INVASION OF HUNGARY BEGUN; FIVE TOWNS HAVE BEEN CAPTURED

Russians Also Record Two Victories Over the Germans in Poland—Austrian Reinforcements Too Late to Save Loss of Roads to Hungary

Petrograd, March 29.—Pouring through Dukla Pass, three Russian corps of 120,000 men have captured five Hungarian towns in the district of Sarov.

While all eyes are directed towards the Carpathian front and the invasion of Hungary, two new Russian victories in Poland were officially reported, one on the Skwa River, and another near the Pilica.

The Russian drive through Dukla pass has resulted in the occupation of Buszov by Russian troops. The advance Russian forces entered the northern outskirts of Szvidnik on Sunday, but met determined resistance, and were compelled to retire to await the arrival of the main forces.

London, March 29.—The Times' Petrograd correspondent says the Austrian reinforcements arrived too late to prevent the Russians from securing command of the roads into Hungary.

The correspondent adds that the German field marshal, Von Hindenberg, apparently has disposed of the eighth, ninth and tenth armies in a manner calculated to enable him to retain the defenses until larger forces or favorable circumstances warrant a resumption of the offensive.

AUSTRIA'S BID TO ITALY. Paris, March 29.—The Petit Parisien's Rome correspondent says he is informed that Austria has made a definite offer to cede to Italy a part of the province of Trent at the close of the war.

Would Like It So. Berlin, March 29.—The Bucharest correspondent of the Frankfurter Zeitung telegraphs that Romania will continue to maintain her neutrality.

MAJOR GUTHRIE SECOND IN COMMAND OF BRITISH COLUMBIA BATTALION

Letters Reach Fredericton—Hope For War Orders For Capital Concern

Fredericton, N. B., March 29.—The total proceeds of a bazaar and festival held by Normal School students for Red Cross work amounted to \$737.

Recent letters from Major Guthrie state that he has gone to the front as second in command of the 7th British Columbia Battalion.

John Palmer, managing director of the Palmer-McClellan Shoepeg Co., reached home this morning. He visited London and Paris, and is hopeful of securing some war orders for footwear.

At the time of the separation of the church and state in France, Bishop Dilen was active in the efforts to avoid a conflict and went to Rome to plead the cause of peace.

The legislature will resume work this evening. It is expected that Dr. Landry will bring down the budget tomorrow.

BISHOP OF AMIENS DEAD

Amiens, France, March 29.—Monsignor Jean Marie Leon Dilen, Bishop of Amiens, died here yesterday.

At the time of the separation of the church and state in France, Bishop Dilen was active in the efforts to avoid a conflict and went to Rome to plead the cause of peace.

Five applications were received by Dr. E. Skinner this morning in response to the announcement that he had received a letter as president of the local branch of the St. John Ambulance Association, giving power to sign nurses for overseas service in that unit.

Applications will be forwarded to headquarters, and appointments announced later.

WEATHER BULLETIN

Issued by authority of the Department of Marine and Fisheries, R. F. Stupart, director of meteorological service.

Synopsis.—A fairly energetic cold wave, which has moved down from the northwest, is centered in Manitoba, causing cold weather again in nearly all portions of the Dominion.

Colder. Maritime.—Fresh westerly to northwesterly winds, a few local snow flurries, but generally fair; colder tonight and on Tuesday.

New England forecast.—Fair and colder tonight; Tuesday, fair, moderate west to northwest winds.

German Submarine Now Is On Roll of The British Navy

The U-21, Sunk Off Fleetwood, Raised and Saved

Repairs Took Too Long, However, To Permit of Daring Raid on Cuxhaven Planned by Some Junior British Officers

Toronto, March 29.—A London cable to the Toronto Globe says: It now transpires that the famous submarine U-21, the officers of which were personally decorated with iron crosses by the Kaiser, has become part of the British navy.

It was sunk off the west coast, somewhere near Fleetwood, about the middle of February, the U-21 was raised and taken into Barrow-in-Furness. She was very slightly damaged, although the cause of disablement cannot be ascertained. In fact the whole affair is shrouded in mystery, and has been one of the most closely guarded of naval secrets.

Slight repairs were made, and in a very short time the U-21 was again at sea, headed for home waters, but manned by a British crew. Had it been possible to effect the repairs before her loss could be learned by the German authorities, a hare-brained venture was actually contemplated by some junior British officers. It was nothing less than a plan to sail the U-21 straight into Cuxhaven or some equally important German base, and before being discovered as an enemy craft to torpedo every German war vessel within range.

This time chapsing between her last report to the German admiralty, and her readiness for departure after being raised and repaired, made this plan impracticable, and the German authorities are now preparing to admit her loss.

German Navy Hard Hit By Russians In Baltic

Submarines Suffer Severely and Several Transports Are Destroyed—Russian Cruiser Joins French and British in Bombardment of Turkish Forts

Petrograd, March 29.—Severe losses have been inflicted upon the German naval units in the Baltic Sea by the Russians, according to a semi-official review of operations there made public last night.

"Early in September, the activity of our fleet in the southern Baltic compelled the enemy to modify his plan and concentrate his chief efforts upon operations by submarines. Nineteen of these attacks were made in two months but only one was successful.

"Our fleet has developed intense activity along the enemy's coast. Details of the operations cannot be published yet, but the enemy suffered heavy losses in fighting units and has been seriously impeded in the operations along his coast by the loss of a number of transports with munitions."

RUSSIAN CRUISER TAKES PART. Paris, March 29.—An Athens despatch says that the French battleships Suffren and Gueledu, which were badly damaged by fire from Turkish batteries in the bombardment of the Dardanelles forts on March 18, have left for Toulon, a French naval base, to be repaired in the dry dock there.

No attack was made in the straits on Sunday, the despatch says, but a Franco-British fleet and the Russian cruiser Askold bombarded the Bulair line of forts from the Gulf of Saros.

HONORS WON ON THE BATTLE FRONT BY MAJOR FRANK MAGEE

St. John Officer Personally Complimented by Generals Birdsall and Alderson—Two Others From Here Mentioned

News of distinctive honors for St. John men now on the battle line in France reached the city on Saturday in a letter received by Lieut. Col. B. R. Armstrong, O. C. the 3rd regt., C. A. from Lieut. Cyrus Inches, formerly of this city. The letter told of personal compliments by General Birdsall and General Alderson bestowed upon Major Frank Magee and his men of the heavy artillery for efficient work in dismantling an observation tower held by the enemy.

The news will be received with pleasure by friends in St. John. The work was being done with direct fire by the heavy artillery in shelter behind a hill and shooting at long range at a German observation tower which was an important post in aiding to direct the fire of the enemy's guns. For some time efforts by others to bring down the tower had been ineffective until Major Magee as battery commander began to direct the fire against the tower and it was not long before the day's work of regiment.

HARD PASSAGE. Word to the L. C. R. ticket offices today said that the steamer Minio, en route yesterday, was in the ice between Pictou Island and Cape Bear, and that the Stanley, ex-Georgetown, had had to put back last night, but left again this morning. The ice was reported heavy.

THE PASSOVER. The Jewish feast of the Passover will begin this evening at sunset and continues for one week. Special services are to be held in the synagogues on the first and last two days of the week. The feast is an important one with the Hebrew race.

FRENCH AGAIN CARRY THE WAR TO THE ENEMY

Driving Against German Forces On St. Mihiel-Metz Line

Almost a Slaughter, so Many Killed in Fighting in Champagne District—Belgian Airmen Proving Their Worth

Paris, March 29.—Along the heights of the Meuse, to the east of Verdun, in the vicinity of Les Eparges, the French are again driving against the German forces defending the St. Mihiel-Metz line of communications. Hard fighting has been in progress south of Etain in the Woerw district, but a series of strong night attacks have dislodged the Germans from several lines of trenches.

In the Vosges, the German artillery is bombarding the position which the French took up on the eminence of Hartmannswiller Kopf.

