HAYMARKET SQUARE BLOCK PURCHASED

Big Property Deal Is Announced Today

LAND TRANSACTION
Armstrong & Bruce Secure Block Facing Square Between Waterloo Street and City Road—Other Signs of Local Activity

No better evidence of the faith in the future of St. John could be given than the repeated announcements of large investments in local real estate, plans for new buildings and new industries which are being made daily.

One of the largest property deals in the history of the city was announced today by Armstrong & Bruce who have completed the purchase of the land comprising the entire block facing on Haymarket Square between Waterloo street and City Road. The property has a frontage of 200 feet on the square, 100 in Waterloo street and 65 in City road, and includes seven different holdings. The land is occupied by stores, dwellings and the Tabernacle church, and a portion of it is vacant.

Rupert M. Rive, of the firm of Jardine & Rive, returned yesterday from Montreal where he has spent the last few days. Rive found St. John's reputation as a good place for investment stronger than ever. The interest in this city seems to be increasing and men who, on his last visit, were skeptical of the city's future have since then become enthusiastic on the subject.

F. E. Holman has purchased from the Prescott estate the front and middle of three story brick building in King street occupied by F. E. Holman & Co., and A. S. Geddes.

NO FUNDS FOR CHECK

Meanwhile Young Man Has \$14.40 and Lady's Hat From Local Millinery Store

Through the workings of a slick stranger, Henry G. Marx, chairman of the street millinery, is today mourning the loss of about \$14 and a \$2 hat. Between four and five o'clock yesterday afternoon a fairly well dressed young man about twenty-six years of age, entered the store and asked to be shown some ladies' hats. After looking over the collection he picked out a \$2 hat and said that he would take it. When the hat had been wrapped up he tendered the young woman clerk a check on the Bank of Nova Scotia for \$14.40. She took the check to the cashier and had it cashed, returning the \$14.40 to the customer, who immediately left the store.

ST. ANDREW'S CADETS

It was wrongly stated that Major W. C. Mossee was in command of St. Andrew's Church Cadet Corps in Sunday's parade. Major Magee is instructor and general adviser for the corps, but it has its own officers—Captain Charles P. Inches, lieutenant W. Burton Wisely and Alfred E. Stephenson, and on Sunday the commanding officer was Lieutenant Wisely, through the kindness of Pipe Major Hayer, a detachment of the Caledonia Pipe Band furnished excellent marching music.

McManus & Company have been greatly retarded by the work by the heavy and continuous rain and the inability to get men to do the work. FRANK L. MAGEE IS HOME FROM VANCOUVER

Frank L. Magee, formerly of this city, who has been engaged in the real estate business in Vancouver in partnership with the brother George W. Magee, for the last four years is in the city on a visit and the guest of Mr. and Mrs. George Dick. Speaking to the Times Mr. Magee said today that Vancouver's prospects are looking particularly bright at present. The big crop and general prosperity of the western country favorably affects the city and there will be plenty of money in circulation. He is in the city on a visit and one of the most interesting features of the city's development is the activity of the Progress Club, a new organization whose purpose it is to attract new industries to the city. In the past, owing to the rapid development of the city the feature was somewhat overlooked but since attention has been devoted to it the results have been encouraging.

THE FIRST GRAY HAIR SIGN OF AGE

Easy Way to Preserve Natural Color of the Hair and Make It Grow

A harmless remedy, made from common garden sage, quickly restores gray hair to natural color. The care of the hair, to prevent it from losing its color and lustre, is just as important as to care for teeth to keep them from discoloring. Why spend money for cosmetics and creams to improve the complexion, and yet neglect your hair, when gray hair is even more conspicuous and suggestive of age than wrinkles or a poor complexion? Of the two, it is easier to preserve the natural color and beauty of the hair than it is to have a good complexion.

Men in High Places Who Fight Vaccination - The Island of Sark

The sentence of one year's imprisonment inflicted by a naval court martial at San Francisco upon a sailor named Holoman, on board the U. S. training ship "Intrepid," for refusing to submit to vaccination, seems somewhat severe, when one considers the very pronounced prejudice inculcated among many well educated people occupying high positions in the social scale.

