TWENTY-SIXTH

SLAUGHTER IN THE EAST

Admiral Berosford, R.N. Predicts Japanese Victory Because of Better Gunnery—Numerical Strength Don't Count—Sea Fighting as Hard Now as in "Brave Old Days."

New York, May 10.—(Special.)—The Russian and Japanese fleets will meet in a few days. Japan will win. The slaughter of men in the civilized world. The only redeeming feature of the fight will be the fact that there will be no more wars for years. The horrors will be too great.

Vice-Admiral Lord Charles Berosford of the British navy made this statement to-day just before his departure for Liverpool on the steamer Oceanic. The admiral has spent several days on the battleship Missouri, off Pensacola, with Rear Admiral Evans, and, incidentally, he said he did not think the Missouri had an equal in the world.

Secret of Success. "The reason I think Japan will win in the coming fight," continued the admiral, "is that she is the greater in numerical strength. The secret of success in a naval battle lies in having the ships to advantage and letting the gunners do the rest. Japan will win the fight by getting the superior position and firing the greater number of telling shots, even though Russia has the greater number of ships."

"We are not likely to have any great war for many years after this. England and America hold the balance of power. If these two nations should mass their fleets no other country could group of countries would fight them. England and America must come together on that question."

When the people of this country and England have more to say regarding the question of war than the governments or autocrats. In the Baltic incident of our officials were inclined to go to war, but the English people said, "Give us time to think it out," and the result was that we had no war.

"Of course, there are times when a wave of opinion will take possession of a people and they will demand war. That is when the honor of the country is at stake, and it is the only dangerous war wave of the world."

Mr. McLaughlin's bill to enable the City of Ottawa to buy out the Consumers Electric Co. was before the private bills committee yesterday, and the discussion was not finished at adjournment. The Ottawa Electric Co. is after the plant and will have a monopoly of the lighting business if it secures it. The bill asks permission to borrow \$500,000, and a bylaw for \$200,000 is now being submitted to the people.

Other portions of the bill relate to the issue of debentures for the sum of \$250,000, \$25,000 and \$55,000, a total of \$330,000. The bill was explained by Mr. Taylor McVeety, city solicitor.

The \$250,000 consists of debts contracted in respect to the holding of the annual exhibition, and it was proposed to borrow that sum by a mortgage on the exhibition grounds.

The permission to borrow was given by a fat stock show, and to extend Lankford Park, Mr. McVeety, in explaining this, referred to the collapse of the first fat stock show building, and the fact that the city was to borrow this money without a reference to the public.

The expenditure of the money was presented, one of the signatories being the advocates of the clause pointed out that the people did not understand that the money was required to keep the Ottawa exhibition on a firm basis. After considerable discussion the clause was contained a further clause authorizing the City of Ottawa to borrow \$500,000 for the purpose of improving the fire protection system. This, however, was rejected because it would be a violation of the law should be first submitted to the people.

In regard to the purchase of the Consumers Electric Co. Mr. McVeety presented the case of the city. He said that the Ottawa Electric Co. was a company incorporated in the Dominion government power to purchase the Consumers Electric Co. and eventually increase the rates beyond a reasonable figure.

Mr. Henderson, on behalf of the Ottawa Electric Co., read a telegram stating that the Ottawa Board of Trade proposed to acquire the Consumers Electric Co. themselves, and have their own municipal power plant.

F. Henderson, on behalf of the Ottawa Electric Co., read a telegram stating that the Ottawa Board of Trade proposed to acquire the Consumers Electric Co. themselves, and have their own municipal power plant.

He admitted that the motive of the proposed acquisition of the Consumers Electric Co. was to increase the rates from 25 cents to 50 cents, in order to save the millions of dollars invested in the Ottawa Electric Co. The present low rate was due to cutting of rates, and returned no profit to either the Ottawa Electric Co. or the city. He had only paid one quarter dividend of two per cent, since 1900. The Consumers Electric Co. was just a body of. Certainly this was not a healthy condition. Recently a special committee of the Dominion government had been built for half that amount, and was evidently decided that a fence should be built without competing in the market without appropriate. This course could not be justified on any grounds.

