GLOOMY VIEWS OF A LUMBERMAN

Well Known Operator Predicts Low Wages and Small Cut This Winter.

RIVER RISES A FOOT.

As a Result 12,000,000 Feet of Logs Will Be in Safe Waters This Week—York County Doctor Held Up by Tramps—Other News of rederiction.

Fredericton, Aug. 15.—(Special)—As a result of the recent rains the water in the river here has risen more than a foot since Saturday and is still coming up.

The corporation drive containing about 12,000,000 feet, is now being shogomoc, and with the present pitch of water should be in the boom limits by the last of the week.

A prominent lumberman, who operates for a St. John firm in northern Maine, in conversation with the Telegraph correspondent today, expressed the opinion that the present depression in the lumber market continues the highest wages workmen will receive during the coming winter will not exceed \$25 per month.

Last season as high as \$35 per month was paid. He also predicted that operations on the St. John and tributaries would be greatly curtailed.

Rev. F. G. Hartley, at the close of the service in the P. O. Baptist church last night, read a letter to the clerk of the congregation resigning the pastorate, which he has held since 1880, and resignation will take effect October 1.

Mr. Hartley has recently received a call from the Aboufou P. C. Baptist church, but has not yet decided as to whether he will accept. During Mr. Hartley's pastorate in Fredericton the church debt has been wiped out and over 300 members have been received.

Rev. X. Rogers, pastor of the Baptist church at Margareville, preached a farewell sermon last night. He intends taking a theological course in a New England institution. Mr. Rogers has been pastor of the Margareville church for three years. He will be succeeded by Rev. W. H. Smith, of Florenceville.

Charles and Dell Gunter have purchased leased Goding's livery stables and business on York street and will take control at once.

Joseph Guthro, well known to the police here and St. John, was arrested yesterday by Detective Roberts. He appeared today in the police court and was remanded till Wednesday to be tried for stealing a hat from Hiram Mimm.

Dr. Saunders, of Hawkeham, was held up while driving on a lonely road a few miles from his home on Saturday night. Two men seized his horse by the head and demanded his money, but he got away from them unharmed. The doctor was without a weapon of any kind with which to defend himself, but says he will not be caught that way again.

This makes the third or fourth "hold-up" which has occurred in the upriver parishes and it is about time that a posse was being organized to round up those who are responsible for the series of outrages.

The nuptials of Dr. W. J. Weaver and Miss Blanche Diblett, will be celebrated at the bride's home, at Westwood, on Wednesday afternoon. The ceremony will be performed by Rev. Archdeacon Neils. The prospective bride is a sister of Mrs. Lewis Bliss, of this city, and of Rev. H. E. Diblett, rector of Oranecto.

PROROGATION OF BRITISH HOUSE

An Uneventful Session of Parliament Brought to a Close Monday.

THE KING'S SPEECH.

He Refers to the Japanese-Russian War, and Also to the Complicated Questions That Have Arisen in Connection Therewith—The New Treaty Between France and Britain, and the Tibet Mission is Touched On.

London, Aug. 15.—After an admitted barren session, marked by no less than seven fruitless attempts on the part of the opposition to turn out the government on votes of censure, parliament was prorogued this afternoon, no more than 25 members being present, including one member of the cabinet.

The king's speech proroguing parliament was brief. After mentioning his visits to the King of Denmark and the German Emperor, at which, his majesty said, his reception in each case was most cordial, and the agreement between France and Great Britain, which he pointed out to be advantageous to all concerned and materially strengthen the friendship uniting Great Britain and France, his majesty said:

"Hostilities, I regret to say, are still in progress between Russia and Japan. Upon the outbreak of war I issued a proclamation declaring my neutrality and enjoining all my people to a strict observance thereof. Important questions involving the treatment of neutral commerce in the hands of belligerents have arisen in connection with the operations. The issues involved which are the gravest moment to the trade of the empire will, I trust be amicably settled without prejudicing the vast commercial interest of this country. My government will energetically support any subjects in the exercise of rights recognized by international law as belonging to neutrals."

The king said the scheme for the reorganization of the Macedonian gendarmerie under foreign officers promised satisfactory results and expressed the hope that the introduction of the elective element into the legislative council of the Transvaal which was a "step in the direction of ultimate self-government" would meet the united support of all his subjects in that colony.

In regard to Tibet the king said that the arrival of the "political mission" at Lhasa afforded him the greatest satisfaction and reflected credit on the officers and men of the small force. He hoped the conference at Lhasa would result in an arrangement of terms which would end the difficulties and friction on the northern frontier of the Indian empire.

