SIXTY LOST OR BURIED IN STEAMER TO WATER'S EDGE

Passengers on Board City of Pittsburg, Bound From Cincinnati to Memphis, Aroused From Bed by the Alarm, and a Frightful Panic Ensued—Attempts to Swim Ashore Resulted in Many Deaths.

Chicago, Ill., April 20.—The sidewheel steamer City of Pittsburg, bound from Cincinnati to Memphis, was burned to the water's edge early this morning at Turner's Landing, near Olmstead, Ill., 11 miles from Mound City, Ill., and 24 miles from this city. The early reports stated that 65 lives were lost, and that many were badly burned and otherwise injured, but that the list of casualties is not yet definitely determined. Two boats and all available craft from this city went to the scene for relief. Most of the passengers were still in bed when the second clerk, Oliver Phillips, gave the alarm. The engineers also started all the pumping engines, while the crew brought all the hose into play. Amid the flames from the water deck and dense clouds of smoke, the passengers rushed from their staterooms, and a frightful panic ensued. Few could adjust life preservers or do anything for themselves. The smoke was stifling. Great clouds floated thru the blazing steamer, choking the passengers and adding to the terror. Children cried piteously, begging that they be saved. Lifeboats were manned, and every effort was made to save the passengers. Boats were sent from shore to help in the work of rescue, and passengers were landed at the river banks. As fast as the boats could be emptied they returned to the ill-fated steamer. The burning steamer was quickly headed to the bank, but passengers were forced to jump from the stern, and, trying to swim ashore thru the swift current, many were drowned. Many also perished in the flames. Help, except from people living near by, did not arrive until 2:30 o'clock this afternoon, and passengers with only night clothes on and without food suffered terribly. Among the missing are a child of Pilot Al. Pritchard and Clay Breeze, his wife and son, and a son of Archie M. Allen of Pittsburg. Thirteen members of the crew are missing, and Capt. Phillips says 20 or 25 of the passengers are missing. Two passengers were severely burned, but will recover. Mrs. Fannie McCollum of Leavenworth, Ind., lost three children. Patrick Burt of Owensboro, Ky., wife and six children were all lost. The body of a child, dressed in night clothes, was taken from the river at Mound City. Among the first bodies recovered were that of Capt. Wesley Doss of Cincinnati and Miss Marie Tissim of Cannelton, Ill. There were 70 passengers and 70 all told in the crew. The captain and clerk late to-night claim in all 80 persons have been accounted for, leaving 60 people lost or unaccounted for. Many passengers clung by fingertips to the burning boat with bodies submerged until overcome by fire or water, they sank to death. Wesley Nozzy, a fisherman, rescued two from the wheel house, a man and a woman. The latter clung to the boats until her hands were burned. Capt. Doss, who was drowned, was an old river pilot. He was making the trip for pleasure with his son, Pilot Harry Ross, and when his body was found a mile or below the wreck he had on all his clothing and a life preserver. It is believed that he died from shock. NEARLY 150 KILLED. Managua, Nicaragua, April 20.—Some members of the Conservative party, caused an explosion in the military barracks here on Wednesday night. Nearly 150 lives were lost in the explosion, and the barracks were destroyed. There has been considerable bitterness shown by the Conservatives against the Liberal party, which is in power, and of which President Zelaya is the leader.

FEEL THE HEAVIEST BURDEN WARREN BURTON'S DEATH

Mysteriously Dropped From a Moving C.P.R. Train Near Bronte on Saturday Night—Respected Resident of Hamilton and Son of Late Sir George Burton.

