THE EUROPEAN WAR

British Surrender to Turks

LONDON, April 29-Major General Townshend, commander of the British forces besieged at Kut-el-Amara, Mesopotamia by Turkish forces, since last December, has surrendered. This information was obtained in a British official statement issued this afternoon.

The official announcement was: After a resistance protracted for 143 days and conducted with a gallantry and fortitude that will be forever memorable, General Townshend has been compelled by the final exhaustion of his supplies to surrender. Before doing so he destroyed his guns and munitions. The forces under him consist of 2,970 British troops of all ranks and services, and some 6,000 Indian troops and their followers.

Herioc Work of Nova Scotians on the Fighting Line

OTTAWA, April 30-The heroic defence of the St. Eloi positions by one of the Canadian infantry brigades is recorded in the weekly communique of the Canadian general representative at the front. The splendid part played by a Nova Scotia battalion, and many individual instances of gallant and conspicuous service are given in the despatch, which follows:

CANADIAN GENERAL HEADQUARTERS IN FRANCE, via London, April 30-During the week the main efforts of the enemy on the Canadian front were once again centered on our St. Eloi positions. For several days one of our brigades held this section. It was an eventful experience for the men concerned. On the second night four seperate bombing attacks were made by the Germans on advanced posts of a Nova Scotia battalion. In each instance the enemy was repulsed by detachments under Lieutenants W. A. Cameron and L. H. Johnston.

On the same night another of our posts, under the command of Lieutenant G. C. Farrish, was heavily bombarded with grenades. After daylight a German bombing party advanced against this position under cover of intense artillery fire. When well clear of its trenches it was greeted with rapid machine gun and rifle fire and retired hurriedly, leaving a number of dead or wounded

On the next three nights futher bombing attacks were delivered by rhe enemy, and beaten off. A party of Germans succeeded in getting into one of 3 the disused trenches on the front of a New Brunswick battalion. A patrol con-- sisting of Lieutenant Mowatt and Privates Bamsey, Kennedy and Chatterton OLIVE BRANCH DIVISION RE-OR- stumbled on the enemy. Private Bamsey, who was leading as guide, was suddenly hit on the head and fell. Almost at the same instant the explosion of a bomb wounded Lieutenant Mowatt in both feet, while another bomb hit Pte. Kennedy in the chest, but fortunately failed to explode. Private Chatterton, Olive Branch Division, No. 44. S. of who alone of the patrol was unwounded, returned to our lines for help. Sergeant Honderson started out at once with reinforcements, when the enemy retired and our wounded were brought in.

Rebellion in Dublin on the Wane

LONDON, May 1-All the rebels in Dublin have surrendered, and those in the country districts are doing likewise, according to an official statement issued this evening. The statement says: All the rebels in Dublin have surrendered, and the city is reported quite safe. The rebels in the country districts are surrendering to the mobile columns. There were 1000 prisoners in Dublin yesterday, of which 489 were sent to England last night. It is reported from Queenstown that hopes were entertained that arms would be handed in today in the city of Cork.

During the night of April 30-May 1, the rebels in Inniscorthy made an offer to surrender their leaders and their arms on condition that the rank and file be allowed to return to their homes. They were informed that the only terms that could be entertained were unconditional surrender. These terms were accepted by them at six o'clock this morning. It was reported later that the rebels were surrendering today on these terms. A column composed of soldiers and Royal Irish Constabulary captured seven prisoners in neighborhood of Ferns (County Wexford) today. Wicklow, Arklow, Dunlovin, Regenalstown and New Ross, nearly seventy years. Once more it and the counties of Cork, Clare, Limerick and Kerry are generally quiet. The

A TEMPERANCE APPEAL

The election for the repeal of the Scott Act last July resulted in a majority of over 800 for repeal. Later the liquor interests contested the validity of the election and the case of Edwards vs. King will come up for trial at the June session of the Supreme Court in Bridgetown. Lawyers Owen and Roscoe have the case for the Temperance Alliance.

A THOUSAND DOLLARS are needed at once to defend the action, Having defeated the rum party so handsomely at the polls, we cannot now afford to let them win out in the courts. We are confident that those who voted for the "Nova Scotia Temperance Act" will be willing to back up their ballot with a contribution. A. dollar from each temperance voter would be more than sufficient to raise the needed fund.