After commenting upon the satisfactory situation in Somaliland and enumerating the bills to which his majesty had assented the speech concluded with the king's thanks to both houses of parliament.

EARLY MORNING FIRE STARTLES SUSSEX.

Old Milk House Near I. C. R. Station Was in Flames, But Firemen Soon Put it Out.

Sussex, N. B., Aug. 15.—(Special)—At about 1 o'clock this morning Bernard C. Mullins, of St. John, discovered that the old milk house situated near the I. C. R. station was on fire. An alarm was rung in and the fire department promptly responded.

Conductor G. M. Armstrong, of the Sussex express, who was early on the scene being awakened by the alarm, requested the night express to be held to haul the Sussex train out of danger in case it was needed, but the flames were so quickly checked by the efficient work of the fire department that it was not necessary to do so.

PROF. ROBERTSON ON INSPECTION TOUR.

Will Leave Ottawa Aug. 23, and Visit Macdonald Schools at Kingston and Other Places.

Ottawa, Aug. 15.—(Special)—Prof. Robertson leaves Ottawa on the 23rd for the purpose of visiting the Macdonald schools and address a number of meetings. He will go first to Kingston (N. B.), then to Canimog and Halifax and to the Islands.

PORT ARTHUR IS IN DESPERATE STRAITS

Japanese Raining Shells on the Doomed Fortress from All Sides.

ST. PETERSBURG LOOKS FOR ITS FALL AT ANY MOMENT—THREE RUSSIAN POSITIONS CAPTURED AFTER A FIERCE BATTLE, AND THE BESIEGERS ARE NOW NEAR THE INNER FORTS—GERMANS COMPEL THE CZAREVITCH AND THREE DESTROYERS TO Haul Down Flag and Lay Up Till War is Over.

St. Petersburg, Aug. 15.—The expectation here is that Port Arthur will fall at any moment. Especial significance is attached to the fact that Lieut. General Stoessels wife and children went to Chefoo on board the torpedo boat destroyer Ryschitskii.

THREE RUSSIAN BATTERIES CAPTURED AT PORT ARTHUR.

Berlin, Aug. 15.—A dispatch to the Local Anzeiger from Tokio, dated today, confirms the reports that heavy fighting has occurred at Port Arthur during the past few days.

The Japanese captured three Russian batteries and secured good positions close to the inner fortifications. Both sides were reported to have been engaged in a bombardment from Lung Mountain on the harbor and inner defenses.

ALASKA REPORTS REVERSE AT PORT ARTHUR.

St. Petersburg, Aug. 15.—The emperor has received the following despatch from Viceoy Alexieff dated Aug. 15: According to a report from Port Arthur, Aug. 10, the Japanese attacked Taku and Sino Hou Mountains in enormous force during the night of August 9 and occupied them after fifteen hours' fighting.

TOGO REPORTS SINKING RUSSIAN CARRIER.

Tokio, Aug. 15.—Admiral Togo reports that a vessel of the type of the protected cruiser Pallada was torpedoed and sunk in the engagement of Aug. 10th.

GERMANY ORDERS RUSSIAN WARSHIPS TO DEPART.

Using Chou, Aug. 15.—The Russian flag has just been pulled down from the battleship Knyazevich and the three cruisers which took refuge here. The lowering of the colors was done in the presence of the German government.

RUSSIANS DIDN'T RELISH HAULING FLAG DOWN.

Being Tau, Aug. 15.—The Russian battleship Zarevitch and three torpedo boat destroyers are now in the hands of the local German government for repairs, but it is impossible that these vessels will fight again in this war.

Captain Truppel, chief of the military and civil administration of the protectorate of Kinohou, after having completed arrangements for the neutrality of the crews of the Russian warships during their stay here, proceeded to go on board of the Zarevitch. The crew of the battleship were alarmed at the advent of Captain Truppel's party, and seized their weapons. They were quickly quieted, however, and the commander of the Zarevitch was informed that it was necessary that the Russian flag be hauled down and remain down pending the completion of the repairs. The Zarevitch's flag was then lowered and impressive formalities after which Captain Truppel visited each of the three destroyers, whose flags also were lowered.

BALTIC CRUISERS GET SAILING ORDERS.

St. Petersburg, Aug. 15.—6 p. m.—The cruiser division of the Baltic squadron has received sailing orders. Some of the vessels have already left. Cronstadt and others, including the Oleg, will leave in a few days.

JAPS PREPARING FOR PROLONGED CAMPAIGN.