Hamilton, April 20.—The horrible death of Warren F. Burton of the law firm of Bruce, Burton & Bruce, at Bronte last night, caused quite a sensation here. The remains were brought here at midnight. They were heavily mangled, every bone in his body being broken. Mr. Burton was in Toronto yesterday on business. He took the C.P.R. train for this city and was in the smoking-car talking to T. H. McPherson, ex-M.P. He left to go to the next train on the C.P.R. W. R. Harvey, a traveler, was sitting on the platform at Bronte, when he saw something fall from the passing train. He notified the station agent, and the two walked up the track and found the mangled remains of the son of the late Chief Justice Burton. Mr. Burton had fallen nearly 100 feet, going down the ravine over which the Bronte bridge passes. Word was sent to this city, and Ralph Bruce and another friend went out and took charge of the body. Deceased was 52 years of age, and leaves a widow and three children, two daughters and a son. He was a past president of St. George's Society, and a member of the Public Library Board. In connection with the latter board the deceased came in to considerable prominence over the duplication of cheques for the defaulting treasurer, R. T. Lanceland. The funeral will take place at 2 o'clock on Tuesday afternoon from the family residence, 61 Robinson-street. There has been a good deal of speculation as to how Mr. Burton came to his death. His overcoat was left in the smoking-car, and it is supposed he intended going to the next coach and stepping out on the platform to cool off. Although very eccentric in ways, deceased was a man of many good points and was exceedingly kindhearted. He has been worried greatly for some months, thru the disappearance of a defaulting librarian. It is reported he was to retire from the law firm of Bruce, Burton & Bruce on May 1. He had some thoughts of going to Toronto to practise his profession. Referred to Mr. Burton's Death. The anniversary of St. George's Society attending divine service in Christ Church Cathedral this evening. Members of the Sons of England Society, St. Andrew's Society, J. B. B. Society and Sons of Scotland were present. In all about 300 worshippers. James Gadsby was marshal of the procession to the cathedral, which was headed by Mayor Hendrie and A. D. Brithwaite, presidents of St. George's Society. Rev. Canon Welch of Toronto presided at the service, and he discoursed eloquently on the words: "Bear ye one another's burden." During the service and afterwards the sudden falling off of two of the society's past presidents, W. F. Burton and S. J. Whitehead, Speakers of the late Dr. Burton, he said his sudden death was one of the special dispensations of

TENTATIVE AGREEMENT MADE THREE TRANSPORTS CHOSEN

The London Standard Believes That Hostilities Will Soon Be at an End. BOERS IN EUROPE NOT IN CONTROL START DURING FIRST WEEK IN MAY

London, April 21.—Writing from Pretoria, the correspondent of the Standard says there is good reason to believe that a tentative agreement, which will prove mutually cordial and lead to an early cessation of hostilities, has been made. The correspondent of the Daily Mail at Utrecht says it is recognized here that the Boer delegates at Pretoria have full power to negotiate, without reference to the Boer leaders in Europe, who have no real influence on the peace negotiations. BOER LEADERS AT BALMORAL. Balmoral, Cape Colony, Saturday, April 19.—Gen. Lucas Meyer, commander-in-chief of the Orange Free State forces, State Secretary Reitz of the Transvaal and the other members of their party arrived here last night and this morning proceeded to the north. They were accompanied by a British escort. It is their intention to consult with the Boers in the field. TRANSVAALERS WILL ACCEPT. Pretoria, April 20.—Gen. Dewet has gone to Helibron, Orange River Colony. Gen. Botha, the Transvaal Commander-in-Chief, has gone to Vryheid, Transvaal, and Gen. Delany, together with Mr. Steyn, ex-President of the Orange Free State, has gone to Klipdrif, Orange Free State. They have arranged to meet the burghers at different rendezvous, and submit the British terms. It is believed the Transvaalers will everywhere accept the terms, as they are in no way contrary to a winter campaign. The only difficulty likely to occur will, it is thought, be with Orange Free State. In the meantime, there will be no cessation of hostilities. The delegates are expected back in Pretoria the middle of May. ANOTHER STUDENT ASSASSIN. Murder of Russian Officer at Warsaw—Second in a Week. Vienna, April 20.—M. Sklooff, the State Secretary of the government at Minsk, Russia, has been assassinated in the city of the same name, the capital of the government, by a student of the Warsaw University. The assassin was arrested. GOD BLESS IRELAND. Rome, April 20.—Recently the Pope received William O'Brien, M.P., and his wife, and on their departure said: "You will take away with you a blessing for yourself, your wife and for Ireland. I repeat it, God bless Ireland and the Irish race wherever they may be." MANAGER OF CONSOLIDATION. Montreal, April 20.—Mr. C. Shields, general manager of the Dominion Coal Company, arrived today, and the rumor is revived that he will be appointed general manager of the Consolidated Dominion Coal and Steel Company. FRANK R. STOCKTON DEAD. Washington, D. C., April 20.—Frank R. Stockton, the well-known novelist, died suddenly here this morning from hemorrhage of the brain. He was 68. He was a guest at a banquet on Wednesday night, where he was taken mysteriously ill. In early life, he was an engraver. Wedding Flowers. DEMAND FOR PREFERENCE COMING FROM COLONIES

Premier of New South Wales Says Britain's "Interests Would Best Be Served By Giving Preference to Trade of the British Colonies."

