GEORGE KITCHEN'S WILL ADMITTED TO PROBATE, \$120,000

He Had Distributed Much Before Death—Refusal of \$15,000 for Lych Property—The Storm Wild

Fredericton, N. B., Feb. 27.—(Special)—The will of George Kitchen, retired railway contractor, was admitted to probate yesterday. The estate was sworn in at \$120,000, about one third of which represents real property, including the homestead at Kingslear and property in this city. The widow receives an allowance for life and the residue of the estate is divided equally among four sons and one daughter. It is understood that Mr. Kitchen divided a large amount of property among his children several years before his death.

It is understood that an offer of \$15,000 was recently made for the Lynch property in Regent street and declined. The will was made in the grip of the wild storm of this winter. It has been snowing heavily all morning and a strong wind from the northeast is causing it to drift badly, adding to the serious interruption of railway traffic in this vicinity. The schools were dismissed at noon on account of the storm.

ENGLAND SEES STRIKE CLOSING PASSING OVER

Early Settlement Seems More Than Probable, is Situation Today

Miners, Owners, Government and Board of Trade Men in Conference With Premier Asquith in Downing Street—Mutual Concessions to Bring About Peace

(Canadian Press) London, Feb. 27.—An early settlement of the dispute in the coal trade, which has done so much to throw nearly a million miners out of employment on March 1, is apparently more than probable, although it cannot yet be definitely announced. The executive committee of the miners' federation has agreed to meet the representatives of the owners, together with some members of the government and representatives of the board of trade, at the premier's official residence in Downing street this afternoon. This meeting of the disputants with the mediators in an effort to smooth away the rough places is confidently regarded as foreshadowing the avoidance of what would be the gravest industrial struggle of modern times in this country. This clearing of the atmosphere has already been achieved by a conference of Premier Asquith and some of his colleagues, with the members of the executive committee of the miners' federation, 100 of whom discussed the situation with the premier for nearly two hours. Mutual concessions are to form the basis of the expected settlement of the dispute.

There is now a marked increase of confidence in Westminister that a coalition strike will be avoided and that socialist leaders like H. H. Wilson, who have been urged to carry out this threat of staggering humanity.

There is much interest in tonight's hockey match here between the Vics and New Glasgow, as a great deal depends upon the result. By winning, New Glasgow would tie Moncton and stand a chance for the championship, whereas if Moncton wins they practically win the league series and will go for the Stanley cup.

Rev. B. H. Thomas, grand master of the New Brunswick Orange Lodge, the principal speaker at a big rally of city and county Orangemen here last night. Hon. H. F. McLeod, of Fredericton, was to speak but was absent. County Master C. B. Keith, Rev. W. G. Lane and others were also speakers and much of the discussion turned on the No Temperance decree, and the recent decision of Justice (Charbonnet) in the Victoria of the old Madam camp which also reviewed the work of the year in the grand lodge and said that several new lodges had been instituted. He spoke of the approaching grand lodge meeting in St. John, and the Sovereign Grand Lodge of the province in Fredericton this year.

The city council has appointed John H. Candall of Moncton, B. D. Lockhart of Lewisville and Thomas Campbell of Sableville as valuers to value additional lands required in connection with the new sewer.

Paris, Feb. 27.—Meline Chabrier, aged six, has received the award of a medal and a certificate from the French government. The little girl rushed through flames and smoke and rescued her two-year-old sister, who was lying in an inner room. Having saved the baby, she also endeavored to pilot her grandfather out of the building, but failed.

MEXICAN REBELS ARE MARCHING ON JUAREZ. El Paso, Tex., Feb. 27.—The rebel army is advancing upon Juarez along the Rio Grande, the course taken by Madero's army last May. They spent the night in the vicinity of the old Madam camp and began their advance this morning. The rebels are carrying a red flag beneath the Mexican tricolor.

The rebel army stopped on the hill overlooking the city, and at two o'clock resumed the movement toward Juarez. No shots had been fired up to that time. Simultaneously with this last movement of troops from the northward, men were seen coming from the southeast also towards the city, seemingly closing in on two sides.

FEAR LOSS OF TRADE WITH UNITED STATES. New York, Feb. 27.—A cable from Kingston, Jamaica, says—"Jamaica is sending a delegate to Canada for a conference on the question of closer trade relations between the dominion and the British West Indies."

