LIBRARY OF UNIVERSAL KNOWLEDGE.

Large Type Edition. A verbatim reprint of the last (1880) London edition of Chamber's. It whole under one alphabet, with such illustrations as are necessary to elucidate the text. Printed from new electrotype plates, brevier type, on superior paper, and bound in 15 elegant octave volumes of about 900 pages each. It will contain, complete, about 10 per cent. more than Appleton's and 20 per cent more than Johnson's Cyclopedia, and though in all respreets important to the general reader, it is far superior to either of them, its cost is but a fraction of their price. Volumes I and II. are ready October I, and other volumes will follow at least two each month, the entire work being completed by April, 1881, and probably sooner. Price per volume, in cloth, \$1; in half Russia, gilt October top, \$1.50; postage, per volume, 21 cents. It has been our custom in previous publications to offer special inducements to those whose orders are \$10. soonest received. In pursuance of this policy, on or before October 31 only we will receive orders with cash, for the set of 15 volumes complete for the nominal price of \$10 for the edition in cloth, and \$15 for the edition in half Russia, gilt top. The price during November will be advanced to \$10.50 and \$15.75, and a further advance will be made each month till the work is completed. It is not supposed that the mass of those who will in time become purchasers of the Encyclopadia will make payment in advance as they now have the opportunity to do, though most of them do pay for their newspapers and magazines's full year in advance—but the old, tried triends of the Literary Revolution, who know that the American Book Exchange always accomplishes what it undertages and does what it promises to do, will be glad to save \$5.00 investing \$10 and get the earliest and consequently best printed copies of the largest and best Encyclopadia ever published in this country, even at ten times its cost. Volumes will be shipped as may be directed, as they are issued, or when the set is complete.

CHAMBERS' ENCYCLOPAEDIA.

As a portion of the Library of Universal Knowledge, we issue Chamber's Encyclopædia separately, without the American additions, complete in 15 volumes 16mo. In this style it is printed from new electrotype plates made from very clear nonpareil type. Price **57.CO** Acme edition, cloth, \$7.50; Aldus edition (finer, heavier paper, wide margins), half [hussia, gilttep] 15. In this style 14 volumes are issued October 1, and volume 15 will be ready about October 35, completing the work. To those ordering during the month of October, the price of the 15 volumes complete, will be \$7 for the cloib, \$14 for the half Russia, gilt top. During November the price will be advanced to \$7.25, and \$14.50 for the set.

AMERICAN ADDITIONS:

The very large addition to Chambers's Encylopædia (about 15,000 topics) which are made by the American editors of the Library of Universal Knowledge, will also be issued so arately in four volumes of 800 to 1000 octavo pages each, large type; the price being \$1 per volume in cloth, \$1.50 in half Russia, git top; postage, per volume, 21 cents. Volume I. will be ready in October, and other volumes will follow as rapidly as possible, the whole being completed by April, 1881, and probably sooner. Price for the set of four volumes during October only, net, \$2.65 for the cloth, \$4 for the half Russia, gilt top. The four volumes of American Additions will be found well-nigh maispensable by all owners of Chambers's, Appleton's, Johnson's and all other Cyclopædias except the large type edition of the Library of Universal Knowledge, from which it is compiled.

THURSDAY, NOVEMBER 11, 1880.

N the Festival of St. Simon and St. Jude, the Rev. Enos Nuttall was consecrated in St. Paul's, London, Bishop of Jamaica; the Rev. G E. Moule, Bishop of Ningpo; and the Rev. C. P. Scott, Bishop of North China.

The Rev. R. A. J. Suckling, of St. Edmond's Hall, Oxford, rector of Barsham, Beccles, has accepted the vicarage of St. Peter's, London Docks, vacated by the death of the Rev. C. F. Lowder.

A collection was recently made for the Church Missionary Society in the congregation of John's Chapel, Hampstead. It amounted to more than £500 stg.

It is intended to erect a church at Isandula, South Africa, to commemorate the loss of to many brave men.

