THE CANADIAN POULTRY REVIEW

DEVOTED TO POULTRY, IN ALL ITS BRANCHES

PUBLISHED BY H. B. DONOVAN.

VOL. XVI.

118 VICTORIA STREET, TORONTO, NOVEMBER, 1893.

No. II.

NOTES AND COMMENTS

MR. ALFRED GEDDES, OTTAWA,

JUDGED the poultry section at the Almonte Fair and according to reports from local breeders gave the greatest satisfaction.

MR. GEO. C. PHILPOTT, MONTREAL,

won first on silver Wyandotte hen and first on pullet at Montreal, which we omitted when publishing the list of awards.

HAMILTON ASSOCIATION.

Owing to pressure of other business Mr. Richardson has been obliged to surrender his position as Secretary, and Mr. T. D. Murphy has been elected to fill the vacancy.

DELAY IN DELIVERY.

Mr. W. H. Reid, of Kingston, experienced rather hard lines at the recent Montreal Show. His birds arrived at 7 a.m., but were not delivered by the Dominion Express Co. till 10.30, too late for some classes which had already been judged.

"LOW COST POULTRY HOUSES"

is the name of a neat and practical little book on the subject conveyed by its title. The price is but twenty-five cents free by mail from the *Fanciers Review*, East Chatham, N.Y.

CORRECTIONS—TORONTO AWARDS.

For Webber in black Java hens, black Wyandotte hens and model poultry house read Webber & Robertson.

"FEW EQUALS, IF ANY." THEY ALL SAY SO.

"You may publish the following if you think fit in the next issue of REVIEW :

I inserted only one ad. in your exchange columns and four days after October number was issued I had my hands full in replying to so many queries about light Brahmas I had to exchange. I sent the birds to Mr. Geo. Bartlett, London, Ont., for black Spanish. Every poultry keeper should take the REVIEW. As a medium of advertising "it has few equals if any." Yours truly, Jas. H. White, Ottawa.'

MR. CARLOS A. SHARP,

the senior member of the firm of C. A. Sharp & Co., Lockport, N.Y., well known as importers, breeders and exhibitors of poultry passed away on Sunday, October 22nd. The cause of death was heart failure and the end came quite suddenly. It was not unexpected as Mr. Sharp had been ailing for some time. The business of the firm will be carried on under the old name by the two sons Orrimer K. and Frank S. Sharp.

AMERICAN POULTRY ASSOCIATION.

At the annual meeting in Chicago held during the World's Fair Show, the Hon. Sid. Conger, of Flat River, Ind., was elected President, and Mr. G. O. Brown, Baltimore, Md., Secretary-Treasurer.

NEW BREEDS ADMITTED.

The following new breeds were admitted to the standard which is to be revised and published by April next, buff Leghorns, buff Wyandottes, buff Plymouth Rocks, black, white and partridge Cochin Bantams, Malay Bantams and black and white Japanese Bantams. Rumpless and Frizzles were reinstated.

EXHIBITORS TO RECEIVE RECOGNITION.

An informal reception was held on October 21st in the Canadian pavilion Chicago, by their Excellencies the Gov-

enor General and Lady Aberdeen, at which we had the honor to be present. Mr. Barber and Mr. Daniels were the other exhibitors in the poultry section present, and amongst others were Mr. J. S. Lake, Canadian Commissioner, Mr. N. Awrey, M.P.P., Ontario Commissioner, Mr. Cockburn, M.P., Mr. Wade, Mr. Jones, &c. Lord Aberdeen spoke in flattering terms of the gratifying success Canadian exhibitors had met with in all departments and was sure the energy displayed would give an immense impetus to our outside trade and commerce.

EXHIBITORS TO RECEIVE RECOGNITION.

At the luncheon afterwards in the course of a brief patriotic speech Mr. Lark informed those exhibitors present that he was now devising some plan by which their efforts would be rewarded by the Government, but at present was not prepared to go further into details.

JAPANESE BANTAMS FROM JAPAN.

