

GALLIHER IS CANDIDATE

Unanimously Nominated by the Liberal Convention.

Organization of a Permanent Committee For Campaign.

NELSON, Jan. 12.—The Liberal convention today nominated W. A. Gallihier as the first candidate of that party for the new Kootenay constituency.

John Keen, of Kaslo, was made chairman and John A. Turner, of Nelson, secretary. There was a full attendance from all parts of the Kootenay riding, the delegates numbering between 20 and 30.

Dr. A. C. Sinclair, of Roseland, and W. A. Gallihier were placed in nomination. Dr. Sinclair withdrew, making the nomination of W. A. Gallihier unanimous.

The candidate was sent for and on his arrival in the hall he received a magnificent ovation. Mr. Gallihier made a stirring address, reviewing the policy of the Laurier administration since 1896, laying particular stress on the good work of the last session. He prophesied that British Columbia would send a solid Liberal delegation to the next Dominion house. He paid a high compliment to Governor Macleod, his opponent on the Conservative side, and said he was glad he supported the Grand Trunk-Pacific railway policy.

A permanent campaign or executive committee was appointed as follows: Chairman, S. S. Taylor, K. C. Nelson; secretary-treasurer, to be a Nelson man, and to be appointed by the candidate and the chairman. The members of the executive committee, one from each riding are as follows: Roseland, Dr. D. E. Kerr; Fernie, Fred Strick; Cranbrook, N. W. McInnis; Columbia, R. S. Galloway; Atholstan, Kaslo, J. L. Hethcote; Nelson, Dr. G. A. B. Hall; Revelstoke, J. M. Kelle; St. Leon, G. McNeill; Ymir, A. B. Buckworth. Any vacancies occurring will be filled by the board itself.

Resolutions were adopted urging the government to promulgate the terms of the head and tail agreement, and pledging their unalterable loyalty to Sir Wilfrid Laurier as leader of the party.

The delegates attended the operatic performance at the opera house this evening and had supper afterwards at the guests of the local Liberals. The Roseland delegates on the floor of the convention were as follows: Dr. D. E. Kerr, W. A. Grigor, A. McMillan, James Cowan, A. MacLennan, J. McSwain, A. Lockhart and Stuart Martin. After the nomination of Dr. Sinclair and W. A. Gallihier, Mr. F. the former being elected secretary, finally withdrawing his name from the convention and moving that the nomination be made unanimous, which was done enthusiastically. Mr. Gallihier was invited into convention, and received an ovation on entering the room. His address of acceptance was well received and he was greeted with repeated bursts of applause.

TO JOIN TWO MINES

SCHEME ON FOOT TO AMALGAMATE THE VELVET AND PORTLAND.

CONCENTRATING ORES OF BOTH MINES—WAGON ROAD WANTED.

The current issue of the B. C. Mining Review contains further information as to the affairs of the Velvet Mines, Limited, the effect of which is to emphasize the belief that the company will shortly resume operations at the mine. The principal delay in connection with this resumption appears to hinge around a probable amalgamation of the Velvet interests with those of the Portland company. The properties adjoin, and the shares are largely held by the same people.

The Review's article is as follows: "Circulars have been sent to the shareholders of the Velvet and Portland companies containing suggestions for a scheme of amalgamation and re-organization. The nominal capital of the combined companies is \$310,000, which it is proposed to write down to the amalgamation to \$120,000 divided into 100 shares. Shareholders in the Velvet company will exchange shares for shares, each 100 shares being credited with 75. 6d. paid up, and the ratio of exchange in the Portland will be nine shares for four in the amalgamation fully paid. By this means the amalgamated company will have a working capital of \$20,000. We had the pleasure this week of a visit with Mr. Allan Maclean, who recently returned from investigating these properties at Roseland, and the impressions which he formed may be of interest to the shareholders of the companies concerned in the amalgamation. He laid stress on the fact—which is known to most of our readers—that the value of the ore in these two Sohier mountains mines is higher by about 25 per cent than in the Roseland properties, and had they the same facilities for shipment and treatment, they would before this have earned a substantial profit.

"As a result of his investigation it was decided to explore further with the Velvet and explore further with the diamond drill, and to take measures to complete the concentration plant, which will have a capacity of 40 tons per day. Owing to the heavy cost of getting the ore to any of the smelters, the wagon road has been tedious and expensive. The management have decided to concentrate their ore and then treat it on the spot in a pyrite furnace. In this way the

KEEP THE CONCENTRATOR

An Authoritative Statement by Manager Parrish Tells of Big Ore Bodies and High Values.

Yesterday for the first time since the big strike was made in the deep levels of the Le Roi Manager Parrish was induced to make an authoritative statement concerning the extent and value of the new showing.

Between the 1000 and 1200-foot levels there is little or no ore exposed in the workings of the mine, although there may be pay shoots in the unexplored ground. When, therefore, the diamond drills broke into the new find last summer on the 1350 level it would have been difficult to overestimate the importance of the strike. Knowing this, the manager, Mr. Parrish, is naturally an authoritative statement of particulars, but the reply, until yesterday, has always been that any expression of opinion by him might be premature and misleading.

