

PRELATE WHO DECLARES RELIGIOUS WAR IN FRANCE

CARDINAL GIBBONS

PHILADELPHIA, Pa., Aug. 23.—In view of the encyclical of Pope Pius X. to the prelates of the Roman Catholic church in France, letters which passed between Cardinal Gibbons, at Baltimore, and Cardinal Richard, at Paris, regarding the separation of church and state in France became of great religious importance.

Cardinal Gibbons voted the sentiment of the heads of the church in this country, and his expressions of regret at the policy of the French government and his prophesies of increased disturbances make his letters a historic document. Although the letters were exchanged some months ago they have never been made public. They were printed in the Catholic Standard and Times Saturday.

The cardinal's letter, which is regarded as an important ecclesiastical state paper of the church, is in part as follows: "One century ago the first and at that time the only Catholic bishop in the United States, the Right Rev. John Carroll, of illustrious memory, laid the cornerstone of his cathedral church. Of this mother church at regular intervals other churches were born, which in turn increased and multiplied to such an extent that today the original diocese is represented by fourteen ecclesiastical provinces, embracing twenty-four dioceses, two vicariates and one prefecture apostolic.

"Such rapid increases and wondrous prosperity demanded grateful recognition of God's goodness. In this conviction the large majority of the bishops of the United States have assembled at our invitation to commemorate with us this joyous centenary, and to give thanks to God in this very church, which may be truly called the cradle of the Catholic hierarchy in this country.

"We should profit by the presence of so many distinguished prelates to offer to our brethren in France, not so happily circumstanced as we, an unequivocal testimony of our sympathy and our sincere wishes for the welfare of the Church of France. Our words are addressed to your eminence, as being the most venerable and exalted representative of the French episcopate.

"We are compelled to assure you of the keen regret which we feel at sight of the bitter persecutions to which the Church of France is subjected—a persecution which, particularly in the last quarter of a century, has been marked by exceptional and vexatious enactments the agreement which for a century bound the eldest daughter of the church to Rome, has been torn to all the requirements of justice and honor, ruthlessly dissolved. This bloody conflict immediately consequent upon the first application of this notorious law sanctioning the separation of church and state, so recently and perpetually condemned by Pius IX., do but forecast disturbances of a more serious character."

"We are compelled to assure you of the keen regret which we feel at sight of the bitter persecutions to which the Church of France is subjected—a persecution which, particularly in the last quarter of a century, has been marked by exceptional and vexatious enactments the agreement which for a century bound the eldest daughter of the church to Rome, has been torn to all the requirements of justice and honor, ruthlessly dissolved. GENERAL VIEW OF COMMERCIAL AND RESIDENTIAL SECTIONS OF VALPARAISO.

GOVERNMENT DETERMINED TO KILL INSURRECTION

Body of Negro General, Quentin Bandera, the Most Daring Insurgent in Havana Province, Lies in Morgue at Havana--In Havana General Spirit is One of Loyalty.

HAVANA, August 23.—The government is prepared to adopt all possible measures for the suppression of the insurrection.

The killing of the insurrectionary leader, General Quintin Bandera, today in an engagement between rural guards and a band of his followers, is regarded as dealing the insurrection a heavy blow.

The government is acting with energy in sending rural guards with energy against the Santa Clara rebels, and in dispatching 150 more men to defend Pinar del Rio against Pino Guerra.

While government reinforcements are going forward, Guerra's following is not believed to have been augmented by his occupancy of the two Vuelta Abajo towns.

Public opinion appears to vary according to locality, from enthusiastic adherence to the government to open rebellion. In this city the general attitude is one of loyalty.

WASHINGTON, Aug. 23.—Inquiries were made of state and war department officials and at the Cuban legation tonight, but up to a late hour neither had been advised of any request upon this government by the Cuban government for eight rapid fire guns manned by American artillery men.

A despatch from Mr. Sleeper, the American charge at Havana, today is to the effect that Cuba still asserts her ability to crush the revolution.

Mr. Sleeper says the outbreak has spread to Santa Clara and Matanzas provinces. Carlos Mondela, with 25 men, is now leading the insurrection in Santa Clara, while the movement in Matanzas is reported to be of little importance, and the leader is unknown.

SANTIAGO, Cuba, Aug. 23.—There has been no insurrectionary outbreak in this city or province, but many alarming reports are current. Business here is suffering on account of the disturbed condition of the country.

The guards rushed upon the insurgents, but with the exception of their chief and his two leading comrades, they all escaped. The guards made the chief and his companions a special target and all three received all bullet wounds, and were horribly mutilated by machete cuts. Not one of the guards was wounded. The bodies of Bandera and his companions were placed in a wagon and brought to Havana. An examination of Bandera's body showed that his principal wound was a machete blow on the head, which cut off his left ear and made a cut in his face. He also had bullet wounds in his arm and breast.

The capture of Santa Clara, today in an engagement between rural guards and a band of his followers, is regarded as dealing the insurrection a heavy blow.

Provincial News

CHATHAM

CHATHAM, N. B., Aug. 23.—H. E. Hale, a builder and contractor, of Rumford Falls, Me., was in town this week and has purchased from Dr. Sprout part of the Craney property near Morrison's Cove, which he will build upon in building lots. The part purchased is about ten acres in extent, and forms the front portion of the lot. Hale will sell the lots on the installment plan, and will also build houses for intending purchasers on the same principle. The opening of the new mill at the Cove, and the employment of a large number of hands, will cause building operations to be brisk in this part of the town.

James J. Dunn, superintendent of the Miramichi rolling mill, was visited on Saturday by former employees in the Miramichi plant and paper mill on Monday evening, and presented with a purse of \$50. W. Millet, Supt. died Monday evening after a lingering illness. The deceased was in the 76th year of his age, and was widely known on the North shore. He is survived by his wife, six sons and one daughter. The funeral was held yesterday afternoon at 2.30 o'clock.

The many friends of Miss Ella Bowser were grieved to hear of her death, which took place at the Hotel Dieu Hospital. One sister, Susie, survives. The funeral was held from the house on Saturday, the pallbearers being R. B. Cromble, M. S. Hocken, Dr. J. B. Benson, W. A. Hickson, Dr. Baxter and Robert Ritchie.

The continued dry weather had the effect of sending up the prices of butter and eggs, and milk became very scarce for a time.

Miss White of St. John and Miss M. Synnot, of Chatham, are visiting Miss N. Harriman, Loggieville.

The temperature record was broken on Monday, when the government thermometer registered 100 degrees. This is the highest for the past eighteen years.

Roy Gunning left on Monday night for Montreal, after spending a few days in town.

Miss Tessie Gallivan has taken a school at Barnaby River.

Miss Lillian Gallivan has returned from Point Aux Car, where she was spending her vacation.

INTENSE SUFFERING OF NEW ENGLANDERS FROM HEAT

South Framingham Man Fell Dead Yesterday and Scores of Boston People Prostrated--Humidity Was far Above Normal--Cool Wave Was Welcomed Last Night.

BOSTON, Aug. 23.—The sixth consecutive day of excessive heat and humidity in this city is charged with having caused one man's death, prostrated more than a score of people, and brought decided discomfort to everybody.

Albert E. Tisdale of South Framingham fell dead on the gang plank of the steamer City of Bangor at Foster's wharf. The cause of death was given as heart failure superinduced by heat.

The busy streets of the city and crowded tenement house districts suffered the most. In the former many people were exhausted and a score were treated at the hospital, while perhaps as many more were taken to their homes. To relieve the suffering in the tenement districts Fire Commissioner Wells had the men of his department flush the streets with water this afternoon and evening.

At dawn this morning the thermometer registered more than 70 degrees and the mercury steadily climbed until it had reached above 90 in the afternoon. The humidity was officially recorded as 79 per cent, 9 per cent above normal.

The wind, which had blown lightly from the southwest during the day, shifted to the northwest during the evening and brought some relief, and a somewhat lower temperature, with showers expected to make tomorrow a more comfortable day.

BOSTON, Aug. 23.—A few hours before the heat wave, which has held persistently over New England since last Saturday, was broken this evening by the advent of a cool blast of air from the north, many portions of New England were visited by the showers of more or less intensity, and as usual there were fatalities and considerable damage to property.

The shower which passed down the Merrimack river and then northeastward over Southwestern Maine, resulted in one death at Kennebunk, a full storm in Portland, and the destruction of two barns in York, while an hour or two earlier, what was probably the same disturbance, caused the burning of two buildings in Peterborough, N. H.

Another disturbance of comparatively small diameter, passed across Massachusetts and out to sea over Cape Cod, taking up his labors at the college and school connected with Kings. He reports prospects exceedingly bright for the college, and it is hoped that the college will open with an attendance little short of the full capacity. The college and school staffs are being strengthened and made the equal of any others in the province, as Mr. Boulder's aim is to make Kings college and its graduates the best in the college.

sett, but it was not as severe as the Merrimack river storm.

Thunder showers also prevailed in Vermont and northern portions of Maine, but at a late hour tonight no reports as to extensive damage had been received.

The cool wave which followed closely after the thunder showers, brought great relief to the entire New England section. The barometer in this city dropped ten degrees within a few minutes this evening, while in Hildesford overcasts were necessary at 10 o'clock, where an hour before the lightest garments seemed a burden.