Amongst the contents of the Japanese exhibit in the Agricultural Building at Chicago were several stands of poultry neatly mounted. We noticed two pairs of Japanese Bantams one pair white the other black tailed, seemingly very low on the leg and with good tails and heads; some long tailed fowls, Shinawaratas, the cocks of which had tails ten and a half feet in length and one or two pairs of fair Indian Games.

MR. BROWNE ON THE SICK LIST.

We are sorry to hear that since Mr. Thos. A. Browne's return from Chicago he has been confined to his room through cold. We hope soon to hear of his complete recovery.

SEVENTY-TWO DOLLARS IN ONE MONTH, AND STILL COMING.

The following unsolicited testimonial from Mr. Wagner speaks for itself:

MIMICO, Oct. 31st, 1893.

Editor Review:—

I enclose some fresh advertisements which you will please insert under the heading of "For Sale." From the last ad. I had in your valuable number of Oct. I made cash sales to the amount of \$72. I must say I never anticipated anything like it. I had letters from all directions and still they come.

Yours truly,

CHAS. F. WAGNER,
Prop. Lake Shore Poultry Farm,
Mimico, Ont.

POULTRY

LIGHT BRAHMA BREEDING.

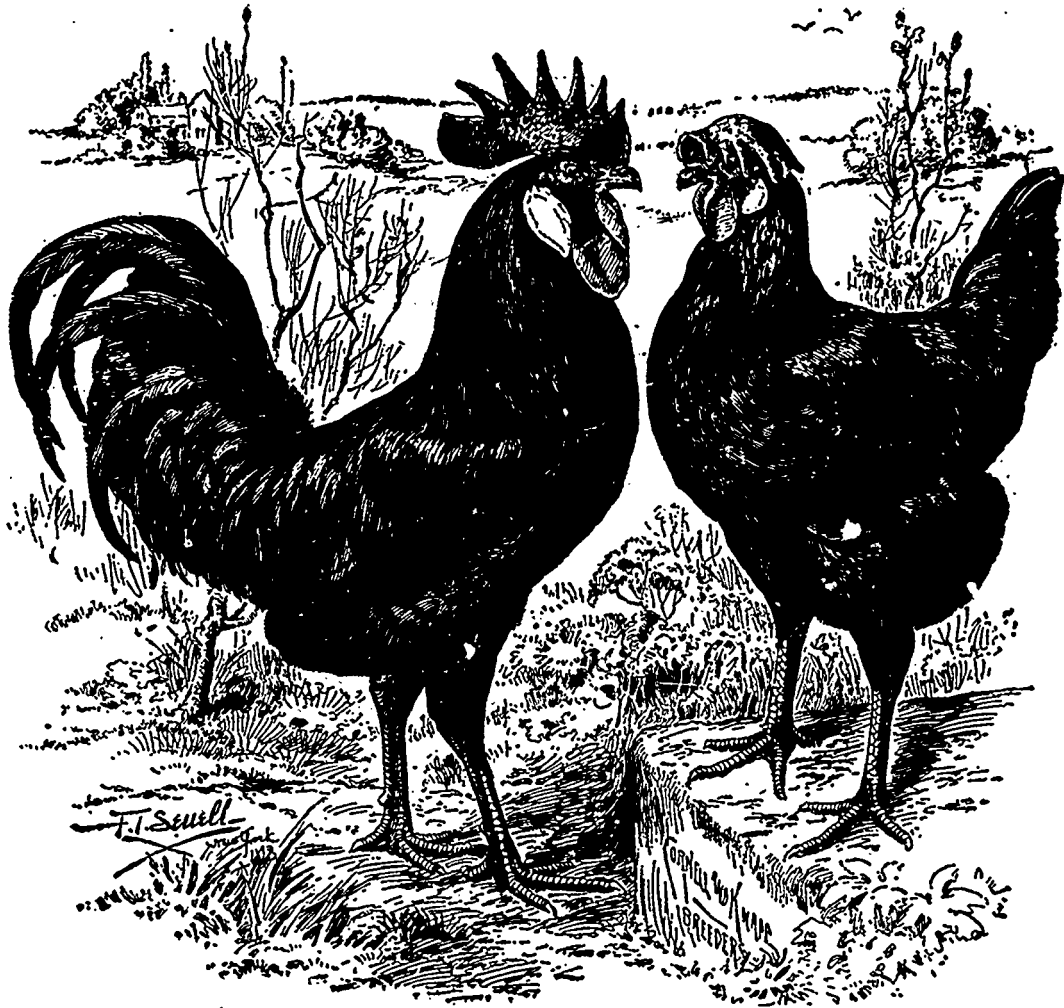

BY H. S. BABCOCK.

MR. Chas. W. Adams in the *Poultry Monthly* speaks of some light Brahma chickens which were nearly black when first hatched, he had five, four of which he raised, three pullets and a cockerel. He says of them "They are nice chicks every way, but are so dark in under color as to give them a bluish-gray appearance and the cockerel has black ticks in nearly all of the saddle feathers, some of them an inch long; he has very black wings and the leg and toe-feathering is mostly black." He asks "Should I consider them as culls, or as valuable to mate with good birds that lack in color of wings, tails and hackles?"

I wish to use the above as a text upon breeding light Brahmas.

The beauty of this breed is greatly enhanced by the brilliant black in the hackles and in the tail, contrasting with the white edging of the hackles and the coverts of the tail. There is a strong tendency in the breed to lose the brilliancy of these black markings, so strong in fact that by taking advantage of it and using only the birds which have the least black in them, in a few generations pure white Brahmas can be bred, as they have been. The problem of the breeder, then, is how he shall keep up this brilliancy in the black markings and at the same time prevent the black from creeping up into the web of the feathers of the back, showing on the surface where it should be pure white