"The United States is the colony's market," and the belief is that any attempt in the direction of reciprocal trade will be warmly received by the pleasure of the United States.

WHEEL WOMAN TO COURT TO STAND MURDER TRIAL. Chicago, Feb. 27.—Mrs. Louis Vermilyea, accused of the murder of Policeman Arthur Bionetto, and whose trial has been set for next Thursday, will have to be wheeled daily to the court room in an invalid chair. This is an average of about \$49 a family for every family in town. Large sums have also been contributed to outside interests, such as Acadia College, Mount Allison, etc., and each church has added to its plant and equipment.

The following are the totals either paid or pledged:—

WILL RUN THE ELECTION ON THE OLD LISTS

British Columbia Conservative Government Plead No Time to Prepare New Ones

LIBERALS WILL PROTEST. McBride Goes to the People Again on Railway Policy—Liberals Will Put a Strong Fight in Pacific Province

(Canadian Press) Victoria, B. C., Feb. 27.—Semi-official announcement of the provincial election on March 28, finds the country in readiness for the contest, which, like that of November 28, 1909, will be largely fought on the programme of railway construction.

Of the forty-two members of the present house, thirty-nine are supporters of McBride. Prior to November three years ago, the opposition numbered thirteen, but the Liberals opposed the Canadian Northern proposal upon which McBride then went to the country with the result that only one Liberal was elected. This is the twelfth parliament. The government has held but three sessions, and therefore are entitled to hold a fourth, the term not expiring until next year. But only three sessions of the eleven parliaments held, the government deciding to submit the then policy of nearly 800 miles of new lines for the endorsement of electors.

The present railway policy is slightly in excess of that policy, being 845 miles. There will be, of course, no increase in representation, and the election will be held, not on new, but the present voters' lists. To this the Liberals will object, but it is the government contention that there is not time to complete the new lists.

The Conservatives are well organized, and look for victory. In expectation of the contest the Liberals have been organizing for the last six months and expect to wage a lively fight with a candidate in each riding and in many cases former members are expected to stand. The former Liberal leader, Mr. Johnson, who was a member of the house for twenty years before his defeat three years ago, has been active in Victoria during the present session, and may again lead the party. Just what the liberal policy will be is not yet made known.

At least eight Socialists expect to be nominated for this contest. Supplementary estimates for 1912 presented to the legislature yesterday call for an expenditure of \$4,077,454.18 which, added to the main estimates for 1912 (passed at the last session of the legislature), amounts to \$8,590,911.96, makes a total expenditure of \$12,658,285, authorized for the current year. This amount will be further increased when the additional supplementary estimates are brought down.

The Hydro-Electric power commission requires \$2,000,000 for the construction of the transmission line in Huron, Brandon and Grey counties. The other principal items are for education, and new public buildings.

LIBERALS HOLD SEAT. London, Feb. 27.—In the Scotch by-election, caused by the appointment of McKinnon Wood to be secretary for Scotland, the new cabinet minister was returned. The result was 8,330 for McKinnon Wood, Liberal, as against 8,061 for H. Macquistan, Unionist. The figures show no change.

TRIPLE ALLIANCE MEETINGS ARE BROUGHT TO A CLOSE. Rev. Dr. Aikens preached his farewell sermon before the alliance last evening. The series of meetings which have been held during the last four weeks. The service was well attended and the sermon was a very impressive one. Considerable time was given the audience to express their appreciation of the benefits they had derived during the meetings, after which Doctor Aikens expressed his personal appreciation of the very friendly manner in which he had been received by the three churches, and said that in all his experience in united work of this kind he had never seen the work go on more harmoniously. Before the close of the service the following resolution was read and unanimously adopted:—

Resolved, that the hearty thanks of this alliance be extended to Rev. J. W. Aikens for the valuable service he has rendered us by his coming, and for the gospel messages which he has delivered, giving us all a new vision of the Master and His will toward us; to Rev. Harold T. Roe for the deep spiritual interest he has taken in the services and helpful sermons preached; to Rev. A. F. Newcome for his assistance by sympathetic messages and personal work; to E. Thomas for his untiring work in leading the choir, and to the members of the choir who so faithfully attended during the meetings; to the press for the liberal treatment of all our reports and announcements; to Rev. W. Gault, who so kindly entertained Doctor Aikens during his stay in St. John; and to all those who in any way, by their prayers, personal work or otherwise, assisted in making the meeting a grand victory for Christ.