The Bishop of North Queensland was one of the guests at the dedication festival of St. Philip's, Clerkenwell. At the annual supper, the Right Reverend Prelate said they knew there were certain traditions about a church which it was a kind thing to keep up. Now that he had attained his present position, he wished to be regarded as lifted entirely out of the region of party. He wished to hold the reins with an impartial hand, and was ready to work with all who could find a place within the comprehensive bounds of the grand old Church of England.

The Diocese of Rangoon has been chiefly founded in the county of Wicklow. by Churchmen in the Diocese of Winchester, in which the first Bishop, Dr. Titcomb, was formerly rector. At a meeting held in the Chapter House, Winchester, previous to his return to his Diocese, Bishop Titcomb stated that he had ordained eight clergymen—one Englishmen, one Burmese, one Hindoo, and five Karens. He said that Buddhism was the most tolerant form of heathenism with which he was acquainted; and the converts to Christianity among the Burmese never suffered anything like persecution. He had published a tract against Buddhism, and it had already been introduced into one of their schools. No government aid was required, and there could scarcely be found a boy that could not read his own language. In Burmah there is no such thing as caste. At Rangoon there is a pagoda two thousand years old. The keeper of the sacred records at that pagoda, who was a Buddhist of the Buddhists, had told the Bishop that he saw no objection to his sons becoming Christians. Bishop McDougall, however, observed that the Buddhists were not so tolerant in China.

Terrific storms have raged around the coasts of Great Britain, involving great loss of life by shipwreck, inundations, &c.

The revenue returns of France for the last month show a surplus on the estimates of six millions francs, although the beet-root sugar duty Hubert Herkomer read a paper on art, in which he shows a deficit of four million, seven hundred thousand francs. •

England is shipping wheat to Russia. The United States are sending grain and tallow to the same country.

It is announced that the King of Burmah has easily suppressed a futile attempt at rebellion got up by Prince Nyoungoke, and is now preparing for a war with England.

A new church has been built in Killadeas, Ireland, and many churches have undergone improvement. In many parishes also large sums have been raised for glebes.

The Marquis of Lansdowne, who recently re signed his office of Under-Secretary for India, in consequence of the introduction of the Compensation for Disturbance Bill, has determined to reside with his family, on his Irish estate, during the winter. Earl Fitzwilliam, also has, at the request of his tenantry, determined to spend the winter on his property

It is stated that the Land League receives no countenance from the Roman Catholic Archbishop McCabe. At the harvest Thanksgiving services of the Roman Catholic churches of the metropolitan district, a pastoral was read from the Archbishop in which he said that, while admitting that the land laws were bad, and gave bad landlords the power to oppress their tenants, a power which many had exercised, he knew there were many good landlords, between whom and the people good will should prevail. He "deprecated the exciting language used at the land meetings by speakers who, if they did not mean what their words seemed to imply, yet met with no rebuke in the cries for vengeance and blood which they excited among their ignorant hearers—their conduct differing widely, in this respect, from that of O'Connel, who never failed, when a threat was uttered at any or his meetings to censure it with all the power of his grand eloquence."

The death of the eminent astronomer, Mr. William Lassell, took place on the 4th ult., at the News from India mentions an expected raid on age of 82. With a reflecting telescope, construct-

an eighth-satellite of the planet Uranus, (Umbriel and Ariel), anterior to the two discovered by Sir W.

Since Sir Bartle Frere's arrival in England, it has been discovered that, "it is well to remember that the late High Commissioner in South Africa General Manuel Gonzales is declared President of has performed elsewhere, and more especially in India, services to his country, far too great to be robbed of lustre by a recent example of misplaced daring and doubtful success."

> The Social Science Congress, recently in session in Edinburgh, is regarded as not having been very successful. Lord Reay's inaugural address, which dealt with social science in its application to international law, was interesting in many parts. Mr. did not shrink from expressing a doubt whether the artistic influence of masters on pupils was not injurious, rather than advantageous. He also said that art students, in our day, are most unreasonaable in number. In this respect his language would be true, only on the understanding that all those who study art, do so for the sole purpose of getting their living by practising it.

