead of diagonally across the vamp. Diagonal creases wear into cracks. Straight creases don't.

There's a door in your town that swings inward but never outward to find a more welcome place. That's the door of the Foot-rite retailer. His name's below. Better swing it and try on a Foot-rite with a crackless vamp.

Anywhere in America, Canada or Great Britain, \$4.00 and \$5.00. Every pair Goodyear Welted.

Islands are surprisingly clever in their own crude way.
The Children's Delight.
The glass blowers down on the midway have convinced the people that the "hot air" about the place is well worth taking in. O. H. Johns, the proprietor, is an energetic little chap, that smiles congenially when the children are heard to exclaim, "Why won't he break it if he blows any harder?"
Drink Lemonade on Hot Days.
A red hot Coney man got into a dispute with a lemonade man yesterday afternoon. The Coney man said the lemonade was colored with chalk and paint. He said some other things, too.
"Augh! go on," said the lemonade man, who evidently reads the literary

**STEAMSHIP SUBSIDIES
 IN MARITIME PROVINCES**

Public Sentiment Opposed to Further Grants to Aid Steamer Senlac.

St. John, N.B., Aug. 30.—(Special).—The St. John N.B. Globe of the 16th inst. has an evidently inspired article intended to work on the fears of the people of St. John and to enlist their sympathies in an attempt that will probably be made on the public funds of the Dominion for an increase to the extremely large subsidy now being paid to the proprietors of the steamer Senlac for running between St. John, N. B., and Halifax, calling at several intermediate ports.

It appears from the article that the steamer has been running for three years, but has not received the support of the Dominion in any of its ports of call that was expected, when the Dominion government was inclined to grant a subsidy to assist in running a steamer, by the statements that residents of the various ports were being inconvenienced, and trade suffering from want of such a steamer.

The article goes into details as to the expenses of the steamer at the various ports, and states the steamer cannot continue to run unless the ports make reductions in their expenses, and "the steamers give the line their support as promised at first," and "unless the federal government increase the subsidy \$5000 more, and allow the boat to drop the months of January and February."

As the subsidy now paid by the "federal" i.e., Dominion government, is \$20,000, the proposed increase would make the subsidy \$15,000 a year, and it is also proposed to cut off the service for the months of January and February, altho the only time the steamer was really useful was when the railroads were blocked by snow, so that the residents of the intermediate ports found this steamer convenient, but as there are other subsidized steamers running regularly between those ports and Halifax, this is a "Senlac" was not necessary even under the most unprecedented railroad snow blockade of two years ago.

The Senlac is not as large as the Mascasa, which makes two trips daily between Toronto and Hamilton, covering 160 miles per day, thus running about 1000 miles each week, and as the S.S. Senlac makes only one trip per week from St. John to Halifax, and returns, its total weekly mileage is only 200 miles for which its proprietors receive a subsidy of about \$200 per week, and the proposed increase in subsidy, and reduction in trip would make the subsidy about \$500 per week, or \$1,000 for every mile the steamer travels.

How happy the Hamilton S. S. Company would be if the "Federal" Government could be induced to make them a donation of \$1.00 for every mile their S.S. runs or even \$50. per mile which the proprietors of the S.S. Senlac are already receiving from the "Federal" Government.

The people of St. John and Halifax are so accustomed to having all their steamers run by subsidies from the "Federal" Government that they may not understand how astonishing such a state of affairs appears to Ontario steamship proprietors, who have to make their expenses and profits out of their business, and not out of the pockets of their fellow citizens by way of contributions from the "Federal" or any other Government.

Every port in Nova Scotia at which the Senlac calls has daily trains running to Halifax, and has railway connections with Digby, from which point the large steamers of the Dominion Atlantic Railway make daily return trips to St. John, New Brunswick, taking only two hours to cross the Bay of Fundy.

Under such circumstances it is not surprising to learn from the article in the St. John Globe that the Senlac does not carry many passengers, and that the merchants of the ports it calls at do not support it by giving it their freight, for a business man can afford to pay or three days' voyage on a steamer to a point he can reach in much less than a day by rail from Halifax, and under the business methods now adopted by all merchants of giving small, and frequent orders to their wholesalers, no merchant can afford to have his freight shipped on a steamer that takes several days longer to carry the goods than they could be carried by railroad.

