Aldermen View With Anxiety Fact That Within 3,000,000 Gallons of Maximum Daily Service is Being Used-New Rates to Increase Revenue.

ere it is forced up an The city waterworks, having a pumping capacity of 47,000,000 gallons a day, and the daily consumpnd out into the store cool, sweet and tion of water having increased within a week from 34,000,000 to 44,000,000 gallons, how long will it a pleasure to breathe be before the well runs dry?

> This is the simple arithmetical problem which yesterday confronted the special civic committee on revision of the water rates. It was admitted that the situation was serious, and that unless the public cease to squander water on lawns, something like a der water on lawns, something like a famine is in sight. A particularly alarming feature is that the citizens are not heeding the warnings issued a few days ago by Waterworks Engineer Fellowes when the consumption per day had reached 39,000,000 gallons, but are becoming daily more extravagant. Of course, the prolonged hot dry spell has been responsible for the big jump, and the rain of yesterday will have a relieving effect.

Controller Spence, who was unani-mously elected chairman, pointed out disbanded last year, it had on its bands the question of charging a land frontage tax for water. He thought there was much merit in the plan as, at present, speculative holders of land got the benefit of water mains being laid past their property without their having to pay therefor. He did not suggest that water rates be charged entirely in this way, but to an extent that might be decided upon reducing the present tax of 50 cents per room.

The discussion turned to the waste of water, and George Mitchell, chief rating clerk in the waterworks department, said that in a hurried in specific of water shown by the property found watering of the more rates and that in a hurried in specific of the community itself. The general polytic of the were not shown by the property found watering of the more rates as the machinery in this way, but to an extent that might be decided upon reducing the present tax of 50 cents of water, and George Mitchell, chief rating clerk in the waterworks department, said that in a hurried in specific of the community itself. Loss Thru Leaking Mains. The chairman believed there was a tremendous loss due to leaky mains. Ten years ago, Mr. Fellowes had investigated the condition of water mains in the district from Ossingtonavenue to Dundas-street, with College-street as the south and Bloorstreet as the northern boundary. By patching up the leaks, the consumption of water in the district had been reduced to 60 per cent. of the previous

regular gross rates.

The chairman thought the city might fairly discriminate in favor of Swansea, where there are from sixty eighty users of city water, and Ald. Rowland moved that the rates be reduced to what they were when Swansea was supplied by the old West Toronto plant. A little figuring appeared to show that there was little difference between the two, and it was agreed to get a carefully vorked out report showing the actual

Some Hard Facts. Some interesting facts were brought out by the waterworks department. For the year ending Sept. 30, between 65,000 and 70,000 flat rate users produced a revenue of \$130,000, while 3200 establishments, factories, business houses, etc., gave a revenue of \$132,000. There were only 33 metered houses, and at the rate of 12c per 1000 gallons charged, the revenue \$1278. If these houses were charged the present flat rate of 50c per room, the revenue would be only \$900, and if at the former rate of 25c per room

Manufacturers' Rates. Finally, the talk drifted to manufacturers' rates. Here figures appeared to conflict. Mr. Mitchell estimated that it cost the city 6 7-8c per 1000 gallons to pump water, and that the manufacturers should pay 7 1-2c for it. but a memo by the city treasurer showed the cost to be 5.49c. Immense Supplies Stocked.

Then the truth leaked out, and examination revealed that immense supplies had been stocked, in some cases sufficient to run over ten years. It was found that while the government was paying first-class prices the goods were inferior. Belongings Fresh

Keeping the small belongings fresh is always a problem at the Summer hotel or boarding-house, where laundry costs are so high that it is often more expensive to have the bit of neckwear "done up" than to buy a new article. The laundry department of the large hotel usually asks two dollars merely to press out-without washing-an ordinary linen suit; yet nothing requires the constant services of a pressing iron like linen. Many women carry a small flat iron in the trunk and freshen up the little belongings in their own rooms, and an ironing board may be contrived very satisfactorily by pinning a sheet over a blanket on the carpet. The small electric flat irons, which may be attached to the electric light socket in the hotel bedroom, are a great comfort, if one spends the vacation where there is electric lighting. These small flat irons keep at an even heat, and one may press out even a woman's linen suit very easily and in a short time. The iron, set upside down in its little stand, becomes a flat stove, on which one may heat a saucepan of water, and there is also a groove in which a curling iron may be

