NO ONE CAN GO TO RESCUE OF QUEEN BECAUSE OF GALE

Ship is Being Pounded to Pieces by the Waves, Which Are Too High to Permit Small Life-Saving Boats to Go Out.

HOUGHTON, Mich., Nov. 11.—(Cap. Press.)—According to messages received today in a roundabout way from the Canadian shore of Lake Huron, seven bodies had been washed ashore at Kettle Point, and a ship, grounded far out from the point, was being pounded to pieces by the waves.

Seven other bodies, it was declared, could be seen rolling about the decks of the stranded vessel. Only a part of the boat's name could be made out, that being the word "Queen." The Northern Queen, a steel freighter, 300 feet long, owned by the Mutual Transit Company of Buffalo, has not been accounted for since she passed this

KEIGHLEY REMAINS LIBERAL GIVING PARTY FRESH SPIRIT

Sir Stanley Buckmaster Interprets His Victory to Mean the Opening of Way for Great Changes Foreshadowed in Lloyd George's Land Campaign — Unprecedentedly Heavy Vote.

LONDON, Nov. 11.—(C. A. P.)—Keighley by-election result was as follows: Sir Stanley Buckmaster, Liberal, 4730; Lord Lascelles, Unionist, 3852; William Bland, Labor, 3646.

Fresh spirit has been put into the Liberal party by the return of Sir Stanley Buckmaster, who had to seek re-election in consequence of his elevation to the solicitor-generalship of England. He has retained the seat, and not only so, but has increased his majority to the extent of 43 over the Unionist and Labor candidates. The excitement in the division was unprecedented, and the poll, which exceeds that of 1911 by 267 votes, constitutes a record.

WARD ONE MEN HELD A MEETING

Would Purify Don and Protect It From Further Pollution.

A motion was carried recommending increased representation for Ward one on the city council.

Mr. W. H. Hill, speaking on the annexation question, stated that the chief arguments for annexation were that the district and yet no taxes were imposed for the district. He thought this was one reason why the district should be annexed. Hanna stated that sanitary conditions were so bad that the district was bound to come in the near future.

A committee was formed of Messrs. Howard, Bramwood, Martin and White to canvass the district and ascertain the exact feeling of the residents in regard to the question and to have a petition signed recommending annexation.

A letter from Fire Chief Thompson to the council in which he recommended a motor truck to be installed at Bolton avenue fire station, as the present equipment is not sufficient for the needs of the district.

Several ratepayers complained of the bad post office in the district west of Pape, only having three deliveries a day, while the Pape avenue have to be satisfied with two.

More Deliveries Wanted

More committee members and additional newspaper boxes are the things wanted in the Danforth district. The purification of the Don was also discussed and it was unanimously decided to have Dr. W. H. Hill, medical officer of health, attend to the matter. The discoloring of the river is caused by the waste that goes into the dye works and the brick yards.

CRIMINAL WAVE SWEEPS HAMILTON

Hold-Ups, Thefts and Burglaries Becoming a Daily Occurrence.

HAMILTON, Nov. 11.—(Special.)—Day after day reports of hold-ups, thefts, housebreaking and other crimes continue to pour into police headquarters, and each day the depredations are said to be more daring. The authorities are greatly handicapped, and the police commissioners have been urged to employ more men for special night duty, but so far this has not been done.

Last night, within three blocks of the centre of the city, and within two blocks of police headquarters, Frank Louca, a well-known character, was seen on a street on King William street, and asked for the price of a beer, and Louca refused to pay, in which case the police were given a severe lesson in plain language. Louca's assault has not yet been reported.

REVIVAL OF PROVINCIAL PLOWING MATCH A SUCCESS

Cameron Walkington of King Proved to Be Ontario's Champion Plowman, and Joseph Kilgour of Sunnybrook Farm Ontario's Champion Host—Small Boys Did Some Wonderful Work Plowing.

The magnificent hospitality of Joseph Kilgour and the enthusiasm of the officers of the Ontario Plowmen's Association both contributed largely to the great success of the provincial plowing match yesterday at Sunnybrook farm. The weather was decidedly the wrong kind to draw a large crowd, but the plowmen and their families, who were invited by the association, were not deterred by the weather, so that many were present who would otherwise have been absent.

Towards 4 o'clock excitement reached a high pitch as the stripes of turf to be plowed narrowed gradually and their was a general haste to turn the furrows for judging.

Results Announced.

The results were announced in the big horse arena adjoining the hunting stables at the farm after every guest had done justice to a good dinner provided by the Laird of Sunnybrook.

Cameron Walkington carried off the sweepstakes trophy, a massive silver cup donated by The Canadian Farmer, which was said to be the best that year before it becomes his property.

J. Locke Wilson had the honor of presenting the prizes, and he did full justice to the occasion. The prize list is as follows:

First class, open to all, in sod-1, Cameron Walkington, King, silver cup (presented by George Henry, M.L.A.); 2, Chas. Clibine, Maple, top sawyer; 3, Stanley Tindale, Richmond Hill, cup (presented by John Wanless & Co.).

Second class, open to those who have never won first prizes in this class—1, William Orr, Maple, cup (presented by the Hunt Club); 2, Stewart Bond, Woodbury, tea service (presented by A. J. Eckhardt & Co.); 3, Walter Middleton, Edenvale, plow (Massey-Harris Co.).