Montreal, Feb. 27.—The Black Lake Asbestos Co., having followed the example of the Amal Asbestos Corporation, in announcing a default of payment on the first of next month, when an instalment of interest falls due, about fifty local holders of bonds met in Toronto yesterday and consulted with the President J. N. Greenough as to the best policy for them to pursue. It was suggested that the bond holders take new common stock in lieu of their bonds, and that all the stock be placed on an equal basis. The plan is being also converted to common. It might then be possible to raise funds to operate the company by a new bond issue. This proposition met with some favor and will be considered by the committee. The president declared the company able to meet all its obligations, aside from the defaulted bond interest.

HOCKEY HERE UNDER NEW RULES

It is doubtful if the Fredericton hockey team will come to St. John tomorrow night to play the St. John team in the league series, and if not, the game will be forfeited to the local team, which will make Chatham and St. John tie for first place. In this case the play off has been arranged to take place in Sackville on March 6, 7 or 8. For tomorrow night, a game between two six men teams, three periods of twenty minutes each has been arranged. The teams will be composed of local players.

This will be the first hockey game here according to the new rules. Captain McAvity of the St. John team will lead the Giants, and Hallie Clawson will captain the Beavers.

NEW BRUNSWICKER IN CHINA. Rev. John H. Geldard of Moncton, now engaged in Y. M. C. A. work in Shanghai, China, in a recent letter tells graphically of his own observation of the Chinese revolution. He gives details of the rapid spread of Christianity in the historic district in which he is working and says the same applies to all other parts of the empire and that this is the chief force behind the revolution. The spread of new ideas and the new regard for liberty and truth have been at the bottom of the movement for reform and this is further illustrated in the number of Christians among the leaders of the reform movement.

COURTNEY BAY

We are told that "St. John owes much to Mr. Hazen" in connection with the Courtney Bay works. None will be disposed to withhold from Mr. Hazen credit for his share in getting the contract awarded, although the task should not have been very severe, since Mr. Borden prior to the elections wired the Standard that if he were returned to power the work would go on.

A BETTER AUTHORITY

The Standard this morning says: "The Globe very properly calls attention to the unseemly delay of those who have the preparation of the new city charter in hand. It has been stated that the document is in the hands of the printers. This is very indefinite. It should long ago have been in the hands of the people to give them an opportunity of studying its provisions and its possible effect on the future government of the city."

WHAT DOES IT MEAN?

The Globe yesterday returned to the attack upon the Citizens' Committee, and especially the charter committee, which has been preparing the new city charter. Among other things it says: "The legislature will meet in less than two weeks and there is no knowledge of the measure it is proposed to ask them to pass for the government of this city. Is it any wonder there is a steadily growing lack of faith in the men who organized the commission movement?"

The Standard this morning approves the Globe's attitude and repeats the incorrect statement that the people have not had an opportunity to study the provisions of the new charter.

Both of these journals "know," as Mr. Belyea and Mr. Agar point out on behalf of the charter committee, that a draft of the new charter was published some time ago, and its provisions openly discussed in public meetings, and that all the committee had to do was to perfect the instrument and present it for final revision, which will be done this evening.

The general principles of the new charter were adopted when it was decided to adopt the commission plan of government. The citizens are not at all ignorant of the provisions of the new charter. It has been prepared by men of ability who were active advocates of the commission plan, and who therefore have the strongest reason for producing an instrument that will ensure good government for the city. They have no sinister purpose to serve, and no desire to conceal anything. They have voluntarily given time and effort to the task of preparing the charter, and are even more anxious than the Globe or Standard to make it a workable and successful basis of city government.

The citizens who voted by a large majority in favor of the commission plan, and have every confidence in the committee, and have no fear that its work will not be well done. The members of the legislature must be given to understand that any opposition is purely egotistic, and merely a survival of that which was beaten down by the popular vote a year ago. FAMINE ON HEELS OF WAR IN TRIPOLI

Men Are Fighting, Women and Children Suffer From Lack of Food

SOME PITIFUL CASES

Woman Picking up the Grain Scattered by Horse at its Meal—Struggle for Share of a Dead Camel—Little Ones Like Skeletons

(Times' Special Correspondence) Azizia, Tripoli, Jan. 27.—Famine has followed on the heels of war in the north of the province of Tripoli.

