doctrine may be regarded simply as an illustration of the g
rule of procedure which is embodied in the maxim, *Ei incumb*

Peppett v. *Michigan C. R. Co.* (1899) 119 Mich. 540, 78 N. W. 900; *Donovan* v. *Harlan & H. Co.* (1899) 2 Penn. (Del.) 190, 44 Atl. 819; *Daniels* v. *Liebig Mfg. Co.* (1899) 2 Marv. (Del.) 207, 42 Atl. 447; *Chielonsky* v. *Hoopes & T. Co.* (1894) 1 Marv. (Del.) 273, 40 Atl. 1127; *Croker* v. *Pusey & J. Co.* (1900) 3 Penn. (Del.) 1, 50 Atl. 61; and cases cited *passim* in this subtitle.

"The burden must rest upon the injured servant to show by his complaint that some duty of the master has been violated. If that duty is one the discharge of which has been delegated to another, not only the duty, but the delegation of it, as well as its violation, must be shown." *New Pittsburgh Coal & Coke Co.* v. *Peterson* (1893) 136 Ind. 398, 43 Am. St. Rep. 327, 35 N. E. 7.

"It is not for the defendant to account for the accident on a theory consistent with due care, but for the plaintiff to account for it on a theory inconsistent therewith." *Breen* v. *St. Louis Cooperage Co.* (1892) 50 Mo. App. 202.

Any instruction is erroneous which makes the master's liability turn upon the existence of danger, not of negligence (*Lincoln Street R. Co.* v. *Cox* [1896] 48 Neb. 807, 67 N. W. 740); or which directs the jury to find for the plaintiff if they should determine that, in doing what he did with respect to the defective appliance in question, he was acting in the proper discharge of his duties, and while so acting took proper precautions (*Norfolk & W. R. Co.* v. *Mann* [1901] 99 Va. 180, 37 S. E. 849).

An instruction which makes the liability of a street railway company for an injury to an employee from coming in contact with a broken fire alarm wire which had fallen across the trolley wire depend upon the manner in which the wires were constructed and maintained, instead of upon the negligence of the company in so maintaining and constructing them,—is erroneous. *Lincoln Street R. Co.* v. *Cox* (1896) 48 Neb. 807, 67 N. W. 740.

Where a servant was injured in the master's shop by stepping into a barrel of hot water sunk into the ground so that the top was flush with the surface, and he contended that the injury was caused by the action of a vicious dog kept by the master, it was held that an instruction declaring that the plaintiff would be entitled to recover if the jury found that the action of the dog was not a risk assumed by the servant, and that such action was the cause of the injury, was erroneous, inasmuch as it did not require a consideration of the master's negligence in placing and maintaining the barrel, and the servant's freedom from negligence. *Mc... Roepple Button Co.* (1900) 112 Wis. 51, 83 N. W. 809.

In a case where the plaintiff proved the occurrence of the accident and introduced affirmative evidence tending to show that the defect had existed for a considerable time, it was held that an instruction that it is the duty of the employer "to exercise reasonable care in keeping such machinery and appliances in a reasonably safe condition for use" did not place the burden of disproving the neglect of duty upon him, and was not improper. *Chicago, R. & Q. ...* v. *Anthony* (1898) 55 Neb. 748, 76 N. W. 462, Modifying on Rehearing 55 Neb. 227, 74 N. W. 454.

Where the evidence tends to show that the plaintiff was injured entirely because of the carelessness and inattention of those who arranged a hoisting apparatus and fixed it and placed it in position, or because of defects in the apparatus itself, an instruction is erroneous which declares the plaintiff to be entitled to recover if the jury believe that the work in which the appliance was used was extra-hazardous. Such an instruction is not open to objection on the ground that it assumes the work to have been extra-hazardous, when there was no evidence of that fact except the accident itself. It merely directs the attention of the jury to the propriety of considering whether, under the circumstances, the plaintiff's right of recovery may not hinge upon the rule that the risks resulting from the failure of the master to furnish suitable machinery and prudent servants to operate it in the same are extra-hazardous and not assumed by a servant as part of his contract of service. *Consolidated Coal Co.* v. *Haenni* (1893) 146 Ill. 614, 35 N. E. 162, Affirming (1891) 48 Ill. App. ...

In a case where the case was tried by a judge sitting as a jury, it was

natio qui dicit, non qui negat.[2] Or it may be referred to the more particular proposition applicable only to actions for negligence that, as it is presumed, in the absence of evidence to the contrary, that any duty which the law imposes has been properly performed, a servant must, in order to make out a prima facie case which will entitle him to go to the jury, produce some evidence which tends to destroy the force of the presumption in the given instance.[3] Sometimes both these notions are adverted to in the same statement.[4]

From the principles explained in chapter x., *ante*, it follows that one of the essential elements which the servant has the burden of proving is the master's knowledge, actual or constructive, of the existence of the dangerous conditions which caused the injury.[5] But

town that, in order to charge a shipowner with liability on the ground of his failure to furnish a safe hook to hold a boom in use as a derrick, the injured person must furnish evidence of negligence sufficiently clear, distinct, and preponderating to convince the court, without resort to conjecture or surmise, that the shipowner was negligent. *The Baron Iwerdale* (1899) 93 Fed. 192. But in this case several witnesses had stated that the iron of the hooks was of very inferior quality, and that there was evidence of a flaw of which the shipowner should have known. Apparently, therefore, the case would have been for the jury if it had been tried in the ordinary manner.

[2] "The onus of proof is on the plaintiff. It is incumbent on him to show . . . fully all the elements of a right . . . ." *State use of Hamelin* v. . . . (1881) 57 Md. 287.

. . . authorities are agreed that it . . . upon the plaintiff to show the . . . or, in other words, . . . all the facts which constitute . . . apparent the alleged negli- . . . *Atchison, T. & S. F. R. Co.* v. . . . *Weber* (1885) 34 Kan. 326, 8 Pac. . . .

[3] This aspect of the principle is adverted to in the following cases: *Summerhaus* v. *Kansas P. R. Co.* (1875) 2 Colo. 484 (complaint not negativing want of care and knowledge, held bad on demurrer; *Murray* v. *Denver & R. G. R. Co.* (1887) 11 Colo. 124, 17 Pac. 484; *Bailey* v. *Garbutt* (1900) 112 Ga. 288, 37 S. E. 360; *Chicago & E. I. R. Co.* v. *Mucis* (1898) 83 Ill. App. 469; *Missouri P. R. Co.* v. *Chamberlain* (1896) 4 Kan. App. 232, 45 Pac. 967; *Ouellette* v. *Overman Wheel Co.* (1894) 162 Mass. 360, 38 N. E. 511; *Bublin* v. *Kansas . . . St. J. & C. B. R. Co.* (1891) 119 . . . 176, 24 S. W. 1011; *Sparks* v. *Chicago, R. & Q. R. Co.* (1895) 13 Neb. 720, 62 N. W. 98; *Scott & Co.* v. *Halsabel* (1900) 60 Neb. 781, 84 N. W. 247; *Potter* v. *New York C. & H. R. R. . .* (1892) 136 N. Y. 77, 32 N. E. 603; *Rose* v. *Boston & A. R. Co.* (1871) 58 N. Y. 217; *Mc Callan* v. *Saratoga & W. R. Co.* (1855) 20 Barb. 149; *Wright* v. *New York C. R. Co.* (1862) 25 N. Y. 562; *Malone* v. *Hathaway* (1876) 64 N. Y. 5, 21 Am. Rep. 573; *De Graff* v. *New York C. & H. R. R. Co.* (1879) 76 N. Y. 125; *Hanes* v. *Fortieth and Forty-second & G. Street Ferry R. Co.* (1881) 97 N. Y. 259; *Hoag* v. *Staten Island R. Co.* (1880) 81 N. Y. 373; *Sidener* v. *Kemp* (1895) 115 N. Y. 127, 20 N. E. 212; *Wall* v. *Delaware, L. & W. R. Co.* (1883) 34 Hun, 454, 7 N. Y. Supp. 709; *Grimont* v. *Hartman* (1886) 17 W. N. C. 252, 1 Cent. Rep. 928, 5 Atl. 312.

In the absence of an allegation that an employer was incompetent at the time he was employed, the court will presume that the master made all proper inquiries and investigations before hiring him. *Davis* v. *Detroit & M. R. Co.* (1870) 20 Mich. 105, 4 Am. Rep. 361.

[4] Negligence on the part of the employer is not to be presumed; and it rests on the plaintiff to aver and prove every fact essential to the existence of actionable negligence on the part of the employer. *Louisville, N. A. & C. R. Co.* v. *Sandford* (1888) 117 Ind. 265, 19 N. E. 770.

[5] *De Graff* v. *New York C. & H. R. R. Co.* (1879) 76 N. Y. 125; *Norfolk & W. R. Co.* v. *Jackson* (1888) 85 Va. 189, 8 S. E. 370; *Chicago, B. & Q. R. Co.*

v. *Montgomery* (1884) 15 Ill. App. 205; *Johnson* v. *Chesapeake & O. R. Co.* (1892) 36 W. Va. 73, 14 S. E. 432; *Arcade File Works* v. *Jutcau* (1896) 15 Ind. App. 461, 10 N. E. 818, 44 N. E. 326; *Disher* v. *New York C. & H. R. R. Co.* (1883) 91 N. Y. 622; *Mentzer* v. *Armour* (1883) 5 Met'tary, 617, 18 Fed. 375; *Mason* v. *Richmond & D. R. Co.* (1892) 111 N. C. 482, 18 L. R. A. 815, 32 Am. St. Rep. 814, 16 S. E. 698; *Columbus, C. & I. C. R. Co.* v. *Troesch* (1873) 68 Ill. 545, 18 Am. Rep. 578; *Stafford* v. *Chicago, R. & Q. R. Co.* (1885) 114 Ill. 244, 2 N. E. 185; *St. Louis, I. & T. H. R. Co.* v. *Corgan* (1891) 49 Ill. App. 229; *Snodgrass* v. *Carnegie Steel Co.* (1896) 173 Pa. 228, 33 Atl. 1104; *Condon* v. *Missouri P. R. Co.* (1883) 78 Mo. 567; *St. Louis, I. M. & S. R. Co.* v. *Gaines* (1885) 46 Ark. 555.

The cases cited in the chapters dealing with knowledge as an element of the master's liability all assume the doctrine to be correct.

See also § 128, *ante*.

From evidence that a defect existed it cannot be inferred that it could have been discovered. *Harnois* v. *Cutting* (1899) 173 Mass. 398, 54 N. E. 842.

In two cases in which the servant was suing under the North Carolina statute, which declares railway companies to be liable to their employees for injuries caused by "any defect in their machinery, ways, or appliances" (see chapter XXIX., *ante*), the court held that, when it was proved or admitted that the injury in question was caused by the unsafe condition of the track, negligence on the part of the company would be presumed, and that the burden of proving facts which would excuse the accident was then shifted to the defendant. *Marcom* v. *Raleigh & L. Air Line R. Co.* (1900) 126 N. C. 200, 35 S. E. 423; *Wilkie* v. *Raleigh & C. F. R. Co.* (1900) 127 N. C. 203, 37 S. E. 201. In the former case it was remarked that this is always the rule where a positive duty is imposed by law. No authorities for this statement were mentioned, nor does the court give any reason for the doctrine thus enunciated, although that doctrine is tantamount to a declaration that the principle which is recognized in the decisions collected at the beginning of this note is not applicable where the physical conditions from which the injury resulted did not satisfy a standard of safety which had been fixed by a statutory provision. The writer confesses his inability to perceive any rational ground upon which such a [illegible] tication of that principle can be [illegible] in the present instance. The co[illegible] position would rather seem to be [illegible] in the absence of some express p[illegible] sion like those discussed in § 839, [illegible] the statute in question simply render[illegible] railway company liable for a "de[illegible] under the same circumstances as w[illegible] warrant the inference of such lia[illegible] in a common law action; — that i[illegible] say, recovery is conditional upon it[illegible] ing shown that the company, ha[illegible] actual or constructive knowledge of[illegible] abnormal conditions, failed to rem[illegible] them. The adoption of this view o[illegible] ously involves the consequence that [illegible] burden of proving such knowledge [illegible] lie upon the plaintiff in an action u[illegible] the statute, and that the doctrine [illegible] plied in the North Carolina cases [illegible] erroneous. A similar conclusion is [illegible] dicated by the consideration that [illegible] doctrine seems to be essentially in[illegible] sistent with the rule laid down in [illegible] cases mentioned in § 800, *ante*, 112, [illegible] the imposition of a specific duty upo[illegible] master does not operate so as to re[illegible] him an insurer of the safety of [illegible] servants.

Another case which seems to be [illegible] posed to the general current of the [illegible] thorities is *Guthrie* v. *Maine C. R.* [illegible] (1889) 81 Me. 572, 18 Atl. 295, wh[illegible] the court held that having in a trai[illegible] car with defective appliances furni[illegible] prima facie evidence of an omission [illegible] duty on the part of the company, [illegible] that, if there was any explanation [illegible] was within the power of the company [illegible] give it. In *Carruthers* v. *Chicago, K. & P. R. Co.* (1895) 55 Kan. 683, 40 P. 915, an attempt was made to reco[illegible] this ruling with the more commonly [illegible] cepted doctrine upon the ground t[illegible] the defect in question (broken drawh[illegible] and bumper) was a patent one of wh[illegible] the company was bound to take noti[illegible] Possibly the case may be brought in h[illegible] with the other authorities to the ext[illegible] of its being consistent with them up[illegible] the actual facts in evidence. But t[illegible] Maine court, so far as can be discover[illegible] from its reported opinion, did not [illegible] tend to rely upon the patent chara[illegible] of the defect, or the presumption th[illegible] the company had notice of it. T[illegible] broad rule is laid down that "in [illegible] cases where a wrong, a fault, or [illegible] omission of duty even, is proved, fro[illegible] which damages result, the wrong, fau[illegible] or omission implies a neglect, in t[illegible] absence of other evidence, which

where the servant has shown that the master ought to have known of these conditions, the law does not put upon him the additional burden of showing that the master knew what it was his duty to know.[6]

A servant suing for injuries caused by the employer's negligent failure to furnish safe machinery is not bound to show the precise nature of the defect. It is sufficient to show that the accident occurred because of some defective condition of the machinery, caused by the latter's negligence.[7]

The presumption is that a servant of a railway company, who was injured while traveling on a car which belonged to the company and was ostensibly designed for the transportation of passengers, was on

quires explanation from the apparently guilty party.

Where it is shown that the negligence which caused the injury was that of a fellow servant, the plaintiff has the onus of showing that the fellow servant was incompetent, and that the defendant knew or ought to have known of that incompetency. *Byrne* v. *Fennell* (1882) Ir. L. R. 10 C. L. 397; *Mentzer* v. *Armour* (1882) 5 McCrary, 617, 18 Fed. 373; *Chicago & E. I. R. Co.* v. *Geary* (1884) 110 Ill. 383; *Stafford* v. *Chicago, B. & Q. R. Co.* (1885) 114 Ill. 244, 2 N. E. 185; *Ohio & M. R. Co.* v. *Dunn* (1893) 138 Ind. 18, 36 N. E. 702, 37 N. E. 546; *Baltimore Elevator Co.* v. *Neal* (1886) 65 Md. 438, 5 Atl. 338; *McDermott* v. *Hannibal & St. J. R. Co.* (1885) 87 Mo. 285; *Roblin* v. *Kansas City, St. J. & C. B. R. Co.* (1894) 119 Mo. 476, 24 S. W. 1011; *Murphy* v. *St. Louis, I. M. & S. R. Co.* (1879) 71 Mo. 202 (error to charge that the master has the burden of proving that he used due care in employing a servant shown to be incompetent); *O'Boyle* v. *Lehigh Valley Coal Co.* (1894) 161 Pa. 275, 28 Atl. 3088; *Snodgrass* v. *Carnegie Steel Co.* (1894) 173 Pa. 228, 33 Atl. 1101; *Southern Cotton-Oil Co.* v. *De Vaud* (1894; Tex. Civ. App.) 25 S. W. 43 (instruction erroneous which puts on defendant the burden of proving exercise of due care in selecting a servant); *Missouri P. R. Co.* v. *Christman* (1886) 65 Tex. 369; *M'Charles* v. *Horn Silver Min. & Smelting Co.* (1894) 10 Utah, 470, 37 Pac. 733; *Ragotte* v. *Canadian P. R. Co.* (1889) 5 Manitoba L. Rep. 365.

It is error to instruct a jury that, when the incompetency of the servant is established, the burden of proving that ordinary care was used in employing him lies on the master. *Murphy* v. *St. Louis, I. M. & S. R. Co.* (1879) 71 Mo. 202.

On the other hand, where it is manifest that the negligence, if any, amounted to the violation of a personal or non-delegable duty of the master, the plaintiff is not obliged in the first instance, and as a part of his case to show that the coemployee from whose acts or omissions the risk in question resulted was incompetent for his duties. *Gates* v. *Chicago, M. & St. P. R. Co.* (1893) 4 S. D. 433, 57 N. W. 200 (derrick allowed to be in a situation where it was dangerous to men on passing trains).

[6] *Ocean S. S. Co.* v. *Matthews* (1890) 86 Ga. 418, 12 S. E. 632. The court said: "It being shown that the defendant, whose duty it was to provide safe and suitable implements, on the contrary provided and employed implements which at and before the time of the injury were obviously unsafe and unfit, and on their face showed that they had been so long enough for their unsafe condition to have been discovered by the master in the exercise of ordinary diligence, it is not too much to assume that the defendant ought to have known of this condition; and it is asking little enough to require it to show that it did not know, or offer some excuse for not knowing. This defense, if it existed, could easily have been made; the proof must have lain within the defendant's reach; the books were in its possession, presumably so, at least; and if the plaintiff's evidence as to the condition of the hooks was untrue, the defendant could easily have disproved it."

[7] *Nelson* v. *St. Paul Flour Works* (1894) 57 Minn. 43, 58 N. W. 868.

that car by the invitation of an employee who had authority to the company by such invitation; and in the absence of evidence ing to rebut this presumption the jury is warranted in finding tha servant was not a trespasser.[8]

833. Negligence not inferable from the mere occurrence of an dent.—A doctrine which has very frequently been affirmed in ployers' liability cases is that the mere fact of the servant's ha been injured, owing to the existence of abnormally unsafe condit is not of itself sufficient to overcome the presumption entertaine the law, that the master has exercised proper care.[1] This doc

[8] *Bryant* v. *Chicago, St. P. M. & O. R. Co.* (1893) 4 C. C. A. 146, 12 U. S. App. 115, 53 Fed. 997. As to this case, see § 626, notes 2, 6, *ante*.

[1] "While in the case of a passenger the fact of an accident carries with it a presumption of negligence on the part of the carrier,—a presumption which, in the absence of some explanation or proof to the contrary, is sufficient to sustain a verdict against him, . . . a different rule obtains as to an employee. The fact of accident carries with it no presumption of negligence on the part of the employer, and it is an affirmative fact for the injured employee to establish, that the employer has been guilty of negligence." *Patton* v. *Texas & P. R. Co.* (1901) 179 U. S. 658, 45 L. ed. 361, 21 Sup. Ct. Rep. 275.

"Excepting where contractual relations exist between the parties, as in the case of carriers of passengers and some others, negligence will not be presumed from the mere happening of the accident and a consequent injury; but the plaintiff must show either actual negligence or conditions which are so obviously dangerous as to admit of no inference other than that of negligence." *Stearns* v. *Ontario Spinning Co.* (1898) 184 Pa. 523, 39 L. R. A. 842, 63 Am. St. Rep. 807, 39 Atl. 292.

"The mere fact that the servant received injury does not establish, even prima facie, the negligence or breach of duty of the master." *Essex County Electric Co.* v. *Kelly* (1894) 57 N. J. L. 100, 29 Atl. 427.

Other cases in which the doctrine in the text is recognized are the following: *Moffatt* v. *Bateman* (1869) L. R. 3 P. C. 115, 22 L. T. N. S. 140, 6 Moore, P. C. C. N. S. 369, Reversing 5 W. W. & A. B. (Viet. Law) 125; *Kay* v. *Briggs* (1889; Q. B. D.) 5 Times L. R. 233 (upper compressing plate of a brick-making machine falls unexpectedly on the of a workman who has just arrest movement with a scraper); *Texas R. Co.* v. *Barrett* (1897) 166 U. S. 41 L. ed. 1136, 17 Sup. Ct. Rep (boiler exploded); *Jones* v. (1872) 2 Dill. 68, Fed. Cas. No (boiler exploded); *Re California Impror. Co.* (1901) 110 Fed. 670 drum exploded); *The Ida B. C* (1894) 10 C. C. A. 631, 23 U. S. 395, 62 Fed. 765 (fireman's leg caught in line thrown to steam *Jones* v. *Alabama Mineral R. Co.* v. *Hardwick* (1892) Ill. App. 562 (footboard of engine way); *Chicago & A. R. Co.* v. *D* (1886) 23 Ill. App. 148 (flange of broke); *Garden City Wire Spring* v. *Boecher* (1899) 94 Ill. App. 96; *Lo ville & N. R. Co.* v. *Conliff* (1890 Ky. 560, 14 S. W. 513 (rails of sw spread as train was moving slowly, caused the switch lever to strike a y

hand); *Henry* v. *Brackenridge Lumber Co.* (1896) 48 La. Ann. 950, 20 So. 221; *Hanrathy* v. *Northern C. R. Co.* (1876) 46 Md. 280 (defective steam hammer); *Hale* v. *New York & N. E. R. Co.* (1899) 174 Mass. 317, 54 N. E. 844 (arch pipe of locomotive blew out); *Duffy* v. *Upton* (1873) 113 Mass. 544 (derrick broke); *Toomey* v. *Eureka Iron & Steel Works* (1891) 89 Mich. 249, 50 N. W. 850 (boiler end fell upon workman); *Redmond* v. *Delta Lumber Co.* (1893) 96 Mich. 545, 55 N. W. 1004 (no proof offered that machine was out of repair when it caused an accident); *Quincy Min. Co.* v. *Kitts* (1879) 42 Mich. 34, 3 N. W. 240, per Cooley, J.; *Perry* v. *Michigan C. R. Co.* (1895) 108 Mich. 130, 65 N. W. 608; *Toomey* v. *Eureka Iron & Steel Works* (1891) 89 Mich. 249, 50 N. W. 850; *Davidson* v. *Davidson* (1891) 46 Minn. 117, 48 N. W. 560 (iron weights by which elevator was operated fell through top of car); *Nolan* v. *Shickle* (1877) 3 Mo. App. 300 (scaffold fell); *Lincoln Street R. Co.* v. *Cox* (1896) 48 Neb. 807, 67 N. W. 740; *Chicago, B. & Q. R. Co.* v. *Kellogg* (1898) 55 Neb. 748, 76 N. W. 462, Modifying on Rehearing 54 Neb. 127, 74 N. W. 454; *Baldwin* v. *Atlantic City R. Co.* (1900) 64 N. J. L. 232, 45 Atl. 810; *De Graff* v. *New York C. & H. R. R. Co.* (1879) 76 N. Y. 125; *Terry* v. *New York C. R. Co.* (1855) 22 Barb. 574; *Curran* v. *Warren Chemical & Mfg. Co.* (1867) 36 N. Y. 153; *Baulec* v. *New York & H. R. Co.* (1874) 59 N. Y. 356, 17 Am. Rep. 325; *Lancson* v. *Merrall* (1893) 69 Hun, 278, 23 N. Y. Supp. 560 (clamp holding hoisting cable of elevator broke and allowed cage to fall); *Mulligan* v. *Crimmins* (1894) 75 Hun, 578, 27 N. Y. Supp. 819 (court declined to say that a sliver would not be dislodged from a chisel by the blow of a heavy sledge hammer when the chisel was in good order); *Martin* v. *Cook* (1891) 37 N. Y. S. R. 733, 14 N. Y. Supp. 329 (hand of ladle from which molten lead was being poured into another suddenly gave way); *Mahoney* v. *New York C. & H. R. R. Co.* (1892) 46 N. Y. S. R. 738, 19 N. Y. Supp. 511 (drawhead found after an accident to be out of order); *Huff* v. *Austin* (1889) 46 Ohio St. 386, 15 Am. St. Rep. 613, 21 N. E. 861 (boiler exploded); *Kincaid* v. *Oregon Short Line & U. N. R. Co.* (1892) 22 Or. 35, 29 Pac. 3 (railroad brakeman cannot recover for personal injuries resulting from the parting of the train, due to the absence of a key holding the drawbar in place, where the key may have fallen out in the ordinary operation of the train, and there is nothing aside from the accident, to show that the key was not in place and properly fastened at the time the train started on its trip); *Mader* v. *Imperial Coal Co.* (1893) 152 Pa. 395, 25 Atl. 587; *Higgins* v. *Fanning* (1900) 195 Pa. 599, 46 Atl. 102; *Wojciechowski* v. *Spreckels Sugar Ref. Co.* (1896) 177 Pa. 57, 35 Atl. 596; *Spees* v. *Boggs* (1901) 198 Pa. 112, 52 L. R. A. 933, 82 Am. St. Rep. 792, 47 Atl. 875; *Dallus* v. *Gulf, C. & S. F. R. Co.* (1883) 61 Tex. 196 (derailment of train); *Houston & T. C. R. Co.* v. *Barrager* (1890; Tex.) 14 S. W. 242 (drawhead had become detached in the operation of moving the train); *Broadway* v. *San Antonio Gas Co.* (1900) 24 Tex. Civ. App. 603, 60 S. W. 270; *Missouri, K. & T. R. Co.* v. *Crowder* (1899; Tex. Civ. App.) 55 S. W. 380; *Hard* v. *Vermont & C. R. Co.* (1860) 32 Vt. 478; *Hughes* v. *Oregon Improv. Co.* (1898) 20 Wash. 294, 55 Pac. 119; *Ketterman* v. *Dry Fork R. Co.* (1900) 48 W. Va. 606, 37 S. E. 683; *Musbach* v. *Wisconsin Chair Co.* (1900) 108 Wis. 57, 84 N. W. 36; *Spille* v. *Wisconsin Bridge & Iron Co.* (1900) 105 Wis. 340, 81 N. W. 397; *Wyman* v. *The Duart Castle* (1899) 6 Can. Exch. 387.

See also cases cited in § 834, note 9, *infra*.

In one case it was laid down that, while a railroad company is not an insurer of the safety of its employees, a collision or derailment of a train, causing injury to an employee, raises a presumption of negligence on the part of the railroad company, and casts on it the burden of proving that it was not negligent. *Wright* v. *Southern R. Co.* (1900) 127 N. C. 225, 37 S. E. 221. The court relied on the cases cited in Shearm. & Redf. Neg. § 516, regarding the presumption of negligence that is entertained where a passenger is injured by some instrumentality for the condition of which the carrier is responsible. The position is expressly taken that "this presumption extends to the occurrence, regardless of the person injured."

In another case we find the similar ruling that, where it appears that a servant was injured in a train collision a prima facie case is made against the master. *Shuler* v. *Omaha, K. C. & E. R. Co.* (1901) 87 Mo. App. 618. The court proceeds upon the assumption that the rule which provides that where an accident results from "an act of such a

is controlling, even in cases where the nature of the accid strongly suggestive of the conclusion that the master had fallen of the obligatory standard of care.[2]

character that when due care is taken in its performance no injury ordinarily ensues from it in similar cases, it will be presumed to be negligent," applies to a collision between trains, even when the injured person is a servant. The authorities cited are cases where carriers were sued by third persons.

Both of these decisions are evidently contrary to the great mass of the authorities which make a distinction between the class of cases relied upon by the courts and those in which the injury was received by a servant or person to whom the defendant owes only the duty of exercising ordinary care. See last section, note 1.

It is error to give any instruction which is inconsistent with the doctrine stated in the text. *Baltimore Elevator Co.* v. *Neal* (1886) 65 Md. 438, 5 Atl. 338; *Wabash R. Co.* v. *Farrell* (1898) 79 Ill. App. 508; *Kuhns* v. *Wisconsin, I. & V. R. Co.* (1887) 70 Iowa, 561, 31 N. W. 868 (instruction disapproved which allowed jury to infer negligence from the fact that the accident was "unusual and extraordinary"); *Kansas P. R. Co.* v. *Salmon* (1873) 11 Kan. 83 (held to be error in an action for injuries received by a trainman in the operation of a railroad, to charge that such an accident raises a presumption of negligence on the part of the master); *Mobile & O. R. Co.* v. *Thomas* (1868) 42 Ala. 672 (engine derailed owing to defects of truck; charge erroneous which stated that the onus of proof that care and diligence was used was cast upon the defendant by a failure to have a suitable engine); *Hudson* v. *Charleston, C. & C. R. Co.* (1889) 104 N. C. 491, 10 S. E. 669 (erroneous to charge the jury that, if they found the appliance which caused the injury to be defective, it devolved on the defendant corporation to show that its condition was not, and could not by the exercise of reasonable care have been, known to its officers); *Louisville & N. R. Co.* v. *Filbern* (1869) 6 Bush, 574, 99 Am. Dec. 690 (instruction held improper by which the jury were in effect told that ordinarily the defendant was not only liable for negligence, either proximate or remote, but that they must regard all accidents or misfortunes occurring in consequence of the falling or displacement of natural objects along the line of the road results of such negligence).

An instruction to the effe where, in the due exercise of his the employee is injured through pliances or surroundings of the b and it does not appear that he fault, the burden is on the empl show that he himself was fre fault, is erroneous, as it take from the jury the consideration question as to whether or not jury was caused by unavoidabl dent. *Lindall* v. *Bode* (1887) 245, 13 Pac. 660.

It is also error to refuse instr embodying this doctrine. *Wan nois C. R. Co.* (1875) 40 Iow But a defendant cannot complain refusal of a trial judge to charg defendant was not bound to expl cause of the accident, where th are instructed that under the c stances of the case the breaking machinery was no evidence of on the part of the defendant. *C* v. *Overman Wheel Co.* (1894) 16 305, 38 N. E. 511.

A special verdict finding t death of a servant of a quarry c was caused by the sudden re loaded cars secured on a gr brake and a chock under the w not warrant the court in enter ment for the plaintiff, unless also a finding that, in the exe ordinary care, this method of them was insufficient. *Hoo Co.* v. *McCain* (1892) 133 Ind N. E. 956.

[2] "It is not enough for the p to show that he has sustained in under circumstances which may a suspicion, or even a fair i that there may have been negli the part of the defendant; but go on and give evidence of some act of negligence on the part of t son against whom he seeks co tion." *Gallagher* v. *Piper* C. B. N. S. 669, 33 L. J. C. P. N 10 Jur. N. S. 879, 10 L. T. N 12 Week. Rep. 988, per Willes J v. *New Gas Co.* (1876) L. R. 1 Div. 251, 45 L. J. Exch. N. S. L. T. N. S. 541 (referring proval to the above remark).

Many of the cases cited in th

It has even been held that negligence cannot be inferred where the instrumentality in question failed to work properly on a few other occasions besides that on which the injury was received.[3] But such a doctrine is scarcely consistent with that which declares that evidence of the prior unsatisfactory operation of an instrumentality is competent for the purpose of proving negligence on the master's part. See §§ 137, 820, *ante*. The onus cannot be said to rest on the plaintiff after he has produced evidence which, if not rebutted, will justify a verdict in his favor.

The limits of the rule are indicated by some exceptive forms of statement. Thus it is laid down that no presumption of negligence on the part of the master arises, where it does not appear that an appliance was originally defective, or that it had been so long in use as to render the duty of inspection necessary, or that the master had due notice of the defect.[4] So, also, it is said that the failure of an appliance to perform its functions properly is not sufficient to show negligence on the master's part, "unless the exercise of proper care would have shown the defective nature of the appliance;"[5] and that there is no presumption that the accident happened in consequence of a failure of duty on the master's part, where the conditions creating the abnormal danger had existed for so short a time that he was not chargeable with notice of its existence.[6]

The doctrine discussed in this section is applicable only in cases where the servant produces no other evidence of negligence than the mere fact of the accident. If any specific testimony bearing on that question is submitted, he is entitled to go to the jury.[7]

ceding note involve facts which render them apt illustrations of this statement.

[3] In *Dooley* v. *Star Knitting Co.* (1892) 134 N. Y. 552, 32 N. E. 35, a machine had been started three times previously by the shifting of a belt in the same manner as at the time of the accident. Recovery was denied; but Bradley, J., dissented on the ground that if, as the evidence tended to prove, the defendant, through his superintendent, had notice that the machine was liable to be set in motion by the casual shifting of the belt, it was the duty of the defendant to use due care to see that the machine retained its place, and that the proper adjustment of the belt in its line with and relation to the pulleys was maintained, or at least to advise the boy of the danger, that he might take the precautionary means requisite to his protection.

In *Sargee* v. *Clark Can Co.* (1901) 126 Mich. 508, 85 N. W. 1105, where a stamp press had fallen on one or two occasions before the accident, McLennan, J., dissented from the opinion of the majority on the ground that the evidence brought the case within the principle suggested in *Redroad* v. *Detroit Lumber Co.* (1893) 96 Mich. 545, 55 N. W. 1001, that "if there were anything to show that the machine had been out of order and that its worksince was spasmodic and uncertain, there might be room for the contention that defendant was negligent in not keeping it in repair."

[7] Where all the details of the construc-

834. Res ipsa loquitur.—The principal qualification to whic doctrine discussed in the preceding section is subject is that v arises from the operation of what is succinctly termed the doctri *res ipsa loquitur*.[1] The rationale of this doctrine is that, in " cases, the very nature of the action may, of itself, and through the sumption it carries, supply the requisite proof."[2] It is appli "where, under the circumstances shown, the accident presu would not have happened if due care had been exercised."[3] Its

tion of a bridge and its inspection are before the jury, the case of a servant who is injured by the fall of the bridge does not stand merely on the fact that the structure gave way, and it is not error to leave the jury to say whether the defendant's want of reasonable care in the erection and inspection of the bridge occasioned the injury complained of. *Bowen* v. *Chicago, B. & K. C. R. Co.* (1888) 95 Mo. 268, 8 S. W. 230.

A sufficient offer of proof of the cause of the injury to entitle plaintiff to go to the jury is made by his opening to the effect that he will prove the derailment of a car on which he was riding in the performance of his duty while running on a switch; due care by him and his fellow servants; the want of smoothness in the running of the cars; the inferior ity of the track to the main track in respect to ballasting and grading, and the derailment of other cars at the same point; and it is not necessary for him to specify the extent of the defects so indicated. *Lemery* v. *Boston & M. R. Co.* (1867) 167 Mass. 254, 45 N. E. 688.

[1] In some cases language is used which, if taken literally, would seem to commit the courts to the theory that the rule which throws upon carriers the burden of exculpating themselves when it is shown that a passenger has been injured by defective appliances has no analogue in cases where servants are the complainants. See, for example, *Mensch* v. *Pennsylvania R. Co.* (1892) 150 Pa. 598, 17 L. R. A. 450, 25 Atl. 31; *St. Louis, I. M. & S. R. Co.* v. *Harper* (1884) 44 Ark. 524. But such statements are clearly made with reference merely to the particular facts under review.

In *Houston* v. *Brush* (1894) 66 Vt 331, 29 Atl. 380, it was pointed out that, although the doctrine had been most frequently applied in actions against passengers, the presumption which it raises is really based upon the act or occurrence, and not alone upon the contract and relation between the parties

[2] *Winkelmann & B. Drug Co.* v. *Laday* (1898) 88 Md. 78, 40 Atl. 1

"In proving the injury the pl . . . may, and often does, prove circumstances, under which the was received, as raise a presumpt carelessness or negligence; and in a case the burden of disproving the sumption, by explaining the cir stances, so as to render their exi consistent with the absence of gence, would devolve upon the de ant." *Columbus & X. R. Co.* v. (1861) 12 Ohio St. 475.

"Without attempting to formula rule embracing every case to which maxim is to be applied, we think clear . . . that when the defen owes a duty to the plaintiff to u certain degree of care in respect to thing causing the accident, to pr the occurrence of such accident, and thing is shown to be under the man ment of the defendant or his serv and the accident is such as in the nary course of things does not occ those who have the management proper care, it affords evidence, in absence of evidence showing that it pened without the fault of the def ant, that the accident arose from lack of the requisite care. In such the occurrence itself, unexplained, sh prima facie a shortage of legal duty the part of the defendant." *Hou* v. *Brush* (1894) 66 Vt. 331, 29 Atl.

[3] *Stearns* v. *Ontario Spinning* (1898) 184 Pa. 519, 39 L. R. A. 63 Am. St. Rep. 807, 39 Atl. 292.

An instruction is correct which l it down that proof by an injured ployee that "his injury was occasio by an act which, with proper care, by machinery which, by proper use care, would not ordinarily produce d age," casts the burden on the emplo to prove that he was not charge with negligence. *Grant* v. *C* *R. Co.* (1891) 108 N. C. 40 13 S. 209.

tial import is that, on the facts proved, the plaintiff has made out a prima facie case, without direct proof of negligence.[4]

Through the operation of the presumption thus entertained the burden of proof is shifted to the defendant and remains upon him until he has produced some evidence which tends to establish his freedom from fault.[5] The burden which is thrown upon him, however, is not that of satisfactorily accounting for the accident, but merely that of showing that he used due care.[6]

The doctrine does not dispense with the rule that the party who alleges negligence must prove it. It merely determines the mode of proving it, or what shall be prima facie evidence of negligence.[7]

The cases cited below indicate the circumstances under which the doctrine has been applied in employers' liability cases.[8] But a com-

[4] *Bien* v. *Unger* (1900) 64 N. J. L. 598, 46 Atl. 593.

[5] See, generally, 1 Beven, Neg. pp. 129, *et seq.*; Shearm. & Redf. Neg. § 59.

"There must be reasonable evidence of negligence. But where the thing is shown to be under the management of the defendant or his servants, and the accident is such as, in the ordinary course of things, does not happen if those who have the management use proper care, it affords reasonable evidence, in the absence of explanation by the defendants, that the accident arose from want of care." *Scott* v. *London & St. K. Docks Co.* (1865) 3 Hurlst. & C. 596, 34 L. J. Exch. N. S. 220, 11 Jur. N. S. 204, 13 L. T. N. S. 148, 13 Week. Rep. 410.

In *Louisville, N. A. & C. R. Co.* v. *Berkey* (1893) 136 Ind. 181, 35 N. E. 3, the rule formulated was that, when it is shown that the master or his agent has placed in the hands of his servant defective appliances, and that these occasioned his injury, while he was in the exercise of due care, the burden of proof shifts to the master, and he is then required to show that he exercised due care in the selection or manufacture of such appliances.

[6] *Stearns* v. *Ontario Spinning Co.* (1898) 184 Pa. 523, 39 L. R. A. 842, 63 Am. St. Rep. 807, 39 Atl. 292; *Speer* v. *Boggs* (1901) 198 Pa. 112, 52 L. R. A. 933, 82 Am. St. Rep. 792, 47 Atl. 875.

[7] *Houston* v. *Brush* (1894) 66 Vt. 331, 29 Atl. 380.

"The presumption of negligence is often raised by the circumstances of an accident, and it may be a legitimate presumption that an appliance which gives out while it is being used for its proper purpose in a careful manner is defective or unfit. How far that presumption may go, in an action by an employee against an employer, to shift the burden of proof from the former to the latter, must depend upon the circumstances of the particular case." *The France* (1894) 8 C. C. A. 185, 20 U. S. App. 242, 59 Fed. 479, Reversing (1893) 53 Fed. 843.

On the ground that the presumption resulting from the application of the doctrine does not relieve the plaintiff of the burden of establishing affirmatively the negligence of the defendant, although it has the effect of casting on the latter the necessity of offering an explanation, it has been held to be error for a court, after laying down the rule of *res ipsa loquitur*, to conclude thus: "When the plaintiff rested, the burden was upon the defendant of showing such facts as warrant the conclusion that the accident was due to circumstances which the exercise of ordinary care could not foresee and guard against. Has the defendant met this obligation? If it has, your verdict must be for the defendant." *Jones* v. *Union R. Co.* (1897) 18 App. Div. 267, 46 N. Y. Supp. 321.

[8] It has been held that, in the absence of rebutting testimony, a jury would be justified in finding for the plaintiff under the following circumstances:

Where a girder falls from the beams of a building in course of construction. *Wight Fire Proofing Co.* v. *Poczekai* (1889) 130 Ill. 139, 22 N. E. 543.

Where a brakeman is knocked off a moving car by the fall of a rail from another car in front of him, on account of defects in the car, or the improper loading of rails. *McCoy* v. *Galveston, H. & S. A. R. Co.* (1896) 89 Tex. 168,

In one case it seems to have been conceded that, where a ship breaks in a "vital" part, negligence is a warrantable inference. *The Lizzie Frank* (1887) 31 Fed. 477. But the case was decided against the plaintiff on the ground that the specific evidence showed that there was no negligence.

See also *Thomas* v. *Great Western Colliery Co.* (1894; C. A.) 10 Times L. R. 214, cited in § 687, note 1, subd. (e), *ante*.

A verdict for the plaintiff will not be disturbed where the evidence is that the unsafe adjustment of a plank in a temporary staging across which he and his fellow workmen were carrying materials was the cause of the injury. The mere fact that such evidence is quite consistent with the hypothesis that some person for whose acts the master was not responsible might have moved the plank does not throw on the plaintiff the onus of proving that the defect had existed so long that it ought to have been discovered by an agent of the defendants. *Giles* v. *Thomas Co.* (1885; Q. B. D.) 1 Times L. R. 169.

A fall through an open trap door would prima facie be regarded as an accident, the result of the dangerous character of the business, where the servant was engaged in lowering some article through the opening in the regular performance of his duties. A similar fall, where the servant was merely walking across the floor in going to some place to which his duties called him, would raise a more or less conclusive presumption that the employer was guilty of a breach of his obligation to provide a safe place of work, and, in the absence of some satisfactory explanation, or circumstances going to show that the servant had assumed this special risk, or was negligent at the time he received the injury, the employer would be held responsible for the consequences of the fall. See *Johnson* v. *Bruner* (1869) 61 Pa. 58, 100 Am. Dec. 613, where the above distinction is drawn by the court, in deciding that a nonsuit was erroneous in a case where a servant fell through a trap door which was not one of the appliances used by him in the course of performing the work for which he was hired.

In *Griffin* v. *Boston & A. R. Co.* (1889) 148 Mass. 143, 1 L. R. A. 693, 12 Am. St. Rep. 526, 19 N. E. 166, the court reasoned as follows: "The separation of a train in consequence of the spreading of a link, where nothing further appears, is more naturally to be attributed to an imperfection or defect in the link than to any other cause. Ordinarily, such separation would not happen if the link was sound and suitable for use. If the link was not sound and suitable for use, the fact of its being used in that condition properly calls for explanation from the defendant; and if, under such circumstances, the defendant fails to put in any evidence, some inference against it may be drawn therefrom. The fact may be susceptible of an explanation sufficient to exonerate the defendant. But in the absence of such explanation, we think the jury might properly infer negligence on the part of the defendant. Primarily, in such case, one may properly look to the railroad company itself, whose duty it is to use reasonable care to provide safe instruments and means for operating the railroad. In the absence of any explanation by the company, it is more probable that the separation of the train was from a cause for which it would be responsible than that it was from a cause for which it would not be responsible."

In *Houston* v. *Brush* (1891) 16 Vt. 331, 29 Atl. 380, it appeared that, although a derrick which gave way owing to the working out of a pin was almost daily subjected to the strain of lifting heavy stones, it had not been inspected to see if it was safe in this respect for about thirty days prior to the accident. The court said: "The working out of the pin was an accident which, in the ordinary course of things, does not occur if those who have the care and management of a derrick use proper care. The case standing thus, we think the jury had a right to consider the fact that the pin came out as it did, and from it to draw the inference that the defendants had failed to exercise ordinary care."

In a Massachusetts case the court considered it to be very questionable whether the mere fact that the planks of a bracket of a staging gave way and caused injury to employees was sufficient to show that the employer was in fault. *Brady* v. *Norcross* (1899) 172 Mass. 331, 52 N. E. 528. But it was re-

entiation of the circumstances under which this doctrine is and is applicable.[9]

The doctrine is not applicable where the defect which caused accident was latent, in such a sense that it could not have been covered by any examination which it was possible to make while

marked that such an accident was assumed to be evidence of negligence in *Ackerson* v. *Dennison* (1875) 117 Mass. 407, and *Prendible* v. *Connecticut River Mfg. Co.* (1903) 180 Mass. 131, 35 N. E. 575.

In another case, also decided in 1898, it was held by this court that the mere fact that a shaft supported by brackets falls is sufficient evidence to warrant a jury in finding that its fall was due to a defect in the supports. *Copithorne* v. *Hardy* (1899) 173 Mass. 400, 53 N. E. 915.

A finding that the defendant was not in fault as regards the adjustment of a scaffold used by workmen engaged in painting a ship is not warranted where the plaintiff's witnesses declare that the chains which supported the poles on which the scaffold rested were slung at such a distance from the ship's side that there was a likelihood of the poles tipping under the weight of the workmen, while the defendant produces evidence that the chains were slung at such a distance that no tipping was possible, but does not explain how the accident occurred. The fact that the catastrophe happened throws the weight of probability on the side of the witnesses who account for the accident, and furnishes a strong reason for accepting their testimony as correct. *Davison* v. *Henderson* (1895) 22 Sc. Sess. Cas. 4th series, 448.

In *Potts* v. *Port Carlisle Dock Co.* (1860) 8 Week. Rep. 524, 2 L. T. N. S. 283, Cockburn, Ch. J., was willing to concede that if the appliance was grossly defective, and the defect so clear and apparent as unmistakably to lead to the inference that an incompetent person had been employed in the construction, the plaintiff would have been entitled to maintain the action.

An instruction to the effect that, if the car platform which gave way under the plaintiff was defective, and plaintiff was injured by reason of such defects, they should find for him, is not error where it is qualified by an instruction that he could not recover if his own negligence contributed to the injury, or it was caused by a fellow servant's negligence. *Bonner* v. *Glenn* (1891) 79 [illegible] 531, 15 S. W. 572.

To the cases collected in § 841 *supra*, may be added those cited below which it was expressly denied that the doctrine of *res ipsa loquitur* was applicable. There was held to be no presumption of negligence under the following circumstances:

Where a trip hammer that should remain suspended above a die, until released by pressure upon a treadle, descends without apparent cause. *Bonner* v. *Logue* (1900) 84 N. J. L. 596, 46 [illegible] 593.

Where a seaman on board a tow is injured by the giving way of the chock through which the towline was passed to the tug. *Pederson* v. *John D. Spreckels & Bros. Co.* (1897) 81 Fed. 205.

Where a hook used to stay a boom in use as a derrick for unloading cargo breaks. *The Baron Innerdale* (1893) 93 Fed. 492.

Where a broken axle derails a train. *Brownfield* v. *Chicago, R. I. & P. R. Co.* (1899) 107 Iowa, 254, 77 N. W. 1049.

Where a servant has his leg caught under a hand elevator. *Likes* v. *Stolesky* (1898) 83 Ill. App. 398.

Where the injury is caused by an obstruction on the track of a railway. *Denver & R. G. R. Co.* v. *McCormick* (1895) 7 Colo. App. 121, 42 Pac. 676.

According to the Missouri court of appeals "the rule of *res ipsa loquitur* cannot be applied with any show of reason to a case of complicated machinery (here the breaking of a shaft in a planing mill). *Breen* v. *St. Louis Cooperage Co.* (1892) 50 Mo. App. 202, where it was remarked that even if a defect in one part of complicated machinery exists, the master cannot be charged with the obligation of anticipating its probable effect upon another part, when the plaintiff is incapable of showing that it had any such effect, or that such effect could be guarded against by the exercise of reasonable care. No authority justifying such a distinction is produced by the court, and the reason suggested seems to be quite beside the mark.

appliance remained in use;[10] nor where the circumstances are more consistent with the inference that the accident was due to the manner in which the appliance was being used by the plaintiff's coservants than with the inference that the accident was traceable to the inherent quality or condition of that appliance.[11]

835. Action not maintainable where no specific evidence of fault is offered.— The effect of the doctrines reviewed in the foregoing sections is that, except in that class of cases in which the doctrine of *res ipsa loquitur* is applicable, a servant is not entitled to have his case submitted to the jury, unless he introduces, in addition to the fact of the occurrence of the accident, some specific testimony which fairly tends to show that the employer was guilty of negligence.[1] In the ab-

[10] *Essex County Electric Co.* v. *Kelly* (1891) 57 N. J. L. 109, 29 Atl. 427.

[11] "Where a hoisting appliance, in the handling of which the injury was received, was a comparatively new one, of the kind customarily used, and neither the servant who had the custody of it, nor any of the persons whose duty it was to supply, repair, or use appliances of a similar sort had observed any defect in it, and the evidence shows that, at the time the accident occurred, it was being used in such a manner as to bring an unusual strain upon the part which gave way, and that it gave way precisely at a moment when it was subjected to a sudden jerk by the slipping of another portion of the apparatus, the inference is rather that the accident should be attributed to the unnecessary strain than to any defect in its condition. *The Prance* (1894) 8 C. C. A. 185, 20 U. S. App. 212, 59 Fed. 479, Reversing (1892) 53 Fed. 843, in which the doctrine of *res ipsa loquitur* had been applied.

In an action for injuries received by a trainman in the operation of a railroad, it is erroneous to charge that the accident raises a presumption of negligence on the part of the master. It tends rather to prove negligence on the part of subordinate employees for whose acts the master is not responsible. *Kansas P. R. Co.* v. *Salmon* (1873) 11 Kan. 83.

Where the master has shown that he adopted proper rules, which, if they had been observed, would have prevented an accident which occurred through the act of a fellow servant of the plaintiff, the presumption is that the act of the offending servant was in violation of the rules, and the master is not liable unless such servant was incompetent and his incompetency was, or ought to have been known to the master. *Pittsburg, Ft. W. & C. R. Co.* v. *Powers* (1871) 71 Ill. 341.

No presumption of defective quality and consequent negligence on the master's part can arise, where an appliance designed to support a weight gives way, not in the ordinary conduct of the work, but under an extraordinary strain. *Olson* v. *Starin* (1899) 43 App. Div. 422, 60 N. Y. Supp. 134.

[1] *Gallagher* v. *Piper* (1864) 16 C. B. N. S. 669, 33 L. J. C. P. N. S. 329, 10 Jur. N. S. 879, 10 L. T. N. S. 718, 12 Week. Rep. 988, per Willes, J. (See § 833, note 2, *supra*); *Purdy* v. *Westinghouse Electric & Mfg. Co.* (1900) 197 Pa. 257, 51 L. R. A. 881, 47 Atl. 237 (no evidence that the appliance in question was not suitable for the purpose for which it was used); *Wixler* v. *Imperial Coal Co.* (1893) 152 Pa. 395, 25 Atl. 587; *Simmons* v. *Chicago & T. R. Co.* (1881) 110 Ill. 340; *O'Boyle* v. *Lehigh Valley Coal Co.* (1891) 161 Pa. 275, 28 Atl. 1088; *M'Cluckie* v. *Hara Silver Min. & Smelting Co.* (1891) 10 Utah, 179, 37 Pac. 733.

"It is not enough that the servant shows an injury sustained, but he must go further and show some specific act of negligence." *Soderman* v. *Kemp* (1895) 145 N. Y. 427, 40 N. E. 212.

Where there is no evidence tending to show that any employee of the master, unless it be the plaintiff himself, was negligent, a demurrer to the evidence is properly sustained. *Williams* v. *Atchison, T. & S. F. R. Co.* (1879) 22 Kan. 117.

In *Shadford* v. *Ann Arbor Street R. Co.* (1897) 111 Mich. 390, 69 N. W. 661,

sence of such testimony the case must obviously fall within the o
tion of the principle that an action is not maintainable where
plaintiff's evidence is equally consistent with the absence, or wit

it was held that, as there was no evidence whatever that the appliance was not in general use, it was error to submit to the jury the question whether other employers used such an appliance as that which caused the injury, and to give a charge to the effect that the defendant could not be found guilty of negligence if the appliance was in general use.

The owner of a packing-house cannot be held liable for an injury received by an employee, through striking his hand against a hook which had been turned out of the perpendicular so as to be brought slightly nearer than usual to one upon which he was hanging a hot tongue, where there is no evidence when the hook was so turned, or of any fault in regard to it, or of any unsuitable or insecure condition of the hooks, as a whole. *Ryan* v. *Armour* (1897) 166 Ill. 568, 47 N. E. 60.

Where a railroad company has established proper rules for the inspection of cars by its employees, it cannot be assumed, in the absence of proof, that such rules were not observed. *Hodges* v. *Kimball* (1900) 44 C. C. A. 193, 104 Fed. 745.

In an action for injuries alleged to have been caused by the looseness of a step on a locomotive, the bare suspicion arising from the contradictory statements of the employee responsible for the condition of the step,—one to the effect that he did not touch the step at a terminal point on the road, and the other to the effect that he removed the step, but had it replaced in a safe condition,—will not warrant a finding that the step was removed and left in an unsafe condition, so as to support a recovery in favor of the plaintiff. *Patton* v. *Texas & P. R. Co.* (1899) 37 C. C. A. 56, 95 Fed. 244. Affirmed in (1901) 179 U. S. 658, 45 L. ed. 361, 21 Sup. Ct. Rep. 275.

Evidence that, with the articles actually used, a hoisting apparatus put together in the course of the work could not be made secure for the work to be done, does not imply that the means of making it more secure had not been furnished by the master, and, in the absence of further testimony, will not sustain a verdict for the plaintiff. *Robinson* v. *George F. Blake Mfg. Co.* (
143 Mass. 528, 10 N. E. 314.

Evidence that the light in the h
of an employee went out while h
coupling cars, supported by his
mony that the oil was bad, is insu
to support a finding that the oil w
terior, where other witnesses testif
the oil was good and of a kind a
used in lamps. *Gulf, W. T. & P.*
v. *Abbott* (1893; Tex. Civ. App.)
W. 299.

Evidence that an appliance of
tern different from that used was
ten years previously by others, o
it was in use by some persons
time of the accident, and would,
opinion of the witness, have pre
the accident, is not of itself sufficie
prove a want of reasonable care.
v. *Ontario Wheel Co.* (1899) 1
Rep. 578. In the same case it wa
that, where there is no evidence t
that an appliance had been appro
disapproved by the inspector whos
it was under the factory act to ex
it, the question upon which the
tiff's right of recovery turns is w
the appliance used was of such a
acter and pattern as to make the
it unreasonable; and that the on
upon the person alleging that th
tory was an unlawful one to prov
the appliance had not been inspe

A servant injured in jumping f
window to escape from a fire is n
titled to recover, in the absence
dence showing that the fire was
by the defendant's negligence, or t
could have been extinguished. *
chel* v. *Texas Drug Co.* (1901) 2
Civ. App. 1, 61 S. W. 419.

In a case where a brakeman
train, which was backing at a
miles an hour, fell while attempt
descend from the end car, an
dragged about 180 feet, when h
instantly killed, the testimony
was that the other brakeman, wh
on the car next the engine, sa
watchman rapidly signaling to st
perceived the signal, sprung for the
the train stopped about half
utes afterwards, and that the trac
almost straight. Held, that the
no evidence that decedent was in
exercise of care, or that defendan

existence, of negligence.[2] This rule, however, does not imply that it is only from direct evidence that the master's culpability can be in-

negligent. *Martin* v. *Boston & M. R. Co.* (1900) 175 Mass. 502, 56 N. E. 749.

A master cannot be held liable on the ground that he failed to provide a particular contrivance, where there is no evidence that such a contrivance was a safeguard against injuries of the kind complained of, or that it was a general custom among other persons engaged in the same business to employ it. *Central R. Co.* v. *Edwards* (1900) 111 Ga. 528, 36 S. E. 810.

The owner of a stone quarry cannot be held liable on a special verdict which merely recites that an employee engaged in loading cars with stone was killed by the sudden moving and collision, with that on which he was engaged, of two loaded cars secured on a grade by one brake and a chock under the wheels, without a finding to the effect that this method of securing the cars was insufficient and improper. A court can only infer that an injury received in the manner stated, by an adult employee, acquainted with the place of work, was attributable to perils incident to the service. *Hoosier Stone Co.* v. *McCain* (1892) 133 Ind. 231, 31 N. E. 956.

The fact that five out of six of the ties at the place where an engine left the track were rotten is sufficient evidence of negligence. *Walker* v. *McNeill* (1897) 17 Wash. 582, 50 Pac. 518.

In an action by an employee to recover for personal injuries caused by the slipping of a belt on a pulley, the case is properly submitted to the jury, where, in addition to testimony by the employee slightly tending to establish that the employer neglected to keep the machinery in safe condition, there is testimony showing that the employer admitted his liability. *Ellis* v. *Pierce* (1898) 172 Mass. 220, 51 N. E. 974.

Where the injury was caused by an unblocked frog, and there is no testimony as to its condition prior to an accident, the jury are at liberty to infer that it had never been blocked. *Union P. R. Co.* v. *James* (1896) 163 U. S. 485, 41 L. ed. 236, 16 Sup. Ct. Rep. 1109.

In the absence of specific evidence a court will not assume that a gas company has not in its service an employee whose duty it is to see that there is a proper supply of iron to construct a bar to keep a gate in position. *Allen* v. *New Gas Co.* (1876) L. R. 1 Exch. Div. 251, 34 L. T. N. S. 541, 45 L. J. Exch. N. S. 668.

