Grew Furious—Called England a Bully, a Pirate and a
Savage—Her "Bloody Flag" Has Been Advanced by
"Plundering and Destroying Poor People"—Anti-Tax Riots
of a Serious Nature in Rome—Cable News.

London, Oct. 11.—The first general
national convention of the Irish Inde-
pendent League, organized by Mr. John
Redmond, M.P., the Parnellite leader,
opened this afternoon in the Ancient
concert rooms here. Eight hundred en-
thusiastic delegates packed the hall and
actively participated in cheering vocifer-
ously every point in the speeches. Mr.
Redmond characterized Mr. Gladstone
as "The Englishman who betrayed Ire-
land."

All the speeches paid tribute to the
patriotism of the late Charles Stewart
Parnell, and warm cheers greeted the
entrance of the Redmonds, John
Parnell and Patrick O'Brien into the
hall. Every possible effort was made
to organize a thoroughly representative
convention. Invitations were issued to
all corporations, town commissioners,
poor law guardians, foresters, members
of the Gaelic athletic clubs, literary so-
cieties, amnesty associations, national
bands, trades and trades councils, re-
gistration associations, Young Ireland
associations and national and work-
men's clubs.

Alderman John Reilly read a telegram
from the Independent Irishmen of Bos-
ton, Mass., which said: "We stand by
Parnell's policy, and urge the Govern-
ment to disgorge its plunder in the face
of the distress existing, and we send \$100
as evidence of our sympathy."

The reading of this message was fol-
lowed by three cheers for the Stars and
Stripes.
Mr. John Redmond in a long speech
denounced the Liberals for abandoning
Parnell and declared that the only
hope of Ireland was in independent ac-
tion, without any alliance with the Eng-
lish parties. Mr. Redmond said they
could be no reconciliation with the Lib-
erals unless the latter and their Liberal
allies reinstated Parnell as the first
plank in their platform, and promised
to appeal to the country if the House
of Lords defeated Home Rule.

Resolutions were adopted reaffirming
that the Irish question can only be set-
tled by the concession of national self-
government, and that the only basis
of Parliament who "for the last
few years have pursued a mistaken
policy" to "rejoin the Independent party,
unite upon the principles of Charles
Stewart Parnell, and demand the re-
lease of the political prisoners as an
essential condition of simple justice and humanity."

Resolutions were also adopted, urging
the Irish everywhere to commemorate
the centenary of 1798, denouncing the
Government for repudiating the report
of the Royal Commission on the financial
relations between Great Britain and Ire-
land, expressing regret at the necessity
of raising a Parnellite fund, and calling
upon Irishmen generally to respond to
the appeal and thereby remove from
Ireland the stigma of ingratitude for the
priceless services and devotion" of
the late Charles Stewart Parnell, and
calling upon the Parnellites to accept
and Harrington to repay, out of the por-
tion of the Parnellite fund allocated for that
purpose, the £5000 due to the Parnelli-
estate."

Mr. Louis Sturgevant Chandler made a
speech, asserting that the Irish would
never achieve Home Rule until they were
united, and expressed the opinion that
they should not ally themselves with the
Tories or Liberals, "because both
the English Government and Englishmen
are never just and never do a generous
act unless forced to do it by fear."

Mr. Louis Sturgevant Chandler made a
speech, asserting that the Irish would
never achieve Home Rule until they were
united, and expressed the opinion that
they should not ally themselves with the
Tories or Liberals, "because both
the English Government and Englishmen
are never just and never do a generous
act unless forced to do it by fear."

The climax of the convention was
reached during the speech delivered by
William Redmond, M.P. Incidentally
he said that when the Dilloites rejected
Parnell they "alienated the United
States, thus killing the goose which laid
the golden egg." Mr. Redmond said he
would never walk into any room to be
controlled by Dillon and Healy, though
he was for unity, adding: "With all the
royal processions through our streets it
is time for Irishmen to say something.
The great mass of the Irish people are
to-day, and will be until liberty is given
them, the enemies of England. Eng-
land is a bully, a pirate and a savage,
bloody flag in hand, and the British Empire
has been advanced by plundering and
destroying poor people. Our spiritual
goes out to these poor people. God bless
them and give success to their efforts.
They cheer for the mee in India who
are fighting England's war."