Thus, Scotland's premier peer, the Duke of Hamilton, a retired officer of the British navy, and a member of the British House of Lords, absolutely refused to be vaccinated when he was threatened with imprisonment that was provided for the offense, defying the authorities to put him into jail, unless he finally the government, driven to the wall, and unwilling to inflict this indignity upon the duke, granted him a government certificate exempting the child from the compulsory vaccination laws "on conscientious grounds." The duke is no means the only peer who feels this way about vaccination, and the late Earl of Darley even went to the length of organizing a regular crusade to encourage people to defy the laws on the subject, devoting large sums of money to the cause. He was eventually granted a certificate of exemption similar to that awarded to the Duke of Hamilton by the government, which preferred to deal with the matter in this fashion rather than to become involved in the elaborate legal proceedings in which he was only too anxious to embark, for the sake of the publicity to be derived therefrom.

It is only fair to state that Lord Darley was a very eccentric man and that when some years before his death he wrote offering his services to the Irish leaders, they declined it, on the ground that the addition of such a crank to their platform would rather detract from the cause of Erin.

These exemptions from the laws of vaccination granted by the English government naturally served to encourage popular opposition to vaccination and those who were in consequence subjected to the penalties in the way of fine and imprisonment provided for infraction of the statutes rendering vaccination obligatory, naturally acquired the conviction that there was one law in England for those who are rich and of high rank and another for the poor. The only cause that the government was able to put forward for its attitude was that there was less probability of the children of other children by failure to observe the statutory precautions against smallpox in the case of the poor, who cannot be isolated.

Every traveler who has visited the Channel Islands will recall the picturesque island of Sark, famous for its magnificent cliff scenery and caves. It forms part of the bailiwick of the Island of Guernsey, but is owned by a man named George Lovibond, who while staying as a guest under his roof at the manor house of Sark, had interfered to protect Miss Collins, the daughter of his host, from gross maltreatment by her father, George Lovibond had no alternative but to interfere, owing to Miss Collins' appeal for protection against her father, who was striking her in the face with his fist, breaking her nose and her front teeth.

The consensus of opinion seems to be that the prisoner's reason was unbalanced. Indeed, the unfortunate inhabitants of the island have become intolerable. His feudal rights of signior prevent his tenants from selling the produce of their holdings without his consent, which has often been refused, and in other cases granted only on the surrender of a portion thereof to himself. The population of the island has a sort of legislature or manorial court, which sits twice a year. But as the signior has a right to all its ordinances and decisions, it has become incapable of accomplishing anything. Of course the signior has magnificent powers, which he exercises in a most arbitrary manner. The Carteret's property and seigniorial rights in New Jersey were sold by them in 1827 for about \$50,000, to William Penn and the Society of Friends, who in the early part of the eighteenth century, surrounded their rights of government to the crown, New Jersey being from that time forth until the war of independence, a colony of the British crown, which the governor was appointed by the king.

This Babe Hair to \$50,000,000

The Other Side of The Medal

By RUTH CAMERON

Of a certain great man very much in the public eye just now, a popular periodical recently used an apt French phrase. It said that he had "des défauts des qualités" which, as the gentle reader has already guessed, means that he had the defects that go naturally with his peculiar qualities.

This great man is pre-eminently a "doer," and according to this analysis of his character, he has the precipitancy and indiscretion which are the complementary defects of that character.

Now as to whether this particular man has the qualities and defects mentioned, I am not going to try to guess. You see, I've given my solemn word to the Editor to keep him just this, I want to call your attention to the value of that French phrase.

Do you realize that almost all of us have "des défauts des qualités?" We have, you know. And in judging or blaming or analyzing our family or our friends, and especially, I think, our children, we should certainly take account of this.

LOOKS FOR BUMPER CROP OF POTATOES

New York Dealer's Views—An inspection of Aroostook fields

Rangoon, Me., Sept. 24.—Thomas H. Cobb, an extensive New York state potato grower, here on his return after a trip through Aroostook county, where he has looked over the potato fields, expressed his opinion that this section for raising potatoes and thinks that there are few other places in the country where there is such a favorable combination of soil and climate conditions.

Mr. Cobb believes that prices this year will be far below those of last season and he attributes this fact to the bumper crop of potatoes which he says will be produced in the country over. He estimates the yield at 350,000,000 bushels.

