### United States Will Demand Full Explanation From Germany

#### U.S. WILL CALL UPON GERMANY FOR A COMPLETE EXPLANATION OF LONG SERIES OF OUTRAGES

Attacks Upon Falaba, Cushing, Gulfight and Lusitania Must Be Explained—Wilson Said to Be Firm in His Demand for Redress

WASHINGTON, May 11.—President Wilson has practically decided tonight on the first step in the policy which the United States Government will pursue as a result of the sinking of the British liner Lusitania with the loss of more than a hundred American lives.

The president will act promptly within another day or two. Draft of a communication to be sent to Germany was submitted to the cabinet today and approved unanimously. While no official announcement was made, it was learned that the United States would present and insist upon an explanation of the series of incidents which have occurred since the proclamation of a war zone around the British Isles—the sinking of the Falaba, causing the death of Leon C. Thresher, an American citizen; the attack by German airmen on the American steamer Cushing; the torpedoing of the American steamer Gulfight; and finally, the destruction without warning of the Lusitania, with a loss of more than a hundred American lives.

Germany Must Play Game.

In what are described by those familiar with the document as firm and unmistakable terms, the president voices the intense feeling of the United States over these happenings, and in the name of international law, demands an adherence by Germany to the established rules of maritime warfare. The note asks that some assurance or guarantee be given hereafter that unarmed merchant vessels carrying non-combatants be visited and searched when encountered on the high seas by the German navy, and passengers and crew transferred to a place of safety before any prize is destroyed.

The president points out, it is understood, that his note, which said Germany would be held to "strict accountability" for any attacks on American vessels or lives, had not admitted any right on the part of Germany to carry on such methods of warfare and declared, moreover, that the giving of official notice of an intention to commit an unjustifiable act, did not justify the act or make it lawful.

Will Act Firmly.

What will follow in the event of a refusal by Germany to comply with the expressed wishes of the note, about to be sent, no one of the president's official family would predict. They said the president was determined to act firmly and deal with each situation as it arose.

Persons familiar with the president's point of view indicated however that he was by no means unprepared for, or unaware of the possible eventualities of the present crisis and knew that circumstances and events over which the United States might have no control might make vigorous action necessary.

#### CONSCRIPTION DEMAND MADE IN NOTTINGHAM

Government Asked to Compel All Available Bachelors to Fight.

NOTTINGHAM, Eng., May 11.—(11.42 p.m.)—At a meeting of business men, held tonight to advance recruiting, a resolution was passed calling on the government to issue a compulsory notice to all unmarried men of military age to report at the nearest recruiting office within seven days.

#### What President Wilson Says

He will insist upon an explanation of the sinking of the Falaba, the attack on the American steamer Cushing by German airmen, the torpedoing of the Gulfight and the destruction without warning of the Lusitania, with a loss of more than 100 citizens of the United States.

He will demand an adherence

by Germany to the established rules of maritime warfare.

He declares that giving a warning before she sailed did not justify the sinking of the Lusitania.

He points out that strict accountability did not imply that the United States admitted any right on Germany's part to carry on such methods of warfare.

#### BELGIANS CROSS YSER

Hundreds of Germans Captured in War Operations Near Lille.

LONDON, May 11, 10.40 p.m.—With two of the greatest battles of the war in progress—one between Arras and the Belgian coast, and the other in western Galicia—to say nothing of the operations in the Dardanelles, and being repulsed German counter-attacks, the battle in northern France and Flanders might be divided into three sections. From the coast to Dixmude, the Belgians, supported by French marines, have taken the offensive, and, besides repulsing German counter-attacks, have gained a footing on the right bank of the Yser River. Around Ypres, particularly to the east of that town, the Germans made a big attack on the British lines, again using gas and a tremendous amount of artillery, and were severely defeated. Further to the south, as far as Arras, the French continue their offensive and have made very material progress.

Colonel Smart and Officers Send Notification to Ottawa.

By a Staff Reporter.  
OTTAWA, May 11.—Col. Smart, commander of the Mounted Infantry Brigade of Quebec and the Maritime Provinces, and all his officers, have notified the minister of militia that they are ready to go to the front as infantry officers, or in any capacity in which they can be used.

#### Great Days

This war and its reverses and our losses on the Lusitania are making Canada into a great nation and giving us a new place on the world stage. Our losses are severe, and others may come; but we bear them gladly for a great cause. Many an individual heart is stricken, but the heart of the nation beats truer and finer than ever.

#### INDEMNIFY NEUTRALS

Ships Accidentally Damaged in War Zone Will Be Paid For.

WASHINGTON, May 11.—Germany, thru Ambassador Gerard, today notified the United States that submarine commanders had been specifically instructed not to harm neutral vessels not engaged in hostile acts; and that Germany would pay damages to such ships in the war zone.

Neutral ships carrying contraband will be dealt with, the announcement says, according to the "rules of naval warfare." If neutral ships are accidentally damaged in the war zone Germany will express its regret and pay damages without prize court proceedings.

The German Government excuses its submarine warfare on the grounds that England is threatening to starve the civilian population of Germany by prohibiting neutral commerce in foodstuffs and other necessities.

(Continued on Page 7, Column 1.)

#### Are Things on the Mend?

Or, put in stronger terms, does it not look as if the war was about to reach a surprisingly favorable turn? Germany has been making desperate efforts within the last two or three weeks to break the line of the allies in France and Belgium, and to this end she has been moving whole army corps from the Russian or eastern frontier, also resorting to all kinds of desperate contrivances and methods to terrify her opponents; notably, sinking the Lusitania, the employment of asphyxiating gases, the violation of all the recognized rules of war, the constant publication of victories against the Russians, which now prove to be wholly baseless; of encounters with British warships, which never occurred.

What is the reason of this policy and this action? Is it not likely that the Germans are anxious to do something before what they most fear may be realized, viz., the opening up of the Dardanelles and what will follow therefrom; Italy coming in; Greece most likely coming in, and the Balkan states being widely influenced by such events.

Another very significant thing, that must force the enemy to increased efforts at this moment, is that Japan, now that she has effected a settlement with China, will be in a position to take an active part in the campaign on the battlefields of Europe; and the beginning of some extraordinary move in that direction may happen at any moment.

## ALLEES WINNING BRILLIANT VICTORY OVER GERMANS IN NORTHERN FRANCE ENEMY LOSES IMPORTANT POSITIONS

### British Wearing Masks Defy Gas, Slaughter Foe

Germans Literally Mown Down After Advancing on Trenches East of Ypres Under Cover of Fumes.

LONDON, May 11.—(9.52 p.m.)—The British war office made public tonight the following communication: "Yesterday afternoon the Germans made another attack east of Ypres, in the neighborhood of the Menin road. Altho they subjected our trenches to a very heavy bombardment and made their infantry advance under cover of poisonous gas, their attack failed. "During this attack our shrapnel inflicted very heavy casualties on the enemy when they were in mass formation, literally mowing them down. "Today there have been artillery actions on the greater part of the front."

The French official statement tonight says: "To the east of Ypres the British troops have been attacked again with the aid of asphyxiating gases. They allowed the fumes to pass over; under the protection of masks, they put into use, and by rifle and machine-gun fire they annihilated at the very point of their guns the German columns which had advanced in close formation."

