HON. J. H. LAMONT TO LEAD THE HOUSE
Session Opens on February 21st—Premier absent for First Weeks

The Saskatchewan legislature has been called to meet on Tuesday Feb. 21st.

Owing to the illness of Premier Scott the House has been delayed two months and although improving rapidly he will not be present at the opening, his physician deciding that it is necessary for him to go south. He expects to be absent during the first three weeks of the session. Honorable J. H. Lamont will lead the House during that time. Besides this being the Attorney General's right he has a better faculty for getting along with the opposition than any other member of the Government. The government anticipates that there will be no contentious legislation dealt with during the Premier's absence.

SEAT STILL VACANT

Notwithstanding the fact that the session has been postponed two months and that for some weeks the government has had a candidate in the field for the Prince Albert district bye-election, the writs have not been issued and there is no word of the election. The delay seems to be caused by the awakening of the government to the fact that they cannot carry the seat and they will therefore disfranchise the people for a portion of another session, at least. It is to be hoped that this opinion, forced as it is by the attitude of the government, is wrong, but here seems to be no other reason for the delay.

COAL TRAIN FORGING THROUGH SNOWBANKS
City sends Fifty Men North with Relief Train Carrying 385 Tons of Coal

A double header relief train consisting of eleven cars of coal and carrying fifty men beside the crews left here last evening for the north. The men were hired by the city during the afternoon and after getting a full stock of provisions shovels and other equipment steamed out on one of the most difficult tasks that ever confronted a relief party. The situation on the branch had become so critical that a Herculean effort was necessary to reach the people who during the last few days were nearly driven to desperation for want of fuel. The trip however is not free from many difficult phases and the train crews will encounter much hardship performing arduous duty. It will be impossible to buck the drifts going north but a plow with Supt. Abbott in charge is coming from the Saskatoon to meet them. That train left on Monday at five o'clock and after working twenty-four hours only made thirty miles. They were at Hanley when the relief train pulled out from here. What trouble the plow encountered during that thirty miles might easily be imagined when the time it took to do the work is considered. The railway crews thus working at such a disadvantage have a very trying time and those who have seen weather-beaten sailors after a hard voyage can picture the train crews at such a time as this. These men are brave and money would not prompt them to take such chances, but they know how desperate the situation is for those people along the line who are out of fuel and it is this cry for help that urges them on.

At Lamsden the Regina gang was supplemented by a volunteer brigade from the Valley town and if more men are needed this city has offered to send out another fifty.

JAMES THANKFUL

E. A. James Manager of the Canadian Northern telephoned Mayor Smith yesterday thanking him for the generous assistance of Regina. He assured his Worship that when once the blockade is raised they will be able to keep the line open for the balance of the winter.

COAL \$50.00 A TON

Geo. Stacey, traveller for the Independent Lumber Co's, was seen by the West at the Clayton yesterday after his trip down the Soo Line. He stated that there was not an absolute blockade there nor has there been such a scarcity of fuel as in many other parts of the country. The snow is so deep along the Soo however that travel is most difficult and he has known cases where coal has cost fifty dollars a ton laid down on farms at a great distance south of Milestone. He knew one man in that town to get twenty-five dollars for drawing a ton of coal eighteen miles. The driver had two teams on the load but had to abandon the trip when within two miles of his destination, his horses having played out. Another man was on a trip of twenty-five miles and he lost one of his horses and the other is now badly used up and is quite helpless. Such a snow fall as there is on the Soo Line has never been known before in the west.

NO LOSS TO SCHOOLS

Mr. Calder has stated that the schools being shut down owing to the fuel famine will not suffer any loss of government grant.

LEAVE OF ABSENCE

The Minister of Agriculture has received word from Ottawa advising him that homesteaders leaving their farms owing to lack of fuel will not lose the time. This absence will be regarded by the government as actual residence. This is of course an official hint that settlers thus situated need not fear cancellation. This is a wise step on the part of the government, for men cannot be expected to freeze at their post when their only duty is putting in homesteaders time of residence. Sir Wilfrid has given permission for settlers to cut timber on Indian Reserves and government land.

BARGAINS IN MEN'S SUITS

We find our Clothing stock still too large and that we must have more room for Spring stuff now commencing to arrive. To make a clearance we offer you some very special bargains.

We have also changed the name of the firm from the Western Hardware Co., Limited, to

Peart Bros. Hardware Company, Limited

We will be pleased to receive a share of the patronage which has been given both firms in the past.

DISCUSSING MAGYAR Senator Says Hungarian Received Political Treatment

Ottawa, Jan. 31.—In the senate today Senator Peckay asked why the government had committed the sentence of the Saskatchewan man, Magyar, to life imprisonment. Hon. R. W. Scott replied that the facts which influenced the minister of justice to recommend clemency were never made public.

BANQUET TO STOCKMEN City Will Entertain Participants in the Fat Stock Show

At the time of the fat stock show the Regina city council has decided to tender to the visiting stockmen a banquet on the evening of March 21st. Last year's banquet was very pleasantly spent and profitably as well. It does the business and professional men of the city good to rub shoulders with the farmers and get acquainted with the men whose industry and labors are directly contributing to his business and the progress of the community.

The publisher of the best farmers' paper in the Maritime provinces is writing to us this week. "I would say that I do not know of a medicine that has stood the test of time like Minard's Liniment. It has been an unfailing remedy in our household ever since I can remember, and has outlived dozens of would-be competitors and imitators."

GAZETTE APPOINTMENTS

- Justices of the Peace—W. G. Bird, Star City. H. J. Edgington, Star City. D. C. McPhee, Carlyle. Notaries Public—F. G. Millar, Moose Jaw. J. McMillan, Prince Albert. Commissioner for Oaths—L. L. Kramer, Regina. S. Chipperfield, Abernethy. W. H. Inkster, Markinch. H. H. Gilchrist, Maple Creek. T. W. J. Mather, Saskatoon. G. Marshall, Fleming. J. W. Harroby, Manitoba. Issuers of Marriage Licenses—R. E. Plaxton, Moose Jaw. T. W. Bradley, Mortlach. Coroners—D. R. Davies, Esterhazy. T. F. Donnelly, Abernethy. P. W. Pennefather, Prince Albert. License Commissioners, district No. 4.—Hugh Armour, Regina. Edward Plunkett, Moose Jaw. John R. Bunn of Milestone. Official auditor—Lawrence Ellis of Cupar. Deputy commissioner of agriculture—A. P. Ketchen, Regina. Resignations and retirements—J. R. C. Honeyman, deputy commissioner of agriculture. J. A. McLachlan, of Cupar, official auditor. William H. Evans of Eoval Lake, official auditor. The erection of seven new school districts is gazetted. Among the new companies of which notices of incorporation is given are the Regina Hotel Co., Ltd., and Eaton & Springer Co., Ltd., both with headquarters at Regina. The H. T. Baker Co., of Lumsden and the Melfort Printing and Publishing Co.

Duncan C. Ross, a son of the Hon. G. W. Ross, has been nominated by the Liberals of West Middlesex to contest the seat formerly held by his father in the provincial house.

CONCERNING COIN

The Spaniards had an iron coinage. English sovereigns were first minted in 1489. In 1508 the first English shilling was minted. Many Roman tin coins are still in existence. Absolutely pure gold is twenty-four carats fine. The first English gold coins were minted in 1267. From 1828 to 1845 platinum coins were minted in Russia and in 1829 the first large copper coins were minted in England. The coins of Great Britain contain one-twelfth alloy. The Lydians were the first to coin money, about 1600 B.C. The first colonial coinage was minted in Massachusetts in 1651. The first gold coinage was invented by Bruchner in 1558. The United States three cent silver piece was first coined in 1851. Julius Caesar was the first man to engrave his image on a coin. Homer mentions brass money as in use 1184 B.C. among the Greeks. The American cents of 1787 bore the motto "Mind your Business."

TO ENLARGE KNOX CHURCH

Report of Management—Finances and Accommodation At the annual meeting of Knox church members on Thursday evening last the report of the board of management presented by Mr. Mayor McEwen showed that owing to the immense growth of the congregation it is become necessary to suggest the enlargement of the new church. The financial statement is of a very satisfactory nature.

