The copy filmed here has been reproduced thanks to the generosity of:

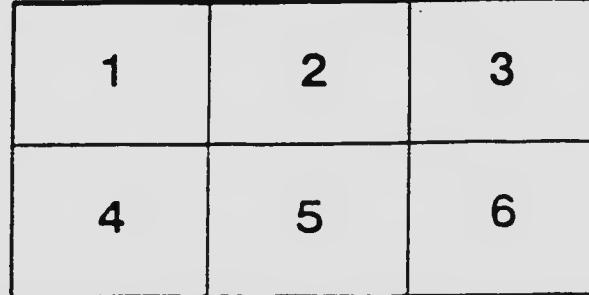

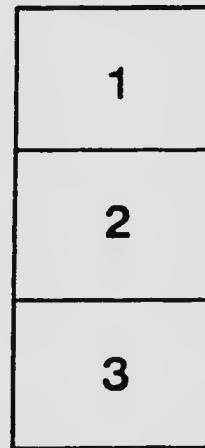

British Columbia Archives and Records Service.

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recordd frame on each microfiche shall contain the symbol → (meaning "CONTINUED"), or the symbol ▽ (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

British Columbia Archives and Records Service.

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

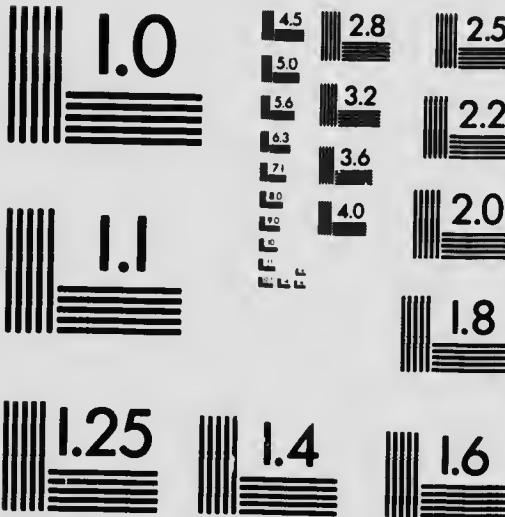

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole → signifie "A SUIVRE", le symbole ▽ signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

Agreement

AGREEMENT entered into between:—

DISTRICT No. 18 OF THE UNITED MINE
WORKERS OF AMERICA,

Of the First Part.

AND

THE WESTERN COAL OPERATORS'
ASSOCIATION,

Of the Second Part.

IT IS MUTUALLY UNDERSTOOD AND AGREED that the following conditions and rates shall govern the parties hereto for a period ending March the Thirty-first, 1917, and that the parties hereto will meet in conference thirty days prior to the expiration of this Agreement to discuss a renewal thereof.

MANAGEMENT OF MINE

The right to hire and discharge, the management of the mine and the direction of the working forces are vested exclusively in the Company, and the United Mine Workers of America shall not abridge this right.

OPEN SHOP

It is distinctly understood and agreed between the parties that there is to be no dis-

ermination on the part of the Companies against Union men, or on the part of the Union men against Non-union men employed

SETTLEMENT OF LOCAL AND GENERAL DISPUTES

(a) In case any disputes or grievances arise under this Agreement or any local Agreement made in connection therewith, whether the dispute or grievance is claimed to have arisen by the Company, or any person or persons employed, or by the men as a whole, then the parties shall endeavor to settle the matter as hereinafter provided. But before any grievances or disputes shall be submitted to the Pit Committee, the person or persons affected shall endeavor, by personal application to the Pit Boss, Overman or Foreman in charge of the work where the dispute arises, to settle the matter; and in the event of them agreeing, their decision shall be final.

(b) In case of any local dispute arising in any mine and failure to agree between the Pit Boss, Overman or Foreman in charge of the work where the dispute arises and any employee, the Pit Committee and Mine Superintendent or Mine Manager shall endeavor to settle the matter; and if they agree, their decision shall be final.