### BRITAIN'S REPLY SHATTERS GERMANY'S "JUSTIFICATION" OF MURDER ON HIGH SEAS

Germany Was First to Attempt Blockade, Britain Being Forced to Reprisal—Lusitania, While Carrying Ammunition, Was Never Armed.

Special Cable to The Toronto World.  
LONDON, May 11.—From a high official source The Tribune today obtained a statement answering German efforts to shift responsibility upon England for the sinking of the Lusitania. It is a crushing reply, showing that upon Germany rests the whole responsibility. The chronology of events is set forth in such a manner that it is shown Germany's inception of a submarine blockade preceded and didn't follow the British cutting off of the German food supply. It is not considered possible that American public opinion doesn't fully grasp the enormity of the latest German crime, and the statement now made is only in response to the utterly unwarranted, misleading and impudent German claims.

The statement is as follows: "The German Government state that responsibility for the loss of the Lusitania rests with the British Government, which thru their plan of starving the civilian population of Germany by prohibiting neutral commerce in foodstuffs and other necessities."

"The German Government on Feb. 4 declared their intention of instituting a general submarine blockade of Great Britain and Ireland, and the avowed purpose of cutting off supplies for these islands. This blockade was put into effect Feb. 15. "As already stated, merchant vessels had, as a matter of fact, been sunk by a German submarine at the end of January. Before Feb. 4 no vessel carrying food supplies for Germany had been held up by his majesty's government, except on the ground that there was reason to believe the foodstuffs were intended for use of the armed forces of the enemy, or the enemy government.

### British Troops Also Gain Big Success Over Kaiser's Troops East of Ypres, Despite Use of Poisonous Gas, and French Army Carries by Assault Whole Series of Trenches, Blockhouses, Forts and Arsenals in the Arras District.

Special Cable to The Toronto World.  
LONDON, May 11.—The rapid procession of events in the severe fighting in northern France and southwestern Belgium now threatens to involve the Germans in the worst disaster to their arms that they have so far experienced in this war, for in spite of all they could do today the French troops in the Loos district, near Lille, and north and south of Arras, gained several important successes, the exact values of which may be counted almost beyond measure at the present hour.

In front of Loos the French soldiers today captured an important German field fortification and the entire German system of trenches which the enemy had laboriously and scientifically constructed along the road between Loos and Vermelles. The French troops also carried by assault the big chapel and blockhouse at Notre Dame de Lorette, which the Germans had ardently defended for months and had also converted into a strong fortress, and they cleared the Germans out of all their trenches between that chapel and Ablain-St. Nazaire. From this last point the Germans were severely defeated in debouching to attack the French.

German position at Carency is also in grave danger, being surrounded, except in one section, by a French cordon, and the German communications between this town and Ablain-sur-Souchez have been rendered extremely difficult. Fifty German soldiers and an officer were captured in several blocks of houses which the French occupied. The Germans also lost the cemetery at Neuville-St. Vaast, which they had converted into a strong fort and arsenal. They were driven to the southeast of this village, and were unable to prevent the French from extending their line east and west beyond this point. The French were in process of carrying the fourth line of German trenches in the Loos-Arras sector late this afternoon, when the latest word was received in Paris.

Importance of Successes  
Thus, while the battle is still in progress, the French troops have made most important and brilliant gains in this area in the past two days and their successes will have an important influence in easing the Russian situation. The Russians will endeavor to hold the Austro-German army in west Galicia while the German lines are being crumpled up in the west.

In the meantime the Germans who have been suspecting the British army in the Ypres region of fighting another battle of Neuve Chapelle, and of following up their success on the road to Fromelles, are pounding away at the British lines without much effect.

The use of poisonous gas and the employment of heavy artillery to cover their advance did not save the Germans from suffering a severe defeat in a tremendous massed attack on the British positions to the east of Ypres yesterday afternoon and evening. British artillery poured a hail of shrapnel fire into the ranks of the enemy, while his troops were in close formation, and they were literally mowed down by battalions. The Germans prepared for their attack by heavy gunfire, but the British troops, possessed of tremendous staying power, clung to their positions. Then the enemy produced an immense cloud of poisonous gas, under which he attempted to move forward and capture the British positions. The Germans, as usual, were formed up in the familiar shape of a huge wedge, with the men packed in their ranks shoulder to shoulder, and marching forward at the touch. British artillery, which had been waiting for its opportunity, then opened a terrific fire, under which no human being could hope to live. Vast gaps were torn right thru the German ranks, and bursting shrapnel struck them down in all directions. The British welcome was so hot that the remnants of the Germans who had not fallen in their tracks turned and fled.

Belgium Defeat Germans  
While the Germans were devoting their energies to an attack on the British troops the Belgians stole a march on them and threw several detachments across the Yser River north of Dixmude, on the extreme German right flank. The German reply to the Belgian advance was an intermittent cannonade near Ramscapelle, in front of Dixmude, and on the outskirts of Nordichon and Fyregael, and the Belgian batteries, getting the range, overwhelmed the enemy by a terrific fire.

The Belgians now possess a bridge head across the Yser to the right bank, and last night defeated a strong German attempt to dislodge them. Three German battalions were engaged in this attack and they were severely cut up in the adventure. A Belgian division at the same time gained considerable ground at the south of Dixmude.

The following is the French official statement, issued at Paris, and received here tonight: "Our success to the north of Arras was sensibly enlarged today during the course of the fighting. In an engagement of extreme violence in front of Loos, we captured, after a desperate struggle, and despite an intense cannonade, an important Ger-

man work and an entire system of trenches constructed along the road from Loos to Vermelles.

**Capture Big Blockhouse.**  
Further to the south we captured by assault the big blockhouse and the Chapel of Notre Dame de Lorette. This position had been ardently defended for months by the Germans, who had turned it into a veritable fortress. It was surrounded and invested, and was taken this afternoon by our troops.

"We have, without pause, pursued our success in pressing the enemy energetically between the Chapel of Notre Dame de Lorette and Ablain-St. Nazaire. All the German trenches to the south of the chapel have fallen successively into our hands, and in them we found several hundred dead bodies.

"The Germans debouching from Ablain-St. Nazaire delivered a counter-attack, which was immediately crushed.

**Gain Further Ground.**  
"We have also taken the offensive and gained ground in the direction of the sugar refinery at Souchez. At Carency the investment of the German position has been drawn tighter by us. We have occupied several blocks of houses in the eastern part of the village and made 50 prisoners, of whom one was an officer, and we have progressed towards the wood to the east of the village. The communications of Carency and Ablain-St. Nazaire are becoming more and more difficult for the enemy.

"After a violent engagement we took possession of the cemetery at Neuville-St. Vaast, which had been very strongly organized by the Germans, and followed this with an advance to the southeast of the village, beyond which we extended our lines west and east.

**Fighting For Fourth Line.**  
"In the sector of Loos-Arras, where we previously carried three lines of German trenches, fighting is now going on along the fourth line.

"Prisoners, whose numbers continue to increase, declare that the order was given to hold, at any price, the chapel and blockhouse of Notre Dame de Lorette.

"On the rest of the front there is nothing of importance to report, there being merely artillery action."

### ROBLIN GOVERNMENT TO RESIGN ANNOUNCEMENT EXPECTED TODAY

Rumor in Winnipeg is to the Effect That T. C. Norris, Opposition Leader, Will Be Called Upon to Form a Government.

