LABORER SHOT BY COACHMAN IN STATE HOUSE

Governor Guild Has a Narrow Escape from being Killed--Fired at Men Awaiting Audience.

BOSTON, Dec. 5.—John A. Steele, an insane man of Everett, walked into the ante-room of the executive chamber of the state house this afternoon, and finding Gov. Guild's door closed, turned on three prominent labor leaders and fired three shots at them, probably fatally wounding Edward Cohen of Lynn, president of the state branch of the American Federation of Labor, seriously wounding Dennis D. Driscoll of Boston, secretary of the same board, and painfully injuring with the muzzle of his revolver, Arthur M. Eddle, Boston, former president of the Central Labor Union of this city. Steele was overpowered by Secretary Charles S. Groves, and then by H. Whitney, chief of the state bureau.

Steele was released on parole last month from the Danvers Insane Asylum. He is 37 years old.

Governor in His Office.

Gov. Guild was in his office only a few feet away when the shooting occurred, and, rushing out, assisted in subduing Steele, and subsequently directed the removal of the wounded men to the Massachusetts General Hospital.

Cohen was shot twice thru the head and is in a critical condition. The third bullet struck Driscoll a glancing blow on the side of the forehead and rendered him unconscious. He recovered consciousness half an hour later. Huddell's wound was not serious.

The three labor leaders came to the state house to meet the governor in regard to a pardon. They found that the governor was busy and were asked to wait in one of the ante-rooms.

All three were standing beside a table covered with papers, while at the further end of the room Secretary Groves was dictating a letter to a stenographer.

Grappled With Steele.

Suddenly Steele appeared at the door of the room from the hallway, and without announcing his mission walked by the doorkeeper and entered the ante-room, glancing toward Gov. Guild's room, about ten feet away. The door was closed. Steele then drew a revolver and fired at Cohen, who was about six feet away. Cohen's back was turned and the bullet struck the back of the head, passed directly thru and coming out at the forehead, and a great splash of blood on the opposite wall beside the picture of Abraham Lincoln. The wounded man turned only to receive another bullet in the head, which also passed completely thru. Cohen sank unconscious to the floor. Steele then swung around and fired at Driscoll, who fell unconscious, fell dead, in attempting to close in on the man, was struck on the cheek by the muzzle of the revolver and felled down. Steele made no attempt to fire again.

By this time Private Secretary Groves had leaped over a table and grappled with Steele, and almost at the same moment Gen. Whitney, who had been summoned, driving a great hearing, came thru the door and rushed to the assistance of Mr. Groves.

Huddell also jumped up and wrenched the revolver away, while one of the messengers dashed into the governor's office and said: "They are murdering people in the lobby."

The governor instantly went out and helped overpower the insane man. Word was sent for assistance to the office of the state guard, and a force of officers quickly reached the scene and handcuffed Steele.

In the meantime Gov. Guild had knelt by Cohen's side and was wiping his face with a handkerchief and towel. In response to a call for medical assistance, Dr. Owen, chairman of the state board of insanity, was the first to reach the executive department. He immediately recognized Steele, having had him recognized in observation for more than five years in various state insane institutions. Other doctors soon appeared and aided in the removal of the wounded men to the hospital.

COCAINE FIEND RUNS AMUCK

Negro Shot Seven White Persons, Then Was Riddled Himself.

AUGUSTA, Ark., Dec. 5.—Crazed by cocaine, Wash. Messing, negro, ran amuck here to-day, shooting seven white persons, two of whom were women. The negro was finally corralled in the railroad yard and shot to death by a posse, fighting until he fell, literally riddled with bullets. One of Messing's victims will die.

PROGRESSIVE ARKONA.

LONDON, Dec. 5.—(Special.)—Arkona, a village of 800, 8 miles from Theford and remote from the railway, there was to-day successfully placed in operation an electrical plant, the power for which is generated on the Sauble River, 1 1/2 miles distant. The plant cost \$15,000. The power will be used by factories and by an electric railway that is in contemplation.

MRS. BLOODGOOD NOTED ACTRESS ENDS LIFE

Put Bullet Into Her Brain Just Before the Evening Performance—Motive Unknown

BALTIMORE, Md., Dec. 5.—Mrs. Clara Bloodgood, the actress, committed suicide by shooting in her room at the Hotel Stafford here this evening.