If the Summer hotel does not boast electric lights, one of the compact alcohol stove sets will afford a great deal of comfort. These little stoves fit into pint cups, which are to be used as saucepans; and there are small standards, which. thrust into sockets in the "stove," make a rest for a flat iron. These little stoves are absolutely safe, as one does not light the alcohol directly, the fumes, concealed within the stove, generating a gas which gives a strong,

Latest From T. & D. Fight Baseball Toronto 5 . Football Camps at Reno

Note and Comment | M'GINLEY TOO STRONG

In answer to many queries, J. J. Jeffries and Jack Johnson will enter the ring at Reno at 4.30 Toronto time next Monday afternoon, or, rether, that is the scheduled hour. Thus allowing for delays, the men will likely start on their long journey some time between 5 and 6 o'clock.

FOR THE NEWARK CLAN

While few outside the camp followers have the temerity so far to name the winner emphatically, most followers of the ring are of the opinion that the battle will not terminate much short of twenty rounds, no matter whether it is Jack or Jim who lands the knock-out punch. This will fetch the finish up to between 7 and 8 o'clock, while the limit of forty-five rounds would take the time up to 10. Thus the story of the mill of the century must go to the morning papers.

Out at Johnson's headquarters the wheel was in full operation, and the women visitors as well as the men attracted by the prospect of the big negro's workout played their stacks without interference from anybody, as the place is outside the city limits of Reno, and, therefore, out of local police jurisdiction. It can be reached only by stage or auto, but it attracted a good-sized crowd.

Across the way from Jeffries' training camp there is a saloon whose proprietor was quick to take a chance on installing a gambling outfit. As in Johnson's case the training quarters of Jeffries are far from Reno, but in another direction. A wheel has been whizzing there since Friday morning, and the dealer hasn't had a chance to cil it since it was started on its chanceful way.

J. W. Jacobson writes: It is generally understood that Bannerman's backers are dissatisfied with the result of the recent checker match, Jacobson v. Bannerman. In order to give these critics satisfaction, Mr. Jacobson hereby challenges Mr. H. Barrett to play a checker match on rett to play a checker match on pre-cisely the same terms as the Jacobson-Bannerman match, and as an incentive offers Barrett two games start out of sixteen games, the only condition being that this match be finished with

S. C. Hildreth's King James did not need the first money in the Advance Stakes to find a place in that select band of thorobreds which have won \$100,000 or more on the turf. In a sense King James was unfortunate enough to be born in a year that boasted the unbeaten Colin, Fair Play, Uncle and Celt. In the face of this opposition, however, the son of Plaudit won \$14,-150 as a two-year-old. In 1908, as a three-year-old he added \$38,196 to his total, and again he was opposed to Fair Play, winner of \$70,335 that year, as a four-year-old he had things more his own way, with Fair Play and Colin in England, but the stakes and purses had shrunk to small proportions, and his winnings for the season amounted to \$38,225, or probably not more than a third of what he could have won in happier times for racing. So far this year King James has won something more than \$15,000, and his victory in the Sheepshead Bay Handicap on Thursday was worth just enough to bring the grand total to \$100,246.

City Lawn Tennis Championship.

The way entries are pouring in for the city championships at the Rusholme courts is very gratifying to the committee in charge and evinces the wide interest which is taken in the tournament. Every possible convenience has been arronged for both players and spectators, and it is hoped that the tennis-loving public will avail themselves of this opportunity to encourage the royal game. Entries close on Wednesday, June 23 and play starts on Dominion Day for those in the city. Intending participants will confer a favor on the committee if they will send in their entry cards promptly and thus facilitate the draw. Address the secretary of the tournament, 375 Dovercourt-road.

Lorne Park Lawn Bowling Tourney.