MONKEY LANGUAGE

Miss Ida Veronica Simonton, who, when in Pittsburg, lives with her mother and her brother, Dr. Simonton, in Fortieth street, has reached her destination in the jungles of Africa and has begun the study of the languages of monkeys. Her mother has received a letter from her, in which the writer says she is in her bamboo hut, alone in the jungle with nothing about her but wild animals.

A NEW RACE

News is to hand of the discovery in the far north of a strange people who have never before been white men. The management of the Alaska-Yukon-Pacific exposition will secure the interest of the natives for exhibition at the international fair

which is to be held at Seattle in the summer of 1909. The report of the discovery of the new brand of savages was brought from the north by an officer of the revenue cutter "Thetis." The officer has the information that he had found a Eskimo whaler, who found the people. According to the captain the natives were found by him in the neighborhood of Prince Albert Island. Prince Albert land is in the arctic ocean, north west of Hudson Bay. The whaler accompanied by an Eskimo, started inland last winter on a hunting trip. They journeyed 250 miles in a northeasterly direction, before coming on any people, although they had found frequent indications that human beings resided thereabouts.

MINARD'S LINIMENT CURES COLDS, ETC.

FORTY-SIX STORIES

Here are some of the dimensions of the proposed tower annex to the Metropolitan Life Building, at Madison street and Twenty-fourth avenue, New York, which is to be the tallest building in the world. Height above sidewalk, 658 feet. Total height from foundation, 690 feet. Number of stories above sidewalk, 46. Number of stories below sidewalk, two. Grand total floor area, 1,025,683 square feet (about 25 acres.) When the plans which were filed with building inspector Murphy, are carried out the great marble building of the Metropolitan Life Insurance Company, which is complete with a tower which will make it the tallest structure on earth. The new tower is to occupy the site of Dr. Parkhurst's old church on Madison square and will rise 658 feet above the sidewalk. The tower will be five stories higher than the new Singer building, which is to be built soon. From the top of the tower a cable will be run to the top of the building department by the architects, Napoleon I. Brun & Sons, it is evident that the new structure is to be in many ways the most remarkable of modern buildings.

REMEMBERS WATERLOO

The Leader recently published the following news from a Scotch exchange, but omitted the last sentence which will be of interest to the temperance alliance. "Mr. James Griev, Whitefield, Dumfriesshire, celebrated his 107th birthday on Tuesday, Jan. 25th. He is a native of Invernesshire, and he claims to be the oldest living Scotsman. He has worked all his days as a shepherd, and so recently as four weeks ago took his last engagement which was in Dumfriesshire. Although now retired he occasionally assists at sheep herding, hawking and general work about Collessan farm, where he resides. His wife died seventeen years ago after seventy years of married life. They had a family of ten, of whom three survive. Besides enjoying good health, Mr. Griev's mental faculties are remarkably keen, and he recalls the receipt of the news of the battle of Waterloo, the introduction of the railway system, the steamboat, the telegraph, the telephone and other inventions of the early Victorian era. He has never been a teetotaler, and is a moderate smoker."

Case of Real Suffering in Eagle Lake Country—Police Report

The only known case of actual suffering through want of fuel and food is unfortunately a very bad one but even this isolated case is due to lack of discretion on the part of an immigrant family, that went out to the homestead without any preparation for winter weather. The R.N. W.M.P. have kept up a patrol of the country to ascertain the truth of stories of suffering, and the following is the report of one trip, and includes the case referred to: Battleford, Jan. 8 '07. The Officer Commanding, R.N.W.M. Police, Battleford. Sir,—

The text below the drawing describes the patent and mentions the Scientific American.

aged 2 and Andrew aged four months I also found they had no clothing, save what they stood in, and the clothing they had was of the lightest material and not fit for winter wear. When we arrived they were in a bad plight and Mr. Tait informed me that he was very largely occupied by strangers, and that our own people are not attending as they should. We believe the cause of this is because no one is sure of obtaining a seat. We have found it impossible to hold seats for our Sunday services. No one is sure of securing a seat unless they come from a quarter to half an hour before the service begins. Your board have considered this to some extent and have not felt justified without definite instructions from the congregation to incur any expense, with a view to securing plans and estimates as to the cost of enlarging the present building. We are, however, informed by competent authority that the present structure can be conveniently enlarged at a comparatively small cost and we would therefore recommend that a committee of five be appointed by this meeting to consider the whole question as to the best and most economical way of enlarging the present building. We are, however, informed by competent authority that the present structure can be conveniently enlarged at a comparatively small cost and we would therefore recommend that a committee of five be appointed by this meeting to consider the whole question as to the best and most economical way of enlarging the present building.

BEFORE THE LEGISLATURE

Bonnar Tells Committee That Farmers' Company Was Boycotted Before the agricultural committee of the Manitoba legislature last week Frank Fowler, secretary of the Winnipeg Grain exchange said that Mr. Partridge was a diabolical citizen yet he was a member of the grain exchange. Mr. Bonnar said that he did not appear for the Grain Growers' Grain company, but thought he should defend the charges made. Mr. Bonnar stated that the objects of the grain exchange, in admitting this company was that the grain exchange could discipline the company, fearing a combination of farmers in the interests of the producers. The exchange had got all the literature the company had sent out, and knew their methods of doing business. The farmers' company was put out of existence by a boycott. The company was admitted to the exchange so that the exchange would be enabled to crucify this farmers' company. The reason for expulsion was because the company divided the profits, which it was claimed was unlawful. What right had this august body to say that this was so? This was a matter for the courts. He had heard, he said since the famous police court case that the boycott had been removed because they were afraid that the law would put them in an awkward position.

MINARD'S LINIMENT Co., Ltd.

Sirs,—I have used your MINARD'S LINIMENT for the past 25 years, and while I have occasionally used other liniments, I can safely say that I have never used anything equal to yours. It never fails. I rubbed between the hands and to cure cold in the head in twenty-four hours. It is also the best for bruises and sprains. Yours truly, J. O. LESLIE

WHO'S WHO

The joint letter by Hon. W. R. Motherwell and John Millar published in our last issue opens up a subject that the grain growers of this district are vitally interested in—that of ascertaining who the friends of the farmers are?

Mr. Motherwell has been associated with the grain growers' association, from its inception, but looking back over his career, can the farmer say that he is their tried friend?

Mr. Motherwell was patronising with his fellow farmers till he reached the chair of Minister of Agriculture. He suddenly changed, however, as was very noticeable when he presided for the last time over a meeting of that organisation. He was domineering and dictatorial, and as one of the farmers remarked, "felt his oats."

The Grain Growers' associations some time ago petitioned the Dominion government for a Royal Commission to enquire into the operation of the grain trade, and when the request was granted Mr. Motherwell succeeded in getting Mr. Millar, secretary of the Saskatchewan Grain Growers' association, appointed a member of the board and chairman of that body.

The schedule of sittings of the grain commission was announced but no date was set for Winnipeg where it was extremely necessary to get the executive operators of the grain trade before the commission early in the game. Did Mr. Millar object to the commission sitting at Winnipeg when asked by leading members of the Grain Growers' Association to announce an early date for that city? It is said that Mr. Millar raised strenuous objections, and when it was suggested that counsel be retained for the farmers, Mr. Millar refused to consider the proposal, using the term that this would "trench on the dignity of the commission."

The demand however for the procedure that was adopted was persistent and counsel was allowed on both sides, and with what result the grain growers of the country know from the published reports of the police court proceedings.

Three men have now been sent up for trial to a higher court who would be "Scott free" today had the contention of Mr. Millar and his advisers obtained, or had, as he now suggests in his joint letter, proceedings been suspended till the commission had reported to the government.

Had the prosecution been delayed the evidence could not have been brought out. As it was, certain witnesses could not be located and if given plenty of time to lay plans what chance would there have been for reaching the stage of conviction thus obtained? It was not the counsel of Mr. Millar or Mr. Motherwell that resulted in this satisfactory procedure, and if Mr. Partridge and the presidents of the Manitoba and

Saskatchewan Grain Growers' associations, assisted by other executive members had not got busy, the startling revelations of the Winnipeg sittings would never have reached the public ear.