But Arab women are fighting for the grain that falls from the horses' noses, and babies that should be plump and brown are bony and yellow, with skin the hue of dried parchment stretched over rickety frameworks of bones.

These in the neighborhood of Zonara were gathered together by order of Musa Mehemet, the military commander of the district, and housed in the stone fortress in the oasis of Rigdalin, but it seems that hundreds from the scattered villages far and near had died in organized crowds in the desert, and, subsisting on roots and rats and lizards, have made their pitiful way at last to the new headquarters of the Turkish troops at Azizia.

Abdula Piang will tour the states in company with L. B. Kidwell, a lumber merchant of the Calabato district. According to Mr. Kidwell, the last administration of Datto Piang to his son was to bring back with him as many wives as he could induce to accept him.

How to Make Better Cough Syrup than You Can Buy

A Family Supply, Saving 50 and Fully Guaranteed.

Sixteen ounces of cough syrup—as much as you could buy for \$1.00—can easily be made at home.

Mix two cups of granulated sugar with one cup of warm water, and stir for two minutes. Put 2 1/2 ounces of Pinex (fifty cents' worth) in a 16-ounce bottle, then add the sugar syrup. It keeps perfectly. Take a teaspoonful every one, two or three hours.

This is just laxative enough to help cure a cough. Also stimulates the appetite, which is usually upset by a cough. The taste is pleasant.

The effect of pine and sugar syrup on the inflamed membranes is well known, rich in glucose and all the natural healing pine elements. Other preparations will not work in this formula.

The Pinex and Sugar Syrup recipe is now used by thousands of housewives throughout the United States and Canada. The plan has been limited, but the old successful formula has never been equaled.

A guarantee of absolute satisfaction or money promptly refunded, goes with this recipe. Your druggist has Pinex. If you get it for you, if not, send to The Pinex Co., Toronto, Ont.

RAILROAD TELEPHONE ETIQUETTE

A movement has been started among western steam railroads in the United States to institute in their different departments a form of telephone etiquette that will bring up before the hearer—in imagination—the drawing room and other generally conceded laws of politeness.

Instead of the rude shock which greets him when he takes down the receiver and is irritably told to "get off the wire" the telephone user, under the proposed plan, will be politely asked if there is anything that can be done for him.

Such expressions as these are ruled out: "Hello," "Ring off," "Get off the wire," "Quit buttin' in, will you?"

Recently the Marquette made the announcement that he had taboored the use of the word "hello" and other familiar expressions the telephone had brought into common use. Now the Chicago and Northwestern has followed with an essay on telephone politeness which has been given general circulation among employees.

The letter explains: "As the telephone plays a large part in the company's affairs, the management with equal earnestness and determination insists that it shall be used invariably with politeness, intelligence, and desire to transact the company's business with reasonable dispatch and without the slightest irritation or annoyance to any one with whom the company does business."

"The demands—no wishes or suggestions—of the management may be set down as follows:

"First—Answer all telephone calls promptly. It is not good manners to keep a caller waiting.

"Second—Drop once and for all the 'hello'.

"Third—Be particularly careful of the tone of voice in which you speak over the telephone.

"Fourth—In answering a call for the company over any of the company's telephones make it a point to see that the person speaking gets the information he wishes with the least inconvenience to himself."

In cooking beans and peas their flavor will be much better if they are cooked in as little water as possible.

THE COAL TROUBLE IN ENGLAND

(Montreal Shareholder) The threatened coal strike in Great Britain is throwing that country into a state almost akin to panic, while many other countries of the world are awaiting the outcome with more than ordinary interest.

Coming, as it does, at a time of social and economic unrest, the strike assumes more than ordinary importance. A month ago coal miners of Great Britain voted 445,000 to 118,000 to strike on March 1st, unless the principle of an individual minimum wage for each miner should be conceded.