That the submission of what is termed a "scintilla of evidence" is not sufficient to justify giving the case to the jury is a principle now established by the weight of authority. See Shearm. & Redf. Neg. § 56; Wharton, Ev. § 421. This principle was applied to an action by a servant in *Powers* v. *New York C. & H. R. R. Co.* (1891) 60 Hun, 19, 14 N. Y. Supp. 408; *Beaulieu* v. *Portland Co.* (1860) 48 Me. 291.

In an action for injuries due to the fact that a hook, fastened to a wharf and used to hold a rope and pulley for unloading a vessel, gave way under an extraordinary strain, the only evidence of a defect was the testimony of a fellow workman, who had looked at the hook after the accident, as it lay on the wharf. He said there was an old spot on it which resembled an old crack across the grain, but that he could not say for sure. He did not measure it, but judged it to be about half an inch deep. On cross-examination he reduced the depth of the crack to a quarter of an inch, and said that he did not handle it, and that he did not look at it closer than 5 feet. This evidence was held insufficient to satisfy the burden of proving the defect. *Olson* v. *Starin* (1899) 43 App. Div. 422, 60 N. Y. Supp. 134.

The mere fact that a little dust and grease appeared on the top of the steam chest of an engine after a run of 30 miles, causing a brakeman's foot to slip, is not sufficient evidence of negligence to warrant the submission to a jury of defendant's liability for injuries sustained by the brakeman. *Hall* v. *Iowa C. R. Co.* (1900) 111 Iowa, 523, 82 N. W. 999.

But the introduction of a scintilla of evidence is still deemed in some jurisdictions to require the submission of the case to the jury. *Muldowney* v. *Illinois C. R. Co.* (1871) 32 Iowa, 176; *Dick* v. *Indianapolis, C. & L. R. Co.* (1882) 38 Ohio St. 389; *Smith* v. *Sioux City & P. R. Co.* (1884) 15 Neb. 583, 19 N. W. 638; *Johnson* v. *Missouri P. R. Co.* (1886) 18 Neb. 650, 26 N. W. 347.

[2] *Baulec* v. *New York & H. R. Co.* (1874) 59 N. Y. 356, 17 Am. Rep. 325; *Essex County Electric Co.* v. *Kelly* (1891) 57 N. J. L. 100, 29 Atl. 427.

ferred. The burden of proof is satisfied by the production of ci
stantial evidence.[3]

**836. Burden of proving that the injury was caused by the m
negligence rests on the servant.**— The establishment of a ju
connection between the master's negligence and the injury bei
of the essential prerequisites to the maintenance of the actio
chapter XLII., *ante*), the burden of proving that there was such
nection rests on the servant.[1] The plaintiff must introduce test

See also, for the general rule. Shearm. & Redf. Neg. § 56.

Where the sole evidence produced by the plaintiff is that the appliance (here a turntable) broke after it had been operated without accident for 4½ years, he cannot recover on the theory that it was constructed by an incompetent person, as the facts thus submitted are quite consistent with the inference that the servants who constructed it were carefully selected. *Potts* v. *Fort Carlisle Dock Co.* (1860) 2 L. T. N. S. 283, 8 Week. Rep. 524.

A railroad company cannot be held liable as for a negligent inspection of a foreign car, where the evidence is equally consistent with the theory that the failure to discover the defect was due to the delinquencies of the car inspectors at the regular inspecting stations, and with the theory that such defect was not brought to its notice owing to the omission of the trainmen to perform their duty to report the existence of any defects which they might discover in the cars under their charge while upon the road. *Chicago & A. R. Co.* v. *Bragonier* (1882) 11 Ill. App. 516. It was said to be "probable from the evidence that the defect in this car [which was in the ratchet] could be discovered only when it was in motion; that when stationary the ratchet would hold, but when the car was in motion, the action of the wheels upon the brakes would shake it loose." Therefore, a presumption of the negligence of car inspectors "involves a presumption, equally strong, that the conductors and brakemen along the line of the road were likewise negligent in not discovering and reporting the alleged defects to their superiors. Their opportunities for discovering the defect in question were fully equal to those of the car inspectors. For their negligence in this particular, appellant would not be responsible to appellee, as they were his fellow servants."

[3] In an action for injuries to a brakeman caused by the breaking in two of a freight train, due to the pulli of a drawhead stem, there was n evidence that the key holding t was defective, but there was te that if it had not been defective i not have been pulled out. A mo er the accident a worn key was near where the break occurred, fastening which should have h tached to it was not found. A that defendant was negligent in to provide a safe key was held warranted by this evidence. *M K. & T. R. Co.* v. *Cox* (1900; Te App.) 55 S. W. 354, Rehearing in 56 S. W. 97.

Findings by the jury that a company was negligent, and that ployee alleged to have been ki such negligence was not guilty tributory negligence, are sufficien tained, although there is no direc imony as [illegible] the accident c where the evidence tends to sh the roadbed was out of repair a deceased shortly before the accid seen looking the train over, in t of his duty, and was not again s til he was found dead under circ es indicating that he had falle a car after a sudden jolt suffi have thrown him from the car. *Stock Yards Co.* v. *Conoyer* (1 Neb. 617, 59 N. W. 950, Affirm Rehearing (1893) 38 Neb. 488, St. Rep. 738, 56 N. W. 1081.

[1] *Texas & P. R. Co.* v. *Barrett* 166 U. S. 617, 41 L. ed. 1136, Ct. Rep. 707, Affirming (1895) A. 373, 30 U. S. App. 196, 67 F *O'Boyle* v. *Lehigh Valley C* (1894) 161 Pa. 275, 28 Atl. 10 *vidson* v. *Davidson* (18 ; Mi 18 N. W. 560; *Norfol* W. Y. 540, 21 N. E. 717, R

to show that the injury is more naturally to be attributed to the negligence of the defendant than to any other cause.[2] There is no case for

(1886) 41 Hun, 450; *Lockwood* v. *Chicago & N. W. R. Co.* (1882) 55 Wis. 50, 12 N. W. 401; *Carr* v. *North River Constr. Co.* (1888) 48 Hun 266; *Davis* v. *Columbia & G. R. Co.* (1883) 21 S. C. 93; *Donovan* v. *Harlan & H. Co.* (1899) 2 Penn. (Del.) 190, 44 Atl. 619; *The Lydia M. Deering* (1899) 97 Fed. 971.

In cases where the employee whose negligence caused the injury was a mere coservant, and therefore recovery can be had only on the ground of his incompetence and the master's knowledge thereof, the plaintiff has the burden of proving that the injury was traceable to that incompetence. *Ohio & M. R. Co.* v. *Dunn* (1894) 138 Ind. 18, 36 N. E. 702, 37 N. E. 516; *Baltimore Elevator Co.* v. *Neal* (1886) 65 Md. 438, 5 Atl. 338; *Summerhays* v. *Kansas P. R. Co.* (1875) 2 Colo. 484; *Paris* v. *Detroit & M. R. Co.* (1870) 20 Mich. 105, 4 Am. Rep. 364.

On the other hand, where the negligent employee was one of those for whose acts the master was responsible the plaintiff merely has the burden of proving that the negligence in question was the proximate cause of the injury. *Union P. R. Co.* v. *Callaghan* (1893) 6 C. C. A. 205, 12 U. S. App. 541, 56 Fed. 988.

An instruction is erroneous which is to the effect that, whatever may have been the cause of the accident, whether as alleged in the complaint, or from any other cause, however remote, if the defendant was "probably" negligent in it, then the jury, without any further proof, may find against the defendant. *Minty* v. *Union P. R. Co.* (1889) 2 Idaho, 437, 4 L. R. A. 409, 21 Pac. 660.

It has also been held erroneous to charge the jury to find for the plaintiff, if they believed that he was injured by the defects in a sawdust pipe which he was ordered to clean out, as such an instruction would permit them to render a verdict in his favor, even if the defects were not in any way the cause of his injury. *Washington Mfg. & Min. Co.* v. *Barnett* (1897) 19 Ky. L. Rep. 958, 42 S. W. 1120. But this objection to the instruction seems to be hypercritical.

[2] *Griffin* v. *Boston & A. R. Co.* (1889) 148 Mass. 143, 1 L. R. A. 698, 12 Am. St. Rep. 526, 19 N. E. 166.

(a) *Evidence insufficient to warrant verdict in plaintiff's favor.*—In an action where plaintiff's contention was that the fire was caused by the negligent maintenance by the master of a vat containing inflammable material in proximity to a trip hammer, and that the material was ignited by sparks from the hammer, it was held that a verdict in plaintiff's favor could not be supported by evidence that the sparks from the trip-hammer did not contain sufficient heat to cause any substance to ignite at a distance greater than 20 feet, while the hammer was situated 30 feet from the vat; that the fire was first discovered on a rack beside the vat, the rack being used to drain articles that had been dipped in the vat; and that the vat was covered at that time, but that in endeavoring to put out the fire the cover was knocked off, and fire thereupon appeared in the vat. *Dunlavey* v. *Racine Malleable & Wrought Iron Co.* (1901) 110 Wis. 391, 85 N. W. 1025.

In an action against an elevated railroad company by a conductor of a work train for injuries sustained by falling from a narrow, unguarded platform along the tracks into the street, plaintiff's evidence that "he walked along the platform, and stepped on something and slipped," is insufficient to show that defendant was negligent in permitting the platform to become slippery, where there is no evidence indicating what the "something" was, nor who placed it there, nor any suggestion that it had been there so long that the defendant had constructive notice of its presence, while on the other hand there is other evidence in the case showing that the platform was free from ice and snow. *Nugent* v. *Brooklyn Union Elev. R. Co.* (1901) 64 App. Div. 351, 72 N. Y. Supp. 67.

(b) *Evidence sufficient to warrant verdict in plaintiff's favor.*—Where the operator of a malt grinder in a mill where a fire broke out testified that the bearings on the machine were worn out, so that there was too much play; that the grooves in the cylinders were dull; and that the fire started from the mill, followed a few moments later by the explosion, causing the injury,—it is not error to refuse to charge that there was no evidence that the accident was caused from the position of the rollers, or bearings in which they were set, since the

submission to a jury, if there is an entire absence of evidence
would explain the manner in which the accident occurred,[3] or
evidence is as consistent with the absence of negligence for whi

jury were entitled to consider all the evidence bearing on the condition of the machine. *Wiedeman* v. *Everard* (1900) 50 App. Div. 358, 67 N. Y. Supp. 738.

Where a tiler at work on a build..g was struck by a hot rivet which fell from one of the upper stories by reason of failure of one of the riveters to catch the same as it was thrown to him, and such riveter testified that he watched the rivet as it fell, and saw it hit plaintiff, the jury is justified in finding that defendant was negligent in not providing a proper place for plaintiff to work, since, if there had been any obstruction to protect plaintiff from falling objects, the riveter would not have been able to follow the course of the falling rivet from the time he lost it until it struck plaintiff. *Pioneer Fireproof Constr. Co.* v. *Howell* (1900) 90 Ill. App. 122, Affirmed in (1901) 189 Ill. 123, 59 N. E. 535.

The testimony of two witnesses that a pin which held the boom of a derrick in position was much worn, and had been defective for some time, and that the vibration from the machinery would cause it to drop from its place, and that, after plaintiff's fall, it was found out of its position,—is sufficient to sustain a verdict in favor of a servant injured by the fall of the boom. *Union Bridge Co.* v. *Techan* (1901) 190 Ill. 374, 60 N. E. 533, Affirming (1900) 92 Ill. App. 259.

The case is for the jury where some of the evidence would warrant the conclusion that defects in a track were the cause of a derailment, although there is other evidence inconsistent with such a conclusion. *International & G. N. R. Co.* v. *Johnson* (1900) 23 Tex. Civ. App. 160, 55 S. W. 772.

Where a hammer furnished plaintiff to bend wire had chipped before, and the wire and utensil on which plaintiff was working were soft and not liable to chip, the fact that the chip which flew into the plaintiff's eye was so infinitesimal that the nature of the metal could not be recognized does not involve the consequence that the plaintiff should be nonsuited on the ground that there was no evidence that it was a chip from the hammer that injured him. *Duerst* v. *St. Louis Stamping Co.* (1901) 163 Mo. 607, 63 S. W. 827. In the same case it was held that, where plaintiff and a fellow employee testified that a h
chipped again and injured plainti
it struck a wire on a steel man
which plaintiff was working,
perts testified that a hammer wh
once begun to chip would conti
do so unless beveled, the fact t
experts also said that the hamme
not chip if it struck the wire, a
chipped it probably missed the w
struck the mandrel, did not pre
recovery, but presented a quest
the jury.

Where a brakeman, killed whil
ling cars, was found lying dead
frog, and there were indications
foot was struck by the wheel, a
over lengthwise, while eyelets of
were found within 3 or 4 inches
frog, and eyelets were missing f
cedent's shoe, the evidence was
be sufficient to raise the question
jury whether decedent's foot was
in the frog. *Jones* v. *Flint & P*
Co. (1901) 127 Mich. 198, 86 N.

A finding that defendant is an
for personal injuries to an emplo
guilty of negligence causing the
is sustained by evidence that p
was directed to remove some lim
under a mill, and that while mak
removal the engine and machine
started, and that a shaft const
a part of the machinery was in

defendant is responsible as with the existence of such negligence.[4] Still less can the action be maintained, where the only reasonable conclusion is that the injury was due to one of two causes, for neither of which the master was responsible.[5]

But while the plaintiff is bound to introduce evidence from which the jury may properly infer that the accident was caused by the defendant's negligence, he is not required to point out the particular act or omission which caused the accident.[6]

plaintiff to show negligence of the company, and that that negligence was the proximate cause of the injury. In this he has failed, and in the absence of proof on that point we cannot ascribe the accident to that cause."

An employer is not liable to an employee for injuries sustained by the latter in encountering an obstruction while necessarily passing through an unlighted passageway on leaving his work, where the employer supplied a sufficient number of electric lamps for lighting the passageway, some of which were not to be extinguished until after the employees had left the building, and one to be kept burning day and night, in the absence of any showing as to the cause of the extinguishment of the lights at the time of the accident. *Dorney* v. *O'Neill* (1898) 34 App. Div. 497, 54 N. Y. Supp. 235.

A laborer on a working train of a railroad company cannot recover for an injury caused by the derailment of one of its cars by a small stick of wood lying on the track, without showing that it was there through the direct and immediate fault of the company's employees. *Smith* v. *Louisiana & N. W. R. Co.* (1897) 49 La. Ann. 1325, 22 So. 359.

No recovery can be had for the death of an employee by an explosion in a cartridge factory, where the evidence of the only surviving workman warrants a fair presumption that the explosion was caused by the negligence of the deceased, and fails to show what caused the explosion if it was not such negligence. *Dominion Cartridge Co.* v. *Cairns* (1898) 28 Can. S. C. 361.

[4] *Griffin* v. *Boston & A. R. Co.* (1889) 148 Mass. 143, 1 L. R. A. 698, 12 Am. St. Rep. 526, 19 N. E. 166.

A servant cannot recover on evidence which may justify the inference of fault on the master's part, but which would also warrant the conclusion that the injury was caused by the negligence of a coservant. *Essex County Electric Co.* v. *Kelly* (1894) 57 N. J. L. 100, 29 Atl. 428; *Duffy* v. *Upton* (1873) 113 Mass. 544; *Blanchette* v. *Border City Mfg. Co.* (1886) 143 Mass. 21, 8 N. E. 430; *Musbach* v. *Wisconsin Chair Co.* (1900) 108 Wis. 57, 84 N. W. 36.

Nor can there be a recovery on evidence equally as consistent with the theory that the injury was caused by the unskilfulness of the plaintiff, as by the incompetency of the fellow servant which occasioned it. *Core* v. *Ohio River R. Co.* (1893) 38 W. Va. 456, 18 S. E. 596.

Negligence in respect to the employment of a sufficient number of men to operate a locomotive properly on its way to the roundhouse cannot be inferred from the mere fact that only one man, the hostler, was on it at the time when it ran over the plaintiff. So far as it goes, such evidence is equally consistent with the theory that the absence of the hostler's helper was due to the negligence of the hostler himself or the helper. *Reichel* v. *New York C. & H. R. R. Co.* (1892) 130 N. Y. 682, 29 N. E. 763.

[5] A railroad company is not liable to a section hand injured while engaged in ballasting the track, by a stone, presumably thrown up by himself, flying out at right angles with the track upon the passage of a train, since the injury is due either to his own negligence in not removing the stone, or to an unaccountable accident or occult risk, not due to the fault of the master, but incident to the service, which he assumed in entering upon such employment. *Steffen* v. *Chicago & N. W. R. Co.* (1879) 46 Wis. 259, 50 N. W. 348.

[6] *Mooney* v. *Connecticut River Lumber Co.* (1891) 154 Mass. 407, 28 N. E. 352, holding, in a case where a machine "ran away," that the trial court had rightly refused instructions to the effect that plaintiff could not recover (1) if the evidence failed to furnish satisfactory grounds for an inference, or for

A verdict for the plaintiff will be set aside, if, in view of established by the evidence, it was a physical impossibility tha cident should have happened in the manner alleged.[7]

The necessary proximity of cause may, like the fact of the of the negligence alleged, be established by evidence of a ma cumstantial nature.[8]

837. No action maintainable where cause of accident is me

anything better than a mere conjecture, as to the cause of the starting of the car, or (2) if it did not appear from the evidence what was the real cause of the starting of the machine.

Plaintiff in an action for personal injuries caused by the falling of a large piece of coal from the tub in which it was being hoisted from the hold of a steamer where plaintiff was employ need not prove to what special act of negligence, error, or inattention on the part of defendant the accident was due, if the latter has failed to show that the injury was due to inevitable accident. *Joint* v. *Webster* (1898) Rap. Jud. Quebec, 15 C. S. 220, where the court relied upon the testimony of witnesses that the fall of such fragments, though a common incident, was the result of some defect in the hoisting apparatus, or some neglect or momentary inattention on the part of the workmen, for whose negligence the master was, under the law of Quebec, responsible. See § 890, subd. *c*, *post*.

[7] Rule applied in an action for injuries caused by a slat saw at which defendant worked, where the theory was that plaintiff's hand passed beneath the overhanging steel guard, and came in contact with the saw, and it was apparent that the space was not sufficiently large to allow plaintiff's hand to pass in that manner. *Beyersdorf* v. *Cream City Sash & Door Co.* (1901) 109 Wis. 456, 84 N. W. 860.

[8] *Hughes* v. *Louisville & N. R. Co.* (1898) 104 Ky. 774, 48 S. W. 671 (brakeman, alleged to have come into contact with a bridge girder, had been seen descending the steps just before the accident); *Ft. Worth & R. G. R. Co.* v. *Kime* (1899; — Tex —) 54 S. W. 240 (low overhead bridge).

The case is properly submitted to the jury where, although no one saw the accident, it was apparent that deceased met his death by being in some manner caught by the coupler which he was oiling, or by the shaft, and there was evidence that the coupler was re safe by pins and bolts which from the coupling ½ to 1 in *& Co.* v. *Zerwick* (1899) 88 558.

In an action for damages, u & C. Anno. Stat. 2d ed. chap providing for a recovery for t a person killed in a mine, by the failure to inspect the n beginning work in the morn tiff's intestate was a driver, w contended, had been killed by between his ears, which he w in on the main line from a s loaded cars standing on the No one saw the accident. T seat was on the front end of car, and was uninjured. W his body was lying between t a rib of coal four feet dista front of his trip. Witness that after the accident the space enough between the c man to get through. Inte have been killed while on th the seat left uninjured, or he been between his cars and t the main track, and been cru count of the latter being t the switch. A verdict was held to have been on this evidence. *Jun* v. *Mercer* (1899) 84

Where the evidence used on a train at the sion of powder in the c wood burner, and emitted ume of sparks whenever o much so that on former oc sons riding several car len it had holes burned in th thereby; that on the day of sparks were flying past t which had its side doors ope there was no other source the fire could have originat ing that the explosion was spark from the engine is wa *lend* v. *Spokane Falls &* (1899) 21 Wash. 324, 58 P

jectural.— The doctrine stated in the last section involves the corollary that a servant cannot recover where it is merely a matter of conjecture, surmise, speculation, or supposition, whether the injury was or was not due to the negligence of the master or of an employee for whose acts and omissi . he is responsible.[1]

[1] *Reilly* v. *Campbell* (1894) 8 C. C. A. 438, 20 U. S. App. 334, 59 Fed. 990; *The Columbia* (1901) 106 Fed. 745 (ash bucket on steamer fell); *Newell* v. *Rahn* (1896) 64 Ill. App. 249; *Donald* v. *Chicago, B. & Q. R. Co.* (1895) 93 Iowa, 281, 33 L. R. A. 492, 61 N. W. 971; *O'Connor* v. *Illinois C. R. Co.* (1891) 83 Iowa, 105, 48 N. W. 1002 (derailment); *Henry* v. *Brackenridge Lumber Co.* (1896) 48 La. Ann. 950, 20 So. 221 (no explanation how plaintiff's decedent became entangled in a belt—verdict for defendant sustained); *Corcoran* v. *Boston & A. R. Co.* (1882) 133 Mass. 507 (brakeman killed by falling from a train); *Felt* v. *Boston & M. R. Co.* (1894) 161 Mass. 311, 37 N. E. 375 (plaintiff's decedent stated before his death that he did not know how the accident happened); *Hewitt* v. *Flint & P. M. R. Co.* (1887) 67 Mich. 61, 34 N. W. 659 (*arguendo*, in discussing instructions); *Quincy Min. Co.* v. *Kitts* (1879) 42 Mich. 34, 3 N. W. 240 (rough plank bridge gave way for some reason not apparent); *Redmond* v. *Delta Lumber Co.* (1893) 96 Mich. 545, 55 N. W. 1004; *Manning* v. *Chicago & W. M. R. Co.* (1895) 105 Mich. 260, 63 N. W. 312 (brakeman alleged to have been killed by collision with a tree projecting over the track, but no one saw him struck or fall from the car); *Peppett* v. *Michigan C. R. Co.* (1899) 119 Mich. 640, 78 N. W. 909 (mere possibility that derailment might have been due to defect in engine or rails, not enough to justify submission of case to jury); *Whitcomb* v. *Detroit Electric R. Co.* (1901) 125 Mich. 572, 84 N. W. 1072 (trolley pole found to be bent after car had run a mile from the barn); *Dobbins* v. *Brown* (1890) 119 N. Y. 188, 23 N. E. 537 (plaintiff's decedent thrown from bucket in which he was descending a shaft—cable found broken after accident, but no explanation given of the manner in which it was broken); *Niles* v. *New York C. & H. R. R. Co.* (1897) 14 App. Div. 58, 43 N. Y. Supp. 751; *McConnell* v. *New York C. & H. R. R. Co.* (1901) 63 App. Div. 515, 71 N. Y. Supp. 616 (lump of coal fell on brakeman from a passing locomotive tender); *Kelly* v. *Erie R. Co.* (1900) 53 App. Div. 465, 65 N. Y. Supp. 1046; *Melchert* v. *Smith Brewing Co.* (1891) 140 Pa. 448, 21 Atl. 755; *Fritz* v. *Salt Lake & O. Gas & E. L. Co.* (1899) 18 Utah, 493, 56 Pac. 90; *Sorenson* v. *Menasha Paper & Pulp Co.* (1882) 56 Wis. 338, 14 N. W. 446 (plaintiff's decedent found dead in a hole under an aperture in floor of defendant's mill—no evidence to show how he fell in); *Macfarlane* v. *Thompson* (1884) 12 Sc. Sess. Cas. 4th series, 232 (iron casing which was resting on the top of a boiler slipped along it, and struck a servant who was standing on a scaffold beside it); *Jarvis* v. *May* (1876) 26 U. C. C. P. 523 (cleats of ladder came loose); *Stainer* v. *Hall* (1899) 6 B. C. 579; *Montreal Rolling Mills Co.* v. *Corcoran* (1896) 26 Can. S. C. 595; *Canada Paint Co.* v. *Trainor* (1898) 28 Can. S. C. 352; *St. Lawrence S. B. Co.* v. *Campbell* (1885) Montreal L. Rep. 1 Q. B. 290.

"It is not sufficient for the employee to show that the employer may have been guilty of negligence, but the evidence must point to the fact that he was; and where the testimony leaves the matter uncertain and shows that any one of a half dozen things may have brought about the injury, for some of which the employer is responsible, and for some of which he is not, it is not for the jury to guess between these half a dozen causes and find that the negligence of the employer was the real cause, when there is no satisfactory foundation in the testimony for that conclusion." *Patton* v. *Texas & P. R. Co.* (1901) 179 U. S. 658, 45 L. ed. 361, 21 Sup. Ct. Rep. 275.

In *Breen* v. *St. Louis Cooperage Co.* (1892) 59 Mo. App. 202, the court, after laying it down that the jury cannot, from the mere fact that some defect exists in some part of complicated machinery, conjecture not only that such defect was the direct and immediate cause of the accident, but also that it was the duty of the defendant to foresee such conjectural result and guard against it, went on to remark that the employer fulfils his duty by guarding against the probable result of defects, even if such

From this rule it follows that the action cannot be maintained after all the testimony has been put in, it remains doubtful wh the injury resulted from the cause suggested by the master, or

are shown, and that holding him responsible for conjectural results shifts his liability from the ground of negligen to that of insurance.

Liability has been denied under the following circumstances:

Where two explosions in a powder factory, one of which did, while the other did not, import negligence on the defendant's part, occurred at the time the servant was killed, and there is nothing to show to which of the explosions the death was due. *Craig* v. *Laflin & R. Powder Co.* (1900) 55 App. Div. 49, 67 N. Y. Supp. 74.

Where a pot containing acids was overturned, owing to the slipping of one of the hooks by which it was supported, and the only evidence as to what caused the accident was the testimony of an expert, who had never seen the machinery, and had no knowledge of its condition in answer to a hypothetical question, that the accident might have happened from the hook slipping back towards the point after being properly placed in the lug, by reason of its faulty construction. *Welle* v. *C. Zuloid Co.* (1899) 52 App. Div. 522, 65 N. Y. Supp. 370.

Where an employee opened the door of an elevator shaft and fell down the shaft while the elevator was elsewhere. *Nelson* v. *Swift & Co.* (1898) 55 Neb. 528, 75 N. W. 1107.

Where it was not proved whether the premature dumping of a dirt car, which was the immediate cause of the injury, was due to the unevenness of the track on which it ran, or to the looseness of the hook, which was loosened when it was to be dumped. *Mattson* v. *Qualey Constr. Co.* (1900) 90 Ill. App. 260.

Where a railroad engineer was killed by falling from the running board, while the engine was in motion, and the only evidence bearing upon the cause of his death was that the movements of the engine were attended by some jarring or lost motion, but it was not shown that this made him lose his hold. *Southern P. Co.* v. *Johnson* (1895) 16 C. C. A. 317, 44 U. S. App. 1, 69 Fed. 559.

Where the negligence charged was the want of a fence or guard around the machinery which caused the employee's death, contrary to the provisions of a statute, but there is no evidence that such negligence was the cause of t cident. *Canadian Coloured C Mills Co.* v. *K[illam]* (1899) 29 C C. 478. Reversing (1898) 25 Ont. Rep. 36, Which Affirms (1896) 28 Rep. 73.

The mere facts that decedent wa standing upon a car which woul admit of the passage under na hanging bridge of a man of av height, shortly before the train p nader the bridge, and that immed thereafter he was found lying o top of the car insensible, and in a time died, do not warrant the su sion to the jury of the question wh or not he was killed by coming in tact with the bridge, when, even a ing that the jury would be ju in finding that he was of the av height, there is no evidence that was any wound or bruise on his p or that he died from violence in-t disease. *Fitzgerald* v. *New York H. R. R. Co.* (1897) 154 N. Y. 2 N. E. 514, Reversing (1895) 88 359, 34 N. Y. Supp. 824.

Where a brakeman was found on top of the train, with a wound one eye, where he was struck bridge, and it is proved that the of the bridge guard were 3 inches than the bridge, and that they were posed to be, and where not bent 8 inches apart, testimony which n shows that some of the wires slightly bent, and that his hat (o . . . es wide) might possibly have p bet[ween] wires further apart tha width of the hat, without his n ing any warning, does not justif inference that the accident was c by the negligence of the compa maintaining a defective "telltale." aught that appeared, the accident have happened after the "telltale" given its warning. *Deschenes* v. *cord & M. R. Co.* (1897) 69 N. H 46 Atl. 467.

Where a brakeman, who had be gaged on a car signaling his train side track, was found dead on ground opposite the depot adjoinin track, the theory that he was kn off the car by contact with the roof, which was negligently constr too near the track, is not sustain evidence to the effect that deceased

after the accident, exclaimed that he had been knocked off the car; that a perpendicular line drawn from the edge of the depot roof was 16½ inches from the car; that there were no ladders on that side of the car; that the depot roof, or the gutter attached thereto, gave no evidence of having been struck; that the wounds of the deceased were not such as to indicate that he had been struck by the roof; that he fell from the end of the car; that he was found at the depot's west end; and that, in view of the direction in which the train was moving, he would necessarily have been struck by the east end, while it was not apparent that he had been dragged by the train. *Houston & T. C. R. Co.* v. *Loeffler* (1900; Tex. Civ. App.) 59 S. W. 558.

A verdict is properly directed for the defendant in an action for an injury alleged to have been caused by a defective switch, allowing the engine to be deflected to a siding, where there is merely testimony that two weeks or more before the accident the rails were not close together when the switch was closed, witness stating, as to the extent of the separation, "You could see in there; it didn't lay tight." If the case were submitted on such testimony the jury would be left to find that there was a defect sufficient to cause the accident; that it continued to the time of the accident, though it was not disclosed in the constant use of the road; and that the defect caused the accident, which with equal probability could be attributed to any of several causes for which defendant was not liable. *Saritz* v. *Lehigh & N. E. R. Co.* (1901) 199 Pa. 218, 48 Atl. 987.

A trainman injured by contact with the drawhead while he was coupling is properly nonsuited, where the only evidence to sustain his allegation that the coupling appliances were defective is his own testimony that the spring was out of the drawhead, and it is not shown that his injury resulted in any way from that cause. *Hannigan* v. *Lehigh & H. River R. Co.* (1898) 157 N. Y. 244, 51 N. E. 992, Reversing (1895) 91 Hun, 300, 36 N. Y. Supp. 293.

A nonsuit will be granted in an action by an employee against a railroad company for injuries received at a certain station by reason of a broken brake chain, where the only evidence as to when it broke is merely a suggestion that it was broken before the train reached the station at which it was inspected. *Dickerson* v. *Central R. Co.* (1899) 189 Pa. 567, 42 Atl. 299.

Where a trainman can only show that, while he was in the exercise of due care, an accident happened to a car, which caused him the injury complained of, the court will not infer that the car was in an unfit condition to be placed upon the road, and that the defect was of such a nature that it ought to have been discovered by appellant's servants. *Chicago, R. & Q. R. Co.* v. *Montgomery* (1884) 15 Ill. App. 295.

A judgment for damages against a railway company is erroneous, although plaintiff testifies that he was injured by a fall occasioned by a defective ladder on the side of a car, and one passing near the train testifies that he saw him fall from the car, when the car inspector testifies that the ladder was not defective when the train started, the conductor and other employees testify that it was examined by them after the accident and found intact, and also that plaintiff told them immediately after the injury that he was hurt by jumping from the car. *Jones* v. *Texas & P. R. Co.* (1899) 51 La. Ann. 1247, 26 So. 86.

A nonsuit should be granted where the plaintiff relies on the theory that the injury was caused by deceased trying to mount an engine which had a defective step, and the only fact proved is that he fell under the wheels of cars which he was coupling. *Philadelphia & R. R. Co.* v. *Schertle* (1881) 97 Pa. 450.

The mere fact that one out of fourteen cars in a train is unprovided with a footboard is not sufficient to warrant submitting to the jury the question whether the death of a brakeman by falling off the train was caused by that deficiency. *Rogers* v. *Louisville & N. R. Co.* (1898) 88 Fed. 462.

Where nothing more is shown than that a brakeman who had gone between two cars to couple them was afterwards found lying crushed and dead on the track, a verdict against the railway company is not warranted. *Atchison, T. & S. F. R. Co.* v. *Alsdorf* (1896) 68 Ill. App. 149. Affirming Opinion in Former Appeal (1894) 56 Ill. App. 578.

Evidence that plaintiff was riding on the forward end of a hand car with his feet hanging down 4 inches from the ties; and that his attention was attracted, and as he was turning his head his foot was caught, throwing him on the track,—is insufficient to support a

finding that he was injured because of the defective condition of the track. *St. Louis, A. & T. R. Co.* v. *Denny* (1893) 5 Tex. Civ. App. 359, 24 S. W. 317.

Liability for injuries to a servant cannot be based upon the mere fact that a car used for carrying refuse had "dumped" in operation, and that there was a slight straightening of the hook used in fastening the side of the car, where there is no evidence that such straightening had anything to do with the overturning of the car, or that it was of such a nature as to require any attention or repair, or such as to prevent the continued and safe service of the car. *Soderman* v. *Kemp* (1895) 145 N. Y. 427, 40 N. E. 212.

An employee engaged in making an excavation cannot recover for injuries from the improper laying or insufficient support of a track upon which dump cars were run, where such track was laid by himself in connection with fellow servants. *Cordelia* v. *Dwyer* (1894) 9 Misc. 399, 29 N. Y. Supp. 1073, Affirmed in (1897) 153 N. Y. 689, 48 N. E. 1105.

The mere fact that the trousers of an employee, who fell on the clay floor of the basement of his employer's store, were wet and muddy when he arrived at the hospital, will not, as against the testimony of many witnesses, authorize a finding that the employer had negligently allowed the clay to become damp and slippery. *McCarthy* v. *Shoneman Bros.* (1901) 198 Pa. 568, 48 Atl. 493.

In an action for injuries caused by a slat saw, at which plaintiff worked, where the theory was that plaintiff's hand passed beneath the overhanging steel guard and came in contact with the saw, there being evidence that considerable blood was found on parts of the machine below the table, and only scattering spots above, and hence that the injury might have come from the lower parts of the saw, and possibly without defendant's negligence, the rule that the mere happening of the accident established defendant's negligence is inapplicable. *Beyersdorf* v. *Cream City Sash & Door Co.* (1901) 109 Wis. 456, 81 N. W. 860.

An employer is not liable to an employee for injuries caused by a flying stick from some unexplained source getting between a pulley and a belt which another employee was adjusting thereon, and causing the belt to fly off, catch a plowshare lying upon the floor, and then in its movements catch such employee and draw him around the shaft. *Freebery* v. *St. Paul Plow Works* (18 Minn. 99, 50 N. W. 1026.

An employer is not liable for i to a boy who, while engaged in a machine not in motion, as to of which he had been fully ins was injured by the machine s starting from an unexplained ca catching his hand in the steel te jecting from iron rollers, where t chine was a safe and proper one construction, and such as was other factories of a like nature, not out of repair. *Ash* v. *Bros.* (1893) 154 Pa. 240, 26 Atl

The existence in an expansi of a steam pipe of a crack whi not be discovered by inspection, leaking of water and steam joint, are not such evidence of ne in failing to discover the defect render the employer liable for an to an employee caused by an ex of the joint, where such leakin Indiction that the joint is *Voigt* v. *Michigan Peninsular* (1897) 112 Mich. 504, 70 N. W.

Where the handle of a ladle carriage of molten metal break it is being used in the same wa has been for fifteen years pre the presumption is that it wa nally of sufficient strength; and the source of the weakness which it to give way is, upon the evide a mere matter of conjecture, a should be directed for defendant. v. *Campbell* (1894) 8 C. C. A. U. S. App. 334, 59 Fed. 990.

The unskilfulness and incom of brakemen will not make a company liable for injuries ca the derailment and overturning engine which struck calves u track, where it is only conjectu the greatest diligence and skill part might have prevented the n of the engine. *Central Trust Co.* *Tennessee, V. & G. R. Co.* (1895) 635.

The theory that an injury female servant received while a machine was caused by the wa sufficient number of male empl ner department cannot be based mere fact that, if there had be present, one of them might ha set at the task. *De Young* v (1896) 5 App. Div. 499, 38 N. 1089.

From the fact that a couplin cars which a switchman is att to couple was fastened in the dr

the cause suggested by the servant.[2] As long as there is nothing more tangible to proceed upon than two or more conjectural theories, it is immaterial that the theory which is suggested in the interest of

a jury may possibly draw the inference that the coupling pin, link, drawhead, and other coupling apparatus were defective, but they cannot, upon that inference, base the further one that the officers of the company knew, or by the use of ordinary care might have known, of such defective condition. *Missouri, K. & T. R. Co.* v. *Thompson* (1895) 11 Tex. Civ. App. 658, 33 S. W. 718.

It is not justifiable to infer that the pin which holds a brake rod in its place had dropped out before the car left a station 30 or 40 miles distant, and upon that inference to base the further inference that the car had not been properly inspected at that station. *Bailey* v. *Rome, W. & O. R. Co.* (1888) 46 Hun, 377, 3 N. Y. Supp. 585.

Where plaintiff's negligence may have caused the injury, an instruction requiring the defendant to show that his negligence did not contribute to the injury was erroneous. *Texas & P. R. Co.* v. *Maupin* (1900) 26 Tex. Civ. App. 385, 63 S. W. 346.

To submit to the jury the question whether defendant's negligence was the natural and probable cause of the accident, and whether the accident, in the light of the attending circumstances, ought reasonably to have been foreseen by a person of ordinary intelligence, care, and prudence, as likely to occur, is erroneous, where there is no evidence to support a finding that defendant's negligence was the proximate cause of the injury. *Musbach* v. *Wisconsin Chair Co.* (1900) 108 Wis. 57, 84 N. W. 36.

In *Rutledge* v. *Missouri P. R. Co.* (1892) 110 Mo. 312, 19 S. W. 58 it was held that the trial court should have sustained defendant's objection to the introduction of any evidence on the ground that the petition did not state facts sufficient to constitute a cause of action, where it first averred that plaintiff proceeded, in pursuance of orders given him by the yard master, to uncouple the car, and before he reached the proper place to perform that duty "someone unknown to him caused the cars to be moved without notice to him, whereby he was thrown from said car" and injured, and then also averred that the failure of defendant "to have such proper system and published rules regarding said matters was directly the cause of said train of cars being suddenly, without notice to plaintiff, moved," whereby he was thrown off and injured. The court said: "We do not see how these two allegations can stand together. He first alleged that he did not know who caused the train to move, and, of course, he did not know why and how it was moved, and not knowing this he could not affirm that the movement was the result of the failure to establish rules. It is evident this is a mere surmise, supposition, or guess of the plaintiff. The *probata* must correspond with the *allegata*. . . . At common law we think the plaintiff was bound to prove how and why this sudden movement occurred, and this he utterly failed to do. If the sudden movement was caused by the voluntary action of the engineer or in pursuance of a signal given by someone other than plaintiff, and this action of the engineer was caused, or the signal was given, by the wrong person, because defendant had failed to promulgate and enforce proper rules and regulations in regard to the movement of trains in its yards at Chamois, defendant is liable for the injury caused by such movement. We can appreciate how important it is in the management of trains to have a proper system of signals to protect the employees from danger; and the propriety of conferring on the switchman performing the duty of coupling or uncoupling cars the right to give signals to stop or start, as appeared whether on the cars or on the ground. On the other hand, if the sudden movement was the result alone of the ordinary operation of the train going onto the switch, plaintiff must be held to have assumed the risk of being thrown off the car by it, and therefore cannot recover. This is one of the risks of the employment which the law holds that he assumed when he engaged to perform the work assigned him. He mounted the car while in motion, and he knew it was going in on the switch, and hence he should have taken proper precaution against the ordinary movements of the train."

[2] As, where the evidence is equally consistent with the theory that the injury was caused by the negligence of a vice principal, and with the theory that it was caused by the negligence of a co-

the servant is more probable than that which is suggested in the terest of the master.[3]

838. Shifting of the burden of proof.—In the note below are lected several employers' liability cases in which specific referen made to the shifting of the burden of proof. For a more ge discussion of the subject, see Shearm. & Redf. Neg. § 58.[1]

servant. *Rose* v. *Boston & A. R. Co.* (1874) 58 N. Y. 217 (for facts see § 608, note 2, *ante*).

It is proper to charge that a servant injured by the sudden starting of a machine which he was oiling cannot recover if the jury are unable to decide whether the starting was due to a defect in the machine itself or to the act of a fellow servant or of a stranger. *Shaughnessey* v. *Sewall & D. Cordage Co.* (1894) 160 Mass. 331, 35 N. E. 861.

Nor can the action be maintained where it is left doubtful under the evidence whether the injury was caused by the servant's own negligence or by that of the master. *East Tennessee, V. & G. R.* v. *Stewart* (1884) 13 Lea, 432; *Consolidated Coal Co.* v. *Bonner* (1890) 43 Ill. App. 17; *Southern P. Co.* v. *Johnson* (1895) 16 C. C. A. 317, 44 U. S. App. 1, 69 Fed. 559 (see note 1, *supra*, for facts); *Farmer* v. *Grand Trunk R. Co.* (1891) 21 Ont. Rep. 299.

The presumption that a drawhead was defective at the time an inspection was made, and that the defect might have been discovered by a proper examination, cannot be raised upon the fact that it gave way and injured a brakeman, where it appears that its dangerous condition might have been occasioned by the violence of the impact of the cars at the time the injury was received. *Perry* v. *Michigan C. R. Co.* (1895) 108 Mich. 130, 65 N. W. 608.

[3] *Chandler* v. *New York, N. H. & H. R. Co.* (1893) 159 Mass. 589, 35 N. E. 89.

[1] Where it has been proved that some defect in the machinery or plant caused the accident, it is not necessary to show the precise nature of that defect, and the onus is thrown upon the master to show that the defect was one for which he was not to blame. *Macfarlane* v. *Thompson* (1884) 12 Sc. Sess. Cas. 4th series, 232, per Lord Monerieff, explaining the actual effect of *Fraser* v. *Fraser* (1882) 9 Sc. Sess. Cas. 4th series, 896, and *Walker* v. *Olsen* (1882) 9 Sc. Sess. Cas. 4th series, 946.

Whatever presumption of negligence may arise from the fact that a car off the track when a brakeman thrown from it is rebutted by proof the track and other agencies we good repair; and the plaintiff must fail in his action unless he pro fresh proof of negligence on the ma part. *Lockwood* v. *Chicago & N. Co.* (1882) 55 Wis. 50, 12 N. W. 4

Evidence that a servant was o temperate habits casts upon the de ant the burden of proving that he not intoxicated and was in the ex of proper care at the time of the dent. *Pennsylvania R. Co.* v. (1868) 57 Pa. 339, 98 Am. Dec. 22

If the unfitness of a servant is s to have existed at the time of em ment the burden is then on the m to disprove negligence in employing *Crandall* v. *McIlrath* (1877) 24 127.

In *Murphy* v. *Pollock* (1863) C. L. Rep. 224, it was held by Deas and Pigot, C. B., that, inasmuch a mode and circumstances of the em ment of a servant are matters peculi within the knowledge of the empl and not ordinarily within the know of a servant, the submission of evi from which a jury may reasonably the conclusion that the fellow se whose conduct was the proximate of the plaintiff's injury was incomp casts upon the employer the on showing that he exercised due and sonable care in the employment of servant.

It devolves on the master to that he has observed the duty of ing proper regulations. It is an affi tive fact that he can readily show, usually the plaintiff cannot prov negative. The servant must prove gence, and to exonerate himself master should show that proper ulations to prevent accidents been adopted, and these having shown to have been made, the pres tion is that the act was in violati the rule, and the company will a liable, unless the servant inflicting injury was incompetent, and the

839. Burden of proof, as affected by express statutory provisions.—*a. Statutes not exclusively applicable to employees.*—The provision in 5 Stat. at L. 306, chap. 191, § 13, that the fact of the bursting of the boiler of a steamboat shall be taken as "full prima facie evidence" of culpability, inures to the benefit of employees, although it is couched in general terms.[1]

Servants are also entitled to sue under § 3033 of the Georgia Code, which declares that "a railroad company shall be liable for any damage done to persons, stock, or other property, by the running of the locomotives or cars or other machinery of such company, . . . unless the company shall make it appear that their agents have exercised all ordinary and reasonable care and diligence, the presumption in all cases being against the company."[2]

In an action to recover damages under §§ 1166, 1167, of the Tennessee Code, which provides that when any person, animal, or other obstruction appears upon the roadway of a railroad company, "the alarm whistle shall be sounded, the brakes put down, and every possible means employed to stop the train and prevent an accident," and that every railroad company that fails to observe these precautions

pany knew it, or had reasonable and proper means of knowing it. *Pittsburg, Ft. W. & C. R. Co.* v. *Powers* (1874) 74 Ill. 341.

After a defendant suffers judgment by default he has the burden of disproving negligence. *Ebert* v. *Hartley* (1899) 72 Conn. 453, 44 Atl. 723.

[1] *McMahon* v. *Davidson* (1867) 12 Minn. 357, Gil. 232, holding that the effect of this provision was that a verdict for the plaintiff was proper, as the defendant had produced no evidence to show that due care had been used in hiring the engineer who was in charge of a boiler which exploded.

[2] Hammers used by employees of a railroad company to drive spikes are not within the term "machinery." *Georgia R. & Bkg. Co.* v. *Nelms* (1889) 83 Ga. 70, 20 Am. St. Rep. 308, 9 S. E. 1049, adopting the following remarks of the supreme court of Alabama, in *Georgia P. R. Co.* v. *Brooks* (1887) 84 Ala. 138, 4 So. 289, in discussing a somewhat similar statute: "A hammer is a tool or instrument ordinarily used by one man in the performance of manual labor. It may be made an essential part of machinery when intended to be and is operated by means thereof; but when disconnected from any other mechanical appliances, and operated singly, by muscular strength directly applied, such tool or instrument is not machinery in its most comprehensive signification, or in the meaning of the statute."

It has been held that the presumption of negligence thus created is not confined to cases where the company is engaged in its ordinary business as a common carrier, and that it arises where a fireman of an engine furnished to a contractor employed to build an extension is injured. *Savannah & W. R. Co.* v. *Phillips* (1892) 90 Ga. 829, 17 S. E. 82.

In an action against a railroad company by an employee injured by the negligence of a coemployee, it is error to give in the charge the words of this provision, because in cases involving such injuries the burden of proof is upon the plaintiff. *Georgia R. & Bkg. Co.* v. *Hicks* (1894) 95 Ga. 301, 22 S. E. 613. See § 757, *ante*.

In a suit for the death of a railroad brakeman because of the failure of the company to provide warnings of the approach of the train to a low bridge, plaintiff need not show want of contributory negligence on the part of such brakeman, as he is required to do where the injury was due to the negligence of a coservant. *Savannah, F. & W. R. Co.* v. *Day* (1893) 91 Ga. 676, 17 S. E. 959. See § 843, subd. b, *infra*.

"shall be responsible for all damages to persons or property occasi
by, or resulting from, any accident or collision that may occur,"-
burden of proving compliance with the statute is upon the defend

b. Statutes enacted expressly for the benefit of employe

A statute which simply imposes a new obligation upon an empl
or renders him liable for the negligence of an employee who w
apart from its provisions, have been regarded as a mere coserva
the injured person, leaves upon the plaintiff the burden of provin
existence of such culpability as will entitle him to maintain
action.[4]

In Ohio a statute has been passed which provides that where
vant is injured "by reason of any defect on any car or locomotiv
the machinery or attachments thereto belonging, . . . the
of such defect . . . shall be prima facie evidence of negligc
on the part of the company.[5] (Ohio Laws 1890, p. 149, § 2.)

[3] *East Tennessee, V. & G. R. Co.* v. *Rush* (1885) 15 Lea, 145.

[4] In actions brought under any of the group of statutes reviewed in chapter XXXVII., *ante*, the burden of proof lies upon the plaintiff to prove each of the following propositions:

(a) That there was a breach of duty in the premises as regards the injured person. See *Southern R. Co.* v. *Guyton* (1898) 122 Ala. 231, 25 So. 34; *Louisville & N. R. Co.* v. *Binion* (1892) 98 Ala. 570, 14 So. 619; *Garland* v. *Toronto* (1896) 23 Ont. App. Rep. 238; *Mobile & B. R. Co.* v. *Holborn* (1887) 84 Ala. 138, 4 So. 146; *Louisville & N. R. Co.* v. *Davis* (1890) 91 Ala. 487, 8 So. 552.

(b) That this breach of duty was committed by some person for whose negligence the employer is made responsible by the statutes. *Gibbs* v. *Great Western R. Co.* (1884; C. A.) L. R. 12 Q. B. Div. 208, 48 J. P. 230, 53 L. J. Q. B. N. S. 543, 50 L. T. N. S. 7, 32 Week. Rep. 329; *Garland* v. *Toronto* (1896) 23 Ont. App. Rep. 238; *Mary Lee Coal & R. Co.* v. *Chambliss* (1892) 97 Ala. 171, 11 So. 897 (verdict set aside on the ground that there was no evidence that the failure to discover or remedy the defect was due to the negligence of the employer or his representative); *Louisville & N. R. Co.* v. *Davis* (1890) 91 Ala. 487, 8 So. 552.

(c) That such breach of duty was the efficient cause of the injury. *Southern R. Co.* v. *Guyton* (1898) 122 Ala. 231, 25 So. 34; *Louisville & N. R. Co.* v. *Binion* (1892) 98 Ala. 570, 14 So. *Farmer* v. *Grand Trunk R. Co.* 21 Ont. Rep. 299.

A statute requiring employe guard dangerous machinery does n pose upon a defendant the burd proving that the failure to comply the statute was not the efficient of the injury. *Montreal Rolling Co.* v. *Corcoran* (1896) 26 Can. 595, Reversing Rap. Jud. Quebec, R. 488.

[5] The effect of this provision has thus explained: "The presumpti knowledge of the defect, before a the time of the injury, is, by this ute, chargeable to the company; an statutory presumption cannot be come by proof of facts which only a presumption that the company d have such knowledge. Competen careful inspectors are presumed to erly inspect the cars and their a ments, but such presumption wou overcome the statutory presumpt knowledge of defects before and time of the injury. It would ta actual and proper inspection, equivalent, to overcome the stat presumption of knowledge of su fects." *Columbus, H. V. & T.* v. *Erick* (1894) 51 Ohio St. 146, E. 128.

Under this provision a railroad pany is liable for an injury to a ployee from the sudden starting locomotive by reason of leaky although it may not have had notice of the defect. *Lake Shore*

Wisconsin statute of a somewhat similar tenor has already been referred to in chapter XXIX., *ante*. See also § 873, note 3, *post*, for a case in which a court of a sister state refused to give effect to it on the ground that it pertained merely to the remedy. The essential effect of such enactments, it will be observed, is to extend the application of the doctrine of *res ipsa loquitur* to cases which, as it is ordinarily construed, would be beyond its scope.

C. Burden of proof with respect to defenses.

840. Generally.— When a breach of duty is proved or admitted to have been committed by the master, the burden of proving all such facts as he relies upon for the purpose of excusing his failure ordinarily rests upon him.[1] But from the ensuing sections it will be seen that this rule is not followed by all the courts in cases where the defense set up is one of those which is founded on the servant's alleged knowledge of the risk which caused his injury.

841. Burden of proof with respect to the assumption of the risk.— *a. Ordinary risks.*—As the doctrine which charges every adult servant with an acceptance of the ordinary risks of his employment rests, in part at least, upon the presumption which is entertained that he

S. R. Co. v. *Raitz* (1894) 10 Ohio C. C. 70.

Failure of a railroad company to furnish a customary appliance upon a locomotive, in consequence of which an employee is injured, places the company in the same position under this statute as though the appliance were furnished and the accident had resulted as a consequence of its defective condition, and the accident is made prima facie evidence of negligence. *Crumley* v. *Cincinnati, H. & D. R. Co.* (1896) 12 Ohio C. C. 164.

The presumption arising from the fact of the defect may be rebutted by showing that the company had no knowledge and was not guilty of negligence, and by evidence of careful and vigilant inspection by competent inspectors. *Pennsylvania R. Co.* v. *Meyers* (1893) 12 Ohio C. C. 263. But that presumption is not rebutted by the mere fact that the corporation employed a competent and sufficient inspector. *Felton* v. *Bullard* (1899) 37 C. C. A. 1, 94 Fed. 781, Citing the *Erick Case* (1894) 51 Ohio St. 146, 37 N. E. 128.

[1] An employer who alleges that the movement of a machine to which the plaintiff attributes his injury was impossible has the burden of proving that impossibility. *Wooster* v. *Bliss* (1895) 90 Hun. 79, 35 N. Y. Supp. 514; *Fox* v. *Le Comte* (1896) 2 App. Div. 61, 37 N. Y. Supp. 458.

The admission of a railway company in its answer, that the death of a fireman was caused by the unsafe condition of its track, shifts to it the burden of proving that the accident was caused by the malicious act of a trespasser, and that the consequences of such act could not have been prevented by the exercise of reasonable care. *Marcom* v. *Raleigh & A. Air-Line R. Co.* (1900) 126 N. C. 200, 35 S. E. 423.

Where a railroad company admits that he knew its track was not in safe condition at the point where an employee was injured by the derailment of a hand car, it will be presumed that the company's negligence in failing to maintain a safe track was the cause of the injury, and the burden is cast on the company to show that the accident was not caused by its negligence. *Wilkie* v. *Raleigh & C. F. R. Co.* (1900) 127 N. C. 203, 37 S. E. 204.

comprehends all those risks (see § 260, subd. *a, ante*), it is clear wherever such a servant has been injured owing to the existence risk of this character, and seeks to recover on the ground that h not appreciate it, he has the burden of showing that such appreci was not predicable under the given circumstances.[1] In the case minor the evidential situation is different, inasmuch as there presumption that he understands even the ordinary risks of his ployment. See § 291, note 7, *ante*.

b. Extraordinary risks.—The conception that the servant's n sumption of extraordinary risks is based upon the hypothesis th does not know of them, or take them into his calculations as o the elements of his contract (see § 273, *ante*), is deemed, in mo the American states, to require the conclusion that the burden of ing that he had knowledge of, and assumed, any particular risk w falls within this category rests upon the master.[2] The burden i course, shifted to the servant in those cases where the facts establi

[1] This doctrine has never, so far as the writer knows, been questioned, and is explicitly laid down in *Johnson* v. *Chesapeake & O. R. Co.* (1892) 36 W. Va. 73, 14 S. E. 432; *Whalen* v. *Illinois & St. L. R. & Coal Co.* (1885) 16 Ill. App. 320.

[2] "The employee is only presumed to assume the dangers usually attendant upon his employment; and when he shows that he has been injured by a cause or danger not usually or reasonably attendant upon his employment, he is then entitled to recover, unless it be shown that he knew of such unusual and unreasonable danger and fully comprehended its nature at the time of his employment or before the accident happened. The evidence in this case having established the fact that the injury to the plaintiff was caused by a danger which ought not to have attended his employment, and would not have attended it if the defendant had performed its whole duty towards him, there is no presumption that the plaintiff assumed the unusual risk, and the burden of proof is on the defendant to show affirmatively that he did." *Nadau* v. *White River Lumber Co.* (1890) 76 Wis. 120, 131, 20 Am. St. Rep. 29, 43 N. W. 1135.

"There can be no presumption of knowledge of special dangers arising from a peculiar and exceptional state of affairs." *Whalen* v. *Illinois & St. L. R. & Coal Co.* (1885) 16 Ill. App. 320.

To the same effect, see *Texas & P. R. Co.* v. *Archibold* (1896) 21 C. C. A 41 U. S. App. 567, 75 Fed. 802; *ander* v. *Central Lumber & Mill* (1894) 104 Cal. 532, 38 Pac. *Bjorman* v. *Ft. Bragg Redwoo* (1894) 104 Cal. 626, 38 Pac. 451; *cago* v. *Edson* (1891) 43 Ill. App Citing *Chicago & E. I. R. Co.* v. (1890) 132 Ill. 161, 22 Am. St. 515, 23 N. E. 1021; *Wells* v. *Burl C. R. & N. R. Co.* (1881) 56 Iowa 9 N. W. 364; *Greenleaf* v. *Illinois Co.* (1870) 29 Iowa, 14, 4 Am. 181; *Coates* v. *Burlington, C. R. R. Co.* (1883) 62 Iowa, 486, 17 760; *Moyes* v. *Chicago, R. I. & Co.* (1884) 63 Iowa, 562, 14 N. W 19 N. W. 680; *Chesapeake & N.* v. *Venable* (1901) 23 Ky. L. Rep. 63 S. W. 35; *Myhan* v. *Louisiana tric Light & P. Co.* (1889) 41 La. 964, 7 L. R. A. 172, 17 Am. St. Rep 6 So. 799; *Swoboda* v. *Ward* (187 Mich. 420; *Thorpe* v. *Missouri P.* (1886) 89 Mo. 650, 58 Am. Rep. S. W. 3; *Young* v. *Shickle, H. & B. Co.* (1890) 103 Mo. 324, 15 S. W. *Johnston* v. *Oregon Short Line R* (1892) 23 Or. 94, 31 Pac. 283; v. *Oliver Oil Co.* (1890) 34 S. C. 27 Am. St. Rep. 815, 13 S. E. 419; *hue* v. *Enterprise R. Co.* (1889) 32 299, 17 Am. St. Rep. 854, 11 S. E *Texas & St. L. R. Co.* v. *Vallie* (1 60 Tex. 481; *Texas & P. R. Co.* v. *son* (1896) 89 Tex. 519, 35 S. W. *Galveston Rope & Twine Co.* v. *Bu* (1893) 2 Tex. Civ. App. 308, 21 S

by the testimony produced in his behalf indicate that he was aware of the existence of the risk.[3]

In some states it has been explicitly decided that the burden of disproving his knowledge and assumption of an extraordinary risk lies on the servant.[4] The rationale of this doctrine would seem to be that it is a necessary corollary of the rule of pleading, that a servant must, in his complaint, expressly allege his ignorance of the danger to which his injury was due. See § 857, subd. *b, post*. It is submitted, however, that this point of view is a mistaken one, and that the incidence of the burden of proof is logically determinable with reference to any presumptions which may be entertained in the premises, and not with reference to the allegations which may be deemed necessary to show a good cause of action.

