

**ANNAPOLIS ROYAL PROTECTS ITS PRINTER**

We copy the following from the Annapolis Spectator which might prove a gentle reminder to the Mayors and Town Councils of the incorporated towns in Kings Co.

To His Worship the Mayor and members of the Town Council:

As it seems to be the policy of the present Council to encourage local industries and as there has been no protection against competition by travelers in printing lines from Yarmouth, Truro or other places, permit me to suggest the justice of adopting a resolution such as that appended hereto.

Yours respectfully,  
J. W. DAWSON STEARNS.

Whereas it is the policy of this Council to encourage local industries as far as practicable in preference to competitors who have no interest in the town, and

Whereas, it is currently reported that representatives of printing offices in Yarmouth, Truro and other places have taken orders here for work which might have been done in Annapolis Royal, therefore,

Resolved, that a license fee of not exceeding \$20 per annum shall be exacted from each and every printer doing business in this town, who does not maintain a printing plant and equipment in the town in default of which license a penalty shall be exacted of \$5 fine for each order under \$20 and 50 per cent. of the gross cost of each order exceeding \$20.

After discussion, in which Cer. Adams had received as good work from the Spectator office as he had seen anywhere and some other bouquets were thrown, it was moved by Cers. Whitman and Adams that the license committee make a report to the Council at its next meeting about everything on which they can charge a license and what rates they would propose. Passed.

**COLD "DON'T'S"**

This is the season for colds. If you want to avoid one—

Don't be afraid of fresh air. It cannot of itself ever give anyone a cold in the head.

Don't forget exercise, and add as much fat as possible to your daily consumption of food.

Don't overburden yourself with thick clothes. Ventilation as well as warmth should be aimed at.

Don't toast yourself by the fire. This only heats one side of the body, while the other may be chilled by a current of cold air.

Don't treat a cold as a trivial matter. It may lead to influenza and serious illness.

Don't sneeze without covering your mouth with a handkerchief. A man with a cold can easily throw his poison 12 ft. by a sneeze.

The political pot is beginning to simmer again.

**SOME KICK TO THIS**

A correspondent sends in a receipt for making Perkins' Homebrew, and while we are not in the business ourselves we are glad to place it before those who are interested in the preliminary details of their own funerals. Here is the formula:

Pursue a wild bullfrog and carefully gather the hops.  
Then add:  
Two gallons of pickle brine.  
Six quarts of chellac.  
Eight bars of home-made soap.  
Four pints of sweet spirits of niter.  
Boil three weeks. Then strain through an I. W. W. sock to prevent mixture from working. Bottle and add a mule to each quart to give the proper kick.

**COFFEE Anybody Can Make GOOD COFFEE**

IF a few simple rules are observed.

**ONE**—Buy good coffee in moderate quantities. Ground Coffee loses its strength and aroma if left standing.

**TWO**—Keep coffee in airtight containers. Fruit jars are ideal for this purpose.

**THREE**—Measure proportions carefully, both coffee and water.

**FOUR**—When serving coffee, serve it hot, never re-cook.

**FIVE**—Strain or settle carefully. Good coffee is clear if properly made.

**THE HORRORS OF WAR**

(From Canadink.)  
Two soldiers went into a restaurant on the eastern front, and said to the waiter: "We want Turkey with Greece."  
The waiter replied—"Sorry, we can't Servia."

"Well, then, get the Bosphorus."  
The boss came in and heard the order and then said—"I don't want to Russia, but you can't Rumania."

They were not a Paraguay Tommies, as they went away. Hungary saying, they never sausage a place, and wishing they were at Frankfurt or Bologna where they could have a decent meal. But they longed most to get back to "Old Blighty" to Sandwich, as they were bred and mustered there.

**STRANGER SLEEPS IN OTHER TWIN BED, WIFIE WILD!**

If you are a loving wife, and if you discover a man other than your husband right in your bedroom, in fact, right in the other one of your twin beds, what would you do?

That's exactly what happened to Mrs. Harry Hawkins and she expected her husband to walk in any minute, too.

Mr. Hawkins had gone out early in the evening on business and his wife had retired at her usual hour, without a sign of anything amiss. Imagine her dismay when on wakening and tripping blithely over to wake hubby, she beheld another man, wearing her husband's pajamas and a high silk hat!

Report has it that Mrs. Hawkins became terrified at that moment by the entrance of her husband. However, you can discover in what manner she handled the situation when you see the screaming bed-room farce, "Twin Beds," which Mr. and Mrs. Carter DeHaven are presenting in picture form, and which comes to the Opera House next week as the latest First National attraction.

**The National Crisis**

*"My appeal is to the whole people; to every man and woman who wants to do right by this country; to everyone who breathes the spirit of our fathers who founded this British Dominion."*

—ARTHUR MEIGHEN

**THE** Election to be held December 6th will be the most momentous in Canadian history; for as men and women vote will depend the economic stability, the political stability and, indeed, the national stability of this country.