Washington, Aug. 15.—According to a report to the state department from Consul Warner at Leipzig, Germany, Japan is preparing for a prolonged land campaign. Speaking of the Leipzig textile trade with Japan and Russia he says: "Although the export of woolen goods to Russia has fallen off considerably for several months past the orders which have been received from Japan never have been so large. Indeed they are of such proportions as to keep the woolen mills in this vicinity busy for some months to come. The goods being exported are such as are suitable for making winter uniforms for the army."

PACIFIC SERVICE FOR ALLAN LINE

Company Likely to Run Steamers in Conjunction With G. T. P. When Built.

HUGH ALLAN FAVORS IT.

He Has Accepted a Position on the Directorate of New Transcontinental Road, and Thinks There Would Be Sufficient Trade With Far East to Warrant Establishing the Line.

Montreal, Aug. 15.—(Special)—It is expected here that the Allan line will establish a Pacific Ocean service upon the completion of the Grand Trunk Pacific railway.

Hugh A. Allan, who has taken a place on the G. T. P. directorate, said today that the question of operating a Pacific Ocean fleet in conjunction with the new transcontinental railway had been considered but had not yet assumed tangible shape.

This announcement is of special importance owing to the Allan Steamship Company being the pioneer Canadian line on the Atlantic and as it has proved a great factor in the development of trade between Canada and Great Britain, it is now certain of greatly increasing the amount of business between Canada and the orient.

The present plan to operate the Pacific fleet in conjunction with the Grand Trunk Pacific Railway and to run a service from the Pacific terminal of the railway to different ports in Japan and China and possibly Australia.

Another incident showing how close the relations between the railway and steamship company will be is found in the fact that H. A. Allan, who is strongly in favor of his company making this important departure, has accepted a position on the board of the directors of the Grand Trunk Pacific.

A member of the Grand Trunk Pacific board said today: "For some time the company has been looking into the feasibility of navigating a service on the Pacific and the information obtained showed that there would be more than sufficient trade to justify the inauguration of a fleet."

GREAT RECEPTION FOR B. L. BORDEN AT HALIFAX MONDAY NIGHT.

Two Bands and a Large Crowd Greet Opposition Leader on His Return Home.

Halifax, Aug. 15.—(Special)—R. L. Borden, leader of the opposition, arrived here tonight, accompanied by Mrs. Borden. He was accorded a great reception by his friends and supporters. A procession of carriages, two bands and lots of red fire accompanied him to his residence.

NEW LONDON DOCTOR CHARGED WITH MURDER

He Carried \$20,000 Insurance on His Wife, and Her Suspicious Death Led to His Arrest.

New London, Conn., Aug. 15.—Dr. James Watson has been arrested, charged with the murder of his wife on July 5, her death having been under investigation since that time. The doctor carried insurance amounting to \$20,000 on the life of his wife. In an alleged runaway near New London, Dr. Watson asserted that his wife was thrown from the buggy into Salt River at the edge of which she was found.

JEWS RIOTS NOT SO BAD AS STATED

St. Petersburg, Aug. 15.—7:15 p. m.—An investigation of the reports published in New York by a Jewish morning paper to the effect that twenty persons were killed July 31 in a religious riot at Ostrov, government of Redom, and that a riot in which 100 Jews were wounded occurred July 29 at Potseval, government of Sedlitz, dictated a statement from the department of police of the ministry of the interior today to the effect that one person was killed and twenty wounded in a Jewish riot at Ostrovetz and that a few persons were wounded in the province of Sedlitz. The disorders in the latter part of the country arose from a Jewish girl having been converted from Jewish to orthodox.

CABINET MAKES NO APPOINTMENTS

Matter of Vacancies Was Talked Over at Monday's Session.

WILL MEET AGAIN TODAY.

Hon. James Sutherland's Friends Worried Over His Continued Ill-Health—Sir Wilfrid Laurier May Open Toronto Exhibition.

Ottawa, Aug. 15.—(Special)—There was a meeting of the cabinet today and a number of appointments, to be made shortly, were talked over but no definite action was taken. Another meeting will be held tomorrow.

It is possible that Sir Wilfrid Laurier will open the Toronto Industrial Exhibition on the 28th inst. He will probably leave here towards the end of the week for a short holiday in the Gaspé peninsula and did not proceed from there to the Queen city to inaugurate the fair.

The friends of James Sutherland in this city regret that the news received from Danville (N. Y.) regarding the state of his health is not more encouraging.

Dr. Hanel, director of mines, and Prof. Barlow, of the geological survey, left this morning for Portland, Oregon, to attend the annual meeting of the American Mining Congress. They will be absent about three weeks.

