### CAPE BRETON NEWS.

The Nova Scotia Steel and Coal Co. is rapidly pushing forward the work on their new pier with the intention of having it completed early in the spring and thus accommodate the large number of steamers which have been chartered for the carrying of ore next season.  
The Port Hood, C. B. Greetings is agitating for the incorporation of the town of Port Hood and says the need of town government is becoming more apparent every day.  
The Cape Breton Red Granite Co. operating at Long Island is rapidly increasing its output of crushed stone. It is expected that the daily output will shortly be 300 tons. It is being used by the Cape Breton towns for street purposes and the Cape Breton Electric Co. may require a quantity to ballast its road.  
During the first week of November over 10,000 tons of washed slack were shipped from Louisburg beside a quantity of round coal shipped by rail. Slack coal can be shipped very rapidly at Louisburg, as much as 6,000 tons having been loaded in ten hours.  
T. B. Kidner, director of the manual training school for Nova Scotia, was in North Sydney on Wednesday, making the arrangements for opening manual training departments in connection with the schools at North Sydney and Sydney Mines. The school at Glace Bay was opened this week. That at Sydney will be ready at the beginning of the new year. The North Sydney School Board will set aside a room in the new school building for the use of a department of manual training.  
One hundred and sixteen dollars have been subscribed at Sydney Mines for the endowment of a manual training department in the public schools. Four hundred dollars is the required sum.  
In addition to the sinking of the shaft at Dom. mine, No. 2, North Sydney, the rock is being excavated around the pit bottom and large concrete pedestals are being put in for the purpose of resting the heavy iron beams to support the roof at the pit bottom. Away from the bottom concrete pillars are also put in on each side for resting beams, also to support the roof.  
It is possible that the Dominion Coal Co. may re-open the Hub Colliery at Glace Bay. There is a large quantity of coal to the rise, and it is thought

that this may be taken out to advantage.  
The Nova Scotia Steel and Coal Co. has decided to accede to the request of the miners at Sydney Mines for a ten per cent. increase.

### MORE PEOPLE FOR CANADA.

Another Lot of Welshmen—Also Several Hundred Poles.  
MONTREAL, Nov. 11. The settlement of the Welshmen from Patagonia in the Northwest has been so successful that a committee of leading citizens of Wales have recently been particularly active raising more funds to transport the entire colony, and it is now but a matter of little time when the entire colony shall have made its way into Canada.  
Alexander Kineywoz has arrived from Rio de Janeiro, as the delegate of 200 families of Polish Catholics, who were sent to that country ten years ago, on whose behalf he will interview the C. P. R. authorities, the dominion and the provincial governments. "The people whom I represent," he said today, "are fine, sturdy colonists. They are practical farmers, and given a fair chance would soon prosper on any fertile area. The land they were given to cultivate in Brazil was entirely unsuited for cereals or any money-making crops."

The deep steel grey broadcloths are fashionable for skirts and suits, and what looks better than this material when it is properly made up? On sale at Dykeman's at 68c. and 75c. per yard.

### FISH ARE SCARCE.

The supply of fish in the local market is still small, though sufficient for the demand. Cod and haddock are in fair supply, mackerel and halibut are difficult to get at all, and herring are scarce. Reports state that the catches are small and that there is no immediate prospect of a relief.

**SHUFFLEBOARD TOURNAMENT.**  
The Y. M. C. A. shuffleboard tournament opens tonight, when Cassidy and Carless play Drake and Duval; Drake and Duval play Brown and Clark and the latter team again play Brennan and Dean. The contest will continue every night until Dec. 2. Each competing team will play with every other.

St. John, November 19, 1902.

### NEST OF CRIMINALS

Arrested on Charges of Murder and Robbery.

BUFFALO, N. Y., Nov. 19.—The police have arrested two men named Martino said to be wanted in New York city for the murder of a man named Cochini. A third man escaped. A watch chain said to have been worn by the murdered man was taken from the prisoners. They were locked up on an open charge. Mary Scarnello and Rosie Robart were also arrested, the former being charged with stealing \$60 from the murdered man and the latter with deserting her child in New York city.  
They were captured at a boarding house conducted by Mabel Williams and Lena Edwards, both colored. These women were arrested also and charged with having assisted the men to escape.

### THE STRIKE COMMISSION.

Mitchell Holds Out for the Weighing System.

SCHANTON, Pa., Nov. 19.—The anthracite strike commission resumed its hearing today with the usual large crowd in the court room.  
Before W. W. Ross, counsel for the Delaware, Lackawanna and Western road, resumed his cross-examination of President Mitchell, chairman Gray, for the commission, again asked counsel to assist in adopting the weighing system. He said the commission was loath to interfere, but they hoped that Mr. Mitchell would not be asked to give his opinion of matters of which he had no personal knowledge.  
Mr. Mitchell, answering questions by Mr. Ross, said that an increase in wages without adopting the weighing system would not meet the demands of the miners. An eight hour day would increase the annual income of the men.

### NEW YORK POLITICS.

A Deputy Attacked and His Skull Fractured.

NEW YORK, N. Y., Nov. 18.—Lester Bennett, a deputy superintendent of election, was assaulted on the Bowery today by several men. He was knocked down, but managed to enter a shooting gallery near. Seizing a rifle he held his assailants at bay. A police officer came to the rescue, but too late to arrest the men, who escaped in a large crowd which had collected. Bennett was taken to a hospital, where a physician said his skull was probably fractured and his condition was critical. During the first campaign of Perry Belmont for congress, Bennett arrested an advertiser for alleged election irregularities.

### PROSPEROUS NEWSPAPER.

NEW YORK, Nov. 19.—The corner stone of the new nine story building of the Brooklyn Daily Eagle was laid today. It adjoins the present home of the Eagle, and adds more than double the space of the present building. When completed it will give the Eagle one of the largest newspaper plants in the country.

### THE DEATH ROLL.

SAN FRANCISCO, Nov. 19.—Juan B. Wandesford, an artist, with an international reputation, is dead in this city. He suffered the loss of many valuable pieces of his handiwork by the destruction of his home at 215-wards by fire several years ago. He was a native of England, aged 55 years.

### THE WEATHER.

TORONTO, Nov. 19.—Maritime.—Fresh easterly winds, unsettled and showery this evening and Thursday.  
WASHINGTON, Nov. 19.—Forecast.—Eastern states and northern New York.—Partly cloudy tonight and Thursday; light northwest winds, becoming variable.

### DR. PARKER DYING.

LONDON, Nov. 19.—The condition of Dr. Parker, minister of the City Temple, is now considered hopeless. Dropsy set in Friday, since when oxygen has been administered to him. Dr. Parker himself wrote a bulletin which was read in the City Temple Sunday, remarking that it was the last thing he would ever write.