Sydney, New South Wales, April 20.—John See, Premier and Colonial Secretary of New South Wales, speaking here last night at a banquet, in which were present Richard John Sedden, the New Zealand Premier; Edmund Barton, the Prime Minister and Minister for External Affairs in the first Australian Federal Cabinet; Sir William John Lyne, Minister for Home Affairs in the Australian Federal Government, and other prominent colonial residents, said the time was not far distant when Great Britain would realize that her interests would best be served by giving preference to the trade of the British colonies, to which she is allied by ties of blood and kinship. IF GREAT BRITAIN TOOK WHOLE SUPPLY. Montreal, April 20.—A. F. Craig, a leading merchant of LeBloune, Australia, who is here en route for London, was asked if the commonwealth would grant a preference tariff to Great Britain, and he replied as follows: "I do not see how that can be done without seriously injuring our general trade. We export, for instance, wool to the value of from fifteen to twenty million pounds sterling, and also Great Britain, Canada and the United States take some of the chief purchasers of our wool abroad. The budget has not affected any industry to a great extent, with the possible exception of milling, which is mainly centred at Liverpool. The millers are clamoring for a rebate on exports of grain, and complaining that the great business in the export of flour to the Mediterranean and Brazil ports is threatened with ruin. The price of wheat has risen in many districts, and the bakers of Liverpool and a few other towns have added a penny to the loaf. England has been filled during the past week with economic discussion, as the result of the Budget. The main business men, but that is a small matter in comparison with the impression created by the tax on corn, which is regarded here, as on the Continent, as sealing the doom of the free trade cause. Nobody believes that the tax will be taken off after the war. The confesion has been made that England, weary of the vain effort to convert the world to Cobdenism, has reverted, not to protection, but to the idea of a revenue tariff, with small duties on a large range of commodities. The natural sequence will be an attempt on the part of Mr. Chamberlain and the Canadian Government to bring about a differentiation between the colonies and foreign countries. If this can be done for the benefit of Canadian wheat, there will be a chance of repeating the experiment in favoring Australian wool by discriminating against Argentine wool. The Budget has increased already the importance of the colonial conferences of the coronation period.

C.A.R. DEAL CLOSED TO-DAY

Dr. Webb, Head of the Vanderbilt Syndicate, Gives Out a Statement in Montreal. IN HARMONY WITH I.C.R. AND C.P.R.

Montreal, Que., April 20.—Dr. Webb, head of the Vanderbilt Syndicate, arrived here to-night and gave out the statement that the Canada Atlantic deal would be really closed to-morrow, and that the railway would be run in harmony with the Intercolonial and the Canadian Pacific. AFTER THE C.P.R. New York World: Another speculative medium has been Canadian Pacific, which has sold up to the highest price in its history. This movement has been attributed to an attempt on the part of several large railroad interests in the United States to wrest control of the road from the London syndicate which has owned it for many years. It is said that a condition very similar to that which existed in L. & N. prevails in this stock. London has sold it heavily short, and the American interests have taken advantage of their situation to acquire a large amount of stock. They found that it was in the market than they anticipated, and, while they have not yet secured control, they have placed themselves in an excellent strategic position. It is said that Dr. Seward Webb is at the head of the American syndicate, and, if he succeeds in acquiring the road, he intends to turn it over to the Vanderbilts, in connection with his other railroad interests in Canada, which he has acquired thru the Dominion Securities Company, in conjunction with St. Lawrence and Adirondack.

RESOLUTION ON HOME RULE

Ottawa Branch of the United Irish League Decides to Introduce It in the House. HON. JOHN COSTIGAN COMMISSIONED

Ottawa, April 20.—At a largely-attended meeting of the local branch of the United Irish League, held this afternoon, it was decided to introduce a Home Rule resolution in the House of Commons this session. The executive reported in favor of immediate action, and a resolution was passed requesting Hon. John Costigan to take the matter up at once. The resolution to be introduced refers to the resolution of Lord Cadogan, Lord Lieutenant of Ireland, in proclaiming the Union Act in Ireland, and strongly denounces such action, which is characterized as "the unparalleled folly and tyranny of the British government, in bringing on a peaceably-disposed people the horrors of coercion."

HELD DOWN BY STONES.

