Disputes With the Independent Operators Settled-More Trouble in Chicago.

Hazelton, Pa., Nov. 10.-G. B. Markle & Co. and their 2,500 men, who refused to work because they were asked to make individual application for their positions, came to an agreement today, and operations at the four Markle collieries will be resumed tomorrow. The company offered to reinstate all the employes except the thirteen recently evicted, and not to discriminate against the members of the union on condition that the men agree to abide by the decision of the arbitration commission and answer questions as to their age and other de-tails before resuming their places. These terms were accepted. Hazelton, Pa., Nov. 10. — A conference was held at Drifton today between the officials of Coxe Bros. & Co. and a committee of the company's employes to bring about, if possible, a settlement of the difficulty at the Coxe's collieries, which have no yet resumed operations because of the refusal of the men to apply indi-vidually for their old positions, as re-The mine workers' committee presented a written demand that all the men be reinstated, and that the company give a guarantee that it will abide by the decision of the arbitration commission. The answer of the company was given in a sealed envelope, which was not opened until the executive board of division No. 7 convened this evening. It is understood that President Stearns agrees to reinstate all men for whom places can be found, but declines to discharge any non-unionists to make room for strikers. President Stearns returned to New York this evening. The executive board reached no decision tonight on the proposition of President Stearns. The matter will be considered further tomorrow.

LATE CHANGES IN THE CABINET

Popularity of New Minister of Public Works.

ARRIVAL OF MR. PREFONTAINE

Terrebonne or Maisonneuve Constituency Will Le Tarown Open for Election.

Ottawa, Nov. 10. - The transfer of Mr. Sutherland to the public works department and the elevation of Mr. Prefontaine to cabinet rank were definitely determined on Saturday by the Prime Minister, who acquainted his colleagues with his decision at council in the afternoon. Constitutional procedure, however, had to be followed, and formal announcement of the cabinet changes was withheld until today. Mr. Sutherland's assumption of the portfolio of public works meets with the hearty approval and indorsation of all his colleagues, and by none is it more cordially supported than by the Quebec ministers. Mr. Sutherland has been a member of the Government since Sept. 30, 1899, and has proved him-

self to be a sagacious, industrious and capable administrator. MR. PREFONTAINE.

Mr. Prefontaine arrived from Monreal at 7 o'clock this evening and imnegiately proceeded to the Russell House, where he met Hon. James Sutherland, who had just come down from his office. The minister and the prospective minister cordially shook hands and then went in to dinner together. Later on Mr. Prefontaine called at the Premier's residence and had an interview with Sir Wilfrid Laurier.

Mr. Prefontaine's acceptance of office, in the natural order of things, would vacate the constituencies of Maisonneuve and Terrebonne, for both which he was returned at the general election. His election for Terrebonne has, however, been contested, and, while it is probable that appointment to the cabinet opens this constituency, the point is not quite clear. As soon as the matter is settled Mr. Prefontaine will make his choice constituency. It is not unlikely that he will decide upon Maisonneuve. In ne will in all probabili returned without opposition. One of his first acts as Minister of Marine will be to make an inspection of the St. Lawtrip he may be accompanied by Hon. James Sutherland.

THE PREMIER WILL REST. The Prime Minister will probably drop affairs of state for a few weeks and take a good rest. Official duties and many engagements monopolized nearly the whole of his time during his absence in Europe, and, although he was able to snatch a few days of repose in Switzerland, the holiday was not as extended as it should have been. Since his return to Canada he has been constantly employed with Governmental matters, which has induced a slight return of indigestion. In consequence of this Sir Wilfrid was obliged to excuse himself from attendance at the state dinner tonight. He expects to be at his office tomorrow, but will doubtless yield to the solicitations of his colleagues and friends and enjoy the vacation which he has so well earned, bethey seem almost to have succeeded in fore entering upon the work of preparing for the session.

RIGHT HON, SIR RICHARD CART-WRIGHT

The appointment of Sir Cartwright as member of the Imperial Privy Council marks a distinct de parture. It is the first time on record that this distinction has been conferred upon a colonial minister who has not held the office of premier, and thus constitutes a recognition by the home ministry of the imperial responsibilities which now devolve upon colonial statesmen, apart altogether from the merely domestic matters with which they deal. The status conferred is most important, the Imperial Privy Councilors being outranked only by peers or the sons of peers. In Sir Richard Cartwright's case everyone will admit that the honor has been well deserved, and hearty congratulations have been pouring in upon him.

ACTIVE CAMPAIGN PROJECTED

Referendum Association Prepares to Arouse Interest.

A meeting of the Referendum Campaign Association will be held in Somerset Hall this evening for the purpose of completing the necessary organization incidental to the conducting of the campaign between now and voting day, the fourth of next month. Mr. John M. Gunn, the secretary of the association is strongly desirous of seeing present all who are interested in the success of the movement.

Three mass meetings are projected. The first will be held on Sunday, Nov. 16, at 8:20 p.m. in the First Congregational Church; the second on Sunday, Nov. 23 at the same hour in St. Andrew's Presbyterian Church, and the third on Sunday, Nov. 30, also at the same hour in the First Methodist Church. A petition to the city coun-cil requesting the use of the city half for three or four Thursday evenings between now and Dec. 4, has been circulated and largely signed.

OPERATORS' REPLY TO MR. MITCHELL

Presented to the Coal Strike Commission.

PRESIDENT BAER SPOKESMAN

Characterizes Demand for 20 Per Cent Increase as "Arbitrary, Unreasonable and Unjust."

Washington, Nov. 11 .- The reply of President George F. Baer, of the Philadelphia and Reading Coal Company, to the charges of President Mitchell, of the United Mine Workers, which has been presented to the anthracite coal strike commission, was made public today. Mr. Baer makes no reference to Mr. Mitchell as president of the miners' organization, but refers to him

simply as an individual. Taking up the specifications in Mr Mitchell's charges, seriatim, Mr. Bac first admits that his company owns 37 collieries, and that before the strike rence before navigation closes. In this it employed 26,829 people. Following is

a brief summary of the response to Mr. Mitchell's other specifications: Second-The demand for 20 per cent increase in wages on piecework is de-nounced as "arbitrary, unreasonable, and unjust." The company contends that after making all necessary allow-ance for different condition that the rate of wages paid for the mining of anthracite coal is as high as that paid in the bituminous coal fields.

Second-The company denies that the present rate of wages is lower than is paid in other occupations in the same locality and controlled by like conditions.

Fourth and fifth-Mr. Baer denies that the earnings of the anthracite workers are less than average earnings for other occupations requiring skill and training and also the charge that the earnings are insufficient because of the dangerous character of work in the anthracite mines.