Mrs. Bloodgood's body was found lying on the bed with a bullet-hole thru the roof of her mouth. Nearby lay a book entitled, "How To Shoot Straight," and a 32 calibre revolver with three chambers empty. She attended a matinee performance at Albaugh's Theatre this afternoon, and returned to her hotel about 8 o'clock, seemingly in the best of spirits.

Later, when it was time for the curtain to raise for her own show at the Academy of Music, where she was appearing in "The Truth," she had not put on an appearance. Word was sent to the Stafford Hotel and a bellboy was sent up to her room. Just as he approached the door he heard a pistol shot. Hurrying back to the office, he notified the clerks of what he had heard, an investigation was made, and Mrs. Bloodgood was found stretched on the bed as described.

Before retiring to her room, she had a talk with her stage manager, John Emergen, who declares that he observed nothing unusual in her demeanor.

The only motive he can ascribe is that Mrs. Bloodgood feared an attack of nervous prostration. She had been working very hard, he said, and she feared a breakdown.

Mrs. Bloodgood left a note addressed to her husband, who is said to be on his way to this city.

The attendance at the Academy of Music was dismissed with the announcement that there would be no performance to-night owing to a sudden indisposition of Mrs. Bloodgood.

Popular in Society.

NEW YORK, Dec. 5.—The news of the suicide of Clara Bloodgood at Baltimore created a sensation in theatrical circles here to-night. Expressions of sorrow were universal, but none of her friends was willing to suggest a motive for her act. She was of a particularly cheerful disposition, and all are at a loss to assign a cause.

As Mrs. Bloodgood held a high position in the society of New York, and general esteem continued to be hers after she separated from her husband and made her debut as an actress.

This season Mrs. Bloodgood has been starring under the management of Chas. Frohman in "The Sign of the Cross" at the Theatre, and in "Phoebe" at the Lyric. In "The Sign of the Cross" she played the role of "The Duchess" and "How He Led to Her Husband." She also has enacted the role of Violet in "Man and Superman."

Career on Stage.

It was on Jan. 4, 1888, that Mrs. Bloodgood first came to the stage as a professional actress. The play was "The Conquerors," and her part of "Eloise" created a sensation in theatrical circles here to-night. Expressions of sorrow were universal, but none of her friends was willing to suggest a motive for her act. She was of a particularly cheerful disposition, and all are at a loss to assign a cause.

Scarlet Fever Epidemic.

Isolation Hospital is Crowded and Patients Have to Be Refused.

The unusual prevalence of scarlet fever in the city has resulted in overcrowding at the Isolation Hospital being continued, so that within the last few days several patients have been turned away and are being treated at their homes.

Dr. Sheard, however, says there is nothing alarming in the outlook. "We are compelled to keep patients in the hospital for six weeks, the wards have become filled, but this does not argue that the space is inadequate. Scarlet fever coming in waves, and at this season of the year it is usual to have a heavier lot than at other times. In two or three weeks the epidemic will be considerably abated, and we shall have all the room we want."

BABY BURNED.

BRANTFORD, Dec. 5.—(Special.)—While Albert Blandel of Linden was away at work and his wife out of the house assisting her son to look for some money which had been lost on the road, the building caught fire and a 2-year-old boy was cremated.

PRaised Our Young Ladies.

What a remarkably bright lot of young girls you have in Toronto, and what a lot of them! remarked a lady visitor with enthusiasm.

"Yes," replied her companion, "Toronto makes a specialty of pretty girls of all ages. The city is noted for it. The dress well, too, for other cities. Their style has such splendid stores. 'Take Dineen's, for instance. That is where our girls get their furs. When does a girl look prettier than in furs?' He was right, and the Christmas present you are buying for the young lady should be furs from Dineen's, Yonge and Temperance-streets, where you are bound to get just what you want at reasonable cost."

DR. BEATTIE NESBITT Who Is Now "Out" for the Mayor's Chair.

NESBITT IS OUT SAYS HE'LL WIN

Definitely Announces His Candidature at a Meeting of Party Stalwarts.

Dr. Beattie Nesbitt is definitely a mayoralty candidate.

He made the announcement at a "citizens' meeting" in St. George's Hall last night, following a business session of the executive of the Third Ward Conservative Association. Ald. Geary was present. Both he and the doctor are members of the executive. In spite of the evident favor with which his coming adversary was received, the alderman declared that come one, come all he was in the night to stay.