It seems evident from the statements in the article that there could never have been much necessity for the running of such a steamer, and not much real anxiety on the part of the merchants for it, and the "want" for such a steamer as the Senlac must have been felt in the pockets of the promoters, and not in the business of the merchants at the various ports.

The question of subsidies to steamers in the Maritime Provinces does not seem to be sufficiently understood by many people in the other parts of Canada, and it is not surprising that a few persons, (particularly those in steamboat business) cannot find any good business reason for giving subsidies to steamers which ply all the year round in the vicinity of numerous coal mines, when steamers on the lakes remote from the coal supply, and which can only run for a few months in the year, are not given any subsidies.

Mr. W. Geddes and family are home from Whitevale, where they spent a pleasant season at their summer residence.

Ald. Keeler is home again, after a six weeks' vacation spent at Portland, Me., and along the Atlantic Coast.

Arthur Cohen, barrister, Toronto, is spending the summer at Port Carling, He was in the city yesterday for a few hours.

G. M. Grant of Pittsburg has returned from a trip to New Ontario and speaks of "Colt" as the most "law-abiding" mining town he ever saw.

**NO LAND HOLDING COMPANY
 FOR CANADIAN PACIFIC RY.**

Directors Plan Distribution to Stockholders of Profits From Sales of Land.

New York, Aug. 30.—(Special).—According to the best information obtainable in this city there is little or no probability that the directors of the Canadian Pacific Railway Company will soon organize a new holding company to take over the valuable lands which are now held under grant from the Canadian government.

It is true that all of the company's land grant bonds have been canceled, and that it holds in the treasury \$18,000,000 of deferred payment contracts, which bear 6 per cent. interest. Men who have looked into the matter estimate that the unsold agricultural lands of the Canadian Pacific have an average market value of \$180,000,000 in the aggregate.

In addition, the company holds under grant a large amount of valuable mineral and timber land, particularly in British Columbia. It is understood that the directors have had under consideration for some little time a plan for distributing to the stockholders the profits received from the sales of land.

JEROME SCORES MACHINE.
 Says if He Follows a Boss it Will Be a Man of Intelligence.

New York, Aug. 30.—W. T. Jerome, candidate for the Democratic nomination for governor, said to-day:

"I am not allied with the Democratic organization in the City of New York; in fact, I have always been fighting it, as I believed it was dominated for corrupt purposes—rather a quasi-criminal conspiracy than a political organization. I have never been in accord with it, altho I have many warm friends in it.

"I am willing to follow political leadership, but I am not that type of man who is willing to take orders from a boss. If I ever get to that condition I shall select a boss of intelligence, not one like Murphy.

"The situation for me personally is one that does not concern me very much. I didn't seek to get in this fight, but there were principles involved and no one else would stand for them. I can't expect sympathy from them."

PERSIA PROTESTS.

Demands Withdrawal of Turkish Troops From Margovar.

Constantinople, Aug. 30.—The Persian ambassador here has been informed from Teheran that Turkish troops have occupied the Persian district of Margovar, comprising some 25 villages.

The Turkish Government denies that the alleged encroachment has taken place, but nevertheless the ambassador has lodged an energetic protest with the Porte, and has demanded the recall of the troops.

KILLED WHILE BLASTING.
 Fort William, Aug. 30.—S. Peterson, foreman for Foley Bros., on the G. T. construction, and an Italian, name unknown, were instantly killed yesterday afternoon at Kaminitiquin by the premature explosion of a blast.

RUSSIAN CONSUL SHOT.
 Tientsin, Aug. 30.—The Russian consul here, M. Laprov, was shot in the stomach to-day by a Russian concession contractor named Lavinsky. The shooting occurred at the Russian consulate. Lavinsky was arrested. His victim lies in a critical condition.