WINNIPEG, May 11.—Gossip around town says that tomorrow the Roblin administration will present its resignation to Lieut.-Gov. Cameron, who will then call upon the leader of the opposition, T. C. Norris, to form a government. The government has a majority of six or seven in the present legislature, which was elected last June.

It is said a way will be found for providing the new administration with a working majority in the house without a general election being held. This might be accomplished by the crossing over of three or four supporters of the present administration to Mr. Norris, or the resignation of a certain number of government members whose places would be filled automatically by Liberals.

These rumors are far from definite, but they appear to agree generally that the announcement will be made tomorrow.

The general rumor is that all the cabinet ministers will resign their seats, and as many more government private members will resign as will make the vacancies up to ten. These ten seats will be filled by supporters of Mr. Norris by acclamation. At the provincial general elections of last June, 23 government and 21 opposition members were returned, a government majority of seven. The change over of ten seats would give Mr. Norris a working majority of 13, including the new Speaker.

#### The Manitoba Downfall!

The Roblin government in Manitoba has all the weaknesses that marked the Ross government in Ontario before its final fall.

They both developed a system of "digging themselves in" office like the soldiers into their trenches in this regard. Both were more or less supported in their effort by party friends in the governments at Ottawa. One of the things to the credit of the senate at Ottawa last session was its throwing out a measure passed by the commons to permit appeals from Manitoba courts in provincial election cases to the supreme court of Canada and therefore delay decision.

The provincial elections last July showed that the Roblin government had lost the confidence of the people. It had a majority of three, but there were grave charges of irregularities in several of the elections, which are now about to be decided by the courts. Hon. Dr. Montague, the minister especially under fire before the royal commission now sitting at Winnipeg, was returned by a majority of one. True the government carried the three deferred elections in remote portions of the province, but not without scandal. In one district the opposition candidate was persuaded, or at least saw fit, to suddenly disappear on the eve of the election, leaving his party friends in the lurch.

The legislature had a three days' war session last September, and convened at its first regular session a few months later. The opposition at once brought forward grave charges of graft in connection with the construction of the new parliament building. It is admitted that the cost of the foundation was \$860,000, instead of \$60,000, the contract price.

The opposition sought to probe these charges before the public accounts committee, but met with such resistance from the government that the lieutenant-governor threatened to dissolve the legislature unless the premier pledged his word before proclamation that the charges would be referred to a royal commission of judges. That commission was finally named after some friction between the lieutenant-governor and the prime minister. The commission was just getting down to work last Friday when the courts were applied to for an injunction against the continuation of the enquiry. This step may have precipitated the crisis, as a rumor is afloat that Sir Rodmond Roblin has resigned and that Mr. Norris, the opposition leader, will be called upon to form a government.

Mr. Norris would no doubt insist upon

having a general election, following the precedent established in Dominion politics by Hon. Alexander Mackenzie. The probabilities are that he would carry such an election unless there is some remarkable housecleaning on the part of the Manitoba Conservatives. Sir Rodmond Roblin cannot again carry the province. He first came to power in 1900 and was easily successful at every election up to and including the general elections of 1910.

His success in 1910, however, was largely due to the adroit use he made of his differences with Sir Wilfrid Laurier. The province in that year voted not so much for Roblin as for additional territory and better financial terms for Manitoba. Even that far back there were many complaints of the Roblin government in connection with its management of the provincial telephone business and the grain elevators, and there were persistent charges to the effect that the premier was more interested in building up his own political machine than in building up the province and that some high-handed methods were used to carry elections.

After 1911 the Roblin government rapidly disintegrated. The liquor clubs in Winnipeg became a fruitful source of scandal and charges affecting the integrity of provincial ministers of the crown were freely bandied about. The Borden government did what it could to strengthen Sir Rodmond by giving a vast territory to the province and lavish grants in the way of better terms. But the current of public opinion flowing strongly against the Roblin government could not be stemmed or diverted. The provincial election of last July uncovered its weakness, and since then it has only been a matter of months how long it would last.

In order to stave off as long as possible the final decision upon the election petitions filed in the courts against Dr. Montague and several Roblin supporters in the legislature a law was passed permitting appeals in those cases from the provincial courts to the supreme court of Canada. A snag, however, was struck when it was found that such jurisdiction could only be conferred upon the supreme court by the Dominion Parliament. Therefore at the last session a bill was passed by the commons to permit the supreme court of Canada to hear such appeals. The bill, as we have already seen, was promptly thrown out by the senate.

It would therefore not be surprising if Sir Rodmond Roblin resigned, even though he may appear to be doing so while his government is under fire. With the royal commission probing the parliament building election cases soon to be decided the position of his government becomes day by day more precarious.

### AUSTRALASIANS PROUD TO EMULATE CANADIANS

Canada's Tribute to Progress in Dardanelles is Deeply Appreciated.

By a Staff Reporter.  
OTTAWA, May 11.—In reply to messages of congratulations which Sir George Foster sent regarding the Australian and New Zealand troops in the Dardanelles, Premier Fisher of Australia cables as follows:  
"We are happy that our soldiers did so well and that feeling is increased by your kind message."  
Premier Massey of New Zealand cables:  
"New Zealand warmly thanks Canada for her tribute to the bravery of our troops at Dardanelles. It is a source of greatest pride that our sons have emulated the magnificent courage and achievements of the gallant Canadians at the western battlefront and shown to the world the stamp of material of which the British Empire, when in arms, is made."

Went With First Canadian Contingent With Mississauga Horse.

Pte John Meadowcroft, 1st Division, 2nd Battalion 9th Mississauga Horse, Canadian First Overseas Contingent, who is reported as having been killed in action in North France. He is survived by a brother and sister, Mrs. Davis, 54 Clair avenue, Fish Store, St. Clair avenue, Eastcourt, who received a letter from him dated April 26th, in which he states he was in good health and feeling perfectly fit. "The weather now is lovely," he wrote, "hot and sunny. We are now in our new billets and the people are very kind. They can't do enough for us. I have been in the trenches twice and am now in the reserve billet, just behind the firing line. The shells burst all around the place, but fortunately none have as yet struck the billets I am in."  
"I am with the Stafford Regiment, and they are a nice bunch of fellows."

turing hundreds of Germans with guns and machine guns.

**French Operations Important.**  
The greatest importance is attached to the French operations as it threatens the German lines of communication for the armies on the Oise and the Aisne.

The French report that the Germans, their railway lines having been damaged by allied airmen, have brought up reinforcements by motor cars. These have been met and in a large measure destroyed by the concentrated fire of the French artillery.

Around Ypres, the Germans before launching their attacks, which have been delivered on successive days, thoroughly searched the ground with heavy and light guns, subjecting the British to a heavy bombardment. Officers and men who have escaped from it state that the trenches were destroyed and the ground plowed up by the shells.  
Nevertheless, the British found shelter, and when the German infantry tried to advance, they were mowed

The name of Miss E. L. Wilson, 179 Havelock street, has been erroneously published in the list of those lost in the Lusitania disaster. As her family and friends are still being besieged with enquiries regarding her safety, The World is glad to state that she was not on the ill-fated steamer, but is safely at home and keenly sorrowful for those who were less fortunate.

Germany, as being destined for the enemy government, and therefore liable to capture.