The heat wave began on Saturday and since then there have been few places in New England where the thermometer has not reached 85 and even 90 during some portion of the succeeding days.

An area of low pressure seemed to hang persistently over the St. Lawrence Valley, which drew up from the South and Southwest the hot moist conditions which have brought so much discomfort. Prostrations have been greater during the six days than at any time this summer.

The summer which is drawing to a close has been noteworthy for contrary conditions, for the cool moist weather came first and the intense heat followed.

A continuation of the cool wave which struck New England this evening is anticipated for the next few days.

PORTLAND, Me., Aug. 23.—The intense heat was relieved early this evening by a heavy thunder storm that passed over this section. The wind blew at the rate of 24 miles an hour in the city and at Peak's Island it blew about 40 miles an hour. The damage in the city was confined to the burning out of electric light fixtures and the holding up of the street car system, for a few minutes. At the city homes all lights were out. The mercury after the storm dropped to 67.

AUGUSTA, Me., Aug. 23.—Today opened very hot and oppressive, the thermometer at 3 p. m. standing at 86, with the humidity running high. Heavy showers in the early evening gave relief. Frank Brown was prostrated by the heat, and his condition is reported serious.

ANIMAL SHOW AT THE EXHIBITION

Details of the Hippodrome Programme, including animal shows and performances.

Received by Manager Milligan, details of the animal shows for the exhibition.

A Great Feature, details of the animal shows for the exhibition.

Barlow's well-known elephants, a herd of seven—in a bowing match, keeping their own score on a black board.

Wormwood's monkey theatre and animal circus consisting of twenty blinking, squeaking monkeys, twenty dogs, two bears, two lambs and one lion cat.

Montage's Cockatoo Circus, or flock of feathered wonders, comes direct from Atlantic City, the great watering resort.

Besides these there will be Dida, the woman created out of nothing, one of the biggest drawing cards in years at the American beach.

Recently President A. O. Skinner and Manager C. J. Milligan of the Exhibition Association, with F. G. Spencer, who has charge of the amusements, Meyer Cohen, manager of the moving picture show and H. A. Brown, chief electrician of the St. John Railroad Co., visited the exhibition grounds.

Over five hundred lights will be on the Pike from the exhibition hall along the Pike are three large arches, "The Pike" in three foot letters.

The amusement hall front will be decorated with lights. The two front parts of the Pike are to be occupied by Miles Bros. moving pictures, San Francisco disaster and the Indian village.

PORTSMOUTH, N.B., Aug. 21.—The court martial which tried Captain Thomas B. S. Adair and Lieut. James H. Dathan respectively the commander and navigating officer of the British battleship Montagu, which went ashore off Shutter Point, Lunenburg Island, May 15th, has severely reprimanded Capt. Adair and dismissed him from his ship and has severely reprimanded Lieut. Dathan, dismissed him from his ship and deprived him of two years' seniority.

LONDON, Aug. 21.—The verdict in the case of the late Capt. Adair and Lieut. Dathan on account of the admittedly difficult circumstances of the case and they are considered to be the victims of ill fortune rather than carelessness.

Various suggestions are made as to outcome of the disaster to the Montagu, the first being that the fog signal at Lunenburg appears to have been out of order and into this a board of trade inquiry probably will be instituted.

The second suggestion is that it is not sufficient to put a man-of-war, to carry out important wireless experiments, and the evidence showed that they were fired out by forty-eight hours, more or less of incessant duty.

THRUST INTO A CELL WITH DEAD HUSBAND.

MOUNT CARMEL, Aug. 20.—When the police thrust Mrs. John Lashanda into a cell Friday night at Marion Heights she was confronted by a fearful sight. Her husband was hanging dead from the cell-floor of the cell.

Lashanda was a Pole, about 30 years of age. She had engaged at a drunken frolic at a christening in his intoxicated condition he disturbed many residents of Marion Heights.

The police, after a struggle, took Lashanda to the borough jail, where, bruised and bleeding they left him lying on the floor of the cell.

The wife of the imprisoned man ran through the village hearing the police. After a patient endeavor to quiet the woman it was found necessary to place her under arrest. Before a justice of the police she was committed to jail, and the officers escorted her to the borough lock-up. It was considered best to place her in the same cell that held the husband.

When the cell door was thrown open and Mrs. Lashanda had been thrust in, about three inches apart, she saw her husband was apparently standing motionless. Going up to him, she was horrified to feel the body swing from her. Then, gasping at her husband's death, she fled from the cell.

Standing on a chair, he slipped the other end of his shirt, in the form of a noose, around his neck and then kicked away the chair.

Fear of the consequences, accentuated by intoxication, are believed to have led to the rash act.

The authorities at Valparaiso are organizing distributing centres where food and medicine will be served out to the sick and the aged.

Large parties of convicts who escaped from the prisons have been committing robberies and other crimes at Valparaiso.

It is reported that the Chile Government will introduce a bill in congress providing for the emission of 700,000,000 in paper notes.

At 2.30 p. m. yesterday there were two further explosions at short intervals at Santiaگو, but they did no damage.

Official and private correspondence arrived here yesterday from Valparaiso, Chile, and from other parts of that city.

The hearing of the case behind closed doors was continued at 10 o'clock.

Before the hearing was commenced the court room was cleared of spectators, including the reporters, and the only persons remaining in the room were the police interested in the case.

William E. Clark, charged with rape of Ethel Train, was brought into the police court recently and the preliminary hearing was held at 10 o'clock.

ANOTHER EARTHQUAKE FELT AT VALPARAISO.

LIMA, Peru, Aug. 21.—There was another heavy earthquake shock at Valparaiso last night, according to the latest reports received here from the scene of the earthquake the town of Quillota, situated about twenty-six miles from Valparaiso, has been completely destroyed.

At Lima this morning there was a slight shock and Huacho was shaken an earthquake yesterday.

BUENOS AIRES, Aug. 21.—The Nacion today published a sensational dispatch today from Lapaz, Bolivia, announcing that 2,000 persons lost their lives as a result of the earthquake shocks and factors in comparison, that 270 deaths from the same cause occurred at Lima, forty at Quillota, 35 at Conchali, 11 at Petaca, 9 at La Paz and 1 at La Calera.

On Sunday last August 19, there was a strong convulsion at Valparaiso which produced a further panic. A dispatch from Santiago today announces that the Chilean government is proceeding to Valparaiso accompanied by the ministers of the interior and war, in order to supervise the work.

Special telegrams from Santiago announce the arrival there of Valparaiso of Charles Johnson Gana, a well known Chilean, after a terrible journey, accomplished partly on foot.

The Chilean ministry of the interior reports that a road, from Quillota to Batuco is working regularly but that from Tiltill to Santiago the line is not working.

The President of Chile has concurred in the construction of provisional buildings, of wood and zinc, in order to house the homeless.

The authorities at Valparaiso are organizing distributing centres where food and medicine will be served out to the sick and the aged.

Large parties of convicts who escaped from the prisons have been committing robberies and other crimes at Valparaiso.

It is reported that the Chile Government will introduce a bill in congress providing for the emission of 700,000,000 in paper notes.

At 2.30 p. m. yesterday there were two further explosions at short intervals at Santiaگو, but they did no damage.

Official and private correspondence arrived here yesterday from Valparaiso, Chile, and from other parts of that city.

The hearing of the case behind closed doors was continued at 10 o'clock.

Before the hearing was commenced the court room was cleared of spectators, including the reporters, and the only persons remaining in the room were the police interested in the case.

William E. Clark, charged with rape of Ethel Train, was brought into the police court recently and the preliminary hearing was held at 10 o'clock.

FREDERICTON NEWS.

FREDERICTON, N. B., Aug. 21.—While the residents of the upper end of Charlotte street were partaking of breakfast this morning they received a surprise at the sight of a large bull moose running up the street.

The animal afterwards ran to the woods back of the town and in the vicinity of Kelly's barn dropped dead. It is not known whether the animal was a male or female.

The Church of England picnic which was held this morning was attended by a great crowd, the boat Aberdeen being filled to its capacity.

It is understood that the late A. W. Edgcombe carried \$40,000 life insurance of which amount he placed \$10,000 only a short time before his death.

CHATHAM, N. B., Aug. 21.—A fire in the sawmill at Mill Pond yesterday afternoon destroyed the sawmill and the sawmill building, a close call from destruction.

The fire was first discovered in some edgings close to the mill, and after a three hours fight the mill was saved.

The sawmill was owned by the late A. W. Edgcombe, and the sawmill was put to work and the mill was not shut down owing to the great demand for lumber, but a part of the mill crew continued working while others fought the flames.

FREDERICTON, Aug. 21.—Hawkins and Brady, the two St. John men arrested on the charge of stealing the yacht Eido, were brought before Col. Marsh this morning and remained until the arrival of the evening train.

The magistrate said that if no one else would take charge of the men he would dismit them. The men tell the story that they were footing it to Fredericton to see if they could obtain work the sewerage.

On their way they came to the yacht club at Grand Bay Hill filled with water. They bailed it out and came to Fredericton with it.

Chief Clark will send an officer to Fredericton this evening to bring back the prisoners.

It is understood that the late Albert W. Edgcombe carried life insurance to the amount of \$40,000 on his life.

Of this amount it is said that deceased only a fortnight ago put on a policy for \$10,000 on his life, the sum before that time being \$30,000.