As soon as it is shown that the servant appreciated, or ought to have appreciated, the extraordinary risk in question, the presumption that every risk known by him to be involved in his employment was accepted becomes operative, and he has the burden of proving any facts upon which he may rely for the purpose of bringing the case within one of the recognized exceptions to the rule which charges him with that acceptance.[5]

958; *Gulf, C. & S. F. R. Co.* v. *Royall* (1898) 18 Tex. Civ. App. 86, 43 S. W. 815; *Norfolk & W. R. Co.* v. *Ward* (1894) 90 Va. 687, 24 L. R. A. 717, 44 Am. St. Rep. 945, 19 S. E. 849; *Hulehan* v. *Green Bay, W. & St. P. R. Co.* (1887) 68 Wis. 520, 32 N. W. 529; *Cole* v. *Chicago & N. W. R. Co.* (1886) 67 Wis. 272, 30 N. W. 600.

[3] *Galveston Rope & Twine Co.* v. *Burkett* (1893) 2 Tex. Civ. App. 308, 21 S. W. 958.

[4] This rule has been explicitly asserted in several Indiana cases. *Louisville, N. A. & C. R. Co.* v. *Sandford* (1888) 117 Ind. 265, 19 N. E. 770; *Clark County Cement Co.* v. *Wright* (1897) 16 Ind. App. 630, 45 N. E. 817; *Pennsylvania Co.* v. *Witte* (1896) 15 Ind. App. 583, 43 N. E. 319, 44 N. E. 377; *Chicago & E. R. Co.* v. *Wagner* (1896) 17 Ind. App. 22, 45 N. E. 76, 1121; *Toledo, St. L. & K. C. R. Co.* v. *Trimble* (1893) 8 Ind. App. 333, 35 N. E. 716.

In New Hampshire it has been laid down in general terms, with reference to an injury caused by an abnormal risk, that the plaintiff has the burden of proving that the accident was not caused by a risk which he assumed when he entered the defendant's employment. *Leazotte* v. *Boston & M. R. Co.* (1899) 70 N. H. 5, 45 Atl. 1084.

In Ohio it was laid down in an early case that a servant must aver and prove that he did not know of the defects in question. *Mad River & L. E. R. Co.* v. *Barber* (1856) 5 Ohio St. 541, 67 Am. Dec. 312.

In Idaho the servant must show that his injury did not arise from a defect which he knew or ought to have known, and that it was not from a hazard incident to the business. *Minty* v. *Union P. R. Co.* (1889) 2 Idaho, 437, 21 Pac. 660.

In Virginia it is laid down that the servant must prove that the injury complained of did not result from the ordinary hazards of the business. *Norfolk & W. R. Co.* v. *Jackson* (1888) 85 Va. 489, 8 S. E. 370. But this statement seems to be, in its essence, nothing more than an affirmation of the doctrine that the burden of proving actionable negligence lies on the servant (see § 832, *supra*). This being one of the cases in which the servant is not required to allege his ignorance of the danger (see § 857, subd. e, *post*), it can scarcely be supposed that the court intended to enunciate the Indiana doctrine.

[5] *Malm* v. *Thelin* (1896) 47 Neb. 686, 66 N. W. 650, where the promise of the master to remedy the dangerous conditions was relied upon by the servant.

842. Burden of proof as to servant's contributory negligen

collection of the authorities which bear upon the subject of the b
of proof in its relation to the defense of contributory negligen
be found in Shearm. & Redf. Neg. §§ 107, 108. For the purp
the present treatise it will be sufficient to refer to the employe
bility cases in which the antagonistic doctrines on that subjec
been applied.[1]

If the defect and the risk created by it were obvious, it is proper for the trial judge to refuse a request for an instruction that the defendant has the burden of proving the plaintiff's knowledge of the existence of the defect. *Ferguson* v. *Phœnix Cotton Mills* (1901) 106 Tenn. 236, 61 S. W. 53.

In *Coates* v. *Burlington, C. R. & N. R. Co.* (1883) 62 Iowa, 492, 17 N. W. 760, the jury were instructed to the effect that, if deceased had knowledge of the condition of the frog, and continued in the employment of the defendant, and made no complaint thereof, and was not promised a change, there could be no recovery, and that the burden of proving the same was on the defendant. Discussing the contention that this instruction was erroneous, because it not only required the defendant to prove that the deceased had knowledge of the defect, but also to prove that he did not make complaint thereof and was not promised a change therein, the court said: "In *Wells* v. *Burlington, C. R. & N. R. Co.* (1881) 56 Iowa, 520, 9 N. W. 364, it is held that the burden rested upon the defendant to prove the affirmative allegation of the defense, and the fact that the plaintiff had knowledge of the alleged danger to which he was exposed. We think that when the defendant has shown that fact, it may well rest upon it as a defense, and that, in the absence of some excuse from the plaintiff for exposing himself to dangers known to him, there can be no recovery. It is a general rule (subject, of course, to some exceptions) that a party to an action is not required to establish the negative of a proposition. When the defendant shows that the plaintiff knew of the dangerous condition of the road or machinery which he aided to operate, it is then incumbent on the plaintiff to show that he was in some manner justifiable in exposing himself to the danger. The fact that such proof cannot be made in some cases where the injury results in death is no reason why the rule that the party who holds the affirmative of an issue is required to assume the
of proof should not be enforced.
burden had been held to rest on
fendant to prove the negative,
have been required to introduce
nesses, all of its officers and e
to whom such notice might pro
given, and prove by them that
plaint was made."

ney (1896) 145 Ind. 551, 42
This decision seems to be in
with an earlier one in which
down that an employee who is
injuries received through the
of an incompetent fellow ser
is met by the defense of co

843. Same subject continued; actions under statutes.— For the pose of discussing the incidence of the burden of proof in actions

negligence, is not required to show that he had no knowledge of that incompetency *Pennsylvania Co.* v. *Roney* (1883) 89 Ind. 453, 46 Am. Rep. 173. The position of the court is indicated by the following remark: "It may be true that, where a negative fact is essential to a recovery, it must be proved; but such a fact as the want of capacity of fellow servants constitutes no essential ingredient of the cause of action in such a case as this." Viewed with reference to the particular element of contributory negligence, which it was said the servant was not required to establish, this decision is also essentially repugnant to those of the same court which are cited in § 841, note 4, *supra*.

The effect of the Indiana statute cited in § 858, note 2, *post*, is that the onus of proving contributory negligence now lies on the defendant.

Iowa.—Error in charging in an action against a master to recover for the death of a servant, that the burden was upon defendant to establish the allegations of contributory negligence made against the plaintiff's intestate, as well as to establish its claim of waiver of defects in the appliance which caused the injury, is not cured by an instruction that the plaintiff conceded that the deceased knew of the defects in the appliance when he entered the master's service, where it is probable that the jury understood that "waiver" consisted not only of a knowledge of the danger and continuance in the employment, but of absence of protest and of promise to repair. *Ford* v. *Chicago, R. I. & P. R. Co.* (1898) 106 Iowa, 85, 75 N. W. 650, Reversing on Rehearing (1897; Iowa) 71 N. W. 332.

The absence of contributory negligence need not necessarily be established by direct proofs, but in the very nature of things must often be found, if at all, from the facts and circumstances of the case. *Gorman* v. *Minneapolis & St. L. R. Co.* (1889) 78 Iowa, 509, 43 N. W. 303.

An instruction is erroneous by which the jury are told that they have the right to infer that the plaintiff, when he received the injury, was in the line of his duty, and in the exercise of proper care and diligence, if such inference is in perfect harmony with all the facts established by the evidence. *Perigo* v. *Chicago, R. I. & P. R. Co.* (1880) 55 Iowa, 326, 7 N. W. 627.

Where an employee of a railroad company, who was inexperienced brakeman, when last seen alive was performing his duty in setting the brakes, and a minute later, the train having separated, he was thrown to the ground and killed, it was held that, although there was no other evidence bearing on the question of negligence on his part, the court was justified in submitting it to the jury in an action against the company. *Barns* v. *Chicago, M. & St. P. R. Co.* (1886) 69 Iowa, 450, 58 Am. Rep. 227, 30 N. W. 25.

Louisiana.—In support of the inclusion of this state among those in which the servant has the burden of disproving contributory negligence, Messrs. Shearman & Redfield cited *Moore* v. *Shreveport* (1848) 3 La. Ann. 615; *Ryan* v. *Louisville, N. O. & T. R. Co.* (1892) 44 La. Ann. 896, 11 So. 30. The former of these cases cannot be regarded as an explicit affirmation of the doctrine, and in the latter the court expressly declined to express any decided opinion on the question. A more satisfactory authority is *Deikman* v. *Morgan's L. & T. R. & S. S. Co.* (1888) 40 La. Ann. 787, 5 So. 76, which certainly puts the burden of disproving contributory negligence on the plaintiff. Yet it was expressly laid down in *Myhan* v. *Louisiana Electric Light & P. Co.* (1889) 41 La. Ann. 964, 7 L. R. A. 172, 17 Am. St. Rep. 436, 6 So. 799, that the burden of proving the servant's knowledge of the risk lies on the master, and, as the defense set up was contributory negligence, it seems a warrantable inference that the court must have considered that the master has the burden of establishing that defense, as a whole.

Maine.—*Cunningham* v. *Bath Iron Works* (1899) 92 Me. 501, 43 Atl. 106; *McLane* v. *Perkins* (1898) 92 Me. 39, 43 L. R. A. 487, 4 Atl. 255 (entire absence of evidence to the manner in which employees were drowned).

Massachusetts.—*Blanchette* v. *Border City Mfg. Co.* (1886) 143 Mass. 21, 8 N. E. 430; *Riley* v. *Connecticut River R. Co.* (1883) 135 Mass. 292.

New York.—*Dobbins* v. *Brown* (1890) 119 N. Y. 188, 23 N. E. 537.

A railroad brakeman, in an action by him against the railroad company to re-

brought under statutes it will be convenient to consider them longing to one or other of the two classes indicated by the he of the following subsections.

cover damages for injuries sustained by being struck by a bridge while on top of a car, is charged with the burden of proving his freedom from contributory negligence, and that he did not know it was a low bridge, and could not have ascertained that fact in the exercise of ordinary care and caution. *Williams* v. *Delaware, L. & W. R. Co.* (1899) 39 App. Div. 647, 57 N. Y. Supp. 263.

In an action for the death of a brakeman, caused by his striking against a low overhead bridge, alleged not to be properly guarded by "telltales," freedom from contributory negligence is not established by evidence that two of the telltales near the center were entirely gone and one was tangled with another, thus leaving a space of about 18 inches, through which a brakeman's head might pass without being struck by them and thereby warned of the bridge; that deceased was walking leisurely forward on the train as it approached the bridge, with the telltales and bridge in plain sight; and that snow had fallen on the day of the accident, but was not falling, so as to blind him, when he struck the bridge. *Albring* v. *New York C. & H. R. R. Co.* (1900) 46 App. Div. 460, 61 N. Y. Supp. 763.

A servant may establish his freedom from negligence either by direct testimony of acts showing care, or by circumstantial evidence from which a lack of contributory negligence may be inferred. *Vincent* v. *Alden* (1899) 45 App. Div. 627, 61 N. Y. Supp. 62.

Ohio.—In this state it was laid down in an early case that the plaintiff must aver and prove that he used due care and diligence. *Mad River & L. E. R. Co.* v. *Barber* (1856) 5 Ohio St. 541, 67 Am. Dec. 312. But this ruling is inconsistent with later cases in which the doctrine is adopted that the burden of proving contributory negligence lies on the master, unless the servant's own testimony tends to show the existence of such negligence. *Baltimore & O. R. Co.* v. *Whitacre* (1880) 35 Ohio St. 627; *Cleveland, C. & C. R. Co.* v. *Crawford* (1874) 24 Ohio St. 636, 15 Am. Rep. 633; *Robison* v. *Gary* (1876) 28 Ohio St. 241.

Rhode Island.—That this is one of the states in which the burden of disproving contributory negligence lies on the plaintiff was explicitly dec a recent case, in which it was h no presumption could be indulge of the theory that an experienc man was in the exercise of due the time he met his death, wh though there were no eye witn is apparent, from the characte injuries, that he received a sev tric shock which must have been either by his becoming ground in contact with a heavily charg or from his creating a short ci the current through his body. *Narragansett Electric Lighti* (1899) 21 R. I. 128, 42 Atl. 50 court referred to the earlier de *Cassidy* v *Angell* (1879) 12 R 34 Am. Rep. 690, which had b strued by other courts and writers as embodying the doctr the burden of proving contribut ligence lies on the defendant i Island. The actual effect of t sion was explained to be thi where the facts established sh there was nothing to put a dec his guard against the dange caused his death, his represent entitled to the benefit of a pre that he was in the exercise of care, if nothing to the contr pears; but that, nevertheless, dence is adduced by the defenda tends to rebut this presumpt burden still rests upon the pla satisfy the jury by a preponde the evidence that he was in the of due care. It is obvious, that the logical result of ent the presumption thus supposed dulged is that the existence of utory negligence is negatived at set, unless the defendant offers in rebuttal, and that this necessarily implies that the b proving such negligence rests u Rogers, J., in a concurring dwelt upon this objection to t nation whic' had been given o tionale of the earlier decision. mated that, unless it could be s upon some other ground, it w authority.

West Virginia.—In three e court explicitly took the posit the burden of proving contribu ligence lies on the defendant.

a. Statutes which simply extend the common-law liability of the master.—In a portion of the group of statutes reviewed in chapter XXXVII., *ante*, the legislatures have abstained from declaring the serv-

v. *Pittsburgh, C. & St. L. R. Co.* (1877) 11 W. Va. 14; *Skeff* v. *Huntington* (1889) 16 W. Va. 317; *Fowler* v. *Baltimore & O. R. Co.* (1881) 18 W. Va. 579. These were all actions by strangers. But in *Johnson* v. *Chesapeake & O. R. Co.* (1892) 36 W. Va. 73, 14 S. E. 432, a passage from Wood's treatise on Master and Servant, § 382, to the effect that the servant must ever and prove that he exercised due care, was quoted with approval.

(b) *Burden on defendant to prove contributory negligence.*— In the great majority of American states the burden of proving the existence of contributory negligence rests on the defendant. This rule has been explicitly affirmed in the following employers' liability cases: *Montgomery & E. R. Co.* v. *Chambers* (1885) 79 Ala. 338; *Little Rock, M. R. & T. R. Co.* v. *Leverett* (1886) 48 Ark. 333, 3 Am. St. Rep. 230, 3 S. W. 50; *Little Rock & Ft. S. R. Co.* v. *Eubanks* (1886) 48 Ark. 460, 3 Am. St. Rep. 245, 3 S. W. 808; *Chesapeake & N. R. Co.* v. *Venable* (1901) 23 Ky. L. Rep. 427, 63 S. W. 35; *Thorpe* v. *Missouri P. R. Co.* (1886) 89 Mo. 650, 58 Am. Rep. 120, 2 S. W. 3; *Haltom* v. *Southern R. Co.* (1900) 127 N. C. 255, 37 S. E. 262; *Houston & T. C. R. Co.* v. *White* (1900) 23 Tex. Civ. App. 280, 56 S. W. 204; *Galveston, H. & S. A. R. Co.* v. *Collins* (1900) 24 Tex. Civ. App. 143, 57 S. W. 884.

Where the testimony of plaintiff, standing alone, does not justify a peremptory charge for defendant on the ground of contributory negligence, a charge that the burden on this issue is on defendant is correct. *Galveston, H. & S. A. R. Co.* v. *Gordon* (1899; Tex. Civ. App.) 54 S. W. 635.

An instruction as to contributory negligence, to the effect that, before the jury could find for the defendant, they must be sure that such negligence had been proved, is not erroneous as calling for a higher degree of proof than the law requires. *Bodie* v. *Charleston & W. C. R. Co.* (1901) 61 S. C. 468, 39 S. E. 715.

The doctrine now established in England is the same as that which prevails in the majority of the United States. See *Dublin, W. & W. R. Co.* v. *Slattery* (1878) L. R. 3 App. Cas. 1155, 39 L. T. N. S. 365, 27 Week. Rep. 191, per Lord Hatherley and Lord Penzance; *Wakelin* v. *London & S. W. R. Co.* (1886) L. R. 12 App. Cas. 41, 56 L. J. Q. B. N. S. 229, 55 L. T. N. S. 709, 35 Week. Rep. 141, 51 J. P. 404, per Lord Watson.

In *Holland* v. *North Metropolitan T. Co.* (1886) 3 Times L. R. 245, it was stated that the case of *Davey* v. *London & S. W. R. Co* (1883) L. R. 11 Q. B. Div. 213, 52 L. J. Q. B. N. S. 665, Affirmed in (1883) L. R. 12 Q. B. Div. 70, 53 L. J. Q. B. N. S. 58, was no longer authoritative, in so far as it embodied the contrary rule.

The doctrine adopted in the cases just cited is subject to a well-recognized qualification which has been thus stated: If, by the uncontradicted facts, on the truth of which the plaintiff must rest his own case, it is shown that the damage to the plaintiff was caused by himself, the trial judge is justified in nonsuiting the plaintiff. *Davey* v. *London & S. W. R. Co.* (1883) L. R. 11 Q. B. Div. 213, 52 L. J. Q. B. N. S. 665, per Lord Coleridge, summarizing the effect of earlier decisions.

In other words the burden of proving contributory negligence lies on the defendant, unless the testimony submitted on behalf of the plaintiff shows the existence of such negligence. *Montgomery & E. R. Co.* v. *Chambers* (1885) 79 Ala. 338; *New Omaha Thomson-Houston Electric Light Co.* v. *Baldwin* (1901) 62 Neb. 180, 87 N. W. 27. In the latter case it was held that an instruction that the burden of proof of contributory negligence is on defendant, unless it appears from "plaintiff's own testimony," refers to all testimony produced on plaintiff's behalf.

The burden of proving contributory negligence is held to rest upon the defendant, although there may be an affirmative allegation in the complaint that the plaintiff was free from fault. *Montgomery & E. R. Co.* v. *Chambers* (1885) 79 Ala. 338.

The essential conception to which the doctrine applied in all these cases is referable is that the injured person will be presumed to have used proper care, unless there is some specific testimony which points directly to the opposite conclusion. See *Texas & P. R. Co.* v. *Gentry* (1896) 163 U. S. 353, 41 L. ed.

ant's right to be conditional upon his being free from contr negligence. Under such circumstances the incidence of the of proof, as regards contributory negligence, is doubtless dete by the doctrine which the court of the particular state in w happens to have adopted in common-law actions.[1]

186, 16 Sup. Ct. Rep. 1104, holding that the presumption is that a railway employee who was killed at night by a flat car in front of an engine, when he was crossing a track, did not expose himself recklessly, but did look and listen for coming trains.

In jurisdictions where the defendant has the burden of proving contributory negligence, such negligence will not be inferred, as a matter of law, where the facts are equally as consistent with the hypothesis of its absence as with the hypothesis of its existence.

In the absence of any direct evidence as to what one killed while attempting to couple cars did or omitted immediately before the accident, the inference of his negligence from the position in which he was found after the collision, crushed between the sill of the car and the engine, is not alone sufficient to justify the withdrawal of the case from the consideration of the jury. *Creswell v. Wilmington & N. R. Co.* (1899) 2 Penn. (Del.) 219, 43 Atl. 629.

The question of contributory negligence on the part of the deceased is for the determination of the jury, where he started down a ladder, with his back to it, in a mine on a decline of 30 to 40 degrees, and was last seen alive descending near a roller below which the incline became nearly perpendicular, and the ladder was found rotten and unsafe after the accident, with two rungs broken out. *Reese v. Morgan Silver Min. Co.* (1898) 17 Utah, 489, 54 Pac. 759.

In a case where a servant was injured by an explosion of inflammable gas, which issued from the manhole of an oil tank, the court declined to hold th there was an irresistible inference that, after he had removed the manhead, he unnecessarily and negligently passed in front of the open manhole with the lantern in his hands, and that both he and the lantern were thrown by the explosion to the place where they were afterwards found, the evidence being merely that, after the accident, the manhead was found leaning against the still at one side of the manhole, and that there was a lantern with the glass globe slightly cracked, and a light still burning in it, about 25 feet beyond where the deceased was found in flames. *Bannon v. Lutz* (1 Pa. 166, 2[illegible] Atl. 890.

A finding that the death of man was caused by a defecti ance, while he himself was in else of due care is justified by that the wound on the body c in shape and size to the end constituting part of the braki ance; that the place of the w responded to the height of the the wound was sufficient to ca that deceased was seen near dge of the cars he was atte couple, and seemed to be th as the cars came together, and seen dragging an one of the c receded in consequence of th sion; and that a witness w quently made the coupling w to jump in case he observed a the apparatus. *Missouri P. Fox* (1900) 60 Neb. 531, 83 N

A merely conjectural theory plausible, will not prevail agai itive statement made by th with regard to the circumstan ed to the accident. Hence cannot say, as matter of law employee who was steadying of a mold when it fell, cru hand between it and the low the mold, had his hand under when the supporting chain bro the only testimony on the that of the employee, who sai had his hands on its side, and falling of the cover threw hi *Honifius v. Chambersburg I. Co.* (1900) 196 Pa. 47, 46 At

If the plaintiff's want of sk on for the purpose of showi injuries did not proceed fr carelessness, it must be sho work required skill. This w inferred from averments that t ants knew they had not emplo ful person to do the work, that the plaintiff was unskill unfit and improper person. *Glasgow & L. Steam Packet C* 16 Week. Rep. 483.

[1] If the statutes of Engla Canadian and Australian col

Under the Iowa statute, abrogating the doctrine of common employment in the case of railway servants, the burden of disproving contributory negligence lies on the plaintiff, as it does in common-law actions.[2]

b. Statutes in which the right of action is made conditional upon the servant's freedom from negligence.—Under the Massachusetts statute, act of 1887 (see chapter XXXVII., *ante*), the burden of disproving contributory negligence rests on the plaintiff.[3] As the same rule prevailed at common law (see preceding section), it is evident that the provision in the statute, which shows it to be for the benefit of a "servant who is in the exercise of due care and diligence" at the time of the accident, has left the plaintiff in precisely the same position.

In the Colorado act of 1893 the same words were inserted; but the courts do not seem to have considered whether the effect of the clause is to change the rule which prevails in this state under the common law, *viz.*, that the burden of proving contributory negligence lies on the defendant.

The Wisconsin statute of 1889 (see chapter XXXIX., *ante*), which provides that railroad companies shall be liable for damages sustained by any employee, "without contributing negligence on his part," when such damages were caused by the negligence of certain other specified employees, has been held to leave upon the defendant the burden of proving contributory negligence.[4]

Under S. C. Rev. Stat. § 1582, which gives an action to a person injured by reason of a city's mismanagement of anything under its control, providing such person has not in any way brought about such injury by his own negligent act, or negligently contributed thereto, it has been held necessary for the plaintiff to show, as part of his case, that he has not been guilty of contributory negligence.[5] The position taken was that the onus of disproving contributory negligence lies on the plaintiff, whenever the statute under which he sues creates a new right of action for a specified kind of negligence, and expressly excepts cases of such negligence from its purview. The doctrines adopted in Wisconsin and South Carolina are, therefore, antagonistic.

The somewhat peculiar rule which prevails under the statutes of

of Alabama, are construct on this footing, the burden of proving contributory negligence will rest upon the defendant.

Georgia and Florida, which are identical in terms (see c
XXXIX., *ante*), and which give railway servants the right to
injuries caused by a coservant's negligence, provided they the
were free from fault, has been thus formulated by the supre
"An employee suing the company for injuries sustained by hi
the negligent performance of any act in which he particip
not made a prima facie case for recovery, without proving,
that he was wholly free from fault himself, or that there wa
gence on the part of his fellow servants. If he rests on the pr
tion of negligence, without actual proof thereof, that presu
applies to him with the same force as to others who particip
the same act of common duty; and to get the benefit of t
sumption as applied to the others, he must rebut it so far as it
to himself."[6] The effect of this rule is that it is only in case
the servant participated in the act which caused his injury th
subject to the burden of disproving contributory negligen
there was no such participation the burden of proving suc
gence rests on the master.[7] The burden of proof thus thrown

[6] *Gassaway* v. *Georgia Southern R. Co.* (1882) 69 Ga. 350. The last sentence in the above statement is taken verbatim from the syllabus written by the court for the case of *Atlanta & R. Air Line R. Co.* v. *Campbell* (1876) 56 Ga. 586.

"Before a recovery can be had by an employee of a railroad company, who sues for a personal injury sustained by the negligent performance of an act in which he participated, he must either show that he was wholly free from fault himself, or that there was negligence on the part of his fellow servant; and until this is done, he has not made a prima facie case against the company." *Jones* v. *Georgia Southern R. Co.* (1881) 66 Ga. 558; *Augusta Southern R. Co.* v. *McDade* (1898) 105 Ga. 134, 31 S. E. 420.

In an action for an injury resulting from an act in which plaintiff participated, the burden of showing that the agents of the company exercised all ordinary and reasonable care and diligence is not imposed on the company until the plaintiff has prima facie established either that he was not to blame or the company was. *Western & A. R. Co.* v. *Jackson* (1901) 113 Ga. 355, 38 S. E. 990.

[7] "The idea of this court is that where an employee has nothing at all to do with the act which resulted in his injury, he would stand upon the footing of a passenger in regard to ... times of negligence; but if he ... erred therein, then the pre... would be that he had as muc... with the accident as another, ... earned; and that it would be ... lent presumption to take it for ... without proof, that everybody ... to blame except him, when he ... much to do with the cause of t... ter as anyone else." *Central ...* *Co.* v. *Sears* (1877) 59 Ga. 43... *& R. Co.* v. *Miller* (1892 ... 571, 16 S. E. 939.

The injury in all the above c... was received by a servant do... in connection with railway roll... and the burden was, in each ... held to be on the plaintiff to ... contributory negligence. An... of the other class of cases is ... v. *Central R. & Bkg. Co.* (187...

injured servant may be satisfied by evidence which indicates prima facie that the injury was caused by the negligence of a coemployee.[8] He need not show affirmatively both negligence on the company's part and absence of negligence on his own part.[9]

No presumption arises in the employer's favor until he has offered evidence which tends to show either that he himself was faultless or that others were to blame for the accident.[10] As soon as he has introduced evidence which would warrant either of these inferences, the

509, Second Appeal (1878) 60 Ga. 120, where a switchman was injured by the negligence of laborers engaged in carrying iron from one point to another of a railway yard. But in view of the later decisions, it would seem that some of the language used in that case is too broad.

A servant who is shown to have been acting, at the time the injury was received, in violation of a rule, has the burden of proving that his breach of duty was not an efficient cause of the injury. *Prather* v. *Richmond & D. R. Co.* (1888) 80 Ga. 427, 12 Am. St. Rep. 263, 9 S. E. 530; *Western & A. R. Co.* v. *Bussey* (1894) 95 Ga. 584, 23 S. E. 207.

[8] *Campbell* v. *Atlanta & R. Air Line R. Co.* (1876) 50 Ga. 586; *Central R. & Bkg. Co.* v. *Kenney* (1877) 58 Ga. 489.

In an action by a father for loss of service of his minor son seventeen years old, who was killed while running a train as locomotive engineer, a judgment for plaintiff is sustained by evidence that if the accident occurred from fast running by deceased, his immediate superior, who was on the train at the time, ought to have controlled and restrained him so as to confine him to a safe speed, where such superior's failure to testify as to the real cause of the accident is not accounted for. *East Tennessee, V. & G. R. Co.* v. *Douglas* (1894) 94 Ga. 517, 19 S. E. 885.

[9] *Johnston* v. *Richmond & D. R. Co.* (1895) 95 Ga. 685, 22 S. E. 694, disapproving charge to opposite effect; *Central R. & Bkg. Co.* v. *Kenney* (1877) 58 Ga. 485; *Georgia R. Co.* v. *Bryans* (1886) 77 Ga. 429; *Florida, C. & P. R. Co.* v. *Mooney* (1898) 40 Fla. 17, 24 So. 148.

A court errs "in charging to the effect that the burden is on the plaintiff, not only to show himself blameless about the catastrophe, but the defendant negligent. It is true both must appear to the jury; but the moment the plaintiff proves to the jury either, the legal presumption proves the other, until rebutted, and the defendant must rebut that presumption." *Savannah, F. & W. R. Co.* v. *Barber* (1883) 71 Ga. 614.

"The presumption of law that the plaintiff, being an employee, is without fault, arises only when he is wholly disconnected with duties about the particular business in which he was hurt; when he is a party engaged in the duty in discharging which he is hurt, the onus is upon him to show himself without fault; so soon as he does that, the presumption arises that the other employees engaged with him in the duty were at fault or negligent, and the onus is shifted upon the company to show them without negligence; and this principle reconciles the cases decided by this court, when applied to the facts of each." *Central R. & Bkg. Co.* v. *Kelly* (1877) 58 Ga. 107, 108.

"After proving the fact and degree of the injury, if the plaintiff will show himself not to blame the law then presumes, until the contrary appears, that the company was to blame; or if he will show, on the other hand, that the company was to blame, the law then presumes until the contrary appears, that he was not to blame." *Central R. & Bkg. Co.* v. *Kenney* (1877) 58 Ga. 485.

[10] *Central R. & Bkg. Co.* v. *Sears* (1877) 59 Ga. 436; *Savannah, F. & W. R. Co.* v. *Barber* (1883) 71 Ga. 614; *Florida C. & P. R. Co.* v. *Burney* (1895) 98 Ga. 1, 26 S. E. 730.

In an action under the Florida act it was held error to charge the jury, without qualification or explanation, in the words of the 1st section, inasmuch as such an instruction was calculated to impress the jury with the idea that all presumptions were against the company, and that it devolved upon the company to make it appear that its agents had exercised all ordinary and reasonable care. *Florida C. & P. R. Co.* v. *Mooney* (1898) 40 Fla. 17, 24 So. 148.

burden is shifted to the defendant company to show that its emp
were free from negligence." The company can reply by proo
evidence to show either that it was not negligent or that the s
in fault.[12] When evidence supporting either of these inferenc
been given, the presumption against the company is rebutted, a
onus is shifted to plaintiff.[13]

The Alabama statute (Acts 1886-87, 146), which provide
engineers shall give warning signals at certain places, and stop
trains under the circumstances specified, and which also puts
the railway company, when any person is killed or injured, th
den of proving that its obligations had been duly performed
time and place of the accident, has no application to a case in
a servant is the injured person.[14]

[12] *Central R. & Bkg. Co.* v. *Kelly* (1877) 58 Ga. 107; *East Tennessee, V. & G. R. Co.* v. *Maloy* (1886) 77 Ga. 238, 2 S. E. 941; *Augusta Southern R. Co.* v. *McDade* (1898) 105 Ga. 134, 31 S. E. 420.

CHAPTER XLIV.

PARTIES IN ACTIONS FOR INJURIES RECEIVED BY SERVANTS.

844. Plaintiffs.
845. Defendants; generally.
846. Liability of the state to its employees.
847. Municipal corporations.
848. Receivers; common-law actions.
848a. Receivers; actions under statutes for the benefit of railway employees.
849. Fellow servants.
849a. Joinder of negligent coemployees and master as parties defendant.

844. Plaintiffs.— In the great majority of instances, of course, the plaintiff in the action is the injured servant himself, or, if death has ensued, one or other of those personal representatives who are enabled to sue under the various damage acts.[1] For the effect of those acts the practitioner is referred to general treatises on the law of negligence.[2]

Where the injured servant is a minor, and death does not result from the injury, his parent may maintain an action for loss of services. Several decisions dealing with the master's liability in this point of view have been cited in § 21, *ante*.

The fact that a servant of a corporation is a small stockholder of that corporation will not prevent him from recovering damages for an injury caused by its negligence.[3]

[1] It is only where an employee of a railroad company is killed through the negligence of a fellow servant that the action therefor must be brought by the personal representative, under Miss. Const. 1890, § 193. Where the negligence is that of the company itself.—as by failure to furnish safe appliances,—the action for the death of a child is to be brought by the parent, under Miss. Code 1892, § 663. *White* v. *Louisville, N. O. & T. R. Co.* (1894) 72 Miss. 12, 16 So. 248, Distinguishing *Illinois C. R. Co.* v. *Hunter* (1892) 70 Miss. 471, 12 So. 482.

In a case before the House of Lords it was laid down by the Lord Chancellor that, even if the Scotch law did not impose any obligation on a child to support his parent, there was, at all events, a moral obligation to do so, and that the existence of this obligation would enable a mother whose son's wages were her only means of support to maintain an action against an employer whose negligence caused the death of the son. *Wrems* v. *Mathieson* (1861) 4 Macq. H. L. Cas. 215. It was proved, however, that a child was legally obliged to support his parent.

[2] The English decisions are reviewed in 1 Beven, Neg. pp. 208, *et seq.* The American authorities are collected in Shearm. & Redf. Neg. §§ 196 *et seq.*

[3] *Morback* v. *Home Min. Co.* (1894) 53 Kan. 731, 37 Pac. 122. The court relied upon the consideration that the injured party had no personal control

845. Defendants; generally.— All the cases cited in these vo
take it for granted that any individual who is competent to ent
a valid contract for services is liable for a breach of any of
duties which the law imposes upon employers for the protect
their employees. On general principles it may be presumed th
infant is subject to this liability as long as he continues to acce
benefits of the contract. But the writer has not found any c
which this point has been explicitly determined. If the emplo
an insane person, the servant's rights in the present connection
may be supposed, governed by the general rule that a lunatic em
is liable, unless he can prove not only his incapacity to make th
tract out of which the claim against him arises, but, in additio
plaintiff's knowledge of his incapacity.[1]

A person who hires the services and labor of convicts in a c
penitentiary sustains essentially the relation of master to suc
victs, in spite of the fact that the wages of the latter go to the c
and although the usual relation of master and servant does no
because the labor is compulsory, yet such person owes the duty
convicts to furnish proper appliances.[2] U er such circums
the mere presence of the government employ who has charge
convicts does not relieve the hirer of the convicts from his li
for the tortious conduct of his own agents.[3]

An employee does not, by voluntarily engaging in labor wit
victs hired by his master, release the latter from liability for in
sustained by him in consequence of the master's failure to use
able caution in respect to employing and retaining the convicts.

846. Liability of the state to its employees.— It is now so w
tled as to be beyond discussion, that the doctrine of *respond*
perior cannot be applied so as to make the state liable for the
gence of its agents, unless the state has, through its legislatu

of the corporate property or its affairs, and distinguished the case from that of a partner, who cannot sue the firm in an action at law for any claim arising out of a matter within the scope of the partnership.

[1] *Imperial Loan Co.* v. *Stone* [1892] 1 Q. B. 599, 61 L. J. Q. B. N. S. 449, 66 L. T. N. S. 449, 66 L. T. N. S. 556, 56 J. P. 436.

[2] *Hartwig* v. *Bay State Shoe & Leather Co.* (1887) 43 Hun. 425.

[3] *Chattahoochee Brick Co.* v. *Braswell* (1893) 92 Ga. 651, 18 S. E. 1015. The court said: "It is entirely immaterial whether it was or was not lawful for these convicts to be thus placed under the control and management brick company and its bosses, company surely will not be hear that, although it injured the through the grossly improper co its own employee, it is not liable it was unlawful to put the pla der this employee's control. To would be to allow the company itself of its own misconduct i one wrong, in order to shield its the consequences of another wro more grievous and unlawful."

[4] *Porter* v. *Waters-Allen Fou Mach. Co.* (1895) 94 Tenn. 37 W. 22.

pressly assumed the responsibility for such negligence.[1] This immunity extends to all the separate governmental departments by means of which the state discharges its functions.[2] Nor is a servant of the Crown liable as an employer, the doctrine being that no action lies against a public servant upon any contract which he makes in that capacity.[3]

The common-law rule has by express enactments been modified to a greater or less extent in almost all, if not all, the jurisdictions with which we are concerned in this volume. But a full discussion of the authorities would carry us outside the scope of the present treatise.[4]

[1] *Lewis* v. *State* (1884) 96 N. Y. 74, 48 Am. Rep. 607 (injury caused by the defects of a ladle in which a convict was carrying molten metal).

"That the doctrine of *respondeat superior*, applicable to the relations of principal and agent created between other persons, does not prevail against the sovereign in the necessary employment of public agents, is too well settled upon authority and practice to admit of controversy." *Clodfelter* v. *State* (1882) 86 N. C. 51, 41 Am. Rep. 440 (convict lost his eyes by an explosion due to carelessness of superintendent).

See, for the general rule, Story, Agency, 7th ed. § 319; Shearm. & Redf. Neg. § 249; and *Oklahoma Agri. & Mechanical College* v. *Willis* (1898) 6 Okla. 593, 40 L. R. A. 677, 52 Pac. 921; *McIlhenny* v. *Wilmington* (1900) 127 N. C. 149, 50 L. R. A. 470, 37 S. E. 187.

[2] Where a prison guard is injured by falling from a defective ladder, he cannot maintain an action for damages against the state's prison, since such action would be, in effect, an action against the state to recover for a tort of its agents, and on grounds of public policy such an action cannot be permitted. *Moody* v. *State Prison* (1901) 128 N. C. 12, 53 L. R. A. 855, 38 S. E. 131.

The right of recovery has also been denied in a case where a prison guard lost his arm through the negligence of his superior. *Bourn* v. *Hart* (1892) 93 Cal. 321, 15 L. R. A. 431, 27 Am. St. Rep. 203, 28 Pac. 951.

See also *Alamango* v. *Albany County* (1881) 25 Hun, 551 (convict injured by the negligent operation of a sawmill, held not to be entitled to maintain an action).

A county is not liable for injuries received by an employee from a defective machine in an asylum which is maintained by the county in discharge of its duty, as a political division of the state, to care for its inmates. The maintenance of such an asylum does not become a private business such that the county is liable for injuries received by employees, by reason of the fact that some revenue is incidentally derived by the county from the sale of surplus farm products and from payments made by those liable for the support of insane persons kept in the asylum. *Hughes* v. *Monroe County* (1895) 147 N. Y. 49, 39 L. R. A. 33, 41 N. E. 407.

[3] *Dunn* v. *Macdonald* [1897] 1 Q. B. 555, 66 L. J. Q. B. N. S. 420, 76 L. T. N. S. 444, 45 Week. Rep. 355.

[4] By the English superannuation acts (that now in force was passed in 1887) compensation is provided for injured employees in certain specified cases. See Beven, Employers' Liability, p. 112.

In Canada the Dominion act (50 & 51 Vict. chap. 16, § 16, par. c) provides that the exchequer court shall have jurisdiction of any claim against the Crown arising out of any death or injury to the person or to property on any public work, resulting from the negligence of any officer or servant of the Crown while acting within the scope of his duties or employment. It has been laid down that the effect of this statute is to place the Crown upon the same footing as private employers in respect to its liability for personal injuries received by its servants when engaged on public works. *Reg.* v. *Filion* (1895) 24 Can. S. C. 482, holding that, as the defense of common employment was not available in Quebec (see chapter XLVII., *post*), the province in which the accident occurred, an action was maintainable for injuries caused by the negligence of a fellow servant. This case follows *Quebec* v. *Queen* (1894) 24 Can. S. C. 420, in which, however, recovery

An intention to change the rule will not be imputed to the legisla unless that intention has been explicitly declared.[5]

847. Municipal corporations.—A servant's right of action fo injuries resulting from any negligence which may be committed b agents of a municipal corporation while engaged in the perform of one of its public functions is subject to the same limitation those which circumscribe that right in the case of the state it On the other hand such a corporation is liable as an employer, u the same circumstances as a private individual or corpora wherever the injury complained of was received by the servant participating in work which was being done in connection with exercise of a power conferred upon the corporation for the purpo enabling it to carry out one or other of its merely ministerial tions.[2]

was denied on the ground that the injury was not received on any public work.

As to the right of employees working on a certain state-owned railway in Georgia to sue under the statute as to railway servants which has been enacted in that state, see § 755a, note 1, *ante*.

[5] It has been held that the rule is not altered by a constitutional provision which confers jurisdiction upon the courts "to hear claims against the state" (*Coodfelter* v. *State* [1882] 86 N. C. 51, 41 Am. Rep. 440); nor by a provision which renders an agency of the state suable for "debts and other liabilities for which it is now liable" (*Moody* v. *State Prison* [1901] 128 N. C. 12, 53 L. R. A. 855, 38 S. E. 131); nor by a statute giving the superior court "jurisdiction of all claims against the commonwealth, whether in law or equity" (*Murdock Parlor Grate Co.* v. *Com.* [1890] 152 Mass. 28, 8 L. R. A. 599, 24 N. E. 854).

[1] See Shearm. & Redf. Neg. §§ 253, 255; Dill. Mun. Corp. §§ 963, 965.

The operation of a stone-crushing machine to prepare material for constructing and repairing its highways is held to be a governmental act of a municipality in such a sense that it will be exempt from liability for injury to an employee through a defect in a machine, although the machine is located several miles from the place where the material is to be used. *Colwell* v. *Waterbury* (1902) 74 Conn. 568, 57 L. R. A. 218, 51 Atl. 530.

The West Chicago park commissioners are a quasi-municipal corporatio liable for injury to an employee f vicious horse furnished him fo work, as it is the state which is the work of creating and maint the parks within their jurisdi *Backer* v. *West Chicago Park* 66 Ill. App. 507.

An intention to change the co law rule as to the nonliability of ipal corporations will not be in from the enactment of a statutor vision declaring cities and towns "to be sued." *Mellhenney* v. Wi *ton* (1900) 127 N. C. 146, 50 L. 470, 37 S. E. 187.

[2] In the earlier chapters of this tise, numerous cases have been ci which servants were injured whi gaged in public works undertak municipal corporations, and in whi doctrine stated in the text was for granted.

A city is liable for injuries cau the driver of a fire engine or hos by obstructions in the streets whi negligently allowed to remain *Farley* v. *New York* (1897) 152 222, 57 Am. St. Rep. 511, 46 N. Reversing (1896) 9 App. Div. 5 N. Y. Supp. 622; *Coots* v. *Detroit* 75 Mich. 628, 5 L. R. A. 315, 43 17. The court said in the latter "It would be not only absurd, manifest failure of justice, to hol the city of Detroit must be excuse liability because the plaintiff mu a matter of law, presume and ta tice that the city will violate thi ute, and disregard the duty laid by the legislature."

848. Receivers; common-law actions.— It is well settled that, during the continuance of a receivership, the proprietor or lessee of a railway cannot be held liable for injuries caused by the negligent

The rule which defines the liability of New England towns is not quite the same as that adopted in most of the American states. See Shearm. & Redf. Neg. § 258. In the case of a municipal corporation, it is not always enough to prove facts which would render a private corporation or an individual responsible for the injury complained of. The servant must also show that his right of recovery is not barred by the principle that "no private action, unless authorized by express statute, can be maintained against a city for neglect of a public duty imposed upon it by law for the benefit of the public, and for the performance of which the corporation receives no profit or advantage." *Pettingell* v. *Chelsea* (1894) 161 Mass. 368, 24 L. R. A. 426, 37 N. E. 380, where the court, relying on *Hill* v. *Boston* (1877) 122 Mass. 344, 23 Am. Rep. 332, held that, neither at common law nor under the employers' liability act of 1887, is a city liable to a lineman on its fire-signal system for negligence in respect to the condition of a pole which breaks and injures him.

"The general rule is that cities and towns are not liable to private action for omissions or neglect in the performance of corporate duties imposed upon them by law, unless such action is given by statute." *Taggart* v. *Fall River* (1898) 170 Mass. 325, 49 N. E. 622. There it was held that the mere fact that a city will derive an incidental advantage or profit to land owned by it from the opening of a street in compliance with a duty imposed on it by statute does not render it liable for a personal injury to a laborer while working under the direction of the superintendent of streets and surveyor of highways, in cutting through a bank of earth in opening such street. Under such circumstances the city is not liable for the death of a laborer by the falling of a bank of earth while grading a street, although the city has passed an order directing the superintendent of streets to grade such street.

On the other hand, a town is liable for the death of an employee killed by the fall of a large overhanging rock beneath which he was stationed by the superintendent of streets, of the dangerous condition of which the latter knew, but the deceased did not, where the work being done was undertaken voluntarily by the town as a private enterprise, and not under the compulsion of statute. *Collins* v. *Greenfield* (1898) 172 Mass. 78, 51 N. E. 454.

A city is liable for injuries resulting from the negligence of the superintendent appointed by its board of water commissioners, under Mass. Stat. 1884, chap. 309, § 24, in ordering work to be commenced and continued when the city has not properly provided for the safety of the workmen, although he is under the direction of the water commissioners, and has no power to furnish the necessary materials to avoid injury. *Connolly* v. *Waltham* (1892) 156 Mass. 368, 31 N. E. 302. There the defendant argued that the trial judge should have complied with its request for a ruling that the city was not responsible for a negligent act of its superintendent, the contention being based, not upon the ground that he was a public officer and acting in that capacity, and not as the defendant's agent or servant, but on the following grounds: that the superintendent was under the direction of the commissioners, and could not purchase or furnish anything except by their direction; that, as neither the city nor the commissioners furnished him with materials for bracing the trench, or gave him authority to procure them, he had no right or power so to do, and was under no duty to do that which was beyond his legal right and power, the consequence being that he could not personally be charged with negligence; and that, as the superintendent's negligence alone was charged, the question whether the city was liable for not furnishing materials for bracing was not in issue. But the court said: "This view of the case is too narrow. A superintendent may be negligent in ordering work to be commenced or continued when the proper materials or appliances for insuring the safety of the workmen engaged are not at hand, as well as in failing to use materials or appliances which are at hand. If he knew, or had reason to know, that there was danger of the caving of the trench, and had no materials for bracing it and no power to procure them, due care required of him to stop the work until suitable materials were

receiver for the purpose of making permanent improvements,
held that a servant who had been injured by the negligence
receiver's agents in respect to the operation of the road might

furnished; and it was personal negligence in his work of superintendence to allow the digging to go on before the necessary materials were procured. For such negligence of a superintendent the principal is answerable, and cannot escape liability by showing that it was by his own act, and not by the fault of the superintendent, that suitable materials were wanting."

A city is not excused for negligent failure to give a workman a reasonably safe place in which to work in constructing a sewer, by the fact that the sewer may not have been legally established because of irregularities or omissions in the proceedings. *Norton* v. *New Bedford* (1896) 166 Mass. 48, 43 N. E. 1034. There the court remarked that, "while the irregularities and omissions in the laying out or establishment of the sewer might be taken advantage of on a petition for certiorari, they cannot be taken advantage of by the city in this collateral proceeding brought against the city by a workman who has been employed by its board of public works upon the footing that the city had the right to build the sewer."

This case was followed in Missouri, where it was held that a city cannot escape liability for injuries to one of its employees engaged in such work, on the ground that the city itself constructed the sewer, instead of letting out the contract to the lowest bidder, as required by its charter. *Donahoe* v. *Kansas City* (1896) 136 Mo. 657, 38 S. W. 571. The court said: "The corporation, having as a natural person undertaken t
struction of the sewer, should,
same extent and under the sa
cumstances, be held to respond
ages for the wrongful acts of its
and servants, and should not be
ted to escape responsibility u
ground that such wrongful acts
from the exercise of powers not
by its charter or ordinances."

cute an action in a state court in Texas, and enforce a judgment recovered in that action against the property of the railway company.[1] It is, of course, a condition precedent to recovery in such an action, that a primary liability on the receiver's part should be established.[2]

848a. Receivers; actions under statutes for the benefit of railway employees.—The question whether the statutes which as regards railway companies, abrogate or modify the common-law doctrine as to coservants, should be construed as defining the rules of law to be applied in actions against receivers, is one which has been determined differently by different courts. But the weight both of reason and authority seems to be decidedly in favor of the conclusion that this question should be answered in the affirmative.

Georgia.—The provisions of the acts in force before 1895 (see chapter XXXIX., *ante*) were held not to inure to the benefit of employees on railways in the hands of receivers.[1] This doctrine was

[1] *Texas P. R. Co.* v. *Johnson* (1890) 76 Tex. 421, 18 Am. St. Rep. 60, 13 S. W. 463; *Texas P. R. Co.* v. *Overheiser* (1890) 76 Tex. 437, 13 S. W. 468; *Texas P. R. Co.* v. *Griffin* (1890) 76 Tex. 441, 13 S. W. 471; *Texas & P. R. Co.* v. *Geiger* (1890) 79 Tex. 13, 15 S. W. 214.

[2] *Texas & P. R. Co.* v. *Collins* (1892) 84 Tex. 121, 19 S. W. 365.

[1] In *Henderson* v. *Walker* (1875) 55 Ga. 481, the court argued thus: "He (the plaintiff) shows by his declaration that he is not such an employee. He rests his case on a statutory right, and yet does not put himself into the only class to which the right belongs. The company owning the road was not in possession. It had no employees. There was no privity between it and the plaintiff. He was not its servant; it was not his master. It had nothing to do with selecting his coemployees whose negligence caused the injury. A court of equity, by its officers, the receivers, had possession of the road; and the plaintiff, instead of hiring himself elsewhere to a railroad company or corporation, voluntarily hired himself to these ministers of the law. We think the letter of his situation is the law of it, and that as he was not in fact in the employment of a railroad company, he is not to be considered in such employment by construction. Unless the contrary appeared, the receivership is to be deemed a compulsory one; there is no presumption that the receivers went in on the application of the company or by its consent. They represent, not the company, but the court. The property and franchise of the company have been seized, and the court, subordinate to the laws of the land, is for the time being the lord paramount. Doubtless the receivers, as common carriers, bear a relation to the public very similar to that of other common carriers; but the difference between the public and this plaintiff is that the public can appeal to a general law applicable as against all common carriers, whereas the plaintiff must invoke a special statutory provision which will not reach all employers alike, but only railroad companies. Other classes of employers have not been made subject for injuries sustained by one servant through the fault of another. . . . Employees of receivers are not within the words of the Code, and to extend the words by construction, so as to subject the company's assets to pay damages for the carelessness or misconduct of men whom neither the officers nor agents of the company had any part in selecting, would be attended with difficulties, both technical and practical. Injuries to freight and passengers may come under the head of expenses of administration; but to include under that head the damages caused by one necessary agent of administration to his fellow would be like punishing the body because one hand or foot had wounded the other."

This case was followed in *Thurman* v. *Cherokee R. Co.* (1876) 56 Ga. 376; *Brown* v. *Comer* (1895) 97 Ga. 801, 25 S. E. 176; *Youngblood* v. *Comer* (1895) 97 Ga. 152, 23 S. E. 509, 25 S. E. 838. But in the last-cited case a strong dis-

held to be applicable although the receiver had been appointe
petition of the company itself.[2] The consequence of adop
narrow construction of the statutes was that neither a recei
ating a railway nor a railway company was subject to an a
an employee for injuries caused by the negligence of a cocn
In two of the Federal cases cited [illegible] *supra*, it was u
the statute (Georgia Acts 18[illegible] 22), by which it was
that "damages payable for injuries to persons and propert
by the running of the cars on said road, and for which the
is now liable, as common carrier, by the laws of this state,
be a lien on the income of the road, had so far changed the l

senting opinion was delivered by Atkinson, J. The following extract is worth inserting: "When the expression . . . [i. e., railroad companies] was used, it was the purpose of the legislature to apply it to the business, and not to persons or corporations which were railroad companies *eo nomine* only. If its significance were so confined, there would be no authority for applying the rule of liability above indicated to railroad and banking companies, or to canal and railroad companies, or to individuals who, having under the present law purchased the properties and franchises of a railroad company, chose to take out a certificate of incorporation under some name other than that of a railroad company; because, while in fact operating railroads, such are not railroad companies only; and yet the courts of this state have constantly applied the rule in question to all such corporations and persons engaged in the business of operating railroads under charter authority, and without reference to whether it was or was not by name a railroad company. The statute in question having been enacted for the protection of employees of such companies operating railroads, the business conducted under their charters would seem upon reason to be impressed with the liabilities imposed by law, without reference to the person or agency which might lawfully thereafter be employed in the conduct of the business for which it was chartered; and this being true, there is no reason apparent to my comprehension why a receiver, like any other person who may attempt to exercise the charter power, should be exempt from the liability thus imposed. The statute in question is one highly remedial, and, being of that nature, should be liberally construed in advancement of its obviously beneficial purposes. In its construction tenaciously to its letter ignore and purpose, and defeats the legislative intent. It is true receiver represents the court as the mere custody of the concerned; but when the co takes to exercise the charter operate the property in its receiver likewise represents rate franchise, and necessaril in his official character, the ities, duties, and obligation upon the franchise which he exercise."

The construction thus put statute by the state court w by the Federal courts in the Georgia. *Clyde* v. *Richmon Co.* (1894) 59 Fed. 394; *Co. v. East Tennessee, V. &* (1895) 69 Fed. 353, 357; *Trust & Guaranty Co.* v. *At tion Co.* (1895) 69 Fed. 358.

The Code provisions whi presumption of negligence on railroad companies when the sults from the running of etc., were held not to be a actions against receivers. *Huidekoper* (1896) 98 Ga. E. 440.

It was also laid down tha by which a servant of a ra pany agrees to be bound by a necessarily binding between receivers of the company's r binding, there must have be tion of it as between them, ei ly or by implication. *Spenc* (1895) 97 Ga. 681, 25 S. E.

nounced in the earlier decisions that damages might be recovered from a receiver by an employee knocked from a moving train by striking a structure near the track. But this contention did not prevail.[4]

The act of December 16, 1895 (p. 103), provided that an employee of a receiver might maintain an action against him for injuries caused by the negligence of a coemployee. But this statute is applicable only to cases where the injury was received after its passage.[5]

Indiana.—It is held that, as a suit against a receiver is in effect against the corporate property in his possession, a receiver of a rail-

[4] *Central Trust Co. v. East Tennessee, V. & G. R. Co.* (1895) 69 Fed. 353; *Baltimore Trust & Guaranty Co. v. Atlanta Traction Co.* (1895) 69 Fed. 358. In the former case the court said: "It will be seen that the 'injuries to persons' for the payment of which the receiver shall apply the income of the road, and for which a lien is given, are such injuries as are inflicted on persons to whom it would owe a duty as a common carrier. Now, it is contended, as I understand the argument, that under the statutes of Georgia (Code, § 2083) the liability of the company in a case such as we are now considering is in its capacity as a common carrier. An examination of that section will show that this position cannot be sustained. The language of the section is as follows: 'Railroad companies are common carriers, and liable as such. As such companies necessarily have many employees who cannot possibly control those who should exercise care and diligence in the running of trains, such companies shall be liable to such employees as to passengers for injuries arising from the want of such care and diligence.' It will be seen from its language that this section is applicable to injuries to the employee arising from the want of care and diligence on the part of another employee in the running of trains; and if it should be held that in a proper case coming withia this statute (Code, § 2083),—as, for instance, a brakeman injured by the negligence of an engineer in running a train so as to cause a collision,—the receiver under the act of 1876 would be required to make payment out of the income of the road, it is obvious that it does not include the case now before the court. This injury is said to have been caused by a dangerous structure on the side of the track, and no complaint is made whatever as to the manner in which the train was run. So the discussion of this section of the Code of Georgia (§ 2083) is almost unnecessary, because by its language the act of 1870 itself only provides for the payment out of the income in the receiver's hands, as a first liability, for injuries to persons 'caused by the running of the cars on said road;' and the injury received by this complainant cannot, as I have stated, be said in any fair sense to have been caused by the running of the cars upon the road. It is true that the train was in motion when the intervener was knocked from its side, but the complaint is of the structure by the side of the track, with which he came in contact and which caused his injury. It is unnecessary, therefore, to decide the question as to whether the liability of the railroad company to an employee injured by want of care and diligence of another employee in the running of the trains is a liability 'as a common carrier' under the act of 1870, or whether it is only the same degree of liability it would owe to a passenger, and not within the terms of the act. This reasoning applies only to § 2083, which is invoked here, as stated, in connection with the act of 1876. Section 3036 of the Code, which makes the employer liable for an injury to an employee caused by the negligence of a coemployee generally, and without reference to running of trains, is not involved. The last-named section creates a liability for the lack of ordinary and reasonable care, and the former for a liability 'as to passengers,' namely, for slight neglect, or the absence of extraordinary care."

[7] *Sloan* v. *Central Iowa R. Co.* (1883) 62 Iowa, 728, 10 N. W. 331.

