WORKMEN PUTTING FINISHING TOUCH TO FEDERAL HOUSE

Parliament Opens Thursday -Low Tariff Motion May Cause Break.

BORDEN TO BE ABSENT

Ottawa, Feb. 22 .- (Special.) -- Workmen are busy in the new parliament building today trying to get everything in saip-shape for the opening on raursday. Desks for the members are being installed in the commons champer, which will be ready for occupancy in good time. Offices have been allotted the members, but the furniture wiff not be installed until Wednesday. The house of commons postomice is open for business in temporary quarters. The spaceous quarters on the top floor, overlooking the Chaudiere Fails, set apart for the parliamentary restaurant, are incomparisoned. plete, but a temporary makeshift of some kind will be arranged. The building is abundantly heated from the new heating plant recently constructed on the Ottawa river, about a hair mile above, which also neats east and west blocks on Parliament Hill and the Langevin block. in snort, the building, the far from finished, will answer the purpose of housing parliament for the coming session. Political Outlook.

The political outlook resembles the new parnament building. The government is not in the best of shape, but it will probably get thru the ses-sion. The prime minister will not be here for the opening, but all his colleagues are expected to be here, including Hon. J. D. Reid, who has been in the south for some weeks. The only serious break in the government forces as yet anticipated will be on some low tariff resolution in the course of the budget debate, but it will not be of sufficient dimensions to over-throw the government. The two party whips, W. S. Middlebro and J. A. Robb, acting for the government and the Liberal opposition, respec-tively, have alloted seats to the members in the chamber, so that all he members returned at the last elec-Unionists sit together at me the Speaker. Some Members Arrive.

Dr. Michael Clark, Red Deer; Major Lee Redman, Calgary; James Wilson, Saskatoon, and Donald Nicholson, Queens, P.E.L. are among the members already here for the session. A number of other members, principally from Ontario and Quebec, have been here for a day or two during the last fortnight arranging for quarters, inciuding Ernest Lapointe and Hon.

Will Readjust the Prices On Canadian Victory Bonds

Ottawa, Ont., Feb. 22,-(By Canadian Press).-Owing to the decline in foreign exchange the income return obtainable on high-grade securities has risen substantially and it has, therefore, been decided to adjust the prices for Canadian government Victory bonds so that the investment returns from these securities will be increased accordingly, says a statement issued tonight. This is in line with the policy followed from the beginning of the war making the Canadian government securities the most attractive investments obtainable in Canada. The prices for the various maturities from Monday morning, the 23rd instant, as announced by the Victory Loan special committee, will be as follows:

DEADLOCK TIGHTENS

One Reservation Unchanged By U. S. Senate, Despite Efforts at a Compromise.

DEFEAT AMENDMENTS

Washington, Feb. 22.-The first of the reservations attached to the peace treaty last November was re-adopted unchanged and by an increased majority in the senate Saturday, after the "irreconcileables," who hold the balance of power, had prevented the efforts of Republican and Democratic leaders to secure modification in the interests of compromise.

This result is generally taken to indicate that the deadlock on the treaty is tightening and that treaty ratification is becoming inextricably tangled in presidential campaign issues. Utterances during the debate Saturday indicated that the treaty was becoming a first-class election issue.

An address made in New York by Elihu Root, in which the latter urged immediate entry by the United States into the league of nations with amendments to be made later, was bitterly attacked in the debate by Republican leaders. Senator Johnson of California, a candidate for the presidential nomination, declared this pan "utterly silly." Appeal to the Public!

Telephone operators have not escaped in the prevailing epidemic, the result being a very high percentage of absentees in all our eleven city exchanges.

Numbers of citizens, kept at home through illness, are using the telephone more than under normal conditions. As a result the calling rate is very heavy.

There are, of course, necessary telephone calls that must be made. But may we ask that, until the situation clears, all telephone users assist us by making only necessary calls.

SALVATION ARMY HONORS DEPARTED

Memorial Service to Brigadier W. J. Richards and Staff-Captain W. Cornish.