CHATHAM NEWS. The schooner Jessen, from LaHave, N. S., arrived in port on Sunday, and in making the wharf drove her bowsprit through Snowball's coal shed, knocking out several boards and smashing one of the upper posts.

Two ladies, and one of them a stranger to Chatham, were coming down Water street the other afternoon while the hose men were sprinkling the place when one said to the other, "Wouldn't it be awful if they should sprinkle us?"

The other replied, and the words were accidental, but one of the ladies, the stranger, got such a wetting that a severe cold set in.

Mr. and Mrs. J. Y. Mersereau left for Boston, where Mr. Mersereau will attend the convention of the Photographers' Association of New England.

CHATHAM, Aug. 21.—John Johnson, the game warden, was near McCully's meadow a day or two ago when he witnessed a peculiar incident.

He heard a moose tramping through the forest and making for the water. He followed the moose for some distance, but he did not see the animal, and had it nearly exhausted, the moose ran into the water, and when beyond the reach of the dogs rolled over on its side and lay still.

Mr. Johnson walked to the place where the moose had entangled the water, and thought close to the big fellow, whose horns had a spread of approximately fifty inches, the moose made no effort to get away, and in fact looked forward to be shot.

The dogs were recognized and their owners notified of the matter. They promised to prevent them from doing any more worrying of the wild animals.

It has come to pass that the public looks forward to see the advertisements with interest and profit.—J. A. Jordan, Marsh & Co., Boston.

PACIFIC MAIL STEAMER GROUND

HONOLULU, Aug. 21.—All efforts have so far failed to pull off the Pacific mail steamer Manuwhiria, stranded on Rabbit Island on the north shore of Oahu, and a cable may be sent ashore for tugs from San Francisco.

Another attempt will be made to haul the liner off the reef at high tide today.

The inter-island steamers which acted as tow boats are now arriving here with the Asiatic passengers of the Manuwhiria on board and many of the passengers are coming overland.

The Manuwhiria is a large steamer of 1,200 tons, and is the largest of her class in the Pacific. She is now lying at anchor in the reef off the north shore of Oahu, and is expected to be hauled off the reef at high tide today.

TELEPHONE WAR IS OVER; CENTRAL CO. SELL OUT

The telephone war is over. Beyond the fact that the Central Company will be absorbed by the New Brunswick Telephone Company no details are available, as the presidents of the two companies decline to talk for publication.

There is, however, no doubt that the purchase of the Central by the older company has been concluded, though the wise ones have predicted such an outcome in spite of the tirades of the representatives of the two companies against each other.

According to the Central people the New Brunswick Telephone Co. was an arrogant corporation, who trampled on the rights of the people and endeavored to hamper their courageous and altruistic rival by refusing them certain important connections, and the public were skilfully led to believe that the entrance of the new company in the field would provide relief from the obnoxious conditions that the New Brunswick Company were imposing on the people.

The people were really unaware of what a tyrannical and grasping corporation this company were, until the newspapers began to be filled with statements by and interviews with officials of the Central, and they will be surprised and shocked to learn that the Central has sold out to their rivals.

There will, however, no doubt be a general feeling of satisfaction that it has arrived above tonight, the mulls have been taken from the market, but have not yet arrived here. Capt. Saunders is quoted as assuming all the blame for the stranding of the ship, as he was in the bridge and mistook the land for Makapu.

The day Eleanor Beverly had in her position as Cornwell's secretary six months something happened. The political case of his precinct, McWilliams, having made an engagement over the telephone, paid the young lawyer a visit at lunch hour, when the place was practically deserted.

Having carefully closed the door behind him, he settled his huge bulk in a chair and came at once to business. "Mr. Cornwell, we need your support in the coming election," he began, impressively. "If a man of your sterling worth comes out for our candidate it will settle the vote of the majority."

NEWS OF CANADA

TORONTO, Aug. 21.—His Honor Lieutenant Governor and Mrs. Morrill returned yesterday afternoon from the seaside. A garden party in honor of the British Medical Association will be given at Government House this afternoon by His Honor the Lieut. Governor and Mrs. Clark. This evening a reception to the visitors will be given by President and Mrs. Reeve in the University quadrangle.

WINNIPEG, Aug. 21.—A serious head-on collision occurred on the Winnipeg Beach line last night between two excursion trains. An unknown man who was evidently stealing a ride was killed and six passengers were injured, some seriously. Damage to the rolling stock is considerable, both locomotives, passenger cars and three passenger coaches being wrecked.

VANCOUVER, B. C., Aug. 21.—Another wild man besides the one on Vancouver Island has turned up. He lives on Paisley Island, thirty miles off the coast from here. He takes to the sea and hides whenever pursued. An attempt to salt samples of White Channel gravel which the Yukon government was testing at the government mill is reported. The salting was done by putting gold in the acids used in the cyanide process.

BRANTFORD, Ont., Aug. 21.—James J. Ryan, an Indian, was burned to death on Sunday at his abode on the reserve. He lived alone in a cottage and it is supposed that in an epileptic fit, to which he was subject, he kicked over the stove. An inquest is unnecessary.

YANCOUVER, Aug. 21.—Excitement, like that in the first rush days occurred in the Klondyke, has occurred, and the stamped to stake claims for dredging took place almost daily, and sometimes nightly. The operations of the Guggenheims were chiefly responsible for this. When the millionaires reached Dawson nearly half the town wanted to sell them claims. The Klondyke River in the Klondyke company owned by the Guggenheims say they are greatly pleased by their investments in the Klondyke and will buy anything that looks really good. Enthusiastic Klondykers who have been ranked as millionaires since the boom died, half this announcement with great joy.

CARLISLE, Sask., Aug. 21.—A hail storm which passed over Moir Creek district about two miles south of Carlisle, on Saturday evening damaged one-third of the crop in a strip of three miles wide and six miles long. Geo. Anderson's field, which received the first prize in the government competition, was destroyed.

HAMILTON, Ont., Aug. 21.—There is danger of trouble between the street railway employees' union and Cataract Power Company. The union, which is said to be willing to grant a slight increase of wages and some concessions to the street railway men, but the union wants an agreement to include not only these men, but also employees of the Hamilton radial railway and Hamilton and Dupuis railway, all companies being controlled by the Cataract Power Company. The men have determined to refuse to accept the proposed agreement with the street railway men, which expires on Aug. 24, is not renewed there will be a tie up.

TORONTO, Aug. 21.—E. R. Strachan, an English expert, engaged to look into the sewage disposal problem, in his report agrees with City Engineer Rust that sewage should be discharged into the lake at a point three miles east of the city limits. The operations of the discharge of the sewage in its raw state, however, and says thorough screening will be necessary. He advises against the proposal to treat the sewage by means of septic tanks and bacteria beds.

TO RESUME SEARCH FOR LOST CHILDREN
Worcester Men Will Go Back to Bayfield to Look for Creamer Tots.

MONCTON, N. B., Aug. 21.—Constable C. H. Thomas and ex-Police Constable Scott will return this week to Bayfield for another week's search in an effort to solve the Creamer mystery. Melvin Steeves, foreman of the I. C. R. freight shed, has placed at the disposal of Messrs. Scott and Thomas sufficient funds to pay their expenses at Bayfield for another week's search, and is confident in their ability to find the missing tots. Mr. Thomas laughs at the idea of the Woodstock hypnotist who claims that his subjects located the children while under hypnotic influence. The hypnotist, it will be remembered, claimed that the children walked twelve miles in twelve days, while Mr. Thomas says that there are not twelve miles of woods in which they could walk, the woods being only five miles long.

ANYTHING LIKE THE TROMBONE.
Mr. Gableigh (at seashore hotel)—"Mr. Stripes, the musician, while out on the rocks last evening slipped and broke his clavicle."
Mrs. Nutch—"Oh dear, isn't that too bad? I so wanted to hear him play on it."

FIRES IN MAINE.

(Bangor Commercial.)

Reports continue to come in of the steady increase in size and number of forest fires in Maine. Crews of men are being sent out in every direction by lumberland owners, some to fight the fires and others to maintain a constant vigil over the land owned by the men who send them out to check any fire which may start before it be dangerous. The fires are confined to no one section of the state. They are scattered widely over the northern, eastern, and central portions. As yet no one fire is reported as having done much damage but several are large enough to be considered very dangerous.

Last week several fires were reported. One was in the woods near the East Branch of the Pleasant river. This fire is thought to be under control. Another bad fire was reported on what is known as the farm town around the head of Chesuncook lake. John Appleton of Bangor has had a crew of men patrolling all along the river from the head of Chesuncook to Northport. This crew was out yesterday and succeeded in extinguishing a fire which started before it was discovered. Rod Sutherland and a crew of men who were in that vicinity went to fight the fire as soon as they received word of it. The fire is now not known since no word has been received from there since last week.

Monday a fire was reported on townships 4 and 5, in the latter of the plantation, on land owned by John Cassidy of Bangor and Mr. Eaton of St. Stephen, N. B. News of the fire was sent to Bangor by Charles Whittier of Passadumkeag. He has gone to the scene of the fire and a crew from Baker's operation in that vicinity has gone to fight the fire. The fire is about 20 miles from Passadumkeag.