GREAT NUMBERS KILLED. In the Champagne district there has been no weakening of French pressure against the German lines, and reports from the region state that the numbers killed amount to actual slaughter.

Belgian aviators bombarded the German aviation camp at Ghisbiller, seven miles southeast of Bruges. Several hangars were set on fire, and two Taube machines were rendered useless. A bomb fell in the midst of a group of soldiers and it is believed that several of them were killed.

Desultory artillery fire is reported from several districts on the northern end of the battle line.

Canadian Dead Now 268

Wounded in Hospitals in France and England 500 and Number Growing

Ottawa, March 29.—Since the Canadian forces went abroad, there have been 268 deaths in the ranks, including those who died at Salisbury Plain or elsewhere, who have been killed in action or who have died from wounds sustained in action. The Princess Patricia's casualties are counted as part of the regular division. No separate check has been kept of the Princess Patricia's losses, but today's casualty list, taken in conjunction with those which have preceded it, shows fully that half of the total losses have been sustained in the ranks of this regiment.

From the first it has been subjected to fighting of the severest character and in the face of constant losses has maintained its steadiness under fire.

For the whole Canadian division the number of wounded at hospitals in France and England is around 500, and is growing.

VON KLUCK IS WOUNDED

MAY SELL ICE CREAM ON SUNDAY, JUDGMENT IN TORONTO COURT

Toronto, March 29.—In a carefully worded judgment, Magistrate Rupert Kingsford in the police court hands down his decision in an ice cream Sunday selling case, brought up by Louis Heyd, K. C., as a test case.

Sixteen keepers of ice cream parlors were summoned and one of them was taken as a test case.

Magistrate Kingsford contends that the holders of an ice cream license does not come under the act, and dismissed the charge of selling on Sunday. If His Worship's ruling is upheld, it means that the holder of an ice cream license may sell on Sunday if he so desires.

"In these Sunday cases," adds His Worship, "the only question is one of law. Private opinion or sentiment must be excluded in deciding how far a defendant is liable. It is purely a question of the construction of the act which applies."

PARLIAMENT WILL NOT SIT ON GOOD FRIDAY

Ottawa, March 29.—Parliament is to adjourn on Thursday but whether this will only be over Good Friday or until after Easter Monday is not certain. It is there is any chance of proroguing on Saturday, the adjournment will be for four months in all.

POLICE COURT

John A. Ferris, arrested on Saturday evening by Special Patrolman Barrett on a charge of drunkenness and assaulting Charles Landers, was fined \$28 or four months in jail.

One man on a drunkenness charge was remanded.

A case against Hop Lee, charged with having opium in his possession, was to have been taken up, but on application of Daniel Mullin, K. C., counsel for the defence, it was postponed until the afternoon of April 6. H. O. McInerney appeared as prosecuting attorney on behalf of the city.

Mrs. Richard B. Cline, of German street, received a letter today telling of them to Joseph Daly for the same amount. The letter testified about buying the cigars from Ramsey. Special Policeman McInerney and Barrett testified about recovering the cigars and about making the arrest, after the case was set aside until tomorrow morning.

Fred Ramsey said he had met the defendants in Union street about ten or twelve days ago and had purchased from them four boxes of cigars. He said he paid \$2 for them, and later sold them to Joseph Daly for the same amount. The letter testified about buying the cigars from Ramsey. Special Policeman McInerney and Barrett testified about recovering the cigars and about making the arrest, after the case was set aside until tomorrow morning.

The preliminary hearing in the case of William Stevens and Frank O'Shea, charged with stealing cigars from B. Bishop, proprietor of the Gem dining rooms, King Square, was taken up in the police court this morning. Mr. Bishop testified that he missed eight boxes of cigars on 19th, and on the following Sunday learned that four more boxes were stolen. He had kept them in a small room in his lodging house. The door had been locked, but the catch had been removed. He said they were worth about \$125 a box. He said the defendants boarded with him. He had no desire to prosecute them.

The magistrate remarked that he was not doing the prosecuting, it was the King vs. the prisoners, and he was only a witness.

COL. RAMSEY IN CITY TODAY

Head of Railway Construction Corps

A. M. S. MEN ARRIVE

Col. Kirkpatrick in City—Lieut. F. A. Kirkpatrick to be Quartermaster of 55th With The Rank of Captain

Although 200 men were called for, a response was made by six times as many to fill the ranks of the Canadian Railway Construction Corps. This was one of the statements made today by Lieut. Colonel C. W. P. Ramsey, of Montreal, officer commanding the units at noon. Despite the fact that more than 8,000 applications had been received he said so strict was the process of elimination that only 200 men had been thus far actually enrolled. Of these quite a number were now quartered at West St. John while the remainder are coming in small detachments. He thought it would be about ten days before the corps would be fully mobilized here. No list of officers had as yet been authorized from Ottawa.

Soldiers Arrive
As special train which reached the city about 1 p.m. today brought three companies of Canadian Army Service Corps from points in Upper and Lower Canada, to be added to the headquarters company under Major McKean from St. John for the formation of the Divisional Train from Canada under Lieut. Col. A. E. Massie. The newcomers who are from Montreal, Toronto, Winnipeg, Vancouver, were brought over the I. C. R. from Montreal and were taken at once to West St. John where they will be located for a few days at least in colonist cars near the quarters of No. 5 Co. Later, if they are kept here for any length of time it is probable that they will be quartered in the exhibition buildings, which have been offered.

The 55th
Lieut. Col. Kirkpatrick, O.C. the 55th battalion, arrived in the city at noon today. He said he had no further appointments to announce as officers but expected definite word from headquarters in a few days. Regarding recruiting he said reports were being encouraging. So far as St. John is concerned, militia men here say that while it is true that the ranks of the new battalion have not been strengthened very specially from local volunteers, the best men offering are being selected and this has caused a natural slowness in swelling the lists.

More Officers
Rumors are still current with regard to appointments to the 55th. While headquarters has not yet authorized any list it is understood that some are practically certain of official posts. Lieut. F. A. Fitzpatrick of this city, formerly quartermaster of the 71st York Regiment will, it is understood, have the important post of quartermaster and receive the rank of captain with the new battalion. He is a South African veteran and has many friends through the maritime provinces where he is well known as a commercial traveler. Capt. W. J. Osborne, of the 71st, whose appointment was referred to in the Times last week, will probably have the rank of major and command a double company. Capt. H. F. Woodbridge, of the composite regiment in Halifax, and Lieut. A. W. Gregory of St. Stephen will likely be other appointees.

Training Today
Local training today consisted of a route march for the 29th to Manchester's field where tactical manoeuvres were in order, while drill was continued by the Army Service Corps near their quarters in Carleton.

Capt. E. E. Bishop, M.D., officer commanding No. 8 Field Ambulance, has received authority to sign four more men for medical duties overseas. The four to Halifax last week to join a medical unit for foreign service are organized there. He will take names of any volunteers.

At Outside Points
Major W. H. Gray, recruiting officer for York and Sunbury has been instructed to recruit French-Canadians for the 22nd Battalion, which now has its headquarters in Amherst, N. S. As they are enlisted they will go forward to the mobilization point immediately.

Ten recruits of the 28th Battery of Field Artillery failed to pass the medical examination and returned to their homes from Fredericton on Friday. Some of them were from Nova Scotia, others from Newcastle.

During the absence of Lt. Col. Harrison on an inspection tour in Upper Canada, Capt. W. A. Harrison is the officer commanding the Divisional Ammunition Column in Fredericton.

George Eaton, of Smith's Corner, York County, and David Somers, of Margerville, Sunbury County, have enlisted in the 55th Battalion. This makes thirty-six men enlisted in Fredericton for the 55th. Major Gray will visit York and Sunbury counties this week on a recruiting trip.

