CURRENT TRADE CONDITIONS.

ONTARIO.

There are few new features in lumber circles to record. General conditions are satisfactory but business is on a conservative basis. Some consumers are postponing the placing of orders in the belief that the time has come for a reaction in prices. This disposition, however, has not impaired the firmness of values, and it is doubtful whether the buyer will be offered a greater inducement than is represented by current prices. Shipments to the United States are quite active. During the first seven months of this year there were exported to that country 313,000,000 feet of lumber and 365,186,000 shingles. While these figures represent a slight falling off in trade as compared with the corresponding period of last year, they indicate also a highly satisfactory volume of business. A comparison of prices shows an advance of about 60 cents per thousand feet in the price of lumber in favor of this year. The report from Ottawa that manufacturers are asking an advance for next season's production of deals is of an encouraging character. It is impossible to obtain the required number of men for logging operations, and it is probable that the production of logs this winter will be considerably curtailed from this cause. Doubtless the probability of a diminished production is the basis of the present asking prices for lumber of next year's manufacture. One or two of the Georgian Bay firms are said to be offering such grades as common and dressing at a slight concession, but this is the only instance of retrogression that has been heard of, and it is probably due to the relative dullness of the intermediate grades. These no doubt will firm up in due course.

There is not the slightest indication of any weakness in the hardwood list. There are many buyers throughout the country and the consequent competition has a tendency to bring about higher prices. Basswood and birch have been bought quite heavily.

Shingles are showing a little more activity, but prices are no stronger. An advance is not looked for at the present time, as persons are not anxious to buy heavily for stocking up purposes.

QUEBEC AND NEW BRUNSWICK.

Nothing has occurred within the past week to disturb the spruce market. Lumber is going into consumption locally in considerable volume and stocks are being picked up for export. New York is paying high prices for spruce, the settlement of labor troubles in that city having

been followed by a heavy demand for lumber of all kinds. The cedar shingle market has not yet shown signs of improvement. There seems to be more shingles offering than the market is capable of absorbing, and until confidence is restored prices are likely to be unsteady. Extras are selling at from \$3.35 to \$3.45 on Boston rate of freight.

MANITOBA AND BRITISH COLUMBIA.

Lumbermen in Manitoba and the Territories have every reason to be satisfied with trade conditions, both present and prospective. On all sides there are signs of prosperity. Harvesting is in full swing and the yield promises to be greater than was estimated one month ago. Building activity in Winnipeg continues. Up to August 31st of this year the aggregate value of new buildings erected was \$4,181,450, an unprecedented record which clearly indicates the large consumption of lumber in that city. Prices generally are firm. The saw mills and sash and door factories in British Columbia are busy, largely on orders for the provincial markets. No decision has as yet been reached as to the resumption of operations by the shingle mills, but it is understood that an agreement has been entered into relative to the allotment of the cut among the various mills. The amount of the daily cut will be fixed according to the capacity of the mills. In this manner it is hoped to prevent a recurrence of an abnormal accumulation of shingles.

UNITED STATES.

Such buying of white pine lumber as has been done during the past fortnight was largely for actual needs. That it has been sufficient to prevent a marked accumulation of stock at the mills signifies an average consumption. When speculative purchases shall become the rule, the consequent increased activity will produce a more hopeful feeling. Given an average yield of wheat and corn as now seems likely, a continuance of the country's prosperity for another year would be assured, and with it a normal demand for lumber at good prices. The high grades of white pine are accumulating to a greater extent than the lower grades, which are selling very readily. At Lake Erie wholesale points the supply of Norway framing dimensions and timber is short and dealers are looking for such stock with some anxiety. Norway lumber has improved in almost every market and there is ground for believing that it will command higher prices in the near future. Mill culls and box lumber are wanted throughout the Saginaw Valley. Buffalo and Tonawanda dealers report bright prospects for future trade. As a rule stocks in these centres are light and general conditions very satisfactory. Any uncertainty which exists is confined to the higher grades of pine, and as these can-

not be produced in large quantities, there is little fear of a heavy accumulation.

All kinds of hardwood lumber are in demand. There does not seem to be a surplus anywhere, the current trade keeping all the available lumber in motion. The demand for basswood, maple, white ash and birch is strong. Basswood brings \$40 in the Buffalo market, and elm \$33. Boston reports a slightly easier market for hardwood, in contradistinction to advices from other places.