"Down With Britain!"
The delegates thereupon climbed upon
the seats and shouted: "Down With
Britain!"

There was much denunciation of
Great Britain's policy to give Ireland
a Catholic university. The participa-
tion of the priests in politics was also
denounced and the Healyites were de-
clared to be the "assessors of Parnell."
There was no discord whatever, the
mass of all adopted with the
New York heraldy cheered.

The proceedings of the convention
were finished this evening and the pre-
siding of John Redmond proved en-
tirely unopposed. The delegates cheer-
fully and enthusiastically on the ad-
journment they warmly praised his
speech, pronouncing it to be a most

able outline of the policy of the Irish
Independent League.

Japan and the Conference.
London, Oct. 11.—An official telegram
received here from Yokohama says that
Japan accepted the invitation to send
a representative to the sealing confer-
ence, shortly to be held in Washington,
on the understanding that the whole
sealing question is to be discussed and
not simply the questions which are cov-
ered by the Paris award, Japan having
no interest in the Pribyloff Islands.

Bianco's Intentions.
Madrid, Oct. 11.—General Ramon
Blanco, the new Captain-General of
Cuba, announces that he will act with
great energy against the insurgents, and
will employ all political means to restore
equality of treatment in the various sec-
tions of the community. The Captain-
General adds that he has the greatest
desire to end the horrors of war and
to establish peace in the system which
he adopted in 1879.

London, Oct. 11.—The secretary of
the Federated Trades, comprising 30
important industries, announces that
the Executive Committee has definitely de-
cided to call out all its members, in sym-
pathy with the struggle of the engineers
against their employers, on Friday next,
when it is estimated that a total of four
hundred thousand will be out of work
on account of the great labor dispute.
The secretary of the Committee, Mr. J. H.
Amalgamated Engineers' Society threat-
ens to withdraw the engineers in the

will attend the ceremony if she is in
London at the time.

ANTI-TAX RIOT IN ROME.

Anger Shown Followed by a Raid of Police
and a Serious Fight.

Rome, Oct. 11.—A large procession of
tradesmen, headed by the pro-syndic
of Rome and the President of the Cham-
ber of Commerce, marched to the office
of the Minister of Finance, to protest
against, and confer with the Govern-
ment regarding the tax. The Minister
is also Minister of the Interior, and
a committee representing the trades-
men and the Chamber of Commerce, re-
ceived the delegation and promised to
be done to promote friendly rela-
tions and greater equity between the
tax collectors and taxpayers.
In the meantime a large crowd of
people had collected around the Min-
istry, and angry shouts were heard
of those present tore up paving stones
and otherwise assumed a very threat-
ening attitude. This caused the police
to make an attempt to disperse the
portion of the crowd, and in the
conflict which followed, the police
were injured and one rioter was killed.
The mob raised revolutionary cries
while the fighting was in progress, and
the crowd were freely used, many persons
in the crowd were injured and twenty of
the leaders of the disturbance were re-
sted. The condition of three of the
wounded policemen is serious.

Guilty of Manslaughter.

New York, Oct. 11.—The World to-mor-

yer Emanuel M. Friend, Mrs. August
Nack has sent word to District Attorney
Youngs of Queen's County that she is
ready to tell all she knows about the
murder of William Guidenapp. Mrs. Nack
asks in return that the authorities allow
her to plead guilty to manslaughter in the
first degree. The maximum sentence for
this offence, if accepted, will be impris-
onment in State Prison at hard labor for 20
years.

District Attorney Youngs has thus far
refused to consider the proposition made
by the woman. He is willing, however,
to accept a plea of murder in the second
degree, which would carry with it a sen-
tence of life imprisonment.

DEATH OF REV. CANON CHANCE.

He Was a Church of England Missionary
Among the Indians of Bruce County
and a Most Useful Man.