EDITOR OF A JEWISH PAPER EXCOMMUNICATED BY RABBI.
 Julius Liebling, editor of the Daily Jewish Press, Chicago, was excommunicated from the Jewish faith yesterday before an audience of 1500 angry Jews, representatives of the orthodox synagogues in Chicago, which thronged the Temple Anshe Knesses Israel.

The action is declared to be without precedent in Chicago. It was taken after several years of friction between Liebling and members of the congregations involved. The charges allege that the editor in various ways antagonized and did injustice to various Jewish institutions, movements and leaders.

Liebling denies the charges, and asserts that Rabbi Ansher is involved in a conspiracy with other rabbis to tax Jewishness \$1 a week, ostensibly for the inspection of "kosher" meat, but really for the purpose of fleecing them.

Thaw Home To Be Sold.
 Pittsburg, Pa., Aug. 30.—Mrs. William Thaw, mother of Harry K. Thaw, murderer of Stanford White, is selling her real estate and will go to New York to be near her son.

Paralysis From Bee Sting.
 New Haven, Conn., Aug. 30.—Stung by a bee over the right eye while cutting brush on his Berlin farm, John R. Healy of New Britain has suffered a stroke of paralysis, affecting his left side.

**TOMPKINS PAIR CONVICTED
 OTHERS BENEFIT BY DOUBT**

Numerous Charges Against Members of Alleged Gang of Thieves Disposed of.

Of the batch of men and women corralled some two weeks ago on numerous charges of theft and pocket-picking, only two, Harry and Mrs. Tompkins, will go down. There were nine charges against the man; he was convicted on five and acquitted on four; his wife, on six charges of theft and one of vagrancy, scored four acquittals. Charles O'Neil, charges of theft and vagrancy, was acquitted. Hattie Dineen, charged on the vagrancy charge; William Lennox, one charge of theft and one of vagrancy, theft charge withdrawn, vagrancy charge adjourned; Nellie Lennox, one charge of theft and one of vagrancy, theft charge withdrawn, vagrancy charge adjourned. The Lennox couple were allowed bail at \$1 each to appear this morning, "but," said the magistrate, "if you don't come back it will do equally well."

Theft of a silver tray from the King Edward Hotel was alleged against the Tompkins. The steward said three such trays had been stolen this year. "By souvenir hunters," hinted Mr. Robinette.

"We call them thieves," said the magistrate. The accused said the tray had been given to them in Montreal by a former hotel employe. "Case dismissed."

For the theft of a \$125 gold chain from George Edwards of California the couple were found guilty.

Mrs. Tompkins gave an explanation of how she got possession of the chain and other articles of jewelry, claimed by Foster in Montreal," she said. "If I said anything else to the detectives it was because they scared me so badly. I've never been in a court-room before. The detectives told me that if I didn't confess they'd give me 21 years in prison and take my children away from me."

Mrs. Tompkins was trapped by Crown Attorney Corley in producing some gold coins found in her trunk, and making enquiries.

"Where did you get these?"
 "From my father, six years ago."

The coins were examined and found to be date 1904, she then said she had the coins exchanged.

Theft of spoons from Mrs. Coyle, a boarding-house keeper, was not proven.

To explain the ownership of souvenir pins Tompkins said he had played baseball in Orillia, Montreal, Quebec, Peterboro, Belleville and other places. He had not been in Stratford or Ottawa.

Mrs. Tompkins said her father had given her a \$160 diamond stud earring as the property of ex-Mayor Scott of Listowel. Tompkins said it was his gift. Scott said he had seen Tompkins pushing the crowd at the Listowel old boys' celebration. Conviction.

Theft of a \$150 diamond scarf pin from J. E. Ivers of Florida, between Orillia and Toronto, was alleged against Tompkins and O'Neil. Ivers said Tompkins and O'Neil jostled him in the train and later the pin was gone. The magistrate said the pin might not have been taken while they were jostled. Not enough of evidence to convict.

The Tompkins were remanded for a week on the charge of stealing two gold rings from Mary Ann Farley.

PONTIFEX CONVICTED

Charged with Stealing a Diamond Pin and a Baseball from the Eaton Company.