OURSELVES AND OUR NEIGHBOR
It seems clear that the education of a people in the wisdom and ideals that make them strong and great is as important for national self-preservation as is direct provision for the national defence. Even if it should appear to our national creed that no two citizens should think alike, we have still to achieve a national unity through the assistance that every one should know why he thinks as he does, and should learn to work with those whose thoughts are different.

It may be that the first tenet of our ultimate American pedagogy will be that every man's education must be different from every other man's; but if so, this tenet will need to be balanced by two others, namely, that every man's education must be honest and thoroughgoing as far as it goes, and that every man must learn, as far as in him lies, to understand his neighbor's point of view.—Dr. Nathan C. Schaeffer in School and Society.

MORNING SESSION OF COMMONS TODAY

Ottawa, Ont., March 29.—The report of the election law committee was presented in the house this morning. The committee was unanimous on the amendments to the election law but not in recommending a vote for soldiers.

Sir Wilfrid Laurier asked if the War Office had been consulted as to the practicability of the proposal. Hon. Mr. Doherty answered that he knew of no consultation. Sir Wilfrid asked in regard to Easter adjournment. He thought it was impossible now to prorogue before Easter. There were seven new government bills today and one very important. Sir George E. Foster said he had not abandoned hope if the house displayed the same "diligence and good feeling" as last week. If the House had not then prorogued an adjournment would be taken over Good Friday, but there would be no long recess.

At the request of the admiralty, a mine-sweeping flotilla was provided at certain ports to keep the approaches clear of the enemy mines. A patrol was established by small vessels at the Gulf of St. Lawrence and the Bay of Fundy. Guns were mounted at certain places for shore defence and also there was a patrol of motor torpedo boats and a mine service. This last was carried out under control of the Naval Volunteers Reserve on the Pacific coast. Thirteen wireless stations were closed on the outbreak of war. Owing to the improvement of conditions all these stations would be re-opened on the Pacific coast. Only two enemy vessels were seized in Canadian ports. The German bark Belias, which was condemned, and an Austrian vessel Idra, which was released under days of grace provision.

MAN AND THE BEAST.
The greatest contribution of biology to intellectual emancipation has been the doctrine of evolution, that great theory which has revolutionized all our thinking regarding man and nature. And evolution is the distinctive contribution of biology to civilization, for it was in the living world and especially in the human realm that the doctrine of evolution came as the great emancipator.

The greatest theme of evolution is not the origin of species, not even the origin of living things, but rather the oneness of all life. This is indeed the greatest principle of biology, namely, that through all the million diversity of the living world there runs this fundamental similarity and unity. We also are living things and all the other forms of life is of direct interest to us. In the lower organisms we see ourselves in simpler and more primitive forms. We see man from the standpoint of the whole living world, as superior being in another planet might look upon us, and as a result we have ceased to be large extent to regard the universe as existing merely for us.

In this intellectual revolution we have ceased to occupy a position of solitary grandeur in a little human universe; we have not grown less, but rather become so much greater that man's relative position in nature has changed.—Professor Edwin G. Conklin in Science.

All the Kings of Prussia have been called either Frederick or William. Two were seeking to succeed their fathers as members of the city council in Alton, Ill. Max Rubenstein, unable to serve because of illness, is backing his son, and Alderman Grosshans, also ill, has launched the candidacy of his son. The only great nations which have voluntary military service are the British Empire, the United States and China.

NEW WARSHIPS FOR RUSSIA IN THE BALTIC

Reuters correspondent at Petrograd telegraphs that the Russian fleet in the Baltic has been reinforced by the addition of modern fighting units. This addition is believed to consist of four dreadnoughts, laid down in Russian yards in 1908, which were nearing completion at the beginning of the war. It may also include another division of four capital ships laid down in 1912. The first four mounted twelve 12-inch guns each. The second division is armed with nine 14-inchers each.

TWO DOLLARS ON EACH OFFICIAL IN GOVERNMENT SERVICE?

Intimation to Public Accounts Committee Relative to Binoculars—General Hughes' Brother Teils of Boots

Ottawa, March 29.—That \$2 for each binocular bought went to a government official was intimated in the public accounts committee this morning. Mr. Binkley, an Ottawa jeweller, said that he sold glasses to Mr. Birkett, who sold them to the government. Binkley got a glass and Birkett what he could. There was a contract to this effect and \$2 a glass was mentioned for "incidentals." Binkley said "Mr. Birkett told me he had to pay \$2 a pair to a third party." I would not stand for that. "Who was the third party?" asked Mr. Carvell.

The mentioned Col. Hurdman, replied "Binkley." The Boots Col. Hughes, commander of the 21st Battalion at Kingston and brother of General Hughes, told the parliamentary committee this morning that he did not think much of most of the boots furnished his regiment. His men were equipped with boots in November. They proved all right so long as the weather was dry, but when the wet weather came along the boots "fell to pieces." The soles soon gave way then, and likewise the stitching; afterwards they were replaced by better boots. Since then they have given satisfaction.

"If you had a regimental cobbler at the deal, you would have had no trouble," said Mr. R. A. Pringle. "Not so much. If the men had had two pairs of boots each it would have been better."

WAR TAX ON MAIL EFFECTIVE APRIL 15

The one cent war tax on letters and post cards will become effective on April 15. Wherever possible, stamps on which the word "war tax" have been printed should be used for this purpose, they will be accepted. This war stamp or additional stamp for war purposes should be affixed to upper right hand portion of each address side of the envelope or post card, close to the regular postage so that it may be readily cancelled at the same time as the postage.

THE MAN ON THE LAND.

We are at the parting of the ways. For years without number—for years that run into the centuries when men have slaughtered each other on many fields thinking that they were on the side of right, and that their gods have ground men into the dust, the deponents thinking themselves divine—over all these years there have been men on the land trying to see the light, trying to make mankind here, hoping but never realising. They were men taken out of the peasant to be hurried against other men they did not know and for no rewards except further enslavement. They may even have been developed to a high degree of manual or technical skill that they might be better support governments to make conquests. They have been on the bottom, upholding the whole superstructure and pressed into the earth by the weight of it. When the final history is written, the lot of the man on the land will be the saddest chapter.

But in the nineteenth century, the man at the bottom began really to be recognized politically. This recognition is of two kinds, the use that a government can make in its own interest of a highly efficient husbandry, and the desire to give the husbandman full opportunity and full justice. I hope that in these times the latter motive always prevails. It is the only course of safety.—Professor Liberty Hyde Bailey in Science.

THE WAR AND THE GREAT ENGLISH UNIVERSITIES

The Universities of Oxford and Cambridge have not contributed about one half of the men who have given England leadership in government, science and letters. Two-thirds of their students have enlisted in the war; Trinity College has been converted into a military hospital. Could we not select from those who would not otherwise have the opportunity men of ability equal to the students who have attended the English universities and prepare them for work equally important? And could we not give opportunity to foreign men and women of ability to continue their work from which they will be debarrred by the conditions following the war?—The Popular Science Monthly.

MUST DECIDE SOON

Washington, March 29.—The time limit fixed for the German cruiser Prinz Eitel Friedrich to make repairs at Newport News is nearing expiration, and the battleship Alabama is on her way from Philadelphia to Hampton Roads, to enter American waters.

GERMAN SOCIAL EFFICIENCY THE WORK OF AMERICAN

The inception of the non-political half of German progress was credited to the genius of Benjamin Thompson, an American social teacher, by Prof. Frank H. Giddings of Columbia university in an address before the New York Peace Society.

"Born in Woburn, Mass., in 1788," Professor Giddings said, "Thompson found himself after a brilliant and distinguished career, but while still in the prime of life, in the employ of the elector of Bavaria. Here he was given a free hand and worked out the ideas which achieved the so-called impossible. His social efficiency programme, adopted by Germany and yet to be adopted by all the world, to its lasting profit, was made in Massachusetts by Puritan faith, conscience, frugality and energy. Thompson drained and improved the waste land about Munich. He constructed and improved dwellings for the working classes and provided for them a practical education—the education that now, after a hundred years, we in America are beginning to organize under the names of 'Industrial training' and 'Vocational guidance.'"