"Notwithstanding the quantity of Aroostook potatoes raised last year, growers here had a potato famine in the country last season," said Mr. Cobb. "Only 200,000,000 bushels of the 288,000,000 reported by the government were actually raised. As a result, prices were high and importations to the extent of 30,000,000 came into the United States. In 1910 New York imported 10,000,000 bushels. The shortage last year was due to lack of moisture in the east and diseased crops in the west."

"The department of agriculture has issued a proclamation prohibiting the import of white potatoes from England, Scotland, Ireland, Wales, Austria-Hungary, Germany, Newfoundland and St. Pierre, Miquelon. This cannot be interpreted to Great Britain where they have very few potatoes to export and our own crop is the normal. The purpose of the prohibition is to protect American growers against the invasion of potato blight from foreign lands."

"The idea is not to reduce our potato supply but to protect our crops," said Mr. Cobb. "If the blight should get into this country there is no telling what the result might be. The fungus disease that attacks the eye of the potato and gradually enters and destroys it, is also to be feared. It is difficult to detect it in its incipient stages save by microscopic examination, and it can not be checked by any kind of spraying that is known at present. The object of the prohibition of importation is purely to protect our future supply."

MAKE EGGS FROM AIR

Chicago, Ill., Sept. 24.—Dr. Paul Walden of Riga, Russia, predicted here last night that the next great feat of chemistry would be the making of eggs from air.

Dr. Walden, who is president elect of the Ninth International Congress of Applied Chemistry to be held in St. Petersburg in 1915, further predicted that a variety of nitrogenous foods will be made from the air some day.

MUCH DAMAGE CAUSED BY RAIN

Montreal, Sept. 24.—Rain has already fallen in this locality for sixteen days during this month, a condition of things which has never been equaled before as far as the records show. The damage done is very great.

This morning the log gage on the La Cliche canal at Cote St. Paul broke and it is estimated that the 3,000,000 bushels of grain in their way to Montreal will be back for several days.

Neared The Century

Cootick, Que., Sept. 24.—John Lebeur was died in his ninety-eighth year last night. His grandfather came from France in 1776 on one of the ships of General La Fayette at the time he came to assist the colonies in their war for independence.

Three years ago he celebrated his golden wedding. His wife survives.

CANADIAN MONEY, MILLIONS OF IT, IN FOREIGN ENTERPRISES

Trite Reply by Grain Growers Guide on Patriotism in Development of Country

(Grain Growers' Guide).

"The Toronto News tacitly accuses the Guide of wanting in patriotism and pleads with the Guide to assist in the 'patriotic development' of a 'variety of industries.' Now, let us examine this patriotic argument and see where it leads us. Let us in the beginning look at this list of foreign corporations with their paid up capital—

"This is a huge sum of money invested in foreign enterprise. But the amazing fact is that it is mostly Canadian money. There are Canadian financiers on the boards of directors of every one of these companies. We are surprised to find in this list of directors the names of Sir Edmund Walker, E. R. Wood and Z. A. Lash, all of Toronto. These are three of the 'noble eighteen' whose 'patriotism' was so strong that they deserted their party and fought might and main against reciprocity last fall. Mr. Lash even organized the Canadian National League to 'save Canada' from the crafty Yankees. Other names are Sir William Mackenzie, Sir Donald Mann, Sir Henry Pollard, Sir Max Aitken, Sir Wm. Van Horne, Sir Thomas Shaughnessy, Nathaniel Curry (President of the Canadian Manufacturers' association), H. S. Holt (Director C. P. R.), A. E. Ames (Toronto Financier), R. C. Brown (Toronto Financier), D. B. Hanna (vice-president C. N. R.), J. H. Plummer (president Dominion Steel Corporation).

These gentlemen have taken a part of the millions they have accumulated in Canada and are now using it to develop foreign enterprises, and thereby assisting foreign producers and manufacturers to compete with Canadians in the great 'home market.' These gentlemen are all aware of the great need of manufacturing establishments and railways in Canada largely by the aid of special legislation, and yet, knowing the great work necessary to build up a Canadian nation, as the News has so ably demonstrated, they have deliberately sent their money into foreign and some half-civilized countries.