GREAT BRITAIN.

The prevalence of wet weather in Great Britain has not been conducive to an expansion in the lumber consumption. Buyers consider offers in an apathetic manner and apparently will only purchase stock when in actual need of it. Predictions are rife, even at this early date, that lower prices will rule during next year, these being based usually on the large stock of Baltic lumber that has not yet passed out of first hands. Nevertheless, nothing but encouraging reports come to hand regarding the present position of Canadian lumber. A Liverpool correspondent states that although the consumption of waney and pine timber has been checked somewhat by high prices, a lower range of values is not likely to be established, but on the other hand prices are likely to advance when the higher rates of insurance for autumn shipments set in. The same remarks apply to Canadian pine deals and boards. The control of these is in few and strong hands. In spruce deals the position is as strong as ever. Shippers have very little stock to offer and indications point to a steady if not an advancing market for spruce deals until the close of the shipping season from the New Brunswick and Nova Scotia ports. At Cardiff spruce deals and floorings are held at advanced figures, in consequence of the quantities offering being much less than is usual at this period. A Bristol report says that the stock of spruce deals is lower there than ever before. At the present time conditions seem to favor the seller, and unless there should be a sharp falling off in the consumption, there seems little reason to expect that prices for Canadian lumber in Great Britain will not be as high next year as they have been during the past.

STOCKS AND PRICES.

The barque Alert is loading lumber at Digby, N.S., for South America, for account of Clarke Bros.
B. Connor, of Alma, N. B., recently purchased timber property from E. Wilson and will operate a rotary mill.
William Button, of Wingham, Ont., has recently purchased a lot of standing timber, chiefly hard maple and hemlock, in the vicinity of Creemore, Ont., which he will likely log during the coming winter.

William Margach, Crown Timber Agent at Rat Portage, Ont., states that lumbering operations in the woods this winter will be larger than ever.

The steamers Ovidia and Drot are loading deals at Montreal for the United Kingdom, the latter being destined for Sunderland and Dundee.

George McKean, of St. John, is reported to have purchased 7,000,000 feet of lumber from the Nova Scotia Lumber Company at Walton, N.S., probably for export to Great Britain.

The Saginaw Lumber & Salt Company have received 29,000,000 feet of pine logs this season at their mill at Sandwich, Ont., and have another raft of 2,500,000 feet yet to come down.

Eastern spruce boards in the Boston market range from \$13.50 to \$15. Pennsylvania No. 2 boards range from \$15 to \$16, with a decreasing demand for No. 1 at \$18.50 to \$19.

J. P. Mosher, who is manufacturing the cut of logs got out last winter at Musquash, N.B., by Knight Bros., has already sawn 1,200,000 feet of lumber and 800,000 laths. A cargo will be shipped to Great Britain this fall.

In Chicago hemlock short piece stuff is selling at \$12 to \$12.50; long lengths bring from \$1.50 to \$2.50 more than the prices of short. Norway piece stuff is held at \$16 to \$16.50 for short lengths and \$17.50 to \$19 for long. White pine common inch lumber is held by the cargo at \$20 to \$21. Cedar shingles by the cargo are \$2.60 to \$2.70, and standards \$2.20 to \$2.25.

A small quantity of pine and spruce deals were sold at the last auction sale held by Foy, Morgan & Company, London, England, on August 25th, bringing the following prices: Third quality spruce, 3x8, £7 15s per std.; 3x7, £7 10s; 3x6, £7; fourth quality, 3x9in. £8 15s. Pine—13 ft. 1 1/2 x 9in. C quality, £11 15s and £11 10s. Some pine doors from New York, 6 ft. 6 in. x 2 ft. 6 in. x 1 1/2 in., brought 4s 6d each.

A report from Minneapolis, Minn., states that the red cedar shingle situation there is not promising. The dealers had been selling on a five cent. margin, which all declared too low, but when a five cent drop was registered on the coast the Minneapolis market followed suit and in some cases has even gone further. The proposed pool arrangement of the west coast mills is the only thing which can restore strength to the market.

Slack cooperage staves and heading are advancing in price. The supply is very light, considering the demand that is expected soon. The shortage is largely on account of the lack of men to get out logs. At Buffalo the price of hoops is \$9.75 to \$10 for coiled 5 1/2 foot, and \$10.50 to \$10.75 for 6-foot with hickories

\$6.75 to \$7. First-class elm staves are \$10 to \$10.50, and second-class \$7 to \$7.50; basswood heading 7 1/2 cents for first-class, and 5 cents for second-class.