Harry Tompkins was convicted of corking a film-diam change game on H. A. Wilson at 111 Church-street. Tompkins, accompanied by two women, bought a baseball for 15 cents. In making change for a \$10 bill Wilson was swindled out of \$5.

Tompkins was not convicted on a charge of stealing a diamond pin and \$68 from Frank W. Wotten, but he was convicted of stealing a part of a suit of pajamas from the Eaton Company. A store employe followed him to the island and pointed him out to the police.

Hattie Dineen was discharged on the charge of abetting Tompkins in stealing various articles from the Eaton Company.

Tompkins and wife were charged with stealing a black handbag and \$20 from A. H. Hogg. This case was adjourned.

The Lennox couple had no evidence brought against them for alleged theft of silverware.

All other cases were adjourned a week.

Poultry for the Exhibition.
 Entries for the poultry and pet stock for the exhibition closed on Saturday and prove to have been of the same pattern as other entries in other branches this year. Plymouth Rocks, Wyandottes, Dorkings, Leghorns, Orpingtons, Cochins and Brahmas and most of the bantams are especially good. Game fowl are a little light, as are also turkeys, ducks and geese, altho the last mentioned are about up to the average. Pigeons and pet stock generally show up in excellent form.

A feature in the pigeon entry is the number sent in from Syracuse, N. Y., Pointers and Dragons from Dunkirk, N. Y., Fouters and Jacobins from Niagara Falls, N. Y., and from Detroit, Mich. tumbler. From Montreal there is a large and varied entry, while from Passaic, N. J., come homers, Canaries and cage birds will make a great show; in fact the good work of the Canary Society is in evidence in all the classes.

I had not shaved for a few days. As I kissed my youngest boy before he went to bed, he asked, passing his hand over my chin, "Is that where you strike your matches, daddy?"

FOR...
Diarrhoea, Dysentery,
Colic, Stomach Cramps, Cholera
Morbus, Cholera Infantum,

Less Inclination to Market Wheat Now Shown by Farmers, Says Price Current.

World Office, Thursday, Aug. 30. Liverpool wheat futures closed today 1/4 higher than yesterday.

At Chicago: Sept. wheat closed 1/2 lower than yesterday; Sept. corn 1/4 lower.

Chicago carlots today: Wheat 47, corn 25, oats 23, rye 19, barley 32.

Price Current: Less inclination to market wheat at present prices.

Receipts of farm produce were 800 bushels of grain, 12 loads of hay.

Wheat, spring, bush, 80 75 to 80; winter, bush, 75 70 to 75.

Wheat, fall, bush, 80 75 to 80; winter, bush, 75 70 to 75.

Barley, bush, 50 45 to 50; oats, bush, 40 35 to 40.

Peas, bush, 70 65 to 70; clover, bush, 60 55 to 60.

Hay, carlots, ton, 10 9 50 to 10 10 00; straw, carlots, ton, 12 11 00 to 12 12 00.

Potatoes, new, bush, 80 75 to 80; old, bush, 70 65 to 70.

Eggs, strictly new, dozen, 22 20 to 22 25; old, dozen, 20 18 to 20 22.

Butter, creamery, lb, 20 18 to 20 22; lard, lb, 10 9 00 to 10 10 00.

Wheat - The only feature in wheat today is the quietness of the market.

Provisions - Provisions were steady, but without feature.

Flour Prices - Flour-Manitoba patent, \$3.75, track, Toronto, Ontario, 10 per cent. patents.

THE CONTEST FOR GOLD.

A fight for gold is again on between the various financial centres. Sterling exchange, New York, is well kept at the point at which gold imports can probably be effected.

New York Dairy Market - New York, Aug. 30. Street prices extra creamery, 24c to 24 1/2c; official prices creamery, common to first, 14 1/2c to 15c.

Liverpool Grain and Produce - Liverpool, Aug. 30. Wheat - Spot, steady; No. 2 red, 10 1/2c; No. 3, 10c.