VALCARTIER

Ottawa, Ont., March 29.—The arrangements being made by the minister of militia for divisional training camps do not provide, so far, for eventual mobilization at Valcartier. This training ground is to be used for the Quebec area but the Ontario troops are to be concentrated at Kingston, Niagara and London, the prairie provinces at Sewell, Alberta troops at Medicine Hat and another point and those of British Columbia at a camp yet to be selected.

That all the forces will eventually go to Valcartier is possible but it is not provided for in the present arrangements.

MAYFLOWERS AND CATKINS. The catkins are out on the willows, and Mayflowers are budding in the sunny places here and there in Rockwood Park. Thomas E. THOSE INTERESTING TOURISTS

A Hollander who recently returned to the United States after a visit to various parts of Germany, tells the readers of American newspapers that Germany has abundance of money and supplies, and that every German is assured in his own mind that his country will win in this struggle.

the business men, are in sympathy with Germany, expects to see France make a separate peace and that Germany will thus be enabled to present a stronger front to her other enemies.

A number of persons have come to the United States after a tour in Germany with exactly the same story of German preparedness and assurance of victory. The fact gives rise to the suspicion that these gentlemen may be well paid for their work.

The Standard has discovered a Liberal who was willing to "traffick" in war supplies. It is to be noted, however, that he had to yoke up with a Conservative before he could do business.

A French committee reports that shocking outrages have been committed by Germans upon old men and upon women and children, and that prisoners are sometimes left for twenty-four hours or more, some even for two or three days, without food and drink.

Chaplain Hooper does well to say a word in defence of the men of the 26th Battalion. But there is a French-Canadian Battalion in Amherst which needs no defenders. Everybody is loud in its praise.

Dominion Parole Officer Archibald says there is room in our cities for a great amount of organization work for the purpose of helping and protecting the youth, and that the right time to begin with a boy is before he has a chance to form bad habits.

Further evidences of graft in connection with military supplies are submitted from day to day before the public accounts committee at Ottawa. It was learned on Saturday that the government had refused a low offer from Liberal vendors of field glasses and later bought the same or poorer ones at considerably higher figures after a Conservative opposition had entered the arena.

Diamond's Peculiar Position

The South African Diamond Mines are closed. The cutting and polishing industry of Antwerp is ruined. The only other centre of the kind, Amsterdam, is little better off.

At present there are no Diamonds being put on the market. The controlling syndicate is holding their surplus stock.

The Canadian government has recently levied a war tax of 7 1/2 per cent.

Diamonds must just naturally go much higher. The American market, which is being led by the war, buys about 70 per cent of the world's output.

We have a beautifully selected stock of this kind of gems. Our prices have not been changed. They are the lowest in the land.

Minister of Marine Makes Statement to Commons Under Consideration of the Naval Estimates - Now Under Admiralty Orders

Ottawa, March 28.—The "Laurier tin-pot navy" has vindicated itself in service of the British admiralty of the coast of Canada. The information was given to parliament somewhat unwillingly by Hon. Douglas Hazen, minister of marine, at Saturday night's sitting.

The Canadian cruisers Niobe and Rainbow, said Hon. Mr. Hazen, were under the Laurier naval act, hastily prepared for service at the outbreak of the war and were immediately placed at the disposal of the British admiralty.

The Niobe, which had been partially dismantled, had to undergo repairs before she was ready for service. She was then attached by the admiralty to the cruiser squadron of British vessels based upon Halifax, whose duty it was to keep the North Atlantic trade routes open and clear.

This squadron, the minister explained, consisted of the cruiser Essex and three consort cruisers, while in the early stages of the war the Princess Royal, which took a prominent part in the last naval fight in the North Sea, was also attached to the cruiser squadron based upon Halifax.

Mr. Hazen agreed with Mr. MacDonald that the action of Mr. J. K. L. Ross, in presenting the steamer Canada to the government for the use in the war, was deserving of acknowledgement by parliament. "It is not the only patriotic action of Mr. Ross," said the minister.

Mr. Loggie, of Northumberland, N. B., complained that the United States flag was flown over the wireless station of the Universal Radio Company, at Newcastle, N. B.

He was told by Mr. Hazen that the company was an English one, that the department of the naval service had no control over the flags flown there, and that the militia department censored the messages sent out.

The minister of railways is to be empowered, with the approval of the governor-in-council, to carry out any such agreement, lease or purchase.

The branch line in question was built by the Grand Trunk Pacific in order to give the road connection between Fort William and the main line of the N. E. R. at Lake Superior Junction. If the company is not to take over the operation of the N. E. R., then, of course, the government in operating the road will require also the company's present branch line to Fort William, thus giving the outlet to the lake port, for the grain moving season.

CANADA IN THE WAR

The steamer Scandinavian which reached Halifax yesterday from Liverpool had on board twenty-three Canadian soldiers of the first contingent who had been ill or wounded in France.

Rev. E. B. Hooper, chaplain of the 20th battalion, in his sermon in St. Paul's yesterday defended the men of that unit against the reports and unjust criticism made concerning them. He said they were "Men and not saints" and as such were subject to the faults of men, but many of the stories being told concerning them were grossly exaggerated.

Rev. Dr. Morrison while preaching to the Army Service Corps, part of which attended his church yesterday, made the suggestion that instead of each detachment going to its denominational church there should be one united service for non-Catholics say at nine o'clock every Sunday morning in Centenary, St. David's, Trinity or some other large church. Word has reached St. John telling of Joseph P. Mahoney who went from here with the first contingent, having been slightly wounded in one of his legs in France. He was formerly an I.C.B. brakeman and is a step-son of Peter Mahoney of Brussels street. He has been taken to the hospital at Boulogne. An inspection of the 8th Canadian Mounted Rifles was made at Amherst, N.S., today by Col. Smart, brigade commander, and Lieut. Col. Black, brigade major of the 2nd M. R. Brigade.

Thomas Mann, a member of the crew of the steamer Monmouth, now in port here, was a corporal in the British army last August but has received his discharge through having received serious wounds. He almost completely lost his hearing from the reports of the firing. He described the retreat from Mons in which he took part as disastrous for the British army, and says that his regiment, the South Lancashire, went into action 1,100 strong and only 78 were left to answer the roll.

COLLEGE GIRL WRITES FAIRY PLAYS AND BOOKS ON SERIOUS PROBLEMS

Alice Grentenberg

Miss Alice Grentenberg whose dramatization of "Alice in Wonderland" is one of the stage successes of the season has turned from fairy tales and "little plays" to a serious consideration of social and economic conditions that affect women, and in her new novel, "The Conscience of Sarah Platt," these subjects are made the basis of an interesting romance.

Although she but recently graduated from Bryn Mawr college, Miss Grentenberg has two novels and several plays to her credit. Her home is in Chicago.

RECENT DEATHS

St. John from New York about five weeks ago and died until his death boarded in Dock street.

After a lingering illness, Mrs. Alice Hart passed away yesterday morning at the residence of her daughter, Mrs. I. Isaacs, 28 Coburg street. She was in her 82nd year. Mrs. Hart, who was the widow of Solomon Hart, a native of London, England, came to this city some fifty years ago. Her many kind and charitable deeds will always remain a loving tribute to her memory. She leaves the record of a useful and well spent life. One son and five daughters survive—Abraham S. Hart, Mrs. J. Isaacs, Mrs. L. Green, Mrs. I. Isaacs, Mrs. R. Landau, of this city, and Mrs. M. W. Wyzanski, of Boston.

Services will be held at the residence of I. Isaacs, 28 Coburg street, at 8 o'clock this afternoon. Interment at the Green-Hart cemetery.