> The death is announced of the Rev. Henry Clarke, at the age of 76. He was born at Goa, in Indla, and was a son of the Governor of Seringapatam. He was chaplain to the late Duke of Sussex, and was a Churchman of a very pronounced type, while Newman was yet in the English Church, and when the nicknames given in modern times, to close adherents to the Prayer Book were unknown.

THE TWENTY-FIFTH SUNDAY AFTER TRINITY.

THE Collect, Epistle, and Gospel for the sixth Sunday after the Epiphany should be used on this Sunday, in accordance with the Rubric at the end of the Gospel for the twenty-fifth Sunday after Trinity, which states:-" If there be any more Sundays before Advent Sunday, the service of some of the Sundays that were omitted after the Epiphany shall be taken in order to supply somany as are here wanting. And if there be fewer, the overplus may be omitted; provided that this last Collect, Epistle, and Gospel shall always be used on the Sundey next before Advent." So that, if there are two of these Sundays, "the services for the fifth and sixth Sunday after Epiphany should be used; if only one, that for the sixth Sunday, which has evidently been appointed with a view to its fitness for use on the Sunday next but one to Advent.

On this Sunday, then, we have brought before us especially the final manifestation of the triumph and glory of Messiah, and the participation of Christians in that triumph and glory. "When our Lord said that men would see the Son of Man coming in the clouds with power and great glory, He certainly did not merely mean that they would see, in the destruction of the ancient city of David, a vindication and triumph of His own cause,-not merely that his coming in the clouds of Heaven was a kind of metaphorical equivalent for the deof the city, and predicts His own coming to judg-sired material. The .cause this of St. Matthew He speaks of the two events together, as embodying that idea of judgment which is common to them both; and, perhaps, in the expression, "the tribulation of those days," He includes the calamities of the Jewish people, connected with their dispersion down to the period of their ultimate return to their own land. When Christ spoke in these solemn terms of Himself as coming in the clouds of Heaven, He was appropriating, as belonging to His own person, that vision of the prophet Daniel, in which "One like unto the Son of Man came with the clouds of Heaven, and came to the Ancient of Days, and they brought Him near before Him; and there was given Him dominion, and glory, and a kingdom that all nations, and languages should serve Him." But Daniel says nothing of a judgment; and our Lord therefore, is not merely applying the prophet's words to Himself; He is doing so with reference to a particular occasion which He announces. It is this, which, of itself, would have made it impossible to resolve the allusions to the clouds and the majesty and the glory into a mere metaphor, descriptive of the spiritual side of a great calamity, is our Lord had not, in the next chapter, so expounded what here He states more concisely, as to make this procedure impossible. That picture of the King on His Throne, with all the nations before Him, with the host of ministering angels around Him, with the impassable chasm between the saved and the lost, with the two-fold sentence, is either, in its broad outlines, a most substantial prediction, or it is a worthless figment. There is no room for doubting what the Divine Speaker meant by it, and He will be taken at His word, or otherwise, just as men do, or do not, believe that He is what He claimed to be.

RICH AND POOR IN GOD'S HOUSE.

ARE FREE SEATS ENOUGH?

EW people are aware of the amount of trouble taken by clergymen and parish visitors to induce the poverty stricken to appear at public worship They naturally shrink from a contrast which makes "odious comparison" inevitable with their well-to-de fellow-citizens, everywhere. You do not meet themexcept in the case of beggars, who have lost all self respect, or are driven to desperation-rubbing shoulders with silk and broadcloth on our fashion able thoroughfares, or gay street parades; nor do you find them in public meetings or assemblies even where the admission is free. "Misery loves company," and this class of people loves to congregate where there will be no one so well-dressed and well-fed as to remind them of their poverty. This is the stereotyped feeling of the poor, and all the clergymen and visitors in the world-disregarding this essential element of their feelings-cannot make very perceptible headway in bringing these people to church, where they are sure to meet those who, (albeit anconsciously), remind them of their

