ALL ABOUT THE TRANSVAAL
Some Very Interesting Facts and Figures About the Boer and the Country He Lives In.
THE LAND GLITTERS WITH GOLD
Has a Standing Army of 300 Men, But Can Put Out 60,000 Fighters.
The South African Republic, also known as the Transvaal, was originally formed by the Boers, who left the Cape Colony in 1838 for Natal, but who felt that they had no right to the land between the Orange and the Tugela rivers. In 1852 the independence of the Transvaal was recognized by the British Government. On April 12, 1857, the Transvaal was annexed by the British Government against the wishes of the Boers. The Boers took up arms, and a treaty of peace was signed March 21, 1851. According to the convention ratified by the Volksraad, self-government was restored to the Transvaal so far as regards internal affairs. The control and management of external affairs being reserved to the Queen of England, as sovereign.

IMPERIAL CABINET MET.
No Ultimatum Yet to Kruger, But a Tilt Limit Put on the Cape Town Conference.
London, Sept. 8.—The Cabinet Council here to-day attracted greater public interest than any meeting of the Ministers for years past. A well-dressed crowd of people cordially welcomed the members of the Cabinet Ministers and Imperial Conference to the premises of the Foreign Office throughout the session, eagerly scrutinizing the faces of those coming and going in the hope of obtaining a glimpse of the outcome of the momentous event. The war spirit was evident on all sides, and the general was enthusiastic as they cheered as they appeared, the crowd evidently understanding that they had

Wheat Prices at Country Points
Nothing New in the Anderson Bail Affair, But the Probability is No Bail Will be Granted.
Winnipeg, Sept. 8.—(Special).—Frank Morris, who went out to the Klondike last March, returned home to-day. He says: "I was considered lucky in getting work so soon after arrival, and I would not have secured it but for the fact that influential friends interested for me. I would strongly advise workmen to remain in Manitoba and work for farmers, rather than go out there."

PRACTICAL PATRIOTISM.

A sentiment that is by no means new, but which has been developed among Canadians in what might be called the sentiment of practical patriotism. The people of the United States are as full of this sentiment as we are lacking in it.

TOO HIGH A PRICE TO PAY.

A million dollars a year for ten years is a large sum for this country to pay for a great Atlantic service. Some people, not altogether devoid of intelligence and patriotism, believe that it is much too large a sum to pay for the advantage of promoting Canada the highway of travel between the two continents.

THE DOMINION ELECTIONS COMING.

THE BLUES.

The Blues is the name given to a painful common disease. The symptoms are a strong feeling of disgust at one's self, utter loss of hope in the ultimate triumph of virtue in the present state of society, and total all-embracing dissatisfaction with things that are.

It is astonishing how easy it is at times to make the situation of your physical structure solid; so that the rest of the organs may successfully resist the attacks of the disease.

North American Life Solid as the Continent. Life is a chance; Life Insurance a dead certainty. Insurance is an addition to human power; a valuation and a bid for unwrought plans; a prized invoice of time not yet arrived nor certain to come; a salvage, instead of a ravaged edge.

There is a large amount of this same paper about in Ontario in the shape of promises to the Senate and the like. Our old friend, H. H. Cook, says he'll not renew his contract with the Laurier Government.

Government ownership and operation of the means of transportation is one of the live public questions of the near future. The feeling in favor of it has lately been growing wonderfully, especially in the railway circles.

BIG LACE CURTAIN SALE.

We are loaded up with lace curtains, despite the increased space of the new store. We brought into the new store, at time of removal, very heavy stocks of lace curtains, and within the last week or two these have been further supplemented by heavy shipments direct from the manufacturers in Europe, which has made our stocks of lace curtains about double usual size.

For these reasons we've resolved on a very special sale of lace curtains. In quality they are the finest—nothing to approach them anywhere in Canada.

Sale will commence at 8 o'clock Monday morning. We select some lines to indicate the genuineness of the bargains being offered.

HAVE THOSE BOERS COME TO THE POINT?

Continued from Page 1.

Cheered the Generals.

A crowd of from 2000 to 3000 persons assembled at the White Hall entrance to Downing-street, where the Foreign and Colonial offices are situated at an early hour this morning.

Cheers for Salisbury.

The arrival of Lord Salisbury, the Premier, was the signal for tremendous cheering. Next came the Duke of Devonshire, the Lord President of the Council, Right Hon. Henry Chaplin, the President of the Hon. Government Board, and the Earl of Halsbury, the Lord High Chancellor.

Must Have Patience.

The Cabinet Council was concluded at 3 p. m. A reporter of the Associated Press asked the President of the Council of Agriculture, the Right Hon. Walter Long, if any conclusion had been reached. He said: "All I can say is that we must have patience."