Recent temperance legislation has greatly enhanced the value of the Nova Scotia Act. The local government has passed the bill bringing Halifax under the operation of the Act after June 30, thus closing the rum shop of the Province; and the Doherty Bill of the Federal Government, making it illegal to ship liquor. into prohibition provinces and municipalities, has destroyed the one effective argument against the Nova Scotia Act, viz., that St. John and other outside places could ship liquor, into counties under its operation. Now we can have real prohibition under the Nova Scotia Act.

A whirlwind campaign is now on in the County to raise the thousand dollars needed to finance the trial. Collectors have been appointed in the different sections. Rev. H. R. Grant bit." Let the clergymen, churches and temperance organizations lead in this worthy work.

Send all contributions to the underless signed before May 15. REV. G. C. WARREN,

Sec.-Treas. Temperance Alliance. DEATH OF HAVELOCK H. BANKS

(Halifax Chronicle)

The death occurred on Saturday of Hayelock H. Banks, the well known commission merchant, for some years inspector in Halifax under the Liquor License Act. Mr. Banks was a native of Clarence, Annapolis County, and came to Halifax about thirty-five years ago and opened in the commission and produce business, which he discontinued for some years while he held office as inspector. On retiring from that office he resumed the business and also interested himself in the lobster canning industry on the Gulf shore. He was taken ill while on the way home from New York some weeks ago, but seemed to recover a little later on. A relapse followed however, It is now forbidden to speak the The clearance of the Germans from and, aggravated by nervous trouble, German language anywhere in Petro- East Africa is within sight. TESTING EGGS

as frequent as the successes.

Testing on the Seventh Day

While there is no means whereby we reject an egg at so early a stage. For practical purposes the sixth or seventh day is the best. There are several eggs at the end of the first week of informed very carefully indeed, since any roughness in handling cannot fail to have an injurious effect. The infertile eggs may be put to several uses. After a new laid egg has been in an incubator or under a hen for a week, it is still considerably fresher (By Rev. R. F. Greene in Poultry than those eggs that are termed "cookers" and it is, moreover, fresher than any of the so-called new-laids offered for sale in the retail stores. Another use to which infertile eggs may be put is for feeding the young chickens, it they are being reared under the moist and not under the dry system. The eggs should be boiled hard, mixed with biscuit meal, and moistened with milk. Another advantage of testing is that by this means space is so greatly economized. Say, for instance, four hens are set on the same day (a good plan to adopt whenever possible), and mediately reset. This is a more important point than many imagine, benight is no small consideration. In a similar manner with an incubator valfilling with fresh ones. The disadvantage of this is that chickens hatch of wood or some stout cardboard.

On the Nineteenth Day

Another test for fertility can be made on the nineteenth day. As a matter of fact, this is not of much service so far as determining whether an nineteenth day it is little use knowing this fact. The eggs are placed in a basin of water heated to about 100 degrees, and allowed to remain there- erb Single Comb White Leghorn. in for about half a minute. The eggs containing dead chickens sink to the bottom, while those containing live chickens float about on the top. If they are watched carefully they will be seen to jump about owing to the movements of the chickens within. This is not of much value as a test.

Testing for Freshness

Brave Dr. Liebknecht

"Public Opinion," of April 14th, quotes largely from the speech of the German Imperial Chancellor, in the Reichstag that it was not Germany but the Allies who initiated the war. He did not, however, succeed in gaining the approval of all who listenened to him. His speech was, indeed, punctured with applause by the large majority of that great assembly. But, one man, the brave Dr. Liebknecht, PROPRIETORS AND PUBLISHERS. the well-known Socialist member, at great personal risk registered his disapproval. The following are a few extracts from the speech, with Dr. Liebknecht's comments, and the angry expressions which the latter called

Why Recommended

"My case was very serious and I was so heard, however, that some interest sick that everybody expected my death any day. No suffering could ever be worse than I could feel at first the gravel passing through my bladder but now I am as stron as ever. I weigh about 20 lbs. more than when I started to take Gin Pills. I beg you to publish my letter so that people may know what Gin Pills had done for

me. The first box relieved me a good deal, eight boxes were sufficient to cure me entirely, and bring me back to perfect health. (Sgd.) ISIDORE THOMAS, Tillet Road Glen, N.B."

GIN PILLS are sold by all druggists. 50c. a box; six boxes for \$2.50.

THE GREAT BLOOD **PURIFIER**

"Fruit-a-tives" Cleans, Purifies, Enriches

Fruit juice is Nature's own remedy. "FRUIT-A-TIVES," the famous fruit medicine, keeps the blood pure and rich because it keeps the whole system free of impurities.

"Fruit-a-tives" improves the Skin Action; enables the stomach to digest food properly; makes the bowels move regularly; and relieves the strain on the Kidneys.

