## MR. T. A. SMITH IS HONORED

Sons Of England Present  
S. V. F. With An  
Address

### HELD OYSTER SUPPER

The regular meeting of Thames Lodge, No. 101, the Sons of England, was held Monday evening, when the Supreme Vice-President, Bro. T. A. Smith, paid his official visit. During the evening the following address was presented to Bro. T. A. Smith:

Chatham, Nov. 5th, 1906.  
T. A. Smith, Esq.,  
Chatham, Ont.:

Dear Sir and Brother,—On this, the occasion of your official visit, your brethren of this Lodge of the Sons of England, take the opportunity of congratulating you on your election to the high office of Supreme Vice-President, an honor which we, as brethren, share with you. When we council is required and work to be done to foster, maintain and expand the charitable fields and functions of our noble order, your willing and cheerful services can always be relied upon, with no selfish object in view, except the good of humanity, and the brethren of the Sons of England.

We also take this opportunity to thank you and your good lady, for your entertainment of the Grand Lodge delegates at your beautiful home, thus helping to make the convention in Chatham a success.

We especially desire to extend the good will and respects of our Lodge to Mrs. T. A. Smith, who when you are absent on your official duties, will lose your kindly presence.

We trust you will have good health and be the means of cheering and building up of the weaker lodges. We are, yours fraternally, on behalf of Thames Lodge, No. 101: W. A. Moore, W. President; Arthur Fenning, Secretary.

After the routine business was disposed of, the members to the number of about one hundred sat down to an excellent oyster supper. The following program was given:

In replying to the toast of Supreme Lodge, Bro. T. A. Smith spoke in his usual clear and concise manner of the good of the Order. In his remarks he gave the members of the Lodge an idea of the great benefits to be derived by Englishmen joining the Sons of England. He pointed out to the members the great advance in numbers made by the society in the last few years, and the great benefits received from the beneficiary department.

The Worthy President, W. A. Moore, was chairman after the supper, a part which he very ably filled.

## HON. ADAM BECK WILL COME TO CHATHAM NEXT WEEK

Meeting Of Citizens Will Then Be Held To Discuss Niagara Power—Ald Austin Receives Letter From Secretary Of The Commission—Chatham's Chances

Ald. C. Austin, of the Industrial committee of the Council, is at present in correspondence with Mr. A. V. Bax, secretary of the Hydro Electric Power Commission, with a view to gathering all the information possible relative to the matter of Chatham making application previous to the Council making any definite action. Ald. Austin has received the following letter from Mr. Bax:

Toronto, Nov. 6, 1906.  
Ald. C. Austin,  
Chairman, Industrial Committee,  
Chatham, Ont.

Dear Sir,—Replying to your letter of recent date, would say that the Power Commission is now estimating a cost of delivery of power as far west as London; but up to date the demands for power west of London do not warrant estimates being made. The only application yet received under the Act for the district being as follows: Parkhill 500 horse power, Leamington 250 horse power, Luan 200 horse power, Cutham 500 horse power, Windsor 3,000 and 5,000 horse power.

Should Chatham and other large centres make bona fide requests for power, it is probable that a reasonable price can be obtained.

Yours truly,  
ARCHIBALD V. BAX,  
Secretary.

### BIG DOCKET YESTERDAY

Gus Smith came up at the Police Court yesterday morning charged with damaging property, and was remanded until the 14th.

Wm. Cowan was charged with being drunk and was fined \$5 or ten days in jail. He took the days.

Wm. Daly, of Tilbury, was fined \$5 in all for being drunk. He paid.

Katy Duly, who is charged with theft, was remanded until next Wednesday.

The three boys who broke into Zakoor's restaurant were to come up, but only two of them put in an appearance. They were remanded until the 14th.

Wm. Gordon, who was up on the check cashing charge, was allowed out on suspended sentence, providing he pays the costs. He will make an effort to raise the money.

### SHELVES CAVED IN

Mr. George Higley, now manager for the Wallaceburg branch of The Two T's clothing house, was in the city last evening calling on friends.

"I had quite an accident this afternoon," said George. "You know, we have been stocking the Wallaceburg store up with our up-to-date fall and winter men's wear, and the place is taxed to its utmost capacity. The shelves have more to carry now than they ever had before, I guess.

This afternoon I heard a cracking sound as though something was giving way, when first thing I knew over came all the shelves on one side. I thought the whole side of the store was caving in. Say, it made an awful mess, but fortunately nothing was damaged, as I had just left the side of the store a few moments before. If I had been under that cave-in I would likely have been in for quite a jamming."

Mr. Higley says that he likes Wallaceburg O. K., and that the branch store is doing a rushing business already.

### DARLING—RUDLING

A pretty wedding took place at the home of Mr. and Mrs. George Rudling, Raleigh St. 1st evening, when their eldest daughter, Miss Lilly, was united in marriage to Mr. Arthur Darling, of Harvey St. The ceremony took place at 7:30, Rev. J. W. Hoyt officiating. Prof. W. Dolman rendered the wedding march.

The bride was Miss Hazel Rudling, while the groom was assisted by Mr. George Rudling. The bride was attired in a costume of grey voile, trimmed with all-over lace and ribbons, and she carried a bouquet of pink flowers. The bridesmaid also wore grey. The bride was the recipient of many beautiful and useful presents.

Mr. and Mrs. Darling are spending their honeymoon at points in Michigan. On their return to this city they will take up their residence on Raleigh St.

Some men's idea of popularity is to have a great, big funeral. When a fellow is cornered it does not necessarily indicate that he is square.

### NOTICE

Members of the A. O. U. W. are requested to meet at the lodge room Friday at 1:15 p. m. to attend the funeral of Bro. W. L. G. Snell.

## MR. COLLES IS ELECTED

Popular Official For East Kent Will Sit On The Advisory Council

### IT IS A WISE CHOICE

(Special to The Planet.)

Toronto, Nov. 8.—The result of the poll on the Inspectors for the Provincial Advisory Council was declared this afternoon. Chisholm, of Kincardine, and Colles, of Chatham, are elected.

The news of Mr. Colles' election to this important body will be received with satisfaction by his many friends who recognize the value he will be to the Government, in offering advice upon educational questions. This election extended throughout the whole province, and it is therefore a great tribute to Mr. Colles' worth, as recognized over such an extensive area. Chatham educationists are recognized the world over, and it is only proper that they should be given honors, such as Mr. Colles has had conferred upon him. The Planet extends congratulations.

