SEVENTEENTH YEAR

TO VOTE ON JUNE 16.  
Nominations Will Take Place on June 9.

SIR CHARLES WILL BE PREMIER.  
The Announcement to be Made After Prorogation.

Premier Boveill Has Virtually Given up His Post—He Visited the Governor-General Yesterday and Discussed His Coming Retirement—Will Not Hold Any Official Position in the Government in Future, but Will Keep His Place in the Senate—Latest About the Proposed Cabinet as it Will be Reconstructed by Sir Charles Tupper Before the General Election.

Ottawa, April 21.—(Special)—The nominations for candidates in the coming general elections for the Commons have been fixed for Tuesday, June 9, and the elections will take place on Tuesday, June 16.

By universal consent Sir Charles Tupper will be Premier, and when he takes hold of a considerable change in the personnel of the Ministry may be expected from Ontario. A well-informed politician said to-night he would not be surprised if Chief Justice Meredith, Hon. George A. Kirkpatrick, Col. Tiedale or Hon. Peter White were brought in, while from Quebec the names of Sir A. Lacoste, Sir Hector Langevin, Lieut.-Governor Chapleau and Provincial Secretary Pelletier are mentioned.

Some politicians incline to the belief that neither the former Chief Justice or Chief Justice Meredith will enter Federal politics until the school question is disposed of. As for Hon. Peter White, it is generally conceded that he could only accept a portfolio with the school policy of the Government modified. The name of Mr. Hugh John Macdonald finds great acceptance in Conservative circles, in the event of Mr. Daly retiring. Mr. Macdonald, however, is known to be reluctant to re-enter politics.

The Solicitor-Generalship will likely be filled by the selection of Mr. Northrup, M.P. for East Hastings, who is conceded to be one of the coming stars in Ontario politics. Young and able, Mr. Northrup has a bright future before him. Mr. Dickey and he should make a great team when the older generation of Conservative politicians have passed away.

Premier Boveill has virtually resigned the Premiership and will not be made until immediately after prorogation. Yesterday he informed his colleagues in council that he was desirous of retiring from political life, and that as soon as the business of the session should be closed he would resign. In His Excellency's hands, the resignation of the Premier's decision, Sir Mackenzie saw Lord Aberdeen, during the course of the afternoon, when, as may naturally be supposed, the situation was fully discussed. The fact that the conference lasted nearly three hours is a fair indication of the importance of the matter.

The Premier again saw His Excellency yesterday evening. It is understood to be Sir Mackenzie's intention to retire absolutely from any official position, retaining only his seat in the Senate. He will, however, in accordance with a long-standing custom, be made one of the Canadian delegates to the colonial office gathering on the Pacific cable question in London next month.

Canadian Cattle Quarantine.  
Dr. McEachern, chief veterinary inspector of the Dominion, is in the city, engaged at the Agriculture Department in arranging for the re-organization of the cattle quarantine system throughout the Dominion, and a complete revision of the regulations. In the course of conversation with the Premier, Dr. McEachern said that the question of the quarantine for the shipment of American cattle from Montreal was under consideration by the department. He was feeling, however, under transportation and steamship companies might lead to American cattle buyers on here and playing off Canadian against American.

Opening the Welland Canal.  
Deputy Minister Scriber was seen to-night relative to the delay in opening the Welland canal. He said that last year at the solicitation of shipping men certain needed repairs were made to the canal. He hoped that the canal would be available for use on April 25 or May 1 at latest.

Personal and General.  
A. W. Ross, M.P. for Lisgar, has, it is said, consented to again contest that constituency.

The Ministerial supporters of the Government are being asked to name the returning officers in their ridings. The report is current to-day that His Excellency the Governor-General has indicated his unwillingness to sign any more orders in council making appointments until the elections are over. The rear of the Russell House is well under way.

Mr. H. Booth, the well-known lumberman and railway magnate, is being pressed to accept the Conservative nomination for the riding of St. Lawrence. Overtures are being made for a union of the two Conservative associations in the riding.

Mr. Harry Corby, M.P., arrived here to-day and was warmly greeted by his friends on both sides of the House. Sir Charles Tupper is leaving for St. Charles again, continuing West Hastings.

Mr. Desjardins, Minister of Agriculture, this morning and urged the appointment of Mr. Desjardins, M.P., A.G., as Adjutant-General. Aymer, A.G., a very hopeful reply.

A delegation from Montreal is here again to-day to press for half a million dollar grant to the International Exhibition. They claim to have received a very hopeful reply.

The proposed loan to the Canadian Pacific Railway will aggregate five

million dollars, the approximate length of the Crow's Nest Pass line being 250 miles. The Patrons of Industry are asking for the abolition of the 25¢ toll.

BRIDGES CARRIED AWAY.  
The Railway Companies Find it Cheaper to Rebuild Every Year Than Erect Permanent Structures.