The question is, Do we go the right way about it? Do we really make allowance for the natural feeling? Or do we foolishly set it at defiance, and try to "make water run up-hill?" Again and again do we see churches erected with a missionary intention among the poor, and, at first, filled close local contact brings out the painful contrast as empty as their pockets are full, upon the fairly with the class for whom they were chiefly or more clearly—a poor man cannot sit anywhere Church; but we desire to reflect in our columns

Let us give up lamenting pened to be too early for the West-Enders living over the callousness of the poor, in regard to the four or five miles away. In process of time, the duty of public worship, and the practice of abus-West End people have erected similar churches ing them for it; and set ourselves to remove from for themselves nearer home, and left St. Alban's, ourselves the very obstacles that stand in their way. gradually, more to itself. The poor began to "crop We need not go to church in rags; but we can up" at the mid-day services; but the process of dress so plainly that neatness and cleanliness will beweaning them back from a service from which come more conspicuous in us than costliness and they had been, as it were, frightened from by uncon-splendor. Then the poor can and will imitate genial company, is necessarily slow. So in hun-us. dreds, indeed thousands, of other churches, of very different types from St. Alban's. The advantage of St. Peter's, London Docks, was that it was situated in a part of the slums into which even the most rash and courageous "fashionable" would scarcely dare to penetrate, or, at least, care to repeat the experiment; and so the poor had their "Father Lowder" and their gorgeous services all to themselves, and could easily realize that they were "in a little Heaven here below," and in the very gate of the Heaven of angels.

> The remedy easily suggests itself, viz., let the people who can afford to dress splendidly, keep their splendid dress for more fitting places—the ball room, the concert, the fashionable promenade, the opera; and never flaunt their prosperity in the faces of the poor! It requires self-denying effort, some judicious and careful management, to arrange a rich wardrobe so as to include that which will not suggest wealth too ostentatiously. The same thing is still more true of ladies. But is not the object worth the effort? Is not the achievement of getting our poorer brethren by our side in God's house worth the exertion of making the arrangements? It is true that the poorer classes them selves often show want of consideration amongst themselves; the families of the better kinds of mechanics dressing so flashily as to drive the laborers to despair. If, however, those who are supposed to know better, gifted with higher education, easte and refinement of social life, set an example of modest and unassuming dress, in church at least, the middle classes of our people will as quickly follow them in the good habit as they do now in the habit, and the poorest of all will be able to take their places comfortably in all our churches once more, instead of being driven to out-of-theway "Mission Rooms," and hole-and-corner ser vices in some of their cottages. Not a few wellmeaning, but shallow-trained, youths devote themselves to the fraternizing of poor people in 'cottage meetings," instead of getting them to church, whence they have been driven by the ever-dressing of these very youths and their friends.

The pew system is already moribund in Canada, but to little purpose, if the still more offensive dress system be not sent after it. In a pewed church there is commonly provided a separate quarter for the poor, where they may sit together without being brought into close contact with their well-dressed brethren; but in a free church, the flict and impress the fancies and caprices of heads primarily intended, gradually lose their missionary but that he is liable to find his rext neighbor the best thoughts and feelings of the authorized

A STRONG PULL-ALL TOGETHER.

CHURCH newspaper, such as ours, is a Live Trust; it depends on the good will of its subscribers, as evinced, not only by the prompt payment of their individual subscriptions, but in their efforts to promote the spread of the paper, and the enlargement of its subscription list. A rich corporation—half-a-dozen millionaires will do -can pay a handsome salary for an editor, print a paper, circulate it gratis, or at a nominal subscription, without difficulty; but, if the paper be a private enterprise for the good of the Church-the editor and proprietor require, meanwhile, to live in order to do their work—those who are interested in the paper must put their shoulder to the wheel and HELP.