Conferences have been held between the operators and the miners, and more recently between the heads of the Government and the two parties, but the prospects are that it will be impossible to bring the warring factions together. If a strike occurs it will mean that between 800,000 and 1,000,000 men will be thrown out of work, a sufficient number to paralyze the whole trade of the country.

The coal miners have enlisted the dock laborers, railway employes, and men employed in shipping on their side, which makes it practically impossible for supplies of coal to be imported from outside nations. That there has been a great deal of social unrest in Great Britain during recent years, is shown by the fact that in 1911 the number of the workers involved in labor disputes was 831,000 against the yearly average of but 221,000 for the preceding decade.

The aggregate of lost days in 1911 was 10,247,000 against a yearly average of 4,200,000 for the previous decade. Minor troubles in the coal trade were responsible for 40 per cent. of all this time lost. Other big strikes held throughout the year were in connection with the railway-men and dock laborers, and among textile workmen.

The British coal miner has been getting in the neighborhood of \$1.75 per day when he has mined a given quantity of coal. The men now ask a minimum wage to provide against the occasions when the miner has failed to earn it at the tonnage rate because of mining conditions or cause due to the management and not to himself. The big problem is how to find a way to accomplish this by which the employer will be protected against a worker's inefficiency.

Coal mining in England's third most important industry and constitutes nearly one-third of her total export trade. Mine owners have already lost in the neighborhood of 200,000 tons by their inability to make contracts ahead owing to fear of a strike. It is, however, not in the coal trade alone that danger arises, but through the paralyzing of the nation's activities. Should the worst fears of the officials be realized, it will mean not only the complete paralyzing of Great Britain's trade, but will have a serious economic effect upon practically every civilized country in the world, and possibly involve other countries in similar trade disputes.

As a well known fact that in the United States anthracite operators are seriously contemplating a strike, while in both France and Germany the miners are far from being satisfied with present conditions. It is probable that a strike among the British operators would provide the necessary incentive for a similar strike among coal operators elsewhere. It is to be hoped that some way of effecting a conciliation will be found.

These lots are the ones you should buy because they are situated directly in front of site for Dry Dock. THE MYRLE-HARDER COMPANY WELCOMED TO OPERA HOUSE AGAIN

The Myrtle-Harder Co. were welcomed once again to the city last evening at the Opera House, where a large audience assembled to witness their presentation of "The Bachelor's Romance," a play abounding in sentiment, action, and pleasure.

"The Bachelor's Romance" is a story of the life of an editor, who, in his younger days, has become guardian of his child's daughter, but who, from the time she was but a small tot, until she has become a woman, has not seen her. He has lived in retirement all these years but is awakened to the livelier ideas of life by the advent of this young woman who materially changes the trend of his whole career.

Facts About Motherhood

The experience of Motherhood is a trying one to most women and marks distinctly an epoch in their lives.

Not until a woman in a hundred is prepared or understands how to properly care for her child.

Of course nearly every woman now, always has medical treatment at the time of child-birth, but many approach this experience with an organism unprepared for the trial of strength, and when the strain is over her system has received a shock from which it is hard to recover.

Following right upon this comes the nervous strain of caring for the child, a distinct change in the mother results.

There is nothing more charming than a happy and healthy mother of child, and indeed child-birth under right conditions need be no hazard to health or beauty.

The unexplainable thing is that, with all the evidence of shattered nerves and broken health resulting from an unprepared condition, women will persist in going blindly to the trial.

It isn't as though the experience came upon them unawares. They have ample time in which to prepare, but they, for the most part, trust to chance and pay the penalty.

In many homes once childless there are now children because of the fact that Lydia E. Pinkham's Vegetable Compound makes women normal, healthy, and strong.

Any woman who would like special advice in regard to this matter is cordially invited to write to Mrs. Pinkham at Lynn, Mass. Her letter will be held in strict confidence.

Health and Beauty Advice

L. T.: From what you say, I judge your trouble is not eczema, but a rash caused by the too profuse use of face powder, and the only remedy is to employ a good massage cream to thoroughly cleanse the skin of local impurities.

Edna: A dry, itchy scalp usually follows the use of an alkali shampoo mixture. This robs the glands of their necessary oils and causes the tissues to die. The only way to restore vitality and banish the dandruff is to shampoo occasionally with plain castile, a teaspoonful of which dissolved in hot water is enough for a thorough cleansing. You can obtain an original package of castile at any drug store, and you will find that aside from keeping the scalp in a clean, healthy condition, it will induce an abundant growth of fluffy, brilliant hair.