Sixth—This specification made by Mr. Mitchell is referred to as too vague for specific answer, but in a general way it is stated that the anthracite regions are among the most prosperous in the United States.
Seventh—The company as unjust and inequitable the demand for a reduction of 20 per cent in hours of labor without a reduction of earn-

ings for time employes, and this demand is pronounced impracticable. In this connection the following statement is made: "Because of the injury to the mines the strike of the United Mine Workers, the cost of producing coal has been greatly increased and a temporary advance in price was made by this company, but it will be impracticable to continue such increase

when mining operations become nor-Eighth-Mr. Baer says that his company has no disagreement with any of its employes about the weighing of coal, because the quantity is usually determined by measurement and not

by weight. Ninth-Replying to the fourth domand made by Mr. Mitchell, Mr. Baer says since the advent of the United Mine Workers' organization into the anthracite fields, business conditions there hace decreased; that discipline has been destroyed; that strikes have been of almost daily occurrence; that men have worked when they pleased. and that the cost of mining has been

greatly increased. Mr. Baer also takes the position that the jurisdiction of the commission is limited to the conditions named by the coal company presidents, which ex-cludes the United Mine Workers from any recognition in the proceedings. He says, however, that "when a labor organization limited to anthracite mine workers is created, which shal lobey the law, respect the right of every man and honestly co-operate with employers, that agreement may

become practicable."

Roanoke, Va., Nov. 11.-As the result of two wrecks on the Norfolk and Western Railway, Sunday, three men are dead, one is fatally and two are seriously injured. Eastbound passenger No. 4, which left Columbus last midnight for Reanoke, collided head-on with a freight near Barger, W. Va. The crew of both engines jumped and escaped with cuts and bruises. Express Messenger J. C. Edwards was fatally injured, and his helper, William N. Snyder, was killed, and his body burned up in a fire which consumed the mail, baggage and express cars and one coach, None of the passengers was hurt. Westbound passenger No. 1, left Roanoke at 10 o'clock yesterday, and three hours later, while running 30 n. les an hour, at a point near Ingleside, the engine and tender left the rails and rolled down an embankment. Engineer Charlie Pate and Fireman John Deyer'er were caught under the locomotive and killed. It is not known what caused the engine to leave the

The Isthmian Canal.

Washington, Nov. 11.—Secretary Hay conferred yesterday with Senator Col-lum, chairman of the senate committee on foreign relations, and with Senator Morgan, the senior member of the minority of the same committee. Canal matters were under discussion, and the secretary was able to show that substantial progress is being made toward the completion of a treaty with the Colombian Goverhment, conveying the necessary rights for the construction of a canal across the Isthmus of Panama. In fact, the negotiations between Secretary Hay and Senor Concla, the Colombian minister, are so far advanced that it it now expected that by the end of the present week all of the phases of and little will remain to be done to conclude the convention.

A SOURCE OF SURPRISE

To Physician and Patient Alike.

Dr.Redmond, a specialist in the study and treatment of piles and rectal diseases, recently stated that the Pyramid Pile Cure, the new discovery cure of piles, was the most remarkable remedy he had ever seen or tried in one respect; and that was the instant relief experienced in all cases, no matter how severe, from the moment the remedy was applied; this was the more surprising to him because he had carefulanalyzed the preparation, and no trace of opium, cocaine or similar poison could be detected.

Physicians look with great favor upon the Pyramid Pile Cure, because it is rapidly taking the place of surgical operations, and because it is so simple, so easily applied, and contains no mineral or other poisons so commonly used

In pile cures. Dr. Esterbrook reports that the Pyramid Pile Cure not only cures the varlous forms of piles; but never fails to plication, no matter how severe the

pain or discomfort may be.

People who have suffered from piles for years are often astonished at the instant relief experienced from the first application. Another important advantage is the fact that anyone can use the remedy without detention from business or interference with daily oc-

Mr. J. W. Rollins, of Sweet Springs. Mo., writes: "I consider the Pyramid Pile Cure without an equal; it cured me in less than 30 days. I waited 15 flays or more to be sure I was fully cured before writing you; I can new gay I am cured and I shall recommend the Pyramid Pile Cure at every possible opportunity, because it deserves

The popularity of this remedy is such that all druggists now sell it at 50 cents a package, and its sales exceed those of all similar remedies combined. Write Pyramid Drug Company, Marshall, Mich., for their book on cause and cure of piles.

GOD SAVE THE KING

His Majesty's Birthday Celebrated by Britons in Buffalo.

Buffalo, Nov. 11. - Cheers for the King of the British Empire and for the President of the United States were mingled at a banquet, given in honor of King Edward VII.'s birthday anniversary by the Sons and Daughters of St. George last night. Eighty men and women sat about the tables to observe the King's anniversary, and the occasion was taken as a ratification of the King's coronation, as well. It was the first banquet given by the order since the Queen's jubilee, five years ago. On Aug. 4 the order celebrated its 20th year. The membership in Eric County is nearly 600. British and American flags were entwined about pictures of King Edward and throughout the banquet, American and British sentiments were mingled. "The King" and "the President" were alternating

The Carroll Comedy Company at the London.

The Carrol Comedy Company last night opened a week's engagement at the London Opera House, the opening bill being Harry Poulton's famous comedy, "Niobe." A good-sized audience greeted the company, and the frequent applause and laughter showed how well the efforts of the performers pleased the spectators. The chief fun of the play, it will be remembered, arises out of the coming to life of a Greek statue, and the consequent effective of the consequence of the forts of a young husband to lie himself out of what looks like a suspicious situation. The work of Claude Bellport as Peter Amos Dunn, the young husband, was excellent throughout, while Miss Maud Seldon carried the role of Mrs. Dunn cleverly. Miss May Stuttz as Niobe was sufficiently tearful and enticing. The specialties rendered between the acts by the Lynch sisters, Sam J. Roscoe and others were well worth the price of admission. Tobill will be the sensational "Self-Accused." A complete drama, change of illustrated songs and specialties will be given.

BRAIN POWER

How It May Be Strengthened and Increased.

The brain is a great nerve battery that presides over all the powers and impulses of the human body. Very frequently as the result of poor blood it becomes enfeebled, and a general weakness of the entire system fol-

No remedy possesses the marvelous of cases.

It contans an abundance of phosphorus and iron which are essential in the formation of red vitalizng blood, and in this way supplies the brain with extra power to perform its numerous and important duties. Ferrozone is the best peparation for brain workers, and those inclined to a sedentary life. It improves the appetite, insures good digestion, regulates

the bowels, and helps the stomach to do its work. Lawyers, ministers, and those whose occupation entails much thinking and brain labor, will find Ferrozone of immense value, because of its power to stimulate mental activity. Students who take Ferrozone regularly, find it not only clears the brain, and makes it more receptive, but makes them

strong in body as well as mind. A medical student of Toronto University, who has proved the good qualities of Ferrozone, says: "On my study table there is always a place for Ferro-I find by keeping my digestion in perfect order, and mantaining a splendid appetite, it enables me to accomplish a great deal of hard work. consider Ferrozone at the same time food for the brain, the blood and the nerves, and can highly recommend it." Preliminary Estimates for Present Vear Compared With 1901

Washington, Nov. 11.-The preliminary estimate of the average yield per acre of corn, as published in the monthly report of the statistician of the department of agriculture, is 26.8 bushels, as compared with an average water in Saguenay River, to a point yield of 16.7 bushels in 1901, 25.3 busheast of Port Simpson, on the Pacific els in 1900 and 1899, and a ten-year average of 23.4 bushels. The general average as to quality is 80.7 per cent, as compared with 73.7 per cent last year, and 85.5 per cent in 1900. It is estimated that about 1.9 per cent of the corn crop of 1901 was still in the hands of farmers on Nov. 1, 1902, as compared with 4.5 per cent of the crop of 1900 in farmers' hands on