Many of these gentlemen have been held up to us in the past by The News as paragons of patriotism. We just wish to ask The News a question which can be answered by 'yes' or 'no.' Are these gentlemen patriots? If so, then why is the free trader farmer who wishes to buy and sell to the best advantage not equally patriotic? If

LATE NEWS OF SPORT

New York, Sept. 24.—After several weeks spent in observing the work of young players in the minor leagues, throughout the country, Arthur Irwin, the veteran scout of the New York Americans, has come to the conclusion that the left-handed pitcher is dying out.

Frank Chance, manager of the Chicago National baseball team, operated on here is convalescing rapidly and expects to be out tomorrow.

Capt. Gregory, of the Australian cricket team, now on its way to this country, has written to the New York managers of the coming international cricket matches that his team is also proficient in baseball and proposing a game with a picked team from the New York and Brooklyn big league players.

NO JOBS TO GIVE AWAY.

Henry T. Hunt, the young reform mayor of Cincinnati, is a Yale man, and a recent Yale language he told a story about a mayor of the old school.

"This mayor," he said, "was as cynical as he was corrupt. A schoolmate visited him one day and asked for a job.

"Well, Joe," the mayor asked heartily, "the very next job I have to give away you shall get."

"Joe waited about a year, then he ventured to call on the mayor again.

"How about that job?" he said, reproachfully. "You told me a year ago that I was to get the very next job you had to give away."

"The mayor with a cynical smile, replied: "But I've had none to give away, Joe, I've sold them all!"

A HAPPY OUTLOOK

In Detroit they tell of a young man who, although he had made a great deal of money, was always in debt because of his extravagance. Not long ago, however, he wedded and won a young woman of great wealth, and immediately things took on a rosy hue.

During the honeymoon the bride ventured to ask hubby whether the fact that she had money made any difference to him.

"To be sure it does, my love," was the unexpected response.

"What difference?" she asked.

"Why, darling," continued the husband, "it is such a comfort to know that if I should die you'd be provided for."

"And if I should die?" added the bride.

"Then, darling," was the reply, "I'd be provided for."

OPENING OF PARLIAMENT POSTPONES TOUR OF WEST

Ottawa, Sept. 23—Sir Wilfrid Laurier, back from his tour of northern Ontario, will spend this week in Ottawa, starting out again next week on a tour of the older parts of the province, beginning at Cornwall on Monday.

The "Old Chief" was at his office in the parliament buildings today conferring with some of his lieutenants in regard to party organization, etc.

Sir Wilfrid is greatly impressed with the enthusiastic reception given him and his colleagues at the meetings of last week and was never in better of more confident form.

On Thursday night he will speak here at the annual banquet of the Canadian Manufacturers' Association. Premier Borden and Hon. W. T. White will speak for the government.

Owing to the early calling of parliament Sir Wilfrid will now be prevented from making his tour of the prairie provinces, as originally intended.

WHAT RECENT VISITOR HAS TO SAY ABOUT US

Massachusetts Writer Tells Of City And People And Customs HE WAS WELL IMPRESSED

Interesting Because of His View Point and Rather Breezy Way of Putting His Thoughts Into Words—A Tribute to Josias Howe

The following is from Turners Falls Reporter published Thursday, Sept. 20, Mass., and of which Cecil T. Bagnall is editor and proprietor. It is part of a long article written by a holiday visitor here, and it is interesting as showing the viewpoint from which we have been observed.

When the fateful day came for the colonies to throw off the yoke that was galling the necks of the majority, a majority choose to be standpatters, and to escape joining the bull-moosers they made up their minds if any limiting had to be done they would take the real animal by the horns in his own habitat and begin their life anew.

Here was the cream of Yankee New England, and what a cream! The colonial lads, marooned off with nothing but the funds on their back, a strong religious faith, and willed faith, and loyalty to a high-godded king that would have immortalized a Jackson democracy.

Some ten thousand of these loyalists, the best of New England stock, settled in the New England States, and it is today in thought and feeling as much like the old Puritan towns they left as it is today in fact.

When it was known that people could use them to get to church the prejudice was overcome, but not until a month ago was a train allowed to leave to catch the continental line at Montreal, and that train was the first to leave.

And the afternoon of a Puritanical Sabbath, the coating has certainly disguised the pill-men, women, and children so strongly together as families in the public square, the public parks, the beautiful parks, the most refined type of society, telling of happiness past and more to come, grateful fate has been so kind to them, even though some may wear rusty clothes that were Sunday before the big day over yonder on a sunny knoll saw the light of day.

