Go North for Blondes

SOME theories have been advanced lately which connect a man's success or failure in life with his complexion. Blondes are designed for certain kinds of work, and if they get in other kinds they will fail. Men of one complexion do the thinking for the world; the others get out and do the hustling. More interesting is the theory that this continent, south of Winnipeg, is no place for a real white man to live. An effort to prove that the ultra-violet rays of the sun kill off blonde races in all latitudes south of 45 is made by Dr. Austin O'Malley, a widely-known Philadelphia medical man and scientist, and it is to be admitted that he presents some striking arguments before arriving at the conclusion that all the north European races will be extinct south of Winnipeg within a couple of centuries unless there is a constant stream of immigration from their native lands.

Starting from the accepted belief that the earliest man was white and lived somewhere about the latitude of the Euphrates basin, Dr. O'Malley says, that the negro and the real blonde were developed as mankind ventured south or north. The farther south the early pioneers penetrated the darker hue became the skins of their descendants. Those that did not become dark perished because they could not survive the murderous ultra-violet rays. Those who went north became more blonded. This is nature's plan, for the blacker an object is the more quickly it radiates the heat it receives, and the whiter it is the more slowly it lets the heat escape. It is because of this that the northern animals are white. An exception is provided by the Esquimaux, who are dark, but this is in order that their skins may the better withstand the six months of blinding sunshine upon the snow-fields and the ice. One might ask why polar bears are not dark for the same reason, but at any rate everybody knows that in the north part of the temperate zone and even in the frigid zones many animals become white in the winter that were brown in the summer.

It is not so much the matter of cold and warmth that affect the growth and development of mankind and mark inexorably his proper place upon the planet as the sunshine. Not heat rays but light rays make the blonde and the brunette. For instance physicists working with extra-special rays, Rontgen rays, Becquerel rays, and rays from radium must protect themselves with coatings of rubber, lead, glass and other materials that prevent the rays reaching the skin. Otherwise the ultra violet rays would change the protoplasm of cells so that they would let in salts which would disintegrate and kill them. In the United States more than twenty investigators were killed by the action of X-rays before they discovered the necessity of protecting themselves from these baneful emanations. It is exactly the same with the sun's rays. The more direct and the stronger the rays are the more is the necessity for the human beings to be darkly pigmented. Thus it is that the negroes in Africa can withstand rays that cut short the lives of white men, and the Scandinavian on the other hand is comfortable under conditions that dark-skinned people could not endure.

There is a general law that certain vegetation and animals can only thrive in certain latitudes. Mankind is not immune from this law, although men live at the equator and in the Arctic circle. Nature preserves the race that is best adapted to live in certain zones and kills off the others. Dr. O'Malley calculates that from the equator north or south to the thirtieth latitude is the proper zone for the black man; from the thirtieth to the thirty-fifth is the zone of the brown men like the Malays; from the thirty-fifth to the forty-fifth is the zone of the brunette, Mediterranean type, like the Italian and the Spaniard. From the forty-fifth to the fiftieth is a sort of No Man's Land in which ordinary people like most of us can get along very comfortably, but the zone of the European blonde is above the fiftieth parallel of latitude. Toronto, it might be observed, is slightly south of the forty-fourth parallel. If one looks at a map he may be astonished to find that as far as parallels of latitude are concerned, Toronto is equipped more like Spain than the British Isles.

The record of the American revolution gives concrete facts to support the general theory. In that struggle it is said that half the soldiers of Washington were natives of Ireland;

one-quarter were native Americans; and the rest were English, Scotch, German and Dutch. But among the Daughters of the American Revolution, the Cincinnati and similar societies composed of descendants of Washington's army, there are now hardly any Irish names. The Irish, being a northern race, have almost disappeared after a century and a quarter. Recently Dr. O'Malley examined some fifty Irish families in Northern Pennsylvania, founded by sturdy Irish peasants who had emigrated after the famine of 1847. All the emigrants succeeded and were able to give their children a good start. In the first American generation there was an average of about five children to a family, or 276 in all. If these had continued to be as productive there would have been at least 1,000 descendants to-day. As a matter of fact there are fewer than 200 and nearly all are neurotic, delicate children. In another couple of generations this stock will have become extinct, simply because the ancestors when they went to Pennsylvania went south a thousand miles into a zone intended by nature for the Italian.

Canada Lends.

A paragraph appearing in *Reparation*, a monthly bulletin published in the interests of returned men in Australia, quotes the speech delivered in Sydney by Premier Holman, of New South Wales, in which he stated that the state had settled 1,100 men on the land. The Premier claimed that this was a much larger number than had been settled in any of the other states. New South Wales sent to the battlefields of Europe thirty-nine per cent. of the total of the Australian Expeditionary Force. If the proportion of ex-service men settled in the land in the other states was equal to that of New South Wales the figures would be for the whole of Australia 2,820 men benefited by the Land Settlement Act up to the date of the Premier's speech.

Up to the 17th of May, the Soldier Settlement Board of Canada had approved 7,900 applications for the benefits of the Soldier Settlement Act and a great many more applications were before the Qualification Committees in the various provinces. These figures which will be largely augmented by the returns for the last two weeks of May and for the present month show that Canada is well in advance of the sister commonwealth in providing suitable farms for her war heroes.

Two of a Trade.

"Do you think these alienists are any good at a trial?" "Some, I take it. An alienist is the only person I ever saw who could bluff a lawyer."

Charwomen Form Union.

Nearly one thousand charwomen employed in the Dominion Government offices at Ottawa have formed a union with a view of obtaining an increase in wages.

Milk In Brick Form.

In some parts of Siberia milk is frozen and sold in brick form, and soup frozen into balls is sold to travellers to take on sledge journeys.

A combination storm and glare shield that can be clamped on an automobile windshield in front of a driver's seat has been invented.

Millgrove

Master Willie Roberts of this village underwent an operation this week for his throat.

There will be no services, except Sunday school, in Millgrove church next Sunday on account of Harvest Home services at Rock Chapel.

Mr. Geo. Shelton met with an accident the other day which might have proved quite serious. Two men while under the influence of liquor ran into and badly damaged Mr. Shelton's car. A man who happened to be riding with Mr. Shelton at the time had the misfortune to have two ribs broken.

The Millgrove Ladies' Aid intend giving a Harvest Home banquet on Oct. 24th in the Public hall. An A-1 program will be provided.

Miss Gertrude Markle of Millgrove and Mr. E. King of Clappison's Corners were quietly married yesterday at the home of the bride.

Mr. Morris, of Hamilton, occupied the pulpit here on Sunday last, giving a very profitable talk on temperance.

Rev. C. R. Albright occupied the pulpit of the First Methodist Church in Hamilton on Sunday last.