Paisley, Ont., Oct. 11.—This morning
early saw the close of a most useful life
in the death of Rev. Canon Chance,
father-in-law of Dr. McArthur. He was
born in Ambleside, on the banks of the
Stour, Wiltshire, England, educated
at the endowed school of Red Hill
and at the College of Cheltenham, but
before graduating he received an urgent
call to undertake missionary work among
the Indians on the north shores of Lakes
Huron and Superior. Accepting this call
he left England in 1833, under the aus-
pices of the S.P.G., with the promise
of the Indians of Santholin Islands.
He was the only missionary of the Church
of England in that vast country other
than Dr. O'Meara, Government chaplain
of the Indians, and was not expected to live
for days before the fire. When the fire
came he was carried out on the river bank,
where he remained without shelter 24 hours.
The excitement broke an abscess from
which he was suffering, and brought relief.
In carrying him out he was burned about
the foot and back. He is now in the Gen-
eral Hospital here and much improved.
This makes nine sufferers under treatment
in the city.

A man, whose name is withheld for the

man known to The World, called at the
office yesterday afternoon and commu-

of the greatest use in tracing the thieves

in question, who has just come to To-

authorities in Napanea.

Who Were They?

One day last week, it appears from
the story told The World, three young
men wearing sweaters, which it became
them owing to their genteel appearance,
arrived at North Bay. They registered
at the Queen's Hotel in that town, as
coming from Belleville. They said they

on the Parry Sound Railway, where
they were to work on the Crow's Nest, Pass road.

LUETGERT EVIDENCE ALL IN.

The Taking of Testimony Came to a Sudden Stop Yesterday—The Last Week Ended Yesterday.

Chicago, Oct. 11.—The taking of testimony in the Luetgert trial came to a sudden and unexpected close today. Witnesses whom the defence had called in to rebuttal failed to respond when their names were called, and finally ex-Judge Vincent announced to the court that the case of the defence was all in. "We rest," concluded Luetgert's chief counsel.

A sigh of relief was heard in the court room. In the case, it was agreed to begin arguments to the jury this afternoon.

Assistant State Attorney McEwen opened. He will be followed by Attorney Platen. Ex-Judge Vincent will close for the defence and State Attorney Densen will close for the prosecution. The case will go to the jury probably next Saturday night.

A Versatile Gold Mine.

"Der Wurst" (The Sausage Maker of Lakeview) which was advertised as a dramatization of the Luetgert murder case, proved a veritable gold mine for its producer last night. The aislesways, chairs, boxes, beer tables and everything around the hall where man or woman could sit were occupied. As it turned out that there is nothing new to the little German theatre saw an opportunity to catch the public eye and had changed the name of the familiar German comedy by Blumenthal and Kahlbaum, known in English as the "Two Scotchmen." The smart thing in this is appreciated when it is remembered that in the comedy as it stands in the original German, the central male character is a manufacturer of sausages and hails from Chicago.

The Celebrated Singer.

Unlike most of the European artists who have visited us, Mlle. Antonette Trebelli comes in the bloom of her career, with her first season in this city. The plans for the Friday and Monday concert have been made. The artist, who is a native of the city, is a soprano, and her repertoire is a most interesting one. Her first concert will be given on Friday night at the Grand Opera House.

MISS FLORENCE BRIMSON BACK

Mlle. Toronto Returns From Paris, and Will Appear in Opera This Fall—Engaged by Damrosch—An Interesting Chat With the Young Soprano.

Miss Florence Brimson (professionally Mlle. Toronto) has just arrived home from Paris, after having spent over three years in the study of music with the famous Madame Marchesi. The young soprano is quartered at the Arlington, along with her father and mother, the latter having been with her daughter during her studies abroad. They arrived by the Bretagne, which reached New York on Saturday, and had a very rough voyage, during which she suffered much from the very distressing but not dangerous malady, sea-sickness.

Miss Brimson remains in Toronto until the end of the month, then proceeds to New York for rehearsals of the opera in which she is to take leading roles this season under Mr. Walter Damrosch. A World representative found Miss Brimson enjoying a chat with her friend, Miss Cousineau, daughter of the proprietor of the Bon Marche, a charming young lady, who is also a pupil of Marchesi, and they were evidently enjoying themselves in talking over the times they had together in the gay French capital last year. By the way, Miss Cousineau returns to Paris next month to continue her studies.

MISS FLORENCE BRIMSON (Mlle. Toronto).

(FROM A PHOTOGRAPH BY RENTLINGER, PARIS.)