Health and Beauty Advice

BY MRS. MAE MARTYN

R. M. S.: Sallow complexion, liver-aches, pimples and other eruptions of the skin indicate the need of a good blood tonic and liver-regulator. Dissolve one ounce of karene in one-half pint of alcohol, (not whiskey), add one-half cup of sugar and enough hot water to make a full quart. Take one tablespoonful five minutes before each meal. It cleans the blood, arouses the liver, clears the skin, restores lost appetite and tends to strengthen and build up the entire system.

JORDAN DIES IN CHAIR FOR MURDER OF HIS WIFE

Despair and Despondency No one but a woman can tell the story of the suffering, the despair, and the despondency endured by women who carry a daily burden of ill-health and pain because of disorders and derangements of the delicate and important organs that are distinctly feminine. The tortures so bravely endured completely upset the nerves if long continued.

SPORT NEWS OF A DAY; AT HOME AND ABROAD

Baseball
WHAT WOULD YOU DO?
Supposing, just supposing, that you went to see a game
By the home team and a ripping, slug-ging bunch.
Of husky will wavers who had come to put 'em lame
Who said they'd simply eat 'em up for lunch.
Supposing that this husky bunch were mighty fighting fit.
The home boys, too, were looking pretty well.
Suppose they worked eight innings through without a single hit.
I'm asking you, good brother, would you yell?

Supposing, just supposing, that the first half of the next
Two visitors should perch on first and third;
Suppose the batter up should take his stick, and, unperplexed,
Should start the ball to soaring like a bird;
Suppose your centre fielder then just hauled the atbash down—
Yes, hauled it down and sent it home pell-mell—
Suppose it dashed the stranger up a nice delicious brown—
I'm asking you, good brother, would you yell?

Suppose that last half inning your boys should come to bat—
Of course, with goose eggs still the score is tied;
Suppose two of your slickest lads struck out as quick as—that!
With batter up the punkiest on the side;
Suppose he fanned the horseshoe wild with awful, swinging licks;
Suppose he sent the third where song birds dwell;
Suppose he centered home and set the score at "one to one";
I'm asking you, good brother, would you yell?

out of a field of eight who started. A. K. Strong, unattached, of Boston, finished third; Thomas H. Lilley, also of the North Dorchester A. A., who finished 16th in the Olympic Marathon, was fourth; William J. Fallon, of the North Dorchester A. A., fifth; and Sylvester Francis, a 16-year-old Brockton Indian boy, sixth. Francis was the winner of the Labor Day Marathon from Wintertop to Hangar and his game in finishing Saturday was commended on all sides. It seems likely that he will make his mark as a distance runner within a few years.

National League.
St. Louis 2, Brooklyn 7.
Cincinnati 6, Boston 7.
In Halifax.

Halifax Chronicle—For Rugby football the prospects for a good season in Halifax are reported bright. D. S. Bauld, of the Wanderers, has received a letter from Cecil Crowley, Secretary-Treasurer of the Montreal English Rugby Union, accepting the invitation of the Wanderers Club to host a team from Montreal.

Besides these visitors Dalhousie is now negotiating with the McGill English Rugby Football Club with a view to arranging games.
The Halifax Rugby Football League is to be held every foot on the schedule of games for this year. It was suggested by Mr. Crowley that two games be played in Halifax about Thanksgiving Day. Should that holiday come on Monday, Oct. 28, it is proposed that a game could be played on the previous Saturday night.

Yale May Lose Good One.
Walter Camp, Jr., Yale star half back, will probably be in no condition to play football this year. Camp has been in poor physical condition since the close of the last gridiron season, but it was believed he would recover sufficiently to play this fall. It now develops that he ought to be out of the game for good.

The Ring.
McGoorty Knocks Out Harrison.
New York, Sept. 23—Eddie McGoorty, of Oshkosh (Wis.), who claims to be the top-notch American middleweight, added tonight to his argument tonight when he made short work of Jack Harrison, champion of England, who holds the Lonsdale belt. After knocking out Dave Smith, the Australian champion, in the first round at Madison Square Garden, three weeks ago, in the same right a tonight he knocked out the British champion in two minutes 35 seconds.