High School to Remain

On Monday last a representative deputation of citizens of Waterdown and East Flamboro consisting of Rev. H. J. Leake, Rev. R. A. Facey, Rev. J. F. Wedderburn, Dr. Hopper, Dr. Eager, Reeve D. Davies, W. Attridge Wm. Thompson, Reeve Peter Ray and W. H. Easterbrook waited on the Minister of Education, the Rev. Dr. Cody, with a view to having the annual grant to the Waterdown High School continued. The matter was thoroughly discussed with the Minister of Education with the result that he promised the grant would be continued. It will be necessary however to make several improvements and alterations in the school, part of which will be done this year, the balance to be completed during 1920. This will be good news to our citizens generally, as the removal of the High School from Waterdown would be a distinct loss to the village and country. As it is, owing to the closing of the 4th Form, several pupils who passed their Junior matriculation have been compelled to enter the Hamilton Collegiate.

King-Markle Wedding

The home of Mr. and Mrs. Miles Markle, Millgrove, was the scene of a very happy event on Wednesday afternoon last when their daughter, Miss Gertrude, was united in marriage to Mr. Elmer King, second son of Mr. and Mrs. David King. Only immediate relatives of the contracting witnesses the ceremony, which was performed by the Rev. Mr. Albright, pastor of Millgrove Methodist church. The young couple were unattended.

At the conclusion of the ceremony a wedding dinner was served. The happy couple leaving shortly after, journeying by auto to Hamilton where they took the train for Chatham and other points. Their future home will be on Dundas street.

Many beautiful and costly presents were received testifying to the high esteem in which the young bride was held by a large circle of friends who will wish them much happiness.

The ladies of the Women's Patriotic League are to be congratulated on their efforts of raising money towards the erection of a Memorial hall in this village. Mrs. A. M. Slater, the Treasurer, makes the following report regarding the Garden Party held on July 16th. Total receipts \$944.25 total expenses \$385.63, leaving a balance of \$558.62. The ladies desire to thank all those who assisted in making the Garden Party such a success.

A person walking on the sidewalks here these days takes his life in his hands. He is liable at any time to be run into by a bicycle or express wagon. There can be no doubt but that the sidewalks were originally intended for the use of pedestrians, but of late the two and four wheeled vehicles have taken full possession much to the disgust of our citizens. A by-law, we believe, is still in existence governing the running of bicycles on our sidewalks, and we think it should be rigidly enforced before some accident occurs.

Greenville

Mr. and Mrs. John Surerus and Mr. Geo. Surerus spent a few days in Goderich last week.

Miss Nellie Betzner spent Sunday in Kitchener.

Mr. Harry Medwin left on Saturday for Manitoulin Island where he has purchased a large tract of timber land.

An accident occurred at Fenton's corner on Sunday afternoon when the driver of an auto, to avoid colliding with a rig, applied the brakes too quickly with the result that his car was overturned. Fortunately no one was injured, although the car was badly damaged.

ROYAL YEAST CAKES

There is more energy in a pound of good bread made in the home with Royal Yeast Cakes than in a pound of meat. Bread making is a simple operation and requires no previous experience. Full instructions in Royal Yeast Bake Book, mailed free on request.

E. W. GILLET CO. LTD. TORONTO

Worth Knowing.
Brown bread brews is cold brown bread cut in small dice, covered with thin cream and stewed slowly for about an hour.

Strawberry tartlets are patty shells of pie paste filled with whole strawberries and sweetened whipped cream.

Don't say to a salesman, "I want"—this or that. Say "Would you kindly show me"—this or that. When you lay stress upon his importance, not your own, you imply, of course, that he will be obliging. After that his ambition is to show you how thoroughly he has mastered the graces of salesmanship.

That useful friend of the housekeeper, the chamolis, has an amazing habit of stiffening after a bath unless it is given with great care. Wash a chamolis in soft water to which has been added a little borax and enough soap to form a lather. Shake up and down in the water and rub very gently. Rinse in cold water, shake in the air to get out as much of it as possible, pull it out well and lay it flat until partly dry. Now pull it through the hands several times and again spread out flat for further drying. Repeat this process several times and there will be little danger of a chamolis ruined by drying hard and stiff.

Minard's Liniment for sale everywhere
A HAPPY HEBRIDES.

Leverhulme, New Owner of Lewis Has Plans.

Lord Leverhulme, the new proprietor of the Island of Lewis, in the course of an interview to the press, has given very interesting particulars as to his plans for making it a happy spot in the Hebrides. Lewis, he remarked at the outset, had a population of 32,000 at the last census.

"The scenery of the island is magnificent, its climate almost paradisaical," he said. "When I was there recently the temperature was 10 deg. higher than in London. Flowers and plants will grow in the open there which you would have to travel as far south as the Isle of Wight to see produced under like conditions."

"The people," he added, "are mostly crofters. Earning a livelihood involves the hardest sustained labor on the part of the crofter, his wife, and his children. A woman will frequently have to make two journeys to the peat beds per day; this means sixteen miles, with a very heavy burden over eight of them. For fishing they have only the open boat; and the

most primitive of tackle. The total earnings of a family of five will be from \$2 to \$3 per week. Yet these people are given to education. There are 900 students receiving higher education at the Nicholson Institute, Stornoway. They pass thence in remarkable numbers to the universities."

"New houses are to be built, well equipped, with a garden in each case large enough to be useful as an allotment."

"The fishing grounds off Lewis are amongst the finest in the world. Canning factories must be ready. The first is now in course of erection at Stornoway, and will be followed by others. The question of transit is not difficult. Then we are to have works for hand-loom weaving. There is real demand for Lewis and Harris tweeds."

"Add to all this," Lord Leverhulme said, "the possibilities of the island as a centre for tourists, and you will see how the employment problem is on the way to being solved. For tourists the island is an ideal place. It is kept warm in winter by the Gulf Stream. It is kept from excessive heat in the summer by the Atlantic Ocean. I hold that Lewis has a magnificent future before it."

Soothes Irritable Throat Quickly Cures Bronchitis

No Drugs to Take. No Sickening Stomach Medicine to Use

Just Breathe "Catarrhoxone"

Count ten—a bad cold is relieved by Catarrhoxone—wait one minute and you will feel its soothing influence on a sore irritated throat. No failure with "Catarrhoxone"—it cures because you can breathe a healing vapor to the very spot that needs help.

The big thing to remember about Catarrhoxone is this—you just breathe a healing plney vapor that is full of the purest balsams, that is rich in the greatest healing agents known to science.

This wonderful vapor dispels all soreness, kills all germs, gives nature a chance to complete a real cure.