[8] *Hornsby* v. *Eddy* (1893) 5 C. C. A. 560, 12 U. S. App. 404, 56 Fed. 461. Thayer, D. J., said: "It is clear that, with respect to persons employed by a railway company as railway operatives, the statute last above quoted changes the rule of the common law, that the master is not liable to a servant for an injury sustained in consequence of the negligence of a fellow servant. Does the fact that a receiver is appointed to temporarily operate a railroad forthwith alter the status of all its employees, and re-establish as to them the old rule of the common law, so long as the receiver remains in charge? Viewing the question in the light of those considerations of public policy which probably gave birth to the statute, we cannot conceive of any reason why the appointment of a receiver should have such effect. It is a fact of which we may well take judicial notice, that great railway systems which employ thousands of men are frequently operated for a term of years through the agency of a receiver. Such receivers do not, as a general rule, change the working force of the road, or the rules and regulations by which trains are run, or by which the other business of the road is transacted. The men whom they employ are engaged in the same quasi-public service as other railway employees, and daily encounter the same risks and hazards. Furthermore, the receiver of a railroad operates it for the immediate benefit of the company by which it is owned, discharges all of the public d corporation, and appropriat come of its road to the pres its property and franchises, payment of its debts." T judge then referred to the U act of March 3, 1887 (24 552, 554, chap. 373, §§ 2, 3, Stat. 1901, p. 582), allo against receivers appointed courts, and proceeded tha general considerations warra clusion that, if the rules of t law are modified for the be employees of railway compa because of the extraordinary which they are exposed, or public nature of the servi they are engaged, or for any son, then for like reasons t of the common law should applicable to the employees er who is engaged in opera road; and we can scarcely c any legislative body would i make any distinction betwe classes of employees last ref is said, however, that the s ute above cited is in derog common law, and for that be strictly construed. But is also a remedial statute, a that nature, the plaintiff in titled to invoke an interpr will give effect to the inte lawmaker. At all events, tion ought not to be ad merely clings to the letter the obvious spirit and pur enactment." The case of

Massachusetts.—The employers' liability act of this state is one of general application (see chapter XXXVII., *ante*). But it has been held that a receiver may be sued under a statute by which "railroad corporations" are made liable for injuries caused by fire communicated by their locomotives.[9]

Minnesota.—A receiver is liable to an employee injured by the negligence of a coemployee, under Gen. Stat. 1894, § 2701, making "every railroad corporation owning or operating a railroad" liable for such negligence (see chapter XXXIX., *ante*).[10]

Missouri.—The statute defining the liabilities of railroad corporations in relation to damages sustained by their employees, and stating who are fellow servants (see chapter XXXVII., *ante*), applies to re-

Co. v. *Thomason* (1881) 25 Kan. 1, where a track repairer was allowed to recover against a trustee in possession, was adduced to show that the statute had previously been construed in the sense which was deemed by the court to be the proper one.

A later case applying the same rule is *Rouse* v. *Hornsby* (1895) 14 C. C. A. 377, 32 U. S. App. 111, 67 Fed. 219. Compare also *Rouse* v. *Harry* (1895) 55 Kan. 589, 40 Pac. 1007; *Rouse* v. *Redinger* (1895) 1 Kan. App. 355, 41 Pac. 433.

[9] *Wall* v. *Platt* (1897) 169 Mass. 398, 18 N. E. 270, construing Pub. Stat. chap. 112, § 214.

[10] *Wikkelson* v. *Truesdale* (1895) 63 Minn. 137, 65 N. W. 260. The court said: "It is true that the word 'receiver' is not used in this statute, and that its language is 'every railroad corporation owning or operating a railroad;' but the statute is a police regulation intended to protect life, person, and property, by securing a more careful selection of servants and a more rigid enforcement of their duties by railroad companies, by making them pecuniarily responsible to those of their servants who are injured by the negligence of incompetent or careless fellow servants. It is remedial in its nature, and must be construed, if not liberally, certainly in accordance with its obvious purpose and spirit. It would be a most unreasonable construction of the statute, if we were to adopt the one claimed for it by the defendant. We are aware that able courts have adopted such a construction of similar statutes, but we are of the opinion that they have taken a narrow view of the statute, and we must decline to follow their conclusions. If this police regulation does not apply to receivers of railroad corporations, it is difficult to see why such receivers are not absolved from a compliance with each and all of the police regulations made applicable by statute to railroad corporations. Can it be true that a railroad corporation whose road is operated for it by a general manager is, and one whose road is managed for it by a receiver is not, subject to the police regulations of the state? Or that the employees of the one have, and those of the other have not, a remedy when injured by the negligence of a fellow servant? Or that the employees of a corporation whose road is operated by a general manager today have such remedy, but if injured to-morrow they will have it not, because a receiver has taken the place of the manager? It would seem that an affirmative answer must be given to these questions, if we held that this statute has no application to receivers of railway corporations. Manifestly, such is not the fair and reasonable construction to be given to the statute. It is only in a technical sense that a receiver manages a railroad for the court appointing him. He operates it subject to the direction of the court, not for its benefit, but for the owners of the road,—the corporation and its creditors. In doing so he necessarily exercises the franchises, rights, and powers of the corporation, and discharges its functions as a common carrier, and appropriates the income received from the operation of the road for the benefit of the corporation; and it logically follows that in so operating the road the receiver stands, in respect to duty and liability, just where the corporation would if it was operating the road. A distinction in

ceivers of railroad corporations, as well as to the corporations selves.[11]

Ohio.—The statute set out in chapter XXXVIII., *ante*, has be by a Federal court of appeals to be broad enough to cover a which the defendant is the receiver of a railway company' erty.[12]

this respect has been made between the common-law duties and liabilities of the corporation and those imposed on it by statute, but there can be no distinction in principle; for wherein is the duty and liability more imperative or sacred in the one case than in the other? A receiver cannot, while exercising the franchises and powers of a corporation, claim immunity from the police regulations and liabilities which have been imposed upon the corporation by the state."

[11] *Powell* v. *Sherwood* (1901) 162 Mo. 605, 63 S. W. 485.

In a case where it was held that a trustee in possession might be sued under a statute declaring "railroad corporations" to be liable for animals killed by trains, the court remarked, *arguendo*, that a receiver might also have been sued. *Farrell* v. *Union Trust Co.* (1883) 77 Mo. 475.

[12] *Peirce* v. *Van Dusen* (1897) 24 C. C. A. 280, 47 U. S. App. 330, 78 Fed. 693. The court said: "If the reasoning of the Georgia and Texas courts be applied to the Ohio statute, it cannot be held to embrace employees acting under the receiver of a railroad corporation. But in our judgment the statute is applicable to actions against receivers of railroad corporations. To hold otherwise would be to subordinate the reason of the law altogether to its letter. While the intention of the legislature must be ascertained from the words used to express it, the manifest reason and the obvious purpose of the law should not be sacrificed to a literal interpretation of such words. If the Ohio statute is construed as applicable only to actions for personal injuries brought directly against railroad corporations, the result would be that in an action brought in one of the courts of Ohio the employees of a railroad corporation would be accorded rights that would be denied in another action of like kind, perhaps in the same court, to employees of the receiver of a railroad corporation under exactly similar circumstances. Could such a result have been contemplated by the legislature of Oh think not. The avowed object statute was the protection and railroad employees. To that e clared that in the actions mea it every person employed by road company and invested wi or authority to direct or cont employees should be deemed t rior, not the fellow servant, of der his direction and control. gal effect as well as the objec declaration was, in the cases s make the negligence of the sup negligence of the company. N is done to the ordinary meanin words of the statute if it be held legislature had in mind actions receivers of railroad corpora well as actions directly against porations. The appointment of of a railroad does not change to the property nor work a di of the corporation. Although ture of the court and acting orders, the receiver, for most stands in the place of the co exercising its general powers, its rights, controlling its prop rying out the objects for whi erected, discharging the pub resting upon it, and representi terests as well of those who railroad as of those who ha against the corporation or its The corporation remains in notwithstanding a provisional ship established by an order and for the purpose of effectu will of the state, as manifest act of 1890, an action again ceiver, arising out of his mana the property, may be regard against the corporation 'in the or 'in the possession of' the *McNulta* v. *Lochridge*, 141 U 331, 35 L. ed. 790, 799, 12 Sup 11. . . . So much as to and true meaning of the Ohi without reference to the courts it may be enforced. If th means what we hold it to m not full effect be given to it

Texas.—In two actions brought under the act of 1891 (see chapter XXXVIII., *ante*) the right of an employee to recover from a receiver was denied on the ground that a receiver, being merely a court officer, and not "a proprietor, owner, charterer, or hirer" of the railroad he has in charge, is not within the terms of a statute.[13] In a subsequent decision the broader position was taken that the statute, as it merely defines who are, and who are not, fellow servants, and prescribes that certain persons vested by railway companies with authority and control or command over other employees are vice principals, and not fellow servants, but does not mention receivers of railway companies either in the title or the body of the act, cannot be extended by construction so as to embrace such receivers and thus con-

for personal injuries brought against a receiver in a court of the United States? This question must be answered in the affirmative. Such legislation is not liable to the objection that it encroaches upon Federal authority or upon the jurisdiction or power of the United States court. The statute does nothing more than to prescribe a rule of action to be observed by all within the state. The authority to enact it is derived from the general power of the state to regulate the exercise of the relative rights and duties, and to provide for the safety, of all persons within its territorial jurisdiction. It is the duty of the Federal court sitting in this state to enforce all enactments having such objects in view, unless they encroach upon the powers and authority of the United States. That duty arises out of the statute declaring that 'the laws of the several states, except where the Constitution, treaties, or statutes of the United States otherwise require or provide, shall be regarded as rules of decision in trials at common law in the courts of the United States.' . . . Undoubtedly, the whole subject of the liability of interstate railroad companies for the negligence of those in their service may be covered by national legislation enacted by Congress under its power to regulate commerce among the states. But as Congress has not dealt with that subject it was competent for Ohio to declare that an employee of any railroad corporation doing business here, including those engaged in commerce among the states, shall be deemed, in respect to his acts within this state, the superior, not the fellow servant, of other employees placed under his control. If the effect of the Ohio statute be, as undoubtedly it is, to impose upon such corporations, in particular circumstances, a liability for injuries received by some of its employees which would not otherwise rest upon them according to the principles of general law, that fact does not release the Federal court from its obligation to enforce the enactments of the state. Of the validity of such state legislation we entertain no doubt."

The court then pointed out that there was another view of this matter equally conclusive. If under the act of Congress of March 3, 1887 (24 Stat. at L. 552, chap. 373), as amended by the act of August 13, 1888 (25 Stat. at L. 433, chap. 866, U. S. Comp. Stat. 1901, p. 582), a railroad in the possession of a Federal receiver was to be managed and operated according to the requirements of the laws of the state in which the property is situated, "in the same manner that the owner or possessor thereof would be bound to do if in possession thereof," it was clear that such management and operation must be subject to any rule prescribed by the state imposing upon railroad corporations liability for the negligence of employees having superior authority over other employees.

[13] *Turner* v. *Cross* (1892) 83 Tex. 218, 15 L. R. A. 262, 18 S. W. 578; *Texas & P. R. Co.* v. *Collins* (1892) 81 Tex. 121, 19 S. W. 365.

In *Yoakum* v. *Selph* (1892) 83 Tex. 607, 19 S. W. 145, the court, relying on these cases, held that a third person could not recover from a receiver under the damage act. But it is clear that a conclusion based upon the construction of a statute which is applicable only to the employees of railway companies is not an authority for the ruling thus made.

vert into vice principals certain employees who would, apart fro
provisions, be fellow servants.[14]

A Federal court sitting in Texas is not prevented by this s
and the construction thus placed upon it from allowing a clai
damages for an injury caused by a coservant, if the cause of
arose in another state in which no statute open to such a constr
has been enacted.[15] By the act of June 18, 1897, the wording
fellow servant act was changed so as to be applicable to "every
son, receiver, or corporation operating railroads or street railw
See chapter XXXVIII., *ante*.

849. Fellow servants.— The extent of the personal respon-sibil
a servant or agent for acts of negligence committed by him i
course of his employment will be discussed at length in the
volume of this treatise. Here it will be sufficient to say that th
trine is now firmly established that a servant may be sued by a
servant who has been injured through his fault, whether the ci
stances attending the accident were such that the master would
self be liable, or were such that an action against him would be
by the defense of common employment.[1] But a superior servant

[14] *Campbell* v. *Cook* (1894) 86 Tex. 630, 40 Am. St. Rep. 878, 26 S. W. 486. Reversing (1894; Tex. Civ. App.) 24 S. W. 977. "The language," said the court, "cannot be so changed as to embrace an officer of the court, who is in no sense a corporation, because the reasons of the law apply to both." This decision was followed in *San Antonio & A. P. R. Co.* v. *Reynolds* (1895; Tex. Civ. App.) 30 S. W. 816.

Corp.* (1842) 4 Met. 49, Dec. 339 (assumed by Shaw, that an action would lie against t ligent servant); *Osborne* v. (1881) 130 Mass. 102, 39 Am. R 137 Mass. 1 (overruling *Jaquith* (1855) 4 Gray, 99, 61 A 56); *Kalleck* v. *Deering* (18 Mass. 200, 47 N. E. 698; *Gi Wolfrom* (1875) 22 Minn. 185 *man* v. *Barnett* (1876) 62 Me *Steinhauser* v. *Spraul* (1893) 1 551, 558, 21 S. W. 515, 859; *O Young & Sons' Seed & Plant Co.* 58 Mo. App. 628; *Burns* v. (1894) 75 Hun, 437, 27 N. Y. 499; *Fert* v. *Whipple* (1877) 586; *Lawlor* v. *French* (1895) 497, 35 N. Y. Supp. 1077; *Walker* (1890) 139 Pa. 42, 23 Rep. 160, 21 Atl. 157 (conceded *cudo*); *Durkin* v. *Kingston C* (1895) 171 Pa. 193, 29 L. R. A Am. St. Rep. 801, 33 Atl. 237; v. *Granger* (1894) 18 R. I. 507,

liable to one of his subordinates for the negligence of another of those subordinates.[2]

849a. Joinder of negligent coemployees and master as parties defendant.—By the Federal circuit court of the Kentucky district it has been laid down that there is no such joint liability to an injured servant on the part of the employing company and the employees whose negligence caused the injury as will permit their joinder in one action for such injury,[1] and that a servant cannot be joined as defendant with the receiver of a company and the company itself, in an action in which it is sought to hold them liable for his negligence, where the only ground on which liability is imputed to the receiver and the company is the negligence of that servant.[2] But in the Indiana district the doctrine has been adopted that an act of negligence committed by a coservant, if it is of such a nature that he represents the master with respect to its commission, constitutes a breach both of the master's duty and of the coservant's own duty as regards the injured servant, and that for this reason the latter may maintain a joint action against the master and the negligent coservant.[3]

639 (assumed *arguendo*); *Fox* v. *Sandford* (1856) 4 Sneed. 36, 67 Am. Dec. 587; *Thompson* v. *Hermann* (1879) 47 Wis. 602, 32 Am. Rep. 784, 3 N. W. 579.

In most of the above cases the distinction between acts of misfeasance and nonfeasance is not emphasized. In some of them the act of the servant is described as being one of misfeasance, and the liability put upon that ground. *Lottman* v. *Barnett* (1876) 62 Mo. 159; *Hukill* v. *Maysville & B. S. R. Co.* (1896) 72 Fed. 745; *Warax* v. *Cincinnati, N. O. & T. P. R. Co.* (1896) 72 Fed. 637; *Burns* v. *Pethcal* (1891) 75 Hun. 437, 27 N. Y. Supp. 499; *Osborne* v. *Morgan* (1881) 130 Mass. 102, 39 Am. Rep. 437. The distinction, however, is immaterial so far as regards the negligent acts committed by servants in the course of their employment, since, according to the Massachusetts case last cited, all such acts fall under the category of misfeasance, as being committed after the performance of the contract has been entered upon. Town selectmen who, in constructing a public sewer themselves, employ a person to work in a particular place, are, although acting as public officers, personally liable for an injury occurring to him through their negligence in respect to providing a reasonably safe place to work and suitable materials. *Breen* v. *Field* (1892) 157 Mass. 277, 31 N. E. 1075.

[2] *Clancy* v. *Harrison* (1878) 4 Vict. L. Rep. (L.) 437.

[1] *Hukill* v. *Maysville & B. S. R. Co.* (1896) 72 Fed. 745. In a removal case it has been held that an employer held liable for injuries to an employee because of the negligence of a coemployee in his absence and without his direction cannot be said to have acted in concert with such coemployee to produce the injury, so as to render him liable with the latter in a joint action. *Warax* v. *Cincinnati, N. O. & T. P. R. Co.* (1896) 72 Fed. 637.

A. Generally.

850. Jurisdiction.— An action by a servant against his ma

personal injuries received in the course of his employment is transitory in its nature, and may be instituted wherever the wrongdoer may be found, and jurisdiction of his person can be obtained.[1] This rule is applied irrespective of whether the right of action is one which exists under the common law or is one which is created by a statute.[2]

On the ground that a servant who has been injured owing to the breach of a duty which is imposed by law upon the master by reason of the relation of the parties, as well as by the contract of employment, may treat the wrong suffered as a tort, and bring an action *ex delicto*, it has been held that a servant of a railway company operating a line in two states can maintain an action against it under a statute abrogating the common-law doctrine as to coservants, although that doctrine is still applied in the other state, and it was there that he entered into the contract of service.[3] A similar conclusion as to the right of a servant to sue under such a statute has also been arrived at by starting from the assumption that an action against a railway company for an injury received in another state is one sounding in contract, not in tort.[4]

850a. Nonsuit taken after reversal—law of the case.—Where a

[1] This elementary rule has been taken for granted in numerous cases already cited in the earlier chapters of this treatise. For others, see the chapter dealing with the Conflict of Laws (XLVI.).

[2] In *Herrick* v. *Minneapolis & St. L. R. Co.* (1883) 31 Minn. 11, 47 Am. Rep. 771, 16 N. W. 413, the court observed that "in actions *ex contractu* there is no distinction made between statutory and common law actions in this regard, and there is no good reason why any different rule should be applied in actions *ex delicto*.

The general rule on the subject has been thus formulated by the Supreme Court of the United States:

"Whenever, by either the common law or the statute law of a state, a right of action has become fixed and a legal liability incurred, that liability may be enforced and the right of action pursued in any court which has jurisdiction of such matters and can obtain jurisdiction of the parties." *Dennick* v. *Central R. Co.*, (1880) 103 U. S. 11, 26 L. ed. 439.

In *St. Louis, I. M. & S. R. Co.* v. *Brown* (1899) 67 Ark. 295, 54 S. W. 865, it was held that, under the statute authorizing the bringing of an action against a railroad company for an injury to person or property in any county through which the road passes, a resident of Arkansas may sue in any county in Arkansas through which the road passes for personal injuries received thereon in another state.

Under Kentucky Civ. Code Prac. § 73, authorizing an action against a common carrier for an injury to a passenger, or to other person or his property, to be brought in the county in which "plaintiff" resides, if he reside in a county into which the carrier passes, an action against a railroad company to recover damages for the death of an employee may be brought by the administrator in the county in which he resides, if he reside in a county into which the railroad passes. *Turner* v. *Louisville & N. R. Co.* (1901) 23 Ky. L. Rep. 340, 62 S. W. 1025.

[3] *Kansas City, Ft. S. & M. R. Co.* v. *Becker* (1899) 67 Ark. 1, 46 L. R. A. 814, 77 Am. St. Rep. 78, 53 S. W. 406.

[4] In the case referred to it was held that, where a servant of a railroad company operating lines in North Carolina was injured in Tennessee by the negligence of a fellow servant, the courts of the former state had jurisdiction of the action, and that the fellow servant act of 1897 of that state applied to it, making the railroad company liable. *Williams* v. *Southern R. Co.* (1901) 128 N. C. 286, 38 S. E. 893.

judgment for plaintiff in an action for personal injuries, w
was removed from a state to a Federal court, was reversed, an
cause remanded for new trial on the ground that the injury
caused by the act of a fellow servant, but before the second tria
plaintiff took a nonsuit and then instituted an action in an
county of the same state as that in which the original one was bro
the judgment rendered on the appeal was held not to be the la
the case in the second action.[1]

851. Matters not open for argument by counsel.—In an action
injuries alleged to have been caused by the negligent method of
adopted by defendant's foreman, where the plaintiff's counsel
stated in his opening that he made no question of the foreman's
petency, and no evidence has been put in tending to show tha
foreman was incompetent, except such inferences as might be d
from the manner in which the work was done, and there was no
dence of any want of care on the part of the defendant in empl
the foreman, plaintiff's counsel is properly prevented from arg
at the trial that the foreman wa incompetent, and that the defe
knew his incompetency, or with due care might have known it
that the injury in suit resulted from that incompetency.[1]

852. Questions not open for consideration on appeal.— In the
joined note are cited a few decisions in which courts of review
refused to consider the point raised, for the reason that it was
presented on the appeal.[1]

[1] *Illinois C. R. Co.* v. *Bentz* (1902) 108 Tenn. 670, 58 L. R. A. 690, 69 S. W. 317.

[1] *Summersell* v. *Fish* (1875) 117 Mass. 312.

[1] Where both parties in an action for indemnity for an injury caused by an unblocked frog go to trial on the single question whether it was or was not blocked at the time of the accident, the defendant cannot take for the first time on appeal the point that the case should have been tried upon the theory that the defendant, if it had once blocked the frog, incurred no liability by reason of its subsequent displacement, unless it had actual or constructive notice of such displacement. *Union P. R. Co.* v. *James* (1896) 163 U. S. 485, 41 L. ed. 236, 16 Sup. Ct. Rep. 1109.

Questions of fact which have been settled at a trial term to furnish a basis for the determination of the legal questions involved in the case are not open for consideration by the appellate court. *Edwards* v. *Tilton Mills* (1901) 70 N. H. 574, 50 Atl. 102.

Where plaintiff was injured by ing and overexerting himself in at ing to lift a truck wheel out drainage hole in the floor of defen cotton mill, and there was no ment that the evidence did not s the verdict, a contention that pl in his stooping posture, while p the truck, because of pulleys ov and because of the poor light place, could not protect himself pr against the hole, will not be cons *Ferguson* v. *Phœnix Cotton* (1901) 106 Tenn. 236, 61 S. W.

After a trial on the merits, it late for the defendant to objec the question whether it had pl competent man in charge of the was not raised by the pleadings. a case comes under the rule that pleadings would have been amend course in the court below, the ment will be considered as havin made. *Trainor* v. *Philadelphia* Co. (1890) 127 Pa. 149, 20 Atl. 6

The point at a worktrain wh jured a trackman owing to its be

B. Pleading.

As to the pleadings in suits brought under the English employers' liability act of 1880, and the statutes modeled thereon, see §§ 737, 738, *ante*.

853. Scope of subtitle.—In the earlier sections of this treatise the sufficiency of the pleadings with reference to various specific groups of facts has been discussed in connection with the doctrines within the purview of which those facts were deemed to fall. (See especially §§ 562, 592, *ante*.) In the present subtitle it is proposed to collect the cases which illustrate those general rules of pleading which are independent of the particular circumstances involved.

The judicial conflict with respect to some important points is no doubt due in a great measure to the fact that the rules of pleading applied by the different courts vary considerably in regard to strictness. Under these circumstances the propriety of following any given decision will depend primarily upon whether the system of pleading adopted in the state in which the court sits which is invited to defer to the authority of that decision is substantially similar to the system with reference to which it was rendered. But the cases even in the same jurisdiction are often strangely inconsistent.

854. Complaint; sufficiency, generally.— In order to withstand a demurrer a complaint must allege facts which, if true, show that the master was guilty of a breach of duty as regards the injured servant, and that the injury resulted from that breach of duty.[1] If such facts

without lights was run in accordance with the regulations of the company, and that the injury was therefore the act of the company, cannot be taken on appeal, unless it was suggested to the trial court. *Coon* v. *Syracuse & U. R. Co.* (1851) 5 N. Y. 492.

See also § 855, note 4, and § 856, note 8, *infra*.

[1] A declaration is sufficient which alleges a contract creating a duty, facts showing prima facie a breach of contract, injury therefrom, and damage by reason of the injury. *Eagle & P. Mfg. Co.* v. *Welch* (1878) 61 Ga. 411.

A complaint which charges that the injury resulted from the failure of the employer to discharge its duty to its employees by neglecting to provide rules for signals to engineers of switch engines in a yard where there are many tracks, and where two or more engines are employed near each other at night, and also avers that the signals used were the same for all engines, and that plaintiff's intestate was killed in consequence of the engineer of the engine with which he was working misteking a signal intended for another engineer, states a good cause of action. *Louisville & N. R. Co.* v. *York* (1900) 128 Ala. 305, 30 So. 676.

An allegation that a railroad company negligently permitted an iron pin to be and to remain on a tender in such a manner that the movement of the train threw it off and injured the plaintiff is not insufficient for failure to allege that it was dangerous to carry the pin on the tender, or that it was left in an unsafe position, or where one might reasonably expect it would be thrown off. *Cleveland, C. C. & St. L. R. Co.* v. [illegible] (1899) 152 Ind. 607, 46 L. R. A. 33, 53 N. E. 415.

Where the gist of the action is a breach of the duty to give warning, the absence of an allegation that the plain-

tiff was inexperienced is not fatal to the sufficiency of the complaint, where it is alleged that the plaintiff was not acquainted with the danger of doing the work in the manner in which he was doing it at the time of the accident; that defendant's foreman was present and knew of the danger, but ordered him to do the work without warning him thereof; and that he was not furnished with proper tools to do the work. *Hillsboro Oil Co.* v. *White* (1899; Tex. Civ. App.) 54 S. W. 432.

Where the injury is alleged to have resulted from the negligence of the defendant's general superintendent, it is not necessary to allege that the defendant was responsible for his negligence. *Woodson* v. *Wm. Johnston & Co.* (1899) 109 Ga. 454, 34 S. E. 587.

A complaint alleging facts from which a breach of the non-delegable duty to provide a reasonably safe place of work may be inferred is good. *Ft. Wayne* v. *Patterson* (1900) 25 Ind. App. 547, 58 N. E. 747 (neglect to shore up a trench); *Laporte* v. *Cook* (1897) 20 R. I. 261, 38 Atl. 700 (similar facts).

Such a complaint cannot be objected to on the ground that it does not specify the status of the employee who ordered the servant into the place where he was injured. *Foster* v. *Greeley* (1900) 15 Colo. App. 176, 61 Pac. 482.

The word "negligently" need not be used in the complaint, for the purpose of describing the quality of the act or omission charged, provided the facts alleged are such as import negligence. *Silveria* v. *Iverson* (1899) 125 Cal. 266, 57 Pac. 996.

An allegation that the injury was the direct result of the negligence of the defendants, and their carelessness and negligence in appointing an unsuitable employee by whom an engine was negligently managed, is a sufficient averment that the negligence of the defendants in not selecting a competent servant was the cause of all the grievances for which remuneration is sought in this suit. *Blake* v. *Maine C. R. Co.* (1879) 70 Me. 60, 35 Am. Rep. 297.

Where a declaration sufficiently states the duty of the defendant to warn plaintiff, its employee, of the danger of an explosion of "cinder taps" near which plaintiff was working, a further allegation that the defendant, by the exercise of due care, ought to have known that the cinder taps were liable to explode, is a charge of "knowledge" on defendant's part, and is not objectionable, as being merely a charge of "duty," and not a presentation of issuabl The purpose of such an alleg merely to charge the defendant knowledge out of which the duty arose. *Western Tube Co.* v. *P* (1901) 192 Ill. 113, 61 N. E. lirming (1900) 94 Ill. App. 640.

Indirect allegations that the of a defendant corporation whom suit has been brought "h in their duty in certain respe "had not taken the precautions tain the fitness of an employe placing him in charge of danger chinery," are insufficient to cha officers with liability, when it alleged what part, if any, said were called on to take in the within the scope of the duty upon them by virtue of their o wherein they had failed in the ance of such duty. *Henry* v. *ridge Lumber Co.* (1896) 48 950, 20 So. 221.

Allegations that a master to keep the rim of a machine in that the sections were l joints separated, and splints an projected above its surface, and juries resulted to a servant i quence of such rim being out o have been held insufficient to cause of action for negligen there is no allegation that the repair causing the injury was to which negligence was charg any act or omission of the mas ing the injury. *Lafayette Co* v. *Stafford* (1900) 25 Ind. App N. E. 944.

In *Riley* v. *Baxendale* (Hurl. & N. 445, 30 L. J. Ex 87, 9 Week. Rep. 347, a case under the older system of pl attempt was made to prevent th ant from demurring, and to pu a traverse of the fact, by allegi tract that "the defendants sh due and ordinary care not t the said J. R. to extraordinar and risk in the course of his ployment." A nonsuit on the of the case was held to be pr reasons thus explained by Po B.: "Generally speaking, a n cannot be turned into a cont great inconvenience would res were to permit it to be decla such. If the obligation had bee as a duty, the defendant mi demurred. But when it is all contract the defendant cannot because it is possible that there such a contract in point of fac

are set forth, it is not necessary to aver expressly that the defendant owed the servant a duty in the premises.[2] Nor is the plaintiff required to plead any other legal conclusion upon which his right of action is predicated.[3]

855. Sufficiency considered with relation to the doctrine of assumption of risks.— Where the risk from which the injury is alleged to have resulted was, so far as appears, an ordinary or an obvious one, the complaint is demurrable, unless it states some facts which, if proved, will remove the case from the operation of the rule which charges a servant with the assumption of such risks.[1]

855a. — with relation to the doctrine of coservice.— (See also § 854, note 3, *supra.*) A complaint which charges negligence directly upon the employer himself, and not upon the employees, is good on demurrer, although the defendant is a corporation, and this circumstance necessarily implies that the default alleged must have been that of an employee.[1] But a demurrer to the complaint should be sustained where the facts alleged show that the injury was caused by the negligence of a coemployee while acting in his capacity as a mere servant,[2] unless there is an averment that the master did not exercise

[1] *Sackewitz* v. *American Biscuit Mfg. Co.* (1899) 78 Mo. App. 144; *Ft. Wayne* v. *Christie* (1901) 156 Ind. 172, 59 N. E. 385 (complaint held good which alleged an injury caused by failure to shore a trench properly).

[2] Thus a declaration in an action for injuries alleged to have been caused by the negligence of a coemployee need not deny that they were not fellow servants, where the facts showing their relation are set out therein. *Chicago & A. R. Co.* v. *Swan* (1898) 176 Ill. 424, 52 N. E. 916. Affirming (1897) 70 Ill. App. 331; *Chicago City R. Co.* v. *Leach* (1898) 80 Ill. App. 354.

A declaration in an action against a railroad company for an injury to the plaintiff's eyes by a fragment of steel struck off by him in working on an engine with a cold chisel is fatally defective if it fails to aver any fact tending to show that he was not rightfully put at the particular work, or that the cutting of steel with a cold chisel was not such work as an employee of the plaintiff's age and experience might be employed at. *Whitelaw* v. *Memphis & C. R. Co.* (1886) 16 Lea, 391, 1 S. W. 37.

A complaint averring an injury caused by the servant's catching his foot in an unblocked guard rail is demurrable, where it does not allege that the servant was inexperienced when he entered the employment; nor that he was ignorant of the conditions at that time and afterwards; nor that he remained in the defendant's service relying upon a promise made by it to block its guard rails. *Missouri P. R. Co.* v. *Baxter* (1894) 42 Neb. 723, 60 N. W. 1044.

[1] *Turner* v. *Indianapolis* (1884) 96 Ind. 51, following *Ohio & M. R. Co.* v. *Collarn* (1881) 73 Ind. 261, 38 Am. Rep. 134.

[2] *Indiana, B. & W. R. Co.* v. *Bailey* (1886) 110 Ind. 75, 10 N. E. 631; *Madison & I. R. Co.* v. *Baron* (1855) 6 Ind. 205; *Laporte* v. *Cook* (1897) 20 R. I. 261, 28 Atl. 700.

In *Indianapolis & St. L. R. Co.* v. *Johnson* (1885) 102 Ind. 352, 26 N. E. 200, it was contended that from specific allegations showing that the injury was due to negligence in loading cars, no inference arose that they were loaded by his fellow servants, the argument being that, because it was averred in the complaint "that said defendant suffered, permitted, and directed said bent and crooked iron rails to be placed on and projecting over the end of said car last named," etc., it might as well be inferred that this was done by the chief agents and officers of the railroad company as by a fellow servant. The court said:

ordinary care and prudence in the employment of such fell vant, or had retained him in his service after receiving notice was negligent in the discharge of his duties.[3]

It has been held, however, that, if a defendant makes no ob to the sufficiency of the complaint on the ground of its averring injury inflicted by the negligence of a coservant, and simply den knowledge of defects in the appliance which was the immediate of the injury, and permits the introduction of evidence that chargeable with such knowledge, the complaint will, after a for the plaintiff, be considered as having been amended so as form to this proof.[4]

"The infirmity of counsel's position is that they would determine whether the persons who loaded the cars were fellow servants or not by the office they held, and not by the work in which they were at the time engaged. One who loads the cars of a railroad company is, while so engaged, a fellow servant with the brakeman who goes upon the train in which such loaded cars are afterwards placed; and it makes no difference what official designation of agency may be applied to him. There are certain duties which pertain to the position of master, and whoever performs them is, for the time being, in the master's place. There is also certain work which pertains to the duty of employee or servant, and whoever else beside the master does this is, while so engaged, a fellow servant with any other employee who is in the same general employment. Courts know judicially that loading railroad iron on flat cars pertains to the service of an employee; and when it is averred that one servant was injured in consequence of the negligent manner in which such loading was performed by the defendant, the presumption arises that such injury was the result of the negligence of a fellow servant. This is so because a railroad corporation must of necessity employ servants to load its cars. To say that the servant who loaded the cars was also the chief agent and officer of the railroad company, without more, would in no manner change the situation. Regardless of his agency or office in other respects, if he was also properly engaged in loading cars, he was at that time a fellow servant with all others in like service."

A complaint is demurrable which alleges in substance that the plaintiff, a brakeman, was injured by a derailment due to the defendant's having allowed a train to attain a dangerous rate of speed. The intendment is that injury must have been caused negligence of the employees o the train. *Sherman* v. *Roche R. Co.* (1853) 15 Barb. 574.

An allegation that the d "threw or caused to be thrown whereby the plaintiff was inj equivalent to an allegati was thrown by a fellow plaintiff. *Di Marcho* v. *Eudd Foundry* (1893) 18 R. I. 514, 328, 28 Atl. 661.

Where the plaintiff seeks reco der a declaration setting forth injury was caused by an emp the defendant, who is directly not to have been in the same li ployment as the plaintiff, an shown that the plaintiff was em a certain kind of work, and wa by an accident of the kind tha ordinarily occur through the n of one in the same line of emp it is necessary for him to sh another servant in another lin ployment had caused the injury a way as to make the maste *Helfrich* v. *Williams* (1882) 553.

In West Virginia, if the ascribed in the complaint di the defendant, it is not nece allege negligence of the maste ploying proper servants, to servant to recover for injur sioned by a coservant. *Un more & O. R. Co.* (1890) 34 W. 12 S. E. 512.

[3] *Lake Shore & M. S. R. Co.* v (1886) 108 Ind. 1, 8 N. E. 639 v. *Androscoggin R. Co.* (1873 465, 16 Am. Rep. 492; *Standar Co.* v. *Minor* (1901) 27 Ind. 61 N. E. 684.

[4] *St. Louis, I. M. & S. R. Co.* v (1884) 44 Ark. 524.

A complaint alleging the discharge of such functions by the negligent servant as show him to be a vice principal is not demurrable.[5]

In an action against an employer for injuries resulting from a defect in the plant it is not necessary to allege that the injuries were not caused by the negligence of a fellow servant.[6]

856. Averment of the master's knowledge of the dangerous conditions.— *a. Generally.*—It is not open to question that a complaint, the essential effect of which is that the servant was exposed to an undue risk by the existence of certain abnormally unsafe conditions, and that those conditions were known, either actually or constructively to the master, is good against a demurrer,[1] unless the absence of such knowledge is a necessary inference from the facts specifically alleged.[2] But the courts are far from being unanimous as to the necessity of introducing an express averment, charging the master with knowledge.

[1] *Hathaway* v. *Des Moines* (1896) 97 Iowa, 333, 66 N. W. 188.

[2] *Louisville, E. & St. L. Consol. R. Co.* v. *Miller* (1895) 140 Ind. 685, 40 N. E. 116.

[3] This doctrine is taken for granted in all the cases cited under this section, and has been explicitly enunciated in the following cases: *McMullen* v. *Newhouse Coal Co.* (1896) 23 Sc. Sess. Cas. 4th series, 759; *Conrad* v. *Gray* (1895) 109 Ala. 130, 19 So. 398; *Ohio & M. R. Co.* v. *Heaton* (1891) 137 Ind. 1, 35 N. E. 687; *Baltimore & O. & C. R. Co.* v. *Rowan* (1885) 104 Ind. 88, 3 N. E. 627; *Miller* v. *Itasca Cotton Seed Oil Co.* (1897; Tex. Civ. App.) 41 S. W. 366.

An allegation that the defective condition of the instrumentalities was known to the master includes constructive knowledge. Hence a complaint containing such an allegation cannot be excepted to on the ground that it does not aver that the defendant's knowledge was acquired in time to enable him to make repairs. *Louisville, E. & St. L. Consol. R. Co.* v. *Miller* (1895) 140 Ind. 685, 40 N. E. 116; or on the ground that it does not sufficiently present the issue whether there had been a negligent failure to inspect the machinery. *Lake Erie & W. R. Co.* v. *McHenry* (1894) 10 Ind. App. 525, 37 N. E. 186.

[4] A complaint which shows on its face that the defect which caused the injury was latent is demurrable, although it also contains an allegation that the defendant had made a careful examination of the appliance in question. Such an allegation is not equivalent to one which expressly charges knowledge. *Hencke* v. *Ellis* (1901) 110 Wis. 532, 86 N. W. 171.

[5] *United Kingdom.*— The necessity for such an averment was explicitly affirmed in *Griffiths* v. *London & St. K's Docks Co.* (1884) L. R. 13 Q. B. Div. 259, 53 L. J. Q. B. N. S. 501, 51 L. T. N. S. 533, 33 Week. Rep. 35, 49 J. P. 100 (see § 857, note 2, *infra*); *Potts* v. *Plunkett* (1859) 9 Ir. C. L. Rep. 290; *Davies* v. *England* (1861) 10 Jur. N. S. 1235, 33 L. J. Q. B. N. S. 321. In the last cited case one of the counts alleged that the defendants, by representing slaughtered carcasses of cattle to be sound, caused and procured the plaintiff to cut up the same; that the beasts were unsound and diseased, whereby he contracted the disease, and was permanently injured. Held, that the count was bad. "It is consistent with the declaration," said Blackburn, J., "that the defendants may themselves have been cheated by the grazier from whom they purchased the beasts."

As there is no implied warranty that a vessel is seaworthy, a complaint is demurrable which alleges merely that a seaman was made sick through its leaky condition, and contains no averment that the owner knew in what state the vessel was. *Couch* v. *Steel* (1854) 3 El. & Bl. 402, 2 C. L. Rep. 940, 23 L. J. Q. B. N. S. 121, 18 Jur. 515.

A declaration in an action for injuries received by a servant in executing certain work outside of the scope of his employment is insufficient where it

b. Doctrine that knowledge must be expressly charged.—T
trine embodied in a considerable number of decisions is that
plaint is bad unless it contains an averment of knowledge on t
ter's part,[3] or (according to some authorities), unless it alleg
which are of such a nature as to raise the presumption that
such knowledge.[4]

merely alleges that the defendants required the plaintiff to do that work, well knowing at the time that the plaintiff was unfit for such duty, and contains no averment that the defendants knew there was danger in the work, or even that the work was dangerous. *Smyly* v. *Glasgow & L. Steam Packet Co.* (1868) 16 Week. Rep. 483.

An averment of knowledge was contained in the declarations in the following cases: *Tarrant* v. *Webb* (1856) 18 C. B. 797, 25 L. J. C. P. N. S. 261; *Roberts* v. *Smith* (1857) 2 Hurlst. & N. 213, 26 L. J. Exch. N. S. 319, 3 Jur. N. S. 469; *Williams* v. *Clough* (1858) 3 Hurlst. & N. 258, 27 L. J. Exch. N. S. 325; *Brown* v. *Accrington Cotton Spinning & Mfg. Co.* (1865) 3 Hurlst. & C. 511, 34 L. J. Exch. N. S. 208, 13 L. T. N. S. 94; *Mellors* v. *Shaw* (1861) 1 Best & S. 437, 30 L. J. Q. B. N. S. 333, 7 Jur. N. S. 845, 9 Week. Rep. 748; *Hall* v. *Johnson* (1865) 3 Hurlst. & C. 589, 34 L. J. Exch. N. S. 222, 11 Jur. N. S. 180, 11 L. T. N. S. 779, 13 Week. Virginia.—A count averring eral terms that the defendant provide a suitable appliance, "b of which careless act of the de the plaintiff was injured, is de as alleging neither that the d failed to exercise ordinary car viding a suitable appliance, nor alleged defects were known or have been known to him. *Norf R. Co.* v. *Jackson* (1888) 85 8 S. E. 370.

Wisconsin.—*Heneke* v. *Ellis* 110 Wis. 532, 86 N. W. 171. ever, note 7, *infra*.

[4] *Pennsylvania Co.* v. *Sear*

A necessary result of the doctrine is that a general allegation of negligence is not enough to render a complaint proof against a demurrer.[5] The omission of an express averment of knowledge, however, is not fatal, where it is charged by one of the allegations that the defect in question would have been known to the defendant if he had exercised proper care,[6] or where there is an explicit averment that he failed to perform his duty with respect to the examination of the defective appliance.[7] Nor is the absence of such an averment a sufficient ground for arresting the judgment after a trial on the merits, in which evidence showing that the defendant had notice of the defect in question was admitted without any objection on his part.[8]

c. Doctrine that an express allegation of knowledge is not necessary.—In other decisions the doctrine is adopted that the want of a specific averment that the master had notice of the defect in question does not

136 Ind. 460, 34 N. E. 15, 36 N. E. 353 (where the complaint was of the negligent maintenance of a low overhead bridge without any "telltales" to warn the trainmen).

In another Indiana case it was held that as the place at which the servant was directed to deposit hot slag was covered with water, it will be presumed, as against a demurrer, that this fact was known to the defendant. *New Albany Forge & Rolling Mill* v. *Cooper* (1892) 131 Ind. 363, 30 N. E. 294.

In Tennessee the doctrine has been propounded that the rule requiring knowledge to be averred is applicable only where the defect is latent and not discernible by ordinary observation, or by the application of the usual and approved tests, and that the complaint is good against a demurrer if the defects alleged were of such a character that the defendant was bound to take notice of them. *Morriss Bros.* v. *Bowers* (1900) 105 Tenn. 59, 58 S. W. 328.

[5] *Creamery Package Mfg. Co.* v. *Hotzepiller* (1900) 24 Ind. App. 122, 56 N. E. 250.

[6] A declaration is not demurrable which avers that such defects "would have been known to the defendants but for the want of all proper care and diligence on their part." *Noyes* v. *Smith* (1856) 28 Vt. 59, 65 Am. Dec. 222.

A general allegation of the master's knowledge of the defect is sufficient to include constructive as well as actual knowledge. *Louisville, E. & St. L. Consol. R. Co.* v. *Miller* (1895) 140 Ind. 685, 40 N. E. 116; *Lake Erie & W. R. Co.* v. *Mellenry* (1894) 10 Ind. App. 525, 37 N. E. 186.

[7] In *Wedgwood* v. *Chicago & N. W. R. Co.* (1877) 41 Wis. 478, the complaint was demurred to on the ground that it did not contain any allegation that the master had notice of the defect which caused the injury. But the court held the complaint sufficient, saying: "It is charged that the company carelessly and negligently omitted the usual and proper inspection of the car, or improperly inspected it, and also allowed the projecting bolt at the end of the car to remain without being cut off. The plaintiff was wholly unaware of the dangerous position of this bolt, and, while performing his duty, was thrown down by it and injured. These facts would seem to bring the case within the rule which imposes liability on the master for an injury to the servant occasioned by a defect in machinery furnished the servant to operate, where the master has been guilty of negligence in furnishing such machinery, or, knowing of a defect therein, fails to notify the servant of its existence. It is true, the defendant in the present case is a railroad corporation, and can only act through officers or agents. But this does not relieve it from responsibility for the negligence of its officers and agents whose duty it is to provide safe and suitable machinery for its road which its employees are to operate." See, however, note 2, *supra*.

[8] *Davis* v. *Central Vermont R. Co.* (1882) 55 Vt. 84, 45 Am. Rep. 590, approving the admission of such evidence.

render the complaint demurrable, if there is a general alleg
negligence, or of facts which show prima facie that he was
negligence.[9] The theory that a specific allegation that the d
knew of the defect which caused the servant's injury is not

[9] *Federal Courts.*—An allegation of the master's knowledge of the incompetence of a seaman placed in charge of a winch, upon sending the experienced winchman to attend to other duties, is unnecessary in a libel for injuries caused to a stevedore by such incompetence, where the facts showing the neglect of duty on the part of officers of the vessel to provide a competent winchman are clearly stated. *The Annies* (1899) 34 C. C. A. 558, 93 Fed. 240, Reversing (1898) 87 Fed. 565.

In *Halverson* v. *Nixen* (1876) 3 Sawy. 562, Fed. Cas. No. 5,970, the court referred to the ruling in the English case of *Couch* v. *Steel* (1854) 3 El. & Bl. 402, 2 C. L. Rep. 940, 23 L. J. Q. B. N. S. 121, 18 Jur. 515, note 3, *supra*, and expressed a doubt whether the allegation there held bad, viz., that "the owner so negligently, improperly, and insufficiently equipped and fitted said ship, that she was unseaworthy and unfit for the voyage," was not a sufficient averment of actual negligence or want of due care on his part.

Illinois.—*Chicago & E. I. R. Co.* v. *Hines* (1890) 132 Ill. 161, 23 N. E. 1021. See, however, note 3, *supra*.

Indiana.—A complaint which charges generally, that the defendant carelessly permitted its elevator to become dangerous, and to be and remain unfit for use, was held good, on the express ground that "a general allegation of negligence in the performance of, or in failing to perform, a duty which the law casts upon a defendant, resulting in injury to a plaintiff who is without fault, is sufficient to withstand a demurrer." *George H. Hammond & Co.* v. *Schweitzer* (1887) 112 Ind. 216, 13 N. E. 869.

In another case the court refused to sustain a demurrer to a complaint which, without alleging knowledge, averred that the defendant company had "negligently" allowed its road to get out of repair. *Pittsburgh, C. & St. L. R. Co.* v. *Adams* (1886) 105 Ind. 151, 5 N. E. 187.

In another case a complaint was upheld which simply averred that the defendant company "negligently used" in its business a defective brake, and did not specifically allege knowled
defect. *Ohio & M. R. Co.*
(1891) 128 Ind. 197, 27 N. E.

made on the ground that th
to the complaint was one wh
form rather than to substan

Missouri.—An allegation t
fendant negligently furnish
ance which was defective an

where the duty to keep the instrumentality free from defects, and the breach of that duty, are averred, has been declared by one court from the general principle that the law charges every accountable person with a knowledge of his duty, and of what he has or has not done. The position taken is that a complaint which sets out the master's duty and its nonfulfilment must, in this point of view, be regarded as embracing, by implication, an allegation that he knew

equivalent to an averment that the defendant had notice of the defect in question. *Crane* v. *Missouri P. R. Co.* (1885) 87 Mo. 588. The court said: "To sustain the allegation in the petition that defendant negligently furnished a car that was defective and unsafe, the plaintiff would be required to prove the fact that the car was unsafe; and, also, the fact that defendant either knew, or by ordinary care might have known, of the defect, because without such proof the charge of negligence would be unsustained. The charge that defendant negligently furnished a defective and unsafe car, stating wherein it was defective, is as broad as if the charge had been that the defendant furnished such car, which it either knew, or might have known by due care, was defective and unsafe. In either case he would have to make the same proof." This case was followed in *Johnson* v. *Missouri P. R. Co.* (1888) 96 Mo. 340, 9 Am. St. Rep. 351, 9 S. W. 790.

In another case this court, commenting on the fact that the charge in the complaint was not that a certain handhold on a car was out of repair, but that it was "defectively constructed in this: that it was not fastened to the brakestaff securely," said that the plain meaning of this allegation was that the defect was one of design, and that, as this was the cause of action alleged, it was not necessary to state that the company negligently or carelessly adopted the brake, or continued to use it after ascertaining its unfitness. *Current* v. *Missouri P. R. Co.* (1885) 86 Mo. 62.

A petition which alleges that defendant, a railroad company, negligently and carelessly permitted a loose iron rail to remain upon the path alongside the track used by switchmen in the necessary discharge of their duties, is not defective by reason of the omission to allege that defendant had knowledge, or by ordinary attention to its duties would have known, that the rail lay upon the path. The omitted statement is substantially contained in the allegation made. *Hall* v. *Missouri P. R. Co.* (1881) 74 Mo. 298.

Those cases are in conflict with the decision of the court of appeals cited in note 3, *supra*.

Nebraska.—*Chicago, B. & Q. R. Co.* v. *Kellogg* (1898) 55 Neb. 748, 76 N. W. 462. Modifying on Rehearing (1898) 54 Neb. 127, 74 N. W. 451.

South Carolina.—It has been held that in an action to recover damages for an injury done by a master to his servant, an allegation that the injury was sustained by reason of neglect of duty on the master's part in furnishing proper machinery for the work required of the servant is not insufficient in failing to allege further that the master knew of the defect in the machinery; as want of knowledge, through no absence of due diligence in acquiring it, is a matter of defense, and therefore need not be set forth as a part of plaintiff's cause of action. *Branch* v. *Port Royal & W. C. R. Co.* (1892) 35 S. C. 195, 14 S. E. 808. The court said: "We think, therefore, that knowledge on the part of the defendant company in this case of the defect in the machinery, by reason of which the injury complained of was sustained, constitutes no part of the plaintiff's cause of action, but is a matter of defense. Indeed, to hold otherwise would, as it seems to us, in violation of the well settled rule as to the degree of negligence which would make the master liable to his servant, require a much higher degree of negligence; for where a master knowingly furnishes his servant with machinery so defective as to be unsafe, he displays such a reckless disregard of human life, that his conduct could not properly be characterized as exhibiting anything less than the grossest negligence. If, therefore, knowledge on the part of the master of the defect in the machinery constitutes an essential element in the cause of action, then it follows that the only degree of negligence for which a master could be held liable for an in-

what his obligation was in the premises, and his own failure
what was incumbent upon him by reason of that obligation.[10]

857. Averment of the servant's ignorance of the dangerous cond

—*a. Generally.*—That a complaint is good which, in addition
averments discussed in the beginning of the preceding section
tains an express allegation that the servant had no notice
danger in question, is not disputed.[1] But the question whethe
necessary to introduce such an allegation in order to render th
plaint proof against a demurrer has received different answ
different courts.

b. Doctrine that a complaint not containing an averment of
ance is bad.—One view is that the statement of claim is not
against a demurrer unless it contains an averment that the
which caused the accident was not known to the injured ser

jury sustained by his servant by reason of a defect in the machinery with which he is furnished to do the work for which he is employed, would be the grossest negligence; but if it is held, as we do hold, that want of knowledge on the part of the master is a matter of defense, which, if shown, may excuse the failure to perform an acknowledged duty, then no such consequence follows, and the well settled rule of ordinary negligence may be applied."

West Virginia.—*Hoffman* v. *Dickinson* (1888) 31 W. Va. 142, 6 S. E. 53.

[10] *Chicago & E. I. R. Co.* v. *Hines* (1890) 132 Ill. 161, 22 Am. St. Rep. 515, 23 N. E. 1021.

[1] Specific authority as to the elementary proposition is scarcely needed. But see *Conrad* v. *Gray* (1895) 109 Ala. 130, 19 So. 398; *Cummings* v. *Collins* (1876) 61 Mo. 520; *Miller* v. *Itasca Cotton Seed Oil Co.* (1897; Tex. Civ. App.) 41 S. W. 366.

[2] *England.*—In *Griffiths* v. *London & St. K. Docks Co.* (1884) L. R. 13 Q. B. Div. 259, 53 L. J. Q. B. N. S. 504, 51 L. T. N. S. 533, 33 Week. Rep. 35, 49 J. P. 100. Affirming L. R. 12 Q. B. Div. 493, and Approving *Williams* v. *Clough* (1858) 3 Hurlst. & N. 258, 27 L. J. Exch. N. S. 325, as a whole, but not expressing any opinion as to the suggestion of Bramwell, B., that the declaration ought to have gone further and shown that the servant had not the means of knowing the danger, it was said by Bowen, L. J.: "The old form of declaration used to show that the danger which caused the accident was known to the master and unknown to the servant. Both these allegati
material, because without them t
no cause of action, and unless
proved at the trial directly,
there were facts from which it
inferred, that the servant was
of the danger, he would be non

In the same case also it was re
by Brett, M. R.: "The ques
whether a prima facie cause of
is shown in the statement of
this action. Now where it is a
by a servant against his master
wrongful condition of machinery
premises on which the servant is
or of the condition of the
which the services of the servant
be fulfilled, if the servant confi
allegations in his statement of
alleging the existence of danger
of these things owing to the n
of the master, he shows no caus
tion. That was decided many y
by *Priestley* v. *Fowler* (1837) 3
W. I. Murph. & H. 305, 1 Jur
L. J. Exch. N. S. 42. If the d
one which was known to the m
not to the servant, the knowled
master and the want of knowled
servant make together a cause o
and as it is necessary that th
things should exist in order to
prima facie cause of action, it i
sary that they should be shown
in the statement of claim."

The same doctrine is tak
granted in *Williams* v. *Clough*
Hurlst. & N. 258, 27 L. J. Ex
325, the special point there de
ing stated in note 3, *infra*.

Federal Courts.—*Dunmead* v

or (according to some authorities), states facts which raise a prima facie presumption of ignorance on his part.[3]

The better opinion seems to be that under this doctrine a com-

can Min. & Smelting Co. (1882) 4 McCrary 244, 12 Fed. 847.

Illinois.—A plaintiff must aver his want of knowledge if he intends to rely upon it. *Kinnare* v. *Chicago* (1897) 70 Ill. App. 106. *Contra*, see cases cited in note 7, *infra*.

Indiana.—*Indiana, B. & W. R. Co.* v. *Dailey* (188[illegible] 110 Ind. 75, 10 N. E. 631; *Louisville, N. A. & C. R. Co.* v. *Sandford* (1888) 117 Ind. 265, 19 N. E. 770; *Louisville, N. A. & C. R. Co.* v. *Corps* (1890) 124 Ind. 427, 8 L. R. A. 636, 24 N. E. 1046; *Big Creek Stone Co.* v. *Wolf* (1894) 138 Ind. 496, 38 N. E. 52; *Lake Shore & M. S. R. Co.* v. *Stupak* (1886) 108 Ind. 1, 8 N. E. 630; *Spencer* v. *Ohio & M. R. Co.* (1892) 130 Ind. 181, 29 N. E. 915; *Cleveland, C. C. & St. L. R. Co.* v. *Parker* (1900) 154 Ind. 153, 56 N. E. 86; *Lafayette Carpet Co.* v. *Stafford* (1900) 25 Ind. App. 187, 57 N. E. 944; *Chicago & A. E. R. Co.* v. *Wogner* (1896) 17 Ind. App. 22, 45 N. E. 76, 1121; *Pennsylvania Co.* v. *Witte* (1896) 15 Ind. App. 583, 43 N. E. 319, 44 N. E. 377; *Standard Cement Co.* v. *Minor* (1901) 27 Ind. App. 479, 61 N. E. 684.

In view of the above decisions it is clear that the ruling to the opposite effect in *Indianapolis & C. R. Co.* v. *Klein* (1858) 11 Ind. 38, is no longer good law in this state.

Kentucky.—*Bogenschutz* v. *Smith* (1886) 84 Ky. 330, 1 S. W. 578 (citing *Griffiths* v. *London & St. K. Docks Co.* [1884] L. R. 13 Q. B. Div. 259, 53 L. J. Q. B. N. S. 504, 51 L. T. N. S. 533, 33 Week. Rep. 35, 49 J. P. 100). Later decisions to a contrary effect are cited in note 7, *infra*.

Maine.—*Buzzell* v. *Laconia Mfg. Co.* (1861) 48 Me. 113, 77 Am. Dec. 212.

Nebraska.—A petition which does not aver that the servant was excusably ignorant of the danger which resulted in the injury does not state a cause of action. *Missouri P. R. Co.* v. *Baxter* (1891) 42 Neb. 793, 60 N. W. 1044.

Ohio.—*Mad River & L. E. R. Co.* v. *Barber* (1856) 5 Ohio St. 541, 67 Am. Dec. 312.

The servant must either aver his want of knowledge of the defect which caused the injury, or that, having such knowledge, he informed the master, and continued in the employment upon a promise, express or implied, to remedy the defect. *Chicago & O. Coal & Car Co.* v. *Norman* (1892) 49 Ohio St. 598, 32 N. E. 857.

Tennessee.—In *Morriss Bros.* v. *Bowers* (1900) 105 Tenn. 59, 58 S. W. 328, the trial court sustained a demurrer based on the ground that the servant's ignorance was not averred. This ruling was not referred to by the supreme court.