The 32-rink invitation tournament of the Lorne Park Club commences at 9 a,m. next Friday (Dominion Day). Toronto bowlers will require to take the G.T.R. bowlers' special, leaving the Union Station at 8,10 a,m. on July 1, in order to reach Lorne Park in good time for the first round. There is a whole lot of interest in the meeting of City Hall and Postoffice in the Civil Service League at Ketchum Park this afternoon. The City Hall team hasn't been beaten, and the Letter Stampers are close behind them, in second place. Batteries—City Hall, Whalen and Lynd; Postoffice, Scott and Benson. Frank Hallnan, umpire. Great interest is centred in the game on Dominion Day at 10 a.m. in Riverdale Park between the champion Arctics (last year) and an all-star team composed of the different shining lights in the east end. This game will be very interesting, and will doubtless draw a great crowd of people who stay in town for the holiday. The officials wish to draw the attention of the public to the fact that no admission fee will be charged, and everybody will be made welcome.

No Racing in July.

Announcement is made that the Metropolitan Racing Association's time of lawful racing, according to the Miller Bill, will be taken up altogether in the autumn, likely September and October, seven days in each month, with the necessary twenty days intervening. The Metropolitan had intended racing July 9 to 17, but owing to the improvements at Dufferin Park being incomplete, the postponement was necessary.

Summer Amusements "The Blue Mouse."

The Blue Mouse," the comedy which was one of the last products of the late Clyde Fitch, was capably presented by the Percy Haswell Play-

ers at the Royal Alexandra Theatre last night in the presence of a large audience. The dashing comedy had never before been attempted by a stock company, and the enterprise of Miss Haswell and her associates was evidently appreciated. The result fully justified the confidence, since the production made a favorable comparison with that of Miss Mahel Barrison and cast. The wealth of humor that lies in the dialog and situations was taken full advantage of, and the company can be fairly said to have added to the laurels won in the preceding weeks. The stage settings have an elaborateness of detail which

have an elaborateness of detail which the public has grown to respect.

Miss Haswell has, in Paulette Divine, "the Salome girl," a role that fits her admirably. She has the natural exuberance that enables her to invest the part with the charming effrontery which properly belongs to it, and she carried the audience along in a gale of laughter. In the scene in her apartments, which makes up the second act, the situations were amusing in the extreme and showed the company at its best. Robert W. Smiley as Mr. Lewellyn, railroad president and inclined to be giddy tho elderly, gave an irresistibly humorous presentation, and Richard Gordon as Augustus Rollett, his secretary, was equally effective. Helen Hilton as Mrs. Rollett extracted the last ounce of humor from the part, and William Crimans, as her father, showed a keen appreciation of the and William Crimans, as her father, showed a keen appreciation of the role. Others who had prominent parts and did effective work were Lillian Keller as Lizzie, Rachel Crown as Annie, the maid; Thomas V. Emory as Philip Scarsdale, and Bryant Washburn as Watterson. The subordinate roles were carefully taken.

"Pop" Vaudeville Popular.
"Pop" vaudeville as presented at Shea's Theatre, Yonge-street, is apparently gaining in popularity from week to week. Large audiences enjoyed a well varied bill yesterday afternoon and last night. In the closing arguments late this afternoon the case was narrowed down to the question of whether or not any prices had ever been fixed counsel for defence holding that no quotations had ever been put on the property which Frewen was now suing for. Counsel for the plaintiff read a letter written by Hays to Frewen, in which the former stated that values would be put on the property as soon as the surveys had been completed, and that these values would be no higher than the general public would be asked to pay. He claimed the Rand values, fixed at the instance of the company, were the ones referred to in the letter, and at the figures the plaintiff sho have got his land, instead of quoted prices equal to and in some cases higher than the top bids at the auction sale. No matter which way the decision goes the case will be appealed.

IS BREAD WAR LIKELY? New Regulation on July 1 May Raise the Price.

Will there be a bread war when the new act, passed by the legislature last session, comes into force on July 1? That question is agitating the minds of many bakers just now. The new act. compels the loaf to weigh 24 ounces instead of 16 and 20, as at present. Until recently the general opinion was to une price from five to six cents. This move, it is feared, will be unpopular and the price will likely re-main stationary for a while altho many bakers claim they cannot give the increased weight and maintain the quality of fancy bread as it is.