Peculiar Manner in Which a Boy Was Drowned at Welland. Welland, April 20.—Dick Hawkins, the 13-year-old son of W. Hawkins, Port Colborne, met death in a peculiar manner at this place yesterday afternoon. Hawkins was on a tug, which was engaged on the Hogan & MacDonell contract for deepening the harbor, and the tug was towing a scow-load of stones for the breakwater at the harbor, and when just out of the canal the bottom of the scow sagged and threatened to give way. An effort was made to relieve the weight, but the scow was not to be moved. The tug was ordered to stop, but before the boy could move the boom of the scow fell thru, carrying him with it. He was buried up to his shoulders in stone under the water. Every effort was made to rescue him, but he was not easily located, divers could not get him out of the stones. His body was recovered this morning. DIED FOR ANOTHER. Quebec, April 20.—William Rickens was drowned at Montmorency on Saturday, after gallantly rescuing a companion named Picard from a watery grave. He leaped into the water after his companion, who had accidentally fallen in, and succeeded in getting him safely on shore. Just as he had done so, however, he sank and was drowned. It is supposed he took a slip. His body was recovered shortly afterwards. TWO MEN KILLED. Halifax, N.S., April 20.—J. A. Scott and Peter Gilroy, were killed to-day in a collision with an electric car, Charles Shorten, who was driving with them, had his left arm cut off. The conductor and motorman were arrested, but released on bail. PECULIAR DEATH. St. John, N.B., April 19.—Albert Tupper, aged 18, of Advocate Harbor, N.S., a cook on the schooner Serene, accidentally hanged himself to-night. He was paying the two reef points of the main sail, which he twisted about his neck, when he slipped down the hatch and strangled to death. THE POPULAR PETEC. A hat within reach of any pocket-book and yet a hat of good quality and latest style. That's what the Dineen Company have to say about their popular priced stiff felt Derbys at \$2.50 and \$3. PROTEST AGAINST GORN TAX

Trades Unionist Bodies Declare Budget Departs From Free Trade Principles. BAKERS OF LIVERPOOL TO ANNOUNCE RISE OF A PENNY FOR FOUR POUND LOAF.

London, April 20.—The parliamentary committees created by the Trades Union Congress have been urged to call a general meeting to protest against the imposition of the tax on corn. The trades unionist bodies are pressing resolutions to the effect that this tax is a departure from free trade principles, which departure has not been foreseen by the electors of the country, that it will involve burdens, double the amount of revenue it will produce, and that it will bear heaviest on the poor. The bakers of Liverpool will announce a rise of a penny in the price of four pound loaves to-morrow. You consult the press daily in imports of meat from the United States, as compared to the preceding week, were 3000 cattle, 1000 sheep, 11000 sheep carcasses and 14,000 fewer quarters of beef. BREAD HIGHER IN LONDON. Bakers in Poor Districts Raise Prices—Protest Made. London, April 20.—The bakers raised the price of bread one-half penny on the quarter loaf in many of the poor districts in London and Liverpool to-day, giving as their pretext the new duty on flour. The London Chamber of Commerce has called a meeting of all city merchants for Monday next to take action in opposition to the stamp duties in the new budget. All the Year Round. The best time to buy furs just now is all the time, but as good an investment as Dominion Coal was a month ago. You consult the press daily, and you'll see that London, the dictator of the world's market, has put at least thirty per cent. advance on furs. That means we will have to pay that much more for furs here in the fall, just as we have to pay more for coal to-day, through the high price paid for it on the Continent. The Dineen Company anticipates the advance in their vaults are stocked, ceiling high, with all nature of furs, preparing for the unusual demand. The new season's trimming all year round. The new designs for next fall are all in Dineen's price list. Last year's price. Need we say more?

EDUCATING A PRINCE'S HORSE.

King's Son Will Ride an Animal Immune to Frigate. London, April 20.—The horse which the Prince of Wales will ride in the coronation procession has been subjected to a severe schooling at Algeciras. The horse has now been brought to London, where he is undergoing the ordeal of being ridden daily thru the streets till he is pronounced thoroughly fit.

TELEPHONES ON STREET CARS.

Berlin, April 19.—The G., P. & H. Street Railway Company have completed to equip their line with a complete telephone system. Each car will contain a phone, and the arrangement will be had with the power house from any point on the line. This should be a safeguard from delay in case of an accident.

NO SIGN OF CONSTRUCTION.

According to a rumor on Saturday there was some likelihood of work being commenced shortly on the proposed electric railway between Toronto and Cornwall, for which a bill was passed at the last session of the legislature; but upon inquiry from a reliable source it was learned that there is little probability of an early construction of the enterprise.

MEAT TRADE DISORDERED.

London, April 20.—The meat and provision trades have been greatly disordered by the trust operations in America, of which the daily press has been publishing sensational accounts. The dependence of England upon American and Canadian food supplies renders these operations of vital importance here, and the butchers and retail dealers are quick to take advantage of any pretext for putting up prices.

REAL LIVE MARQUIS IN TOWN

Descendant of Man Who Took Over Quebec Command After Death of Gen. Wolfe.

