Cossacks, Aided By Minimalists, Battle With Bolsheviki in Petrograd Streets--Loyalist Troops Near Capital--Garrisons Forsake Revolutionists.

Petrograd, Nov. 11.—Premier Kerensky, who escaped from Petrograd on the night of Nov. 6 in an auto ambulance, and arrived safely at general headquarters, now has 200,000 men devoted to him, according to a despatch from Haparanda, Sweden, which escaped the Leninist censorship.

The despatch says the latest news from Petrograd is that Cossacks, aided by Minimalists, are mastering the Bolsheviki in a street battle.

Kerensky Moves on Petrograd.

London, Nov. 11.—Premier Kerensky arrived at Luga, 85 miles southwest of Petrograd, last Wednesday, and the garrison there attested its loyalty to his provisional government, according to a Petrograd despatch of Saturday to the Weekly Dispatch. Saturday morning he reached Gatchina, 80 miles southwest of Petrograd, where the same thing happened. The newspaper's advice adds that troops loyal to the provisional government are known to be near Petrograd, and a division of Cossacks is on the march from Finland. This news was given out at the Smolny Institute, headquarters of the workmen's and soldiers' congress.

The garrison at Petrograd, which two days ago was solid for the Extremists, now is said again to be wavering in its allegiance.

Bolsheviki Street Defeat.

London, Nov. 11.—The following was received today by wireless from Russia: "To all army organizations and commissaries: The revolt against the Bolsheviki is increasing in Petrograd. Today open attacks against them began, and hostilities are taking place in the streets at some places. The telephone is in the hands of the junkers. The Downtown (?) was occupied by the general army committee, which has removed the Bolsheviki guard.

"In Moscow the red guard was defeated. Severe measures are being taken against marauders and pillagers. Those caught with stolen goods are being shot immediately. Those guilty of rebellion are being handed over to the military revolutionary court."

A proclamation has been issued "to the soldiers of Petrograd" by M. Mal'koshi, who describes himself as a

ITALIANS MUST WITHDRAW FROM THE PIAVE RIVER LINE

Enemy Move from Trentino Forces Them to New Positions on the Adige.

Paris, Nov. 11.—The Matin says it was decided at the conference in Italy that France and Great Britain would increase the armed support already given to Italy, the effort to be shared equally by the two powers. The United States also has been considered, the newspaper says, in planning for future co-operation. The Italian campaign will be directed by the inter-allied war committee. General Foch, the French representative, will remain in Italy for the time being and will play a preponderant role in direction of the operations, which must take wide scope. It had been hoped, the Matin continues, that the Italian withdrawal would end at the Piave River, but that is now impossible inasmuch as the invaders, by debouching from the Trentino will compel the Italian army to withdraw at least to the Adige line. This plan, which General Foch approved, is being put into effect, and it is probable that if the Italian troops continue to display satisfactory morale the Adige positions will permit the offering of sufficient resistance.

Premier Painleve returned at noon yesterday from his visit with French and British officials to the Italian front, and expressed unwavering confidence in the victory of the forces of freedom.

"Their very principle of freedom means that they cannot impose upon themselves the brutal discipline of the central powers," said the premier. "There is entirely different discipline, forged by trials, as metal under the hammer."

A meeting of the war council was held at five o'clock yesterday afternoon and the cabinet was in session from 6:30 until 8 o'clock. After the cabinet meeting a semi-official note was issued, containing the news of the establishment of a permanent inter-allied staff under General Foch, which was to sit at Versailles. The note adds that nothing has impressed the Italian Government and people more than the extraordinary clarity with which their allies arrived at this decision.

"It is the first time that unity of action on a united front has been truly realized," says the note. "Nothing will do so much to lighten the prestige of France."

DECLARES MILITARY SERVICE MEASURE IS EMINENTLY FAIR

BORDEN ASKS FOR UNFED DOMINION

Ottawa, Nov. 11.—Before leaving for Halifax today, Sir Robert Borden issued his election manifesto. Laying down the promise that "it was necessary to sink differences and overcome prejudices" in order to attain the object of a coalition government, the premier remarks upon the opportunity that a union government gives of extirpating old abuses that have grown up and flourished under successive governments. He pledges himself to the elimination of these.

But the war is the chief consideration. The successful outcome of the issue for the allies, he points out, required strong action, and the Military Service Act was necessary when recruiting fell away. He emphasizes that this act is a democratic measure, for it bears more heavily on the rich than on the poor. It is more difficult for a young man of means to secure exemption than for the poor man who has dependents to look after.

The abolition of the patronage evil is promised by Sir Robert, also the equal duplication of railways with all its wasteful expenditure. Complete woman suffrage will be given, and in order to attain social justice in Canada, the old system will be revised.

"United Canada" is his watchword.

There was, says the manifesto, no thought of compulsion until compulsion became imperative. There was no hesitation to seek authority for enrollment by selection when the necessity for greater reinforcements was indubitably established. It was the enemy—not the government—which issued the call to arms, and compelled a mobilization of all the resources of the empire.

Sir Robert declares that the government is not the agent or organ of any group, section or party. "There are," he says, "those among its members who must assume responsibility. There are those also among its members who have no such responsibility. For the Military Service Act all assume the fullest responsibility, as do all for the future conduct of the war and for future measures of policy and acts of administration."

Referring to the decision of the government to abolish the patronage evil, Sir Robert says: "It is believed that a government derived from both political parties and strengthened by special representation of agriculture and organized labor can act with greater freedom and independence than a government which held office under the old conditions."

Sir Robert promises vigor in the administration of the railway affairs. He asserts that "measures must also be taken to ensure adequate ocean transportation under national or international regulation if extortionate charges are attempted."

"Firmly convinced," says Sir Robert in closing his manifesto, "that these objects can be best achieved by a government representing all parties, classes, creeds and interests, I appeal with confidence on its behalf for the sympathy and support of the Canadian people."

SIR ROBERT BORDEN'S MANIFESTO

To the people of Canada: The twelfth parliament has been dissolved, and it becomes the duty of the people to choose a new house of commons. Under the constitution the mandate of those whom the constituency returned in 1911 expired a year ago, but by agreement between the two parties in both the commons and the senate and with the clear sanction of public opinion the duration of parliament was, for causes strange and momentous in our history, extended for one year.