The indications are that the price will not be altered and the large loaf will be soid at the present price at a loss until the smaller makers are oblig-ed to quit or make a change, and there

will be a uniform raise by agreement.
When interviewed none of the bakers
seemed to know just what would be
done. "I am not in a position to say, and will not know until sometime next week," said H. C. Tomlin, and that tells the tale.

Mr. Edmund Assels, New Carlisle, Que, writes:—"I feel it my duty to let you know of the great cure I have obtained by using Doan's Kidney Pills. I was troubled with my kidneys for two years. I tried a doctor, but he failed to help me. I read in the B.B.B. Almanac about Doan's Kidney Pills, and began using them, and after the first box began to feel better. I only used four boxes and they completely cured me. I am very thankful to have found so speedy a cure, and would advise everyone suffering from kidney disease to try them."

Perhaps no other organs work harder than the kidneys to preserve the general health of the body and most people are troubled with some kind, of Kidney Complaint, but do not suspect it. It may have been in the system for some time. There may have been backache, swelling of the feet and ankles, disturbances of the urinary organs, such as brick dust deposit in the urine, highly colored, scanty or cloudy urine, bladder pains, frequent or suppressed urination, burning sensation when urinating, etc.

Do not neglect any of these symptoms, for, if neglected they will eventually lead to Bright's Disease, Dropsy and Diabetes.

Notes of Interest Relating to Town Matters Generally.

WESTON, June 27.—(Special.)—Geo. W. Verral has finally placed the fair grounds at the disposal of the St. John's Roman Catholic Church, on Saturday, July 16, when the annual games and picnic will be held.

The strawberry festival, under the auspices of the Baptist Church, was held to-night and, considering the unfavorable weather, was fairly well attended.

The town band will go to Malton on The new grounds of the Weston Bowling Club will be formally opened on Saturday, July 9. It is expected that 80 players will take part in the opening games.

BAGGS-LOCKE.

At the home of the bride's parents, Mr. and Mrs. Locke, Edgely, a very pretty wedding took place on Wednesday, June 8, when their eidest daughter. Florence Agnes, was united in marriage to Mr. Alfred Bogg. The ceremony was performed by Rev. Mr. Morgan, under an arch of white hawthorne. The wedding march was played by Miss Cora Locke, sister of the bride. The bride, who was given away by her father, wore a gown of white satin and lace. Her veil was caught by a spray of orange blossoms, and she carried a bouquet of white roses and lily of the valley, and wore the groom's gift, a sunburst of pearls. Miss Gertrude Locke attended as bridesmaid and wore blue mull, while Mr. Frank Bagg attended the groom. The groom's gift to the bridesmaid was a gold bracelet and to the groomsman gold cuff links. A very remarkable evest was the presence of the bride's greatgrandmother, who was 97 years old and still hale and hearty. The bride traveled in a navy blue suit with hat to match. After a brief western honeymoon trip, Mr. and Mrs. Baggs will take up their resibrief western honeymoon trip, Mr. and Mrs. Baggs will take up their resi-dence at Edgely.

Thos. Heuston, president of Mimico Lodge, Brotherhood of Locomotive Firemen and Enginemen, has been elected to the board of directors at the annual convention at St. Paul, Minn. GOT HIM AFTER LONG DRIVE.

County Authorities Bound to Stamp Out Horse Stealing. After a drive of 18 miles from Ux-

bridge, County Constables Robert Burns and Walter Stewart arrested Herbert Shaw, a laborer, living near Sunderland, yesterday afternoon, upon a charge of conspiring with Edward Claude to steal a horse from J. W. Graham of Udora Claude has already pleaded guilty before Judge Winchester to stealing the horse. This is only one arrest of a number likely to be made in an effort to stamp out a re-cent epidemic of horse stealing.

SOME GOOD STIFF FINES.

New Toronto and the district round about is acquiring an unenviable reputation thru the number of assault and other cases which from time to time take place out there. This is not due to the ordinary citizens, but a foreign element which has given Constable Simpson and other county officers a good deal of trouble. Before Magis-trate Ramsden, on Monday morning, eight of these were charged with indulging in a regular rough-and-tumble fight a Sunday or two ago. Altogether 50 or 60 were in the scrimmage. New Toronto people describing the scene yesterday before the magistrate, stataned that the foreigners acted just like Du devils. One or two of them were fined \$10 each, a number \$5 and one \$1.