(c) In the event of the failure of the Pit Committee and the Mine Superintendent or Mine Manager to settle any dispute so referred to them, as well as in the event of other disputes arising, the matter in dispute shall be referred, in writing, to the General Superintendent or General Manager of the Company,

and the Officers of District No. 18, United Mine Workers of America, for settlement, and if they agree, their decision shall be final. Should they fail to agree, it shall be referred, in writing, to the Commissioner of the Western Coal Operators' Association and the President of District No. 18, United Mine Workers of America for settlement, who shall meet as soon as practicable, and not in any event later than thirty days, and bring the matter in dispute to a settlement as between themselves or refer the matter. If they agree, their decision shall be binding upon both parties. Should they fail to agree, it shall be referred to a Joint Committee of six (6), composed of the Commissioner of the Western Coal Operators' Association, the General Manager or General Superintendent of the mine where the dispute arose, and another appointed by him; the President of District No. 18, United Mine Workers of America, the President or Secretary of the Local where the dispute arose, and one other District Officer. If they agree, their decision shall be binding upon both parties. In the event of their failure to agree, they shall endeavor to select an Independent Chairman, and failing to agree upon an Independent Chairman the Commissioner of the Western Coal Operators' Association and the President of District No. 18, United Mine Workers of America, shall ask the Minister of Labor to appoint such Chairman; the decision of the Committee thus constituted shall be binding upon both parties.

(d) In the meantime, and in all cases while disputes are being investigated and settled, the Miners, Mine Laborers and all other par-

ties involved must continue to work pending investigation and until final decision has been reached; but where Miner, Miners, Mine Laborer or Mine Laborers has or have been discharged by the Company, he or they shall not remain in the employ of the Company while his or their case is being investigated and settled.

If the claim be made within five days, where a man or men has or have been unjustly discharged, the case shall be dealt with according to this Article; and if it is proven that he or they have been unjustly dealt with, he or they shall be reinstated. If a claim is made for compensation for time lost, in cases where reinstatement has followed, it shall be left to the Commissioner of the Western Coal Operators' Association and the President of District No. 18, United Mine Workers of America, to decide what amount (if any) is to be paid.

(e) Any breach of this Agreement by any of the parties hereto is not to void the said Agreement, but the same is to be continued in full force and effect.

(f) If the Commissioner of the Western Coal Operators' Association or the President of District No. 18, United Mine Workers of America are unable, on account of sickness or absence from the District, to attend the duties hereinbefore set out, these duties in the first instance would be assumed by either the President or Vice-President of the Western Coal Operators' Association, and in the second instance by either the Vice-President or Secretary of District No. 18, United Mine Workers of America. Due notice of who would

attend these duties to be sent immediately, in the first instance to the party of the first part, and in the second instance to the party of the second part.

(g) All settlements and decisions that have been made and are in effect at the expiration of November 17th, 1911, to March 31st, 1915, Agreement shall remain in effect during the term of this Agreement.

DUTIES OF PIT COMMITTEE

The Pit Committee shall be a Committee of three in each colliery or other plant covered by this Agreement, selected by the employees working at such colliery or other plant from among their own number, except one member may be a Checkweighman or an Officer of the Local Union, not necessarily an employee of the Company. This member must previously have been selected as Checkweighman or Officer from amongst the employees of the aforesaid colliery or other plant; due notice of such selection, properly certified in writing, shall be given to the Company.

The duties of the Pit Committee shall be confined to the settlement of disputes between the Pit Boss or Foreman and any employee working in or around the mines, arising out of this Agreement and all Agreements made in connection therewith; the Pit Boss or Foreman, and man or men, having failed to agree.

The Pit Committee, in discharge of its duties, shall, under no circumstances, go around the mine, for any cause whatever, unless called upon by the Pit Boss or Foreman, or by a

Miner or Day Man, who may have a grievance, which he has first tried to and cannot settle with the Boss.

Members of the Pit Committee employed as Day Men shall not leave their places of duty during working hours except by permission of the Pit Boss or Foreman, or in cases involving the stoppage of the mine.

NEW WORK

Whenever any new work arises, a price for which has not been provided for in this Agreement, on the request of the Company or the Miners, the Commissioner of the Western Coal Operators' Association, and the President of District No. 18, United Mine Workers of America, shall meet within thirty days after the said request and arrange a price. Failing to agree upon a price, an Independent Chairman shall be called in, as provided for in Clause "C." of "Settlement of Local and General Disputes," and their decision shall be final.

In making the prices for new work, the Committee shall be governed by existing prices in the same mine or other mines in the neighborhood.

Meantime, if the work is continued until such price has been arranged, all men shall be paid on the day wage scale.