We have to thank not a few of the clergy and laity, including the ladies, of Canada, from Sandwich to Halifax, for noble-hearted help during the past year; but these have only made, by the light of their good works, the darkness of the inactivity of others visible. Those who have helped—some of them under great difficulties—by getting people to subscribe for our paper, have demonstrated how much might be done if all, or nearly all, were to do likewise. The result would, indeed be exceedingly satisfactory.

Meanwhile, "every little helps," every man, woman, and child among our subscribers, [for we have, for instance, a round dozen subscribers among the Sunday School children of one of the poorest parishes in the Diocese of Toronto, can do something to lighten the load of our labors and difficulties. CHRISTIAN UNION.

3-The Doctrines of Predestination and Free Will .-Here we have two doctrines entirely contradictory of each other; yet each start from premises which we must needs admit. On the one hand concede, as question, I repeat, must ultimately be: Do we accept we cannot but do, the unlimited sovereignty and omnipotence of God, that "not a sparrow falls to the ground without our Father," then all the system of Calvinism logically follows. God has ordained everything, otherwise His power and sovereignty are limited; therefore He has ordained sin. Some are saved, so on, until we come to the conclusion which has been capricious and cruel, who elects some to be saved, do accept. May not the truth lie, as in the previous cient creeds. I think that, even now, we can trace how what they may, and others to be damned, do what they will—a conclusion at which Calvinism itself stands aghast, as it sees the Frankenstein of its own constructing, and hears the words of Holy Writ, like of Nature? Is not the course of this world, and of the echoes of mocking phantoms:—"God so loved the all the universe, maintained by two laws of diametric. the echoes of mocking phantoms:—"God so loved the all the universe, maintained by two laws of diametriworld," "Who will have all men to be saved," "Turn cally opposite tendency? These two forces do not neutralize one of man, His creature; that God's action is contingent upon the conduct of man; that there are certain sublime movement of the spheres is the rethings over which He has no control; that God, in sultant of the two. Now, if a purblind philosopher short, is no God at all.

5. And lastly, to take the great question which agitates the Christian world to-day so much: What is the ultimate rule of faith-private judgment, or Church authority? I stop not to consider what some would call the middle ground—that "the Bible and the Bible alone is the religion of Protestants"-be cause I conceive that ground is untenable. And, besides, the formula is now not true; "the Bible and the Bible alone" is now no longer the religion of all Protestants; many reject it in part, others wholly. Nor does it meet the case to say that most orthodox Christians hold it true, on private judgment or on authority? The formula "the Bible and the Bible alone is the Word of God," is itself a dogma, and, like all other dogmas, must be submitted to the test. The private judgment or authority as our guide of life and rule of faith?

And much may be said on both sides, and the partizans of each may start from premises which we will gious worship ridiculed, and Christians scornfully have to concede, and yet arrive at opposite conclu-challenged to a prayer-guage, -surely it is time that therefore He has ordained who shall be saved. But it may be asked, Is everything to be held in On the other hand, trace the course of logic in the this duplicate and ambiguous fashion? Is there opposite direction. We begin with stating, after the nothing whatever upon which the Church may progreat Anglican divines, that there is something more nounce definitely and categorically? Far be it from in this holy mystery than the bare metaphor. There us to state this. We must remember our holy relicomes Cobb, in his "Kiss of Peace," showing that gion consists not only of doctrines, but of facts. Now, the old Anglican Doctrine is not altogether illogical- whilst doctrines concerning Scriptural things must that we must take the words of institution as either necessarily stretch beyond our comprehension, yet all strictly figurative, or strictly literal. The question remains, What is to bring about this unity on such a basis as has been sketched? Do we trace anything which will precipitate this consummation? Surely the times are pregnant with such signs. Surely we see that everything tends to point out, as the great battle-ground of the future, not this or that recondite doctrine of Revelation, but Revelation itself. When we find learned men of this world calling in question the facts of our blessed Lord's life, -when we find miracles utterly repudiated,—when we find the philosophers of the continent maintaining that matter is all in all, and the President of the British Scientists taking up the cry,-when we find all relithe lust of private judgment has conceived and brought forth the sin of schism and disintegration, and how sin, in cally opposite tendency? RAWDEN.—A most successful confirmation service was held by the Lord Bishop of Montreal, at this place, on Sunday the 17th inst., when the rite of laying on of hands was administered to seventy-three candidates—by far the largest number ever confirmed in that mission at any one time. His Lordship preached most eloquently on the Scriptural aspect of Confirmation in the morning, and on the Lord's Supper in the evening. Over one hundred partook of the sacred feast after the confirmation service in the