The premier replied that no correspondence had been had with the United States in the matter. Col. Hughes and Dr. Sproule added a few characteristic remarks. E. R. O'Brien thought the prime minister was apparently the only innocent man in the cabinet in the matter. Mr. Ingram wanted to know at whose recommendation the department of the interior wrote to the firm of McGregor & Bramwell to come to Ottawa and submit figures for the work in question. In his opinion, it was the intention of the department of the interior to do some crooked work.

The matter then, dropped for the time being. After Mr. Cockshutt of Brantford supported the contention of W. F. Maclean that anything in the nature of a fence along the boundary line should receive the greatest consideration of parliament.

Yesterday The World printed a Canadian Associated Press despatch from London, stating that great anxiety was felt in London for the safety of the I.N.P.R. liner Lake Champlain. The local officers of the C.P.R. were besieged during the day with enquiries, who were assured that the steamer had arrived all right. She was reported Tuesday at Paine Point and arrived at Quebec at noon yesterday.

First Vice-President James Gayley of the company, who has recently returned from a trip to Ontario, where he has been looking over the ground, was seen to-night by the correspondent of The World. He said: "We have been considering for some

THAT MURDER MYSTERY HAS INTERNATIONAL ASPECT

Government Should Have Consulted With U.S. "Misunderstanding" is Premier's Explanation.

Ottawa, May 10.—(Special.)—Boodling, like murder, will not. The house was treated to-day to another resurrection of unvarnished details regarding political jobs. While the incident was merely a continuation of yesterday's exposure regarding the manipulation of the Northwest wire fence contract in favor of a party henchman, yet some further light was thrown on the affair, and for upwards of two hours the dissecting knife of the opposition was busily engaged in making a post-mortem of a badly decomposed "job."

The wire fence matter again came up before the orders of the day were called. Sir Wilfrid Laurier yesterday promised to give an explanation of the interior and the speaker of the house. The extraordinary part played in the matter by Mr. Keyes, the secretary of the department of the interior, Sir Wilfrid characterized as "misunderstanding."

Mr. Fielding had a word to say, he did not think \$500 a mile for wire fencing was too high. "There are fences and fences in the world," he said. "All fences are not of equal value." "Opposition continued," the minister said, "I myself am in the habit of staying on the fence."

Mr. Borden pointed out that except for the accident of the minister of the interior being away, and his subsequent resignation, this matter would have gone through sub routine and the contract would have been given out to one of the high prices. "A shake of the head is no answer," declared Mr. Borden, "it is a very easy way of disposing of awkward questions." To Mr. Borden's indignation, there had been no investigation of the circumstances surrounding the matter.

Mr. Henderson of Halifax thought the whole affair was a mystery. "Tenders should have been invited all over the country."

Mr. Foster said he had no shadow of doubt that it was merely the accidental slipping of the papers to the interior that prevented the contract being awarded under the usual practice. He had no objection to a contract being awarded to a wire fence for \$550 a mile. Mr. Foster wanted to know if that had been the usual practice, and whether he should plunge the country in heavy expenditure without consulting his colleagues or receiving their consent. He thought it was a very serious matter, and he thought it was a very serious matter.

HOMELESS

Mr. Fitzpatrick Makes an Admission That is a Surprise—Educational Clauses Will Be Under Fire To-Day.

Ottawa, May 10.—(Special.)—The discussion on the famous clause 16 of the autonomy bills is in sight and to-morrow a field day is expected on the educational policy of the government. Great progress was made to-night. Clause 6, providing for the qualifications of voters, was allowed to stand, as was the one providing for the act of government of Alberta, being at Edmonton. The same remark applies to clauses 12 and 15. The debate on clause 16 is likely to be heated and lengthy. Many members of the opposition are prepared to fight long and hard for the right of the people of the west to look after their own educational affairs, and a battle royal is likely to be waged. The sudden arrival of Mr. Fitzpatrick has added additional zest to the coming debate, and a crowded house is expected to hear the latest hedging on the part of the minister of justice. The house rose to-night at 11:30.