A further extension was proposed, but owing to the attitude of the opposition it could not be pressed and a general election thus became inevitable.

The circumstances and conditions under which and upon which the people must pronounce judgment are without precedent or parallel. Nearly three and a half years ago in obedience to honorable alliances, and out of regard for her very existence, and the security of her Dominion, Great Britain engaged in war with Germany. Canada, as became a partner nation in the British commonwealth, entered the

struggle by the decree of her parliament. That decree was enacted without a single dissenting voice, and it gave true expression to the sentiment and determination of the people of this country. No government could have lived, and no government would have deserved to live, that did not give such instant effect to the popular will. Hesitation would have availed of cowardice. Delay would have humbled and defamed the nation. Failure to mobilize the manhood and resources of the Dominion for freedom and civilization would have exposed us to the scorn of our own time and the contempt of posterity. But neither the government nor the people hesitated, and the resolution and patriotism of the Canadian people found prompt and adequate expression.

Canada's Effort. By voluntary enlistment an army of over 400,000 has been enrolled. Three hundred and fifty thousand Canadian soldiers have gone overseas to service, and sacrifice on the scarred fields of France and Flanders. Many thousands of them lie in graves hallowed by their blood, and glorified by their suffering. Pride in their valor and their achievements mitigates the sorrow which possesses so many of our homes. Through what they have done we have a new revelation of patriotism. The nation is clothed with new dignity. But how meanly we shall stand at the bar of history, if thru any neglect or failure of ours, the cause for which they fell

TURK CASUALTIES ARE TEN THOUSAND

Heavy Losses Inflicted on Defeated Enemy in Palestine Battle.

London, Nov. 10.—The British army in Palestine, pursuing the defeated Turks, has made further extensive gains, the war office announces. Askalon has been occupied. The Turkish casualties, exclusive of prisoners, are 10,000. The number of guns captured has been increased to more than 70.

Took 710 Prisoners. London, Nov. 11.—In their attack in Palestine on Friday, which resulted in an extended advance and the capture of Askalon, the British took 710 prisoners, the war office announces. They also captured five 5-9 howitzers and 3 field guns.

On Thursday 12 guns and 100 prisoners were taken. The text of the announcement reads: "General Allenby reports that the advance of his forces continued yesterday and that the left wing was in the neighborhood of Beud, (ancient Ashdod), 14 miles north of the Wadi Hasi. The enemy's rearguard had occupied a line along the northern branch of the Wadi Sukerir."

The Royal Flying Corps the same day bombed the junction station at Wadi Surar. There was a large amount of rolling stock in the station, and on this and on the station buildings several direct hits were observed to cause considerable damage.

"Our mounted troops have reported the following captures for Friday: Five 5.9-inch howitzers, eight field guns, 10 officers, 709 other ranks and much transport."

Extensive Battlefield. "As the extent of the battlefield is 600 square miles it will be some time before a complete list of the booty can be made out."

"Details have now been received of the action of the Warwickshire Yeomanry on Thursday. A reconnoitering party near Huj (east of Gaza) saw a considerable body of the enemy with guns marching about 2500 yards away in a northeasterly direction. The yeomanry were ordered to charge the retiring enemy. The charge was at once carried out in the face of heavy gun, machine gun and rifle fire with a gallantry and dash worthy of the best traditions of the British cavalry. Twelve guns were captured, Austrian gunners being killed or wounded at the guns. Three machine guns and 100 prisoners were also captured. This completely broke the hostile resistance and enabled us to push on to Huj."

MYSTERIOUS LEADER

Seanfeair Is Name Applied to Head of Organization.

New York, Nov. 11.—Details of the plans of Sinn Fein leaders for the insurrection in Ireland which culminated in the Easter Monday plot of last year, together with information relative to the landing on the Irish coast of Sir Roger Casement, were recounted in a communication from the possession of "General" Liam Mellows, Irish revolutionist, arrested here several weeks ago, and made public today by William Flynn, chief of the United States secret service.

GENERAL

The death occurred Saturday morning at his Kirkcaldie home of Hon. T. Sproule, M.P., of the Canadian senate, formerly speaker of the house of commons and formerly grand master of the Royal Orange Lodge of Ontario, in his 75th year.

GRAIN GROWERS SEEK LABOR CONSCRIPTION

Regina, Nov. 10.—Grain Growers Association district convention called for this week at Victory, Estevan and Shaunavon. At Estevan a resolution was passed asking that a labor controller be appointed to supply necessary men to farmers. In the discussion it was stated that the side men should be taken off the streets and made to go to work if it was fair to draft men for the army.

COLLEGE IN DIFFICULTIES

New York, Nov. 11.—With more than 85 per cent. of the war and its income greatly reduced, King's College, Windsor, N.S., the oldest in the Dominion, may have to close its doors unless it receives financial assistance. The college declared the oldest in the Dominion, in a sermon here today at Trinity Church. He requested that some "brooches" be purchased with money which he was sending, the author of the Welsh letter wrote.

INVITED TO ENGLAND.

Winnipeg, Nov. 10.—Mrs. Nellie L. Moore, 73, just received a telegram from Great Britain asking that she come to assist in the prohibition of the United Pledge under the auspices of the British Prohibition Society. Mrs. Moore, 73, just today Mrs. Moore's husband, who would accept the invitation.

What Would It Be Worth to You To Be Free of Indigestion

Indigestion becomes a habit to a certain extent. Many of the conditions under which we live are artificial. We eat too much, take too little natural exercise, and have too much worry and anxiety. The digestive system does not get a chance. The liver is usually first to get out of kilter, then the bowels become constipated, and the whole process of digestion is disorganized. Instead of being properly digested, the food ferments and causes sour stomach, belching of wind, pressure of gas about the heart, suffocating feelings and fainting spells. Headaches, pains in the limbs and back, tired, depressed feelings, irritability and discouragement are other symptoms. You may have tried stomach medicines and aids to digestion until you have given up in despair.