Vermont.—In *Brainard* v. *Van Dyke* (1899) 71 Vt. 359, 45 Atl. 758, a complaint was held bad on the ground that the servant's knowledge was not expressly negatived, although there is an express averment that he was not "notified of" the danger. But the reasonable inference surely is that the pleader here used the words "notified of" in their colloquial, though incorrect sense, as being equivalent to "know." The case scarcely seems to be one for a formal demurrer, though it may be that a motion to make the complaint more definite would have been properly granted.

Virginia.—In one case this court sustained a demurrer to a complaint based on the ground that the knowledge of the servant was not negatived therein. *Norfolk & W. R. Co.* v. *Jackson* (1888) 85 Va. 489, 8 S. E. 370. But there is a later ruling to a contrary effect. See note 7, *infra*.

[3] An allegation to the effect that the injury was received while the servant was in the performance of new work is sufficient, as being an implied averment of want of knowledge. *Clark County Cement Co.* v. *Wright* (1897) 16 Ind. App. 630, 45 N. E. 817.

The want of an averment by the plaintiff, that at the time he entered the service he had no knowledge of the negligent habits of the fellow servant through whose negligence he was injured, is not cured by an allegation that the plaintiff was "wholly unacquainted" with the fellow servant when he took the employment. *Lake Shore & M. S. R. Co.* v. *Stupak* (1886) 108 Ind. 1, 8 N. E. 630.

An averment that the master failed to inform the servant of the condition of an appliance is not a sufficient allegation of the servant's want of knowledge. Such an averment is quite consistent with his having been apprised of it by

plaint which alleges that the injured servant did not know tha appliance which caused his injury was unsafe is sufficient, wit an additional averment to the effect that he had no notice of tha safety,[4] and that it is not necessary to aver specifically that he no means or opportunity to know the condition of the defectiv strumentality, or that he could not have known of it by the u ordinary care.[5] But there is some authority for a stricter theor

c. Doctrine that a complaint not containing an averment of i ance is good.—Another view is that the servant's knowledge an

some other person, or his having learned it by observation and experience. *Becker* v. *Baumgartner* (1892) 5 Ind. App. 576, 32 N. E. 786.

[4] *Williams* v. *Clough* (1858) 3 Hurlst. & N. 258, 27 L. J. Exch. N. S. 325.

[5] See cases cited in § 410, *ante*, and also *Ohio & M. R. Co.* v. *Pearey* (1891) 128 Ind. 197, 27 N. E. 479; *Evansville & T. H. R. Co.* v. *Ibel* (1893) 134 Ind. 156, 33 N. E. 356; *Heltonville Mfg. Co.* v. *Fields* (1894) 138 Ind. 58, 36 N. E. 529; *Louisville, N. A. & C. R. Co.* v. *Breedlove* (1894) 10 Ind. App. 6[illegible]38 N. E. 357; *Consolidated Stone C[illegible]v. Williams* (1900) 26 Ind. App. [illegible]4 Am. St. Rep. 278, 57 N. E. 558; *[illegible] & E. I. R. Co.* v. *Richards* ([illegible]) .8 Ind. App. 46, 61 N. E. 18; *Pe[illegible]a Co.* v. *Witte* (1896) 15 Ind. A[illegible]), 43 N. E. 319, 44 N. E. 377. The above cited decisions of the Indiana supreme court do not refer to the ruling to the contrary effect which is mentioned in the next note, but they must be regarded as having impliedly overruled it.

A declaration of a baggage master, alleging substantially that it was his duty to preserve the safety of the passengers; that, after being notified that new wheels had been put under a car, and to look out for them, he heard a noise indicating they were hot, and, while looking out of a side door of the baggage car to see to their condition, he, without fault or negligence on his part, was struck by the spout of a tank, resulting from defendant's negligence in locating the spout; and that he did not know it was so near the track,—was held good on general demurrer, the court being of opinion that a special demurrer was necessary to bring up an objection to the complaint based on the fact that it did not allege that it was no part of the servant's duty to have known where the spout was located. *Atlanta & C. Air-Line R. Co.* v. *Woodruff* (1881) 66 Ga. 707.

A complaint is not demurrable ground that because it alleges a in a coupling apparatus to have "patent and open to the inspec the railway company if an exami of the same had been made," it the defect to have been one whic obvious to ordinary careful obser and consequently one which the tiff might have avoided by the e of due care. The words will b strued as meaning that the defe one which could have been easi covered in a careful examination company's inspectors. *Louisville & C. R. Co.* v. *Howell* (1896) 1 266, 45 N. E. 584.

[6] In *Williams* v. *Clough* (18 Hurlst. & N. 258, 27 L. J. Exch. 325, Bramwell, B., considered th declaration ought also to show t plaintiff had not the means of k of the unsafety. But, as already the other members of the court agree with him on this point.

In an Indiana case it was lai that, where the injury results f negligence of a fellow servant, th plaint should allege that the p did not know, or have the same of knowing, of the negligence skillfulness of such servant. *B. & W. R. Co.* v. *Dailey* (18 Ind. 75, 10 N. E. 631. One of thorities cited is *Lake Shore & Co.* v. *Stupak* (1886) 108 Ind. 1. 630. But that case only goes extent of requiring the servant tive actual knowledge. Another lied on is *Atlas Engine Works dall* (1884) 100 Ind. 293, 50 A 798. But this contains no r any point of pleading. On th hand, the later cases cited in t note show that, whatever may on been the doctrine in this state, of the servant's means of knowl now unnecessary.

deductions based thereon constitute matters of defense, and that it is for this reason unnecessary to negative such knowledge in the complaint.[7] Under this doctrine also it has been held that, if the existence of the defect was actually unknown, but should have been known, the fact that the servant had equal means of knowledge need not be negatived in the complaint.[8]

d. Effect of an averment that the servant was not negligent.—If the hypothesis could be entertained, for the purposes of any particular case, that the defense upon which the master had definitively elected to rely was contributory negligence, or if the theory were adopted

[7] *United Kingdom.*— In *Watling* v. *Oastler* (1871) L. R. 6 Exch. 73, 40 L. J. Exch. N. S. 43, 23 L. T. N. S. 815, 19 Week. Rep. 388, it was held, on grounds explained in the following subsection, that an averment of the plaintiff's ignorance was not necessary. A few years earlier the Irish court of exchequer had also expressed the opinion that there is no universal rule to the effect that the declaration in an action for injuries to a servant caused by the appliances with which the work is carried on must contain an averment that the plaintiff was ignorant of the danger. *Smyly* v. *Glasgow & L. Steam Packet Co.* (1868) Ir. Rep. 2 C. L. 24, 16 Week. Rep. 483. But in view of the English decisions cited in note 2, *supra*, these rulings cannot be regarded as embodying the authoritative doctrine.

California.— *Magee* v. *North Pacific Coast R. Co.* (1889) 78 Cal. 430, 12 Am. St. Rep. 69, 21 Pac. 114; *Robinson* v. *Western P. R. Co.* (1874) 48 Cal. 409; *McQuilken* v. *Central P. R. Co.* (1875) 50 Cal. 7.

Illinois.— The fact that the servant did not know the dangerous conditions which caused his injury is evidentiary in its nature, and therefore it need not be averred. *Consolidated Coal Co.* v. *Scheiber* (1896) 65 Ill. App. 304. *Contra*, see case cited in note 2, *supra*.

Kentucky.— *Southern R. Co.* v. *Durall* (1899) 21 Ky. L. Rep. 1153, 54 S. W. 741; *Chesapeake & N. R. Co.* v. *Venable* (1901) 23 Ky. L. Rep. 427, 63 S. W. 35. These decisions indicate an abandonment of the doctrine adopted in the earlier case cited in note 2, *supra*. But, as will be shown in the following subsection, they rest, in common with other decisions to the same effect, upon a theory as to the defenses open to the master which is not accepted by the majority of the courts.

Missouri.—*Ducrst* v. *St. Louis Stamping Co.* (1901) 163 Mo. 607, 63 S. W. 827; *Crane* v. *Missouri P. R. Co.* (1885) 87 Mo. 588; *Cummings* v. *Collins* (1876) 61 Mo. 520; *Fisher* v. *Central Lead Co.* (1900) 156 Mo. 479, 56 S. W. 1107, disapproving *dictum* to contrary effect in *Epperson* v. *Postal Teleg. Cable Co.* (1899) 155 Mo. 346, 50 S. W. 795, 55 S. W. 1050, and overruling *Thompson* v. *Chicago, R. I. & P. R. Co.* (1899) 2 Mo. App. Rep. 653.

The same rule of pleading is applicable in actions brought under Mo. Rev. Stat. 1889, § 7074, for injuries caused by the failure to furnish props in a mine. *Adams* v. *Kansas & T. Coal Co.* (1900) 85 Mo. App. 486.

Rhode Island.— The declaration in an action to recover for injuries sustained by plaintiff's intestate in the course of his employment need not allege that he was not fully informed as to his surroundings and the condition of the belting where he was required to work, and that he did not continue to work there without objection, and that he did not assume the risk of injury. *Lee* v. *Reliance Mills Co.* (1899) 21 R. I. 322, 43 Atl. 536.

South Carolina.—*Carter* v. *Oliver Oil Co.* (1890) 34 S. C. 211, 27 Am. St. Rep. 815, 13 S. E. 419; *Donahue* v. *Enterprise R. Co.* (1889) 32 S. C. 299, 17 Am. St. Rep. 854, 11 S. E. 95.

Virginia.— *Richmond Granite Co.* v. *Bailey* (1896) 92 Va. 554, 24 S. E. 232. The earlier ruling, cited in note 2, *supra*, is not referred to by the court, but is presumably superseded by this decision.

West Virginia.— *Hoffman* v. *Dickinson* (1888) 31 W. Va. 142, 6 S. E. 53.

Wisconsin.— *Hulchan* v. *Green Bay, W. & St. P. R. Co.* (1887) 68 Wis. 520, 32 S. W. 529; *Behm* v. *Armour* (1883) 58 Wis. 1, 15 N. W. 806.

[8] *Cummings* v. *Collins* (1876) 61 Mo. 520.

that this is the only defense which can be founded on the fact servant's knowledge of the risk, an averment that the injury v ceived without fault on his part might, it is evident, be pr taken as including by implication the allegation that he was ig of that risk. See, generally, §§ 119–121, 295, 319, 320, *ante*, hypothesis here suggested apparently underlies decisions by th lish Court of Exchequer,[9] and by the Kentucky court of app The theory thus indicated may perhaps be also regarded as th rationale of three decisions rendered in states where, althou defense of assumption of risks is recognized, the courts consider form of contributory negligence.[11] But neither the hypothe-

[9] In the case referred to the ruling was that a declaration stating that the defendant was owner of a factory and machine; that W. was employed by him to work therein, and in the course of his employment it was necessary for him to enter the machine to clean it; that by the negligence of the defendant it was unsafely constructed and in a defective condition, and was, by reason of not being sufficiently guarded, unfit to be used and entered, as the defendant well knew; and by reason of the premises, and also by reason, as he well knew, of no sufficient apparatus having been provided by him to protect W., it was suddenly put in motion while he was at work in the machine, and he thereby sustained injuries from which he afterwards died,—sufficiently shows that the machine was set in motion by the defendant's negligence, and therefore discloses a cause of action, although there is no allegation that W. was ignorant of the dangerous and defective character of the machine. *Watling* v. *Oastler* (1871) L. R. 6 Exch. 73, 23 L. T. N. S. 815, 19 Week. Rep. 388, 40 L. J. Exch. N. S. 43. The position taken was that the averment that the injury was caused "by reason of the negligence of the defendant" was equivalent to an averment under the older forms of pleading, that the injury was caused by the defendant's "mere" negligence. Virtually, therefore, the plaintiff was alleging himself to be free from contributory negligence, and such an allegation necessarily implied an assertion on his part that he was ignorant of the defect in question. The decision, therefore, is essentially one to the effect that the complaint was sufficiently definite with respect to the allegation that due care had been exercised by the servant, and that, as it virtually included such an allegation, the further conclusion followed that it virtually included also an allegatio norance on the servant's part. this is the rationale of the case i by the passage quoted in § 863, *infra*. See also the comment upon the ruling by Bowen, L. J. *Griffiths Case* (1884) L. R. 13 Q. 259, 53 L. J. Q. B. N. S. 504, 5 N. S. 533, 33 Week. Rep. 35, 4 100, referred to in note 2, *ante*.

[10] In one case it was laid do the plaintiff's ignorance of the need not be specifically alleged. dence tending to show such igno competent under the plea of c tory negligence. *Southern R. Durall* (1899) 21 Ky. L. Rep. S. W. 535.

In another it was held tha brakeman, who is suing for caused by a defective roadbed, der no duty, and had no oppo to examine it, it was not neces him to aver or prove that he know of the existence of the *Chesapeake & N. R. Co.* v. (1901) 23 Ky. L. Rep. 427, 63 S

[11] In *La Salle* v. Kostka (19 Ill. 130, 60 N. E. alleg the exercise of c he was treated as an imp. a al that he was ignorant of the d question. (For the Illinois d see § 298a, *ante*, and sections to.)

In an earlier case this court h that, as the jury must have fo finding the defendant guilty, t deceased was not guilty of cont negligence, such an allegation v tainly sufficient on error, but frained from expressing an opi to whether it would have be against a demurrer. *Chicago Co.* v. *Hines* (1890) 132 Ill. 168, St. Rep. 515, 23 N. E. 1021.

In *Behm* v. Armour (1883) 5

the theory referred to at the beginning of this subsection is applicable or available under the doctrine which prevails in most jurisdictions, *viz.*, that evidence of a servant's having begun or continued work with a knowledge of a given risk will warrant, according to the point of view, either the inference that he assumed that risk, or that he was negligent. See § 306, *ante*. In Indiana and Ohio it has been held that a necessary corollary of this doctrine is that an allegation of freedom from contributory negligence does not adequately supply the place of an allegation of ignorance of the risk.[12] In Georgia a similar position has been taken, but the conclusion of the court was based upon a wholly different ground, *viz.*, that a complaint in which there is no specific averment of ignorance is not sufficiently definite.[13]

15 N. W. 806, the court considered itself bound, under the liberal rule which was followed in Wisconsin with regard to the construction of pleadings, to effectuate the pleader's intention by holding that a complaint averring freedom from contributory negligence sufficiently negatived any knowledge on the part of the plaintiff, or reasonable means of knowledge, that the appliance in question was an unsafe one. The reason thus assigned evidently does not go to the root of the matter. (For the Wisconsin doctrine as to the nature of the defense of assumption of risks, see § 310, note 7, *ante*.)

[11] *Louisville, N. A. & C. R. Co.* v. *Corps* (1890) 124 Ind. 429, 8 L. R. A. 636, 24 N. E. 1016, where the court pointed out that "it may be true that an employee exercises the utmost care, and yet be true that the risk assumed was an incident of the service in which he was engaged." This case was followed in *Kentucky & I. Bridge Co.* v. *Eastman* (1893) 7 Ind. App. 514, 34 N. E. 835; *Chicago & E. R. Co.* v. *Lee* (1897) 17 Ind. App. 215, 46 N. E. 513. In view of these rulings a recent decision of the Indiana court of appeals, to the effect that the plaintiff's knowledge need not be specifically alleged, where it is averred that he was free from fault, must be pronounced erroneous. *Summit Coal Co.* v. *Shaw* (1896) 16 Ind. App. 9, 44 N. E. 676.

In *Chicago & O. Coal & Car Co.* v. *Norman* (1892) 49 Ohio St. 598, 32 N. E. 857, the court thus stated its conclusion with regard to the contention that an averment that the roof of the mine in question fell and caused the death of plaintiff's decedent, "without fault on his part," included by implication an averment that the character of the roof of a mine and the insufficiency of its supports were unknown to the deceased: "After a careful consideration of the question, we are of the opinion that, both upon principle and authority, the demurrer should have been sustained. The deceased may at the time have been without any fault contributing to his injury,—may have been extremely careful,—and yet fully aware of the danger to which he was exposed from the insecurity of the roof of the mine; and a failure to communicate such fact to the employer is not a mere matter of defense that should be pleaded, but a defect in the ground on which his liability is asserted; that is to say, actionable negligence."

[12] "The allegation that the deceased was without fault is too general and too much in the nature of a legal conclusion to serve as a substitute for the proper allegation of his want of knowledge. If he was ignorant, that was a specific fact upon which issue could be taken; and if it was true, there could be no good reason why it was not alleged. The omission to allege it is better accounted for on the theory that it did not exist than on any other. Our law requires that the cause of action shall be 'plainly, fully, and distinctly' set forth; and the rule is that pleadings shall be taken most strongly against the pleader." *Allen* v. *Augusta Factory* (1888) 82 Ga. 76, 8 S. E. 63. As regards the special consideration upon which this ruling is based, it is noteworthy that the theory entertained by the court as to the necessary particularity of the allegations of a complaint is in direct antagonism to that of the

858. Averment of the servant's freedom from contributory n gence.—(See also § 857, subd. *d, supra.*) A complaint which, in tion to the averments discussed in the two preceding section cludes an allegation that the injured servant was free from gence, is unquestionably good against a demurrer.[1] But the au ties are conflicting as to the sufficiency of a complaint in which is no allegation to this effect.

One doctrine is that the complaint is demurrable unless it contains an express allegation that the servant did not contribu his injury by his own fault or negligence, or states facts from the absence of such fault or negligence is clearly apparent.[2]

On the other hand, several courts have adopted the rule that tributory negligence, being matter of defense, need not be nega in the complaint.[3]

English judges who decided the case cited in note 9, *supra*, and in § 863, note 1, *infra*.

[1] *Ohio & M. R. Co.* v. *Heaton* (1894) 137 Ind. 1, 35 N. E. 687; *George H. Hammond & Co.* v. *Schreiter* (1887) 112 Ind. 246, 13 N. E. 869; *Clark County Cement Co.* v. *Wright* (1897) 16 Ind. App. 630, 45 N. E. 817.

[2] *England.*—In *Watling* v. *Oastler* (1871) L. R. 6 Exch. 73, 40 L. J. Exch. N. S. 43, 23 L. T. N. S. 815, 19 Week. Rep. 388 (for actual point decided, see § 857, note 9, *supra*), the court seems to have proceeded on the theory that it was necessary to read into the complaint an implied allegation of freedom from contributory negligence. But the doctrine now prevailing in England that the onus of proving contributory negligence rests on the defendant (see § 842, *ante*), seems to involve, as a necessary corollary, the conclusion that the plaintiff is not bound to negative such negligence by an express averment.

Federal Courts.—*Dunmead* v. *American Min. & Smelting Co.* (1882) 4 McCrary, 244, 12 Fed. 847.

Indiana.—*Evansville & C. R. Co.* v. *Dexter* (1865) 24 Ind. 411.

An averment that the plaintiff was "without fault" is good as an averment negativing contributory negligence on his part. *Rogers* v. *Overton* (1882) 87 Ind. 410.

A complaint which shows that the accident happened without the fault of plaintiff is not demurrable for the reason that "it nowhere directly alleges that he did not himself contribute to the sickness, loss of time and labor, and paralysis for which he also claims ages." *Ohio & M. R. Co.* v. *N* (1880) 71 Ind. 271.

A complaint containing alleg which merely show freedom from gence up to a time which is sep by an appreciable interval fro actual moment of the accident is rable. *LaFayette Carpet Co.* v. *ford* (1900) 25 Ind. App. 187, 57 944.

The rule in this state is now c by Burns's Rev. Stat. (Ind.) 190 359a, by which it is provided t shall not be necessary for the p to allege or prove the want of co tory negligence, that such neg shall be a matter of defense, and may be proved under the answer eral denial. This act has been d to be constitutional. *Indi Street R. Co.* v. *Robinson* (190 Ind. 232, 61 N. E. 197.

Ohio.—*Mad River & L. E. R. Barber* (1856) 5 Ohio St. 541, Dec. 312.

[3] *Alabama.*—*Columbus & W. R. Bradford* (1888) 86 Ala. 574, 6 (action was under the employe bility act; see chapter XXXVII., *a*

California.—*Magee* v. *North Coast R. Co.* (1889) 78 Cal. 430, St. Rep. 69, 21 Pac. 114; *Robi Western P. R. Co.* (1874) 48 Ca *McQuilken* v. *Central P. R. Co.* 50 Cal. 7.

Georgia.—A petition in an act personal injuries to an employ though it contains allegations izing the inference that it was pl duty to have known and to h

859. Necessary correspondence between the allegata and probata — The conclusions which have been arrived at in dealing with the question whether there was or was not a variance under the given circumstances are indicated by the decisions of which the effect is stated below.[1]

moved the cause from which his injuries resulted, is good as against a general demurrer, where it affirmatively alleges that plaintiff was "wholly without fault," and that at the time of the injury he was attending to his duties, and was not aware of the danger to which he was exposed. *Blackstone* v. *Central R. Co.* (1898) 105 Ga. 380, 31 S. E. 90.

Illinois.—*Wabash, St. L. & P. R. Co.* v. *Shacklet* (1883) 105 Ill. 364, 44 Am. Rep. 791; *Chicago & N. W. R. Co.* v. *Coss* (1874) 73 Ill. 394; *Chicago & E. I. R. Co.* v. *Hines* (1889) 33 Ill. App. 271.

Mississippi.—*Buckner* v. *Richmond & D. R. Co.* (1895) 72 Miss. 873, 18 So. 449.

Missouri.— The doctrine applied by this court, and the reasons for adopting it, are shown by the following passage: "If the onus of proving contributory negligence or of knowledge on the part of plaintiff of defective machinery rests on the defendant, it would be a singular rule of pleading to require a plaintiff to aver negatively that he was not guilty of contributory negligence, or did not have knowledge of defective machinery, neither one of which he would be required to prove to make out his case, but which the defendant would be required to prove to make out his defense. The denial of a negative proposition is the affirmation of its opposite, and the general rule is that he who bases a right on an affirmative proposition must establish it." *Crane* v. *Missouri P. R. Co.* (1885) 87 Mo. 588.

This rule of pleading is also applicable to actions brought under Mo. Rev. Stat. 1889, § 7074, for injuries caused by the failure to furnish props in a mine. *Adams* v. *Kansas & T. Coal Co.* (1900) 85 Mo. App. 486.

Virginia.—*Norfolk & W. R. Co.* v. *Jackson* (1888) 85 Va. 489, 8 S. E. 370; *Richmond Granite Co.* v. *Bailey* (1896) 92 Va. 554, 24 S. E. 232.

Texas.—An allegation that the plaintiff did not know of the existence of the hole in the track which caused his injury, not having been informed of it, and his duties not having previously required him to perform any work at that particular place, is good on general demurrer. *San Antonio & A. P. R. Co.* v. *Parr* (1894: Tex. Civ. App.) 26 S. W. 861.

Wisconsin.—In an action under the act of 1893 (see chapter XXXIX., *ante*), it has been held that the insertion of the words "without contributory negligence on his part" do not change the common-law rule so as to make it necessary to plead the contributory negligence as a defense. *Andrews* v. *Chicago, M. & St. P. R. Co.* (1897) 96 Wis. 348, 71 N. W. 372.

[1](a) *Cases in which there was held to be a variance.*—An employee cannot recover for an injury on the ground that the machine was defective, in the absence of any allegation in his declaration that the injury resulted from such defects. *Eckles* v. *Norfolk & W. R. Co.* (1896) 96 Va. 69, 25 S. E. 545.

Recovery cannot be had on proof of any defects in a machine other than those which he has specifically alleged. *Arcade File Works* v. *Juteau* (1895) 15 Ind. App. 460, 40 N. E. 818, 44 N. E. 326; *Conrad* v. *Gray* (1896) 109 Ala. 130, 19 So. 398.

Where the negligence alleged is that boards were "uneven, unsound, rotten, unsafe, and defective," he cannot recover upon the theory that sound boards were not sufficiently strong, or that the ground where they were used was soft, so that a loaded truck, when being wheeled over the boards, depressed the ends, causing the load to fall on him. *Shanke* v. *United States Heater Co.* (1900) 125 Mich. 346, 84 N. W. 283.

Where the complaint contains an allegation that defendant negligently constructed a scaffold of insufficient strength to support the weight placed on it, this allegation being followed by a recital of the circumstances of the accident, in which it is alleged a board of insufficient strength, placed across an area, broke, and there is also another allegation that the scaffold was overloaded, and in consequence thereof it broke, and an averment, not specifying any defect in construction, but merely stating that there was negligence in the use of the scaffold, there can be recovery without proof that the board over the area broke.

860. Redundancy.—In a suit for injury from the master's
gence, only the negligence causing the mischief should be decla

Coates v. *Chapman* (1900) 195 Pa. 109, 45 Atl. 676.

Where the complaint specifies an injury caused by the defective construction of an appliance, the jury is properly informed that the plaintiff cannot recover upon evidence which tends to show that the injury was caused by the carelessness of a superior employee in preparing the appliance for use. *Drinkout* v. *Eagle Mach. Works* (1883) 90 Ind. 423.

Recovery cannot be had on the ground that incompetent servants were employed, if the declaration charges only the improper construction of the elevator which caused the injury, and its careless use and management. *Sell* v. *Charles Rietz & Bros. Lumber Co.* (1888) 70 Mich. 479, 38 N. W. 451.

Proof of failure of a railroad company to furnish an engineer with the necessary assistants to maintain a lookout to avoid accidents is a fatal variance from a petition which bases the charge of negligence on the employment of an incompetent engineer; and a general charge of negligence in the petition does not obviate the variance, where the petition after such general charge returns to the specific charge of incompetency and keys its general charge of negligence to the specific charge first made. *Missouri, K. & T. R. Co.* v. *Shockman* (1898) 59 Kan. 774, 52 Pac. 446.

Where a complaint specifies certain acts of negligence on the part of a designated employee, recovery cannot be had upon proof of the commission of other acts of negligence by another employee. *Thomas* v. *Louisville & N. R. Co.* (1896) 18 Ky. L. Rep. 164, 35 S. W. 910.

Under a declaration alleging an injury caused by certain negligent acts of a designated vice principal, a servant cannot recover either upon evidence which shows the breach of a general duty owed to him by the defendant, or upon evidence which indicates culpability on the part of some other employee whose negligence is not specifically alleged. *Chicago & E. I. R. Co.* v. *Driscoll* (1898) 176 Ill. 330, 52 N. E. 921, Reversing (1897) 70 Ill. App. 91.

There is a fatal variance where the petition sets forth that the plaintiff was injured through the negligence of the company in "using defective machinery," and "in running its cars," etc., and the evidence shows that the injury was caused by a broken rail. *Wa*

alone by the negligent act of
servant. *Olson* v. *St. Paul, M.*
Co. (1886) 34 Minn. 477, 26 N.

A declaration alleging that the defendant carelessly and negligently permitted a railroad track and a car to become and remain defective is sustained by evidence that they became and remained defective through his personal negligence in not discovering and remedying the defects, if he took upon himself that branch of the business. *Fifield v. Northern R. Co.* (1860) 42 N. H. 225.

Where a workman in the employ of a telegraph company is injured through a defective telegraph pole, the allegation of negligence is sustained by proving the danger from the defect in the pole, and that it was known to the defendants. *Byron v. New York State Printing Teleg. Co.* (1857) 26 Barb. 39.

There is no such variance as to work a surprise to the defendant, where the evidence in an action against a railway company showed that it was necessary for plaintiff, as brakeman, to climb up the ladder on the side of the cars, while in motion, and the petition alleged that it was necessary for him to ride back and forth on the ladder on the side of the cars. *Potter v. Detroit, G. H. & M. R. Co.* (1899) 122 Mich. 179, 81 N. W. 80, Reversed on rehearing in (1900) 122 Mich. 205, 82 N. W. 245, but not as regards this point.

In an action for injuries received by plaintiff while in defendant's employ in digging a shaft, where the complaint avers that, as a consequence of the careless manner in which the shaft was constructed, and the neglect of defendant in not planking or properly securing the sides thereof, without any fault on plaintiff's part, the sides of the shaft fell in upon him, and that defendant, "well knowing in the premises the danger of said shaft to those employed therein," negligently, etc., directed plaintiff to proceed to the bottom thereof and dig there, without advising him of the danger, etc., and the negligence shown by the proof (if any) is that defendant, being aware of the existence of a fissure in the side of the shaft (at a point where it caved in), neglected to inform plaintiff of it the cause of action proved is substantially alleged in the complaint, or, at the least, the variance is not such as to mislead the defendant, and may be disregarded. *Strahlendorf v. Rosenthal* (1872) 30 Wis. 674.

A complaint alleging that the derailment of an engine was occasioned by a spreading of the rails, and also that the derailment was caused by the company allowing the roadbed to become defective, in that the crown was not of sufficient width to support engines and trains, and that the ties were worn out and worthless, and that the rails were carelessly and only partially spiked, and that in consequence of said carelessness the wreck occurred,—does not restrict the plaintiff to proof of an injury caused by the spreading of the rails, *Texas & P. R. Co. v. McClane* (1900) 24 Tex. Civ. App. 321, 62 S. W. 565.

A declaration that the defendant knew of the unsafe conditions is supported sufficiently by evidence that he ought to have known of such conditions. *Mellors v. Shaw* (1861) 1 Best & S. 437, 30 L. J. Q. B. N. S. 333, 7 Jur. N. S. 845, 9 Week. Rep. 748, per Blackburn, J.

There is no material variance where the complaint, in an action for personal injuries received on an elevator, alleged that the operator suddenly and violently started the elevator upward with great force and rapidity, by reason of which plaintiff was unable to enter the same, and then carelessly and negligently stopped and suddenly lowered it a short distance, while the proof was that, after being stopped, it was again moved upward, not lowered, with great rapidity. *Nutzmann v. Germania L. Ins. Co.* (1901) 82 Minn. 116, 84 N. W. 730.

Where the complaint in an action for injury from an explosion of powder on the caboose of a construction train alleges that the engine was so defective and so carelessly managed that it emitted a large volume of dangerous sparks, and that [if defendant had exercised ordinary care in and about the construction and use of said engine, said sparks would not have been emitted, and the explosion would not have occurred], and it is also alleged that there was negligence in placing the powder in the caboose, and failing to warn plaintiff thereof, and failing to take proper precaution to keep it without the reach of sparks from the engine, the bracketed words represent merely the pleader's conclusion from the facts previously stated, and do not limit the proofs to the allegation that the engine was defective or carelessly managed. *Allend v. Spokane Falls & N. R. Co.* (1899) 21 Wash. 324, 58 Pac. 244.

In *Rush v. Spokane Falls & N. R. Co.* (1900) 23 Wash. 501, 63 Pac. 500, a case arising out of the same accident, a substantially similar ruling was made.

as there is always danger that redundant charges, if allowe proved, will lead to findings not based on the real charge.[1]

861. Duplicity.— A count is bad for duplicity where it alle eral distinct and independent breaches of duty. These all should each be made the subject of a separate count, if the p desires to rely thereon.[1]

862. Repugnancy.— To render a pleading bad on the groun pugnancy, the repugnancy must be such that proof of one facts pleaded as a basis of recovery will necessarily disprove state of facts which is also pleaded as such basis.[1]

863. Definiteness.— The standard of certainty and definit which a servant is obliged to conform in stating the facts o he relies as constituting a cause of action has been thus sta recent decision by one of the Federal courts of appeal: "A de is entitled to be apprised with reasonable particularity of against which he is called on to make defense, not only to surprise at the trial, but to obviate the labor and expense of ing himself against claims on which the plaintiff may have no of relying. At the same time, the right of a defendant to be i of the issue he is called on to meet is not to be so extended quire from the plaintiff such particularity of averment as not necessary to enable the defendant properly to prepare fense, may unduly burden the plaintiff, and needlessly him to the peril of a fatal variance at the trial."[1] The ma

"It is enough if there be co pleading to a common intent should presume all that we r can in order to sustain a d which substantially shows a duty in the defendant, alt terms may be somewhat an

which this general principle has been applied in relation to various showings of a fact is indicated by the cases cited below.[2]

Watling v. *Oastler* (1871) L. R. 6 Exch. 73, 40 L. J. Exch. N. S. 13, 23 L. T. N. S. 815, 19 Week. Rep. 388, per Kelly, C. B. (see further as to this case, § 857, note 9, *supra*).

[1](a) *Complaint held good.*—A complaint which alleges in substance that the accident was caused by the negligence of the master is sufficient on demurrer. If the master's case is that the act was not caused by his negligence, it will be for him to plead and prove the specific facts upon which he relies as evidence that he employed proper persons to keep the defective instrumentality in good repair. *M'Kinney* v. *Irish N. W. R. Co.* (1868; Exch. Ch.) Ir. Rep. 2 C. L. 600. There it was alleged that it was the duty of the defendant railway company to keep the railway and engines and carriages thereon in proper repair for the safe conveyance of the plaintiff's intestate, and that the defendant, not regarding its duty in that behalf, did not keep the railway, etc., in proper repair, whereby, and by reason of the negligence of the defendant, the injuries complained of occurred. The court (dissenting, Fitzgerald, B.) was of opinion that this declaration might fairly be construed to mean negligence in permitting the line and carriages to be out of repair; that it was open to the defendant to avail itself, by plea, of any proper defense in which proper issues should be settled; and that, if from the generality of the pleading the defendant was in any way embarrassed in this defense, the proper course was to apply to the court by motion.

Where the gravamen of the complaint is the failure to provide and enforce proper rules, it is not necessary to specify any particular rule which, in the plaintiff's view, should have been made. *Coughlin* v. *Blumenthal* (1899) 96 Fed. 920.

Where plaintiff in an action for injuries sustained while in defendant's employ by the slipping of a log from a dolly on which it was being carried alleges negligence of defendant in failing to furnish sufficient men to do the work with safety, it is not necessary to separately allege failure to block or fasten the log on the dolly, since that fact was only a circumstance rendering it necessary to furnish additional men. *Supple* v. *Agnew* (1901) 191 Ill. 439, 61 N. E. 392, Reversing (1898) 80 Ill. App. 437.

A declaration which alleged an undertaking on the part of the employer to furnish suitable powder for blasting purposes, and a breach of it by furnishing mixed powder, by which the risk was increased, unknown to the employee, whereby an explosion took place and said employee was injured, was held to be good on general demurrer. The court remarked that, if it was desired to rely on the failure to specify any particular elements in the mixture which rendered it unsafe, that was matter for special demurrer, if for demurrer of any kind. *Eagle & P. Mfg. Co.* v. *Welch* (1878) 61 Ga. 444.

An allegation in a declaration seeking to recover for causing the death of plaintiff's intestate while in the course of his employment, which alleges that the plaintiff's intestate was caught by the belt or shafting so that his left arm was drawn into said shafting or belt while the same were running, is sufficiently precise and definite as to the manner in which the plaintiff's intestate came in contact with the belt. *Lee* v. *Reliance Mills Co.* (1899) 21 R. I. 322, 43 Atl. 538.

Where the complaint in an action for injuries caused by the breaking of a defective rope which held back a saw alleges that the servant's duty required him to be "almost directly in front of the saw," a motion to require a more specific allegation as to where the servant was required to stand when operating the saw is properly denied. *Heltonville Mfg. Co.* v. *Fields* (1894) 138 Ind. 58, 36 N. E. 529.

Where injuries were alleged to have been received by a brakeman who, while climbing the side-ladder of a moving car, came into collision with a stationary car on the adjoining track, a demurrer based on the ground that it did not allege that he was at the top of the car when he was struck was overruled for the reason that the inclined position of the cars was sufficiently indicated by the words of the complaint. *Chicago & E. I. R. Co.* v. *Richards* (1901) 28 Ind. App. 46, 61 N. E. 18.

A declaration alleging that by reason of defendant's negligence in permitting the walls, roof, and supports of its mine to remain defective, and in knowingly

placing an incompetent and unskilful foreman in charge thereof, and in consequence of his lack of ordinary competency and skill in conducting the work after he knew, or should have known, that it had become dangerous, plaintiff's decedent, a laborer, known by defendants to be of insufficient mental capacity to appreciate obvious danger, was killed by a large quantity of water, mud, etc., being suddenly let into the portion of the mine in which he was at work, states the connection between the negligence alleged and the injury with sufficient clearness to enable the defendant to understand the case. *Dingee* v. *urue* (1900) 98 Va. 251, 35 S. E. 794.

Where the petition in an action for injuries resulting to an employee from the negligence of a general superintendent [illegible] employer alleges that they [illegible] while the plaintiff was [illegible] on the hold of a ship, and the place, and manner of the occurrence relied upon as the cause of action are [illegible] means of other allegations, sufficiently stated, it is not essential to specify the name of the ship nor the names of the plaintiff's colaborers. *Woodson* v. *Wm. Johnston & Co.* (1899) 109 Ga. 454, 34 S. E. 587.

A count charging the employer with liability by reason of the known incompetency of a servant is not demurrable on the ground that it does not set out the particulars of the incompetency. *Johnston* v. *Canadian P. R. Co.* (1892) 50 Fed. 886.

In an action for injuries caused by the defective condition of an engine, a complaint is sufficiently specific which alleges that the throttle leaked, and that there were other defects known to the defendant and unknown to the plaintiff. *Wabash & W. R. Co.* v. *Morgan* (1892) 132 Ind. 430, 31 N. E. 661.

A complaint in an action by a brakeman for injury sustained by reason of the breaking of a ladder on a freight car, alleging in substance that such ladder "was so negligently and improperly constructed, and had become so worn and loose and out of repair that when the plaintiff, in using the same, took hold of one of the steps, the same immediately gave way and was wholly detached from the car," shows with sufficient definiteness and certainty in what respect the ladder was negligently and improperly constructed. *Carey* v. *Chicago & N. W. R. Co.* (1887) 67 Wis. 698, 31 N. W. 163.

An averment of the master's knowledge of the defect is sufficient. The evidentiary facts showing how the [illegible] ant knew need not be alleged. [illegible] *dated Coal Co.* v. *Scheiber* (189[illegible] Ill. App. 304.

A plaintiff is not required to s[illegible] his complaint the names of the [illegible] of the defendant through whom [illegible] pects to bring notice to the de[illegible] of the negligent habits of the [illegible] in charge of a train upon whi[illegible] plaintiff was injured. *Lake Shor[illegible] S. R. Co.* v. *Stupak* (1890) [illegible] 210, 23 N. E. 246.

The exact time that a railway [illegible] pany has known of the defective [illegible] tion of an engine, and of the in[illegible] tency and carelessness of an engi[illegible] not so material that the court wil[illegible] a motion to make a complaint mo[illegible] cific, on the ground that it mer[illegible] leges that these facts have bee[illegible] known to the defendant. *Wab[illegible] R. Co.* v. *Morgan* (1892) 132 In[illegible] 31 N. E. 661.

Where the complaint in an acti[illegible] injuries received in the quarry [illegible] defendant city describes the quar[illegible] leges that it was owned by the [illegible] ant, and gives the name of defe[illegible] superintendent under whose di[illegible] plaintiff was working, it is not s[illegible] to a special demurrer on the [illegible] that it does not allege where the [illegible] was located. The situs of the qu[illegible] a matter as much in the knowle[illegible] defendant as of plaintiff. *Augu[illegible] Owens* (1900) 111 Ga. 464, 36 S. [illegible]

The defendant in an action fo[illegible] sonal injuries to an employee w[illegible] be required to make more defini[illegible] certain an allegation in the answ[illegible] the accident was caused by a dan[illegible] herent in the work, of which p[illegible] was aware, and against which [illegible] "frequently been warned." The [illegible] under such circumstances being [illegible] the personal knowledge of the [illegible] party, there is no danger of su[illegible] *Bigras* v. *Montreal Water & Pow[illegible]* (1898) Rap. Jud. Quebec, 15 C. [illegible]

In an action for the death of [illegible] ployee which was alleged to ha[illegible] sulted from negligence in furnishi[illegible] safe appliances to the employee, [illegible] held, on motion to make the p[illegible] more definite, that the plaintiff w[illegible] bound to state in his petition w[illegible] the employee was experienced or [illegible] perienced, or whether the mast[illegible] given him any assurance of the [illegible] ciency of the appliances, or what [illegible] danger to which he was subject[illegible] obvious or hidden. *Fugler* v. [illegible] (1890) 43 Mo. App. 44.

864. Plea; generally.—The defense of assumption of risks or waiver must be specially pleaded if the employer wishes to rely thereon.[1] Being affirmative in its character, it cannot be proved under the general denial.[2]

(b) *Complaint held bad.*—A count is bad which does not state in what particular the defendant was negligent,—that is to say, of what the negligence consisted. *Lapere* v. *Cook* (1897) 20 R. I. 261, 38 Atl. 790.

A general averment that the defendant violated his duty in being ignorant of the quality of a flagstone on which the plaintiff was required to stand in doing his work is not sufficient. The complaint must set forth the facts out of which the duty to furnish such an instrumentality arises. *Potts* v. *Plunkett* (1899) 3 Ir. C. L. Rep. 299.

A complaint is demurrable, which, although it states that the injury was caused by the negligence of certain fellow servants of whose incompetence the defendant was aware, fails to allege the acts which constituted the negligence complained of. *Martello* v. *Fusco* (1900) 21 R. I. 572, 45 Atl. 577.

An averment that the delinquent fellow servant was not properly qualified for his duties is not sufficiently specific. *Mackay* v. *Watson* (1857) 24 Sc. Sess. Cas. 4th series, 383.

A petition alleging that defendant negligently employed plaintiff's son to unload bricks from a wagon, which employment was dangerous for one of his age, and that he was injured while at the work, but not stating wherein the work was dangerous, or by what cause the boy was thrown down and run over by the wagon, is demurrable as not stating with sufficient certainty the negligence charged. *Martello* v. *Fusco* (1900) 21 R. I. 572, 45 Atl. 577.

Where a complaint states that the defendant failed to provide lawful safeguards, that one of such safeguards was lacking, and that the place provided for plaintiff to work was unsafe, the defendant was entitled to a bill of particulars stating the particular safeguard claimed to have been omitted, and in what respect the place provided to work in was unsafe. *O'Leary* v. *Condee* (1899) 60 N. Y. Supp. 1103.

In a case where the injury was alleged to be due to the fact that the servant's arm was caught in a belt, the defendant was held to be entitled to a more definite statement, showing the manner in which the servant was engaged, what was the usual and proper method of discharging his duty with respect to the running of the machine, and what machine it was. *Lee* v. *Reliance Mills Co.* (1897) 21 R. I. 322, 43 Atl. 536.

A petition alleging that the cause of the injury was a pole which was "too near the track" is subject to a special demurrer based on the ground that it does not allege how near the pole was to the track. *Rhodes* v. *Central R. Co.* (1899) 105 Ga. 384, 31 S. E. 94.

It is not sufficient to charge negligence in not putting a certain machine to be out of repair. The character of the defect should be stated,—not necessarily in minute detail, but in general terms. *Cochran* v. *Richmond &c.* (1896) 96 Fed. 620.

An averment in a declaration, in an action to recover damages for personal injuries resulting from negligence, that defendants negligently omitted to provide plaintiff employees with sound and suitable machinery and appliances for raising an anchor and chain of a certain dredge in the course of their business, whereby one of plaintiff's servants was struck by the anchor chain and killed, was held demurrable on the ground that there was no allegation that the injury resulted from the breaking of any chain or other appliance, and that there was no description of any machinery or appliances as unsafe or defective, or of the nature of any defect or error in judgment in the machinery and appliances used for raising the anchor, and getting in the anchor chain.

A declaration which alleges that defendant negligently omitted to provide for the repair of certain machinery supplied, on which plaintiff was employed, the result being that said machinery became dangerous, and was well known to said defendant to be so dangerous, but which fails to allege in what respect defendant omitted to provide for repairing it, is demurrable. *Cook* v. *Diamond State Steel Co.* (1900) 2 Penn. (Del.) 522, 47 Atl. 1111.

[1] *Oregon Short Line & U. N. R. Co.* v. *Tracy* (1895) 14 C. C. A. 199, 29 U. S. App. 529, 66 Fed. 931; *Mayes* v. *Chicago, R. I. & P. R. Co.* (1881) 63 Iowa,

Whether, under the modern system of pleading prescribed by t
English judicature act and the Colonial statutes modeled thereon,
is necessary that the defense embodied in the maxim *Volenti non
injuria* must be specially pleaded, does not seem to have been
pressly decided.[3]

As regards the defense of coservice, some courts take the posi
that it is available without being specially pleaded. The concept
relied upon is that proof of such negligence necessarily negatives
averment that the plaintiff was injured through the negligence
the master.[4] On the other hand, the doctrine has been enunci
that, unless it appears from the complaint itself that the injury
due to the negligence of a fellow servant, the defense that it was
caused cannot be raised unless the appropriate averments in this
gard are inserted in the answer.[5]

The plaintiff's ignorance of the defect which caused his inj
will be taken as admitted, unless it is specially traversed. It is
put in issue by a general traverse of the averment of negligence.[6]

As to the sufficiency of the plea in suits brought under the
ployers' liability acts, see § 738, *ante*.

C. Functions of court and jury.

865. Questions of law and fact.—In this section it is merely
posed to recapitulate under their more general aspects the main p
ciples which serve to define the boundary line between the respe
provinces of courts and juries in dealing with the issues which a
in employers' liability cases. The manner in which those princi
have been applied with relation to specific doctrines of substan
law, and to the provisions of statutes, has already been shown in
earlier parts of this treatise in which those doctrines and stat
have been discussed.

a. Sufficiency of evidence to establish a material issue.—In d
with the issues of the negligence of the master or the coservi

562, 14 N. W. 340, 19 N. W. 680; *Wells v. Burlington, C. R. & N. R. Co.* (1881) 56 Iowa, 520, 9 N. W. 361; *Nicolaus v. Chicago, K. I. & P. R. Co.* (1891) 90 Iowa, 85, 57 N. W. 694; *McMullen v. Missouri, K. & T. R. Co.* (1895) 60 Mo. App. 231.

[2] *Louisville & N. R. Co. v. Orr* (1882) 84 Ind. 50.

[3] In *Le May v. Canadian P. R. Co.* (1889) 18 Ont. Rep. 314, Ferguson, J., propounded, but did not determine, this question. In the court of appeal (17 Ont. App. Rep. 293) this point not touched upon.

[4] *Sheehey v. Prosser* (1893) 5 App. 569; *Wilson v. Charleston & Co.* (1897) 51 S. C. 79, 28 S. E. citing *Adams Exp. Co. v. Darby* 31 Ind. 20, 99 Am. Dec. 58.

[5] *Conlin v. San Francisco & S. Co.* (1864) 26 Cal. 404.

[6] *Skerritt v. Scullea* (1877) 1 11 C. L. 389.

negligence of the servant there is always a preliminary question to be determined by the trial judges, *viz.*, whether there is any evidence on which the jury can properly find in favor of the party on whom the onus of proof lies.[1]

b. Facts or conclusions therefrom disputable.—The culpability of either of the parties to the action is always a matter for the jury to determine, where there is a conflict of testimony as to the facts upon which the existence or non-existence of that culpability hinges;[2] and also where those facts, although they may be clearly established or undisputed, are of such a nature that reasonable men may fairly differ upon the question whether they do or do not import culpa-

[1] See the opinions of Willes, J., in *Ryder* v. *Wombwell* (1868) L. R. 4 Exch. 32, 38 L. J. Exch. N. S. 8, and of Lord Cairns in *Metropolitan R. Co.* v. *Jackson* (1877) L. R. 3 App. Cas. 193, 47 L. J. C. P. N. S. 303, 37 L. T. N. S. 679, 26 Week. Rep. 175.

In the absence of evidence that the danger was hidden, or that the servant was misled by the failure of the master to adopt such constructions, methods, or rules as were usual in the trade, and which the servant, therefore, had the right to take for granted until otherwise instructed, it is improper to submit to the jury the question whether, in their judgment, the place of work was reasonably safe or the rules reasonably proper, and thus make their judgment on these points the test of the master's liability. *Bethlehem Iron Co.* v. *Weiss* (1900) 40 C. C. A. 270, 100 Fed. 45.

A plaintiff may be nonsuited, where he has not produced sufficient evidence to support the material averments of his declaration. *Burrell* v. *Gowen* (1890) 134 Pa. 527, 19 Atl. 678; *Choctaw, O. & G. R. Co.* v. *Nicholas* (1899; Ind. Terr.) 53 S. W. 475.

L. 160, 33 Atl. 380; *Belleville Stone Co.* v. *Mooney* (1897) 60 N. J. L. 323, 38 Atl. 835, Affirmed in (1897) 61 N. J. L. 253, 39 L. R. A. 834, 39 Atl. 764; *Smith* v. *Little Pittsburg Coal Co.* (1898) 75 Mo. App. 177; *Ford* v. *Knipe* (1897) 180 Pa. 210, 36 Atl. 729; *Hill* v. *Southern P. Co.* (1901) 23 Utah, 94, 63 Pac. 811; *Cosselmon* v. *Dunfee* (1901) 59 App. Div. 467, 69 N. Y. Supp. 271 (identity); *Grace & H. Co.* v. *Kennedy* (1900) 40 C. C. A. 69, 99 Fed. 679 (appointment of watchman to guard an obstruction in a street); *Hamman* v. *Central Coal & Coke Co.* (1900) 156 Mo. 232, 56 S. W. 1091 (supply of roof props in mine); *Nelson* v. *Lumberman's Min. Co.* (1887) 65 Mich. 288, 32 N. W. 438 (lagging in mine gave way); *Coontz* v. *Missouri P. R. Co.* (1894) 121 Mo. 652, 26 S. W. 661 (possibility of discovering the defect by an ordinarily careful inspection).

A witness in an action for injuries caused by a crane alleged to be defective stated that there was no other crane on the track on which it was worked at the time of the accident; that it was on the same track; that after he had complained to the foreman about it he kept watch of it, and knew where it was; that it was the same crane that he saw fall down several times within a day or so prior to the accident; that there was only one crane on the tracks; and that he saw the chain slip several times before the accident. His evidence was held to be sufficient to identify the crane in use at the time of the accident with that reported as defective, though there was also evidence that there were many cranes in the works, and that they were liable to be changed about. *Nicoud* v. *Wagner* (1900) 106 Wis. 67, 81 N. W. 999.

The question whether or not the duty of keeping the roof of its mine in repair devolved on defendant is properly submitted to the jury in an action for personal injuries to an employee by the fall of slate from the roof, where defendant had pleaded that under its contract with plaintiff such duty devolved on the latter. *Breckinridge & P. Syndicate* v. *Murphy* (1897) 18 Ky. L. Rep. 915, 38 S. W. 709.

See also cases cited in § 339, note 5, *ante*, as to the contributory negligence of the servant.

bility.[3] The logical effect of the latter branch of this statement also be expressed by various other forms of phraseology which vey a virtually similar meaning. Thus it is laid down that the should not be withdrawn from the jury, where it is manifest th covery can be had on any view which can be taken of the facts

[3] *Grand Trunk R. Co.* v. *Ives* (1892) 144 U. S. 408, 36 L. ed. 485, 12 Sup. Ct. Rep. 679 (cited with approval in *Texas & P. R. Co.* v. *Gentry* (1896) 163 U. S. 368, 41 L. ed. 193, 16 Sup. Ct. Rep. 1104); *Tennessee Coal, Iron & R. Co.* v. *Currier* (1901) 47 C. C. A. 161, 108 Fed. 19; *Mason & O. R. Co.* v. *Yockey* (1900) 43 C. C. A. 228, 103 Fed. 265; *Mexican C. R. Co.* v. *Spellman* (1900) 42 C. C. A. 321, 102 Fed. 251 (brakeman injured while attempting to couple a locomotive with a bent pilot bar); *Texas & P. R. Co.* v. *Wineland* (1900) 42 C. C. A. 588, 102 Fed. 673 (some evidence that the wheels of a locomotive truck were not made of reasonably safe material, and had not been properly inspected); *Bethlehem Iron Co.* v. *Weis* (1900) 40 C. C. A. 270, 100 Fed. 45 (servant's constructive knowledge of danger and master's liability for not instructing him as to that danger); *Southern P. Co.* v. *Burke* (1893) 9 C. C. A. 229, 23 U. S. App. 1, 13 U. S. App. 110, 60 Fed. 704 (master's knowledge of defect); *Green* v. *Sansom* (1899) 41 Fla. 94, 25 So. 332; *Lake Erie & W. R. Co.* v. *Wilson* (1900) 87 Ill. App. 360 (grass and weeds suffered to grow on side track); *Ross* v. *Shanley* (1899) 185 Ill. 390, 56 N. E. 1105. Affirming (1899) 86 Ill. App. 144; *Missouri, K. & T. R. Co.* v. *Young* (1896) 4 Kan. App. 219, 45 Pac. 963 (master's knowledge of defect); *Wilson* v. *Williams* (1900) 22 Ky. L. Rep. 567, 58 S. W. 444 (defective elevator); *Louisville & N. R. Co.* v. *Miller* (1900) 22 Ky. L. Rep. 327, 57 S. W. 230 (appliance repaired in an improper manner); *Hopkins* v. *O'Leary* (1900) 176 Mass. 258, 57 N. E. 342 (plaintiff put to work after a blast was set off, without any precautions being taken to see that all the charges had been exploded); *Jones* v. *Pacific Mills* (1900) 176 Mass. 354, 57 N. E. 663 (ladder spliced after having been broken, gave way; several witnesses had testified that a spliced ladder was only from one half to three fourths as strong as it would hav originally); *Day* v. *Donohue* (18 N. J. L. 380, 41 Atl. 934 (trial a nonsuit that a fellow servan caused the accident by his negli lection of the materials, although was evidence tending to show th materials were defective); *Swee New York, N. H. & H. R. Co.* 26 Jones & S. 223, 10 N. Y. Sup (injury from a defective coupli the use of which might have been the evidence, due either to the gence of the defendant or of a servant); *Gray* v. *Floersheim* 164 Pa. 508, 30 Atl. 397 (n knowledge of defect); *Houston & R. Co.* v. *Gaither* (1896; Tex. Civ. 35 S. W. 179 (rails not secure tened); *Mangum* v. *Bullion, B. Min. Co.* (1897) 15 Utah, 534, 5 834; *Walker* v. *McNeill* (189 Wash. 582, 50 Pac. 518.

See also cases cited in § 330, *ante*, as to the plaintiff's contr negligence.

The question whether the def was chargeable with knowledge dangerous condition of a steam cannot be taken from the jury there is evidence that it w years old, and that, at the point it gave way, the plates had bee down to one fourth of their o thickness. *Lehigh Valley R. Co.* (1897) 25 C. C. A. 566, 51 App. 265, 80 Fed. 470.

Whether the master ought to h certained the dangerous con which caused the injury is a q for the jury, where the facts a that persons of equally good ju might arrive at different conc *Crowell* v. *Thomas* (1897) 18 Ap 520, 46 N. Y. Supp. 137.

The owner of a mill is not as of law free from negligence caus explosion of the burrs, where the by which the mill is operated is an inexperienced engineer, a starting the engine, the gover fuses to move until he pushes it with his hands, and he subs goes into the mill and lets corn i hopper while the burrs are re

the evidence tends to establish;[4] nor where there is evidence tending to sustain each of two antagonistic theories as to the manner in which the accident occurred;[5] nor where it is possible to draw more than one

very rapidly, and immediately after the explosion he finds the engine running very rapidly and the governor standing still. *Ford* v. *Knipe* (1897) 180 Pa. 210, 36 Atl. 729.

Where several witnesses have testified that, in view of the method adopted for moving a heavy log, there should have been a greater number of men assigned to do the work than was actually assigned to perform it, the master's negligence is a question for the jury. *Supple* v. *Agnew* (1901) 191 Ill. 439, 61 N. E. 392, Reversing (1899) 80 Ill. App. 437.

Whether suitable materials have been provided for the preparation of those appliances the construction of which the master is justified in leaving to the servants (see §§ 612 *et seq.*, *ante*), is primarily a question for the jury. *Kalleck* v. *Deering* (1897) 169 Mass. 209, 47 N. E. 698.

A nonsuit at the close of plaintiff's case in an action by an employee against a street railway company for injuries received in a collision is properly denied where there is evidence tending to show that the signals misled the employee to his injury, and the possible existence of causes leading to the derangement of the signals, and also testimony upon the questions as to whether such conditions existed, or were sufficient to cause the accident, or were in any way chargeable to the negligence of the company. *Bergen County Traction Co.* v. *Bliss* (1898) 62 N. J. L. 410, 41 Atl. 837.

It is error to nonsuit a plaintiff where there is evidence which tends to show that the injury may have been caused by a defective system. *Fairweather* v. *Owen Sound Stone Quarry Co.* (1895) 26 Ont. Rep. 604.

Contributory negligence and assumption of risk, being in the nature of pleas of confession and avoidance, are affirmative defenses, and cannot be considered on a motion for nonsuit. *Cogdell* v. *Wilmington & W. R. Co.* (1899) 124 N. C. 302, 32 S. E. 706.

In *Woodruff* v. *Alabama Great Southern R. Co.* (1885) 75 Ga. 47, the court said with reference to the circumstances under review: "Without doubt, this record does not make a strong case for the recovery of damages in consequence of the negligence of the defendant; indeed, it is a very weak case; but, as there is possibly enough in the evidence to enable the jury to say, if it is uncontradicted, that the injury was occasioned by the defective machinery of the company, and as the law which is to determine the plaintiff's right is somewhat uncertain, the injury having been sustained in another state by the plaintiff, while acting as an employee of a railroad company chartered in that state, and as it is doubtful whether, under the common law, which obtained there at the time of the casualty, he sustained the relation of coemployee to the company's agent whose negligence caused the damage, we think it better that the case should have gone to the jury than to have been nonsuited."