Following is a comparative statement of timber, etc., measured and culled at Quebec up to September 1st as furnished by the Supervisor of Cullers:—

	1901	1902	1903
Waney White Pine	984,375	1,591,600	1,420,000
White Pine	412,112	398,600	318,000
Red Pine	77,790	60,080	52,000
Oak	375,432	527,760	772,000

Tamarac	198
Birch and Maple	306,842	164,800	195,600

Several timber berths were sold at the Crown Lands office, Fredericton, N.B., last week, as follows: Two square miles on mouth of Crystal Brook, Nepisquit river, to J. H. Barry, at \$9 per sq. mile; 4 1/2 miles on Never's Brook, branch of Canaan river, to T. B. Winslow, at \$52 per mile; 2 miles at head of Gibson Brook, to George W. Marster, at \$15 per mile; 2 miles on south side Shediac river, to J. H. Barry at upset price; 2 miles on Salmon river, to D. Duffy, at \$17 per mile; 3 miles on north branch of Oromocto river, to South Bros., at \$82 per mile.

The last report of the Barbados lumber market says: "Arrivals have been the "Leity M. Hardy" from Halifax, N. S., with 77,000 feet of white pine, and the "Lady Napier" from St. John, N. B., with 85,000 feet, which, owing to some of the dealers being quite bare, and stimulated by the probable demand from Martinique and Jamaica occasioned by the hurricane which has visited those islands, was sold at the very high price of \$25.40 as it runs. Further receipts would do well. No arrivals of spruce have taken place, but in view of the high price of white pine a cargo should bring good prices. The cargo of shingles by the "Bravo" was sold at \$5.09 to \$5.20

THE OTTAWA VALLEY.

(Correspondence of the CANADA LUMBERMAN.)

The one absorbing and prevailing topic in lumber circles is the scarcity of men, and it is not all talk either, for lack of help is proving a serious business in the yards and on the limits too. The late harvest in Quebec and Ontario and the prevailing high rate of wages drew the men to the fields and they are not available for the limits and mill yards. Of course, matters will improve as soon as the harvest work is nearing a close. Railway agents and mill men say that large quantities of lumber are lying in the yards awaiting shipment, but tied up for the reason that men cannot be secured to load it. One dealer this week offered three dollars a day, but could not get men to load a rush order. It is a big jump from eight or nine dollars a week in a mill yard to thirty dollars a month and board on a farm, and the unskilled laborer naturally prefers the latter.

For a similar reason, as has been remarked before, it is difficult to get men for work on the limits. The Georgian Bay firms are offering in Ottawa as high as thirty-five dollars a month and board for axe men. Local firms naturally do not welcome this intrusion, as it means increased outlay for them. Men are being forwarded almost daily from Ottawa, Thurso, Buckingham and other points to the Georgian Bay and Soo country. A firm operating near the Soo is said to have

gone as far in its search for men as to have secured the release of six prisoners from the County jail. The aggregate amount of the fines, \$50, will be deducted from the men's wages in the woods.

Many inexperienced men are finding their way to the lumber camps. Gruesome proof is given by the records of the local hospitals. Almost every day for the past fortnight, disabled novices at the log-making business have been brought down, a foot or a hand having been chopped instead of a tree. To-day there were four such cases. Yesterday a local lumberman rejected five of eight men offered for work in the woods.

Already calculations are being made on the quotations on next year's cut of deals. It is safe to say there will be an advance of from five to ten per cent., made necessary, so the operators say, by the advance in wages and the inferior class of labor offering. What will have to be taken as a good day's work this year would not have been accepted a few years ago.

Fraser & Company's new mill at Deschenes, above Ottawa, will be running full blast in a few days. The firm figures on cutting about five million feet of lumber this season.

Damage to the extent of \$1,000 was done a few days ago in the Shepherd &

the exports were 490,571,000 feet and the valuation \$6,343,865. Thus we see that within three years there has been a notable gain in respect to both exports and the price at which lumber has been sold. Of course the increase of value has resulted from the rise of prices in the United States and has been in conformity therewith. The lumber consists predominantly of pine and spruce, and prices therefore have naturally followed those of the same kinds of lumber in the United States. The increase of exports in the last fiscal year over exports of the previous year amounted to 54,410,000 feet, and over the fiscal year ending June 30, 1901, 228,305,000 feet. Thus the increase in three years has been a fraction over 31 per cent. It is probable that the increase of lumber sale, movement and consumption has correspondingly increased in lumber derived from domestic sources; that is, that stock exported from Canada has shared in the result of the general prosperity which prevailed.