**Forced to Reprisals.**  
"The decision of His Majesty's government to carry out the measures laid down by the order in council, was due to the action of the German Government insisting on their submarine blockade. This, added to other infractions of international law by Germany, led to British reprisals, which differ from the German action, in that His Majesty's government scrupulously respect the lives of non-combatants traveling in merchant vessels, and do not even enforce the recognized penalty of confiscation for a breach of the blockade, whereas the German policy is to sink enemy or neutral vessels at sight, with total disregard for the lives of non-combatants and the property of neutrals.

**Mines Freely Strewn.**  
"The Germans state that, in spite of their offer to stop their submarine war in case the starvation plan was given up, Great Britain has taken even more stringent blockade measures. The answer to this is as follows:  
"It was understood from the reply of the German Government that they were prepared to abandon the principle of sinking British vessels by the submarine. They have refused to abandon the use of mines for offensive purposes on the high seas on any condition. They have committed various other infractions of international law, such as stranding the high seas and trade routes with mines, and British and neutral vessels will continue to run danger from this course whether Germany abandons her submarine blockade or not.

**Gas and Poisoned Wells.**  
"It should be noted that since the employment of submarines contrary to international law, the Germans also have been guilty of the use of asphyxiating gas. They have even proceeded to the poisoning of water in South Africa.  
"The Germans represent British merchant vessels generally as armed with guns, and say that they repeatedly ram submarines. The answer to this is as follows:  
"It is not to be wondered at that

merchant vessels, knowing they are liable to be sunk without warning and without any chance being given those on board to save their lives, should take measures for self-defence.

**Contraband No Excuse.**  
With regard to the Lusitania: "The vessel was not armed on her last voyage and had not been armed during the whole war.

"The Germans attempt to justify the sinking of the Lusitania by the fact that she had arms and ammunition on board. The presence of contraband on board a neutral vessel does not render her liable to capture, but certainly not to destruction, with the loss of a large portion of her crew and passengers. Every enemy vessel is a fair prize, but there is no legal precedent for the loss of life, as they consider themselves able to declare that the boat ran no risk and thus can only be described as murder, because a vessel carries contraband.

"The Germans maintain that after repeated official and unofficial warnings his Majesty's government were responsible for the loss of life, as they consider themselves able to declare that the boat ran no risk and thus can only be described as murder, because a vessel carries contraband.

"Third: In spite of their attempt to put the blame on Great Britain, it was the ingenuity even of the Germans to explain away the fact that it was a German torpedo, fired by a German seaman from a German submarine, that sank the vessel and caused over one thousand deaths."

Condition of Remains Will Make Work of Identification Hard.

QUEENSTOWN, May 11.—Seven bodies were brought into Queenstown this afternoon by a tug chartered by the Cunard Line.

The bodies are those of nine men, five women and three children. They were floating with lifebelts 20 miles east of the scene of the disaster.

The bodies recovered did not include those of Alfred G. Vanderbilt, Elbert Hubbard or Herbert Stone.

Three Children's Bodies. Three of the bodies were those of young children: a dark girl of about 4 1/2 years, a blonde of about 2 1/2 years, and a boy of less than 1 year.

Soldiers bore the bodies to an improvised morgue in the streets, with bare heads, silently stood by as the stretcher-bearers passed.

CONFIRMS VERDICT IN DAMAGE CASE

Mrs. J. P. Hayes of Ottawa Wins Appeal Against Street Railway.

INJUNCTION IS GRANTED

Court Directs Insurance Man to Cease Soliciting From Former Clients.

The appellate division at Osgoode Hall handed down judgment yesterday in the appeal of the Ottawa Electric Street Railway Company from a decision of the trial judge awarding Mrs. Hayes of Ottawa \$3500 for the death of her husband, John Patrick Hayes, who was killed by a street car on Aug. 18, 1913.

Hayes was struck by the car which was turning a curve in the street. He had stepped from the sidewalk, and because the motorman did not apply the brakes and stop the car, the jury held the company was liable for damages.

On the motion of R. Stewart & Son, insurance agents of Ottawa, Mr. Justice Lennox has granted an injunction restraining J. L. Gilbert, another insurance agent, from soliciting from any person with whom he did business prior to April, 1914, and from interfering with the plaintiffs in obtaining the said business.

It was stated that the defendant upon deciding to relinquish the agency for several large insurance companies, sold it to the plaintiffs and agreed not to interfere with the business in any way.

His lordship finds that there was no evidence of the plaintiffs' actual loss. It was shown, however, that the renewal of at least was diverted, and that the plaintiffs were put to inconvenience. Nominal damages were awarded.

Recipe to Stop Dandruff

This Home-Made Mixture Stops Dandruff and Falling Hair and Aids Its Growth.

To a half pint of water add: Bay Rum ..... 1 oz. Orlex Compound ..... 1/2 oz. Glycerine ..... 1/4 oz.

These are all simple ingredients that you can buy from any druggist at very little cost, and mix them yourself.

Apply to the scalp once a day for two weeks, and then every other week until the mixture is used. A half pint should be enough to rid the head of dandruff and kill the dandruff germs.

It stops the hair from falling out, and relieves itching and scalp diseases. Although it is not dye, it acts upon the hair roots and will darken streaked, faded gray hair in ten or fifteen days. It promotes the growth of the hair and makes harsh hair soft and glossy.

CURRIE'S BATTALION HEAVIEST SUFFERER

Forty-Eighth Highlanders Held Ground, But at Heavy Cost.

OFFICERS' GALLANTRY

Captains Cory and Alexander in Hottest Corner of Fighting.

Canadian Associated Press Cable. LONDON, May 11.—A letter received here today from Colonel Currie gives details of the work of the 48th Highlanders recently. Referring to the big engagement, Colonel Currie says:

"The Canadian division, hurrying to replace the French, held the Germans, who were making desperate attempts to drive them back, and three or four battalions were badly cut up; we held the ground all next day; at noon the Germans attacked the Royal Highlanders and the 48th with gas and rifle fire, but we drove them off with heavy loss and few casualties on our side.

The Montreal Highlanders, had, however, to swing back to straighten the line, which weakened our position, which we were ordered to hold at all costs. The next morning the Germans attacked us with gas, followed by a terrible cannonade, then rifle fire.

Fought to Last. "The redoubts carried out their orders, fighting to the last man. Interference with the work of the British took over our supporting trenches in the second line. The Germans all day assaulted St. Julien, where Capt. Alexander had his company. Both he and Capt. Cory, who had gathered a handful of French, held the northeast corner of the village till the last. No one got away. They carried out their orders to the letter. When the order came to retire I ordered Capt. Marshall to take out the remnants of two platoons and remain in the second line with seven men. I tried to find how things were in the redoubts, but the machine gun fire drove us back. Shell and rifle fire all day was awful. Our guns were absent. Marshall and I are the only two officers in the 48th who escaped unharmed. We had to remain in action till the 3rd inst., losing men every day.

Had Heaviest Losses. "Our battalion lost heaviest of any of the divisions engaged, but we held our ground till the British came up. Amongst officers missing half were prisoners. I hope they are all, but they cost the Germans thousands of lives, and when the ammunition gave out held the redoubts with the bayonet. We are now having a few days' rest trying to refit."

ST. VITUS' DANCE THEN LOST NERVE POWER

Helpless Wasted By Completely Cured by the Power of DR. CASSELL'S TABLETS.