Not only would the prosecution of the grain men not have proceeded if Mr. Millar had his way, but as it was, that would not have been a case made out had not a private prosecutor in the person of the president of the Manitoba association not taken the initiative, and as Mr. Millar admits, against his wishes.

Then in this connection and for the progress thus made, who are the friends of the farmers?

The president of the Saskatchewan executive assisted by Mr. Partridge and other members solicited the support of the sub-associations in this province and eminent counsel was retained. This action was endorsed by the central executive with but one exception. Then what right has Mr. Motherwell, honorary president, to rush into print to attack the president and the executive? What right has Mr. Millar to butt-in when he is chairman of the commission standing between the grain growers and the grain trade? Does he not think that this attitude is "trenching on the dignity of the legislation?"

It is freely stated that at the recent Moose Jaw meeting of the executive, Mr. Motherwell finding himself in such a small minority, resigned as honorary president, and if this is so, then what right has he to even in a letter, afterwards to assume that empty and irresponsible title.

Is the grain trade not capable of pulling their own chestnuts out of the fire? What, the farmers have a right to expect from both Mr. Millar and Mr. Motherwell is that they, if there was any trivial impropriety, overlook it owing to the fact that the prosecution in a case of that kind cannot stand too much upon ceremony. There was nothing improper however, and the conclusion then is that these men must have some motive in trying to create discord in the ranks of the grain growers at this time. The attitude of Mr. Millar as indicated by his letter, leaves little for the farmers to expect from the report of the commission. After all, however, the report will be for the purpose of influencing legislation, but the evidence revealed unlawful action on the part of the grain trade which the grain growers had a right to prosecute regardless of the commission's report, and which they did prosecute with good results.

It is not necessary to remind the farmers, who were at the sitting of the commission here, that the leanings of Mr. McNair appeared to be with the elevator men and the questions of Mr. Goldie indicated that he did not favor the objections of the farmers towards the railway companies. He stated with a very important air to one farmer, that if he (Goldie) were in business he would try to "familiarise himself with the principles of it and the law relating to it."

Then if those members had but little sympathy for the farmer who could the grain growers look to but to Mr. Millar? What do we find, however? Mr. Millar joins with Mr. Motherwell in abusing the only friends the grain growers have had in their important fight against allied enemies.

What attitude did Mr. Motherwell take at the Regina sitting of the commission? He, as those who were present know, appeared before the board as a farmer and under oath stated that he was not in sympathy

with the demands of the witnesses that day respecting government weigh scales and questioned the wisdom of reciprocal demurrage. His objection to the former was that "sufficient honest farmers could not be found to operate the scales."

The attitude of Messrs. Motherwell and Millar is certainly not what is expected of them at this critical moment, especially when the prosecution in the farmers' interests, and for the proper conduct of the grain trade is at the present stage, and what ever might now be said by Messrs. Motherwell and Millar, we believe that the friends of the grain growers struck the blow at the right time and in the right place, and if the veiled friends of the enemy come back to parley with the Saskatchewan executive, let them get one, in the neck also. It is coming to them.

PROGRESSIVE PLATFORM

The government ownership and operation of telegraphs and telephones.

The establishment of a state cable connection with Great Britain.

The extension of the Intercolonial to Georgian Bay and its operation by an independent commission.

Strict assertion of public authority over all coal mines which are still under federal control. The deepening of the Welland canal.

The reorganisation and reinvigoration of the department of trade and commerce. Securing legislation enforcing reciprocal demurrage.

The above suggestions are from the Toronto News as fitting planks for the platform of a progressive federal party, and we believe that they represent the wishes of the people of the west as they embody the very issues which are being canvassed by the grain growers' associations at the present time and about which there is much discussion, and which the farmers will heartily endorse.

The government ownership of telephones is now well under way in two provinces, viz: Manitoba and Alberta, and one of the important matters at the annual meeting of the Saskatchewan Grain Growers' convention which meets here on the 20th inst, will be the consideration of a resolution calling upon the provincial government to pronounce themselves upon this issue. Admitting the principles respecting the telephones is to concur in the application of that principle to the telegraphs, and while for the moment there would appear to be a few more obstacles in the way of the latter, it is only a question of adjustment and is after all within the realm of practical politics.

The establishment of a state cable connection with Great Britain would serve useful national purposes, and would be an enormous benefit to the commerce of Canada and the press of the Dominion.

Bringing the Intercolonial to the Georgian Bay would be to add to the solution of the transportation question, and place that road in a position to help itself financially and managed by an independent commission, would become an important factor as an artery of trade and commerce. The run is so short from the head of the lakes to Georgian Bay that with adequate storage or transportation facilities congestion can be avoided at Port Arthur and Fort William.

The fourth plank of this platform is the one which at present would be adopted unanimously by the western provinces. This does not venture so far as expropriation but as there are immense areas of coal land these by the government will be to recognise a public right, and if not actually operated by the state they could be regulated to accomplish the same object. The people of the west will hold up both hands for the "assertion of public authority" over mines.

The deepening of the Welland canal is an urgent public need and it would do more to facilitate the transportation of the western grain crop than the building of another railway system. The deepening of this waterway would immediately save the farmer two and a half half cents a bushel on his wheat and it will be a long time before the railways reduce the cost of transportation to that extent. Every boat now going through the Welland canal has to lighten to less than four-foot feet, and the haul from Port Colborne to Port Dalhousie for 22 miles by railway is a delay, an additional cost, and an inconvenience

that the western farmers pay dearly for, and there is no reason why this obstacle to commerce cannot and why it should not be removed.

This canal is the throat of our transportation system which will choke to death if something more is not done than building railways, much as we need the latter. Every mile of railway extension in the west means so much more wheat to pass through this waterway and the enormous growing traffic cannot be accommodated, and the whole country and especially the farmer is as a loss.

With regard to trade and commerce further development will only embarrass us unless we get coal to operate our industries and a transportation system that can handle our products. It is of little use to find foreign markets if we cannot get our products to the seaboard.

The last plank of this platform is a new one to the people of Canada, but one nevertheless that is engaging the attention of the people of the west at the present time. Railway companies must respect their obligations to the people from whom they get their franchise, and if the shipper must pay a penalty for inconveniencing the railways who not make the railways pay for putting the shipper at a similar loss? This is "reciprocal demurrage," and the people will demand remedial legislation dealing with this matter.

Of course there are matters of Provincial Rights that seriously affect four western provinces and which cannot be ignored, but every item of this platform seems particularly directed in the interests of the west and if acceptable to the east, we believe that the tariff issues could be mutually arranged to give whatever party takes this policy the best proposals that could be submitted to a Canadian electorate.

COMMENDABLE IMPULSE

We admire the impulse that actuated the city council in their decision with regard to the fuel question on the north line, and the generous offer to supply men to shovel snow. We believe however that this offer should have been made by the provincial government, as such a matter is rightly in their province. If it was right for the department of agriculture, to incur telegraphic expense in this connection, then why

not at any rate, duplicate the kind assistance of the city council. It was a very empty part played by Mr. Motherwell in writing to Manager James that he ought to accept the city's offer.

We certainly think that the mayor and aldermen deserve much credit, but the cold telegram by Mr. Motherwell—well that was wasting money and butting-in at the wrong moment and in the wrong place.

The council has shown the way in a practical manner and we trust that the Government will profit by it.

McBRIDE'S VICTORY

The great victory which Premier McBride has just won in the British Columbia elections is a distinguished triumph for provincial rights. There was only one issue without appeal to party politics by the premier, although the Opposition, assisted by the Dominion Government made strenuous efforts to carry the country on federal lines. Governor McInnes of the Yukon, resigned his position to attempt to defeat the McBride Government, but he got his reward from the electors of Victoria where his political remains can be found in the Liberal wreck.

The whole Dominion watched with intense interest the fight in British Columbia for Provincial rights. The attitude of Premier McBride at the Ottawa convention is well known and his withdrawal from that body was severely criticised by certain newspapers outside his own province and by the Liberal press at the coast. On his return to Victoria, Premier McBride in a very able review of the situation said:

"There is nothing to compromise in this case. We are either right, or we are wrong. It is your duty now to see that your claim calls for special recognition and you spare no effort to make it good, and I am quite satisfied you will make it good."