No Ultimatum Reached.

The Ministers came out arm-in-arm, laughing and chatting, greatly contrasting with the manner in which they were in Lord Salisbury again received an ovation. Although the Foreign Office has not given out an official statement, the general impression was that no ultimatum would be sent to the Transvaal at present, and that a time limit was placed for a conference at Cape Town.

Workingmen in Cape Town Have Confidence in Chamberlain and Milner.

Cape Town, Sept. 8.—The reports of the Raal debate at Pretoria, published here, created intense feeling, and the disparaging reference to Mr. Joseph Chamberlain, Imperial Secretary of State for the Colonies, and Sir Alfred Milner, Governor of Cape Colony and British High Commissioner in South Africa, is resented.

10,000 TROOPS WILL BE SENT.

London, Sept. 8.—The Fall Mall Gazette this afternoon says: "No official account has been issued of to-day's Cabinet meeting, and it is highly improbable that one will be permitted to appear. From authoritative sources, from people who are in a position to state with what we believe to be substantial accuracy, this is the result of their momentous deliberations. There is every reason to believe Mr. Chamberlain's despatch was found to contain a telling rebuff to entertain the Boer proposal that England should relinquish suzerainty over the Transvaal, and a pertinent reminder that the offer of a joint enquiry into the franchise proposal cannot remain open indefinitely. Though not an ultimatum in form, the despatch will be one in effect, since it may be expected to contain a strong hint that no answer will be accepted which is evasive or unfavorable in any essential condition."

HOW THE BOERS VIEW IT.

Pretoria, Sept. 8.—In the first Raal this evening the debate was resumed on the interpretation of the Government respecting the concentration of British troops on the border, and the stoppage of ammunition consigned to the Transvaal. The House adjourned shortly before noon, after adopting unanimously the following resolution: "The Volksraad, having considered: that friendly correspondence is still passing between the two Governments, that the concentration of troops in great numbers near the border has a detrimental and restless effect on the inhabitants of the state, and that the Transvaal has hoped in friendship and peace with all nations, and desires to continue to live in such friendship and peace, now declares its regret at the fact of concentration, and expresses the

President Kruger Says He Has Already Given Away His Jacket and Trowsers.

Pretoria, Sept. 8.—In the course of the debate in the first Raal yesterday, President Kruger said he knew the Lord would give a good judgment in the dispute between England and the Transvaal, and that "if Mr. Chamberlain stood before the conscience of God his own conscience must acknowledge there was no suzerainty."

Kruger in His Shirt Tail.

All depended, the President declared, upon the reply received from Mr. Chamberlain. He (Kruger) had given much away already. He had given his jacket and trowsers and the only thing left was independence.

The Boers Cheered.

The President's declaration that if it came to fighting God would be the arbiter was loudly cheered. In conclusion, Mr. Kruger said he hoped the Raal would wait until the reply to the last despatch had been received. If the proposal for a conference was renewed, the Transvaal Government would do its best to meet the other side. God, he said, held the hearts of the people in his hand, and if the people called on Him he would respond. He raised

A Piano Triumph

There is no question of the decided triumph achieved in our exhibit of high-class pianos at this year's Toronto Industrial.

Increased space given piano manufacturers enabled every exhibitor to put his best foot forward, but it is simply a cold fact, plain to the observation of everyone who visited the Musical Pavilion, that the display of the old firm of Heintzman & Co. stood out distinctive and apart from all others, measured in any way whatever—space, character, beauty, artistic design or, best of all, tonal quality.

But, after all the successes of the Industrial have simply been repetitions of the successes that have come to the manufacturers of the art piano of Canada in many different ways from year to year during its long history of half a century. Purchasers who are determined to possess a high-class piano that will bear comparison with the world's finest pianos, will find satisfaction in buying one of these pianos, the choice of the world's great artists and musical critics.

HEINTZMAN & CO. 117 King-Street West, Toronto.

With One Voice.

"It afforded me the greatest pleasure to know that so fine an instrument as the Concert Grand Piano of Heintzman & Co., used at my concerts at the Armories, was manufactured in Canada."—Pol Pianoon, great French Basso.

"Every note rings out in clear, pearly and limpid quality. It excels any piano I have ever used."—Madame Albani.

"Its sympathetic richness and brilliancy of tone, and its singing quality, combined with the delightful ease of touch, easily places this instrument in the front ranks of the leading manufacturers of the world."—Nuttini, celebrated blind Italian artist.

"It has been my privilege to sing before the pianos of leading makers in all parts of the world, but my experience with the Heintzman & Co. pianos justifies me in saying that it will take a place along with the best of them."—Scaichi.

opinion that in the case of eventualities which might lead to emity or war between the two Governments the cause would not lie with the Republic. As regards the stoppage of ammunition at Delagoa Bay, the Volksraad trusts that the Government will act according to circumstances.