The All-British Remedy with the Largest Sale in the Empire.

Merit must come to the top. That is why the popularity of Dr. Cassell's Tablets, long established in the home country, is now extending over Canada from Newfoundland to the Yukon.

The unequal power of Dr. Cassell's Tablets to strengthen the nerves and restore health at all ages, is once again proved in the case of little Robert Jones, of 25 Laura street, Pontypool, Wales.

His mother says: "For three years Robert suffered from weak nerves. The trouble began with St. Vitus' dance, then he became quite helpless. He could not move hand nor foot—even his speech failed; and though we spent freely on treatment, not the least benefit resulted. He just wasted away till he was like a skeleton. When I got Dr. Cassell's Tablets I thought they would fail like everything else. But they didn't. It was like a miracle how he recovered. Soon his cure was complete, and now at fourteen he is in splendid health." It is the power of Dr. Cassell's Tablets to reinforce the living energy of the body, that brings about such cures.

Trust to them for Nervous and other forms of Dyspepsia; for Nerve Weakness, Nerve Failure, Neurasthenia, Neuralgia, Anaemia, Palpitation, Debility, Wasting, Kidney Trouble, Lame Back, Vital Depletion and for Weakness or Wasting in Children. Mothers will find them specially valuable while nursing and during critical periods of life. Keep a supply by you in case of need. All druggists and storekeepers throughout the Dominion sell Dr. Cassell's Tablets at 5 cents. A free sample will be sent to you on receipt of 5 cents for mailing and packing by the sole agents for Canada, H. F. Ritchie and Co., Ltd., 10 McCaul street, Toronto, Ont.

BANKS REFUSE TO COLLECT TAXES

Controllers Will Consider Question of Opening Branch Offices in City.

EVADING WAGE LAW

Controller O'Neil Charges Harbor Board Sub-Contractors With Overcharging.

The banks have refused to assist in the collection of taxes this year. This information was communicated to the board of control yesterday by City Treasurer Patterson, who has received word from W. K. Pearce, chairman of the Toronto Clearing House, that the banks do not care to undertake the work, as they consider the guarantee insufficient to cover any possible losses.

The controllers will consider the question of opening branch tax collecting offices throughout the city.

That the I. H. Hodges Co. sub-contractors for the harbor commission are evading the minimum wage clause by charging their men \$6 per week for board when it should only be \$4.50.

Must Alter Law. After a consultation with the city solicitor, City Architect Pearce finds that he has nothing whatever to do with fire prevention methods in theatres and other places of amusement, and he is to safeguard the lives of people who attend such places the law will have to be changed. At present he only has jurisdiction over the entrance, stairs, strength of walls, beams and joists. The trouble seems to be that the responsibility is distributed among the city architect, the fire chief, issuer of licenses and provincial inspection department. The architect reports that the moving picture theatres have been changed to comply with the by-

"WILD BEASTS ON SEA" DENOUNCED BY BRYCE

Germans Have Resorted to Methods Prevailing in Darkest Ages.

LONDON, May 11, 7:35 p.m.—"International law has been within the last ten months more completely disregarded, cast down and completely trampled under foot than I think it ever was in the last four or five centuries," said Viscount Bryce, formerly British ambassador at Washington, on presiding at a lecture on international law here today.

"Apart from the cruelties to the innocent population of Belgium, which has been subjected to worse treatment than that which befell combatants," he continued, "ships not engaged in warlike operations have suddenly been sunk and their crews drowned."

"The technical legal description of pirates was that they were enemies of the human race. They are wild beasts on the sea and a danger not to one particular nation but to all mankind, and neutrals will be just as much ultimately involved as are the nations at war."

Viscount Bryce added that the German idea that they were nations was another of the numerous mistakes the Germans had made.

Doctor Said Only Hope Was in an Operation

Was Skeptical When He Began the Use of Dr. Chase's Ointment—Relief Came Quickly.

Here is a plain, honest statement in regard to Dr. Chase's Ointment. Between the lines of this letter you can read the gratitude which its writer feels. One does not suffer from annoying, distressing piles for ten years without appreciating a cure when it is obtained.

Almost every mail brings the report of someone who has been cured of piles by the use of Dr. Chase's Ointment. Such statements are never used without the permission of the writer, and until we are satisfied that the cure is genuine and the writer a person of responsibility.

You may believe in operations for piles, and think there is no other cure. Write to Mr. Ingles, enclosing stamp, and he will gladly verify his statement. He will tell you that the pain, the expense, the risk of an operation are quite unnecessary. That relief and cure come with the use of Dr. Chase's Ointment.

Mr. Ernest W. Ingles, Pentecost, B. C., writes: "I suffered from piles for ten years, and though I tried all kinds of ointments and injections I really had no permanent relief until I used Dr. Chase's Ointment. When I began this treatment I had absolutely no faith in it, for I had been examined by a well-known physician in Vancouver, and he said that an operation was the only thing that would benefit me. It was surprising the relief I obtained from the very first box, and now, after using four boxes, I am practically cured. My case was so exceptionally bad that I received no relief day or night, and for this reason the results are wonderful."

You can obtain Dr. Chase's Ointment from any dealer at 60 cents a box. If you do not want to risk this much, send a two-cent stamp to pay postage, and mention this paper, and we shall send you a sample box free. We are so certain that any sufferer from piles will obtain relief by using this ointment that we do not hesitate to make you this offer. Edmanston, Bates & Co., Limited, Toronto.

**Blockade of Germany Adjudged as Reason for Resorting to Piracy.**

(Continued From Page 1.)

In previous communications Germany has "disclaimed" responsibility for any harm that might befall neutral vessels venturing into the war zone.

Berlin's Circular.

The text of the announcement issued by Ambassador Gerard, which was issued by the British foreign office in the form of a circular, follows:

"First—Imperial German Government naturally has no intention of causing to be attacked by submarines or aircraft such neutral ships of commerce in the zone of naval warfare, or definitely described in the notice of the German admiralty staff of February 4 last as have been guilty of no hostile act. On the contrary, the most definite instructions repeatedly have been issued to German war vessels to avoid attacks on such ships under all circumstances. Even when such ships have contraband of war on board they are dealt with by submarines solely according to the rule of international law applying to prize warfare.

Pay for Damaged Vessels.

"Second—Should a neutral ship nevertheless come to harm through German submarine or aircraft, the Government of an unfortunate mistake in the above-mentioned zone of naval warfare, the German Government will unreservedly recognize its responsibility therefor. In such a case it will express its regrets and afford damages without first instituting a prize court action.

"Third—it is the custom of the German Government, as soon as the sinking of a neutral ship in the above-mentioned zone of naval warfare is ascribed to German war vessels, to institute an immediate investigation into the cause. If grounds appear thereby to be given for association of such a hostile act with the German naval department places itself in communication with the interested neutral government so that the latter may also institute an investigation.

To Arbitrate.

"If the German Government is thereby convinced that the ship has been destroyed by German war vessels it will not delay in carrying out the provisions of paragraph two above. In case the German Government contrary to the viewpoint of the neutral government is not convinced by the result of investigation the German Government has also already on several occasions declared itself ready to allow the question to be decided by an international investigating commission according to chapter three of The Hague convention of October 18, 1907, for the peaceful solution of international disputes."