As for Dr. Nesbitt, encouraged by his overwhelming victory over the Geary forces at the previous night's election of the officers of the Third Ward Conservative Association, he declared his candidature will be followed by certain success.

"I am an old campaigner not to know when a fight is a winning one," he said, and his audience cheered.

He said he had been pressed by friends and citizens generally to offer himself, and he had decided to do so. "And when I am mayor," he declared, "in his usual vigorous way, 'there won't be hundreds of unemployed men if I can help it; and there certainly won't be men walking by streets hungry, if it takes every cent of the mayor's salary to prevent it.'"

"Canada First" McConnell presided and Charles E. Macdonald, the first speaker, in pledging his support as did most of the others—to Dr. Nesbitt, referred to the great works which are to be undertaken by the city during the next year and to the immense sums of money to be expended. It was necessary that the mayor should be a strong man and it was especially desired that his worship for 1908 should be a good Conservative.

The doctor came up to all the qualifications, and with all due regard for his good friend Ald. Geary, he would pledge his support to his former chief.

E. W. J. Owens, the new president of the Central Association; Thomas Hook, president of the Third Ward Association; John Harris, E. W. McKeown, Squire Patterson and other of the stalwarts present echoed the sentiment.

Ald. Geary also received encouragement, but it was not of the Nesbitt variety.

The doctor afterwards had an impromptu gathering of friends and supporters at his residence. He says he'll issue his platform in a day or two.

2 BANK CLERKS TAKE OWN LIVES

Roy Dawson Shot Himself at Burford--Stanley Burton at Winnipeg.

URBURD, Dec. 5.—(Special.)—Utterly without explanation is the suicide of R. R. Dawson, teller of the Crown Bank here to-day. He shot himself with a pistol at 10.30, and was dead a few minutes later.

The manager, R. F. Forner, heard the shot in Dawson's room above the bank, and rushing upstairs, he found the young man dead with a revolver beside him.

Young Dawson was not short in his accounts. He was of an exceptionally buoyant disposition and enjoyed himself last night at a dance at "Harley," returning at 4 o'clock this morning.

He complained of being ill shortly before taking his life.

An inquest was considered unnecessary, and the body was sent to his home in Orangeville for burial.

CANADA SPENT \$5 WHERE STATES SPENT DIMITS

WASHINGTON, D.C., Dec. 5.—(Special.)—James J. Hill, empire builder, so far as railroads go, in discussing before the National Rivers and Harbors Convention, now in session in this city, said to-day, in the course of his address on the need of a large waterway from St. Paul to the Gulf of Mexico:

"Our neighbor in the north, young and comparatively weak in resources as she is, shames us. Canada has spent in proportion to her population and wealth dollars on her canal system, where we have spent dimes. "Because she has worked to an intelligent national plan she has more to show for a dime than we have for a dollar. Six years ago there was already a 21-foot channel within her own territory. We still pile up our commerce at Buffalo, because we have no corresponding outlet for Lake Erie to the Atlantic. Nor is this the end. In a public address a month ago Hon. Robt. F. Sutherland, speaker of the Canadian house of commons, referring to the St. Lawrence Canal system, said: 'People now alive may live to see the minimum depth made 21 feet, and when that does arrive Montreal and Quebec, Halifax and St. John, and perhaps some quiet harbor that is as yet undreamed of, will be the busiest ports of the North American continent.' And if you build a 14-foot channel for the Mississippi and they build a 21-foot channel, the trade at St. Louis will be drawn north and thence to the ocean thru the waters of our northern neighbor."

Sudden Deaths at London.

LONDON, Dec. 5.—(Special.)—Alexander Mason, Horton-street, and Samuel Liddicoat, Wellington-street, well-known citizens, died within the past 24 hours.

The city engineer has been instructed to begin taking samples of lake water. The assessment commissioner is ordered to the city saving the cost of widening of Ross-street, from Queen-street to Howard-avenue to a width of 80 feet.

Made Trip From New York to Queenstown at Faster Clip Than the Lusitania.

QUEENSTOWN, Dec. 5.—The arrival of the Mauretania off Daunt's Rock (Queenstown) at 5.49 p.m. means that she has covered the distance from Sandy Hook lightship in 4 days, 22 hours and 28 minutes. The previous record of 4 days, 2 hours and 50 minutes was made by the Lusitania, sister ship of the Mauretania. Consequently the Mauretania has beaten the Lusitania by 22 minutes.