In a "Better Terms Edition" of the Week of Victoria and Vancouver on November 3rd said:

A crisis has been reached in the history of British Columbia. The whole province is awake to the fact, and by no amount of political dexterity can the issue be clouded. The crisis has been precipitated by the action of the Ottawa conference, and emphasized by the attitude assumed during, and since reiterated by Premier McBride. The issue is not,

WEEKLY REVIEW

Julius Cominsky committed suicide in a cell in the Tombs, New York, where he was being held on a charge of felonious assault in shooting Patrolman Zeeling. Cominsky made a ropes of strips of his shirt and hanged himself to his cell door.

The Canadian Glass Works located on the outskirts of Montreal, and employing 150 hands, was burned to the ground recently. A number of young girls employed on the second storey were obliged to jump for lives. The loss amounts to \$20,000 and is covered by insurance.

King Alfonso has issued a decree suspending the sessions of parliament. As it is evident that the new premier, Senora Maura, cannot command a majority in the chambers, an early adjournment to the people of the issue between church and state through a dissolution of the parliament and new elections is the only means of clearing the situation.

Last season's export business in the Grain trade at Montreal was greater than that of any year since 1900, according to statement contained in the address of the retiring president of the Corn exchange, Mr. Thomas A. Crane, delivered before the annual meeting of that body.

A young homesteader named Stull living about fifteen miles south of Gull lake, became lost in a recent blizzard, and now lies at the home of a rancher in a badly frozen and precarious condition. Stull started to his shack from his stable a distance of about forty rods, but lost his way and wandered far over the prairie. His disappearance was not discovered till three days later.

The rumor that the C.P.R. has an option on the controlling stock in the Quebec Railway Light and Power Co., is thought that the C.P.R. is preparing to open up and develop north-eastern Canada, tapping the Labrador ore fields, and making a new outlet on south-eastern Labrador for the export of grain and other products of the west.

A serious accident occurred at Indian Head on Friday last. Just as No. 1 was approaching the depot the crown plate of the locomotive blew out, and the fireman, Louis Desjardines, 19 years of age, was fung several yards by the force of the explosion and badly burned. He was taken to the hospital here and placed under the care of Dr. Connell.

Miss Mattie Cotter, not yet out of her teens, ran away from her father's house, Sheridan, Mont. It has come to light that she eloped to Butte with Abraham Seeley, more than 80 years of age, who had already three wives. Before she promised at the altar to obey her aged lover, Miss Cotter required him to sign an agreement that if she should die before he does he will not marry again. Seeley objected strenuously, but she insisted that if he did not sign the document she would not marry him, finally he attached his signature. Miss Cotter is well educated and popular, she had many youthful suitors but did not choose to marry any of them.

McBRIDE'S VICTORY

(Continued from page 4.)

and cannot be made political; if either party attempted to appropriate it for partisan purposes they would find that the people of this province were too wide awake and too well acquainted with the interests involved to allow the prospect of ultimate success to be endangered by confusing it with party politics. When British Columbia voted for government on party lines, it did not decide to deliver to either party the settlement of such a momentous question as "Better Terms" except upon a basis far removed from the arena of political strife. It is strictly a business proposition; a case of demonstrating what is due to the province from the Dominion, and then of respectfully but firmly insisting on the debt being paid. The province has endorsed the premier in no uncertain manner, and everything that money will do was certainly done to defeat him. The West was informed a few days ago by a gentleman direct from the coast that after McInnes' arrival the worst boodler campaign ever seen was inaugurated and he said: "If money will defeat McBride, he's a goner." The provincial rights campaign has however triumphed, and it is now up to Ottawa to settle.

PRESS COMMENTS

(Butte News.)

Secretary Root's visit to Ottawa, while scarcely noticed in this country is an occasion of great moment to the people of the Dominion. Canada is enjoying the privileges of a sovereign power. She is making her first treaty direct with the nation involved with her in a controversy. England's experience with the United States in the north-western boundary dispute was unsatisfactory, that it was decided in London to allow Canadian legislators more rein. Within the next few days President Roosevelt and Secretary Root will probably present to congress a number of treaties drawn up as a result

The American senate has agreed to vote on the resolution declaring Senator Smoot, of Utah, not entitled to his seat at four o'clock on Wednesday, Feb. 20.

The city treasurer's department at Winnipeg received from the Winnipeg Electric Ry. Co. a cheque covering the amount of car tax and 5 per cent. of the company's gross earnings for last year. The cheque amounted to \$36,776.30 of which \$2,180 is for car tax, and the remaining \$34,596.30 represents 5 per cent of the gross earnings of the company in 1906.

A dispatch from Toledo, Ohio, says that charged with bigamy and credited with having thirteen wives, Rev. Holden, reported to have two sons also under indictment for bigamy, pleaded guilty and was sentenced to six years in the penitentiary. Holden says he married whenever the spirit moved him. His courtships always took place during his revivals and his victims were always those who attended his church.

A sad case of destitution was discovered just outside Vancouver when the police were informed that a woman and seven children were starving in a shack. The police found no furniture in the house save one chair and there was practically no food. The woman said they were Germans recently from Manitoba. About two months ago her husband left her, saying he was broken in health and would be absent about two years.

Charles McGill late manager of the Ontario Bank was sentenced to five years imprisonment by Judge Chute at Toronto. He pleaded guilty on two accounts of making and signing false returns with intent to deceive and signing false statements with intent to deceive. On the theft charges McGill pleaded not guilty. His counsel in asking for mercy said that McGill was a poor man he had not profited personally. The penalty provided show that it was regarded as a most serious crime.

Mr. and Mrs. Arnold Shuttleworth of Edward were recently lost in a storm and spent the night on the prairie. They turned the team loose one of which died from exposure while the other wandered home and is badly frost bitten. Mr. and Mrs. Shuttleworth, however, did not fare so badly, she having been wrapped in the robes while he tramped about to keep warm. In the morning they walked to the nearest neighbors and are but little the worse for their experience.

A conference has been arranged between the department of railways at Ottawa and the C.P.R. to consider the application of the company for running rights over the Intercolonial from St. John to Halifax. The railway department cannot refuse the principle of the application more than the G.T.R. and Canada Atlantic could when running rights were given to the I.C.R. as far as Georgian Bay. If the C.P.R. will pay the shot there is no doubt the application will be granted. However, before anything final is done the minister will lay the whole matter before the cabinet.

of the direct discussion with the Canadian statesman.

The question involved are fishery rights of the Grand Banks and the diversion of water from the Niagara. As a result of the dispute over Niagara's water it was decided that a treaty should be made covering the diversion of water from all boundary streams between Canada and the United States.

No privilege can be of more vital importance to the Dominion than the right to deal direct with her neighbor, the United States. In granting this boon, England is only delegating its duty to the colony which she has made a signal failure, according to the colonists. It is with curious interest that the public is awaiting the treaties for many would like to know if Root, shrewd and experienced as he is, was able to take the blossoming statesman into camp.

ENDORING HOPKINS

Grain Growers at Prosperity and Hazelcliff Resolute

At a recent meeting of the Grain Growers' association of Prosperity, the following resolutions were adopted:

"Whereas the Manitoba G. G. association has taken action against certain grain dealers in Winnipeg, therefore be it resolved that this association place itself on record as approving the central executive as resolution and pledge ourselves to support it financially and otherwise. "Whereas the car shortage is a great inconvenience to the community and a loss to the country at large and we are of the opinion that the unjust discrimination now shown by the competitive company in favoring our districts, that the warehouse commissioner be given power to supply cars in proportion to the grain shipped from each point, and in default of supplying cars to pay a demurrage after a reasonable period of time."

SUNDAY MEETING OF CITY COUNCIL

Fuel Question so Urgent That Mayor and Aldermen Take Action on the Sabbath--Offers C. N. 100 Men

With the north line completely blocked from Friday to Monday the fuel situation became so serious along the branch that Mayor Smith decided to call the council together on Sunday and consider the matter so that if assistance were granted work could begin at this end of the line on Monday.