The members of the "school" epidemic had a bad attack of the "school" epidemic to-day, and for upwards of an hour the paroxysms were violent. There was a good attendance, and the "wire fence incident" having brought the government members in from 10 to 16 to see and hear the fun. The front government benches were empty, and Mr. Wilfrid Laurier slowly recovering from his explanation, and the minister of justice held frequent converse with Mr. Fielding.

The "epidemic" sprang into being suddenly. Mr. Borden opened the ball. He was in an enquiring mood, and in language that was a little ponderous, he drew attention to clause 2, which had been mentioned on the previous night, and concerning which the minister of justice had promised to make a few remarks—particularly in regard to its connection with clause 16. Many speakers on the government side had taken pains to declare that the effect of clause 2 would be to restore the denominational schools in the territories as they were in the act of 1870. These schools were provided for in the act of 1870. "I might ask the minister of justice what are his views," enquired Mr. Borden. "Why was clause 16 necessary after the introduction of clause 2?"

Mr. Fielding said that clause 2 would be to restore the denominational schools in the territories as they were in the act of 1870. These schools were provided for in the act of 1870. "I might ask the minister of justice what are his views," enquired Mr. Borden. "Why was clause 16 necessary after the introduction of clause 2?"

INDIGNATION MEETINGS TO URGE ALBERTA M.P.'S TO OBSTRUCT

Liberals Are as Bitter as Any, and Provincial Rights League Will Likely Be Formed to Fight the Bill.

Calgary, May 10.—(Special.)—Numerous wires are being sent to Herron and McCarthy from all parts of Alberta urging them to resort to obstruction in order to prevent the adoption of the autonomy bills. There is a very general feeling, even expressed by many staunch Liberals that the conservative measures are so repugnant to fair play being arranged, that all resolutions urging the members opposed to the bills to resort to obstruction will be introduced.

Several indignation meetings are now being arranged, and in all resolutions urging the members opposed to the bills to resort to obstruction will be introduced.

Mr. Foster said he had no shadow of doubt that it was merely the accidental slipping of the papers to the interior that prevented the contract being awarded under the usual practice. He had no objection to a contract being awarded to a wire fence for \$550 a mile. Mr. Foster wanted to know if that had been the usual practice, and whether he should plunge the country in heavy expenditure without consulting his colleagues or receiving their consent. He thought it was a very serious matter, and he thought it was a very serious matter.

Mr. Fielding said that clause 2 would be to restore the denominational schools in the territories as they were in the act of 1870. These schools were provided for in the act of 1870. "I might ask the minister of justice what are his views," enquired Mr. Borden. "Why was clause 16 necessary after the introduction of clause 2?"

CLAUDE 2 IS TO CONFIRM

Mr. Fitzpatrick Makes an Admission That is a Surprise—Educational Clauses Will Be Under Fire To-Day.

Ottawa, May 10.—(Special.)—The discussion on the famous clause 16 of the autonomy bills is in sight and to-morrow a field day is expected on the educational policy of the government. Great progress was made to-night. Clause 6, providing for the qualifications of voters, was allowed to stand, as was the one providing for the act of government of Alberta, being at Edmonton. The same remark applies to clauses 12 and 15. The debate on clause 16 is likely to be heated and lengthy. Many members of the opposition are prepared to fight long and hard for the right of the people of the west to look after their own educational affairs, and a battle royal is likely to be waged. The sudden arrival of Mr. Fitzpatrick has added additional zest to the coming debate, and a crowded house

WAINES GETS RIGHT ON RADIALS TO BE OPPOSED

Hamilton Alderman and Their Railway Projects - Lively Time on Parks Board.

Hamilton, May 10. (Special.)—This evening the board of works and finance committee granted Hon. Chas. D. Haines right of way from the corner of Main and Hesse-streets, along Main, Dundurn and York-streets and across the high level bridge for the Galt-Guelph Electric Railway. The company will have to fix up the bridge so that it can carry the street railway tracks on York-street, from Dundurn-street, will probably be moved over to where the city walk is now, and a portion of the walk laid on the land now belonging to the city.