Sorel.—On Sunday 24th inst., the Bishop held an Ordination at this place, by which the Rev'ds. Alfred Lee, B.A., and the Rev. Alf. Bareham were admitted to the order of priesthood. The Rev. A. Lee has been appointed to the mission of Eardley, vacated by the Rev. W. B. Longhurst, who has become rector of

The rectory of Grunby, it is believed, is now filled by a gentleman that proves acceptable. The Bishop's choice is considered as in every way a wise one, and suggests the thought, that, considering everything, it will be found on a review of the past, both here and he had very recently visited, and by the people of in the U.S., where the elective system has had full which he was exceedingly beloved. In the absence and ample exercise, that parishes that have elected of the Missionary, Rev. E. H. M. The Rev. A. A. Allen has accepted the rectory of Clarenceville. The rev. gentleman is to be congratu lated upon entering a parish of which the late rector speaks most commendably, notwithstanding the arrears of stipend for the last year, which it seems are but of a temporary character. Doubtless this is true, but how are on side readers of reports to know whether they are temporary or not? We will credit that Charenceville arrears were of a very temporary character, but are the arrears elsewhere; some too that are never published, of the same character? If but temporary, they prove oftentimes very, very, "inconvenient." The late rector of Clarenceville takes exception, in a local paper, to my statements regarding this parish being ruled by a coterie of rich men. I have not that number of the Dominion Churdhan by me, but, if my memory serves me right, I don't think I said it was so in Clarenceville, but that there was a tendency to this sort of thing in parishes where the rector was elective. And I repeat that not only is it a tendency, but I express myself further, that in the American Church, where, as already expressed, that it will soon be ready for the roof. They are not true to themselves. The \$500. or say the \$600 is paid in many cases, in articles of secondary value, rated at first-class prices. Do not some of us know this as a fact? Do we not grumble at it and protest mentally, and, therefore, ineffectually? And yet are we to turn round, or when called upon to express ourselves, and say, "Oh yes, my stipend is fully paid up, I have got \$500; my people are firstrate, and I give them my thanks, &c.?" Is

Osnabruck.—The Incumlent, the Rev. Arthur Jarvis, having signified his intention of availing himself of the Bishop's leave of absence, with the intention of paying a visit to the old country, a deputation from the congregation met at the parsonage on Thursday last and presented him with a "vaticum" of \$100. The conventional addresses were happily dispensed with, those present expressing their kindly eelings towards their clergyman vive voca and wishing him "God Speed" on his voyage.

This is only one instance out of many of the generous conduct of this congregation towards their minister during the last five years.

The churches on this Reserve have lately undergone very extensive repairs, and now look as new as when they were built. The buttresses and tower of Christ Church, which were tumbling down, have been renewed, the spire re-tinned, the roof shingled, and the walls painted throughout. The woodwork on the outside has all been paint d, and galvanized iron evetroughing supplied. On the upper, or All Saint's thurch, the repairs consist of the painting of the valls, re-shingling of the roof and painting of the outside wood-work. Trinity College has always maintained its reputation for excellence in two respects, viz., the sterling quality of its educational instruction, aiming at nothing less than the highest possible attainment in each branch; and (2) the prevalence of that honorable and gentlemanly feeling which rises from association with those who have enjoyed the privilege of good breeding and home training of the old-fashioned Churchly type. Such a reputation is sure to win the kinfily interest and respect of the public at large; and the handsome Convocation Hall-even in such unpropitions weather as last Thursday-bears annual testimony to this feeling in the large crowds of the best of our citizens, who crowd it on such occasions.