And Rid of the Poisons Which Cause Pain, Tired Feelings? Operation Avoided

Mrs. Annie Watkins, Glace Bay, New Harbor, N.S., writes: "I think it is time for me to give up my experience with you. I suffered with indigestion, but whatever it was, I suffered terribly. The pain would start in my left shoulder and pass down my side until it reached the pit of my stomach. It just seemed as if the flesh were being torn from the bone. At times I used to go without food from one morning until the next. I had no energy left for work at all. At last our doctor sent me to the hospital for a month. For four days and nights I never broke my fast except for a drink of water. After four weeks' treatment there I returned home, and was back only four days when the pain came back worse than ever. Then I was told I could have to undergo an operation. I would not consent to that. At last I read about Dr. Chase's Kidney-Liver Pills and started to take them. At first I did not notice much difference, but still I kept on using them, and by the time four boxes were used I was perfectly well again. That was in 1916, so you see I can safely say that this was cured. I shall always be grateful to Dr. Chase's Kidney-Liver Pills, as they did more for me than four doctors."

Dr. Chase's Kidney-Liver Pills

One pill a dose, 25c a box, 5 for \$1.00, at all dealers, or Edmanon, Bates & Co., Limited, Toronto. Do not be talked into accepting a substitute. Imitations only disappoint.

**PARTIES IN WINNIPEG AGREE ON CANDIDATE**

Geo. W. Allan is Chosen as Fusionist Standard-bearer at Big Convention in South Riding.

Winnipeg, Nov. 9.—Without a murmur of dissent the union government forces in South Winnipeg, at a convention attended by about 400, tonight selected Geo. W. Allan, K.C., as their candidate at the impending federal election. Speakers belonging to both the Conservative and Liberal parties, the Great War Veterans' Association, the Army and Navy Veterans and Mrs. Lipsett Skinner and Mrs. H. P. McWilliams on behalf of the large number of women present, pledged support. Hon. A. B. Hudson, who moved that Mr. Allan be the candidate, said there were great forces against the success of the union government and the election could not be won unless the electors took off their coats and went to work.

Sir Hugh John Macdonald remarked that those who thought this election was going to be a walk over since there had been union government were living in a fool's paradise.

**SIR WILFRID AT OTTAWA**

Ottawa, Nov. 11.—Sir Wilfrid Laurier returned to Ottawa last night from Quebec, where he made his closing speech in the campaign. He will probably make another speech in Montreal within the course of another week, to be followed by one in Ottawa and possibly another in Winnipeg. It is improbable that he will go further west than Winnipeg.

**UNIONIST ACCLAMATION**

Regina, Nov. 10.—Liberal and Conservative executives of the Qu'Appelle federal riding met at Broadview yesterday and it was decided that no unionist convention was necessary in view of the fact that Levi Thompson, ex-M.P., was in the field and Lieut.-Col. A. B. Gillis, Conservative candidate, had withdrawn and was supporting Mr. Thompson. An acclamation is considered probable.

**UNIONIST DIVISIONS MARK SASKATCHEWAN**

Many Aspiring Candidates Refuse to Withdraw From Field.

Saskatoon, Nov. 10.—At North Battleford Thursday, Charles Long, a Liberal, was nominated as the unionist candidate. J. W. Miller, who received the Liberal nomination some time ago, also claims to be the unionist candidate. Both parties have taken steps to lay the situation in this constituency before the premier in order to have the official candidate selected.

A convention has been called for Wednesday, Nov. 14, at Battleford, J. Champagne, the former member, and his supporters are not satisfied with the arrangement and have called another unionist convention at Battleford on Nov. 12. There is strong Liberal opposition to Mr. Champagne.

In Mackenzie the Liberal candidate, nominated two years ago, George W. MacPhee, of Yorkton, declines to resign the Liberal nomination, but desires to secure the unionist nomination. The seat is to be Liberal. The presidents of the Liberal and Conservative Associations have called a convention for Saturday, Monday, Nov. 12, when a unionist candidate will be selected, who is likely to be Mr. MacPhee. Mr. MacPhee will probably be named at another convention held at Carleton Place on Nov. 18, the date set by the provincial unionist committee.

Dr. Nasley, the ex-member, and Col. Lang are candidates for the unionist nomination in Humboldt, where a unionist convention will be held on Nov. 15. A new candidate has put in an appearance, the Wadena district having put forward the claim of Major J. C. Debalinhard, now in France, who has been wounded at the front. Major Debalinhard has called his willingness to run.

Kindersley is to return a Conservative unionist, and Dr. E. T. Myers of Rosetown is said to be sure of the nomination.

The first sign of a Laurier Liberal convention in northern Saskatchewan is the announcement that on Nov. 15 the Liberals of Humboldt constituency will nominate a Laurier man.

**SAM CHARTERS WAS ENDORSED**

Peel County Union Meeting Accepts Him as Candidate.

**OBJECTS TO RESIGN**

Calls Men Who Are Planning Campaign Against Him "Slackers."

Special to The Toronto World.

Brantford, Nov. 11.—Between four and five hundred people met in the armories at Brantford on Saturday afternoon to attend a union meeting officially ignored by the Liberals of the Peel constituency. J. E. Maybee of Port Credit was chairman, and the first speaker called was Sam Charters, who was introduced as a unionist. Mr. Charters said the introduction was correct, and explained the reason for his accepting the nomination and resigning the position of registrar for the county.

From the time he was nominated, he said, he had been the union candidate. Mr. Charters read the pledge he had accepted, and that of Benjamin Petch, the recent Liberal candidate who resigned his nomination, and in which Mr. Petch said the party opposed to conscription would be successful.

Mr. Charters reviewed the Peel County political situation up to October 29, and explained the negotiations which had been undertaken by the Liberal association and the effort to secure a candidate.

"The procedure in suggesting that I resign because Ben Petch had resigned was the most contemptible procedure I ever knew," said Mr. Charters.

**Calls Them Slackers.**

Mr. Charters referred to the men who had attempted to plan the campaign against him as "dirty slackers," and told of having his own two sons at the front amid loud applause. He stated his willingness to step down if the Conservatives requested him to do so. There was a disposition working to place a candidate in the field who would not be stronger than the Liberals would bring out Mr. Petch and that gentleman would support Sir Wilfrid Laurier. "The Liberals are endeavoring to play politics," he said.

Three cheers and the singing of "We'll Never Let the Old Flag Fall" followed Mr. Charters' remarks.

At this point Chairman Maybee announced that this was a win-the-war convention.

Rev. G. C. Duncan, Port Credit, said he was a conscriptionist Liberal. "I do not think this is a union convention," he said. He asked if there was not some one going to the war. "A convention for the purpose of avoiding a contest. He has lost a son at the front and has two others on active service," he said. "It would be the greatest calamity if Sir Wilfrid was returned to power."