There has been trouble brewing among the members of the parks board for some time, and it came to a head this evening when A. A. Lee, chairman of the museum committee, and George Wainwright, chairman of the parks committee, "butted" into the affairs of the museum committee.

The Orangetown were granted the use of Dundurn Park for the purpose of holding a picnic on the new Orange Hall which was laid on that date. They will be allowed by the city to hold a picnic but they will be able to take up a silver collection at the gate.

In 1897 Mr. Farrell was at the zenith of his career. He had just emerged triumphantly from the terrible ordeal of the Farnell commission. The wretched forger Piggot had confessed before seeking refuge in the United States that the charges made against the Irish leader were forgeries and impostures.

Mr. Farrell, who was his natural master for the moment as his popularity as Mr. Gladstone's ally with the liberals; he was absolute master of his own party, and it looked as if he were about to bring down the curtain on the Irish party forgoing England to his Irish seat.

There is a rumor going round that a certain party of a coming cause celebre, which would exhibit the uncrowned king in a new and original light, being the rounds of the press.

At last the case came on for trial, and to the surprise of Mr. Farrell's most fervid supporters, it was undecided. It would be unkind to revive the evidence after the lapse of 15 years, but the mere fact of the admitted guilt of the great Irish chieftain was sufficient to blast for ever the political hopes of Mr. Farrell.

A stern cry of reprobation rose from the English Nonconformists—a cry that brooked no denial. Mr. Farrell must be driven from political life. Gladstone withdrew from the alliance; malcontents arose in his own party, and the fabric built up by years of anxious effort was dissolved in a moment.

The unhappy lady whose name was associated with the Irish chief in this tragedy, became Mrs. Farrell as soon as the decree was made absolute, but in a few months she had her second widowhood. Mr. Farrell died in 1891, at Brighton, where, by a curious coincidence, the wronged husband has just passed away.

It is singular to note that Mr. Farrell made a strenuous electioneering effort on behalf of the man who was destined to be the instrument of his defeat. In 1886 he nominated Captain O'Shea for Galway, and this caused something like a National split. Mr. O'Shea sent Mr. Farrell a congratulatory telegram, "The O'Sheas will be your ruin," but Mr. Farrell declared that the captain's candidature could not be withdrawn, and rather than be disloyal to the great leader the electors chose the captain by an overwhelming majority—London Daily Mail.

SUCCESS NOT ASSURED. The students of the University of Toronto are rather doubtful of the success of the project to build university residences this summer. The gift of \$40,000 is conditional on an additional \$120,000 being raised. The committee has promises of a large sum that will supplement this gift, but do not desire to give the names of the donors. The students doubt, because the cost of living will be \$4 or \$4.50 a week, or a dollar more than the average student pays for his board and lodging. The students have what they term fraternal societies and four new "frat" houses were started last year, making ten. These men would be the best able to get into the university residences and it is very doubtful, after they are built whether 150 students will take up their residence in them.

DOCTOR'S FOOD. For His Family and Patients. A surgeon and physician of Redwoodville, Pa., has found Grape-Nuts so nourishing and strengthening that he uses it as a supporting medium after operations. He says: "As a physician I take great pleasure in using Grape-Nuts in my family and also recommend it to my patients in cases where a good strengthening food is required. I find it particularly valuable in convalescence from disease, and in all pressed conditions. It also does well as a supporting medium after surgical operations."

THEIR GOLDEN WEDDING.

Mr. and Mrs. Douglas Celebrate the Fiftieth Anniversary of Their Marriage.