Third class, junior plow, shares not less than 2 inches—1, Clarke Young, Hagarman, cup (E. Y. Practor, Toronto); 2, William Clark, Agincourt, cup; 3, William Gray, Rockwood, plow, (Massey-Harris Co.).

Fourth class, boys under 18 years, in sod-1, Eddie Timbers, Malvern, gold watch (The Farmer's Advocate); 2, Chas. Hunt, Richmond Hill, cup; 3, Stanley Watson, Agincourt, medal (Ryrie Bros.).

Fifth class, boys under 16 years of age, in stubble-1, Clifford Kemp, Mississauga, cup; 2, Fred Wilson, Agincourt, silver medal; 3, Fred Wilson, Agincourt, silver medal.

Sixth class, men over 60 years of age, in sod-1, R. J. McLean, Eglington, cup; 2, William Milliken, Rockwood, Toronto; 3, William Lee, service (A. J. H. Eckhardt & Co.).

Horses and harness-1, Fred Fisher, Malvern, plow (Cookson Plow Co.); 2, H. J. Piggott, silver medal; 3, Clarke Young, bronze medal.

BOOK REVIEWS

NOTE TO PUBLISHERS.—All books for review in The World every Wednesday morning should be sent direct to The World office, addressed to W. N. Wilkinson, Managing Editor. Book reviews now are written by members of The World editorial and reportorial staff, as Miss Van Buskirk is devoting her time to other work.

THE INSIDIOUS DR. FU-MANCHU

It is not likely that any one of the readers of this book will be crowded out of his seat to make way for Sax Rohmer's "The Insidious Dr. Fu-Manchu." The author's name is a household word, and his stories are read with the same interest as the best of the pulp magazines. This new book is a masterpiece of the genre, and it is a pity that it is not more widely read. The story is a masterpiece of the genre, and it is a pity that it is not more widely read. POLITICAL STRUGGLE EXPECTED IN RUSSIA

Ending of Kiev Trial May Lead to Revisionist Agitation.

ST. PETERSBURG, Nov. 11.—The ending of the Kiev trial is regarded as opening a political struggle more dangerous than the Plevna case known for several years. The jury's finding that Belits was innocent, that the murder was committed in a brick yard at Zaitseff, 47 wounds were inflicted and five cups of blood withdrawn, is already being used to intensify race hatred, although it is wholly consistent with the contention that thieves in the Tcherberak's household, subsidized by the provocateurs, committed the crime in the manner most likely to arouse anti-Semitic feeling.

The Toronto World

FOUNDED 1890. A morning newspaper published every day in the year by The World Newspaper Company of Toronto, Limited; H. J. Maclean, Managing Director.

WEDNESDAY MORNING, NOV. 12

MANAGING THE STREET RAILWAY

Far more important than the price of the street railway is the management in its earlier moments, when removed from the influence of the civic Svergal, The Globe appears to have realized this fact, but with the fatal inconsistency characteristic of hypnosis, The Globe is unable to see that the profits of the transaction depend not so much upon what the city pays as, almost entirely, upon the manner in which the railway is managed by the city.

There is no doubt that such will be the case, and Mayor Hoeken had a clause provided in the act under which the negotiations are proceeding requiring the appointment of a commission to manage the railway, no member of which can be taken from the city council.

Some think that the control of affairs should be vested in the commission as a whole. Others think the commission should appoint a manager, and merely take care that he has a free hand and be protected from interference as long as he enjoys the confidence of the commission, or, in other words, so long as he produces results. Others again believe the manager should be chairman of the commission and the executive officer.

We have already suggested that the board of trade, the Manufacturers Association and the Trades and Labor Council prepare a list of names of persons suitable for the commission, for submission to the city council, and we believe the suggestion has met with favor. The name of Mr. R. J. Fleming has been received generally with approbation, whether for the chairmanship of the board of commissioners or for the general management.

WE'VE ALL GOT TO TAKE SOME OF IT. There is a good deal of knocking of Canada going on at the present time. Last Sunday's papers in the States had a syndicated letter saying that our boom was over, that the cur-tain receipts were less for the first time that the railway building period would soon be over.

spatches. The collapse in western real estate is dwelt on.

All we can do now is to bear it. We've had so much prosperity, so much easy money that we must if necessary go easier for a time. Rivals in business, borrowers who could not get advances because Canada was getting them have promoted some of these attacks. But money has become more cautious.

And yet the fundamental fact is the soundness of business in all eastern Canada and the marvelous prosperity of our two great cities, Montreal and Quebec. The prosperity of Ontario is another great fact. There is likely to be a flow of money into Ontario because of the setback in the west. Our belief is that farm development in Ontario is to take on big strides and that Toronto will be a hive of business and expansion from the new year on.

Our own financial institutions, our banks, are not afraid of the future. We've all got to take a share of the medicine when it's going and the doctor is handing it out just now.

EFFECTIVE FOR A FEW. The Telegram's method of argument may be effective with idiots, but it is having the opposite effect of that intended with the citizens of Toronto. When beaten hopelessly in argument it either abuses its opponent or takes refuge in silence. It never has the decency which sane persons are proud of, to admit that it is wrong, except when absolutely compelled by policy or major force.

The energy with which The Telegram now advocates tubes is highly laughable when its strenuous opposition to the same argument two years ago is remembered. We pointed out daily for nearly two weeks the inconsistency of The Telegram in howling against all annexation, all civic improvement and all "land butchering," to use its own term, except the annexation, the improvement and the "land butchering" of the Humber valley surveys; but there was not so much as a single cheap out of The Telegram on this question, except an absurd paragraph charging The World with an attack on the gentleman who is promoting the project.