Significant of the respect and devotion with which the late Brigadier W. J. Richards and Staff Captain W Cornish were regarded by their assoclates were the tributes paid at the joint memorial service held last night | in the Salvation Army Temple, Albert street. Both of the late comrades were connected with the Salvation Army for a number of years, during which time they were real brothers to the unfortunate. The career of Brigadier Richards was devoted to the army from birth and he served in many of the foreign missionary His death occurred in Korea on Feb. 12.

The service was opened with the funeral march played by the Temple Band. The march was the same as that played at the funeral of the late General Booth, founder of the Salvation Army. Among those present were Commissioner W. J. Richards, father of Brig. Richards; Commissioner D. Lamb, head of the immigration department at the international headquarters in London, Eng. Colonel and Mrs. McMillan, Mrs. Col. Chandler, Brig. Sandell and many other officials of the army. The large hall was packed to the doors with citizens who turned out to pay their last respects to the departed, who devoted their lives to the interest of others.

Dedicated at Birth. Commissioner Richards, the late brigadier's father, stated that he and Mrs. Richards had dedicated their son at birth to the Salvation Army. He touched on the service rendered by the brigadier, both at home and in toreign missions and appealed for volunteers to consecrate their lives to God and fill his son's place in the

"We do not sorrow as those who have no hope," said the commissioner, "but many shattered anticipations lie in that distant grave and yet amid it all we are enabled to say 'Thy will be He has lived a noble life and gone to his reward.

'He was our eldest. We gave him to God and the Salvation Army for service in any part of the world and at eighteen years of age he placed himself on the altar and God took him, using him in many capacities. For seven years he was the private secretary of the late general and founder and was present when the general closed his eyes and passed on. "Good-Morning; Judge,"
One of the many odd features of "Good-Morning, Judge," which is scheduled for presentation at the Royal Alexandra Theatre, beginning tonight, is found in the fact that its original production in ferce comedy form changed found in the fact that its original production in farce comedy form changed the history of the English-speaking stage. It was written by an obscure English actor, A. W. Pinero, and played under the name, "The Magistrate." Its success was so pronounced that it was soon played wherever the English language is spoken, a new school of dramatic writing sprang into being, Pinero was lured from the stage to the field of letters to become one of the most prolific and popular playwrights in the world, and to amass fame and tortune. Yes, the subject of these lines is Sir Arthur Wing Pinero, and he is deriving handsome royalties today from the musical comedy version of "The Magistrate," known as "Good-Morning, Judge." Itemaining closed all this week, the Frincess Theatre will reopen next Monday, March 1, with Otis Skinner in a comedy entitled, "Pietro." written especially for him by Maud Skinner and Jules Eckert Goodman. The story told by the play is intensely dramatic, and has to do with the passionate love of an Italian father for his daughter, and his self-sacrificing love for her. It is this Italian father that Mr. Skinner impersonates and as may be imagined, the character is another of those romantic, highly colored figures that the popular actor draws so skilfully and so delightfully. Tyrone Power at Grand.

Theatregoers in Toronto and vicinity who recall the remarkable portrayal by the distinguished English actor, Tyrone Power, of the role of the Drainman in Charles Rann Kennedy's noted play of "The Servant in the House," will doubtless welcome the announcement by The Servant in the House, will doubt-less welcome the announcement by Trans-Canada Theatres, Limited, of a revival of the play in a new production, with a notable cast, headed by Mr. Power, which will occupy the stage at the Grand Opera House all this week, with matinees on Wednesday and Satur-day

with matinees on Wednesday and Saturday.

There are numerous ties that link Mr. Power with the Queen City. It was here that he made his first appearance as Brutus in Mr. William Faversham's great production of "Julius Caesar," and here also that he played the Drainman in Mr. Kennedy's drama. Special significance attaches to Mr. Power's engagement by Trans-Canada Theatres, Ltd., for their initial production, in that this actor has been prominently associated for many years past in the fight for clean drama, and it is the avowed policy of Trans-Canada Theatres, Ltd., to give nothing but the best drama, interpreted by high-class artists of recognized reputation.

German Murder Pictures at Strand.