The Raal further resolves to drop the matter of the concentration of troops on the border for the present until the Government shall supply further information obtained in satisfactory manner, and with a view to the result of the negotiations which are pending, the Raal declares itself determined in the meantime to maintain the rights and independence of the Republic.

have completed arrangements to poison all pools and springs likely to supply the invading force with water. Unrest is reported among the Natal natives, and this is suspected is due to Boer inducements.

Boers May Strike. London, Sept. 8.—The correspondent of The Times at Newcastle, Natal, says: "There would be little surprise here if the Boers assumed the aggressive immediately. It is a matter of astonishment that so few British troops are in the country, especially on the western border."

Urgency at Mafeking. The Times, in its second edition, to-day published a despatch from Mafeking which says: "Colonel Baden-Powell will review the troops at Ramatlabama to-morrow. Large numbers of Boers are moving about the border near there. There is uneasiness if it is feared they might join the invaders in case of a raid."

Anxiety at Johannesburg. Johannesburg, Sept. 8.—The anxiety here in regard to the crisis has been intensified by the tone of the debate in the Raal. The railroad officers continue to be besieged by those wanting to get out of the country.

Called for Conference. London, Sept. 8.—Sir William Francis Butler, who was recently relieved as commander of the British troops in South Africa by Lieut-General Sir Frederick Walker, arrived in this city to-day. He is being belicose, and it is rumored that they

Mr. J. Graham, chairman of the Reception Committee for the opening of the city place has given an order for 35 silver medals to be distributed among the aides-matras as souvenirs of the opening event.

Building permits have been issued to E. Gunn for a two-story and attic brick residence on Dunbar-road, to cost \$5000, and to W. B. Griner, for brick residence on Sherbourne-road, near Queen-street, to cost \$2500.

Street Commissioner Jones requests an anonymous correspondent, "C.C.," at his office to receive an explanation of the matter that he complains of. It is the intention of the Mayor to invite all the living and dead and exalted men to attend the official opening ceremonies on Sept. 15. His Worship is preparing a historical and natural history of the progress of the city since its incorporation.

The Mayor has written to Secretary McGowan, asking how many men have been added to the fire brigade during the last few years, and what apparatus has been added. Aid. Lamb yesterday bought the eagle and the peregrine for the Riverside Zoo for the purpose of the exhibition for the Riverside Park menagerie.

The Board of Works will meet on Tuesday. The City Council will hold its first meeting after vacation on Sept. 18. It will require six men to keep the windows of the new City Hall looking ship and span.

POWER STOCK ON THE CURB.

Hon. A. G. Blair Said to Be a Director of the Storage Power Company.

New York Commercial: It is expected that within two weeks the stock of the Storage Power Company will be placed on the curb market. The company is a new one in that it has been in existence for some years past. It has a capital stock of \$5,000,000, none of which was issued. It owns the Pull patents for compressed air and superheated water. Its motor was built for the New York Central using the Pull patents which developed a speed of 40 miles an hour.

It is the intention of the company, now that the experiments have demonstrated the worth of the invention, to build 15 motor cars. The company has secured specifications will be submitted to the Paterson Locomotive Works, at Paterson, N.J., and the Baldwin Locomotive Works, at Erie, Pa., which plants the motors will be built. These motors will be used wholly for suburban truck service, and not for street cars.

V. E. Prall, the inventor, said yesterday that his invention combined both compressed air and water heated to about 600 degrees Fahrenheit. The directors of the company are men who are identified with the New York Central's interest. It is said that Hon. A. G. Blair, the Canadian Minister in Baltimore, and Col. John Jacob Astor will also act as directors. The company has been undergoing a change during the past few months in its management, and the prospectus will be published within a short time.

Subscriber Answered. Editor World: Would you please be so kind as to say which is right in this argument as regards the sale of spirituous liquors on passenger steamships in the waters of Lake Ontario? I claim that there is a law prohibiting the sale of spirituous liquors on any Canadian passenger vessel as far as I can remember. He claims that my Canadian passenger boat can sell spirituous liquors anywhere outside the three-mile limit. Please say which is right, and oblige.

No license shall be issued for the sale of liquor on any vessel navigating the great lakes, River St. Lawrence, Ottawa River or any of the inland waters of the Province of Ontario, nor shall any liquor be sold or kept for sale in any room or place on any such vessel.

Expert Teachers of Business. With appointments and college courses most perfect, and in no small degree helpful to the students in attendance, the Business College is the practical character of the teaching.

