Corfu Occupation Branded Breach of League Covenant BLOODSHED IN RHINELAND IS LIFTED

ACTION BY COUNCIL IS POSTPONED

Question of League's Competency in Balance, Says Lord Cecil.

APPEAL TO ITALY

Italian Government Takes Steps to Assess Fiume in Crisis.

(Canadian Press Cable.) Geneva, Sept. 17.—Discussion in the Council of the League of Nations of the question of the League's competency in the dispute between Italy and Greece was postponed until tomorrow after speeches today by Signor Salandra and M. Politis, the representatives respectively of Italy and Greece.

Hjalmar Branting, of Sweden, declared the Italian occupation of Corfu was contrary to the provisions of the League covenant and might establish a dangerous precedent, affecting the prestige of the League.

Lord Robert Cecil's View. Lord Robert Cecil, said the Council had done everything it should have done in the Greco-Italian controversy, and had seized upon every means to obtain a settlement, which he added, was the great object set forth in the covenant. The Council very properly had not rushed the matter but had collaborated with the Conference of Ambassadors in Paris.

The delicate question of "How to deal with Italy" resulted in a stormy session of the Council of the League of Nations, on Saturday. Although the Greco-Italian conflict has been happily settled, the delegates declared that Italy had broken the League, and some action should be taken to reinforce its prestige.

Optimistic Action. Geneva, Sept. 17.—The Italian and Jugoslavians Governments have filed with the secretary of the League of Nations for registration and publication the treaty of Rapallo, signed in 1920, and the complementary convention of Santa Margherita of 1922, which provided the terms of settlement of the Fiume affair. League circles interpreted this action, which fulfills article 18 of the League covenant, as a favorable sign, indicating the probability that the Fiume controversy would be settled by direct negotiations between the two Governments.

Police Dig and Dig; Raise 40 Cases Scotch

Gloucester, Sept. 17.—Merrily chanting "We've hung up the fiddle and the bow, picked up the shawl and the hoe," a squad of the police, shovels and hoses on their shoulders, marched into the vegetable garden of Salvatore Beulac. They made a left bligie to Salvatore's cabbage and turnip patches, took off their coats and belts, spat on their palms and began to dig.

COSGRAVE WILL 63 SUPPORTERS

Republicans Will Not Be Allowed Entry to Dail Without Taking Oath.

Dublin, Sept. 17.—The new Parliament will meet on Wednesday. All the members elected have been summoned to attend. The notices to Republicans were addressed, not to the prisoners where most of them are confined, but to their private houses. Their friends re-addressed them to Eamon De Valera and his 28 colleagues in the jails.

Some Republicans who are at large in the country came up to Dublin and were supposed to be planning a demonstration when Parliament assembled similar to that registered by Lawrence Glavin at the opening of the Dail. This plan, however, will be frustrated by a standing order passed toward the end of the last session and not yet out of the printer's hands. It prescribes that no member can be admitted to the Dail unless he becomes a member according to law. This means that the oath of allegiance is essential; the preliminary oath will not be taken, as in the British parliament on the floor of the House, but beforehand privately in the clerk's office.

TO ENGLAND TO BOOST VANCOUVER

Former Mayor Among Passengers on Empress of France Yesterday.

Quebec, Sept. 17.—The Canadian Pacific Empress of France, sailed from Quebec at 3:30 p.m. yesterday for Cherbourg and Southampton, with 360 passengers, including 100 in the class among the latter were Major General James H. MacBrien, chief of Canadian militia staff; Col. C. N. Edwards, Capt. John F. Cummins, Hon. Duncan Marshall, and Dr. J. H. Grisdale, Ottawa; Mr. R. H. Gale, ex-mayor of Vancouver, B. C., going to England to endeavor to interest British shipping interests in the port of Vancouver, and also British financial interests, in that port's development; Mr. Wm. Meredith, Mr. Geo. Mrs. Wm. and Miss H. P. Birks, Montreal.

British Peers, 19; Latest Stage Recruit

London, Sept. 17.—Lady Mercy Greville, the youngest daughter of the Countess of Warwick, is the latest recruit to the British nobility to the stage. She is at present appearing in the show, "The Lilies of the Field," and is acting the part of a domestic servant. Lady Mercy, only 19 years old, has assumed the stage name of Nancie Parsons.

OKLAHOMA GRAND JURY DISMISSED

Ku Klux Activity Followed by Proclamation of Martial Law.

TROOPS ON DUTY

Military Court Takes Over Duties of Law and Order.

(Canadian Press.) Oklahoma City, Okla., Sept. 17.—The spotlight played on Oklahoma City today in the second act of Oklahoma's martial law drama. Since martial law became effective throughout the state Saturday night, the military has superseded the Oklahoma City police bureau, machine guns have been leveled at the city hall, police station and county court house, a grand jury has been cancelled and a military court investigation substituted, and state capital citizens have been told "when to go to bed and when to get up."

A special grand jury, called to meet today to investigate charges that Governor Walton used state employees in checking initiative petitions, recently filed with the Secretary of State was suspended last night by orders from Colonel W. S. Key, in command of Oklahoma City's military court, was ordered to proceed with investigation work at the direction of the chief executive. The scope of the grand jury will include matters which the grand jury would not have considered, it is understood.

MINER EXPECTED BACK WEDNESDAY

Representatives of 155,000 to Pass on Proposed Agreement Today.

Scranton, Pa., Sept. 17.—Anthracite coal miners representing the 155,000 union workers of the Pennsylvania hard coal fields, meet in convention here today to pass upon the proposed two-year agreement drafted by their officers and the operators in Harrisburg nine days ago. Delegates representing locals in each of the three districts of the U. M. W. will be in attendance here for the convention.

Winnipeg, Sept. 17.—Two drownings were reported here last night. Robert Tate, grain broker and manager of the Canada Loan and Realty Company, Winnipeg, was drowned at Gimli, Man., while bathing.

4,000,000 Acres Are Signed For Wheat Pool

Regina, Sept. 17.—Up to Saturday, wheat pool contracts received at headquarters represented 4,078,000 acres, an expression of opinion that the day of stationary exhibitions is over. The exhibition train, he says goes to the people themselves and thus makes a direct business appeal.

"Don't Talk," Says Sawyer To Dawes

Washington, Sept. 17.—Brig-Gen. Charles E. Sawyer said to Brig-Gen. Charles G. Dawes of "Hell Maria" fame, "Oh, don't talk to damn much." And Dawes objected.

The two had just emerged from the White House when newspaper men braced them and asked Gen. Dawes "what brought him to Washington." He was on the verge of explaining when Gen. Sawyer issued his order. He will go down in history perhaps as the only man who ever squelched the irrepressible Dawes.

PRINCE ARRIVES AT HIS DESTINATION

Alone and Unguarded, He Walks to Meet His Neighbors.

High River, Alta., Sept. 17.—Cowboys, ranchers and townspeople of the High River district accorded Lord Renfrew a royal welcome when the special train pulled into the depot yesterday.

As the Prince reached the street, David Bearsaw and Red Cloud, members of the Stony Indian Tribe from the Morley reservation, were waiting to greet him. When the Prince drew abreast of them, Bearsaw stood erect, and in perfect English said: "Greetings, Chief Morning Star, your brothers of the Stony salute you."

7 DEAD AFTER BIG NEW YORK BLAZE

Four Story Tenement Burns—Score or More Badly Injured.

New York, Sept. 17.—Fire in a four story tenement building on the corner of Barrow and Grand streets, Jersey City, last night, resulted in seven persons being killed and a score or more seriously injured. Of those killed, one was a fireman, and who met his death by a fall from the fire escape while in the act of rescuing some of the trapped occupants. The fire had been under way for about fifteen minutes when the apparatus arrived, and had gained considerable headway. The deaths from the fire numbered more than in any fire in that city during the last 80 years.

Fredricton, Sept. 17.—University of N. B. opened this morning with an enrollment of 66 students in the freshman class, the second largest enrollment of new students in one class ever registered at the University. In addition to the freshman class there are three students entering the second year Arts course, making the total enrollment of new students 70.

Which Weighs More?

Here is a 54-pound watermelon, grown in Dalles, Ore. We don't know how much the little girl weighs, but it is a safe guess the difference between the two is not so great, either way.

Little Vessel, Liquor Laden, Has Hard Time On Trans-Atlantic Trip

Halifax, N. S., Sept. 17.—The steamer Canada, 105 tons, built in 1886, is in port from Cherbourg, reporting a 26 days' voyage to St. Johns, Nfld., during the last 15 days of which the crew of 10 were without bread and on very limited rations. The ship herself was awash a great part of the time. She had only one ton of coal left when she arrived, and a large part of her woodwork had been burned. The crew had been forced to sleep in the stockhold when the forecastle became untenable. Salt water got into the fresh water tanks and made the water almost undrinkable. The crew had to use a piece of waste dipped in oil and lighted to signal a pilot at St. Johns.

QUE. EUCHARISTIC CONGRESS CLOSES

PROTEST CHARGES IN FAHMY TRIAL

Egyptians Say Murdered Com-patriot Was of Lowly Extraction.

Cairo, Sept. 17.—"Inaccurate assertions and rash generalizations," made in certain quarters in connection with the trial of Madame Fahmy for the murder of her husband, Ali Kemal Fahmy Bey, in London, have led to a strong protest on behalf of the Egyptians. They express regret that the extenuating circumstances raised by the defence appear to have thrown a shadow over the entire Egyptian nation owing to an error in supposing that Fahmy Bey was a representative Egyptian.

MIME MAN HURT

7 HAT ARTISTS CONTRIBUTE TO SPEAR OPENING

Exhibits from no fewer than seven millinery modists of world-wide fame feature the autumn opening at Spear's Spear Block, Upper Street, tomorrow and succeeding days.