New York Grain and Produce - New York, Aug. 30. Flour - Receipts, 120,000 barrels; exports, 140,000 barrels.

Chicago Market - Chicago, Aug. 30. Wheat - Receipts, 1,000,000 bushels; exports, 1,200,000 bushels.

Chicago Cattle Market - Chicago, Aug. 30. Cattle - Receipts, 10,000 head; exports, 12,000 head.

Chicago Hogs Market - Chicago, Aug. 30. Hogs - Receipts, 15,000 head; exports, 18,000 head.

Chicago Sheep Market - Chicago, Aug. 30. Sheep - Receipts, 20,000 head; exports, 25,000 head.

Chicago Poultry Market - Chicago, Aug. 30. Poultry - Receipts, 30,000 head; exports, 35,000 head.

Chicago Butter Market - Chicago, Aug. 30. Butter - Receipts, 40,000 cwt; exports, 45,000 cwt.

Chicago Lard Market - Chicago, Aug. 30. Lard - Receipts, 50,000 cwt; exports, 55,000 cwt.

Chicago Eggs Market - Chicago, Aug. 30. Eggs - Receipts, 60,000 dozen; exports, 65,000 dozen.

Chicago Beans Market - Chicago, Aug. 30. Beans - Receipts, 70,000 bush; exports, 75,000 bush.

Chicago Corn Market - Chicago, Aug. 30. Corn - Receipts, 80,000 bush; exports, 85,000 bush.

Chicago Oats Market - Chicago, Aug. 30. Oats - Receipts, 90,000 bush; exports, 95,000 bush.

Chicago Rye Market - Chicago, Aug. 30. Rye - Receipts, 100,000 bush; exports, 105,000 bush.

Chicago Barley Market - Chicago, Aug. 30. Barley - Receipts, 110,000 bush; exports, 115,000 bush.

Chicago Clover Market - Chicago, Aug. 30. Clover - Receipts, 120,000 bush; exports, 125,000 bush.

RETAIL MERCHANTS FAVOR ARBITRATION FOR DISPUTES

Also Advise Against Signing of Three-Year Contracts With Phone Companies.

The Dominion Board of the Retail Merchants' Association of Canada concluded their annual meeting yesterday.

The subject of freight damaged or lost while in transit was discussed and the Dominion secretary, E. M. Trower, will communicate with the different transportation companies calling attention to the unnecessary delays in the settlement of claims for loss of goods sent by freight or express, and requesting them to have all such claims adjusted within sixty days.

The various telephone companies will be urged to comply with the following resolution: "It is advisable that merchants should refuse to sign three-year contracts with telephone companies, and that a discount should be allowed for payment of telephone rents in advance, and also that a larger percentage on receipts should be allowed to those merchants having slot telephones on their premises."

Upon request from the different provincial boards it was decided that the association co-operate with all other business associations in the settlement of international disputes by arbitration.

The Dominion executive will be instructed to deal with the matter of freight discrimination on the part of transportation companies, and the branches of the association will be requested to keep the executive posted on specific cases of discrimination.

The executive will be instructed to watch any attempts at legislation that may be made, with a view to giving co-operative associations or societies any special advantages over retail merchants.

This resolution was prompted by the bill introduced in the Dominion house by Mr. Monk on April 23.

The Dominion secretary will communicate with all wholesalers through the Dominion calling attention to abuses created by the practice of their selling to consumers and retail jobbers at wholesale prices.

A movement will be made on the various manufacturers to induce them to adopt the "one-price" system, that is, prohibiting any retailer from cutting the set selling price on any goods.

The following officers for the ensuing year were elected: Dominion president, A. L. Geen, Belleville; Dominion first vice-president, J. G. Watson, Montreal; Dominion second vice-president, H. C. Ellis, Ottawa; Dominion treasurer, J. A. Beaudry, Montreal; Dominion secretary, E. M. Trower, Toronto; Dominion auditor, M. Moyer, Toronto.

The delegates were entertained at luncheon yesterday by the Exhibition Association directors, and left for their homes last night.

James Eadie, eastern organizer, returned yesterday from Brockville, in which town he reports every merchant has united with the association.