### AFTER GIBSON PROPERTY.

Representatives of Nova Scotia Syndicate in City, Consulting With Local Men Interested.  
John F. Stairs of Halifax, president of the Nova Scotia Steel Co., and W. Max Aiken of Halifax are in St. John on business in connection with the proposed transfer of Gibson Railway and Manufacturing Co. to a Nova Scotian syndicate. They were closeted all this morning in conference with Lt. Col. H. H. McLean, who represents one of the interests involved. Nothing would be given out regarding the results of the conference, but it is understood that nothing definite has yet been arranged regarding the transfer. It is considered certain that the change will finally be made, but there is considerable difficulty in arranging terms. Alex. Gibson of Marysville was also in consultation.

### CHRYSANTHEMUMS.

The chrysanthemum season is now in full swing, and florists report an ever-increasing demand for these flowers. Some very pretty displays are made in the city establishments, and among the specimens shown are several new varieties. These are the Vivian Morrell, Ivories, Novis—no relation to the one of the same name—and Queens. The latter are especially pretty, being large shaggy white blooms with the ends of the petals turned in.

## THAT BOYCOTT.

Trades Assembly Held a Very Stormy Meeting.

Action Deferred Until the Meeting to be Held Nov. 26th.

SCHENECTADY, N. Y., Nov. 10.—The boycott against the Schenectady Railroad Co. will continue.  
The Trades Assembly held a long and stormy meeting last night, at which a resolution was offered to reconsider the resolution ordering the boycott, but a forgotten clause in the constitution to the effect that any action taken at a regular meeting could not be reconsidered at a special meeting was produced, and so no action whatever was taken. At the conclusion of the meeting, which lasted about two hours, the press committee refused to give out any information, but it was learned that the meeting was almost a riot.  
It was evident that a large majority favored calling the boycott off, but any attempt at argument was met with hisses and yells of disapproval from the radical element. Cries of "traitor" and "scab" greeted every conservative speech, while the advocates of continuance drowned each other's voices in their efforts to be heard. Finally it was proposed to take a vote, and then the leaders of the boycott produced a clause in the constitution that no action taken at a regular meeting could be reconsidered at any but a subsequent regular meeting, and President Jackson declared the resolution to reconsider out of order.  
Some one moved to adjourn, and in the tumult it was declared carried. The next regular meeting will be held Wednesday, Nov. 26. The leaders say they know organized labor is not in sympathy with either the expulsion of Potter or the boycott, and that it is necessary to form a new body to rid themselves of the leaders who have put them into this position. The Typographical and other unions state that they will denounce the boycott at their next meeting.

The boycott is only nominally in effect. Union men, especially those whose representatives opposed the boycott, rode on the cars today as freely as ever, and there was no attempt made to spot or warn them, while the failure of the business men to regard it as general.  
SCENECTADY, N. Y., Nov. 19.—The third day of the boycott by the trades assembly of this city finds the effort possessing practically no support at all. There is no diminution of traffic, and all of the cars are running, as on other days, with their full quota of passengers. The officials of the trades assembly, which resulted in the matter of calling off the boycott remaining in abeyance, declared that eight per cent of the members of local unions would not use the cars today. However, this claim has not been met by the facts in the case.

### SUIT POSTPONED.

Cordage Company's Claim Against the Government will be Considered Later.  
The case of the King v. the Consumers' Cordage Co., scheduled to come up in the exchequer court today, has been postponed, his lordship Justice Birdge, not attending.  
A telegram from the registrar at Ottawa to R. O. Stockton last evening stated that the trial of the King v. the Consumers' Cordage Co. had been postponed to a day to be hereafter fixed upon terms that the defendants' costs of day be paid by the crown and that the defendants be permitted to examine de bene esse before Mr. Stockton, acting registrar, as witnesses in attendance for the trial as fixed for today, 19th instant.  
It was decided today that the expert witnesses in attendance will not be examined now, but will be asked to return when the court again meets, which will probably be in January.  
Messrs. James E. Dolan, of Roxbury, Boston, and Richard McLean, of Plymouth, Mass., will testify for the government. Among the witnesses on the other side are Moses H. Day, manager of the Consumers' Cordage Co. at Montreal; James Daley, an expert from New York, and the superintendent of the Dartmouth, N. S., ropewalk.  
The case is a suit brought by the cordage combination against the government for \$125,000 for two acres of land expropriated for part of the new rifle range. For the land, which is rocky, the government offered \$125 an acre—in all \$250. No appraisalment of the value of the part of the building taken was made. The Consumers' Cordage Company refused to accept the \$250, and put in a claim for \$125,000.

### AN INSANE LOVER

Committed Suicide in Presence of the Woman He Loved.  
NEW YORK, Nov. 19.—William C. Mahoney, 23 years old, said to be a member of a wealthy Boston family, and a graduate of Harvard, has committed suicide in this city because a woman who had refused to marry him and had caused his arrest twice recently for persisting in his attentions, had declared her purpose of marrying another man. A motor car was in waiting and the king soon reached the palace of the birth of another princess instead of an heir to the throne is a great public disappointment.

### A FATAL RIOT.

RIO JANEIRO, Nov. 19.—A riotous demonstration yesterday marked the departure from this city of the retiring president, Dr. Campos Sales. Crowds of people hooted the ex-president and stoned newspaper offices. Troops charged the rioters. At least one man was killed, a number of persons were injured and numerous arrests were made.  
THE PRICE OF POTATOES.  
Country firms and farmers appear to be holding their potatoes for higher prices. A city dealer who offered \$1.40 per barrel for a round lot this week was unable to get them, the owner declaring he would hold for more. There does not appear to be a shortage in the province, but a desire on the part of holders to boost prices. Some of the potatoes offered are not of very good quality.  
BRUSSELS, Nov. 18.—Generals Delarray and Botha have decided to abandon their proposed tour to the United States. Gen. Delarray in an interview published here says they intend to return to South Africa to meet Colonial Secretary Chamberlain at Pretoria.

### MASKED ROBBERS

Foiled in an Attempt to Rob a Train—One Was Shot.

TRINIDAD, Colo., Nov. 19.—Masked robbers held up a passenger train on the Colorado and Southern road, twelve miles south of here, last night. One of the robbers was shot by express messenger Sherwick, of Fort Worth, Texas. The robbers flagged the train. As it slowed up they ran alongside the engine and covered the crew with revolvers. They then compelled the engineer to alight, and after placing a stick filled with dynamite under the baggage car and attaching a fuse, ordered the engineer to ignite the fuse. He attempted to do so several times, but the fuse would not burn. During this proceeding the robbers kept up a fusillade of shots in the direction of the train to intimidate the passengers. While preparations were being made to fix the fuse messenger Sherwick extinguished the lights in his car, quickly opened a side door and fired at the nearest robber. The latter fell in his tracks. His startled companions picked him up and fled. A posse is now in pursuit.

### REMARKABLE CASE.

Young Woman in State of Coma for 23 Days.

NEW YORK, Nov. 19.—Della Mulligan, who came from Ireland in October and secured work as a servant here, has lain in a state of coma at the J. Hood Wright hospital for the past twenty-three days. Her case is almost as puzzling and interesting to the doctors as that of Nellie Corcoran, who died after her three weeks' trance in St. Vincent's Hospital. Only twice in the whole period has the girl spoken, and then it was to mutter a few words which showed that she was delirious. The girl was taken to the hospital suffering from partial asphyxia, due to blowing out the gas. The usual means of resuscitation were used. The only effect was to restore the patient's appetite. Her pulse and temperature became normal. The state of coma has, however, resisted the doctors' best efforts, and they have given up hope of restoring her to consciousness.