NEPHEW OF THE DUKE OF FIFE

Has Been in America Long Enough to Find Out That Papers Print Nonsense.

Marquis Townshend, whose great grandfather took command of the British forces at Quebec after the death of Gen. Wolfe, is in the city on a visit, and is a guest at the Queen's Hotel.

He is accompanied by a young Englishman, A. S. Robbins.

The Marquis is 30 years of age, somewhat shorter than the average, and dresses with more than ordinary style. He was in Washington recently and was introduced to President Roosevelt and Secretary of State Hay. He was greatly impressed with the enterprise of the Americans, whom he pronounces "wonderful people."

But he has no use for their newspapers. He says the representatives of them are actually rude, and write perfect nonsense. They had articles about him that were simply ridiculous.

One of the Marquis' ancestors, Charles, was George III's chief secretary of the Exchequer, and it was his obstinacy in taxing the American people that provoked the Revolution.

The Marquis' mother was born Lady Anne Elizabeth, the sister of the present Duke of Fife, who married King Edward's eldest daughter, The Marquise, and Audrey, the Marquis' mother, was the second wife of her second husband Sir Redvers Buller.

The distinguished visitor will leave for the east to-day, his principal object being to view the historical scenes in Quebec, which will be of special interest to him in view of his ancestor's prominence in the militia in the early days of that place.

A WIDE SPHERE OF USEFULNESS.—The consumption of Dr. Thomas' Electric Oil has grown to great proportions. Notwithstanding the fact that it has now been on the market for over twenty years, its popularity is as great as ever, and the demand for it in all parts of the world is increasing. It is beneficial in all countries, and wherever it is used fresh supplies are constantly asked for.

All depends on Turkey.—The Bulgarian government has issued a circular to its agents in Turkey, declaring its disapproval of the disorders among Bulgarians in Turkey. At the same time, it has informed the powers that Bulgaria is unable to maintain tranquillity in the Balkan Peninsula, unless conditions in Turkey are bettered.

REV. PROF. CLARK ON THE WAR

One Blot in Present Struggle Has Been Disloyal Attitude of Some Englishmen.

ANNUAL ST. GEORGE'S DAY SERMON

Members of St. George's Society and Sons of England Attend St. James' Cathedral.

Rev. Prof. Clark delivered a stirring address on patriotism to 150 members of the St. George's Society and the Sons of England Benevolent Society in St. James' Cathedral yesterday afternoon. It was the 67th anniversary service of the former society, and on invitation the latter society took part. The procession formed on Elm-street, and headed by E. T. Parry and H. M. Poulton, who carried the standards, marched to the church via Yonge and King-streets.

Among those present were: John Taylor, president; R. W. Barker, secretary; J. C. Copp, ex-Ald. E. Strachan Cox, Mayor; Hon. John Nunn, Lieut.-Col. Mason, Capt. Meeson, P. F. Ridout, W. T. Boyd, Geo. Stanway, L. E. Elliott, E. R. Parry, H. M. Poulton, W. J. Kennedy, W. Scott, J. H. Moss, W. H. Uppett, H. W. Barker, J. Herbert Mason, H. W. Elliott, Samuel Trees, Alonzo Watkins.

At the Cathedral.

The service was conducted by Rev. Canon Welch and Rev. A. U. Fenwick.

Clark took for his text Psalm xxxiii, 14, "Merry and Truth Shall Obey Thy Face." In his introduction, he remarked that the speaker referred to the work carried on by the society, that those qualities which had made England's greatness might ever be known and handed down from one generation to another. The work of the society had been well and effectively done, said Prof. Clark.

While there was danger in boasting of what an organization has done, there was also danger, he declared, in not lauding a body that has accomplished much for humanity.

Justified the War.

It was impossible, said the speaker, for Englishmen to meet together on such an occasion without reference being made to the South African war. It was of immense importance to satisfy ourselves that our people were doing right in the war.

As a whole we were entirely convinced of the necessity and inevitableness of the struggle. It was not for mere love of fighting that England went to war, also Englishmen are great fighters. In the history of the conflict the speaker regretted that there had been one dark blot. This blot was caused by the action of some Englishmen who took the opposite side to Great Britain, simply for political reasons. This had done infinite harm.

Prof. Clark in so speaking did not wish to bring politics into the pulpit, but there was no doubt that the charge was true, a thing which Englishmen look on with absolute disfavor and shame.

The Provocation.

Continuing, Prof. Clark gave some interesting details of the circumstances leading up to an succeeding the in-breaking of hostilities. No in-breaking occurred until the 2nd of August.