Colds and throat troubles can't last if the pure healing vapor of Catarrhoxone is breathed. Catarrh will disappear, bronchial attacks will cease, coughs and winter illis will become a thing of the past. Complete outfit lasts two months, price \$1.00; smaller size 50c; sample size 25c, all dealers, or The Catarrhoxone Co., Kingston, Ont., Canada.

Why Marry?

At a "husban-s night" of a woman's club a feature of the entertainment was the answering by the men, on slips of paper, of the question, "Why should a woman marry?" and by the women of the question, "Why should a man marry?" A prize was offered for the best answer to each of these questions. The best man's answer was adjudged to be this: "Because in that way a woman wins perfection"—a kind of double-edged compliment to each sex. The woman's prize went to this answer: "I know no reason why a man should marry"—a bit of subtle feminine self-effacement that seemed so unusual in these days that it hit the awarding committee. The shortest answer given to the question, "Why should a woman marry?" was, "Alimony." The longest was this: "Because character, not happiness, is the object of life; and in sacrificing her happiness by marriage a woman confers character on a man and wins it in greater measure for herself." A well-known artist wrote the question, "Why should a man marry?" and opposite it simply drew a picture of a pretty girl. Another answer to the same question was, "To save that extra thousand on his income tax."

WALKER HOUSE

WHAT is where I stay and I stay where I go to Toronto. Means says she always likes to stay there because they give us such splendid attention. She says it is just like being home only it's better 'cause it's a change.

Oh, you'll like it too, 'cause everyone seems to notice me and Means says even if papa is not along we receive the attention just the same.

The Little Girl is Right.

The WALKER HOUSE Management takes special pains in catering to women and children when traveling without gentlemen escorts.

It's a home for travellers, centrally located in the City of Toronto.

The WALKER HOUSE

100 King Street West, Toronto, Canada

The Dazzle in the Diamond

In olden times the diamond was regarded not only as a mark of royalty or nobility, to be worn only by those favored individuals, but it was looked upon as the emblem of purity, and by some nations believed to possess the wonderful power of not having only binding marital vows, but of healing dissensions between husband and wife and magically reconciling and reuniting parted couples; or, as one flitterate leonoclast put it, "mending martial breeches."

That probably originated the modern custom of presenting diamond engagement rings before marriage and diamond brooches and earrings after marriage, exceptional after some domestic explosion, and it is only fair to admit that even in these progressive days of woman suffrage, etc., a diamond does appear to have a magical effect on preventing wife from going home to mother.

THE DARKER SIDE.

Notwithstanding its great reputation for good luck, the diamond, if all the "whales of travelers" are true, that is, the great historic diamonds, have acquired a reputation far bad luck and greswome misfortune to their owners, which have furnished some of the darkest pages of history.

Hundreds of tales have been told of all the great brilliants stolen from the regalia of the moguls, but those best known to English readers are the lists of dark crimes perpetrated for the possession of the famous Kohinoor, Regent and Orloff brilliants. The Kohinoor and Orloff were at one time part of the famous Peacock throne of Delhi and were stolen by Nadir Shah. The Regent, however, was stolen from the mine in which it was found and was never in the possession of the Mogula. It had a dark history, however, and was the cause of at least three deaths. The slave who stole it, by concealing it in a slit in the calf of his leg, was thrown overboard and drowned by the captain to whom he offered it for a passage on the latter's ship. The captain who stole it from the original thief and sold it to the English resi-

We believe MINARD'S LINIMENT is the best:
Mathias Foley, Oil City, Ont.
Joseph Snow, Norway, Me.
Charles Whooten, Mulgrave, N. S.

Pierre Landers, Sen., Pokemouche, N. B.

dent at Calcutta drank himself into delirium tremens and hung himself, and the last thief, who stole it from the French collection in the Louvre, was guillotined.

BUILT THE HOUSE OF PITT.

Thomas Pitt, the grandfather of the great English statesman who finally drove Napoleon the Great from power, made the fortune of his house, however by the sale of the stone to the Regent of France early in the eighteenth century, the Prince of Orleans paying over half a million dollars for it. The stone also made the fortune of Napoleon, as the Directory pledged it to the Dutch Government in 1800 for 6,000,000 francs, thereby raising the money with which Napoleon conducted the great campaign which won him the battle of Marengo and elevated him to the imperial throne. Just now it is evidently a lucky stone, for it is still the principal ornament of the French regalia.

The Orloff and Kohinoor had much darker histories. Nadir Shah, who stole them from the Mogul, was assassinated; the rebel who stole them from Nadir lost his eyes.

After that the two brilliants were separated. The Orloff was stolen by an Afghan, who turned it over to another Oriental, who placed it in the keeping of a false friend, and for a time the stone was lost. The Afghan however, located it and, after three murders had been committed for its possession, the last robber succeeded in getting it to Amsterdam, where he sold it to Prince Orloff, the favorite of Catharine II, for \$600,000, a title of nobility and a pension of 20,000 roubles.

Minard's Liniment Cures Burns, Etc.

LAYING LINOLEUM.

There's a Certain Way to Do It Just Right.

When linoleum is first laid it should have a little careful attention, which will repay the owner. Linoleum is not intended to "wear forever," as a brick or stone floor might, but it does wear wonderfully, and provides a sanitary, artistic and durable covering at a moderate cost. When one takes into consideration the fact that it gets as hard wear as one's shoes, one is easily convinced that only the best quality will pay.

Linoleum should never be tacked to the floor; the cement which comes for the purpose of holding it in place keeps water from getting underneath, and increases its durability. A 12-inch layer of the cement around each edge of the linoleum, firmly pressed to the floor and weighted down, will make watertight seams and edges.

Coal.

Though wood and turf formed the fuel of our early ancestors, investigations have proved that the Britons, even prior to the Roman occupation, made use of coal. But as it was possible to utilize only such coal as lay at or near the surface, the practice did not make headway for many centuries.

KEEP CHILDREN WELL DURING HOT WEATHER

Every mother knows how fatal the hot summer months are to small children. Cholera infantum, diarrhoea, dysentery, colic and stomach troubles are rife at this time, and often a precious little life is lost after only a few hours' illness. The mother who keeps Baby's Own Tablets in the house feels safe. The occasional use of the Tablets prevent stomach and bowel troubles, or if trouble comes suddenly—as it generally does—the Tablets will bring the baby safely through. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

SUMMER DRINKS

Made at Home With Easily Obtained Material.

For making summer drinks provide a lemon squeezer, a quart jar as a substitute for shaker, an ice pick and an ice shaver.

Keep on hand a supply of sugar syrup and chocolate syrup, as they economize sugar by having it already dissolved, mixing quickly with cold milk.

CHOCOLATE SYRUP.

Four squares of chocolate, one-eighth teaspoon of salt, one and three-quarter cups sugar, one and a half cups boiling water.