"How did you enjoy life in Paris?" was the first question asked of Miss Brimson.

"I enjoyed it very much," was the reply, "but would have enjoyed it more if I had not had so much work to do. The music was not so trying, but I had to learn the languages—French and Italian—and with all her schooling, there is an influence which draws you to her, and while the whole day long and part of the night."

"And what about Marchesi? We see in musical papers that the old lady is very cross."

"Well, she is cross, but after all we like her. There is something about her which compels admiration, and even a warmer feeling. She dominates one completely, and yet, with all her schooling, there is an influence which draws you to her, and while you may feel vexed something tells you that there is a warm heart beneath it all, and in thinking it over after the lesson you know that the old teacher is doing her best to make you an artist."

"Did you study with any other teachers?"

"Not in voice culture, but I had to take acting lessons, and in these we had great

"Which language do you prefer?"

"I think I would rather sing in Italian, though I like both the other languages."

"What about the musical tastes of the people over there as contrasted with those on this side of the Atlantic?"

"The difference is marvellous. In Paris the taste for 'artistic' singing. Merely a good voice will not do, even with fine executive ability. And everyone seems able to discriminate. Even the street archers, hearing an air, will tell from what opera it is taken and whether it is 'artistically' sung."

At this point Mr. and Mrs. Brimson returned from a walk and the conversation took a general turn. Mrs. Brimson expressed pleasure at being once more at home in Toronto, but said this city appeared very quiet after the bustle of Paris. She remarked that the streets were dirty compared with those of the French capital, where the pavements are washed every day, and not a leaf can be seen. In some ways, however, we are ahead of them, notably in the matter of dwellings, lighting and street car transportation.

MINERS HAVE GONE CRAZY.

One Who Had Thirty Thousand Dollars Feared He Would Be Robbed, and the Excitement Killed Him.

Tacoma, Wash., Oct. 11.—Men who have just arrived from Dawson report that three miners have gone crazy there over the gold excitement. L. P. Gerrish, who arrived to-day en route home to West Superior, Wis., says:

"The sanitary condition of Dawson City is not so bad as many reports have declared. In many instances sickness and death have been brought about by hard work and excitement. Some men live on barely nothing, and that only half-cooked. The excitement attendant upon the washing and accumulation of gold is so great that men devote the time to it that should be given to cooking, cleanliness and rest."

Feared He Would Be Robbed.—A man named Johnson washed out \$30,000, and could not dispose himself of the idea that he was going to be robbed. The mental strain was so great that he caused his death, for he was found one morning dead in bed, and underneath his pillow lay his sack of \$30,000 in gold dust.

When we left, the Dawson men were begging at the store doors to be allowed to enter and get supplies. It was some days before our party succeeded in obtaining enough provisions to supply us on our journey out.

Two other cases of mental derangement from similar causes are reported, but the names of the men are not recalled.

Took Shot.—Michael Knutson took a snuff weighing 34 Troy ounces and worth \$88 from claim No. 38, Eldorado, and a party of men, including Knutson, Henderson, Sulphur and Adams Creek are growing wonderfully rich. Some of them will surpass even Eldorado. Coming out, Gerrish met several men, two of whom were sheep being driven in. He says they will reach Dawson and will be a God-send there. Two thousand men who are still crossing Skagway and Dyea trails are having terrible experiences. Two feet of snow has fallen at the lakes and several feet at the summit. The snow caught everybody unprepared.

Macdonald v. Toronto. The case of Macdonald v. Toronto will be heard at Osgoode Hall this morning at 10 o'clock. Many of the men who will appear without being subpoenaed, but there are others who say they will demand a dollar from Mr. Macdonald every time they have to go to the Hall. Aldermen Lamb, Burns and others would not accept the conduct money and said they would be on hand any way.

HE LIVED 90 YEARS.

James Morin, One of the Familiar Figures of Ottawa, Passes Away.