and disqualifying the specimen. And this problem is solved by using one sex with dark undercolor. Just such birds as Mr. Adams describes, though apparently now too dark for exhibition purposes, mated to the opposite sex with pure white undercolor and weak in flights and hackles, will produce admirable results. Such birds are not to be regarded as culls, but as of great value to the breeder whose stock is failing in color.

A few years ago I judged the fowls at Augusta, Georgia, a gentleman there showed some beautiful light Brahma pullets, so far as surface color was concerned, but they failed badly in the flights, and the hackles were short of the desired amount of black. He told me that it was impossible,

OWNED AND BRED BY E₂RA CORNELL,

ITHACA, N.Y.

in that climate, to breed good black in hackles and wings. I thought differently, and told him I believed I could procure for him a cockerel that would correct this defect. He commissioned me to do so, and on my return home I went to the yards of Mr. Russell M. Joslin, since deceased, who had a nice stock of light Brahmas and examined the cockerels he had, I found two that would answer my purpose, one of Mr. Joslin's breeding and one bred by Mr. I. K. Felch. The Felch bird was a little the better of the two and I tried to purchase him, but he was not for sale. I then purchased the other bird and shipped him to the Georgia gentleman.

The next year I again judged at Augusta. As I came to the class of light Brahmas I found a collection of pullets that were almost perfect. The hackle stripes were brilliant black, the wings and tails were strong in color, and as the birds were otherwise admirable, they received a high score. When the cards were put up I found that these pullets belonged to the man for whom I had purchased the cockerel the preceding season, and on inquiry learned that they had been bred from him. This cockerel had a very dark under-color, beautiful stripes in hackle, flights that were mainly solid black, very black tails, and was indeed, throughout a very dark bird. He proved to be exactly what this Georgia gentleman needed for his stock.

Another light Brahma exhibitor at this show, seeing the excellent pullets that this bird had begotten, tried to purchase him from the owner, but found that twice the price that was paid for him originally would be no inducement to the owner to part with him, and yet this bird was not a show bird, would not score very high, and for exhibition purposes was far from valuable. But as a breeding bird, his chickens proved that he was extremely valuable and his owner prized him accordingly.