EMPLOYEES NOT UNDER JURISDICTION

All employees connected with the management of the mine are not to be under the jurisdiction of the United Mine Workers of

America, or be members thereof, and shall include the following:

Mine Manager or Superintendent, Overman or Assistant Overman, Pit Bosses, Firebosses, Boss Driver, Stable Boss, Master Mechanic, Electricians, Weighman, Head Carpenter, Head Blacksmith, Tipple or Breaker Foreman, Loader Boss, Night Watchman, Coke Oven Foreman, Outside Foreman, and all other Foremen, Time Keepers, Coal Inspectors and Head Lampmen.

CONSTRUCTION AND EXTENSIVE REPAIRS

It is agreed that all men working on improvements and extensive repairs are not included in the jurisdiction of the United Mine Workers of America.

The erection of head frames, tipples, breakers, washers, buildings, coke ovens, scales, machinery, railroad tracks and switches, etc., necessary for the completion of a plant, all being in the nature of construction work, and extensive repairs, or rebuilding of the same class of work, are to be considered as improvements and extensive repairs, and the employees thereon are to be excluded as above when employed on such work only.

UNION DEDUCTIONS

The Operators agree to make deductions from Union members' wages for Union dues, for such amount as they have definite orders for from the individuals, with specified sum as limit of deduction.

PENALTY FOR ABSENCE FROM WORK

When any employee absents himself from his work for a period of two days, unless through sickness or by first having properly arranged with the Pit Boss or Foreman and obtained his consent, he may be discharged. All employees whose absence would cause any stoppage of work must, before absenting themselves, properly arrange with or notify the Pit Boss or Foreman for or of their absence, otherwise they may be discharged. Any employee who habitually, to the extent of five days per month, absents himself from work, may be discharged.

STOPPAGE OF WORK

(a) If any employee or employees shall cause a stoppage of work, in violation of this Agreement, he or they shall be subject to discharge by the Company without recourse.

ployed at any mine, cause the mine or part of the mine to shut down, in violation of this Agreement, each member of the U. M. W. of A. employed at said mine, except those who continue at work, shall pay one dollar (\$1.00) for each day or part of a day that the mine or part of the mine is thus thrown idle.

Should any operator or his representatives cause a mine or part of a mine to shut down, in violation of this Agreement, he shall pay one dollar (\$1.00) per man affected for each day or part of a day that the mine or part of the mine is thus thrown idle.

(c) Whenever at any mine one or more men regularly employed at day work refuse or fail to work because of any grievance, he or they shall pay one dollar (\$1.00) for each day or part of a day that he or they refuse to work.

(d) If any mine is shut down, in violation of this Agreement, the International and District Organizations or the Western Coal Operators' Association, as the case may be, shall insist that necessary steps be taken promptly to put the mine or mines in operation, and compel all parties to submit their grievance for adjustment in the manner as provided in this Agreement.

(e) All payments to be paid by the employees under this Agreement shall be collected by the operator from the pay for the time in which the violation of the Agreement occurred or from the first money due thereafter, and the operator shall remit the same to the Treasurer of the Western Coal Operators' Association or Trusts and Guarantee

Company, Ltd. A failure on the part of the operator to do so shall make him liable to a further payment of fifty (50) per cent. of the amount involved.

(f) All payments to be paid by the operator shall be remitted to the Treasurer of District No. 18, U. M. W. of A., or Trusts and Guarantee Company, Ltd., within twenty (20) days after the President and Secretary of the Local Union have officially notified said operator in writing of the demand and the cause of the payment. Said notice shall be given within ten (10) days of from the date of the alleged violation.

(g) If any local union or operator claims that a payment has been collected contrary to the terms of this Agreement, they shall have the right of appeal to the President of District No. 18 and the Commissioner of the Western Coal Operators' Association for a hearing and determination of the case, and pending such decision the moneys so collected shall be paid to the Trusts and Guarantee Company, Ltd., to be held by them until a decision is made. Any appeal under this clause not settled within thirty (30) days from the date of appeal must be arbitrated in the same manner as is provided in "Settlement of Local and General Disputes." Any payment reversed or remitted under this clause shall, in the case of the operator, be returned to him, and in case of the miner it shall be returned to the local union having jurisdiction at the mine affected, and by it paid to the parties from whom it was originally collected.