But The Telegram has never decided important issues on grounds of principle—always on personal grounds. The accident of Mayor Hoeken having initiated the proposal to purchase the street railway was sufficient to settle The Telegram in determined opposition to it before ever it heard a word of terms or a figure of cost. Had some favored child of The Telegram's little flock conceived the idea, one of the Tommies, for example, there would have been perfect unanimity in the city press about the purchase, for we have no doubt The Globe would have followed The Telegram.

So The Telegram having made a mistake 22 years ago, thinks the best way to atone is to refuse to rectify it today. It objected to tubes on all possible grounds two years ago, and low advocates tubes as a substitute for street tubes, because it dislikes him. It clamors for the submission of the agreement on New Year's Day and does all in its power to prevent the agreement being ready for submission. It offers corrupt influence of a campaign fund as a reason for not postponing the vote, but is quite willing to leave the city open to the corrupt influences of the campaign fund for eight years to come, or for as long as it is necessary to procure the renewal of the street railway franchise.

of the National City Bank of New York, has proposed the establishment of the Federal Reserve Bank of the United States, under legislation giving the government a control over the banking business of the country, more drastic and sweeping than anything yet suggested.

With the biggest bank on the continent backed by Standard Oil and its less powerful competitor in the financial field, Kuhn, Loeb & Co., committed to sweeping changes in the financial system of the country, all of them in the direction of government control, and even government operation, there should be no difficulty in thoroughly reforming the banking and currency laws of the United States without financial panic or strain. Hence it may any day happen that the members of the senate committee on banking and currency will find the problems now perplexing them solved by almost common consent.

The administration bill is open to the objection that it establishes a number of regional banks with no central authority except a government board of control at Washington. The Vanderlip plan provides for a central bank operated by the government and would have the currency of the country issued by that bank. The solution, however, most likely to be adopted is one which will preserve the basic principles of the Glass-Owen bill while including many good suggestions to be found in the Vanderlip scheme. It will be a measure based upon the following propositions:

1. That it is the inherent right and exclusive privilege of the government to issue currency.

2. That a central government bank should be instituted and thru it the currency so issued by the government put into circulation.

Should such legislation be speedily enacted, with the consent of the people and with the approval of the greatest financiers on the continent, some gentlemen who thought last winter that the last word upon banking and currency was said, are beginning to wonder where they are at. We remember they exhumed Mr. J. B. Forgan of Nova Scotia and Chicago and brought him to Ottawa as the greatest expert on banking and finance. He professed his inability to understand a plan substantially similar to that now proposed by Mr. Vanderlip, and could not imagine how it was possible to assist the people of a country with the credit of the nation by an issue of national currency put into circulation thru a central bank. Claqueurs for the chartered bank laughed uproariously—not at Mr. Forgan, but at the member of the house who was interrogating him before the banking and commerce committee. No doubt Mr. Forgan, in turn, was having a quiet laugh at them, for we venture to think he was not so dense as he appeared to be.

The persistent habit we have of following the bad example of the United States in many things is to some extent compensated by our disposition to follow the drastic reforms of that country, and it is therefore likely that before many years have passed we will find ourselves by common consent placing the government in control of the currency of the country, and helping to finance the country by loaning the credit of our nation thru the banks to the people. This can be most effectively done by a national currency put in circulation thru a central bank. It may, therefore, not be without interest to recall that this plan was urged upon parliament by Mr. W. F. Maclean, M.P. for South York, from his seat in the house of commons on Jan. 21, upon the second reading of the bill to revise the Bank Act. This plan was then thought visionary, radical and impracticable by the financial wisacres on Parliament Hill. Some of these gentlemen may now be astonished to learn that it is held in no such estimation by the big banking houses on this continent, ranking among the great financial institutions of the world.

LIED UNDER OATH SAYS CONTRACTOR

George McGuire of Syracuse Forced to Admit Truth of Hennessy's Charges.

WITNESS BROKE DOWN

Indictment for Perjury Now Hanging Over Sender of Telegram.

NEW YORK, Nov. 11.—(Can. Press.)—George H. McGuire of Syracuse, who denied under oath last Thursday that he had sent a telegram to John A. Hennessy, former Gov. Sulzer's graft investigator, relative to political contributions, today admitted that he was the author of the telegram.

A threat of indictment for perjury was hanging over him when the admission fell from his lips, and he left the witness stand almost in a state of collapse. A physician was called to attend him.

McGuire was testifying for the second time in the John Doe inquiry, instituted by District Attorney Whelan into Hennessy's charges that contractors on state work had been "sandbagged" into making campaign contributions to Tammany Hall. Hennessy had testified that he obtained most of his information from McGuire, and that the latter had sent him a telegram from Syracuse signed "M." setting forth that William H. Kelly, Democratic leader of Onondaga County, had been helping Arthur A. McLean, treasurer of the Democratic state committee, to "shake down" state highway contractors. McGuire on Thursday last unequivocally denied that he had any said, but did not deny that he had denied Hennessy's charges.