Melt chocolate over hot water; add sugar and salt, then pour on gradually the boiling water, stirring constantly. Stir until smooth and boil five minutes. Cool, turn into a jar and keep in a cold place.

ORANGE BLOSSOM CUP.

One cup sugar, two teaspoons of lemon juice, one and a half cups orange juice, one quart milk.

Mix sugar and fruit juice together, and add to the milk slowly to prevent curdling. Serve cold with grated orange rind on top.

These cooling beverages possess real food value and should be part of rather than to supplement a hearty meal.

Minard's Liniment Relieves Neuralgia

The lowest guess was 9½ pounds, and the highest was 2,000 pounds.

ISSUE NO. 38, 1919

FARMS FOR SALE

IMPROVED GRAIN, STOCK, FRUIT, Garden lands, Norfolk County. Get description. W. Lewis, Waterford, Ont.

MUSKOKA FARMS—ONE TO TWO hundred acres; wood, stock or crops. Farms, buildings, fences. Address Realty Co., Box 329, Bracebridge.

FORTY-FIVE AMENDMENTS AND FOUR RESERVATIONS

In Peace Treaty as U. S. Senate Committee Reports It.

Washington Despatch — Characterized as an alliance, and not a league, "which will breed wars instead of securing peace," the German peace treaty, including the covenant for a League of Nations, was formally reported to the Senate to-day by the Foreign Relations Committee, with forty-five amendments and four reservations.

Accompanying the treaty was the majority report of the Foreign Relations Committee, subscribed to by every Republican member except Senator McCumber, of North Dakota, explaining the amendments and reservations, all of which, it was declared, were "governed by a single purpose, and that is to guard American rights and sovereignty, the invasion of which would stimulate breaches of faith, encourage conflicts and generate wars."

The reservations propose:

- (1) The unconditional right to withdraw from the league.
 - (2) Declination to assume any of the obligations of the much discussed article 10, "except by action of the Congress of the United States."
 - (3) Reserving to the United States the exclusive right to decide what questions are within its own domestic jurisdiction.
 - (4) Absolute reservation of the Monroe Doctrine as to the judgment of the United States alone.
- The principal amendments are proposed to provide:

Equal voting power for the United States with Great Britain in the assembly of the League.

Giving to China instead of Japan the Province of Shantung.

Relief of the United States from having representatives on commissions deciding matters in which it has no concern.

Others concern phraseology.

These amendments and reservations, the majority report says, are submitted "to preserve American independence and American sovereignty, and thereby best serve the welfare of mankind."

Fears that other nations may not accept an amended covenant the report dismissed with the statement: "That is one thing that certainly will not happen. The other nations will take it upon their own terms, for without us their league is a wreck, and all their gains from a victorious peace are imperilled."

That the adoption of amendments will necessitate reassembling of the peace conference, the report denies, asserting that the conference will probably be in session for six months more in Paris, and might as well be "at least as usefully employed" as "they are now in dividing and sharing southeastern Europe and Asia Minor."

German delegates, the report contends, could easily be brought to Paris, and as Germany is not a member of the League, she need not be consulted about changes of the covenant.

Warms in children, if they be not attended to, cause convulsions, and often death. Mother Graves' Worm Exterminator will protect the children from these distressing afflictions.

BERLIN KNOWS HOW IT FEELS

London Cable — The peace terms "forced upon" Austria have revived in Berlin talk about the enslaving policy pursued by "victorious imperialism," says a despatch to the Morning Post. Germany commiserates Austria because she has had peace terms forced upon her similar to those which Germany was compelled to sign. It is pointed out that Germany and German Austria are in the same position. Each is helpless and each has had to accept and subscribe to what the Entente dictated because there was no alternative.

Cook's Cotton Root Compound.

A safe, reliable, regulating medicine. Sold in three doses of strength—No. 1, 2, 3. No. 1, 5¢; No. 2, 10¢; No. 3, 25¢ per box. Sold by all druggists, or sent prepaid on receipt of price. Free pamphlet. Address: THE COOK MEDICINE CO., TORONTO, ONT. (Formerly Windsor.)

PRINCE'S HAND UNDER X RAYS

Winnipeg Despatch — While visiting the Tuxedo Military Hospital this afternoon, His Royal Highness the Prince of Wales, actually became a patient for fifteen minutes. His right hand, which had become badly numbed as a result of the hearty grip of the Canadians in the East when shaking hands with him, was put under the X-rays with the advice of the doctors. The result of the examination was declared satisfactory, and the Prince was assured he would be able to make free use of the member very soon, though they pleasantly warned him against the Western Canadian grip, indicating that he might find it to be even heavier than that he had experienced in the East.

RELIEF AT LAST

I want to help you if you are suffering from bleeding, itching, blind or protruding Piles. I can tell you how, in your own home and without anyone's assistance, you can apply the best of all treatments.

PILES TREATED AT HOME

I promise to send you a FREE trial of the new absorption treatment, and references from your own locality if you will but write and ask. I assure you of immediate relief. Send no money, but tell others of this offer.

MRS. M. SUMMERS, BOX 8, Windsor, Ont.

Music in Prisons.

In a paper read before a convention of music teachers, the musical director of a well-known prison said that the band and orchestra maintained in the institution with which he was connected was as important a part of the prison life as any of the industries which contributed to make the prison self-supporting.

The mayor of an important middle-Western city said not long ago: "Music operates to destroy anarchistic tendencies, to foster, preserve and operate constructive citizenship. It is unnecessary to defend the usefulness of music as a practical agent in life. It has been demonstrated as such. We need the spirit of music now, if ever, in a world of strife, confusion and violence. As an influence in the direction of affection and kindness it has a place."

Countless have been the cures worked by Holloway's Corn Cure. It has a power of its own not found in other preparations.

PAYS TO ADVERTISE.

That Is the Opinion of the Chinese Girls.

Four men carry a square platform or frame. Near the centre is a slender bamboo pole about ten feet long. Attached to the pole by a hidden tether is the swaying form of a young girl. Each float carries two girls. They are gaily dressed. A rhythmic motion is imparted to their bodies by the movements of the carriers. A rope attached to the waist holds the girl fast to the bamboo. The right hand clasps the pole lightly, giving illusion that the girl is thus supported. In the left hand she carries a fan and streamers of bright colored silk. This hand moves in unison with the beats of the drum carried just ahead of the float, 1-2-3, 1-2-3, 1-2-3-4, 1-2-3. It goes, without waver or change. The occasion may be a funeral march or a martial quickstep—the movement continues with incessant monotony. These girls remain thus suspended in the air for hours at a time. They are carried about the city streets after the ceremony of the day is ended, the most admired attraction in the whole display, writes Wm. L. Hall, in Asia magazine. Men wanting wives make bids for them, and parents are more than willing to have their daughters exploited, without charge to them. Any man interested may easily ascertain the name, age, place of abode, and the sum required to secure any girl desired. They are scantily clad, the better to advertise their charms. Their faces are painted, and their

feet are encased in the smallest possible shoes, and these are made to show in the most attractive, seductive manner. Men especially trained are engaged to carry these floats. Competent carriers are in position to impart suggestive movements to the bodies of the girls swinging over their heads.