(h) In event of any moneys being deposited with the said Trusts and Guarantee Com, any, Ltd., and no appeal taken within thirty (30) days, the Trusts and Guarantee Company, Ltd., will pay the money deposited to and on the order of the party for whom it was collected; in case of an appeal, a certified copy of the decision rendered shall be sufficient order to pay the money to the party in whose favor the decision is made.

CHECKWEIGHMAN

The Company will grant the right to the Miners to employ Checkweighers, and will grant the said Checkweighers every facility to enable them to render a correct account of all coal weighed, and will allow the cars to be tared from time to time, and the machine to be properly tested from time to time, and will deduct from the wages of all contract miners such amounts as may be designated from time to time, and will pay over the same to the Checkweigher or Checkweighers.

PREFERENCE OF EMPLOYMENT

In case an employee is thrown out of employment, unless discharged, he shall be given preference over new men in other mines in the same camp operated by the same Company.

MINIMUM RATE

When a miner's working place becomes deficient, owing to any abnormal conditions preventing him from earning the minimum wage of \$3.00 per shift, the Company shall pay him a sufficient amount to secure him the said minimum, providing he has done a fair day's work.

MINERS TAKEN TO DO COMPANY WORK

The Company shall pay the sum of three dollars and thirty cents (\$3.30) per day for all miners taken from contract work to do Company work.

DELIVERY OF TIMBER

In accordance with the Coal Mines Regulation Acts of British Columbia and Alberta, the Company will, at all times, deliver an adequate supply of suitable timber, rails, ties, planks, and sheet iron at the nearest cross-cut to the face of all raise workings and in places where the regular pit cars go to the working face, without being handled by the miner, they shall be delivered on the cars to the working face; in other places across the pitch, the timber, rails, ties, planks and sheet iron will be delivered at the mouth of the room.

LOADING OF COAL FROM CHUTES

In pitching seams, where chutes are used, the Company will handle all coal placed in the chutes by the Miners.

DOCTOR AND HOSPITAL ARRANGEMENTS

The matter of Doctor and Hospital arrangements is to be arranged between the employees and the management, and when so arranged the Company agree to make the collection for that purpose; this is subject in British Columbia to the laws of the Province.

In camps where Doctor and Hospital arrangements have already been made and are satisfactory, the customs prevailing in such camps shall continue.

In the making of any new arrangements for a Doctor, a Committee of three representing the Local Union, and the Manager representing the Company, shall meet and mutually agree upon a Doctor, and after the Doctor has been selected, the Committee, the Management and the Doctor shall then meet and draw up a mutual Agreement which shall be signed by all three parties.

STORE

It shall be understood and agreed that the employees shall be at perfect liberty to purchase goods wherever they may choose to do so.

HOLIDAYS

The following days only shall be observed as holidays:—

New Year's Day.

May First.

Victoria Day.

Dominion Day.

Labor Day.

Thanksgiving Day.

District and International Election Day.

Christmas Day.

FUNERALS

In the event of an instantaneous death by an accident in the mine or outside the mine, the Miners underground and all other employees

may suspend work in the seam where the accident occurred on the day of the accident, but shall resume work on the following day, and continue to work till the day of the funeral, when it is optional with them whether they shall work or not.

SUB-CONTRACTING

No sub-contracting shall be allowed in any mine operated by the Company, but this shall not apply to the employment of backhands.

EMPLOYEES TO CARE FOR MINE

In case of either local or general suspension of mining, either at the expiration of this Agreement, or otherwise, the Engineers, Firemen and Pumpmen shall not suspend work, but shall, when mining is suspended, fully protect all the Company's property under their care, and operate fans and pumps, and lower and hoist such men and supplies, as may be required to protect the Company's property and any and all coal required to keep up steam at the Company's plant; but it is understood and agreed that the Company will not ask them to hoist any coal for sale on the market.

SINGLE SHIFT

The single shift system in rooms and pillars shall be adhered to as far as practicable.

WET PLACES

A working place in the mine where water drops from the roof in quantities sufficient to wet a man's clothing or where standing water is sufficient to wet a man's clothing above his

knees shall be considered a wet place; a place where the use of gum boots will keep a man's feet dry shall not be considered a wet place.

ROCK MINERS

Where a man is continuously engaged on rock work where hammer and steel are used, he shall be considered a rock miner and paid rock miner's wages.