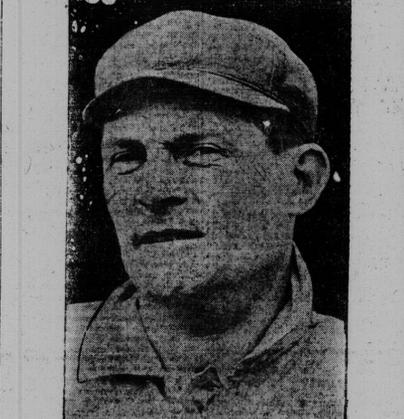

Imports English Bulldogs.
New York Sun—Although the season for visitors at Aulbury Park is about over there are several very distinguished travelers now en route for the popular summer resort on the Jersey shore. The visitors are three English bulldogs from the kennels of F. G. Anderson of Dundee, Scotland, and their destination is Harry Huntington's Woodcraft Kennel. There are two males and a female in the party and by right of his many successes in the show ring Bobbie Bostman is the most distinguished. Bostman is a white and brindle heavyweight son of Champion Melampus and Belaire Boppe.

His male traveling companion is Dundee Sir David, another very handsome dog, although not so stalwart in build, and which claims the same sire and whose dam is Rosalia, a sister of J. W. Minnura's famous Champion Rockiekie. Heta Off.
The female of the party is Scotland's Pride, a daughter of Dundee Katsupik and Little Alice.

Sokolakis, who had finished fourth in Sweden, had been the favorite before the race, but the Massachusetts man was never once in danger after he loped onto the Maplewood track, a quarter of a mile in the lead, for the last five miles. The winner's time was one hour and 51 minutes. Sokolakis went over the finish line just a minute later. Six men finished

NINETEEN HOME RUNS IN SEASON

This is Tim Jordan, champion home-run hitter of the International League, and possibly of the three big leagues, for the season. Jordan is attached to the Toronto Internationals, who won the pennant this year. He was also champion home-run hitter twice before, in 1906 and 1908, when he was with the Brooklyn Nationals. Jordan's record of nineteen home-runs for the season has been beaten only once, that was last year, when Schulte, of Chicago, took twenty-one.

entrance fee and promised to have Rockford reinstated at once.
Seventeen races were contested, with 112 competitors; eight were won in straight heats, three with an extra heat, two with five heats, while there was the unusual happening of four races being postponed to six heats. A feature of the meet was the remarkable number of trotters taking part, there being no less than fifty contestants in the nine events open only to horses of this cut. Sixty-nine heats were trotted or paced, and excluding the two cold races, the miles were from 24 1/2 to 25 1/2, and 20 of those were in 2:20 or better.

For the provinces included a new two-year-old record of 2:28 1/4 by Barling's Comet, a new trotting record of 2:15 1/2 by Billy C., and the fastest six-hurt race ever in the provinces, with Vesta Boy the winner.

Six horses entered the list, and all were trotters, including Kennet, b. g., by Kato, 2:24 1/4; Baron Cecil (3), b. c., by Baron McKinney, 2:23 3/4; Parker T. M. II, b. by Fair Oaks, 2:27 1/4; Redwing, b. m., by Oakley Baron, 2:27 3/4; Barling's Comet (2), b. c., by Darby, 2:28 1/4; and Montrose, Jr., Ill., g., by Montrose, 2:28 1/4. Five horses reduced their records, Billy C. (5), b. g., by Brazilian, 2:18 1/2; Dominion D. (4), ch. g., by Brazlian, 2:26 1/2 to 2:29 3/4; George Crosscut (4), by Crosscut, 2:27 to 2:24 1/4; Commodore Espanet (1), b. g., by Commodore Lejard, 2:27 1/2 to 2:25 1/2; Frank I. (5), b. g., by Lejard, 2:28 1/4 to 2:22 3/4.

Paddy—A soldier, of course.
Farmer—And why so, Paddy?
Paddy—Well, you see, you'd be a long time working for a farmer before he'd tell you to stand at ease.