## SYSTEM IS NEEDED.

The fact that two fights have recently occurred in Dover, in which knives were freely used, and the principals have not been apprehended, would lead the casual observer to suspect that there is something radically wrong with the County Constabulary forces of Kent, and any scheme which would increase its efficiency should be welcomed not only by the authorities who have its management in hand, but also the people who are supposed to be protected by it.

The County of York has a good system introduced by Judge Winchester, which this County might well afford to copy. There, an extra session of the Peace is held each year at which all the Justices of the Peace of the County are invited to be present. At this meeting the County Judge explains the different statutes, and the amendments which have been made during the previous year, making these important officers more thoroughly versed with the law which they are called upon to interpret.

The High County Constable also makes an annual report at this meeting, on the work of the year, and through it the County Constables' list is yearly revised. The High Constable's report contains recommendations upon the men who are now sworn in as constables, and those who are shown to be incompetent are struck off and new and efficient officers are appointed. In this way the County Constables' list is kept thoroughly up-to-date, and the law is more apt to be properly enforced.

At present there is practically no system in the County Constables' department, and any department without a good working system cannot help but be inefficient and to a great degree useless. It is time that something were done in Kent, and if a scheme such as this were introduced, it would no doubt be instrumental in overcoming many of the difficulties at present contended with.

It seems now that Hearst was

Rooted out.

Isn't it time for the annual meeting of the Board of Trade?

Hamilton Street Railway employees have struck, and the public seem to be the hardest hit.

What is the County Constabulary doing towards clearing up those two knife slashing affairs in Dover Township?

And McGill was arrested, a second time, for embezzlement without the front page assistance of the Globe! Isn't the faithful old organ becoming negligent?

There are several "huas" responsible for Hearst's defeat—especially those issuing from the slanderous attacks upon his opponents made through the columns of his own newspapers.

The employees of the Hamilton Street Railway Company have struck for higher wages. If the company only holds out long enough Hamilton may soon be as famous for walkers as it now is for runners.

Woolstock people are raising money for a new Y. M. C. A. building. Every time a donation of \$500 is made all the factory whistles in the place are turned on full blast. It seems rather odd, celebrating a donation towards a scheme of this kind with a general "loot."

The Banner thinks Chatham does not need Niagara power. Chatham needs anything which will promote industry, and encourage manufacturing concerns to look this way for a location. If electric power can be delivered here cheaply enough to warrant its general use—and this seems to be the case—then by all means let us have it. Don't be a knocker, Bannery old boy. Get next to Chatham's importance and be a boomer!

An industrial concern seeking encouragement from Stratford has been endorsed by the ratepayers, and, as a result, the Classic City will secure a new manufacturing industry which will be devoted to the manufacture of farm implements. The press of that city attributes the success of the by-law to the splendid work accomplished by the Board of Trade, who were instrumental in getting the scheme before the people. Stratford is fortunate in the possession of a life Board of Trade. If Chatham had such an organization in working shape our chances for securing some of these industries would be greatly strengthened.

The steam heat in the Central school is said to condense before it reaches the top of the building. So much teaching going on in the immediate vicinity must likely lessen the temperature.

## MCGILL IN THE TOILS

The Former Manager Of The Ontario Bank Jailed For The Night

### ON CHARGE OF STEALING

Toronto, Nov. 7.—The re-arrest of Charles McGill, erstwhile manager of the Ontario Bank, on the charge of embezzlement was the sensational development of the preliminary proceedings in the process of commitment for trial. Over Mr. McGill's head is now hanging a charge, recognized by the court, as much more serious than that of falsifying returns to the Government in contravention of the banking law. The ex-manager is now amenable to the criminal code, and the stubborn refusal of Magistrate Denison to allow bail emphasized strongly the nature of the position of McGill.

Spent Night In Jail.  
The Attorney-General was less obdurate to the urgings of E. F. B. Johnston, K. C., counsel for the accused. Hon. Mr. Fry, agreeing last night to allow the prisoner his freedom on an additional surety of \$25,000. Bondsmen could not be found on short notice, and the banker spent the night in the jail over the Don.

It is confidently stated, however, that the required bond, which is equal to the one previously furnished for Mr. McGill's release on the "misdemeanor" charge, will be forthcoming this morning, when he will regain his liberty once more, to appear in court on Friday to answer the dual charges.

The charges against Mr. McGill will not be heard until after McGill is disposed of.  
The information sworn out was the outgrowth of the most striking evidence in yesterday's proceedings that brought to light many traces of what was manifestly deliberate juggling with accounts to preserve the credit of the bank in the eyes of the world. The official blue document, read as follows: "That Charles McGill, between the years 1900 and 1906, at the City of Toronto, in the County of York, did, contrary to law, steal the sum of \$136,449.91 in money, the property of the Ontario Bank."

It was the story revealed in the inspection of the bank's reserve accounts by James Blacknell that laid the basis for the charge and it was at the outset of the examination of the Clerk Richard Chenoweth that the mine was sprung, and the hint given of the climax that was to come three hours later in the placing of the ex-manager in custody.

Star Witnesses.  
There were but two witnesses during the afternoon Mr. Chenoweth and A. E. Ames, of A. E. Ames & Co., the well-known brokerage firm. The former was on the stand for almost three hours, and bore the brunt of a searching enquiry with a self-possession that was shaken only once or twice under the battering-ram tactics of Mr. Johnston, who forced the plain admission that he had altered accounts and figures with the intent of concealing the true position of the bank. It was claimed by Mr. Chenoweth, who proved an admirable witness from the standpoint of readiness to impart information, and ease in handling figures under question, that the changes were made entirely under instructions from the general manager.

Mr. Ames' evidence summed up, was that he was unaware that his account had been written off in the bank's books, and that the bank had suffered loss through his firm, and that McGill had speculated extensively in highly-fluctuating securities, but, so far as the broker was aware, on his own personal account.

The Denouement.  
It was after 6 o'clock and while Mr. Ames was still on the stand, that the magistrate called upon Mr. McGill to stand up. The ex-manager rose steadily from his seat at the desk and was advised that a more serious charge had been laid against him. He exhibited no tremor during the reading of the information, and to the usual question, replied, "Not guilty," in a low but firm voice.