The fact that he has now decided to speak after a studied silence of nearly six months may consequently be taken as significant.

Mr. Parrish declares that at a point 250 feet west of the main shaft and on the 1250-foot level a crosscut has been run 100 feet along the course of the diamond drilling. Since encountering the ore body he has drifted fifty feet one way and thirty feet another, but as yet there is no sign of any end to the shoot. The ore is solid, and thick enough to run from 10 to 20 per ton. From time to time the assays run into big figures.

This places the new discovery well within the limit of first class ore that will yield handsome profits—greater, in fact, than is customary in any of the big properties.

But that is not all. At a point a considerable distance further west another crosscut on the same level has also encountered ore of similar grade to that found near the main shaft. Mr. Parrish is not prepared just now to say whether this is a solid continuation of the first strike, but it may be, and the chances are that it is. It is, then

the largest ore shoot ever discovered in the Roseland camp exists on the 1250-foot level of the mine. The work on it at present consists of crosscutting and drifting. No better estimate is expected of a mine will be sunk and upraised will be made to prove the continuity of the ore body from the first to the second strike. Mr. Parrish was not prepared yesterday to say what he intended to do about proceeding with work below the 1250. He is concentrating his attention for the present upon the prospecting of the new find.

As for an expression of opinion as to the merits of the strike, Mr. Parrish said that it might be the top of a big ore shoot as was ever found in the mine. The showing so far was highly satisfactory. If it is as he hopes, Mr. Parrish declares that there are great days of prosperity for the Le Roi.

Roseland Camp, Woodmen of the World, installed officers for the coming term last night. The attendance of members was excellent and the evidences of prosperity for the lodge were commented upon at length. The new officers are as follows: A. Houston, past commander; J. A. Smith, council commander; T. L. Merrill, advisory commander; J. C. McDonald, banker; George Ohren, clerk; W. H. Scott, secretary; J. A. Smith, treasurer; J. A. McKinnon, board of management. A. Houston, past commander, officiated as installing officer and gravely read to the score of most of the officers an interesting and instructive nature.

John S. Clute, like his friend ex-Deputy Sheriff Robinson, is a candidate for the office of mayor. He has tried to "run" several mayoralty candidates, including himself, and not content with that, he has also been a candidate for the office of city clerk. He has been a candidate for the office of city clerk, and has been a candidate for the office of city clerk.

From Wednesday's Daily. William McDonald, a bridge carpenter employed on the Canadian Pacific, was killed yesterday at Granite siding, four miles west of Nelson. Full details of the fatality are not available.

From Saturday's Daily. In the case of the Centre Star Mining company vs. the Roseland Mining Union, Judge Forin's order changing the trial from Victoria to Nelson has been reversed by the full court, so that the trial will probably be held at Victoria.

A number of members of the Rocky Mountain Rangers have been struck off the voters' list for non-payment of road taxes. All these men are exempt from road and poll taxes, and steps will be taken today to have them restored to the list.

The funeral of the late L. Zeman, the Italian sectionman who died suddenly on Monday took place yesterday at the Catholic undertaking establishment of Jordani cemetery. Rev. M. W. McKinnon, pastor of the Sacred Heart church, conducted a brief service at

At the curling rink last evening T. I. Dunn took A. B. Mackenzie's place in the semi-final of the president's trophy series and won by a score of 18 to 4.

Hall's Catarth Cure is taken internally, and acts directly on the blood and mucous surfaces of the system. Send for testimonials and a catarth that cannot be cured by the use of Hall's Catarth Cure.

Sworn to before me on this 6th day of December, A. D. 1888. A. W. GLEASON, Notary Public.

Hall's Catarth Cure is taken internally, and acts directly on the blood and mucous surfaces of the system. Send for testimonials and a catarth that cannot be cured by the use of Hall's Catarth Cure.

Ed. Mastin, who is well known in Roseland and to a host of people throughout the district, has leased the Kootenay hotel and restaurant. The hotel will be thoroughly renovated and conducted on a first class basis. Ed. Mastin has been induced to take this step by the insistence of his many friends and his firm belief in the great future of the camp.

The enrolled pupils at the high school now number twenty, a substantial increase on the aggregate of last term. The enrollment specified should give an average attendance of eighteen pupils during the twelve months term. Principal Thomson now has the classes arranged for the work of the term and says that the pupils are well advanced in several subjects, although the course in classics has not much ground to be covered prior to the mid-summer examinations that expectantly close application by the pupils will be required to get up the work.

J. S. Clute, like his friend ex-Deputy Sheriff Robinson, is a candidate for the office of mayor. He has tried to "run" several mayoralty candidates, including himself, and not content with that, he has also been a candidate for the office of city clerk. He has been a candidate for the office of city clerk, and has been a candidate for the office of city clerk.

From Sunday's Daily. The Mayor of Roseland has decided to inaugurate a series of dances at their temple on upper Columbia avenue. The first of these dances will probably take place about January 25.