Today we find group striving against group, class against class, the industrial and financial structure of the country assailed by false and unsound doctrines and theories, while our great neighbour to the south has adopted a trade exclusion policy directed against Canada's vast agricultural interests.

The currencies of nearly every country in the world are depreciated. The Canadian dollar in the United States is subject to a heavy discount causing a loss of over one hundred million dollars in exchange annually.

Europe is overwhelmed with war debts—unemployment is acute—and the restoration to pre-war conditions is slow.

While Canada is in a much more favorable condition than many countries, yet there is evidence of stagnation, instability, unemployment and lack of confidence.

Taxes are heavy because of the country's efforts in the Great War, but have become burdensome on account of the misconceived policies and blunders of Governments that directed Canada's affairs prior to 1911.

These conditions are largely the direct aftermath of the war, but they must be dealt with fearlessly and constructively. This is no time to consider experimental changes, or the theories of visionaries.

This is no time for Crerar and his Free Trade policy. This is no time for King and his wobbling "charted" policies, varying with each provincial boundary.

It is the time to cling to orderly, stable Government in the interest of all the people; to be guided by the experience of the past, proceeding upon lines that have been proven sound.

It is the time to place the destinies of Canada again in the hands of a Government led by a sane, courageous Canadian who has safely brought the country through the trying years of reconstruction, and upon whom we can rely to retain and initiate policies in the interest, not of a group or class but of all the people.

It is the time to support Arthur Meighen and his Candidates.

**Home Town Paper Week**

It is very rare that the average newspaper boosts its own business, but gives quantities of space in boosting the affairs of others.

Somebody suggested that it was time for the newspapers of the country to adopt a week in which their own business should be given precedent, and THE ACADIAN thoroughly endorses the idea.

The date set is the second week in November, from the 7th to the 12th, including that great world event, Armistice Day.

The official title for the week will be "Subscribe For Your Home Town Paper Week."

Thousands of papers will join in this event, and our readers will hear more about it as time goes on.

Ever ready to help in any cause that is in the interests of a better community, better living conditions, and better government, we now ask the readers and advertisers of THE ACADIAN to turn in and lend a hand during "Subscribe For Your Home Town Paper Week", and boost for us.

WHEN THE PAPER DOESN'T COME!

My father says the paper he reads ain't put up right,  
He finds a lot of faults, he does, perusin' it all night;  
He says there ain't a single thing in it worth while to read  
And that it doesn't print the kind of scruff the people need;  
He tosses it aside an' says it's strictly on the bum—  
But you ought to hear 'im holler when the paper doesn't come!

He reads about the weddin's and he snorts like all get out;  
He reads the social doin's with a most derisive shout;  
He says they make the papers for the womenfolk alone;  
He'll read about the parties, and he'll fume and fret and groan;  
He says of information it doesn't have a crumb—  
But you ought to hear him holler when the paper doesn't come!

He's always first to grab it, and he reads it plump clean through,  
He doesn't miss an item or a want ad—that is true;  
He says: 'They don't know what we want—the darn newspaper guys,  
I'm going to take a day sometime an' gon an' put 'em wise;  
Sometimes it seems as though they must be deaf and blind and dumb';  
But you ought to hear him holler when the paper doesn't come!

SOME SAVING HINTS

**Cleaning Wall Paper**  
Old wall paper can be made to look like new by cleaning it with cornmeal. Dip into a bowl of cornmeal a cloth moistened just enough to make the meal adhere nicely and run over the paper with an up-and-down motion.  
**To Remove Grease From Stovepipe**  
Take pipe down, wash inside and outside with warm soapy water, with one-half cup salsoda to each pail of water.  
**A Grease Jar**  
A large glass paste jar—the kind with a brush in a well—makes a handy container for the grease or oil used on baking tins, waffle irons, etc.  
**To Renovate a Mop**  
Boil the mop in an old pail half full of water into which you have put a tablespoon of concentrated lye. Then rinse carefully and the mop will be as good as new.

**Cleaning the Machine**  
Clean the sewing machine with kerosene oil on a little piece of absorbent cotton and afterwards apply a good lubricating oil, to the running parts.

Success never comes to the man who is watching the clock for fear that he might work overtime. The man who succeeds is the man who is not merely satisfied to do the work laid out for him, but willing and glad to do more.

There is nothing as elastic as the human mind. Like imprisoned steam the more it is pressed the more it rises to resist the pressure. The more we are obliged to do, the more we are able to accomplish.