MUST SUSPEND BUSINESS.

New York and Colorado Bar Out Insurance Company.

NEW YORK, Dec. 5.—Examination into the affairs of the Provident Savings Life Assurance Society by the insurance departments of this state and of Colorado has resulted in disclosures of such a nature as to warrant their being laid before District Attorney Jerome.

It has resulted in a joint letter being sent to the company by Otto Kelsey, superintendent of insurance for New York, and E. Rittenhouse, the Colorado commissioner of insurance, directing the company to cease solicitation and transaction of any new business.

General Jackson that acting on a report made to him by Commissioner Kelsey, he would make application to the Excelsior Fire Insurance Company of this city, a concern incorporated last spring.

Although the Provident Life and Savings Co. has ceased to do business in Canada, the last report of the insurance department shows that the company had over \$400,000 assets in Canada in 1906, and a total liability of \$1,000,000. The reserve in the company, including insurance reserves, of \$450,000. Last year they paid over \$100,000 for Canadian death claims and other claims of policyholders. Their net income in Canada last year was over \$150,000, and the policies in force in Canada in 1906 totaled \$841,000. The value of the securities of this company deposited with the receiver-general for Canadian shareholders is put at \$230,000.

Revolver Duel With Burglars.

MONTREAL, Dec. 5.—An attempt to rob the east end branch of the Bank of Hochelaga was frustrated this morning by the courage of the night watchman, who, after a lively revolver duel with the burglars, succeeded in frightening them away.

FIRST DIVISION IN HOUSE OF COMMONS

Cockshutt Amendment Lost by 39--Dufferin's Representative for Public Ownership.

OTTAWA, Dec. 5.—(Special.)—It was a W. F. Maclean day in the house, altho the member for South York did not participate in the debate. Dr. Barr of Dufferin proclaimed himself as firmly persuaded that the evils of monopolistic control of railways, telegraphs and telephones would only be corrected by adopting through Canada the public ownership of all public utilities.

Mr. Lewis of West Huron also rang himself with The Toronto World in his arraignment of the railways for their failing to supply cars for Canadian traffic, while catering to the Armours and Swifts of Chicago.

Mr. Elson (Middlesex) made a cogent argument for rural mail delivery. At the opening of the house this afternoon sympathetic reference to the death of Mr. Lovell, member for St. Catharines, were made by the leaders on both sides.

Mr. Claude Macdonell enquired what had been done in the case of the Bulgarians stranded in Toronto. The minister of the interior replied that Mr. Blake Robertson, one of the officers of his department, had gone to Toronto the night before and had met the derelicts referred to, lacking an interpreter, however, he had found some difficulty in communicating with the Bulgarians, but an interpreter will be sent to the scene at once.

Cost of Insurance Commission.

The finance minister informed Mr. Fielding that the total cost of the insurance commission was \$55,842.

Judge McTavish of Ottawa was paid \$4600 and \$247 transportation and living expenses; Mr. Kent \$4200 and \$1087; Mr. Langmuir \$4470 and \$768; Mr. Shepley \$25,000, and Mr. Tilly \$12,500.

Mr. Monk enquired as to the total amount of government temporary loans, and from what banks such were obtained, since July 1.

The finance minister replied that the information was not yet obtainable, an answer which Mr. Monk declared to be most unsatisfactory. Mr. Fielding's answer was however ruled by the Speaker to be unquestionable.

The Debate Resumed.

E. N. Lewis of West Huron resumed the debate on the address. He held considerable attention to the criminal law, pointing out serious discrepancies in its provisions. He advocated making it a criminal offence for a man to be drunk on a public highway, or in a bar, a class of casualty becoming a dead, altogether too frequent. Mr. Lewis also urged that a law be passed to prepare for the loss of motive as well as stationary boilers. He did not agree with Mr. Cockshutt or anybody else who talked of hard times. There were no hard times or at all events not in West Huron. The banks were shortening sail and curtailing credit to-day, but that was not unreasonable in view of conditions in other countries. But with all his admiration for the Canadian banking system and Canadian financiers, Mr. Lewis did think that when the banks increased their rate of interest from six to seven per cent, they should be obliged to increase from three to four per cent, allowed on savings deposits. In this connection he remarked that in the Village of Exeter there were two millions of money in the savings banks.