The court informed Mr. Johnston that bail could not be accepted for his client. Mr. McGill's counsel took exception to the ruling in a few words, and the magistrate went on to say that there was a great difference between the two charges. The first was merely a misdemeanor, the present charge was a much more serious one. It named a large amount and the act constituted a theft under the criminal code.

Mr. Johnston mildly dissented, and the magistrate referred to the "wholesale appropriation."

Others Equally Guilty.  
"What about these other men?" demanded Mr. Johnston, hotly. "They are manifestly in the same box as he is."

"Then lay an information against them," retorted the magistrate sharply. Mr. Johnston's warm rejoinder was that the evidence had "clearly showed the state of affairs," and yet an information had only been laid against his client, which was unfair.

After adjournment Mr. Johnston declared in vigorous language that there was no hope of getting justice from the court.

"It's not a court, it's a persecution," he asseverated.  
One Day's Revelations.  
Walter Chenoweth, the chief witness, has for six years been transfer clerk at the Ontario Bank, and, acting under instructions from McGill, he had been systematically juggling the figures to create deception as to the true state of the bank. He knew things were wrong, but told no one.

The August report was signed by Vice-President Donald McKay, Manager Charles McGill and Walter Chenoweth, pro-chief accountant. McGill signed it in blank, expecting to be away. The Government was deceived by false transfers to "current loans in Canada" account.

The amounts charged up as "bad debts," making losses in the reserve

account, really represented losses in stocks. They were: A. E. Ames & Co. a total of \$13,049.91; Gordon Donnell & Co., \$16,000; McIntyre & Marshall, \$30,000; W. H. Goadby & Co., \$15,000 and \$10,000; Consolidated Lake Superior Co., \$13,321.18; Tyler, Morgan & Co., \$239,000; Marshall, Spader & Co., \$235,139.91, and Charles Head & Co., \$75,524.47.

Bank Deal in Own Stock.  
The Ontario Bank was regularly purchasing and selling its own stock and covering up the transactions by making transfers of shares before annual meetings to accounts of certain shareholders.

A. E. Ames declared that the stock dealing were apparently personal with McGill. The Ontario Bank had never lost anything through his firm. The stock dealt in were of a highly speculative kind. McGill had three accounts, one in his own name, one as a trust, and the third a "special" one. The Ames company are debtors to the bank to the extent of about \$100,000, giving collateral security therefor.

E. F. B. Johnston, K. C., counsel for McGill, declared his client was no more guilty than others, against whom information should also be laid.

### A HARD CASE OVERCOME.

No longer necessary to suffer from muscular rheumatism. Every case can be cured. Ferronox is unfailing, as proved by David Johnston, of Ormond, Ont. "My wife was a dreadful sufferer," he writes. "For two years she could scarcely do any work. Her knuckles and joints swelled, cutting torture. To get up or down stairs was impossible. She took box after box of Ferronox and rubbed the sore places with Nerviline. Improvement started and she mended fast. To-day she is quite cured of fast. I think Ferronox for her recovery." No remedy more popular with doctors than Ferronox; it does cure, 50c. per box at all dealers.

## HON. G. W. ROSS WAS CARELESS

No Inspection of Text Books Was Made For Several Years

### DEFECTS DIDN'T COUNT

Toronto, Nov. 7.—George N. Morang was recalled yesterday when the Text-Book Commission opened yesterday. Witness told of his applications to the Minister of Education, and also to Premier Ross in person, for a contract to publish the readers on the same terms as the three firms in the combine. He had been turned down rather coldly, and in August, 1901, he wrote to the Government, protesting against the marked discourtesy with which he had been treated. He had received letters from the Government, marked "Private and confidential."

"Did you have any dealings with the other firms mentioned?"  
"No, I don't think I did, but Mr. Ross suggested I should do so."

"Well, I have two letters from him, but they are both marked personal, and I appeal again to the chairman as to whether I shall read them."

Letters From Premier Ross.  
He was requested to read them, and said:

"Mr. Ross wrote me on 16th January, 1901, saying he had seen my primer, and thought it an excellent work, which should be used in the schools, but that this could not be done without the consent of the other contractors."  
"On the 8th March, 1901, he wrote that he thought it would be to my advantage to open up negotiations with Mr. Thompson of the Copp-Clark Co. in regard to the readers."

"Did you gather from that letter that Mr. Harcourt had been discussing it with the Premier?"

"Yes, and I thought it meant that Mr. Ross was taking the matter up himself."

He had afterwards received permission to publish the primer.

Violated Their Agreement.  
Mr. Morang then explained in detail how he had written the Government, protesting that the Canada Publishing Co. were violating their agreement in regard to having the authorized phonetic primer printed in New York, as it was unfair to Canadian publishers. This did not do any good.

The "rings" sent their men out, saying they were going to issue a primer, and deprecating the one used by Morang.

"The Government knew this primer authorized by them was printed in the States."

"Certainly," said Mr. Morang. "I made an affidavit to that effect."

Ross Worked For the Publishers.  
For eighteen years the combine had issued no new primer, but within three months after he had issued his, their primer appeared. He thought Mr. Ross and the Government were working in the interests of the Canadian Publishing Co., for there was no call for the primer on educational grounds.

H. M. Grantham of the Morang Co. submitted estimates, showing the manufacturing cost, including printing, presswork and binding, of certain textbooks, figured on a basis of 10,000 lists. They were as follows per copy: Public School Arithmetic, 11c.; Public School Algebra, 2c.; Public School Modern Geography, 25c.; Public School Grammar, 21c.; Public School History, 11c.; First Reader, Part I, 5c.; Second Reader, 8c.; Third Reader, 11c.

Picking Up Copyrights.  
George Smith, representing George Phillips & Sons, London, Eng., in the afternoon, produced samples of school books authorized by the London County Council, and quoted prices on same.

H. M. Wilkinson, chief clerk of the Education Department, told that the Department were aware, by rumors, three or four years before the ten-year agreement expired, that the publishers were getting hold of the copyrights. Counsel read the report of James Balm, a special representative of the Ontario Government to London to see the various publishers. Mr. Balm found out that Gage had visited most of the publishers in England, and had bought the right to reprint many of the selections used in the Ontario Reader.

"Was there any reason to say that, in view of this fact, that the Government were forced into making the new agreement?" asked counsel.

"I don't think so," said the witness.

No Inspection For Three Years.  
"Has there been any regular inspection of these books by the Department during the past six years?"

"No, there has not for the past three years."