Frederick, N. B., March 28—(Special)—The death of Mrs. Joseph C. Risten occurred at her home, Smythe street, Saturday night, after a lingering illness. The deceased was Miss Richey before marriage. She is survived by her husband and several step-children. The latter are Mrs. Robert R. Rankine, of St. John; Mrs. Edwin H. Clarke, of Fredericton; Fred. Risten, of Woodstock, and Harry Risten, in the western States. Mrs. Mary MacPherson, Mrs. James Maxwell and Mrs. Henry B. Clarke, of this city, are sisters of the deceased. The funeral will take place Monday afternoon, Rev. Thomas Marshall conducting the service. Interment will be at the Rural cemetery.

Fredericton, March 28—(Special)—Joseph Sanda, a well known resident of Fredericton, died at Victoria Public Hospital early this morning from blood poisoning. He injured a finger a few days ago, and infection set in. He was admitted to the hospital shortly after 6 o'clock Saturday evening, and death ensued about eight hours later. A widow and one daughter survive. The funeral will take place Tuesday.

News of the death of a prominent Canadian business man well known in St. John was yesterday received by G. W. Merritt, New Brunswick manager of the Great West Life Assurance Company, in the following telegram from Winnipeg:

"Mr. Brock died at Long Beach (Cal.), today at noon; will send further particulars as soon as received. A. Jardine"

The late J. H. Brock was managing director and the real founder of the Great West Life Assurance Company. When the first branch office was established in St. John twenty years ago it was he himself who came here for the opening. The board of directors of the Great West Life Assurance Company then was composed of the late J. De Wolfe Spurr, Dr. Thomas Walker, Joseph Allison and G. W. Merritt.

The late Mr. Brock came of well known eastern Canada family but he settled in Winnipeg over thirty years ago. At first he was associated with Captain Carruthers until Mr. Brock decided to strike off on his own account. He met instant and remarkable success, working up one of the largest assurance companies on the continent. The Winnipeg Tribune said of the late Mr. Brock:

"It was during the agitation for emancipation from railway monopoly, away back about a quarter of a century ago, that Mr. Brock came into prominence, and that the public discovered his real and pronounced ability. With those deep black eyes of his burning with interest and sometimes with indignation, and with cheeks flushed with excitement in the struggle, Mr. Brock would take the platform and with facts and figures, backed with unanswerable logic, would fight the case for the people through-

VIRGINIA GIRL GAINED 15 POUNDS

Was So Weak and Thin, Thought She Was Going Into Decline. Tells How Vinol Helped Her.

Norfolk, Va.—"My health was very poor. I suffered from nervousness, had no appetite and was so thin, I thought I was going into a decline, and nothing I took seemed to help me until one day a friend came into my office and told me if I would take Vinol it would do me lots of good.

"I have now taken six bottles and have gained fifteen pounds; have a good appetite and can eat anything. It is wonderful what Vinol has done for me in building up my health. My own friends hardly know me and when anyone comes into my office the first thing I begin to talk about is Vinol."—MATTIE DENNING, Norfolk, Va.

The testimonial letters which we are continually publishing prove the value of Vinol, our delicious cod liver and iron tonic, and what it did for Miss Denning it will do for any thin, tired, nervous, run-down, worn-out man or woman.

If we can induce you to try a bottle of Vinol as a body-builder and strength-giver, and you do not find it is all we claim, we will return your money on demand.

RECENT DEATHS

St. John from New York about five weeks ago and died until his death boarded in Dock street.

After a lingering illness, Mrs. Alice Hart passed away yesterday morning at the residence of her daughter, Mrs. I. Isaacs, 28 Coburg street. She was in her 82nd year. Mrs. Hart, who was the widow of Solomon Hart, a native of London, England, came to this city some fifty years ago. Her many kind and charitable deeds will always remain a loving tribute to her memory. She leaves the record of a useful and well spent life. One son and five daughters survive—Abraham S. Hart, Mrs. J. Isaacs, Mrs. L. Green, Mrs. I. Isaacs, Mrs. R. Landau, of this city, and Mrs. M. W. Wyzanski, of Boston.

Services will be held at the residence of I. Isaacs, 28 Coburg street, at 8 o'clock this afternoon. Interment at the Green-Hart cemetery.

Frederick, N. B., March 28—(Special)—The death of Mrs. Joseph C. Risten occurred at her home, Smythe street, Saturday night, after a lingering illness. The deceased was Miss Richey before marriage. She is survived by her husband and several step-children. The latter are Mrs. Robert R. Rankine, of St. John; Mrs. Edwin H. Clarke, of Fredericton; Fred. Risten, of Woodstock, and Harry Risten, in the western States. Mrs. Mary MacPherson, Mrs. James Maxwell and Mrs. Henry B. Clarke, of this city, are sisters of the deceased. The funeral will take place Monday afternoon, Rev. Thomas Marshall conducting the service. Interment will be at the Rural cemetery.

Fredericton, March 28—(Special)—Joseph Sanda, a well known resident of Fredericton, died at Victoria Public Hospital early this morning from blood poisoning. He injured a finger a few days ago, and infection set in. He was admitted to the hospital shortly after 6 o'clock Saturday evening, and death ensued about eight hours later. A widow and one daughter survive. The funeral will take place Tuesday.

News of the death of a prominent Canadian business man well known in St. John was yesterday received by G. W. Merritt, New Brunswick manager of the Great West Life Assurance Company, in the following telegram from Winnipeg:

"Mr. Brock died at Long Beach (Cal.), today at noon; will send further particulars as soon as received. A. Jardine"

The late J. H. Brock was managing director and the real founder of the Great West Life Assurance Company. When the first branch office was established in St. John twenty years ago it was he himself who came here for the opening. The board of directors of the Great West Life Assurance Company then was composed of the late J. De Wolfe Spurr, Dr. Thomas Walker, Joseph Allison and G. W. Merritt.

The late Mr. Brock came of well known eastern Canada family but he settled in Winnipeg over thirty years ago. At first he was associated with Captain Carruthers until Mr. Brock decided to strike off on his own account. He met instant and remarkable success, working up one of the largest assurance companies on the continent. The Winnipeg Tribune said of the late Mr. Brock:

"It was during the agitation for emancipation from railway monopoly, away back about a quarter of a century ago, that Mr. Brock came into prominence, and that the public discovered his real and pronounced ability. With those deep black eyes of his burning with interest and sometimes with indignation, and with cheeks flushed with excitement in the struggle, Mr. Brock would take the platform and with facts and figures, backed with unanswerable logic, would fight the case for the people through-

ADVERTISING: (From Beck's Weekly, Montreal.) The Montreal merchant who spends \$20,000 to \$25,000 a year in newspaper advertising... HAD DYSPESIA: So Bad Could Not Take a Drink of Water Without Suffering. Dyspepsia is one of the most difficult diseases of the stomach there is to cure. You eat too much. Drink too much. Use too much tobacco. You make the stomach work overtime. You make it perform more than it should be called on to do. The natural result is that it is going to rebel against the amount of work put on it. It is only a matter of a short time before dyspepsia follows. That old, forty year old remedy, Burdock Blood Bitters, will cure the dyspepsia and will cure it to stay cured as we can prove by the thousands of testimonials we have received from time to time. Miss Sarah McRae, Newfield, Ont., writes: "I write to say that I have used your Burdock Blood Bitters, and have found it the best remedy I have ever used for dyspepsia. Two years ago, I had stomach trouble so bad that I could not even take a drink of water without suffering. I took six bottles of B.B.B., and have been entirely cured, and can now eat anything without any bad after effects." Burdock Blood Bitters is an old and well tried remedy but on account of the many substitutes we would ask you to make sure that our name appears on both the label and wrapper as this preparation is manufactured only by The T. Milburn Co., Limited, Toronto, Ont.