### ANOTHER PRINCESS.

And Italy Still Awaits an Heir to the Throne.

ROME, Nov. 19.—Queen Helena was accouched of a daughter this morning. The mother and child are announced to be doing well. The new princess will be named Mafalda.  
The child born to the King and Queen of Italy today is the second daughter. The first, Princess Yolande Margherita, having been born at Rome on June 1, 1901. Had a male child and heir to the throne been born, he would have been proclaimed Prince of Rome.  
The accouchement occurred a month earlier than expected. The king yesterday was shooting on the island of Monte Christo, when he was suddenly summoned home. He immediately bearded a yacht and was landed on the beach in the neighborhood of Rome. As there were no embarkation conveniences his majesty's companions had him carried ashore on the backs of sailors. A motor car was in waiting and the king soon reached the palace of the birth of another princess instead of an heir to the throne is a great public disappointment.

### POLICE COURT.

Charged With Stealing Rubbers From Mr. Komlensky.

A man by the name of Joseph Carr was arrested last evening on the charge of stealing a pair of rubbers from D. Komlensky's store on Mill street. Mr. Komlensky says that "last evening a citizen put into my shop his head and asked me if I was giving away Jose rubbers. I say no. Why? 'Because,' said he, 'I see a man take a pair just now and go away with them. So I run out and see a man going with my rubbers. I run after him and he turned round and pulled out a knife. He said, 'You come on here and into you this knife I will stick.' I did not go. Then he made a run for me with his knife and I carefully returned back as quickly as I could, but he got away with my rubbers."  
Carr was this morning remanded until Friday.  
Andy Ervine, for being drunk on Prince William street, was fined four dollars or ten days.

### THE ABATTOIR.

With regard to the action taken by the teachers of the Aberdeen school concerning the abattoir, the Star today asked several members of the school board if any complaint had come before them. They replied in the negative. They would not discuss the question or express opinions until the matter was formally brought before them, although two of them remarked that they saw no serious objection to the location of a modern abattoir, properly conducted, in the old shipyard. It would not be close to any dwellings and none could be built close to it.

Visiting the grave of his child in the Church of England cemetery this morning, J. E. Earle found daisies blooming there, in defiance of the winds of November.

ST. JOHN STAR.

ST. JOHN, N. B., NOVEMBER 19, 1902.

CHURCH WORK.

"The clergy must live among the people, going in and out of their houses," says the Bishop of Liverpool, England, in a recently delivered address.

"Get down out of your pulpits and preach in the streets as Jesus did," said Rev. Chas. M. Sheldon in his talk to the St. John clergymen on Monday. That the church is the greatest instrument for good known to civilization is an axiom. Is the church waking to the fact that it may do still more for the betterment of humanity—that its present methods are inadequate to enable it to fill the place its founder intended it to fill? His were no massive temples. No lofty liturgy; no deep-toned music added their solemn emphasis to the words He spoke.

Going to church uplifts, clarifies, inspires and in every way makes for the better of all who do go. But there are myriads who never see the inside of a place of worship, and statistics show that the number is growing. The world was never more cultured, more refined, more progressive, better educated than it is today, but is it more godly than in the days when Christianity was not a matter of course? These people who do not go to church, who hear of nothing above their own sordid living ways from New Years till Christmas time—what shall the church do for these?

This is the problem that is confronting Christianity today, and Christianity is going far toward the answering of it. Men in every branch of Christian work are rousing and reaching out for wider opportunities to propagate the gospel in which they believe and which it is their duty to preach to every people. In his defense of the Salvation Army, General Booth offers simply the fact that it has made religion where none was before. And the justification is more than sufficient. Shall the work of reaching the mass of the people whose number and whose carelessness are on the swift increase be left to the army?

THE TELEGRAPH.

The Telegraph has for a time abandoned its eager search for the "main body," and its playful allusions to Dare Devil Dug. The public should not infer from this fact that the editors have wholly given up the quest or the habit. The explanation of their silence is that they have struck a new trail and are hot on the heels of the forger of the Rothery lists. His capture is believed to be imminent, and the event will be hailed with head lines across the whole of the first page of the Telegraph, and an editorial three columns wide in poster type. But even when this great feat has been accomplished, the editors will not immediately return to the trail of the "main body" of Dare Devil Dug's followers. They have another little matter in hand, and must give it their earliest possible attention. A libel suit entered against the Frederick Gleaser is reported to have got away from its keepers and is causing grave trouble. Unless it is captured soon it may encounter the "frost" that is going about with Dare Devil Dug and lose itself in a snow-bank. By the time this matter has been dealt with some new editors will be due, and there is no telling what will happen afterwards.

An order in council has been passed appointing Frank Pedley, superintendent of immigration, to be deputy superintendent general of Indian affairs. He will take charge in a few days. Mr. Pedley is the able official who denied that there was any frenzy among the Doukhobors, and who asserted that all was peace and happiness among them, even when some fifteen or sixteen hundred were on a mad pilgrimage to Yorkton. If Mr. Pedley displays the same incapacity for finding out what is going on among the Indians as he has done in the affair of the Douks, he will make a record for himself and a lot of trouble for the country.

Of the British lumber market the Timber Trades Journal of Nov. 8th says:—"In contrast with the firm market for white wood from all the European sources of supply, spruce has developed a slight weakness in the narrow sizes in the Liverpool market, due to the large stocks on hand in Liverpool and Manchester. Shippers, however, maintain a firm attitude as to prices, and surrounding circumstances in Canada point even to an advance next season."

The following paragraph from the Portland Press is perhaps applicable to St. John as well as the Maine city: A visitation of small pox is certainly among the probabilities this winter.

AT GLAD TIDINGS HALL.

First Winter Meeting Held Last Evening—A Large Attendance of Boys.

There were a lot of happy faces at Glad Tidings hall, Brunsis street, last evening, when the first gathering of the winter was held. There was between 140 and 150 boys present, also a number of ladies and gentlemen, who have taken a great interest in the boys of that district and last winter did much to make their lives happier and teach them to grow up good, honest men.

Rev. Mr. Deinstadt, pastor of the Exmouth Street Church, presided, and was assisted by Rev. Mr. Campbell of Centenary and a score of ladies, who provided refreshments. After a hymn presented, Alderman Maxwell made a short but happy address and pointed out to the boys the benefits of leading a strictly temperate life. In concluding, he stated that the time had passed when a man, young or old, could occupy a public position, or one of trust, who was not strictly temperate.

The several numbers on the programme and the addresses were received with enthusiastic applause. At the conclusion of the programme, coffee, cake and biscuit were served in abundance. The boys were well pleased with the programme and supper, and the ladies and gentlemen delighted at the number and enthusiasm of the men in which they conducted themselves. Rev. Mr. Deinstadt remarked that they behaved quite as well as a gathering of that many preachers would have done. It is the intention of the gentlemen to organize a temperance society, a club, and perhaps several classes, the work to be carried on under the auspices of the Methodist churches of the city.