Manning Doherty said he appreciated the idea that a convention of both parties should be held, but in his opinion everything that could be done had been done. He said there was more joking going on now than there had been at any other time.

**Jockeying for Position.**

Edward Burns, Port Credit, said that if care was not taken the Liberals would jockey until they got position, and moved a resolution strongly endorsing Mr. Charters as the union win-the-war candidate. "It would be endorsed by A. McCabe, Alton."

In speaking to the motion, J. J. Foy said he believed the meeting was representative of the union Liberals and union Conservatives, and that the other kind did not matter. He supported the candidature of Mr. Charters.

Thomas Blake, Port Credit, who spoke from his place in the audience, took exception to the statements of the previous speaker. He said that until the Conservatives dealt fairly with the Liberal executive he would vote against Mr. Charters, to whom he appealed to resign. He said there was danger that union government would not be elected. No reply was given to this suggestion, and the resolution of Peel electors—not Conservatives or Liberals—endorsing the candidature of Mr. Charters, was carried almost unanimously. The meeting broke up immediately after the singing of the National Anthem.

**LABOR CONTESTE TWO MORE LOCAL RIDINGS**

Candidates Named in South York and East Toronto for Next Election.

The Greater Toronto Labor Party, at its meeting yesterday in the Labor Temple, subjected a resolution forbidding any member of the party to take a place in the cabinet of any but a labor government to considerable discussion. Ald. Gibbons, T. F. Hamar, James Gunn and others held that unless a labor man could receive high cabinet office he would be unable to wield his highest and best influence as a labor representative. T. Mayles, J. Logan and R. Moss contended that a labor man once in high office would run strong chances of being restricted in influence except in a labor cabinet. Finally an amendment, moved by James Gunn and seconded by T. F. Hamar, was unanimously passed to the effect that representatives of the Greater Toronto Labor Party may hold cabinet office during the war, following the example of the Labor party in Britain, this being the best means of conserving the highest interests of the working man and the soldier in France.

Considerable enthusiasm was displayed in regard to the matter of campaigning, and of producing funds for the party during the ensuing elections. It was decided to run a candidate for the constituency of South York, and Ald. Gibbons was unanimously nominated to contest this seat.

John Vitek, financial secretary of the party in Toronto, was nominated to run against Sir Edward Kemp in East Toronto. Wm. Stephenson, a prominent labor man, was appointed general organizing secretary for the G.T.L.P. The resignation of James West from the candidature of the party for the riding of Parkdale was accepted.

At a recent meeting of the executive Arthur Hawkes addressed the members with a view to forming a union of all parties having as its aim the election of a win-the-war candidate. At yesterday's session this proposal was thrown out on recommendation of the executive as being opposed to the constitution of the Labor party.

**MAKING STRONG EFFORT TO FUSE IN BRANTFORD**

Both Parties Will Be Brought Together Again at Convention Wednesday Night.

Brantford, Nov. 11.—There is still a chance for fusionists in Brant and Brantford. The Liberal and Conservative adjourned conventions which were to have been held last evening were called off, the former to allow for the presence of Lloyd Harris, who is now at Washington for the imperial munitions board. He will be present at the convention. The Conservatives

the same evening will also hear a report from the abortive fusion meeting held last week.

The Independent Labor party met last evening for their delegates' report. In spite of the fact that they have been threatened with the loss of their charter because of their action in meeting with the other political parties the party will continue to endeavor to effect a fusion. Chairman H. J. Symons of the fusion meeting will call another one in the hope that it will be more successful than the last. This will probably be held on Wednesday evening. In Brant there is a possibility of fusion. At a meeting of North Brant Reform Association yesterday a letter was read from

the Conservative association suggesting that a union convention be held with ten delegates from each party. This invitation was accepted, and the meeting will be held in Brantford on Tuesday evening.

**DELEGATES CHOSEN.**

The Liberal Conservative Association of Ward Four, at its special meeting held Saturday evening at Broadway Hall, elected delegates from the 102 subdivisions of the ward, five delegates being appointed from each subdivision. These 510 delegates will attend the conventions of the Liberal Conservatives of the four divisions of the ward.

The Toronto World

FOUNDED 1890 A morning newspaper published every day in the year by The World Newspaper Company of Toronto, Limited, H. J. Maclean, Manager, Director.

MONDAY MORNING, NOV. 12.

The Sins of War This morning an appeal which cannot be ignored by any citizen whatever his age, for which no medical certificate can provide an evasion, and which touches directly the interests of everybody in the country, is being made under the auspices of the government.

It entirely depends on the people at home whether the war will be carried on to an early and triumphant conclusion, or whether the enemy will be given an opportunity to recuperate, renew his attacks, and conquer us.

The sum asked for is \$150,000,000. This would be under \$20 a head of the population of Canada, and would not be a heavy burden even if imposed as a poll-tax.

Those who would have the nation borrow from outsiders cannot have realized what that would mean. If a man would rather borrow from his own son or daughter, provided he or she were willing to lend, how much rather would Canada borrow from her own children than go to outsiders.

My money will be devoted to keeping our forces in the field properly equipped and supplied, and also for the purpose of creating credits in Canada which will enable the imperial government to continue the purchase of our manufactures and products for the use of their own and other allied troops.

Sir Thomas White has pointed out that in Great Britain one person in 23 took part in the last loan, while in Canada only one in 187 of the population subscribed.

Apart from the loyalty and patriotism of the proceedings, no greater benefit can be done to a man's own fortune than to put his earnings as far as he can spare them into these bonds. They are the best security, they strengthen the nation; they maintain business on a sound basis; they help to win the war.

Those who have done nothing else for the war, either personally or thru their relatives, can at least lend their money. It should be possible for the amount asked for to be subscribed in the first week. It is the first duty of every Canadian to save and lend.

The New War Council.

When the German drive on Italy was first announced we remarked on the necessity for closer co-ordination of the allied forces and the constitution of a central council of war which would assume direction of the military operations as a whole.

The lack of co-ordination has been most disastrous in the case of Russia, the story of whose disintegration and yielding to corrupt German intrigue will be one of the strangest pages of history. To the collapse of Russia is directly attributable the assault on Italy, and had Russia stood firm for the last twelve months the German western front would by this time have been back on the Rhine.