Desperately Afflicted.

Joe. Coran of Montreal Cured of Rheumatism of Ten Years' Standing. Not By the Use of Drugs.

But Through Fowler's Liquefied Ozone.

It is with pleasure I give you my testimonial as to the curative powers of Fowler's Liquefied Ozone. For over two years past, I have suffered very much with rheumatism; sometimes so bad I could not sleep at nights, and I was unable to do any work. Two years ago I was laid up nearly two months, and since February last, I have been very bad.

JOE. CORAN, Montreal.

I saw your Ozone advertised. The drug idea appealed to me; so I procured a bottle and began taking it. I had not completed the bottle when I began to get better; my rheumatic pains began to leave me. I have taken one bottle, and my rheumatism is completely cured. I am in better health now than I have been for the last ten years.

Sometimes for weeks my feet were so swollen and pained so badly I could not walk, and my hands would swell out of all shape. I could hardly endure the pain and could not use my hands.

I attribute my recovery entirely to the use of Ozone, and gladly recommend it to all sufferers from rheumatism. Signed Joe. Coran, 45 St. Antoine-street, Montreal, P. Q.

This testimonial is attested by Mr. A. P. Reid, who writes: I enclose you a testimonial from Joe. Coran of St. Antoine-street. This gentleman has suffered for over ten years with rheumatism. About two years ago he was so bad he had to quit work for two months, and since last February he has been so bad that sometimes he could not use his hands they were so badly swollen.

Mr. Coran says he cannot say too much in favor of Ozone, and he has been cured by one thin only-uric acid. There's nothing mysterious about the way this acid keeps the nervous raw and destroys the lubricating oil in your joints, so that even the bones become sore and painful. Whenever you feel the pain, remember that Fowler's Liquefied Ozone can relieve you of it in a remarkably short time, permanently.

Healthy manner. Ozone cures rheumatism in a healthy manner, because it contains no drugs to create a false stimulations—give deceptive signs of recovery. When you feel the pain going, you will know it's going for good, you're becoming cured. 50 cents and \$1 a bottle, at all druggists. The Ozone Co. of Toronto, Limited, Toronto. CONTRARY TO HUMAN NATURE.

No man likes to be forced to take one thing or the other. Neither may please him. He wants to take what he likes of each and leave the rest alone.

In the matter of dress, American gentlemen have right along been forced to take one thing or the other. Unfortunately both were EXTREMES.

One extreme was made-to-order clothes, with satisfactory results, but big prices and tedious delays.

The other extreme was "ready-mades", distasteful to careful dressers, but fairly priced, with no delays.

Such a state of affairs could not longer exist. There had to be "a happy medium".

This was found in "Semi-ready", an EXACT DUPLICATE of custom-work at about half the tailor's price, finished-to-order in a few hours.

A few weeks ago, New York tailors put up a million, incorporated a company and are now manufacturing "Semi-ready" at 568-576 Broadway. "Semi-ready" is sold in 15 Canadian Cities. If you cannot visit one, write for catalogue.

CALLS AIRSHIP A DELUSION

Lord Kelvin Says Santos-Dumont's Idea of a Flier is a Snare.

BUT WIRELESS TELEGRAPHY USEFUL.

No Limit to its Scope, and it is Not Fully Developed.

New York, April 20.—Lord Kelvin, the English scientist, arrived in this country, with Lady Kelvin, on the steamship Campania. His age, which is more than 80 years, seemed to weigh heavily on him, for he sank on to a bench, brought him on the pier, with a sigh of relief, while waiting for his baggage to be inspected.

All questions put to him he answered pleasantly, except when talking about Santos-Dumont's airship, when a look of disgust and scorn appeared on his face.

"The airship on the plan of those built by Santos-Dumont is a delusion and a snare," he said. "A gas balloon, padded around with cars is an old idea, and can never be of any practical use. I have not seen or heard, so far, of any airship that could be used for commercial purposes."

"Some day, no doubt, someone will invent a flying machine that one will be able to navigate without having to have a balloon attachment. But the day is a long way off when we will see human beings sailing around like the birds."

Lord Kelvin was very emphatic while talking of airships, and frequently waved his hands in the air, saying: "Useless! Useless!"

When asked, in his opinion of wireless telegraphy, he said: "Now, there is an invention that is of some commercial use. The workings of wireless telegraphy are marvelous. I spent hours in the Marconi room on the ship on the voyage, and I was surprised to receive from the Coast of Chancery a cheque for \$150,000, in settlement of the account, with the accumulated interest."