Mr. and Mrs. Douglas celebrated the fiftieth anniversary of their marriage at their home last evening. The aged couple were surrounded by their children and grandchildren, to the number of thirteen, and took their enjoyment out of an occasion which so few are ever permitted to witness. The North Toronto (nee Gillette) were married at the Church of the Covenant in old Yorkville on May 10, 1855, by Rev. Mr. Johnson. They immediately took up residence in Eglington, when Mr. and Mrs. Douglas came to reside there. Mr. Douglas has been a member of the establishment adjoining his home, and is still running the business he established when first married. He was connected with the Orange order for nearly fifty-five years, and was a great personal friend of the late N. C. Wallace, having occupied many prominent offices in the order. The children of the

marriage are W. J. Douglas, town clerk of North Toronto; Samuel J. Douglas of Eglington celebrated the fiftieth anniversary of their wedding at their home last evening. The aged couple were surrounded by their children and grandchildren, to the number of thirteen, and took their enjoyment out of an occasion which so few are ever permitted to witness. The North Toronto (nee Gillette) were married at the Church of the Covenant in old Yorkville on May 10, 1855, by Rev. Mr. Johnson. S.P.S. EXAMS GIVEN OUT MANY FIRST YEAR FAILURES

41 New Bachelors of Science—Only Seven Fall Down in Final Exams. The School of Practical Science examination results were given out last night. Among the first year men there was a large percentage of failures, with a less proportion among second and third year men. In the first year 210 students wrote, of whom 82 failed. In the second year there were 145 names on the list, of these 21 failed and 124 did not write. Among the third year students 100 names were on the list, of whom 41 candidates who carried away the degree of Bachelor of Science. The examination results are: Degree of M.E. (mechanical engineer)—W. J. Leachling. Degree of E.E. (electrical engineer)—W. J. Leachling. Degree of B.A. (bachelor of applied science)—N. A. Burwash, A. J. Campbell, A. M. Campbell, U. W. Christie, S. R. Creer, A. E. Davison, W. S. Gibson, W. Gray, W. K. Greenwood, G. S. Hanes, E. J. James, P. V. Jernyn, H. J. McAulian, O. B. McCusick, G. G. McEwen, D. McKay, J. R. Neelands, J. H. Park, D. G. S. Scott. Degree of B.S. (with honors)—T. F. Code, A. L. Ford, C. P. McEllobbin, R. H. Montgomery, H. M. Shippe, D. Townsend, E. W. Walker, C. G. Williams, C. K. Young. Degree of B.S. (without honors)—H. Depey and H. Parker are required to take supplemental examinations. Degrees of civil engineering—J. W. Larkworthy and H. F. White in writing and magnetism. Prizes for general proficiency in the third year: Civil engineering—First prize, W. Barber; donor, T. Kennard Thomson. Second prize, C. P. McEllobbin. Broughton, N. L. Crosby; donor, Noel Marshall. Mining engineering—Second prize, W. Barber; donor, T. Kennard Thomson. Mechanical engineering—First prize, W. A. Begg; donor, Hon. W. H. Montague. Second prize, W. A. Begg. Degree of electrical engineering—First prize, W. A. Begg; donor, Noel Marshall. Mechanical engineering—First prize, W. A. Begg; donor, Hon. W. H. Montague. Second prize, W. A. Begg. Degree of electrical engineering—First prize, W. A. Begg; donor, Noel Marshall. Mechanical engineering—First prize, W. A. Begg; donor, Hon. W. H. Montague. Second prize, W. A. Begg.