PERSONNEL OF TARIFF COMMISSION.

There is an impression in political circles that the tariff commission when appointed will consist of Messrs. Fleming, Paterson, Sifton and Broder, no definite information is obtainable at present however.

The minister of inland revenue is having prepared a large map upon which the tables of the metric system will be displaced. Copies will be sent to the educational institutions so that the youth of the country may be brought the metric system in Britain is before the house of lords and Canada may have to introduce a similar law at no distant date.

BIRD'S ISLAND NOT WORTH ANNEXING

British Admiralty Denies Report of Flag-raising, and Declares it is of No Value.

London, Aug. 15.—The Admiralty denied today the report from Kensington (Ga.), Saturday, that a party from the British cruiser Tribune recently landed at Aves, or Bird Island (127 miles west of the island of Bonavia, West Indies), and annexed it as a British possession. The report is believed to have grown out of the fact that the Tribune sent a landing party ashore for target practice. The admiralty added that the island is of no value and that there is no intention of acquiring it.

CZAR ARRANGES FOR ACCIDENTS.

He Names His Brother Regent, in Case of His Death, Till Son Comes of Age.

St. Petersburg, Aug. 15.—Emperor Nicholas has issued a manifesto determining the order of succession to the throne. In the event of the emperor's death, the czarvitch assumes his majority, the emperor's brother, Grand Duke Nicholas, is to become regent, the emperor assuming the guardianship of the czarvitch.

2,000 CLOCKMAKERS ON STRIKE

Cleveland, O., Aug. 15.—Two thousand clock makers went on strike here today. Increase in wages, recognition of the union and "closed" shops are demanded. Owners of a number of factories were willing to grant the increase, but declined the "closed" shop system. About 10,000 people are employed in the various departments, not including hundreds of contract clock makers, who also are out. Cleveland, next to New York, is the largest clock-making city in the country.

Wall Street Concern Suspended

New York, Aug. 15.—The suspension of the firm of Hobbs, Brown, was announced today on the stock exchange. The firm consisting of Henry G. Hoge, S. and Julius H. Hahlo. The suspension was made to the effect that twenty persons were killed July 31 in a religious riot at Ostrov, government of Redom, and that a riot in which 100 Jews were wounded occurred July 29 at Potseval, government of Sedlitz, dictated a statement from the department of police of the ministry of the interior today to the effect that one person was killed and twenty wounded in a Jewish riot at Ostrovetz and that a few persons were wounded in the province of Sedlitz. The disorders in the latter part of the country arose from a Jewish girl having been converted from Jewish to orthodox.

New York Building Strike Spreads

Sillicker, Church street, on Wednesday afternoon at 5:30 o'clock, when their eldest daughter, Miss Lena Mabey, became the bride of Mr. Roy C. Lea, son of Mr. Jobez Lea, of Victoria (P. E. I.).

The ceremony was performed by Rev. Arthur Hoskin, assisted by Rev. Dr. Chapman. In the presence of about sixty invited guests. The parlors and drawing room were tastefully decorated with native ferns, evergreens and cut flowers. The bride looked charming in a gown of crepe de chine, over white tulle silk with delicate trimmings, with bridal veil, and carried a bouquet of white roses and maidenhair.

The bride was given away by her sister, Miss Grace Sillicker, who wore a pretty frock of Nile green silk with point vein trimmings, and carried a bouquet of pink roses. Miss Cole, of Moncton, escorted the bride, who was maid of honor. The groom was escorted by Mr. Arthur Reid, son of Hon. Joseph Reid, of Victoria (P. E. I.).

The bride was given away by her father, Mr. C. J. Sillicker, the young couple standing beneath an arch, behind which was a bank of ferns. Mrs. Sillicker, mother of the bride, wore a very handsome gown of green silk with cream overture. The groom's present to the bride was a superb pair of pearls and to each of the bridesmaids a gold ring with pearl settings. The bride was the recipient of many useful and costly presents. Among others were a cheque from her father for \$500, and furnished for a dining room table her mother. After congratulations were exchanged a daily supper was served in the dining room, which was beautifully decorated for the occasion. The happy couple left on the Maritime and Bowyer's line of good wishes for an extended trip through P. E. Island. The bride's traveling suit was of brown broadcloth and hat to match.

Owing to the universal drought a meeting of the town council and manufacturing association was held last night to consider the best means to curtail the use of the water from the town supply. It was decided that all manufacturers depending on the town supply should temporarily close. The leading factories in addition to the town supply, have an emergency supply which will tide them over the difficulty. This will leave the town's fire protection practically as good as ever.