In a college, where men like Hugh Blain and W. D. Matthews, of the Ontario Board of Trade; R. T. Coody, City Treasurer, and many other successful business men have been graduates, the evidence is clear that the teaching is of the right kind.

There are no chances taken by the student who enters the British American Business College, whether the subject is bookkeeping, stenography, typewriting, business law or advertising.

He or she is sure of the kind of training that will bring success when the college course is ended.

Given an Order Mail. The conviction was given against the Public School Board by Judge McMillan in Mr. F. B. Hodgins' case, the conviction was granted an order nisi, keeping the Church services and the action was brought by Mr. William McFarlane, barrister-at-law, of Queen and Sherbourne-streets.

Two Dozen Special Teams. There were nearly two dozen special trains filled out of the depot yesterday, conveying Exhibition visitors to their homes. The rush continued all day until late in the evening, but the officials were equal to the occasion, and handled the crowds in an admirable manner. It is expected that the majority of the visitors will be gone by to-day.

GRANDMOTHER

Used Dr. Fowler's Extract of Wild Strawberry.

Mrs. Thos. Sherlock, Arrprior, Ont., Tells How This Famous Remedy Has Been a Family Friend for Several Generations.

Grandmother always gave the little ones Dr. Fowler's Extract of Wild Strawberry when they suffered from cramps, colic, diarrhoea, dysentery, or any other ailment. The little ones grew their own—gave them Dr. Fowler's Extract of Wild Strawberry when necessary. These grandchildren, now with children, prattling at their side, can find nothing better than Dr. Fowler's Extract of Wild Strawberry, that grand mother, in her wisdom, always kept in the house during the summer season.

PLEASURES ITS PATRONS.

The Grand Trunk Company Adds New Dining Cars to Its Equipment.

The Grand Trunk Railway has added two additional dining cars to its equipment. They are models of artistic beauty and materially add to the pleasure of travelling over its popular routes. With improved first-class coaches and the finest sleeping cars that can be run on any through train in America, it was essential to have the finest dining cars to go with them.

The general exterior appearance of the cars is similar to the new standard day coaches which are run on the Grand Trunk System. The windows are placed with heavy plate glass, are all double, being just proof when shut. The dining room is 12 feet 8 inches long and will seat 30 persons comfortably. The general style of the interior design is colonial, in quarters oak. The chairs are upholstered in leather. The windows are decorated with costly draperies, and the openings into the dining room are provided with ornamental portieres. The floors are carpeted with handsome Wilton throughout the whole length of the car.

The kitchen and pantry are equipped with refrigerators, ranges, steam tables, lockers and all modern conveniences, the tables being covered with polished brass. A very handsome and beautifully designed sideboard is placed at one end of the dining room, just in front of the pantry and opposite to the sideboard a wine locker is provided. China and linen closets, wardrobes and all modern conveniences are in evidence in accordance with modern practice. The cars are heated with hot water coils in connection with steam from the engine. Adams and Westlake Acme lamps, and the trimmings throughout are of solid bronze, beautifully designed. The new car, which is now running between Toronto and Port Huron, is elaborately decorated in a general green and gold color, giving the car a most comfortable appearance. Altogether they are superb creations of skilled workmanship and great admired by all who see them.

Man Killed Near Peterboro.

Peterboro, Ont., Sept. 8.—During a thunderstorm which passed over this section about 5 o'clock this evening, William Foster, a farmer, who lived about four miles out of town, was struck by lightning and instantly killed. Mr. Foster was mowing a field with a team of horses in his own field when he met his death. He was 58 years old.

Man and Horses Killed. Peterboro, Ont., Sept. 8.—During a heavy thunderstorm which passed over this section about 5 o'clock last evening Robert S. Dainard, who lived about 10 miles from here, while driving a team of horses to water, was struck by lightning and instantly killed, as also were the horses.

Through Route to the Orient. The trend of events is making America every year more and more the westward overland route between Europe and the far Orient, and turning our own stream of trade and traffic more vigorously, running from the Pacific coast, all the way to the Atlantic coast, and receiving the main body of the new patronage. The wonderful comfort and speed of their trains, and their regularity of their connections, and their regularity of their arrivals, and the New York Central is largely entitled to the credit of this good opinion, for that is the trans-continental line they see most of.—Outing, April, 1898.

Valuable Horses Stolen. Winnipeg Tribune: The thoroughbred stallion, Hudson's Boy, was either stolen or broke loose from the Exhibition stables this morning, in company with Brandonite, a gelding, and cannot be found. Hudson's Boy is a valuable animal. His color is chestnut, with three white legs, the other (hind) legs being spotted. He is also chestnut, and has his tall cut. The country is being scoured for the two animals.

