

French Canadians in the States

Means Proposed to Secure their Return

A Convention of French Canadians was held in Montreal on Friday, to consider the best means for ensuring the return of the French Canadians who had gone to the United States. The Convention in order to secure this end sent a series of questions to their compatriots in the States, enquiring their number and occupations, their social, religious and political condition, the number desirous of returning to Canada, and what inducements would secure their return. Only a few replies were received, but these were sufficient to lead to the conclusion that there were over half a million now in the States, and that the majority of these were employed in manufactures. Some are in the professions, and a few are engaged in agriculture. The greatest drawback to their advancement is in the want of education. They are mostly ignorant of English, and there are no French or Catholic Schools. But very few of them have become citizens; they have consequently no political influence, and as a rule they live from hand to mouth. Most of them would gladly return to Canada, but the chief obstacle to that is that they can find no congenial employment in their own country, and no sufficient means of livelihood.

With a view of bringing these self-exiled French Canadians, the following recommendations were approved of:—That free grants of land be given under certain conditions; that advances be made for seed, implements, houses, &c., to be repaid at long periods; the construction of new roads through the newly settled districts; gratuitous passage from the States to Montreal; the establishment of a central agency in that city to furnish information to returning immigrants; suitable provision for the establishment of churches and schools. A resolution was also passed recommending that the Local and Federal Governments do all in their power to develop the manufacturing and agricultural industries of the Province.

An Association was formed to carry out the objects sought for, and delegates were appointed from each section. For Manitoba the name of Louis Riel was proposed, but strong objections were made to it by the chairman, Judge Coursol, and he was dropped. A resolution was afterwards brought up, asking an amnesty for Riel and his associates, but after a long and warm debate it was rejected, the motion having been laid on the table.

The Reformers of Halton will hold a grand Pic-nic in Martin's Grove, Milton, on the 8th July, to commence at 12 o'clock noon. The Premier of the Dominion will be present if possible. The Hon. O. Mowat, Hon. C. F. Fraser, Hon. A. McKellar, D. D. Cuthbert, M. P., W. Bark, M.P.P., and J. Rymal, M.P., have also promised to be present, and a large number of other leading public gentlemen have also been invited and will be present. This promises to be one of the largest and most enthusiastic gatherings ever held in the county.

Information received in Ottawa from British Columbia indicates the daily growth of feeling in favour of the Canadian Government railway policy. Influential men, whose sympathies till lately were decidedly on the side of the Opposition, and who were affected by the clap net about the supposed indifference of the present Canadian Ministry to the railway bargain, now approve of its policy and censure the action of the Walker Government. It is believed it tends in a poor minority in British Columbia on this question. It is thought Mr. Walker will arrive in Ottawa shortly and make a stay, whether he goes to England or not.

RAILWAY ACCIDENT.—An alarming accident happened on Wednesday night to the No. 10 express from Windsor, at a place known as Scotland Cut, a few miles west of London, which, providentially, resulted in the loss of but one life and slight injuries to about twenty others. The train, which is known as the New York "fast" express, had entered the Cut, and was coming down the grade at a high rate of speed, when suddenly the engine, two baggage and two passenger coaches were thrown from the track. The engine went to the right, the first baggage car to the left, the second to the right, the first and second passenger cars following in the way, forming something like a V—the whole lot being jammed and smashed in a terrific manner. The fireman, J. O'Grady, was caught between the engine and tender, and was crushed to death almost instantly. One of the brakemen was severely injured internally by being squeezed between the cars. The passengers, conductor, engineer, baggage men and express messenger miraculously escaped from serious injury. Upon examination it was discovered that a rail had been removed from the track by some devil or devils in human shape, but for what reason it cannot be guessed, unless for plunder. There is a strong disposition on the part of the citizens to dispose summarily of the fiends if it can.

SCURVY TREATMENT OF IMMIGRANTS.—On Sunday morning last, a company of eighteen Italian emigrants, the victims of New York sharpers, arrived at St. Catharines, having been dispatched from New York, with the promise that they should all receive employment on the new canal. The agent who had forwarded them had got possession of all their money, and being destitute of funds, they were compelled to take shelter in the woods, near Section 7 of the new canal. On Monday they applied for work, but although the contractors made no objection, the laboring men made the most violent and inhuman demonstrations would not let them enter the shanties, and drove them from the works. Ignorant of the language, intimidated and suffering from hunger, their condition was most pitiable. They returned to the woods, where their case was discovered on Monday by the Rev. Dean Malign, who had gone down to the works on a temperance mission. He secured the assistance of Mr. Shickman, as interpreter, and ascertained the sad story of their distress. The rev. gentleman also enlisted the sympathy of several liberal persons; and they were thus supplied with food for their present wants, and passed the night in the grounds adjacent to the R. C. Church. They are all able-bodied men, most of them young, and willing to work.