He was proceeded on the stand by Edward J. Wood, the Albany lobbyist from whom Hennessy had charged, his alleged information that Edward E. McCull, defeated candidate for mayor, paid his nomination as supreme court justice in 1902. Wood denied every essential part of Hennessy's story and swore that all the things that Hennessy had told the truth and had told him and not Hennessy. It was made known at the close of the hearing today that Henry P. Burgard, a Buffalo contractor, mentioned by Hennessy as having made a contribution to Tammany Hall, had admitted to District Attorney Whelan that Hennessy had charged the truth and corroborated many other charges made by the investigator. Burgard will not testify as a witness. It was learned, however, that Hennessy had told the truth and his information as a basis for further investigation, the results of which, it was said, would probably go directly to the grand jury.

FIRM ON STATION SITE SELECTS NEW LOCATION. A. R. Williams Will Build Six Storey Structure on Harbor Street.

At least one firm forced to move out to make way for the new Toronto Union Station is going to enter larger and better buildings. Announcement of the new policy of the city property A. R. Williams Machinery Company was made to The World by that firm yesterday.

This firm have secured the block of land lying between Bay and York streets and Lake and Harbor streets, which covers an area of nearly 400,000 square feet. The property the company are to erect their new foundry buildings. The main building will be six stories in height and cover about 190,000 square feet. The firm expect to be installed in the former Copp-Clark warehouse, just east of the Queen's Hotel, by Jan. 1. The present B. W. Walker warehouse will then be taken down.

QUEBEC LOSER IN FIGHT FOR SUCCESSION DUTIES. Privy Council Gives Judgment Involving an Important Point. LONDON, Nov. 11.—(C. A. P.)—An important judgment was delivered this afternoon by the privy council as to whether the Quebec Succession Duty Act, imposing a tax in respect of property situated outside the province of Quebec, applied to the province at the time of their death was ultra vires. The states in question were those of Charlotte L. Cotton and Henry H. Cotton, part of whose estates were situated in the United States. The Quebec Government claimed the duty on the whole estate, which the executors of the estates of the deceased refused to pay. The privy council allowed the appeal of the executors and the cross appeal failed. Their lordships find that such taxation was not direct taxation and was therefore ultra vires.

MELBA, KUBELIK BURKE WERE GOOD

Three Artists Who Have Touched the Pinnacle of Achievement.

EVERY INCH OCCUPIED Audience Assembled Almost Bulged Walls of Toronto's Biggest Hall.

A perfect program, an unequalled musical trio—Melba, Kubelik, Burke—no audience whose enthusiasm could not be satisfied. This was at Massey Music Hall last night when every seat was taken in pit and galleries and seven hundred additional on the platform.

Melba made a change in her first number, and as her voice was heard in "Sweet Bird, Would it Hear Thy Song" she was accompanied by Mr. Marcel Moyse on the flute, the audience had a promise of a most interesting performance.

The aria, "Ise Pastors," Mozart, with violin obligato by Kubelik, in some respects this was the gem of the evening, the melody and the interpretation being given a delightful interpretation. As an encore Melba gave "Gounod's Ave Marie," with tender and feeling. Adagio by Puccini and St. Barnas Ross, Arditi, were the last numbers billed for prime time, but the artist of applause which hailed her final notes without intermission.

Edmund Burke gave the ever-popular "Corador" song as his first number, and at once found his way into the hearts of his audience. Later he sang the "Meot and the Waters," and the "Minister's Boy," each with fine effect. He was recalled on each appearance.

That Toronto is appreciative of instrumental interpretations was evidenced by the close attention given every number of Kubelik. His "Sonnes de la Canada" was played with an entire gamut of varied effects, and earned the artist a perfect score of applause in response he gave "Humoresque" with great daintiness. His performance throughout left nothing to be desired, and satisfied his audience that he is one of the world's greatest artists.

The good work of Mr. Moyse on the flute was a fine addition to the program.

WARD FOUR TORIES LOSE PRESIDENT Fred Armstrong Resigns and Makes Statement Regarding Investigation.

The feature of the annual meeting and smoker of the Ward Four Liberal-Conservative Association, in Broadway Hall, last evening, was the resignation of Fred Armstrong from the presidency of the association, a position which he had held for the past five years.

Following the presentation, Mr. Armstrong asked leave to make a statement of a purely personal nature, regarding the recent inquiry into his business. "The final report of the investigation has not yet been submitted," said he, "but I firmly believe that it is based upon the sworn testimony submitted, you will find that my company has never received a cent of money that was not coming to it, and that it has not even received all that was coming to it."

U. S. THRIVES ON CANADA'S TRADE

Keynote of Speeches at Canadian Club Banquet in New York.

A NOTABLE GATHERING Hon. George E. Foster and Hon. Mr. Pelletier Among Speakers.

NEW YORK, Nov. 11.—(Can. Press.)—Six hundred men and women sat down at the Plaza Hotel this evening at the ninth annual banquet of the Canadian Club of New York.

Two of the Canadian ministers, Hon. George E. Foster, minister of trade and commerce, and Hon. L. P. Pelletier, postmaster-general, were among the speakers, who included, besides Jacob H. Schiff, the head of Kuhn, Loeb & Co., Frank A. Vanderlip, president of the National City Bank, Viscount Hampden of the British embassy at Washington and others.

Among the guests were Charles S. Hamlin, assistant secretary of the treasury, Washington, D. C.; General president of the Canadian Club of Ottawa; C. R. McCulloch, honorary president of the Federation of Canadian Clubs, Hamilton, Ont.; Dean Galbraith of the engineering department, Toronto University; Thomas H. Allison, president of the University of Toronto Club.

Great Border Forest. In his speech the representative toastmaster, T. Kennard Thomson, president of the club, referred to the progress of building in this city a Canadian club which would serve as headquarters for Canadian residents and visitors.