A despatch from Millinocket Monday states that fires have broken out all along the line of the Bangor & Aroostook railroad and have already caused much damage. The largest of these fires has been raging about three miles north of Millinocket and the fire efforts of 100 men have been unavailing to stop the progress of the fire. A stream separates the burning section from Millinocket village so no fears are entertained for the safety of the town.

Sunday night a gang of fire fighters was called out to fight a fire near the paper mill in East Millinocket. A fire reported near Norcross and another is said to be burning around Jo Mary lake. Several fires are also reported burning the woods along the extension of the Somerset railroad north of Bingham.

RNFORD FALLS, Aug. 20.—News reached here tonight of a serious forest fire along the shores of the Magalloway river on property owned by the Bingham Lumber Company, several miles to the north. It is what is known as the Embargo region. It was not possible to get into communication with any place near the scene of the fire tonight. It is known that during the day six hundred pails were sent from Portland for use in fighting the fire.

MILLINOCKET, Me., Aug. 21.—The steamer reported burned by the forest fire in the vicinity of Narcross last night was the Gypsey, a fifty-ton boat, owned by the Norcross Transportation Co. It was not insured. It caught fire from flying embers while fastened to a landing. Forest fires, which have been burning for a week near Jo Mary mountain, do not seem to make much headway, and the damage has not been heavy. A small fire was in progress today along the Bangor and Aroostook railway right of way, near Birchville, three miles from Norcross. The fire at Schoodic stream, which were fought by forty men yesterday, and near this town were well under control today.

NEW TRANSCONTINENTAL TRAIN FOR THE C. P. R.
Will be Made up Entirely of Sleepers and Will Make the Journey in 96 Hours.

MONTREAL, Aug. 21.—The Canadian Pacific authorities announced today that beginning with the arrival of the new transcontinental train at Quebec on Aug. 31st, a new transcontinental train will be put on. The new train will be made up entirely of sleepers and will run from the wharf at Quebec to the wharf at Vancouver, where close connection will be made with the Empress sailing for the Orient once every three weeks. With the new service it will be possible for a passenger to leave London every three weeks and reach Hong Kong in thirty days, travelling all the way from Liverpool on the C. P. R. ships or train and making the journey with only two changes in five days better time than is possible by any other route. The new train will make a run between Quebec and Vancouver in 96 hours.

The equipment will be the best the road possesses. The new service is the result of an arrangement made to carry the British mails, and it is expected that it will result in securing a very large proportion of the British travel to the East for the C. P. R. route.

A REAL CELEBRITY.
The local pride of the natives of Cape Breton, Maine, is so little known that it takes the attention of pity for all who have the misfortune to dwell elsewhere. This is known to regular summer visitors, and by most of them is respected. It is the name of a fish. One rainy day a newcomer, who had joined the gathering at the store, composed of fishermen and summer visitors, ventured to enumerate some of the distinguished men who had come from Maine.

"There's Longfellow," he said, "and Hannibal Hamlin, and James G. Blaine, William Pitt Fessenden, Thomas B. Reed, and—"
"Here's an old fisherman looked up from his work of splicing grass blades, and broke in:—"
"Smart? Those fellows smart?" he questioned. "You just come down an' see Josh Pillsbury skin fish!"

Provincial News

(Bangor Commercial.)

SACKVILLE, N. B., Aug. 20.—Dr. Sweet, a specialist in bone diseases, of Worcester, Mass., and G. J. McLeure, a prominent business man of the same city, are spending a few days in town. Rev. Mr. Bakeman of Chelsea, Mass., occupied the pulpit of the Baptist church yesterday. The Rev. Mr. White in town, Mr. Bakeman was the guest of his aunt, Mrs. C. Siliker. C. C. Avar, editor of the Tribune, and Mrs. Avar, returned on Saturday from a trip to Montreal and Toronto. Horace Emman, of the staff of Royal Bank, Montreal, is enjoying a vacation with his parents at Port Eglis.

Miss Katie Brecken is the guest of Rev. Dr. and Mrs. Daley. Forest fires continue to rage in north and southwestern part of Sackville, and the aspect is becoming serious. "Dwards of one" hundred men worked all day yesterday and succeeded in extinguishing a fire which started before it was discovered. A barn belonging to Albert Estabrooks, Midgie, was burned Saturday night by forest fire.

A serious fire is in progress at Brooklyn, near the line of the N. B. and P. E. Island. Mr. and Mrs. George Stultz are mourning the loss of their only child, whose death occurred Saturday evening, aged eleven months.

HARCOURT. HARCOURT, Aug. 20.—Annie, youngest child of Mr. and Mrs. Alex. McKeown, died very suddenly on the 18th after only 24 hours' illness. Jabez McArthur removed his family here from River Hebert, N. S., lately. At the meeting of the Methodist quarterly board on the 18th J. W. Lynds of Beausville, was elected delegate to financial district meeting at Millerton 23th to 30th inst.

Mrs. Samuel and Miss Grace Williams of Kennebec, Kings Co.; Mrs. Woodville Baker, Sheffield, York Co.; Mrs. Boston, Miss Belle Morrison of St. John, Mr. and Mrs. Swetnam and the Misses Forbes of Moncton are visiting here.

ST. ANDREWS. ST. ANDREWS, N. B., Aug. 20.—Mrs. W. C. (Major) Good, nee Miss Berrie, Jacksonville, who spent the week end in St. Andrews in town, the guest of Mr. and Mrs. Gardiner, left by C. P. R. on Saturday evening en route for home.

John S. Leighton, registrar of wills and deeds, Woodstock, Capleton Co., passed through the town last week on his way to Bayville, St. Croix parish, Louisiana, where he is visiting his brother-in-law, John Mevat, where Mrs. Leighton has been for some time past.

ROYAL ARCANUM ELECT OFFICERS. At Monday afternoon's session of the Grand Council of Maritime Provinces Royal Arcanum, the following officers were elected: Grand Regent, J. A. McQueen. Grand V. Regent, J. A. Masters. Grand Orator, Frank Power. Grand Secretary, J. F. Allison. Grand Treasurer, C. W. Burnyeat. Grand Chaplain, C. H. McAndrew. Grand Guide, H. C. Martin. Grand Warden, Wm. Grove. Grand Sentry, C. A. McEannan. Grand Trustee, J. D. McKay. Grand Past Regent, F. L. Blair.

The committee appointed for the ensuing year were: Committee on laws—A. U. Charters, T. H. Belyea, J. C. Ferguson, Finance Committee—G. A. Kimball, H. D. Fawcett, B. J. Huston State of the order—J. T. Faulkner, J. Albert Black, H. H. Schaefer.

Last evening the newly elected officers were installed, after which the St. John members entertained the visitors at White's restaurant. J. A. McQueen proposed the toast to the King and President of the United States.

The toast to the Royal Arcanum was responded to by A. C. Trip. Wilson Taylor next gave a short address. He laid stress upon the fraternal benefits of the order. The toast to the beneficiaries was responded to by Brothers Masters and Grove. During the dinner Harrison's orchestra played a fine programme. The Exmouth quartet rendered several selections, and songs were given by John E. Kelly.

The party dispersed at a late hour, after having spent a very pleasant evening.

UNIONS GRIP SAN FRANCISCO. SAN FRANCISCO, Aug. 19.—Probably all permanent building operations in this city will be suspended today because of a strike of the stationary engineers.

These men today demanded an increase from \$5 to \$8 a day, but contractors refused. They said that if this demand was agreed to the structural party has declared a strike. Steel workers would also ask an increase of wages.

If the engineers go out it will tie up work on all skyscrapers like the Flood, Chronicle, Merchants Exchange and Fairmont Hotel buildings. Motormen and conductors on the United railroads have also demanded \$3 per day of eight hours. As the company has declared it will not raise wages it is probable all street railroads will be tied up.

The unions are so strong that they can dictate to employers, and having no property interests they propose to take the highest wages possible during the emergency created by the fire.

HOW THEY PROTECT FORESTS IN MAINE.

(Bangor Commercial.)

The system of forest protection which is being maintained through the state land agent's office and the large timberland owners of the state is constantly being extended and made more thorough every year by the building of new mountain observatories. The observatories already located on Squaw mountain, Attean mountain, and Mt. Aroostook have been the means of saving millions of dollars worth of standing timber from being devoured by the forest fiend.

These stations mentioned are located where they protect the timberland around the head of the Pleasant river. They have already demonstrated their value and every one of them has a record of fires discovered and checked to their credit. They were located by an expedition, the result of having been installed at Squaw mountain, a few miles from Greenville, by William J. Langdon of Waterville, of the Hollingsworth & Whitney Co. of Waterville.

The system is now being extended to take in the country east and north of Moosehead lake. To this end stations have been located on Spencet and Whitecap mountains. Spencet mountain is about ten miles from Spencer Bay on the east shore of Moosehead lake. The observatory is placed on the top of the mountain which is about 200 feet above the level. The station at this station has a view of about 500,000 acres of timberland in the Moosehead and Penobscot watersheds.

The station on Whitecap mountain, which is about ten miles north of Kattahdin Iron Works, was installed by J. L. Chapman of Milo. Whitecap is not so high as some of the other mountains on which stations are located but it rises abruptly and comparatively level sea of forest in the north-east corner of Bowdoin college grant in township 7 range 10 and the station commands a view of some 30,000 acres of timberland on the headquarters of the Penobscot and Kennebec.