The question was thoroughly canvassed by the aldermen and it was finally decided to offer a gang of men as snow shovellers.

The majority of the board seemed rather favorable to the proposal, but Ald. Peverett thought that some request or requisition should come from the railway company, or the council ought to know that the company had done all they could to relieve the situation. Such procedure could be well taken by the government, but he thought that as they had not proffered this aid, they might well pause before committing itself to this procedure. He had as a matter of fact stated some time ago that the government ought to take some steps to guard against the failure of railways to operate through winter storms or spring washouts.

Ald. Gillespie supported this contention but they voted for the assistance being granted.

The following motion was adopted unanimously:

Moved by Ald. Cowan, seconded by Ald. Kusch—that the mayor be authorized to wire Supt. Abbott that it has been reported authoritatively to him that great distress exists between Regina and Saskatoon for the want of fuel owing to the trains being unable to get through on account of snow drifts and that the railway company having found themselves unable to cope with the situation, the city of Regina hereby offers to organize a gang of fifty men, and if necessary 100 men, to aid the railway company to clear the line, provided the railway company will undertake the supervision of the gang, and that a copy of this telegram be communicated to the general manager, Mr. James.

The mayor, Ald. Gillespie, Kusch and Kramer were appointed a committee to communicate with the C. N. R. officials and procure a gang should the city's offer be accepted.

MESSAGE TO C. N. R. The following telegram was sent to Manager James, Winnipeg, and Supt. Abbott, Saskatoon.

"Understand great distress exists on north line between Regina and Saskatoon for want of fuel, and as

it appears your company is unable to clear the line, the city of Regina offers to organize a gang of 50 or 100 men, to aid the railway company to clear the line, provided the company will undertake supervision of the gang. Wire your reply with instructions. J. W. SMITH, Mayor.

ABBOTT REPLIES. During Sunday afternoon the following reply was received from Supt. Abbott.

Warman, Sask., Feb. 3.

J. W. Smith, Mayor, Regina. Referring to your wire of date, owing to the snow which has drifted so badly and packed hard it would be impossible for a gang of men to dig out entire line within a week. Am going south with a gang of men and snow plow from Saskatoon tonight and will reach Regina tomorrow. This is the only way we can possibly clear the road and get fuel to Davidson and other points which we will handle in preference to anything. If, however, we find that we can use the men you suggest, I will wire you at once, and will keep you advised as to the progress we are making with the plow. No expense will be spared to relieve the fuel situation. J. ABBOTT.

GOVERNMENT BUTTS-IN. Without offering to assist the city or the railway company, Mr. Motherwell sent this message to Mr. E. A. James:

Regina, Feb. 3, 1907. E. A. James, Mgr. C.N.E., Winnipeg

Regina is organizing relief party of 100 men to assist in opening communication with Davidson and Saskatoon. Strongly recommend that you accept the offer.

W. R. MOTHERWELL. His worship the mayor got in communication Sunday afternoon with Manager James and learned that he was deeply grateful for the city's offer, but they would not be able to say whether the men would be needed for a day or two. Gen. Supt. Brown was en route to Saskatoon with a load of coal.

POLICE PATROL. The police commissioner has organized a patrol of the country west of Saskatoon and south of the C.N.R. main line, the most of which territory is the Eagle lake country. Many settlers in there are a very long way from a railway at present and wood is scarce. The police have no apprehensions of suffering, at present, but this patrol is undertaken as a precaution and they will report regularly to headquarters.

BURIED WHILE BUCKING SNOW

Plow Demolished in Drift--Women Frozen on Dakota Homesteads

Graton, N.D., Feb. 4.—A serious accident occurred on the Northern Pacific about four miles north of here this morning, resulting in the serious and probable fatal injury of three members of a snow-plow gang. The snow plow was proceeding to the north and was pushed by three heavy engines, when in bucking a deep drift one engine and the plow were completely demolished. The men were buried in the wreck, but were later extricated and were in a very serious condition. The engine and plow were reduced to scrap iron and match wood.

Graton is today on the verge of a serious fuel famine. Local fuel dealers have only a few hundred weight of coal remaining and there is no wood remaining. There was a large supply of soft coal but the rail roads appropriated this for their own use, which they have the power to do under the laws of North Dakota. Many settlers seem unable to get hard coal here and the outlook is a very black one.

WOMEN FROZEN TO DEATH.

St. Paul, Minn., Feb. 4.—A heavy snow storm prevails over the territory west of here and railway traffic is practically abandoned. A telegram from Edmon, N.D., says the bodies of three women, homesteaders, who froze to death, were shipped east from that place. Near Imperial one woman was frozen to death on the prairie.

HAZELCLIFFE ALSO

The following resolution was unanimously passed by the G. G. association of Hazelcliff: "That whereas it is rather difficult to get to Saskatoon from this point, owing to the roundabout way that we will not send a delegate to the convention there, but instead will the available funds to help fight the Winnipeg Grain Exchange."

MR. HASLAM'S NEW VENTURE

Auto and Gasoline Engine Co'y Organized for Saskatchewan With Headquarters Here

A company is being formed in Regina, the Saskatchewan Automobile and Gasoline Engine Co., for the purpose of dealing in automobiles and gasoline engines. Mr. J. H. Haslam is president and Mr. J. Norman Williams, manager of this company. Mr. Haslam, who is an automobile enthusiast, says he thinks there is a great future for automobiles and gasoline engines in this country. Owing to the absence of hills, it is particularly suitable here for automobiles, and with the continual decrease in the price, it will not long before anyone who can now afford a horse, will be able to maintain at least a runabout, for the

A. O. U. W. AT HOME

The Regina Lodge, A.O.U.W. held a very enjoyable at home and dance in the city hall last Thursday evening. Notwithstanding the inclement weather there was a very large attendance. The patronesses who welcomed the guests were Mrs. Cowan, Mrs. (Dr.) Low, Mrs. E. C. Stewart, Mrs. (Dr.) Whitmore, Mrs. (Dr.) Thomson and Mrs. Alex. Ross. The addresses of welcome were delivered by Masters Workmen, E. C. Stewart and Grand Master Workman, Dr. Cowan.

After a short musical program, dancing became the order of the evening. Excellent music was provided and the dance kept up till about two o'clock. Refreshments were served in the council chamber under the direction of Mr. Gardiner. The Workmen proved themselves splendid hosts and a very enjoyable evening was spent.

Weak Kidneys

Weak Kidneys, surely point to weak Kidney Nerves. The Kidneys, like the Heart and the Stomach, find their weakness not in the organ itself, but in the nerves that control and guide and strengthen them. Dr. Shoop's Restorative is a medicine specifically prepared to reach these controlling nerves. To doctor the Kidneys alone, is a waste of time, and of money as well. If your back aches or is weak, if the urine is cloudy, or is dark and strong, if you have symptoms of Bright's or other depressing or dangerous kidney disease, try Dr. Shoop's Restorative a medicine, Tablets or Liquid—and see what it can and will do for you. Druggists recommend and sell.

LOSES LIFE FOR DAUGHTER

Winnipeg Man Goes Back In to Burning House for Little Girl and Smothers

Winnipeg, Feb. 4.—A small fire on Sherbrook street early this morning resulted in the death of Norman McDougall, of the firm of McDougall & Marshall, real estate and financial agents, and a little girl aged five years, whose name has not been learned. The fire was caused by the explosion of a lamp, and it seems that the little girl became frightened and hid behind a trunk. McDougall, realizing that something must be done, quickly ran back into the house to rescue the girl, but owing to the dense smoke, he became confused and suffocation ended his gallant efforts to save a life. It is believed the little girl was a daughter of McDougall.

NEW ZION CITY

Chicago, Feb. 1.—Zion city is to be deserted by Wilbur Glenn Voliva and all those over whom he holds sway. A new Zion city is to be founded, probably on the Pacific coast, and Dr. Davis and his creditors will be left to fight out the question of supremacy here. Last summer Overseer John G. Speicher was sent to Los Angeles to assume charge of the various colonies on the Pacific coast. It was said Speicher was to select the site for the new colony. This was confirmed yesterday by Voliva.

The existence of factions in Zion is one of the greatest contributing causes for the change, together with the hopelessness of making the religious leader supreme in both temporal and ecclesiastical affairs, so long as the heavy debt hangs over the place.