Rembrandt, Gainsborough, Cavendish, Mikrotch, Goulding and Charlot—these are names that stand for the highest in hat designing. Only Spear's have them and their opening tomorrow bids well to match the surprises of last Spring.

The differences in the new creations are individual though some points in general may be gathered. New shades in Noisettes and Beber cast an air of fresh color out of respect to the reign of delicate brown tones. Many fur distinctions some remarkable combinations and spray. Coquetry feathers are seen in some tendencies toward side drapes, while veils with chin straps strike a strong note. Materials lean to dainty and velvet, combinations of panne and silk velvet showing new charm. A deal of braiding, appliques and fancy work done by hand is to be seen. Altogether the Spear opening looks like a great success.

MARRIED IN FREDERICTON. (Fredericton Gleaser). A pretty wedding took place at noon Saturday at the home of Mrs. H. Holmes, when the bride, Miss Mildred A. Palmer, was united in marriage to Wm. K. Swin of Doaktown, by Rev. E. J. Holmes. The bride, who was attended, was given away by her father, Robert Palmer of St. John, and wore a navy blue suit done by hand.

The groom's gift to the bride was a choker and carried a bouquet of Ophelia roses. The drawing-room was prettily decorated with cut flowers. U. S. autumn leaves. The wedding music was played by Miss Marjorie Ebb. After the ceremony a dainty luncheon was served in the dining-room by Rev. E. J. Holmes. The bride wore yellow and white. Immediately after the bride and groom left by auto for St. John enroute for Boston, New York and other U. S. autumn leaves. The out-of-town guests included Mr. and Mrs. Frank Swin, of Doaktown; Mrs. J. P. Estey, Dr. and Mrs. D. F. Jones, of St. John; Mrs. Burdette Harmon and Miss Peggy Harmon of Woodstock.

RUNAWAY CAUSES DEATH OF MAN

Harold Kelly Succumbs When Team Bolts on Way for Load.

Harold Kelly, whose home is at the corner of St. Patrick and Richmond streets, was the victim of an accident about noon today, which resulted in his death. The man, who was a driver for A. E. McInerney, was going out to East St. John for a load when his team ran away. He was unable to stop them and was thrown from the wagon. The shock proved too much for his heart and death came before aid could reach him. The ambulance was sent for and medical aid summoned as soon as it was seen the man was dangerously ill. He passed away in a few minutes. The coroner was sent for and gave permission for the removal of the body. Mr. Kelly was a married man and leaves a family of four children, besides his wife.

BAD BUSINESS THIS.

It is reported that two cars were racing on the Westfield road on Saturday evening and as a result there was a wreck. A woman is reported quite seriously injured. The story was that the two cars, coming toward the city at a fast rate, came upon a car stalled near the F. L. Stephenson property and in the effort to avoid a collision with this car, one of them, a Ford sedan, went into the ditch and the occupants were quite seriously hurt. One woman was said to be semi-conscious but the party refused to take her into any of the houses near by and brought her to the city. The car was got out of the ditch and was able to proceed under its own power, but one of the doors was left in the ditch. The accident happened about 10:30.

HE SANG TO "RED"
FIRING SQUAD

Tenor's Voice Got Him Out
of Clutches of the
Bolsheviks

Few refugees have surpassed the story of Anatol Berezovsky, for some years tenor of the Imperial Opera in Petrograd, who sang his way out of the clutches of a Bolshevik firing squad at Brinsk, to present himself finally in America. He has reached New York to see if he might sing his way into the hearts of a music-loving public.

Nine years back the young Russian was winning applause of audiences in Moscow, Kiev and Petrograd. A year later he was an officer in the Czar's army, three times wounded and twice decorated for bravery under fire. Berezovsky was born in 1864 at Viatka, the birthplace also of the famous basso Chaliapin.

Entering the University of Kazan, he began his musical education under the composer Nikolayev. He studied repertoire with Selivanoff, basso of the Mariinsky Opera. Berezovsky's first public successes were in "Galka," an opera by Manushko; in "Eugene Onegin," by Tchaikovsky and in "Aida."

Commissioned a lieutenant of the Lieh-Guard Volinsky Regiment, he saw in Galicia his first battle with seasoned Austrian troops, a strange ordeal for an opera singer.

"At Lwoff-Krakoff," he said, "I received my first wound and was sent to a hospital in Kiev. I had commanded the first battalion of my regiment and a close friend of mine was in command of the second. I recovered in the hospital in time to see my friend brought in mortally wounded, and by the time I was able to walk, he died. I received a short leave and took the body of my brother officer to his mother and sister. His sister is now my wife."

"I was sent to fight the Turks and later the Germans. My most terrible experience was when the revolution began to sweep over Russia. I got on a train with the soldiers with whom I had served and suffered at the front, and when we reached the city of Brinsk a mob of Red sailors captured me. Their only mission at that time was to kill officers and I was in full uniform."

"I found myself facing a firing squad of four half-drunk sailors. They held up my execution by a squabble over my boots and coat, one sailor telling me to take off the coat so that it would not be spoiled by the bullets, while another demanded that I take off my boots."

"An inspiration came to me to sing and I began a folk song they all knew. Although one continued the argument, the others lowered their rifles and listened to the waltz they evidently considered the swan song of a half-crazy man. While I sang I could see my soldiers scrambling off the rear section of the train. There was a sudden confusion and I slipped away."

Disguised as a peasant peddler the singer reached Kasan, where he gave a concert for the Czechoslovak and White armies, and where also he was married. Because women had been declared "Government property" his wife would have been allotted to the Red soldiers had he not rescued her.

With his mother, 91 years old, and his wife he escaped to Omsk, joining Kolchak's army. When the Reds defeated Kolchak he made for Harbin, where he escaped finally in the disguise of a railway fireman, stoking an engine. From the day he became a fugitive Berezovsky had walked more than 6,000 miles before he reached Shanghai.

In China he met his old teacher, Selivanoff, and a concert was arranged. Berezovsky made his way to Seattle, where the proprietor of a theatre gave him a concert, followed by others in Portland and Los Angeles before he came to New York.

FLYING CRAFT
OVER CITY SUNDAY

"The R. K. Y. C. had the privilege of entertaining the crew of a flying boat, which spent the day at anchor in the Millidgeville harbor of the Club all day yesterday. This boat, which is under command of Major A. B. Shearer, with Sergt. Colp and Sergt. Lesue as the crew, is used in the taking of photographs from the air of various points in the Maritime Provinces for the Government. Saturday was spent in taking photos near Digby, and today some of the lower St. John were to be taken. It is planned to return to Halifax on Tuesday. This is the largest flying boat yet to land here. People had a good view of it as it flew over the city."

FROM A CAN OF MILK.

(From U. S. Department of Agriculture Bulletin)

Some interesting figures have been compiled to show what can be made from a definite quantity of milk. Using 100 pounds of milk which tests 4 per cent, it has been found that this quantity will make about 4.8 pounds of butter, 11 pounds of Cheddar cheese, 45 15-ounce cans of condensed milk, 12.5 pounds of whole milk powder, 8.5 pounds of Swiss cheese or 23 pounds of Camembert cheese. The exact amount of these products that can be made from 100 pounds of milk varies with the richness of the milk, its fat and other solids. A number of by-products are also formed by the different processes.

Try Again To Pierce Rocky Mountains

Attempts to Drive Tunnel Through Continental Divide Resumed.

New York, Sept. 17.—Attempts to drive a tunnel through the Continental Divide on the line of the Denver & Salt Lake, that have extended over a period of almost a quarter of a century, now promise to meet with success. Under the present plans the summit will be lowered by one-half mile, effecting a great reduction in the cost of transporting freight over the Rockies.

The dreams of hundreds of railroad engineers and the hopes of hundreds of other railroad executives, have progressed to a point where the Moffat Tunnel Commission of Colorado has made plans for the construction, has invited bids and has provided means of financing the project.

Since the completion of the Denver & Salt Lake in 1905 this summit has been the outstanding obstacle to the successful operation of the road. Starting at an elevation of approximately one mile, the road climbs steadily to an altitude of more than two miles at Corona, 65 miles away. From this point it descends for 90 miles to Orestod at an elevation of 6,700 feet. The maximum grade on each slope is 2 per cent, with the exception of about 28 miles of 4 per cent grade between East Junction on the eastern slope and Vasquez on the west. This 4 per cent line over the summit was built as a temporary piece of construction pending the driving of a six-mile tunnel through the Divide.

But since the construction of the line it has been impossible to finance the construction of the tunnel and the cost has risen to the point where it is now estimated at \$10,000,000. The original promoters to put through the scheme there have been a number of other trials at financing.

In 1913 the City of Denver voted \$3,000,000 in bonds to pay two-thirds of the cost of construction in order to afford an outlet for a large unrelieved area in the northwest part of Colorado. But just as the project was about to be completed the bond issue was declared unconstitutional.

Seven years later another plan was originated by the State to complete the tunnel. Under this plan the State was to pay for this tunnel and two others through the mountains on the right of way of the Denver & Rio Grande. Nothing ever came of these projects.

No action of any kind was taken until 1922, when a law was passed providing for the creating of an independent district comprising the area tributary to the Denver & Salt Lake line, which would benefit by the completion of the tunnel, and with authority to levy assessments against property in the district as security for the construction bonds to be issued. Under this law the Tunnel Commission was created. It is this commission which is now asking for bids for the construction of the tunnel.

In describing the tunnel the Railway Age says:

"The Moffat tunnel will be 31,875 feet or 6.04 miles long; it will be 16 feet wide and 24 feet high and will be built from an 8 by 8 water tunnel, which will serve as a pioneer tunnel for construction purposes from which the cross entries will be driven to the main tunnel at intervals of approximately 1,500 feet.

be three miles west of Tolland, Col., approximately fifty miles from Denver, at an elevation of 9,198 feet. The grade of the tunnel will ascend from the east portal at the rate of 0.3 per cent, to a summit elevation of 9,239 feet, 14,708 feet in from the east portal. From this point the grade will descend at the rate of 0.8 per cent to an elevation of 9,095 feet at the west portal.