COAL INQUIRY.

SCRANTON, Pa., Nov. 18.—President Mitchell, for the fourth successive day, occupied the witness stand during the two sessions of the strike commission and was cross-examined by three attorneys for as many coal companies. While a considerable amount of information for the enlightenment of the commission was brought out, the day was rather quiet, and uneventful with those which have preceded it. The arbitrators are growing restless in consequence of the long cross-examination, which apparently does not bring out the facts as quickly as the commission would like to have them presented. Several times during the course of today's session, Chairman Gray reminded the attorneys of the value of time and suggested that cross-examination be limited to new features of those questions that have already been gone over.

REV. MR. STEEN'S LECTURE.

The enterprise of the Church of England Institute in bringing Rev. Frederick J. Steen from Montreal to lecture in the York Theatre on Thursday evening should be regarded by a generous and unprejudiced man in St. John, though the Cathedral is crowded Sunday by Sunday to hear him preach. He is indeed a worthy spokesman of the first preacher in Montreal. But Mr. Steen is more than eloquent. He is a man of great scholarship, and one who is certain to take a prominent part in moulding the religious life of coming years. His lecture, "The Ancient Egyptians, has been most favorably received in Montreal, the Hon. Academy of Arts being filled month after month to listen to his eloquence. The limelight shows alone will amply repay any one who secures a seat for Thursday. See advt.

S. OF T. CONCERT IN NORTH END.

A well attended concert took place in Union Hall, north end, last evening, under the auspices of Loyalist Division S. of T., No. 421. The chair was occupied by Col. A. J. Armstrong, who, at the beginning of the entertainment, made a short address suitable to the occasion. After the chairman's address, the following programme was rendered: Mr. Ritchie, solo; Mr. Goudie, violin solo; Miss Lillian McGorman, recitation; Mr. Ross, piccolo selection; Mr. McGorman, monologue; Miss Ingram, recitation; Mr. Nixon, whistling solo; Misses McMaster and Fitch, duet; Mr. Kelly, solo; Messrs McGorman, Donald, Stevens and Sullivan, dialogue.

HALIFAX EXHIBITION.

HALIFAX, N. S., Nov. 18.—The annual meeting of the Nova Scotia Exhibition Association was held tonight. The receipts were \$25,571 and the expenditure \$23,317. The admissions to grounds netted \$13,650. The admissions to grand stand were \$6,850. The auditors in their report say that the increase in the receipts of \$7,263 over the previous year is mainly attributable to the favorable weather, to keeping the exhibition open for one day longer and to the increase in the speed entries of \$783.

SEAMEN'S MISSION ENTERTAINMENT.

A large number of tickets have already been sold for the night with Dickens. Such a deserving charity as the Seamen's Mission must stand to all the community, and Mr. Harris' kindness in giving the readings ought to be appreciated by a full house. Everything points that way. Tickets on sale at Nelson's book store.

TRURO, N. S., Nov. 18.—Morton Nutt was convicted today of shooting with intent to kill. He fired at and wounded his wife and mother-in-law and then himself. He will be sentenced tomorrow.

OTTAWA. Won Their Certificates at Camp Sussex, N. B.

OTTAWA, Nov. 18.—The undermentioned officers having satisfied a board of examination at Sussex, N. B., that they are proficient in horsemanship and use of sword as for mounted officers of dismount unit, have been awarded certificates: Capt. D. McNaughton, 73rd Regt.; A. S. Cameron, 73rd Regt.; W. W. Ross, 67th Regt.; F. G. Forbes, 75th Regt.; G. D. Perkins, 67th Regt.; J. M. Jones, 82nd Regt.; Lieut. A. C. Watson, 94th Regt.; Lieut. J. F. Neary, 78th Regt.; Veterinary Lieut. W. N. Simon, 8th Hussars.

Pottinger and Price left for Kingston, Ont., tonight to inspect new locomotives for the Intercolonial. Great regret is expressed in political circles at the news of the death of Mr. Maxwell, M. P. for Burrard. Although a strong liberal, he had many friends on the conservative side, who admired him for his scholarly attainments. Mr. Maxwell was educated for a Presbyterian minister and resigned a pastoral charge in Vancouver when he first became a candidate for the house of commons.

Mr. Col. Pinault, Deputy minister of militia, has gone to the I. C. R. to inspect the defence of Esquimaux. The dominion government proposes to take these works over as part of its contribution to dominion defence. Prefontaine says he will devote special attention to improving the navigation of the St. Lawrence, so that the route will be as safe at night as in the day.

The composition of the commission charged with the revision of the federal status is as follows: Sir Henry Strong, chairman; E. L. Newcombe, deputy minister of justice; A. Power, E. R. Cameron, Ottawa; W. E. Roscoe, Kentville, N. S.; Thomas Metcalf, Winnipeg; L. P. Sirois, Quebec; Henry Robertson, Collingwood. There will be two secretaries, Chas. Murphy of Ottawa and H. St. Louis of Montreal. A complete baking outfit will be taken to the Japan exhibition to demonstrate the superiority of Canadian flour.

OTTAWA, Nov. 18.—The telegraphers' grievance committee was in conference with Mr. Price of the I. C. R. until a late hour tonight and good progress was made toward a mutual understanding. Owing to Messrs. Pottinger and Price having to go to Kingston, the final meeting will be held in Montreal on Thursday.

Mr. Campbell, vice-president of the O. B. T., told the Sun correspondent that he was negotiating an agreement with the I. C. R. telegraphers are believed to be of a substantial character, owing to the able manner in which the committee presented the claims of the operators. According to advices which have reached the department of agriculture the exports of cheese and butter from Canada this year promise to make a record. When the season closes, the value of these products shipped to England and abroad will total thirty million dollars. The cold curing rooms have been a success, although a remedy to overcome the dampness settling on cheese is still to be devised.

REV. MR. STEEN'S LECTURE.

The enterprise of the Church of England Institute in bringing Rev. Frederick J. Steen from Montreal to lecture in the York Theatre on Thursday evening should be regarded by a generous and unprejudiced man in St. John, though the Cathedral is crowded Sunday by Sunday to hear him preach. He is indeed a worthy spokesman of the first preacher in Montreal. But Mr. Steen is more than eloquent. He is a man of great scholarship, and one who is certain to take a prominent part in moulding the religious life of coming years. His lecture, "The Ancient Egyptians, has been most favorably received in Montreal, the Hon. Academy of Arts being filled month after month to listen to his eloquence. The limelight shows alone will amply repay any one who secures a seat for Thursday. See advt.

CURRENT COMMENT.

Any doubts as to the Douks being mentally disordered may now be dismissed. They want to go to Turkey. Lying may be wicked, but it is still fashionable.

Nods of the congregation don't always express approval of the sermon. A man is not in a calm condition when he finds it impossible to raise the wind.

Enough whiskey is made in Kentucky every day to float a steamship—but, of course, it never gets a chance to do it.