Mrs. L. B.: I know it is discouraging to be over-fat, but this can be quickly remedied if you buy four ounces paraffin from your druggist and dissolve it in one pint and a half hot water. When it cools take a tablespoonful before meals. Keep up treatment regularly until desired weight is reached. You will find this method will not injure or inconvenience you in any way, and it will not leave the skin flabby or wrinkled.

Q. T.: You can restore the original color to the hair and correct those scalp troubles by using this inexpensive hair-tonic: Mix together one-half pint each alcohol and water and in this put one ounce quinine. Massage the scalp well with this will gradually restore the natural tint and glossiness to the hair and put the scalp in a healthy condition. If you use the quinine hair-tonic regularly, it will make the hair come in thick and beautiful.

Worried: That ugly growth of fuzz can be permanently removed from your chin by the application of a paste made with powdered delatone and water. After this has been on two or three minutes rub off and wash the skin and the hairs will have vanished. Druggists charge a dollar for an ounce-package of delatone, but this cost is trifling.

Ruth M.: The insomnia and loss of appetite of which you speak are caused by an impoverished condition of the blood. What you require is a blood-cleanser and tonic. For a small sum you can make your own, by getting an ounce of karsden and a half-pint alcohol. Dissolve one-half cupful sugar in the alcohol, then add a karsden, and hot water to make a full quart. Take a tablespoonful three times each day and your natural health and strength will soon return. The karsden is gentle in action and quickly rebuilds worn or waste tissues.

A. D. L.: The shiny, oily condition of your skin is due to excessive use of powder, which clogs pores and frequently causes pimples, blackheads and other complexion spots. I would advise discarding powder and employing a plain spumatum lotion. This is prepared by adding two teaspoonfuls glycerine to a half-pint hot water, then stirring in four ounces spumatum. Apply sparingly to the skin and rub lightly until it dries. You will find this milder than powder as it is invisible when on, does not rub off, and gives to the complexion a charm and richness impossible any other way.

XX: Nothing so detracts from beauty like weak, watery eyes, and to overcome this trouble, I would suggest using a plan cryostat eye-tonic. You can easily prepare this at home by dissolving one ounce cryostat in a pint of cold water. Putting two or three drops in each eye daily quickly relieves the smart or ache, soothes the tired muscles and gives to the eyes a delightful sparkle and brilliancy.

THE CASE OF FOLKE L. BRANDT

The man in the upper corner is Brandt, millionaire Maxime Schiff's Swedish valet, who was illegally condemned for burglary, and sentenced to thirty years imprisonment five years of which he has already served. Some of the New York papers kicked up a fuss about it, as a result of which he has been returned to the Tombs for a new trial. The story goes that he was tried and imprisoned for burglary, when another crime was the real offence charged, and that if he had been tried on the real charge family affairs would have been saved. The lower picture shows the scene in the corridor of the New York court room where Brandt's case is to be reheard.

IMPORTANT STREET RAILWAY MATTERS

"Pay-as-You-Enter Cars"—Change of Route to Broad Street—The Bridge and Extension Proposals

The newly elected directors of the St. John Railway Co. at their first meeting following the annual meeting of the shareholders yesterday afternoon decided to submit to the provincial government an offer with regard to the construction of the new bridge at the falls that they expect will probably enable them to come to terms on the matter. If the bridge is built, Douglas avenue will become part of the main line and transfers will be given to the foot of Indian town.

At the annual meeting the shareholders confirmed the action of the directors in arranging for the extension of the car lines to Fernhill and Crookville, and the extension of the lighting system to Roby, Milford and Crookville. The following is from the directors' report:

The financial statement showed the net profit of the company to be \$34,232.41, out of which four quarterly dividends of \$12,000 each were paid, leaving a balance of \$6,232.41. Bonds to the amount of \$200,000 will be sold to provide for capital expenditures.

During the year the following works have been undertaken: New brick and steel car barn on Westworth street, 35 x 112 feet. In connection therewith we purchased the Fisher and Cather's lots adjoining. Brick and steel office and supply building on Nelson street, 28 x 41 feet.