"It is expected that the construction will require three years and an expenditure of \$6,720,000.

"The tunnel will replace thirty-two miles of the present line and effect a net reduction in distance of twenty-three miles. It will eliminate all but two curves of over twelve degrees and all of the 4 per cent grade, besides lowering the summit 2,832 feet. It will also eliminate all of the snowsheds and severe winter trouble."

NO USE COMPLAINING.

(Maritime Merchant)

It is no use complaining if conditions are not what they were say in 1912, or even in far less prosperous times. What use is there in expecting them to be so when so many of the countries with whom we have to do business are in such desperate straits? Common sense ought to tell anyone that we have made a marvellous recovery already when all things are considered. We had never been touched in so many vital points before as we were about two years ago. But now we find a very fair measure of recovery to health in all these vital points save one—the fishing industry. Perhaps some of our manufacturing industries have a good way yet to go.

Make your kitchen cheerful for the winter

BRIGHT, warm linoleum on your kitchen floor will add just that note of cheerfulness so desirable through the long winter months. Its smooth, attractive surface is waterproof and stainproof; grease, ashes or coal dust cannot harm it.

And linoleum is most practicable; a damp mop is all you need to keep it perfectly clean and sanitary in spite of slush and snow.

There is a wide range of patterns to choose from, designed especially for the kitchen, dining room, living room, bedroom or bathroom. It is a good time now to adopt Dominion Linoleum.

Every floor covered with it means saved labor and economy, too, through moderate first cost and long years of unimpaired wear.

DOMINION LINOLEUM
for all your floors

is a good plan to follow. By so doing you secure much solid comfort and all around satisfaction.

NO GROUND FOR PESSIMISM

It may well be believed that conditions in Europe, economically, are not as bad as has been painted. Production has been steadily increasing, for whatever the politicians may be doing, the people have been at work, striving to improve their condition.

WELL—HOW MUCH LONGER?

In the Canadian athletic championships at Halifax on Saturday the points won were as follows: Montreal 30, Toronto 25, Hamilton 24, Halifax 22, Sussex, N. B., 20, Charlottetown 16, Sydney 6, St. John 4, Inverness 3, Windsor (Ont.) 1, and Westville, N. S., 1.

AN OLD EXAMPLE

If all the people of New Brunswick were as eager now to make immigrants comfortable and get them well established as were those of one hundred years ago, there would soon be a notable increase in population.

The city of Portland, Maine, has declared for the city manager plan of government. An attempt to adopt that form was made two years ago, but was defeated by about a hundred votes.

PRaise for Thornton

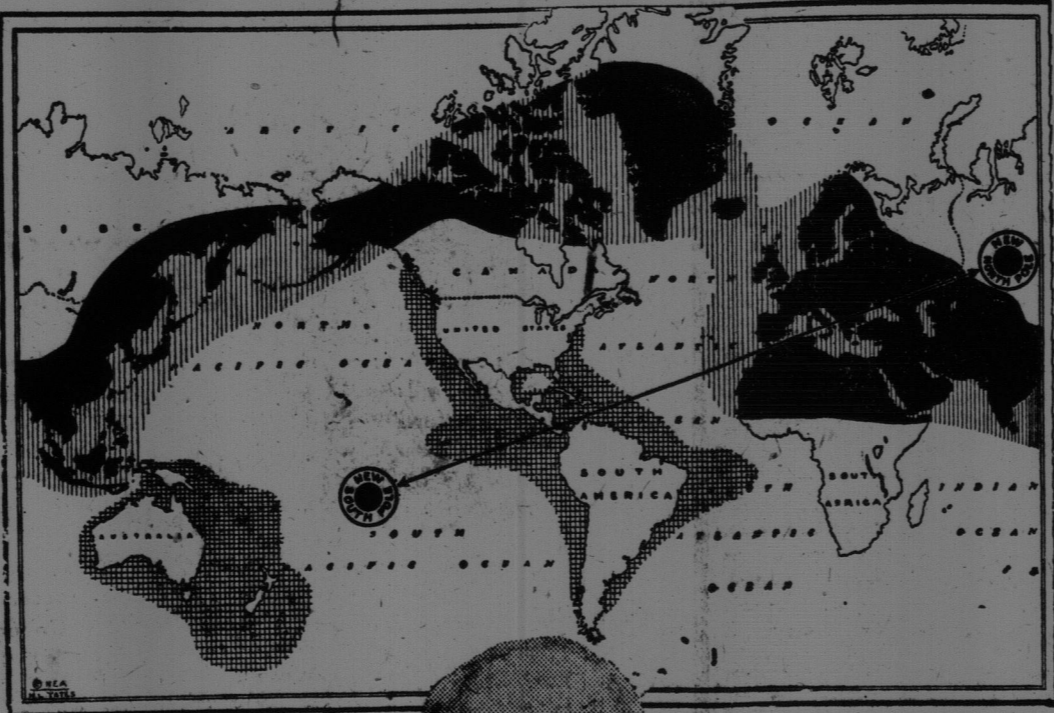

The Montreal Gazette expresses gratification over the Canadian National Railways statement issued last week, by Sir Henry Thornton. In the course of its review it says:

"In the first six months of the current year the operating revenues of the system rose to \$115,062,000, an increase of \$14,309,000 over the preceding year, while operating expenses at \$118,984,000 were larger by \$10,083,000. The net profit was \$1,728,000 in the half year, to which has to be added an operating profit of \$1,472,000 in July. The period of operating deficits has, therefore, been brought to an end. The fat months are ahead. An unprecedentedly large crop has to be moved from the prairie provinces, while the general business barometer points to a fair, it is not unreasonable to expect a working profit of eight or ten millions on the National Railways this year, as compared with a deficit of \$86,844,000 in 1920, an immense improvement within a short three years."

MUSIC IN SCHOOLS

That he did not think there would be any change in the matter of teaching music in the public school of the city is a statement by S. J. Worrell, acting superintendent of schools, when asked about a report that Frederickton was considering the cutting out of this department of the curriculum.

A CANADIAN QUOTATION

(Bliss Carman, in "Where is Heaven?") Where is Heaven? Is it not just a friendly garden plot, Walled with stone and roofed with blue, Where the days pass one by one. Not too fast and not too slow, Looking backward as they go At the beauties left behind To transport the pensive mind.

IN LIGHTER VEIN

She—He says he loves me; yet he has only known me two days. Her Friend—Well, perhaps that's the reason, dear. Mostly, "Don't take criticism too seriously," says one kindly soul, and most of us will admit that we don't take it; it's thrust upon us. Of Course, Prospective Buyer—"You say your car is different from the rest of them. In what way?" Auto Salesman—"Well, there is no pig iron in the machine to squeak." Raleigh (N. C.) News and Observer. Just Curiosity! The usual crowd of small boys was gathered about the entrance of a circus tent, jabbing and trying to get a view of the interior. A man standing near watched them for a few moments, then, walking up to the ticket taker, he said, "With an air of authority: 'Let all these boys in, and count them as they pass.' The gatekeeper did as requested, and when the last one had gone in, he turned and said, 'Twenty-eight, sir!' 'Good,' said the man, smiling, as he walked away, 'I thought I guessed right.'"

GOING PLASTERING

(Philadelphia Record.) A newspaper woman who has been writing up the steel mills remarked on the number of workers who came in their automobiles. A dispatch from the zinc mines in Illinois, where there has been a strike, spoke of most of the strikers coming back to work in automobiles. Accounts of Herrin last year, remarked on the large parking space set aside for the automobiles of the miners. And now we learn from Evanston, Ill., seat of a great university, that wages of more than \$100 a week paid to plasterers are causing students from the Gospel ministry, and a civil engineer with many degrees refused professorship because he could not get out of the automobile plastering, make so much more money plastering.

Danger Zones—All of Europe, Greenland, Iceland, North Africa, Southern Alaska, Northern Canada, Asia Minor, all of South and East Asia, Japan, Philippines, and East Indies. Safety Zones—United States, the main part of Canada, all South America, Central America, Mexico, West Indies, Northern Alaska, Western Siberia, Western China, Australia, New Zealand, and Central and South Africa.

Astronomers Are Watching For Two Vagrant Speeders

Cambridge, Mass., Sept. 17.—(By A. P.)—Astronomers are on the watch for two comets, both discovered many decades ago, which, speeding over their rather uncertain courses through the skies, are about due for reappearance. One of these interesting visitors is Di Vico's "long period" comet of 1846, popularly known as the Mexican War comet because just on the outbreak of that conflict it was observed by Professor W. C. Bond of the Harvard observatory, on Feb. 26, 1856.

Vets. Reach Canada For World Congress

Quebec, Sept. 17.—Dr. A. M. Trotter, C. V., chief veterinary inspector for the corporation of Glasgow, Scotland, accompanied by Dr. D. R. Campbell, V. S., inspector of Canadian cattle landing at the Meridian wharf, and Dr. E. Walker, inspector of dead imported meats landed at Glasgow, Scotland, were among the cabin passengers on the Canadian Pacific steamer Marloch, which arrived at Quebec last evening, from Glasgow, with 628 passengers.

Factory accidents in New York State cost approximately \$38,000,000 last year.

New Process Adds To Output Of Wood Pulp

Milwaukee, Sept. 17.—The wood pulp resources of the world may be greatly increased by the use of a new process of manufacture described today by Prof. Ralph H. McKee of Columbia University before the members of the American Chemical Society now gathered in this city for their fall meeting. There are several species of coniferous woods, said Dr. McKee, which are at present unsuited for manufacture into sulphite pulp because of their high content of resinous matter. The process which he described consists in dissolving out the turpentine and resin with liquid sulphur dioxide and then converting the residue into the usual sulphite pulp which is stated to be of good quality. It was also stated that turpentine and resin could be produced commercially by this process cheaper than by present methods.