The average man has a brother-in-law in the insurance business. Who tells malicious lies to us. Is bad enough forsooth, But far more maddening is the cuss Who tells malicious truth.

It takes a lot of liquids to make one solid with the boys in an Ontario election, calls an Upper Canadian contemporary, Ontario need not puff itself up on that account. Thirst is not watered there.

Why not let Captain Bernier take the Douks to the North Pole? suggests the Montreal Star. That is a little corner of the world where they would not be bothered with man's laws or comforts, and would find God's laws of nature quite noticeable.

"My love for you," he wrote, "is so deep, so vast, so powerful, I cannot express it." "Why don't you send it by freight?" she wrote back. And then it was all off.—Philadelphia Record.

A soldier who has just returned from the war and is the temporary hero of his village, in Wiltshire, England, went to Sunday morning service at the local Baptist church. The minister, observing him among the congregation, promptly proceeded to pray for him.

LUMBER CAMPS. Ten Thousand Men are Engaged in the Pine Woods of New Ontario.

TORONTO, Nov. 17.—The recent reports to the crown lands department indicate that the present is the busiest season in the history of the Ontario lumber woods. An official who has just returned from the north says there are 10,000 men in the woods between Mattawa and Sault Ste. Marie, 3,500 of which are in the vicinity of Sudbury alone, while the limits east and west of that territory were equally crowded. Many limits on which no cutting has taken place for years are now yielding their portion owing to the strong demand for lumber in connection with building operations throughout Canada.

All this is not being done without feeling the pinch of scarcity of labor. In far western Ontario it has been found necessary to import hundreds of French Canadians from as far east as Gaspe.

Wages are from \$25 to \$35 a month and board, and many who are mere hards are paid from \$20 to \$22 a month.

POOL MACKEREL CATCH.

The Gloucester fleet with but possibly one or two exceptions have left Cape Breton waters for home. Their trip this fall to the Cape Breton coast has been unsuccessful. Not one vessel of the fleet has more than 60 barrels of mackerel. Mackerel this year off the Cape Breton coast have been small and the fish of a poor quality. The mackerel fishery has year by year been gradually deteriorating and this all believe may be attributed to the use of the purse seine by the Gloucester fishermen. It seems only a question of time until our waters will be entirely depleted if the present mode of killing the mackerel is permitted.

A GROWING PLACE.

(Cape Breton Enterprise.) The character of the work at present being carried on in North Sydney is that calculated to indicate universal confidence in the town's future. The Nova Steel and Coal Co. is investing enormously here as well as at Sydney Mines. The Cape Breton Electric Co. is about to construct a tram line such as only a very prosperous town could afford. Wood's Bros. have erected a store which probably surpasses anything in the maritime provinces. The banks have both become the owners of the imposing freeholds. The railway department has been compelled by the increasing volume of trade to add to its freight shed. The Public Works Department is giving us an improved public wharf. We are getting our portion of prosperity.

AGAINST THE WAZIRIS.

Four British Columns of 500 Men Each Despatched to the Afghan Frontier.

CALCUTTA, Nov. 15.—The aggressive movements of the Waziri tribesmen on the Afghan frontier have caused the despatch of the British of four fighting columns of 500 men each under command of Gen. Egerton, to destroy the forts and attempt to capture the tribesmen. This is the second serious outbreak within a few months. A large force was sent in the spring against the Mahauds on the Waziristan frontier for inciting the peaceful tribesmen against the British. Gen. Egerton will conduct his operations from Achat. Much will depend on whether the Waziris under Darwesh Khel, who is accused of inciting the band's raid on British territory, obtain the co-operation of their neighbors.

IN DEADLY PERIL.

LONDON, Nov. 18.—The governor of the Windward Islands has sent a despatch to Colonial Secretary Chamberlain in which he says the prospects of the inhabitants of the Island of St. Vincent are blacker than they have ever been. He believes that Georgetown will have to be abandoned, while it is doubtful if any part of the island is out of the range of danger of La Soufriere.

FASTEST IN WORLD.

Submarine Boats Astonish Experts During Test in Peconic Bay.

GREENSPORT, N. Y., Nov. 17.—As far as official figures go, the United States today possesses the fastest submarine boat afloat in the Moccasin, which received its under water trials today in Peconic Bay. It outclassed its English sister ships of similar design, and as far as known it proved itself faster under the water than the French boats.

It was thought to be quite an advance in submarine warfare when the contract for the new boats stipulated that they should make seven knots submerged, especially as this was one and one-half knots above the speed shown by the Holland, the original of American submarines.

Consequently when the official figures were given out this afternoon showing the Moccasin had made a maximum speed of seven and twenty-eight hundredths knots on its submerged trials, she was hailed as the "queen under the waves." This unlooked for speed was made under the electric batteries and motor, without any assistance from the gas engine.

The Moccasin made eight runs submerged, four with and four against the tide, and to the surprise of all developed a speed of five one-hundredths of a knot more than that of the Adder. One of the allegations made by those who oppose submarines is that they can be easily picked up by a battle ship. This would appear to be refuted by the experience today of observers on the shore stationed there to take the time of the boat, who were absolutely unable to pick up the Moccasin on its first run, although she carried a guide mast with a red flag at the head. This happened once before during the trial of the Adder. In the afternoon the Adder and Moccasin made their ten knots wash. This is considered one of the most severe of the trials.

BLAMES "SOCIETY" LIFE.

Charles S. Clark, St. Paul, Divorced From His Wife, an Ottawa Resident.

ST. PAUL, Minn., Nov. 17.—Charles S. Clark, of St. Paul, has been granted a divorce from Clara Clark, whom he married at Ottawa, Ont., nine years ago. Mrs. Clark and two children are still living at Ottawa, the husband having left them two years ago after reaching home one evening and finding his trunk packed and a note informing him he was no longer wanted about the house. In his story to the court Clark said he made the mistake of marrying a society woman, whose time after their marriage was taken up almost altogether with social functions and church affairs, her home life and children being sadly neglected. Estrangement between the Clarks began when Mrs. Clark left Ottawa on a two weeks' visit with friends at London, Ont. When the wife returned after having been away three months she explained her prolonged absence by saying she was having too good a time to return. This was a few months after their wedding.

NOVA SCOTIA WOODSMAN.

Made Things Lively in a Lunch Room in Bangor.

(Tuesday's Commercial.) Armed with a knife and half crazed with liquor, Donald McLain, of Nova Scotia attempted to clean out the luncheon room of Charles E. Adams at 6 Hammond street early on Sunday evening. A heavy call was sent in for the police and before McLain had succeeded in injuring any one of the officers arrived and he was overpowered. In the municipal court Monday morning he pleaded guilty to the charge of drunkenness.

"I can't remember a thing about it or about being arrested," he told the court.

McLain, who is inoffensive in appearance with a diminutive straw colored moustache, arrived in Bangor from Old Town on a trolley car. Some how he managed to find liquor, even though all bars are supposed to be officially closed. His potations were frequent and of generous size and early in the evening he commenced to make trouble.

WARNING TO N. B.