**CARDS OF THANKS.**

Mr. and Mrs. Albert Johnson desire to express their sincere thanks and gratitude to the many friends for their sympathy and love during the illness and death of their daughter Mildred.

Mr. and Mrs. W. Sanford Evans, Winnipeg, have taken a cottage near Ottawa for the summer. Mrs. Evans and her three children leave Winnipeg today to join Mr. Evans.

There was a more than capacity house at the University Base Hospital. A few of those present included Miss Helen Leys, Mrs. Brydon, Mrs. and Mrs. Percy Beatty, Mrs. Fraser Macdonald, Mr. and Mrs. Louise Murray, Mr. and Mrs. Ashworth, Mr. and Mrs. Holmsted. This afternoon there will be a special matinee for children.

Mr. and Mrs. C. Brooke Marward, Hamilton, called by the Pretorian for England last week from Montreal.

The Miss Veale old girls' fund for the Queen's Canadian Hospital at Shorncliffe amounted to two hundred and twenty-five dollars (\$225). This is sufficient to give a room fully equipped. It is to be a special matinee for children.

**Recipes for Wrinkles And Bad Complexions**

Of all the beauty recipes that have been published, here are two that have successfully stood the test of time:

"Wrinkle Remover"—One ounce powdered soap, dissolve in 1/2 pint witch hazel. Use as a wash lotion. It brings instantaneous results.

"Face Peeler"—Pure meringue was applied at night like cold cream, only rubbed in: wash off in the morning. It cures the worn-out scarf skin to come off in tiny, almost invisible flakes, a little each day, until the fresh young under-skin is wholly in evidence. The beautiful, rose-like complexion thus obtained is not to be compared with one made over with cosmetics. If the old skin is marred with freckles, pimples or other blemishes, these defects are, of course, discarded with the scarf skin. An ounce of the wax is sufficient in any case.

The ingredients named are inexpensive and can be found in any drug store.

**NEW TRAINING COLLEGE AT OAK RIDGES**

The contractors have resumed work on the Christian Brothers' new Training College at Oak Ridges, and the architect, P. Hynes, expects to have the building completed by next fall, as the foundations were erected last year.

Oak Ridges is on the Metropolitan Electric Line, 20 miles up Yonge street, and forms the height of land between Toronto and Lake Simcoe. The brothers' property comprises 115 acres, and is beautifully diversified by hill and dale, grove and lake.

The main building will be located 400 feet from the car line and will afford a commanding view of the surrounding country, with Aurora and Newmarket in the distance. It will be an up-to-date fireproof construction, four stories high, and 180 feet long, laid through with battlement masonry and terrazzo instead of wood flooring, provided with steel sash window frames, equipped with a science and chemical laboratory, a well furnished gymnasium, and various class and living rooms. Accommodation is also provided for a resident chaplain. Other buildings for heating, manual training, storage, etc., will be located some distance from the main building.

This building, when completed, will be the main house of the brothers for the Province of Ontario, and will be known as the De La Salle Training College. It has been designed to accommodate 120 students, in three de-

**BRITISH ARMY BOOT DISLIKED BY CANADIANS**

Colonel Carson of Montreal Makes Report After Thoro Investigation.

By a Staff Reporter.

OTTAWA, May 11.—Col. Carson, Montreal, who is in England as official representative of the minister of militia, has forwarded a report on a very comprehensive investigation of the experience of the Canadian troops with the British army boot with which they were supplied last winter. The boot was found to be very unsatisfactory and very much disliked by the men. It was not only very heavy and clumsy, but also wore poorly and was very hard on the men's feet. Many of the men were laid up and almost permanently disabled from wearing these heavy boots with stiff unbending soles, to which the Canadians had never been accustomed. There were also no half sizes, and it was necessary for some men to wear two pairs of socks because the boots were too large for them. This would not do in warm weather.

A large number of samples of the boots were sent over besides affidavits taken during the investigation in various battalions.

Carson asked for a new supply of the medium weight Canadian boots.

Whole Platoon Practically Volunteer to Do Repairs on Barb Wire Entanglements.

SEEMS LIKE A WEEK

Canadian Hospital at La Touquet is One of the Best.

Lieut. J. B. Neale of the 10th Royal Grenadiers, a member of the 3rd Battalion, who is the guest of Col. A. E. Gooderham, Rosedale, while on sick leave after contracting neuritis as the result of exposure in the trenches, says that the most thrilling moments at the front are when the men are exposed between the glare of the German light bombs and the trenches.

"When the barbwire entanglements are to be fixed up, which is done at night time, volunteers are called for, and practically the whole platoon vol-

partment, the junior novitiate, the senior novitiate, and the scholasticate. The course of studies in the junior novitiate is that of the high schools of Ontario, and the students are prepared for the examinations for entrance to the normal school and the faculty of education. After the students have passed the above examinations, they are admitted to the senior novitiate, where they receive the habit of the order and spend a year in learning the nature and duties of the religious life. They are then promoted to the scholasticate, from which they attend the normal school or the faculty of education. At present there are 57 students in their temporary quarters at 28 Duke street.

**WOMAN'S BEST MEDICINE**

Mrs. Kelly Advises All Women to Take "Fruit-a-Lives."

"HAGERSVILLE, Ont., Aug. 29, 1913.—I can highly recommend 'Fruit-a-lives' because they did me an awful lot of good and I cannot speak too highly about them. About four years ago I commenced taking 'Fruit-a-lives' for a general breakdown and they did me a world of good. We bought a good many dollars' worth, but it was money well spent, because they did all that you claim for them. Their action is so pleasant, but as long as I was active, that I found only pleasure, as well as health, in taking them. They seemed to me to be particularly suited to women on account of their mild and gentle action, and I trust that some other women may start taking 'Fruit-a-lives' after reading my letter, and if they do, I am satisfied the results will be the same as in my own case.

"Mrs. W. N. KELLY."

"Fruit-a-lives" are sold by all dealers at 50c a box, 6 for \$2.50, trial size 25c, or sent postpaid on receipt of price by Fruit-a-lives Limited, Ottawa.

its ascendancy, but you can see it rising, and you stand still so that no movement can be detected. The flash only lasts a few seconds, but it seems weeks to you," said the lieutenant.

"There are plenty of hungry Belgian and French refugees, and often we have shared our rations with them and gone hungry for a day in the trenches. The nursing sisters are jewels at the Canadian Hospital, and the Canadian Hospital at La Touquet is considered to be one of the best equipped military hospitals in France.

"The Canadians love the British 'Tommy.' They share everything they have with the boys from Canada, and are always liberal with their tobacco. When the men are not on sentry duty they are rebuilding the trenches. They fill bags with clay and at night bolster up the parapets that have been damaged by the German artillery fire.

"The Germans are as black as they are painted, but as long as I was at the front I never heard of a Canadian soldier being in disgrace with a woman or child."

Lieut. Neale traveled to London, going thru five different hospitals. He was a member of the 1914 Blistey team.

## TIGERS HIT LIKE SAVAGES AT BOSTON

### Ripped Into the Beanerats Pitching and Won Handily—American Scores.

At Detroit.—Hitting savagely with men on bases and taking advantage of Boston's misplays, Detroit won the opening game with the Red Sox here, 5 to 1. Score: Detroit, 5; Boston, 1. Batteries—Ruth, Mays and Thomas; Dause and Baker.

