GADSTONE FOR AFRICA

Home Secretary May Be First Governor-General of New Confederation

LONDON, Oct. 25.—(Special.)—Herbert Gladstone will, according to the Daily Telegraph, be the first governor-general of the United States of Africa. Gladstone has not been considered a great success as secretary for home affairs and there have been many hints of his removal to other spheres. There is some doubt, however, whether his appointment as governor-general would prove acceptable to South Africa. In view of the fact that the name of his father was associated with the Boer War, it is not surprising that the removal of Gladstone would lead to interesting cabinet changes, possibly to the promotion of John Burns, president of the local government board, to the home secretaryship.

Mr. Gladstone has been secretary for home affairs since 1905, and has represented Leeds W. in parliament since 1880. He was born in Downing-street, London, Jan. 7, 1854, the youngest son of the Rt. Hon. W. E. Gladstone, for whom he acted as private secretary 1880-1. Educated at Eton and Oxford, he was history lecturer at Keeble College 1877-1880, in which year he contested Middlesex County for parliament. From 1881-5 he held a kind of a post office, financial secretary of the war office; 1896-4, under-secretary of home office; 1904-5, first commissioner of works. He was married to Dorothy, daughter of Sir Richard Paget.

HOW ICE TRUST OPERATES

Ground One Competitor Down to a Horse and Wagon.

NEW YORK, Oct. 25.—The thoroughness with which the American Ice Co. on trial for attempted restraint of trade, is alleged to have done its work, is shown to-day by Deputy State Attorney General Osborne, who read a list of the business purchased by L. C. Blake at one time a branch manager for the company. The assets of some of them consisted of nothing more than a horse and wagon. Most of the agreements signed with the independent dealers provided cash penalties if they engaged in the ice business in New York during a period of ten years. The penalties varied in amount from \$300 to \$75,000.

Barrie Implores Wife to Re-Wed

Novelist, Recently Divorced, Is Reported to be Begging For His Wife to Return to Him Again.

NEW YORK, Oct. 25.—The American prints the following London cable: "Having divorced his wife, J. M. Barrie, with the whimsicality often displayed by his strange creatures, wants her back again. He wants his wife; he loves her; he is willing to have her come back to him. Indeed, he is offering her all sorts of inducements to return. All England is literally astounded by the sudden change in the affairs of its most popular playwright. It doesn't know what to make of him, for he is going to most unusual lengths to win back the woman who, according to the testimony in the case, openly flouted him for a younger and handsomer man."

For days, it has become known, Barrie has been writing innumerable letters to his wife (she was Mary Ansell, an actress), humbly pleading, begging her pardon for having instituted the suit, forgiving her proven misdeeds and absolutely begging her to re-wed him again. He has offered, it became known to-day, to settle \$200,000 upon her in a lump sum if she will again be his wife. More than that, he has offered to take her on a trip around the world to make her own demand for terms, and he declares that he will accede to no matter what she wants. Mrs. Barrie thus far has been altogether unresponsive. Her affections are centered, it is said, upon Gilbert Cannan, the young critic and dramatist, who was the co-respondent in the divorce suit. The friends do not believe that any appeal of Barrie's will win back his wife, no matter how heart-broken he may be.

DUCK HUNTER LOSES AN ARM

Thomas Turrell May Die From Shock and Loss of Blood, Following the Accidental Discharge of Gun.

While returning from a duck-hunting expedition yesterday morning Thomas Turrell, aged 22, of 2 Draper-street, had his left arm so nearly shot off that he had to be amputated at the shoulder. Through loss of blood and shock, he is in a dangerous condition and may die.

He was to have been married, in a fortnight. Turrell and his companion were getting the duck-punt ashore near Scarborough bluffs at 11.30, when a wire struck it and threatened to dump the shot gun into the water. Turrell shoved his left arm thru the screen of branches and pulled it toward him. Both hammers went down, but one caught on the seat and was pulled back. When the trigger of the seat the hammer fell, the charge entered the inside of the elbow, going right thru smashing the joint-bone into splinters. Leaves and pieces of branches from the screen were blown into the wound. His companion applied a tourniquet and took Turrell to Oak and Queen-street, from whence he was taken to St. Michael's Hospital in the police ambulance.