If an air drill is used, the driller shall be paid machine runners' wages, and the helper paid machine runners' helpers' wages; the other men engaged shall be classed as miners or laborers, as may be.

When a man is engaged on work in both rock and coal, if the amount of rock is greater than the amount of coal, he shall be classed as a rock miner, and where the amount of coal is greater than the amount of rock he shall be classed as a coal miner.

BRUSHING

When a man is engaged on continuous brushing, either top or bottom, using the usual drills and tools, he shall be classed as a coal miner; if the brushing is done by hammer and steel he shall be classed as a rock miner.

Timbermen taking out rock while engaged in retimbering or repairing shall not be classed as rock miners.

RETIREMENT

Where any employee has drawn his time before the regular pay day, he thereby severs his connection with the Company, and any

alleged grievance he may have ceases to be a question for consideration under this Agreement.

CHINESE LABOR

The United Mine Workers of America do not in any way prohibit the employment of Chinese in or around the mine, but where such labor is employed they shall be paid the scale for such work, with the following provisions, i.e., that where they are now employed at Bankhead and Canmore the present rates shall not be interfered with in any way by the United Mine Workers of America during the life of this Agreement.

OIL

Present conditions to prevail.

PAY DAY

The Companies will pay the regular payrolls at the several mines in accordance with the Law of the Province in which the mines are located.

Any employee desiring to leave the services of the Company, on his request shall be paid all moneys due him within two (2) days after his stoppage of work.

MARKET RESTRICTIONS

It is agreed that District No. 18, United Mine Workers of America, will not in any way restrict or interfere with the marketing of coal or coke to any person, firm or corporation.

TURN OF CARS

The Company shall, as far as practicable, supply each and every miner with an equal turn of cars.

BACKHANDS

The present practice of working miners, either as partners or with miners and laborers, as it exists in the several camps at the present time, shall be adhered to.

On all Company work, the Company shall employ such class of men as the work requires, and at the rate of wages provided for in this Agreement.

CONTRACT NOT TO BE VOIDED BY MINERS, CONSTITUTION OR RULES

This contract is in no case to be set aside because of any rule of the United Mine Workers of America now in force or which may hereafter be adopted; nor is this contract to be set aside by reason of any provision in the National, District or Local Constitutions.

GEORGETOWN COLLIERIES, LIMITED

No. 3 Seam

PILLARS: Mining rate, 43 cents per gross ton.

This price to include the handling of coal, timbering, gobbing dirt and rock, putting down and taking up rails and ties.

GANGWAYS: 12 feet wide.

Mining rate, 43 cents per gross ton.

Yardage, \$2.90 per yard.

This price includes the handling of all coal, gobbing dirt and rock, laying track, making ditch, and all timbering other than set timbering.

BRUSHING: 75 cents per foot thick, per lineal yard.

Timbering where square sets are required must give 6 feet 6 inches clearance from the top of the rail to the bottom of the collar. The sets to be frames with a 6 foot clearance between the notches of the collar and 10 foot spread from the bottom.

COUNTER GANGWAY: 12 feet wide.

Mining rate, 43 cents per gross ton.

Yardage, \$1.12 per yard.

This price includes handling of coal, timbering other than set timbering, gobbing dirt and laying track.

McGINTY ROADS: 12 feet wide.

Mining rate, 43 cents per gross ton.

Yardage, \$1.32 per yard.

This price includes same as Counter Gangway.

BRUSHING: Where it is necessary to brush in either the McGinty Roads or the dips, to be paid for at the following rate: 5 cents per inch, per lineal yard for 6 feet in width, and

10 cents per inch, per lineal yard for 12 feet in width. Brushing is either rock which overlies or underlies the coal seam.

Where the miners are requested to lay the rails in McGinty Roads, they shall be paid for same at the rate of 15 cents per yard for single tracks, and at rate of 30 cents per lineal yard for double tracks, using not heavier than 16 pound steel.

BREASTS: Not under 13 feet wide.

Mining rate, 43 cents per gross ton.

Yardage, \$1.21 per yard.

This price includes handling of coal, post timbering, gobbing dirt and rock, and track laying.

CHUTES AND CROSS CUTS: 12 feet wide.

Mining rate, 43 cents per gross ton.

Yardage, \$1.21 per yard.

Same as Breasts.

Rock in the Seam in excess of 6 inches in thickness and up to 10 inches, to be paid for at the rate of 50 cents per lineal yard extra in all places except pillars.