He also put forward the proposal of erecting an international memorial of the hundred years of peace between Great Britain and the United States, which would include a forest park, twenty miles wide, on the boundary between Lake Superior and the Pacific coast, and stocking it with birds, fish and animals. This would serve as a great wind break and prevent the abnormal change of temperature at points in both countries.

Foster Favors Reciprocity. Hon. George E. Foster, referring to a remark of the representative of the offer of reciprocity was still open, said that the question of reciprocity between the two countries would never be entirely settled. Because a certain pact was not carried out it did not mean that reciprocity between the two countries was not going on and increasing daily, he said.

"There is a reciprocity greater and deeper than the exchange of hatter and eggs, tomatoes and potatoes," he continued. "There is the reciprocity of language and literature, of science, of art, of thought, of feeling, of sympathy and of the things that make life worth living."

Mr. Foster remarked that the people of this country had lately removed some of the obstructions to trade between the two countries. He reminded his hearers, however, that even yet the barriers set up by the tariff were higher than those set by Canada, and added that while each country in the United States buys \$150 million from Canada, each Canadian buys \$10 million from the United States, so that Canadians are contributing more largely to the prosperity of their neighbor than are Americans.

Hon. L. P. Pelletier, the postmaster-general, spoke as the representative of the French-Canadians who, he said, were the most enthusiastic subjects of the British Empire.

The establishment of the parcel post system in Canada would be an added means of international trade, he said, and a further incentive to good relations.

"EVERY MEMBER CANVAS." ST. CATHARINES, Nov. 11.—(Special.)—That the "every-member-canvas" system is the most effective in Canada to bring church members in line with their responsibilities in increased giving to Canadian missions was the chief topic at the district men's missionary conference here today which was followed by a banquet attended by over 250. The speakers were Rev. Dr. Murdoch MacKenzie, moderator of the Presbyterian Church, Rev. C. W. Whitaker, missionary among the Eskimos; Rev. A. C. McGillivray of Hamilton; J. H. Gundy, W. C. Senior and K. J. Beaton, Toronto.

A series of meetings will commence in Toronto tonight in connection with the 14th annual meeting of the National Municipal League and the 21st National Conference for Good City Government. This is the first time that these meetings and conferences have ever been held in Canada.

The first formal meeting will be held in convocation hall, University of Toronto, this evening, commencing at 8 o'clock. The secretary will give his annual address of welcome to the delegates. Mayor Hocken, Sir James Whitney and President Falconer. The reply on behalf of the National Municipal League will be made by Camillus G. Kidder, vice-president. Clinton Rogers Woodruff, the secretary, will give his annual address, dealing with the question "What Does Municipal Advance Constitute?" and Hon. William Dudley Foulke, the president, will deliver his annual address on "Public Opinion."

At a meeting of the local committee, held at the city hall yesterday afternoon, the question arose as to whether the American flag should decorate the hall at the city hall, on Friday night, should be decorated with both.

All round-table discussions and dinners will be open to the public as far as accommodation will permit.

EVIDENCE AT PROBE WAS CALLED DEGRADING

Coroner Johnson Dissatisfied—Brooks' Inquest Once More Adjourned.

For the eighth time last night the inquest into the death of Arthur Brooks, the third victim of the Cooksville automobile wreck, was adjourned by Coroner Johnson. Although two new witnesses were put on the stand, no new evidence was adduced. So marked was the evasion of the question by all the witnesses called that the coroner at the conclusion termed the testimony the most degrading he had ever listened to.

HOME BANK ALLOWED REDUCTION ON ASSESSMENT. The court of revision yesterday allowed the Home Bank a reduction of \$250 per foot on its property on 15 and 10 West King street. Last year its assessment was \$1,500 per foot, and it was raised to \$1,750 this year.

STOLE HORSE AND RIG. James Welsh of 16 Eastern avenue was arrested yesterday afternoon charged with the theft of a horse and rig, the property of Edward Lyons, 91 St. Lawrence Market, from in front of the market place.

STOLE BUFFALO ROBE. Frank Hamilton, an Englishman of no address, was arrested on West Queen street yesterday afternoon caught in the act of stealing a fur buffalo robe from a motor car standing at the side of the road.

ON ATHENAUM ALLEYS

In the Athenaeum B League last night, the City Hall won the series from the Athenaeum B team.

The Canadian Oil Co. pulled the Waukesha out of first place by winning two out of three, the last by six pins.

The double-header in Adams' League resulted in a draw between the two teams.

The sweep of the Hoosiers, while the Sewing Machines took the odd string from the Cliffrons.

BOSS MURPHY IS NOT YET SUBDUED

Would Prevent Appointment of Malone as Collector at New York.

NEW YORK, Nov. 11.—(Can. Press.)—The rank and file of Tammany Hall heard today that Charles F. Murphy, their leader, was about to protest to President Wilson against the appointment of Dudley Field Malone as collector of the port of New York to succeed John Furphy Mitchell, mayor-elect.

According to the report detectives have diligently gone over Mr. Malone's record as assistant corporation counsel of New York with a view to learning whether he was absent from New York during the presidential campaign and thereafter. These detectives also sought to scan the salary rolls it was reported, to ascertain if Mr. Malone had drawn pay for the time he was absent, should such absence be proved. The findings, according to current political gossip, were given Mr. Murphy, last night, the story goes, Mr. Murphy consulted several other high in the Tammany Hall, and decided to put forth every effort to prevent Mr. Malone's nomination.