Witness said that the late Mr. Thomas, assistant King's printer, used to be inspector, but there was not a practical man on the job since. He had reported that the work done was not up to the mark, but the Department accepted it in a clause providing that the next edition must be better.

That clause was only for trifling defects, for it goes on to say that when the Minister found a serious defect the condemned edition would be withdrawn, said Mr. Staunton. "Was there ever an edition withdrawn unless the Minister came down flat; in fact, was there any edition withdrawn at all?"

"No, I don't think so," was the reply.

The enquiry will resume at 10.30 to-day.

## GRADUATING EXERCISES

A Special Event Held In The Separate School—The Medallists

### THE CHILDREN'S DRAMA

The concert given last evening by the pupils of the Separate School, was indeed a most enjoyable event. Every number on the program was faultlessly rendered, and excellent order prevailed from start to finish. There was not a single hitch in the entire performance, and the concert was pronounced by an enthusiastic audience as the best that ever took place in St. Joseph's Hall.

The drama, "Through Fires of Sorrow," was an entrancingly interesting feature of the occasion, and all who took part therein deserve high praise. The manner in which they succeeded in working on the feelings of the audience and calling forth tears or laughter, according to the sentiment expressed, evinced true artistic ability and careful training. So well did little Mary McDonald personate the innocent little maiden cruelly and unjustly driven from her home, that hearts were touched and eyes were wet as though the spectators were witnessing a scene in real life.

Little Blanche Taylor, as Sally Ann Tompkins, was inimitable. So true to life was her acting that it was remarked by many that she could, if she would, make a fortune as a little Arab. She excited much laughter as did also Aunt Betsey (Irene Jacques) and the good-hearted policeman (Will Egan).

Did time and space permit, all would receive special mention, as all acted their parts more than well. The little tots in the Song of the Handkerchief and The Trades' Drill were very entertaining.

The Dress Drill was a charming sight, and the perfect harmony of movement of the little girls elicited much admiration.

The Salutatory was given as by an eloquentist by the Gold Medallist of the evening, Charles O'Gorman, and the instrumental solos by Blanche Taylor and James Dunn were splendidly rendered by the youthful pianists, as was also the pretty, evincing duet by Terrence and Bertrand Robert.

The concert was a great success and a credit to the excellent staff of teachers.

### Bileansa 'Woman's Medicine'

GRATEFUL WIVES AND MOTHERS TESTIFY TO THEIR VALUE.

Bileansa have been called "a woman's medicine," because of their exceptional fitness for the various ailments peculiar to the sex, as well as for liver disorders and stomach ailments generally. Unlike most liver and stomach medicines, Bileansa contain no bismuth, mercury or any mineral whatever. From coating to the stomach they are purely vegetable.

Mrs. J. W. Hildfield, of Swanton, Minn., says: "Bileansa have done me a wonderful amount of good. I can hardly describe how bad I felt before I took them. I could not eat but that it caused pain. There was a constant sensation of tightness in my side, and my liver was entirely out of order. I could not sleep at nights, suffered also from kidney trouble, and was altogether in a rundown and very serious condition. I had been ailing in this way for years, and it is gratifying to find that Bileansa were equal to my case."

Mrs. Wm. Hall, of Dean Lake, says: "I have proved Bileansa very good for constipation, from which I suffered a great deal. They cured me."

Mrs. J. H. Thompson, of Cleveland Park, says: "For irregularities and painful periods I can highly recommend Bileansa. They proved a great blessing to me and restored me to health when I had become very ill and very dependent."

Bileansa are absolutely unequalled for female ailments and irregularities, constipation, piles, anaemia, debility, rheumatism, blood impurities, etc. They tone up the system, enable it to throw off colds and chills, strengthen girls just emerging into womanhood, and speedily restore energy and strength to those who are run down. Of all druggists at 50c a box, or post free from the Bileansa Co., Toronto, on receipt of price, 6 boxes for \$2.50.

SAVES FUEL AND HELPS TO PAY FOR ITSELF.

It is not the price you pay for a range which makes it cheap or expensive, but the fuel it consumes after you get it.

If you buy a range which costs \$5 to \$7 less than a "Pandora" and it burns a ton, or only half a ton of coal more in a year, what do you gain? Nothing, but you actually lose money, besides putting up with all the inconveniences, troubles and extra work which are a certainty with a poor range.

The "Pandora" is equipped with many fuel-saving features which are not found on any other range. Hot-air flues are constructed so that all the heat from the fire-box travels directly under every pot-hole and around the oven twice—every atom of heat is used, and only the smoke goes up the chimney.

Sold by all enterprising dealers. Booklet free.

## REPUBLICAN CONGRESS

New York, Nov. 7.—The latest returns indicate the election for the United States Congress of  
Republicans ..... 155  
Democrats ..... 118  
No returns had been received from 113 districts.

The Democrats so far have gained two in Illinois, two in Missouri, three in Pennsylvania, one in Ohio, one in New York, one in New Jersey and one in North Carolina. The Republicans gain one in Kentucky.

No Great Surprises.  
Elections were held yesterday in 42 states, and, generally speaking, there were no great surprises.

Throughout the south, the Democratic state and congressional tickets have been elected by the usual majorities. In the west and east, the states that were aligned two years ago in the Democratic or Republican columns show no material change. The Republicans retain control of Congress by a good majority.

Hughes by 50,000.

governor in New York State between Charles E. Hughes, the Republican candidate, who has had the support of President Roosevelt, and William Randolph Hearst, the regular Democratic and Independent League candidate.

The latest returns available show that Mr. Hughes, while losing nearly all the principal cities of the state, was successful by about 50,000 plurality.

The rural districts brought about the Republican victory.

charges that an attempt is being made to steal the election. He asserts that the returns are being held back in many districts in the country as well as in the city.

The New State.  
The constitution of the new State of Oklahoma will be written by Democratic ticket almost solidly. Oklahoma also went strongly Democratic in choosing delegates to the constitutional convention.

New Mexico and Arizona have voted favorably on the proposition to enter the union jointly as a single state.

In Detroit the car franchise was beaten and the three-cent fare wins.

NO SIGN OF LIFE.  
Pilot Boats Get Close to Wrecked Barque Adona.

Richibucto, N.B., Nov. 7.—The gale still continues from a northerly direction, and all attempts made yesterday to reach the wrecked barque Adona were unsuccessful. Two pilot boats got nearer the wreck yesterday morning than at any time since the storm set in, but they could see no sign of life aboard.