Port Arthur, Ont., April 21.—(Special)—About 120 feet of the bridge across the Kaministiquia River at Stanley, has been carried away. The probable cost of repairing will be \$3000. The Slate River Valley bridge, likewise in Ottawa, is being carried away. This is the annual occurrence, it being cheaper to rebuild every year than to put in permanent structures. Chief Justice Meredith is expected to be in Ottawa for two or three days.

IF ALL HINGES ON MR. MARTIN  
Whether There Will be a Contest in Winnipeg for the Commons.

Winnipeg, April 21.—(Special)—The name of John Macdonald's name in the Ottawa despatches to-day in connection with a Cabinet portfolio has revived the question of his probable candidature in the Commons. Mr. Macdonald is unquestionably a strong Conservative, but the Conservatives can put up, but it is doubtful if anybody can defeat Mr. Macdonald. Should Mr. Martin retire there is a strong probability the labor party putting up a candidate. This would ensure Conservative success if the Liberals also had a candidate in the riding.

Mr. Martin out, the contest would be decided on the personal merits of the respective candidates as the constituency is regarded as close, though decidedly mercenary. But Mr. Martin will not doubt be prevailed upon to offer for re-election. His strength lies in his independence and strong stand on the school question.

THEY LEAD PEOPLE TO DEATH.  
Censure on Christian Scientists—Legislation Needed to Confront This.

"What a tragedy that A. C. Mounter's death was caused by diphtheria and that there was culpable neglect on the part of the medical profession in not calling qualified medical assistance.

"While not desiring to reflect upon the religious doctrines of the Christian Scientists, we think the evidence in the case clearly shows the absolute necessity that exists for legislation which will afford protection to the community and restrain them from leading people to their death as we have seen in the case of Mounter by ignoring medical science."

Such was the verdict rendered by the coroner's jury in the Mounter case at 12.30 this morning. The principal witness was W. F. McKenzie, the Christian Scientist, who was treating the deceased at the time of his death. He explained some Christian Science tenets which appear peculiar to the uninitiated. Dr. H. B. Anderson's evidence regarding the post-mortem showed that the kindy advice had caused death and had medical aid been called in time it was possible that the patient would have recovered. Other witnesses were: Mrs. E. B. F. Shandler, C.S.; Dr. Beverley Milne, who had attended Mounter's family; and Mrs. Mounter, widow of deceased.

ACCIDENTALLY ELECTROCUTED.  
Linford L. Biles of Philadelphia Met a Fatal End at Toronto.

Philadelphia, April 21.—Linford L. Biles, aged 65, was killed, and his son, George E. Biles, aged 31, was badly injured this morning by coming in contact with a wire that was crossed with an electric light or trolley car wire in the basement of a house at 230 to investigate a fire, a telegraph wire having been cut by the workmen. The father and son went to the roof of their house at 2.30 to investigate a fire, a telegraph wire having been cut by the workmen. Street Railway Company's Cars Damaged by the Trench of \$900.  
A gang of young hoodlums, numbering about 20, turned out the brakes of some street cars that were standing in the trench of the street last night. The cars started down the grade, crashed into one another and were damaged to the amount of \$900. P. C. Van Winkle succeeded in procuring the names of some of the crowd. Among them were John Thompson, White-placed, Harvey Bully, who lives in the rear of Bright's lumber yard; young Mudder, Sherbrook-street, and two more known as "Buddies" and "Bubbles."

MONEY FOR OUR NEW ARMS  
THE HOUSE OF COMMONS PASSES THE AMOUNT NECESSARY

Although the Opposition Raised Much Objection to It—Mr. Foster Explained the Situation With Effect—Montreal Demand for Half a Million for Their Exhibition.

Ottawa, April 21.—(Special)—Joseph Martin of Winnipeg is possibly the most offensive Grit partisan to be found in the House of Commons. In season and out of season he possesses the faculty of showing to the Parliament and country his utter indifference for two hours on the most frivolous pretence a bill designed to facilitate polling in the city of Montreal. Then he had the gall to send to the chief of Hansard, asking him to condense his remarks.

Mr. Bergeron asked if the Government had come to any decision with regard to the request of the Montreal Corporation for grant towards the International Exhibition in Montreal next year.

Mr. Foster replied that the Government had given the matter every consideration. It was not possible, however, that money grant could be initiated and carried through this session. But the Government, he said, were very favorably disposed towards the project of holding an International Exhibition in Canada, and accordingly proposed that a committee be appointed to confer with the Government in order that a solid basis might be arrived at for future action.

Mr. McShane followed, "We, the people of Montreal—had long enough put up with promises and neglect at the hands of the Government. Now, they want the gold cash. He threatened the Government with the political consequences if they did not comply with this request for a grant of half a million dollars at once to-day.