One Husband For Twin Sisters? Two Love Same Man and Would Wed Him

Marietta, Ga.—Ruth Webb and Ruby Webb, twins, are in love. They both love the same man. And the man, they say, loves both of them.

He can't tell Ruth from Ruby, Ruby from Ruth. He can't tell which he wants to marry. When he makes love to Ruth he can't tell her from Ruby, and when he makes love to Ruby he's not sure whether she's Ruth or Ruby.

The question is: "Can three live as cheaply as one?" And, if so—where? "We'd both marry him," the Webb twins say, "if the law would let us."

He would, too, they say. He's in New York, and he writes them regularly. Every time he writes he has to write two love letters, one to Ruby and one to Ruth. The letters are different—not mere mimeographs!—and each is just exactly as ardent as the other. No favoritism here!

Ruby and Ruth are 21. They're blondes. They fell in love "at first sight." You see, they both saw him exactly the same moment. He rubbed his eyes and looked again. Yes, there were two of them! From that instant his perplexity began.

"I wish," says Ruby, "there was a

law legalizing polygamy. We've simply got to marry the same man. All our lives we've shared everything. Why shouldn't we share a husband?"

"Why not, indeed?" says Ruth. "We wear the same clothes, and we never quarrel about who's to wear them. We'd share a husband happily, and we wouldn't quarrel over him."

Ruby and Ruth have never been separated, day or night, in their lives. "And," they say, "we're not going to begin now. To be apart would break our hearts. Whoever loves one of us must put up with both of us."

The name of the sweetheart of the Webb twins? They won't tell.

"It wouldn't be fair to him," they say. "But we're glad to tell the world we love him. And at the right time, when we've found a solution to our problem, we'll tell. We agree, though, that he's the handsomest and sweetest thing you ever saw. We're crazy about him."

Ruby and Ruth say they've even thought of going to Turkey and experimenting with polygamy—they're so annoyed with the funny laws here that put such restrictions on matrimony.

NINE-YEAR-OLD IS BACK HOME AFTER HER 18TH RUNAWAY

Returned to Find That Baby Billy Had Grown No Bigger

New York, Sept. 17.—Dorothy Hastings, 9 years old, looked out of a car window and picked Yonkers for a good town. Whereupon she alighted. Now, despite her youth, Dorothy is no mean judge of towns; she's had experience. For this was her eighteenth runaway trip in two years.

Dorothy is back home again at 306 West 144th street. She's glad to see mother and dad, of course, but her chief concern was whether Baby Billy had grown to the size of Tom, who is 6 years old. She found he hadn't—in the week she had been away.

"Nups, I'm never going to run away any more," she said as she looked at Billy. "Seems to me you don't take good care of him if that's all he's grown."

But of the eighteenth runaway trip—this time to Yonkers. Dorothy will tell you it's a good town all right. "I lost all my money on Labor Day. The loss of her head, the twinkle of

her blue eyes, inherited from a line of Irish ancestors—well, the trainmen couldn't resist her. She told them sure, it was none of their business who she was.

Along toward night she became tired and sat down on the step of St. Joseph's School. A nun took her to supper and a bed. That was quite as it should be. Dorothy explained afterward—that little gold cross above the door always had meant kindly treatment for her.

Four days she remained at the school. Then the Sisters took her to the Children's Aid Society. Perhaps it was the imp in her soul which matched the twinkle in her blue eyes that made her tell them she was Gloria Swanson, sometimes, and sometimes Mary Pickford.

Then somebody saw Dorothy's picture and a description in a newspaper. She admitted in great glee she was the girl. Eventually her parents claimed her.

Well, yes, she was sort of glad to get home, but Billy now, why didn't they feed Billy more, so he could get as grown up as Tom?

A knowledge of English among miners in the U. S. would save 1,000 lives annually, it is estimated.

GEO. C. RUSHTON SEVERELY HURT

Falls From Bicycle, Run Over by Street Car; Leg Amputated.

George C. Rushton of Little River had a narrow escape from death on Saturday night when he fell from a bicycle and rolled onto the street car track, the car passing completely over him and injuring him so badly that his right leg had to be amputated below the knee and three fingers taken from his left hand.

Mr. Rushton said he was riding along the road and was blinded by the headlights of an automobile. As the car passed he swerved and was thrown from the wheel on the car tracks in front of the street car, which was so close that he was unable to get out of the way.

H. Cochrane, motorman on the car, said he saw something shining on the side of the track, about a car length away, and also a form on the track. He at once applied the brakes, and as soon as the car stopped rushed back to find the injured man at the rear of the car. He lifted him off the track and stopped a passing automobile, asking them to telephone for the ambulance. The vehicle arrived in about ten minutes and the man was conveyed to the General Public Hospital, where his injuries were cared for.

One-half the accidents in factories in New York with a loss of \$80,000 a day to industries, are due to ignorance of the English language.

NELLIE McCLUNG.

Nellie Letitia Mooney McClung—the Canadian author who has been a member of the Legislative Assembly of Alberta, representing Edmonton since 1921—was born on October 20, 1878, at Chatsworth, Ont., the daughter of John Mooney of Wawanesa, Man., and Letitia McCurdy Mooney. She is of Scottish-Irish descent, and her ancestors were pioneers in Ontario. Educated at Northfield School and at the Collegiate Institute, Winnipeg, Man., she obtained a first class teacher's certificate. Accompanying her parents to Manitoba in 1890, she taught school for five years. On August 28, 1896, she married Robert Wesley McClung, Ph.B., and has a daughter and four sons. In 1914 Nellie McClung moved to Alberta. In 1920 she was appointed one of the twelve delegates to represent Canadian Methodism at the Ecumenical Conference of the Methodist Church in London, England—the first woman to be given this honor. On July 18, 1921, she was elected a member of the Legislative Assembly for Edmonton. Mrs. McClung is a Liberal in politics. A strong advocate of woman's suffrage, and a firm believer in temperance, she is a life member of the Canadian Red Cross, of the Lloyd George Chapter of the I. O. O. F., Edmonton, of the Dominion W. C. T. U., and of several women's missionary societies. In 1921 she became honorary president both of the Edmonton Women's Institute and of the Women's Missionary Society of Alberta. She is a vice-president of the Canadian Authors' Association and of the Canadian Women's Press Club. Besides a number of verses, articles, and short stories, her works include: "Sowing Seeds in Danny," "All We Like Sheep," "Purple Springs," "In the Land of the Gopher," "The Second Chance," "The Next of Kin," "Three Times and Out," "The Black Creek Stopping House," and "In Times Like These."

The California raisin crop for this year will amount to 275,000 tons.

RECENT WEDDINGS

Kelly-Pressley.

A wedding took place Saturday evening, Sept. 8, at Boston in the Holy Cross Cathedral, when the rector, Rev. W. B. Finigan, united in marriage Raymond Paul Kelly and Miss Marie Catherine Pressley, both formerly of St. John. The bride was attended by Nellie Campbell, while Cyril F. Bedford supported the groom.

The groom is a member of the sales staff of the W. H. Walker, Inc., and was formerly with Royden Foley, Ford dealer, St. John. The bride formerly was a member of the staff of the New Brunswick Telephone Company, from which she received a silver service and check. Numerous other presents were received by the young couple, including a substantial check from the bride's father.

Mr. and Mrs. Kelly will reside in Boston.

Baxter-Ryan.

The wedding of Miss Georgia Ryan, daughter of the late Mr. and Mrs. James Ryan, Bloomfield Station, and sister of Mrs. A. B. Day, 29 Main street, St. John, to George W. Baxter took place at Wollaston, Mass., on Saturday. Mr. Baxter is a former resident of St. John, who has been living in Wollaston for about four years, and is employed with the Pneumatic Scale Company there. The happy pair will spend their honeymoon in the White Mountains, and will reside at Wollaston. The bride is well known here, having made a practice of spending her summer vacation in St. John. She is a registered nurse, having trained in the Florence Crittenden Home, and has been practicing her profession for several years at Wollaston.

RECENT DEATHS

Miss Annetta M. Compton.

The death occurred in Vancouver on Aug. 30 of Miss Annetta M. Compton, daughter of the late William and Hannah Vall Compton. She is survived by one sister, Mrs. W. R. McCready, of Vancouver. Miss Compton was a resident of St. John for several years until her removal to Vancouver in 1918.

Michael T. Flynn.

The death of Michael T. Flynn occurred yesterday at the residence of his son-in-law, Edgar O'Hark, 45 Douglas avenue. Mr. Flynn was a native of Mary's Town, Newfoundland. He is survived by five daughters, Mrs. Edgar O'Hara, St. John; Miss Josephine, Nora and Adel, of Newfoundland, and Sister Mary Petronilla of Sister of Charity City; two sons, James Flynn of Mary's Town, Newfoundland, and

A Gray Canton has pin tuck groups all down both front and back, self covered buttons down one shoulder and on the sleeves, while the sash belt fashions into a hand-made ornamentation at the hips where a series of streamers begin. \$42.75.

New Frocks now show in Crepe de Chine, Satin back Canton Crepe, Crepe de Chine and Charmeuse. Colors are mainly the popular Blacks, Navies and Grays, the styles are something to see and study separately.

A Leader in Coats

In the fashionable places of the Adirondacks, over the ocean at Deauville, everywhere the big hit in a coat has just been scored by the type shown in the corner window. Fluffy, long haired Balmana Cloth. You see it in a toning of wood shades, effects in Brown you'd never think possible. High crush collar, side tie.

The swing towards velvety piled fabrics turns attention to a Navy Marvella Coat with lining of Gray Crepe de Chine half way down, then a silver corded border and Black Crepe de Chine thereafter.