This year a notable new feature in the day's pro ceedings had been announced-choral matins in the chapel at 11.30, followed by hospitality, in the shape of luucheon for all who might find convenient to stay for the afternoon. Professor Boys intoned the service, and the Provest read the lessons at the service. It seems a pity that such rich material should be unused except on rare eccasions, and that visitors, at ordinary times, carry away an impression that the authorities might do more to make the chapel service of the students bright and joyous by a choral rendering.

Early in the afternoon, a procession of the advanced graduates, brought up by the Bishop, Chancellor and Provost, filed into the hall from the library: and the Chancellor, in his robes of office, took his seat in the centre of the dais, supported on the right by Licut.-Governor Robinson and the Bishop, on the left by the Provost, as Vice-Chancellor. Other seats Hague, 2nd do.; — Sproule, 3rd do. on the dais were occupied by the various Professors, together with Chief-Justice Hagarty, and a number of clergy and laity. The gallery at the back was occupied by the younger graduates and undergraduates in full force, who, with a vigor worthy of their predecessors in the same role, enlivened the proceedings in a manner that, we presume, they are not accustomed to greet their professors in their lecture classes.

The Chancellor, with his usual good taste, spoke of the main thought of the hour, the lustre reflected on Aima Mater by her sons, both in the college course. and out in the busy works of public life; and paid a graceful compliment to the Lieut. The Lieut. Governor, following him, spoke of the great attention paid by the people of Canada to the pursuit of education, and congratulated the College on its steady progress in surmounting the difficulties by which its pathway had been beset.

Holy Trinity.—The Rev. W. S. Darling is holding throughout the winter a course of classes on the subject of the Book of Common Prayer. All who desire it are invited to attend them. They will meet in the upper school of the church on Tuesdays, at 7.30 p.m., and on Wednesdays at 3.30 p.m.

Last week we gave some account of the anniversary of the dedication of this church, which was probably one of the most noteworthy ever held in connection with the Church in this city. On Wednesday, the 27th, there was an early plain celebration of the Holy Communion at 7 a.m. The Rev. J. W. Knox-Little gave an address, and was also the celebrant, assisted by the other clergy.

At the High Celebration at 11 a.m., the church was crowded, and the service was of a most impressive character. The choir, accompanied by the following clergy, viz., the Rev. Messrs. Clarke, Harrison, Leslie. C. Darling, Ogden, ford, Edwards (Detroit), W. S. that passed away. Low Churchmen protested against assisted by the Rev. Mr. Edwards, of Holy Tritity. was Marbeck's. The sermon throughout was an eloquent ap-Paul. Not only in great thirgs but in every little Nothing could exceed the enthusiasm of all present matter, the fullest exertions were to be used, and

At 4 p.m., there was a third service, which was athymn was sung. Mr. Knox-Little again preached, on St. Peter 5: 7: - "Casting all your care upon Him, for He careth for you." The sermon was exceedingly carnest in tone, and making much of the helplessness of man and the all-sufficiency of Christ. The Recessional hymn was " Abide with Me," (No. 27, Ancient and Modern).

At Evensong, the church was crowded to the door, every available scat in the mave, transcpts, west and organ galleries being occupied long before eight M. A.-Rev. H. Austin, Rev. R. S. At that hour the organ struck up the Processional hymn, "Hark, the Sound of Holy Voices," (536, Ancient and Modern), and, by the west door, there entered a long procession of white robed chorisers and clergy, the former numbering 26. The clergy were fifteen in number, most of them being from Toronto and its neighborhood, though some came from distant missions and other dioceses. The rear was brought up by the assistant rector, the Rev. J. Pearson, and the rector, the Rev. W. S. Darling, who were immediately preceded by the Rev. R. Harrison, (St. Matthias', Toronto), and Rev. R. Sutherland, (St. Mark's, Hamilton), who assisted by reading the Lessons. The proper Psalms, 26 and c4, were, as were Prizes in the Divinity Class.—Hamilton Memorial the Canticles, to Gregorian tones, and were heartily joined in by the congregation, the sound being as the ound of many waters. The prayers up to the Third Collect were in oned and the versicles sung by the Rev. John Pearson, those succeeding the hymn being taken by the Rev. W. S. Darling. The first Lesson was 2 Chronicles, 6: 6, &c., and was read by the Rev. R. Harrison: the second was Rev. 21: 9, &c., and was read by the Rev. R. Sutherland. The hymns sung in choir were "Blessed City, heavenly Salem," (215, Arcient and Modern), the Recessional being, "Onward, Christian Soldiers," (391, Ancient and Modern). These were given with great verve and a highly devotional effect.