Laoenic.

There were all gradations of thoroughness in the varying manners which different outfits showed when they turned over their sector to their relief. Some turned over every stick and stone, every fact and every suspicion. The record instance for despatch is told of a French captain who needed only six words and three gestures to turn over his sector to the incoming captain relieving him. The words were: "Nous ici. Boches la. Au revoir."

A Sure Corrective of Flatulency.

When the undigested food lies in the stomach it throws off gases causing pains and oppression in the stomachic region. The belching or eructation of these gases is offensive and the only way to prevent them is to restore the stomach to proper action. Parnelee's Vegetable Pills will do this. Simple directions go with each packet and a course of them taken systematically is certain to effect a cure.

AUSTRIA HAS SIGNED THE PEACE TREATY

Dr. Renner Affixed His Signature at St. Germain This Morning.

A WEAK STATE

Is All That is Left of the Once Great Dual Monarchy.

Paris Cable — The delegates of Roumania and Jugo-Slavia did not sign the Austrian treaty to-day because they are awaiting instructions from their government, says the Havas Agency. The Supreme Council, it adds, has given them until Saturday to make known their definite intentions.

St. Germain, Sept. 10.—(By the Associated Press).—Dr. Karl Renner, head of the Austrian delegation to the Peace Conference, signed the treaty of peace between the Allied and associated powers and the Austrian Republic at 10.15 o'clock this morning.

When all the delegates present had seated themselves at the round table, Dr. Renner was introduced, with the same formality that was observed when the Germans entered the Hall of Mirrors at Versailles on June 28th. Georges Clemenceau, President of the Peace Conference, then rose and opened the session, asking Dr. Renner to affix his signature to the treaty and annexes, and announcing that the delegates would then be called in the order in which they were named in the preamble of the document.

There was no hesitation on the

Oh! Such Pain! dizzy—dragged down? With dull headache, backache — racking with pain here or there — poor woman, she's one of many. On those days each month, when in other circumstances she would go to bed, she must still be at the desk or counter, or struggle through the day as best she may with her housework or her family cares. Usually she who feels those dragging-down or dizzy symptoms, and other pains caused by womanly disease, can be cured by Dr. Pierce's Favorite Prescription. It cures the cause of these pains. Faded, jaded, tired, overworked, weak, nervous, delicate women are helped to strength and health by Dr. Pierce's Favorite Prescription. It makes weak women strong and sick women well. In liquid or tablets.

CHATHAM, ONT.—"Being a nurse I have had occasion to use 'Favorite Prescription' quite a lot. I recommend it to my patients and it has been a wonderful help to many of them. I never knew of a case where it failed. I have a patient who is using it now and is doing fine. I have taken it myself and got the very best results. I consider it the best medicine there is for women who are ailing."—Mrs. Berna Moore, 50 Deane Street.

SHILOH 30 PROS COUGHS

part of Dr. Renner in signing the treaty.

He rose from the seat he occupied on the left of the table after M. Clemenceau's opening address had been translated into German, and immediately walked to the signing table and signed the document.

Dr. Renner bowed and smiled graciously as he approached the table, and bowed and smiled again to the delegates after signing as he turned to go to his seat.

The signing of the treaty by the representatives of the other powers was finished at 11.15 o'clock. M. Clemenceau then made a brief announcement that the session was closed.

Neither Premier Lloyd George, of Great Britain, nor Col. E. M. House, of the United States delegation, was present. The delegation was made up of Mr. Balfour, Viscount Milner, George Nicoll Barnes, and General Seeley.

Dr. Renner will leave to-night for Vienna with the treaty, and it is expected that the signing of the pact will bolster up the wavering government and make for a resumption of normal commercial and economic conditions.

The Australian Republic, representatives of which signed the treaty to-day, is very different from the proud Austro-Hungarian Empire of 1914. The former provinces of Bohemia and Moravia and a part of the Duchy of Teschen now form the Republic of Czechoslovakia. The remainder of Teschen and most of Galicia have been incorporated into Poland. The new Ukrainian Republic takes certain sections in eastern Galicia, and the former Austrian crown land of Bukovina. Hungary has separated from Austria along the historic boundary between those portions of the former empire, but has herself lost parts of the province of Transylvania, which has been awarded to Roumania.

On the south the provinces of Carinthia, Dalmatia, Carniola, Croatia and Slovenia, Bosnia and Herzegovina, as well as parts of Styria, are formed, in conjunction with Serbia, into the new Jugo-Slav kingdom. Parts of Tyrol are taken over by Italy, the boundaries of which are also extended so as to include most of the Istrian peninsula and a strip along the western frontier of the province of Carinthia.

All, therefore, that remains of the former empire, is what is known as German-Austria, including upper and lower Austria, and parts of Styria and of Tyrol.

Since the close of hostilities there has been a movement afoot by which Austria would be annexed by Germany. By one of the most important clauses of the treaty signed to-day, this is forbidden.

The treaty does not stipulate an exact sum to be paid in indemnities, but this amount will be fixed by the

Wood's Phosphodin.

The Great English Remedy. Tones and invigorates the whole nervous system, makes new Blood in old Veins. Cures Nervous Debility, Mental and Brains Worms, Dropsical Swellings, Loss of Energy, Fluctuation of the Heart, Failing Memory. Price \$1 per box, six for \$5. One will please, six will cure. Sold by all druggists or mailed in plain package on receipt of price. New pamphlet mailed free. THE WOOD MEDICINE CO., TORONTO, ONT. (Formerly Windsor.)

Reparations Commission on or before May 1, 1921, the commission also being empowered to determine the details of the payments, which will extend over a period of thirty years. This sum must be paid by the Austrian Republic, and is not to be apportioned among the component parts of the country which have been declared independent.

In addition to paying indemnities, Austria must also replace ton for ton, all ships lost by the Allies through the activities of the Austrian navy during the war, and physically restore invaded areas. She is also to deliver up to Allied countries works of art and objects of historic value which were carried away by the Austrians during the conflict.

Austria's army is reduced to thirty thousand men on a purely voluntary basis, and all her military establishments are cut down in a proportionate manner. The entire Austrian naval fleet is to be handed over to the Allies, all warships under construction being broken up, and the salvage is not to be used except for industrial purposes.