CHUTE BUILDING: Chute building to be paid for at the rate of 50 cents per lineal yard where the boarding is done from the roof to the floor, to act as a brattice for ventilation.

BULKHEAD: Where bulkheads are put in, the price to be paid will be the same as at Canmore, viz., \$2.50.

GOB BRATTICE: In Breasts where gob bratticing is done, to be paid for at 30 cents per lineal yard.

SYSTEM OF WORKING: Whenever any new system is inaugurated or radical change in the present system is made in any mine where there is a contract price fixed thereon, the Company or the employees may ask for a price to be fixed on the work as "New Work," as, for example, a change from "Longwall" to "Pillar and Stall," or vice versa, shall be considered "New Work."

PILLAR EXTRACTION: When pillars are extracted, the price shall be five (5) cents per gross ton less, in all seams, than is paid for solid coal mining.

COGS: When the Company requires the miner to set cogs, the cogs shall be properly filled with rock, provided there is rock handy, which only requires to be moved once, and shall pay for the same at the rate of seventeen (17) cents per foot of height per cog 3 feet square, and twenty-two (22) cents per foot of height per cog 4 feet square. The Company

shall set all cogs larger than 4 feet square, with Company men.

POSTS: When posts measuring ten feet or more in length are required to be set, the Company shall pay thirty-three and one-third (33 1-3) cents per post. Posts in pillar work in No. 8 Mine, Michel shall be paid for as at present, thirty-three and one-third (33 1-3) cents per post.

BRIDGE STICKS: When the Company requires the miner to set bridge sticks, they will pay \$2.00 per bridge stick.

TRACKLAYING: Tracks with 16 pound rails shall be laid by miners in levels and parallels, and in rooms and inclines shall be laid by miners after one length of rail from frog and switch is laid by Company. In rooms a rate of 15 cents per lineal yard for single tracks, and a rate of 30 cents per lineal yard for double tracks, will be paid for all tracks laid by miners.

TIMBERING: \$1.00 per set, with lagging and centre post, when required by the Company; \$2.00 per set for heavy timbers used in partings. Room timbers shall not be over 8 inches in diameter. Levels, inclines and slope timbers shall not be over 12 inches in diameter. Anything above that size shall be considered "heavy timbers" and paid for at the rate of \$1.50 per set.

CHUTES: The Company will build the first section of chutes; miners shall build thereafter, and shall be paid at the rate of thirty (30) cents per lineal yard for all chutes built. The Company shall deliver all material to foot of chutes.

Tool sharpening per month 50 cents.

House rents to remain as in Agreement expiring March 31st, 1915, so long as conditions in connection with houses remain the same.

DOCKAGE:

The dirt or slate or other impurities picked from the coal going over the picking tables or screens shall be weighed for a period of 12 working days. From this method of weighing the average weight of waste contained in each mine car will be determined and form a basis of deductions per car in favor of the Company; or, in other words, presuming that the average dirt taken from each car equals 17 pounds, then the Company will have the right to deduct from the weight of each pit car 12 pounds, to compensate them for hauling and handling of waste. If the average of waste does not exceed 5 pounds per car, there will be no deductions for waste, the 5 pounds per car being considered a reasonable allowance for slate or waste that the miner or loader cannot consistently pick out from the various kinds of coal.

If the average weight of dirt in each car exceeds 17 pounds or runs below 17 pounds, the difference between the actual average weight of dirt in each car and the 5 pounds per car allowance shall form the basis of allowance for waste.

It is further understood that this system of weighing the average dirt sent out in each car may be checked at either the request of the miners or the Company at any time during the life of this Agreement.

Further, should the dirty coal or slate sent out by the miners exceed the allowance above

specified, the following system of fines to prevail:

First Offence: 50 pounds of rock or slate, warning and fine of 100 pounds of coal. After the first offence, 65 pounds rock or slate shall be fined 200 pounds of coal; 85 pounds of rock or slate shall be fined 400 pounds of coal; and 150 pounds of rock or over shall be fined all the coal in the car and liable to discharge.

The weighman shall give the first warning and keep record of offences, and report them daily to the Mine Manager.

The money coming from this special list of fines (after deducting the actual weight of rock) shall be applied to providing prizes for miners' sports or to the entertaining of miners' children.