"Not political, but Christian socialism," has been the text of many of Voliva's sermons. He believes such a colony founded in some warm climate, where fruit raising, truck gardening and agriculture can be engaged in, would prove a success.

KING AND QUEEN IN PARIS

Paris, Feb. 4.—King Edward and Queen Alexandra and their suite arrived here from London, today and proceeded direct to the British Embassy, which they will occupy during their stay at the capital. Their majesties are travelling under the name of the Duke and Duchess of Lancaster. The royal couple were loudly cheered by the crowds as they passed from the station.

BURNING MOUNTAIN

Honolulu, Jan. 31.—Mauna Loa, the Hawaiian volcano has been active since the first of January. In Hawaii volcanic activity is never dreadful; it is always welcomed. It means a spectacle, as long as it lasts incomparable, magnificent and so far as the experience of a hundred years goes, without danger to life, almost without danger to property.

From the summit of Mauna Loa a vast cone which rears itself from a base fifty miles in diameter to a height of 12,675 feet above the sea level, a great glow began to be seen. Somewhere near the summit of the mountain the molten lava had broken into a fiery stream, forming first a cone, and then, bursting through the side of it, started as a river of fire and lava down the sloping side of the mountain.

Then it began its descent into the sea, a stream of liquid fire forming its banks as it moved, the lava on the outer edges cooling more quickly than in the middle of the stream. In the distance it is a spectacle only. Nearby is the deep surging of the molten lava surging in a great billow from the depths below. This wonderful spectacle is visible for a distance of one hundred miles in every direction when not obscured by cloud banks piled up by the trade winds. When not thus intercepted it remained a pillar of glory until the first light of dawn began to pale its splendors, to turn them, as the light in the east strengthened into a pillar of smoke by day.

Four days from the time of the outbreak the stream of lava found its way into the sea. In a brilliant catenact of fire it plunged over a cliff into the waters of the Pacific, hiding itself in a great mass of steam and killing everything in the water which it set to boiling.

The point at which the stream of lava reached the sea is on the northern coast of the Island of Hawaii, near the boundary between the districts of Kona and Kauai.

MR. WHYTE ON COAL TROUBLES

While in the east recently, Mr. W. Whyte of the C.P.R. spoke very freely on the difficulties which now confront, and which have since last fall confronted the C.P.R. in handling traffic throughout the west. Two classes of coal are used in the west—bituminous coal from the Crow's Nest, used mainly in steaming, and lignite coal from Lethbridge used mainly by the settlers and the farmers in their box and cooking stoves.

Of the bituminous coal there has been no scarcity, but whereas in the fall of 1905 there were 40,000 tons of lignite coal stored at various points along the line of the C.P.R., in the fall of 1906 there was none whatever. That condition was produced by the strike at Lethbridge. When the labor difficulty was terminated, and the mines were prepared to ship, all the available box cars owned by the company were employed in wheat carrying. Coal being a crying necessity, the company was forced to withdraw a large number of these to the serious detriment of the millowners. The railway company was thus placed in an awkward predicament.

BIRTHS

MINOR—At Regina, on the 29th ult. to Mr. and Mrs. H. J. Minor, twin boys.

MARTIN—At Regina on Monday, Jan. 21, to Dr. and Mrs. Martin, a son.

Frank Kramer of Lemberg has been released on parole, representations having been made to the minister of justice by R. Rimmer. Kramer was convicted at Wolsley a year ago and sentenced to two years but afterwards released on ticket of leave. He then, however, assaulted his wife and when arrested he was given the full penalty with two months added.

The Badge of Honesty

In an every wrapper of Doctor Pierce's Golden Medical Discovery because a full list of the ingredients composing it is printed there in plain English. Forty years of experience has proven its superiority as a blood purifier and invigorating tonic for the cure of stomach disorders and all liver ills. It builds up the run-down system as no other tonic can in which alcohol is used. The active medicinal principles of native roots such as Golden Seal and Queen's root, Stone and Mandrake root, Bloodroot and Black Cherry bark are extracted and preserved by the use of chemically pure, triple-refined glycerine. Sent to Dr. R. V. Pierce at Buffalo, N. Y., for free booklet which quotes extracts from well-recognized medical authorities such as Drs. Bartholow, King, Scudder, Cox, Ellingwood and a host of others, showing that these roots can be depended upon for their curative action in all weak states of the stomach, accompanied by indigestion or dyspepsia, as well as in all bilious or liver complaints and in all "wasting diseases" where there is loss of flesh and gradual running down of the strength and system.

The "Golden Medical Discovery" makes rich, pure blood and so invigorates and regulates the stomach, liver and bowels, and, through them, the whole system. Thus all skin affections, blotches, pimples and eruptions as well as scrofulous swellings and old open running sores or ulcers are cured and healed. In treating old running sores, or ulcers, it is well to insure their healing to apply to them Dr. Pierce's All-Healing Salve. If your druggist doesn't happen to have this Salve in stock, send fifty-four cents in postage stamps to Dr. R. V. Pierce, Invalids' Hotel and Surgical Institute, Buffalo, N. Y., and a large box of the "All-Healing Salve" will reach you by return post. You can't afford to accept a secret nostrum as a substitute for this non-alcoholic, medicine or X-ray composition, not even though the urgent dealer may thereby make a little bigger profit. Dr. Pierce's Pleasant Pellets regulate and invigorate stomach, liver and bowels. Sugar-coated, tiny granules, easy to take on board.

McBRIDE SWEEPS COAST PROVINCE

Champion of Provincial Rights gains Magnificent Victory—McInnes among the Fallen

Hon. RICHARD McBRIDE, Premier of British Columbia

Vancouver, Feb. 3.—As a result of yesterday's voting Premier McBride will return to power with an increased majority. The figures available to date show 24 Conservatives, 10 Liberals, two socialists elected and six seats undecided.

The big surprise of the campaign was the return of four Conservatives in Victoria, among the defeated being W. B. McInnes, former governor of the Yukon. J. A. McDonald, the Liberal leader, was elected by a handsome majority in Rossland.

Victoria, Feb. 2.—The result of the election on Vancouver Island was practically a clean sweep for the Conservatives. Out of twelve seats the Conservatives got eight, Liberals 1, Socialists 1, Independent Liberals 1 and one to be heard from.

In Victoria the four Liberal members of the last session were all defeated, Premier McBride headed the poll, with the other Conservatives close behind him. Election day in this city was bitterly cold, but all parties worked hard, despite the weather, and a big vote was polled.

HITS BACK AT HIS TRADUCERS

Partridge Says Matherwell has no Executive Power—Millar's Feelings Worked Upon by Grain Men

In reply to the joint letter of Messrs. Matherwell and Millar, E. A. Partridge says: "W. H. Matherwell is the honorary president of the Grain Growers' association of Saskatchewan. The honorary position does not entitle him to speak as a member of the executive of that body. It is a title of courtesy and stands for no executive powers. He complains that he was not consulted with respect to the action taken by the directors of the association, but since he is not one of the directors this can hardly be made a cause for complaint.

"John Millar, the chairman of the Royal Grain Commission, is a member of the executive by virtue of his election to the post of secretary. Since his identification with the Royal Commission his position has been temporarily filled by Mr. Stevenson of Indian Head. This accounts for the fact that Mr. Millar was not notified of contemplated action by the executive. Five out of six of the members of the executive, including Mr. Hopkins the president, were in favor of the action taken in the instance of a circular calling upon the sub-associations to support the prosecution inaugurated by Mr. McCuaig president of the Manitoba association.

"Mr. Millar's feeling have apparently been worked upon by members of the Grain exchange who have led him to believe that the dignity of the commission, of which he is the chairman, has been outraged by action being taken in the police court against members of the grain exchange before the report of the commission had been handed in at Ottawa. Mr. Matherwell, however, had no such excuse for his conduct, unless it be that his feelings have been outraged by the naming of Mr. R.L. Richardson as treasurer of the prosecution fund. Mr. Richardson has often, no doubt said ungentle things of Mr. Matherwell. At the meeting of the executive Mr. Matherwell wanted the trusteeship taken away from Mr. Richardson. Since Mr. Richardson only took charge of the fund by request, the executive could not permit anything so ungracious to be done to humiliate the spleen of a personal antagonist.