The new council of war will supervise and co-ordinate all the operations now going on. It is composed of the most brilliant men in the Italian, French and British armies.

General Cadorna, whose promotion leaves General Diaz in the field command, is regarded by many as the greatest general of the war.

General Wilson is an Irishman of a County Monaghan family, and the distinction he regards most highly is his honorary colonelcy of the Royal Irish Rifles. He was a protege of Lord Roberts, who picked him out at a subaltern examination as a man with a future. He represents the Roberts school of strategy as opposed to the slugging school, and his reputation for cool daring and thoroughness has been gained in various campaigns.

The civil authorities are to review and endorse the decisions of this military council, but it is unlikely that this veto will be allowed to interfere with the success of plans which usually require instant action.

So much depends on swiftness of movement in war and on united action that it is a marvel that Germany has made no more progress than she has done. Her fate and the indefinite prolongation of the war now depends on the battle to be fought where Italy determines to stand.

E. G. Henderson said that since the Liberals had refused to meet the Conservatives on fair and equal terms it was but right that this convention should proceed to select a candidate for the union government.

All in favour of supporting union government were asked to stand, and the convention almost as one man rose to its feet. A letter from Oliver J. Wilcox, M.P. for North Essex in the last parliament, expressing deep regret that the severalty of his illness prevented his attendance at the convention, was read by Henry White, secretary of the Liberal Conservative Association.

Most gratifying reports continue to pour in from the prairie west. A prominent railroad man, who is a trained observer, returned yesterday from a three weeks' visit to the west and told The World that he had never seen such universal prosperity. At a little town of three hundred people in northern Saskatchewan, where he stopped over night, he found a "social" being held for the purpose of securing contributions to the Patriotic fund.

It is a fair surmise that the victory loan will meet with a splendid reception in the west. The western people are in this war heart and soul, even more intensely, if possible, than the people of Ontario.

Big crops and high prices account for much of the prosperity and the wonderful weather prevailing this fall has enabled a great deal of plowing and threshing to be done. Farm lands are, therefore, appreciating rapidly in value.

As to politics the people out west are paying little attention to the election because they regard the result as a foregone conclusion. Since 1915 they have been calling for national government, and it is generally conceded that at least forty-five of the fifty-seven seats west of Lake Superior will return union government candidates.

Other People's Opinions

Dr. Hunter Supports Unity. Editor World: The war news from every viewpoint certainly challenges the most earnest consideration of every man and woman who prefers freedom to despotism.

The Canadian people, on account of the vital issue at stake, should waste no time on mere party issues, race rivalries, or creed prejudices. At a recent meeting of Liberals in the east end, Mrs. Brentor and Mr. Harley Dewar spent—judging from the press reports—most of their time in calling attention to the weaknesses, and worse, of their political opponents.

Whatever men's convictions may be as to conscription, every effort should be made at our political meetings to inspire the most virile brand of patriotism, and of loyalty. Speakers that distract attention from the war are pro-German in effect whatever the speakers' intentions may be. In any case, a war-time election must distract attention from the vital issue, but speakers can do much to minimize this evil by keeping the needs of our army in its defense of all we hold sacred, as the first claim on all we have.

Editor World: An item in your issue of this morning says: "The word 'reverend' only occurs once in the Old Testament. You should also add that it only applies to the Almighty. A short time ago there was much discussion in the press over the question of prayers for the dead in the Anglican Church, and some of their leading clergymen used, as an argument against it, that it was not authorized in the scriptures. Now, Mr. Editor, where do the same clergymen get the authority to style themselves 'reverend'?"

Now, if some poor old father or broken-hearted mother, with a son lying in an unknown grave, in Flanders or far away Palestine, can get consolation in their dark hours of trouble out of such prayers, where does their Christian charity come in that would deprive them of such consolation? A Constant Reader.

Organization for Sale of Victory Bonds is Complete. OPTIMISM EVERYWHERE Country's Chief Business for Three Weeks is to Sell Bonds.

At the Ontario headquarters for Canada's Victory Loan everything is in readiness today for the grand opening, which is to be heralded through the province. After weeks of planning the entire Province of Ontario has been thoroughly organized into the most efficient organization that has ever been devised in this province.

Every county has been organized at once by a unit, which is an organizer for each county town who will remain throughout the entire campaign to assist in the beautiful activities of the campaign. In each county there has been formed a committee of citizens and it is the duty of those who have ever had anything to do with patriotic campaigns in Ontario to remain united with the men who ever joined in any campaign which is linked together in this biggest of all efforts for Victory Bonds.

DOES NOT APPROVE LUXBURG'S METHODS

German Foreign Secretary Says Germany Has No Ulterior Object.

Buenos Aires, Argentina, Nov. 11.—The Argentine minister at Berlin advised the government here yesterday that Dr. von Kuhlmann, the German foreign secretary, had declared to the minister his disapproval of the two despatches sent by Count von Luxburg...

The despatches in question were made public by Secretary of State Lansing in Washington, October 30. In one of them Count von Luxburg, addressing the German foreign office on August 4, 1917, declared his conviction that Germany would be able to carry thru her "principal political aims in South America, the maintenance of an open market in Argentina, and the reorganization of South Brazil equally well whether with or against Argentina."

DIVORCE SECURED BY CANADIAN OFFICER

Youth Had Married Woman Old Enough to Be His Mother.

Canadian Associated Press Cable. London, Nov. 11.—A divorce was granted yesterday to Capt. Geoffrey Brian O'Connell, who in 1913 when 10 years of age, met a woman of independent means, aged 42. She persuaded him to marry her. The wedding took place at a registry office the petitioner wearing a false moustache to disguise his youthful appearance. When his father heard a year later, he was much annoyed and sent his son to Canada. The son returned to England as a private in the first contingent, eventually securing his present rank. His wife's subsequent conduct justified the present proceedings. The judge, in granting the decree, said that evidently the parents of the petitioner, learning of the marriage, were anxious that the son should not become what is most contemptible, an idle man with an independent wife, so they sent him to Canada.