TELEPHONE CONNECTION. This station is connected by telephone with Charlie Randall's camp at Pond and from there connects with Greenville on the Penobscot Telephone Co. line. It was from this station that the fire on township 4 range 11, near Crawford pond, was discovered two weeks ago and reported to Greenville. The fire was caused by the fire and checked it. The high wind on Sunday, Aug. 13, started the fire again and again the station reported it and sent a crew to fight it.

The station in charge of the observatory of Milo, who has a neat little camp less than a mile from the top of the mountain, with a telephone in the camp and also near the highest peak. The station is in charge of the observatory of Milo, who has a neat little camp less than a mile from the top of the mountain, with a telephone in the camp and also near the highest peak.

These mountain observatories are becoming important in the protection of the Maine forests. The expense of installing the stations is not great, averaging about \$750. All the stations are equipped with the most approved range-finders, and with a topographical chart of all the country that can be seen. If the man at the station sights the smoke of a forest fire on his territory he can locate its distance by means of his range-finder and by means of his topographical chart, can tell with remarkable accuracy where the fire is. When he telephones news of his discovery to the nearest point of communication, the man in charge of the fire fighters can locate the fire so closely that no time is lost in getting to it.

There is still a vast expanse of valuable timberland in the state which is not protected by one of these stations but it seems as if the time is not far distant when every elevation commanding a view of forest country, will be spotted by a range-finder, and the discovery and location of forest fires.

MORE FALSE HAIR WORN BY WOMEN. PARIS, Aug. 21.—According to the Eclair, the hair market, held annually at Limoges, has shown a slight falling off in the amount of hair on sale. The chief sources of supply this year, as in previous ones, are Brittany, Auvergne and the central departments of France.

There was more than 1,000,000 (\$200,000) worth of hair on sale. One dealer alone, on the first day of the sale, purchased 45,000 lb. (\$4,800) worth. The average price was 10 cents (\$17). Young girls in the districts where travellers for hair dealers make their rounds are perfectly well aware of the value of their hair and no longer consent to exchange it for a ribbon or box or two or three metres of muslin.

The increase in the demand is explained by the fact that fashionable women wear more false hair than formerly. This is due to the development of automobile and the pressure of hats in theatres. The falling off in the supply is also due to various reasons. There is an ever increasing demand for the part of the peasant girls of Auvergne, Brittany and Limoges to sacrifice their hair.

Another cause of the diminution of the supply is the suppression of convents. These were one of the main sources of supply. There is, however, no danger of a hair famine as Italy could furnish much more hair than it does at present and China and the East furnish an inexhaustible field.

DANGEROUS WORDS. Mrs. Hornbeak (in the midst of her readings)—"Ferry sakes alive! Here is an item about a surgeon, over at Biggarville, removin' an epithelioma from a man's lip."
Farmer Hornbeak—"Well, I sh'd judge it was about time for people to get usin' such long words when it requires a doctor to get 'em out."

Wolfville News.

(Bangor Commercial.)

WOLFVILLE, Aug. 21.—The heat here yesterday was almost unbearable. The thermometer stood 93 in Wolfville, 98 in Kentville and 100 in Port Williams. The oldest inhabitant never remembers anything to surpass this, as 90 is considered the limit here. A pretty wedding took place on Wednesday at Berwick at the residence of Reuben Loomer, when his daughter, Miss Rena Loomer, was married to Leslie Howell of Kingston. The ceremony was performed by the Rev. John Craig on the lawn under a large oak tree in the presence of a large number of guests.

An interesting event took place at Berwick on Thursday at St. Luke's church, when Miss Annie Harris, daughter of James Harris, was married to John Starratt of Annapolis by the Rev. H. How. They will reside at La Annapolis, C. B.

Mrs. Inglis, wife of the manager of the Royal Bank at Toronto, who has been visiting her sister, Miss William Rand, at Canning, has gone to St. John, where she is the guest of her sister, Miss Young. She is accompanied by her niece, Miss Kathleen Rand.

E. J. Davison of Etnos Aitos, New Brunswick, and wife are visiting old friends in the Province. Mr. Davison is now in Wolfville, the guest of his parents, Mr. and Mrs. Robert Davison. Mrs. Davison was Miss Scott of Elmstead.

Principal H. T. DeWolfe is occupying the pulpit of the First Baptist church at Halifax in the absence of the pastor, Rev. Mr. Waring, on his vacation. The Rev. Charles Stewart of Winnipeg has been the guest of Oscar Chase at Port Williams. He was accompanied by his friend, Prof. Laidlaw.

William Farrell and wife, who have been in Newfoundland, have returned to Kentville. Rev. Mocket C. Higgins and Mrs. Higgins of Goldboro, Guysboro Co., are here for a few days on their way to attend the Baptist convention at Liverpool.

Dr. David Webster, a native of this county, now a successful practitioner in New York, is spending his vacation here. Rev. A. H. Morse, Acadia '94, pastor of the Strong Place Baptist church, Brooklyn, New York, with Mrs. Morse, was here on his way to his old home at Bridgetown.

Mrs. Nealey, well known here, is visiting at the home of W. F. Parker. Miss Elliott, superintendent of the Provincial Sanitarium at Kentville, has gone to England, where she will visit some of the hospitals. Rev. William Cox, a graduate of Kings College, Windsor, rector of a church at Washington, D. C., is visiting his home at Berwick.

Mrs. Dr. J. W. Miller of Canning has gone to Dorchester to visit her brother, George Payant. Miss Sinclair of St. John is visiting her friends here. Miss Bessie Redden of Campbellton is visiting her grandmother, Mrs. Geo. Eaton, at Canard.

Gordon Hill and wife of St. John are visiting their father, R. Hill, collector of customs, Wolfville. Incorporation was adopted at Middleton this week, 104 to 1.

Invitations are out to the marriage of Ralph Morrison Jones, a graduate of Acadia, and a member of the Theological Seminary, youngest son of Prof. R. V. Jones of Acadia, to Gladys E. Whidden, a graduate of Acadia Seminary, daughter of C. Edgar Whidden, Antigonish, on August 28th, in the Baptist Church at Antigonish.

The marriage of Dr. Spenzie of Middleton took place on Tuesday morning to Miss Adelaide Allan, of the residence of her father, A. W. Allan at Middleton. Miss Pearl Webster, telephone operator at St. John, who has been spending her vacation at her home at New Brunswick, returned to Toronto and left for St. John on Tuesday.

Rev. David Wright of Springhill will be inducted into the pastorate of the St. Andrew's Presbyterian Church here on Sunday, Aug. 25th. Mrs. W. Massey of Berwick has gone to St. John to visit friends.

Many people in N. B. will be interested in the account of the drowning at George Bay in this week's issue of Dr. DeWolfe. Mr. William E. Jones of St. John has been the guest of his father, Dr. R. V. Jones, during the week.

At the closing of the camp meeting at Berwick yesterday, Rev. J. E. Hennigar, announced that the congregation was now out of debt and starts a new year clear of all indebtedness. Miss Lora Porter has returned from a visit to friends in St. John. Dr. Ellis of Ottawa and Mr. Fairbairn of the geological survey, are at White Rock with Prof. Fletcher for a few weeks. They recently visited the Gaspe peninsula.

CELEBRATED HIS 93RD BIRTHDAY.
Dr. William Bayard Is In Good Health and Was Warmly Congratulated Yesterday

Dr. William Bayard yesterday commemorated his ninety-third year. The doctor's health is still good and he may be seen any day driving around town attending to his patients. He received many congratulations yesterday on his continued good health and many wishes for many more years of usefulness.

Etheridge was employed at the home of West. Thursday afternoon he asked the child to accompany him to feed the stock and while at the barn he attacked her. The child was horribly bruised, but the negro failed in his purpose. She probably will recover.

RALEIGH, N. C., Aug. 20.—The 15 year old daughter of George Waddell, a farmer near Fremont, was murdered Sunday afternoon and her body thrown in a well pit where it was found the same day.

There is intense excitement in the surrounding country but there is no clue to the murderer. ATLANTA, Ga., Aug. 20.—As the result of an attack on Miss Ethel Lawrence of London, England, and her 14 year old niece, by a negro early today, near the home of the little girl in a suburb of this city, Miss Lawrence is in a dying condition and the child is suffering from lacerations of the neck inflicted by the negro. The child is being scoured by posies tonight, and if the negro is caught he will probably be lynched.

TAMPA, Fla., Aug. 20.—Will Lawrence, a negro 22 years old, was brought here tonight by Marshal Logan of Lakeland and placed in Hillsborough county jail, for safe keeping, it being feared that he would be lynched by a mob at Lakeland. Lawrence is accused of attempting to assault a 13 year old daughter of a section foreman named Davis near her home one mile from Lakeland, today. A posse caught him and a mob of a hundred men gathered and took the negro away from the officers. Mayor Cox of Lakeland appealed to the grand jury to let the law take its course and the negro was obliged to be taken to Tampa, where he will be held.

HARRY THAW HAS MANY VISITORS. NEW YORK, Aug. 21.—Drs. D. D. Evans of Morris Plains, N. J., and C. J. Wagner of this city called on Harry Thaw, who shot and killed Stanford White, in the Tombs today. Both physicians are known as alienists, and Dr. Evans figured in the Terranova trial. Clifford W. Hart, counsel for Thaw, accompanied them. The visit gave rise to reports that a mental examination of Thaw was to be made, but Dr. Frank McGuire, the Tombs physician, who went to Thaw's cell when informed of the visit, was assured that this was not so.