Ottawa, Oct. 11.—James Morin, one of the oldest residents in Ottawa, died early this morning. Mr. Morin was 90 years of age, and lived with his daughter, Mrs. Frank Peterson of Rochester, N.Y. Mr. Morin has for many years been a familiar figure on the streets of Ottawa and had many warm personal friends and hosts of acquaintances. It will be remembered that in 1888 he was held last night at St. Michael's Hospital by coroner George Mass, who met his death at Claremont on Sunday last through being run over by a C.F.R. freight train. Mr. Angus McMurphy represented the company and Mr. Lockhart George represented the coroner. The body was given by Driver Geddes of the police ambulance. Dr. Dwyer, medical superintendent of St. Michael's Hospital, and a number of the employees of the road. The coroner in answer to the jury complimented the employees on their prompt action in the matter, after which the jury retired and returned a verdict of accidental death and attaching no blame to the railroad.

LOSSES AND INSURANCE

Only About One-Sixth of the Destruction Covered by Policies.

Meeting of Citizens at Ottawa to Organize a System of Distribution—Ontario Government Sends Help—Lord Aberdeen Contributes—Dr. Bryce Makes Suggestions—Money Beginning to Flow in—Exciting Time at Bear Brook—Everybody Helping.

Ottawa, Oct. 11.—Mayor Bingham presided at a public meeting of citizens to-night, held for the purpose of providing relief for the sufferers by the Hassel county fire. There was a good attendance. The Premier sent a letter, regretting that public business prevented him from being present.

Among those in attendance from outside the city were: Mr. Edwards, M.P., and Mr. Frank M.P. Edwards gave an account of the losses and insurance. He said the total was \$381,820 and the insurance \$68,700.

Urgent Need of Aid. Mr. Belcourt followed, and moved a resolution to the effect that there was urgent need of aid. Rev. Mr. Moore seconded the resolution, which was carried.

Mr. Proulx spoke in French in support of the great need that there was for relief. Dr. Bryce said that his presence there showed that the sympathy of the Ontario Government was with the sufferers and that a grant would no doubt be forthcoming.

Rev. Mr. Herridge made an eloquent speech after which Mr. Swetland moved, seconded by ex-Mayor McDougall, the appointment of the following committee to look after the sufferers: Mr. Cook and Stewart, W. C. Edwards, M.P., I. Proulx, M.P., Warden Racine, Gill (Master Bank of Commerce), Warden MacDonald of Carleton, and County Councillors Ballantyne and Rothwell, and Councilor Stewart of South Indian.

The Governor's Contribution.

The following telegram was read from Lord Aberdeen: "I send my best wishes for the meeting this evening, and shall be happy to contribute \$200."

The Ontario Government will help the sufferers of Prescott and Russell. Premier Hardy has wired Speaker Evans to act as follows: "Have recommended to the Lieutenant-Governor that an immediate grant be made towards the personal relief of those suffering from the late calamitous fire." (Signed) A. S. Hardy.

Mr. Evans' answer to Hon. A. S. Hardy reads: "Your message is one of consolation for the sufferers of our united counties. The prompt and generous action of your Government will evoke much joy and gratitude in the hearts of those who have been so cruelly tried." (Signed) Alfred Evans.

Dr. Bryce, the Medical Health Inspector, appeared before the local fire committee, and in a short address made several practical suggestions for the relief of the sufferers. After having found over the committee he was forced to the conviction that the most telling relief would come from the outside.

Dr. Bryce said that the committee was well off in the committee were to tend on several carpenters to commence the erection of buildings, which might then be completed. The work of the committee should be for the distribution of supplies should be established on the ground and be presided over by a disinterested official, who would see that equal justice was done to all the applicants in a short time. The next suggestion was most important, and in a short time a bureau should be instituted, which calls for labor, of whatever nature, might be referred by the citizens at large; in this way a good many of the sufferers might be temporarily or permanently relieved.

To City Clerk Henderson, the secretary of the committee, was entrusted the work of answering all correspondence relative to the work of relief.

Contributions Sent In. The city of Brantford has sent \$116 to the fire fund. Rev. Mr. Bennett, Presbyterian minister at Hawkesbury, has sent \$25. The Rev. Mr. Bingham has received \$273.25 to-day in aid of the relief fund. The Canadian Rubber Company has sent \$25. The Church of England congregation at Vankeek Hill sent \$62.25, the amount of a collection at the harvest home festival. A friend from Prescott sent \$10. M. M. M. from Montreal \$1, and Lansing from Montreal \$10.

An Exciting Time.