Nov. 1, 1901. The preliminary estimate of the average yield per acre of buckwheat is 18.1 bushels, against 18.6 bushels in 1901, and a ten-year average of 17,2 bushels. Of the seven states having 20,000 acres or upwards under this product. Including New York and Pennsylvania, which, together, contain about three-fourths of the entire buckwheat acreage of the country five report a yield per acre in excess of their respective ten-year averages The general average as to quality is \$8.1 per cnt, against 93.3 per cent

last year. preliminary estimate of the yield per acre of potatoes is 95.4 bushels, against an average yield per acre of 65.5 bushels in 1901 and a tenyear average of 75.9 bushels. Of the states having 100,000 acres or upwards in potatoes, all except New York and Michigan report a yield per acre con-siderably above their ten-year averages. The average as to quality is 30.4 per cent, as compared with 78.4 per

cent in November last. The preliminary estimate of the average yield per acre of hay is 1.51 tons, against an average yield of 1.23 tons in 1901 and 1900, and a ten-year average of 1.29 tons. The present yield is, with the exception of 1838, the highest ever reported by the department of agriculture, and each of the eleven principal hay producing states report an average yield in excess of that of last year, and also in excess of the ten-year average. The average as to quality is 83.7 per cent, against 91.3 per cent in November last. The apple and pear crops are considerably above the ten-year average in nearly all the states in which the raising of these fruits is of any importance, and the grape crop is slightly below such average.

Wasting Away.

Lack of fat in the food is the beginning of a wasting condition. So many people that we meet are thin and keep getting thinner. Perhaps there are some in your own family. Look for the cause and it is more than likely you will find that such people do not eat the fatty portions of their food. They either will not or cannot eat fat, and yet it is the absence of this element in their ordinary food that causes a wasting con-

For such people we offer Scott's Emulsion as containing in the most palatable and easily digested form the element of fat they need. It supplies, and more than supplies, the lack of fat in ordinary food. A small quantity (a teaspoonful for a child and a tablespoonful for an adult three times a day) will enable the body to get the strength and proper fat supply that it

Scott's Emulsion is cod liver oil so prepared that all of it is utilized by the system. Raw cod liver oil is not only repulsive to the taste but only a part of it is taken into the system the weakened organs being unable to digest it all.

The emulsion passes almost immediately through the stomach and into the blood. The stomach is scarcely aware of its presence there. It shows itself first in the nourishment it affords and the new strength that it gives. The weight gradually increases and the flesh becomes firmer. It is the return to health; the stopping of the wasting condition. Scott's Emulsion has supplied the elements of fat that the

body needed. It is not a question of how much you eat or can eat or even of appetite. It is rather what becomes of the food. Does it contain the proper nourishment and the right proportion of fat? If the food does you no good it does you harm, for digestion is work, and when the body is in a wasting condition the stomach must work to some purpose. Scott's Emulsion saves a great deal of this work, and what is more makes it effec-

We place on every package of Scott's Emulsion our trade mark label of a man with a big fish on his back. It is our personal guarantee that the emulsion is right in every respect. If this label is missing you are not getting the genuine Scott's Emulsion, which means that you are not getting the full value of the oil or the kind of a preparation you need.

Three men who were at work on the top of the tower when the fire broke out are reported to have fallen into the river.

OUT OF REACH. Owing to the enormous height of the tower it was utterly impossible to reach the fire with any apparatus in the fire department, and the flames, after devouring all the woodwork on the top of the tower, seized on the timber false work of the two foot bridges suspended from the main cables, burning away the supports until nearly a million feet of blazing lumber fell with a light splash into the stream. The fall of the foot bridge carried away scores of the lighter cables and guys, which trailed in the water, rendering it necessary for the police to stop all traffic up and down the river. The Fall River steamer Puritan and several other craft had narrow escapes while running the gauntlet of fiery brands that fell in showers from the burning bridge. The

fire was the MOST SPECTACULAR CONFLA-GRATION that has ever been seen in New York, the great body of flames being visible all over the city and lighting up the river and shores for miles up and

down the stream. The fire started in a tool shed, in which there were several forges used for heating rivets, and from this spread to the great timber framework, where many casks of oil, tar and other inflammable material were located. Within five minutes after the sure repeatedly burst the hose, and the firemen were forced to retreat to the steel frame of the structure and watch the woodwork burn until the foot bridges fell, carrying with them

sending her helplessly drifting down stream. The Fall River steamer Priscilla, which followed in the wake of the Boody, turned back rather than run the gauntlet of hail or fire and

HURLED INTO THE RIVER. McBride saved himself by catching a piece of projecting steelwork. While the fire was at its height party of firemen were cut off at the base of the tower, where they were exposed to a torrent of brands and red hot pieces of steel. They were

burned. Brands from the tower set fire to the big storehouse of the Pennsylvania Steel Company of the level of the main roadway of the bridge, 125 feet above the water. The storehouse was entirely consumed, and its contents of nuts, bolts, rivets and tools were hurled into the river together with two hoisting derricks on the plat-

ELECTION CASES IN OSGOODE HALL

Petition Denied—Kingston Case Postponed.

Toronto, Nov. 10.-Justice Osler this morning gave judgment dismissing application to set aside the Lennox election petition on a technicality. The motion was heard on Saturday.

The trial of the Kingston election petition has been postponed from Nov. 25 to Dec. 9, at Kingston.

Judges Maclennan and Macmahon leave this afternoon for Owen Sound, to take the North Grey election trial there tomorrow. It is understood that the seat will be declared vacant.

A Lady Says: COMPOUND

Has Been Worth Hundreds of Dollars to Me.

After Eighteen Years of Awful Agony.

All weary and disheartened sick people and those who have lost faith in the remedies they have used in the past, because none of them have given indications of cheering results, should now be filled with a strong determination to make use of the one medicine that cures disease—the new agent of new life that saves hopeless and despairing sufferers after all other agencies and means fall.

The thousands of victims of tormenting neuralgia after reading the testimony of Mrs. G. H. Parker, of Winona, Ont., must see, that to avoid a continuance of suffering and the possibility of sudden death, it is absolutely necessary to use Paine's Celery Compound, the only medicine that successfully banishes neuralgia and kindred nerve diseases. Mrs. Parker

"I have been a great sufferer from neuralgia for nearly eighteen years, and my sufferings at times were so bad that words fail to describle them. After having tried a host of remedies. I was persuaded to use Paine's Celery Compound. I am happy to say that I am now a different woman and completely cured. I can recommend Paine's Celery Compound; it has been worth hundreds of dollars to me."

Business at the Soc.

Detroit, Mich., Nov. 11.-It is almost certain now that the freight tonnage passing through the Soo Canal for the season of 1902 will reach thirty-five million tons. Up to the first of the month the freight for the season had amounted to 30,931,213 tons, an excess over the corresponding month of last year of 6,387,603 tons. With the amount of ore, grain and lumber yet to come down from the head of the lakes, and the large amount of coal that is expected to pass up, the tonnage for the month should reach four which would leave less than 70.000 tons to pass the canal in becomper to reach the thirty-five million mark. October business holds the record for any corresponding month, with 4,618,291 tons of freight.