Policeman Andrew McDonald was unweariedly charged preferred against him. The result was that McDonald was completely exonerated.

Truro, Aug. 11.—Quite a little excitement and talk has been occasioned in town by the alleged forgery of notes of invitation to attend a reception at Scribble Manor, where General Sir Charles Parsons and his staff have been making their headquarters. A short time after their arrival invitations are said to have been received by the elite of the town to attend a function at the Manor. For some time all was thought to be right and some were already making preparations, when, by some means suspicion was aroused, and upon inquiry being made it was found that the invitations were clever forgeries. The victims are indignant and it is reported that a reward has been offered to any one who can make known the originator of the joke. Those not honored with invitations are having a laugh at the expense of the others.

BIG GAME HUNTERS ARRANGING PLANS

About All the Miramichi Guides Engaged for the Season.

Prominent Americans Going to Try Their Luck Again—Moose Are Very Plentiful—Sunday School Picnickers Visit the Capital.

Fredericton, N. B., Aug. 12.—(Special)—About 400 excursionists from Coles Island and other points in Queens county, arrived here by the steamer Aberdeen at 4 o'clock this afternoon. Their stay in the city was brief but they managed to visit a number of points of interest and appeared to enjoy themselves. The Aberdeen started on her return trip at 6 o'clock. The proceeds of the excursion will go to the new Episcopal church at the Narrows.

The influx of non-resident big game hunters to the province this coming season promises to be even greater than last year, when all previous records were broken.

The hunting season does not open until September 15th, but already leading guides on the Miramichi and Mintoich have about all the engagements they can fill. Henry Brathwaite, the veteran guide, who lately returned from the Miramichi, reports big game more plentiful than ever before.

ANAEMIA—POOR BLOOD.

Headaches, Dizziness, Heart Palpitation and Consumption Follow.

Anaemia—waterly blood—is a treacherous trouble. It strikes Queens county, and slight symptoms to dangerous disease. The waterly blood shows itself at first in pale lips, wan face, breathlessness, heart palpitation, loss of appetite, if the trouble is not checked and cured, consumption follows; coughing, spitting, dizziness, night sweats, a total breakdown and death. What the anaemic sufferer needs is pure blood—strong strength. And there is nothing in the whole wide world so sure to give new blood and new strength as Dr. Williams' Pink Pills for Pale People. They not only strengthen the system, bringing strength to weak lungs and all parts of the body, but increase fertility to the fruit of the womb, and, in the case of women, ensure a healthy and happy main, and a healthy child.

Dr. Williams' Pink Pills for Pale People. The trouble came on gradually, but the doctor who attended me said it was due to over-study and that a rest would put me right. But instead of getting better I grew weaker. I suffered from headaches and dizziness, and at night I did not sleep. My appetite failed, and I lost weight. I was forced to remain in bed. As the doctor did not help me any, I asked my father to get me Dr. Williams' Pink Pills. Before I had used two boxes there was an improvement, and when I had taken a half dozen boxes I felt as if I were in perfect health. I believe all weak girls will find new health if they will take the pills.

Anaemia, indigestion, heart trouble, dizziness, kidney troubles, and other ailments of women are all due to poor blood, and are all cured by Dr. Williams' Pink Pills. You can get these pills from any druggist, or by mail, post paid, 50 cents a box or six boxes for \$2.50 by writing the Dr. Williams Medicine Co., Brockville, Ont.

ILLICIT STILL SEIZED AT NORTH SYDNEY

Sydney, N. S., Aug. 14.—(Special)—Peter Fraser, collector of inland revenue for Pictou division, which includes Cape Breton, seized an illicit still at the premises of Alex. Ingram, merchant tailor, at North Sydney. The still was in part of the building occupied by Mr. Ingram used as a dwelling, the woman being enclosed in a roller top deck, while a copper pot was in an adjoining room. It was not in operation when found but evidence of having been considerably so some time previous.

The still was worth about \$300 and had a capacity of about twenty-five gallons a day. Ingram, who is considered a highly esteemed citizen, was placed under arrest. EXTEND SYSTEM TO LOCH LOMOND AT A COST OF A LITTLE OVER \$160,000 THAT IS THE EXPERT'S SENSIBLE ADVICE

Clear and Exhaustive Report Submitted by F. A. Barbour, C. E., on St. John Water Supply—Must Have Higher Pressure—Detailed Statement of Proposed Extension Via Lake Latimer—Annual Charge to Provide the Extension Would Not Exceed \$10,000, or Less Than Half the Increased Insurance Charge.