HOUSEHOLD HINTS

Don't throw away old brooms, but make floor polishers out of them by covering them with old rags in several layers, and lastly an old piece of flannel sewn very firmly round. When dirty, sew a clean piece on top. Two such polishers, one to put the polishing, make a deal of difference to the housework, and save going down on hands and knees.  
Onions should always be boiled in water that has been salted; otherwise they lose much of their flavor.  
Worn-out nightdresses make excellent slip overs for gowns that are to be hung away in closet or wardrobe.  
To stop hiccups, give the patient a teaspoonful of granulated sugar and vinegar. If this does not afford instant relief, repeat the dose.  
Very serviceable dish towels that require no hemming and do not need to be ironed are made from cotton crepe cut in one yard lengths.  
Blouses made of light material should be rinsed in cold water to which has been added a little tartaric acid. This not only sets the color, but revives it also.  
Instead of polishing linoleum after you have washed it, you should do both with the same operation. Mix one ounce of glue (melted) with your washing water, and when dry your floor will have a beautiful gloss.  
Mildew is an obstinate discoloration, but will yield if rubbed with lemon juice, followed by salt, and exposure to the sun. For mildew on other material than linen a mixture consisting of two tablespoonfuls of turpentine, blended with the juice of a lemon, is recommended.  
A little pipe-clay dissolved in water for washing linens cleans the dirtiest clothes thoroughly with about half the labor, and a saving of a quarter the soap. The clothes will be improved in color as if they had been bleached, as the pipe-clay mixes with the soap, and makes the hardest water as soft as rain water.

WHAT COUNTS

You may bring to your office and put in a frame  
A motto as fine as its point,  
But if you're a crook when playing the game  
That motto won't make you a saint;  
You can spick up the placards all over the wall.  
But here is the word I announce,  
It isn't the motto that hangs on the wall,  
But the motto you live, that counts.  
"Subscribe for Your Home Town Paper Week," is the second week in November, 7 to 12. If you don't take the home town paper, subscribe then. If you do take it, renew your subscription then.

Love is what makes a poor fish pay \$9.50 for a pie at an auction.

THE INCOME TAX AND WHO PAYS IT

From Ottawa some interesting income tax figures were issued by the commissioner of taxation, showing the amounts contributed by the various classes throughout the Dominion. Of a total of \$46,381,806 collected by the federal authorities for the year 1920-1921, agrarians (or farmers) contributed \$611,735. They numbered 16,652, out of a total for the whole country of 194,257 persons assessed. As against this, professionals, numbering 19,366, contributed \$2,642,585. Employees, including those working for salaries, wages and time work, contributed \$11,301,805, there being 111,621 assessed. There were 24,483 merchants assessed, and they paid among them \$7,689,521 in income tax. Manufacturers assessed numbered 3,277, and their total contribution to federal income tax amounted to \$8,217,730. The rest of the tax-payers throughout the dominion, numbering 18,858, paid \$11,823,456.3.

In Prince Edward Island thirty-one agrarians were assessed in a total amount of \$2,279; Nova Scotia, forty-four paid \$5,606; New Brunswick, forty-five paid \$1,197.

Nova Scotia's contribution was \$1,060,591 from 7,583 persons assessed. Ninety-seven manufacturers paid a total of \$158,759; 746 professionals paid \$59,591; 1,264 merchants paid \$296,871, and 4,682 employees paid \$251,771.

Insurance adjustors returning to St. John from Annapolis Royal report the insurance loss was about \$125,000, and property loss between \$250,000 and \$300,000.

Why is a hen crossing the street like a conspiracy? Because it is a foul proceeding.

Made in Canada

On Monday, October 3rd, our salesmen started out with a complete price list of all the "Made in Canada" fertilizers for the spring of 1922. We cover the entire Provinces of Nova Scotia, New Brunswick, Prince Edward Island and the eastern counties of Quebec.

Our fertilizers are essentially a "Made in Canada" product, and at this time with an unusual amount of unemployment every industry giving employment at home must be supported.

There may be some things which must be imported because not made here. There are others which because of either the price or quality preference is given to imported goods, but none of these reasons apply to "Made at Windsor, N. S." fertilizers.

No imported fertilizers can be bought on a more favorable basis than ours as to quality, price or quantity. It is impossible to buy a better fertilizer than the "Made at Windsor, N. S." brands at any price. They are made from the best raw materials, properly mixed, well ground, rightly cured, and can be put on evenly, whether by hand or with a fertilizer sower.

We want agents either dealers or farmers in all territory where we are not now represented.

Write to us and our salesman will see you or we will quote from our head office.

### Editorial Notes

The two political parties are holding conventions at Kentville tomorrow for the purpose of selecting candidates to represent them in the approaching Federal election. Delegates will be present from all parts of the county and the duty which they have to perform will be a most important one, as their decision will practically determine who is to be responsible for the welfare of the county so far as Dominion issues are involved during the next parliamentary term. Their selection is perhaps more important than that of the electors when the polling finally takes place on December 6th. Only men of strict integrity, possessed with the necessary qualifications should be considered. If such are chosen at tomorrow's conventions, Kings county is sure to be well represented.