Saturday evening was a time of excitement around Bearbrook, as the fire had progressed to within a short distance of the village. A large number of the villagers turned out to fight the flames and were ably assisted by 25 men who had been sent down by the C.F.R. Company. Trenches were dug in the sand scattered broadcast over the grass to check the flames. All danger is now thought to be over.

The appeals that Mayor Bingham sent out to the other cities are meeting with a ready response. Saturday his Worship received the following telegram from Quebec: "Your telegram just received. In the name of the city of Quebec, I send you the most hearty sympathy of our population for the unfortunate fire sufferers in the Counties of Prescott and Russell. I have at once taken steps to call a public meeting of citizens for Tuesday next at 4 o'clock to consider what we can do to respond to your appeal for charity." (Signed) S. N. Parent, Mayor.

His Grace Archbishop Duhamel at the Basilica yesterday morning announced that he had authorized notices to be posted in all the churches in the diocese to the effect that a special collection for the aid of the fire sufferers would be taken up next Sunday morning.

The Ottawa Baggage Transfer Company has placed its teams and wagons at the disposal of the Relief Committee for the conveyance of articles intended for the fire sufferers, and has already carried large quantities of goods.

SHELBOURNE'S SENSATION.

The Reeve of the Village and a Number of Farmers Sent for Trial Charged With Perjury.

Shelburne, Ont., Oct. 11.—John Hamilton, Reeve of Shelburne, and a Justice of the Peace, James Sammons, Thomas Gallagher and Adam London, farmers in the vicinity, John Coleman of Shelburne and James Small of Melancthon have been charged with perjury.

The Crown declares that it has in its possession information of a startling nature with regard to a widely manifested system of perjury, by which witnesses were kept on tap, and were "squeezed" for long or short memories, as the circumstances of litigation required.

The figure which stands out most prominently in these cases is that of Reeve John Hamilton, J.P., of Shelburne, who is known all over the county as "Jack" Hamilton. Hamilton is an implement agent, who does a supplementary business in notes and mortgages. He is a shrewd man, and his note and mortgage business has developed into a slow but steady one. He has always kept in touch with the farmers, whom, the Crown says, he uses for his own purposes.

Hamilton is considered the chief figure in the conspiracy, but it is only fair to say that so far the evidence against him is least of all. This is because the Crown alleges it was Hamilton's plan always to work by deputy.

The authorities are confident that there will be a number of convictions. James Sammons, a Justice of the Peace, has made a voluntary but startling statutory declaration of perjury in the case of the Crown, and there is a general suspicion for cover.

The present sensation has been caused by the perseverance of a lone but resolute widow, who considered herself defrauded by Reeve Hamilton.

The Dollar Bill Talks About Derelict Shoes.

"Look at me!" said the Silver Dollar. "I am big and round, and the right shape to roll; when I get going down hill a wild trolley car can't catch me!"

"Yes," said the Canadian Dollar Bill, "you're a high roller 'tis true; but why don't you and the Mexican Dollar take an occasional roll up hill to the 'Hundred Cent' Station?"

"You 'wheel of fortune' dollars remind me of certain stamped priced shoes, on which the stamped price is regulated by the dealer according to the profit he wants, instead of by the manufacturer, according to his knowledge of their worth."

"Your name is 'dollar' of course, but your actual value in Slater Shoes or Canuck money is between fifty and eighty cents. 'Seems to me you were made for each other—fifty cent dollars to be paid for the 'fifty cent dollar' stamped shoes—a fair exchange of fictitious par values."

"Oh, well, don't you get gay," sneered the Silver Dollar; "you may be called in and cancelled any day."

"When I am," said Bill, "I won't pretend to be money at all, but just as I was before being signed by the Minister of Finance—mere paper."

"If a man offered me for fifty cents, the purchaser's first glance of suspicion would be at that signature, which tells whether I'm an actual dollar, or something of unknown and doubtful value."

"There's my friend and compatriot 'The Slater Shoe,' which does business on the self same principle. The name and price stamped on its sole is the makers' certificate of its value, and means that they deem that shoe perfect enough to endorse it, and thereby become responsible for its service and comfort."

"It also means that the price stamped is not the dealers' price, but the makers' estimate of its sure value to the wearer."