WOULD GET EXEMPTIONS IN ALL MUNICIPALITIES

Ontario Municipal Union Concludes Convention After Adopting Important Resolutions.

The convention of the Ontario Municipal Union concluded its business yesterday with a luncheon at McConkey's. Some of the delegates are staying here to see the fair. Others went to Hamilton to attend the funeral of the late City Solicitor Mackellan.

President-Elect Ellis of Ottawa presided at the closing business session, the feature of which was the adoption of a resolution that legislation be sought to do away with all tax exemptions by municipalities. A number of the delegates expressed the opinion that what was going on all the time amongst municipalities to secure industries and to this end many were found to grant exemptions.

Some religious organizations and educational institutions get exemption on properties from which they derive good returns. It was hardly to be expected that the legislature would make one straight cleaning of the exemption statute, but with a view toward securing such legislation eventually the resolution was adopted.

Important Resolutions. The consideration of the report of the committee of resolutions took up most of the morning's work. The principal resolutions passed were: That the municipality be empowered on a two-thirds vote of council to force the property-holders to construct sewers.

That the municipality be given authority to lay conduits and erect poles and rent them to companies. To ask the legislature to pass a law that a distinctive fire alarm gong and hose couplings be adopted by all municipalities.

That legislation be secured to authorize a municipality to assess the property of another municipality which might be within its borders. It was not decided to engage legal counsel to watch legislation going thru the legislature, the question being left to the executive committee to arrange. This committee may engage such counsel.

Right to Purchase Plant. The Ontario legislature will be asked to amend the municipal light and heat act by providing that when a municipality is lawfully carrying on or proposes to lawfully carry on a general electric lighting business, it may lease or purchase the electric power or current required for that purpose, instead of being compelled to generate its own water power for the manufacture of such electric power or current as it is the law at present.

Another resolution asks that subways under railway tracks should be constructed wholly at the expense of railway corporations, whereas the railway commission consider them necessary.

It is also desired to amend the act to pay fees to the Municipal Corporation and the expenses of delegates. Monday the government fix the last nominations, and that the election of municipal candidates take place the first Monday in December.

Street Extensions. Other resolutions adopted after discussion were: That legislation be sought by this convention at the next meeting of the Ontario legislature enabling municipal councils of cities to open or extend streets upon the local improvement plan, upon such terms as to assess therefor the property benefited as may seem proper, notwithstanding petitions presented to the council upon a two-thirds vote of members of council present.

That this association apply to the local legislature asking that power be granted to all municipalities to assess all property within the municipality and collect taxes thereon. That the act be amended so that a person who is unable to pay taxes may have these charged against property not so assessed.

That the Ontario Municipal Association express its willingness to enter into a confederation with other provinces and the Canadian Union of Municipalities upon terms specified.

WILL DONATE TROPHY.

Horticultural Society Gives \$50 for Competition by Carnation Growers

Guelph, Aug. 30.—(Special.)—To-day's sessions of the Canadian Horticultural Association developed more interest. A review of roses to present date and the special requirements, by J. H. Dunlop of Toronto, had many commendable features and evoked a lot of discussion.

T. D. Jarvis of the O. A. C. gave a most practical essay on "Greenhouse Insect Pests," illustrated with a number of preserved specimens of plants and insects.

London was unanimously chosen as the next place of meeting. Another matter discussed by the convention was the visit of the American Carnation Society to Toronto next January. It will be the first time they have visited Canada in 20 years. The convention decided to donate a trophy for competition in some special class at the Toronto meeting. The value will be \$50.

Balloon Ascension at Hanlan's. When in the city visitors should not fail to visit the far-famed pleasure resort, Hanlan's Point. There one can find more amusement for less money than any place in Canada. After a tiresome day at the exhibition, a trip across the bay will prove very restful. All the big features are running. Every afternoon there is a balloon ascension and parachute drop by Stirling Stewart the daring air king.