Kentville is the latest town to adopt the silent policemen to control street traffic. The "police-men", each surmounted with a red flag, were placed in position at all intersections of the public square, and are bound to be a successful factor in securing safe travel on the streets of the shire-town. THE ACADIAN several moons ago, urged upon the Town Council the adoption of this measure in the interest of public safety, but so far without avail.

Lord Burnham, prominent paper proprietor, who was Chairman of the Imperial Press Conference in Canada in 1920, who will be remembered by Wolfville people as a visitor to Wolfville on that occasion, accompanied by Lady Burnham; while speaking at the Industrial Conference in London, declared that not a paper of that city was making a profit at present. Lord Burnham, who is a landed proprietor of considerable wealth, said that fifteen shillings in every pound of his income was required to pay his taxes.

Rev. Ben Spence, of the Dominion Alliance, says the liquor legislation in Ontario, regarding the granting of prescriptions by doctors is a "ghastly joke", and that the licensed commissioners are helpless because of the law. He states that the Dominion Alliance will earnestly press to have the law changed at the next session of the legislature.

The signs cautioning auto drivers with regard to speed, have finally been placed in position, and it is hoped may produce the desired result.

### CANNING NOTES

We are welcoming Mrs. N. A. Eaton and Miss Marion Eaton as citizens. Mrs. Eaton having purchased the house of the late G. W. Parker and moved in, after making some changes.

F. A. Eaton, of Canard, has bought the Stuart property from H. A. Brown and will occupy it later. While pleased to welcome Mr. Eaton, the town will sustain a decided loss in the removal of the Brown family.

The sympathy of the community is extended to Mr. and Mrs. W. R. Woodburn whose four year old daughter was taken from them last Saturday after many days of suffering.

F. W. Parker and wife, residents of our town for some sixty years excepting a few years spent in New Haven, Conn., have sold their residence to John Thompson and expect to finish their days with their son, Rev. L. W. Parker, near Truro.

A review of the shipbuilding industry of Kings county, appearing in the Halifax Herald being somewhat incomplete calls for a word from our town which claims for itself the birth-place of that art. Ebenzer Bigelow, Lewis W. Eaton and John Northup built a number of schooners here in the 50's. John Northup afterwards building some larger vessels in his own yard and L. W. Eaton building a brig at Delhaven at about this time. Chas. Connors, Wm. Harris and later John H. Pineo also built vessels. E. Bigelow continuing built the ship "Armstrong" and barque "Providence" in the 60's and later associated with his sons John and Gideon built many schooners and brigs until 1874 when they constructed the Bk. "Canning" followed by the Bks. "Recovery" and "Conductor" and a number of brigs concluding with the ship "Arbela" in 1881 and two smaller craft up to 1884 making thirty-five years continuous building, which placed them as the chief builders of our County. In the later days Capt. Alfred Lotter constructed the "Bahama" "Boniface" "Blomidon" and "Advance", and Capt. W. H. Baxter, the "Bill Baster", "Novelty", "Resolution", "Winnifred", "Inference", "W. H. Baster" and "A. B. Bartheaux, while McAloney, Hatfield and Lockwood have added some tonnage and we cannot say our work in that line is done.

Mr. F. W. Parker, of Canning, has sold his residence on Elm Street, Canning to John Thompson of Thompson Bros. Garage.

Mrs. Emma Huntley, widow of Daniel Huntley of Scotts Bay, passed away after an illness of two weeks.

### A RECORD TRAIN OF WHEAT

The Canadian National Railways claim the record for a train which recently journeyed to Port Arthur carrying 85,000 bushels of wheat. The train was drawn by two engines, consisting of 75 cars had a tonnage of 6,320, and was nearly three-quarters of a mile long.

### THE APPLE HARVEST

The importance of the apple growing industry in this valley becomes amply apparent at this season of the year when the largest item of traffic on our streets has to do with apples. Orchardists are putting forth strenuous efforts to secure the fruit before the cold weather sets in. Everywhere the trees are bending with beautifully colored fruit and the orchards with their force of busy pickers present an active scene. Most of the fruit as soon as gathered is taken at once to the packing houses and as a result heavy laden teams and trucks are seen in all directions. These packing houses employ large number of men and boys and will be kept busy for months to come getting the fruit ready for market. Many of the fruit growers will this year release large sums from the output of their orchards, and a general air of prosperity pervades the Countryside.

THOSE WHO MAY VOTE DEC. 6TH.

The New Franchise and Its Operation to the Citizens Rights as an Elector.

The inauguration of a general election campaign directs attention to the franchise and its operation, to the citizen's rights as an elector and the manner in which he will be called upon to exercise those rights, says the Montreal Gazette.