Transportation Facilities.

On the need of better transportation facilities the member from West Huron spoke impressively. He told of instances where manufacturing firms were obliged to restrict their output for lack of cars and asked the pertinent question why it was that railways from seven ports on Georgian Bay were unable to handle the business brought by two lines of railway to Port William and Port Arthur? One result of this was, he said, that twelve million bushels of Canadian wheat were shipped by way of Buffalo.

Mr. Lewis also made a strong plea for an export duty on hamp wood. American industries were buying Canadian pulpwood at \$6 per cord and selling it at \$9 in the finished product. The debate upon the address was continued by Messrs. Clarke (Essex), Roche (Huron), Barr (Dufferin), Lacroix (Hastings), Chisholm (Huron), and Elson (Middlesex). Dr. Chisholm attacked the French treaty, and claimed that it would not increase the trade between France and Canada, and Mr. Elson pleaded for rural delivery. The amendment to the address, moved by Mr. Cockshutt (Brantford), caused the first division this session. It was a party vote, and the government was sustained by a majority of 32. The debate may continue for some days.

GUILTY, BUTNOT GUILTY.

Jury's Peculiar Verdict in the Case Against Jos. Gurofsky.

"We find the prisoner guilty, but not guilty of theft," was the verdict rendered by the jury in the general sessions yesterday in the case of Joseph Gurofsky, manager of "the ward" branch of the Crown Bank, who was charged with the theft of \$100 from Morris Goldstein, the proceeds of a note deposited in the bank. One jurymen questioned by the judge, said he thought the money had been improperly retained, but did not consider it theft. The case will be appealed and a stated case will be made at once.

At the time of the offence, Goldstein was debtor to the Crown Bank for \$234. On Oct. 17 he asked a man named King to cash his note for \$150, which gave Goldstein a cheque for \$134, which the latter endorsed and presented to Gurofsky. The manager told him that he would show this cheque to the bank's lawyer and let him know about it the next morning. The next day Goldstein was told that the bank had refused the cheque.

Gurofsky, in the box, said that he took the cheque from Goldstein with no representations that the cheque would be cashed. He made out a deposit slip for the amount to Goldstein's credit, where it was at present. The solicitor of the bank had told him he was within his rights.

"Gentlemen," he said, "I did this for the bank, and I did not get a cent for it."

Goldstein had given a chattel mortgage to a brother-in-law, and Gurofsky thought the advance from the bank was thus impeded.

In his charge, Judge Winchester said that in this case Gurofsky was acting for the bank, but this attitude did not deliver him from the personal charge of theft, as the bank acted thru its officers, and the officers were responsible.

S. O. T. BENEFIT SYSTEM.

Important Decision Made at 59th Annual Meeting of Order.

At the fifty-ninth annual meeting of the Grand Division of the Sons of Temperance in Ontario, last concluded at Port Perry, it was decided to establish a sick and funeral benefit system. A benefit board composed of the grand division officers and three members elected annually to prepare the bylaws will be incorporated under the Insurance Act of Ontario. The benefit division is to have its own benefit department and control its own funds. The system adopted and the bylaws provided have already been accepted by the inspector of insurance.

An increase in the number of divisions and a large representation of members indicate a strong order. Thirteen new divisions have been established during the year, and a district division has been organized on Manitowish Island.

Orilla division won the silver trophy for East Simcoe district by returning the largest increase during the year. Kettleby is the largest division in the order, with 200 members.

The officers for the coming year are: Grand W. P. Rev. A. P. Brock, Richmond Hill; Grand W. A., Miss M. L. Caswell, Toronto; Grand Chaplain, N. Willmott, Orilla; Grand Treasurer, Rev. C. E. Pockler, Oshawa; Grand Conductor, John Baker, Solina; Grand Sentinel, Miss L. Pearce, Port Perry; Superintendent Y. P. W., Miss L. Hoar, Solina.

The jubilee session of 1908 will be held in this city.

AN AGE OF REASON.