GEORGE B. CAMPBELL

The above is an excellent likeness of Mr. George B. Campbell, the Tor-

onto representative of the Morris Packing Co. of Chicago.

Mr. Campbell has been the representative buyer for the Morris Co. at the Toronto Live Stock Market for over a year, and during that period has made a remarkable number of friends in the business. He is regarded as an ideal cattleman, having been to the manner born. He was raised in Missouri, in which state his father and grandfather were both breeders and

As far back as 1872 Mr. Campbell's father embarked in the cattle comission business, and shortly after he associated with his father in this trade and continued with him until 1895, when he started in the commission business for himself, at which he continued until 1892, when he joined the Morris Packing Co., with whom he has been ever since.

He is particularly fond of Canada, likes the ways of the people, the social qualities of those with whom he comes in touch. He views Canadian farmers, drovers and cattlemen as experts in their own line, and pre-dicts a big future for the Canadian cattle business.

WESTERN FARMERS ARE

Hot Wind and No Rain Beginning to Work Injury to the Creps.

BRANDON, June 27 .- (Special.)-For the first time this season leading farmers admit to-day that the scorching heat is working injury on crops in this district. Sunday's temperature was 96, with a hot wind; to-day at noon the temperature was 97, with a hotter wind than ever. Prominent farmers agree that heat and wind combined are drying the land right out, and the

situation is becoming alarming.
Supt. Murray of the Dominion Government's Experimental Farm says that the crops are coming along altogether too fast. One field of wheat at the farm is heading out, tho only a few days ago there was no sign of suc premature development. Growing crops are very badly in need of two days' heavy rain, said Mr. Murray. A prominent farmer, just arrived from the Reston district, says that the crop there is suffering severely, and estimates that a 40 per cent. loss has been already sustained from

drought.

Advices from districts west of here say that the crops look fairly well, but rain is badly needed. Successive days of high temperature and wind are wearing down the crop, as evap-oration is remarkable and moisture has been extracted to an alarming depth, say experts.

FIREWORKS AT THE "EX" Naval Review at Spithead Will Provide Unique Spectacle.

An entirely novel bill of fireworks will be presented at the Canadian National Exhibition this year. The old siege spectacle has been replaced with something entirely new, "A Naval Review at Spithead." In this two lines of battle ships sail into the arena while from the opposite side comes the reyal yacht. As it sails down between the lines of war vessels the guns of the fleet roar out the royal salute On its return trip the fleet is ablaze with colored lights and fireworks. The whole is given against a background of forts and town twinkling with lights and garrisoned with soldiers and sailors. It is claimed the net re sult is as effective as it is novel The other features number a between an airship and a dreadnought. something that has never been presented anywhere. It even anticipates modern warfare a bit. The whole closes with a fireworks program sixty numbers.

half; east helf-of state generally in fair shape.

John Inglis wires from Jamestown, N. D.: There is good ground for present scare over spring wheat crop, but it arises more from apprehension of a continuation of same conditions until harvest. Should it turn out so, then crop will be a small one, but there is ample time should a favorable change come, as until wheat is fairly well headed out it can stand considerable punishment and redeem itself wonderfully strong during the filling period. Oats are more unpromising than wheat, but they also have a chance yet.

Both the American Eagle and Golden Cobalt properties are honeycombed with veins, and the latter is under option to a Detroit syndicate for \$50,000. On June 23, Mr. Bonter, while prospecting, located a 10 foot vein lying in a contact of diorite and schist, this being the fourth discovered during his ten days on the property.

It is hoped that the government will immediately take up the bridge on the Black River, which has now to be crossed by a raft. The mine holders in Munro Township have taken un a subscription among themselves to build the three miles of raod not yet in good condition, and with these two propositions out of the way, access from Matheson will be of the easiest kind and will afford road transportation for the valuable ores which undoubtedly exist in this district.