PORTLAND, Me., Nov. 15.—Reports from the lumber camps of northern Maine show the commencement of the smallpox epidemic. Two cases are reported at Jackman and three at Haleb in Somerset county, despite the efforts of the officers to keep out the disease. The quarantined camp at Haleb is watched by an armed guard.

WEDDING ANNIVERSARY.

A number of Mr. and Mrs. W. G. J. Watson's friends called on them Monday night to extend their congratulations, it being their fifteenth anniversary of wedded life. C. A. Rutherford, on behalf of the company, presented to Mr. and Mrs. Watson a beautiful cut glass punch-bowl and one pair of cut glass carver rests.

IN A STEEL CAGE.

Desperate Criminal Sent Home to Germany Chained Hand and Foot.

NEW YORK, Nov. 16.—"I've broken out of a state prison in Germany; I've broken out of an asylum there; I'll break out a third time, and you'll see me back here within two years!" exclaimed William Frederick Ignatz Schoo yesterday morning to officers of the steamer Fuerst Bluecher, who had gone to look at him in a special steel cage placed aboard for his accommodation. His hands and feet were chained to rivets in the cage, and there were two German police officials to guard him, so that there seemed no immediate danger that he would put into execution his threat to break his bonds.

Schoo is believed to be one of the most desperate criminals ever sent out of this country. He terrorized the inmates of Ludlow street jail during his short stay there, whipping several prisoners and nearly killing one of the keepers, until it was found necessary to keep him in solitary confinement. His final exploit consisted in attacking the deputy United States marshals who were trying to take him from the Hamburg-American steamship pier. He was subdued after a fierce battle and the interior of the carriage in which he was taken was wrecked.

"I have been nearly blinded by men who used red pepper," said Deputy Marshal Frederick Bernard yesterday afternoon at his home, No. 24 Avenue A. "I have been stabbed several times, but in my long experience I have never had to handle so dangerous a man." Schoo's name inspires terror wherever he is known. He is a locksmith by trade, tall, stalwart, a perfect Hercules and inherently vicious, if not actually insane. He is about forty years old. He came to this country fifteen years ago, but soon afterward returned to Germany. He was arrested for burglary and sentenced to prison for three years. Before the term ended he escaped, and his desperate encounters during his flight made his name known to German newspaper readers. When he was finally captured he shot a policeman in the face. He was sentenced to ten years' imprisonment for this crime. From a state prison he was transferred to an asylum for the criminal insane. He again made his escape and fled to America, obtaining passage by presenting papers that he had stolen from his brother-in-law, one Bach.

SPORTING NEWS.

A New Record of Interest to Horsemen.

HEATHERBLOOM established a world's record for jumpers on the last night of a recent Chicago horse show by clearing 7 ft. 8 in. At the Des Moines show the Canadian mare Pearl, owned by George Pepper, placed the record at 7 feet 6 1/2 inches, but this was not allowed to stand long as the record. Heatherbloom is a bay gelding, 7 years old, and stands sixteen hands high. He is owned by Howard Willots of White Plains, N. Y., and was ridden by Richard Donnelly. Heatherbloom has jumped 8 feet 1 inch in practice, but judged on his public performance he is a remarkable horse.

STOCK MARKET.

NEW YORK, Nov. 18.—Wall Street: Liquidation was renewed at the opening of the stock market and the downward tendency was largely assisted by the weakness of the London market. Yesterday notably weak stock bore the brunt of the selling. St. Paul, Union Pacific, Louisville, Canadian Pacific, Baltimore and Ohio, and Amalgamated Copper closing from 1 to 1 1/2. Colorado Fuel & Iron dropped 2 1/2 points; Manhattan was the only conspicuous exception, opening wide and advancing to 15 1/2, but about 1,000 shares changing hands in the first few transactions. The closing price yesterday was 14 1/2. The stock market opened weak.

There was a large gathering at St. John's Presbyterian church school room last night when, under the auspices of the Ladies' Aid Society, an interesting entertainment was held. Miss Cunningham, Walter Nixon, the Mission Band, Miss Stevens, Fred. Clawson, Fred. McNichol, Miss Ethel Brown, Mr. Burnham and Miss Armstrong took part. Refreshments were served.

The death took place at Bedford, Indiana, on Nov. 16th, of William Evans, a native of St. John, and eldest son of the late Andrew Evans and his wife Annie. Mr. Evans left St. John some 20 years ago and settled in Bedford, where he was, until his health put him off the working list, the secretary of the Bedford Cut Freestone Works. Mr. Evans married a Boston lady, who with one son and one daughter survive him. He learned his business as a stone cutter in St. John in the old days when the Messrs. Milligan and Tom Stone worked good Scotch workmen there, and his last jobs in New Brunswick were at the St. John custom house and the parliament building at Fredericton, the latter under Harry J. McGrath's inspection. Many friends in St. John and Fredericton will regret his death.

PROVINCIAL.

Thomas Peppers, of St. Mary's, has been arrested at Oromocto, charged with obtaining money under false pretences from Chas. I. Watson, merchant of Woodstock, whom he recently represented as travelling salesman of organs and sewing machines.

R. A. Estey of Fredericton, now has 12 men in his lumber camp on the Tobique.

His Lordship Bishop Barry was installed into the charge of the diocese of Chatham yesterday morning, a large number of priests being present. His lordship delivered an eloquent address.

Arthur G. Harrison, son of Chancellor Harrison of the University, was married in Calgary recently to Miss Florence Jackson of Wingham, Ont. Mr. Harrison is government land agent at Edmonton.

John Wadman, a former Moncton printer, had three fingers of his right hand badly smashed while working about a job press in the Springfield Advertiser office one day last week.

The Standard Company, Sackville, put up a fine new forty foot smoke stack on their premises recently.

GENERAL.

President Roosevelt has concluded his bear hunt in Mississippi. He did not get even a shot at a bear.

The British expedition to put down the uprising of the Waziri tribesmen on the Afghan frontier is meeting with a determined opposition. Colonel Tonnac, in command of the fourth column, has been mortally wounded, and Major Berezford, the next in command, has asked for reinforcement.

CANADIAN BRIEFS.

The strike of the Crows Nest, B. C., miners has been settled.

Mrs. Falconio was banquipped by the Catholic Union at Toronto last evening.

TO PROLONG HUMAN LIFE.

Prof. Loeb Thinks He Has Advanced Another Step in His Discoveries.

A discovery in relation to the prolonging of human life has just been announced by Prof. Jacques Loeb, of the University of Chicago, says a Chicago despatch. Salt and water, the "elixir of life" discovered by Dr. Loeb two years ago to be efficient in making turtles' hearts beat again with rhythmic throbs, has been found to be a powerful restorative for dying mammals and the professor thinks he is a step nearer the goal of prolonging human life indefinitely.

The experiments of which Dr. Loeb spoke to his class, were made by Assistant Professor Edward P. Lyons in the laboratories at the university. Dr. Lyons began his experiments with the lowest forms of mammal life, mice, then dogs and cats. Taking the animals kept in the University of Chicago laboratories for experiment, he gave them such treatment as would bring them to a condition where life was practically extinct. Then by injections of sodium and calcium solutions into their veins he was able to restore for varying periods of time the heartbeat in its normal rhythm and strength.