PRINCE DANCES THREE TIMES WITH A NEW YORK "SOB SISTER"

Newspaper Woman, Traveling Incognito, "Hogs" the Limelight.

Quebec, Sept. 17.—A New York newspaper woman was the sensation of Quebec City when she danced three times with the Prince of Wales.

She was as incognito as the Baron of Renfrew himself. Her entrance to Quebec society was secured through the medium of a local dowager and she was presented to the Prince by Major-General Trotter.

After his first dance, the Prince returned to the corner and the girl in green was seated near a corner reserved for his Royal Highness.

The orchestra stopped. The major-general and the girl in green returned to the baronial corner.

Miss Stanley was seated when the Prince approached. She did not rise when presented, simply inclined her head and nodded.

The orchestra resumed to play again, and the girl in green was out on the floor, partnered by Major-General Trotter.

They zig-zagged among the other couples, the girl speaking most of the time, her cheek almost touching the Prince's, drawing back now and then to look into his eyes.

The orchestra stopped. The Prince and the newspaper woman returned to the baronial corner.

After the Prince had danced with Mrs. Boomer of New York he returned to the girl in green.

The dance ended, Lord Renfrew and Miss Stanley returned to the corner. Almost immediately the girl excused herself, bowed to the Prince,

and with the elderly woman the young girl walked out of the ballroom. The Prince joined in conversation with Sir Godfrey Thomas.

Miss Stanley maintained her incognito. Major-General Trotter and the Chateau room clerk did not know who she was. But two hours later a story was wired to New York.

One recalls that day at St. John, when he stepped ashore to face the concerted gaze of Canada in his blue naval captain's uniform splashed with ribbons, glittering with gold braid, shy and nervous, blushing, biting his lips, looking like an Osborne cadet.

Here was ease. He still touched his tie. He still felt for his pocket. But this was habit, not nerves. His smile had not the spontaneity it had on his grand tour, but it was the same sort of smile, friendly, happy, unforced.

This case was even more evident as he stood last night in the rotunda of the hotel. He had dined, gone out in the damp air hunched for a stroll with General Trotter, and returned.

It was announced in St. Peter's church yesterday that there would be a mission renewal in the church commencing on Sept. 30. The mission will continue for three weeks.

Change In Prince Since St. John Visit

(Fred G. Griffin in Toronto Star.)

There is but little change in the appearance of the Prince. But the change is there, nevertheless. It may be put simply. He is really less of a boy.

There is, about him now, an aura of maturity that was lacking when he was here before. He is the same, and not yet the same. There is a sense of keener balance, greater poise, fuller experience.

Decision In City School Case Reversed

His Honor Judge Barry, in the County Court on Saturday morning reversed the decision of Magistrate Ritchie in the case of Jeffrey Meddler vs. Reverdy Steeves and quashed the conviction, ordering the fine returned to Mr. Steeves.

Dr. J. B. M. Baxter, K. C., in summing up, referred His Honor to the School Act, the criminal code and three cases along similar lines.

His Honor said he did not think any good could be done by reserving judgment. He had read the evidence given before the Police Magistrate and had looked up the authorities cited.

Change In Prince Since St. John Visit

(Fred G. Griffin in Toronto Star.)

There is but little change in the appearance of the Prince. But the change is there, nevertheless. It may be put simply. He is really less of a boy.

There is, about him now, an aura of maturity that was lacking when he was here before. He is the same, and not yet the same. There is a sense of keener balance, greater poise, fuller experience.

One recalls that day at St. John, when he stepped ashore to face the concerted gaze of Canada in his blue naval captain's uniform splashed with ribbons, glittering with gold braid, shy and nervous, blushing, biting his lips, looking like an Osborne cadet.

Here was ease. He still touched his tie. He still felt for his pocket. But this was habit, not nerves. His smile had not the spontaneity it had on his grand tour, but it was the same sort of smile, friendly, happy, unforced.

This case was even more evident as he stood last night in the rotunda of the hotel. He had dined, gone out in the damp air hunched for a stroll with General Trotter, and returned.

It was announced in St. Peter's church yesterday that there would be a mission renewal in the church commencing on Sept. 30. The mission will continue for three weeks.

After his first dance, the Prince returned to the corner and the girl in green was seated near a corner reserved for his Royal Highness.

They zig-zagged among the other couples, the girl speaking most of the time, her cheek almost touching the Prince's, drawing back now and then to look into his eyes.

The orchestra stopped. The major-general and the girl in green returned to the baronial corner.

Miss Stanley was seated when the Prince approached. She did not rise when presented, simply inclined her head and nodded.

The orchestra resumed to play again, and the girl in green was out on the floor, partnered by Major-General Trotter.

The orchestra stopped. The Prince and the newspaper woman returned to the baronial corner.

After the Prince had danced with Mrs. Boomer of New York he returned to the girl in green.

The dance ended, Lord Renfrew and Miss Stanley returned to the corner. Almost immediately the girl excused herself, bowed to the Prince,

and with the elderly woman the young girl walked out of the ballroom. The Prince joined in conversation with Sir Godfrey Thomas.

Miss Stanley maintained her incognito. Major-General Trotter and the Chateau room clerk did not know who she was. But two hours later a story was wired to New York.

Grape-Nuts THE BODY-BUILDER MADE IN CANADA

Some men find it particularly beneficial to "sidetrack" worrying ideas by dwelling in imagination on the good things that are theirs—health, family joys, the kindness shown them by friends, the music, the books, the beauties of nature to which they have access. Some banish worry by turning to an unusually interesting problem connected with their daily work for a leisure-time hobby.

HIGH COST ROBS FATHER OF TERRORISM

Asking Dad for Daughter's Hand Not What It Was in Old Days Before War.

(New York Sun) Men who are in a position to know the facts agree gloomily that being a father isn't what it used to be. Since the days when we all sang "Everybody Works But Father," great social, political, economic and domestic changes have taken place. Father works now—works when there is a job for him to hang on to.

Does father get chesty with that young man nowadays? He does not. In nine cases out of ten the young man doesn't take father into his confidence at all. The girl no longer says, "Ask papa." It isn't done. But if some old-fashioned suitor did go to beard the old man in the old-fashioned way father's reception of him would be quite different from what it would have been before the war.

2 GAMBLERS WIN \$500; FINED \$1,000

Court Imposes Penalty Providing Levy Double of the Winnings.

Boston, Sept. 17.—Fred Mills, known as "Texas" in the bone rolling world according to the police, and Reuben Watson learned in the police court that "rolling dice bones" at \$1 to \$50 per cast is expensive not only to the losers, but to the winners as well. This education was brought home through the medium of a \$800 fine imposed on Watson and a \$200 fine on his fellow crap shooter, Mills.

The law provides that gamblers convicted of winning more than \$5 shall be fined twice the amount of their winnings, and Watson won \$400 from Dr. John Jones, according to Jones. Mills, who was either more fortunate, or not so much so, according to the point of view, won only a little over \$100, so his fine was \$200.

Lorelei Lured Him Into Wrong House, He Pleads in Court

Vision Vanished When He Climbed to Her Window, He Says.

New York, Sept. 17.—Leo Goodman, 31 years old, explained very carefully to the court that he certainly was not drunk at the time. But he did see a beautiful woman, with golden hair and an enchanting smile, who called to him in endearing terms. Leo was not the man to resist and so he climbed, according to one version of the story, a waterspout to the second floor window at 388 West Fifty-fifth street, which is next door to his own home.

Just as he was about to touch her hand the lovely vision vanished and Goodman was accosted by the occupant of the room, William Fisher, a salesman. Fisher didn't think much of the Lorelei vision and ordered Goodman to get out in a hurry. Goodman obeyed with a rush that landed him in the yard across the way, where he entered the room of E. A. Hamilton, a chemist.

WOULD FLY ZR-1 ALL OVER WORLD

Trip to the North Pole May Be Attempted Next Spring.

Washington, Sept. 17.—There is part of the programme of the navy dirigible ZR-1 having been carried out successfully, Rear Admiral Moffett, Chief of the Bureau of Naval Aeronautics, said that the more extended flights soon would be undertaken and that if practicable a flight to the North Pole would be attempted, perhaps by next Spring. The navy, he said, last Fall had promised this flight.

The ZR-1, Admiral Moffett said, will not only be used as a naval scout, but data will be kept to prove whether rigid airships can be made a commercial success. She will be used for voyages to other parts of the world, heretofore inaccessible for exploration and discovery. Unstinted satisfaction over the performances of the giant craft was expressed by Secretary Denby.

The ZR-1 was designed in the Navy Department, under the Bureau of Aeronautics, fabricated by the Naval Aircraft Factory and erected at the Naval Air Station in Lakehurst, N. J., under the supervision of officers of the corps of naval constructors and is now being flown by her regular naval crew.

IN THE CHURCHES

The congregation of St. George's church, West St. John, on Sunday had the pleasure of meeting and greeting Rev. Walter DuMoulin, who has been appointed by the rector, Rev. W. H. Sampson, as his assistant. Mr. DuMoulin is a son of the late Bishop of the Niagara diocese and has been working in the ministry of the Episcopal church in the United States.

Rev. Dr. J. H. MacDonald, C. B. E., was the preacher at both services in the German street Baptist church yesterday and large congregations were present to hear his eloquent addresses. Dr. MacDonald is on the staff of Acadia University at Wolfville, and is the lecturer in Bible subjects. During the war he was the head of the chaplain service with headquarters in England and he also served as chaplain at the front. His "C. B. E." was conferred upon him for distinguished service during the war.

STUMPAGE TARIFF OF 1923 REVIVED

A Reduction, However, for Quebec Regions Affected by Forest Fires.