We purchased during the year a lot of land owned by the Lantana estate on which part of our power house is situated. A large amount has been expended for repairs and improvements on the railway and light system, the physical condition of which has been well maintained.

It is proposed to remove the railway tracks from British street between Westworth and Charlotte streets, and place them on Broad street.

JEWISH CHARITY IN WHITE PLAGUE FIGHT

Nearly \$38,000 Raised in Annual Subscriptions in Few Days in Montreal

Montreal, Feb. 27.—Having started out to raise an annual subscription list of \$25,000 for the Mount Sinai Sanatorium for Consumption, the Jewish community of this city has just closed the campaign with a total of \$37,614.50, after four half days of strenuous canvassing. In addition to this there were donations which brought the actual amount collected to more than \$40,000, but the organizers adhered strictly to the idea of raising only what were genuine annual subscriptions.

The whole of the money collected represented Jewish generosity, for although several donations and offers were made by outside friends, these were waived for special consideration as to their acceptance and were not included in the returns.

At the final gathering, there was much enthusiasm over the result and there was plenty of speaking-making, with reciprocal congratulations between the organizers and the workers. Rabbin Abramowitz and Gordon each received a gold watch as a memento of their efforts. The president, Mr. being underwritten by Michael Hirsch.

QUEBEC AND ONTARIO THE BOUNDARIES EXTENSION

Ottawa, Feb. 26.—Late tonight Premier Borden gave notice of a resolution to extend the boundaries of the provinces of Quebec and Ontario by taking in the whole of the hinterland, in accordance with the resolution which passed parliament in 1904.

The resolution, with regard to Quebec, provides for the adding to the province of the whole of the district of Ungava, comprising about 400,000 square miles. Apparently Manitoba is to get both parts on the Hudson Bay, Ontario's shore line running up only to the intersection of the 89th meridian with the shore of Hudson Bay at a point some fifty miles south of Port Nelson.

What arrangement has been made between Manitoba and Ontario to secure for the latter province the right of access to Port Nelson for the proposed provincial railway remains to be seen.

RECENT DEATHS

The death of Mrs. Ellen Collins, widow of Jeremiah Collins, occurred yesterday at the home of her nephew, Neale Donovan, Sandy Point Road. She was greatly respected and will be remembered by the older residents of the west end, where she resided for about fifty years. Mrs. Collins was a native of Dunsmuir, County Cork, Ireland, and was a resident of this city for sixty years. She has been residing on the Sandy Point Road for about ten or twelve years.

The death of Mrs. Daniel Thompson, of Beaver Harbor, occurred in the Chippman Memorial Hospital on Sunday last. She was thirty years of age and is survived by her husband and several brothers and sisters.

CARLETON WOMAN BADLY HURT

Mrs. Elizabeth Tufts of St Germain street, West End, was run over by a train at the foot of Victoria street, West End, last evening and had her right leg cut off below the knee, and the left one badly broken. It is believed she attempted to run across the tracks in front of the N. B. Southern train, and that she fell in front of the engine. Dr. F. L. Kenney was summoned, and the injured woman was conveyed to the hospital. She is fifty-five years of age, and the mother of a large family.

IN PARLIAMENT

Ottawa, Feb. 26.—Harmony does not mean the government benches. The afternoon the apple of discord was munched loudly in parliament, when W. B. North and Colonel Hugh Clark, Conservative members for East Hastings and North Brno, respectively, were caustically rebuked by their minister.

There is not a little of fact in the statement of the honorable gentleman speaking, quoth Hon. Col. Hugh Clark, of one of Mr. Northrup's observations. There were cries of "Order," but the militant minister of militia would not be daunted that way. "Not a little of fact," he repeated.

Meanwhile Mr. Northrup and Colonel Clark sat silent and ill at ease, while the government benches were shrouded in gloom.

The exchange occurred in the course of a short discussion of the administration of the British National Rifle Association and the Ross rifle, which preceded the consideration of the orders of the day.

THROUGH PANAMA CANAL BY END OF 1913 IS PREDICTED

A ship through the Panama canal from the Atlantic to the Pacific, before the end of 1913 is the prospect held out by Maj. W. L. Kenley and Col. W. J. Hand, U. S. A., who have returned from the canal zone after an exhaustive examination of the plans and locations of the proposed fortifications. The two officers are to submit a report to the secretary of war.