When preparing to embark in his canoe he put the hammer gun got tangled up with other tackle in the canoe and the charge went thru his right arm. After being attended temporarily, he was brought to St. Michael's on the train. His condition is not thought to be serious.

LITTLE FRED HABERMAN MAY DIE FROM SCALDS.

Two-year-old Fred Haberman, living with his parents at 28 Ontario-place, was so terribly scalded at 8 o'clock last night that slight hopes are held out for his recovery. His mother's cousin was washing clothes in the room in which the children were playing. She set a pallid of boiling water on the floor. While two of the children were scuffling Fred stopped to watch them, standing with his back to the pan of water. One of the children jumped and jumped backward, spilling Fred into the pan. He was taken to the Hospital for Sick Children in the police ambulance. His left side was burned most.

A FIGHT TO A FINISH.

LONDON, Oct. 25.—(C.A.P.)—Hammer Greenway, M.P., as a guest at a dinner of the National Liberal Club, said for generations all questions of finance have been determined by the force of commonsense. If the lords interfered with the budget, the momentous issue—whether people or the poor—was at stake—would have to be fought to a finish.

PHILIP HARDY SHOT BY POLICE

Brother of Toronto Tight-Rope Performer Murdered After a Quarrel in Chicago.

The police received a telegram from Chicago yesterday morning that Philip Karrington Hardy of Toronto was shot and killed on Sunday night by Mrs. Van Eyck, who is 28 years old. She is now under arrest and charged with murder.

It appears that Hardy was boarding at the woman's house and that he angered her when he washed his clothes in the kitchen. According to the message Mrs. Van Eyck ran to her room and secured her revolver. She then went to Hardy's room. He exclaimed, "You dare not use that." Thereupon she shot him thru the heart.

Mr. Hardy was an old Toronto boy. He was born in Denison-avenue 23 years ago and had many friends here. He was a structural ironworker by trade and went to Chicago about a year ago. He first worked at his trade, but later secured a good position with the Pennsylvania Railroad, where he was working at the time of his death. James E. Hardy, a tight-rope walker, who is living at 48 Fuller-street, is a brother. "You know," said Mr. Hardy to The World when seen at his residence last night, "I can hardly believe that poor Phil is gone. The first intimation that I received of the sad affair was this morning when one of the detectives notified me. Phil was my assistant during my European tour. In fact he was with me when I was nearly killed at Alexandra Palace by a defective wire, and he had a narrow escape at the time."

E. J. Humphrey, the undertaker, left yesterday afternoon for Chicago to bring the body to Toronto. Mr. Hardy has been away from the city since the spring, when he appeared at the island. He only returned to Chicago on Saturday last, having had to cancel his winter bookings in the Southern States on account of his health.

BLUES SAVE CITY FROM INVADERS AT ONE POINT ONLY DID REDS PIERCE

Attacking Force Secure Position on Left Flank of Defenders' Line—Thanksgiving Day Sham Fight Witnessed by Many Thousands of Citizens.