(Montreal Gazette.) Quebec, Sept. 18.—The 1920 tariff of stumpage dues, the highest ever enforced in this province, which has been suspended for the season 1921-22 and 1922-23, will be in operation this year, according to an order in council, which has been adopted by the cabinet and will be signed tomorrow. Regions affected by forest fires, which, however, can still be exploited, will benefit by a reduction of 50 per cent on that tariff. This decision was arrived at by the cabinet notwithstanding representations made to keep the 1918 tariff in force. The renewed activity in the lumber industry and the general improvement in conditions are said to have warranted this move on the part of the Government, which will bring increased revenues.

BABIES' DISCOUNT INCREASES VOLUME

Drug Stores Grant 20 Per Cent to "New Customers."

The rubber goods departments of the drug stores in the Owl chain have succeeded in registering a heavy increase of business and good will by granting a 20 per cent discount to new-born babies. As soon as a birth is recorded in an Owl store the mother receives this form of letter, addressed to her personally, and signed by Fay H. Meyer of the women's division of the company. "Congratulations on the little one who recently arrived to bless your home. Having had the same wonderful experience of motherhood, I can reminisce and almost envy the mother of a newborn babe. "To be of the utmost help to patrons of our stores, we have placed competent nurses in charge of our rubber goods departments, who are rendering a real personal service to mothers and prospective mothers. "The employees of our company are friendly people; it is our wish to become acquainted with your child and have him grow up to feel at home in an Owl Drug Store. "As a compliment to you on the first purchase for the new baby or yourself at this time, the enclosed card will be accepted for a 20 per cent discount on any purchase you make in our rubber goods department—a department which comprises hundreds of articles. "To take advantage of the discount the mother must sign the card, give the baby's name and address. The card is dated and bears the notice that its validity expires thirty days after date. On the reverse are listed suggestions for toilet articles especially suited to baby. "With me know how mad is a hornet. Then we could tell you how mad England and France are.

TREND IS UPWARD IN WALL STREET

Opening Prices are Irregular—Montreal Power at New High.

New York, Sept. 17.—(Wall street, noon.)—Early buying orders more than offset selling orders in today's stock market. Irregular with the more notable changes inclining upward. Davison Chemical moved up two points, Gulf States Steel and Stewart Warner 1-2, Baldwin and Famous Players 3-4. Losses of a point or more were sustained by Gluett Peabody and Inland Steel. Noon Report. New York, Sept. 17.—Wall street, noon.—Early buying orders more than offset selling orders during the first hour, the market in the main moving upward. Good gains were registered by some of the equipments, motors, tobacco, oil and various miscellaneous stocks, Beecham advancing five, Back Truck 2 1/2, and American Sunstar 2. A brief period of selling cancelled the early gains in many instances but new buying stiffened prices generally toward midday. Several low-priced oils were heavy, Sinclair falling to a new low for the year. Market Street Railway preferred dropped 7-8 points, Youngtown Sheet and Tube 4-5, American Sugar three and Columbian Carbon 2-3-4. Call money opened at five per cent. Montreal Trading. Montreal, Sept. 17.—(10:30.)—Montreal Power and Shawinigan accounted for most of the trading on the local stock market during the first half hour today. The former came out with a gain of one point to the new high of 122. The latter was unchanged at 121-1/2. Other price changes included Brompton 1-8 to 41-7-8; Illinois up 1-4 to 50 1/2-1. The balance of the list showed little change. The Dollar Today. New York, Sept. 17.—Sterling exchange irregular; Great Britain 45.5-3-8; France 532 8-4; Italy 441.1-4. Germany 3000-900. Canadian dollars 2 11-32 per cent discount. FINANCIAL NOTES. Montreal, Sept. 17.—Cables \$4.45 1/2. London, Sept. 17.—Bar silver 91-8 1/2. New York, Sept. 17.—Bar silver 91-8 1/2. ENGAGEMENT. Mr. and Mrs. J. deBoo, of 15 Peter street, announce the engagement of their daughter, Jean Marguerite, to Robert Carey Kelly, of Covington, Kentucky, the wedding to take place in the near future in New York.

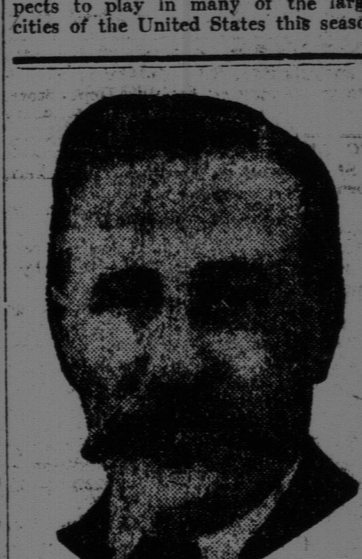

YANKS NEED ONE TO CINCH TITLE

Giants Win in Chicago Amid Shower of Pop Bottles.

New York, Sept. 17.—The Yankees cannot lose the American League race. They may be tied for first place if Cleveland wins every game and they lose every one. But one more victory clinches their title to first place and a chance at the world's series. They won a double-header yesterday from the Indians, 4 to 2 and 8 to 2, before 6,801 cash customers, one of the largest crowds that ever cheered the home team on to victory. Ratin made his 37th homer of the season and tied Cy Williams for the clutching lead. The Giants subdued the Cubs in Chicago, winning 10 to 6, despite a shower of pop bottles from the stands and bleachers. Barney Friberg, of the Chicago team, was the only man injured. He was struck on the shoulder by a bottle. The Reds trimmed the Braves in Red Town 7 to 4, although the Boston team knocked out 14 hits to eight by the victors. Rixey and Lague kept the biggies so scattered that they counted for very little. In St. Louis the Cardinals made it three out of four from the Phillies by taking yesterday's game 3 to 2. Ring and Sherdal participated in the pitching battle, which was close, the losers getting ten hits to the winners nine. The Browns defeated the Senators in Washington 7 to 3, in a game which they led from the second inning when they piled up three in a row. The Senators scored two of their runs in the last inning.

THE DUMBELLS.

Many novel innovations are said to be featured in the new "Original" show, "Rapid Fire," which will be presented by members of the Third Canadian Division concert party at His Majesty's Theatre, Montreal, this week. The popular Original quartet, with Bill Tennant, Tom Young, Jerry Drayford and Bertram Langley, will be seen in "Border Ballad" and a special arrangement of "Ye Banks and Braes" and also in the Indian Love Lyrics. Other skits, sketches, concerted acts and features are included in this new show, and the programme ranges from light opera to jazz. The company expects to play in many of the larger cities of the United States this season.

Mr. E. F. Wheeler, of 22, Regent Street, Balby, Doncaster, England, who writes—

"About two years ago I had a nasty wound break out in my big toe. It attended to for about three months but during that time it had spread to the toes, with the result that I had to undergo an operation, but with no avail. Then, after another operation, as it did not get any better, I thought I would give you 'Clarke's Blood Mixture' a trial. After taking the first three bottles I could walk better, and now after having nine bottles the wound has quite healed, and I am pleased to say I have not seen any sign of it breaking out since."

Sufferers from Red Legs, Abscesses, Ulcers, Eczema, Bells, Pimples, Eruptions, Rheumatism, Gout, should realize that lotions and ointments do not give temporary relief but are sure to complicate and last long. The blood must be thoroughly cleansed of the impure waste matter the true cause of such troubles. Clarke's Blood Mixture quickly attains, circulates, and supports the impurities, that is why so many remarkable recoveries stand to its credit. Pleasant to take, and free from injurious ingredients.

Of all Dealers—see that you get Clarke's Blood Mixture "Everybody's Blood Purifier."

OPINIONS ON THE STOCK MARKET

(McDougall & Cowans) New York, Sept. 17.—Hutton & Co. "We feel that the proper course is to hold sound stocks. We continue bullish on the oils." Houseman & Co. "If the oil shares have not discounted conditions then those conditions must be almost too terrible to admit of description." Pyncheon & Co. "We see no reason to change our viewpoint in that stocks will not receive influential support until the low prices of June and July levels are reached." Frince and Whately. "Indications now are that the decline will be considerably further and be interrupted only by brief rallies." Evans. "The natural tendency of the market is to decline. Just when rallies will come, it is hard to say, but the time being stocks are a better sale on rallies than they are a purchase on declines."

NEWS NOTES OF STOCK INTEREST

(McDougall & Cowans) New York, Sept. 17.—Italy begins evacuation of Corfu. British Steel production in August 388,000 against 684,000 in July. Losses in Japanese earthquake estimated at \$92,500,000 or less than 2 per cent of nation's wealth. Chicago Railway Ed. declares regular quarterly dividend 50c on common and 1.8-4 on preferred. London hears Sir Auckland Geddes will not return to Washington. August sales of Ford motors 161,567 cars and trucks; increase, 39,606 over August 1922. D. J. & Co.

Greece Prepares for Naval Demonstration

Paris, Sept. 17.—The French light cruiser Mulhouse (formerly the German cruiser Stralund) has been designated to take part in the naval ceremony in the Roads of Phaleron, Greece, on Sept. 19. On this occasion the Greek fleet, assembled in accordance with the decision of the Allied Council of Ambassadors in its adjustment of the Greco-Italian difficulties, will fire a salute and dip its flags to the Allied navies. The British will be represented by the cruiser Cardiff, and the Italian navy by two battleships.

MORNING STOCK LETTER.

(McDougall & Cowans) New York, Sept. 17.—There is nothing so far as we can see in the news and the week-end that will cause any change in the character of the market. The coming week should be one of quiet irregularity as the market has been heavily enough sold. Unless something unforeseen happens we would sell stocks on any recovery this week. As we pointed out before we believe disappointment in domestic trade developments is the main reason for the decline. We believe there are indications of lower production rates and lower commodity prices. At the same time we do not expect any business depression compared to 1921. Financial conditions seem to be sound. Lower commodity prices and lower production rates, however, would tend to depress prices for stocks. Thus, we continue to advise sale of stocks on rallies, as it did in the latter part of July, when it was heavily over-sold. LIVINGSTON & CO.