The experiments were completed several weeks ago, but not until Dr. Loeb spoke of the matter in illustrating a point in his class in physiology last week was it given to the public.

HUNG UP FOR FREIGHT.

The Allan liner Parisian, the first winter steamer of the season, lay in idleness at Sand Point all day yesterday on account of the lack of freight for her outward cargo. On Monday the steamer finished discharging cargo about noon, and was then quite ready to take on whatever might be at hand. But there was not any. In consequence of this the crowds of ship laborers who would have been employed had nothing to do and spent Monday afternoon and all day yesterday hanging around the point.

NEW YACHT IN PORT.

Among the guests at the R. K. Y. C. smoker last evening was Captain Morris of Harborville, N. S., who is in St. John having some repairs made to the dress of a new yacht which he has recently had built. The yacht is called the Wanita and was built at Harborville. She is a keel boat, sloop rigged, and in dimensions is just a shade smaller than the Louvina, the latest schooner yacht added to the R. K. Y. C. fleet. The Wanita is fitted with a cabin fifteen feet in length, and can accommodate eight persons. She is built for comfort and pleasure, but at the same time is by no means slow.

FOUND DEAD.

William Young a Well Known Up River Merchant.

Yesterday evening William Young, one of the best known and most highly respected merchants on the river, started from the wharf at Leads End for his store with a wagon load of goods, which had been delivered by the steamer. He failed to arrive at his home when expected, but the members of his family believed that he had stopped at a neighbors on the way home and for a time were not greatly worried. Later on, as the horse and wagon came home without the driver, much anxiety was caused and a search was at once instituted for the missing man. At an early hour this morning the searchers found Mr. Young's body lying by the side of the road. He had evidently been taken suddenly ill and had fallen out of the wagon. Death is supposed to have been due to heart failure and it is not yet known whether an inquest will be held. Mr. Young was fifty-four years of age and is survived by his wife.

C. P. R. ELEVATOR BEGINS WORK.

The C. P. R. elevator at Sand Point started work for the season this morning, when a shipment of peas was taken in. It is believed that the grain shipments from St. John this year will greatly exceed those of last season. There are now one hundred and sixty carloads of grain on the Atlantic division bound for here.

THE JEWISH RABBI.

Since Rabbi Wolensko left St. John to take a charge elsewhere the Jewish congregation of this city have been and still are without a regular rabbi. A Mr. Seigel, of Lewistown, Maine, came here a week or two ago and is filling the vacancy for the present. It is possible that he may remain here for some time, but as yet nothing has been decided upon.

ON A SERIOUS CHARGE.

Two Youths From Dorchester Held by the St. John Police.

About half past five o'clock last evening Deputy Chief Jenkins received a telephone message from J. E. Peck, stipendiary magistrate at Dorchester, asking that two boys named Joseph A. Arsenault and Ernest Coakley, both residing in Sand Point, be taken to Dorchester for their arrest on the charges of stealing a boat from a vessel up there and for placing obstructions on the railroad with the evident intention of wrecking a train. It was believed that the men had come to St. John as sailors on schooners from Dorchester.

Acting under instructions from Chief Clerk, Sergeants Ross and Caples and Officer Gosline went on the trail and shortly after eleven o'clock last night succeeded in locating the two young men, Coakley on the schooner May Belle, and Arsenault on the schooner E. A. Lombard, both lying at Rodney wharf, Carleton.

Upon the approach of the police the crew of the May Belle, who were quite well aware of what was wanted, assembled on the deck and dared the officers to come on board. They armed themselves with pieces of the ship's equipment and stoutly resisted the advance of the officers. One of the crew seized a heavy pump handle and was just in the act of striking one of the officers when the muzzle of a revolver, which appeared under his nose, induced him to alter his intention. The sight of the officers' revolvers produced a somewhat quaking effect on the crew and a little difficulty Coakley was taken in charge. No trouble was experienced in the case of Arsenault, and the two young fellows were securely locked up for the night. Arsenault gives his age as seventeen, while Coakley is only a year older.

The police have not as yet received any particulars of the crimes with which the boys are charged. This morning Magistrate Peck was notified of their arrest and asked that they be held here until this afternoon when a constable will come to St. John.

FOR THE IMMIGRANTS.

Excellent Quarters to Accommodate Them at Sand Point.

Everything is now in readiness at Sand Point for the first boatload of immigrants, and those who remember the filthy and inclement accommodations afforded last year would scarcely know the immigration building now. The whole interior has been thoroughly cleaned, and the greater part of it repainted. The floors on both lower and upper stories have been scraped and oiled, and eighty new wooden benches, sufficient to accommodate over five hundred persons, have been placed in the building. The kitchen has been equipped with an eighteen cover range of modern type, on which immigrants will be able to do their own cooking. The dining room has been nicely furnished with a sideboard, tables and chairs, and meals will be supplied by the caterer.

In the upper story many improvements have been made which will greatly facilitate the work of the immigration officials. The heating apparatus is in good running order, and although not yet tested by any severe weather, will probably keep the temperature of the building at a comfortable point. Many of the steam pipes run along the ceilings instead of near the floor, and this in the minds of some is not the best possible arrangement. The water supply has been improved by the addition of six or eight faucets with tanks and the sanitary appliances are now in first class condition.

J. V. Lantaulm, the Canadian commissioner, is in charge of the building, and the staff will be the same as last year, with the addition of Dr. Ellis as medical examiner.

BADLY INJURED.

On Sunday forenoon Isaac Komien-sky of Mill street was very painfully burned by carbolic acid, and several other members of the Jewish congregation suffered to a lesser degree from the same cause. It appears that the body of a Jew who died in Bangor was brought to St. John for interment and was taken to the Jewish cemetery. Here on Sunday forenoon the body was being washed before burial, and after this portion of the ceremony the gentlemen who had been engaged in it wished to cleanse their hands and arms of any traces of contagion which might have been received from the body.

In the house at the cemetery there was a large bottle of carbolic acid, supposed to be diluted, which was kept there for this purpose, and Mr. Komien-sky, believing it sufficiently weak for disinfecting, poured the acid over his hands and arms. He then rubbed it in, and the flesh was very badly burned, large pieces of skin being taken off.

Several others of those present had started to use the acid in the same manner as Mr. Komien-sky, but were not so badly burned.

A NARROW ESCAPE.

Miss Nan Barnaby had a narrow escape from serious injury this afternoon. While driving along Sydney street between King Square and Princess streets a shaft of the carriage broke and the horse took fright, running wildly down Sydney street. When between Princess and Duke streets Miss Barnaby was thrown from the carriage to the pavement, but luckily escaped with no more serious injury than a severe shaking up. She was able to walk home unassisted.

The horse was caught at the foot of Sydney street, near St. James, the carriage being badly damaged.

Making Great Effort to Rush Freight East and West.