Toronto was saved from an invasion by the army (red) under Lt.-Col. W. C. Macdonald yesterday. The bloodless battle was fought at Lambton Mills. The defending army (blue) commanded by Col. A. S. V. Williams, held the invaders in absolute check at every point where they attempted to cross the Humber River, except one, and on this account, Chief Referee Brig-Gen. Cotton gave rather an impartial decision. He maintained, at the "pow-wow" in the armories last night, that the attacking army had in a measure gained its objective in getting command of a position on the east bank of the river on the left flank of the defence. The blue force, however, held the reds at every other point of attack, and even at this weak left flank, could possibly have driven them back had "cease fire" not sounded before reserves were rushed up. The chief umpires on both sides reported a "blue" victory. Lt.-Col. Wm. Wallace, umpire for the defence, told how the blues prevented a successful invasion by blowing up bridges and dams and by their superior government assistance in establishing large dry docks in that city. The delegation, which is in the capital to-night, includes Premier J. D. Hazen of New Brunswick, Dr. Daniel M.P., Mayor Bullock and Ald. Fink of St. John. The delegation will ask for more aid than can be given under Fielding's recent legislation, for a government contribution of three per cent. of the cost up to \$45,000 per annum for twenty years. St. John wants a contribution of four per cent. of the total cost, and for a longer period than twenty years. Harland and Wolff, Sir Robert Perks, The Canadian Pacific Railway and other shipping interests are behind the project.

ST. JOHN, N.B., ASKS AID TO GET HUGE DRY DOCK

Wants More From the Dominion Government Than Mr. Fielding's Resolution Permits.

Wm. Pugsley, and ask for government assistance in establishing large dry docks in that city. The delegation, which is in the capital to-night, includes Premier J. D. Hazen of New Brunswick, Dr. Daniel M.P., Mayor Bullock and Ald. Fink of St. John. The delegation will ask for more aid than can be given under Fielding's recent legislation, for a government contribution of three per cent. of the cost up to \$45,000 per annum for twenty years. ANTIGONISH, N.S., FLOODED BY GREAT RAIN STORM

Some Houses Are Floating About in the Streets—Losses in Farming Districts, Too.

HALIFAX, N.S., Oct. 25.—(Special.)—For the past twenty-four hours, this province has been swept by a fierce wind and rain storm, which has wrought great havoc in the farming districts. In the town of Antigonish, conditions are serious. The houses are partly buried in water and the residents have been forced to abandon the ground floors and seek refuge higher up. In some parts of the town, small houses have been lifted from their foundations and are floating about the streets. In the eastern end of the town the water is five feet deep. The railroad track is flooded several places, and a bad wash-out has taken place at Sylvan Valley, two miles from the town, where the roadbed was torn away. In the country, thousands of bushels of potatoes and other vegetables have been destroyed.

29TH YEAR

BIGAMIST LURED WIFE TO HER DEATH

Shot Her as She Kissed Him, When Robbery Failed— Skeleton Found Week Ago Proves His Nemesis.

NEW YORK, Oct. 25.—A year and a half ago a friendless girl was murdered in a forsaken patch of woodland near Islip, L. I. A week ago her bleached and charred skeleton was found, with nothing to indicate its identity but her jewelry and a bill of sale from a German shop. Three days later, thru the police of Hamburg, Germany, her identity was established as Anna Luther, the the cables first carried the name as Lather. Last night her husband, Frederick Gebhardt, was caught in Astoria, L. I., by a photographer's flashlight, and to-day he confessed over his signature that he is the murderer. Gebhardt married Anna Luther under the name of Otto Mueller. The confession is as follows:

"About December, 1907, I first met Anna Luther. We were married in February, 1908, and went to Europe to live. We returned in April, 1908. She went to Henry Wertup's in Newark, N. J., to spend a day or two. On the pretence that I was going to rent an apartment for us to live in, she returned to my wife and home in Astoria. "I met Anna again on April 8 in Newark and we went to address in 14th-street, New York, and then to Jamaica, L. I. We stayed at Jamaica until next day.

"The Murder and the Flight. "April 9 we went to Bayshore and we walked about, and I showed her some property. I got into an argument with her about some money matters and I turned away and wanted to get back. She followed me up, screaming, and I shot her in the head. I did not look at her and don't remember whether I shot her more than once.

"Immediately after I went to the Islip depot and took a train for home. It was nearly dark. On the way home on the train I saw the revolver out of the car window. "I want to state that I did not kill Anna Luther for her money, as the newspapers have stated. My original reason for marrying Anna was that I did not care to live with my first wife any longer, but as she, my first wife, had given me a child, my desire to again see my child caused me to want to get rid of Anna Luther and return to my first wife and child.