Mr. Ives remarked that Mr. McShane was misrepresenting the citizens of Montreal collectively, as Pook Bab, being willing to accept of a grant by way of a solution for fanned insults. He himself knew the people of Montreal too well to take the words of Mr. McShane's estimate, too well to believe that the large delegation which was here on Saturday morning had a pistol at the head of the Government and demand that half a million dollars be paid immediately. If anything could justify the suspicion that the delegation had politics in view, it was the creation of Mr. McShane.

Mr. Laurier defended Mr. McShane's observation as quite reasonable and declared the Government's attitude towards the delegation had been no unsatisfactory that another deputation had arrived to-day.

Where Another Comes in.  
Mr. Cockburn regretted that Mr. McShane had taken so much to heart the kindly advice he had given him to consult with the promoters of the Toronto Exhibition, who had approached the Government long before the subject of an international exhibition in 1897. Toronto's exhibitions had always been successful, and he said the citizens asked was simply the recognition of the Government for the time, being satisfied that the Government returned triumphant after the general elections the matter of the grant could be left to Parliament. He thought that perhaps the two exhibitions could be merged into one, to avoid the conflict of interest of a Royal Commission.

Mr. Mills declared the proceeding should be the slightest and Mr. Laurier supported this contention. Mr. Foster, replying to Messrs. Mills and Cockburn, said that he was impressed him as man wrapped up in his books. His speech in favor of the exhibition had been a masterpiece of phrase in his parliamentary sense. He would seem to mark him as a "Most blood-thirsty ruffian," to use the phrase in the parliamentary sense. He would seem to mark him as a "Most blood-thirsty ruffian," to use the phrase in the parliamentary sense.

Mr. Sutherland favored the purchase of an inferior rifle, but criticized the manner of the purchase. Messrs. McMullen and Foster protested against this expenditure. Mr. Foster remarked that the resolution had been three hours under discussion (York)—\$100,000. Mr. Lister—You only wanted \$50,000 a few weeks ago. Mr. Maclean—We will take \$100,000 now.

Mr. Coatsworth, in conclusion, said he hoped there would be no friction between the two cities. Sir James Grant thought Montreal and Toronto should compromise by selecting Ottawa. (Laughter.)

Mr. Lepine spoke in favor of Montreal while Dr. Sprague thought Toronto was the next point for a Canadian international exhibition. After some further talk the subject dropped.

To Re-Arm the Militia.  
The House went into committee on a resolution favoring the expenditure to raise three million dollars for the purpose of securing better arms and equipment for the militia. Mr. Foster, who was very indistinctly heard, explained the reasons which had induced the Government to ask for this sum. After careful consideration and investigation the Government had decided on the Lee-Enfield rifle as a weapon to place in the hands of the militia and 40,000 stand would be procured as well as 2000 Lee-Enfield magazine carbines for the cavalry. Four batteries of six 12-pounder guns would also be procured. The decision reached by the Government was after consultation with the Imperial authorities. The arms and equipment to be supplied at the very lowest price, and in order to secure them at the smallest cost the Government had undertaken to pay for them promptly. One million dollars was due before July 1. The Government was determined to pay for them promptly. One million dollars was due before July 1. The Government was determined to pay for them promptly.

Mr. Foster replied that the obligation with the War Office already amounted to \$1,844,000. The arms and ammunition were being supplied at cost, plus a commission of 5 per cent. only for inspection and handling.

As to the Cost.  
Sir Richard Cartwright—What is the cost?  
Mr. Foster—Some of the rifles are made in the Government factories, others by private individuals, but all are approved by the Government. For the rifles procured from the trade we pay 24 each, for the bayonets and scabbards \$3 6d. altogether \$28,000. For the rifles made in the Government factories the price is \$2 10s each. The

four batteries will cost \$24,000.

Flames Destroy a Flaming Mill in West Lodge-Avenue—Twenty Men Thrown Out of Work.

The largest fire Parkdale has seen for some time occurred at midnight, when the planing mill operated by Coxhead & Co. at 162 West Lodge-avenue, was destroyed.

At 1.35 P. C. Hyland, then on Sorbonne-avenue, saw the blaze, and sprang an alarm. Before the flames reached the mill the fire had spread through the building, and although the wooden structure and the adjacent lumber piles in a very short time. The building and machinery, owned by the Central Lumber Co., were entirely destroyed. The loss to the company will be probably \$4000, with no insurance. Coxhead & Co. had but little manufactured stock on hand, but the destruction of some 35,000 feet of choice lumber will bring their loss up to \$2000, uninsured. Bally & Co., manufacturers of woodware, lose probably \$1000.

A horse owned by Coxhead & Co. was burned at 160 West Lodge-avenue; caught fire from sparks. Damage of a small blaze started in a pile of packing cases and rubbish behind the rubber factory, but did no great damage.