The days of mystery have passed. There must be a reason for everything and we demand to be shown the why and wherefore. Secret or patent medicines must go with the other mysteries. King Palmetto Compound is not a secret remedy—the formula is printed on the wrapper and you can get expert advice from your physician, who will tell you that it is the most useful prescription ever prepared. Save Palmetto for the kidneys, the Catarrh Sagrada for the bowels, Couch Grass Corn Silk for the bladder, Golden Seal and Compound Kuruifol—a perfect combination. The cause of ill-health is not a mystery either, and we know we should apply our reason to our daily habits, but we do not do so. The modern struggle is too much for the result is a clogged liver, and a generally disordered condition of the stomach, liver, nerves and kidneys. These things lead to very serious results, and render the body an easy prey to germ diseases, such as Typhus, Typhoid and Consumption. The reasonable solution is to begin taking King Palmetto Compound to-day. One dose a day, and the cure begins with the first dose. It will renovate your entire system, cure constipation and indigestion, and purify the blood. Give it a trial. Write for a free sample bottle to the King Palmetto Company, Bridgeburg, Ontario.

JAP HONEYMOON SO GOOD REPUTATION IS SECURED

Spectacular Performance in Massey Hall in Aid of Broadview Boys' Institute. One of the most charming, vivacious and delightfully melodious entertainments seen in Toronto for some time was presented at Massey Hall last night in the "Japanese Honeymoon." When programs were produced for sweet charity's sake the result is not always so happy, but in the present instance everyone is to be congratulated and those who were absent on the additional opportunity that is to be afforded to-morrow evening to visit the show at popular prices, 25, 35 and 50 cents.

HERE'S DECISION A BOX FOR CHRISTMAS

THE AUTOSTROP SAFETY RAZOR SAVES HALF THE TIME—more than half the trouble, and all the discomfort of a shave with an old-style razor. It saves over \$20 a year, besides many hours waiting, for the man who has always gone to the barber.

THE... SAFETY RAZOR

has all the advantages of the best of the other safeties, and the one most important feature which all the rest lack—the blades can be stripped quickly and perfectly. That means a keen "hair edge" not only for the first shave, but for every shave. No new blades to buy either, because the 12 Auto Strop blades will each one last as long as an ordinary razor.

The set is put up in a handsome leather box and includes: Auto Strop Safety Razor quadruple Silver-plated Certified Horsehair Strop. 12 Blades—will last a Lifetime. Price Complete \$5.00

If no one is likely to give you one, give it to yourself. At your dealer's or by mail from AutoStrop Safety Razor Co., (LIMITED) 14 ST. HELEN ST., MONTREAL.

END OF GOLD CUP SCANDAL.

After an investigating board decided, without further consideration, to drop the case against Millard Sanders, trainer of Lou Dillon, which it was for many months claimed was doped sufficiently to cause him to lose the famous race at Memphis, Tenn., on Oct. 18, 1934. The \$5000 gold cup was won by Maj. Delmar, owned by E. E. Smathers, C. K. G. Billings, owner of Lou Dillon, charged that his mare had been doped.

"TAPPED" THE ENGINEER AND TRAIN WENT ON

Incident Probably Without Parallel in History of Canadian Railroad.

LONDON, Dec. 5.—(Special).—An example of the manner in which the train and the Grand Trunk are strictly carried out is demonstrated in an incident of recent occurrence on the London, Huron and Bruce at Wingham.

Engineer Matthew Brown, one of the best known men on the road, was suffering from an attack of drowsy, and just before he came to Wingham he was seized suddenly and found it impossible to go any further.

Under the rules of the company when an engineer dies or is taken sick on his engine, the train must be placed into a siding until another engine is secured. The fireman, no matter how capable a man, is not permitted to take charge of the engine.

A physician was summoned in this case and he immediately set about to perform an operation, to "tap" the engineer.

This was successfully done, and when the engineer had recovered, an hour and a half later, he again took charge of his engine and brought it to the city. Another engine had not been available.

Railroad men say that Engineer Brown's case is without a parallel in the history of railroads.

He has now completely recovered, and has his run on the Bruce, but hopes for no more such unique experiences.

The latest article of diet to come under the ban of the above is the silent bivalve. The oyster question was recently very carefully gone into by the United States agricultural department.

The result was that the oyster was found to contain as much nutritive property as milk, and as safe an article of diet. Eat them long and often at "The St. Charles, of course"—the noted oyster house.

SUNDAY AMUSEMENTS IN NEW YORK BARRED

Justice O'Gorman Gives Drastic Decision Based on Law Passed Nearly Fifty Years Ago.