BRITISH PEER

Shocking Scandal in Higher Circles of Nobility.

THE KING HAD TO TAKE ACTION

Two Persons Sentenced to Prison-At Least Thirty Identified With the Case.

Chicago, Nov. 10 .- A London, England, cable to the Inter-Ocean says: It is impossible entirely to ignore the startling evidence of degeneracy in high places, which is the talk of all London. It is a matter blacker and more extensive than the Cleveland street scandal of fifteen years ago, and involves names of wider than English reputation. So abhorrent is the story so widespread are its ramifications, that it has been decided to burk the full exposure and to avoid, to some extent, a great national disgrace and the pollution of the public mind.

Justice will, therefore, only be partially executed, and in its place will be substituted an unofficial decree of banishment, which will expatriate at least one prominent peer. Another still greater name, which must not be indicated, is, to use the expression employed by the police in the case, tinged by scandal.

THIRTY PERSONS IMPLICATED. No less than 30 persons have already been identified with this infamous coterie. They are nearly all men of advanced years, wealthy, and members of aristocratic families.

The only public action in the case

which has been taken so far was the conviction of two men at the Norwich Assizes last week. Bernard Frazer, a son of Gen. Fraser, a member of the Bachelors' and other swell clubs, pleaded guilty on several counts and was sentenced to ten years of penal Application to Set Aside Lennox servitude. Arthur Thorold, a nephew of the late Bishop Thorold, a tutor at Eton, made the same plea and was sentenced to five years.

The magistrate, Justice Grantham, in passing sentence, said that this was one of the most painful cases that he or any other judge had ever been called upon to try. Here were two men, bearing names that had been honored in the field and forum, and in every branch of life, who had pleaded guilty to one of the most discreditable offenses known to the law. Fraser's case, the judge said, was the worst he ever heard of. While moving in high society, he had been leading a double life and debauching others.

APPALLING FACTS. The judge thanked the British naval captain who furnished the evidence which led to the exposure by intercepting letters addressed to the members of the crew of his vessel. Investigations by the police led to the discovery of such appalling infamy that became a serious question of public PAINE'S CELERY policy as to how far they should proceed in their inquiries, which had led ceed in their inquiries, which had led them to well-known country houses, private yachts, and other quarters of the most wealthy and aristocratic cir-

It was soon learned that the chief figure in this criminal band was a well-known nobleman. It should be said, to prevent confusion with a famous earl, whose name was connected A Happy and Complete Cure street scandal, that the present indiby private gossip with the Cleveland vidual is one of the peers created by Gladstone. He was formerly a member of Parliament, and at that time was regarded as the handsomest man in the House of Commons. He has held high office, and married the daughter of one of the wealthiest families in the world. He is also rich in his own

This matter assumed such ominous shape that, according to the current version in clubland, it was brought to the attention of the King. His majesty's decision was that the offending peer, who is now ill, must leave England as soon as he is able to travel never to return.

ANOTHER SENSATIONAL CASE. Perhaps it is a mere coincidence that sensational narrative should be published, just at this time, credited to a clergyman, "whose name is renowned throughout England, and who is a near relative of a member of the pres-ent Government." He was summoned ne evening to Richmond, which is London's most aristocratic suburb, to the bedside of a dying girl. He was conducted by the back way to a large mansion, which was apparently dark and was situated on extensive ground. GIRL'S DYING STORY.

The girl told a terrible story, the details of which have not been disclosed. The girl died before he left. He refused to accompany an attendant to the rear when he descended, but went through the front rooms, where he found an orgy going on. Many men were being entertained by very young girls. Fully twenty men servants in gorgeous livery were scattered about He paid no attention to these people at first, but presently he saw a drunken, decrepit man of at least 70 of age speak to a mere child. The girl shrank away. The master of the establishment, who has since been identified as a certain French vicomite, signaled to a footman, who seized the girl and carried her from the room. The child screamed and struggled violently. Thereupon the clergyman stepped up to the manager, and asked him what he meant by such brutality, and what was the meaning of the whole conduct of the house. The reverend narrator concludes his

story thus: "I have never seen such amazement as was depicted on the faces of all those present, and I am firmly vinced that I owe my life to the presence of two individuals who, if are depraved, are at least men, but each. I regret to say, is a member of one of the Houses of Parliament. left the house, not only with the girl mentioned but with two of her companions who, rushing up to me, claimed my protection."

A Sure Cure for Constipation. Some remedies cure this distressing complaint in a day, some in a month, but Nerviline never falls to cure in a few minutes. Just ten drops of Nerviline in sweetened water—that's enough, and away goes the dysentery, cures to stay cured. Nerviline also cured cramps, colic, pain in the stomach and sick headache. It has five times the strength and curative properties of ordinary remedies, and should be in every household. Better

"Canada values highly the measure of local independence which has been granted it from time to time by the Imperial authorities, and which has been so productive of beneficial results, both as respects the material progress of the country and the strengthening of the ties that bind it to the motherland. But while for these reasons the Canadian Ministers are obliged to withhold their assent to the propositions of the admiralty and the war office, they fully appreciate the duty of the Dominion, as it advances in population and wealth, to make more liberal outlay for those necessary preparations of self-defense which every country has to assume and bear. That the taxpayrs of the United Kingdom st desire to be relieved of some of the burdens which they bear in connection with military expenditure is quite reasonable. Kitchener at the 'Phone.

[London Chronicle.] Some few months after "K." as Tommy calls Lord Kitchener, had taken over command from "Bobs," he had occasion to visit some blockhouses which were in course of erection just towns. One, he noticed, had been put up in a rather exposed position, and he therefore ordered trenches and sangars to be thrown up at once, in order to strengthen it. one of the blockhouses-they are all connected by telephone-he rang up the officer commanding a unit in the town when the following dialogue took

C. O.-Yes, sir. K.-I want a working party, 50 strong, with entrenching tools, to be

s WILFUL MAKES WOEFUL

That old copybook maxim finds its most forceful application in the waste of vitality, which is called "burning the candle at both ends." A woman is often tempted beyond her strength by domestic or social demands. Some day she awakens from this waste of strength to the woeful want of it. She has become weak, nervous and miserable.

For weak, nervous, run-down women, there is no better tonic and nervine than Dr. Pierce's Favorite Prescription. It restores the appetite, quiets the nerves and gives refreshing sleep. It cures local diseases peculiarly womanly which undermine the general health. It makes weak women strong, sick women well.

"No doubt you have forgotten me, but after writes Mrs. Annie E. Moring, of 238 7th Avenue, S. W., Roanoke, Va. "In the year 1897, I wrote S. W., Roanoke, Va. "In the year 1897, I wrote to you for advice, which you gave me free of charge. When I wrote to you I was a wreck; I could not walk straight for pains in my abdomen; could not sit down, lie down, or get any ease at all. I had what was called the best door here, but did not get any better until I went through a course of your medicine. I took eight bottles each of 'Favorite Prescription' and 'Golden Medical Discovery,' and ten bottles of the 'Pleasant Pellets.' I tell you the medicine made a cure of me."