A. R. Peabody, another of Thaw's counsel, said that Thaw had a cold and that the doctors had been called in to see him. Miss May McKenize, the actress, visited Thaw today in company with Mrs. Thaw. This is the first time that Miss McKenize, who is expected to be a witness in the case, has seen Thaw since his arrest, though she has tried on several occasions to do so.

Mrs. VanRensselaer—Cruiger also visited the Tombs today and asked permission to visit Thaw. She was told she would have to get a pass from Commissioner Lantry, and replied that she would do so tomorrow. Mrs. Cruiger would not say why she wished to see Thaw.

DOWIE AND VOLIVA MAKE PEACE. CHICAGO, Aug. 21.—John Alexander Dowie and Wilbur Glenn Voliva have agreed to bury their differences and will unite in the government of Zion. By the terms of an agreement reached today Dowie will for the remainder of his life be the "First Apostle," while temporary affairs will be in the hands of Zion.

Dowie will drop all attempts to get possession of the assets of Zion. He also agrees to support Voliva for the general overseer at the election ordered by the court for next month.

In return Voliva and his followers promise that as soon as the office of general overseer is vested in Voliva he will proclaim his faith in the teachings of Dowie and acknowledge his supremacy in all matters pertaining to the church.

Cholly—Goodness, I've got such a cold in my head.
Wise—Why, so you have. I'll have to call Knox down the next time I see him.
Cholly—I—aw—don't understand.
Wise—Por libelling you. He said you had nothing in it.

Advertising is, perhaps, of all other methods of making a fortune, that is the most certain in its operation. S. R. Niles, Boston.

JEROME AGAIN

Would Not Accept Type—"Bird Said, when Hearst.

NEW YORK, Aug. 21.—Chas. F. Murphy found no sentiment in for District Attorney prospective governor of party for governor, contrary, he found pleasure in Randolph H. Hearst's quick response from night. In a reply to Mr. Hearst, Murphy declared that Tammany Buffalo undoubtedly by the unit rule and delegates usually were sentiment of the organ.

"Birds of a feather and when a person sterile, socially vulgar, obtuse," insults the state, irrespective of the state, irrespective of the state, irrespective of the state.

BOSTON AGAIN SUFFERING FROM THE HEAT. Yesterday Was One of the Worst of the Year—Thermometer at 110 in the Shade.

BOSTON, Aug. 19.—A lively hot Sunday was the many already experienced this season, tempered to sea-breeze and mo but the crowds could not be kept from the beach. In Boston's hottest days of the year, the state of the weather bureau of the post office building had been days one or warmer. The official thermometer registered 92 degrees. Reports on Washington at 110 degrees in the sun. It was, allowing people to work in the city, there were no other means of transportation.

All New England shared "Even at the Mount Washington it was in the sun and 70 in the shade," high record. The land and marine heat oppressive, and a few of the stations reported.

Early tonight the Boston forecasters predicted unseasonable conditions for tomorrow.

WARD H. PATTERSON TEACHING IN COLLEGE. Ward H. Patterson, of Colgate Institute, N. Y., pointed to the position of and science master in the university of the island. Mr. Patterson is a graduate of Fredericton High School, Fredericton, N. B., and is now a student in the new superintendent of this city—Calgary Daily 15th.

THE DAILY GRIND Ruins the Nerves. In factories and workshops, offices and stores—yes, and in the home, too—people are being worn out by the monotonous wear and tear of incessant toil.

In the hot summer time especially the burden is heavy to bear, and without sufficient rest or recreation many a victim falls by the way, overcome by nervous exhaustion, heart failure or physical decline.

The world's work must be done. The relief must, too, be there is a method of replacing wasted nerve cells and building up the worn-out system, and that is by using Dr. Chase's Nerve Food after each meal.

It gives vigor and tone to the system and prevents exhaustion and prostration. It is the friend of the worker, for it makes him strong and well and fills him with new hope, new confidence and new vigor and energy.

Dr. Chase's Nerve Food, 25 cents a box, 6 boxes for \$2.50 at all dealers or Edmondson, Bates & Co., Toronto.

CAR RUNS SAFELY OVER CHASM. FREELAND, Pa., Aug. 19.—A Lehigh traction car which left this city at 10:30 last night en route for Hazleton was engulfed by a mine cave at Japan Schoolhouse, four miles east of here.

At the Japan siding, as the car moved out over the switch, Motorman Fulda saw that his car was running away from him although there had been no grade there. Looking for the cause he saw ahead of him a deep fissure.

NOT SKEPTICAL. "Do you believe that his strength by having him asked the non-believer. "I have no reason to be piled the practical man to dumber always makes me"

Men being WILL DRESSED WEAR WEEDS

RATED HIS 93rd BIRTHDAY.

Bayard is in Good Health Warmly Congratulated Yesterday

William Bayard yesterday came in ninety-third year. The health is still good and he can enjoy any day driving around in his car.

He continued good health and that wishes for many more years.

WILLIAM BAYARD.

Bayard received his degree of honor from the University of Edinburgh and has thus completed twenty years of active service.

Daily Grind on the Nerves

Stress and workshop, office work, and in the home, too, being worn out by the wear and tear of unnecessary summer time especially is heavy to bear, and without opportunity for rest or recreation a victim falls by the way, nervous exhaustion, heart physical decline.

SAFELY OVER CHASM.

ND. Pa., Aug. 21.—A Lehigh car which left this city at eight on route for Hazelton and by a mine cave at Japan four miles east of here, an accident, as the car moved the switch, Motorman that his car was running him although there had been a look for the car ahead of him a deep fissure was going to fast to stop, drew out his lever, added to the motors to the motor car.

JEROME DECLARES WAR AGAINST TAMMANY HALL

Would Not Accept Support of Men of Chas. F. Murphy's Type—"Birds of a Feather Flock Together," He Said, when Referring to Murphy and William R. Hearst.

NEW YORK, Aug. 21.—A statement by Chas. F. Murphy today that he found no sentiment in Tammany Hall for District Attorney Jerome as a prospective nominee of the Democratic party for governor, but that on the contrary, he found plenty of sentiment for Wm. Randolph Hearst, brought a quick response from Mr. Jerome tonight. Mr. Murphy in his interview declared that Tammany delegation to Buffalo undoubtedly would be bound by the unit rule and that Tammany delegates usually were guided by the sentiment of the organization.

BOSTON AGAIN SUFFERING FROM HEAT

Yesterday Was One of the Warmest Days of the Year—Thermometer Was 110 in the Shade.

BOSTON, Aug. 19.—Another exceedingly hot Sunday was added today to the many already experienced in New England this season, tempting city people to seashore and mountain resorts, but the crowds could not wholly escape the heat. In Boston it was one of the hottest days of the year, though officials of the weather bureau at the top of the post office building said there had been days one or two degrees warmer. The official thermometer registered 92 degrees. Reliable instruments on Washington street recorded 110 degrees in the sun. It being a holiday, allowing people to rest from their work in the city, there were few promenades.

WARD H. PATTERSON TEACHING IN CALGARY.

Ward H. Patterson, of the Rothesay Collegiate Institute, N. B., was appointed to the position of mathematical and science master in the high school, made vacant by the resignation of Inspector Smith.

MINISTER OF RAILWAYS VISITING THE ISLAND.

CHARLOTTETOWN, P. E. I., Aug. 21.—Hon. H. R. Emmerson, minister of railways, Deputy Minister Butler and other officials, arrived here tonight and will remain on the island till Saturday. On Thursday the minister will visit Montserrat, where he will attend a meeting of the Kings County Liberal Association. In an interview he said he hoped to add materially to the earning power of the I. C. R. and branches by the establishment of a motor car service on the short Branch Line. Mr. Emmerson has left for Europe to negotiate respecting the purchase of these cars in France.

NOT SKEPTICAL. "Do you believe that Samson lost his strength by having his hair cut?" asked the non-believer. "I have no reason to doubt it," replied the practical man. "A talkative barber always makes me tired."

FAMINE THREATENS PEOPLE OF VALPARAISO

VALPARAISO, Aug. 21.—The loss of life by the earthquake of Thursday, August 16, probably will not be short of 4,000, while the property destroyed is estimated at \$200,000,000 and possibly far in excess of that sum. Order is being maintained with the utmost severity by the military, police and armed citizens patrol, who are empowered to shoot looters on the spot. The authorities are showing the utmost energy in the protection of property.

Sotomayor Square on the Water Front

NEW YORK, Aug. 21.—Two dispatches received today at the office of the Board of Foreign Missions, from representatives of the board of Chile. One dated Valparaiso, was as follows: "Buildings destroyed; missionaries safe." The other came from Santiago. It was as follows: "Buildings and missions safe." The board has extensive interests in Santiago, including a large school.

DRUG CONCERNS IN LEGAL MIXUP.

An interesting case which is occupying the attention of the equity court at the present time is a suit brought by the Canadian Drug Co. against the National Drug and Chemical Co., claiming that the defendant company had been making use of their name and that the National Co. had given orders at the post office, including the post office in St. John, to get the mail consigned to the office addressed to the Canadian Drug Co.