German Murder Pictures at Strand. A sensation will be caused in Toronto by the exhibition today and all this week at the Strand Theatre of the German submarine murder pictures—films made by the Huns showing the shelling and sinking of seven British liners in midsinking of seven British liners in midocean, and secured in Germany by the daring and cleverness of British secret service agents. These amazing pictures were taken for the records of the German government, and are officially titled "The Log of the U-35." They show the actual terrors committed by the German submarines in sinking ships, with all on board, with brutal heartlessness, outrivaling the atrocities of the worst barbarians, and in insolent defiance of an laws of God and man.

These pictures were to have been aws of God and man.

They have been witnessed by some of the higher officials of the provincial government, with the result that the pictures have been passed and are being shown in their entirety at the Strand, without a single cut.

The sensational nature of the pictures will make them the talk of Toronto, and they will, no doubt, attract an enormous number of people to the Strand all week. They are amazing. They are different to anything ever shown in connection with the war. Imagine—actual German motion pictures of some of the most terrible of German atrocities at sea!

The feature picture, "Happiness a la Mode," starring vivacious Constance Talmadge, is also showing today and all week at the Strand. It is a story of love, romance and divorce, which will prove tremendously entertaining and fascinating. It concerns a young married couple. C. B. Sissons Gives Some Suggestions For Its Solution.

In discussing his subject, "The State and Housing," at the Open Forum yesterday afternoon, C. B. Sissons spoke briefly of a few control of the few controls. Sissons spoke briefly of a few general truths in regard to housing, and then gave his suggestions for the solution of the problem. Mr. Sissons stated that altho the housing question is at present acute in Toronto, due largely

to post-war conditions, it is none the less permanent.

"Men are unwilling to invest heavily in the erection of buildings lest the price should drop in a few months,"

price should drop in a few months," said Mr. Sissons.

He then told of the recent mania for land speculation in and around Toronto. which was not confined to a few real estate men, but spread to the rank and file of the general populace. The buyers of land had no intention of ever building, but purchased it purely for speculation. "As a result of this, Toronto's suburbs are an eyesore," said Mr. Sissons.

He showed the need for state interwention by proving that the law of

vention by proving that the law of supply and demand cannot be relied upon owing to rapid fluctuation in prices of building materials, heavy tariffs, and district building restric-

Five Suggestions.
In all Mr. Sissons gave five suggestions regarding the solution of the housing problem. The first was that the city council should refuse to land-lords the right to collect rent from houses that are unsanitary and detri-mental to health. "The state should force the landlord to pull such a house down at his own expense," de-

clared the speaker. Next in order he suggested that a fair rents committee be formed to do something to regulate soaring rents. He stated that investigations into the matter had shown that rents since 1914 have risen from ten to two hundred and twenty-five per cent. since that time. "When a city like Toronto has a shortage of from eight to ten thousand houses nothing but con-science on the part of the landlord will keep the rent down without legslation," declared Mr. Sissons.

His third suggestion was that the city council should refuse to grant permits for the erection of any buildpermits for the erection of any buildings that are not absolutely necessary. In this class moving picture theatres were placed along with unnecessarily large offices and public buildings.

Commission of Five.

In case of the resignation of the present housing commission, which Mr. Sissons stated is probable, he advised that a commission of five he

advised that a commission of five be appointed containing men who would be deeply interested in the matter. He suggested that it contain one representative from the ranks of labor, ne returned man, two men who have studied the matter thoroly and would question in a practical manner, and successful business man who would look after the actions of the committee from a financial stand-

In conclusion he advised that the present houses under construction be finished, but that the future dwellings built by the commission be situated on the best sites. He thought that some of these houses should contain four or five rooms instead of six as It is quite possible to secure beauty with economy," he stated, "and a comparatively cheap house containing four rooms may be built that will be sufficient for many families for whom six rooms would be "nnecessary."

McKinley L. O. L., No. 275, Appreciates Ulster Visitors

At the regular meeting of McKinley Lodge, L.O.L., No. 275, the following resolution was unanimously passed: 'Resolved, that we the members of McKinley Lodge, L.O.L., No. 275, do herewith tender our appreciation of the visit of our brethren from Ulster to this, our city, last week and that we were gratified and edified by their statements of the real conditions existing in Ireland. We are pleased to know that they have very successfully combated the malicious lying propaganda of the Sinn Feiners in the United States, which still seeks to bring about a separation between the United States and Great Britain. Further, we wish them God speed on their journey homeward to good old Ulster, and success for the future, and do assure them that if at any time they need assistance to resist our common foe, 'the Roman Hierarchy. we will not be found wanting. Resolved, that a copy of this resolu-tion be sent to the delegation at New York before sailing."

