### Digby Still Conservative.

Digby County has again been heard from, and once more our friends the Grigs have been doomed to disappointment. Mr. Jones, the Conservative candidate, is elected, and although his majority is not as large as that obtained by the late Mr. Campbell, over Mr. Vail, the result must be very gratifying to the Liberal Conservatives all over the Dominion.

The St. John Telegraph speaks comfort in the thought that Mr. Jones' majority is a small one. It would hide from its readers, if it could, the fact that the Conservative candidate was a young man without political experience, while his opponent, Mr. Robicheau, because of his influence among the French, was much stronger than his party.

The Grigs were dead sure of capturing Digby from the Conservatives. They nominated Mr. Robicheau not because of any love of the French, but because they found that it would be a losing game from the start to put in the field their first choice, Mr. Chas. Burrell, and because they felt that the nomination of Mr. Robicheau would be a good card among the French Canadians, most of whom were known to be supporters of the Government led by Sir John A. Macdonald.

That move on the part of the Grigs wire-pullers was partially successful, for while but few of the French changed their political principles, many of them abstained from voting. Mr. Robicheau in his personal canvass among them having assured them that if he was elected he would go to Parliament independent of either political party, and as the representative of the Acadians.

While Mr. Robicheau was appealing to the race prejudice of his compatriots, others of his party were trying to incite Roman Catholics generally to oppose Mr. Jones by the lying stories that he was their bitter enemy. Nor was that all. The county was over-run with Yarmouth Grigs, who in their hope to redeem Digby to Gritism, made the most infamous declarations regarding the Dominion Government and the Conservative Candidate. Mr. Longley worked the Commercial Union for all it was worth in favor of Mr. Robicheau, and the oft repeated slander was again uttered that the Canadian Government was opposed to Reciprocity. Notwithstanding all this, Digby County has shown by its vote that it is opposed to the men whose only policy is that of sectional, race and religious strife, and in favor of the Government of which Sir John A. Macdonald is the honored head, a Government whose policy is to build up one great nation and to deal out even-handed justice to all and every section of the Dominion, regardless of the race or creed of its people.

The Farmer extends its congratulations to the member elected for Digby. He is a young gentleman of rare abilities, and will no doubt take a leading place among the people's representatives at Ottawa.

Latest revised returns place Mr. Jones' majority at 33.

### The Recent Burglaries.

We heartily agree with the St. John Sun's suggestion that the services of the best detectives in America should be secured in order to ferret out the perpetrators of the burglaries committed recently in New Brunswick and Nova Scotia. Our people are not easily alarmed, but we do not wonder at their being considerably exercised over the Gibson and Hampton burglaries. While there is any doubt as to who the daring operators are, no business man can feel that his premises are safe, nor can any housekeeper feel that his building is secure. The bringing of professional detectives to this Province would not be a reflection on the Fredericton or St. John police. Our officers, for their chances, are energetic capable men. But they have had so little experience in such cases as the ones referred to, that they are apt to work too much on one or two clues, instead of studying every phase of a case. Besides, there is, we fear, a slight spirit of jealousy among local officers when working up important criminal matters. In the desire to deserve all possible credit in connection with a great crime, some of our home men may sometimes neglect to help their fellow officers posted as to what progress they are making. There should be perfect confidence among all officers engaged on such an important affair as the Gibson or Hampton robbery. Otherwise one officer may be unconsciously undoing the work of another, and with this means defeat the ends of justice.

The alleged shortage of \$10,000 in the accounts of the prothonotary of Quebec, referred to in the last issue of the Farmer, seems to have been misconceived. The whole of the affair is explained as follows: The prothonotary's deposits from petitioners in contested elections are, by the Provincial Election law, ordered to be deposited with the treasurer of the Province, pending the trial of each case before the courts. This, it appears, has always been regularly done, but the Federal law not governing the Dominion elections does not authorize the prothonotary to place these deposits for the contested elections of members of the Commons with the Provincial Government. It was only last week that the reference of the subject made months ago by the prothonotary to the local authorities, under whose control he acts, was settled by the receipt of an order to deposit all such funds with the Provincial treasurer, which was accordingly done on Wednesday last.

The writ has been issued for the election of a member to the Quebec legislature in Laprarie. Nomination 23rd; polling 30th.