# ITEMS FOR AID ABOUT THE FARMER

## CONDENSED INFORMATION FARMERS AND THEIR CLUBS

**UNION.**  
William Clifford of Union has broken all records for having the most valuable load of tobacco shipped here. The one wagon load brought him a cheque for over \$1600.  
Jason Malott has just completed the second large silo on his place here and both are farmers filled to the roof with chopped corn and fodder.  
Lester Malott has a gang of men busy with their chopping machines busy filling the large silo which he recently erected.  
Angus McCharles will soon have his new hot house completed. It will be one of the most up-to-date in this district.  
Many silos have been built in this district and almost all of them are filled to the top with the best quality feed for live stock that has ever been grown here. Fall wheat never looked better at this time of the year and all the indications show that thousands of bushels will appear for the next harvest. Hundreds of potatoes are now being fed all the corn which can eat and one month will see many carloads sent to the markets in Ontario cattle that farmers here would say are already fat are going to Pennsylvania to be further fattened.

**BRAMPTON.**  
The Oliver homestead consisting of 100 acres on the Centre road has been purchased by Mrs. T. Armstrong, line east, Toronto Twp. Sale was made by J. H. McCracken.  
K. Giffen has sold his farm of 300 acres near Mayfield in two parts of one hundred each to T. Ingolby and J. Archdekin.  
Fred Armstrong is this week shipping six carloads of cattle to Lancaster, Pa., a suburban city of Philadelphia. These cattle were bought in Ontario and have been on Mr. Armstrong's farm all summer. At Lancaster they will be bought by Pennsylvania Dutch farmers for winter feeding. Down there they are betting that prime beef will be 20 cents on the hoof next spring.  
Ontario cattle that farmers here would say are already fat are going to Pennsylvania to be further fattened.

**FOREST.**  
C. Anderson has disposed of his farm of 50 acres on the 14th con. of Township of G. Fawcett, of Bonaventure. Auctioneer Roche put the deal thru.  
**UNIONVILLE.**  
Vincent Wagg of this place grew ninety-four bushels of table carrots on a piece of his garden land, size 14 x 74 square feet. This yield is at the rate of one thousand bushels per acre. Can the experimental farm at Chippewa make a better showing than this? The rows were 14 inches apart.

**PARKHILL.**  
Mr. John Leslie arrived home on Tuesday from Radville, Saskatchewan. He was accompanied by John A. Clark, East Williams, who has spent the past three months in the west. Mr. Leslie brought two loads of cattle from the west for feeding purposes.  
**AYLMER.**  
Harry McKenney of this place was very successful in the provincial Woodstock Poultry Show last week. He was the winner of 40 firsts, 6 seconds, 4 thirds and 6 specials. Harry will be well considering there were over 100 birds in the show.

**THE HOLLOWES.**  
Most of the farmers around here have dug their potatoes and report a good crop.  
A number of people from here attended Geo. Baker's sale last week and report the prices high.  
**PETROLEA.**  
The auction sale held at Chas. Fenwick's stock yards on Saturday, Oct. 27, was an unqualified success, realizing \$7,000.

**WALKERTON.**  
W. J. McNally left Tuesday with a carload of horses for Port Arthur.  
George Detler of Walkerton has bought the 150-acre farm of Geo. Johnston, 3 1/2 miles east of Belmont, in the Township of Howick, for \$7,000, and will take possession on March 1.  
**HARRISTON.**  
W. Murdoch, Palmerston, progressive agriculturist, purchased a thoroughbred Yorkshire sow at the O.A.C. stock sale last week.  
Chas. H. Ward held a clearing sale of his live stock on Saturday, conducted by Messrs. McCachren and Young, and having leased the model farm, on shares, to Frank Leppington, he and Mrs. Ward intend to take a long-deferred holiday.  
Mrs. A. M. Ferguson, Minto Township, who recently held a clearing sale of farm stock, etc., has purchased from Arthur Shannon the white brick house on Elora street, opposite W. Weich's.

**DELAWARE.**  
Hill Brothers and Messrs. Butcher and Leslie, thresters, are still very busy, having several more farmers to "thresh out."  
Benjamin Kennedy, third concession, has purchased Colborne Griffith's 60-acre farm situated on the third concession.  
**SARNIA.**  
A number of Sarnia people are contemplating shipping in potatoes into that city, and are confident they can bring in spuds, pay freight and sell cheaper than prevailing prices.

**MILDMAY.**  
George Selinger of the fourth concession purchased a farm for his eldest son, Lawrence, at Newton, where he will take immediate possession.  
Alex. Kramer shipped a carload (1000 bushels) of peas last week, for which he paid out \$3250. This gives one an idea of the present high prices.  
**ORANGEVILLE.**  
D. H. Thomas has sold his 100-acre farm, E 1/4 lot 1, concession 1, Amaranth, to John Black. Price in the neighborhood of \$5000.  
**PICKERING.**  
J. D. Remmer has just finished his apple harvest, which amounts to 25 barrels for this year.  
R. J. Fleming's sale on Saturday was not very well attended. His farmers are very busy with their fall work. There were several buyers present from Toronto, and the prices realized were good.  
Potatoes appear to be rather scarce, contrary to expectations, or at least there has been none offered for sale. The price also is climbing up.

**CLAREMONT.**  
Four different buyers have been purchasing turnips from the farmers around here for shipment to the States. They are an excellent crop and are of good quality.  
**PERTH.**  
Chas. Doyle has sold his farm on the 5th concession of Drummond to Nelson E. Brown, of Calabogie. Mr. Brown will take up his residence there shortly.  
**BROOK.**  
Herbert Taylor has purchased the farm belonging to Mrs. Edmund Kirkham.

**ORO STATION.**  
The farmers in this vicinity are having some difficulty in getting their fall plowing done and their potatoes dug, on account of the continued rains.  
**MULMUR.**  
Jas. Bailey, a Mulmur farmer, captured a very unique looking bird at the creek running thru his farm. The bird is known as a "grebe" and is usually found in the northern parts of America, Europe and Asia. It has a strong sharp bill, and lobate toes, and is one of the several swimming birds or divers.  
**VICTORIA CORNERS.**  
C. Atkinson of Rock Mills has bought what is known as the Strain farm from J. C. Wright, Proton, and has started plowing.

**ARTHUR.**  
A large quantity of turnips have been shipped from Arthur and Kenilworth during the past few weeks. It is only recently that farmers in this neighborhood have marketed any turnips. The price is high, twenty-four cents per bushel being paid for one load last week.  
**HARKAWAY.**  
J. A. Halbert of Harkaway is the owner of six potatoes that tipped the scales at 20 pounds.  
**CALEDON.**  
John Patterson, Jr. of Caledon East, grew nine potatoes that weighed 25 lbs. and 1 oz.  
**RUSSELLDALE.**  
Mark Clark, who purchased the property of the late J. D. Stewart is busy renovating it preparatory to occupying it in the near future.