The sermon, by the Rev. J. W. Klex-Little, was on Rev. 3: 10, -" Be thou faithful unto death, and 1 will give thee a crown of life." We gave an abstract

On Thursday morning, at seven o'clock, there was a celebration of the Holy Communion, and a good congregation. The celebrant was the Rev. W. J. Knox-Little, and the assistant, the Rev. Charles Darling. The Rev. Mr. Knox-Little delivered a short out practical address on "The Inner Life," and pointed out, in the most forcible manner, the life that hould be led to prepare for eternity.

At 11 o'cleck matns were said by the Rev. W. S. Darling, the other clergy present being the Revd's John Pearson, C. Darling, Ingles, Edwards, and the pre c'ar of the day, the Rev. Mr. Knox Little. Tho Venite and B. nedictus were sung to Gregorian tones, and the hymns were, "Jesu, meek and gentle," "Rock of Ages." The whole singing was congregational and was most effective. The Rev. Mr. Ingles read tho first lesson, and the Rev. Mr. Edwards the second

The Rev. Mr. Knox-Little addressed the congregation. He said he had been asked to say some words concerning the spiritual Lie. The freat necessity was the deepening of the spiritual life. If God was only approached, He would draw near, but He would never created, and alone he would have to die. His Lordship's address to the candidates was nost practical and impressive. This parish is prospering under the care of the Rev. Dr. Beaumont, being almost free from debt, the services being well attended, including the weekday services, begun by the Rev. E W. Murray. The Sunday School has a very large attendance for the size of the congregation, and a Mission school has lately been begun by two zealous ladies in the adjacent town of Waterloo, where it is now intended to hold divine service.

He knew, to be arranged by the best clergymen and superifrom the experience of past years, the valuable aid the clergy of St. Paul's would have from the lay members, especially the ladies. There was work for all to do. Work in the Sunday Schools, in the choir, in the visiting the sick and afflicted.

The Association was re-organized. The Rector and Assistant-Minister are President and Vice-President. Miss Strathy was elected President of the Ladies' Visiting Committee; Mr. J. B. The Association adjourned till next Tuesday, when all arrangements will be completed. The great amount of Christian work carried out by the laity of our churches, is one of the visible manifestations of the vitality of religion. Each of our city, suburb, and, we believe, our town and village churches, has its band of noble Christian workers.

MEDALS IN SUNDAY SCHOOLS.

SIR,-Willyou allow me through your columns, to offer my tribute of thanks to the Rev. J. Bedford-Jones, for his letter which appeared in your issue of the 28th.

That the subject on which he writes so ably, and with so much forbearance, has not received an earlier notice has been to me a matter of surprise. It was after reading the letter alluded to by Mr. Jones, that my heart ached, for the successful and the unsuccessful candidate for the medal—for the seeds of pride, ambition, and self-satisfaction, which were being so well planted and watered in the one, and for the stricken heart of "the gentle, retiring child

So much pain and indignation did the letter give me, that I wrote to a clergyman, a subscriber to the Dominion Churchman, and expressed the hope, that he, or some other clergyman, might be induced to be established in each Diocese. Let it be an especial enter a suitable protest against a system so permiciobject to organize weekly meetings, at which the teach- ous in its effects. 10 my blank astonishment the