"This is the reason why I shot Anna Luther, and I told her in Bayshore that I was married and had a wife and child and must leave her. "She screamed and ran after me, and I kissed her and wanted me back, and I shot her.

"The confession is made of my own free will without any hope of recompense being offered me." Denied it at First. From the time of his arrest last night until he broke down under the questions of the detectives, Gebhardt, admitting that he committed bigamy when he married Anna Luther, denied consistently all knowledge of her death. "How about this letter?" asked Osborne Savage, and he began to read a note mailed last night to the husband of Anna Mueller, who had disappeared in September, 1908, after he had upbraided her for receiving a visit which she represented to be a Mr. Bradley of Denver.

"That man Bradley," the letter said, "is about six feet high, with light hair, smooth face, and claims to be a real estate agent. I, Mueller, will at once go to Germany to see my parents-in-law, and will then return." The same inexplicable impulse which had prompted Gebhardt to write this fatal letter, had led him to give Bradley, who does not exist outside of his own imagination, his own personal description. As soon as he saw the letter to-day, his jaw dropped, he grew white and began to shiver. Before he had time was completed, he exclaimed: "Oh, what's the use, anyway? You have me and I might as well own I killed her."

Given verbally, the confession was later made in writing. Gebhardt, in the police say, that it appears in the formal language of the police officials, whose version Gebhardt signed.

First Wanted Her Money. "I had to get rid of her," he said, "but I didn't mean to kill her. I thought first I could get her to give me some money for land I did not own. So I took her down to Long Island, near some lots I did not own, to let her see the land. She would not come to terms, and I told her then that I was already married, and had a child I loved, and I was tired of her and wanted to go with my wife.

"She began to cry and plead and scream and run about. She told me she loved me and kissed me. As she

AT THE THEATRES

SEPTIMUS A GREAT PLAY
MISS IN TITLE ROLL

Story Founded on Locke's De-
 lightful Novel Has Initial Pre-
 sentation in Toronto.

At the Royal Alexandra yesterday afternoon Harrison Gray Fiske presented for the first time on any stage "Septimus," a play by Philip Littell, founded upon W. J. Locke's delightful and widely read novel. An audience that tested the capacity of the house was on hand to welcome to the stage one of the most charming characters of recent years. With few of the earmarks of a book-made play, the author set forth an idyllic tale, fanciful, witty, compact with humor of an engaging sort.

To George Arliss, whom Toronto first saw as a star in "The Devil" last season, fell the title role. Remarkably well did he grasp the salient characteristics of the whimsical, absent-minded inventor. He emphasized the lonely, quiet-seeking of the man, his purpose to the exclusion of other traits, yet his presentation was always interesting, always painstaking. Sharing the honors of the day with the star, was Miss Emily Stevens, who brought to the extremely difficult part of Emily, sincerity of manner, captivating attractiveness and best of all, a technique and range of expression in the many important scenes in which she figured. Particularly did she excel in the heart-touching climax of the second act—her simper, her power were wonderful, and mark her an actress who is much to be reckoned with in the future.

The dramatization does not follow closely the rather slender plot that runs thru Mr. Locke's novel. Considerable has been added and rearranged. The play stands alone on its own merits—a comedy in the highest sense of the word, and one of the most delightful offerings that have visited Toronto in a number of years. It is doubtless if Mr. Fiske has ever staged a play more skillfully and satisfyingly than in the present instance. Each of the four interiors that serve as background for the action was at the level of good taste, and conspicuous for atmosphere creating details. Especially was this the case with the study, the library, the dining room, and the study, where "Septimus" kept stowed his many models of curious inventions.