The economic clauses and those relative to freedom of transit are similar to those of the German pact.

Questions relative to the disposition of the city of Fiume are not settled in the Austrian treaty, but Austria renounces in favor of the Allied and associated powers all her rights and titles over territories formerly belonging to her which, though outside the new frontiers of Austria, have not at present been assigned to any state. She undertakes to accept any settlement made in regard to those territories.

Will Grow Hotter.

According to an English scientist's theory, if the radium in the interior of the earth equals in quantity that grow hotter in time instead of colder, in the surface rocks, the world will

BLACK TREASON TO RUSS ALLIES

London Cable — (Reuter.) — Colonel John Ward, Labor member of the House of Commons, who has just returned from Russia, in an interview said that to desert the Russians who had rallied to our standard will make our name stink in the nostrils of every non-Bolshevik Russian. "We went to Russia to prevent the Germans from transferring men to the western front," he said. "Are we now to say to those who rallied round us, 'You have served our turn, we are going, we wish you luck?'"

That, said Col. Ward, is unthinkable. It would be black treachery to leave them to face the enemies they have made for our sake without anything more substantial than our good will.

A Ready Weapon Against Pain.

There is nothing equal to Dr. Thomas' Electric Oil when well rubbed in. It penetrates the tissues and pain disappears before it. There is no known preparation that will reach the spot quicker than this magic Oil. In consequence it ranks first among liniments now offered to the public and is accorded first place among all its competitors.

Tower Wrecked by Bell.

Chunks of coping and fragments of roofing, which recently fell from the city hall tower of Los Angeles, caused local officials to investigate. The tower was found to be apparently ready to collapse at any moment, and was immediately condemned. The engineers who conducted the investigation blame the motion of a huge fire bell, which once hung in the tower, for the weakening of the structure. The building was erected 31 years ago.

The task of razing the tower is now under way. The part to be demolished is 76 feet high, composed of brick and cement with a facing of red sandstone, and weighs in the neighborhood of 750 tons. The walls are three feet thick, except in the upper sections, where they attain a thickness of fifty-four inches to provide for ornamental work. The door of the main entrance has been jammed by the enormous pressure from above, which squeezed the casing out of position. — Illustrated World.

It is usually safe to say that when a child is pale, sickly, peevish and restless, the cause is worms. These parasites range the stomach and intestines, causing serious disorders of the digestion and preventing the infant from deriving sustenance from food. Miller's Worm Powders, by destroying the worms, corrects these faults of the digestion and serves to restore the organs to healthy action.

KILLED WOMAN WHO LOVED HIM

Kalamazoo Man Admits Cold-Blooded Murder.

Married Woman Left Home for Him.

Kalamazoo, Mich., Report.—After being kept in jail here in solitary confinement for more than six weeks, George Hocknoll, 36, a railroad man, broke down to-day and confessed to the murder of Mrs. Beattie Voeth, 34, a handsome Detroit woman, who, he declared, had fallen in love with him so desperately that she abandoned her home, husband and two young sons in order to be near Hocknoll in Kalamazoo.

Hocknoll told the prosecuting attorney that he had shot Mrs. Voeth twice in the back but the shots did not kill her at once, and as she lay bleeding on the Michigan Central tracks she whispered to him: "George, I am dying. Kiss me. I alone am to blame."

He says he went away to get water for her, but that before he returned a passing train had cut the woman's body to pieces.

The whole story was related with little show of feeling. Hocknoll is married and lives here. He will probably be sentenced to-morrow.

Asthma is Torture. No one who hasn't gasped for breath in the power of asthma knows what such suffering is. Thousands do know, however, from experience how immeasurable is the relief provided by that marvellous preparation, Dr. J. D. Kellogg's Asthma Remedy. For years it has been relieving and curing the most severe cases. If you are a sufferer do not delay a day in securing this remedy from your druggist.

Stone Laid for Each Tribe.

The foundation stones of the Hebrew University at Jerusalem, recently laid in the presence of General Allenby and representatives of the French and Italian detachments, are 42 in number, one for each of the 12 tribes of Israel.

THURSDAY, SEPT. 18, 1919

LOCAL MENTION

Mr. Allan Munro left on Wednesday for his home in Cobalt.

Chas. H. Stock, of Parry Sound, is visiting friends in the village.

Miss Orr, of Hamilton, visited over Sunday with Miss Margaret Flatt.

Miss Hawkins, of Hamilton spent the week end with Miss A. Raybould.

Mrs. Baird spent the week end with friends in Greensville and Goderich.

Mr. Austin Tudor has returned to Toronto after a weeks visit at his home here.

Mrs. H. Thompson and daughter of Hamilton are the guests of Miss Jean Drummond.

Mr. Mervyn Kitching has secured the agency for the Studebaker Automobile for this district.

J. W. Griffin is making alterations to his chopper and expects to be running again in a few days.

Mr. and Mrs. J. W. Griffin and family spent Sunday at Greensville with Mr. and Mrs. P. Binkley.

Mr. A. Donaldson has opened a Gramophone and Record Exchange at 329 King St. E., Hamilton.

Mr. John Kirk, Jr. left on Thursday last for Kitchener where he will take a course in St. Jerome college.

Monday, October 13th, has been proclaimed by the Government as Thanksgiving Day for the Dominion.

Mrs. George Clarke, of Cleveland, Ohio, spent the week end with Mrs. Robert Skelly at the later's parents here.

Mr. and Mrs. H. B. Edwards, and Mr. and Mrs. Russel Campbell were visitors at Mrs. John Reids on Sunday last.

A. Young and S. James have joined the Canadian Regular Army, and are at present stationed at Stanley Barracks.

Miss J. Robertson, of Hamilton, spent the week end in the village the guest of Dr. J. O. and Mrs. McGregor at "Clunes".

Mr. Cecil Medlar of the Royal Bank staff, Montreal, and wife, have been spending their vacation with relatives here.

Mr. Wareham S. Carson has returned to Ottawa after spending his vacation with his parents, Mr. and Mrs. P. Carson.

Mr. and Mrs. A. Truesdale entertained the Grace Church Choir last Thursday evening in honor of an ex-member, Mrs. A. Tassie.

Mrs. Pierce Rosewarne of Toronto, and Mrs. J. J. Peters of Gloversville N. Y., were the guests of Mr. and Mrs. Isaac Baker this week.

Mr. and Mrs. Russell Place of Calgary are visiting relatives here. Their many friends were glad to extend a hearty welcome to them.

Mr. and Mrs. J. Carlisle and son, and Miss A. Robb, of Toronto, were visitors in the village on Sunday last the guests of W. J. and Mrs. Spence.

Mrs. Geo. Greene, who has been spending the summer here with her son and family, returned to her home in Davenport, Iowa, on Monday last.