In an action for injuries to an engine wiper, when moving a wheel by order of his foreman, a charge that, if plaintiff was experienced in such work, or knew or understood its dangers, if any, he assumed the risk, or if he failed to use ordinary care and caution, and such failure, if any, contributed to his injury, the finding should be for defendant, is proper, where the testimony did not clearly show the danger to be obvious. *Galveston, H. & S. A. R. Co.* v. *Renz* (1900) 24 Tex. Civ. App. 335, 59 S. W. 280.

According to the practice and forms of procedure in the Scotch court of session, the court directs the issue which is to be submitted to the jury. This implies the consideration of the prima facie sufficiency of the plaintiff's averments before the issue is approved. *Jamieson* v. *Russell* (1892) 19 Sc. Sess. Cas. 4th series, 638.

[4] *Tennessee Coal, Iron & R. Co.* v. *Currier* (1901) 47 C. C. A. 161, 108 Fed. 19.

[5] The theory of defendant sued by an employee for personal injuries, that the injury was due to the negligence of a coemployee in not seeing that the cable was attached to a car by which plaintiff was injured before shoving it down an incline, should be given to the jury,—especially where the claim of plaintiff is fully presented. *Hennig* v. *Globe Foundry Co.* (1897) 112 Mich. 616, 71 N. W. 156.

See also *Harney* v. *Missouri P. R. Co.*

inference from the evidence;[6] nor where the evidence leaves it d
ful or uncertain what inference should be drawn with regard t
of the points upon which the plaintiff's right of recovery depe
nor where the deductions of fact to be drawn from the evidenc
disputed;[8] nor where opposite conclusions can reasonably be d
from the evidence.[9]

A corollary of the rules enunciated above is, that a general af
tive charge by which the jury are told that, if they believe th
dence, they must render a verdict for the defendant, should nev
given, either in a case where there is any conflict in the evidence
any material point in issue on which a recovery may be had, o
case where the evidence fairly admits of a conclusion or infe
which may be drawn by the jury adverse to the right of the par
questing the charge.[10]

c. Facts and conclusions not disputable.—The question wh
there was culpability in the premises is one to be determined b
court when the facts are undisputed or clearly established, an
conclusion to be drawn from those facts is a matter which c
reasonably be the subject of any doubt or controversy;[11] and

(1899) 80 Mo. App. 667 (evidence tended to show both that defects existed and that they were obvious).

[6] The question of the master's liability for the death of his servant is for the jury upon evidence from which can be drawn either the inference that the death was the result of the failure of the master to exercise reasonable care to provide proper machinery and appliances and a safe place in which to work, or that it was the result of obvious danger or risk, or the want of ordinary care on the part of the servant. *Comben* v. *Belleville Stone Co.* (1896) 59 N. J. L. 226, 36 Atl. 473.

[7] *Nyback* v. *Champagne Lumber Co.* (1899) 33 C. C. A. 269, 63 U. S. App. 519, 90 Fed. 774; *Tribay* v. *Brooklyn Lead Min. Co.* (1886) 4 Utah. 468, 11 Pac. 612.

[8] *Lasky* v. *Canadian P. R. Co.* (1891) 83 Me. 461, 22 Atl. 367.

The court said: "In any case where intention is to be discovered, exigencies weighed, or matters of expediency considered, although the testimony may not be conflicting, still, unless the case is so palpably right or wrong that there can be but one opinion about the case, the question is for the jury, and not the court. Such interpretations arise more often in negligence cases than any other. The negligence of neither party can be conclusively establis
a state of undisputed facts from
different inferences may be fairly
or upon which fair-minded men
rive at different conclusions. *N*

a charge substantially reques
judge to direct a verdict for the
ant. *Alexander* v. *Maryland St*
(1899) 189 Pa. 582, 42 Atl. 286.

[11] "It is well settled that th
may withdraw a case from the
gether and direct a verdict for th

the weight of evidence is clearly against the contention of either party with respect to a material fact.[12]

That the power of the court to control the verdict in actions for negligence is usually exercised for the advantage of the defendant is a fact well known to everyone who has even the most superficial acquaintance with cases of this type. But the general rule stated above is also applied, under appropriate circumstances, for the benefit of the plaintiff. That is to say, where the facts are substantially undisputed, and the conclusion that there was a negligent omission of duty by defendant is one at which all reasonable men must have arrived from a consideration of those facts, the question of liability becomes one of law, and it is not error for the court to instruct the jury that the right to recover is established, and to submit to them only the question of damages.[13]

866. Instructions.— In various places in the earlier chapters of this treatise the propriety of instructions has been discussed with reference to the question whether they presented with completeness and precision one or other of the doctrines of substantive law upon which the servant's right of action depends. In the present section it is proposed to summarize the effect of the cases in which the correctness

tiff or the defendant, as the one or the other may be proper, where the evidence is undisputed, or is of such a conclusive character that the court, in the exercise of a sound judicial discretion, would be compelled to set aside a verdict returned in opposition to it." *Patton* v. *Texas & P. R. Co.* (1901) 179 U. S. 658, 45 L. ed. 361, 21 Sup. Ct. Rep. 275.

"It is only where the facts are such that all reasonable men must draw the same conclusion from them, that the question of negligence is ever considered as one of law for the court." *Grand Trunk R. Co.* v. *Ives* (1892) 144 U. S. 408, 417, 36 L. ed. 485, 489, 12 Sup. Ct. Rep. 679 (quoted with approval in *Texas & P. R. Co.* v. *Gentry* (1896) 163 U. S. 368, 41 L. ed. 193, 16 Sup. Ct. Rep. 1104).

It is error to submit to the jury the question whether a breach of duty was committed, if it is apparent that, under the evidence introduced, there are two or more possible ways of accounting for the accident, and that negligence is not a permissible inference in any point of view. *Essex County Electric Co.* v. *Kelly* (1894) 57 N. J. L. 100, 29 Atl. 427 (alternatives were that the defect was latent and undiscoverable by reasonable inspection, or that servant's means of knowledge were better than those of master).

In an action to recover for the death of such servant, where it appeared that all the parts of the apparatus used except the rope safely performed their functions, their sufficiency or fitness is not a matter in issue, and it is error to submit such questions to the jury. *Hunt* v. *Kile* (1899) 38 C. C. A. 641, 98 Fed. 49.

Whether a person is a fellow servant or a superior is a question of law for the court, where the facts are not in dispute. *National Fertilizer Co.* v. *Travis* (1899) 102 Tenn. 16, 49 S. W. 852.

Numerous illustrations of the manner in which this rule has been applied will be found in the earlier chapters which deal with the circumstances under which negligence is imputable to a master or a servant.

[12] *Cummings* v. *Chicago & N. W. R. Co.* (1899) 89 Ill. App. 199, writ of error dismissed (1901) 189 Ill. 608, 60 N. E. 51; *Germaud* v. *Smith* (1901) 66 N. J. L. 390, 49 Atl. 427.

[13] *Toledo Brewing & Malting Co.* v. *Bosch* (1900) 41 C. C. A. 482, 101 Fed. 530; *Mexican C. R. Co.* v. *Glover* (1901) 46 C. C. A. 334, 107 Fed. 356.

of the instructions has been considered under its more general aspects.[1] The principles of trial practice illustrated by these decisions are, of course, applicable to all actions of which the gravamen is negligence, and in this point of view the conclusions arrived at cannot be said to possess any special or characteristic significance in relation to the subject of the liability of employers. It is not amiss, however, to remark that the rulings collected in the subjoined note, like those of those stated in other parts of this treatise, are inserted not for the purpose of furnishing the practitioner with a useful list of authorities in which the principles adverted to are exemplified in relation to various evidential situations which have arisen, and may well arise again, in actions for injuries received by servants. When, as happens not infrequently, a case may be classified under more than one heading, its position has been determined by what the author conceives to be the most important phase of the decision.[2]

[1] In view of the rigorous standards which have been applied in many of the cases cited *infra* and in the chapters referred to in the text, it is impossible not to regret that courts of review are not more thoroughly permeated with the liberal spirit which pervades the following passage in a recent judgment by one of the Federal courts of appeal: "If every slight defect or slip which a microscopic eye can detect in a question or answer or the charge of the court is to be counted prejudicial error, litigation will become interminable over subtle refinements and quibbles which were not seen or regarded by the judge or jury at the trial, and which had no bearing whatever on the decision of the case on its merits. Such an administration of the law would be intolerable. 'But there is nothing,' said Judge (now Mr. Justice) Brown, of the Supreme Court of the United States, 'which tends to belittle the authority of the courts, or to impair the confidence of the public in the certainty of justice as much as the habit of reversing cases for slight errors in admitting testimony, or trifling slips in the charge. . . . Better by far the practice of the English courts and the Federal Supreme Court, where every intendment is made in favor of the action of the lower court, and cases are rarely reversed except for errors going to the very merits.—errors which usually obviate the necessity of a second trial.' Report American Bar Association, 1889, p. —. Though these remarks of the learned justice were not uttered from the bench, they express the rule upon the subject by which appeal [illegible] should be guided, and they have [illegible] proval." *Western Coal & Min. Co. v. Berwick* (1899) 36 C. C. A. [illegible] Fed. 399.

[2] (a) *Instructions as to abstract principles.*—An instruction which proceeds upon the assumption that [illegible] pliance furnished by the master [illegible] gerous *per se*, and that in its [illegible] master is negligent, because the [illegible] other appliances not dangerous [illegible] he might use, is erroneous. [illegible] *E. I. R. Co. v. Finman* (1899) [illegible] App. 383. (See, generally, chapter [illegible] *ante*.)

An instruction of which the effect [illegible] that the plaintiff can recover [illegible] proves the existence of a single [illegible] two or more defects alleged in the [illegible] laration as the cause of his injury [illegible] open to exception. *St. Louis, I. M. & S. R. Co. v. Bond* (1901) 189 Ill. 2[illegible] N. E. 593, Affirming (1900) 89 Ill. [illegible] 555.

An instruction that, if plaintiff's injuries were caused by defects in the [illegible] ant's machinery on which he was work[illegible] ing, and plaintiff was not guilty of [illegible] tributory negligence, he was entitled [illegible] recover, unless he knew, or, by the [illegible] ercise of ordinary care, could have [illegible] known, of the defects, is erroneous [illegible] the reason that it omits the necessary [illegible] element of defendant's knowledge of [illegible] defects. *Virginian & N. C. Wheel Co. v. Chalkley* (1900) 98 Va. 62, 34 S. [illegible] (See, generally, chapter X., *ante*.)

An instruction that plaintiff is [illegible] titled to recover unless the condition

867. Verdicts.—A jury is properly permitted to base a verdict upon a general allegation of negligence in regard to the conditions stated,

an embankment by the fall of which he was injured was such as to threaten such "glaring, apparent, and immediate danger that a person of ordinary care and prudence would have refused to work around it under the circumstances," is erroneous, as it does not embody the rule which would govern a reasonably careful person. *Bradley* v. *Chicago, M. & St. P. R. Co.* (1897) 138 Mo. 293, 39 S. W. 763.

The fact that a jury is directed to find the defendant guilty if he furnished a defective appliance, and the plaintiff was injured by reason of that defect, while exercising ordinary care, does not constitute prejudicial error, where the instruction contains the additional words, "if the jury should also believe from the evidence that the plaintiff did not know of the defect." The impediment is that the jury would have inferred that their verdict was to be conditional upon their believing from the evidence the first, as well as the last, fact specified. *Toledo, W. & W. R. Co.* v. *Ingraham* (1875) 77 Ill. 309.

In an action for personal injuries caused by the fall of a derrick while being raised from one floor of a building to another, the jury were fully instructed upon the questions raised in the case. Upon their return into court with the inquiry as to precisely what matters they were to decide, the judge replied that the only substantial question was whether the derrick and its appliances were such that it could be safely hoisted from one floor to another; and repeated the instructions previously given upon that subject. The foreman then asked if "appliances" included "brains." The judge answered "No." Held, that the defendant had no ground of exception. *Summersell* v. *Fish* (1875) 117 Mass. 312. The point made by counsel was that the effect of the judge's answer was to exclude an element which bore upon the question whether the method of using the appliance was a proper one.

A charge is erroneous which gives the jury to understand that the mere fact of minority, of and in itself, imposes upon the master a greater degree of care in regard to the servant than that which rests upon him in respect to a servant of full age. It is the immaturity of mental and physical faculties and capacity which is incident to some, not all, minors, and not the mere fact of minority, which the master must have special regard for; and where, in a given instance of minority, this immaturity is wanting, the minor is put upon the same footing as an adult. *Alabama Mineral R. Co.* v. *Marcus* (1896) 115 Ala. 586, 22 So. 135. (See, generally, chapter II, B, *ante*.)

It is error to give an instruction which virtually directs the jury to find for the plaintiff if he has no personal knowledge of a defect, whether the accident has been caused by the negligence of his fellow servants or not. *Beattie* v. *Kneeland* (1892) 63 Hun, 283, 17 N. Y. Supp. 895.

An erroneous instruction as to the circumstances which will create the relation of master and servant is not cause for reversal of a judgment for plaintiff, where there is no question but that the negligence which caused plaintiff's injury was that of a vice principal, and not of a fellow servant. *Westside Coal Co.* v. *Schwartz* (1898) 177 Ill. 272, 52 N. E. 276, Affirming (1898) 75 Ill. App. 468.

In an action in which the defendant was charged with negligence in not furnishing proper pinch bars and a sufficient number of persons to move the tender, the court charged that it was the duty of plaintiff to exercise care to acquaint himself with the work, and with the appliances, grounds, and tracks whereon he was required to work, and that, in determining whether he had exercised care, it was proper to consider the length of time he had been in defendant's employ, and his intelligence and experience. The court rejected the contention that, although the charge was correct as applied to defects in the tools, appliances, grounds, and tracks, it was not applicable to machinery, appliances, grounds, rails, and tracks, which were properly constructed. *Cahow* v. *Chicago, R. I. & P. R. Co.* (1901) 113 Iowa, 221, 84 N. W. 1056.

An instruction as to the duties of a mine owner to his employees, substantially in the language of Hurd's Rev. Stat. 1899, p. 1169, § 18, imposing them, was held to be a sufficient statement of such duties. *Donk Bros. Coal & Coke Co.* v. *Peton* (1901) 95 Ill. App. 163, Affirmed in (1901) 192 Ill. 41, 61 N. E.

330, citing *Mt. Olive & S. Coal Co.* v. *Rademacher* (1901) 190 Ill. 538, 60 N. E. 888.

Where plaintiff, a brakeman, was injured while uncoupling a car from a tender, the drawhead of which was defective, an instruction that "employees . . . are not presumed to take risks arising from the negligence of the employer" is not erroneous if it is followed by a charge that if the employee knows, or by use of care can discover, that machinery is defective, and then undertakes to use it, and is injured, he is guilty of negligence. *International & G. N. R. Co.* v. *Gourley* (1899) 21 Tex. Civ. App. 579, 54 S. W. 397.

In *Litton* v. *Thornton* (1881) 7 Vict. L. Rep. (L.) 4, the jury found for the defendant upon a charge in which they were told that if the plaintiff had had an opportunity of seeing the defective nature of the machine (a pile driver) there was as great an obligation upon him as upon the employer to know it, and that if he chose to work the machine, knowing, or having the opportunity of knowing, its faulty construction, he took the risk upon himself. The verdict was sustained on the ground that, in order to justify setting it aside, it would be necessary to take the position that a servant, having contracted to work a machine, is not bound to observe its condition, or not at liberty to refuse to work it if he finds it defective. The court considered that the plaintiff ought to have noticed a defect of the kind alleged, and that, if he did not, he incurred the risk of a jury finding that he had contributed to the accident by his own negligence.

In *Galveston, H. & S. A. R. Co.* v. *Delahunty* (1880) 53 Tex. 206, it was urged that a new trial should be ordered, for the reason that the jury had been charged that it was the duty of the defendant to furnish "sound material with which to do the work." The court admitted that this instruction contravened the principle that a master is not an insurer, but refused to set aside the verdict as the evidence clearly showed that the defendant company had been negligent. The position was taken that, as no complaint had been made at the trial with regard to the correctness of the instruction, the defendant should be required to make a stronger showing as to its prejudicial quality than if it had been objected to at the right time. But this decision would, perhaps, not be approved by all courts.

As every material question in ers' liability cases is comprised issue of negligence, the defen such a case is not entitled to struction that the plaintiff ca cover if the injury was the resu "unavoidable accident," though plended in the answer that such cause of the injury. *San Anto Co.* v. *Robertson* (1899; Tex. Civ 55 S. W. 317. The judgment versed in (1900) 93 Tex. 503, 5 323, but not on this point.

Where a special verdict is ta jury should not be instructed gard to the legal effect of their ns the effect of such an instruct le to create an inclination t that theory of the evidence wh enable the servant to recover. where the question as to whether cident was occasioned by a pipe or the negligence of W., workman, is submitted to the instruction that, if the inju caused by the negligence of W., fendant would not be liable, is ous. *Musbach* v. *Wisconsin C* (1900) 108 Wis. 57, 84 N. W.

(b) *Appropriateness of inst with relation to the issues mad pleadings.*—On the ground that ration which alleges that the was using due care for his own impliedly negatives his knowledg defects (see § 857, note 11, s has been held that a charge in a for injury to a servant that, jury believe plaintiff has made cuse, as laid in the declaration, preponderance of the evidence must find for plaintiff," etc., faulty as ignoring the questions er plaintiff knew of the defect, have known by the exercise of c care, or had as good opportunity fendant of knowing it. *Las Kostka* (1901) 190 Ill. 130, 6 72. Affirming (1900) 92 Ill. App

The fact of defendant's failure nish lights being admissible on t tion of plaintiff's negligence i out in the dark to the place w was injured, a requested ins that there are no allegations in laration that defendant was g gence in failing to furnish that for this reason all te gard to lights should be di ed, properly modified so as to that the defendant should not b guilty of negligence in regard furnishing of light, and that t dict should not be based upon

leged want of light. *Iroquois Furnace Co.* v. *McCrea* (1901) 191 Ill. 340, 61 N. E. 79, Affirming (1900) 91 Ill. App. 337.

An instruction as to the right of railroad companies to erect cattle guards is properly refused in an action for personal injuries to a brakeman while making a coupling, caused by stepping through a cattle guard, where no question as to the right or duty of defendant to erect the cattle guards is involved. *Illinois C. R. Co.* v. *Sanders* (1897) 166 Ill. 270, 46 N. E. 799, Affirming (1896) 66 Ill. App. 439.

A charge to the jury that the single question is whether or not a frog was blocked at the time a railroad employee was injured by catching his foot in it is not improper, when the pleading and evidence have narrowed the inquiry to this single matter. *Union P. R. Co.* v. *James* (1896) 163 U. S. 485, 41 L. ed. 236, 16 Sup. Ct. Rep. 1109.

In an action for personal injuries in which the sole negligence alleged is the use of an unsafe rope, an instruction that it was defendant's duty to furnish plaintiff a reasonably safe place to work in is misleading. *Hughley* v. *Wabasha* (1897) 69 Minn. 245, 72 N. W. 78.

In an action for personal injuries occasioned to the plaintiff by the starting of a machine which he was engaged in oiling, while in the defendant's employ, if the declaration alleges that the machine was likely to start of itself, and did so start, an instruction as to the defendant's liability in the event of its being found that the machine was liable to start by the acts of some of his employees is properly refused for the reason that the question is not open under the declaration. *Shaughnessey* v. *Sewall & D. Cordage Co.* (1891) 160 Mass. 331, 35 N. E. 861.

Instructions based on the theory that plaintiff was injured because of certain defects in the machinery about which he worked are erroneous, where such defects are not alleged in the petition, and no amendment is made. *Vincent* v. *Kauffman Mill. Co.* (1895) 131 Mo. 211, 33 S. W. 428.

Where the only negligence charged is a failure to fasten a brakewheel upon the staff, whereby a brakeman was killed, an instruction that, if the brakeman received the injury because of the negligence of the company's inspectors in not noticing and reporting the defects, the company would be liable, etc., is not proper. *Chicago & E. I. R. Co.* v. *Knoerim* (1894) 152 Ill. 458, 43 Am. St. Rep. 259, 39 N. E. 32 t.

In an action by a brakeman who stepped into a ditch running across the track, an instruction that, if the tracks were not so ballasted as to be reasonably safe in coupling cars, and plaintiff was thereby injured, he should recover, is erroneous, where the issue made by him is that defendant was negligent in permitting the ditch to remain, and not that the ballasting generally was defective. *Chicago & I. R. Co.* v. *Myers* (1899) 86 Ill. App. 401.

Special instructions in an action by a yard master against a railroad company for injuries sustained by being thrown from a footboard of an engine on which he was riding, by a collision with a rock on the track, with reference to the footboard being out of repair, and charging him with knowledge of its condition,—are properly refused as introducing an issue not made by the pleadings, where the petition alleges that the injury was the result of the negligence of the company in the handling of cars improperly loaded, and in failing to discover and remove the rock. *Galveston, H. & H. R. Co.* v. *Bohan* (1898; Tex. Civ. App.) 47 S. W. 1040, Denying Rehearing (1898; Tex. Civ. App.) 47 S. W. 1052.

A charge which embodies general rules as to the duty of railroad companies to exercise proper care in operating their cars and trains, which are inapplicable to the case, should be refused in an action by a widow to recover damages for the death of her husband, killed while coupling cars in his employment as a brakeman. *Louisiana Extension R. Co.* v. *Carstens* (1898) 19 Tex. Civ. App. 190, 47 S. W. 36.

Where a declaration is framed upon the theory that the plaintiff is entitled to recover as for the negligence of a superior servant, it is error to allow the introduction of evidence going to show the incompetence of such servant, and to charge the jury as to the liability of a master who retains an incompetent employee, with knowledge of his incompetence. *East Tennessee & W. N. C. R. Co.* v. *Collins* (1886) 85 Tenn. 227, 1 S. W. 883.

Where the declaration alleged, and the evidence tended to prove, that defendant had failed to exercise ordinary care in selecting the foreman under whose direction decedent was working, it was not error for the court to modify a requested instruction purporting to define defendant's duties towards de-

ceased so as to include its duty with respect to the selection of a proper foreman. *Dingee* v. *Union* (1900) 98 Va. 217, 35 S. E. 794.

Where a declaration alleged that defendant company negligently and carelessly permitted and caused hot cinders to be deposited in the yard where plaintiff was working, an instruction submitting the question whether defendant was negligent in causing a hot cinder cap to be taken from its place on the plates, after it had been drawn from the furnace, and carried to the yard, submits an issue within the scope of the declaration. *Western Tube Co.* v. *Polchinski* (1901) 192 Ill. 113, 61 N. E. 451, Affirming (1901) 94 Ill. App. 610.

Where there are general allegations of negligence followed by averments specially setting out the acts which constitute the negligence, the latter will take the place of and control the former. Thus, where plaintiff, in an action for injuries occasioned by a Mexican colaborer dropping a heavy stone on his hand, alleged as negligence that defendant had put plaintiff to work with such laborer, who was a man of a low order of intellect, and could not understand the English language, the issue was confined to the incompetency of such colaborer, resulting from his low order of intellect and inability to read the English language; and an instruction permitting plaintiff to recover if the Mexican was not a competent person to do the work at which he was engaged goes beyond the pleadings, and is erroneous. *B. Luntry Sons* v. *Lourrie* (1900; Tex. Civ. App.) 58 S. W. 837.

In an action by a widow to recover damages for the death of her husband, alleged to have been caused by the negligence of a division superintendent and conductor of a railroad company while the deceased, under their directions, was making a coupling, it is improper to give a charge upon the law appertaining to cases where an employee seeks to recover because of defective machinery, and as to the effect of his knowledge or means of knowledge, or a charge on the assumption of ordinary risks, and as to the effect of knowledge on the part of an employee of danger. *Louisiana Extension R. Co.* v. *Carstens* (1898) 19 Tex. Civ. App. 190, 47 S. W. 36.

In an action by a servant against the master to recover for an injury alleged to have been caused by the breaking of an unsound piece of timber furnished by the master for the use of the servants in building a scaffolding, it is not error

refuse an instruction that ant would not be liable if he a sufficient quantity of sou and the unsound piece was to selected and used by plaintiff servants, where the defendant specially that the plaintiff was because of the manner in whi ducted himself at the time injured, and where it appear issue tendered by the inst not actually litigated at the contention at the trial he was hurt by his own fa *Murray Mfg. Co.* v. *Hess* (1 C. A. 647, 98 Fed 56.

In a suit against a railroa for injuring a section hand, tion that, if he was injured man's negligence in leaving control of the plaintiff and borers during his absence fro could recover, is not warra allegation that plaintiff's i occasioned by the negligence man in directing his gang t the track without making ar to notify them of the approa in time to clear the track. *& D. C. R. Co.* v. *Gilstrap* Tex. Civ. App. 304, 61 S. W

A charge upon gross negli leading and improper, in an widow to recover for the de husband, alleged to have be the negligence of a superior w deceased, under his direction, gaged in coupling cars, wher damages are not sought. *Lou tension R. Co.* v. *Carstens* Tex. Civ. App. 190, 47 S. W.

An instruction as to the rocks on defendant's track is an action for personal injur employee, where the presence rocks is the negligence on wh tiff relies. *Galveston, H. & S.* v. *Pitts* (1897; Tex. Civ. App. W. 255.

In an action by an employee fendant for injuries caused by t ing and slipping of a lever w jackscrew which plaintiff was to use in lifting a bridge strin work for defendant, the com leged that the jackscrew fur defendant was defective, in t lever was constructed of such s terial that it bent in use. An tion was given that, if the jury from the evidence that the lever jackscrew was or ought to h known by the defendant to be d and unfit for the purpose for w

was being used, and not sufficiently tough and hard for use in hoisting the stringer without bending, and that the injury was caused by this defect, the plaintiff could recover. A charge was also given which in express terms required a verdict against plaintiff, unless it was proved that the lever was made out of a material so soft that it bent on being used. Held, that the charge did not vary from the pleading, and that under it the jury could not have considered any defect other than the one alleged. *Galveston, H. & S. A. R. Co. v. Hopson* (1900) 21 Tex. Civ. App. 458, 50 S. W. 928.

In an action by a brakeman to recover for personal injuries, an instruction that if the plaintiff was injured by falling from a car because a hand hold insecurely fastened, and not in reasonably safe condition, gave way, he might recover, is justified by allegations and proof that the fastenings gave way because of the rottenness of the wood to which they were attached. *Missouri, K. & T. R. Co. v. Rose* (1898) 19 Tex. Civ. App. 479, 49 S. W. 133.

An instruction giving the law relating to fellow servants is proper where the declaration alleges that the deceased and those who caused his death were not fellow servants, and defendant pleads the general issue, even though the evidence may show that they were not such. *St. Louis & T. H. R. Co. v. Eggmann* (1895) 60 Ill. App. 291, Affirmed in (1896) 161 Ill. 155, 43 N. E. 620, but not on this point.

In an action against a railroad company for the death of an employee while riding upon a truck which was designed for use in laying rails, and which, because of its unusual weight, was being pushed in front of an engine, instead of being carried on a car in the usual manner, an instruction which makes the case depend upon the proper performance of the duty to provide safe appliances is erroneous, as the truck was not provided for such a purpose, and the case really turns upon the official character of the foreman. *Erdlbeck v. Philadelphia, H. & P. R. Co.* (1895) 169 Pa. 592, 32 Atl. 588.

Where, in an action for injuries to a railroad employee, the alleged negligence consisted in placing a box of dynamite in an open caboose which carried its employees, an instruction that it was the duty of the master to ascertain and make known to his servants the danger of this explosive, and the proper method of handling it with safety, and that the ignorance of the master thereof would furnish no excuse if he could, by reasonable diligence and ordinary care, have obtained such knowledge, is relevant to the issues. *Rush v. Spokane Falls & N. R. Co.* (1900) 23 Wash. 501, 63 Pac. 510. So also is an instruction that the master impliedly engages with the servant that the place in which he is to work or in which he is to be placed shall be reasonably safe. *Rush v. Spokane Falls & N. R. Co.* (1900) 23 Wash. 501, 63 Pac. 509.

An instruction making the liability of the defendant depend upon the foreman's negligently pulling a coupling pin, and letting the car loose, does not present a different ground of negligence from a petition which alleges negligence in sending a car down a grade at a great rate of speed. The extraction of the pin and the letting loose of the car are acts incidental to the main act of negligence alleged. *Texas & P. R. Co. v. Reed* (1895; Tex. Civ. App.) 32 S. W. 118.

Where the essence of the negligence complained of is that the car which a railway employee was clearing after a trip was struck by a switch engine, the engineer's knowledge or ignorance of his presence on the car is an immaterial element. Hence an instruction that, if the engineer knew, or by the exercise of ordinary care could have known, of plaintiff's presence in the car, the verdict should be for plaintiff, is erroneous, though the court did not charge the converse of the proposition. *Johnson v. International & G. N. R. Co.* (1899; Tex. Civ. App.) 54 S. W. 620.

Where the complaint avers that plaintiff's injury did not result from risks incident to the employment, and the answer puts the averment in issue, it is error to refuse to instruct on that theory of the case. *Holy Cross Gold M. & Mill. Co. v. O'Sullivan* (1900) 27 Colo. 251, 60 Pac. 540.

As an instruction on an abstract proposition of law need not be given, a refusal to submit to the jury the question whether plaintiff might have discovered a fellow servant's incompetence is not ground for reversal, where the defense was not on that ground. *United States Rolling Stock Co. v. Wilder* (1886) 116 Ill. 100, 5 N. E. 92.

Where plaintiff alleged that defendant's foreman negligently attempted to bolt certain timbers in a dangerous and extraordinary manner, and that plaintiff was injured while working thereon under the foreman's directions, it is error

to give an instruction as to the defendant's duty to furnish its employees with a safe place to work. *San Antonio & A. P. R. Co.* v. *Weapers* (1899) 22 Tex. Civ. App. 344, 51 S. W. 910.

In an action for injuries received by plaintiff by reason of the breaking of a steel loop used in raising the span of a bridge about which he was working, an instruction that unless plaintiff received his injuries from the natural and probable result of raising the end of the bridge, and by the means employed in raising same, he could not recover, is properly refused, since, although it is otherwise correct in point of law, it eliminates the issue as to whether the appliances furnished by the employer were suitable, proper, and reasonably safe, and is therefore calculated to mislead the jury. *Mexican C. R. Co.* v. *Murray* (1900) 42 C. C. A. 334, 102 Fed. 264.

An instruction that if the employees of the defendant railroad company left a switch open, so that the plaintiff, who was standing on the footboard of an engine which ran in upon a side track, was injured by the resulting collision, the fact that he was riding on the footboard would not prevent a recovery,—is material error, since it takes from the jury the question of the plaintiff's negligence. *Chicago & A. R. Co.* v. *Harrington* (1898) 77 Ill. App. 499.

In an action against a railroad for injuries to an employee, caused by defendant's foreman negligently throwing a tie from a caboose and striking plaintiff, an instruction to find for defendant if the throwing of the tie was the proximate cause of the injury, and plaintiff knew it was being thrown from the car, is properly refused, since it does not submit the issue of the foreman's negligence in so doing, and the jury might, under such an instruction, find for the defendant in spite of their being of opinion that the injury did not result from simply throwing the tie from a running train, but from the negligent manner of so doing. *Galveston, H. & S. A. R. Co.* v. *Dehnisch* (1900); Tex. Civ. App.) 57 S. W. 64.

(c) *Appropriateness with reference to the evidence introduced at the trial.*—An instruction is properly given when it tends to enlighten the jury with regard to a legal principle which is relevant to the case, and proper for the jury to consider with reference to the evidence respecting a fact on which the jury is required to furnish an answer. *Western Tube Co.* v. *Polobinski* (1901) 192 Ill. 113, 61 N. E. 451, Affirming (1 Ill. App. 640.

An employer sued for personal to an employee is entitled to an tion as to the extent and limi duty to plaintiff in respect to th of the place where his work w performed. *Guinard* v. *Kansas Co. Co.* (1897) 95 Wis. 482, 70 671.

An instruction to the effect brakeman injured through the of a defective ladder cannot c there was a visible defect in the and he failed to report it, is ref used, where there is no evi the defect was visible, or the tiff ever saw the car before the accident. *Toledo, W. & W.* v. *Ingraham* (1875) 77 Ill. 309.

An instruction in an action sonal injuries to a railroad that if the jury believe that d used ordinary care to have the inspected, and had no actual k of its defective condition, they for defendant, is properly refus there is no evidence that any was made, although there is that there were persons whose was to make inspection. *Chic R. Co.* v. *Binkopski* (1897) 72 22.

A requested instruction in for personal injuries from the of a boiler, that the defendants held liable for defects in the ture of the boiler or in its condition of which they knew to have known, is properly where there is no evidence of defects. *Gillespie* v. *Dry Dock B. R. Co.* (1896) 12 App. Div. N. Y. Supp. 245.

An instruction that the would not be liable if the ma ated by plaintiff was the one use for its purpose and in go though the jury should find t would admit plaintiff's fingers between it and the drum, is no ously refused, as the court called on to decide as to the p of such a machine's admitting hand. *Swift & Co.* v. *Holoubek* 62 Neb. 31, 86 N. W. 901, Rec Rehearing (1900) 60 Neb. 7 W. 249.

The court properly refuses requested instruction in an against a master for a person from the explosion of a boiler the master relies on an inspecti boiler made by public offici

chargeable with any negligence on their part in making the inspection, where there is no evidence that their inspection was in fact negligent, or that they were incompetent to make the inspection, and the charge correctly informs the jury that the master could not rely upon such inspection alone. *Gillespie v. Dry Dock, E. B. & B. R. Co.* (1898) 12 App. Div. 501, 42 N. Y. Supp. 215.

An instruction that the jury might consider the manner in which the trench which caved in upon the plaintiff was shored and supported is warranted where evidence as to what was customary in the way of bracing such a ditch is received, after having been excluded when first offered. *Schmit v. Gillen* (1899) 41 App. Div. 392, 58 N. Y. Supp. 45.

In an action for an injury caused by a piece of steel which flew off a rivet hammer, an instruction to the effect that, as the evidence showed that the hammer in question was made by a manufacturer whose tools were of high standing, and that such hammers must be highly tempered, and were therefore liable to chip and crack when in use, the plaintiff assumed the risk of being injured by such chipping or cracking, is properly refused, where the facts, as shown by the witnesses, were not applicable to hammers which had become cracked and chipped from use like the one which caused the accident. *De La Verne Refrigerating Mach. Co. v. Stahl* (1900) 24 Tex. Civ. App. 471, 60 S. W. 39.

An instruction, in an action for injuries, that, if the jury believed it was dangerous to ship and handle dynamite in the caboose car of a train with the doors open, and that such danger could have been avoided if a safer way, known or easily capable of being learned by the master, had been adopted, then it was the duty of the master to his servants to adopt such safer way, is not open to exception on the ground that no allegation or proof of a safer method was shown, since there was a patent danger in so shipping such an explosive. *Rush v. Spokane Falls & N. R. Co.* (1900) 23 Wash. 501, 63 Pac. 500.

Judgment for an employee will not be reversed, at suit of employer, for the giving of an instruction that the burden of proof is on employee to show both defect in machine, with negligence in providing it, and also negligence in permitting floor on which he stood to operate it to be wet and slippery, when accompanied, also, by instruction to find for employer if the machine was not defective, though there was no evidence that the admittedly wet and slippery condition of the floor was due to negligence. *Swift & Co. v. Holoubek* (1901) 62 Neb. 31, 86 N. W. 910, Reversing on Rehearing (1900) 60 Neb. 784, 84 N. W. 249.

The refusal of an instruction embodying the doctrine that an employer is not culpable if the environment of the servant was as safe as it usually is under similar circumstances in a business of the same character is prejudicial error in any case where the evidence is such that the defendant may possibly escape liability on this ground. *St. Louis, P. & N. R. Co. v. Cronin* (1900) 87 Ill. App. 521 (see, generally, chapter XL., *ante*).

Instructions in a case based on an injury caused by the emergence of a locomotive from a building without warning are inadequate if they do not notice facts proved by the testimony that the owner regarded the place as a dangerous one, that no warning had been given to the injured person, although he was inexperienced, nor the facts in regard to the track and the manner of its use and the place of the accident, which show the place to have been peculiar and dangerous. *Hess v. Bethlehem Iron Co.* (1898) 31 C. C. A. 363, 59 U. S. App. 627, 88 Fed. 23.

Where, in an action for injuries received by an engine wiper while moving a wheel by order of his foreman, there is proof that the mechanism and movement of the wheel were unusual and that he was unfamiliar with it, and was suddenly set to work to aid in moving it, it was held that a charge in favor of defendant, excluding the issues of plaintiff's inexperience and want of knowledge of the danger, was properly refused. *Galveston, H. & S. A. R. Co. v. Renz* (1900) 24 Tex. Civ. App. 57, 59 S. W. 280.

Where, in an action for injuries to an engine wiper while moving a wheel by order of his foreman, issues as to his experience in the particular work, and defendant's knowledge thereof, were presented by the evidence, a charge instructing the jury, without qualification, that he assumed the ordinary risks incident to the work, was misleading, and calculated to exclude such issues from the case. *Galveston, H. & S. A. R. Co. v. Renz* (1900) 24 Tex. Civ. App. 335, 59 S. W. 280.

An instruction embodying the rule as to continuance of work with knowledge

of a defect should not be refused when the evidence introduced at the trial makes such a charge pertinent, although the question is not directly raised by the plaintiff's pleadings. *Johnson* v. Ga. Pac. & A. R. Co. (1875) 55 Ga. 123.

A requested instruction, that the rule as to a master's duty to furnish a safe place for a servant to work does not apply where the place is made unsafe solely by reason of the hazardous character of the work which the servant has undertaken to do, and where the latter is aware of or by the exercise of his faculties could with ordinary care have become fully advised, of the character of the work and the surroundings,—even if good as an abstract proposition, is not applicable where the danger was due to a bank of clay overhanging an excavation in the shale beneath, which could have been removed as the excavation proceeded, and the servant injured was inexperienced in the work. *Alton Paving, Pkg. & Fire Brick Co.* v. *Hudson* (1898) 176 Ill. 270, 52 N. E. 256, Affirming 74 Ill. App. 612.

A charge upon the effect of the master's knowledge of a defect is erroneous, where there is no evidence that he had any knowledge of the unsafe character of the appliance. *H. S. Hopkins Bridge Co.* v. *Barnett* (1892) 85 Tex. 16, 19 S. W. 884.

An instruction that if the coupling pins were defective, and the fact was known to plaintiff, and he continued in the service of the company, he assumed the risk arising from defective pins, is erroneous where the evidence is uncontradicted that the plaintiff knew nothing about the pin, the defective condition of which contributed to his injury, and that it was customary to throw away all defective pins. *Missouri, K. & T. R. Co.* v. *Baker* (1900) Tex. Civ. App.) 58 S. W. 961.

An instruction to the effect that the giving of an express promise to repair will not enable the servant to recover if the danger of using the appliance is so great that no man of ordinary prudence would continue to use it, is rightly refused where the evidence is that the plaintiff went to work because he relied, not on a promise to repair, but because he was told that the appliance had been repaired since he last used it. *Atchison, T. & S. F. R. Co.* v. *McKee* (1887) 37 Kan. 592, 15 Pac. 484.

No express instruction is required in regard to an alleged but unproved inexperience of plaintiff, who sues for injuries received in defendant's employ, where such ground of recovery shown by the evidence or include charge. *Gulf, C. & S. F. R. Co.* (1896; Tex. Civ. App.) 34 S. W.

An instruction on the con negligence of plaintiff's inex his assumption of the risk, quired by evidence that such who was a railroad engineer, over the road a few times wit trains at the place of the acci was caused by defects in t *Walker* v. *McNeall* (1897) 17 59 Pac. 518.

In an action for injuries sus plaintiff by the breaking of a lever, an instruction that, if knew, or had the means of through the use of it, what pliance which he was constr was sufficient or not for the which it was being used, he risk of using it, is erroneous is nothing in the evidence to the use of the lever by p gested a defect therein, and faulty for the reason that might have been led to t plaintiff, in the absence of a fect, did not have the right that defendant had used due provide a suitable appliance. *Sherman, S. & S. R. Co.* (1 Civ. App.) 58 S. W. 964.

In an action for the death road engineer by derailment of by a misplaced switch, an that employees of railroads the risks usually incident to in which they engage, and the jury believe that the accident in the death of such engineer sult of hazards incident to ness of railroading, and was by want of ordinary care on of defendant, plaintiff can is properly refused where the clearly shows that the switch placed through the defendant of the switch, or through inter some unauthorized person. *T. C. R. Co.* v. *Gaither* (1897 App.) 43 S. W. 266.

A charge as to the doctrine tion of risks cannot be ob the ground that it submits t a theory not raised by the where the plaintiff himself h that he very much doubted defect in an apparatus requir a tensional strain could have covered on inspection, that i possible to know how great would actually be in any given

that the best of such machinery frequently gave way. *Throckmorton* v. *Missouri, K. & T. R. Co.* (1898) 14 Tex. Civ. App. 222, 39 S. W. 174.

An instruction on the question of the father's acquiescence in the employment of his son in a dangerous service, that one is deemed to have acquiesced when, with full knowledge of all the facts, he refrains from objecting or enforcing his objections to a proper extent for such time and under such circumstances that it may be reasonably inferred that he has waived or abandoned his right to object, is proper if an issue as to acquiescence is raised by the evidence. *Missouri, K. & T. R. Co.* v. *Evans* (1897) 16 Tex. Civ. App. 68, 41 S. W. 80.

An unqualified instruction which states that the plaintiff cannot recover if he knew of certain specified defects is properly refused where there is evidence going to show the existence of other defects as well. *Houston & T. C. R. Co.* v. *Kelley* (1896) 13 Tex. Civ. App. 1, 34 S. W. 809. Rehearing Denied in 13 Tex. Civ. App. 25, 46 S. W. 863.

A refusal to charge on the questions of assumed risk and contributory negligence in an action for injuries received by plaintiff while in defendant's service as a section hand was proper, where the evidence showed that his injuries resulted from defendant's negligence in running a train at a high rate of speed, without warning, so near to a hand car that one who assisted plaintiff in lifting it from the track became so frightened that he let go his hold, thereby injuring plaintiff. *International & G. N. R. Co.* v. *Newburn* (1900) Tex. Civ. App.) 58 S. W. 542. Affirmed in (1901) 94 Tex. 310, 60 S. W. 429 (this point not discussed).

In an action against a railroad company for negligently causing a brakeman's death, an instruction directing attention to decedent's conduct in relation to matters as to which there is no proof of contributory negligence, and so giving an excessively wide range to the jury to search for contributory negligence, is properly refused. *Missouri P. R. Co.* v. *Fox* (1900) 60 Neb. 531, 83 N. W. 744.

A request for an instruction in a suit by a brakeman to recover for injuries received while walking between cars to uncouple them, contrary to the rules of the road, that he cannot recover if he voluntarily violated the rule, cannot be refused, although the evidence tends to show that the rule had been waived. The instruction requested is applicable to one possible theory of the effect of the evidence. *Cleveland, C. C. & St. L. R. Co.* v. *Baker* (1899) 33 C. C. A. 468, 63 U. S. App. 553, 91 Fed. 224.

In the absence of evidence to show, in an action for injuries, that a servant selected the place to do his work, an instruction that, if the plaintiff did not select a safe place to work, he could not recover, is properly refused. *Silveira* v. *Iversen* (1900) 128 Cal. 187, 60 Pac. 687.

Where previous instructions had fully covered the law of the case, and no evidence of defendant's negligence is introduced, plaintiff is not entitled to the instruction, "Knowledge of the danger was not conclusive evidence of neglect in failing to avoid it." *Joyce* v. *Worcester* (1885) 140 Mass. 245, 4 N. E. 565.

Where a brakeman was thrown from a car by the giving way of a hand hold while he was placing himself in position to leave the car when the train arrived at a certain point, an instruction to find for the railroad if the brakeman was negligent in getting off the car while it was running at the rate of 10 miles an hour is properly refused. *International & G. N. R. Co.* v. *Howes* (1899; Tex. Civ. App.) 54 S. W. 325.

As the burden is on a railroad company, in an action for death of a fireman caused by excessive speed of the engine, to show that deceased had control over the speed, it cannot complain of submission of the issue as to whether he had such control, though there was no evidence as to it. *Galveston, H. & S. A. R. Co.* v. *Ford* (1899) 22 Tex. Civ. App. 131, 54 S. W. 37.

Where the evidence tends to show that the braces of a sewer which fell in upon the injured servant were put in place under the direct supervision of a vice principal, it is not error to refuse a charge explaining the doctrine as to co-servants. *La Salle* v. *Kostka* (1901) 199 Ill. 130, 60 N. E. 72, Affirming (1900) 92 Ill. App. 91.

Where the evidence shows that the negligence which caused the injury consisted in the breach of one of the master's non-assignable duties, it is not error to refuse to give an instruction as to the rule which prevents a recovery for injuries caused by the negligence of a fellow servant. *Terrell Compress Co.* v. *Arrington* (1898; Tex. Civ. App.) 48 S. W. 59.

Where the defendant contends that the plaintiff was a fellow servant with the employee whose act caused the injury, it is not error to give an instruc-

tion abstractly defining the relation of fellow servants. *Western Tube Co.* v. *Polobinski* (1901) 192 Ill. 113, 61 N. E. 451, Affirming 94 Ill. App. 640.

A requested charge in an action by a servant to recover for personal injuries, that the verdict should be in favor of the employer if the employee was injured by reason of the negligence of a fellow servant, is properly refused, when there is no evidence to support a finding that the accident was thus caused. *Schmit* v. *Gillen* (1899) 41 App. Div. 302, 58 N. Y. Supp. 158.

In a case where there are no facts calling for it, an instruction with regard to the limitations upon the fellow servant doctrine is deemed to be prejudicial error, where, upon the whole case, it appears that the jury were thereby misled and confused. *Coal Creek Min. Co.* v. *Davis* (1891) 90 Tenn. 712, 18 S. W. 387.

In an action by an employee against a master for injuries alleged to have been caused by the incompetency and negligence of a coemployee, it is not erroneous for the court to make a distinction between the incompetency and negligence, and to submit to the jury only the question of negligence, where the evidence was entirely directed to the manner in which such coemployee performed his work, and the knowledge of plaintiff and defendant in respect thereto. *Olsen* v. *North Pacific Lumber Co.* (1900) 40 C. C. A. 427, 100 Fed. 384.

In an action against a railroad for injuries resulting from the engineer's negligence, a charge submitting the case not only in respect to his want of knowledge of the road, but also his incompetency generally, is erroneous, where the evidence failed to show that the company knew of such incompetency, or failed in performing its duty in selecting him for the work. *Galveston, H. & S. A. R. Co.* v. *Gibson* (1899; Tex. Civ. App.) 54 S. W. 779.

Where there is no evidence to show that the accident was caused by the negligence of the fellow servant alleged to be incompetent, it is error to give a charge directing the jury to inquire whether that servant was negligent. *Galveston, H. & S. A. R. Co.* v. *Faber* (1885) 63 Tex. 344, on second appeal (1888) 77 Tex. 153, 8 S. W. 64.

Where there is no evidence that a certain employee was incompetent or guilty of negligence causing the accident, it is error to instruct the jury that, if they find the accident to have been due to his incompetence, the plaintiff should recover. *Galveston, H. & S. A.* v. *Arispe* (1891) 81 Tex. 517, 17 47.

An instruction that, if the jur that the plaintiff was injured negligence of the fellow servant act caused the injury, he cannot unless he shows that the fellow was also incompetent, is not open jection, where there is evidence was intemperate, to the knowle the master's representative. *C* & Z. Co. v. *Roediger* (1894) 78 M 28 Atl. 901.

In *Cooper* v. *Hamilton Mf* (1867) 14 Allen, 193, the cou ruled out the defense of common ment in a case where it appear the plaintiff's evidence that he gaged, with other workmen, in a heavy machine from one room other, by means of trucks, one wheels of which broke through th causing the injury in question. preme court said: "We feel cons to set aside this verdict, not bec case was one which ought not been submitted to the determina the jury, but because the d were precluded by the ruling court from submitting to their eration a ground of defense whic to have been left open to them. pears by the exceptions that, a evidence in support of the pl case was put in, the court m peremptory ruling that the pain law that an employee could no tain an action against his emp he was injured by the negli others in the service of the s ployer, when he was acting in charge of his duty, and all were in a common service, would not l cable to the case. The effect decision, at the stage of the which it was announced, was to the defendants from offering dence to sustain a defense based rule of law referred to. This was erroneous. No doubt the de were bound to provide suitable tures for carrying on all the op necessary to the transaction of ness or performing the work, the persons employed by them gaged. As applied to the case this principle of law would re them to use proper care in ord that the doors were of sufficient to support any machine which necessary to move over or up But the nature of this care wh were bound to use was such

defendants might have performed their full legal duty by employing suitable persons of competent skill and experience, whose business it was to keep the floors in such condition as to repairs that they were fit and safe for use for any of the purposes for which it might become necessary to appropriate them. If they were diligent and careful to this extent, and any want of repair had not existed for so long a time as to show absolute negligence on the part of the defendants, then the accident would have been attributable to the negligence of an agent or servant in the service of a common employer with the plaintiff, and the case would have come within the principle which the court, without hearing the evidence in behalf of the defendants, decided was inapplicable to the case."

Where a jury would be justified in finding from the facts in evidence that a fireman jumped from his engine after seeing a slow-up signal, and was thrown against the plaintiff, an instruction based on the theory that the failure of the engineer to obey the signal in time was the proximate cause of the injury is not erroneous. *Galveston, H. & S. A. R. Co.* v. *Jackson* (1899) Tex. Civ. App.) 53 S. W. 81, Judgment Affirmed in (1900) 93 Tex. 262, 54 S. W. 1023.

In an action by a switchman for damages for injuries sustained by being thrown from a car where his duties called him, by the sudden jerking or checking of the car, alleged to have been caused by the negligence of the foreman of the switching crew or the engineer of the switch engine, where the evidence shows that the control of the acts of the switchmen and of the movements of the train that was being switched was by means of signals given by the foreman to the engineer and switchman, and that it was the duty of the switchman to keep a lookout for all signals given by the foreman, an instruction that if the jury "believe from the evidence that there was no more shaking and jarring in said car at the time of the injury to the plaintiff than was usual or customary on defendant's railroad at and before that time, their verdict must be for the defendant,"—is erroneous, as failing to predicate like conditions or similar circumstances, such as existed at the time of the alleged injury. *Louisville & N. R. Co.* v. *Smith* (1901) 129 Ala. 553, 30 So. 571.

Where plaintiff's only right to be on the car where he was injured depended on the fact that he was an employee, though the car stood near a highway, it is not error to refuse to instruct on the duty of the engineer to blow the whistle and ring the bell at such point. *De Walt* v. *Houston, E. & W. T. R. Co.* (1900) 22 Tex. Civ. App. 403, 55 S. W. 534.

Where there was evidence to show that a servant had been injured by the starting of a train, whereby he was caught between a car and platform, and received additional injuries from a foreman's negligence in backing the train, and that the former injury might not have killed him, an instruction that, if the foreman was not negligent in starting the train, a verdict should be returned for the defendant, is properly refused, as the latter injury is also to be considered by the jury. *Houston & T. C. R. Co.* v. *White* (1900) 23 Tex. Civ. App. 280, 56 S. W. 204.

(d) *Appropriateness with reference to theories advanced by either party.*—Instructions should be given as to any theory which either the plaintiff or defendant may advance with respect to the significance of any part of the testimony which bears upon a material issue. *Cerrillos Coal R. Co.* v. *Deserant* (1897) 9 N. M. 49, 49 Pac. 897.

In a case where a servant's eye was destroyed by a piece which was chipped off of a sledge, wielded by a fellow servant, it was held to be error to refuse an instruction that, if the evidence showed the injury to plaintiff to have been the result of a mere accident, he could not recover. *Webster Mfg. Co.* v. *Nisbett* (1900) 87 Ill. App. 551.

Where the plaintiff's case is based partly on the theory that the defendant was negligent in retaining an engineer, and partly on the theory that a defective locomotive was used, an instruction to the effect that there was a failure of proof to show that the engineer was unskilful, incompetent, and negligent, and that the appellant had knowledge of his unfitness a sufficient length of time prior to the accident to have provided against it, and that therefore the jury should find for the appellant, is properly refused, for the plaintiff may still recover by reason of the defects in the engine. *Wabash & W. R. Co.* v. *Morgan* (1892) 132 Ind. 430, 31 N. E. 661, 32 N. E. 85.

Where one of several theories as to the cause of an injury is that it resulted from the negligent loading of cars, and the evidence tends to show that the loading was done by an independent contractor, it is error, in a case

where a special verdict is to be rendered as to each of these theories, to refuse to submit to the jury the question of negligence in regard to the loading. *Haley* v. *Jump River Lumber Co.* (1892) 81 Wis. 412, 51 N. W. 321, 950.

In an action against a railroad company for negligently causing the death of a brakeman, an instruction as to decedent's contributory negligence, which wholly omits reference to plaintiff's contention that decedent's death was occasioned by the negligent construction of a braking appliance, is properly refused. *Missouri P. R. Co.* v. *Fox* (1900) 60 Neb. 531, 83 N. W. 744.

In an action for injuries resulting from his falling from a derrick about which he was working, an instruction which was addressed to the issue of assumed risk, which ignores the question of a vice principal's negligence, is erroneous. *St. Louis S. W. R. Co.* v. *Smith* (1901; Tex. Civ. App.) 63 S. W. 1064.

(e) *Instructions objected to as invading the province of the jury.*—An instruction declaring it the duty of defendant to adopt reasonably safe methods, "and" to use well-known and practical appliances in thawing dynamite, is erroneous in an action for injuries to an employee from an explosion, where defendant used no appliances and the question at issue is whether its failure to do so was negligence. Such an instruction in effect takes from the jury the right to determine whether the defendant's method of thawing dynamite before an open fire, without such appliances, was reasonably safe. *Bertha Zinc Co.* v. *Martin* (1895) 93 Va. 791, 22 S. E. 869.

It was proper to refuse to charge that the mere fact of an accident raises no presumption of negligence; since such a charge is an invasion of the province of the jury. *Missouri, K. & T. R. Co.* v. *Baker* (1900; Tex. Civ. App.) 58 S. W. 964.

It is error to give an instruction which assumes that a material fact which is in dispute has been proved. *Neville* v. *Chicago & N. W. R. Co.* (1890) 79 Iowa, 232, 44 N. W. 367.

An instruction that the plaintiff, by entering into and remaining in defendant's service, assumed only the ordinary risks directly connected with his immediate employment as a brakeman, and did not assume any risk or dangers resulting from a defective and dangerous track or frog, unless prior to the time of his injury he actually knew, or by the use of reasonable and ordinary care under all the circumstances shou[ld] known, that the particular frog he was injured was in a defect[ive] dangerous condition, and thereaf[ter] mained in defendant's empl[oy] using such track and frog with[out] jection or promise of amendment defect, was held to be erroneous, reason that it assumed the fro[g] in a dangerous condition. *Co[x]* *Burlington, C. R. & N. R. Co.* 62 Iowa, 491, 17 N. W. 760. Th[e] said: "Appellee claims that the ant pleaded a confession and av[oid] by averring that the deceased k[new] by the exercise of ordinary care have known, of the condition of t[he] and that he made no objection and was promised no change whereby he assumed the risk. examination of the averments of swer, it will be seen that the d[e]fe does not admit that the frog w[as] dangerous condition. It is stated that the deceased 'could w[ith] known of its location and const[ruc] and the dangers thereto, if an dangers existed in fact.' We k[no] no rule of pleading which would quired the defendant to admit frog was in a dangerous condi[tion] order to avail itself of the defe[nse] deceased knew of its actual co[n]d and made no complaint."

In an action for injuries ca[used] the derailment of a locomotive, [al]l by the defendant to have been c[au]s the excessive speed at which the bimself was running the locom[oti]ve requested charge which assume when the accident occurred, ther[e] rule of the company in force w[hich] hibited the operation of an eng[ine] greater speed than 18 miles an h[our] a curve of over 6 degrees, is prop[er] fused; since, if the court had g[iven] charge, its effect would have bee[n] the jury that such a rule was [in] that plaintiff's intestate had n[o] it, and that the point of accident a curve of over 6 degrees—all were matters for the jury. *G[ulf]* *H. & S. A. R. Co.* v. *Smith* (1 Tex. Civ. App. 127, 57 S. W. 99

In an action for injury caus[ed] explosion, an instruction that should find defendant guilty gence if they believe that the which drew the caboose in wh[ich] plosion occurred was defective it emitted large quantities of which set fire to a box in the containing dynamite, does not on the province of the jury, w[hich]

evidence is that the engine emitted an unusual quantity of sparks, so that it was liable to set fire to any combustible with which the sparks came in contact, and that the company's workmen were conveyed in the caboose, with dynamite therein, the presence of which was unknown to them. *Allen* v. *Spokane Falls & N. R. Co.* (1899) 21 Wash. 324, 58 Pac. 244.