CONSERVATIVES OFFER TO SUPPORT FIELDING.

LIVERPOOL, N. S., Aug. 21.—The leading Conservatives all over the constituency of Queens and Shelburne are signing a petition to Hon. W. R. Fielding, asking him to continue to be their representative and not only pledging their support but also to secure his return and election by acclamation.

SEVERAL BUILDINGS DESTROYED BY FOREST FIRES NEAR HAVELOCK

Rain Fell Up River and in Northern Part of the Province Last Night. Doing Great Good—Barn Destroyed Near Harcourt.

HAVELOCK, Aug. 21.—This section of New Brunswick is literally drying up. Last summer was a dry one, but this is the driest that was ever known here. Forest fires are raging on all sides, and having wiped up the woods are approaching the settlements and destroying fences, crops and farm buildings. On Sunday morning all the buildings and valuables belonging to Henry Morton of Morton road, at the upper end of Upper Ridge, were reduced to ashes, the inmates of the house just getting out with their lives. The fire starting at or near Canaan road last week has worked its way through to Hicks Settlement and threatens to wipe it out of existence. The fire in Salem has crossed the Salmon road and is making for Springfield and the farms along Canaan road.

SERIOUS FIRE AT HAILEYBURY, ONT.

Chief Portion of Business Section of the Town Wiped Out—Several Private Houses Burned.

HAILEYBURY, Ont., Aug. 21.—By fire which broke out in a store near the post office last evening, almost the entire business portion of this town was wiped out. The damage is estimated at \$100,000, of which nearly two-thirds is covered by insurance. It was well after midnight when the first flames were noticed issuing from the butcher shop on Main street, about two blocks above the harbor. An alarm was at once given and the fire brigade, supplemented by the exertions of many hundreds of citizens, at once began to fight the flames. Owing to the extreme heat of the past couple of months the buildings, which were nearly all frame, were as dry as tinder, and it was not long before the flames rapidly spread along Main street, soon reached an inter-section of Farrar street and thence to radiate north and west.

NEW BRITISH CHINA AND JAPAN MAIL SERVICE

MONTREAL, Aug. 21.—New British China and Japan mail service. An important arrangement for the rapid delivery of British China and Japan mails has just been made by the Imperial postal authorities with the Canadian Pacific Railway Company, whereby the mails will be handled by this company for a distance of over 1,000 miles. A special fast mail train consisting of the necessary mail and baggage car accommodation and from two to four sleeping cars and a dining car for through passengers will be run across Canada from Quebec to Vancouver in 48 hours. This train will make only a few stops at the chief stations en route. Similar arrangements will be made for mails and through passengers east bound. The first west bound service will be as follows: Leave Liverpool R. M. S. S. Empress of Ireland, Aug. 24th. Leave Quebec on arrival of steamship, August 21st. Arrive Vancouver September 4th. Leave Vancouver R. M. S. S. Empress of China, Sept. 4th. Arrive Hong Kong, Sept. 21st.

MEN DANCED WHILE SHIP WAS ASHORE

QUEBEC, Aug. 21.—It was about 3.30 on Thursday last that H. M. S. Dominion stranded off Souris, Prince Edward Island. The navigating officer mistook a light, which proved to have been caused by a bush fire on one of the Souris range lights. The ship struck two obstacles, over which she passed, and grounded on the third. The shocks were very heavy, so much so that Mrs. Kingsmill, the captain's wife, who had boarded the vessel at Halifax, was prostrated and had to be attended by the ship's doctor. The provisions on board were ordered to be piped all hands on deck, the men with heavy bags containing their kits. For the double purpose of avoiding a panic and of assisting the ship off, the Dominion's band was ordered to play a jig, and all hands danced to it, the effect being to jig the vessel off the rock with the assistance of her engines.

AMOTHER NEGRO LYNCHED.

TAMPA, Fla., Aug. 21.—While the Folk county authorities were bringing Will Lawrence, a negro, to Tampa last night, to prevent his being lynched, an infuriated mob at Mulberry, also in Folk county, seized John Bapes, a negro, and riddled his body with bullets. Bapes attempted to kill Captain Hughes, a prominent white citizen. Lawrence was charged with an attempted criminal assault on a young white woman.

KNOW HIS BOOK.

"Under what circumstances," asked the chief examiner, "would you call in a doctor?" "When I don't want the patient to die on my own hands," promptly answered the medical student.

SERMON

By Rev. Chas. Wagner

(Copyright by McClure, Phillips & Co.)

Who are many, are one body. Rom. xii, 5. Christ, then, you say, is a revolutionist. Yes, in the fullest sense of the word, for his undertaking is one of those that admit of no compromise. He never concealed the fact, but always claimed the whole man, with no reservation. The hand once put to the plough, there was no looking back. The Christian ceases to be such a man, of such a class, in such a situation, and with such interest; hereafter his interest is the general interest; he has renounced his own, with regret, but with the joy of all those who discover this new world. He is no longer a solitary, shut up within himself, and armed against others; he is a brother. When one can say, in verity and in joy, 'I live; yet not I, but Christ liveth in me'—that is to say, He who gives himself for his brothers liveth in me—he has undergone the most astonishing transformation that it is possible to imagine; the center of his whole activity is shifted.

It hardly needs to be said that this revolutionist called the Christian, scrupulously refrains from the use of all means contrary to the spirit of Christianity, and that like his Master, he relies upon gentleness, persuasion, the weapons of the spirit, and, most of all, example. Forthright in re, suave in modo. And here again he is an innovator, for these are not the methods that revolutionists ordinarily employ.

If I do not entirely misread life, the following out of such methods, in the spirit of practical wisdom which Jesus was the first to draw from the inspirations of his heart, is the thing in the world most rare and most to be desired. In making them his own, and in gaining converts to them in the world, the Christian has it within his power to render this troubled age an inestimable service.

His first advantage over others is that he belongs to no party, and above all, that he has none of his own. Out of real and sincere benevolence, he has at heart the welfare of all men, and makes himself familiar with many social atmospheres. Rich, poor, exalted, humble, master, servant, lettered, ignorant, the Christian may be met with is not limited to any one class.

Whichever he may belong, he lives only the life of his neighbor, and makes it so much his own, that underneath the different outward conditions, humanity seems to be the same. Freed from the bonds of class prejudice, which hold almost all men like prisoners in iron, he visits his fellow-men in their captivity; and, seeing the height of the walls which hedge them in, and the strength of their chains—and the formidable fatalities of the social world—he cries to Heaven that the chains shall fall off, and the walls crumble away. We flee from one another in fear; we ought instead to seek one another out in confidence. Every one of us possesses something that the others lack; to join forces would be the wisdom of us all, and to this end the Christian labors.

Another advantage the Christian has; the social question is not to him a question of food and drink. Man, that splendid and complex being, and extent of whose possibilities, the nobility of whose needs, and the sublimity of whose sorrows, cannot be measured or defined, is to his mind something very different from the brute that would imply. The Christian does not underestimate the cruelty of material needs; he knows that the gnawing of hunger may leave a man little more than a raging beast; but he does not lose sight of the fact that man does not live by bread alone. It is only in the world of animals that material appetites become an exclusive question, and then they subside in the solution of the dilemma, to devour or to be devoured. To find them peacefully resolved, we must descend to the lower orders of animal life. The moral life, at the bottom of the sea, without hunger or thirst, in perfect equality and unbroken felicity. But they lack certain qualities which make up for them a perfecting though imperfect and suffering humanity; even though we are ourselves among the most imperfect and most unfortunate of men. The social question must be faced in all its breadth, which compasses the spiritual, body, mind and spirit. Unhappy for us, we limit it to its material side. This limitation it is which separates men, brings them into conflict, and makes life narrow and petty. He who considers only his material needs is a selfish creature, deaf to the cries of others, an enemy of his kind. Fortunately he is not the only one to be heard.

And, above all, do not confuse the man with the evil traits which he suffers, and the defects or vices which are his consequence. No one has himself accumulated all the burdens he bears; it is the weight of the past that holds us down. To remember this, is to become more charitable and less exacting. In our day, the rich and the poor, masters and servants, employers and workmen, are much disposed to make reciprocal accusations, but this is all wrong. The responsibility for our ills, which we try to shift upon each other, belongs to us in common, and, whoever we are, instead of accusing our neighbor, we should beat the breast and acknowledge our share in it. Then, after accepting our own part of the blame, we may remember how large a share of it belongs to the past. All history is pinning our arms, while we have wrought but the evil of a day. At bottom we are companions in misfortune and error, rather than doers of premeditated wrong.

By a natural movement of the heart, the Christian finds himself on the side of the weak and oppressed. He does, indeed, have some interest in those who wrong them, perceiving, from his high point of view, that it is better to suffer evil than to inflict it; but he sees that it is best of all to resist it vigorously on either side. To protect the weak from oppression, and to restrain the strong from crime; to shatter injustice, that two-edged sword which wounds him who wields it as well as him whom it strikes, is a complex aim, difficult of attainment for any but a man whose conscience is true; indeed, even to accomplish it, demands rare qualifications. Man takes arms against the abuses from which he suffers, but champions those through which he profits. He is led, by base motives, contented with the present, cannot rise to the height of pure justice, and seldom does battle for his right, without,

GOVERNMENT IS NOT AFRAID

Cuba Able to Cope With the Insurrection

Legal People Taking Up Arms for Government Faster than Insurgents are Increasing

HAVANA, Aug. 22.—General Rodriguez, commander of the Rural Guards, tonight said to the Associated Press:

"I can tell the American people that Cuba is entirely competent to cope with the insurrection. The flood of rumors in all directions about the organization of insurrectionary bands in great numbers are not borne out by our reports, or, so far as we are concerned, by the facts. The result of the encounter at San Luis is not known definitely, but it is known that we inflicted some losses on the enemy in that vicinity."