When the Lease Expires. Mr. Vanderbilt of the New York Central has made a contract with the Boston and Albany, covering a period of 1000 years, might be said to be a railroad agreement connecting time and eternity. When this century's contract runs out there will be three years or less—very few, by the way. There will have been some changes upon the face of the earth, but many of the things and institutions which we now know will have passed away.

When the lease expires the New York Central trains will be running between Albany and Boston without electric current or liquid air. The single rail tracks will cross the highway or avenue at grade. The cars will be conspicuous to Albany and Boston, and the New York Central's chief competitor will be the down to a matter of minutes and affording an unsurpassed bird-eye view of the Berkshire Hills.

When the lease expires the Boston bean and the anathematizing of the anti-imperialists will not be entirely abandoned, but nearly so; the Albany capitol will be approaching completion and the image vendors will be busy. Lobbyists may arrange with the cashier at the State house door for the influence of such legislators as have not been elected.

When the lease runs out in 2808 Manhattan may have rapid transit and fair local government, but good citizens should not expect too much all at once.—From the Detroit Free Press.

Dear Sir,—I desire to thank you for the receipt to-day of a draft for \$25.00, in settlement of my son, Mr. J. J. Peck, Esq., Manager of the Mutual Life Ins. Woman's World...

Devoted Specially to the Interests of our Women Readers. Conducted by Katherine Leslie.

How women's taste in embroidery and all sorts of needlework—or "fancy work," as it is commonly called—and in home decoration has developed and improved within the last few years! Not far back than a decade or so women were working all sorts of horrors—"mottos," I think, they called them—on perforated cardboard, in crudely shaded Berlin wool or silk "goodness Our Home," a truly admirable aspiration, when not uttered in cardboard embroidery; "Home, Sweet Home," "Mimph," together with many condensed sentimentalities, were framed and hung in every house. The young woman who did not work "mottos" for herself or friends was a rara avis. Besides "mottos," they worked pestiferous little "lilies" for chair backs, which, unless planned to the chair, had a habit of attaching themselves to the back of the caller, and, clinging there like a plaster of his very colors, as he unconsciously wended his way down street, proclaimed to all the world where he had been. Another form of fancy work to which young ladies devote their attention was the painting or working of "panels." The background of these "panels" was usually gorgeously colored satin or silk, cardinal being a favorite tint upon which needle or brush ran riot. Sunflowers, hollyhocks, roses in bunches (which a graduate would have repudiated with indignation) and sometimes storks and birds unrecognizable by an ornithologist, were unobtainably fine. They were then lined—the panels, I mean—the ends being with fringes of little brass bells or cross-strings, the top rim with beads upon a brass rod, and, lo! then the artistic decorations for the drawing room door or wall. Then, between the working of "lilies,"

embroidery on white or neutral backgrounds for decorative purposes, and the dainty dices and counter-pleces, they take what a girl is fixed. Women, too, are turning their attention more and more to artistic needlework in other lines, such as lace, and I am told that no really excellent work in handmade lace goes begging for a purchaser.

Neither is there now any making-over of hideous furniture. When women want something artistic in the way of a little table for the drawing room, they take the plain hardwood and carve it into charming designs. What is still not the case, they have sense enough to look out for satisfactory models in the art magazines and have them reproduced at the millinery's. I have been astonished at the number of brides here in Toronto who lately have designed the furniture for their homes or who have selected designs from reliable art journals and had them made to order. I am told that the cost is not so very much greater, and certainly their homes have an individuality and an indescribably artistic character that will never pervade the house furnished with the regulation machine-made furniture.

Women now pay more attention to color schemes, are careful not to overcrowd their rooms, and, with the exception of good oils or etchings, or watercolors, for their walls, are content with beautiful little carbon photographs of the most important pieces, simply framed in dark hardwood. They hang them on plain, soft-tinted walls, and thus they have polished floors is decidedly growing. Instead of the gaudy popular, colorful, and gaudy, with its glaring lights, softly-shaded lamps and candles are employed, and the beautiful fireplace is not the least important feature in the home nowadays.

Great changes, then, and all within the last few years. And so many of them due to a growing feeling for art in women. What may they not do hereafter, along all these lines within the next ten or twenty years, and how much may not the future art productions of the country be due to their stimulating effects!

I hear upon very good authority that Lady Edgar's resignation from the presidency of the Women's Historical Society, Lady Edgar made herself a very great favorite during the time she held the presidential chair, and conducted the meetings with so much ability and tact that she was not easy to find a successor so thoroughly qualified for the position. I hear, too, that Miss Fitzgibbon and the latter's important secretary altogether too numerous. Indeed, during the Exhibition, the latter resigned. A new secretary will the very well being, so that at the next meeting there will probably be lively delings over the nomination to fill these two vacancies. Miss Fitzgibbon is almost sure to be chosen for one of the presidencies.