Grasshoppers in Minnesota.

Governor Davis, of Minnesota, in response to circulars forwarded to different points of the State, has received answers to the effect that large numbers of young grasshoppers are being hatched in the following counties in the south-eastern part of the State: Lyons, Martin, Jackson, Nobles, Watonwan and Cottonwood, all of which have heretofore been among the finest wheat-growing counties on the line of the St. Paul and St. Croix Railway. The reports received are substantially agreed, and appears from them that the hoppers came last year full grown from the south-west. In some places there were a few eggs hatched last fall, but otherwise the eggs remained in the ground all winter, hatching out early this spring on the light soil with warm exposure, and continuing since to hatch out daily until the ground is covered by them. It is noticed that on ground which was ploughed over they have not yet hatched out, and it is possible the eggs were covered so deep by ploughing that they may not hatch out. On their first appearance the young grasshoppers make for the tenderest shoots of grass and the tops of young vegetables, eating everything above ground. Generally the growing grain is not seriously injured by them; though many fields have been stripped bare, but with favorable rains, these will be likely to grow again. The insect which has been noticed as destroying the eggs of the grasshoppers, is not larger than a grain of wheat, and under the microscope sight, appears to be a spider with legs and teeth to match. Its instinct leads it to bore into the ground where the cocoon is deposited, and entering to destroy the ten or twelve eggs contained in each cocoon. The grasshopper country is also supplied at this season with immense flocks of pigeons, blackbirds, &c., which are feeding almost entirely on the grasshoppers.

BASE-BALL ITEMS.

PROFESSIONAL GAMES. The Bostonians defeated the Chicagoans yesterday, in Boston, by a score of 8 to 7. The Mutuals played their third championship game with the Philadelphia on Thursday, in Philadelphia, in favor of the latter as the appended score by innings will show. The game was won by the heaviest batting, the general fielding of the clubs being poor:—

Through the efforts of Dr. Breese, M. P., the cases of soldiers who served during the war of 1812, have been brought to the attention of the commissioners of Chelsea hospital, and will, by applying through the Militia Department, receive the benefit of the recent war office order and pensions.

The Perthshire Advertiser says: Messrs. Mooly and Sankey are in Perth, and Perth rejoices. The reverend "rivalists" are drawing large audiences, but there is a lack of enthusiasm, somehow.

The National contains a letter stating that Goldwin Smith, when at Oxford, calculated the Malthusian system of marriage. It also states that Mr. Sangster will publish in a few days, in pamphlet form, what it says will be a complete answer to the Globe charges.

FISH CULTURE.—Fish breeding is now becoming a matter of some importance in Canada. About a week ago Mr. Wilnot, of Newcastle, was in Hamilton, and deposited 2,500 young salmon in the fountain reservoir in Prince's Square in that city. They will remain there till next spring, when they will be turned out to seek their fortunes, not in the briny deep, exactly, but in the cool, clear fresh water of Lake Ontario. A large deposit of some 6,000 fish, was also made near the mouth of the creek at Bronte. Mr. Wilnot is about to proceed to New Brunswick and Nova Scotia, there to do all he can for the promotion of what is rapidly becoming, under judicious management, an important source of wealth to the Dominion.

TREASURES.

Friendship is a priceless treasure—
Use it well!
Joy 'twill give you without measure;
Slight it not, and never blindly
Use it coldly or unkindly—
Use it well!
Honor is a precious jewel—
Use it well!
It is never cold or cruel;
It is warm, and kind, and cheering,
Noble, steadfast and enduring,
Use it well!
Truth's a treasure great and glorious—
Use it well!
It will make your work victorious;
Better for its riches olden,
Than the wealth that's merely golden—
Use it well!
Courage is a mighty treasure—
Use it well!
It will give you strength and pleasure—
It will drive away all sadness
By the conquering power of gladness—
Use it well!
Hopes a gem with light radiating—
Use it well!
While the hours are swiftly flying
Let its talismanic beauty
Lead you on through paths of duty—
Use it well!
Moments are life's richest treasures—
Use them well!
They will bring eternal pleasures
If we never treat them lightly,
But improve them ever rightly—
Use them well!

Then and Now.

On Thursday last Mr. Mackenzie visited Kingston with a view to his suitability for a military school, and the following account of his visit is well worthy of a perusal.