The comparatively speedy settlement by the Coast of Chancery of the account of Messrs. Hedges & Butler is assisted by the fact that the firm's trade ledgers go back in complete form to the year 1867, rendering proof of any debt easy.

The Swiss-Italian Row.

London, April 20.—The diplomatic rupture between Italy and Switzerland, arising out of the Italian government's complaint that American publications are not adequately punished by the federal authorities at Rome, has been early stopped by the negotiations for a new commercial treaty between the two countries. It has, moreover, caused some other grave inconveniences that both sides are already seeking for means to settle the quarrel by arbitration.

It has been suggested from various quarters that the President of the United States should act as arbiter, but it is more probable that the dispute will be referred to The Hague Tribunal.

Sing a Song.

Many a bird with good vocal organs does not sing. A bird-keeper writes: "Since using Cottam Seed and Bird Bread, my bird, which scarcely chirped before, sings wonderfully."

Beware of injurious imitations. Be sure "Bart Cottam Company, London," is on the label. Contents, put up under seal, patent, and separately: Bird Bread, 10c; Perch Holder (containing Bird Seed), 5c; Seed, 10c. With one pound package of Cottam Seed and Bird Bread is sold for 10c. Three times the value of any other bird food. Sold everywhere. Retail. Cottam's for 50c. Book of pages (illustrated, price 25c). To users of Cottam Seed a copy with tasty stitching will be sent postpaid for 12c.

RUSSIAN SCARE FOR BRITISH

Ships Crowded With Armed Troops Have Entered Singapore Harbor.

THEY WERE ON A PEACEFUL MISSION

Their Presence Showed the Possibility of a Treacherous Seizure of the Port.

New York, April 20.—The Sun's London correspondent says: One of the many incidental effects of the war in South Africa has been the general weakening of the British garrisons in overseas stations. At one time this gave the War Office very serious thought, but with the disappearance of all danger of intervention by foreign powers officialdom here again became confident.

Now it is learned from the Indian mail, which arrived to-day, that there has been a scare in the British East Indies over the possibility of a treacherous seizure—say by Russia—of Singapore, the most vital position in the event of hostilities with a first-rate power. It seems that the vessels of a so-called Russian volunteer fleet, which are really warships in disguise with their holds full of guns and ammunition, are in the habit of calling at Singapore on voyages to and from Russian military stations in the Far East. On these journeys they are regularly used as transports.

Quite recently there were two of these ships in Singapore harbor, each crowded with Russian troops—in all about 4000 of them—largely in excess of the strength of the local garrison. At the present moment that garrison is without its customary strengthening of regular British troops, and is composed entirely of natives. The scare was obviously not without its justification, in spite of the fact that in modern days the powers do not declare war without warning.

What could be done by the unscrupulous power is well illustrated by an incident that occurred a few years ago, which was the subject of a somewhat heated diplomatic correspondence between Russia and England. The admiral commanding the British China squadron, desiring to test the accuracy of charts which he had surreptitiously obtained and to nerve his navigating officers, sailed into Vladivostok with his entire squadron under cover of fog.

Every officer in every one of the numerous forts which were supposed to render Vladivostok impregnable was punished for negligence, and ultimately all the powers were informed of the new port regulations by which not more than two foreign warships would be permitted to enter Vladivostok at any one time. England made similar regulations at all her eastern fortified ports, and these remain in force to this day.

Russia, however, doubts that the steamships of her volunteer fleet are warships, and in spite of the provisions of the Treaty of Paris these vessels regularly pass up and down the Dardanelles on their way to and from the Black Sea and the Far East.

FATHER SUCCEEDS HIS SON

Barrister Wardell of Dundas Chosen Conservative Candidate in North Wentworth.

MR. WHITNEY ADDRESSES MEETING.

Tribute Paid to the Memory of the Late T. A. Wardell by His Friends.

Dundas, April 19.—Robbed of their leader by death, the Conservatives of North Wentworth met in nominating convention here this afternoon, and unanimously chose as their standard-bearer A. R. Wardell, barrister, of this town. Mr. Wardell is the father of the late member, and his nomination gives the keenest satisfaction.

Dr. McGeorge of Waterdown and Capt. J. J. Grafton of Dundas were his sponsors. The position was only accepted on the conditions that he be not expected to take any great part in the campaign, in view of his recent bereavement. The condition imposed was willingly accepted by the convention.

"If you wish me to become the candidate," said Mr. Wardell, "I must rely entirely on your individual efforts to elect me. [Applause.] By a standing vote, Mr. Wardell was then declared, amid cheers, to be the candidate.