THE FILIPINO CONGRESS.

Agustino Strengthens His Government and Has Not Declared Himself Dictator.

Manila, Sept. 8.—A Filipino who has arrived here from Tarlac says an extraordinary session of the revolutionary congress took place at Tarlac, August 24. Augustino presided and chose Mabini as President of the Supreme Court, and Gonzaga as Attorney-General. The latter represents the most conservative and temperate element. Mabini, who has resigned his foreign secretaryship, is the ablest man connected with the revolution. Gonzaga was president of the Philippine Congress. The proceedings of the congress developed the report that Augustino had declared himself dictator. A decree issued by the Philippines compelling the registration of all professions in the territory. The Chinese, who are a large fraction of the population, are considered foreigners, including those born in the Philippine Islands. Application must be made on a stamped paper, which must be filed at the business of the Insurrectionary Government. This seems to be largely a scheme to tax Chinese.

Insurance That Insures.

The readers of The World would do well to carefully peruse a letter published in another column from Mrs. Charlotte Magill. We are informed that the Union Mutual Life for over 20 years has had this liberal provision in its policies, and has paid out large policies over \$500,000. That the company can afford to do this is evidenced by the fact that no policies coming under the non-forfeiture clause, after Jan. 1, 1900, in case of death, no deduction of any kind is made from the face of the policy.

A Wrinkle in Overcoats.

Some place in your wardrobe you have a last season's fall overcoat that is too shabby to wear and too good to throw away. If you send it to the State Workhouse, Church-street, you can have it thoroughly cleaned and overhauled, so that by the time you are ready to use it it will look just about as good as it ever did. Send it today, before the busy season commences. The phone number is 634.

Detained to Make Sure.

New York, Sept. 8.—The Portuguese steamer Peninsular, which arrived last night from Lisbon and St. Michael's, with 120 steerage passengers, will be held at quarantine for disinfection. The crew are well, but owing to the prevalence of bubonic plague at Oporto the health officer has decided to detain the steamer.

Another Colquhoun Arrested.

London, Sept. 8.—David Colquhoun, a brother of James Colquhoun, former city treasurer of Glasgow, who was arrested recently charged with defalcations amounting to more than a million dollars, has also been taken into custody. The examination of James Colquhoun is continuing.

State of Michigan Ashore.

Detroit, Sept. 8.—Word was received today that the passenger steamer State of Michigan is ashore at Colchester. The wrecking tug Saginaw has gone to her relief. The State of Michigan runs from Lake Erie ports and Detroit to Mackinac.

Dr. S. Ackerman, commercial traveler, Belle Isle, writes: "Some years ago I used Dr. Thomas' Electric Oil for inflammatory rheumatism, and three bottles cured me complete cure. I was the whole of one summer unable to move, and every movement caused excruciating pain. I am now out on the road and easily get to all kinds of places. I have used Lumiere's Extra rapid dry film on hand, and I always recommend it to others, as it did so much for me."

Albert Edward Goes to London.

THE GOLD STANDARD IN INDIA

Decision Reached by India Council to Inaugurate the Change Immediately.

BARON CURZON'S ABLE ARGUMENT.

He Claims That the Adoption of the Gold Standard Will Produce Stability and Security.

Simla, Sept. 8.—At yesterday's session of the India Council, the viceroy, Baron Curzon of Kedleston, concurring in the statement of Mr. Clinton Dawkins, the financial member, who, in introducing the currency bill, said that in the absence of the mint proclamation from England, it had been decided to make gold the legal tender immediately in the conviction that no other measure would save India from the disastrous embarrassment and fresh taxation, remarked that, thanks to the sagacity and common sense of the committee, the ability of the chairman, the strength of the case for the gold standard, and the remarkable consensus of opinion, the merely disputed matter had been reached. For 20 years the policy of the government had been the defence of India from the inevitable consequences of the decline in the value of the rupee, namely, fresh taxation. The adoption of a gold standard would enable India to embark in discussion with foreign powers, and enter the field on equal terms. Since gold began to enter last year, £2,000,000 had arrived. A fixed value must be established and confidence to foreign trade. He did not indulge in chimerical dreams of the future, or pretend to open an Atlantic route. He firmly believed and hoped the present measure would invest the financial horoscope of India with the stability which it had hitherto lacked, and which it was the duty of the Government to utilize in the interests of the Indian people.

BIG STRIKE IN SCOTLAND.

Ten Mills in Dundee Have Been Closed and Sixteen Thousand People Are Idle.

Dundee, Sept. 8.—The cotton and jute workers' strike here has assumed serious proportions. Ten mills were closed to-day and 16,000 mill workers are now idle. Slight disturbances have occurred, but have been quelled by the police.