Mr. Malone is the son-in-law of Senator O'Grady, who is not at odds with the Tammany association. For some time past, however, Mr. Malone has aligned himself with the progressive element in the Democratic party.

BOTH EYES DESTROYED IN BELATED EXPLOSION

Employee of Belleville Rolling Mills Severely Injured Through Dynamite.

(Special to The Toronto World.) BELLEVILLE, Nov. 11.—Thomas Cooper, an employee of the rolling mills here, today the victim of an accident which in all probability will prove fatal. He was assisting in breaking up some large plates, using dynamite. He had placed two charges which did not go off as quickly as he expected, and as he went to the plates the caps exploded. Pieces of the plate struck him in the face, incinerating it in a terrible manner, and both eyes were destroyed. In addition, the right arm was broken, the hand torn and other injuries inflicted. He was removed to the hospital. Cooper has a wife and grown up family of nine children in Montreal.

TUXPAM ATTACKED BY REBEL FORCES

All the American Citizens, Numbering Twenty-Six, Reported Safe.

VER CRUZ, Nov. 11.—(Can. Press.)—All the Americans, numbering 26 persons, in the town of Tuxpam, which is being attacked by a large force of rebels, were safe this afternoon. Two American warships, the battleship Louisiana and the gunboat Wheeling, are riding at anchor in the Tuxpam harbor. Tuxpam is 145 miles northwest of Vera Cruz.

The U. S. consul here today received a telegram from the American consul at Tuxpam, Arthur C. Payne, in which the latter estimated the attacking force to number 1000 men. The consul said the gunboat Wheeling, which had been hurriedly despatched from Vera Cruz yesterday, arrived at her destination at 8 o'clock this morning. He added that the Americans in the town had not been harmed. Rear Admiral Fletcher, in command of the U. S. naval forces in Mexican waters, received a despatch by wireless today from Rear Admiral Clifford J. Benson, who reached the battleship Louisiana, which reached Tuxpam from Vera Cruz just before noon. The admiral said that 20 Americans had escaped from the town, leaving behind them six others whom he hoped to rescue, and, if necessary, take them on board his vessel.

THIRTEEN THOUSAND FIRE AT BROCKVILLE

(Special to The Toronto World.) BROCKVILLE, Nov. 11.—Fire destroyed the home of Arthur Smart at an early hour this morning. The occupants barely had time to dress scantily and escape with their lives. The dwelling is one of the beauty spots overlooking the River St. Lawrence, and the flames being fanned by a stiff wind in a driving snowstorm, the place was entirely consumed, together with its entire furnishings, which included such valuable personal effects.

A CIRCULATION BUILDER. Whatever your calling—in every business and profession—young man or old—if you are awake and in the procession—THIS BOOK IS FOR YOU

"Panama And The Canal" portrays in picture and prose the closer relationship of ALL America, both North and South of the ten-mile zone. The great Canal becomes a common highway for the products of Canada and Brazil, as well as for those of the United States—the three prolific commercial countries of the great American continent. The business man who does not read this book is not alert to the interests of his own country or his own business.

It Means Money to You. To learn all about the greatest achievement known to man is invaluable to you in your business. It is of the greatest importance that you should have an intimate knowledge of all matters pertaining to international commerce.

The Toronto World. Presents this book to you for only 6 certificates of consecutive dates (printed daily elsewhere in these columns) and the expense amount of \$1.18 for the large volume, or 48 cents for the smaller size, which covers the items of the cost of packing, express from the factory, checking, clerk hire and other necessary expenses. ASQUITH'S SPEECH FAVORS MARKET

Toronto is Again a Follower of London and New York.

TRADING WAS INACTIVE

Some of the Older Dividend Payers Have Bids, But No Offerings.

The Toronto market took a sudden turn for the better yesterday in line with higher prices at London and New York. Brazilians were raised a point over night and the new offerings made no impression on the new level of quotations. Premier Asquith's statement in the Mexican matter in London on Monday was accredited as the stimulus on the larger exchanges. The rise here, however, was looked upon by some brokers as the result of covering and as one of the stages for adjustment of accounts in the gradual decline.

NEW BRANCHES OF CHARTERED BANKS

The chartered banks of Canada during the month of October opened twenty-eight branches and closed only three. The Merchants' Bank of Canada was particularly active, opening nine branches in the total just mentioned and closing only one.

MEXICAN TRAMWAYS.

Notwithstanding the unsettled condition of affairs in the Republic of Mexico, the corporations operating the public utilities in the capital showed general increases during the month of October in point of revenue.

PORTO RICO EARNINGS.

The net earnings of the Porto Rico Railway, the public utility of the island, for the month of September 30 increased \$607 over the previous year, which is equivalent to over 45 per cent.

EUROPEAN BONDS

PARIS, Nov. 11.—Prices were steady on the Bourse today. The public utilities, 57 francs 20 centimes for the account; exchange on London, 25 francs 30 centimes for cheques; private rate of discount, 3 1/2 per cent.

WALL STREETS MORE CHEERFUL

Advances in Stocks Continued Until Final Hour, When Reaction Began.

NO MEXICAN CRISIS

View Taken of Situation Less Gloomy—Foreign Buying Noted.

NEW YORK, Nov. 11.—(Can. Press.)—Quotations moved forward on the stock exchange today as abruptly as they declined yesterday. There was no sign of the liquidation which was the most disquieting feature of the preceding session, and both railroad and industrial shares advanced strongly. Higher prices were well maintained until the last hour, when a swift reaction canceled a large part of the day's gains.