Both are enthusiastic over the progress of the work on the canal. Major Kenley bases his prophecy that vessel will be able to proceed from ocean to ocean through the canal before the end of next year on observation of the conditions and on reports from the engineers in charge. The fortification plans have been completed. There will be three forts on the Pacific side and one on the Atlantic side, with fortifications at strategic points along the line of the canal. These fortifications will be equipped with guns fitted to shoot three miles into the air for use against aeroplanes.

PLAYGROUNDS WORK IN INSTALMENTS, SAYS THE CITY ENGINEER

Recommendation in Connection With Gilbert Lane Site—Board of Works Matters

The board of public works meets this evening in City Hall for the monthly session. The first business will be the report of the committee on the sale of the city dredge and accretions.

The city engineer recommends that the N. B. Telephone Company be given permission to erect fifteen poles in Union, Ladlow and St. James streets, Carleton.

With regard to the proposed playgrounds at Gilbert's Lane he recommends that the work be done in instalments, and that the construction of the culverts, costing \$8,000, which will be needed to drain the land, be postponed for some time and that the water may be allowed to escape by the present channels.

Regarding the complaint of D. J. Sealey & Son that the Quinn wharf and warehouse have been leased to George Dick, the engineer reports that it would now be in order for Messrs. Sealey & Son to deal with their new landlords.

The request of J. S. Gibson & Co. for permission to erect weighing scales at Union street slip to replace those burned on February 19 is recommended for approval.

As the Water Street warehouses are declared unfit for use, the engineer recommends that the tenants, The Crosby Masses Company and S. D. Lewis be relieved on the rent for the quarter ended February 1.

The damage to the Quinn Wharf in the storm on February 22 is reported to be \$800.

The engineer recommends that the St. John Railway Company be given permission to lay their tracks in Westworth street on the conditions proposed by the company.

James S. Kane applies for a reduction of the rent of two lots in Guy's ward from \$30 for the two to \$10 each, and asks that \$15 rent charged against him be written off.

MAKE NICE FORTUNE Former New Brunswickers Sell for \$50,000 Property They Bought for \$300

The Calgary Telegram, in reporting some recent real estate transactions, tells of a deal involving \$50,000, the sale of four lots by Mr. and Mrs. H. G. Worden. The Telegram says "This property, which is just across from the station, was acquired many years ago by Mrs. Worden and the price she received is practically all that is left of it. The property belongs to Wickham, N. B., and have St. John friends who will be pleased to learn of their good fortune. It is understood that the land just sold for \$50,000 cost them \$300."

EMPRESS BRINGS HORSES HERE VALUED AT \$66,000 Cars Brought Here to Take Them West—Irish Potatoes, Too

On the steamer Empress of Britain reaching here this week will be a valuable lot of horses, for which two express cars will be needed, and which are being brought to west St. John today for the purpose. The shipment of horses is valued at about \$66,000. They are to be taken to western Canada. The horses are valuable animals, and of excellent stock, and this is the reason that the fancy price is being paid for them.

There is another item in the cargo list which is of value at the present time and that is a lot of Irish potatoes. They are consigned to an Upper Canadian house and there has been large importations from Ireland recently.

HEAVY SNOW FALL The fall of snow which started early this morning caused bad walking on the city today, the snow falling to a depth of several inches. The street car service was kept up very well considering the difficulty experienced in keeping the lines clear of drift, but some of the cars, this morning particularly, were running behind schedule. The sweepers were busy since early morning in keeping the tracks clear, but though they were quite successful, some of the railway men, motor men and conductors in certain streets had to use the car brooms to sweep the tracks clear before a car could proceed.

The storm is thought to be responsible for the delay of all the incoming trains today. The Maritime was reported twenty-five minutes late, Boston one hour and the Montreal three hours. The Montreal train is coming to the city in two sections, the first being that regular and the second containing some equipment for the Express of Britain, to be taken to west St. John.

DONALDSONS RESUME WEEKLY TRIPS Now that the dock laborers' strike in Glasgow has been settled, the Donaldson line have arranged for their regular weekly sailings to this port. The C. P. R. liner Montrose is due to arrive here tomorrow, but may be delayed on account of the storm.