One thing more, such very dark chickens as Mr. Adams describes, though valueless for exhibition purposes now, may be very valuable exhibition birds another year. The tendency in light Brahmas is to grow lighter in color with each succeeding moult. Many old fowls lose considerable in their scores because of this tendency, though beautiful as chickens they have lost as fowls the proper proportion of black, and hackles, wings and tail show too much white. These very chickens of Mr. Adams, though having a superabundance of black now, may with age obtain exactly the right proportion and be able to win over the specimens which to-day are properly regarded as their superiors. Were they mine I should prize them first of all as breeders, and secondly as the probable winners as fowls, among my stock.

POULTRY SAYINGS.

CHICKS hatched in September will taste good in January and are not half the trouble to raise most people suppose.

Broilers cost 10 cents per pound and rarely drop below 20 cents in the best markets.

No matter how great your reputation as a fancier, drop your advertising a single year and you will lose it.

There is just as much in the poultry business as you have the patience and industry to make out of it.

The light Brahma is one of the best all year layers in spite of its great size. It is a good way removed from the Cochin.

The perfect all-purpose fowl is yet in the future but Wyandots and P. Rocks approximate the ideal.

The greatest growth in the shortest possible period of time is the result to be sought in a market fowl.

"BUCKEYE."

DO CAPONS PAY?

BY F. M. CLEMANS, JR.

IT is not likely that capon raising will ever be a great industry in this country. It has not been sufficiently shown that there is any profit in the business. They must be kept so long before marketing that the extra cost of feed balances or more than balances the difference in price. Besides, the market is limited, and it is doubtful if the ordinary consumer could tell the difference between a capon and a good plump pullet on the table. The operation is in itself very cruel not to say barbarous. The idea of comparing the caponizing of a cockerel to the castration of a pig or sheep is ridiculous. The operation on the latter animals is comparatively painless, while in operating on a fowl the most important organs of the bird are uncovered, entailing great danger and suffering. We have seen articles by parties claiming great profits for the business, but investigation generally traces such articles to those having caponizing instruments to sell.

A writer in the *Fanciers' Journal* coincides with above opin-

ions strongly and gives his experience (and experience is the true teacher,) as follows:—

“The good results that were to crown our labors, being of the opinion that if we would take the same birds and feed them properly after separating them from the hens we would get as good results. We took a light Brahma-Plymouth Rock cross and caponized six of them. At the same time we took six of the same cross, separated them from the pullets and fed them on food that we thought would make them grow rapidly and take on flesh. After three or four days we fed the caponized fowls exactly the same as those that had not been operated upon, and as I had predicted at the start the ones that were not caponized weighed heavier than the ones that were.”

Not a very good showing for the result of a painful operation. It is yet to be shown that caponizing is a success financially, and until demonstrated it is not an experiment for beginners to go into.

EASTERN ONTARIO POULTRY AND PET STOCK ASSOCIATION.

THE annual meeting of the above Association was held in the Exhibition Office, on Thursday evening, Sept. 28th. Present Alex. Stewart, President in the chair, Messrs. C. J. Devlin, E. Daubuey, Jas. Jacques, H. Cawdron, J. I. Gill, E. Edwards, Geo. Higman, John Mason, E. A. Connell, E. H. Benjamin, Thos. Murphy, S. Short and F. Auclair, of Ottawa and A. Morden and C. J. Daniels, of Toronto.

Minutes of last annual meeting were read.

The Treasurer then read his report showing a small balance to the credit of the Association, which was received and referred to the Auditors.

It was moved, seconded and carried that the Secretary be instructed to order two hundred pigeon coops, from England, same as sample exhibited at previous meeting.

The election of officers then took place for the ensuing year with the following result:—Hon. President, O. A. Rocque, Orleans, P.O.; President, Alex. Stewart, Hintonburg; Vice-Presidents, G. S. Oldreive, Kingston and Geo. Higman, Ottawa; Treasurer, E. A. Connell, Ottawa; Secretary, Alfred Geddes, Ottawa; Committee, E. H. Benjamin, C. J. Devlin, E. Edwards, J. I. Gill, John Mason, Thos. Murphy, W. G. Gray, J. Jacques and S. Short. Auditors, E. H. Benjamin and E. Daubuey.