The acting was all on a high plane, and the audience was wonderfully smooth. Henry Weman contributed a breezy characterization of Clem Sypher, keeping the audience in quick and heavy laughter whenever he was on the stage. Splendid, too, was a lively, expressive Zouave done by Claus Bovel. Miss Edinger, in a quick and conventional bit as an old maid.

"Septimus" in dramatic guise is certain of a long and prosperous life. At the Royal Alexandra, the hold capacity audiences all the week.

At the Grand.

"School Days."
 If you want a tonic, if you want to be refreshed and made to forget you are growing old, don't neglect to see "School Days," the musical comedy which opened a week's engagement at the Grand Opera House yesterday. Or, if you want to give the youngsters a treat and let an evening of fun, merriment and wholesome as well as amusing, take them. It will do you good.

"School Days" is different from any show seen here before. There is not an adult character in the piece. Each character is that of a school kid. This does not mean that groupings will find fault with the show. It is just as entertaining for the big kids as the little ones. It is a production of some magnitude and is a delightfully refreshing evening's fun. The show not only abounds in laughter, but there are any number of "whistly" tunes and clever specialties. The cast is headed by a youthful performer, Herman Timberg, who is about as versatile and clever as they turn them out, these days. He plays the part of a talented Hebrew youth. This character is not one of these vulgar, overdone, bewiskered parodies on the Jew, but a sympathetic role in which young Timberg is given an opportunity to show his ability as a singer, actor, musician, contortionist, dancer and comedian. He is ably assisted in his efforts by Anna Wilkes, a petite and pretty young woman, who makes you almost want to reach up over the footlights, pull her off the stage and hang her on your watch-chain. And Miss Wilkes is remarkably clever, too. The balance of the company is very good and there are lots of them. Edna Reming is another cute little miss, who performs very well. Wilfred Berwick has a fine voice and it is regretted that he is not heard of more. Edna Reming is another cute little miss, who performs very well. At the Princess.

Grace George.
 What is sure to rank as one of the most delightful plays that have visited Toronto this season began a week's engagement at the Princess yesterday afternoon. "A Woman's Way," as told by Miss Grace George, is a delightfully refreshing comedy with some a dull moment during the three acts, and when the curtain falls on the last act, one feels a longing for more.

Howard Stanton, according to the story, is a young husband suffering from a too liberal income. He goes on an automobile escapade with a fashionable widow, Mrs. Blackmore, who has had many a love affair. This meet with an accident and Stanton appears in the first act with a sprained arm. The newspapers have the bare facts. Stanton's automobile was found in a ditch, and it is established that he and a lady whose identity is not established, were rescued by friends. The headlines of the papers contain suggestions of divorce and Stanton's wife, remains silent as to her intentions. She is told that the lady was Mrs. Elizabeth Blackmore, and resolves to invite her to dinner, in order that Stanton may have a fair chance to choose between the two women. It is a fancy dinner, and it turns out that Bob, Livingston, Stanton's brother, Edward Morris and Oliver Whitney, each recognize Mrs. Blackmore from a former flirtation, in which she was

Pat White's Gayety Girls.

It is a long time since a real old-time burlesque show has played Toronto, but the management of the Gayety Girls, in securing one for this week and the foresight of the management was appreciated and evidenced by the applause of the audience which greeted the house. The entertainment is presented by Pat White and his Gayety Girls. Of course all lovers of burlesque know that the Gayety Girls are the best always carries the best in pretty costumes, electrical effects and girls. The first burlesque is an amusing satire on forming a show, but gives the company great scope to show their talent, while it serves as a medium to introduce many catchy songs. The last burlesque is also a funny one. It depicts the trials of a druggist and a doctor, which keep the gathering in spasms of laughter by the real comedy in the many humorous situations. The olio is equally great scope to show their talent, while it serves as a medium to introduce many catchy songs. The last burlesque is also a funny one. Old-Fashioned Fabrics

THE foremost housefurnishers both in England and America have gradually come round to the belief that the simple old-fashioned fabrics, such as Chintzes and Cretonnes, in the quaint patterns our great grand-parents knew, are the most cheerful things to live with ever used in homefurnishing.