Freight began to come in at Sand Point this morning and the quantities will gradually increase until the winter port business is in full swing. It was at one time feared that there would be a shortage of cars, but this will not probably be the case. Another and equally serious difficulty confronts the railroad men and that is a shortage of engines on the Atlantic division. Ninety engines are required to handle the winter port freights, but so great has been the demand from the West that there are now not over sixty engines on this division, and this scarcity is the cause of much scheming and calculating as to making the best possible use of them. Engines are scarce not only on the Atlantic division, but over the whole of the C. P. R. and it is found almost impossible to secure rolling stock as rapidly as the business requires.

A large order was placed some time ago with a Pittsburg concern and the first instalment of engines for that place is expected here next week. Six new heavy consolidation freighters, six wheelers, and built to pull a thousand tons over the line from St. John to McAdam have already been completed, and are being sent to this division. These will materially assist in the handling of the heavy trains from the West. The new engines are of the heaviest type built for use in freight work on eastern roads, and will weigh between eighty and ninety tons.

GOOD CITIZENSHIP.

Interesting Address by His Honor Judge Forbes Last Evening.

At the R. K. Y. Club smoker last evening Judge Forbes made some timely remarks on "Good Citizenship." Owing to the lateness of the hour at which he was called upon to speak, his hour of address was somewhat curtailed, but what he did say was to the point and well worth hearing. In his opening remarks Judge Forbes regretted that greater activity was not shown by the leading business men of St. John in the election of the governing body of the city. While he had nothing to say against the personnel of the present council and no complaints to make against it as a council, yet he would be pleased to see the governing body of the city composed of men who had larger commercial interests at stake and who would therefore be more concerned in the progress of their own town.

At the time of a dominion election every business man in the city takes a share in the fight. Every available vote is secured and every member of the opposing parties does his utmost to elect his particular representative. And in the dominion parliament one member is only a cipher, from whom very little can be expected and from whose election the good resulting is not worth the time and trouble which has been spent upon him.

But when it comes to the selection of a body of men whose duty it is to advance the interests of our own city, these same business men who took such an interest in the dominion election, sit quietly by and evince scarcely enough interest to create a contest, and this moreover when the work of the elected council should be productive of much more good than that of a representative in parliament.

It has been prophesied that in the near future St. John is to be a city of one hundred or one hundred and fifty thousand people. This can only be brought about by every young man putting his shoulder to the wheel and taking an active interest in the welfare of the city. There is not the least doubt but that if the younger business men of the town, and the older merchants who have large commercial interests, were to participate in the civic elections with the same vigor as is shown in the contest for seats in parliament, the result would be a common council composed of energetic men who would advance the welfare of our city.

In concluding Judge Forbes strongly urged all young men to take an active interest in civic politics, assuring them that all that was necessary to bring out the best men was evidence that they were required.

THE DOG SHOW.

This Year's Exhibits Outclass all Previous Shows—204 Entries.

The big St. Bernards and the shaggy Newfoundlanders watched the whole business with heavy-eyed disapproval and barked occasional deep-mouthed half contemptuous protest against the accounts of the idiosyncrasy of those two-legged animals that chained them up in cramped, bare boxes and then stood out in front in silly groups and said "What he just sweet," or "Gee, aint he a beauty?"

The lean dangerous looking bull-terriers strained at their leashes and snarled and barked at everybody and thing; the scrappy little terriers yelped impudently and continuously scorn and devilishness; an occasional hound bayed his longing for out doors, and the nerve-shattering pandemonium of it all was completed by the wistful whines of abandoned and hungry puppies and the soulful wails of some dozens of homesick spaniels.

This was all down at St. Andrew's Rink this morning, where this year's bench show for dogs, which promises to be the best in every particular ever held in St. John, is now on. The accommodations are similar to those of last year—a single row of boxes around the rink and a double row down the center—but the exhibits in number, variety and quality have every previous show beaten by big odds. Every class is well represented and some which were weak last year show decided improvement.

There are 204 entries in all, divided as follows:—St. Bernards, 11; Newfoundlanders, 7; greyhounds, 4; fox hounds, 1; sheep dog, 1; Dalmation, 1; collie, 22; Irish setters, 4; English setters, 10; Gordon setters, 2; deer hounds, 1; pointers, 4; sporting spaniels, 7; field spaniels, 13; cocker spaniels, 21; bull terriers, 45; wire haired terriers, 6; Scotch terriers, 18; Irish terriers, 29; Boston terriers, 4; Yorkshire terriers, 2; sky terriers, 1; toy fox terriers, 2; toy terriers, 1; black and tan, 1; bull-dog, 1.

The bull-terrier class has the largest representation, with collies second and terriers a close third. There are over fifty dogs from exhibitors outside St. John.

Among the best outside exhibits are the 20 dogs from the Townshend kennels of Kentville, N. S.; the Chamcook stock farm collies, and the collies sent by Dr. Ferguson and Mr. Thomson, of Moncton; and the show of fox terriers from A. A. Lapton, of St. Stephen, and F. G. Merritt of Marysville.

"Prince," a prize fox terrier recently imported from Boston, by T. J. Doreck of north end, is receiving great admiration.

THE HOCKEY SEASON.

At a meeting held last evening of the Mohawk Hockey Club, in the Neptune Club rooms, Kenneth Inches was elected captain, Harry Irvine, secretary, and a managing committee consisting of the captain, secretary and William Murray, vested with full power to act, were appointed to arrange about the formation of a New Brunswick league and all details such as practice nights, etc. Three new members were also elected and several others signified their intention of joining.

BEAR GULCH AFFAIRS.

A Helena, Montana, letter of Nov. 11th says: "The supreme court today modified the injunction in the case of John Murdoch, trustee, against A. C. Jardine et al, appellants, and L. P. Springfield et al, intervenors and respondents, so as to permit meetings of directors and stockholders to be held."

RECENT DEATHS.

The death is reported of William F. O'Brien, formerly a well known resident of the north end and lately of Moncton, which occurred this morning in the Mater Misericordiae home. Mr. O'Brien was seventy-one years of age. He leaves a brother, John O'Brien, living in the north end.

William McGlone, son of John McGlone of Murray street, died this morning at his father's home, after a lingering illness. Mr. McGlone was thirty years of age and unmarried. Previous to his illness he had been a wood dealer and was well liked by all who knew him.

William Frank Vincent, the twelve-year-old son of John A. Vincent of Glenwood, died at his father's home yesterday from brain fever.

BURIED TODAY.

The funeral of the late Miss Margaret G. Granman was held this morning from his father's residence, Main street. The body was taken to St. Peter's church, where at nine o'clock requiem high mass was celebrated by Rev. Fr. Woods, C. S. S. R., after which interment was made in the new Catholic cemetery.

The funeral of the late Mrs. Susanna ArchBald took place at half-past two o'clock this afternoon from the residence of her daughter, Mrs. Winchester, 148 Duke street. Interment was in Fernhill.

Rev. W. W. Lodge of Hampton, exchanged pulpits with Rev. J. W. McConnell, of Grace Church, Charlotte-town, on Sunday last.

A Mrs. Maine died recently at Upper Sackville, at the age of 99.