First year honors—P. F. Morley, G. A. Crighton, W. H. Young. Second year honors—C. C. Forward, P. J. Reeman, D. E. Beynon, C. W. Graham, H. E. Rothwell. Third year honors—T. E. Rothwell. Chemical engineering. First year pass—P. C. Flux, D. H. C. Macdonald. Supplemental exams—Nations Passed. First year subjects—Stations—B. F. Mitchell, W. A. Strady, B. C. Cook, B. Robertson. Dynamics—M. H. H. Walker, J. M. MacInnes, J. P. Gordon, Buchanan, R. B. Chalmers, second vice—M. Molewsky. Analytical geometry—W. N. Daniels, C. Campbell, A. W. Campbell, W. C. Hamilton, G. W. Mackenzie, R. D. Park, B. Strady, B. C. Cook, B. Robertson. Dynamics—M. H. H. Walker, J. M. MacInnes, J. P. Gordon, Buchanan, R. B. Chalmers, second vice—M. Molewsky. Analytical geometry—W. N. Daniels, C. Campbell, A. W. Campbell, W. C. Hamilton, G. W. Mackenzie, R. D. Park, B. Strady, B. C. Cook, B. Robertson. Dynamics—M. H. H. Walker, J. M. MacInnes, J. P. Gordon, Buchanan, R. B. Chalmers, second vice—M. Molewsky. Analytical geometry—W. N. Daniels, C. Campbell, A. W. Campbell, W. C. Hamilton, G. W. Mackenzie, R. D. Park, B. Strady, B. C. Cook, B. Robertson. Dynamics—M. H. H. Walker, J. M. MacInnes, J. P. Gordon, Buchanan, R. B. Chalmers, second vice—M. Molewsky. Analytical geometry—W. N. Daniels, C. Campbell, A. W. Campbell, W. C. Hamilton, G. W. Mackenzie, R. D. Park, B. Strady, B. C. Cook, B. Robertson. Dynamics—M. H. H. Walker, J. M. MacInnes, J. P. Gordon, Buchanan, R. B. Chalmers, second vice—M. Molewsky. Analytical geometry—W. N. Daniels, C. Campbell, A. W. Campbell, W. C. Hamilton, G. W. Mackenzie, R. D. Park, B. Strady, B. C. Cook, B. Robertson. Dynamics—M. H. H. Walker, J. M. MacInnes, J. P. Gordon, Buchanan, R. B. Chalmers, second vice—M. Molewsky. Analytical geometry—W. N. Daniels, C. Campbell, A. W. Campbell, W. C. Hamilton, G. W. Mackenzie, R. D. Park, B. Strady, B. C. Cook, B. Robertson. Dynamics—M. H. H. Walker, J. M. MacInnes, J. P. Gordon, Buchanan, R. B. Chalmers, second vice—M. Molewsky. Analytical geometry—W. N. Daniels, C. Campbell, A. W. Campbell, W. C. Hamilton, G. W. Mackenzie, R. D. Park, B. Strady, B. C. Cook, B. Robertson. Dynamics—M. H. H. Walker, J. M. MacInnes, J. P. Gordon, Buchanan, R. B. Chalmers, second vice—M. Molewsky. Analytical geometry—W. N. Daniels, C. Campbell, A. W. Campbell, W. C. Hamilton, G. W. Mackenzie, R. D. Park, B. Strady, B. C. Cook, B. Robertson. Dynamics—M. H. H. Walker, J. M. MacInnes, J. P. Gordon, Buchanan, R. B. Chalmers, second vice—M. Molewsky. Analytical geometry—W. N. Daniels, C. Campbell, A. W. Campbell, W. C. Hamilton, G. W. Mackenzie, R. D. Park, B. Strady, B. C. Cook, B. Robertson. Dynamics—M. H. H. A GOOD TIP IN ADVANCE

There's a hoodoo out busy at every race track. Don't give the hoodoo a chance.

If you have never done so before go to the Woodbine races in a Dineen hat that is brand new out of the box.

A brand new Dineen works best.

\$2.00, \$2.50, \$3.00

This tip costs nothing but the price of a hat and the price of a good hat anywhere.

DINEEN'S
COR. YONGE AND TEMPERANCE STS.

MONTHLY GOV. REPORT.

Continued From Page 7.

King Edward Hotel, reported the following fluctuations on the Chicago Board of Trade to-day:

	Open	High	Low	Close
Wheat	91 1/2	92	91 1/2	91 3/4
July	83 1/2	84 1/2	83 1/2	83 3/4
Sept.	78 1/2	79 1/2	78 1/2	78 3/4
Oct.	75 1/2	76 1/2	75 1/2	75 3/4
Nov.	72 1/2	73 1/2	72 1/2	72 3/4
Dec.	69 1/2	70 1/2	69 1/2	69 3/4