Mrs. D. McKinnon has returned from a lengthy trip to Vancouver, which she spent in the hospital. She returns with the firm conviction that eastern doctors are no whit superior to those of Roseland. Mrs. McKinnon was accompanied by her sister, Miss LeFevre.

An interesting musical event is announced for the evening of the 19th inst., when Miss Florence Yergo, pupil of Carl Hall of Berlin, will give a vocal recital. Miss Yergo is a well known singer, and her recital will be a most interesting one.

A famous match of experts in the "morning" game was played at the rink last night. The victors were treated to an oyster supper at the Hoffman house afterwards. Following is the result of the play: D. Guthrie, N. McIntosh, N. McIntosh, E. A. Rolf, H. H. Smith—5 A. B. Mackenzie—10.

The report, that Hon. Robert F. Clallan disaster created much excitement in Roseland last night. The miner was besieged with inquiries as to the confirmation of the rumour, and much relief was expressed when it was learned that in all probability the report was quite unfounded. It was learned that the miner, Mr. Clallan, was on his way to the coast, and fear was felt lest he should be among the victims of the wreck. Enquiries developed the fact that Mr. Clallan had gone to the coast from Nelson via the Canadian Pacific, which included the possibility of his being aboard the ill-fated Clallan.

His Honor Judge Forin of Nelson has notified Charles E. Hillan, who has been appointed a coroner for the province. The other resident coroner is Dr. Coulthard, and his absence from the city was noted when an accident occurred at one of the mines required the services of a coroner. Dr. Coulthard is a well known physician, and his appointment as coroner drew attention to the fact that such an official was not appointed in the district.

James G. Irving has resigned from the Canadian Pacific service to devote his time exclusively to stock raising in the Midway district, where he has a fine ranch. He has been with the road for a number of years, and for the past three years has run between Roseland and Nelson on the morning passenger train out of Roseland. During his absence from the road, Mr. Irving will join in wishing him unlimited success in his venture.

Dr. McKenna, city health officer, has been appointed a coroner for the province. The other resident coroner is Dr. Coulthard, and his absence from the city was noted when an accident occurred at one of the mines required the services of a coroner. Dr. McKenna is a well known physician, and his appointment as coroner drew attention to the fact that such an official was not appointed in the district.

Per Year \$2.50. TONNAGE CLIMBS UP

Ore Shipments Over the 10,000 Ton Mark Last Week.

Record of Week's Work in Mines of Roseland Camp.

With a large output of ore and steady advances the local mining industry has made excellent progress during the past week. Municipal elections had the centre of the platform with the public, but the excitement did not interfere with the operation of Roseland's mines. Nor has the week been devoid of incident of special interest.

The arrival of much-needed oil supplies at the Le Roi Two concentrator put an end to the deadlock existing there for a couple of days at the Elmore plant. The interruption of a similar test run will be most regrettable. This is of much interest, inasmuch as it is expected that the completion of these test runs the manager will make public information in detail that has not been available heretofore in respect to the Elmore plant. The results secured at the test runs have been very satisfactory. The month's test run under way has been resumed, but it is probable that the conditions might be improved, as a fact process has been going on in various ways, and that figures divulged under anything but propitious circumstances would not convey a fair idea of the efficiency of the process. Hence data have been withheld until the close of the experiments under way at the present time are concluding, although public information is the proper term, because no innovations are being tried, the operations being confined to the usual procedure with close tests of every feature of the milling process.

At the Roseland Power company's 200-ton plant to handle War Eagle's Centre Star ore construction is progressing apace. The erection of the main buildings is to all intents and purposes completed and interior arrangements are being made for the reception of the machinery, which will commence to arrive at an early date. The management are probably successful in accomplishing their task for the works in operation by May 1, although the process of installing machinery and setting up the mill component parts is such that tediousness is certain of course, but the most extensive milling operations in the Roseland camp the last week of the year. In other respects advances have been made in mining, and the outlook for the maintenance of the present measure of activity is very promising from time to time is bright.

What shrank your woollens? Why did holes wear so soon? You used common soap.

SUNLIGHT SOAP REDUCES EXPENSE

THE OUTPUT.

The tonnage of ore shipped from the Roseland mines during the past week ending January 10, 1914, to the date is as follows:

Table with columns: Mine, Week, Year. Rows include Le Roi, Centre Star, Kootenay, etc.

ROUND THE MINES.

LE ROI.—The output of the big mine is being brought up to a basis of 24,000 tons per month, and as will be seen from the statement of shipments, the tonnage piled up for the week week couple of days in the matter of oil supplies, but this disability, as already stated, has been removed, and at mine and mill everything is active, with the work being done to the satisfaction of the management.

WAR EAGLE.—Nothing of an unusual nature is reported for the past week in connection with the War Eagle mine. The output has been maintained steadily, and development being continued to the deep levels of the property. Some work is being done on the existing ore, but the further blocking out of ore bodies to be utilized later for milling purposes.

JUMBO.—The mine is working steadily and shipping to the Elmore concentrator. On the first level stoping and