Better News From Mexico. Outside influences played little part in shaping the course of the market, although the more cheerful view which was taken of the Mexican situation felt that the crisis in the country's relations with Mexico had been exaggerated in the street. Buying for foreign account helped in the upward swing. London traded freely, taking about 12,000 shares on balance. The copper stocks were benefited by the rally in copper metal abroad.

GAINS AND LOSSES IN MONTREAL LIST

Iron, C. P. R. and Brazilian Showed Strength But Many Stocks Reacted.

MONTREAL, Nov. 11.—A two-point advance in iron, on the assumption that no difficulty is being encountered in securing the funds needed by the corporation, was the feature of a slightly more active market today. The tone was but little altered and weakness cropped up here and there, neutralizing to some extent the effect of rallies in stocks of market importance like C. P. R., Brazilian and Iron.

CAR OF HIGH GRADE IN A FEW WEEKS

Pan-Silver Will Be a Heavy Producer in a Short Time.

"We will ship a car of ore worth \$50,000 within the next few weeks," says the statement of Burr E. Cartwright yesterday while discussing the two strikes on the Pan-Silver properties. This statement Mr. Cartwright explained, was based on the judgment of high-class engineers who had seen the veins uncovered and were conversant with the Timiskaming district of the Cobalt field.

"I think we have one of the biggest things in Cobalt," Mr. Cartwright further stated, "and it is another proof of determination which you have confidence in your judgment. The Pan-Silver has cost me upwards of \$250,000, but this is a mere bagatelle in proving up a high-grade Cobalt proposition. Six cars of high-grade will repay this outlay, and this should now be taken out of the Pan-Silver merely in proving up the mine at the 200-foot level."

PEARL LAKE AGAIN CENTRE OF INTEREST

Timiskaming Recovered Slightly—Small Day on Standard Exchange. Pearl Lake was again the feature of the Standard Exchange from a selling point of view, but lost another 1-2 point of the day's trading. One block of 10,000 shares on which 50 days' quotation was sold at 15, but the regular quotation was 11-1/4 at yesterday's close. Timiskaming recovered a point and was centre of considerable interest. Dome Lake reopened after Monday's gain and sold at 15, a loss of over 1 point after the previous close.

GOLD HARVEST IS MORE THAN DOUBLED

This Year's Yield in Ontario Valued at Over Three Millions. The gold harvest of Ontario for the nine months ending 31 September of this year shows an increase of more than two million dollars over that of a corresponding period last year. The shutting down of the operations due to the approach of winter explains the issuing of the report at this date. Silver, copper, nickel and iron ore also exhibit a splendid increase. Pig iron and cobalt ore show small decreases.

OTHER METALS ABOUND

The amounts of gold, silver, copper, nickel and iron ore with their corresponding values are as follows: 158,962 ounces, valued at \$2,211,977. 23,171,538 ounces, valued at \$19,967,183. 92,977 tons, valued at \$1,211,681. 18,223 tons, valued at \$3,824,643. and 148,379 tons, valued at \$314,599.

Widespread Damage to Crop Reported—Corn and Oats Lower.

CHICAGO, Nov. 11.—Widening of the damaged area in Argentina turned the wheat market up grade today after there had been a material setback. The close was nervous, varying from last night's figures to 3-8 to 1-2c advance. Other leading staples all showed a net loss—corn 1-4 to 5-8c, oats 1-8 to 1-4c, and provisions 2-12 to 1c.

Increasing serious news came from Rosario and Buenos Ayres in regard to crop injury by drought and heat in the Argentine wheat belt. One dispatch spoke of ruin beyond repair to wheat covering 1,250,000 acres in the south part of Buenos Ayres province. It was on adverse reports of this kind that the market rallied nearly a cent a bushel with excited buying on the advance. One house alone was credited with acquiring more than a million bushels.

Serious Damage Confirmed. Uncertainty as to how far the Argentine damage stretched was largely responsible for the early weakness. Experts also were of the opinion that timely rains might yet induce a vigorous growth. Such intensions, however, lost effect when more definite dispatches arrived from south of the Equator. Note was taken, too, of the extreme meagreness of primary arrivals, the whole United States aside from Minneapolis and Duluth obtaining less than 250,000 bushels.

Government crop figures heavily increased compared with the estimate a month ago depressed corn. Favorable weather for husking tended likewise to keep down prices. The oats market suffered on account of continued offering of Canadian cargoes. Commission houses nevertheless were fair buyers at moderate declines.

Unloading by packers and stockyard firms checked provisions. Sales were chiefly of lard.

ST. LAWRENCE MARKET.

Receipts of farm produce were 17 loads of hay. TEN THOUSAND STOLEN FROM CHICAGO MAILS

CHICAGO, Nov. 11.—(Can. Press.)—The theft of money and jewelry valued at \$10,000 was disclosed today by Col. James Stuart, postoffice inspector here. The crime is alleged to have been committed by a mail wagon driver, who told his wife last night he would write her as soon as he escaped with the loot. Col. Stuart says that the man is an ex-convict. The contractor for the mail collection is understood to make good losses suffered through employees.