**LOGAN.**  
G. Hilbrecht has delivered to T. S. Ford & Co. Mitchell, two tons of Dutch onions, for which he received nearly \$240.  
Tyler, Tex.—One of the largest peanut products factories in the United States is to be constructed here by Woldet Grocery Company, at a cost of \$250,000. It will be equipped with oil, peanut butter and meal for live stock feed. Prospects are favorable for more than 1,500,000 acres being planted in peanuts next season. To utilize this prospective production many additional mills will be constructed.

## AN INTERESTING "CREEPER" MODEL TRACTOR

The above photograph illustrates a powerful type of tractor which, owing to the large bearing surface of its traction belt or track, is able to carry great weight and draw heavy loads without sinking into light soil. Owing to the length of its tread it can creep over obstacles and out of ruts which might offer serious resistance to a single wheel. A Canadian farmer has been organized, with offices in the Dominion Bank building at Toronto, and are negotiating for the establishing of a factory in an Ontario town. This photograph was taken at the demonstration on the Industrial Farm.

## THE BLOCK SYSTEM OF MILK DELIVERY

**New Zealand Minister Confers With Dairymen and City Officials.**  
**PRODUCERS FAVOR IDEA**  
**Proposal Includes the Establishment of Co-operative Milk Purchase Depot.**

The minister of internal affairs (Hon. G. W. Russell) conferred with the mayor, the town clerk and members of the market committee of the city council of Christchurch, N.Z., and also with a large number of dairymen on the subject of the proposals contained in the city council's bill for the introduction of the block system of milk delivery. The minister said that if the proposed scheme were to be carried out the only way to do it was for the council to take over the purchase and distribution of the milk. He could not see how the block system would work out equitably. He doubted if the houses would pass such a bill. Mr. McKellar pointed out that the dairymen, with one or two exceptions, were unanimously in favor of the block system. As to fixing the price, the understanding was that it could be done at a conference between representatives of the council and the dairymen. The mayor pointed out that the introduction of the block system would save 8000 hours weekly, equal to close on \$500 weekly.

**Eliminate Waste Labor.**  
H. Bliss, Jr., said the dairymen had fairly favorably accepted the scheme as being the best possible way of cutting out waste labor. To carry out the scheme properly would necessitate the establishment of a co-operative line of a depot where dairymen could dispose of any surplus milk or obtain milk to make up deficiencies.  
A. W. Bonned suggested that the matter should be settled by a vote of the people. The minister said he was much obliged for the suggestion; it might be provided that the act should not come into operation until a referendum of the people had been taken. Evidently a minister of the crown in New Zealand when faced by a company of business men who know their requirements runs to cover under the referendum.

**ABOUT CELERY.**  
In its natural habitat celery is a boggy soil plant; it needs moisture. So the celery grower goes to the muck land for his soil. It is hard to drown out the plants.  
Celery plants are easy to grow, but always do better when transplanted. If the amateur wants to be sure of his results he must set his plants in a trench about six inches deep. You can buy young celery plants for about fifty cents a hundred. They should be planted from eight to ten inches apart. Four hundred plants should be sufficient to furnish celery for a family of five during the winter.  
The trench must be soaked and then soaked again. Pour in a pint of water every night. In the morning put in a little loose soil on top of the wet soil. Keep filling in until the sides are six to eight inches high. Then begin with the blanching boards.—Country Gentleman.

**BERGLEY.**  
G. E. Kinney, Bergley, reports a yield of fifty bushels of fine potatoes from two bushels of seed, planted on a plot of ground 17 rods in length by 1 rod in width, a trifling over one-tenth of an acre. The largest tuber weighed 2 lbs. 6 1/2 ounces.

### SUNFLOWERS PROFITABLE.

And now comes information to the effect that the sunflower is probably destined to play an important part in the economic affairs of the United States as a substitute for linseed. A member of the National Paint, Oil and Varnish Association recently read, before a convention of that organization, a report which declared that the cultivation of the sunflower for this purpose can be made to yield a gross return to the farmer of from \$30 to \$50 an acre.

**EAST LUTHER.**  
Thos. Colbeck of East Luther realized \$130 from a load of peas which he sold in Grand Valley the other day.

### ENSILAGE TESTS.

Brisbane. —Three years ago Queensland's agricultural department determined to test the keeping qualities of small quantities of ensilage. Accordingly a carefully prepared ensilage from chaffed sorghum, cowpeas and Japanese millet, was placed in kegs and hermetically sealed. At the end of two years some of the samples were opened and found in a shoro-state of preservation. Recently a tin of the ensilage made from Japanese millet was opened and found to be satisfactory.—Christian Science Monitor.

## THE FEEDING AND HOUSING OF SWINE

**Dominion Government Experts Claim Expensive Piggery is Not Necessary.**

### SINGLE BOARD CABIN

**Hog Breeders Will Secure Authoritative Information by Reading Pamphlet.**

On account of the high value of concentrated foods suitable for swine feeding it is important that the foods that are used be so combined as to produce the maximum of results. The question of housing also enters largely into the profitable production of pork. To encourage farmers to raise as many hogs as possible, and to make the most money therefrom, the department of agriculture at Ottawa has issued Pamphlet No. 22 on the "Feeding and Housing of Swine." This pamphlet, which may be obtained free at the publications branch, department of agriculture, Ottawa, deals also with the questions of breeding and care of the animals at different ages and at different seasons of the year. This pamphlet is prepared by Professor G. E. Day, in charge of the bacon production campaign, Dominion Department of Agriculture; E. S. Archibald, Dominion Animal Husbandman, and his assistant, G. E. Rothwell.  
Mr. Archibald, after much experimental work, lays down the principal reasons why an expensive piggery is unnecessary. Brood sows may be kept under most circumstances, even in the winter season, in a single board hog cabin. This pamphlet gives specifications and plans not only of a large piggery, but of a cheap and portable cabin.