"The much talked of movement in Santa Clara province has not been counteracted, and no insurrectionists have been seen there by our forces. We have today equipped and sent out in various directions three hundred volunteers under competent officers. We have plenty of Remingtons and ammunition for all who enlist at present, and more have been ordered from the United States. Besides we have thousands of old but serviceable guns."

"We believe the loyal people are taking up arms for the government faster than the insurgents are increasing."

While the foregoing is typical of the utterances of government officials, there are evidences of threatening increase of the insurrectionists. In the province of Havana many persons are in sympathy with the insurgents. In some cases whole communities appear to have been carried away by the reports of insurrectionary movements. The extent to which this will lead to open rebellion is still uncertain.

HAVANA, Aug. 22.—The principal event today was fighting at San Luis. The reports of the commander of the Rural Guards are to the following effect:

The bands of Guerra, Pazo and others, aggregating about four hundred men, concentrated this morning in the vicinity of San Luis. Seventy rural guards under command of Major Laurent were to attack the insurgents from the east, and thirty men under Lieutenant Acuña were to attack from the west. Acuña arrived first and got into an ill-fated engagement with the superior detachment, with the result that he was forced to retreat hastily. This was disastrous for a portion of the enemy. The rural guards took refuge in their quarters, and Guerra's men remained in possession of the town.

A telegram to the government late tonight stated that Lieutenant Laurent, with his detachment of rural guards, fought Guerra and his three hundred men for three hours this afternoon, completely defeating him, killing or wounding many insurgents and taking three prisoners. The dispatch adds that the rebels dispersed in all directions, being chased long distances. None of the rural guards was hurt.

HAVANA, Aug. 22.—The Cuban government has just positively informed that General José Miguel Gomez, who was a candidate for the presidency, has left Yaguajay, province of Santa Clara, accompanied by a band of insurgents. The authorities of Santa Clara province have been ordered to arrest General Gomez. His secretary, Juan Menéndez, was arrested at Guanabacoa, and the latter had been long under the surveillance of the police.

The Origin of Dizzy Headaches

Look to the stomach and bowels and you'll find they are sluggish and overworked. Stop using acid corn salves; use Putnam's Painless Extractor; it costs a little more, but is far the best. Use only Putnam's. 25c. at all dealers.

VICE REGAL PARTY GOING WEST. OTTAWA, Aug. 22.—Earl Grey will proceed from Quebec to the Northwest, accompanied by Lady Grey and their two daughters, and their newly married son, Lord Howick and his bride. The party will travel over the Canadian Northern from Winnipeg to Edmonton, going from there to McLeod and thence to British Columbia, where they will remain a month.

NOTICE. The Canvassers and Collectors for the SEMI-WEEKLY SUN are now making their rounds as mentioned below. The Manager hopes that all subscribers in arrears will pay when called on.

CHINESE PURCHASE A NEWSPAPER

Said to be Scheme to Advocate the Abolition of the Income Tax on Chinese

VICTORIA, B. C., Aug. 21.—A curious report with respect to the reconstruction of the Colonist is being widely circulated in business and political circles. It is that the controlling interest in the British Columbia pioneer newspaper, now sold by J. S. M. Matson, is in reality the property of two wealthy Chinese residents, Leo Gee Wing and Lee Monog Kow.

It is said that an important newspaper transfer is being about with such secrecy as that maintained as to the Colonist's new owners. The numerous Victorians who believe the report that Chinese have purchased the paper, say that the object of the purchase is to start an aggressive campaign for the reduction or abolition of the 5000 capita tax so as to enable the Chinese contractors to bring in an army of coolie labor to use in the prairie harvest fields and in railway construction work.

DEATH OF MISS FALES OF CHEMICAL ROAD

HOPEWELL HILLS, Aug. 21.—Miss Catherine M. Fales, daughter of Mr. and Mrs. Allen Fales of Chemical Road, died at the home of her sister, Mrs. George Milton, at Albert Mines, last evening, after only a few days' illness, death resulting from an attack of appendicitis. She had been visiting her sister, and although suffering slight indisposition, was only taken several days ill on Saturday night. She was 27 years of age, and was the daughter of age, leaves, besides her parents, one brother, Alfred, of this place, and three sisters—Mrs. Vinton C. Robinson of Chemical Road, Mrs. Geo. Milton of Albert Mines, and Miss Florence Fales at home. The relatives have the sincere sympathy of all in their bereavement.

SANTIAGO COLLEGE PROFESSOR HERE

Dr. La Fete, was Rejoiced to Hear That His House was Not Destroyed by Earthquake

Dr. J. N. La Fete, of Santiago de Chile, accompanied by his wife and two sons, arrived in the city from Digby yesterday afternoon. They are the guests of Dr. A. A. Stockton's home, Mount Pleasant.

Dr. La Fete was seen by the Star this morning and told some interesting facts regarding the earthquake which visited the City of Valparaiso a few days ago.

The latter place is the chief seaport of Chile, and has 120,000 inhabitants. It is built around a small bay. The business portion of the city is on hills, and drawing his revolver, fired over the level ground. The level portion of Valparaiso is all made ground and this fact probably accounts for the great destruction done by the earthquake.

EXCURSION STEAMER STRUCK IN FOG

STOCKTON, Me., Aug. 22.—The steamer "Bristol," from Bangor for Northport, with an excursion party of 125 people, mostly women and children, while running in a thick fog, struck on Squaw Point bar, off the entrance of Stockton harbor, at noon today. The passengers were taken off in the steamer's boats and boats from the shore, and landed at Kidder's Point wharf. There was no serious panic and none injured. The steamer was pulled off later undamaged.

ATTEMPTED TO KILL GOVERNOR OF HAVANA

HAVANA, Aug. 22.—An attempt was made this evening to assassinate General Emilio Núñez, governor of the Province of Havana. A man had a revolver leveled at the governor as he was entering his home. Another man who was passing by saw the would-be assassin and cried out, whereupon Governor Núñez turned and, drawing his revolver, fired over the assassin's head. The latter was so surprised that he dropped his revolver. He was promptly arrested.

His identity is not known, but he is well dressed white man.

THE LESSER EVIL

"I don't see how she could possibly be sillier—she giggles so constantly." "Well, if she didn't giggle all the time she might talk, and, perhaps, that would be worse."

WILSON'S MARRIAGE

Dr. Charles W. Wilson, of Montreal, who is prominent in medical and social circles in that city, and who is in attendance at the meetings of the British Medical Association here was this morning sentenced to a week in jail, without the option of a fine. Dr. Wilson, while intoxicated in the King Edward hotel, approached a group of American tourists and seized a young lady named Severance in his arms, and kissed her. The young woman's father had Wilson arrested. In the police court this morning Wilson said that he was drunk at the time and did not remember anything about the affair. The sentence followed in spite of his pleading to be let off with a fine.

TEMPLES OF HONOR

GLOUCESTER, Aug. 21.—The annual session of the Supreme Council of Temples of Honor and Temperance opened in this city this evening and will continue through the night. Hon. David I. Robinson presided this evening, when reports of the officers were heard and the initiation of representatives. Tomorrow morning the Temples will hold an address of welcome by Isaac H. Higgins, grand temple of Massachusetts.

Tomorrow afternoon the visitors will be the guests of Atlantic Temple on a sail down the harbor in steam launches and a visit to Mother Ann and Eastern Point.

Stop using Acid Corn Salves; use Putnam's Painless Extractor; it costs a little more, but is far the best. Use only Putnam's. 25c. at all dealers.

KINGS COUNTY COURT

HAMPTON, Kings Co., Aug. 22.—In the probate court of Kings county today, letters testamentary were granted by Judge J. M. McIntyre to Wm. Herbert Smith of the city of Saint John, on the estate of the late Susan Drummond of Upham, spinner, the will being proved by Richard C. Sherwood and Wm. H. Smith. The value of the estate was sworn at \$75 real and \$10 personal property. H. H. Pickett, proctor.

Letters testamentary were also granted to Robertson Gass of Hampton on the estate of Mrs. Isabella McLachlan, late of St. John and Hampton, the real value being sworn at \$5,769, all personalty. The will was proved by Clarence H. Ferguson, who was also proctor in the cause.

The motion to pass the accounts in the estate of the late Charlotte Whitney, of Norton, deceased, being returned today, A. H. Hanington, the executor, was represented by C. S. Hanington, and Dr. F. H. Wetmore, the residuary legatee, by W. A. Ewing. The estate realized \$12,448.95, and a decree issued for \$1,904.14, payable to the residuary legatee.

THE WOUNDED SOLDIER. The wounded included three-year-old son, who though not fatally injured, number of persons prominent and social world.

Of the four conspirators, three were acting as coachman for the fourth, who remained carriage, were badly wounded in the St. Peter's race.