The following motion was then carried unanimously, “That a hearty vote of thanks of this meeting be tendered Mr. A. Noden for the very able manner in which he has dis-

charged the duties of judge at the Central Canada Exhibition just held.” To which Mr. Noden made a fitting reply.

The meeting then adjourned.

ALFRED GEDDES, Secretary.

THE TORONTO POULTRY, PIGEON AND PET STOCK ASSOCIATION.

REGULAR monthly meeting of the above Association was held in Temperance Hall, on Thursday evening, October 12th, the President, Mr. Charles Bonnick, in the chair. There was a fair attendance of members.

The minutes of the previous meeting were read and confirmed. Several accounts were passed and ordered to be paid.

The Executive Committee reported re the International Decimal Score Card Association recommending that no action be taken with regard thereto owing to the fact that the Association had by resolution placed itself on record as in favor of comparison judging.

Moved by Mr. Brown, seconded by Mr. Durston, that the consideration of the report be left over until February next, after the exhibitions of the Ontario and Montreal Poultry Associations which are to be held in January. Carried.

Moved by Mr. Donovan, seconded by Mr. Davies, that the Secretary write the Manager of the Industrial Exhibition Association to the effect that this association respectfully suggests that it is not in the interests of the Industrial Exhibition that caretakers or superintendents should be allowed to exhibit as was done at the last Exhibition. Carried.

Moved by Mr. Duff, seconded by Mr. Donovan, that the Secretary also be requested to write the Manager of the Industrial recommending that in future the poultry building be thoroughly disinfected during the Exhibition. Carried.

Moved by Mr. Otter, seconded by Mr. Coulter, that the next meeting (November 9th) take the form of a supper, and that Messrs. Barber, Bonnick, Duff and the mover be a committee to arrange all the details. Carried.

The following were the prize-winners:—Canaries, Scotch Fancy, cock, 1st J Powell, Norwich, cock, 1st J Powell, hen, 1st J Powell; A.O.V., cock, 1st J Powell. Pigeons, Turbits, Owls, Nuns and Jacobins, cock, 1st and 2nd W Fox, hen, 1st and 2nd W Fox; Poultry, W. C. W. and W. C.B. Polands, cock, 1st J Brown, hen, 1st J Brown, G. S. and buff Polands and Houdans, cock, 2nd J Brown, hen, 1st J Brown.

The meeting adjourned at 9.30. Receipts, \$1.80.

THOMAS A. DUFF, Secretary.

RICHMOND, (P.Q.) FAIR.

From our own Correspondent.

THE following is a correct prize list of the above show. It is a pity our fanciers in the province do not make larger exhibits at the above show and so force this import-

ant part of the interests of our province on the attention of the public.

WORLD'S FAIR SHOW.

IT was a big one no doubt, but not as large as we expected and but for the Canadian entry would have in many classes been very slim indeed. The transportation arrangements for the Canadian exhibit were bad, could not be much worse. The Toronto birds left on Wednesday morning and did not arrive in Chicago till Sunday morning, the attendants having a terribly rough time of it, no passenger car having been attached. The exhibit was sent forward in seven cars and one man was detailed to look after and feed the inmates of each car. Several deaths occurred owing to the long confinement and knocking about and more are sure to follow. The superintendent, Mr. A. Bogue is not to blame for this, as he states that until the last moment he was kept entirely in the dark as to the arrangements made.

The birds were penned by the well-known firm Spratts Patent of New York, under the superintendence of that prince of hustlers, T. Farrer Rackham, ably assisted by his lieutenant, Murphy. The buildings were very poor, the large cattle barns dark and open to "the breeze that blows," not always mildly in Chicago.

Mr. George Seeger, Jr, made an admirable superintendent and was affable and kind to all with whom he came in contact, and who needed his attention. It was impossible

GEORGE SEEGER, JR.

