## THIRD ANNUAL REPORT

OF THE

# Montreal Catholic Sailors' Club

---

In submitting their Third Annual Report to their friends, and the public, the Management of the Catholic Sailors' Club have thought best to repeat the short history which has already appeared of their work, in the hope, that, with a wider circulation, it may reach and interest some to whom the Club, and its object, is now unknown—and so win for it new friends and helpers. The Catholic Sailors' Club was opened in April, 1893, to provide a safe resort for the sailors while on shore, and occupied a room on the third floor of a building on the corner of St. Paul Street. It was successful from the beginning, and the attendance, which at first averaged forty of an evening, gradually increased until now it is three times that number.

Three years ago the Club was removed from its old quarters to the large and commodious building which it now occupies on Common Street—fronting the water—and each successive year a certain amount of work has been done towards making it more convenient and attractive to the Seamen. The improvements which were begun last year were completed for the opening of the Club for the season of '98.

The changes which have been made in the game-room, and the extensive additions and alterations to the Concert Hall, have added greatly to the comfort and attractiveness of both.

Perhaps no better proof could be given of the growing interest in the welfare of the Club than the fact that, while last year but one parish (St. Anthony's) gave a concert in its aid, this year no fewer than five have helped in a similar way, viz. : St. Patrick's, St. Anthony's, St. Gabriel's, St. Mary's and St. Ann's—giving a sum of over \$400.00 to the funds of the Club, and other parishes have agreed to do as much for next year.

The management are greatly indebted to the reverend pastors of the various parishes, not only for substantial assistance, but also for the kind encouragement which they have given to the good work.

The unqualified approval given to the Seamen's Club by His Grace the Archbishop is a source of great strength to the management in their efforts to interest others in the good work. An instance in point is that, when last in Rome, His Grace brought the organization to the notice of the Holy Father, and in consequence His Holiness was graciously pleased to issue a Brief expressing his high approval of the work. Archbishop Bruchesi was present also on the occasion of the opening of the Club, on April 26th, and gave a kind and encouraging address, and his subscription was the first handed in for 1898.

The Club has been most fortunate in securing as Chaplain the Rev. Father Kavanagh, S.J., whose zeal and devotion to their service at all times, has won for him the esteem and confidence of the Seamen.

Since June 26th, Mass has been celebrated in the reading-room every Sunday morning at 7 o'clock—thus giving the sailors who, for one reason or another, might find it difficult to reach churches further away, an opportunity of attending Divine Service.

The thanks of the Management are due to Mr. McNamee, who, always an active member of the Advisory Board and a devoted friend to the Club, has been this year more than ever energetic in promoting its interests in all ways, and especially in increasing its revenues—he and Mrs. McNamee having together collected the large amount of over \$1,700.00 towards the building fund.

The weekly concerts' this year have been a decided success. Under the entire management of the Vice-President they realized the handsome sum of \$216.80.

The Committee have to record their sense of the great loss which the Club has sustained in the death of Mr. J. J. Walsh. His work in the Club rooms was of a kind which few have either time or aptitude for. All his leisure hours were given to the Seamen. His influence for good over them could not be over-estimated, and the frequency with which his name is yet heard among the men shows that the kindly memory of their good friend still lives with them.

A branch of the work which has been taken up with great vigor during the past season is hospital visiting. These visits of members of the Ladies' Committee and their kindly attentions to the various

needs of the sick and suffering seamen are greatly appreciated. The management have pleasure in expressing their appreciation of the services of their excellent Janitor, Mr. Albert Ayres, who has proved himself most efficient and painstaking in maintaining order and cleanliness in the Club rooms.

The lot which was secured last year in the Cote des Neiges Cemetery, for the burial of Catholic Seamen dying in this port, has been greatly improved, and the erecting of a handsome and suitable monument there is altogether due to the efforts of a small band of workers outside the regular members of the Club. No fewer than seven interments have taken place during the past season.

Altogether the result of the season's work has been most satisfactory to the management, and they are encouraged to hope that the Catholic Sailors' Club has taken a place among the benevolent institutions of Montreal which will be permanent. But it must not be forgotten that the work is still in its infancy and will require careful fostering (for a long time to come) on the part of the promoters, before it rests on a secure financial basis. Just now the goal in view is a permanent building, and before another year the management hope to have taken steps towards securing one, and for this end a Committee, consisting of three members of the Advisory Board, have been named to secure a suitable building or a site for the erection of one.

The one real difficulty to overcome in carrying out the work on the scale which its success thus far seems to justify, is (as in most good works) a pecuniary one, and in thanking those members of the Club who have so generously given their time to the hard work of collecting—the management would make an earnest appeal that even greater efforts may be put forth to secure subscribers for the coming year.