"It is a 'hundred cents on the dollar' shoe, and the stamp is not put on any 'ninety cents on the dollar' pair, even if made at the Slater Shoe Factory."

"Workmen and tanners and machinery never make any mistakes, I suppose?" insinuated the Silver Dollar.

"Oh, yes, they do," said the Dollar Bill; "but a stitch missed, a slip of the knife, or a flaw in the leather, changes the whole destiny of what was meant to be a 'Slater Shoe.'"

"If its perfection is marred in the making, it goes forth on the market nameless, without the Slater Shoe stamp, price or guarantee, and is sold to the highest bidder as imperfect goods."

"Sometimes the merchant who buys these faulty grades quibbles on the name, and tries to impose them on the credulous as 'Slater Shoes.' But they are no more 'Slater Shoes,' or Slater Shoe standard, than I would be a real dollar bill if I lacked the signature of the Minister of Finance."

"The Slater Shoe' brand means more than the mere fact that the shoe which bears it was made by Geo. T. Slater & Sons, whose factory could make any kind of shoes a dealer wanted, but who could not be induced to put the Slater Shoe brand on them if they were unworthy of that brand in quality or price."

"Why, I've known the Slater Shoe people to call in from their agencies some of their shoes, and cancel the brand off them, just because the style had staled a trifle, or because the wearing quality of the leather had been impaired through the moisture drying out while the shoes were on the shelves. They are as careful of value as my makers are of redemption."

When the stamp has been erased from a "Slater Shoe" it is known as a "Derelict," and is sold for what it is worth to stores which have a market for uncertain goods.

They are good enough even then to be offered by the largest retail concerns in Canada as first-class shoes, but not good enough to bear the "Slater Shoe" stamp on the sole, with the makers' pledge which that implies.

If a lot of cancelled Government bills were offered for sale as merely fine paper one might safely invest at the current price of paper.

But if these cancelled bills are offered as money—beware!

The name and price on the soles of Slater Shoes were not put there for blind men. There is but one store in this place which can sell you the genuine trade-marked, guaranteed article.

No matter who else claims to have them, that store is the only one which can buy Slater Shoes to sell again. Its name is:

The Toronto Slater Shoe Store
89 King Street West.

The Band Can't Play in the Rink Behind St. Margaret's Church—A Man's Anger.

At the non-jury sittings judgment was given with costs for the plaintiffs in St. Margaret's Church v. Stephens. This Anglican church is situated on the east side of Spadina-avenue, just below Queen-street, and is justly celebrated for the excellent sermons which the Rev. Prof. Clark often delivers in it.

The congregation are disturbed at their devotions by a brass band which plays at the defendant's rink behind the church. The church trustees are petitioning the court to have the band removed from having the band play in the church.

Justice's Lists.
The Division Court reserved judgment in Reg. v. Williams. A case was reserved by Justice Robertson upon the trial of defendant at Nanaimo, B.C., the case of Frank Turner. At the Coroner's inquest the defendant appeared and gave evidence. It was proposed to use evidence at the trial but Justice Robertson rejected it. The defendant was acquitted. This is a motion by the Crown for a new trial.

Yesterday in Wall-Street.
New York, Oct. 11.—The Evening Post says: After further liquidation of the sort characterizing much of last week's dealings in stocks, some traders took the other side of the market around noon today and the slow decline in prices. Simultaneously there was a decided falling off in the transactions, so that a comparative lull business in the afternoon. The dealings made it quite plain that at the moment the market was not in a disposition to buy for a rise, and also that the speculative efforts of bear operators were after last week's decline undertaken with a proper amount of timidity. The close was firm but dull, and the hands of the professional element.

Only those who have had experience can tell the tortures cause. Pain with your boots on, pain in the foot at night and day, but relief is sure to those who use Holloway's Corn Cure.

Things undoubtedly look bad for next year's wheat crop in the United States. The fall plowing has not been satisfactory for one reason or another, and, further, the drought has been very severe in agricultural work done at this season this year. This is a serious matter now, although recovery is hoped for in the coming season and frosts are deferred.

Weather reports are closely scanned these days. Any trace of rain, showers reported this morning in Illinois and Kansas.