### An Emphatic Denial.

The absurd canards which Mr. Joramish Travis, the disappointed place seeker, has circulated through the medium of the Ottawa Free Press, and Halifax Chronicle, and other journals of the same class, have elicited a complete and unequivocal denial from Mr. H. H. Bligh, the revealing officer for Antigonish. In a letter to the Casquet of that town, Mr. Bligh says:—

"I will make the denial, and will make it as explicit as possible, as my command of the English language will enable me. In reference to election contests in this county, I am emphatically that I never was engaged in, nor was I ever aware of, nor did I ever feel or intimate to Mr. Travis or any other person that I was ever engaged in, or was ever aware of, any act or acts of bribery or any illegal or corrupt practice in connection with any election with the honorable Minister of Justice was a candidate."

I trust I have made myself understood, but in order that my denial may be as explicit as possible, and more emphatic than any other, I will state that I never was engaged in, nor was I ever aware of, nor did I ever feel or intimate to Mr. Travis or any other person that I was ever engaged in, or was ever aware of, any act or acts of bribery or any illegal or corrupt practice in connection with any election with the honorable Minister of Justice was a candidate."

The inside history of the Liberal fight in Nova Scotia last winter is coming out. There was plenty of money for the workers, got from the corruption fund in Ontario, and the majority of seats the Liberals did not get, it is now said cost them \$80,000. The Yarmouth Times has been furnished with some facts bearing on the matter, from which it appears that the wire-pullers promised that for \$100,000 they could sweep seventeen seats. They only received the smaller sum, however, and fell ten short in their estimate. Sir Charles Tupper was the subject of a special onset, and for Cumberland county \$15,000 was put out. Antigonish and Colchester also received \$5,000 worth of attention, while Halifax, in the attempt that was made to carry it at any cost, called for extra appropriations. There is said now to be a good deal of dissatisfaction on the part of the providers of the boodle, who seem to have been asking questions the purveyors do not find it convenient to answer, with the result that a certain coldness characterizes the private communications to each other of the parties of the first and second part of the understanding.

The United States federal government do not grant subsidies to aid in the construction of roads for development of the country. The American federal debt does not represent public works of this nature. Yet in the past twelve years over 39,000 miles of road have been forced, representing a nominal capital stock and bonded debt of nearly \$2,310,000,000. This sum itself is more than ten times the present public debt of the Dominion.

The following is from the Toronto Telegram:—"The press of the Globe has been raising questions that sweep the country in advance of an election. Results show that the country did the sweeping at the polls. The infamous gerrymander, the atrocious Franchise Act and Briel are now as dead as the late Pharaoh. And the support of the organ will grow the daisies on the grave of commercial union before another crisis is upon us."

The Toronto Mail, in an article on the subject of the Franchise Act, says:—"The Montreal, N. B. Transcript, for instance, must know that the party has no chance whatever, of obtaining office with Mr. Laurier as its leader, while Sir John lives; yet it contrives to make itself believe that victory is close at hand, though nothing other of a miracle could bring it about."

We understand that a few energetic gentlemen have interested themselves in the matter of providing an open air concert by the Fredericton Brass Band once a week. This is a praiseworthy move, and only requires a little financial assistance from those who can well afford to give to make the concert a grand success.

A Nova Scotia paper complains that "Sir John A. Macdonald has induced Sir Donald Smith to invest \$25,000 in the new Tory organ to be established in Toronto." The same journal in February last, claimed Sir Donald as a Grit diamond of the first water.

### THE FAR WEST.

#### A Frederictonian's Spicy Sketch of a Recent Trip from

Winnipeg to Victoria, B. C.

By LEONARD W. JOHNSON.

I respond to the request of the Editor of the Farmer to send him a sketch of my recent trip from Winnipeg to Victoria, B. C.

The trip was a most interesting one, and I have many things to tell you of the West and the people who live there.

At Revelstoke, the Columbia is crossed again having travelled eighty miles across the mountains. The river is a beautiful sight, and the scenery is of a grandeur that is rarely seen elsewhere.

At Kamloops, a fine ranch town on the Thompson River, we found a beautiful view of the lake and the mountains. The scenery is of a grandeur that is rarely seen elsewhere.