Weak and sick women are invited to consult Dr. Pierce, by letter, free. All correspondence is held strictly private. Address Dr. R. V. Pierce, Buffalo, N. Y. Dr. Pierce's Pellets cure biliousness.

O. (stammering)-Very good, sir. That working party was mostly bandsmen. Kitchener had heard the music vibrating on the telephone instrument.

Begins at Home. [Toronto Telegram.]

The failure of the colonial conference may do something to acquaint Canadians with the mighty truth that imperialism begins at home. In time of war Canadians must direct their energy to the point of danger to the empire. In time of peace their energy is needed at home, and in such times Canada will do her share of work for the empire, if she settles on right lines the great problems raised by her own development.

CLOSING HOURS OF NOTED TRIAL

The Counsel in Molineux Case Address Jury.

QUESTION OF MOTIVE ARGUED

Prisoner's Counsel Attacks the Witness Cornish-District-Attorney Osborne's Reply.

New York, Nov. 10.-The criminal branch of the Supreme Court opened today for the closing scenes in the second trial of Roland B. Molineux for the murder of Katherine J. Adams on and the afternoon session will be start-Dec. 28, 1898. Hundreds failed to gain admission. Visitors were formed into line four deep, and compelled to show their cards of admission. At least 70 per cent were women, and most of them had cards of admission from Mason and Perry Both Held in Conthe jurors or from the lawyers in the case, or from attaches of the district attorney's office. As a consequence, before the time for opening the court arrived, every seat was occupied, the reporters' tables were overwhelmed, chairs blocked the aisles, ings involving George L. O. Mr. Black then took up the evidence ming up in the Molineux trial, declare: "There was a crime and there was a motive, and the motive points to Harry S. Cornish. Mr. Black laid Mason. great stress on Molineux's willingness and asked to give a story of his to write for the prosecution, when he was under suspicion before his arrest, and argued that it was remarkable that the experts had found few points

her subsequent divorce. "Mrs. Adams, Mrs. Rogers' mother, was a good woman," Mr. Black said. "Do you think she looked with complaisance on the conditions that prevailed? There is motive, the great consuming motive force for all things. The motive Cornish had against the life of Mrs. Adams, compared to the motive Molineux had against the life of Cornish, was as the volcano of Martinique to the lapping of waves against the Statue of Liberty in our own harbor."

Mr. Black called attention to evidence that the purchaser of the bottle holder in which the poison was sent, said that he wanted the holder to match the silver on a lady's toilet table, and from that he argued that the purchaser knew the pattern of Mrs.

Mr. Black traced Cornish's actions after Mrs. Adam's death. "Were his actions those of an honest man?" he ed. "Why did he not go home and Mrs. Rogers in her trouble?" "No; asked. wanted to pose. He showed himself to his chemist friend, Yokum, and then went to bed in Yokum's room at the club. Then he called in five friends to tell how sick he was. What else did he do?" He stayed from the Adam's flat until after the funeral. He never dared to face the dead woman. Ex-Governor Black declared the case against Cornish far stronger than the case against Molineaux. "Every fact in the case," he said, "points to Cornish, and nothing to Molineaux. Mr Black closed at 3:25 o'clock, having spoken three hours and fifty-five

minutes. District-Attorney Osborne, in opening for the prosecution, ridiculed the theory of the counsel for the defense that the death of Mrs. Adams was the result of a deliberate design by Cornish, and argued that it would be absurd to suppose that Cornish would go down town to mail a package to himself. "It is not disputed by the defense," Mr. Osborne went on, "that the three Cornish letters and the poison packages were written in the same handwriting. Well, look at the corner that Governor Black has himself in by trying to show that Cornish is the criminal. Cornish must have taken the address from parcel, and then have got a writer to write three letters for him and signed 'H. Cornish' to them.

Although the medicine business should, above all, be carried on with the utmost conscientiousness and sense of responsibility, the unfortunate fact is that in no other is there so much humbug and deception. The auxieties of the sick and their relatives are traded upon in the most shameful manner; impossible cures are promised; many preparations are abso lutely worthless, and some are positively dangerous to health.

As a consequence, all proprietary remedies are regarded with suspicion by many people, and the good suffer for the bad

That writer would own Cornish body and soul, and could hand him over to the law for conviction and electrocution. Is it reasonable to suppose anything of the sort. If ex-Governor Black's assumptions are true," Mr. Osborne said, "Cornish, without any necessity for doing so, handed over to the authorities the only means of tracing the crime to him, and his associates, the poison wrapper, the poison and the silver holder. Is that

a fair reasoning?"

The insinuation that a motive for murder of Mrs. Adams could found in Cornish's feelings for Mrs. Rogers, the prosecuting attorney said, was not worthy of consideration. All the evidence, he said, showed that Mrs. Adams and Cornish were on the best of terms, and he added that there was nothing against Mrs. Rogers' character except the insinuations of the defendant's law-

At 6 o'clock Justice Lambert announced a suspension of the proceed-ings until the morning. Mr. Osborne said that it would take three hours to finish his address, but Justice Lambert said he would allow him only two and a half hours. That will take him to the time for adjourning for lunch, ed with the charge of Justice Lam-

PRAISE FOR THE COLONIALS

They Are No Sleeping Partners in the Imperial Firm-The Kaiser's Visit.

London, Nov. 11 .- The annual ban-

quet given by the lord mayor of London was attended last evening by about 1,000 persons. Among those present were members of the cabinet and of the House of Commons, foreign ambassadors and city dignitaries. Premier Balfour, replying to the toast, "His majesty's ministers," referred to the splendid services rendered by the colonies during the South Arrican war, which showed, he said, that that they were not sleeping partners in the imperial firm. An unanswered question, however, was whether the war would be followed by a not less successful peace. The premier said he looked to the future of South Africa in a hopeful, but not a oo sanguine spirit, ars every source of wealth there was practically dried up. He said he believed much good would come of Colonial Secretary Chamberlain's visit to South Africa, which would be only the first of a long succession of such visits. He said time was not ripe for closer constitutional relations between the colonies and the mother country.

Mr. Balfour declared that he knew

nothing about the "fartastic bar-gains" invented by the press upon the occasion of the visit of a great and friendly sovereign to his nearest relatives. Emperor William, according to the premier, had no political motives in coming to see King Edward. SITUATION IN SOMALILAND. Dealing with the situation in Somaliland. Mr. Balfour said that waterless wastes and fanatics were always difficult problems to deal with, but that the Somaliland question was not of

great importance in the national development except as it brought into "high relief the friendly feelings of Italy toward Great Britain. He said that he believed that Port," there is a negro quarter where every great power in Europe was not produced at this trial, and commented upon it at length. > THE LORD MAYOR'S SHOW. Yesterday, for the first time in the history of London, the lord mayor's procession traversed the unfashionable decks of the Luxor were a foot deep Petticoat Lane, in th heart of the Ghetto, in recognition of the Jewish ancestry of Sir Marcus Samuel, the new lord mayor. Jewish London, especially, celebrated the event. The poorest inhabitant of Whitechaped and Houndsditch were banqueted at the expense of their

wealthier co-religionists. The quaint annual progress of the chief executive of the city through the streets of the metropolis was probably more brilliant than usual. Seven richly-decorated floats and fifteen bands, representing crack regiments, together with the city officials and the London guilds, made up a goodly pageant. A unique feature was a float representative of the Anglo-Japanese alliance, surmounted by the arms of both countries, and surrouned by a guard of Japanese and British bluejackets. The procession traversed the principal streets of the old city of London to the law courts, where, according to ancient custom, the lord mayor was formally presented to the lord chief justice and was sworn in.