From the Kingston Whig.

The visit of the Premier to Kingston yesterday awakens curious recollections and reflections. Yesterday he came as Premier and ruler of Canada to inspect the military works of this city with a view to considering the suitability for the purpose of a military academy. A score and a half years ago he wrought at some of these same works as a mason. Then he was a very humble member of society; now he holds the highest position among Canadians. What a sermon these two facts preach out! We should be truly thankful that we have worked out the theory of popular Government and ordered society among us so successfully that no rung of the ladder is inaccessible to honest worth, and that no one's prospects need be blighted by caste or his progress arrested by want of wealth. Mr. Mackenzie has done his duty—his duty as a citizen, his duty as a man, his duty as a member of society—but all will admit that he has achieved his present proud position by honest hard work and inflexible integrity. He did not climb to place over corruption, for he is poor; he did not mount up as a demagogue, for he is free from demagoguism, and is above pandering to the vile. He resisted the temptation of office until it was his by political succession; and now rules the country with an unparalleled majority. Nor has power turned his head, for there is not a harder worker or more modest or unpretending man in Canada than its Premier, who according to his light, zealously strives to do well by his country. Making all allowances for his shortcomings, his history is a profitable one to study, one which cannot be reflected upon without great good to the country for it teaches by example the lofty success that may attend upon humble merit if it be allied with industry and perseverance.

The Prince of Wales, following the bad example of his predecessor, George IV., and his royal brothers, has been running into debt to the amount of \$300,000, notwithstanding his large income from the Duchy of Cornwall, and the princely allowance made by Parliament to himself and his wife, and the interest on the handsome amount left by his father. The aggregate income of the Prince is not less than \$450,000 a year, every penny of which, it seems, he spends, and now he comes to Parliament "short," and asks that body to help him out. His reason is that the debts have been incurred in the performance of state duties which have been imposed upon him by the Queen. The Prince is a very shrewd fellow in his money-matters, and has always borrowed the funds expended on these occasions, refusing to use his own, and saying that in the end either Parliament or his mother must pay for that sort of thing. This is his side of the story.

DR. WHEELER'S ELIXIR OF PHOSPHATES and Calaisa—After having used your Compound Elixir of Phosphates and Calaisa for over two years in my daily practice, I must give it my unqualified approbation. During a practice of over twenty years, I have used many scientifically prepared compounds, made to fulfil the same therapeutical indications as your Elixir, but none of them proved with me as valuable as yours. To the medical profession and the public, I would especially recommend it as the best remedy with which I am acquainted for the successful treatment of the large and constantly increasing class of cases of over-worked and nerve-haunted women. Yours truly, N. WATKINS BEEB, M.D.

THE GREAT ENGLISH REMEDY.

Specific Medicine

Cures all Nervous Diseases, such as Tremors, Debility, Prostration, etc., which, in many cases, are produced by over-indulgence in the use of tobacco and alcoholic spirits; but the Specific Medicine is more especially recommended as an unfailing cure for Seminal Weakness, Spermatorrhoea, Impotence, and all diseases that follow as a consequence of Self Abuse, or Loss of Memory, Universal Lassitude, Pain in the Back, Dimness of Vision, Premature Old Age, and many other Diseases that lead to insanity or consumption, and a Premature Grave, all of which, as a rule, are first caused by deviating from the path of nature and over-indulgence. The Specific Medicine is the result of a life study and many years of experience in treating these special diseases. Full particulars in our pamphlet, which we desire to send free by mail to every one. The Specific Medicine is sold by all Druggists at 25¢ per package, or six packages for \$5, or will be sent by mail on receipt of the money, by addressing—WILLIAM GRAY & CO., Sold in Guelpi by E. Harvey, and by all Druggists. Northrop & Lyman, Toronto; J. Winsor & Co., Hamilton; and wholesale agents.

IMPORTANT SALE OF PIANOS

The Committee appointed to dispose of the Pianos at the Manufactory of JOSEPH F. BAINER, WEST MARKET SQUARE, GUELPH, will offer them at a considerable reduction on cost on reasonable TERMS OF CREDIT. The stock consists of about 40 First-class Instruments! Similar to those shown at the last Central Exhibition, and for which he was awarded the first prize. They are equal in compass of tone, finish and durability to the best instruments of any of the celebrated manufacturers, and as such an opportunity seldom occurs, parties in want of pianos would do well to avail themselves of it. An inspection invited. A competent person will be on the premises, near Mr. John Harris's, who will show the instruments. Guelpi, March 18, 1874.