The Chance Mine, which also adjoins the American Eagle, was sold some months ago by Mr. Bonter to a syndicate headed by George Hilsendegan of Detroit. Mr. Bonter expects to have the Eagle property equipped with a up-to-date plant within a very short time and intends sinking on one of the important veins to a depth of 75 feet before attempting to recover any of the rich gold values on the property.

POWER PROPOSITIONS

Sherbrooke Traction and Pewer Co. Has Exceptional Opportunities for Rapid Growth.

The possibilities of the larger towns of Canada from the point of view of electrical power and traction enterprises is emphasized by the negotiations that have recently been concluded by which prominent Montreal capitalists secure the controlling interest in the Sherbrooke Railway and Power Company, and immediately placed a large amount of additional capital in the treasury of the company in order/to permit of the erection of a larger power plant and extensions and improvements to the street rail-

These public utility enterprises have always been in marked favor, not only with the Canadians, but also as well with the Canadians, but also as well with the English investor, more especially as the interests who created them have in almost every instance attended to the financing of the companies in the very attractive form of issuing handsome bonuses of common stock along with the first mortgage bonds, which always represent a first lien on all the properties of a com-

The Town of Sherbrooke has during the past few years grown to be the centre of a very rich section of the eastern townships, and already boasts of some fairly large industrial plants, either within its limits or in the towns that can easily be reached by means of transmission lines from the new power plant, which the company will

In addition the electric traction system will be greatly improved, and additions made that will within a very short time contribute considerably to the earning power of the company. The tremendous development that is taking place in the asbestos centres in the Province of Quebec, all of paratively short distance of Sher-brooke, has been a great boon to the Town of Sherbrooke itself, and its geographical position will mean that it will share in every bit of the de-velopment that may take place in al-most any part of the eastern town-

The trading picked up a little on the Toronto Stock Exchange to-day, there was very little breadth to the speculative movement. Price changes were singularly narrow in most instances, being held to small fractions, with the exception of certain issues interlisted with Wall-street. The break on the large market had its effect on trading sentiment locally, and the domestic issues were sympathetically easier. the prices held well in the face of the five-point decline on the New York exchange. Pure Water

THE finest water in the world is stored right in our own Lake Ontario. Were we to procure Ontario water free of the con-tamination of cities no one would grumble. We arrive at the same result by putting Lake Ontario water through the new natural stone filters. The analyst reports the water thus obtained and served in our Lunch Room, 100% pure.

Fresh Air

Y/HEN tired out with the heat and close air of to Simpson's and cool off. We have our big air pump going and we wash the breeze with cold lake Ontario water before sending it out into the to take a trip on the steam- and Valenciennes lace and rows boat, come to this store as of insertion; jabot is of embroidthe next best thing.

THE Simpson block was not even a dream when shoppers came down town by horse car. James street was not extended, Knox church in dainty new styles, groups of pin tucking, all-over embroidery was standing, the City Hall fronts or rows of French Val. was on Front street, Church lace insertions and embroidery, and King streets formed the busy centre, and people thought that Rosedale was a long way off tucked sleeve, with cuff, lace collar, front or back opening. Ribbon Time--- Two Timely Sale Items For Wednesday

OUR Summer Ribbons are being universally admired, not alone for their exquisite shades but for their quality. There are ribbons and ribbons—Ribbons that look like a rag after a few days' wear; any self-respecting silk worm would disown the most distant relationship to such ribbons. Then there are ribbons in which the labor of this most industrious of spinners is transfigured in fabrics of radiange, beauty and life. "Simpson's for silk"—the proverb is justified in the Ribbon Department. The whole showing is interesting. These few clearing items are to expedite your coming to see :-

604 yards extra quality Pure Silk Ribbon, in wear, in all this season's styles, neat spotted effects, also check and Dresden dejabots of pleated mull, trimmed signs in light and darker tints, including the with Valenciennes laces and in- much wanted colors for summer season, 51/2 and sertions; "Dutch" collar of white 61/2 in. wide. New Silks in Small Designs

The demand for smart summer silks has prompted us to have a choice little shipment rushed on in advance. The collection comprises all-or at least a great many-of the little designs, fine and medium checks and stripes. The colorings are of the sort we have proved to be most wanted right here in our own silk department. Grounds are mostly white, ivory and grey. White and black checks included of course.