The Rev. Dr. Rennison, Rector of the Church of Ascension, Hamilton, will preach in Grace Church Sunday afternoon, Sept. 28th, on the "Forward Movement".

Mr. Henry Slater has purchased from R. C. Griffin a piece of land having a 40 foot frontage and adjoining the new school site. We understand that it is intention of Mr. Slater to erect thereon a thoroughly up to date residence.

School Notices

It has been decided to form a beginners' class twice a year, viz. after Easter and again after summer vacation. Parents who wish to start their children before next Easter will confer a favor on the teaching staff by sending them on Monday morning next.

A. E. Smith, Prin.

The East and West Flamboro and Dundas Sunday School Association will hold their annual convention at Knox church here on Thursday, Sept. 25th, afternoon and evening.

Owing to the rink being otherwise occupied the King's Daughters will hold their annual concert in the Drill hall on Fair night, Oct. 7th. The proceeds will be for the Memorial hall.

The members of the Methodist Sunday School are requested to meet in the school room on Saturday at 8 p. m. to practice the Rally Day music under the direction of Miss Sinclair who has kindly consented to assist. Old and young are invited.

A meeting of the ladies of the village interested in the coming Sunday School Convention to be held here September 25th, will meet in Knox church, Friday evening of this week to arrange for refreshments, etc. It is important that a good attendance is present.

Mr. and Mrs. J. F. Vance entertained a number of friends on Friday evening last in honor of Mr. and Mrs. Stuart Gallagher and Mrs. A. Tassie. Mr. and Mrs. Gallagher and family leave shortly for Woodstock, where Mr. Gallagher has secured a lucrative position.

Mrs. A. Tassie and family of Winnipeg, who had been visiting at her parents home here for the past two weeks, returned to her home on Saturday last. She was accompanied by Miss Eager who will visit in the West for the next two months. They made the trip by boat from Sarnia to Port Arthur, thence by rail to Winnipeg.

Mr. E. Blagden's new house on Main street is nearing completion. The brick work is completed and the carpenters are now putting the finishing touches on. The work reflects great credit on the contractors, when completed Mr. Blagden will have one of the handsomest residential properties in our village.

At the regular meeting of the Library Board held last Tuesday evening a committee was appointed for the selection and purchase of new books for the Library. Any suggestions from the public will be greatly appreciated by the committee. It is the intention of the Board to have the Library open this coming Saturday evening.

The work on the new Public school is progressing very satisfactory, the foundations are now completed and brick laying commenced on Monday last. Contractor H. Carson has associated with him on the work such renowned brick-layers as Messrs. Marcey and Rockett, pastmasters at the art, which is sufficient evidence that the work will be well done.

Mr. and Mrs. C. P. McGregor entertained the Willing Workers, Beavers and Bible classes of the Methodist church on Tuesday evening in honor of a number of members who leave shortly for Toronto and Guelph to resume their college studies. A very enjoyable and profitable evening was spent, the roasting of weiners and marshmallows being an interesting part of the program.

Nelson

The Harvest Home Services at St. John's church was largely attended at both morning and evening services.

A reception for returned soldiers was held in the Township hall last Monday evening, about 25 of our soldier boys was welcomed home. Peaches and cream was served followed by a short musical program. The Rev. Mr. Facey acted as chairman.

The School Fair held here on the 16th was very largely attended and the exhibits good, the Zimmerman school holding most of the prizes.

The Tansley bridge is nearing completion.

LOST BOUNDARY RECORDS.

**Strange Story of How They Were
Recovered.**

In 1818, Great Britain and the United States agreed that the 49th parallel of latitude should be the boundary between Canada and the United States, from Lake of the Woods to the "Stony Mountains," as the Rockies were then called. West of that to the Pacific, the country was "free and open" to both parties for a period of ten years.

But in ten years the boundary was not settled. In 1824 Russia surrendered all rights to the territory south of 54 degrees, 40 minutes. Time passed, and the country was still "free and open," but an influx of American settlers began to arouse jealousy. In 1844 the political cry of the Democrats in the United States was "Fifty-four forty or fight!" which meant that the United States would have the Pacific coast up to the Russian territory or fight Britain for it. But in 1846 a treaty was made, continuing the 49th parallel "to the middle of the channel which separates the continent from Vancouver's Island."

The commission on the boundary made a map survey, but only got 96 miles of lines cut and erected stone pyramids at frequent intervals in that marked distance.

A few years later, settlers found three lines cut and two sets of pyramids. The boundary was lost. Who could say which was United States and which Canadian soil?

The Canadian settlers applied to the Provincial Government of Victoria, and the query was passed on to the Dominion Government. The simple thing would be to write to London, Eng., and obtain the required information re the surveys of 1857-1861.

In his recent pamphlet on the subject, Mr. Otto Klotz, Chief Astronomer of the Dominion, says:

"Now the extraordinary thing happened. This final report with the necessary data of the survey was not to be found in London. Time and again search was made by different persons for the missing document, but all to no avail. To add to the remarkable situation, the duplicate final report was not to be found in any of the Government archives in Washington.

"Does history record any similar circumstance? Two governments are engaged for years on an expensive international work, a boundary survey; the respective commissioners sign joint final reports and transmit them to their respective Governments, and the reports are nowhere to be found — apparently vanished from the face of the earth!"

"Such was the situation in 1898, when the writer (Mr. Klotz) was sent by the Dominion Government to London and Petrograd on a special mission, in which was included the obtaining of information regarding the records and final report of the above survey. All the offices in London were visited in which there was the faintest likelihood that the records might be stored, but without result, and no one seemed to be able to give any assistance.

"It was the writer's first visit to Europe, and naturally a visit was paid to the Royal Observatory at Greenwich, as he was astronomer for the Dominion Government.

"By chance, his eye caught the initials, B.N.A. on some boxes on top of the library shelves. Like a flash those letters interpreted themselves as standing for 'British North America.' At his request, the boxes were taken down, the dust of years removed, and in them lay the long-lost records of the international survey of the 49th parallel."

"Bars" To Be Awarded.

Canadian soldiers will be awarded bars to the general service medal for the following engagements:

1915—Second battle of Ypres, April and May; St. Julien and Langemarck.

1916—Mount St. Eloi, April 3 to 19; Sanctuary Wood, and Hill 2, June 2 and 3; the battle of the Somme, October and November.