Lafayette, Indiana, U.S.A.

for a man to be more obliging and any defects in buildings or details were certainly not due to him: On Monday October 24th he was presented with a gold medal, subscribed for by the exhibitors and judges, and suitably engraved. Mr. J. H. Drevenstedt read the following address:—

"At the request of the Exhibitors and Judges at this great Columbian Exhibition of Poultry and Pigeons, I am instructed to present you with a gold medal, suitably inscribed with words that fully and heartily represent the feelings of every one of us. We are aware that your path has not been strewn with roses, but the few briars that have been hurled at you, glanced off like the proverbial water on a duck's back.

As an Eastern representative, I wish to voice the feelings of all exhibitors and judges in that section of the United States, in stating that they heartily commend the action of Chief W. I. Buchanan, in appointing you to the Superinten-

dency of the Poultry and Pigeon Department, of the World's Fair Poultry and Pigeon Show. Your many Western friends, it is needless to say, have long ago acknowledged your fitness for the position, and now that the East, West, North, South and Canada are united here as one grand fraternity of Poultry and Pigeon Fanciers, they all unite in thanking you for the gentlemanly and courteous manner in which you have treated every one, no matter how provoking the question, nor how unreasonable some of us may have been. We shall never forget the great Columbian Poultry and Pigeon Show, and its genial, honest and faithful Superintendent. I take pleasure in handing you the order for the medal, which will be delivered to you on Thursday, October 26th."

Mr. Seeger, who thoroughly appreciated the honor replied as follows:—

"This is, I assure you, a great surprise, and coming as it has, gives me one of the greatest pleasures of my life. It was my intention to call as many of the fraternity together as possible, and extend to them my kindest regards, but Mr. Drevenstedt has beat me—he must have got on to my arrangements.

Gentlemen, my motto has always been "fair treatment to all," and, as Mr. Drevenstedt said, my path has not been strewn with roses, but I have made the best of anything that came before me, and, with just one exception, have not lost my temper. You all well know the circumstances pertaining to it. I have tried hard to please all, and believe I have succeeded. I have done somethings, which should the same come up again I would probably do differently, but taking the matter as a whole very little complaint has come to me, and above all things not a complaint has been made that is against any judge's decision. This I most heartily compliment the exhibitors on. I hardly think the entire honor for the success of this exhibit is due to me alone. Mr. Twells, my assistant, has worked hard, and with his experience has been a wonderful help to me. Chief Buchanan has given this department considerable attention; also Col. Mills, who has had a great amount of experience in the Live Stock Show business, has been a very good adviser, and taking the matter as a whole, I never received better treatment than I have at the hands of the entire Live Stock force. Gentlemen, I thank you."

We can heartily respond to Mr. Seeger's praise of Mr. Twells who was indefatigable and invariably courteous. Amongst the Canadians present we noticed Dr. J. S. Niven, W. McNeil, A. Bogue, Thos. H. Browne, J. H. Saunders, R. Oke, Geo. G. McCormick and D. Bogue, London; L. G. Jarvis, Port Stanley; S. Butterfield, Windsor; W. Barber, C. J. Daniels, R. Burroughs, Toronto; Eli Griffiths, Strathroy; Rev.

Hare and F. C. Har, Whitby, and M. E. Mitchell, Milton.

The birds were scored, but as at this time of year, especially on old birds, the scores are of little value, we omit the figures. It took twenty-three judges about eight days to do the necessary work, the reports required by the bureau taking up most of the time, it was painfully slow. The name of the judge who officiated on each section is given in the list of awards.

The Canadian birds were invariably successful in their respective classes as the list will show and in some of the varieties distinctly American—take Javas for instance—out-classed our friends to the south entirely.

SALES.