An inquest was held yesterday on the bodies recovered, one of them being recognized as the steward. All the remains will be brought up to-day and buried here. Four hats and a number of life preservers were washed ashore yesterday.

## UNITED STATES ELECTIONS.

Claims Made By Republicans and Democrats On Eve of Polling.

Washington, Nov. 6.—The campaign in forty-two states for the election of the sixtieth Congress passed into history last night. Besides the Congressional balloting, twenty-three states elect Governors. Arizona and New Mexico will accept or reject a jointure in statehood. Oklahoma and the Indian Territory will adopt a state constitution, and twenty states will choose United States Senators.

The Republicans claim the next house by fifty; the Democrats claim it by twenty-two.

New York, Nov. 6.—Both Hughes and Hearst leaders last night claimed majorities ranging up to 200,000. Murphy says Hearst will carry New York City by about 130,000. Betting is 4 to 1 on Hughes.

## CONSTIPATION CLOGS THE BOWELS

No other cause produces so much sickness as constipation, and therefore it is dangerous to allow the bowels to become clogged up. Bad blood, dyspepsia, headache, biliousness, boils, pimples, and piles, are all caused by constipation.

Avoid all of these troubles by the use of

### BURDOCK BLOOD BITTERS,

nature's remedy for all diseases of the stomach, bowels and blood. It acts on the bowels and promotes their free and regular action, curing constipation and all troubles which arise from it. It has been on the market for over thirty years as you are not using a new and untried remedy. B.B.B. has cured thousands of others and will cure you. Mr. B. Woodcock, Nashua, N.H., writes: "For over two years my wife was troubled with constipation. She tried several physicians but could get no relief, but after taking three bottles of Burdock Blood Bitters she was completely cured and is to-day in good health. My wife and I cannot speak too highly of B.B.B."

### You Get What You Give.

Man is the artificer of his own happiness. Let him beware how he complains of the disposition of circumstances, for it is his own disposition he blames. If this is so, or that rough or the other steep, let him think if it be not his work. If his looks curdle all hearts, let him not complain of a sour reception. If he hobbles in his gait, let him not grumble at the roughness of the way. If he is weak in the knees, let him not call the hill steep. This was the pith of the inscription on the wall of the Swedish inn: "You will find at Trochate excellent bread, meat and wine, provided you bring them with you."—Theoren.

## GOT A PAIN IN YOUR BACK?

You get a pain in your back, and you wonder what is the matter. You perhaps pay no attention to it. Backache is caused by imperfect action of the kidneys, in fact, is the first sign of kidney trouble to follow.

The kidneys, proper, are composed of a close network of fibrous tissue, interlaced with tiny elastic fibres. Their object is the excretion of the uric acid, and other poisonous matter composing the urine, from the blood.

They are continuously at work to preserve the general health of the body and most people are troubled with some form of kidney trouble, but do not suspect it.

Some of the symptoms are: A feeling of weakness in the small of the back, sharp pains in back, puffiness under the eyes, urinary troubles such as suppressed urination, excessive urination, cloudy, thick or highly colored urine, etc.

Mr. J. L. Whiting, Oenabrock Centre, Ont., writes: "I suffered for two years with kidney trouble. I had terrible pains in my back, hips and legs. I could not sleep and had a poor appetite. I took four boxes of Doan's Kidney Pills, and the pains left me, my appetite returned and I now sleep well. I can recommend Doan's Kidney Pills to anyone suffering from kidney trouble."

Doan's Kidney Pills are 25 cents per box or 3 boxes for \$1.25 at all dealers or sent on receipt of price by The Doan Kidney Pill Co., Toronto, Ont.

## TREATED SAME AS OTHERS.

Fowler, Pope and Bennett C. P. R. Land Syndicate Got No Favors From the Big Railway in Land Purchase.

Ottawa, Nov. 7.—At the morning session of the Royal Insurance Commission, Mr. Whitla, barrister, Winnipeg, said that he had received a telegram from Premier Roblin, stating that he would be in Ottawa on the 11th, and would be glad to appear before the Commission, if they so desired.

Judge McTavish said that he saw from the papers that Mr. Roblin would be here, and if he had anything to say the Commission would be glad to hear him.

### Union Trust Stock.

Gerald De C. O'Grady, general manager of the Crown Bank, Toronto, said that Mr. DuVernet was to have one-third of the Union Trust stock; Mr. Ormsby, one half, and they asked him to underwrite the other third. Mr. O'Grady said that he was a party to all the negotiations between the Union Trust Co., the Foresters and DuVernet.

He did not know anything of Wilson in the transactions, but he knew that Wilson received \$20,000 in stock and \$5,000 in cash. The cash was paid and the stock was to be delivered to him at the end of five years. Wilson also desired a share in DuVernet's stock, as it was good, and he applied for one-third of DuVernet's, and put up \$2,500 for it. He knew this through DuVernet. The stock was not taken up, and the deposit was forfeited.

### Purchase of C. P. R. Lands.

The purchase of subsidy lands from the C. P. R. by Messrs. Fowler, Pope and Bennett, M. P.'s, was looked into by the Insurance Commission at the afternoon's session.

F. T. Griffin, C. P. R. lands commissioner at Winnipeg, detailed all the various steps taken in the negotiations regarding the purchase of certain subsidy lands, and especially emphasized the delays of the syndicate in closing the deal. Finally on Dec. 8 there was an interview between Messrs. Pope and Fowler, Mr. White, Sir Thos. Shaughnessy, Mr. Dennis, C. P. R. commissioner at Calgary, and the witness, Mr. Griffin had had no communication with anyone before the meeting.

"What took place at the meeting?"—Witness said the question of price was discussed. The president asked him what would be a fair price, all things considered. He said that \$3.50 an acre was a fair price. He recommended this and the president accepted it.

### Special Terms Asked.

There was next a letter from Mr. Pope to Sir Thomas Shaughnessy, saying that in view of the fact that the C. P. R. was to reserve 25 per cent. of the land selected, the syndicate should have the right to pay for their purchase in ten yearly payments, instead of six, as was customary in the dealings of the C. P. R. This Mr. Griffin disapproved of, and Sir Thomas Shaughnessy apprised Mr. Pope of this disapproval.