Up Before the Colonel.

In the Police Court yesterday John Smith, with several convictions against him, was sent to the Central Prison for three months for stealing a bicycle from William Shown of 616 West Queen-street. Smith has still a charge of stealing clothes to answer. On a conviction for stealing a checking clock from the Irons Hotel, William Walkinshaw was sentenced to 10 days in jail.

Fredmann Tinsley, a lively negro, went down for two months for keeping a house of ill fame at 98 West Richmond-street. May Nixon and Edna Mack, two alleged inmates, were remanded for a week.

Arthur Shaw, a vag, received a sentence of six months in the Central Prison. For stealing about 20 feet of garden hose Walter Brant and Walter Bryant were sent to jail for 30 days.

John Tinsley was arraigned on a charge of highway robbery and remanded till Tuesday.

An adjournment for a week was made in the case of George Dumas, charged with robbing Salim Kadousse of Berlin on York-street.

Charges of selling liquor, preferred against Jake Oehnesser and William Taylor of Hamlin's Point, were dismissed.

George Doyne was committed for trial on a charge of attempting to pick pockets at the Exhibition grounds.

Sixty days in jail was the sentence imposed on John Gunther for being a vag.

American's Seaside Route.

The delightful trips by the splendid steamers of the Hocking and Ontario Navigation Company to the Thousand Islands, Montreal, Quebec, and the famous Saguenay River are more popular than ever this year.

The steamers leave Toronto daily, Sundays excepted, at 2 p.m. until the 16th inst., and then weekly. To-day, Wednesday and Saturdays, until the end of September. Steamers Hamilton and Albany will continue to run as usual, leaving Toronto Mondays and Thursdays respectively at 6 p.m. The steamers of the line are the only steamers passing through the picturesque Bay of Quinte, calling at the principal Thousand Islands resorts and showing all the rapids of the St. Lawrence.

The elegant new steamer Toronto leaves Toronto Tuesdays, Thursdays and Saturdays, and calls at Charlotte Harbor, Rochester, Cayuga and Westwood, Saturday to Monday, except on special rates. For tickets, staterooms and full information, apply to J. E. Dolan, agent, No. 2 King street east.

Bread Shipping.

Progress has been made in the making of bread to such an extent the last few lines surprise us no more. From radical ideas of the most famous bakers on the continent, equipped with the finest grade flour supplied by the best millers in the country, with all the modern machinery of first class dough-moulders, the Model Bakery is well chosen as the ideal bread manager of this mammoth bread establishment, conceived and carried out by the idea of supplying the citizens of neighboring towns and cities with the "Home Made" standard bread, which has been through only eight months has just since the start was given its impetus, it is an interesting sight every morning to visit the packing rooms, where the large baskets are filled and labeled for the various expresses. Out of town merchants will find it interesting to read Mr. Weston's advertisement, which appears in another column.

Notes of the Churches.

Rev. Dr. Blair, moderator of the United Presbyterian Church of Scotland, called at the Presbyterian Church offices yesterday. He is on his way to the Presbyterian Council, which opens at Washington Sept. 27.

Rev. Alfred Gandler of Fort Massey Church, Halifax, is spending a week in the city, and will preach in St. Andrew's Church to-morrow at both services.

The Presbyterian Ladies' College is among the first of the colleges to open for the new season, with the prospect of a fine staff of the classes. A large number of students have already arrived from different parts of the United States. The college opened on Thursday, and the regular work will begin Monday.

Mr. Robert Murray, editor of the Presbyterian Witness, Halifax, several days in the city and returned home yesterday. Mr. Murray has edited this paper for over 20 years.

This is a Chestnut Tree.

On West Adelaide-street, near Simcoe, there is a horse chestnut tree that is exhibiting a good deal of life in that vicinity. The south half of this tree is just beginning to show its foliage, as if it thought that spring was on hand, while the other half has been eaten by moths and the leaves are dying and falling, but the nuts are becoming ripe.

Hutch

Another of Canada's great fairs has become history. During its progress the different evidences of this advanced age were assembled together, that all could see how marvelous has been the world's development. The most wonderful sign of this world's advancement is Hutch, the treatment for dyspepsia and stomach troubles. Hutch is more effective than any other treatment, simply because it contains the proper ingredients.

A lady practitioner of Sunbury, Pa., writes: MARY McCAY-WENCK, M.D., 228 Chestnut Street, Sunbury, Pa., Aug. 25, 1899. Gentlemen,

I have the honor to enclose you 25 cents (silver) for which kindly send me a box of 50 Hutch tablets. I got a box on a recent visit to Toronto and have used them on myself to great advantage, and wish to continue the same. Very truly, Mary McCay-Wenck, M.D. R. Chocolate coated. Ten Hutch ten cents. A TALE OF THE LISGAR.