At Chicago.—Washington, the first of the eastern clubs to invade Chicago, shut out the locals, 2 to 0. They won the game from Scott in the fourth inning, when a base on balls and double by Morgan netted a run. Their other runs came on Mooler's homer off Hane. Sensational fielding behind Shaw in the ninth prevented the locals from scoring. Score: Washington, 2; Chicago, 0. Batteries—Shaw and Henry; Scott, Boas and Daly.

At Cleveland.—Cleveland opened its series against the eastern clubs by beating New York, 3 to 1. Hagerman, who had not pitched a full game this year, passed ten men, but as he held his opponents to three hits, he was in trouble in only one inning, the fifth, when he forced in New York's only run. Score: Cleveland, 3; New York, 1. Batteries—Hagerman and Egan; Keating and Sweeney and Numamer.

At St. Louis.—Strunk scored on Lajoie's single in the fourth inning of yesterday's game, and in the same inning Moynihan scored when Lavan fumbled a grounder. Another run in the seventh inning completed the score, Philadelphia winning over St. Louis, 3 to 0. Score: Philadelphia, 3; St. Louis, 0. Batteries—Shaw and Henry; Scott, Boas and Daly.

At New York.—Rube Benton bested Ralph Stroud, the New York recruit, in an eleven-innings pitchers' battle, in which Cincinnati defeated New York, 2 to 1. Cincinnati tied the score in the ninth inning and won in the eleventh inning, when Von Kohnen opened with a double, look third on Killifer's sacrifice, and scored on a passed ball. The score: Cincinnati, 2; New York, 1. Batteries—Benton and Clarke; Stroud and Meyer.

At Boston.—Better pitching, batting and fielding enabled St. Louis to defeat Boston, 1 to 0. The game was a close one, as the squeeze play successfully, Magee made a spectacular running catch, which resulted in a double-play in the final inning. Score: St. Louis, 1; Boston, 0. Batteries—Pierce and Archer; Rucker, Cadore and Miller.

At Brooklyn.—Pierce pitched almost perfect ball, when Chicago beat Brooklyn, 5 to 1. Rucker was hit hard and often. Score: Chicago, 5; Brooklyn, 1. Batteries—Pierce and Archer; Rucker, Cadore and Miller.

## GOULDING FAILS TO OVERCOME HANDICAP

### Good Form Displayed at Opening Weekly Athletic Events of Central Y.

Central Y.M.C.A. started their regular weekly athletic handicaps last night with a great attendance. The feature event was the two-mile walk, with George Goulding on scratch. The men all walked well for so early in the season. Goulding was very generous with the handicaps, and also he did 14.07, was only able to EON. The race was won by Russell Williams, with 500 yards' handicap. He set on a fine sprint in the last 200 yards, pushed Hill and won by 27 yards.

The 50-yard dash was the popular event of the night, which was decided after the 25-yard dash. The men all showed exceptional speed. Pete McGavin was out with Central for the first time and did 5.4-3 seconds in his heat. W. Organ also won his heat by inches in fast time. The semi-final was won by Charlie Kelly in the last stride, but he did not show in the final.

The final was a pretty race. Starter Thayer got them away to a good start and the order did not change until they hit the tape, with Stuart Davis winning by six inches. Organ second and McGavin third.

The 12-lb. shot also had a good entry of 22 men, and here again Stuart Davis was the winner. George Barber made the best put of the night, but only got 22.0 feet. The other winners were: Jack Fitzgerald, Charlie Thayer and R. F. Keasche were present, but did not get into their running togs.

The school boys held their events in the afternoon and forty youngsters entered. In the evening the business boys and seniors made the attendance 130.

### YORK COUNTY AND SUBURBS

#### FARMERS DELIGHTED WITH CROP OUTLOOK

Excellent Reports Received From Districts Around Toronto.

#### FALL WHEAT SPLENDID

Acreage Sown Fully Twenty Per Cent Larger Than in Former Years.

While all the midland counties of Ontario report the outlook for the fruit and grain crop, as unexcelled in the history of the oldest inhabitant, the Counties of York, Peel and Ontario are said to be especially favored in this respect, and given good weather from this time onward, the yield ought to be a record one. The spring opened remarkably early, and up to the present there has been nothing in the way of a setback owing to excessive rains or frosts. From along the lake shore, east of the city, in the fruit-growing Counties of Northumberland and Durham, come the most glowing reports regarding all kinds of fruit crops. The fall wheat is said to have come thru the winter with a minimum of loss, and this is also true of clover and timothy seeds. The same thing is said to be true in York and Peel Counties, and there are thousands of acres today in the Townships of Markham, Whitchurch, King, Vaughan, Gwillimbury and Pickering, wonderfully rich and luxuriant and without a break in the stretches of green. Spring grain also has come forward with a rush, and everywhere, farmers have the same cheering statement.

Never Further Forward.

There has never been a spring when the work was further advanced, and farmers everywhere now are busily engaged in getting ready the ground for manure and early potatoes, some having large areas of the latter already planted, and in many cases the mangel crop could have been sown but for the fact that the season was not far enough advanced to warrant the risk of sowing before all danger of frost was over. It is estimated that in the three Counties of York, Ontario and Peel, the acreage sown last fall to wheat was 20 per cent larger than in any one year in the past quarter of a century. The acreage of wheat, coupled with the European war, and the repeated wrings of the Dominion and Provincial Departments of Agriculture to sow more wheat, was responsible for this Great Display of Bloom.

The display of bloom locally around the city has never been exceeded, but fruit-growers everywhere say that they will not breathe freely until May 24, when all danger from frost will be past. The apple crop in central Ontario last year was not regarded as an average one, with high hopes are this year centred on the orchards.

In ordinary years few farmers hope for manure for their stock before May 24, but already in many localities cattle and sheep are already grazing, and the more careful owners are giving the most low lands every opportunity to form a vigorous growth before turning them in. Taken altogether, the outlook within fifty miles north, east and west of the city is all that could be desired.

### ARE BUSY RECRUITING FOR REINFORCEMENTS

#### Fifty Men Left West Toronto Yesterday to Join Thirtieth Battalion, C. E. F.

The officers in charge of the 36th Post Regiment at 1462 Dundas street are kept busy signing up recruits for the reinforcements which the regiment has been asked to send to the 36th Battalion, C. E. F., at Hamilton. The first detachment of these, consisting of fifty men who have passed the medical tests, were sent from here yesterday, and another large detachment is expected to be ready about the 20th of this month. Recruiting will continue at the armory daily, and officers will be in attendance there each morning at 9 o'clock.

Shortly after 4 o'clock last evening, while Mr. and Mrs. Edward Slaughter of 87 Triller avenue were driving westward on Dundas street, near St. John's road, their horse took fright at a passing motor car and ran away. Both occupants were thrown out, but escaped with a few bruises. The horse, after a mad career in several blocks, was finally brought against a post, partially demolishing it, and was brought to a stop. Its legs were badly cut and bruised. The executive of Ward Seven Conservative Association will meet this evening at 8 o'clock.

### EMPIRE CELEBRATION AT MARKHAM VILLAGE

#### Athletic Sports, Patriotic Addresses, Military Bands and Massed Choirs.

The Empire Day celebration, scheduled for Friday, May 21, in Markham Village, and in which the united Townships of Markham and Scarborough will participate, bids fair to be a notable event. The celebration will take place at the Markham Fair Grounds, beginning at 10 a.m., and lasting all day. The forenoon will be given up to athletic sports of all kinds, football and baseball matches, with luncheon at noon, followed by patriotic addresses, military music and a massed choir of the high and public school children, a number of well-known speakers from the city will be present, and patriotic speeches and music will be the order of the day.