Home Face Peeling Becomes Popular: No complexion treatment yet discovered seems to have become so generally and so immediately popular as the mercurized wax process. Evidently the reason is that this method actually gets rid of a bad complexion, which can hardly be said of any other. To temporarily hide or bleach the defective skin with cosmetics cannot compare with the effect of literally bringing the skin itself. Mercurized wax takes off the offending surface skin in four-line zones of it left. The new complexion produced exhibits a healthy glow and grish beauty obtainable in no other way. This wax, which you can get at your druggist, is applied at night in the same way you use cold cream, and washed off next morning. Here is one thing that actually does more wrinkles, remove them quickly, and at trifling cost. Powdered exfoliate, 1 oz. dissolved in 1/2 pt. witch hazel. Use as a whitener was taken over the telephone, face bath.

Italy Calls To Colors Alpine Troops and Engineer Reserve Officers

GOLD LEAVING COUNTRY

Preparations For Success of Allies, But Member of Senate is Treated For Suggesting Surrender

London, March 29.—The London Morning Post has received the following letter from a foreigner residing in Constantinople, and dated March 28:

The excitement has been very great for the last ten days. The German and Austrian banks have sent away all their gold to Konia, and the Imperial Ottoman Bank, whose English and French directors were turned away from a month ago, has been ordered by the Turkish government to send all its gold to Constantinople.

The story goes that in the senate on Monday Ahmed Riza said: "Turkey is practically ruined, but it is not yet too late, even now, at the eleventh hour, to save her, by opening the straits and welcoming the English and French fleets."

All of the imperial princes are ready to flee to the east. Some of them already have sent away their harems to Ada Bazar.

The story says that nothing will induce him to leave Constantinople. Large numbers of German and Austrian families have fled there within the last few days; also many Italians and Jews, who say they are afraid of the Turks themselves.

On Monday and Tuesday the whole population of Prince Islands, the sea of Marmora, was turned away, on Monday night the poor wretched people arrived too late to go anywhere, so they slept on the pontoons under the Galata Bridge.

The allied fleet got through, the idea is that the Turkish fleet will make a last fight and there will be a naval battle off the Prince Islands.

Whether the Goeben by that time will be sufficiently patched up to take part seems doubtful. Within the last week most of the chief German military and naval officers have come back, saying that it will be impossible for the German fleet to force the straits, because they are too strongly fortified.

It is believed that ever since last May the German admiral who is responsible for the Cuxhaven fortifications has been working on the forts, that is to say, he was there from May until August.

There are supposed to be thirty-five thousand men at the Dardanelles, but within the last fortnight many more have been brought up from Smyrna.

On German Side? During the last fortnight about 100 miles and any amount of ammunition, guns, and so forth have been coming through Rumania from Germany.

On the German side, it is believed that there is no attempt at concealment and ammunition comes through quite openly.

There is nothing to hinder the Germans from bringing in even big guns.

Almost every day boats come up from the Dardanelles full of wounded men. They are sent off at night to San Stefano and Hydar Pasha.

The Germans are most cheerful and optimistic, and with their usual arrogance they go on boasting of how they will defeat the allies at the Dardanelles.

The Turks are really frightened, and in talking to several of them I find they are afraid of the "hordes of Greek ruffians" which the Germans make them believe—if the English get through, supposing by a miracle, such a thing were to happen—they will bring along with them as an army to massacre the Turks and pillage the towns.

A PHILOSOPHER IN THE TRENCHES Inspiring Words of a Canadian Who is Fighting For King and Empire

"All well so far," writes a member of the first Canadian contingent, "and what there is in store it is impossible to foretell. One thing I know and that is if God sees fit to allow me to return I shall more than ever love my Canada, shall more than ever realize her beautiful, her glorious characteristics.

"When we return, that is those of us who do return, we shall not regret our experience; we shall be proud of the fact that we gave the best that is in us in defence of the mother country and the empire to which we belong, but we shall more than ever be disposed, at home and in church, to lift up our voices and to say 'Thank the Lord I'm a Canadian.' This is the feeling that is deep down in the hearts of all of us. It inspires us to fight the harder, to endure cheerfully the hardships of the trenches and of exposure, as we feel we are fighting in a measure out of gratitude to the country we love, and we are more than ever disposed to credit and honor of our own beloved land."

Invictus Week

DURING THIS WEEK FROM COAST TO COAST, ALL OVER CANADA, INVICTUS AGENTS ARE DISPLAYING THE NEW SPRING AND SUMMER STYLES OF CANADA'S "BEST GOOD SHOE" INVICTUS.

Made in Canada, by Canadian workmen, in one of the most up-to-date factories on the Continent, Invictus Shoes embody all the qualities necessary to fulfil the requirements of Canadian conditions.

The new styles are not only according to fashion's latest decrees, but are consistent with the conservatism which has always distinguished footwear of quality and particularly Invictus.

From one end of the Dominion to the other, Invictus Shoes are on sale, and Invictus Agents, anywhere, will be pleased to show you the new models and to explain why Invictus Shoes merit special attention.

Take advantage of this opportunity to gain a better idea of the merits of real Canadian footwear, before the regular demand for Spring and Summer shoes has depleted the stocks.

The writer of the foregoing may be termed a philosopher in the trenches. He is clearly a patriot of the intense order. But his words should sink deep into the hearts of his countrymen. They should nerve and strengthen all like him to dedicate the best that is in us to the service of our country. It is with inspiration of this sort that the nation and

Everywhere

IN CANADA, THIS WEEK LEADING DEALERS ARE SHOWING THE LATEST IDEAS IN INVICTUS FOOTWEAR.

There is a story connected with this announcement. Some years ago, when we commenced to make Invictus Shoes, it was decided to restrict their distribution, so as to ensure uniformity of price, as well as to prevent unreliable dealers from selling Invictus Shoes. We desired to keep the name Invictus free from questionable selling methods, and we have done so, in spite of the numerous obstacles we had to overcome.

To-day, as a result of this careful policy, the 600 dealers handling Invictus Shoes, are the ones of highest repute in their respective localities. By careful foresight in selecting these dealers, and in enlisting their interest, we have ensured that Invictus Shoes are sold to the public under conditions as favourable as possible.

Persistent effort has resulted in Invictus Shoes being sold practically everywhere in Canada. The policy which we inaugurated years ago, is still in force, and we are more determined than ever to continue to merit the consideration of all careful shoe buyers throughout the Dominion.

Exciting Race in City League

Sweeps Leading By Small Margin—Total Final and Averages of the Players

The race for the leadership of the second series in the City League is creating interest among bowling enthusiasts throughout the city, and there is considerable speculation as to the outcome. The Ramblers got away to a good start and led the league until a few nights ago, when the Sweeps cut down their lead and forged ahead by a small margin. The Tigers made a very poor showing at the first of the series, but have now struck their stride and are slowly but surely closing with the leaders. They will be heard from before the league race is over. The Braves are also well up in the running and are being closely followed by the Giants and Elks.

ST. JOHN CANNOT AFFORD TO NEGLECT HER CHILDREN

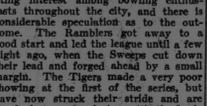

In the course of his sermon in the Congregational Church last evening Rev. J. Houghton made an appeal in behalf of the grants to the Free Kindergarten, Rockwood Park, Playgrounds Association, etc., and appealed for greater co-operation and a more active interest on the part of the citizens in civic affairs. Referring to the work done by the organization named he said: "I believe it is as much a Christian's duty to maintain an effective ambulance corps as it is to maintain an effective ambulance corps. The church should see that the road from Jerusalem to Jericho is safe for travelers."
"This evening I want to speak a few words in behalf of those who cannot speak for themselves. I allude to the children of the city—the boys and the girls—who are some day to be men and women of St. John—very many of whom will be sadly neglected this year unless the commissioners and citizens of St. John are willing to make provision whereby their education and recreation shall get suitable attention and supervision."
"Neither St. John nor any other city can afford to neglect her children."

COULD NOT GO TEN STEPS FOR THE PAIN IN HIS KIDNEYS.