Twenty men were employed in the building, and the loss of their kits of tools will seriously inconvenience them.

A Movement on Foot in Western Assiniboia to Select a Strictly Independent Candidate for the Commons.

Regina, N.W.T., April 21.—(Special)—A number of prominent citizens, both Liberal and Conservative, have started a movement to bring out a strictly independent candidate for the Commons in Western Assiniboia. It is felt that neither Mr. Davin nor Mr. MacInnes, Faton, is a suitable man for the constituency. In the event of an acceptable man being selected, it is understood the Liberal convention will endorse him, instead of nominating a Liberal Liberal candidate. Premier Hautain, G. W. Brown and J. W. TO SAVE THE QUEEN'S OWN

COL. HAMILTON MUST KEEP DOWN AND OUT.

Senator Boulton Brings this Long-Standing Militia Trouble up in the Senate, and After Senator Desjardins Explains the Position of the Department, Says He is Satisfied.

Ottawa, April 21.—(Special)—Colonel Hamilton's case came up in the Senate to-night. Before adjournment Senator Boulton asked what the department of Militia had done with Col. Hamilton's resignation.

Senator Desjardins was glad of an opportunity of explaining the position of the department, and in order that he might set at rest, by quoting from correspondence which passed in the case, many unjust accusations made in the Commons. While fully admitting that every commanding officer has the right to expect fair treatment at the hands of the department, he desired to point out that the department had also to maintain the efficiency of the force. The correspondence would show that Col. Hamilton had been given an opportunity of answering the charges made against him. There had been an investigation conducted in a fair and impartial manner by Col. Hamilton. The difficulties in the regiment began, he said, before December last, and he reached a point when Col. Hamilton for George felt it his duty to resign.

In a letter to the Major-General commanding the militia, Col. Hamilton stated that he was treated unfairly by Col. Hamilton. The letter also went on to state that, owing to the strong bias of the officers on the part of the Colonel, dissensions had arisen among the officers and men which would result in the disbandment of the regiment. Among other things he accused Col. Hamilton of having broken down the non-commissioned officers.

Col. Otter Held an Enquiry.  
The General said the Minister of Militia did not make the charges made in this letter, but after referring into the accuracy of the allegations, instructed Col. Otter to hold an investigation. He then read the report of Col. Otter to the general commanding, and said that the charges of George were substantiated. Col. Hamilton, which stated that the charges of George were substantiated. Col. Hamilton, which stated that the charges of George were substantiated.

The Minister then read a number of letters from Col. Hamilton to the general, making charges against certain of his officers, for refusing to obey orders and for not accounting for certain moneys belonging to the militia. The minutes of the meetings of the battalion were also quoted to show that the bitterest feelings of enmity existed between Col. Hamilton and his officers.

The Major-General's View.  
The Major-General reported that, after a full investigation, he had concluded that the charges of Col. Hamilton were substantiated. He had, therefore, concluded that Col. Hamilton had lost the confidence of his officers. He, the Major-General, was in favor of reporting a commanding officer in all matters relating to discipline, but he believed that it was essential that a commanding officer should have some executive ability and that he should be able to command his officers. He was, therefore, of opinion that Col. Hamilton should be asked to retire, and he was willing, that he should be compelled to do so. Continuing, the Minister said that he had received a report of the Major-General in demanding Col. Hamilton's resignation. When asked upon what he did not know of Col. Hamilton, except in his position as commanding officer of the Queen's Own, he said that he had reported that unless there was a change of command, the militia would have to be disbanded.

Even Senator Smith is Satisfied.  
Sir Frank Smith—Could Col. Hamilton be allowed to retire, retaining rank?  
Senator Desjardins—Yes, Col. Hamilton was not charged with any offence as a military man; the only charge was that he had survived his usefulness.

Senator Boulton did not think that the General could have done otherwise than he did under the circumstances. He hoped, however, that Col. Hamilton would be allowed to retire with rank, just as if he had retired voluntarily.

The matter was allowed to drop and the Senate adjourned.

LET THE YOUNGSTERS REJOICE.  
How This Result Can at Once Be Cheaply Accomplished.

Silk hats for gentlemen, bonny bonnets for ladies and why not pretty caps for children? They ought to have them, and if they only saw the wonderful variety inside Dineen's, at King and Yonge-streets, their pleadings for them would be irresistible. Here are, amongst many other kinds, boys' peaked caps in tweeds, bright nobby caps, sport caps, all kinds of nice they are only 25 cents each. This is wonderfully cheap, but tweed and fancy blue striped and plain caps can be had cheaper, at 15 cents. Ladies' bicycle hats are equally cheap. They are in grey, blue, brown and black felt. They are suitable for traveling, and are favorites with tourists. They are new and stylish and have already this season caught the ladies' fancy. There is only one price for them, 25 cents each.