The water and sewerage board met Friday and heard the report of F. A. Barbour, C. E., on the water supply of St. John. It was very exhaustive and recommended extension of the system to Loch Lomond, at a cost estimated at \$168,280. The board was very favorably impressed by the clearness of the report, and will have it printed for distribution.

Mr. Barbour made some verbal explanations, and answered questions put by members of the board. While Mr. Barbour's work is completed, the board will take no further action until after the report has been printed and distributed. Then the whole question will be fully discussed, and the council will decide whether to carry out the recommendations of the report or adopt some other expedient.

Mayor White was in the chair, and there were present Aldermen Holder, Frink, Hanson, Hamer, Carleton, Macnam, Dulock, Maxwell, Ebbey, McLaughlin, Christie, Lewis, Suppl. Murdoch, Director Chushing, Engineer Barbour, Recorder Skinner, Common Clerk Wardrop.

Mr. Barbour had reported on the last plan and profile on the table. The report set forth the reason for the present investigation, chief of which is inadequate fire protection. It then gave a description of the present water supply, the condition and capacity of the present mains, and distribution system, and made some recommendations, including the following:

"Certain improvements in the distribution system are suggested by the investigation—the object being to provide better pressure in the sections along Commercial street, where a larger amount of the piping is four inches in diameter, and along the water front from Market Square to Duke street. The old four inch pipes laid in 1853 have no better actual capacity than a new two inch pipe, or in other words, they have a friction loss sixteen times that of a new four inch pipe. It is, therefore, recommended that a ten inch pipe be laid in Commercial street from Leinster to Britain, and in Duke street from Carzmarthen to Prince William street; also that a ten inch main be laid from Pond street to Market Square and the ten inch in Prince William street, extended to Duke street. It is not intended that this work shall be immediately undertaken, but that the suggested improvements would best remove the present inequalities of fire service, and that when any expenditure is decided upon, it should be along these lines."

The report discussed the necessary fire pressure and number of streams, and then dealt with future consumption under increased pressure. The following significant statement was made: "The amount of water now used is three times as great as that necessary for the supply of every legitimate domestic and manufacturing want. Leakage through the mains and careless waste are responsible for two-thirds of the present daily consumption."

The report advised against metering the system, which would be expensive and unsatisfactory in a city with the severe winter climate of St. John. It was pointed out that what is needed in the system is greater pressure. There is water enough, but not enough pressure, which can only be got by elevation. This cannot be got from the present reservoir, and the result depends upon various propositions points out that recourse must be had to Loch Lomond. The report then proceeds:

There is no need of any discussion in order to prove the ability of Loch Lomond to meet the requirement of quantity, quality and elevation. It is ample in quantity for the supply of a city five times the size of St. John; the quality of the water is practically ideal, and the elevation of the lake—300 feet above datum—is such that with conduits of economical design, it is possible to carry for a modern system of fire protection can be furnished. The only drawback to the use of Loch Lomond is the question of damages to waterpower rights on the Mispic river for diversion of water. While the value of this right is not to be estimated, it is believed that by proper handling of the matter, the damage can be minimized to a point where it cannot stand as an argument against the adoption of this source.

pressure of ten pounds, should be furnished at elevation 40. The higher pressure, the use of water will be increased, leakage, probably reach 20 gallons per capita per day, and consequently any improvements in the supply must be based on a capacity sufficient to furnish 2000 gallons per capita per day, or a total of 7,000,000 gallons.

That a remodeling of the distribution system cannot be undertaken, and that consequently the pressure at Marsh Bridge must be that necessary to furnish the desired number of streams under present conditions of loss by friction, and must therefore be not less than 15 pounds during the period of maximum draft.

That the pressure makes necessary a source not lower than elevation 230. That this cannot be obtained by any development of the present source, or by Lakes Douglas, Donaldson, Long or Latimer.

That consequently, if a gravity supply is to be obtained, it must be from Loch Lomond.

That by going to Loch Lomond a sufficient amount of water can be obtained to furnish the desired pressure to be furnished through the present mains at distribution system. And it is recommended: That Loch Lomond be adopted as the source of supply.

That instead of taking an indefinite right to water in this source that application to the Legislature for a right to take 7,000,000 gallons daily be made.

And, finally, that in view of the recommendations, precise surveys of the several conduits be taken and a careful investigation made of increased storage possibilities in Loch Lomond.

In closing, we desire to express our obligations to various members of the present department. We are particularly indebted to Mr. Murdoch, Superintendent of the water department, who by his knowledge of local conditions and his courteous and patient manner with which he has placed the excellent records of his department at our disposal, has greatly aided in the preparation of this report.