THE BOSTON MARKET.

Spruce lumber is quiet at Boston but prices are steady: Ten and 12 in. dimensions, \$21; 9 in. and under, \$19; 9 and 12 in. random lengths, 10 feet and up, \$20.50; 2x3, 2x4, 2x5, 2x6, 2x7 and 3x4, 10 feet and up, \$17 to \$17.50; all other randoms, 9 in. and under, 10 feet and up, \$18 to \$18.50; 5 in. and up, merchantable boards, \$17; matched boards, \$18.50 to \$20; out spruce boards, \$13 to \$14; bundle furring, \$17.
 There is no change to note in hemlock, the market being quiet at quotations:

Boards 12, 14 and 16 feet stock, \$14.50 for good eastern; Pennsylvania, No. 1, \$18.50 to \$19.50; No. 2, \$15 to \$16.50. There is a steady demand for western pine, and prices are firm: Uppers, 1 to 2 in. \$84 to \$87; 2 1/2 to 3 in. \$92 to \$97; 4-in. \$96 to \$100; select, 1-in. \$70; 1 1/2 to 1 3/4 in. \$76 to \$78; 2-in. \$78; 2 1/2 to 3 in. \$84; 4-in. \$86; fine common, 1-in. \$67; 1 1/2 to 1 3/4 in. \$69; 2-in. \$72; 2 1/2 to 3 in. \$80; 4-in. \$82; barn boards, \$23 to \$33; coffin boards, \$28 to \$32.

Hardwoods are generally easier, except for the best quartered oak: Quartered oak, \$75 to \$83; plain oak, \$42 to \$45; common and rejects, \$20 to \$25; red oak, plain, \$43; white-wood, \$51 to \$53; sap, \$43 to \$48; common, \$38 to \$45; brown ash, \$41 to \$44; white ash, \$43 to \$46; maple, \$33 to \$37; eud dried white maple, \$46; birch, \$27 to \$30; birch, 75 per cent. red, \$45 to \$50; northern elm, \$29 to \$31.

The slightly improved demand for red cedar shingles continues, but ordinary eastern stock is, if anything, easier: Extra cedar, \$3.35 to \$3.45; clear, \$2.85 to \$2.95; second clear, \$2.30 to \$2.35; extra No. 1, \$1.50 to \$1.70; British Columbia red cedar, 16-in. five butts to 2-in., \$3.40 to \$3.45; 18-in. five butts to 2 in., \$3.70; five butts to 2 1/2 in., \$3.85 to \$3.95.

Clapboards are steady and unchanged: Extra, \$45; clear, \$43; second clear, \$40; extra No. 1, \$30.

The number of mills putting their slabs into pulp is constantly increasing, and the result is a stiffening market for laths: One and five-eighths in., \$3.15 to \$3.25; 1 1/2-in., \$3.10 to \$3.15.

TRADE OPENINGS.

The following were among the enquiries relating to Canadian trade received at the Canadian Government Office in London during the week ending 28th August, 1903. The names of the parties may be obtained from the publishers of this journal.

Inquiry has been made for names of a number of small joinery mills in Canada who might be willing to enter into negotiations for the supply of doors, mouldings, etc.

SHIPPING MATTERS.

The schooner Eva Stuart, from Windsor, N.S., for Boston, with lumber, was towed into Rockland, Me., leaking badly, having had to jettison 15,000 feet of lumber.

The following charters are reported: Str. Britannia, St. Lawrence river to an Irish port and Bristol Channel, deals, 40 shillings; Normania, Miramichi, N.B., to w.c. England, deals, 41s 3d; barque

Italia, St. John, N.B., to Ipswich deals, 50 shillings; barque Fred P. Ashfield, Sherbrooke, N.S., to Buenos Ayres, deals, \$8, option Rosario, \$9.

The saw mill of William J. Scott, at Springhill, N.B., was almost totally consumed by fire a few days ago, together with a quantity of cedar shingles. The loss is placed at \$12,000. It is improbable that the mill will be rebuilt, as Mr. Scott has recently purchased the Victoria mills at Fredericton.