The election to be held this fall will see the first general application of the new, or remodelled, Dominion Elections Act, and it is possible that some uncertainty may prevail as to the manner and extent in which the position of the elector is effected by the provisions of that act.

There is, or ought to be, no room for confusion in this respect; the act as amended embodies the same fundamental principle as was contained in preceding legislation, that of what is virtually universal suffrage. This has been known in Canada as manhood suffrage, the right to vote being enjoyed, theoretically, by all adult males, but the extension of the franchise to include women, upon practically equal terms with men, renders the term "universal suffrage" more appropriate.

The voters' list for federal purposes are based upon the provincial lists, provided the latter are not more than two years old. In this province the provincial lists are those of the municipalities and are revised, either annually or biannually by the municipal authorities under statutory direction. These lists will be employed in the coming election as far as they go, but as they are based upon the manhood suffrage principle, and does not accord to women the right to vote, very considerable additions will have to be made. This will be done by registration.

The qualification of electors under the provisions of the Dominion Elections Act requires that every voter, whether male or female, shall be: (a) A British subject.

(b) Twenty one years of age; (c) Shall have ordinarily resided in Canada for one year immediately preceding the date of the issue of the writ of election;

(d) Shall have ordinarily resided in the electoral district for the two months immediately preceding that date, and; (e) Is not expressly denied the right to vote.

A British subject, under the act means one who (a) Was born in any of His Majesty's Dominions or on a British ship, whether of alien parentage or not; or (b) Was born elsewhere of a father who, at the time of the child's birth, was a British subject, either by birth or naturalization; or (c) Has been personally granted a certificate of naturalization in Canada, Great Britain or any of His Majesty's Dominions; or (d) Has had his name included in any such certificate granted to a parent; or (e) Is the wife or unmarried widow of a British subject by birth or naturalization; or (f) Is the child of a person naturalized in Canada, otherwise than under the Imperial Naturalization Act, and was, at or after the time his parent was naturalized before he or she became twenty-one years of age, resident in Canada with the naturalized parent.

It has been pointed out that the expression "ordinarily resided" has no technical meaning, but the qualification, as regards either residence in the Dominion or in a particular constituency, rests upon the fact that of the individual having had a personal or family home in

which he has lived exclusively or partly, or from which he has merely temporarily absent, or upon his having actually lodged for two months in the constituency. Those who may not vote include election employees who are paid out of other than public funds; judges appointed by the Dominion government; women who have merely become the wives of British subjects, were not born on the North American continent, were not entitled to vote at any time before June 4th, 1921, and have not obtained a certificate from a judge having jurisdiction in naturalization proceedings; Indians (on a reservation) who did not serve in the war; persons disqualified under provincial law because of race, unless such persons served in the war and can produce their discharge certificate; prisoners undergoing punishment for criminal offences; patients in lunatic asylums; persons wholly or partly supported by public charity in municipal poor houses or houses of industry; persons supported on provincial charitable institutions and persons disfranchised for corrupt or illegal practices.

In view of the existing inequality between the provincial and federal franchises in this province and the resultant inadequacy of the provincial lists for Dominion purposes, great importance attaches to the registration of voters. The man or woman whose name does not appear in the voter's list on polling day, does not vote, however well qualified in other respects. Registration is the means whereby individuals who are entitled to vote in Dominion elections, but not in provincial, or whose names, for any other reason, may have been omitted from the provincial lists, may have their name recorded. As the franchise is not compulsory, so neither is registration but as the exercise of the franchise is not less a duty than a privilege, those who are entitled to have their name recorded in the lists should avail themselves of the opportunity which registration affords.

Registration booths will be opened in the various electoral divisions immediately following the issue of the writ of election. Application for registration may then be made, either for the voter personally, or by a relative or employer in his behalf, provided he cannot attend personally because of sickness, disability or "necessary temporary unavoidable and bona fide absence". In either case the registrar will put to the applicant, after swearing him, a set of questions prescribed by statute, as follows:

(1) Where is your ordinary residence? (2) Have you, on application made by you or on your behalf, been registered as a voter in any other polling division in this election. (3) Are you a British subject in Canada by birth or naturalization? (4) Are you of the full age of twenty-one years?

(5) Have you ordinarily resided in Canada for the twelve months immediately before—the date of the issue of the writ? (6) Have you ordinarily resided in this electoral district for the two months immediately before the said day, etc.?

(7) Are you within any of the classes of persons who lack qualification to be disqualified by reason of appointment as a judge, employment for pay or reward in reference to the election, place of birth, race, crime, mental incapacity, the receipt of public charitable support, or disfranchisement for corrupt or illegal practices?

If these questions are answered satisfactorily (the question put to the relative or employer being substantially similar), the full name of the voter is taken and entered, together with his address and occupation.