Sales were numerous and at remunerative figures. The Hon. F. Moria, Commissioner for the Government of Salvador, was deputed to purchase stock of all kinds and bought as follows:

From Mr. McNeil, pens of buff and white Cochins, white crested black, golden, silver, white and buff laced Polands, golden spangled, golden pencilled, silver spangled and silver pencilled Hamburgs, Houdans, La Fleche, golden and silver Sebright, Japanese and Pekin Bantams, and black red game Bantams; Indian Games from Thornton & Son St. Thomas; dark Brahmas from L. Sage, London; white Turkeys from W. M. & J. C. Smith, Fairfield Plains and Toulouse Geese from Mr. Hurd, Strathroy, white Geese from A. Thompson, Allan's Corners, Que.; several pens of Games and Game Bantams from W. Barber & Co. Toronto; Angora Rabbits from Mr. Saunders, London; Dutch and Himalayan Rabbits and Peruvian Cavies from H. B. Donovan, Toronto; light Brahmas from Mr. Saunders, silver spangled Hamburgs, Creve Coeurs, golden, silver and English Pheasants from Mr. R. Oke, London; Red Caps, golden Wyandottes, Langshans and black Leghorns from Mr. C. J. Daniels, Toronto; Silkies from Mr. C. S. Jackson, International Bridge.

Mr. C. J. Daniels sold his pen of White Javas to Mr. T. Farrer Rackham, New York. Mr. McNeil sold a pen of buff Cochins to Armour & Co. Chicago, for future delivery. Mr. Oke sold a pair of young Golden Pheasants to a gentleman in Vermont.

Mr. C. J. Daniels bought all Mr. C. McClave's white Javas, including the pen, cockerel and pullet winners of firsts.

We must apologize for REVIEW being a few days late this month owing to our absence at the World's Fair and a desire to give a complete list of awards at the earliest possible moment of that show.

Pigeon and Pet Stock Department.

NOTES.

ABOUT 200 hundred pigeons were shown at Brantford, including some really good ones, Messrs. Fred Wright, and J. C. Montgomery, Brantford, and J. C. Stockwell, London, were the principal exhibitors and prize takers.

While at the Chicago Show Mr. H. B. Donovan, Toronto, sold to Mr. James Hill Jr. of Cleveland, Ohio, a well-known breeder, of short-face Tumblers, the agate short-face cock and self-yellow hen first in their respective classes, the price paid being fifty dollars. They are both fit to win in any company.

Mr. Donovan also sold to the Government of Salvador through their Commissioner the Honorable F. Moria, a pair of Peruvian Cayes for twenty dollars, and a pair each of Himalayan, and Dutch rabbits, at ten dollars per pair. Each pair had won a first prize.

HINTS FOR BEGINNERS ON THE KEEPING OF FOREIGN BIRDS.

(Continued from last month.)

REW birds—If you are wise, you will keep your birds in pairs. As a rule, obtain your birds direct from the dealers and as soon after their arrival in this country as possible. Be suspicious of puffy and overtame birds. See that they are sound in feet, wings and beak, and that they have not been pinioned, *i. e.*, have not had the end of the wing cut off at the joint most remote from the body. Some dealers always pinion many kinds of birds, as it makes them tame, *i. e.*, takes the heart and life out of them. Such a practice is defensible in the case of some ground birds and water-fowl which are given a home for life at such a place as the Zoological Gardens; but, as a general practice, it is barbarous and abominable. I once came across a pinioned Goldfinch, and I have in my possession at this moment a specimen of the rare and beautiful *Trichoglossus ornatus*, with both wings mutilated, and consequently hopelessly ruined. There is

no fixed price for Foreign Birds. The prices differ according to the time of the year, the number in the market, and the fancy of the dealer, who frequently does what he can to drive away custom by charging beginners exorbitant prices. There are advantages in keeping common birds. You can obtain good specimens, and in pairs; and if you lose one you can replace it without much difficulty, and at little cost. Some of the rarer kinds are very difficult to obtain, especially in pairs, a lost bird can hardly be replaced at any price, and you have to pay fancy prices often for very bad birds. Many interesting varieties, common in their own country, are rare here because there is a little demand for them. Dealers have to study the fashions.— *Fur and Feather*