When you get a pain in the back you may rest assured that it comes from derangement of the kidneys, for were there not something wrong with the kidneys the back should be strong and well.
Doan's Kidney Pills regulate the kidneys, and there is no further excuse for any kidney trouble to exist. What more needs to be said? While Doan's Kidney Pills are not a "balm for every ill that flesh is heir to," they are a positive, never-failing remedy for every disease that has its inception in the improper action in those delicate little filters of the blood, the kidneys.
Mr. Adair Clever, Haverhill, Ont., writes: "I was troubled with my kidneys for four years. They were so bad, at times, I could not go ten steps for the pain they caused me. My doctor could not do me any good. A friend advised me to use Doan's Kidney Pills. I bought five boxes, and now I have been cured for over three years. I will recommend them to whoever may be suffering from kidney trouble."
Doan's Kidney Pills are 50c per box; 3 boxes for \$1.25, at all dealers or mailed direct on receipt of order by The S. M. Milburn Co., Limited, Toronto, Ont.
When ordering direct specify "Doan's."

WATCH SHARP THERE TO PREVENT COAL SHORTAGE

English Dealer Fined Though No His Fault and Only Few Pounds Were Lacking
(London, Eng. paper.)
At East Ham police court on Tuesday, James Watkins, coal merchant, of 11 Tabernacle avenue, Plaistow, was summoned for exporting for sale bags of coal of less weight than they were represented to be; he was also summoned for not having labels indicating the weight of a number of sacks of coal. J. W. Richards defended.
H. H. Card, inspector of weights and measures, said that on February 3, three of defendant's trolleys were in Napier road, East Ham. One contained 8 cwt. and 18½ cwt. sacks of coal. On being weighed six of the cwt. sacks were found to be of short weight, two by 3 lbs., three by 2 lbs., and one by 1 lb.; while five cwt. sacks each showed a deficiency of 1 lb. Mr. Watkins was seen later and he said that the man in charge of the van was hawking coal in small quantities. It was not to be supposed that Mr. Watkins was deriving any profit from the shortage, but he happened to be the person who was legally responsible. The coal was sold to people who could afford to buy it only in small quantities, and they should have every pound that they were entitled to. W. J. Grubb, the Stipendiary Magistrate: "Certainly, especially at a time like this when prices are so high. What is charged?"
Mr. Richards: "About 1s. 9d. or 1s. 10d. per cwt."
Mr. Card: "Some of it runs up to two shillings."
Continuing, Mr. Card said that five of the sacks of coal were not labeled. The importance of this was that if any had been short, proceedings could not be taken, because there was no representation of weight.
Mr. Richards said that the shortage amounted to only 18 lbs. out of 2,000 lbs., the total weight represented to be on the van. It might easily have dropped out of the sacks or have been pilfered by boys. As regards the labels, these frequently got loose and fell off. The defendant said that he had been in the coal business in East Ham for about forty years. He had never had a single complaint made against him before, and he could not account for the shortage on this day.
In reply to Mr. Richards, the defendant said he gave a way in a year a considerable quantity of coal to widows and poor people.
His worship said he had not the slightest doubt that Mr. Watkins was quite innocent in the matter, but the fact that there was a shortage could not be overlooked.
The defendant was fined 5s. and costs in respect of shortage and 10s. and costs on the other summons.

SAGE TEA PUTS LIFE AND COLOR IN HAIR

Don't Stay Gray! It Darkens So Naturally That Nobody Can Tell
You can turn gray, faded hair beautifully dark and lustrous almost overnight if you'll get a 50 cent bottle of "Wet's Sage and Sulphur Compound" at any drug store. Millions of bottles of this old, famous Sage Tea Recipe are sold every day, says a well-known druggist here, because it darkens the hair so naturally and evenly that no one can tell the difference. It is a well-known fact that those whose hair is turning gray, becoming faded, dry, scraggy and thin are suffering from a lack of vitality. After one or two applications the gray hair vanishes and your locks become luxuriantly dark and beautiful—all dancing, glossy, itching and falling hair stops.
This is the age of youth. Gray-haired, unattractive folks aren't wanted around, so get busy with Wet's Sage and Sulphur tonight and you'll be delighted with the change in hair and your youthful appearance within a few days.

CANCER IN MAINE

Cancer is a disease whose rate of incidence varies in different parts of the country; it is highest in the State of Maine. Now, I have no doubt that the races in Maine which are not immune to cancer. I know that many medical men do not respond favorably to the contention that there is a racial cancer diathesis in man. To be sure, it has been repeatedly demonstrated that such races occur in mice and such human families as we have studied yield the same result as the mice studied and indicate that resistance to cancer is a positive (dominant) trait and that non-resistance appears in the children only when both parents belong to a non-resistant race.
And this result is commonest, other things being equal, when cousin marriages are commonest, because that makes it probable that if one parent belongs to a cancer race the other—the cousin—will belong to the same cancer race. Now in rural Maine, cousin marriages are extremely frequent—especially in the islands off the coast, and here we have the conditions for the result—the high incidence of numbers of the cancer race in an inbred community.

IRON CROSS FOR DRIVER CUMMINGS

St. John Men Enjoy a Bit of Fun Over Reported Wounding of One of Number

The Times has received a letter from Sergeant R. Bradshaw, "an active service," dated March 14, and duly passed by the censor. It shows that the young men from St. John are with the Divisional Ammunition Column have not lost their appreciation of a joke. Sergeant Bradshaw writes:

"Our life at the front is often brightened by unexpected incidents. For example, an issue of The Times arrived here today, and a short but expressive paragraph told how Driver W. Cummings was in hospital, where he was lying with a wounded leg caused by the bursting of a shell. This account must have been sent from England. Moreover, as it was common knowledge that the most dangerous thing that ever struck near Driver Cummings was a can of jam, his unlimited powers of veracity so tickled the boys of the D. A. C. that Farrier Sergeant Pletcher rallied his assistants and straightway manufactured an iron cross from a horse shoe. This was suspended from a chain and hung round the neck of Driver Cummings with due ceremony. Twelve good men and true shouldered pieces of wood in lieu of their rifles and presented arms with great solemnity, amid the vociferous cheers of the remainder of the section, and loud cries of 'speech, speech! Not to be outdone, Driver Cummings mounted a barrel and said:

"Boys, I am proud to be the first one to get an iron cross, but you have to be a good liar to be in the D. A. C."

AT PUBLIC LANDING. Charles Parker of Public Landing was in the city on Saturday. He says that several small operators cutting from one to two thousand pieces of lumber in that vicinity will have to leave most of it in the woods. Of a much larger quantity cut near the Devil's Back only a small portion has been got out. He said there was five miles of ice in The Beach above Public Landing wharf, and while it was weakening there was still no sign of its moving out.

LETTER FROM DRIVER NASH. Mrs. Nash, of 800 Union street, received today a letter from her husband, Driver T. Nash, dated Tidworth, England, March 18th. He writes:—"We are still here, and do not know when we will move. We are all ready to move at a minute's notice."

THOMAS ELLIOTT DEAD; BUT A FEW HOURS ILL

The death of Thomas Elliott occurred this morning in the General Public Hospital. Mr. Elliott had been in his usual health until Sunday afternoon, when he was stricken with heart trouble at his residence, 45 Paradise row. He was hurried to the hospital, but he expired there this morning. Mr. Elliott, who was born in St. John fifty-eight years ago, was employed as engineer with the M. R. A. Ltd. He is survived by three daughters, Miss Nellie, Miss Margaret (Lamb), at home, and Mrs. J. W. Dobbin; also two brothers, John of Bangor, and William of St. John, and two sisters, Mrs. Simon Duggan and Mrs. Higgins, both of this city.

WILL NOT PROBE BERRY CHARGES

(Continued from page 1.)