By its cleaning, healing powers on the eliminating organs, "Fruit-a-tives" rids the system of all waste matter and thus insures a pure blood supply.

50c. a box, 6 for 2.50, trial size 25c. At dealers or sent postpaid on receipt of price by Fruit-a-tives Limited, Ottawa.

HOUSE-CLEANING SEASON

This house-cleaning season is awful! It just seems a shame, so I say, To turn a nice house topsy-turvy, And float it in soapsuds each day, To pull the insides from the cupboards

To tear carpets up from the floors, To use pictures, chairs and pianos, To blockade the windows and doors. Now things disappear just like magic, Unless you hold onto them tight; And things that have been lost for

Are just being brought into sight. We missed baby's best shoes and

ages.

one.

And what do you think was their fate?

Packed down in an old rubbish barrel Way out by the back alley gate. One night pa fell over the ladder That some one had left near the door And he got so cross and disgusted He won't come to meals any more But 'tween you and me, dad's a wise

He don't want to come home to eat For fear, if the meal wasn't ready, He might have a carpet to beat. And grandma is all out of tune; The maid she is crosser than any, I hope it will end very soon.

STAGE COACH ETHICS

Many years ago Simon Peter Rich- Special. Open to All Grades: ardson, a noted Georgia Circuit rider, wanted to go from Gainesville to Dahlonega. The only means of travel was a stage-coach, Approaching the driver, the old preacher inquired "What do you charge to Dahlonega?" The driver replied, "\$2.50 for firstclass, \$2 for second-class and \$1.5 for third-class." Fearing the rough roads and desiring to be as comfortable as possible, the old minister paid

The moment the stage-coach started the first-class passenger observed next to him on the right a man whon he had seen pay second-class fare and next to him on the left a man whom he had seen pay third-class fare. He was much perplexed, and thought he had been imposed upor He decided, however, to wait until the end of the journey before he made complaint.

As the old coach jolted along the uncomfortable minister found himsel growing righteously indignant. H was wondering if he could contain his wrath to the end of the trip, when halfway up a steep hill, the coach stopped, with a sudden lurch, in much half-hub deep.

With a wholly serious face the driv er called back: "All second-clas passengers git out an' walk; all third class passengers git out an' push; a first-class passengers keep y'r seats.' And Simon Peter Richardson under stood.-Wightman F. Melton. "Christian Advocate," Nashville."

WHY SUGAR IS GOING UP IN PRICE

The economical housewife is fac ing a further advance in the price sugar and if the commodity keeps in its skyrocket course it may force the operation of his automobile. Both are essential for the pleasure each gets out of life. With the indications ahead for the further rise in the price of both sugar and gasoline, it looks very very much as if the methods of economy will have to be practiced in some direction to enable the continuance of the free use of either.

The reason for the advance and the strength of sugar is said to be the smaller Cuban crop this year. The latest estimate of the crop is nearly one million tons of raw sugar under the crop of 1915. Practically every European nation is drawing on the the supply of beet sugar usually produced in Europe has dwindled to a

BRIDGETOWN SCHOOL EXHIBITION PRIZE LIST

RULES AND REGULATIONS

All exhibits in the school department must be the bona fide production of the pupil. The parent may instruct the pupil but the pupil must do the work. The pupils' gardens and poultry must be kept separate and distinct from the parents' and the gardens so arranged that photographs can be taken of

them if so desired.

B. B. Genuine White Lead links up B. H. "ENG-LISH" PAINT with a supremacy record of nearly two centuries.

LINKS IN THE B.B. AND B.H. CHAIN

1729 saw the founding of the firm of Brandram Bros., the inventors of the Brandram Process of corroding White Lead,-a process that produces a lead that has been the standard White Lead of the world ever since.

In 1906 after handling Brandram's White Lead for many years, in the Canadian market, the firm of Brandram-Henderson

purchased the Brandram Bros. formulae and exclusive rights to manufacture it in Canada.

In 1909 the final link was forged when the firm decided to use B. B. Genuine White Lead in the manufacture of their B. H. "ENGLISH

PAINT and after practical tests and most careful research arrived at an exact formula guaranteed on every can under the President's signature. Thus was the chain completed.

The B. H. "ENGLISH" PAINT formula of 70 units of Brandram's B. B. Genuine White Lead and 30 units of pure White Zinc, in all tints and white with its ironclad guarantee, makes B. H. "ENG-LISH" PAINT the Quality-Service-Paint of Canada.