"Had Mr. Millar been fulfilling his duties as secretary it is not probable that anyone but himself would have been thought of, but being engaged on the grain commission, conventional suggestions to someone else. There are many precedents for the appointment of an editor treasurer of a fund created to support a cause which he has championed through his papers. Mr. Richardson has been conspicuous for many years in his championship of the farmer in his fight for better conditions.

"Mr. Matherwell's antagonism to Mr. Richardson and myself has led him to become a willing instrument in the hands of the grain exchange to try and discredit the association and the grain growers company, and to give the impression that the farmers of the west are not solidly united in their desire to secure legal and legislative remedies for conditions surrounding the grain trade.

"At a meeting of the Saskatchewan executive held a short time after the issuance of the circular complained of, the action of the president, Mr. Hopkins, was supported by all the members present with the exception of Mr. Matherwell and Mr. Millar. I presume that the letter signed by them will have to be taken as their minority report.

"I believe that Mr. Matherwell is alone responsible for the appearance of this letter, as Mr. Millar has never been more than an echo of the former gentleman's views in association matters and his appointment to the royal grain commission upon the recommendation of Mr. Matherwell would be an added cause for giving his support.

"Mr. Matherwell knows that he is uttering an absolute untruth when he states that I have endeavored to cause the association to become mixed up with commercial transactions. I have repeatedly stated in his presence and on the public platform, it was not desirable for the association to become engaged in trade and it was for this reason that the Grain Growers' Grain company was organized. It was felt and stated by me that the association had many important functions to perform in connection with the securing of legislative enactments required in the form-

WHITMORE BROS. ON FUEL QUESTION

Member of Firm Meets Railway Officials—Coal Specials Arranged—Advice to Consumers

As a result of the representations made to the C.P.R. by A. E. Whitmore, of Whitmore Bros., the company has decided to cancel one of their through passenger trains and run a coal train each day till the fuel situation is relieved. Mr. Whitmore after his recent return from Winnipeg, stated to the West that both the C.P.R. and C.N.R. management were anxious to take any steps that would facilitate the shipment of coal, but that they realized that the enormous daily demands during this cold weather is of serious concern, and without a stock at any central point it is most difficult to cope with the situation.

and we can assure our agents, we have been doing our utmost both at the mines and with the railroads and have been treated in a very generous manner considering the extreme conditions that prevail, both the demand for coal and the severe frost in operating the roads.

During the earlier part of the season we feared that we are now beginning to realize that there would be a general shortage of coal and with that view in sight, our traveling visited a great many of the small towns soliciting orders, but there was very little result owing to the fact that they had always used the Galt coal and expecting that the strike would end daily and that they would get their usual supply. Instead of ending in the summer it lasted from March till December. The points that are suffering the most today are the ones that were depending on the supply of Galt coal. We often have to return turning people away from our office with a smaller amount of coal than they came in to order originally, but in so doing we were trying to distribute equally among our customers. We trust the people with large houses will cooperate with us in only using that portion of it that is absolutely necessary. Thanking you for this valuable space, we are, Yours Very Truly,

WHITMORE BROS.

Minard's Liniment cures distemper.

WHAT INVENTION OWES TO CRIME

Delaware, Ohio, Jan. 31.—A convalescing given a suspended sentence of five years in the penitentiary, walked out of the court room and boarded a train for New York, to take a position with a shoe company at \$8,000 a year. The burglar, Joseph Savelk, a Russian, robbed a store here seven years ago, was arrested and broke jail. Later he served five years in Maryland penitentiary. While in the prison he was employed in the machine shop and invented a device for perforating shoes.

The shoe company hear of it and interested itself in Savelk's behalf. When his term was up he was re-arrested, brought here and tried for his former crime. He was found guilty but on the representations made by the agents of the shoe company the sentence was suspended. He accepted the offer of the company of a salary of \$8,000 a year.

DEATH OR RANSOM

Ten Thousand Demanded of Father For Son

New York, Feb. 1.—Antonio Siatta, whose son was kidnapped two weeks ago, and is still held for a ten thousand-dollar ransom, for some time yesterday was face to face with the members of the Black Hand that have his child.

Standing about him the men who have his child told him that unless the money was forthcoming, the child would be sent to Boston and killed. "Your boy is now being beaten," said one who appeared to be the leader of the gang. "If you were a kind father and loved your son, you would put his welfare above money, and pay the money that has been asked of you."

The meeting of Siatta, who is a money lender in the Harlem, and the Black Hand gang, was not altogether accidental. All the letters that Siatta has received since his disappearance were post marked from the vicinity of Oak street. Siatta determined yesterday to do a little detective work on his own account. He went about through Oak street thinking that his boy might be looking from some window that he might see him and call out. He walked several times through various streets that turn and twist, and when near Catherine ferry a man came up to him and addressed him by name.

He asked the father to accompany him to a building nearby. When they were inside the room, he was led to a back room. "I am the agent of the black hand," said the man. "We are going to kill your son unless you put up the money we want—kill him, you understand?" The first impulse of Siatta was to grab the man and call for help. He did not, the man advised. "Now keep your mouth closed. If you don't," and the door opened and three men entered the room. Siatta was asked to promise to get the money for his son's ransom and said he would. Then, according to the father, the four took a Satchel out in blood, to kill the child unless the father kept his promise to pay the money. Siatta reported the interview to the police and said that he thought he could find the house again.

"I shall try to get the money said the father last night. 'I am afraid my wife will go mad if my son is not returned to us. Should I fail to raise the money and harm comes to the boy, then I will sell out my business. I know the men who have him. I have seen their faces. If any harm comes to him it will be their lives or mine, law or no law.'"

Salvator Siatta, the kidnapped boy is 15 years old. His father is said to be well to do and a leader of money at No. 356 West One Hundred and one street. On Jan. 10 the boy went to school as usual, but did not return. While still worried about the boy's absence the father received

a black hand letter demanding a ten thousand dollar ransom. The father placed the letter in the hands of the police and by their advice did nothing.

TIMOTHY EATON DEAD

Toronto, Jan. 31.—T. Eaton died this morning from pneumonia following an attack of a gripe. The end was not expected till this morning, when he rapidly began to sink. He was the founder and president of the departmental store which bears his name, the largest store in Canada and one of the largest in the world. Some 9,000 hands were given employment. All the factories, all the building operations at the two great stores, the agencies at London Eng. and Paris, France, were notified by wire and cable, and will remain closed until Monday.

The funeral will take place Saturday. Timothy Eaton was born in Clougher, Ireland, 71 years ago. He came to Canada and started his first store at Kingston, Huron county. Besides a widow, he leaves two sons—J. C. Eaton, vice-president of the company, and W. F. Eaton of Oshawa, in charge of the factory there, and two daughters, Mrs. C. Burden and Mrs. T. Burnside, Toronto, Ont.

Minard's Liniment cures colds, etc.

EARL GREY MOURNS

Ottawa, Feb. 3.—Lady Victoria Grenfell, eldest daughter of his Excellency, died at Government House shortly after midnight, following an illness of three weeks. She is believed to have contracted the disease, typhoid fever, while travelling with her husband, Capt. A. Grenfell in Mexico, whence she came direct to Ottawa three weeks ago. The fatal malady developed immediately after her arrival. Her body was held out for her recovery and she came somewhat unexpectedly tonight.

Canada Drug and Book Co., Limited.

Local and General

The Methodist church at Grenfell has been destroyed by fire.

D. Cockrell of Grand Coulee was in the city Friday last.

Neil McCannell has sold his farm adjoining Assiniboia Place for one dollar an acre.

Mrs. D. J. Thom who has been visiting in the east has returned to her home.

W. T. Mollard of the Dominion Public Works department has returned from the east.

F. M. Crapper has just returned from a purchasing trip to Chicago and other southern points.

During January there were nine deaths, eight births and sixteen marriages in this city.

F. G. Fisher has returned from a visit to eastern Canada and United States cities.

M. F. Mytton, manager of the Bank of Commerce, who has been on a visit to the coast has returned home.

The annual meeting of the board of trade will take place tomorrow evening when the election of officers will take place.