## TWO FARMERS PROVED THEMSELVES ORATORS

**Showed Themselves Masters of the English Language and Exhibited Courtesy Under Fire.**

At the luncheon given on Thursday by the United Farmers of Ontario to Food Controller Hanna and representative newspaper and farm magazine editors a really notable example of the ability of farmers to present their side of the case was given. The command of the English language exhibited by W. C. Goode and E. C. Drury was a delight to any admirer of good speaking. These farmers exhibited a reserve of strength and power of expression quite remarkable.  
When Mr. Drury was violently interrupted while speaking to the meeting with words to the effect that the farmers' difficulties were caused by their insistence upon the law of supply and demand he quietly turned upon his attacker and stated that the cause of the difficulties was not the law of supply and demand but interference with that law. It was a point well taken and both Mr. Drury and Mr. Goode are to be congratulated upon the intelligence they displayed in the face of somewhat uncalled for opposition.

### GEORGETOWN.

The department of agriculture supplied Halton farmers this year with seed for the experimental growing of hemp. The experiment has proved a success. Samples between eight and nine feet in height are on exhibit at Clements & Co.'s hardware store, and there were others at the fair here last week. Hemp is grown extensively and successfully in New Zealand and a man who has been there says he never saw any which approached the Halton samples in height, four or five feet being about the limit.—Georgetown Herald.

### KENNICOTT.

Louis P. Longway has sold his 70-acre farm, lot 16, concession 15, Logan, to Edward Longway for \$2500, and intends to retire and go to Stratford to live. The farmers are busy plowing and getting in the turnip crop.

# Meat Shortage Critical Quick Action Needed

"Since the War the live stock herds in Europe have decreased by 115,000,000 head. No one can say to what extent the breach of the Italian front was made possible by food shortage. France requires increased supplies unless the women and children are to suffer from hunger. The Allies look to Canada and the United States to save the situation which to-day is grave. We must and will save it. The demand for meat and the fact of depletion of European herds is a guarantee of high prices. Steps have been taken to assure fair treatment to the producers."

**W. J. HANNA,**  
Food Controller of Canada.

**Mr. Hanna is working in co-operation with the Food Controllers of Great Britain and the United States. He, more than any other man in Canada, knows the needs of the Allies. His statement shows the seriousness of the meat situation. The question is: How can the shortage best be met?**

The speediest way to relieve the critical situation is to greatly increase the production of hogs.

Swine, on account of being prolific and growing to marketable size rapidly, will produce meat more quickly than any other kind of livestock, because 1,500 pounds of dressed meat is a

moderate estimate of what can be produced from one sow in one year. As it is a huge quantity of meat that is needed, and needed speedily, the Allies look to the hog raisers of Canada and the United States to meet the situation.

The Dominion Department of Agriculture and the Agricultural Departments of the Provincial Governments are co-operating to secure the interest and action of the Canadian hog raisers. The Food Controller states that steps have been taken to assure fair treatment to the producers. This will be explained in a further advertisement. The point the Government wants to impress to-day is to

## Save the Young Sows

Great Britain has almost doubled her imports of bacon and hams since the war, importing over one billion pounds since last year. There has been no increase in the production of Canadian hogs to meet this situation. The killings in Denmark have decreased 40%. The receipts of hogs at Stock Yards in the United States for the eight months ending August 31st, 1917, show a decrease of 2,765,006 compared with the same period in 1916, while the month of September, 1917 (the latest month for which figures are available) shows the great decrease of 859,830

compared with September of 1916. These figures emphasize the pressing need for a great increase in the production of hogs and indicate a safe and profitable market.

The enormous consumption of the Allied Armies is sufficient to steady and maintain the bacon market at a high level. The British Army ration calls for one-quarter of a pound of bacon per man per day. Multiply this by millions of fighters and some idea is given of the need for increased production.

The fighters, and the women and children of Britain, France and Italy urgently need more meat. Canada can help supply it. Save the young sows.

IRREGULAR TREND IN MINING ISSUES

Saturday's Trading on Standard Exchange Shows Some Increase in Activity.

The volume of sales on the Standard Exchange Saturday showed some improvement, more than \$1,000 changing hands in a short period. But there was no definite trend in the market, showing a mixture of small gains and losses.

BRAZILIAN SHARES IN FAIR DEMAND

ERRATIC SWINGS IN WALL STREET

General Tone is Strong, But Some Inconsistency is Shown.

New York, Nov. 10.—Prices in Saturday's stock market were somewhat mixed, most of the time, various groups moving in opposite directions.

Actual clearing-house loans showed a contraction of \$2,322,000, and a decrease of \$1,300,000 in actual reserves, the banks increasing their holdings in their own vaults by about \$2,000,000.

RAPID PROGRESS ON KIRKLAND PORPHYRY

Development Methods Are Economical and Big Gold Mine is in Making.

Hamilton B. Wills, in a weekly letter, says: All speed records for sinking in the Kirkland Lake district are being broken at Kirkland Lake Porphyry Gold Mines.

Considering what other operating companies in Kirkland Lake have expended in development work, and the amount done, it is my confirmed opinion that the Kirkland Lake Porphyry is developed more than any mine of its kind.

That a mine of inestimable size will be the result of the big program of underground development mapped out for the coming winter at Kirkland Lake Porphyry is the opinion of the managing Director Cecil.

In fact, so plainly does it appear that the vein system running within a radius of 600 feet from the north boundary that it is now referred to by the miners in this camp as the Golden Gateway.

# Buy Flannelettes and Flannelette Blankets Now Buy Two or Three Seasons' Supply ---It Will Surely Pay You

These prices are so low that we could sell every pair of the blankets and every yard of the flannelette to wholesale houses. It is to prevent wholesale houses and retail dealers from buying up the lot that we make these restrictions:

**Not More Than Three Pairs of Blankets to Any One Customer--- Flannelette Will Not Be Sold to Dealers**

We bought this stock a long, long time ago. Since then prices have steadily advanced, so that now mill prices are higher than we ask for these goods today. Wholesalers and other dealers would be glad to take our whole stock at these prices. They could put their profits on them and still sell them to good advantage.

When our present supply of the Flannelettes will have been sold the new price will be 29c per pair. We have already placed orders to sell at that price.

As for the Blankets. Well, we just want to advise you to get them now for this year, for next year, and for as far ahead as you conveniently can.

**THE FLANNELETTE** offered today is 32 inches wide, white, a substantial quality. We reserve the right to limit the quantity to each customer. Per yard . . . . .19