PALL OF VOLCANIC ASHES

The Remarkable Experience of a Steamer at San Benito.

Thirty Tons of Ashes From Mt. Quemodo Fell on Her Decks.

San Francisco, Nov. 11.-The Kosmos line steamship Luxor, from Ham-burg, reports an unusual experience at San Benito, the lowermost port of Mexico, Oct. 25. Thirty tons of volcanic ashes from the volcano of Mount Quemado fell on the decks while she was anchored off shore awaiting lighters that were to be used in transferring cargo.

Without warning the sky darkened until it acquired the blackness of a starless night. Then began a rain of soft pumice-like ash which soon covered the liner's decks to a depth of several inches. Ashore Capt. Timmerman learned later the inhabitants were figuring on seeking a refuge aboard the Luxor, but no navigator could be found with nerve enough to venture forth in the unnatural darka great instrument of peace and which is destined to play an even greater part in the progress of civilization of part in the progress of civilization of than it has during the sea. He at length granted their praywithout going through any formality at the custom house. The fall of

Mount Quemedo, from which the ashes came is about seventy miles from San Benito. When thirty miles at sea, after leaving San Benito, all on board the Luxor heard deep detonations and felt repeated earthquake shocks. There also was a visitation of myriads of birds and butterflies. Where a depth of five fathoms formerly existed in the harbor there is now a depth of seven fathoms, and the beach has been shortened by the seismic disturbances. The course of the river or creek that formerly ran into the sea near the wrecked piers has been changed, and there are other evidences of violent subterranean quaking.

Gerald Sifton has been saved from to be married—murdered him in order to prevent the old man's estate from passing into other hands—was very strong, both directly and circumstantially. The young man Herbert, in Gerald Sifton's employ, swore that Gerald had bribed him with a promise of \$1,000 to assist in putting the elder Sifton out of the way, that he (Herbert) had begun the horrible work by hitting the victim on the head with an hitting the victim on the head with an axe, that Gerald had also struck him several blows on the head with the ory?

Hamilton Herald Comments Upon that the condition of the skull was last seen in London as a member of quite consistent with Herbert's story. Alberta Gallatin's "Nell Gwynne" quite consistent with Herbert's story. But there was sufficient conflict in the "expert" testimony to raise a doubt in the minds of the jurymen; and as it was their duty to give the prisoner the benefit of any doubt, they acquitted him.

That there has been a miscarriage death on the gallows by "expert" of justice in this case will no doubt be medical evidence. The evidence that believed by many, who will consider he murdered his father on the morning of the day that the old man was to be married—murdered him in order the man who confessed to having been

Sir A. C. Mackenzie Will Conduct Kelcey and Shannon Are, as Usual,

Sir Alexander Campbell Mackenzie, England's greatest hving composer, who is principal of the London Royal Academy of Music, whence Arthur Sullivan sprang, will conduct the singers of this city next April. Mr. Charles A. E. Harriss is here making all preliminary arrangements that London may be included in the cycle of musical festivals, which commence at Halifax, and terminate at Victoria. Festival choruses have been formed in all of the principal towns, and aggregate upwards of tour thousand voices. The soloists come from England; the orchestra numbers 50 performers, Sir Alexander Mackenzie taking the conducorship in each town, these choruses being trained during the winter months by a local associate conductor. It is a stupendous work on behalf of musical progress all over the country, of such far-reaching a purport, that induced Sir A. C. Mackenzie to leave London and his busy life for a month and associate himself with Mr. Harriss in this effort.

These festivals will include newlyorganized choruses in nearly all the provinces. The works of British composers will be a feature of the festivals, choral and orchestral compositions given in their entirety by such eminent composers as Villiers, Stanford, Hubert Parry, Arthur Sullivan, Frederick Cowen, Edward Elgar, Alexander Mackenzie and many others. The choral works to be given in Canada will include Mackenzie "Story of Sayid," Mackenzie's "Dream of Jubal," Mackenzie's "The Cotter's Saturday Night," Parry's "Ode to Music," Parry's "Blest Pair of Sirens," Parry's "Ode on St. Cecilia's Day," Cowan's "Coronation Day," Cowan's "Ode to the Passions," Stanford's "Re-venge," Stanford's "Battle of the Baltic," Coleridge Taylor's "Hiawatha," Elgar's "Banner of St. George," El-gar's "Coronation Ode," "Scandinavian Symphony," Stanford's "Irish Rhapsody," German's "Gipsy Suite," Cann's overture, "The Land of the Mountain and the Flood," Sullivan's overture, "Di Ballo," Mackenzie's overture, to the opera, "The Cricket on the Hearth," Mackenzie's suite, "London Day by Day," Mackenzie's "Scotch Rhapsody" (No. 1), and Burns' "Scotch Rhapsody" (No. 2), Mackenzie's "La Belle Dames Sans Merci," Mackenzie's "Britannia" overture, and Mackenzie's "Coronation March." It will be seen that the music covers a wide and varied range.

-The proprietors of the Britannia and Sadlier Houses will answer to a charge of selling liquor after hours and of having more than one bar in their hotels, at police court tomorrow morning. Sergt. FROM OCEAN TO OCEAN AN EFFECTIVE PRODUCTION

Cycle of Musical Festivals To Be | Sherlock Holmes Pleased Every Member of Audience.

Surrounded by Admirable Support.

It is doubtful if there was a single member of the audience at the Grand Opera House last night who failed to thoroughly enjoy the fine production of William Cillette's melodrama, "Sherlock Holmes," as presented by Mr. Herbert Kelcey and Miss Effie Shannon, assisted by a clever and evenly balanced company. It is alto-gether regrettable that these two favorite players should have come to London and been confronted by a house which was not nearly commensurate with the merits of the attraction. The large sale for the Scotch concert of tonight is alleged as a reason for the inadequate patronage extended to last night's attraction, this can hardly be taken as a sufficient excuse for the action of Londoners in slighting two artists whose productions are always clean, pleasing and presented with a careful attento details which make them doubly delightful to the critical play-

goer. In "Sherlock Holmes," Mr. Gillette has given to the stage an absorbing play and an extraordinary character. The plot is partly taken from Conan Doyle's "A Scandal in Bohemia," partly from an unpublished story by the same author, and is partly supplied by the dramatist. Other of Doyle's stories have been called upon to furnish portions of the dialogue. The gentral figure of the play retains the superhuman powers and unique personality with which he was invested by his creator, Dr. Doyle, but Mr. Gillette has, for stage purposes, endowed him with a heart, thus adding the popular element of a love story. While the drama has its weak spots, it forms on the whole a logical sequence of events, and its impossibilities are only those arising out of the fact that its hero is an impossible man.