And the feature that is most interesting about their revival is that they may be successfully applied to almost any room. A dingy parlor may be transformed into a delightful living room by a few loose covers and curtains of chintz, mixed with a little sunshine. Look what the fabric here illustrated has done for this oriel! Yet this complete chintz effect, in just such a fabric, in your own room, with all the work done by our own skilled designers, would cost between ten and fifteen dollars!

No matter what kind of room you have, the artistic use of these bright, old-fashioned fabrics will make all the difference between sunshine and gloom for you during the coming winter.

Thirty new patterns to choose from. Fourth floor. Special exhibit, beginning Wednesday, Oct. 27.

Opera Cloaks

YOU may go to New York and see the hansom and taxicabs pulling up to the kerbs in front of the Broadway theatres, laden with ladies in opera cloaks just like these.

Then next day you might go to the Sixth Avenue stores to see the same style of cloaks for evening wear, and you would be surprised and grieved at the prices. You've no true idea of Simpson prices on pretty wraps until you have seen New York prices. However, we are more interested in Toronto comparisons.

You'll like these cloaks at \$18.50.

Handsome Cloak of fine quality French Venetian, with soft broad-cloth finish, in pretty shades pearl grey, champagne, rose and blue; new shaped sleeves, shoulders and neck lined with satin, trimmed with gold braid on sleeves, around neck, down front and back; a very serviceable garment. Wednesday, \$18.50.

The MacFarlane Shoe Co. of Montreal Contributes 1,800 Pairs to the 8-Factory Sale of Footwear

Women's \$3.50 Boots \$1.99 Misses' \$2.75 Boots \$1.49 Children's \$2.50 Boots \$1.49

Also a Lot of Tetrault & McCready and Tebbutt Shoes for Men Regularly Priced at \$3.00 to \$4.00, for \$2.49.

WE have been rather turning things upside down in footwear "circles" this week. This store is careless of precedent—in fact we have a way of deliberately flouting precedents. We want to sell all Toronto its shoes, and if all Toronto agrees we can save all Toronto money. Because we buy in quantities so big that prices grow small, and the bigger the quantities grow the further the prices diminish. That's our argument for Wednesday when we offer the Fourth-factory's contribution to our unprecedented 8-Factory Sale.

Regular prices \$2.00, \$2.50 and \$2.75. Wednesday 1.49

AN EXTRA ADDITION.

Some \$4.50 "Queen Quality" Boots for \$3.50. Two styles we are discontinuing.

They are absolutely perfect. Our only reason for reducing them is that they are lace style instead of Blucher style. The Blucher style sells best, but many of our customers wear the lace boot. Which style do you like?

"Dollar Per Garment"

Simpson's Line of WARM WOOL Underwear for Men.

YOU fellows who work outside — a word with you, please.

Just a minute. You know what cotton is next the skin! You wouldn't have it at any price if you could detect it when you buy your underwear.

Ask your wife how to tell cotton underwear from wool. What does she tell you?—By the feel. Exactly. Cotton feels cold. Why is that? Because it lacks the animal-life quality of wool.

Now take our woollen under garments—this \$1.00 line of ours. Rub your hand over one. There's fire in the wool—electricity. It's warm to start with. You put it on and you have a regular heat radiator all around you. The only thing is it's not so smooth and flat as cotton. It's thick and woolly.

But—That's just what you want if you work outside. What do you care about skin tight silk? It's Wool you want.

Now we've got the very best underwear line at \$1.00 per garment you ever saw. Penman's, Wolsey's, Watson's—all the best brands, and all kinds of real wool, natural, Scotch, Nova Scotia, Canadian and Australian—woven either here or in the British Isles. Lots of it. A choice of the world's best hammered down to \$1.00 per garment.

There's no reason why a man need shiver or catch cold in clammy cotton when live electric wool can be sold to suit him at a price so moderate.