Another Cheap Rate to New York. A great many people like to visit New York in the month of September. On the 9th and 13th of that month the New York Central, "America's Greatest Road," will have a rate of \$16.25 round trip from Suspension Bridge or Buffalo to New York tickets good returning until September 14th. Mr. Shore will have a rate of \$9.00. Full information by calling at 89 1-2 Yonge-street, Toronto, Telephone Main 4861.

Someone remarked what a pity it was so-and-so had no children, whereupon a little boy who had been listening said, "Well, but they could get some from the milkman, 'cos I've seen over his doors, 'Families supplied.'"

ENGINEER RECOMMENDS LOT OF NEW PAVEMENTS

Works Committee Will Have Meeting To-Day—Matters Around City Hall.

The works committee will meet this afternoon. They will talk about roadway repairs again and will pass a lot of recommendations of the city engineer as to new pavements and sidewalks which include the following:

New hats and new furnishings for Autumn as well—visit our show-rooms and see the latest in the Fall-Manufacturers' Building—

Fairweather's 81-88 YONGE-STREET

Passenger Train in an Accident Remarkable for No Casualties.

Phillips, Me., Aug. 30.—A passenger train of three cars, from Farmington, on the Snady River Narrow Gauge Railroad, was overturned into a ditch about six miles from Phillips.

The escape of the 50 or 75 passengers from serious injury or death when the cars toppled over was due to the train's reduced rate of speed. The passengers were taken to Strong, and later brought here by special train.

The injured were only slightly hurt.

SEARCH WARRANT ILLEGAL? Mr. Curry Gets Leave to Argue the Matter Out.

Justice MacMahon yesterday, on application of J. W. Curry, K.C., granted an order for a writ of certiorari to show cause why the search warrant issued in the "raid" on the Institute of Radiophysics should not be quashed.

The order was granted on the grounds that the information on which the search warrant was based did not state sufficiently the grounds for believing the business was fraudulent and the documents or goods were not specified.

Argument on the order will take place in September. Mr. Curry explained that the detectives had been too eager to get possession of the articles seized.

"I'm afraid the new crown attorney has been infringing on your old patent," said the judge, to which Mr. Curry smilingly replied, "Perhaps so, but they exceeded my patent and even locked up the rooms of the institute and took away 12 keys."

G. H. Watson, K.C., was given a certiorari order on behalf of William McGill, coal and wood dealer, to show cause why the conviction of McGill for infringing the bylaw prohibiting the piling of wood in quantities within ten feet of a building should not be quashed.

FINED FOR GIVING BEER.

O'Keefe, Company in Court for Breach of Liquor Laws.

According to law, "no person having a license to sell by wholesale, shall allow any liquors sold by him or in his possession for sale, to be consumed within his warehouse or shop."

For breach of that law, the O'Keefe Brewing Co. was yesterday fined \$20 and costs or 15 days for having permitted employes to partake of the beverage.

Haverson, K.C., pleaded that it had been the custom "from time immemorial" of this firm and others to give their employes three or four glasses every day.

"That settles brewers giving employes liquor any more," said the lawyer after the fine had been imposed. It is not so very long ago since one of the grievances of certain brewery employes who went out on strike was that the free beer had been cut off.

Big Fire at Arthur. Favorable Breeze Saves Business Portion of Town.

Arthur, Aug. 30.—Fire broke out in the Arlington Hotel barns about 1 o'clock yesterday morning, completely destroying the barns and sheds, J. Fair's carriage works and residence, M. Campbell's blacksmith shop, Dr. Fisher's and W. Buschman's barns. Very little of the contents of any of the buildings was saved. The proprietor of the Arlington lost his valuable mare and outfit.

Had it not been for the favorable breeze the business portion of the town would undoubtedly have been completely wiped out. The loss is estimated at \$8000, partly covered by insurance.

Find Out About Cheap Rates to New York Sept. 9 and 10. New York Central and West Shore Railroads will have cheap rates from Suspension Bridge and Buffalo to New York on September 9th and 10th, good for return until September 14th. Rate by former road \$10.25 round trip and by latter, \$9.00. Full information at 69 1-2 Yonge-street, Telephone Main 4861. ed