Following the registration of voters, the lists are revised by officials appointed for that purpose, after copies have been posted in conspicuous places, municipal buildings, etc. Any person may apply to the revising officer to have his name added to the lists, whether he has applied for registration or not, and persons who have been refused registration by registrars may appeal to the revising officers against the refusal so made. On the other hand, the registrar may have his own mistakes, if any, corrected in this revision, and anybody else may apply for the removal of names after proper notice has been given.

The sittings of the revising officers begin on the twenty-first day before the day of polling, and continue for six consecutive week days.

The procedure, while it appears to be more or less elaborate and complicated when regarded as a whole, is simple enough as it affects the individual voter. The status of the latter is clearly defined by law and his or her rights as an elector carefully and fully protected.

IDLE THOUGHTS

Men read newspapers with interest, by never with as much interest as when a lady is standing in front of them on a street car.

Now that an election has been announced we can expect to hear of men deciding to run for office, consenting to stand, and winning in a walk.

A couple recently celebrated seventy years of married life. But what there is to celebrate about something like that is beyond a good many.

People used to talk about folks being as happy as a king. But it's a long time since we have had a look at a happy king. Lives of great men all remind us, We can be as great as they.

And departing still be puzzled How they ever got that way. We sometimes wonder whether the human race in the process of evolution, instead of being born with legs, is destined to be born with wheels on, and a gasoline tank.

There are two million more girls than men of marriageable age in England and Scotland. This news should be of interest to the large number of old bachelors in the country.

When a man takes a day off from the office he spends all his time wondering whether the business has gone on the rocks while he was away, and nine time out of ten nobody but himself knows he isn't on the job.

PERSONAL LIBERTY

(From Everybody's Monthly, Belfast.) One of the greatest logicians of prohibition reform was the late Hon. Jno. B. Finch. His sayings and writings are still classics, for truth and reason are the same always and everywhere. The following uttered by Mr. Finch forty years ago is peculiarly apt today. In replying to objections, he said: "It will destroy personal liberty." Liquor dealers declared that they were the defenders of personal liberty in this country, and today the liquor interest is masquerading as the champion of liberty; and a more ridiculous masquerade I never saw. When have they done a thing for liberty in the world? And yet these men, who have only made drunkards and debauches the people, step out and claim to be the defenders of liberty! If liberty has fallen so low that her defenders are the class of men who debauch the manhood and womanhood, and civilization of this country, God

pity liberty. The idea of these men arrogating to themselves the position of the special champions of the liberties of this people is absurd, ridiculous and nonsensical. But what is their cry? They say, "personal liberty". Personal liberty means individual or brute liberty. Civil liberty means the restraint of personal liberty. Unrestrained natural liberty is the enemy of civil liberty. Let me illustrate: It is personal liberty that enabled Guitau to send the bullet through the back of President Garfield. It was civil liberty which hanged him on the 30th of June. Do you see the difference? It is personal liberty that would let me meet you on the street and knock your brains out with a club; it is civil liberty that would punish me for the crime. The coyote wolf is a type of individual liberty. The buccaneer men on the ocean is a representative of personal liberty. Jesse James, the Missouri outlaw, was the best type of the personal liberty asked by liquor men in this country. For twenty years he was personally free to rob trains. Finally he went down to death under the hand of civil government. Liquor men say: "Government has no right to say what I shall eat, drink or wear." Get up and forget to dress yourself some morning. How far would you get in this city before the government would tell you to put on clothes? It is the duty of government to restrain animal passions and the cry of liquor men for personal liberty is simply a cry of barbarism. As all girls expect to marry—millionaires they naturally think it a waste of time to learn the art of cooking.

WHO IS MIDDLEMAN?

When prices are high the middleman gets the blame. He is the link in the distributive chain nearest the consumer, and catches censure first. Just what, or who is the middleman? Is it the retailer? He gets his living along the chain of distribution that links the consumer with the producer. Or the wholesaler, who is part of the chain? Or is it the buying agent, the merchandise broker, the sales agent, the importer? The middleman is not any of these. He really is not a man at all; simply a series of costs that must be met before the goods can reach the user. The expense you would have to pay if you yourself went to Florida for your grape fruit, to Russia for your saibles, to South America for your bananas, to Cuba for your sugar—that is the middleman, only others who want grapefruit, bananas saibles and sugar, help you foot the bill. He is freight—he is advertising—he is taxes—he is the salesman's salaries—he is the administrative overhead. Obviously, these are expenses which must be paid; when they represent duplication or waste, open competition usually corrects them. Of course, if a cheaper way can be found—some entirely new method of distribution that would satisfactorily replace them and cost less—it would be used. But before blaming the middleman, it should be remembered that so far we have not found a cheaper alternative; that what is called the "middleman" represents the most economical distributive method used since civilization began gathering goods from the four corners of the world.—Portland (Oregon) Telegram.