### LAY FOUNDATION STONE OF EAST END MISSION

#### Second Building Being Erected by Sisters of St. John the Divine.

Several months ago the Sisters of Saint John the Divine decided to build a mission house in the parish of St. Saviour's, East Toronto, and yesterday afternoon marked the laying of the foundation stone of the building, which is a second mission in the parish. The Right Rev. Bishop Reeve officiated at the ceremony, which was attended by twenty laymen, including the Rev. Archdeacon Innes, Rev. E. B. Morgan, and H. R. Mookridge, the rector and curate of St. Saviour's; P. H. Hartley, S. E. Sweeney, Robert May, L. Merritt, W. D. Burgess Brown, G. M. Barrow, Sheriff Arthur Bruce, C. E. Magee, Rev. J. Brain, R. Schorn, C. E. Shaw and Professor Boyle of Trinity College.

### NORTH TORONTO LAYMEN TO TAKE CHURCH CENSUS

#### Representatives of All Denominations Will Assist—Meeting Next Tuesday.

The North Toronto church census, planned by the Laymen's Missionary Movement, is to be taken on Saturday afternoon and evening, May 22.

The committee appointed two or three weeks ago at the outlook within fifty miles north, east and west of the city is all that could be desired.

### WESTON SOCIETY HELD SUCCESSFUL MUSICAL

#### Raised Sufficient Funds to Provide Cot in Canadian Base Hospital.

An exceedingly successful "musical" under the auspices of the Town Improvement Society of Weston was held last night at the home of Mr. and Mrs. J. Dalton on Main street, the object being attained of providing sufficient money for the provision of a cot in one of the Canadian Base Hospitals. About 100 were present, and listened attentively to an interesting address on the Red Cross Society, those contributing to the work of the Weston branch of the Red Cross Society. These contributions to the enjoyable program were: Vocal solos, Misses Hill and Lyons, Masters Ivan Morrow and George Verrill, Messrs. Charles Stanley and C. Lorne Fraser; recitation, Miss Charlton; pianoforte solo, Miss Rowntree.

### CHIROPRACTORS

#### Disease and Its Master, Chiropractic

THIS MOST MODERN SCIENCE (pronounced Ki-ro-prak-tik) is daily averting serious operations for removal of diseased tissues. People dreading the surgeon's knife will be glad to know that man has discovered the cause of malignant growth—has perfected the art of adjustment in the spine of that cause—giving Nature the chance to clean out the poison by its own powerful processes, without surgery. This science has practically proven, in many cases in Toronto, that the cause of Cancer and Tuberculosis is an impingement of spinal nerves as they emerge from the spinal foramina. We are now in a position to prove to the many sufferers in Ontario that real health is to be had through Nature's laws after spinal adjustment—and we hereby offer to give addresses of many who have recovered from serious disease such as Cancer, Appendicitis, Liver Cirrhosis, Heart Valvular Disease (all in Toronto). The science is being practiced by over seven thousand people, and like all great things, being dragged in the mud by incompetent, and maliciously attacked by some who do not understand the philosophy or the science which requires health and happiness can find both by investigating Chiropractic method from the advertisement. If you have tried other methods, and they have failed, try chiropractic; investigation costs nothing; if most likely be able to refer you to somebody nearby that has been helped that way, as had or worse than you; if you wish to see the office in Canada, having an X-ray equipment. Doctor George W. Doxey, Palmer graduate, Rymur Building, Yonge street, corner Shuter. Lady attendant.

### ST. CATHARINES GIRL HAS DIED FROM BURNS

Received in Lunch Room of Metal Works—German Doctor Interned.

ST. CATHARINES, Ont., May 11.—After suffering for over two months from the effects of burns received when her clothing took fire from a gas stove in the lunch-room of McKinnon Dash and Metal Works, where she was employed, Sophie Weaver died this afternoon. Nellie Holliday, who attempted to extinguish the flames, also had her clothing set on fire and was seriously burned, but she has been out of danger for some time.

Military authorities today took into custody Dr. Lachmann, who a few months ago came here to act as superintendent of the Lincoln Paper Mills. Dr. Lachmann, who admitted being a German citizen and a member of the army, had gained admittance to high social circles in the city and had all the privileges of a St. Catharines club. Charles Berger, who conducts a job printing establishment in this city, is also detained.

### GALT SOLDIERS VICTIMS OF PRUSSIAN BULLETS

Sergeant G. Nightingale and Pte. C. Pinnegar Are Wounded.

Special to The Toronto World. GALT, May 11.—Sergeant George Nightingale, who was second in command of the platoon of which the late Capt. T. D. Lockhart of this town was in charge, has been wounded in action. He was a cornet player in the 29th band and lived in Galt. His parents live in Preston.

Private Charles Pinnegar, who was recently reported wounded, is suffering from gunshot wounds in the right leg and right arm and a fracture of the left leg, according to a letter received by his mother from the captain of the hospital at Boulogne.

The late Private Wm. Adams of Preston, who was a member of the 29th Regiment detachment with the first contingent, was only 19 years of age, and was born in London, England. He worked at Getty and Scott's shoe factory here, and his mother lives in Preston.

WILSON GOOD FAIRY
President's Philadelphia Address Gladdened Hearts of Bull Contingent.

NEW YORK, May 11.—The ease with which prices today recovered from their abrupt declines of the previous day was accepted as further proof of the stock market's underlying firmness. The chief factor in today's advance, which was most pronounced in the buoyant opening, was the note that reassurances contained in President Wilson's Philadelphia address. Encouragement was also felt in the cessation of the heavy foreign selling, which contributed to the weakness of the preceding session. In fact, from all accounts, London and the continent were moderate buyers here.

TO WORK IMMEDIATELY
Shafts Are to Be Deepened and Several New Ones Will Be Sunk.
The report of the mine manager of the McIntyre Mine just come to hand, shows reserves of 109,000 tons of an average value of \$7.90 per ton. It has also been announced that a total of 3906 feet of drilling was done during the past year, the most important result of which was the demonstration that the ore deposits have a depth of 800 feet and are 400 feet wide at the top, which will allow No. 5 shaft to a depth of 700 feet. A great deal of work will also be performed, and it is believed that ore reserves will be multiplied several times.

These debentures are a direct and primary obligation of the Province of Alberta, and are payable from general Provincial revenues. In the opinion of counsel, power resides within the Legislature and officials of the Province to levy upon all taxable property situated therein, whatever direct taxes may be necessary for the payment of principal and interest of these debentures. A general tax thus far never has been levied, inasmuch as the Provincial revenues have always been ample. The proceeds of these debentures provide for general public purposes, including, among others, Provincial highways, telephone system and public buildings.
We are advised by the Provincial Treasurer that no further capital issues are anticipated during the current year beyond the 5% debentures authorized as shown above, and that Alberta is in a strong financial position, the Province having no floating debt or treasury bills outstanding, no portion of its funded debt maturing prior to 1922, and now has on hand a substantial cash balance to meet current expenditures, exclusive of the proceeds of the present issue of debentures.