HIGH PRAISE FOR ZAN MILLER

Montreal Athlete, Here, Says Sussex Man is Coming World's Champion.

That Zan Miller of Sussex has the makings of a world's champion was a statement made to The Times today by Don J. Cable, one of the participants in the Canadian track and field championships, which were held in Halifax Saturday. Mr. Cable, who is in charge of the C. P. R. ocean traffic office in Quebec, was entered in two events in the championships, the discus throw and the fifty-six pound hammer throw and won premier honors in both. In the former he tossed the discus 139 feet 8 inches and in the latter he hurled the big iron ball 24 feet 1 inch. Speaking of the meet Mr. Cable said it was well conducted and reflected credit on those in charge. He said that all the participants had made a good showing, while some had more than exceeded expectations. With reference to W. J. Maynes of this city, who finished second to D. Johnson of Montreal in the 440 yards event. He said the local lad was pitted against an All athlete, who holds intercollegiate championships, and who made a manly fight, but he should not mind his defeat for he proved that he is a classy quarter-miler and with more experience should make a name for himself. When questioned about his own performance Mr. Cable said he had been lucky. This however is not the case for Don is marked throughout Canada for his marked ability as a discus thrower and he made the Canadian Olympic team a few years ago. Owing to his business obligations he was unable to accompany the Canadian team. He is to return to Montreal this evening. COVEY PRAISES MAYNES' WORK. A. W. Covey returned from Halifax much enthused over the successful athletic events. Aside from Zan Miller's sterling work he said notable features of the meet were the running of Eddie Ray, of Hamilton, in the five miles and Maynes of St. John in the quarter mile. Maynes, he said, ran fifty 10 yards more than his opponents and yet finished but inches behind the winner. Maynes, said Mr. Covey, was a logical choice for the Canadian Olympic team. Mr. Covey said he was greatly pleased to see so many athletes under 21 years of age competing and so many of them proving winners. He looked on this as proving the wisdom of the method of quarter-mile competitors from small community meets through the larger fields into Maritime Province competitions.

HOME FROM EUROPE.

Dr. J. D. Maher returned home today from Montreal. He was accompanied by his wife and daughter, Miss Hortense, and Mrs. H. McCullough and Miss Ruth Ryan of Montreal. Mrs. and Miss Maher and Mr. McCullough had been on an extended visit to Europe.

Mother Rejoices Over Restoration of Child

"It just fills my heart with joy to see how Tanlac has helped our little girl," said Mrs. A. Carlos, 1619 Chabot, Montreal, P. Q. "Vivette was pale, thin and weak and I just could not get her to eat anything. She always seemed sleepy and never wanted to get out and play with her little friends. It was a great care and worry, for she was sick all the time, and nothing seemed to do her any good. "I noticed a Tanlac testimonial and got her a bottle. This one helped her so much I told my husband to get her some more, and we are more than pleased with the results. Why, she is perfectly well now. She has a good appetite, her cheeks are red, and she is growing rapidly. She seems lively and energetic like an eight-year-old child should be. I gladly recommend Tanlac to make children eat and grow. It's wonderful." Tanlac is for sale by all good druggists. Accept no substitute. Over 27 million bottles sold.

ST. JOHN BRIDESMAIDS.

(Montreal Gazette.) The marriage of Miss Gladys Seaton Mowatt, daughter of Mr. and Mrs. Oswald Mowatt, Grosvenor Ave., to Harry C. Teifer, son of Mr. and Mrs. H. C. Teifer, Western Ave., has been arranged to take place on Wednesday, September 26, at six o'clock at St. Andrew's Church, Westmount. The Very Rev. Dr. W. J. Clark will perform the ceremony, assisted by the bride's uncle, Rev. Joseph Mowatt, of Honan, China. The bride will be attended by her sister, Miss Louise Mowatt, at maid-of-honor, and the bridesmaids will be Miss Muriel Scovill and Miss Marjorie Robertson, of St. John, N. B. Miss Marjorie King, niece of the groom, will act as flower girl. Ross Robertson, cousin of the groom, will be the best man, and the ushers will be Messrs. Jack Eno, Leslie Inwood, Frank Henriette and Wallace Mitchell. Miss Marjorie Robertson, of St. John, N. B., who has been visiting friends in town for the summer, is at present the guest of Miss Muriel Scovill.

AT COUNTY HOSPITAL.

An inspiring church service was conducted at the East St. John County Hospital on Sunday morning by Rev. Wm. Phillips of the Douglas Avenue Christian Church, accompanied by the choir of twenty voices. Hymns were sung heartily by the choir and a duet was well rendered by Mrs. V. R. Henderson and Mrs. Taylor, also a solo by William McEachern, Alexander Crutcher and the choir leader and accompanist. Rev. Mr. Phillips gave a short address of cheer to the patients and said he had visited many hospitals in Australia and United States, but had never seen so many smiling faces marked by cheerfulness and optimism as were shown while visiting the patients at the East St. John County Hospital. The patients hope Mr. Phillips and his choir will gather again soon, as the service was enjoyed by all.

Henry McEachern of the Times' composing room staff, who is a patient at the East St. John County Hospital, had the pleasure of hearing the ring-side news of the Dempsey-Firpo fight by radio at this institution, with the rest of the up-patients. The radio service was so distinct that the bell was heard as if in the next room. This service gives much pleasure to the patients. Church services were heard last evening from a Baptist church in New York.

OUTLOOK IS FOR BETTER SEASON OF FOOTBALL IN ST. JOHN IN 1923

Trojans and High School Preparing for Grid-iron Contests.

Slowly but surely football is winning its way back to popularity in this city. About fifteen years ago St. John could boast of some strong well balanced teams, but as time passed interest in the game began to lessen and only junior and intermediate play was carried on. Last season the Trojans, a well organized club comprising prominent athletes in the city, decided to organize a senior team and in competition with university fifteens made an exceptionally fine showing. Their efforts not only won admiration but did much towards reviving the game in this city. This year the Trojans are again organizing and from all indications will have an exceptionally strong team. In addition to participating in football they also have one of the fastest basketball teams in eastern Canada and also a strong baseball team. The club at the present time has fifty members.

The football team has already been out to practise and looks stronger, and better balanced than last year. W. R. Golding is manager of the team and Jarvis Wilson, captain. The candidates for places on the team are as follows:—Fullback, Millidge and Greig, the latter was formerly with the Halifax Crescents; half-backs, Kerr, Campbell, MacGowan, Angevine and Armstrong. Campbell is one of the fastest sprinters in these parts and should prove a valuable addition to the half line. The quarters will be picked from Captain Wilson, Shaw, Snow and Perry. Snow was formerly one of the star players with Robbsey Collegiate School. The scrum will be chosen from Hollys, Brander, McMurray, "Beeg" Malcolm, Hatfield, Gilland, Grant, Akersley, Styles and D. MacGowan. Akersley was third line man for the U. N. B. team last year.

Plans are already being made to play games with the U. N. B., Mount Acadia, the Halifax Wanderers and Moncton city team. Games will be played on the Allison grounds which are in better condition this year than last.

The High School boys are also going to have a strong team this year to enter in the Interscholastic League. They have a large number of candidates out practicing, but the line-up has not yet been announced. They are working out daily on the old Shamrock grounds, North end, under their coach, Sandy Thorne, and they should make a strong bid for championship honors.

The Trojans and High School teams will play a practice game on Saturday afternoon on the Shamrock grounds.

"ZAN" MILLER IS LEADER IN POINTS

Makes Fine Record at Halifax Olympics—Maynes Runs Wild.

The Canadian track and field championships held in Halifax on Saturday attracted 5,000 spectators. While no Canadian records were broken, new Maritime marks were established. Ontario athletes carried off honors, making a total of 55 points; Nova Scotia was second with 42; Quebec third with 26; New Brunswick fourth with 24 points, and Prince Edward Island fifth with 18. A. I. Miller of Sussex was the highest individual point scorer of Charlottetown was second with 18—the defeat of Victor MacAulay, Eastern champion, in the five-mile run. He was defeated by Eddie Ray of Hamilton.

The quarter mile was won by D. Johnson of Montreal after a hard battle with Billy Maynes of this city. The latter lost out by inches, after having been back at the start and then being headed for some time. In spite of this he broke away and was closing rapidly in the winner when the tape was reached.

Toronto used Hamilton men in the relay race and there was a lengthy dispute over their eligibility on the Queen City team. This dispute was adjusted when the officials allowed an Ontario team to compete. The Ontario team established a new Maritime relay record, being only five seconds behind the Canadian record. Other Maritime records broken were the hammer throw by Stephen Kennedy, Halifax, who bettered his own mark by four feet, the mile run by Barney Francis, Charlottetown, who clipped three-fifths of a second off the mark made by Hans Holmer in 1908; pole vault by Pickhard, Hamilton, who made twelve feet, breaking Len MacDonal's record by five inches; discus throw by Don Cable, Montreal, who bettered the old record by several feet. Anthony Vince, Toronto, equalled the hundred yard record at ten seconds and D. Johnson, Montreal, also equalled a maritime record when he negotiated the 440 yards in 80 and 85 seconds. Maynes, of St. John, was second, inches behind. This record was made by Parker Hooper, Charlottetown, in 1913.

Summaries: 100 yards dash—Final—1st, Vince, Toronto; 2nd, Ponton, Toronto; 3rd, Fuller, Montreal. Time 10 seconds 3/4. (Equal Maritime record). 220 yards dash—Final—1st, Ponton; 2nd, Vince; 3rd, Fuller. Time 22-5-5 seconds. 440 yards dash—Final—1st, D. Johnson, Montreal; 2nd, W. J. Maynes, St. John; 3rd, A. Cameron, Montreal. Time 50-8-5 second. (New Maritime record).