A letter from Mr. Griffin to Mr. Pope was read, saying that the lands would reach \$25.000 acres. For this the price would be \$750,000, the first instalment of which would be \$116,000. He asked for an immediate deposit of \$20,000 on this, the balance of the first instalment to be paid before May 1. On Feb. 18 Mr. Pope replied that it was not the bargain that he had to June 1.

Mr. Shepley: "What do you say to that?"

"I never heard of such a thing. It was contrary to the conduct of my department. When the price was arranged I expected the purchasers to follow the usual terms of payment."

Mr. Griffin was harsh in his response to this request, and finally, on March 17, notified Mr. Pope and Mr. Fowler that he had cancelled the reserve on the lands, and now considered himself free to dispose of them as he found convenient.

On April 6 Mr. Fowler wrote Sir Thomas Shaughnessy to arrange an interview with Mr. Pope.

Pope's Illusion.  
On April 8 Sir Thomas Shaughnessy wired Mr. Griffin that he had seen Mr. Pope, that the latter was evidently laboring under an illusion, and that he would suggest that the syndicate be given until May 15 to complete his arrangement.

In the meantime Mr. Griffin notified Sir Thomas Shaughnessy that he had received an offer of \$4 an acre from reliable persons for the lands. Sir Thomas replied on April 12, that unless he heard from Pope in a day or two the deal would be off. On April 16, Sir Thomas notified Mr. Griffin that Mr. Fowler would be in Winnipeg in a day or two to complete the deal. Then the matter was finally arranged.

Then Mr. Shepley asked: "Did Messrs. Pope and Fowler receive any special consideration for any reason, or did they get the same terms as others would have?"

"They had exactly the same treatment as would have been meted out in the case of any other purchasers."

"Did you receive from anyone in authority in the C. P. R. authority to reduce the price of lands to these gentlemen?"

"There was not even a suggestion of such a thing."

At the close of the examination of Mr. Griffin, on the suggestion of Mr. Shepley, the Commission adjourned, as far as public sessions are concerned, until 4.15 this afternoon. Hon. George W. Fowler will then be the witness, and there will be an evening session.

### Campbell Refutes.

Winnipeg, Nov. 7.—Hon. Colin Campbell emphatically denied yesterday the statements made by A. W. Pritchard on the witness stand at Ottawa, in connection with the Union Trust land deal.

"If," he said, "the commission desires my version, and if it forms part of its mission, I am quite willing to be called. The language used by Pritchard as being applied to me is absolutely untrue, and the animus and purpose of such testimony is quite apparent."

### Night Operator Arrested.

London, Nov. 7.—Elmer Vrooman, night operator at Dorchester station, was arrested on a charge of rape yesterday afternoon. The complaint was laid by Mr. Cusson, station master at Dorchester, who alleges that Vrooman attacked his 12-year-old daughter.

## STOKERS ATTACK OFFICERS.

Rioting Continues At the Portsmouth Naval Barracks.

Portsmouth, Eng., Nov. 7.—The rioting in the naval barracks was resumed at midnight and continued until past 2 o'clock yesterday morning. A gang of several hundred stokers attacked the officers' quarters, assaulting officers, smashing windows and otherwise damaging property. Several policemen who attempted to enforce order were seriously injured.

Armed sailors and marines had to be called out. They overpowered the rioters and made many arrests.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for testimonials.

## SECRETS OF THE TEA.

Brave Captains and Hardy Crews Leave Shores of Native Land and Are Swallowed Up By the Ocean.

The sea covers many secrets, but none more mysterious than that of the vessel which sails from a port and is never heard of again. "Missing" is an ominous word on the shipping list, and old salts who note it shake their heads with a sigh as they recall memories of brave captains and hardy crews. Within the last twelve months more than half a dozen good sized craft, among them two deep sailers, have gone to the ocean graveyard.

South street is still talking of the ill-fated Pepe Ramirez, which sailed from New York December 13 last into stout three-masted schooner, built at Columbia Falls, Me., in 1893, and owned by Swan & Son, of 32 South street. She carried a cargo of 600 tons of cement, bound for Brunswick, Ga., where she was to load lumber and return to New York. She had a crew of eight men, and put out on the morning of the 13th with no forebodings on account of the unlucky date, and with every indication of a successful voyage. Five days after she left New York came word that she was missing, and it is supposed that she foundered in one of these.

## His Last Voyage.

Her master was Captain Lorenzo Jordan, who had sailed out of New York for thirty-five years, and was known along the Atlantic seaboard. Just before sailing he announced that it would be his last voyage, as his sixty-two years were weighing upon him, and he wanted to pass the rest of his life in peace and quiet at his old home in Ellsworth, Me., where he was born, and where his widow and two children still live.

It is a curious fact that Mate John Williams, who had been in his service for ten years, was also from Ellsworth; as was the cook, who came down from Ellsworth for this last voyage, which proved to be also his last.

## Strange Coincidence.

Don Pepe Ramirez, a wealthy Spanish sugar planter of Manzanilla, Cuba, for whom the schooner was named, died the same day that it is supposed the vessel went down, and the more superstitious of the South street sailors who knew captain and crew think it is more than a coincidence.

Old salts also call attention to the fact that during the same week the Lejos, a sister ship of the Pepe Ramirez, also built at Ellsworth and bound for New York from Brunswick, was run into by the General Ames of Barnegat and so badly injured that she had to be abandoned. A pilot boat rescued her and now holds her for salvage. The Pepe Ramirez was the fourth vessel that Swan & Son have lost since they began business forty years ago.

## "Don't Leave Us."

One of the strangest stories of this nature is told of the British bark Colombine. This ship was an iron bark, built in Glasgow, in 1865, and one of the largest vessels of her class. She sailed from Newcastle on November 11 last, bound for Algoa Bay on the night of Christmas Eve the Colombine, during a storm, the crew of south-west Australia, near Cape Leuwin, was in collision with the ship Zinta. The tossing seas threw them apart, and as the vessels were disengaging the captain of the Zinta heard the master of the Colombine shout, "Don't leave us; we're sinking."

## Given Up For Lost.

The Zinta hoisted to, but so dense was the darkness and so heavy the seas that she was totally unable to render any assistance. She stayed in the vicinity of the collision all night, and when daylight broke the crew of the Zinta saw two men clinging to an upturned boat, toward which another boat was being rowed. Sheets of rain then obscured the view, and nothing more of the Colombine was seen, though she might have been close by all the while. She was due at her port three months ago, but nothing further has ever been heard of her. The captain of the Zinta does not think that the Colombine sank as a result of the collision with his ship, describing the impact as very slight, the jibboom of the Zinta merely going through the fore-rigging of the other vessel. The Colombine was posted for reinsurance for a time, but weeks have gone by without further news, and she has now been given up for lost.