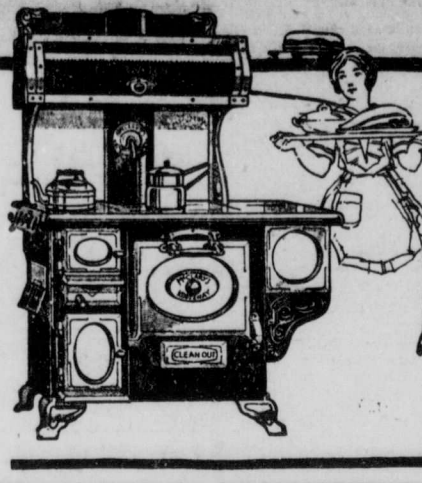

1917—Vimy Ridge, April 9 to 13; battle of Arleux and Fresnoy, April 28-29, and May 3; Hill 70, August 15; and Passchendaele, October 25 to November 10.

1918—Battle of Amiens, August 12; capture of Monchy-le-Preux, August 25 to 28; Boiry and Cherisy, August 30 to September 2; breaking of Queant-Drocourt Line, September 3 and 4; Crossing of Canal Du Nord and Capture of Boulon Wood, September 27 to 29; capture of Cambrai, October 19; capture of Deain, October 20; capture of Valenciennes, October 25 to November 2; and the capture of Mons, November 7 to 11.

It is possible that bars will be given also for the battles of Festubert, Givenchy and Hooge.

A Difficult Question.

One day I was getting dinner in my tent and the usual company of natives watching the performance, when there came along a couple of men who had just landed and who, evidently, had never seen an Eskimo before. I overheard their conversation, relates Rev. S. Hall Young in his book, "Adventures in Alaska." "Say, Jim," said one, "just look there. Did you ever see the like?" (A pause.) "Say, do you think them things has souls?" "We-e-ll," drawled Jim, "I reckon they must have. They're human bein's. But I'll tell you this: If they do, they've all got to go to heaven, sure; for the devil'd never have them around."

Alcohol is Poison
Doctors Say It Is a Menace in Any and All Forms

FIVE ounces of alcohol will kill a full-grown healthy man within ten hours. Taken in smaller but repeated doses alcohol lets him live longer but gets him in the end. All alcoholic beverages are poison, slow or swift.

Medical science has established that alcohol is a poison and a narcotic chemically related to ether and chloroform, and not a stimulant. A man was once brought out of ether who had taken eight ounces, and a man was once brought out of chloroform who had taken 22½ ounces, but no man ever revived who swallowed five ounces of alcohol at a single dose. The unconsciousness or coma produced by alcohol if not broken within ten or twelve hours is followed by practically certain death.

Alcohol as medicine has been expelled from the American Pharmacopoeia by the American Medical Association.

**2.51% Alcohol in Beer
Makes it Poison**

THE beer of the ballot contains 2.51% alcohol by weight—over twice as strong as the beer of the Ontario Temperance Act (2.50 Proof Spirits). The Beer of the Ballot is intoxicating. Three glasses of the Beer of the Ballot contains as much alcohol as a glass of whiskey.

When you are asked are you in favor of beer containing 2.51% alcohol by weight—in shops, bars, or anywhere else, vote

"No!"—Four Times—"No!"

Save yourself, save your family, save your country for the destiny God intended unhandicapped by "booze."

Be careful—mark your ballot after each question with an X under the column headed "No," or your vote will be lost to Temperance.

APPLES

We will receive No. 1, No. 2 and cull
apples this year, and will pay the highest
market price.

Every apple grown in this district will be
needed to keep our factory running.

Every car sold to outside buyers means
the factory will shut down two days sooner,
less money distributed in Waterdown, and
less employment for the workers.

POWER OF PREJUDICE.

The Reason Why People "Don't
Like" and "Can't Eat."

To a far greater extent than we
admit, or possibly are aware of, man
is governed by his prejudices. They
cost him more than he knows, for a
prejudice is an expensive proposition.
In no other respect is this weakness
so apparent as in the matter of food.
During the reign of the food admin-
istration many people were persuad-
ed or beguiled into eating things
they had never eaten before and
thought they "didn't like." "I'll try
anything—once!" was regarded as a
liberal-minded concession to the un-
familiar. Yet our likings are almost
universally a matter of habit estab-
lished by repetition. Few of us have
taken kindly to caviare, avocado
pears, or even olives, on first
acquaintance.

When the use of whale meat was
first urged upon the public, people
laughed and quoted:

He baited his hook with tiger's tails,
And sat on a rock and fished for
whales.

Whale meat is purchasable in
many parts of Canada, but where is
the steward or chef brave enough to
place it on a hotel menu? As a mat-
ter of fact, there is nothing in the
slightest degree objectionable to eye,
nose or palate in whale steak, as
those unprejudiced may quickly
learn. It resembles corned beef—
possibly a little less so, and broiled
and served with a sauce, either
drawn butter or a lemon sauce, is
tasty enough for a second helping,
once we have overcome our dread of
the untried. That this meat will
eventually be recognized as a food
adjunct is indicated by two large
canneries doing a good business on
the Pacific Coast and the concessions
granted to the syndicate supplying
them.

The flesh of the shark is said to
resemble that of the sturgeon—the
fish that "goes to the Caesar's dish,"
but its cannibalistic reputation,
firmly fixed in the popular mind, is
against it. Man's dread of the gas-
tronomically untried is only equalled
by his curiosity, which after all gets
the better of his fears. Truly, he
was a brave man who first swallow-
ed a raw oyster.

Prejudice plays a large part in our
food purchases. Take the case of
Butter versus Oleomargarine. Ex-
perts in the former have been known
to fail in ability to distinguish the
two, yet we are willing to pay 20
per cent. more for butter than for
the substitute. The prejudice against
goods from storage helps bolster the
cost of living. Were it not for stor-
age facilities butter and eggs to-day
would be luxuries for the very rich
only. The public was recently reli-
ably informed that storage eggs had
proved fresher than fresh eggs. The
rabbit would furnish food as well as
fur if our "don't like" did not stand
in the way. As a matter of fact, our
"can't eat" and "don't like" are
mainly psychological states fixed in
habit and prejudice.

Bill's Pension.

"Well, Bill, what are you going to
do when you gets demobilized?"
"Live on me pension, of course."
"You don't think yer goin' to get
a pension from the army, do yer?"
"No, not army—old-age pension, I
mean."

Concerning Your Fall Shoes

If you would secure service and satisfaction from your
shoes this fall it is more than important that you should go
to a reputable dealer in whom you have confidence, and
see that the makers trade-mark is on the shoes you buy.
The chances are that you do not feel any great interest in
the leather market or in the conditions which govern the
manufacture and distribution of shoes. But you are inter-
ested, vitally interested, in securing for yourself and family
reliable footwear at fair prices. We have a fine stock of all
kinds of Men's, Women's Misses, Boy's and Children's
in good styles, and many were bought before the prices
advanced to the present pices. We would be glad to have
you call and look over our stock.