GERALD MAY BE GOOD, BUT HE CAN'T PROVE IT UNTIL SIZE 13 SHOES ARRIVE. Worcester, Sept. 17.—Gerald Donkin of Ansonia, Ct., freshman candidate for the Holy Cross team, may be a good football player, but so far has not had the chance to prove it here. He is 18 years old, weighs 190 and stands 6 feet 5 inches in his stocking feet. But that is not all, he wears size 13 shoes, and a foraging party to all the retail and wholesale footwear establishments of this city has failed to produce anything so magnificent. So Gerald pines on the sidelines, balked by his underpinning, and unable to show his stuff until the parcel post service brings his own hand-carved gun-boats from home.

DRY DOCK AT COURTENAY BAY TO BE OPENED ON MONDAY, OCTOBER 29

Announcement of Official Date Made Today by Manager Ross.

The ceremony of opening the big dry dock at East St. John will take place on Monday, Oct. 29. This announcement was made to a reporter for The Times this afternoon by F. M. Ross, manager of the St. John Dry Dock and Shipbuilding Co. on his return to the city from Ottawa.

Mr. Ross said that while he was in the capital city of the Dominion he had asked the Minister of Public Works to present to His Excellency, The Governor General, Baron Byng, of Vimy, an invitation to open the St. John and officiate at the opening of the great work. Not enough time had elapsed to permit of an answer being received from His Excellency.

This definite news of the date of opening will be read with great interest by many.

MITCHELL OF THE BRAVES SUSPENDED

Former St. John Baseball Player Indefinitely Out of Big League.

A Canadian Press despatch from Chicago says that Manager Fred Mitchell, of the Boston Nationals, today was indefinitely suspended by President Heydler for continued violation of the playing rules. Mr. Heydler in announcing the suspension of the Boston manager, said that Mitchell had been ordered out of the game a number of times because of his persistence in arguing with umpires.

Mitchell formerly played with the St. John Alerts. His name was Fred Yapp and he and Harry Jope formed the famous "Nid and Nod" battery in baseball here in the days of contests with the Roses. When he went to the big league field Yapp took his mother's name of Mitchell. His successful career in the majors has been followed with interest by friends in St. John.

MRS. HUGHES LEFT SUMS TO CHURCHES

Will Contested by John Nixon—He Gets \$300 and Costs

St. James' Anglican Church and the Carmarthen street Methodist church, each benefited about a thousand dollars, by the estate of the late Harriet Hughes of this city, whose will was admitted to probate before Judge H. O. McInerney, in Probate Court this morning.

John Nixon contested the will, claiming \$1,488, as salary for six years, which he said was not paid. He said he was employed by Mrs. Hughes as a helper around the house. He also contended that in 1916 she had promised him her house. He was allowed \$300 and costs. Mrs. Helen S. Brown was appointed executrix. The total value of the estate was \$2,825.57. E. P. Raymond appeared for the churches, Francis Kerr for the claimant, and B. R. Armstrong for the executrix.

WOMAN DENIES BEING DRUNK

Two men and a woman appeared in the police court this morning to answer charges of drunkenness. The men pleaded guilty and were fined \$5. The woman denied being drunk, but acknowledged that she had taken a drink. She desired to call a witness to testify on her behalf and her case was set aside until this afternoon. Policeman Hatt testified against her.

As Hiram Sees It

"Hiram," said The Times reporter to Mr. Hiram Hornbeam, "I sat on the end of the wharf at Reed's Point yesterday, just after noon, watching the gulls. There was a light swell on the surface of the harbor, and they would alight in little flocks close to the wharf and another in the stream, and would nod and nod something that had been thrown overboard.

Some of them were always in the air, flying, gliding, racing and making me envious. Then, over Fort Dufferin, flying high, came an airplane, jerking loudly, as it flew over the harbor and Fort Howe to Millidgeville, at the tiny wings flapping about below. Man makes his own wings and as a bird his habitat is everywhere. Isn't it wonderful?"

"It beats all," said Hiram. "An' yit the some folks says we can't git over a little spell o' dull times when it comes along. Mister—if folks had faith equal to what they're able to do in this world, we wouldn't hev dull times very long—no, sir."

DR. I. C. SHARP IS DEAD IN OTTAWA

Dr. I. Clarence Sharp, for the last 25 years a prominent physician of Montreal, and formerly house surgeon of the Montreal General Hospital, died in Ottawa yesterday, after a brief illness. He was born at Studholm, Kings county, N. B., in 1858, graduated in medicine from McGill University and in 1885 began his career as a consulting physician in Marysville, N. B. Soon afterwards he moved to Montreal and opened offices there. These he had maintained until the time of his death.

He leaves his wife, Mrs. Helen Jean MacLeod Sharp of Montreal; one brother, Albert, of Sussex, N. B., and one sister, Mrs. Wm. Bell, of St. John. Interment will be made in Fredericton on Tuesday.

TAKING CENSUS.

A census of the Catholic people of the Cathedral parish is being taken this week by the priests. It is customary to do this from time to time.

IN PLACE OF LIGHTSHIP.

The Lurche lightship was taken off its station on Saturday and replaced by a gas and whistling buoy. The lightship will be laid up for about a month. J. C. Chesley, marine agent here, is in Yarmouth attending to the details in connection with its overhauling.

DIED TODAY.

Friends will be sorry to learn of the death of Mrs. Eliza Jane Downey, which occurred after a lingering illness at the home of her son, Russell street, East St. John. Five daughters and two sons survive. The funeral will be held on Wednesday afternoon.

AFTER 20 YEARS.

Miss Annie Porter has returned to Boston, following a two months' visit to her sister, Mrs. Samuel Willis, and Mr. Willis, 22 Wall street. This was Miss Porter's first visit to the city in 20 years, and she was greatly impressed with the general improvement noticeable about the city.

SUNDAY SCHOOL RESUMED.

The Sunday School classes for the Catholic children of the Cathedral were resumed yesterday afternoon at 2:30, after the summer vacation. All the classes were largely attended. Rev. R. M. McDonald, in charge of the boys of the Cathedral parish this year.

QUIET COP IS BUMPED.

An automobile owned by Charles N. Clarke, 27 Victoria street and driven by his daughter, collided with the silent policeman at the corner of Adelaide and Main streets on Saturday night. The lights of the car were broken and the radiator badly damaged.

WEST SIDE WATER SERVICE.

Water was turned on in the Spruce Lake main on Saturday and the residents of Lancaster now have the full service. Commissioner Frink, at the council meeting this morning expressed the opinion that not until a stand-pipe was erected would the people living on the heights have a good supply of water.

PICNIC RETURNS.

It was announced in the Cathedral yesterday that the net proceeds of the Sunday school picnic held at Torryburn in August were \$2,163.47. The money is for support of the orphanage. His Lordship Bishop LeBlanc said it was a large sum when the weather and the pressure of the times were considered and he thanked the people for their generosity in making the picnic such a success.

HERE TOMORROW.

A. D. MacTier, vice-president of the C. P. R., is expected to arrive in St. John tomorrow evening. He left Montreal today and on his arrival at Brownville will start an inspection of the New Brunswick district. J. M. Woodman, general superintendent of an district, went to Brownville to meet him. It is expected that Mr. MacTier will leave Wednesday for the northern section.

COUNTY COURT.

The case of Frederick Green vs. Alexander McLeod, which was to have been heard in the County Court this morning before Judge J. A. Barry, was postponed, because of the inability of some of the witnesses to be present, until the middle of October. If at that time the witnesses still cannot attend, it will be postponed until the first week of the court. C. J. McIlroy appeared for the plaintiff and Francis Kerr, for the defendant. The case is one of employer and employee.

THE POLICE MATRON.

Commissioner Thornton when asked this morning what would be done in the case of Miss Ross, police matron, who had resigned, said he had not had an opportunity to look into the matter since coming home, and had heard nothing about it before he went away. The commissioner said he had never given any understanding to bring the matter before the city council, but he had said to Miss Ross that he could not keep her on the payroll without the consent of the council.

FIRE THIS MORNING.

Fire about 9:15 o'clock this morning, caused considerable damage to a small wooden structure occupied by George Nash, and owned by Frederick Gregory, at 112 Charlotte street. The alarm was rung in from Box 24. The fire seemed to have started in an unoccupied room at the rear of the house, and had gained considerable headway when seen by Mr. Nash. Part of the walls had to be torn down to extinguish the blaze. There was no insurance on the furniture. Crossed wires caused the fire going to sound seven times during the night.

SHOT A WILDCAT.

There was some excitement yesterday morning around Morna and for a time many of the residents were of the opinion that some one was breaking the game laws as soon as the season opened, as the sound of shooting was heard. It turned out, however, that the animal at which the shots were directed was not one protected by the laws of the land but one for which the Government pays a bounty, a wildcat. The cat had been seen several times prowling around by Matthew Camp and he set a trap for the intruder. Yesterday morning the cat walked into the trap and dragged it for some distance into a clump of alder bushes. Mr. Camp followed the tracks. Coming to where the animal had been brought to a halt he put it out of misery. The animal was quite large and many looked it over during the day.

REMEMBER WHEN—

During the summer of 1877 the International Steamship Company's steamers plying between Boston, Portland, Eastport and St. John were the New York and City of Portland.

The steamer Flamborough was running on the route between New York, Yarmouth and St. John during the summer of 1877.

A. B. C. Electric Washer

This last word in wash-day equipment should find space in every home in St. John. At best, wash-day is a burden. Wringing clothes the old way harks back to pre-historic times. The A. B. C. has so many points of superiority, it is such a peer in its field that space here is wholly inadequate to attempt a satisfactory and just description of the machine.

Come in person. See it work for yourself. See how easy and economical it is to operate.

You'll eventually get one You'll have to inspect it some time. Do it now. No obligation entailed in the least by your call.