"Again Mr. Commissioner, it has been asserted frequently that after the law prohibiting the exportation of roased pulp wood had been passed the Miramichi Pulp and Paper Company retained the right to enable it to do the very thing that the law intended to prevent. I ask that this be inquired into. I consider whether when the cost of doing public work is from two to four times the amount of the estimated expenditures, that is sufficient justification for an inquiry into the details of the expense. I refer you to Hornbrook bridge, Gloucester county, where the estimated cost was \$865, and the expenditure \$2,266.09; also to Maple (Jean), bridge, Gloucester county, where the estimate was \$1,000 and the cost \$2,268.75; also to Meduxnekeg Mouth bridge, where the estimate was \$125 and the cost \$888.06. (See appendix to official report 1914, page 28.)

"I would also ask, Mr. Commissioner, that you investigate the payments of \$4,020.21 for cleaning and painting the steel bridges at Miramichi, since the Concrete Construction Co., Ltd., as well as the steel bridges at French Fort Cove, Northumberland county, and the Ardover bridge, Victoria county, by this same company."

The following is the letter received by Mr. Carter from Commissioner Chandler, received today in reply to Mr. Carter's communication of last Wednesday, since which time Mr. Berry "has been and gone."

March 27, 1915.

Mr. E. S. Carter—

"Dear Sir,—I have considered the various matters referred to in your letter of the 22nd inst., and have come to the following conclusion with respect to them. As to items 1, 2, 3, 4, 5 and 6, the matters covered by the commission under which I am acting. The matters referred to do not appear to me to be in the public interest, and I do not think I am in a position to inquire into the matter. As to the expropriation of roased pulp wood, there is no charge made of misconduct against the individual connected with any department of the provincial government, and I do not think I am in a position to inquire into the matter. I can make the same remark as to the last two items in your letter as to bridges. There is no charge against any particular person which I could investigate. In the absence of any such charge I do not see how I could deal with these matters or inquire into them.

I have already explained to you that I did not make the remarks quoted by you as made by me on the 11th day of March inst. These remarks seem to have been attributed to me by mistake or through some misunderstanding.

Yours very truly,

W. B. CHANDLER.

In view of Mr. Chandler's decision it is interesting to recall the statement of the opening of the enquiry, quoted by the St. John Standard.

"Even if there is but a suspicion of wrong the government will be glad to have that suspicion communicated so that persons who may have knowledge may be summoned to appear. We will not be bound by the strict rules of evidence but the commissioner has authority to use any methods he may deem to be in the public interest. There are any charges or beliefs or suspicions now is the time to make them known.

They have been made known, and definite charges made, but there is to be no enquiry."

WILL NOT URGE AGED RULER OF AUSTRIA TO MAKE SEPARATE PEACE

Geneva, via Paris, March 29.—Count Stephen Tisa, Premier of Hungary, has returned to Budapest from Vienna, where he conferred with cabinet ministers regarding the future course of the dual monarchy. According to despatches to Swiss newspapers, the leaders of different political parties are trying to induce Count Tisa to make an effort to persuade Emperor Francis Joseph that Austria should conclude a separate peace.

The premier, however, is said to have refused to make such an attempt.

DUKE'S SWORD MUST REST IN SCABBARD

Exiled Orleans Volunteers in Vain To France, Britain, Belgium and Russia

Paris, March 29.—The French government has refused the request of the Duke of Orleans for permission to enlist in the Foreign Legion under an assumed name, says the Francaise in an article which deals with his efforts to obtain service under the flag of his country.

Early in the war, he sought to have amended a law passed in 1886 forbidding him to enter France or serve in the army. He agreed to resume his exile if permitted to fight, but his efforts were fruitless.

After the French refused to accept his services as a soldier, he sought to enlist in the British, Belgian and Russian armies, but the military authorities of those countries, out of courtesy to the French government, refused to accept him.

ST. JOHN CENSORS

Hon. Mr. Pugsley Asks Minister of Militia Some Questions

THREE HERE AT \$7 A DAY

General Hughes Promises Information as to How Much Time They Give to the Work and How Many Despatches Are Censored Weekly

(From Hansard, March 24, 1915)

Mr. Pugsley: This is the first opportunity we have had of discussing militia matters in general, because we have had no discussion when the Speaker was in the chair, as we on this side of the house have not insisted upon our rights, but have been quite willing to take up the estimates whenever the ministers were ready. Might it be understood that on some of these items we might discuss all military matters if we desired to do so?

Major General Hughes: As far as I am concerned that could be done.

Mr. Pugsley: What arrangements has the minister made as to the appointment of censors throughout Canada?

Major General Hughes: Wherever there is a cable or Marconi station we have censors, and we have some at headquarters here.

Mr. Pugsley: What are the average salaries paid them and how many are there?

Major General Hughes: There are thirteen censors, forty assistant censors and seventy-eight decoders. There is a cable station and a Marconi station wire censors receiving cablegrams. The deputy chief censor receives \$10 a day; the censors, \$9; the assistant censors, \$7 and the decoders, \$5.50.

Mr. Pugsley: Is \$10 a day paid to the chief censors all over the country?

Major General Hughes: These are only one Lieutenant Colonel Hamilton.

Mr. Pugsley: Is he obliged to give all his time to the duties which he performs for the government?

Major General Hughes: Night and day; his office is open all the time.

Mr. Pugsley: It is rumored that he has been engaged in writing party pamphlets for the Conservative party since he has been appointed.

Major General Hughes: I am in the fortunate position of having never seen a party sheet, either of the honorarium literature or the party literature.

Mr. Pugsley: My hon. friend is mistaken in that, because if he studies the political literature he will find that the output has not been greater on the Liberal side than on the Conservative side. The minister is not paying so much attention to the grubbings and complaints that are made in regard to his actions in the discharge of his important duties. Are there censors in St. John?

Major General Hughes: Wherever there is a Marconi station there are censors. I understand that there are three at St. John.

Mr. Pugsley: The other evening my hon. friend the minister of marine and fisheries (Mr. Hazen), who is usually very intelligent and very well informed, was putting his estimates through and I made inquiries as to the censors at St. John. The minister was unable to tell me anything about them, but he said that the minister of militia would be able to give me the information. So now, I avail myself of the opportunity of asking the minister of militia how many censors there are in St. John, what salaries they are receiving and what their duties are.

Major General Hughes: I received the information from my hon. friend the minister of the naval service, who has been kind enough to tell me that there are three.

Mr. Pugsley: What are their salaries?

Major General Hughes: There are three censors at Partridge Island, and they receive \$7 a day.

Mr. Pugsley: I am told that their names are Mr. Shaw, who is a young lawyer and a very deserving gentleman, Mr. Masters, an insurance agent, also a deserving gentleman, and Mr. Crockett. I do not know his occupation, except it is that of a party worker.

Major General Hughes: Are they Tories? As a rule they are Liberals.

Mr. Pugsley: I do not know, I am sure as to that. My hon. friend can guess as to their political complexion when you know that they were recommended by the minister of marine and fisheries. He would not be so forgetful of the claims of his party friends as to recommend gentlemen on our side. I do not blame him for that. What are the duties of these censors? How many despatches go through the wireless station at Partridge Island in the course of a day? The feeling of a great many people is that three censors at Partridge Island are entirely unnecessary. The statement made to me is that each of these censors performs his duty about two days in the week and rests from his arduous labors the remaining five days.

Major General Hughes: I will be only too glad to get the information as to the duties of these gentlemen. They are supposed to give all their time to their duties. I will make inquiries.

Mr. Pugsley: I would like to find out how much has been paid to each of these gentlemen from the time of his appointment to the present and the number of despatches censored weekly.

Major General Hughes: We will find that out.

Mr. Pugsley: It may be that my information is entirely unfounded. It may be that these gentlemen are earning, by the power of their intellects, not by the sweat of their brows, the salaries that they receive.

HUSH ORDERS TO THE PAPERS IN ITALY

Rome, March 29.—A rigid censorship upon the publication of military news from March 31 to July 30 has been established by a royal decree issued in accordance with a decision reached by the council of ministers at a meeting on Saturday.

The publication of information regarding the formation, movements or assignments of units of the army, navy and aerial forces, or even of soldiers and sailors is prohibited.