Lalmer and its location, and with the aqueduct constructed as proposed there is little risk of any derangement. Should any reason for the derangement of this work arise, the city could temporarily be supplied from the present source, which will render this source has been sufficient up to the present time, and certainly ought to be capable of supplying the city for the few days necessary to repair any accident.

It is proposed to construct the aqueduct between the Mispic and Lake Latimer and concrete steel, a comparatively recent and through up-to-date development in which a meshwork of steel is embedded in the concrete. The cost will be about one-third that of a brick conduit. Furthermore, as these aqueducts operate under the head water pressure, they are not subjected to an outward pressure as high as eight pounds per square inch, this type of construction, with its greater ability to stand tensile stress, is better than brick. The coefficient of friction is also lower, and the capacity for the same diameter is inversely greater.

The length of the best sectioned aqueduct between the Mispic and Lake Latimer is estimated as follows: Excavation—400 feet at \$1.20 per foot, \$480.00 Concrete steel aqueduct—2,000 feet at \$4.50 per foot, \$9,000.00 Tunnelling—800 feet at \$20 per foot, \$16,000.00 Underdrainage—700 feet at \$60 per foot, \$42,000.00 Land damages, etc., \$250.00 Clearing and grubbing, \$100.00 Total, \$48,730.00

The cost of the best sectioned aqueduct between Lake Latimer and Station 74 is estimated as follows: Excavation—700 feet at \$1.20 per foot, \$840.00 Concrete steel aqueduct—7,000 feet at \$4.50 per foot, \$31,500.00 Tunnelling—1,000 feet at \$20 per foot, \$20,000.00 Underdrainage—1,000 feet at \$60 per foot, \$60,000.00 Land damages, etc., \$250.00 Clearing and grubbing, \$100.00 Total, \$102,690.00

For the remaining distance between Station 74 and the present mains at Little River conduit is proposed of a 36-inch pipe of cast iron, 32 inches in diameter. This type of conduit has been used with good results in the West coast, and irrigation works. Properly designed and constructed, it is capable of every service that is required of a municipal supply main. The factors necessary for success in this selection, clear of all doubt, should be cut into stages with concrete faces and radial struts of such thickness that the wood will at all times be under the same pressure.

The bursting stress is taken up by round iron bands, spaced in proportion to the length of the pipe, and the wood is soaked with linseed oil, and the joints are covered with a special compound, which should be covered with some good waterproofing material. In New Brunswick, where wood has been obtained at a relatively low price, this type of conduit often shows an advantage in point of cost, which for the 32-inch pipe, is estimated as follows: Excavation—600 feet at \$20 per foot, \$12,000.00 Embankment—600 feet at \$50 per foot, \$30,000.00 Wood stave pipe—30,000 feet at \$3.00 per foot, \$90,000.00 Concrete reinforcement, \$10,000.00 Clearing and grubbing, \$1,000.00 Land damages, etc., \$250.00 Total, \$143,250.00

The capacity of a wood-stave pipe properly built is 18 to 20 per cent. higher than that of cast iron of the same diameter, or, in other words, a 32-inch iron pipe would have to be used for the same friction loss as a 36-inch wood pipe. The cost of a 36-inch wood pipe is estimated at \$8 per foot, and the cost of a 32-inch iron pipe is \$10 per foot. In the 10,000 feet between Station 74 and Lake Latimer, the difference is \$20,000, an amount which, at a 4 per cent. interest, will in twenty years more than equal the original cost of this dam. It is, therefore, follows that if this wood pipe is equal to cast iron, the cost of this dam is not use. As its life is, under ordinary conditions, about 20 years, it is a very good investment of money.

In taking the water from Loch Lomond to the city, the question of damming the Mispic River about one mile below the present dam is a question of great importance. The dam now carries 60,000,000 gallons of water, to which the name of Lake Latimer is given. The dam is 100 feet long, and 20 feet high in the center of its length, has been built on a foundation of granite, and is estimated as follows: Excavation—600 feet at \$20 per foot, \$12,000.00 Embankment—600 feet at \$50 per foot, \$30,000.00 Gate-house, intake, etc., \$2,250.00 Dike—1,000 feet at \$100 per foot, \$100,000.00 Land damages, etc., \$250.00 Total, \$144,500.00

The total cost of the work necessary to convey Loch Lomond water to the city by a pipe at Little River reservoir is as follows: Alderman Macrae agreed that he would give 500 copies of the report, with appendices and maps. This was adopted, and the mayor said tenders would be called for at once.