## Human Picture Gallery.

A walking portrait gallery has been arrested in Tunis, where he had long been wanted as a deserter. The name of the human picture show is Sarthe. On entering the police-station he removed all his clothing, and said, "Observe my skin. You shan't have it; it is worth its weight in gold." On his chest were tattooed two pictures of ladies, in color, blowing kisses to a cavalier. On his right side Sarthe has the portraits of President Loubet and the Shah of Persia shaking hands. On his left side are Mme. Yvette Guilbert and Mayol, the music-hall singer. Sarthe's back is treated in purely decorative style, rather after the manner of Boucher. Podgy cuticles are represented in garlands of roses, and a scroll of flowers runs up and down Sarthe's spine.

## School For Policemen.

There is a policeman's college in St. Petersburg to train applicants for the force. It consists of a museum combined with the school, where the pupils make themselves familiar with the tools of criminals—jimmies, drills, collection boxes, a special kind of Russian thieves. The Russian passport system is studied in detail. The duties of the dvorniks, a sort of assistant police, are taught. They keep watch on the residences, report on the habits of tenants, their visitors, examine the papers of new-comers, and direct them to report themselves at the police station.

## English Tare Help Japan.

A statement was issued at Portsmouth of the result of the collection made in the Royal Navy among men of lower deck ratings on behalf of the Japanese famine fund. The total sum raised was \$200 and 4 pence, and the odd 4 pence covered the expenditure.

## BURGLAR ON THE STAND.

Tells of Jail Schemes of Doyle's to Get Rid of Witness.

Morden, Man., Nov. 7.—The Doyle murder trial seems to bring forth a sensation daily. Yesterday Thompson, a burglar, sentenced at Winnipeg last week to seven years imprisonment for housebreaking, was on the stand.

According to Thompson's testimony he was in the cell next to Doyle's and he heard Doyle arrange with Pat Rooney, a well-known American criminal, who was in jail for train robbery awaiting extradition, a scheme to get out of the way. Ernest Bailey, the missing witness. His testimony created a great sensation.

R. A. Bonnar has asked, in view of the new and unexpected testimony, that the case be held over until next session so that he may secure witnesses to refute it. His lordship was inclined to side with the lawyer for the defence.

Spanking does not cure children of bed-wetting. There is a constitutional cause for this trouble. Mrs. M. Summers, Box W. 4, Windsor, Ont., will send free to any mother her successful home treatment, with full instructions. Send no money, but write her to-day if you children trouble you in this way. Don't blame the child; the chances are it can't help it. This treatment also cures the most troubled people troubled with adult difficulties by day or night.

## O. J. C. Officers.

Toronto, Nov. 7.—The annual general meeting of shareholders of the Ontario Jockey Club was held at the company's offices, Imperial Bank Building, yesterday. The following officers were re-elected for 1907: President—Joseph E. Seagram, M.P.; first vice-president—E. B. Osler, M.P.; second vice-president—Hon. L. Melvin Jones; executive committee—D. W. Alexander, Hon. J. S. Hendrie, A. W. Macdonald, Andrew Smith (chairman), George W. Torrance.

## THEY MEAN IT.

No one should suffer a moment longer with Piles, for Dr. Leonard's Hem-Roid will cure any case. A guarantee of \$1,000.00 goes with every package of the Hem-Roid. No matter what kind you have, Blind, Bleeding, Internal, External, Itching or Suppurating, Dr. Leonard's Hem-Roid will cure you. This is a strong statement, but it is supported by a thousand testimonials from those who have been permanently cured by Hem-Roid. If you are not cured you get your money back; \$1.00 at druggists, or the Wilson Fyle Co., Limited, Niagara Falls, Ont.

Supply is generally governed by demand, except in the matter of making mistakes.

No one is too big not to feel some delight in an occasional word of commendation.

When a horse picks up a nail in his foot what does the driver do? Does he whip the limping, lagging animal and force him along? Not unless he wants to ruin the horse.

At the first sign of lameness he jumps down, examines the foot and carefully removes the cause of the lameness. What is called "weak stoops" is like the lameness of the horse, only to be cured by removing the cause of the trouble. If you stimulate the stomach with "whisker medicines" you keep it going, but every day the condition is growing worse. A few doses sometimes of Dr. Pierce's Golden Medical Discovery will put the disordered stomach and its allied organs of digestion and nutrition in perfect condition. Ninety-eight times in every hundred "Golden Medical Discovery" will cure the worst ailments originating in diseases of the stomach. It almost always cures. To cure constipation use Dr. Pierce's.

The man who demands everything is rarely willing to give anything.

When the dollar rings there is always a rush to open the door.

## MODES OF THE MOMENT.

A New Shirt Waist Model—Odd Jewels at a Premium.

A mighty swagger lingerie shirt waist is made of alternate strips of rather wide Valenciennes insertion and slightly gathered two inch puffs of handkerchief linen arranged horizontally. The sleeves are fashioned in the same way and finish just below the elbow with three tiny lace edged ruffles.

Garnets are very fashionable. Odd necklaces and pins of this becoming red stone are searched for in antique shops. A particularly original necklace was run to cover the other day consisting of small blocks of uncut garnets fastened together with invisible links.

Bracelets of all sorts are worn in extravagant numbers. Several narrow ones on the left arm are usually of "semi" as well as precious stones, set in all kinds of clever designs.

The pointed bodice is the newest thing in styles so far. Occasionally a giraffe effect is the form it takes, but more often it is the waist itself, carefully shaped to fit without a wrinkle and slanting into a deep, graceful point directly in front. These waists are

GIRL'S SCHOOL DRESS.

close fitting and well boned. There are few figures to which this bodice is not becoming, for anything that makes the waist look smaller is bound to look well on the stout and slim woman alike.

Shades running between brown and gray promise to be the leading colors of the season—such, for instance, as "smoked glass," "elephant's tail," etc. The dress illustrated is a serviceable little frock for school wear. It is made of navy blue panama cloth trimmed with black braid. The glimpse of all over embroidery softens the effect about the face, and, as it is detachable, a fresh one is easily substituted.