Shrove Tuesday night tea, under auspices of St. Paul's Ladies' Aid in City Hall, Feb. 12th. Tickets 35 cts. each.

The appeal of the case of Josiah Gilbert to the supreme court of Canada by Balfour & Martin will be heard on Feb. 19. He has been reprieved until March 9th.

Dr. Graham of Mooseomin was in the city yesterday attending a meeting of the Saskatchewan hockey league.

G. M. Annab of Moose Jaw was in the city for a few days last week arranging for a couple of cars of horses which he took back with him.

The friends of Mr. Timming, manager of the Union Bank of Canada, here, will be pleased to learn that he is steadily improving from his very serious illness.—McLeod Gazette

The late Mr. Wilkie of Cottonwood was interred on Friday last. J. A. Wright made the trip out with the hearse during the very severe weather on that date.

Messrs. Nay, Anderson & Co. have removed from the Leader block to offices in the Michaelis block formerly occupied by the provincial department of agriculture.

The cup donated by Earle Grey for competition for amateur musical and dramatic organizations comes west, the prize having been won by the Winnipeg company.

The unusually cold weather of the last few weeks no doubt accounts for the falling off in homestead entries in Regina office. There were only 242 as against 512 last year.

The department of education has under consideration new text books for the province. The various Canadian publishing houses were represented here last week.

On their return from the Regina spell the Sintaluta curiers were met by a large number of their friends at the station, and received many congratulations upon their unprecedented success. J. A. Partridge's rink brought home the Grand Challenge and Saskatchewan cups, with 3rd in the Drewry and 2nd in the visitors, besides the grand aggregate and visitors' aggregate. Hill's rink brought two prizes, Hurlburt's one, and Hailton's the visitors' cup.—Wesley News.

Mr. and Mrs. Gordon Baker, entertained a number of friends at a progressive euchre party last Friday evening. There were six tables, Mr. and Mrs. McCausland won the two first prizes. Mr. McBride and Dr. Nybllett cut for the gentlemen's booby, the former receiving the award. Mrs. Bole, Mrs. Fenwick and Mrs. Westgate played for the lady's booby which was awarded to Mrs. Westgate. Refreshments were served after the play.

Ald. Peverett made a very wise suggestion when he intimated that if there was any suffering in the city through the fuel famine, a report ought to be sent to the health and relief committee. The matter could then be brought to the attention of the city council and the matter investigated.

Thos. Sanderson was in the city a few days last week on business with the government. In conversation with The West Mr. Sanderson stated that his part of the country was not worrying about the fuel question only out of sympathy for those who are so far from the Carrot River district that they cannot participate in the facilities which that country affords. They have lots of wood and at the same time the largest wheat yield of any district in the province.

Miss Minnie McCartney of the Land Titles office, was recently presented with a beautiful necklace and an address. She has returned to her home at Moose Jaw, but will shortly go to Calgary to take a position.

That united effort is being made various places throughout the province respecting the government ownership of phones is evident from the newspaper field of western Canada. At Qu'Appelle recently the board of trade received a communication from the Fort regarding this matter, and the following resolution was passed at the next meeting:—Resolved that this board is in favor of government control of trunk line telephones and of municipal ownership of local systems, and that the secretary be instructed to communicate with the Qu'Appelle board of trade, Fort Qu'Appelle, informing them of this endorsement.

Jan. F. Bryant who has been with the legal firm of Mackenzie, Brown & Thom, has joined the firm of Jones & Gordon, the firm name to be Jones, Gordon & Bryant.

ADULTS.
Our readers are directed to the important fact that there is now established in the city of Regina, an up-to-date business college, that is being widely patronized by the ambitious young people of the great prairie province of Saskatchewan—in fact students are attracted to its classes from more distant points, several from even as far east as Winnipeg.
The Federal Business College opened here in September last and has already given a hundred names on its enrollment, while many of those who were first in attendance are now holding excellent positions in the Capital.
Principal Houston, M.A., who has the management of the work, has public expressions of the great experience having had the supervision of similar schools in eastern Canada for that length of time. Graduates of the Ottawa Federal are holding many of the best situations in western Canada, many of them having succeeded so well that they are now controlling extensive business of their own.
No young man or woman either, who aspires to more than ordinary success in business life, can afford to ignore the value of at least a few weeks' training in the most important business subjects as they are taught by this modern business school.

We believe that one of the chief factors in the marked success of Mr. Houston's schools, is the fact that all students receive individual instruction. As a result of this method, the dull student is given the very aid he requires for success, and at the same time the more clever student is not in any way hampered by the slow one, as would be the case in class instruction. This system too, renders it possible for students to enter the college at any period. Several are arranging this week to enter on Monday next. In conclusion, we desire to say that the work of the Federal Business College is endorsed by bankers and business men throughout all Canada.

Clarence Blackstock's team of Welsh ponies ran from the West office yesterday but were caught at the Bank of Montreal. It took three men to hold them. This was the best exhibition of a horse race ever seen in Regina.

LEADERS IN GENTS' FURNISHINGS

These Preparations are Low Priced and Reliable

Yes, in every sense of the term you can rely upon these Drug Preparations of ours. It is one thing to get goods of this nature down to a low price, but it's another thing—and important to you—the getting of goods that are reliable.

- Compound Syrup of White Pine and Tar**
For coughs, colds, hoarseness, sore throat, bronchitis, whooping cough and all inflammation of the air passages.
The special value of each of its ingredients is universally conceded by the medical profession, so that we can confidently recommend it as an ideal cough mixture.
It is pleasant to take and is effective from the first dose. The preparation is intended to replace the numerous patent or secret cough mixtures, which are usually of little or no value. Price, per bottle.....20c and 40c
- R. T. Co's Compound Syrup of White Pine and Tar, With Cherry**
An especially efficacious preparation for hoarseness, sore throat and all chest affections.....20c
- R. T. Co's Cold Cream**
An absolutely pure preparation for the skin and complexion; very healing, etc. To introduce this elegant preparation for chapped lips, roughness of the skin, we are supplying it in neat boxes at each.....15c
- R. T. Co's "Baby's Own" Cough Syrup**
A bottle.....20c
- R. T. Co's Witch Hazel Cream**
A highly recommended preparation for use after shaving; softens the skin, removes tan. A reasonable priced preparation that will recommend itself at once to every man who shaves himself.....20c
- R. T. Co's Quinine Hair Tonic**
This preparation prevents baldness by removing the cause. It prevents dandruff and cures all diseases of the scalp. It stops falling of the hair, making it soft and glossy. It is unsurpassed as a hair dressing, keeping the scalp clean and promoting a luxuriant growth of the hair. Large bottle.....35c

- R. T. Co's Almond Cream**.....20c
- R. T. Co's Creme Dentifrice**
A pleasant preparation put up in convenient tube form, enclosed in box. Will cleanse the teeth thoroughly, remove tartar and keep the teeth sound and pearly, per tube.....20c
- R. T. Co's Witch Hazel Salve**
The cleansing purifying properties of Witch Hazel have been demonstrated in the number of remarkable cures that have taken place after the use of this salve. For burns, stings, old sores etc.....20c
- R. T. Co's Arnica Salve**
An excellent dressing for wounds, sores, eczema, salt rheum and all skin diseases, with German, French, Scandinavian directions inside package.....20c
- R. T. Co's Pile Ointment**
A positive cure for itching or bleeding piles. Hundreds of people to our knowledge have been cured of obstinate and acute conditions.....20c
- R. T. Co's Toothache Drops**.....10c, 4 for 25c
- R. T. Co's Toothache Gum**.....10c, 4 for 25c
- R. T. Co's Laxative Quinine Tablets**
A permanent and positive cure for coughs, colds, hoarseness and all disorders of the respiratory organs. Will cure a cold in 24 hours. Per box.....30c
- R. T. Co's Rosefoam Tooth Wash**
A fragrant liquid substitute for tooth powder, makes the breath sweet, the teeth white, and the gums healthy, contains nothing injurious. Per bottle.....30c
- R. T. Co's Headache Wafers**.....20