NEW YORK, Dec. 5.—Until New York's Sunday amusement law, as interpreted yesterday by Supreme Court Justice O'Gorman, is amended by the board of aldermen or the legislature, Police Commissioner Bingham will be compelled to prevent, beginning with next Sunday, the following violations: Presentation of vaudeville or burlesque by twenty-seven theatres (in the Borough of Manhattan alone).

Sunday evening concerts at the Metropolitan and the Manhattan opera houses.

Concerts, "sacred" or otherwise, in theatres and halls through the Greater City Sunday afternoons and evenings.

All recitals and symphony concerts on Sunday.

Sunday night plays in French and German at two theatres in Manhattan.

Sunday performances at more than 100 penny and nickel phonograph galleries and moving-picture shows in as many more places.

And if it were summer the police would be compelled, under this interpretation of the Sunday law, to shut up every place of amusement at Coney Island, Coney Neck, Manhattan Beach and the other seaside resorts, as well as all the roof gardens in the city.

Mayor McClellan said to-day: "The law will be obeyed to the letter," and Police Commissioner Bingham commented, "When I have such a clear and explicit order I know what to do."

To-day the theatre managers decided to close next Sunday at least.

The New York World summarizes as follows the loss that will be occasioned by the judgment, if enforced, for one night:

Theatrical giving concerts 27

Attendance, matinee and night 69,000

Admission and cafe receipts \$47,000

Loss to actors and employes \$29,000

Loss to ticket speculators \$1,500

Cost of concerts \$25,000

Net profit 30,000

"PEACE SUNDAY"

Suggestion That Dec. 22 Be So Regarded and Observed. The directors and officials of the Canadian Peace and Arbitration Society have issued a request that the churches of Canada voluntarily observe the Sunday preceding Christmas, Dec. 22, as Peace Sunday, thus cooperating with the churches of Britain, America and Australia.

for the day should bear upon peace and good-will among men.

From the sixteenth century to the nineteenth the tides of war flowed unchecked through the world, but in the nineteenth century international arbitration was used so frequently as to be fairly established as a practical method of preventing war. In the nineteenth century also the world became "one neighborhood." The twentieth century should make it "one brotherhood."

The little five-year-old daughter of George Phillips of Maria-street had a miraculous escape from a fire last night. As the Lambert car was passing along Dundas-street just west of Frederick-street at a moderate speed the little girl was standing on a street and, standing between the tracks, did not notice the car approaching. Before she could get out of the way, or the motorman could stop the car, the fender struck her and she fell between the tracks, the car passing right over her. Beyond a scratch on the face and some slight bruises on her hip, she escaped unhurt. The motorman, Robt. Wane, took her to the hospital, and she was taken by ambulance to the hospital. The tracks are higher than the street at this point, consequently there was considerable space under the car.

EFFECT OF THE LAPSES IN ADVANCED SHARES Ticklish Point in the York Loan Adjustment—Have Rights Been Lost?

The advanced shares portion of the enquiry into the affairs of the York Loan was resumed yesterday afternoon before the referee, George Kappelle. The total face value of these advanced shares, which number 7000, is about \$250,000, on which some \$102,000 was advanced by the company.

Stewart Linn, who was cashier and for a brief period secretary-treasurer of the company, stated that in the case of advances on shares, notes at six months were given, and the shares were deposited as collateral security. Renewals had been made in certain instances and it was stated that many of the forfeitures.

Mr. Kappelle said that if shares to the amount of \$250,000 which was wiped out, it would be an important feat, but Mr. Smythe argued that according to the bylaws the arrears stood against the shares, and the status of the shareholder was not changed by the winding-up order.

It was then stated that the larger number of the 7000 shareholders were in arrears. After they had obtained 50 per cent on their shares they thought that they would not get any more out of the company and stopped making payments.

Mr. Linn said that most of these loans were made after Sept. 10, 1905, on stock that was issued before that date. Mr. Smythe quoted the bylaw to show that in September, 1905, lapses in shares on account of arrears in payment of loans had been left to the discretion of the directors.

ing-up order did not interfere with the maturing of the loans. A week's adjournment was made. The holders of advanced shares—class II—have been divided into nine classes. Argument will be heard this afternoon on the shares involved in class C, consisting of fully paid-up shares to the amount of some \$250,000. Under the bylaws these shares rank as a first charge on all the company's securities, being practically preferred stock, but an attempt is being made to dislodge them from this position and reduce them to the rank of ordinary shares.