In an action by a brakeman for injuries received while coupling cars, a charge that, if plaintiff, when he went to make the coupling, placed himself in such a position as was customary, and gave a signal that the cars approaching him should move more slowly, and that this signal was disregarded, the result being that he was injured, he could recover, is erroneous, since the jury receive therefrom the impression that, if the plaintiff assumed the customary position, he was using ordinary care. *Missouri, K. & T. R. Co.* v. *Baker* (1900; Tex. Civ. App.) 58 S. W. 964.

In an action for the death of a brakeman who, while standing on the pilot of a switch engine, lost his footing, and was run over and killed, an instruction that if the engineer, by the exercise of ordinary care, could have seen that the brakeman had lost his footing, and he did in fact lose his footing, and the engineer, by the exercise of ordinary care, could have stopped the engine in time to have avoided inflicting fatal injuries on the brakeman, his failure to do so, if he did so fail, was negligence, is erroneous, in assuming, as a matter of law, that it was the duty of the engineer to exercise ordinary care to see that the brakeman had not lost his footing. *San Antonio & A. P. R. Co.* v. *Weller* (1900; Tex. Civ. App.) 62 S. W. 554.

In an action for injuries alleged to have been caused by the master's negligence in giving an order, an instruction which assumes such negligence to be the fact, and excludes from the jury all consideration of evidence which has been introduced and which tends to prove that the order had been given in different terms, is erroneous. *Linn* v. *Massillon Bridge Co.* (1899) 78 Mo. App. 111.

An instruction that if the jury believe that plaintiff's intestate and another person specified were fellow servants, and if the injury to the former was due to the tracks not being put and kept in good repair, plaintiff cannot recover, is properly refused where there is evidence that the bad condition of the track was not due to such person, and also that he was unreliable. *Rittenhouse* v. *Wilmington Street R. Co.* (1897) 120 N. C. 544, 26 S. E. 922.

In an action by an employee to recover for personal injuries alleged to have been caused by his employer's negligence in keeping and using a work bench and tools for the purpose of cutting wires, an instruction that the maintaining and using of such bench and tools was not in itself negligence, because they could have been used without injury to any one if proper precautions were taken, is reversible error, where there was evidence tending to prove that it was dangerous to cut wires on the bench with the means provided by the employer. *Ward* v. *Odell Mfg. Co.* (1898) 123 N. C. 248, 31 S. E. 495.

In *Elledge* v. *National City & O. R. Co.* (1893) 100 Cal. 282, 34 Am. St. Rep. 290, 34 Pac. 720, an instruction to the effect that the burden of proof as to the defendant's knowledge, or culpability in lacking knowledge, of any insecurity in the place of work is on the plaintiff, but that this burden is satisfied when it is shown that the place was insecure in such a respect that, if a proper inspection had been made by defendant, the insecurity would have been ascertained in time to have prevented the injury, was objected to on the ground that by using the word "when," instead of "whenever" or "if," the trial judge assumed that the necessary proof was made. The court said that such a construction of the language of the charge was opposed to the manifest intention of the judge, and that the last part of the charge simply specified the evidence which would be sufficient to satisfy the burden of proof.

An instruction that use or nonuse of bagging in hoisting iron pipe is not necessarily negligence is properly refused, where the omission to protect the pipe by canvas is the fact upon which the question of negligence substantially turns. *New York Electric Equipment Co.* v. *Blair* (1897) 25 C. C. A. 216, 51 U. S. App. 81, 79 Fed. 896.

An instruction is erroneous which, in doubtful cases, withdraws from the jury the question whether the negligent and injured servants were in branches of the business so distinct that the rule as to common employment is not applicable. *Ryan* v. *Chicago & N. W. R. Co.* (1871) 60 Ill. 171, 14 Am. Rep. 71 (error to charge that a laborer in a carpenter shop assumed the risk of an engineer's negligence in operating his engine). See § 504, *ante*.

A charge to find for defendant unless the jury believe the parties in charge of certain empty cars used more force than necessary in attaching them to the caboose, or were otherwise negligent in making the coupling, is a charge on the weight of evidence, since it makes the use of unnecessary force in attaching the cars negligence *per se*. To give such a charge, therefore, is error, though in other portions of the charge the failure of those engaged in annexing the empty cars "to exercise ordinary care to avoid injuring those in the caboose," if on account of such failure "the empty cars were run violently against the caboose," to plaintiff's injury, was made the test of liability. *Houston & T. C. R. Co.* v. *Burns* (1901; Tex. Civ. App.) 63 S. W. 1035.

An instruction that a servant has a right to presume that the master has performed his duty with ordinary care is not objectionable, as being upon the weight of evidence. *Missouri, K. & T. R. Co.* v. *Crowder* (1899; Tex. Civ. App.) 53 S. W. 380.

An instruction that if plaintiff, while in the performance of his duty and in the exercise of ordinary care, stepped upon a cross-tie and into a hole, and was thereby injured, he was entitled to recover, is not subject to the objection that it assumes that plaintiff was exercising due care, and that the injury was the proximate result of the condition of the premises where plaintiff was employed. *Sherman, S. & S. R. Co.* v. *Belf* (1900; Tex. Civ. App.) 58 S. W. 147.

Where plaintiff alleged, and it was not denied, that when he received his injuries he was working under the direction of defendant's bridge foreman, and the evidence shows that he received and obeyed orders from such foreman, an instruction treating the foreman as defendant's vice principal is not error. *San Antonio & A. P. R. Co.* v. *Weisers* (1899) 22 Tex. Civ. App. 344, 54 S. W. 910.

An instruction that if, after an independent contractor had quit a job and left the premises, the master adopted and used the structures he had erected, or acquiesced in their use by his servants, then such structures became those of the master and if, by reason of his failure to keep them in good repair, a servant was injured, he was responsible for the injury, is not objectionable, as charging the jury in respect to matters of fact, since the court does not undertake to say what facts amounted to an adoption of the structures. *Rinake* v. *Victor Mfg. Co.* (1900) 58 S. C. S. E. 700.

(f) *Instructions unduly emph particular portions of the evi* The case is properly submitted u whole evidence. A trial judge bound to single out one particul and give it a prominence whic have the effect of misleading t An instruction that the fact th fell out while a trench was be was some evidence of negli properly refused, in an action f sonal injuries by a subsequent earth in the trench, where, af first fall, uprights for the pur holding up the side walls were twice as thick as before. *O'* *O'Connell* (1897) 167 Mass. 38 E. 758.

(g) *Inconsistent instructions*— struction, in an action by an e for injury from the breaking plank in a scaffold on which working, that a servant is not b inspect the appliances furnish but may assume that they are bly safe, and that a servant is b take notice of such defects as w disclosed by ordinary care in o the appliances furnished him, th followed by an hypothesis of f which the jury are ordered against defendant, and embraci fact that plaintiff, in the exerci dinary care and diligence, wou discovered the defect, consti knot, is confusing, as a jury co ply both propositions. *Armour zeau* (1901) 191 Ill. 117, 60 N. Reversing 93 Ill. App. 235.

In *Schaub* v. *Hannibal & St. J* (1891) 106 Mo. 74, 16 S. W. court gave an instruction ask the defendant to the effect that ceased assumed the risk of i himself from the negligence of low servants in setting these fre too close to the point of the sw it also gave plaintiff's instruc which the jury were told that, i knocked from the car he was s standing on the ladder, and wholly by the negligence and ness of the defendant, its agents ants, in negligently leaving standing so close to the north s side track as to be in a dangero imity to the main track, then recover. The supreme court said the court here has not distinguis tween the duty of the defendant ter and the duty of the serv servants, to each other. It has

the jury that, if the master furnished a safe and properly constructed track, and employed competent servants, and furnished safe cars, that it had performed all the duty it owed deceased. The jury are told, on the contrary, that, if deceased lost his life by the negligence of the defendant or its servants, the defendant was liable. By its terms it includes all of defendant's servants, and, in so doing, authorizes the jury to attribute the negligence of trainmen engaged in the same common employment with deceased to defendant, and in so doing it most clearly contradicts the other instruction in which the jury were told deceased assumed the risk of the negligence of his fellow servants. The instructions under the evidence were misleading."

In a case where the evidence tends to show that the injury was due to the negligence of a fellow servant, it is error to give an instruction that the plaintiff had a right to assume that the defendant company had exercised reasonable care in the selection of its employees; that he was not bound to investigate whether it had done so or not; and that until such time as notice to the contrary was brought home to him, he had a right to act on such assumption. Even though such an instruction contains a correct proposition of law, it should not be given under such circumstances, as its practical effect is "to neutralize every other instruction given upon the subject of fellow servants, and absolutely cut out any defense based upon the theory that deceased came to his death through the negligence of a fellow servant." *Chicago, B. & Q. R. Co.* v. *Libey* (1896) 68 Ill. App. 144.

(h) *Instructions objected to as not being sufficiently specific.*— Where the jury have been instructed in general terms, on defendant's motion, as to contributory negligence, and no more specific instructions have been asked with respect to the consequences of plaintiff's violation of a rule, the defendant cannot complain that the jury were not told that such violation would preclude the plaintiff from recovery. *Louisville & N. R. Co.* v. *Hiltner* (1900) 22 Ky. L. Rep. 1141, 60 S. W. 2, Reversing 21 Ky. L. Rep. 1826, 56 S. W. 654.

A charge that, if the jury believe that the accident was caused by the careless and unskilled manner in which plaintiff handled or operated the tools used in his work, and that but for such carelessness the accident would not have happened, plaintiff could not recover, should be refused, as too general, where the allegation is that the injury was caused by a chip from a particular defective hammer. *Duerst* v. *St. Louis Stamping Co.* (1901) 163 Mo. 607, 63 S. W. 827.

Where the question whether a temporary foreman was competent to manage the appliances has been fairly raised by the evidence, and the trial judge has correctly stated who are fellow servants, error cannot be predicated of the omission of specific instructions as to the relation of the foreman to the plaintiff, where no request for them was made. *Trainor* v. *Philadelphia & R. R. Co.* (1890) 137 Pa. 349, 20 Atl. 632.

(i) *Unnecessary and superfluous instructions.*—It is not error to refuse to give an instruction which is virtually a repetition of one already given. *Frandsen* v. *Chicago, R. I. & P. R. Co.* (1873) 36 Iowa, 372.

An instruction that if a railroad employee, injured while coupling cars, was without fault, the law raises a presumption that the defendant company was negligent, is not erroneous for failure to charge in the same connection the defendant's theory that the injury was a mere accident, where such theory is sufficiently covered by other parts of the charge. *Raleigh & G. R. Co.* v. *Allen* (1898) 106 Ga. 572, 32 S. E. 622.

"If the principles of those doctrines [which preclude the servant from recovering if he has assumed the risk or has been negligent] were stated correctly [in the instructions], and in such a way as to enable the jury to apply them intelligently to what, from the conflicting evidence, they should find to be the facts, the defendant cannot complain that they were not applied in detail by the court to a particular state of facts which might or might not be found by the jury." *Martineau* v. *National Block Book Co.* (1896) 166 Mass. 4, 43 N. E. 513.

Where the charge contains instructions on the servant's assumption of risk, an instruction as to a master's duty to furnish and maintain safe appliances is not erroneous for failure to mention the question of the plaintiff's assumption of risk. *Hellar* v. *National & P. Worsted Mills* (1901) 22 R. I. 347, 47 Atl. 1092.

Where the charge of the court in an action to recover for injuries sustained by reason of the breaking of a handle on a hand car places upon the plaintiff the burden of showing what caused the handle to break, it is not error to refuse

an instruction to return a verdict for defendant if it cannot be determined from the evidence what caused the breaking. *Texas C. R. Co.* v. *Fox* (1900) 24 Tex. Civ. App. 295, 59 S. W. 49.

In an action by a brakeman for injuries caused by the insecurity of a handhold, it is not error to refuse to instruct that the mere fact that the handhold came off, and that the plaintiff was hurt, will not justify a recovery, where the jury are instructed to find for defendant if it had exercised care in inspecting the car. *International & G. N. R. Co.* v. *Hawes* (1899; Tex. Civ. App.) 54 S. W. 325.

Where, in an action to recover for injuries, the servant's instruction as to the negligence of the master is otherwise adequate, it is not necessary that it should embrace the master's theory of the results of his knowledge of the defect, since the master can submit such theory in an instruction of his own. *Hester* v. *Jacob Dold Packing Co.* (1900) 84 Mo. App. 451.

The inclusion of main rails and guard rails in an instruction defining the duty of a railroad company with reference to keeping its tracks, switches, main rails, and guard rails in proper repair, though there is no question as to their condition, is not reversible error, where it is improbable that the jury are misled thereby. *International & G. N. R. Co.* v. *Turner* (1897; Tex. Civ. App.) 43 S. W. 560.

Where the petition in an action for injuries to a servant alleged that it was caused by stepping on a projecting bolt of the footboard of defendant's engine, it is not error to refuse to instruct that there can be no recovery if the injury was caused by stepping on some other substance on such board, where the court has also charged that a verdict for the defendant should be given if there was no projecting bolt on the footboard, or if there was no negligence in reference to the bolt, or if the bolt was not the proximate cause of the accident. *Houston & T. C. R. Co.* v. *Milam* (1901; Tex. Civ. App.) 60 S. W. 591, Reversing (1900; Tex. Civ. App.) 58 S. W. 735.

(j) *Error in instructions, when cured by other parts of the charge.*—An instruction that defendant was required to furnish a reasonably safe place in which the plaintiff should work, though erroneous when taken alone, is harmless when other parts of the instruction and other instructions emphasize that defendant was bound only to use reasonable care to furnish a reasonably [illegible] place in which plaintiff should [illegible] *Taylor* v. *Star Coal Co.* (1899) Iowa, 40, 81 N. W. 249.

An instruction in an action [illegible] employee against a railway compan[illegible] injuries sustained by its negligence, [illegible] if at the time the employee was [illegible] ly an engine the persons in charge [illegible] of were in the exercise of ordinary [illegible] "you will find for the defendant, [illegible] you find for plaintiff under the fir[illegible] agraph of this charge."—is not e[illegible] ous, where such first paragraph exp[illegible] instructs the jury that the emp[illegible] right of recovery rests upon the [illegible] gence of the railway company [illegible] verdict in his favor cannot be pu[illegible] rendered under that paragraph, [illegible] such negligence is proved. *Texas* [illegible] *R. Co.* v. *Breadow* (1898) 19 Tex. [illegible] App. 483, 47 S. W. 816.

In one case an instruction to the [illegible] that the plaintiff must not only [illegible] lish, by a preponderance of evi[illegible] that his own negligence did not [illegible] tribute to the injury, but also th[illegible] was ignorant of the defects whi[illegible] sulted in the injury, was objected [illegible] the ground that it authorized the [illegible] to find for the plaintiff if thes[illegible] propositions were established, a[illegible] not direct their attention to the [illegible] which the fact of his knowl[illegible] proved, would have upon the q[illegible] whether he assumed the risk. [illegible] jection was overruled on the g[illegible] that the effect of the plaintiff's [illegible] edge was indicated in another p[illegible] the instruction. *Belair* v. *C[illegible] N. W. R. Co.* (1876) 43 Iowa, 66[illegible]

An instruction for plaintiff, in [illegible] tion for damages because of defec[illegible] negligence, which authorizes a re[illegible] on facts hypothesized therein, w[illegible] reference to plaintiff's assumption [illegible] risk, relied on as a defense, is not [illegible] neous where the assumption of [illegible] submitted to the jury in a separ[illegible] st uction. *Sackewitz* v. *American Mfg. Co.* (1899) 78 Mo. App[illegible]

The error of a court in assum[illegible] disputed fact as true is cured by [illegible] instructions which correctly sta[illegible] law upon the subject. *Kansas* [illegible] *Ft. S. & M. R. Co.* v. *Becker* (18[illegible] Ark. 1, 77 Am. St. Rep. 78, 40 L. [illegible] 814, 53 S. W. 406.

The failure of an instruction to [illegible] cate that the defendant mining [illegible] pany would be liable only for an [illegible] directly caused by its neglect to [illegible] the room in which the plaintiff w[illegible] in a reasonably safe condition is

although that allegation may be followed by another which specified one particular form which the negligence assumed.[1]

Special interrogatories which pertain to evidentiary facts only, and not to ultimate facts, are properly refused.[2]

It is proper to refuse to submit an interrogatory which assumes as true an evidentiary fact.[3]

A judgment based on a finding which is not supported by any evidence, or which is supported by insufficient evidence, will be reversed.[4]

A judgment for the plaintiff, entered upon a special verdict, will

by instructions that the defendant is not liable if the plaintiff loosened or pulled down the piece of slate that fell on him, or if he could have avoided the accident by ordinary care which must measure up to the dangers of the employment. *Russell Creek Coal Co.* v. *Wells* (1898) 96 Va. 416, 31 S. E. 611.

While it is the better practice to state the qualifications of a master's liability for injuries to an employee in connection with a statement of the liability, the failure to do so, where such qualifications are referred to in connection with a statement of the liability, will not render the charge misleading. *International & G. N. R. Co.* v. *Jackson* (1901) 25 Tex. Civ. App. 619, 62 S. W. 91.

Error of the court in giving Ga. Civ. Code, § 2321, in charge to the jury in a suit by an employee against a railroad company for an injury alleged to have resulted from the negligence of an employee, is not cured by the judge subsequently stating in his charge the correct rule on the subject, without calling the attention of the jury to his mistake in quoting the section as the law of the case. *Port Royal & W. C. R. Co.* v. *Davis* (1898) 103 Ga. 579, 30 S. E. 262.

An objection to a charge that it was abstract, in that the jury were told that it was the defendant's duty to warn an inexperienced servant of the hazards and risks of his employment, and did not limit the obligation to the risk which was the actual cause of the injury, will not be allowed to prevail where there is no pretense that warning was given to the deceased about any other danger, and other parts of the charge, given at the instance of the railway, pointedly limit the jury's consideration to the particular risk to which the injury was due. *St. Louis, I. M. & S. R. Co.* v. *Davis* (1892) 55 Ark. 462, 18 S. W. 628.

[1] Where a complaint for injuries received by the fall of a telegraph pole on which plaintiff was working alleges defendant's failure to furnish a safe place to work, in not setting the pole sufficiently in the earth, and allowing the dirt around its base to be washed away, the plaintiff's case does not depend solely upon his ability to establish negligence in respect to the washing away of the earth. It is not error, therefore, to permit the jury to find an inadequate setting of the pole from all the evidence, including its appearance, the way it fell, and the description of the ground. *Riker* v. *New York, O. & W. R. Co.* (1901) 64 App. Div. 357, 72 N. Y. Supp. 168.

[2] As where in an action for injuries alleged to be caused by an imperfect and dangerous appliance, defendant requests the submission of interrogatories as to whether plaintiff was instructed not to use the appliance, and as to whether he was injured because he undertook to use it in violation of his instructions. *Gundlach* v. *Schott* (1901) 192 Ill. 509, 85 Am. St. Rep. 348, 61 N. E. 332, Affirming 95 Ill. App. 110.

Or where, in an action for the death of a railroad employee struck by an engine, the submission of special interrogatories as to whether he knew the place where he was struck was a dangerous place to work, and was loading his revolver when he was struck, was requested. *St. Louis, I. M. & S. R. Co.* v. *Eaquann* (1896) 161 Ill. 155, 43 N. E. 820.

[3] *Gundlach* v. *Schott* (1901) 192 Ill. 509, 85 Am. St. Rep. 348, 61 N. E. 332, Affirming (1901) 95 Ill. App. 110.

[4] *Morris* v. *Rochester Repairing Trans. Co.* (1901) 73 Conn. 680, 49 Atl. 180. *Toledo, St. L. & K. C. R. Co.* v. *Trimble* (1893) 8 Ind. App. 333, 35 N. E. 716.

to set aside, unless every fact which is required to make out his appears in that verdict. Its silence as to any material point amo with respect to the matter involved, to a finding against him.[5] It has been held that, if the conditions disclosed by the answer portion of the interrogatories indicate culpability on the defen part, the jury's assertion of its inability to answer certain oth terrogatories will not warrant the entry of a judgment for th fendant, although it may be clear that there was no lack of per evidence upon which to base a conclusion as to the facts to those interrogatories relate.[6]

Where it is necessary to set aside a special finding, for the r that it was physically impossible that the accident could have pened in the manner stated, and the other findings in regard defendant's negligence and the plaintiff's contributory negli have reference to the finding thus discredited, the whole of the ings are rendered inconclusive and insufficient to support a judg for the plaintiff.[7]

A judgment for plaintiff, based upon inconsistent special fin some of which indicate negligence on the part of the master's while others point to contributory negligence on the plaintiff's will not be allowed to stand.[8]

A general verdict for a servant is conclusive in his favor, unle special findings are utterly irreconcilable with it.[9] But if the

[5] *Phillips* v. *Romona Oolitic Stone Co.* (1898) 19 Ind. App. 341, 49 N. E. 467.

[6] Where a snow plough ran off the track of a railway and went through a bridge, it is error, in an action for injuries received by the engineer of the train, to enter a judgment for the defendant, where the jury found, in answer to three of the questions submitted to them, that the snow plough was defective, that the bridge was defective, and that the train was short handed, although they also stated that they did not know whose negligence, if any there were, caused the accident, nor whether defendant knew or ought to have known of these several conditions, and returned the same answer to several other questions which bore upon the liability of the defendant, and in respect to which enough evidence was submitted at the trial to enable them to give a positive answer. *Padsey* v. *Dominion Atlantic R. Co.* (1895) 27 N. S. 498. (Two judges dissenting.)

[7] *Pewaukee* v. *Cream City Sash & Door Co.* (1901) 109 Wis. 456, 84 N. W. 860.

[8] In an action by an employe while working under a bridge, jured by a timber thrown fro bridge by other workmen, specia ings that the direct cause of the was the failure of the foreman timely warning to plaintiff, and form the men who were unload timbers that there was any one the bridge, that plaintiff knew t coemployees were above him, ab throw off timber, that he coul avoided the injury if he had re where he was, and watched whi the timber was to fall,—are so sistent as to necessitate the reve a judgment for plaintiff. *St. L S. F. R. Co.* v. *Bricker* (1899) 6 224, 59 Pac. 268.

[9] *Hatchett* v. *Cincinnati, W. & Co.* (1892) 132 Ind. 334, 31 N. There is no irreconcilable conf tween a general verdict based theory that the injury was cau defendant's negligence, and the interrogatories, where it is s found that the breaking of the fl a car wheel, which was "roadw

wers to interrogatories are themselves contradictory, they will not control the general verdict, although that verdict may be inconsistent with a portion of the answers.[10]

was the proximate cause of the derailment, and the proximate cause of the wreck was found to be the high rate of speed at the point of derailment, and that finding also states that the track where the flange broke was not defective, but that the wheel ran on the rail until it struck a curve before it was derailed, and that the flange broke because the track was rough and uneven,—the high rate of speed being the proximate cause of the breaking of the flange. *Chicago, I. & L. R. Co.* v. *Ferguson* (1901) 27 Ind. App. 114, 59 N. E. 1088. (This action was brought under the Indiana employers' liability act, by which railway companies are made liable for the negligence of engineers. See chapter XXXVII., *ante*.)

In an action for injuries to a brakeman, resulting from the unsafe condition of his place of work, a special finding that the general plan of the interlocking switch plant at which the brakeman was injured was like the general plan of similar plants on other railroads with which the brakeman was acquainted, was not necessarily inconsistent with the conclusions of the jury in the general verdict that there was a negligent failure on the part of the defendant railroad company to provide a reasonably safe place for the brakeman to work in switching cars at night; that the brakeman had not assumed the risk, and that he did not directly contribute to his injury by his own negligence. *Flutter* v. *New York, C. & St. L. R. Co.* (1901) 27 Ind. App. 511, 59 N. E. 337.

Special findings in an action for injury to a brakeman, to the effect that he was injured while running alongside of a moving engine by tripping over wires stretched across the path, that the wires from a semaphore ran across the track on which the engine was to a pulley box about four feet south of it, being strung about seven inches from the ground, between the track and the box, that from the box to the tower station the wires were strung higher, that the box, and the wires running each way from it, were in full view, that the brakeman was in full use of his sight, and had worked as a brakeman for many years, and in that capacity for the defendant company for several months, and that he did not know that the wires he tripped over were not boxed,—contain nothing which forbids the jury from concluding that the brakeman had a right to assume that his path was not rendered dangerous by his employer's stretching wires across it at such a height that a person intent on his duties was liable to be tripped by them, or which requires a judgment for defendant on the special findings notwithstanding a general verdict for plaintiff. *Flutter* v. *New York, C. & St. L. R. Co.* (1901) 27 Ind. App. 511, 59 N. E. 337.

Notwithstanding a general verdict for the plaintiff, judgment is properly entered for the defendant, where the jury find specially that the injury was caused by the negligence of a coemployee, and that he was competent for his work. *American Wire Nail Co.* v. *Connelly* (1893) 8 Ind. App. 398, 35 N. E. 721.

In an action for injuries alleged to have been caused by defendant's negligence in failing to provide a guard over revolving knives in a wood-cutting machine used by plaintiff, and in failing to warn plaintiff of the increased danger resulting from the small size of the stick he was planing when injured, a general verdict for the plaintiff is inconsistent with special findings that the machine was of a kind in general use, was in good repair, without defects; that plaintiff had used it three months, and knew that it was a dangerous machine, and that there was no guard on it, and had made no complaint; that he was of mature years, and had had five years' experience in wood-cutting. *Guedelhofer* v. *Ernsting* (1899) 23 Ind. App. 188, 55 N. E. 113.

Where, in an action for injuries received in a quarry, the complaint charged that the servant was employed to do special work as a wheeler, free from hazard, and that he was ordered to perform a different, perilous service, without being warned of the danger, a special finding that he was engaged to do "general work," and that the work required was a part of his duties is contradictory to a general verdict in plaintiff's favor. *Consolidated Stone Co.* v. *Redmon* (1899) 23 Ind. App. 319, 55 N. E. 454.

See also § 139, note 3, *ante, ad fin.*

Where two grounds of negligence have been alleged, either which, if made out, would be sufficient to sustain the verdict in re to the negligence of defendant, and evidence has been offered u each of the grounds, a court will not grant a new trial, if it can that one of the grounds is made out, although the other may not unless it appears from a special finding that the verdict is based u a ground which is not sustained by the evidence.[11]

[11] Where a servant has alleged both that the belt which broke and caused the injury was improperly laced, and that it had not been properly inspected, the jury's finding of negligence without any special finding on either of these grounds will not be set aside for fa to show want of proper inspection, the inspection was immaterial if n gence existed as to the lacing. *M* v. *National & P. Worsted Mills* (1 22 R. I. 347, 47 Atl. 1092.

CHAPTER XLVI.

CONFLICT OF LAWS.

A. WHERE THE EFFECT OF A STATUTE IS NOT INVOLVED.

868. Conflict of laws, as between the courts of two states.

869. — as between Federal and state courts.

B. WHERE THE EFFECT OF A STATUTE IS INVOLVED.

870. Conflict of laws as between the courts of two of the United States.

a. Injury received in another state.

b. Injury received in state where action is brought.

871. — as between Federal and state courts.

872. — as between Federal and foreign courts.

873. *Lex fori* controlling, where statute affects merely the remedial procedure.

874. Presumptions as to the law prevailing in other states.

A. WHERE THE EFFECT OF A STATUTE IS NOT INVOLVED.

868. Conflict of laws, as between the courts of two states.— In one case it has been laid down that, in determining the right of a servant to recover for an injury received in a sister state, a court is not bound to adopt the construction which has been placed upon the common law in that state. The position taken was that the common law was presumably the same in both jurisdictions, and that the court which tried the action was, for this reason, not only competent, but under an obligation, to decide the rights of the parties according to its own theory of the actual effect of that law, as applied to the facts in evidence. The conclusion deduced from the principle thus laid down was, that the rulings of the court of last resort in the state where the accident occurred were not controlling as regards the question whether the defense of coservice was available.[1]

According to several other cases, the right of recovery, under such circumstances, should be determined with reference to the decisions of the courts of the state or country within the limits of which the injury was received.[2]

[1] *Krogg* v. *Atlanta & W. P. R. Co.* (1886) 77 Ga. 202, 4 Am. St. Rep. 79.

[2] *Lazotte* v. *Boston & M. R. Co.* (1899) 70 N. H. 5, 45 Atl. 1084 (applying the Massachusetts doctrine that the duty of a railway company with respect to the inspection of its cars is adequately discharged when competent inspectors have been employed); *Nashville, C. & St. L. R. Co.* v. *Foster* (1882) 10 Lea, 351 (applying Alabama doctrine that the existence of coservice is not

The doctrine of the Federal courts, which is discussed in the following section, may, perhaps, be thought to lend some support to the former of these antagonistic doctrines. The elements to be considered, however, are not the same in each instance. The jurisdiction exercised by Federal and by state courts is concurrent and coequal, so far as regards actions of the type with which we are here concerned. There is accordingly no positive reason why the former courts should defer to the opinion of the latter with respect to the application in any given principle of the system of law which is administered by both courts. But it is difficult to perceive any satisfactory ground upon which it is possible to sustain a doctrine which amounts essentially to a declaration that the general principle by virtue of which the rights and liabilities of the parties to an action sounding in tort are governed by the law of the place where the tort was committed is subject to an exception in cases where the law to be considered is the common law. The true theory would rather seem to be that, for purposes of private interstate and international jurisprudence

negatived by the fact that the negligent and injured servants were in different departments of the master's business); *McMaster* v. *Illinois C. R. Co.* (1887) 65 Miss. 264, 7 Am. St. Rep. 653, 4 So. 59 (applying Louisiana rule that conductor is a vice principal as to a brakeman); *Illinois C. R. Co.* v. *Harris* (1901; Miss.) 29 So. 760 (same rule applied). See also cases cited in the next note.

In *Walsh* v. *New York & N. E. R. Co.* (1894) 160 Mass. 571, 39 Am. St. Rep. 514, 36 N. E. 584, the Connecticut doctrine, that the inspection of railway cars is a non-delegable duty, was applied in favor of a plaintiff who could not have recovered under the decisions in Massachusetts. The court said: "We are of opinion that, as between the states of this Union, when a transitory cause of action has vested in one of them under the common law as there understood and administered, the mere existence of a slight variance of view in the form resorted to, not amounting to a fundamental difference of policy, should not prevent an enforcement of the obligation admitted to have arisen by the law which governed the conduct of the parties. . . . The policy of the supposed Connecticut rule cannot be said to be opposed to that prevailing here, even apart from statute. See Stat. 1893, chap. 359." It was deemed to be unnecessary to consider whether the court was prepared to adopt the doctrine propounded by the editor Story's Conflict of Laws, 8th ed. note *a*, *viz.*, that "whether the domestic law provides for redress in such cases or not, should, on principle, be immaterial, so long as the right is a reasonable one and not opposed to the interests of the state." (See § 870, note 3, *infra*.)

The doctrine laid down in this case was followed in *Engquist* v. *Ludington Steel Co.* (1893) 94 Wis. 70, 34 L. R. A. 503, 59 Am. St. Rep. 859, 68 N. W. 873, where the court applied the doctrine of common employment in the form in which it has been adopted in Illinois, the state in which the cause of action arose, although that doctrine was somewhat more favorable to the servant than that which prevailed in Wisconsin.

Where a corporation was engaged in constructing a tunnel under the St. Clair River, which separates Michigan from Ontario, and employed an overseer on each side of the river, it was held that its liability for injuries to a servant, caused by the unsafety of the place of work on the Ontario side, was to be determined with reference to the laws of Ontario, although the servant had been sent to the Ontario side by a foreman on the American side. *Quinn* v. *St. Clair Tunnel Co.* (1899) 121 Mich. 616, 47 L. R. A. 112, 80 N. W. 1. On first appeal (1897) 111 Mich. 57, 47 L. R. A. 134, 66 Am. St. Rep. 38, 69 N. W. 116.

presumption may properly be entertained that such rights and liabilities, in so far as they are dependent upon the common law, have been exactly defined by the decisions of the courts in each state or country in which that system prevails. That theory may fairly be said to involve the corollary that such decisions, if any have been rendered which indicate with reasonable clearness what the position of the parties would be in the state or country in which the cause of action arose, are as binding upon a foreign court as the specific provisions of a statute are universally conceded to be under similar circumstances.

See §§ 870–872, *infra*.

869. — as between Federal and state courts.— "The courts of Great Britain and America have established the general doctrine of the non liability of the employer for an injury to one servant, caused by the negligence of another servant in the same common employment; and this doctrine of general jurisprudence, as it involves no Federal question, is no more open to judicial denial in the Federal courts than in the state courts or the ordinary common-law tribunals."[1] But a Federal court does not consider itself bound to administer the particular form of that doctrine which may happen to have been adopted by the courts of the state in which the accident occurred.[2]

[1] *Dillon* v. *Union P. R. Co.* (1874) 3 Dill. 319, Fed. Cas. No. 3,916, per Dillon, J.

[2] In *Hough* v. *Texas & P. R. Co.* (1879) 100 U. S. 213, 25 L. ed. 612, Mr. Justice Harlan thus stated the views of the court: "Our attention has been called to two cases determined in the supreme court of Texas, and which, it is urged, sustained the principles announced in the court below. After a careful consideration of those cases, we are of opinion that they do not necessarily conflict with the conclusions we have reached. Be this as it may, the questions before us, in the absence of statutory regulations by the state in which the cause of action arose, depend upon principles of general law, and in their determination we are not required to follow the decisions of the state courts."

In *Baltimore & O. R. Co.* v. *Baugh* (1893) 149 U. S. 378, 37 L. ed. 778, 13 Sup. Ct. Rep. 914, the views of the majority were thus announced: "The question is essentially one of general law. It does not depend upon any statute; it does not spring from any local usage or custom; there is in it no rule of property, but it rests upon those considerations of right and justice which have been gathered into the great body of the rules and principles known as the 'common law.' There is no question as to the power of the states to legislate and change the rules of the common law in this respect as in others; but, in the absence of such legislation, the question is one determinable only by the general principles of that law. Further than that, it is a question in which the nation as a whole is interested. It enters into the commerce of the country. Commerce between the states is a matter of national regulation, and to establish it as such was one of the principal causes which led to the adoption of our Constitution. To-day, the volume of interstate commerce far exceeds the anticipation of those who framed this Constitution, and the main channels through which this interstate commerce passes are the railroads of the country. Congress has legislated in respect to this commerce, not merely by the Interstate Commerce Act and its amendments, 24 Stat. at L. 379, chap. 104 (U. S. Comp. Stat. 1901, p. 3151), but also by an act passed at the last session, requiring the use of automatic couplers on freight cars. Public Acts, 52d Cong. 2d Sess. chap. 113. The lines of this very plaintiff in error extend into half a dozen or more states, and its trains are largely

B. Where the effect of a statute is involved.

870. Conflict of laws as between the courts of two of the States.— *a. Injury received in another state.*—(Compare cas in § 872, *infra.*) The broad principle has been laid down t *lex fori,* and not the *lex loci,* is controlling in cases where brought in one jurisdiction for an injury received in another in the common-law rights and liabilities of masters and servant been modified by statute.[1] But the weight of authority is in of the doctrine that, under such circumstances, the question w

employed in interstate commerce. As it passes from state to state, must the rights, obligations, and duties subsisting between it and its employees change at every state line? If, to a train running from Baltimore to Chicago, it should, within the limits of the state of Ohio, attach a car for a distance only within that state, ought the law controlling the relation of a brakeman on that car to the company to be different from that subsisting between the brakeman on the through cars and the company? Whatever may be accomplished by statute,—and of that we have now nothing to say,—it is obvious that the relations between the company and employee are not, in any sense of the term, local in character, but are of a general nature, and to be determined by the general rules of the common law."

In this case an elaborate and very able dissenting opinion was delivered by Field, J., in which he combated the doctrine that there was "an atmosphere of general law floating about all the states, not belonging to any of them, and of which the Federal judges are the especial possessors and guardians, to be applied by them to control judicial decisions of the state courts whenever they are in conflict with what those judges consider ought to be the law."

"In the absence of legislative enactments, the liability of a master to one of his employees for the negligence of another is determinable by the general law, and not by the local law, and the decisions of the courts of the state in which the injury is inflicted are not controlling in the national courts." *Northern P. R. Co.* v. *Muse* (1894) 11 C. C. A. 63, 27 U. S. App. 238, 63 Fed. 114; *Chicago, M. & St. P. R. Co.* v. *Ross* (1884) 112 U. S. 377, 28 L. ed. 787, 5 Sup. Ct. Rep. 185.

For other cases applying this rule stated in the text, see *Newport M. Valley Co.* v. *Howe* (1892) A. 121, 6 U. S. App. 172, 52 F *Northern P. R. Co.* v. *Peterson* 2 C. C. A. 157, 4 U. S. App. Fed. 182 (decision reversed, in 162 U. S. 346, 40 L. ed. 994, 16 Rep. 813, but merely on the gro the lower court had misapprehe effect of the earlier decisions of preme Court as to superior se *The Louisiana* (1896) 21 C. C 41 U. S. App. 324, 74 Fed. 748 *man* v. *Reynolds* (1896) 23 C. C 33 U. S. App. 686, 77 Fed. 271; v. *Central Vermont R. Co.* (1 C. C. A. 110, 50 U. S. App. 27, 590; *New York, N. H. & H. R O'Leary* (1899) 35 C. C. A. Fed. 737; *Briegal* v. *Southern* (1900) 39 C. C. A. 359, 98 F *Louisville & N. R. Co.* v. *Stubb* 54 L. R. A. 696, 48 C. C. A. Fed. 934.

In view of these decisions the *Kerlin* v. *Chicago, P. & St. L.* (1892) 50 Fed. 185, in which th court for the district of India the position that, as the contro relation of master and servan served to the states, a Federa should follow the ruling of t courts with regard to the de coservice, is of no authority. cision it will be observed anted *Baltimore & O. R. Co.* v. *Baugh* (1 U. S. 378, 37 L. ed. 778, 13 Rep. 914, and is therefore i overruled by that case and th already cited. The court seems overlooked *Hough* v. *Texas & P* (1879) 100 U. S. 213, 25 L. which had previously enunciat doctrine which is now always in the Federal courts.

[1] *Anderson* v. *Milwaukee & S Co.* (1875) 37 Wis. 321.

the injured employee can maintain an action should, as a general rule, be determined with reference to the provisions of the foreign statute.[2]

[2] Prior to the enactment of the Minnesota act reviewed in chapter XXXIX., *ante*, a railway servant, injured in Iowa by the negligence of a coservant, was allowed to recover in the former state. *Herrick* v. *Minneapolis & St. L. R. Co.* (1883) 31 Minn. 11, 47 Am. Rep. 771, 16 N. W. 413. The court said: "The general rule is that actions for personal torts are transitory in their nature, and may be brought wherever the wrongdoer may be found, and jurisdiction of his person can be obtained. As to torts which give a right of action at common law, this rule has never been questioned, and we do not see why the transitory character of the action, or the jurisdiction of the courts of another state to entertain it, can in any manner be affected by the question whether the right of action is statutory or common law. In actions *ex contractu* there is no such distinction, and there is no good reason why any different rule should be applied in actions *ex delicto*. Whenever, by either common law or statute, a right of action has become fixed, and a legal liability incurred, that liability, if the action be transitory, may be enforced, and the right of action pursued, in the courts of any state which can obtain jurisdiction of the defendant, provided it is not against the public policy of the laws of the state where it is sought to be enforced. Of course, statutes that are criminal or penal in their nature will only be enforced in the state which enacted them; but the statute under which this action is brought is neither, being purely one for the reparation of a civil injury. . . . The only case which goes to the length of holding that this action cannot be maintained is that of *Anderson* v. *Milwaukee & St. P. R. Co.* (1875) 37 Wis. 321, which, on the facts, is on all fours with the present case, and in which the court holds that such an action will only lie in the state of Iowa, which enacted the statute. But with due deference to that court, and especially to the eminent jurist who delivered the opinion in that case, we think they entirely failed to distinguish between the right of action, which was created by the statute of Iowa and must be governed by it, and the forum of the remedy, which is always governed by the law of the forum, whether the action be *ex contractu* or *ex delicto*. It is elementary that the remedy is governed by the law of the forum, and this is all that is held by any case cited by the court in support of their opinion."

This Minnesota ruling has been followed quite recently in *Chicago & E. I. R. Co.* v. *Reese* (1899) 178 Ill. 132, 44 L. R. A. 410, 52 N. E. 951, affirming (1898) 78 Ill. App. 286 (accident occurred in Indiana). The court said: "Actions not penal, but for pecuniary damages for torts or civil injuries to the person, are transitory, and, if actionable where committed, in general may be maintained in any jurisdiction in which the defendant can be legally served with process. We think it well settled that, without regard to the rule which may obtain as to a cause of action which accrued under the laws of a separate and distinct nation, a right of action which has accrued under the statute of a sister state of the Union will be enforced by the courts of another state of the Union, unless against good morals, natural justice, or the general interest of the citizens of the state in which the action is brought."

In *Voshefskey* v. *Hillside Coal & I. Co.* (1897) 21 App. Div. 168, 47 N. Y. Supp. 286, the action was held to be barred because the plaintiff had violated a Pennsylvania statute prohibiting the riding upon loaded cars in mines.

In a case where a railway employee was suing in Kentucky, under the provisions of the employers' liability act of Alabama, for an injury received in the latter state through the negligence of an engineer, it was held that he could recover damages without showing that such engineer was guilty either of gross or of wilful negligence, although proof of such negligence would be a condition precedent to the maintenance of such an action under the law prevailing in Kentucky. *Louisville & N. R. Co.* v. *Graham* (1896) 98 Ky. 688, 34 S. W. 229.

See also the cases cited in the next subsection.

Only the parties specified as having the right to sue under the provisions of a damage act can maintain an action upon that act in another state. *Western & A. R. Co.* v. *Strong* (1874) 52 Ga. 461; *Hendricks* v. *Western & A. R. Co.* (1874) 52 Ga. 467 (wife held not enti-

This doctrine is, of course, subject to the qualification wh
sults from the well-recognized principle that a foreign statute
conflicts essentially with the statutes or public policy of the
which the suit is being prosecuted will not be enforced by the
of that state.[3] That this qualification does not affect the right
covery is a conclusive inference in those cases where a statute
coincides in its provisions with that of the state in which the a
occurred has been enacted in a state in which the suit is inst
But the mere fact that the common-law doctrine established
state where the action is brought differs from that which is en
in the statute of the other state does not necessarily show that
an antagonism between the policy of the two states.[5]

tled to sue alone, as the children are also made beneficiaries under the Tennessee act).

If contributory negligence, as that term is ordinarily understood, is a bar to a right of action created by the statute of the state where the injury was received, while the doctrine as to comparative negligence prevails in the state where the action is brought, the servant cannot recover if his negligence was a proximate cause of the accident, whether that negligence was greater or less than that of the employer. *East Tennessee, V. & G. R. Co.* v. *Lewis* (1890) 89 Tenn. 235, 14 S. W. 603 (injury was received in Georgia).

[3] *Texas & P. R. Co.* v. *Cox* (1892) 145 U. S. 593, 36 L. ed. 829, 12 Sup. Ct. Rep. 905.

[4] In *Chicago, St. L. & N. O. R. Co.* v. *Doyle* (1883) 60 Miss. 977 (decision as to damage act) the court said: "The view that no recovery could be had here except for a result traceable to an omission of duty in Mississippi is unfounded. Physical force proceeding from this state and inflicting injury in another state might give rise to an action in either state, and *vice versa*; but the omission of some duty in Mississippi cannot transfer a consequence of it manifested physically in another state to Mississippi. The cases of injuries commenced in one jurisdiction and completed in another illustrate our view on this subject. The true view is that the legal entity called the corporation is omnipresent on its railroad, and the presence or absence of negligence with respect to an occurrence at any point of the line is not to be resolved by the place at which any officer or employee was stationed for duty. The question is as to duty operating effectuall

Rorer on Interstate Law—ass
down this rule, but the authorit

It is well settled that "a court of one state accepts the interpretation of a statute affixed to it by the court of last resort thereof."[6] But the decisions of the courts of sister states as to statutes of a similar tenor are, at most, of merely persuasive authority, and will be followed only when the reasoning on which they are based is deemed to be satisfactory.[7]

In an action against a railway company which operated a line extending through North Carolina and Tennessee, three out of five of the judges of the supreme court of the former state held that an action brought for injuries received in Tennessee through the negligence of a fellow servant was one sounding in contract, and not in tort;[8] that, in the absence of any evidence to show where the contract was made, or what state should take jurisdiction of its enforcement, the law applicable to the case was that which prevailed in North Carolina, where the plaintiff and the defendant company were domiciled; and that the action was therefore maintainable under the statute by

generally fail to sustain it. . . . A few cases appear to lay some stress upon the fact that the statutes of both states were similar, but rather as evidence of the fact that the statute of the state giving the right of action is not contrary to the policy of the laws of the state where the action is brought. Such is the case of *Chicago, St. L. & N. O. R. Co.* v. *Doyle* (1883) 60 Miss. 977. . . . But it by no means follows that, because the statute of one state differs from the law of another state, therefore it would be held contrary to the policy of the law of the latter state. Every day our courts are enforcing rights under foreign contracts where the *lex loci contractus* and the *lex fori* are altogether different, and yet we construe these contracts and enforce rights under them according to their force and effect under the laws of the state where made. To justify a court in refusing to enforce a right of action which accrued under the law of another state, because against the policy of our laws, it must appear that it is against good morals or natural justice, or that, for some other such reason, the enforcement of it would be prejudicial to the general interests of our own citizens. If the state of Iowa sees fit to impose this liability upon those operating railroads within her bounds, and to make it a condition of the employment of those who enter their service, we see nothing in such a law repugnant either to good morals or natural justice, or prejudicial to the interests of our own citizens."

The Indiana employers' liability act is not "so repugnant to good morals or natural justice, or so prejudicial to the best interests of our people," that the Illinois courts should refuse to enforce it. *Chicago & E. I. R. Co.* v. *Ross* (1899) 178 Ill. 132, 41 L. R. A. 110, 52 N. E. 951, Affirming (1898) 78 Ill. App. 286, where the court expressed its views on this point in the virtually equivalent form that the common-law rule is not such a part of the public policy of Illinois as will prevent its courts from enforcing a statute of another state, abolishing the rule, in an action for personal injuries received in the latter state.

[6] *Tullis* v. *Lake Erie & W. R. Co.* (1899) 175 U. S. 348, 44 L. ed. 192, 20 Sup. Ct. Rep. 136; *Krogg* v. *Atlanta & W. P. R. Co.* (1886) 77 Ga. 202, 1 Am. St. Rep. 79.

[7] This principle is illustrated by *Wilkelson* v. *Truesdale* (1895) 63 Minn. 137, 65 N. W. 260, and other cases in which the courts have declined to follow the Georgia and Ohio decisions denying the right to recover from railway receivers under statutes giving a right of action against railway companies in cases where the delinquent is a coemployee. See § 845a, *ante*.

[8] See, however, the Arkansas case cited in note 9, *infra*.

which the doctrine of co-service has been abrogated as to railw
panies operating in that state.[9] (See chapter XXXIX., *ante*.)

The converse of the situation presented in the cases so far dis
in this section arises where the accident occurred in a state in
common-law doctrines are applied, and the action is brought in
in which those doctrines have been modified by statute. And
circumstances the right of recovery is determined with refer
common-law doctrines.[10]

b. Injury received in state where action is brought.—In Ar
it has been held that, under a constitutional provision to the
that all railroads which are now or may hereafter be built an
ated, either in whole or in part, in Arkansas, shall be respons
all damages to persons and property, under such regulations a
be prescribed by the legislature, a railroad company whose road
erated in part in Arkansas is governed by the statutes of Ar
and is liable to an employee in tort for injuries received there,
by failure to discharge any duties growing out of said statutes,
the contract of service may have been made in another state.[11]

871. —as between Federal and state courts.— A state statu
pressly regulating the extent of an employer's liability is appl
the Federal courts, pursuant to U. S. Rev. Stat. § 721 (U. S.
Stat. 1901, p. 581), as a "law" of the state.[1] So far as those

[9] *Williams* v. *Southern R. Co.* (1901) 128 N. C. 286, 38 S. E. 893. The other judges concurred in the decision on the ground that, even under the law of Tennessee, the defense of coservice would not have been available.

[10] *Atchison, T. & S. F. R. Co.* v. *Lannigan* (1895) 56 Kan. 109, 42 Pac. 343; *Brewster* v. *Chicago & N. W. R. Co.* (1901) 114 Iowa, 144, 89 Am. St. Rep. 348, 86 N. W. 221; *Sanner* v. *Atchison, T. & S. F. R. Co.* (1897) 17 Tex. Civ. App. 357, 43 S. W. 533.

In *Atchison, T. & S. F. R. Co.* v. *Moore* (1883) 29 Kan. 632, instructions were held to be erroneous which allowed the jury to find in the plaintiff's favor if the accident was due to the negligence of any coservant of the plaintiff, whether vice principal or not (such being the effect of the Kansas statute), when it was shown by the evidence that the distinction between a vice principal and a mere servant was recognized in Texas, where the accident occurred.

[11] *Kansas City, Ft. S. & M. R. Co.* v. *Becker* (1899) 67 Ark. 1, 46 L. R. A. 814, 77 Am. St. Rep. 78, 53 S. W. 406. The court took the ground that, although the relation between th
tiff and defendant was created
tract, the duty upon which the
relied as a ground of recovery
posed by law, and arose from t
tion, rather than the contra
conclusion, therefore, was that
ant injur ' by (he nonperform
this duty 'd elect to sue u
contract, or to treat the wrong
as a tort, and bring an action
licto.

The doctrine of the North
court as to the nature of th
seems to be different from that
tions propounded.

[1] *Northern P. R. Co.* v.
(1894) 154 U. S. 349, 38 L. ed.
Sup. Ct. Rep. 983

This rule was applied for the
of servants in *Northern P. R*
Behling (1893) 6 C. C. A. 681,
App. 662, 57 Fed. 1037 (sectio

114 (decision in Minnesota distr

are concerned, the construction placed upon such a statute by the highest court of the state in which it has been enacted is conclusive.[2]

In one case the theory upon which the court seems to have proceeded was that, if a statute modifying the liability of employers has been enacted in the state which corresponds territorially to the Federal district, in which the injury was received, and in which the action is brought, and the provisions of that statute are substantially identical with those of a statute previously enacted in another state, the more recent of the two statutes should ordinarily receive the same construction as that which has been placed upon the earlier of the statutes by the courts of the state in which it was enacted, unless the courts of the state in which the court is sitting have previously ren-

under Mont. Stat. of 1887, chap. 25, § 697, the conductor of one train was a vice principal as to employees on another train).

On the ground that a receiver might be sued for an injury resulting in death, under the statute of Louisiana, in which the injury was received, it has been held that an action might be maintained in a Federal court sitting in Texas, although, according to the decisions in the latter state, no action lies against a receiver for such an injury. *Texas & P. R. Co.* v. *Cox* (1892) 145 U. S. 593, 36 L. ed. 829, 12 Sup. Ct. Rep. 905, declining to follow the doctrine laid down in *Turner* v. *Cross* (1892) 83 Tex. 218, 15 L. R. A. 262, 18 S. W. 578; *Texas & P. R. Co.* v. *Collins* (1892) 84 Tex. 121, 19 S. W. 365 (see § 848a, *ante*).

If an action by the representatives of a deceased employee is brought under the damage act of a state other than that in which the contract of employment was made and in which the accident took place, the right to recover, and the limit of the amount of the judgment, are governed by the *lex loci*, and not by the *lex fori*. *Northern P. R. Co.* v. *Babcock* (1894) 154 U. S. 190, 38 L. ed. 958, 14 Sup. Ct. Rep. 978 (action in district of Minnesota for injury received in Montana). See also next note.

[2] In *Northern P. R. Co.* v. *Hogan* (1894) 11 C. C. A. 51, 27 U. S. App. 184, 63 Fed. 102, the doctrine of *Chicago, M. & St. P. R. Co.* v. *Ross* (1884) 112 U. S. 377, 28 L. ed. 787, 5 Sup. Ct. Rep. 184, that a conductor is a vice principal, was not followed, where the suit was brought in the Minnesota district for an injury received in North Dakota. "It was ruled in effect," said the court, "that, under the provisions of the Dakota statute, a master is not liable to one employee for the negligent act of another, unless the latter is at the time engaged in the performance of some duty that is personal to the master. There seems to be no valid ground, therefore, for dissenting from the view which is advocated by counsel for the plaintiff in error, that the statute of North Dakota, as construed by the highest court of that state, exempts the railroad company from liability for the injuries complained of, and that in the courts of that state the plaintiff below could not have recovered upon the state of facts proven at the trial. It must also be regarded as a well-established doctrine that the states have the right to regulate the relations existing between employers and employees within their respective borders, and to determine by legislative enactment when and under what circumstances an employer shall be held liable to an employee for an injury sustained by the latter while in his service. So far as we are aware, laws of this description have always been treated as obligatory upon the Federal courts to the same extent and with like limitations as other statutory enactments, even where they modify to some extent the pre-existing rules of the common law; and we can conceive of no sufficient reason why they should not have the same effect in the Federal courts, as rules of decision, which is accorded to other state statutes." The special points raised by counsel, that the statute of Dakota was merely declaratory of the common law, that, in construing the statute, the state court merely gave expression to its view of the common law, and that the Federal courts, being courts of co-ordinate ju-

dered decisions inconsistent with that construction.[3] But in
stances a Federal court of appeals has declined to attach to a
the same interpretation as similar enactments had received in
other than that in which these courts were sitting.[4]

872. — as between Federal and foreign courts. — When an ac
brought in a Federal court for an injury received outside the
torial limits of the United States, the juridical situation is
fected by the peculiar relations existing between the national g
ment and the individual states. Under such circumstances,
fore, the right of action is determined with reference to the g
principles of private interna. tional law.

That an American citizen is entitled to maintain an actio
Federal court for injuries received on the Mexican division of
way which is operated by an American corporation on both si
the frontier has recently been held in several cases.[1]

The doctrines applied are summarized in the propositions set
the subjoined note. These statements constitute the headnotes

risdiction, were not bound by the decision of the state court on questions of that character, were thus disposed of: "The argument is ingenious, but, as we think, it is fallacious. The state statute to which reference has been made supersedes the common law in the state where it was enacted, touching the subject to which it relates; and, while it is true that the state court had occasion to refer to the principles of the common law, yet it must be borne in mind that such reference was made solely for the purpose of ascertaining the intent of the law maker as evidenced by the statute in question. It is the statute, however, and not the common law, which is now in force in the state of North Dakota; and it is the statute, as construed by the highest court of that state, which must determine the rights of the parties and control the decision in the case at bar. Any other view would render the statute inoperative and nugatory."

In *Central Trust Co.* v. *East Tennessee, V. & G. R. Co.* (1888) 69 Fed. 353; *Central Trust Co.* v. *East Tennessee, V. & G. Co.* (1895) 69 Fed. 357, a Federal court sitting in the district of Tennessee applied, as against the servant of a railway company domiciled in Georgia, the doctrine of the courts of that state (see § 848a, *ante*), that employees of a receiver of a railway company are not within the purview of the statute abrogating the defense of common employment as regards employees of railway companies. See chapter XXXIX

See also *New York, N. H. & H.* v. *O'Leary* (1899) 35 C. C. A. Fed. 737, where the general r rights under a state statute ar minable with reference to the d of state courts was recognized.

As to the rule applied where cident occurs in a state where er may be sued, and the a brought in a state where the co determined that a receiver is not to an action, see *Texas & P. R Coe* (1892) 145 U. S. 593, 36 L. 12 Sup. Ct. Rep. 905, note 2, s

[3] *Erey* v. *Mexican C. R. Co.* 38 L. R. A. 387, 26 C. C. A. 40 S. App. 118, 81 Fed. 294; *Mex R. Co.* v. *Marshall* (1899) 34 C 133, 91 Fed. 933; *Mexican C. R*

report of the first of the three cases cited, and were adopted in the second of those cases as a correct presentment of the law.[2]

On the ground that, under the Civil Code of Quebec (arts. 1053, 1054), a servant can recover for injuries caused by the negligence of a coservant, it was lately held by a Federal court sitting in the district of Vermont that an American company was liable for injuries so caused, if they were received in that part of its system which was operated on Canadian territory.[3]

873. Lex fori controlling, where statute affects merely the remedial procedure.— The general principle, that everything which pertains

fences (1901) 48 C. C. A. 227, 107 Fed. 1.

[2](a) The right of an employee of a railroad company, injured in the Republic of Mexico by the negligence of the company, to recover in a civil action damages for such injury under the law of that republic, may be enforced in a Federal court of the state of Texas, having jurisdiction of the parties and the subject-matter; that law being neither so vague and uncertain nor so dissimilar to the law of the state of Texas as to prevent it from being so enforced, and both parties being citizens of the United States.

(b) A dissimilarity between the law of another country and the law of a state in the Federal court of which it is sought to be enforced will not prevent such enforcement, unless the dissimilarity is so great as to conflict with the settled policy of that state.

(c) The fact that a person injured by the negligence of a railroad company in another country might sue in that country is not sufficient to prevent him from suing in a United States court, particularly where the company owns and operates part of the same line of railroad in the state in which the suit is brought.

(d) The fact that acts of negligence for which the laws of Mexico give a civil remedy constitute also a crime under the laws of that country does not prevent the person injured from maintaining a civil suit therefor in a United States court, the liability not depending on the criminal prosecution or conviction of the defendant.