From the roles of the two principals

to the most minor part, the cast was a meritorious one. Mr. Kelcey's work as Sherlock Holmes was a surprise to those who had hitherto seen more conventional impersonations. He

was the careless, cool, calculating and saturnine detective to the life, and it is a tribute to his clever handling of the role that Holmes' exhibitions of his supernatural powers were made to seem perfectly credible and natural. Mr. Kelcey's playing of this role is another proof of his possession of a versatisfy and resource which place him among the most capable actors of the day.

OFFICIAL ISSUER OF MARRIAGE licenses, C. D. Johnston, 198 Dundas street. Residence, 394 Dundas street.

One of the few faults to be found with the play is that it gives Miss Effle Shannon too little opportunity for the display of her ability. Miss Shannon's personality is too winning and her art too exquisite to be submerged in such a role as that of Alice Faulkner.

Mention of the best members of the support would simply be a recapitula-tion of the cast, for all were satis-factory. George T. Meech as Dr. Watson, assumed the professional manner to perfection. David Davies had both the face and the ability to enact Professor Moriarty, the arch-criminal. Miss Lorina Atwood was striking as the adventuress, Madge Larrabee, and James Canfield made a good villain, or rather, a bad villain. Allen Davenport, who played the part of Bassick, Moriarty's lieutenant, was Company. W. R. Walters, Harry Walters and Percy Campbell were as fear-some a trio of thugs as one would wish to meet on a dark night in a blind alley. Walter McArdle proved himself a talented boy actor in the role of Billy. Miss Winona Shannon made a fetching French maid.

The scenery and properties were elaborate and complete in every de-tail. The electrical effects were marvelous and to them the production owes a large part of its effectiveness.

Drive It Away Once and for All. So many ailments come from the improper digestion of food that it is almost impossible to overestimate the value of having the stomach in good working order. That headache that makes brain work an impossibility, that heartburn, those pains in the stomach are only some of the symptoms of Dyspepsia, that nerve de-stroying terror of these days of hurry and bustle. Nearly everyone has it in some shape or other and many do not know that it can be easily and permanently cured. It is to these that Marie Ann Bujold, of Bonaventure County, Quebec, wants to talk. every now and then that Kenneth should hathe his inflamed eye.

All the brightness had suddenly seemed to go out of the day for Alice when she saw the two leave the grounds together, and she had been distracted and absentminded throughout the rest of the game; but now, as she peered in upon the unconscious couple, her heart was filled with a bitter and jealous rage such as she had never experienced before,

"One would think they had known each other from childhood by the way they chatter," she angrily muttered, as she listened for a minute or two to their conversation; then she turned away and walked back to the house, determined to give Bess a piece of her mind when she did come in.

But she did not have the opportunity

she desired for another full hour, during which her anger and jealousy had a chance to become considerably augmented until, when the fair culprit finally did appear, it ended in the above spirited

outburst.
Queen Bess opened her large dark eyes in wondering amaze.
"Dear me, Alice! what have I been doing that is so bold and forward?"
"I don't think you need to ask, after the way you have conducted yourself this morning—making a spectacle of yourself before two hotels full of people, with a young man kneeling at your feet, and then marching off alone with him before their very eyes, and filrting for more than two hours in a way that ought to make you blush." make you blush."

"It contains a maxim that you would do well to bear in mind."

Bess lifted her head with indignant hauteur and confronted her companion.
"I have done nothing either bold or forward. I have never been guilty of firting with anyone," she replied, spiritedly, although there was a tremor of wounded feeling in her voice. "Mr. Kelth was in agony from the mote in his eye," she went on, "and, as you know, eye," she went on, "and, as you know, no one else was willing to try to do anything to relieve him. I felt sure that I could get it out, for I remembered how Uncle John had removed a cinder from mamma's eye last spring. Was there anything bold or forward in my doing so?"

"No, indeed. Mr. Keith, you must do no such thing." Queen Bess said, with sperty air of authority. "Your yet is practive air of authority. "Your yet is fill very red—you will get heated by running and make the inflammation worse. You ought to go directly to the house and bathet it with cold teal." Keeneth asked; then with a twink mealing on his face, with a cold teal is that good mirth gleamed; then with a twink mealing on his face, in the idea of my taking on his face, in the whole world had been there to see mid to me." Said the young girl, proudly, "I thought only of relieving him of that term with the whole world had been there to see the whole world had been there

and with no thought of concealment; while as for chatting with him in the summer-house, there were forty people in the grounds who were constantly passing and repassing."

"Elizabeth Marchmont, I think you are the boldest and most forward girl I ever knew, and I consider it my duty to tell mamma how you have been carrying on with a perfect stranger."

This indignant outburst was from Alice, two hours later, when Bess came into her room looking flushed and happy, for she had been with Kenneth nearly the whole of that time.

And hour later the two had left the tennis ground, the game having ended, Alice, in no enviable frame of mind, had returned to her own hotel. Not finding Bess there, she had strolled out into the community of the room.

She had been guided thither by the sound of Bess' gay laugh, and not wishing to be seen herself she had stolen softly up to the place, and, peeping in between the vines and shrubs which grew all about it, she had seen the runaways having a

A GAME FOR NORMALS. The Normal School football, team put up a star game yesterday afternoon at St. John's athletic grounds, when they turned down the collegiate team in the keenest contested game of the season. The game was rather late in beginning, and lasted only 50 minutes, the last few minutes being played in darkness. During the first half the honors were about equally divided, but in the last 20 minutes the teachers had things all their own way, and kept the ball continually near the collegiate goal. Shortly after the second half began the ball was neatly carried to the south goal and a strong kick from Buchanan made the only score of the game. This set the collegiate going and thereafter the game was not absolutely devoid of roughness, but in spite of the hard playing of Downing and O'Grady, on the back

AND ALL DISORDERS OF THE LIVER. Dr. Radway & Co.—As an introduction I must make the following remarks; Had each one of the lawmakers of our country, the virtues and power of your pills, America would soon become a paradise. That your pills would conquer the obstinacy of my complaint is more than wonderful. The movement of my bowels is as regular as the works of a good watch. I began with four pills and decreased to two, and for a long time took one two hours before dinner, and have a watery movement of the bowels every morning. It is seven weeks since I have taken any of your pills, but still have regular movement every morning. Kind gentlemen, I wish further to tell your A poor washerwoman that suffered from a tumor and would have paid \$150 for an operation, I dissuaded from doing so. One to three of Radway's Pills one in twenty-four hours will secure regular evacuations from the bowels. Persons who for twenty years have been compelled to use injections have been cured by a few doses of Radway's Pills.

True Comfort for the Aged and Others Afficted With Costiveness and Paralysis of the Bowels.