BROOMHALL'S CABLES

LIVERPOOL, Nov. 11.—The easier American wheat cables yesterday and the lower tendency in Winnipeg were offset here by unfavorable crop advices from Argentina, and as a result shorts covered and opening values were unchanged to 3/4 higher. Bullish advices from India, firmer spot market and an improved demand for cargoes and generally unfavorable weather for the new crop mostly throughout Europe, helped the advance. Following the opening there was a decline of 3/4 in the distant months, on a report of rain in Bahia Santos, and expectations of a liberal harvest developed and most of the decline was recovered on dryness reported in many provinces of Argentina. Argentine estimates being reduced. At 1.30 p.m. the market was steady, unchanged to 3/4 higher.

Corn opened 3/4 lower and further declined to 3/4 with liquidation induced by the American Government and talk of export. Corn was firm, 1/2c higher in December. At 1.30 p.m. prices were 3/4 to 3/8 under yesterday. Wheat, \$1.03, 000,000, against 77,196,000 last week; increase, 3,892,000 bushels.

Buenos Ayres wheat closed steady, 3/4 to 3/8 higher, with a growing tendency to firmness owing to less favorable crop outlook. Corn was firm, 1/2c higher, with a good demand and firmer offers.

Argentina—A cable late yesterday from our agent on terms damage in Bahia Santos, but later on, think the loss will aggregate 24,000,000 bushels. Today—Light showers are reported in Bahia Santos and other parts in the west in Pampas and also Buenos Ayres.

CATTLE MARKET WAS STEADY

Receipts of live stock at the Union Stock Yards yesterday were 30 carloads, comprising 1435 cattle, 468 hogs, 848 sheep and lambs and 127 calves.

Receipts of good to choice butchers' cattle were light and were soon disposed of at firm quotations. In fact, there was an active market for cattle of all classes.

Sheep and calves were firm at Monday's prices, but lambs were 10c per cwt. higher.

Choice picked up at \$7 to \$7.50; common, \$6 to \$6.50; inferior, light butchers' steers, \$5.75 to \$7; choice cows, \$6.75 to \$8.50; good cows, \$5.75 to \$6.75; and others, \$4 to \$5.50; common rough and culls, \$2.50 to \$4.75.

Stockers and feeders: Choice feeders were in demand at from \$8.50 to \$9.50; good feeders, \$7.50 to \$8.50; choice cubs, \$5.50 to \$6.50; medium cubs, \$4.50 to \$5.50; common rough and culls, \$2.50 to \$4.75.

Milkers and springers: About fifty milkers and springers were reported sold at prices ranging from \$65 to \$110 each, and as many more would have found ready sale.

Veal calves: The calf market was firm at unchanged quotations. Choice veals sold at \$9 to \$10; common calves, \$8 to \$9; medium calves, \$7 to \$8.

The market for sheep and lambs was very firm; in fact, lambs sold 10c higher than the top quotations. Choice sheep, \$7.75 to \$8.75; medium sheep, \$6.75 to \$7.75; and one choice stock sold at \$7.50.

Deliveries being light, and an outside demand for a few choice, fed and watered, note was \$2.85.

Representative Sales: The Corbett, Hall, Coughlin Company sold 14 carloads of stock—best butchers, \$8.75 to \$9.75; medium butchers, \$7.50 to \$8.50; good cows, \$5 to \$6.50; medium cows, \$4.25 to \$5.25; common butchers, \$3.50 to \$4.50; hogs and springers, \$5 to \$6.50; one choice of lambs at \$7.50; and bought five carloads of lambs and feeders on order.

One of the most pertinent decisions handed down by the privy council within recent years clearly affects all the provinces of the Dominion and involves the loss to Ontario of about \$200,000 a year. The decision was received last evening at the parliament buildings that the decision had been given in favor of the provinces.

The case as it now stands means a certain in the revenue of all the provinces and a certain extent to a certain extent out of the conditions now existing between them. There has been a reciprocity in this field between all the provinces of the Dominion except Quebec. The method of assessment used satisfactorily on a mutual understanding of the public law, similar in the case of all the Canadian governments. Quebec, however, held aloof.

The working out of the decision means that a man in Ontario holding property in Quebec may be assessed only by the western government. This rule applies all round.

CHIEF JUSTICE GOES ON ARBITRATION BOARD

OTTAWA, Nov. 11.—Chief Justice R. M. Meredith of the court of common pleas of Ontario, has been appointed chairman of an arbitration board to deal with a dispute between the Canadian Pacific Railway Co. and the maintenance of way employees on its entire system to the number approximately 5000, by Hon. T. W. Crothers, this morning.

The dispute in question grows out of a proposed new schedule of agreement submitted by the employees. Chief Justice Meredith is appointed by the minister of labor in the absence of any joint recommendation from the other two members of the board. The company's nominee on the board is Hon. Wallace Nesbitt, K.C. of Toronto, and the employees' nominee is Mr. Henry Irwin of Portage La Prairie.

LONDON ENGAGED

LONDON, Nov. 11.—Money was scarce and discount rates were firm today.

New York cancelled an order for bar gold at noon, presumably through fear of higher discount rates, and therefore the Bank of England is expected to get the bulk of the \$5,500,000 South African gold placed on the market.

The stock market was principally engaged with the settlement which was arranged at unchanged rates. Business was small and prices advanced in the forenoon, especially Grand Trunk, copper and oil shares and Paris favorites, but later consoled the shareholders and Mexicans reacted, making the closing irregular.

American securities opened irregularly but the list received good support during the forenoon and prices advanced from 1-8 to a point over parity. New York buying sustained the market during the afternoon. The closing was steady.