Small Fruit Culture
The failure of many who occupy land to grow an abundance of small fruits, at least for their own use, is due to a mistaken idea that it requires too much time to look after a garden. This is the view taken by W. T. Macoun, dominant horticulturist, and expressed in a paper read by him last winter before the senate committee on agriculture and forestry. This paper, which constitutes a pamphlet of thirty-five pages, is an exhaustive treatise on the subject of small fruits. It is expressed in the plainest terms, on the culture of small fruits. The fruits dealt with are the strawberry, raspberry, blackberry, gooseberry, and the several classes of currants. Besides giving full instructions for planting and cultivation, notes are given on the relative merits of varieties. This pamphlet contains an interesting table on the cost of growing and the returns from an acre of strawberries. At a selling value of five cents a box, a net profit of \$84 is shown. A section is devoted to the preparation and application of insecticides and fungicides that are useful in fruit growing. Having the information of this paper to guide him, there is no good reason why every farmer should not have a productive fruit garden. A large edition has been printed to be sent free to all who apply to the Publications Branch, Department of Agriculture, Ottawa.

HORSE WENT THROUGH FLOOR OF THE BARN

Abraham Mitzler Had to Dig Hole in Yard to Get Animal Out

When Abraham Mitzler of the Canadian Metal Company went to his barn in the rear of 122 Mill street to take out his horse for the day's work this morning he went as usual to the stall and was surprised to find no horse was to be seen but instead quite a large hole in the floor indicating that the animal had fallen through. The hole was not sufficiently large to allow of it going down except with two feet at a time, and it is presumed that the animal slid five feet in advance to the space below the barn.

Mitzler was in a quandary. It was seen that it would not be possible to get the horse back again by the way in which he had gone under and there was no other exit large enough. Finding a spot in the yard along the side of the barn which yielded readily to the pick and shovel he set to work and in about an hour he had dug a hole, and after working for an hour or so, managed to open a space large enough for the captive horse to walk out. The poor animal had been under the barn for several hours as the floor had fallen in the night, and as the bottom was littered with tin, and some glass, it was a most uncomfortable resting place and the beast was scratched considerably when released. This was said to be the same animal which about two years ago was lost under a wharf in Carleton for two or three days after it was supposed to have drowned. The building is said to be in need of repair and is danger of further falling or caving in. There is a store in front and the floor of this seemed to be suffering this morning.

ONLY ONE M.P.P. WENT TO MEETING TO DEAL WITH VALLEY RAILWAY

The committee of the Board of Trade which has been dealing with the Valley Railway so as to make the crossing of the Kennelbrook at Grand Point instead of at Perry's Point, met yesterday afternoon to take further steps in the matter. It was expected that the local members of the legislature would be present to consult on a matter of such importance to St. John but only one of them, Hon. J. E. Wilson, appeared. Under the circumstances it was impossible to deal with the matter and the meeting was postponed. This morning's Standard, in referring to the meeting as a failure, did not clearly indicate where the fault lay.

CHANCERY CASE SETTLED

The case of *William Condon vs. George A. Shaw* was settled in the Chancery Division this morning before His Honor Mr. Justice McKeown. The plaintiff, who is a grocer residing and doing business at 288 Pitt street, borrowed some money from the defendant in May of an amount which was being pressed by a local wholesale firm. The plaintiff contends that he was given a mortgage on his property as security and executed a paper without reading it. Subsequently he discovered that it was a deed and commenced an action to set aside the conveyance on the ground that it was obtained through fraud. The terms of settlement were not announced and counsel refused to discuss the case. Barnhill, Paving & Sanford appeared for the plaintiff and Amos A. Wilson, K. C. for the defendant.

BOYS ARRESTED FOR ACTIONS IN CALVIN PRESBYTERIAN CHURCH

Frederick Glynn, aged ten, and Roy McCarthy, aged eleven, were arrested this morning by Detective Killen on the charge of having broken into Calvin church in Carleton street on Thursday last and causing damage therein, by tearing up hymn books, breaking electric lights and also taking a small amount of money. The boys were later allowed to go with their parents on condition that they would appear in the police court on Saturday morning next.

The charge is that they did break and enter the church in Carleton street on Thursday afternoon last and destroy considerable property therein, by breaking glass, scattering sugar around the floors, tearing up envelopes and scattering them about, breaking electric lights and globes, spilling a large bottle of ink on the floor, breaking open the contribution box and stealing \$1 therefrom and also committing another act.