"POLLYANNA" AT OPERA HOUSE

The supreme event of the season comes when Mary Pickford in her long anticipated picture, "Pollyanna," the famous "glad" play comes to this theatre. In announcing this feature with "America's Sweetheart" in the rite tole, you are assured seeing a picture which surpasses even Miss Pickford's previous productions. The story is one that will enthral. The acting of Miss Pickford discloses undreamed of artistry. The work of the supporting cast is of the same high calibre of the star's. Not a single detail or an artistic touch has been left out. It preaches the doctrine of "gladness" as no other picture ever did. With tears in your eyes you will smile and smile and go home imbued with "Pollyanna's" spirit of being "glad" that worse misfortune than those which sometimes have made you blue, haven't overtaken you.

Among those not likely to be unemployed during the next few months are the politicians.

BOBBED HAIR 3,000 YEARS AGO

A number of women in Egypt who were recently attacked by the local press for bobbing their hair and wearing short skirts replied that the so-called modern fashions are as old as the Pyramids. "We have merely revived the styles," they say, "which may be seen in any museum on the sarcophagi encasing the mummies of every Egyptian princess. Bobbed hair, concealed ears, and short skirts were in vogue 3,000 years ago."

BOY SCOUT NOTES

The regular meeting will be held this evening at 6.45. Program as follows: 6.45 to 7.00—Group Games. 7.00 to 7.45—Indoor Cricket. "Wolves" vs. "Cuckoos". 7.00 to 7.45—Talk on Fireman Badge. Remainder of Troop. 7.45 to 8.00—Group Games. 8.00—Roll Call and talk by Rev. R. F. Dixon. 8.15—Rehearsal of Play. It is hoped to produce the tenth annual entertainment at an early date. The Indian play "Pocahontas" will be given together with various specialties. An especially interesting feature this year is that portion of the program given by certain Sunday School Classes. The "Crusaders" (St. John's) will have charge of the Shadow Pantomime and the "Live Wires" (The

A WIDE AWAKE SUNDAY-SCHOOL CLASS

From time to time we have seen chronicled in the columns of the Acadian matters relating to the "Crusaders", the boys class of St. John's Sunday School. It may be however of interest to give a brief outline of what this class has done and is doing. The class was organized in the Spring of 1920 with Mr. H. H. Wetmore as teacher, Arthur Brady, president and Robert Herbin as Secy-Treasurer. The membership totalled 8, who attended more or less regularly. The opening of the new Parish Hall stimulated interest and enabled the boys to act as hosts and as guests at a number of socials during last winter. The membership and interest increased and the crowning achievement was an entertainment put on by the class with the assistance of outside talent early last Spring. This netted the boys about forty dollars and gave them a working capital. Last month ten members of this class spent Friday afternoon and Saturday at the Scout camp at Sunken Lake. Enthusiastic plans are made for the coming winter's work which it seems probable will be carried out. Mr. Doane Hatfield, the president of the class, was sent to the Boy's Conference as a delegate (the sole representative from Wolfville). The class now numbers sixteen with a very regular attendance at Church, Sunday School and their Wednesday evening meeting. They have set out invitations for a social on Hallowe'en and have accepted a challenge to a game of Basket Ball from the "Live Wires", as the newly organized boys class in the Tabernacle is called. From present indications it will take quite a lot to buck the "Crusaders", whether it be in attendance on Sunday, social duties or Athletics. The officers of the Class are: Doane Hatfield, President; Tom Dakin, Secretary; Gordon Mahaney, Treasurer.

AVONPORT NOTES

Mrs. F. F. Graham and little son Donald are spending the week with Mrs. Graham's mother Mrs. F. Curry at Hortonville. Mrs. W. D. Withrow of Wolfville, was the guest of her friend Mrs. Wm. Holmes Jr. a few days last week. Mr. Arthur Lockhart and son Coleman, of the Barge "Hamburg", are spending a week at their home here. Messrs. Fred Graham, Wm. Holmes Jr. and Geo. Weagle left on Monday for Queens Co. on a hunting trip. Mrs. Geo. Brooks returned on Sat. last from Wolfville where she spent two weeks. Mr. and Mrs. Judson Hatfield of Port Greville, Cum. Co., spent the week end in Avonport guests of Mrs. Hatfield's sister Mrs. Geo. Brooks.

Albert Parsons, ex M.P.P. of Walton, was chosen the candidate for the National Liberal and Conservative party for Hants county in place of H. B. Tremain, ex M. P., who was nominated but declined.

Mr. O. G. Cogswell, of Port Williams, has sent to THE ACADIAN an apple of the Northern Spy variety which measured fourteen inches in circumference, any person who can beat this is invited to stand up.