DEMAND FOR SPACE.

Ontario and Quebec Inquiring for Space for Live Stock Exhibits—Sir Winifred Laurier May Visit the Fair—A Great List of Special Attractions.

The directors of the Exhibition Association met Friday night to hear the report of their executive committee and to discuss the advisability of arranging for the holding of a special exhibition in St. John in the near future.

There were present R. B. Emerson, L. Col. Markham, T. H. Estabrook, A. O. Skinner, C. B. Allan, H. Gallagher, Dr. G. A. Hestington, R. R. Patchell, F. A. Dykeman, W. F. Burditt and W. W. Hubbard.

L. Col. Markham, T. H. Estabrook and Dr. Hestington were appointed a committee to go into the matter of a dominion exhibition and report back to the board.

The president and treasurer were empowered to make an overdraft to carry out the work of the association and the following report of the executive was laid before the board:

Gentlemen—Your executive committee beg to report that, since authorized by you to proceed with the work of this year's exhibition, they have carried forward preparations as expeditiously as the means available have permitted. The number of exhibits are yet to be placed. In the live stock and agricultural departments there are already a number of entries and many enquiries from Ontario and Quebec points.

Special efforts have been made this year to advertise the show thoroughly; 5,000 prize lists have been distributed; 98,000 envelopes have been sold to the business men in St. John, each one advertising the exhibition.

A school children's wood competition has been arranged for and an announcement of it has been sent to every child attending school in the province. Our newspaper advertising is placed in 73 papers upon very favorable terms. The press of the province is giving its usual co-operation for which our association is most indebted.

A new departure has been made in the original cost of employment of employees. Instead of employees to be placed before the grand stand the money will, this year, be used for a special out-door horse show. A large number of horsemen have been invited to take part in the show, and a prize list and have promised to further co-operate with us in making this part of our programme useful and entertaining.

OBITUARY.

Miss Lucy E. Stephens.

Miss Lucy E. Stephens died Friday at the residence of Mrs. F. T. Stephens, 45 Mount Pleasant avenue. Deceased was 75 years of age and the widow of the late Henry E. Stephens, of Bristol, England. She was the sister-in-law of the late Frederick T. Stephens. Several nieces and nephews of deceased are residents of this city.

Mrs. T. E. Rogers.

The death occurred at noon Friday of Mrs. Rogers, wife of Thomas E. Rogers, the sexton of German street Baptist church. The deceased, who was aged 59, had been a resident of St. John for twenty-eight years. Her remains will be taken to Yarmouth today for burial. Besides her sorrowing husband she leaves four children, Mrs. Bayard Parker, Mrs. John Montgomery and Ethel and Clara Rogers.

Mrs. James Bowes.

The death of Mrs. Jas. H. Bowes of Golden Grove, occurred at her residence Sunday after a lingering illness. A lone son, seven daughters and five sons survive. The daughters are Mrs. Henry Crowley, Mrs. Paul Riley, Mrs. W. H. Newis, Mrs. John G. Horgan, Mrs. Edith of Boston, Mrs. George Duffley and Miss Lucy of Golden Grove. Of the sons, Vincent and Edwin reside in Boston; John in British Columbia, and Robert and James are at home.

Mrs. Elizabeth Holder.

The death occurred last Friday morning at the residence of George Younger, Union street, Moncton, of Mrs. Eliza Holder, aged 78 years, after a long illness. Death resulted from heart failure. Mrs. Holder, who was a native of St. John, had lived in Moncton for the past thirteen years. Previous to this she had been a resident of St. John, where her husband died many years ago. Only one of the family survives, Mrs. George Younger, of Moncton.

Mrs. Louisa Burns.

Halifax, Aug. 14.—(Special)—The death occurred here Saturday night of Mrs. Louisa Burns, widow of Capt. Geo. D. Burns, of Digby, and mother of C. T. Burns, of this city, but formerly of St. John (N. B.).

John H. Butt.

John H. Butt, of Butt & McCarthy, German street, died Monday forenoon, after an illness of fully five years. For the last four months Mr. Butt was confined to the home. A native of Newbury, Southampton, England, Mr. Butt came to St. John in 1847, and learned the tailoring trade with his brother, the late Wm. P. Butt. For many years deceased has been engaged in business in St. John on his own account. He was an excellent citizen, many friends in the city and in the parish of Lunenburg, where he lived for a long time, will regret to hear of his death. Mrs. Butt and two daughters—Mrs. S. L. Reed and Mrs. W. H. Huston—survive. Mr. Butt was a member of Union Lodge F. & A. M.