The Captain and a Sailor Alone of the Crew.

Notes of the Boats.

At about 2 o'clock yesterday morning and while about 20 miles out in the lake, the Ontario, which runs from Toronto to Queenston, broke down. She was on her route to Queenston at the time, but she was disabled by the breaking of the foot of Church-street by a small boat tug, which was manned by the Queen City, which was manned by a portion of the crew and rowed to the shore. The boat will leave on the Niagara trip to-day, as usual. There were no passengers on board.

The schooner America, which has been on the great lakes for over 20 years, foundered yesterday 35 miles northwest of Chicago. The crew escaped on a tug.

The wrecking tug Saginaw passed the relief of the steamer America on Sunday morning at Colchester. The State of Michigan runs from Detroit and ports on Lake Erie to Michigan.

Captain Freeman and Sailor Nelson Al through Mackinac City, Mich., last night on board the steamer Ontario, which foundered in Lake Huron on Sunday afternoon. They were picked up, 20 miles below Thunder Bay Island. It is Captain Freeman's opinion that all the others of his crew perished.

A Quebec despatch yesterday stated that the steamer Algonia was lying aground near the Beaudouin Reef, opposite Point St. Laurent. The ship was run ashore because, although she got safely off the reef, the water rushed into her forehold so fast. The tanks on the forward part of the ship are full of water and ice and are sounding in No. 1 hold. Twelve loaded lighters are in attendance on the ship.

Although the Corona brought over about 1000 passengers and took back to Niagara about 1500, the navigation season is drawing to a close, and regular service is becoming

DREYFUS DECISION EXPECTED TO-DAY.

Continued from Page 1. War, the General the Marquis de Gallifert, Colonel Piquart also left Rennes, although he looks no mark in the army.

No Verdict Till Monday. The fact that Maitre Labori has to speak and that, probably, the Government commissary, Major Carrière, will reply, makes it practically certain that the verdict will not be given before Monday.

Have the Lawyers Disagreed? It was generally noticed to-day that when M. Labori entered the court this morning he spoke to M. Demange in a deprecating tone, and a sharp discussion ensued, almost bordering on a dispute.

The Details. Maitre Demange opened his Address and was the cynosure of Every Eye. The detailed proceedings follow: Amid intense silence and the cynosure of every eye, Maitre Demange, shortly after the opening of the proceedings of the Dreyfus court-martial to-day, rose to make the speech for the defence.

To clearly define the prisoner's position, saying: "When the case of the revelation began, Dreyfus was a convict and serious prisoner of the court."

M. Demange then protested against the suggestion that it had been attempted to put Dreyfus on trial, explaining that all the evidence known was that the innocence of Dreyfus should appear, dazzling and brilliant.

A Protest. M. Demange then protested against the suggestion that it had been attempted to put Dreyfus on trial, explaining that all the evidence known was that the innocence of Dreyfus should appear, dazzling and brilliant.

A Pleading Lecture. M. Demange dilated upon the prisoner's increasing protestations of innocence and the touching letters to his family, exclaiming: "Is there any man who has not written to his wife and children?"

The Confessions. Dealing next with the confessions, counsel said that the report of the confessions of the republican guard, who had had the prison, and maintained the exact words of Dreyfus, which were now known, only referred to the words of the confessions.

Surprised at Gonne. M. Demange said he was surprised at the attitude of General Gonne towards the alleged confession and marveled at the fact that Capt. Labrie expressed his belief in the confessions, did not mention them.

The Panizardi Letters. In regard to the letters of Nov. 2 and Nov. 11 sent by Major Panizardi to his chief, it had been alleged that they were written by Col. Schwartzkoppen, whereas they were written by Major Panizardi.

The Dossier Finished. Concluding his examinations of the secret dossier, M. Demange remarked that he was surprised to find that the dossier was not finished.

1894 Evidence. A brief adjournment of the court was here announced. Counsel was warmly applauded as he took his seat. On the resumption of the session, M. Demange discussed the circumstantial evidence adduced in 1894.

Other Stories Show up.

M. Demange successfully showed the hollow nature of the stories of Mathieu Dreyfus' attempt to corrupt Col. Sandherr, the late Lieut. Col. Henry's theatrical denunciation of Dreyfus as a traitor at the court-martial of 1894 and the reports of the detectives.

Narrowed Down to the Bordereau. After demolishing the inanity and fallacy of the evidence of de Bousmestre, witnesses, Muller, Dubreuil, Vilon and Cerise, counsel said that it was not important to be shown on it by the production of the note commencing in the bordereau.