## HERE AND THERE.

A "Suit Yourself" Hat Season—Simplicity in Tailored Costumes.

All sorts of hats are fashionable, and one may wear what is most becoming or what appeals to one's fancy. Large and small hats have an equal following for precedence. Among the latter class is a delightful little toque formed entirely of pink roses with a splendid black aigret placed directly in front.

Cream tints are apt to make the complexion look yellow, while dead white has much to commend it. Rose and shades of pink continue popular, but there is no color that can be called a

AN AUTUMN BLOUSE.

predominant fashion. It is quite a question of pleasing oneself, though it is observable that emerald green is trying hard for a place in millinery.

Children's broadcloth continues to be the smart material for fall and winter costumes. It is rumored that tailored suits are to be less elaborate than they were last winter, but there is every possibility that charming trimmings will be seen on the tailored gown.

There is a new color—raven's wing blue—which is in reality nothing more than a very blue black.

Gray hats are to be all the rage for theater and restaurant wear. They are kept all in one tone.

Very simple and smart is the blouse seen in the illustration. It may be successfully developed in any of the soft woolen materials or in silk. Braid trimmed bands overlaid with motifs of the same braid is the only adornment.

## MARATHON HERO INJURED.

Bricks Hurlled at a Car, Crowd Stops a Radical in Hamilton.

Hamilton, Nov. 6.—Last night in vigorously using his baton in dispersing a street car strike crowd Policeman Bennett, the recent winner of the Chicago Marathon race. There were cries of "lynch him," and the officer was hurried away. Bennett will lay a complaint with the commissioners.

Bricks were hurled at a car being sent out to Burlington, but fortunately no one was hurt. At another place a radial car was stopped, but later completed its journey.

Public sympathy seems to be with the striking street car men, who will attempt to meet the situation by running busses and motor cars.

## SWINGS AROUND SHAFT.

Lumber Mill Employee Fearfully Injured Dies From the Shock.

Parry Sound, Nov. 6.—John Johnson, foreman in the Parry Sound Lumber Co. Mills, had his arm caught while fixing a belt.

He was swung around the revolving shaft fully 100 times before his arm was pulled off.

The noise of his feet striking the mill floor as he was swung around the shaft attracted the attention of some of the men, who proceeded to investigate, and found the unfortunate man lying where he fell.

In addition to the loss of the arm, a foot was cut off and the ankle bones of the leg broken to splinters. He died about an hour later.

## PITY THE BUSY OFFICE MAN.

He feels half dead, a sense of nausea, headache and nerve strain. He is on the verge of breakdown owing to overwork and lack of exercise. ## FALL SUIT REMARKS!

The suits of the Season suggest stateliness rather than baggy fullness.

Take the coat for instance: Though the shoulders are broad, the lines concave towards the waist, then flare out into long skirts forming what is called the French Back.

Some of these suits have center vents with creased side seams.

The new big lapels tend to give the impression of a broad chest.

A noticeable feature of this long coat is the fact that it lends itself equally well to Short or Tall Men. There's a long price range—\$7.50, \$8.00, \$10.00 up to \$12 or \$15.00.

The exclusive tailor can charge you twice these prices, and he will if he has the opportunity, but you can rest assured that he never can give you better suits. See our show window.

### OUT OF SORTS

People Not Really Sick Are Often Most In Need Of Care.

The people who actually are most in need of kind words and medical treatment are not those who are really sick, but just "out of sorts."

The old-time energy, force, strength and happy spirits are lacking; the physical and mental powers are flagging; there is poor appetite, and they cannot get the good out of the food they eat. In many cases out of ten, this results directly from a weakened stomach, and no other treatment equals Mi-o-na to restore strength and health.

When the nerves and muscles are weak, if there is sleeplessness, irritability, and specks before the eyes, when the head aches and there is a dull pain in the back, and there is any distress and heaviness in the stomach, dizziness, and sometimes nausea, the use of Mi-o-na stomach tablets for a few days will make a world of improvement, and continued use for a reasonable time will restore perfect health.

These tablets are not mere digestives; they absolutely strengthen all the organs of digestion, so that there is good appetite, perfect digestion and strong nerves, when they are used.

We absolutely agree that your money will be refunded should you buy a 50 cent box of Mi-o-na stomach tablets and not be satisfied with the results. Mi-o-na is sold by druggists everywhere, or will be sent by mail on receipt of price, 50 cents.

Write to-day for a free sample package, and also give us your symptoms, and one of the best known stomach specialists will give you case his careful and personal attention without charge. The R. T. Booth Company, Buffalo, N. Y.

Always allow the other fellow the privilege of having some kind of information.

### SOME FINE WORK

W. D. Wigle, Game Warden for Western Ontario, and Vic. Chaubine, deputy sheriff, made a clever seizure Sunday at the foot of Fighting Island. They arrested Frank and Harry Paxton, Americans from Wyandotte, for shooting ducks without a non-residents' license, and also for shooting on Sunday, contrary to the Ontario Game Laws.

Their guns and 54 decoys were seized. They were to appear before Police Magistrate Bartlett, of Windsor, and settle, but for reasons unknown they failed to put in an appearance.

Mr. Wigle reports that poachers are becoming numerous and that he has not caught all the guilty ones yet.

### A SUCCESSFUL SALE

The rummage sale, which was conducted under the joint auspices of the Children's Aid Society and the King's Daughters in a store in the Seane block last week, was a very successful one. There was a large amount of clothing donated and the ladies were kept busy attending to the wants of the purchasers.

The ladies desire to thank Mr. Seane for the use of the store, the S. Hadley Company for tables, Coltart & Wilson for chairs, The Planet and News for printing some complimentary ads, Dr. Radley for assistance at the store, and all those who contributed so liberally towards making the sale, for such worthy charitable societies, such a success. The net proceeds were \$267.72.

### SCHOOL ATTENDANCE

Inspector Robert Park's monthly statement with regard to the attendance, etc., at the two city schools was read at the meeting of the Board Tuesday evening. The Inspector drew attention to a noticeable decrease in school population. The Inspector also made his semi-annual report to the Board on the conditions prevailing at the two city schools. To this was attached his confidential report on the individual standing of the teachers. Mr. Park reported that the teaching staffs at the city schools were perhaps stronger and more efficient at the present time than they ever were before, and referring to the recent changes, he said that these apparently were for the best, judging by results.