Persons advanced in life often suffer from indigestion, and from paralysis of inability to evacuate from the bowels; likewise from urbal difficulties. We have the evidence of a large number of aged persons from 50 to 50 years of age, who have been cured of this defect who had been compelled to resort to injections to empty their bowels, by the use of Radway's Pills. Two or three pills every night in all cases insure a natural evacuation from the bowels and the regular flow of urine. In cases where there is irritation of the bladder the Resoivent should be used alternately with the pills. If these organs are kept regular life may be extended to a much longer period. By keeping the liver, stomach, bowels and kidneys in a healthy condition, the blood will continue pure and dissolution be checked. If Redway's Pills and Resolvent are used by the aged, life will be prolonged to the full measure of time. Another great end is secured by nourishing the body with these remedies—the faculties will remain in a healthy condition. and constantly increasing majorit, of the American people are catarrh sufferers. This is not entirely the result of our changeable climate, but because modern investigation has clearly proven that many diseases, known by other names, are really catarrh. Formerly the name catarrh was applied almost exclusively to the common nasal catarrh, but the throat, stomach, liver, bladder, kidneys and intestines are subject to catarrhal diseases as well as the nasal passages. In fact, wherever there is mucous

IMMENSE AUDIENCE HEARS REV. CHARLES M. SHELDON

First Methodist Church Crowded to the Doors.

Famous Preacher-Author's Views for World's Betterment.

The interest felt in London in Rev. Charles M. Sheldon, his work and methods, was shown last night when the widely-known preacher-author visited London for the first time. He gave a lecture at the First Methodist Church, which was listened to by one of the largest audiences which has ever assembled in this city. The church is the most commodious structure in London, but big as it is, it was not big enough to accommodate the termendous crowd which sought ad-

mittance.
Mr. Sheldon deeply impressed his hearers. He gave them an idea of some of the things which he would have if the world is to be better. For instance he is a Christian Socialist in that he thinks that the great necessities of life, the coal, iron, oil, water supplies, transportation and such things should be the people's. He believes that it is right and Christian that the common physical necessities of life should be owned by the people and be within reach of all, so that all might live in physical comfort and physical happiness. This is one of his ideas regarding a better world. He ideas regarding a better world. He platform with him. During the even-presented, also, seven others last night. ing Mrs. Calder-Stock and Mr. Garthe-He believes that denominationalism

has reached its limit in doing good. It would be better now, he contends, for the churches to get together on the fundamental basis of the love of God and fellowmen and fight the prevailing sin, not quarrel about creeds and dogmas.

Mr. Sheldon is also a great believer in working among the children and the young people, as the fate of the church of the future rests with these. Out in Kansas in his own church, he preaches only one sermon a day to the grown people. He tells them to stay at home in the evening enjoying pleasures of family life, reading God's word and studying the problems of humanity for themselves-while he lets the young people have the church in the evenings, and lets them conduct the service themselves.

Mr. Sheldon would improve the newspapers of the country and strengthen them so that they would stand up for righteousness. People should also act together politically, he said, and each should do his share towards doing away with the drink evil. Mr. Sheldon's opinion is that the

fundamental method of bettering the world is by raising the plane of the nation's home life, which is the root of the Christian life. He said that a good home meant a profoundly religious, strong, virile Christian life. Rev. Mr. Sheldon came here in the interests of the building fund of the Wellington Street Methodist Church. The pastor of the church, Rev. R. D. Hamilton, presided last night and Rev. Messrs. D. S. Hamilton, Bishop. Johnston, Birks, Claris, Allin, Learoyd and Dr. Eby, of Alliston, were on the

No Understanding With Him Regard- Successful Meetings in North Dorchesing Leniency.

It was stated at Toronto yesterday wright that there was but one thing to do with Walter Herbert, the sent-confessed slayer of Joseph Sifton, and that was to sentence him to be hanged. But he added that the sentence might be commuted, or he might even be pardoned. Herbert would remain in custody, Mr.

Lively discussion, and many of teaching and methods of improving the local association.

A grand entertainment was held in Harding's hall in the evening. Mr. R. W. Dillon, editor St. Marys Argus, occupied the chair. The Haynes and Thomson quartets did grandly. Miss Luella Haynes, possessing a rich soprano voice, charmed her hearers by two solos. Miss Lila Thomson sang is little doubt that the event will become a permanent feature of the so-Taylor and Mr. Arthur Garthwaite. bert would remain in custody, Mr. his case would go over to the winter There was not the slightest understanding with him that he would be dealt with leniently if he confessed. "People forget," said Mr. Cartwright, "that we have no power here to make any bargain with such a man even if we had the desire. We must prose-cute until a man is sentenced or ac-

quitted. After that any leniency which may be shown must come from the Dominion authorities. It is out of our hands entirely. When a man confesses he must do so entirely on his own responsibility, and he can have no assurance of help." What perplexes Mr. Cartwright most is that the crowd should have ap-plauded when the verdict was given.

It recalled to him the Clara Ford incident in Toronto. "Surely it shows a strange perverseness of public sentihe said. Mr. Johnston, who defended Sifton, was in good spirits over the result of the trial. Asked what was to happen Herbert, he replied:

"Oh, he is safe enough. The crown, after using an accomplice as a witness, rarely, if ever, prosecutes. It was never intended to punish Herbert, and I have not the slightest doubt from what I know, that Herbert has been protected from the beginning." "But did he not confess voluntarily

before being approached by the crown?" was asked. "Oh, don't you believe anything of that kind," answered Mr. Johnston, promptly, looking over his glasses, as is his wont. "There has been such a remarkable zeal on the part of one or two local officers of the crown against Gerald Sifton that I can easily understand his position to be perfectly safe in giving evidence against the prisoner. Besides that, the jury finding Ger-ald Siften not guilty has, in effect, also declared Herbert not guilty. The membrane there is a feeding ground for only charge the crown could now against Herbert is that of perjury, and the crown could prove that only by calling Sifton, and then it would be oath against oath, in which case a conviction could not be obtained."

"Coulid Sifton be asked questions which incriminated himself?"
"He could be compelled to answer It has been known for some years that the radical cure of catarrh could never come from local applications, but from an internal remedy. murder is concerned he is now absolutely safe. The proper course for the prosecution now to follow is to re-lease Herbert on suspended sentence, so that if they become possessed at any time of other evidence indepen-dent of Herbert himself he could be tried, although he has pleaded guilty, and notwithstanding the jury's finding a verdict of not guilty in the Sifton trial. This is not unknown in the

history of joint charges." "Does not the jury have to pass on a prisoner before he can be convicted murder, even though he pleads guilty?" was asked. "A judge may not accept a plea of guilty in a murder case without fur-ther investigation, but he has power accept the plea and pass sentence of death. I don't think there will be any proceedings taken against Herbert, and very likely his own bail will be accepted."

Many a Girl Falls a Victim of Ills Which Affect Health and Happiness All Through Life.

Dr. Chase's Nerve Food.

Just on the threshold of womanhood that trying period when the whole system is undergoing a complete change, many a girl falls a victim of Chlorosis, or green sickness. Her disposition changes and she becomes morese, despondent and melancholy. The appetite is changeable, digestion imperfect, and weariness and fatigue are experienced on the slighest exertion. Blondes become pallid, waxy and puffy, brunettes become muddy and grayish in color, with bluish black rings under the eyes.

Examination shows a remarkable decrease in the quality of the blood. Iron and such other restoratives as are admirably combined in Dr. Chase's Nerve Food are demanded by the system. The regular and persistent use of Dr. Chase's Nerve Food cannot fail to benefit any girl or young woman suffering from chlorosis, feminine irregularities or weakness resulting from poor blood and exhausted nerves. reconstructs wasted tissue, gives color to the cheeks and new vitality to