(e) The fact that the provision of the Penal Code of Mexico (article 323) that the judge may award, as "extraordinary indemnity," any sum that he may determine, considering the "social position" of the person injured, is against the policy of our law, is no obstacle to a suit in a United States court to enforce a right given by the law of Mexico, there being no prayer for such extraordinary indemnity.

(f) The fact that the Mexican courts are not governed by precedent, and have no reports of adjudicated cases, is not an obstacle to an action in a United States court to enforce a right given by the laws of Mexico.

(g) The decisions of a state court that a law of another country is opposed to the policy of the state, and cannot be enforced there, are not controlling in the Federal courts, the question of international comity being controlled by international law and custom.

[3] *Boston & M. R. Co.* v. *McDuffey* (1897) 25 C. C. A. 247, 51 U. S. App. 111, 79 Fed. 934. One of the authorities relied upon was *Dennick* v. *Central R. Co.* (1880) 103 U. S. 11, 26 L. ed. 439, where the court used the following language: "It is indeed a right dependent solely on the statute of the state; but when the act is done for which the law says the person shall be liable, and the action by which the remedy is to be enforced is a personal, and not a real, action, and is of that character which the law recognizes as transitory, and not local, we cannot see why the defendant may not be held liable in any court to whose jurisdiction he can be subjected by personal process or by voluntary appearance. . . . . Wherever, by either the common law or the statute law of a state, a right of action has become fixed, and a legal liability incurred, that liability may be enforced, and the right of action pursued, in any court which has jurisdiction of such matters, and can obtain jurisdiction of the parties."

merely to the remedy is controlled by the law of the state wher
action is brought,[1] involves the corollary that the question wh
the servant's action is barred by the lapse of time is determin
the provisions of the statute of limitations which is in force in t
risdiction where the suit is brought, and not by those of the s
of the state in which the injury was received.[2]

On the ground that a rule of evidence has no extraterritorial
it has been held that a statute which provides that, where an i
is caused by a defect in the appliances of a railway company,
of the existence of that defect shall be presumptive evidence
company's knowledge thereof, is not the law of the case in an
brought in another state, where the ordinary rule still prevails
a master is not liable for injuries caused by defects, unless they
have been discovered by the exercise of ordinary care.[3]

874. Presumptions as to the law prevailing in other states.—
case already cited, where the action was brought in a Federal
in the district of Texas for an injury received in Mexico, it wa
down th in the absence of proof, it was to be presumed that
gard to the liability of an employer for negligence resulting in
ries to an employee, the law of Mexico was the same as the l
Texas, in both of which countries the civil law originally preva

Two courts have held that, in an action brought in one state
injury received in another, it will be presumed, in the absence

[1] *Herrick* v. *Minneapolis & St. L. R. Co.* (1883) 31 Minn. 11, 47 Am. Rep. 771, 16 N. W. 413; 2 Kent, Com. *462.

[2] *Canadian P. R. Co.* v. *Johnston* (1891) 25 L. R. A. 470, 9 C. C. A. 587, 26 U. S. App. 85, 61 Fed. 738 (action held maintainable, although it would have been barred if brought in the jurisdiction where the accident occurred); *Knagg* v. *Atlanta & W. P. R. Co.* (1886) 77 Ga. 202, 4 Am. St. Rep. 79.

See generally, Story, Confl. L. § 576.

This elementary rule seems to have been somewhat strangely lost sight of in *Klingartner* v. *Illinois Steel Co.* (1896) 94 Wis. 70, 34 L. R. A. 503, 59 Am. St. Rep. 859, 68 N. W. 664, where, in an action between parties who were both domiciled in Illinois, it was held that the effect of the statute of limitations which was in force in that state could not be considered, because it had not been put in evidence. The reason thus assigned, in so far as it may be taken to imply that the statute would have been regarded as controlling if it had been properly proved, manifestly places the court in antagonism authorities above cited.

[3] *Jones* v. *Chicago, St. P. M. & Co.* (1900) 80 Minn. 488, 49 L 610, 83 N. W. 446. For a discu the principle here applied, see Ev. § 49; Story, Confl. L. 7th ed

[1] *Mexican C. R. Co.* v. *Marsha* 34 C. C. A. 133, 91 Fed. 933. Th cited Phillipps on Ev. (Cowen & and Edwards' notes), pp. 42 *et s* adjudged cases there cited; 1 Pi p. 65; Wharton, Ev. § 1292; and "Indeed, there is good authori holding that, as the state of Te cently constituted a part of the R of Mexico, the courts in the s Texas, in proper cases, will tak cial notice of the laws common prior to the separation. *Mal McKown* (1830) 1 La. 248, 20 A 279; *Berluchaux* v. *Perluchaux* 7 La. 539. Further than this, i be noticed that, under the laws ico as proved herein, it is clear civil action may be brought to damages resulting from negligen

idence to the contrary, that the rights and liabilities of employers and employees are regulated by the common law.[2] In one of the cases cited, it will be observed, this rule was applied where the question was whether the doctrine of common employment precluded recovery. But the position has also been taken that this doctrine was not a part of the common law existing at the date of the separation of the United States from England, and that for this reason the courts of one state cannot presume that the doctrine exists in another state, and thus cast upon a plaintiff who is seeking to recover for an injury received in such other state through the negligence of a fellow servant the burden of proving that the doctrine has been abrogated by statute.[3] Although the weight of judicial authority is in favor of a different theory, the statement here made with regard to the date at which the doctrine was introduced into English law is possibly accurate. See § 471, *ante*. But even if its accuracy be conceded, the fact relied upon can scarcely be regarded as adequate to support the conclusion deduced from it. A more reasonable theory of the situation, it is submitted, is that any court in which the common law is administered is chargeable with notice of the universal acceptance which the doctrine in question has obtained in all the countries and states in which that system of law prevails, and that, as a result of the imputation of this notice, such a court is bound to entertain a prima facie presumption that the defense of coservice is still open to an employer in each of those countries and states.

These considerations would seem to be decisive against the correctness of another decision also, in which it was laid down that, where an action for an injury received in one state is brought in another state in which an act is in force which abrogates the defense of coservice as regards certain employees, it will be presumed, in the absence of specific testimony to the contrary, that the law of the state in which the injury was received is the same as that of the state in which the action is brought, although the defendants have alleged that the common-law rule prevails in the former state.[4]

CHAPTER XLVII.

EMPLOYERS' LIABILITY UNDER THE CIVIL LAW AND SYSTE FOUNDED THEREON.

875. Scope of chapter.

A. Duties of employers to their servants.

876. Generally.

878. — as to methods of work.

877. Duty of employer as to appliances and place of work.

879. — as to rules and regulations.

880. — as to the employment of competent servants.

881. — as to instruction and warning.

882. Duty to save life of imperiled servant.

883. Assurance of safety.

884. Liability to servants working outside the scope of their employment.

885. Obligations of an employer not owed to volunteers.

886. Causation.

B. Defenses available to employers.

887. Assumption of risks.

888. *Volenti non fit injuria.*

889. Contributory negligence.

890. Common employment.

a. Scotland.

b. France.

c. Italy and Switzerland.

d. Germany and Austria.

e. Quebec.

875. Scope of chapter.— In this chapter it is proposed to give brief summary of the principles by which the extent of an employe liability is determined in countries in which the civil law is the ba of the jurisprudence administered by the courts. The systems w regard to which American lawyers will naturally be most desirous obtaining some information are those which prevail in the countr bordering upon the United States. The greater part of the chapt therefore, is devoted to a review of the doctrines adopted in the Ca dian Province of Quebec and in the Republic of Mexico. But it h been deemed advisable to devote some little space to the law of Con nental Europe also.[1]

[1] For many of the facts which are writer is indebted to Mr. McKinn mentioned regarding European law the treatise on Fellow Servants, § 8, wh

A. Duties of employers to their servants.

876. Generally.— In all the jurisdictions with which we are concerned in this chapter, the extent of an employer's obligations depends, either wholly or partially, upon the construction of general or specific statutory provisions. The effect of the most important of those provisions is stated in the subjoined note.[1]

In the ensuing sections a summary is given of the decisions under the Civil Code of Quebec. As the courts of that Province avowedly

the learned author expresses his own obligations to three works,—viz., a note by Mr. G. W. Easley in 25 Am. & Eng. R. Cas. p. 513; a pamphlet on Employers' Liability by Mr. Fall; and a monograph on the same subject by Mr. Irving Taylor.

See also the English Parliamentary Blue Book, No. 21, of 1886, which contains reports on the liability of employers in foreign countries, the information having been collected in compliance with directions issued by Lord Rosebery to the English consular representatives on the continent of Europe and elsewhere.

[1] *France.* — Code Napoleon, art. 1383. Everyone is responsible for the damage of which he is the cause, not only by his own act, but also by his negligence and imprudence.

Art. 1384. A person is responsible not only for the injury which is caused by his own act, but also for that which is caused by the act of persons for whom he is bound to answer, or of things which he has under his care.

Italy.—Arts. 1153, 1154, of the Italian Code are couched in the same terms as the above-cited provisions in the French Code.

Quebec.—Art. 1053. Every person capable of discerning right from wrong is responsible for the damage caused by his fault to another, whether by positive act, imprudence, neglect, or want of skill.

Art. 1054. He is responsible, not only for the damage caused by his own fault, but also for that caused by the fault of persons under his control, and by things which he has under his care. Masters and employers are responsible for the damage caused by their servants and workmen in the performance of the work for which they are employed.

Germany. — Until comparatively recent times the liability of employers was determined with reference entirely to the rules of the Roman law, under which employers are liable only for negligence in selection and supervision (*culpa in eligendo, inspiciendo, et custodiendo*). But some classes of employees have now been placed in a more favorable position by the provisions of the Codes and other enactments.

Mexico.—Several articles of the Codes are set out in the report of *Erey* v. *Mexican C. R. Co.* (1897) 38 L. R. A. 387, 26 C. C. A. 407, 52 U. S. App. 118, 81 Fed. 294.

The effect of art. 11 of the Penal Code, and arts. 301, 304, 307, and 326 of book 2 of the same Code, is to confer on any person injured by and through the negligence of another a right to recover in a civil proceeding all the actual damages sustained.

Art. 330 of the same Code provides that masters may be held civilly liable, through their clerks and servants, according to the provisions of arts. 326 and 327, for the negligence of said clerks and servants within the scope of their employment.

The railroad law declares (art. 184) that railway companies "are liable for all faults or accidents which occur through tardiness, negligence, imprudence, or want of capacity of their employees." By this provision a company is rendered liable for an injury to an employee resulting either solely from its own negligence, or from its own negligence concurring with that of fellow servants. See *Mexican C. R. Co.* v. *Glover* (1901) 46 C. C. A. 334, 107 Fed. 356.

Art. 194 of the act of the Mexican Congress of December 15, 1881, declares that railway companies are liable for all faults or accidents which occur through tardiness, negligence, imprudence, or want of capacity of their employees.

defer to the authority of the judges and juridical writers of F the decisions cited may be regarded as a fairly accurate presen of the law of that country, also. The Code of Italy, being from that of France, receives, it may be presumed, a similar con tion. For an account of the former and the existing law of e ers' liability in Germany and Austria, the reader is referred articles contributed by Mr. Pearce Higgins to the Juridical R vol. IX., pp. 249, 395.

877. Duty of employer as to appliances and place of work.— owners of industrial establishments are bound to provide fully f safety of the workmen employed by them, and they are respo as regards those workmen, for all accidents and injuries which result either from defects of construction, or from the failure t machinery and apparatus in proper condition, or from the negli or unskilfulness of the employees who superintend the differe partments of the business. They cannot escape their responsi except in cases of *force majeure*.[1] The fact that a certain sug precaution would have required a considerable expenditure of is not of itself an adequate excuse for the master's failure t that precaution.[2] Still less will the master be permitted to liability by the plea that the adoption of a different arrang would have entailed a slight increase of expenditure, and some ation of the work.[3]

If a machine used by a master was in good order, negligenc

An electric power company is liable for the death of an employee from an electric shock from a wire not properly insulated, where it failed to provide him with protecting gloves, which it was accustomed to furnish its employees when engaged in similar work, and which would have prevented the accident. *Desjardins* v. *Citizens' Light & P. Co.* (1898) Rap. Jud. Quebec, 15 C. S. 28.

Tackle used in loading or unloading a ship ought to be sufficient to withstand any strain that is likely to be put upon it by ordinary, unskilled laborers. *Ross* v. *Langlois* (1885; Quebec) Montreal L. Rep. 1 Q. B. 280.

Whether, in the absence of an express statutory provision requiring that precaution, the failure of an employer to fence dangerous machinery is to be deemed, as respects adults, a c breach of duty, was left unse two cases. *Archambault* v. *De Barb Wire Co.* (1889) 18 Rev (Quebec S. C.) 57 (recovery he denied on the ground of co negligence); *Légaré* v. *Espl* Rap. Jud. Quebec, 12 C. S. 1 gence said to be possibly not p of omission to provide a guar

[2] An employer who has omitted vide a building especially for the ing out of dynamite is not relieve liability for injuries resulting fro omission on the ground that it have been difficult and costly to a building especially for the p *Durand* v. *Asbestos & Asbest* (1898) Rap. Jud. Quebec, 19 C. Affirmed in (1905) 30 Can. S.

[3] *Scanlan* v. *Detroit Bridge & Works* (1899) Rap. Jud. Quebec, S. 264.

not be imputed to him merely on the ground that it was somewhat inferior to more modern machines of the same description.[4]

A master who is dealing with essentially dangerous things is bound to take the utmost care to see that they do not inflict any injury upon his servants, and must endeavor to secure their safety by adopting all known devices which are conducive to that end.[5]

A master is bound to protect his servants, so far as that result can be attained by the adoption of every reasonable precaution which, under the given circumstances, would be deemed necessary and proper by a person possessing that degree of skill and special knowledge which the law imputes to those who engage in any particular trade or business. *Spondet peritiam artis.*[6]

A master is not an insurer or guarantor of the safety of his servants.[7]

The principle which forbids the inference of culpability where the appliances and the methods used by the master are of such a character that his servants can avoid injury by the exercise of ordinary care is recognized, and in some cases is decisive in his favor.[8] But this principle is subject to some important qualifications. Starting from the theory that an employer owes to his workmen the same measure

[5] An electric-light and power company owes to a lineman the duty of adopting every precaution which can be taken to prevent live wires causing accidents. *Citizens' Light & P. Co.* v. *Lepitre* (1898) 29 Can. S. C. 1.

In *Asbestos & Asbestic Co.* v. *Durand* (1900) 30 Can. S. C. 285, the court, in holding that negligence might properly be inferred from the fact that an unnecessary and unreasonable quantity of dynamite had been accumulated in dangerous proximity to the place of work, said: "The peril to life from high explosives is so great, and, as shown by the evidence, the cause of their explosion frequently so obscure, that damage may fairly be anticipated as likely to ensue from the act of one who accumulates an unusual and unreasonable quantity in dangerous proximity to others. In placing it where an opportunity for damage may be created, either by the nature of the substance or by fortuitous circumstance or neglect of others or other cause, he takes the chance of the happening of such other event, and cannot disconnect himself from the fairly to be anticipated consequences of his own negligence."

[6] An employer engaged in constructing sewers is liable to an employee for injuries sustained because of his failure to use means known to experts for removing carbonic gas, which would necessarily accumulate at the bottom of the trench, although the employee and his companions undertook the excavation in a certain time at a fixed daily sum. *Dagenais* v. *Houle* (1897) Rap. Jud. Quebec, 11 C. S. 225.

[8] It is not negligence to use a machine which is not dangerous in itself, but merely dangerous to a workman who is negligent and inattentive to his du *Sarault* v. *Viau* (1881) 11 Rev. (Quebec S. C.) 217 (injury caused b machine into which the workman had to insert the paste to be rolled for making biscuits). See also cases cited in § 889, *infra*.

of care as is owed by a *"bon père de famille"* to his own chil courts deduce the consequence that he must protect his s against even the consequences of their own mistakes, imprudenc thoughtlessness, and that he is to this end bound not only to gi orders as, if they are obeyed, will secure their safety, but als that those orders are properly executed.[10] The obligation thu cated is declared to be especially incumbent in the case of children.[11] As applied for the benefit of this class of emp

[9] *McCarthy* v. *Thomas Davidson Mfg. Co.* (1899) Rap. Jud. Quebec, 18 C. S. 272.

[10] *George Matthews Co.* v. *Boxchard* (1887) Rap. Jud. Quebec, 8 B. R. 550 (injury caused by projecting set screw).

In *St. Arnaud* v. *Gibson* (1898) Rap. Jud. Quebec, 13 S. C. 22, the court approved a ruling in the earlier case of *Ibbotson* v. *Trevithick*, Rap. Jud. Quebec, 4 S. C. 518, that "an employer is bound to protect his employees by the best possible means, and even, to some extent, against their own imprudence." The court remarked: "The position of employee is a difficult one. The least exhibition of unwillingness on their part may lead to the loss of their situation; their attention, too, is taken up with the manual labor they are in the act of performing; they are, by education and training, far less capable of foreseeing and avoiding danger than their employers."

In one case the law was summed up in the following propositions: That the master is responsible for his faults of omission as well as his faults of commission; that he is bound to take the precautions necessary to avoid the accidents which may occur to the workmen whom he employs, even by reason of their own imprudence; that it is his duty to see that the measures thus adopted are observed; that it is not even enough for him to have taken serious precautions, if he failed to take all those which were compatible with the necessities of his industry; that he is bound to provide not only for accidents of a usual kind, but for those which are barely possible; that he is responsible for an injury received by his workman while engaged in a dangerous work which he has ordered such workman to perform; that it is his duty to take all necessary precautions to guarantee the workman against the consequences of his own imprudence; that this obligation is still more strict when the servant is a child who is of the danger which he may i has neither the prudence nor th ence necessary to protect himse the master is bound when he children, not to assign to them which brings them into contact dangerous parts of machines; it is his duty to protect them the grave consequences which entailed by acts of levity, tho ness, and the caprices natural time of life. *Archbald* v. *Vell* Rap. Jud. Quebec, 6 B. R. 340.

In *Sarault* v. *Vian* (1881) Leg. (Montreal C. S.) 217, the fers to a passage in which Laur 20, p. 518, No. 438), commenti a French decision to the effect employer is in fault, where he take the most minute precau the protection of his employ that he is bound to safegua against the effects of their own dence, remarks that this doctr seem excessively severe, as reg employer, but that it is, neverth completely conformable to principles as it is to humani much as workmen who are with ention, and wanting in foresi cause they are thus wanting, b familiar with the dangers of th that they neglect the precauti the most simple prudence indica learned author puts the case o tractor for the excavation of who has directed his workmen when there is danger of the slipping down, and lays it do such contractor is responsible event of an accident happenin does not watch over the exec this order, and so protect the against their own imprudence.

The doctrine that a master to see that an order is exec lately applied in *Martel* v. *Ros* Rap. Jud. Quebec, 16 C. S. 1

[11] *Robitaille* v. *White* (190

such a doctrine may be nearly, if not exactly, paralleled in the common law (see § 19, *ante*); but, so far as adults are concerned, it certainly fixes a higher standard of care than that system exacts.

878. — as to methods of work.— In carrying out his work an employer is under the duty of using methods as safe as are practicable.[1] He is negligent if the methods which he employs in carrying on his work are such as expose his servants to unnecessary and avoidable perils.[2]

The test of negligence is not whether greater precautions might have been taken, and the accident avoided, but whether ordinary precautions,—those usual under the circumstances,—were taken.[3]

879. — as to rules and regulations.— Where the conditions under which the master's business is carried on are such that the safety of the servants cannot be adequately secured without the promulgation of rules, an obligation arises to make rules which will be effective for the protection of the servants, and to see not only that those rules are understood, but also that they are obeyed. This duty is more especially obligatory where girls and young persons are employed.[1]

880. — as to the employment of competent servants.— That the master is culpable if he hires or retains an unskilled or otherwise incompetent servant, and must answer for such injuries as other employees may receive in consequence of the unfitness of that servant, has been declared, *arguendo*, in one case.[1] But this principle is of no practical importance, as the common-law doctrine of coservice is not applied in this Province. See § 890, *infra*. In the case cited the actual rationale of the judgment was that recovery could not be had, as there was no evidence to show how the accident occurred.

881. — as to instruction and warning.— The existence of an obligation to impart information as to the proper manner of doing the work in hand, or as to the dangers incident thereto, is inferred in all cases where it should have been apparent to a reasonably intelligent person that the perils to which the work subjected the servant in question

Jud. Quebec, 19 C. S. 431; *McCarthy* v. *Thomas Davidson Mfg. Co.* (1899) Rap. Jud. Quebec, 18 C. S. 272.

were probably not appreciated by him.[1] This duty is m
cially obligatory in the case of inexperienced children wh
signed to work of an essentially dangerous character.[2] I
seem, however, that the master discharges his obligations full
such circumstances if the child is given the assistance of a
ence l workman.[3]

Some kinds of work are apparently regarded as being so d
that, where an immature youth has been assigned to them, n
is inferable, irrespective of whether he was or was n
instructed.[4]

882. Duty to save life of imperiled servant.— To charge a
with responsibility for the failure of his agent to save the
servant in jeopardy, it must be shown that such agent was
negligent. He cannot be held liable where the evidence mer
that something might have been done which wa not done,
if that something had been done, death would not have ensue

883. Assurance of safety.— Although the master or his ag
have acted in good faith and in the belief that what he said
he is liable, as for negligence, if he assures his servants that
in no danger, and thus induces them to remain on the premis
it ought to have been apparent to him that, under the circu
their position might at any moment become one of extreme

[1] *Richelieu & O. Nav. Co.* (1883) Montreal L. Rep. 1 There recovery was denied where a member of a ste who fell into the water while being transhipped from anoth was drowned. The captain d er any boats to rescue him. dence was that a number of which were close by hurried t drowning man the moment af cident occurred.

[1] *Macdonald* v. *Thibaude* Rap. Jud. Quebec, 8 B. R. 44 were directed to return to w

884. Liability to servants working outside the scope of their employment.— The owner of a manufacturing establishment who causes a workman to perform very dangerous work, especially when such workman is not accustomed to that description of work, and does not receive a salary in proportion to the risk he runs, is liable in damages for the death of the workman.[1]

885. Obligations of an employer not owed to volunteers.— A master is not bound to protect volunteers or intermeddlers from the dangers of work undertaken by them without his authority.[1]

886. Causation.— No action can be maintained unless the injury is shown by direct testimony, or by presumptions co-existent, weighty, and precise, to have been caused by the negligence of the master or one of his agents. No recovery can be had where, under the evidence, the manner in which the accident occurred is a mere matter of conjecture.[1]

B. Defenses available to employers.

887. Assumption of risks.— As under the common law, every risk which is not shown to have been the result of some distinct negligence on the master's part is regarded as being one which belongs to the ordinary class.[1]

Where a servant has undertaken work which he knows to be dangerous, the master's whole duty is performed when he has furnished everything that is necessary to protect him from peril, so far as the nature of the work allows.[2]

888. Volenti non fit injuria.— The principle embodied in the maxim *volenti non fit injuria* is recognized, and will preclude recovery under circumstances appropriate for its application.[1]

fire had broken out on the uppermost floor of a factory).

[1] *Richelieu & O. Nav. Co.* v. *St. Jean* (1883) Montreal L. Rep. 1 Q. B. 252.

889. Contributory negligence.— If the servant's own ne was the sole cause of his injury, he cannot recover any damag ever.[1] The theory upon which recovery is denied in this in the same as that which is the basis of the similar rule which under the common law, *viz.*, that the fault of the servant breaks the connection between the delinquency complained the injury received.[2] But the doctrine of Anglo-American j dence, that no action is maintainable in any case where the negligence contributed even in the smallest degree to the has not been adopted. If it appears that the injury was partly by the negligence of the master and partly by the negli the servant, the damages awarded will be reduced by such a as may be deemed equitable in view of all the circu involved.[3]

The standards by which the culpable or nonculpable qua servant's acts is ganged are, it would seem, not materially from those which are applied under the common law. On hand we find the general principle formulated that, if a man

The effect of the ruling was that, even if the method adopted for doing the work in hand is a negligent one, a servant who is injured by its adoption cannot recover in a case where he is himself the person who is in control of the work.

[1] *Cossett* v. *Leduc* (1883; Quebec Cour de Revision) 6 L. N. 181, citing Laurent, vol. xx., No. 475; *Richelieu & O. Nav. Co.* v. *St. Jean* (1883) Montreal L. Rep. 1 Q. B. 252, Reversing 11 Rev. B. 33; *Scanlan* v. *Detroit Bridge & Iron Works* (1899) Rap. Jud. Quebec, 16 C. S. 264; *Tooke* v. *Bergeron* (1897) 27 Can. S. C. 567.

A workman injured in the execution of a piece of work which ber gerous only when the person it fails to pay proper attentio he is doing cannot recover d he, being fully aware of all t precautions to take, can only the victim of an accident in c of his own fault and his ow dence. Dalloz et Vergé, Co tées, Code Civ. 2, 1st pt., p. 1383, No. 101.

[2] According to a standard t French law a servant who re injury through his own fault on the footing of a person wh been injured at all. *Quod q culpa damnum sentit, non i damnum sentire.* Laromblière des Obligations, vol. 5, p. 70 The same author also observe frequently happens that the putable to the person who all sc[?] to be injured is of such that the act complained of, hurtful it may be, does not p longer the characteristics of a quasi delict.

[3] *Fortier* v. *Lauzier* (1898) Quebec, 14 C. S. 359; *Pri* (1899) 29 Can. S. C. 494, Re part (1898) Rap. Jud. Quebe 170 (employee of mill owner the manifestly dangerous wor ing a bridge from destruct flood).

what the majority of men would have done under the circumstances, it cannot be said that he is culpable.[4] On the other hand, the right of recovery has been denied where a skilled workman continued to use an appliance, the insufficiency of which for the purpose for which it was supplied he should have comprehended;[5] where a servant unnecessarily exposed himself to peril by using an appliance while it was temporarily in an abnormally dangerous condition;[6] where a servant, as a result of using for a particular piece of work an implement which, as he knew, was not designed to be used for such a purpose, suffered an injury which would not have been received if he had used the appropriate implement;[7] and where the injury was the result of the servant's disobedience to the master's orders,[8] or was due to the servant's disregard of the instructions which he had received as to the manner in which the work assigned to him was to be done.[9]

An act of an indisputably negligent quality will not preclude recovery, if the adoption of the course of conduct which the servant ought to have followed would not have enabled him to avoid the danger to which he was exposed when the accident occurred.[10]

As is the rule under the common law, the fact that, at the time of the accident, the injured servant was absorbed in duties which engrossed his attention is an adequate excuse for his temporary forget-

[4] *Cossett* v. *Leduc* (1883; Quebec Cour de Revision) 6 L. N. 181, citing Laurent, vol. xx., No. 475.

[7] *Portier* v. *Lauzier* (1898) Rap. Jud. Quebec, 14 C. S. 359. The court held that the diversion of the implement to an improper purpose was not excused by the fact that other workmen had been guilty of similar misconduct.

[8] *Desroches* v. *Gauthier* (1882) 5 L. N. 404 (Quebec) 33; *Globe Woollen Mills Co.* v. *Poitras* (1895) Rap. Jud. Quebec, 4 Q. B. 116, Reversing Rap. Jud. Quebec, 5 C. S. 361 (servant cleaned machinery while in motion); *Archambault* v. *Dominion Barb Wire Co.* (1889) 18 Rev. Leg. (Quebec S. C.) 57 (servant attempted to replace a belt while the machinery was in motion, when it was not his duty to do so, and another employee was specially charged with this function); *Dominion Oil Cloth Co.* v. *Coallier* (1890) Montreal L. Rep. 6 Q. B. 268, Reversing (1888) Montreal L. Rep. 5 S. C. 97 (servant undertook to shift a belt while the machinery was in motion).

[9] *Carrie* v. *Couture* (1887) 19 Rev. Leg. (Quebec Q. B.) 443 (furnace in which "black ash" was made exploded); *Robitaille* v. *White* (1901) Rap. Jud. Quebec, 19 C. S. 431 (boy who had been duly instructed as to the proper way of doing the work and the dangers to be guarded against allowed his hand to be drawn between the cylinders of a leather slicing machine); *Scanlan* v. *Detroit Bridge & Iron Works* (1899) Rap. Jud. Quebec, 16 C. S. 264.

[10] In *Scanlan* v. *Detroit Bridge & Iron Works* (1899) Rap. Jud. Quebec, 16 C. S. 264, a servant was injured as a result of the breaking of some chains and pulleys by which a bridge girder was being raised, while he was standing in a position which he had been forbidden to take while this operation was in progress. The court awarded him damages on the ground that he would in all probability have been injured, even if he had complied with the employer's directions.

fulness of a known danger.[11] So, also, negligence is sometime
tived by the fact that, at the time when the servant did the act
was the immediate cause of the injury, extreme terror crea
great peril confused his reasoning faculties.[12]

890. Common employment.—*a. Scotland.*—It has been sta
Sir Frederick Pollock that the doctrine of common employme
not so much adopted from England, as thrust upon the Scottish
by decisions of the House of Lords."[1] This remark is fulli
fied by the language used in the earlier cases.[2] Upon the fa
possible to reconcile the decisions cited with the doctrines app
the English courts; and it is upon this footing that they are ex
in the judgment of the Lord Chancellor in the decision which
assimilated the law of Scotland to that of England.[3] But th
unsatisfactory, not to say disingenuous, method of making out
trinal identity is entirely forbidden by the circumstances invo
another case in which the judges, with a full knowledge of t
which had been formulated a few years previously by the
court of exchequer, deliberately held, upon the broadest groun
a master was liable to a servant who was injured by the negli
a coservant.[4] This piece of legal history, however, is no lo
any practical interest since the consummation of the coercive
referred to by Sir Frederick Pollock, and the subject is refe
in the present connection chiefly for the purpose of explain
manner in which it has happened that in Scotland, a country in
the civil law furnishes to a large extent the basis of the juris-p
administered, a doctrine is now applied which has been repudi
all other countries in which that system prevails.

[11] A servant engaged in performing a piece of work which requires the exercise of his whole physical strength should not be held responsible for having momentarily forgotten a source of danger behind him to which he was exposed by the master's nonobservance of proper precautions. *George Matthews Co.* v. *Bouchard* (1897) Rap. Jud. Quebec, 8 B. R. 550.

[12] Contributory negligence is not predicable of the act of a female employee in leaping out of a window in the upper story of a burning building, under the belief that she could not save herself in any other way, although she could readily have escaped by the staircase. *Macdonald* v. *Thibaudeau* (1893) Rap. Jud. Quebec, 8 B. R. 409.

[3] *Bartonshill Coal Co.* v. (1858) 3 Macq. H. L. Cas. 266 N. S. 767, 6 Week. Rep. 664

[4] *M'Naughton* v. *Caledonian* (1857) 19 Sc. Sess. Cas. 2d se (car repairer injured by negli engineer). This decision is significant in the present point as it was delivered after the h the English case just cited, bu the rendition of the judgment court explicitly declined to a doctrine of coservice, unless th of Lords should pronounce in

b. France.—In 1834, three years before the leading English decision of *Priestley* v. *Fowler*, it was held by the Cour de Cassation, affirming the decision of the lower court, that the risk of being injured by the negligence of a fellow workman was presumed to be sufficiently compensated for by the wages paid, and that such a risk was, for this reason, one of those which are presumed to have been accepted by every employee.[5] This decision was soon afterwards followed by another to the same effect.[6] But the doctrine thus laid down was finally repudiated, and the rule which now prevails is that an employer is not absolved from liability by the fact that the injury was due to the negligence of a coservant.[7]

c. Italy and Switzerland.—It has been stated by Mr. Bateson in the Law Quarterly Review (vol. 5, p. 181) that the doctrine applied in these countries is the same as that which prevails in France.

d. Germany and Austria.—It is stated by Mr. Pearce Higgins (9 Jurid. Rev. p. 271) that, so far as regards the liability of an employer, the public and workmen are on the same footing in these countries, and their systems of law know nothing of any doctrine of common employment.

e. Quebec.—In some of the earlier cases the courts, influenced, possibly, by the contiguity of jurisdictions in which the common-law rule was applied, rendered decisions based upon the theory that the risk of being injured by the negligence of a fellow servant was assumed, as being one of those ordinarily incident to every employment.[8] But the doctrine now established is the same as that which prevails in France.[9]

Affirmed in (1895) 24 Can. S. C. 182; *Robinson* v. *Riopel* (1887; Quebec Montreal L. Rep. 3 S. C. 198 (master held liable for negligent construction of a scaffold by a fellow servant).

In a recent case one of the Federal courts of appeal applied this doctrine in a case where the servant of an American railway company was injured in Canada. *Boston & M. R. Co.* v. *McDonald* (1897) 25 C. C. A. 247, 51 U. S. App. 111, 73 Fed. 934.

STATUTES AND CONSTITUTIONS.

The following schedule contains a reference to various constitutions and statutes which affect, either directly or indirectly, the liability of employers to their employees for personal injuries. It also contains a reference to the pages herein where any of such statutes or constitutions are commented upon.

Ala. Code, § 1144. Requiring the ringing of bell or blowing of whistle when approaching public crossing, see herein p. 1874.

Ala. Stat. 1887, 47. Relating to employment of persons who are color blind.

Ala. Stat. 1887, 59. Engineers must be examined as to fitness.

Ala. Laws 1884–85, p. 115. Civ. Cod 1886, § 2590. Employers' Liability Act, see herein p. 1930.

Ala. Act Feb. 14, 1893, chap. 241. Requiring railroad companies to hold examinations of applicants for positions.

Ala. Act Feb. 16, 1893, chap. 266. Inspection and regulation: ventilation, props, hoisting cages, gas and water in mines, scales, etc. Classification as to danger. Notice of accidents. Report of product.

Ala. Act Dec. 9, 1890, chap. 51. Apprenticing of minors.

Ala. Act Dec. 5, 1894, chap. 15. Repealing law to prevent compelling women and children and permitting children under 14 to labor more than eight hours.

Ala. Act Feb. 18, 1895, chap. 568. Mines. Inspection. Safety. Amending and extending law. Qualifications of bosses. Penalties for injuries to apparatus, carelessness, etc. Abstract of law to be posted at mines.

Ala. Act Feb. 16, 1897, chap. 186. Coal mines. Revised general law. Inspectors' duties. Provisions for safety of employees.

Ala. Act Feb. 23, 1899, p. 86. In mines employing not over 20 men owner or operator may, on application to mine inspector, be allowed to act as foreman without examination, certain counties excepted.

Ark. Const. 19, 18. Legislature shall pass laws for protection of miners.

Ark. Laws 1893, chap. 46, p. 68. Declaring who are vice principals of railroad companies, see herein p. 2082.

Cal. Civ. Code, § 1970. Excepting employer from liability for negligence of fellow servant, see herein, p. 1889.

Cal. Civ. Code, §§ 1970, 1971. Declaratory of common law liability of master, see herein p. 1918.

Cal. Stat. 6969 6971. Obligations of employer.

Cal. Stat. 6975 6992. Obligations of employee.

Cal. Act March 8, 1893, chap. 74. Mine bell signals. Establishing uniform system for all mines. Violation sufficient ground for discharge of employee. Corporations not responsible for accidents to men disobeying rules and signals. Failure to carry out provisions renders corporations responsible.

Cal. Const. 20, 17. Cal. Act March 20, 1899, chap. 144. Eight hours a legal day's work on all public works.

Colo. Const. 16, 2. Legislature shall pass laws for protection of miners.

Colo. Stat. 1891, p. 280. No railway shall employ telegraph operator under 18, nor one who has not had one year's experience.

Colo. Act April 13, 1891, p. 284. Rail

road employees not to be required to work more than 18 consecutive hours.

Colo. Act March 27, 1893, chap. 113. Eight hours to constitute day's work on all state, county, and municipal works.

Colo. Act April 8, 1893, chap. 123. Precautions in working mines near abandoned mines.

Colo. Laws 1893, chap. 77. Employers' Liability Act, see herein p. 1935.

Colo. Act March 16, 1899, chap. 103. Eight hours to be a day's work except in emergencies, in mines, smelters, and reduction works.

Colo. Sess. Laws 1901, chap. 67. Relating to liability of employers for death of employees, see herein p. 2107.

Conn. Act June 14, 1893, chap. 204. Preservation of health of employees in factories by removal of excessive dust.

Conn. Act April 25, 1893, chap. 77. Employers required to provide seats for women and girls.

Conn. Act May 9, 1895, chap. 118. Minors under 14 (formerly 13) shall not be employed.

Conn. Act April 5, 1899, chap. 41. Children under 14 not to be employed at labor during school hours. Penalty.

Conn. Act July 4, 1895, chap. 295. Alien laborers shall be informed of their rights from time to time in their own language by special agent of labor bureau. Penalty for imposing on such laborers.

Conn. Act July 9, 1895, chap. 206. Penalty for hindering inspectors in performing duties. Appeal to court from orders.

Conn. Act May 25, 1897, chap. 174. Regulating sanitation, inspection, and health of employees in bakeries.

Conn. Act May 31, 1899, chap. 140. Cellars not to be used as bakeshops. Exception.

Other amendments to 1897, chap. 174, § 2.

Conn. Act June 2, 1897, chap. 209. Employees on St. Ry. Penalty for failure to make returns to railway commissioners in conformity with prescribed forms.

Conn. Act June 11, 1897, chap. 241. Railway commissioners may direct that platforms of cars be inclosed by gates or vestibules.

Conn. Act May 17, 1899, chap. 119. Factories to be well light tilated, and kept clean. Amending G. L. 1888, § 2265.

Conn. Act June 20, 1899, cha Inspector of factories to tenements and dwelling wholly or in part as wor

Ga. Civ. Code 1895, §§ 2611, 26 quiring masters to furni sonably safe machinery.

Ga. Code § 2979. Requiring the ing of alarm whistle when or other obstruction appe on track, see herein p. 18

Ga. Stat. 3036. Railway comp ble for damage or injury ployee through negli other employee, where no utory negligence.

Ga. Stat. 1890, 148. No railwa employ telegraph operato 18, nor one who has not year's experience.

Ga. Act Oct. 20, 1891, p. 186. Unlawful to require railroad employees to make runs of over 13 hours each, except where train is detained. Ten hours of rest.

Ga. Act Dec. 16, 1895, p. 97. Contracts exempting master from liability to servant for negligence of master or other servant are void.

Ga. Act Dec. 16, 1895, p. 103. Receivers of railways have same liability to employees as corporations.

Idaho Act March 6, 1893, p. 152. Appointment, powers, and duties of state mine inspector.

Idaho Act March 11, 1895, p. 160. Inspector of mines. Amending and extending law. Deputies may be appointed. Investigation of accidents.

Idaho Act March 9, 1891, p. 169. Eight hours to constitute day's labor on all state, county, and municipal works.

Idaho Act Feb. 6, 1899, p. 113. Eight hours a day's work on all public work. 1890-1891, p. 169, re-enacted to correct illegality in passage.

Ill. Crim. Code, chap. 38, §§ 77, 80. Provides that it shall be unlawful for any person, firm, or corporation to employ or hire any child under thirteen years of age unless a school board gives a certificate that an aged or infirm relative is dependent in whole or in part upon said child.

Ill. Act 1872. Ill. Act 1877, § 3. Ill. Act, May 28, 1879, § 3. Requiring that a second escapement be provided in mines, see herein p. 2199.

Ill. Const. 4, 29. Legislature shall pass laws for protection of miners.

Ill. Rev. Stat. chap. 93, § 14. Requiring the inspection of mines before men begin work, see herein p. 2210.

Ill. Rev. Stat. 1874, chap. 93, § 9, amended by Act May 11, 1877. Requiring the report of accidents to mine inspectors, see herein p. 2197.

Ill. Rev. Stat. 1874, chap. 93, § 14. Requiring that drums shall be provided with brakes, see herein p. 2197.

Ill. Rev. Stat. chap. 93, § 16. Requiring the use and furnishing of timber to be used as props in coal mines, see herein p. 2198.

Ill. Rev. Stat. chap. 93, § 8. Providing for signals in coal mines, see herein p. 2198.

Ill. Rev. Laws 1874, chap. 70, § 14. Relating to the covering of hoisting cages used in mine shafts, see herein p. 2197.

Ill. Laws 1883, p. 114. Relating to the protection and safety of miners, see herein p. 2197.

Ill. Act 1872, § 8. Top of shaft to be securely fenced.

Ill. Laws 1879, p. 207. Requiring the top of each shaft and entrance to a vein to be fenced.

Ill. Laws 1879, p. 207. Providing for the health and safety of persons employed in coal mines.

Ill. Sess. Laws 1887, p. 235. Relating to mines.

Ill. Act June 17, 1891, p. 87. Prohibiting employment of children under 13.

Ill. Act June 18, 1891, p. 168. Managers of coal mines required to pass examinations.

Ill. Act, 1891, p. 168, § 5. Miner's death or injury in mine where manager has no certificate of competency as provided in act, a cause of action.

Ill. Act June 17, 1893, p. 99. Children under 14 prohibited employment in manufacturing establishment. Register of children under 16 to be kept. Employment of children between 14 and 16 forbidden, except with affidavit of parent or guardian as to age, date, and place of birth. Certificates of health may be demanded by inspectors.

Ill. Act June 17, 1893, p. 99. No female shall be employed in any factory or workshop more than eight hours in any one day or 48 hours in any one week. Hours of required work to be kept posted by employers.

Ill. Act June 9, 1897, p. 90. Child Labor. Not permitted to work for wages if under 14 nor if under 16 more than 60 hours per week or at hazardous employment. Penalty. Register of children.

Ill. Act June 17, 1893, p. 99. Manufacture of clothing, artificial flowers, and cigars prohibited in apartments, tenements, and living rooms, except by families living therein. Every such workshop to be kept clean, free from vermin, infectious, or contagious matter,

and subject to inspection. To be reported to board of health.

Ill. Act April 30, 1895, p. 256. Illumination of coal mines. Prescribing kinds of oil which may be used. Tests. Penalties. Inspection.

Ill. Act June 4, 1895, p. 255. Mine inspectors shall inspect scales in coal mines.

Ill. Act June 21, 1895, p. 250. Coal mines. Hoisting engineers and fire bosses must secure license from state, on examination or proof of four years experience.

Ill. Act June 15, 1895, p. 254. Mines. Inspector. Amending law. Fees to be paid by mines. Statement of condition of mine to be posted at mine.

Ill. Act June 21, 1895, p. 255. Mine managers. Examinations given only to those having four years' experience as miners.

Ill. Act June 21, 1895, p. 258. Regulating filling cartridges and firing shots in mines.

Ill. Act June 7, 1897, p. 269. Sanitary regulations only applicable in mines where more than five are employed.

Ill. Act June 7, 1897, p. 268. No person shall mine by himself unless with two years' practical experience. Otherwise must be accompanied by practical miner.

Ill. Act June 11, 1897, p. 250. Dust blowers required on polishing machinery, emery wheels, etc.

Ill. Act April 21, 1899, p. 139. Penalty for use of deception or unlawful force in employing workmen, and for guarding with deadly weapons certain workmen or property without written permit from governor.

Ill. (Hurd's Stat. chap. 114, § 62). Relating to duty of railroad companies to fence right of way, see herein p. 1877.

Ill. (2 Starr & C. Anno. Stat. 2719, chap. 92, §§ 4, 14). Relating to the inspection of mines, see herein p. 2197.

Ill. (Hurd's Rev. Stat., chap. 114, § 90). Requiring the use of brakes and employment of skilful brakemen on trains, see herein p. 2188.

Ill. (Hurd's Rev. Stat. 1899, chap. 93, § 6). Requiring the furnishing of sufficient light at top of mine shafts, see herein p. 2198.

Ind. Act March 7, 1895, chap. 71. Platforms of street railway cars to be inclosed for protection in winter.

Ind. Act March 2, 1897, chap. 65. Factory Inspection. General law (first in state). Regulation of child and female labor. Hours, machinery, ventilation, fire escapes, sweatshops, etc.

Ind. Act 1897, p. 101. Providing that machinery shall be properly guarded, see herein p. 2191.

Ind. Acts 1899, p. 234, § 9 (Burns's Rev. Stat. 1901, § 7087). Requiring all machinery of every description to be properly guarded.

Ind. Act March 2, 1899, chap. 142. General factory inspection law. Hours of women and children. Safety of employees. Accidents. Sweatshops. Department of inspection created.

Iowa Act 1853. Relating to liability of railroad companies, see herein p. 1884.

Iowa Laws 1880, chap. 202, § 15. Declaring it a misdemeanor to ride upon loaded car in shaft or slope, see herein, p. 2200.

Iowa Act April 17, 1890, chap. 46. Escape shafts in coal mines.

Iowa (McClain's Code, §§ 2463, 2465). Requiring employees in mines to prop roofs and entries, see herein pp. 1909, 2199.

Iowa Code, § 2488. Requires adoption of means for efficient ventilation in mines.

Iowa Act March 23, 1900, chap. 82. Mine foremen, pit bosses, and hoisting engineers to be examined and to hold certificates of competency. Amending Code 1897, chap. 9, p. 12.

Iowa Code 1873, § 1307; Code 1897, § 2071. Relating to liability of railroad companies for injuries to employees, see herein p. 2112.

Iowa Civ. Code, § 4064. Fencing machinery.

Iowa Act March 19, 1896, chap. 92. Iowa Act April 8, 1896, chap. 93. Mines. Only pure animal or vegetable oil or paraffin to be used for illumination. Standard.

Iowa Act March 25, 1898, chap. 60. Illuminating oil for use in coal mines to be inspected and branded by inspector of petroleum products (formerly branded by state mine inspector). Amending § 2194-95 Code 1897.

Iowa Act March 28, 1898, chap. 59. Mines. Amending law (§ 2488 Code 1897) relative to ventilation: air current not to be more than 60 feet from working face except in certain cases.

Kan. Act March 2, 1870. Relating to liability of railroad companies for injuries to persons or property, see herein p. 1884.

Kan. Stat. 23, 93. Railroad companies liable for injury to employees.

Kan. Act March 10, 1891, chap. 114. Eight hours to constitute day's labor for all workmen, mechanics, and others employed by state, city, or town, or by contractors on public works.

Kan. Act March 19, 1891, chap. 117. Mines. Use of explosives.

Kan. Act April 4, 1893, chap. 125. Inspection of mines. Health and safety of employees.

Kan. Act Mar. 21, 1895, chap. 171. Regulation, ventilation, and inspection of coal mines.

Kan. Gen. Stat. 1897, chap. 70, § 15. Relating to liability of railroad companies for injuries to employees, see herein p. 2119.

Kan. Act March 6, 1897, chap. 172. Platforms of electric street railways to be inclosed for protection in winter.

Kan. Act March 4, 1899, chap. 165. Compelling sinking of escape shafts at coal mines; to be 300 feet from main shaft; regulations.

Kan. Act March 13, 1897, chap. 159. Coal operators to make quarterly report to inspectors, coal mined, number of miners and other men and boys employed, prices paid, accidents, deaths, etc.

2 Ky. Rev. Stat. (Act March 10, 1854). Relating to liability of railroad companies for wilful acts of servant, see herein p. 1885.

La. Gen. Stat. chap. 37, § 3. Giving widow of one killed through wilful neglect a right to recover punitive damages, see herein p. 1889.

Ky. Stat. 1854. Providing for the recovery of punitive damages for wilful neglect resulting in loss of life, see herein p. 1911.

Ky. Const. § 241. Relating to liability for death by wrongful act, see herein p. 1885.

Ky. Stat. § 2732. Making it a misdemeanor to neglect to properly secure roofs of mines, see herein p. 2200.

Ky. Act Feb. 15, 1893, chap. 142. Mines. Inspection. Regulation. Ventilation. Protection of miners.

Ky. Act March 3, 1894, chap. 37. Providing for and regulating ventilation of coal mines.

La. (Code of Napoleon, § 1382). Relating to liability for causing damage to another, see herein p. 1882.

La. Const. 175. Legislature shall pass laws to protect laborers on public works, canals, railroads, etc.

La. Stat. 162–9, 175–7. General law of Master and Servant.

La. Act April 6, 1892, chap. 47. Manufacturing and mercantile houses required to provide seats for female employees.

La. Act July 6, 1892, chap. 60. Prohibiting employment of children under 12 in cleaning or operating dangerous machinery.

La. Labor Laws (Wolf's Rev. Laws 1897, p. 515). Employment of children, etc.

La. Act July 5, 1900, chap. 55. Seats to be maintained for female employees; at least 30 minutes for lunch.

La. Act June 30, 1894, chap. 13. Prohibiting employment of women in houses where spirituous liquors are sold at retail.

Me. Rev. Stat. chap. 17, §§ 23, 24. Requiring that blasting shall be preceded by warning, see herein p. 1879.

Me. Rev. Stat. chap. 81, § 21. Relating to liability of railroad companies for personal injuries, see herein p. 1883.

Me. Stat. 1889, chap. 216. Blocking of frogs.

Me. Act March 29, 1893, chap. 292. Duty to prosecute for violations of fortnightly payment law, to examine into sanitary condition of factories, etc., to enforce law relative to swinging of doors in factories and to make annual report to commissioner of industrial and labor statistics.

master not bound to anticipate infliction of injuries by simple instrumentalities, 143.
not bound to anticipate accidents resulting from unusual defects of employees, 144.
exceptional character of accident, how far an element, 145.
no similar accident previously produced by same conditions, 146.
unexpectedly severe strain put upon appliances, 146a.
unexpected position of servant at time of accident, 147.
servant's attention diverted by fellow servant, 147a.
knowledge of others imputed to master in general, 148.
knowledge of mere coservant, 149.
knowledge of vice principal, 150.
superintendents and managers, 150, a.
superior servants of lower grade than superintendents, 150, b.
servants furnishing or maintaining inorganic instrumentalities, 150, c.
servants having power to hire and discharge other servants, 150, d.
servants whose duty is restricted to reporting defects, 150, e
as affecting duty to instruct servant as to abnormal conditions, 236.
duty to instruct servant as dependent upon master's knowledge of servant's ignorance of danger, 241.
as to conditions from which negligence is inferred, under employers' liability acts, 642.
burden of proving knowledge, 832.
pleading, necessity that complaint show master's knowledge of dangerous conditions, 856.
as to incompetency of fellow servants, see EMPLOYMENT OF SERVANTS.

KNOWLEDGE OF SERVANT,
theory that servant's knowledge or ignorance of risks determines question of master's liability—in general, 54.
negligence not predicable where servant appreciates risks, 55.
railways, 55, note 5.
other industrial concerns, 55, note 5.
rationale of the doctrine, 56.
abnormal as well as normal risks deemed to be within its scope, 57.
presumptions as to knowledge of abnormal and normal risks, distinctions between, 57.
negligence predicable where servant is exposed to risks of which he is excusably ignorant, 58.
master's conduct in exposing servant to unknown danger treated as a species of deception, 59.
notice to servant of existence of previously unknown risks relieves master, 60.
theory discussed and criticised—extent of employer's immunity, 61.
ultimate basis of theory rather economic than juristic, 62.
suggested exceptions in cases of temporary forgetfulness of known danger, 63.

(References are to sections.)

KNOWLEDGE OF SERVANT—(*continued*).
theory inconsistent with true conception of public policy 64.
servant not really a voluntary agent, 65.
alternative theory suggested as being the correct one, 66.
presumption that ordinary risks are comprehended by servant, 204, a.
as to existence of rules, necessary to make same obligatory on, 226
when deemed to have knowledge of rules promulgated by master, 227.
assumption of risks considered with reference to servant's knowledge or igu
ance thereof, 257, 258, 274.
as to condition which caused injury essential to render him guilty of contr
utory negligence, 319.
also essential that he understood dangers created by such conditions, 320.
as to known danger does not necessarily render him guilty of contributo
negligence, 322.
as to risk assumed essential to the application of the maxim, *Volenti non
injuria*, 372.
when knowledge of risk imputed to servant.
introductory, 387.
general principles—identity for juridical purposes of constructive and act
knowledge, 388.
failure to know that certain risks constitute contributory negligence, 3
province of court and jury in determining whether knowledge shall
be imputed, 390.
when servant is chargeable with knowledge—generally, 391.
evidential elements to be considered, 392.
what risks are deemed to be within comprehension of adult servants,
general, 393.
in absence of special experience—risks deemed to be comprehended, "

TABLE OF CASES.

A.

Aalesund The, 699
Abbitt v. Lake Erie & W. R. Co., 786, 815, 923, 1333
Abat v. McCubbin, 1902
Abel v. Delaware & H. Canal Co., 48, 462-464, 470, 473, 482, 495, 496, 621, 1468, 2208
Abell v. Western Maryland R. Co., 1822, 1832, 1844
Abend v. Terre Haute & I. R. Co., 956, 1395, 1413, 1478, 1585, 1825
Aberdeen Steam Traveling & Fishing Co. v. Peters, 2155
Aberdeen Steam Traveling Co. v. Kemp, 2155
Abraham v. Reynolds, 1315, 1381
Acme Coal Min. Co. v. Melver, 263, 618, 861
Adams v. Clymer, 35, 546, 1081, 2243
v. Glasgow & S. W. R. Co., 1322, 1333, 2318
v. Iron Cliffs Co., 607, 1351, 1357, 1359, 1372, 1377, 1837
v. Kansas & T. Coal Co., 733, 1909, 2183, 2200, 2365, 2369
v. Snow, 1732, 1759
Adams Exp. Co. v. Darnell, 2376
Adasken v. Gilbert, 1787, 1790, 1982, 1993, 2245
Addicks v. Christoph, 577, 1088, 1620, 1696
Adelfetz v. Humphreys, 155, 835
Agnew v. Supple, 822, 1415, 1458
Ahearn v. Central R. Co., 340, 1030, 1119
A. Heaton, The, 314, 1455, 1531, 1545, 1578
Aiken v. Smith, 876, 2214
Aitken v. Newport Co. Q. B. D., 540
v. Newport Slipway Dry Docks Co., 2006
Akeson v. Chicago, B. & Q. R. Co., 2116, 2118
Alabama & F. R. Co. v. Waller, 266, 393, 395, 419, 422, 423, 1363
Alabama Coal & Coke Co. v. Pitts, 530, 1004, 2289
Alabama G. S. R. Co. v. Bailey, 2070
v. Carroll (Ala.) 1801
Alabama G. S. R. Co. v. Carroll (Fed.) 378, 596, 957, 1180
v. Davis, 719, 989, 1014, 1958, 2077
v. Frazier, 780
v. Hall, 730, 1879
v. Hill, 781
v. Richie, 512, 857, 951, 842, 1254
v. Roach, 513, 514, 515, 518, 519, 794, 868, 926, 955
Alabama Midland R. Co. v. McDonald, 501, 1996, 2010, 2024, 2033
Alabama Mineral R. Co. v. Jones, 817, 1551, 1996, 2004
v. Marens, 39, 702, 704, 2075, 2076, 2384
Alabaster Co. v. Lonergan, 247, 1151, 1161
Alamango v. Albany County S., 2337
Alaska Treadwell Gold Min. Co. v. Whelan, 1424, 1430, 1433, 1450, 1554, 1579
Albert v. New York C. & H. R. R. Co., 756, 819, 840, 1023
Alberts v. Bache, 2243
Albertz v. Bache, 436, 535, 1004
Albrecht v. Chicago & N. W. R. Co., 1219
v. Milwaukee & S. R. Co., 2128
Alcorn v. New York C. & H. R. R. Co., 2383
Alden v. Agawam Canal Co., 394, 1422, 1492, 1507, 1568, 1591
v. Jaquith, 2318
Aldern v. Chicago & A. R. Co., 505, 652, 735, 747, 756, 771, 795, 952, 2279
Aldrich v. Concord & M. R. Co., 2224
Aldridge v. Midland Blast Furnace Co., 619, 649, 1042, 1043, 1271
Alexander v. Central Lumber & Mill. Co., 2324
v. Louisville & N. R. Co., 505, 515, 710, 1175
v. Maryland Steel Co., 2380
v. Mt. Sterling, 322
v. Tennessee & L. C. Gold & S. Min. Co., 155, 1185
Alexander Dye Works v. Bonfosse, 230
Alford v. Metcalf Bros. & Co., 80, 672
Allard v. Hildreth, 630
Allegheny Heating Co. v. Rohan, 1328, 1732

Allen v. Augusta Factory, 529, 2367
v. Boston & M. R. Co., 192, 584, 828, 2211
v. Burlington, C. R. & N. R. Co., 49, 120, 125, 183, 187
v. Galveston, H. & S. A. R. Co., 66, 331, 2103
v. Goodwin, 1419, 1541, 1559, 1606
v. G. W. & F. Smith Iron Co., 346, 640, 1169, 1454, 1976, 1981
v. Hixson, 16, 1865
v. Jakel, 575, 1084
v. Logan City, 619, 1422
v. New Gas Co., 46, 1189, 1505, 1653, 1800, 2235, 2300, 2309
v. Union P. R. Co., 54, 353, 378, 2287
Allend v. Spokane Falls & N. R. Co., 237, 1657, 2314, 2371, 2395
Allerton Packing Co. v. Egan, 21, 743
Allison Mfg. Co. v. McCormick, 88, 115, 117, 131, 215, 306, 326
Allmarch v. Walker, 1956, 1993, 2080
Alpe v. South Carolina R. Co., 419, 1025
Alton Lime & Cement Co. v. Calvey, 244, 248, 251, 286, 552, 630, 921, 1486, 2284