The opposition having been presented and feelingly alluded to the death of Mr. Wardell, for whom he had the highest respect, Mr. Wardell was splendidly received, and Miss Beatrice Miller presented him with a bouquet.

The usual formalities having been quickly disposed of, for the meeting was of one hour's duration, Mr. Wardell, after a few introductory remarks by the chairman, spoke. He asked his hearers to believe in what the opposition told them and not in what he said. He said that he was not a candidate, but that he was in power without the majority of the voters of the province. [Applause.]

Continuing, Mr. Wardell said the opposition did not claim to have a monopoly of all the ability of the country, but he would ask his hearers to imagine outside of Premier Ross the other members of his government. He said that he was not a candidate, but that he was in power without the majority of the voters of the province. [Applause.]

Mails Are Carried by Hand, Cars, Vehicles or Canteens—Serious for Passengers.

Montreal, April 20.—Three destructive landslides occurred yesterday on the Montfort Railway Line, and until repairs have been made the Montfort and Gatineau Railway Company will be unable to operate their cars beyond Morin Flats, which is a station near St. Jerome.

The Montfort Line is the property of a syndicate, of which ex-Ald. Joseph Brunet, M. P., is the chief. The accident is attributed to the high water; all the trestleworks of the line between Morin Flats and Arundel Station have been washed away, involving a loss to the company which will exceed \$15,000. Information received last evening from Arundel Station says that the repairs will take fully four weeks. Pending these repairs, the mails are carried by handcars, vehicles or canteens. The Montfort Railway runs through northern section of the country, and as they travel thru an important lumber district, the accident will prove serious to the settlers, whose daily work calls them to travel on that line.

SEVEN PERSONS BURNED.

London, April 20.—A fire broke out at midnight last night in Hackney, a popular suburb of London, in a printing office of three stories high, the top floor of which was used for living rooms. A dozen fire engines and escapes arrived promptly at the scene, but the flames were of overmastering power, and it was impossible to enter the building. When the flames were finally gotten under control the charred bodies of a man, two women and four children were found.

PAY FOR IT WHEN CURED.

Men, why will you be weak? Why do you not listen to the echo of thousands of grateful voices raised in thanks to Dr. McLaughlin's Electric Belt? Why do you go on from day to day realizing that you are losing your nerve force, your manhood, when you see a cure within your grasp? Reach for it, take it to your veins, feel the exhilarating spark of manly power warm your frame, the bright flash come to your eye, and the firm grip to your hand—the grip which grasps your fellow-man and tells him that you have found your Mecca—you have regained your manhood.

ACT NOW. Act to-day. Do not delay a matter which is the key to your future happiness, do not allow a disease to destroy all possibility of future pleasure, and the older you get the more pronounced and apparent will your weakness; so cure it now—cure it while you are young. The time is ripe. While the vital spark is still warm it can be easily fanned to flame by Electricity, and Dr. McLaughlin's Electric Belt will make you strong if you try it now.

Warranted Not to Burn or Blister.

My appliances are warranted the strongest in the world, yet they give the current, like a soothing, glowing warmth, flowing into the body without the stinging, burning sensation caused by old-style Belts. My special inventions—the cushion electrode and regulator—prevent this horror. My Belt is half-price to those having the old-style burning belts.

FREE BOOK—I have published an 80-page book, beautifully illustrated and full of truths for men and women who lie in nothing, this book will convert you to the altar of truth. It is worth reading. If you have tried everything else and been unsuccessful, this book will give you the answer. I send it, closely sealed, free. Ask for it. Call, if possible, and consult me personally.

A Good Bank Statement Leads to Firm Close at N.Y. Saturday.

Big Advance in Some Canadian Issues for the Week—San Paulo, N.S. Steel, C.P.R., Twin City, Toronto Railway Features—Markets and Gossip.

World Office, Saturday Evening, April 19.

Values in the local market have undergone considerable remodeling since last Saturday, and all the active stocks show extremely satisfactory advances.

The excitement among traders is as keen as ever, and the force behind the market is getting weekly stronger.

As viewed from the present, the market is quoted as showing a healthy speculation as well as a reasonable outcome of the enormous benefits accruing to various positions by the increased prosperity of the country.

It is in the South African market during the week that remained steady, and advances have been made in various active securities.

Reports from London indicate that there are millions of dollars worth of investment in the African market as soon as peace is assured, and the public is looking forward to heavy gains on the present negotiations going through.

Large advances over recent prices cannot fail to take place.