FINAL NOTICE ABOUT TAXES

As intimated in Notice published last week, a warrant for collection of taxes is being prepared. A large number have recently paid their taxes; therefore their names have been cut out of the warrant. Those still in arrears are invited to pay at once and keep up so busy revising the warrant that very few names will finally appear thereon. By order, R. W. FORD, Town Clerk

OUR WATER SUPPLY

The word insidious as used in an article on the above subject in last week's Acadian, is much more applicable to the said article than the report referred to. We refer our writer of insidious articles to the dictionary. The report was sent with the knowledge, if not the consent, of the Town Clerk. I also presume that some other town officials knew it was going. If the engineer made the statements alleged of him (which I do not believe he did) then he simply did not know what he was talking about. Our next neighbor, Hantsport, is supplied from the Davison lake by a six inch pipe and no reports are at hand that the said lake is likely to go dry. Then just the day before the engineer arrived about an inch of rain fell on the mountain which caused the water to rise in the reservoir (not the artesian well as the engineer was led to think), and improved the look of things. If it had not been for this rain the engineer instead of complimenting the town on the good water supply, would have given the water committee a hint to get busy and do something practical, to increase the water supply. I made the remark in a previous letter that the water had never been worse than since the artesian well started. Of course I do not think that the water from the well is dirty; but the flock were led to believe that when the well started the days of dirty water would be over. I suppose that the dirty water that was in the bottom of the new reservoir just before the engineer came and when he came had found its way into the old reservoir had something to do with the quality of the water at present. I have suggested ways of improving the quality of our water supply more than once but the powers that be are not likely to take my advice except they be driven in a corner and find it necessary to do so, and then try to keep it dark by not letting my account come out in the regular way. If the writer of the article would just be man enough to come out and say plainly what he meant about the "insidious" attempt to knock; it would be much better. I do not believe that any person except the writer and the officials who prompted him ever thought I had any notion to knock. I think the knocking has all been the other way. Thanks to the weather man and not the artesian well our worries are over for another, and perhaps several seasons. The people of Wolfville need never be afraid of a water famine for the whole Gasperreau river is at our door and can be filtered and pumped into our reservoir at a trifling cost compared with the few barrels we got from the artesian well. C. M. G.

LORD'S DAY ALLIANCE

Mr. Spencer, representing the Lord's Day Alliance spent Sunday 16th in Wolfville. He spoke in the Baptist Church in the morning and in the Methodist Church to the United Methodist and Presbyterian congregations in the evening. At the close of the evening services a meeting was held in the vestry of the Baptist Church for the reorganization of the local branch of the Alliance. Mr. W. H. Chase retiring president occupied the chair and Prof. Sutherland was made Secretary of the meeting. A hearty vote of thanks was tendered Mr. Chase and Dr. Oakes for their many years of faithful service. The following officers were appointed: President—Edson Graham. Vice President—Morgan Tamplin. Secretary—Dr. I. B. Oakes. These officers together with the ministers of the town to form the Executive.

GASPEREAU ATHLETE

Bartley L. Atwell, of Gasperreau, who competed in the Herald and Mail ten mile race at Halifax on the 15th, made a splendid showing considering his condition. He was hit by a car at the start of the race and lost several minutes or he would have been among the first to finish. Local sporting men who saw the race state that Atwell is an ambitious runner who will be heard from in the future. He will compete in the indoor meet to be held in Amherst next month.

KILLED ON THE TRACK

An effort to save his Studebaker from being smashed by No. 9 Express at Maccan crossing was the means of John Bowser, on Friday morning last, loosing his life. He had been working at Athol and had visited his home near Amherst during the evening and was returning to Athol in his car accompanied by Leonard White, Amherst. At the turn of the road at Maccan, near the level crossing they saw the lights of the express, coming through the cutting at Stone Half Mile. Bowser, thinking to make the crossing ahead of the train, attempted to make the grade without giving his car extra power, with the result that the motor slackened down. Throwing on more power the car stalled in the middle of the track. The train was then near at hand and White jumped to safety, but Bowser in a final effort to move his car remained too long, and was struck by the express, smashing the car into fragments and being piled himself in the wreckage. Evidently death was instantaneous. The deceased was for some time a resident in Wolfville, being employed as a brick layer on the new school building, while in Wolfville he boarded at Mrs. Davison's, Gasperreau avenue.

HERALD AND MAIL ROAD RACE

There was a record number of contestants in the Herald and Mail Road Race on Saturday last. The course was ten miles and the winner was Victor MacAuley, of Windsor, who set a record for the Herald Marathon of 55 minutes, and 35 and 2-5 seconds. John Bell, of Newfoundland, came in second in 58 minutes and 33 seconds. MacAuley hopes to return next year and turn in the win that will give him permanent possession of The Herald trophy.