CANADA TO OWN G. T. R.

National Railways of This Country Will Be the Greatest System in the World.

TORONTO A NATIONAL RAILWAY AND TELEGRAPH CENTRE

Some Indications of the Consolidations, Economies and Improvements to Be Effected---Electrification to Follow.

From Toronto World, Sept. 11, 1919.

THE absorption of the Grand Trunk into the Canadian National Railways makes the greatest system of public-owned railways in the world. But more significant than this is the revolution in transportation in Canada that will take place in consequence of this consolidation. Let us enumerate a few of the changes that will take place almost immediately.

Beginning with Toronto: the first important feature as far as this city is

concerned will be that a new consolidated service will be created between Toronto and Ottawa direct, over the double track system of the Grand Trunk as far as Napanee, and then on the track of the Canadian Northern direct to Ottawa, via Smith's Falls. This single track portion of the Canadian Northern will undoubtedly be doubled right away. The distance between Toronto and Ottawa at present is:

distance and most of the run over the present double track system of the

G.T.R. along the lake front towns and villages.

Another advantage of this consolidation will be that most likely the Canadian Northern will be double-tracked not only from Napanee to Ottawa, but from Brighton to Napanee, and in this way a service will be given thru the heart of Trenton, Belleville and Deseronto. The Toronto-Ottawa service will be one of the most profitable in Canada.

The next great improvement in regard to traffic to and from Toronto that results from the consolidation is in the transcontinental services; and what applies to Toronto, will apply with equal force to Montreal, Ottawa and all other eastern points, namely that the national transcontinental service will practically start at Halifax, will come via the Intercolonial, Transcontinental and the Grand Trunk to Montreal. From Montreal the service can go either by Grand Trunk or Canadian Northern to Ottawa, and from Ottawa by the Canadian Northern, via North Bay, and on the Canadian Northern to Long Canadian Northern, via North Bay, and on the Canadian Northern to Long Lake, this side of Lake Nipigon, where the Canadian Northern has its nearest approach to the Transcontinental—only 25 to 30 miles to build between the systems. And once this link is made the Transcontinental trains, instead of going by way of Port Arthur, will pass from the Canadian Northern at Long Lake to the Transcontinental and over the Transcontinental to Winnipeg; and this, by all odds, will be the best line between the whole of the east, including Montreal and Ottawa. The Toronto end of this transcontinental train will go by way of the Canadian Northern to Parry Sound and Capreol, connecting there with the line above referred to. Surprising consolidations can

be effected in all the western provinces.

In the city of Montreal the National Railways, while it does not get the use of the Windsor Station of the C.P.R., gets the Bonaventure Station and the new station site of the Canadian Northern, and this latter, with its tunnel under the mountain, gives much the best route to Ottawa and to the west, and may mean a greatly improved railway station in Montreal

may mean a greatly-improved railway station in Montreal.

A further improvement in Toronto that immediately follows will be that the consolidation will give the Grand Trunk advantage and use of the concessions that the Canadian Northern have already secured for joint user of stations, lines, sidings, from Agincourt and Leaside, via North Toronto to Mimico and the Humber. Leaside becomes a great new railway town to the north end of Toronto, and Mimico toward the west.

One of the outstanding advantages of this consolidation is that the National Railways gets possession of all the properties, sidings, stations and shops and real estate owned by the Grand Trunk in Montreal, Ottawa, Toronto, Niagara Falis, Hamilton, Brantford, Black Rock London, Sarnia, Windsor and many other cities and towns in the Dominion, constituting of themseives the greatest group of railway assets in this country. The World has neard it said by good authority that the Grand Trunk's real estate, in the way neard it said by good authority that the Grand Trupk's real estate, in the way of sidings, stations and the like, in Canada, is practically worth more than one-half of the total value of the system, and has ahead of it a potential of growing into enormous values. The bridges and tunnels are an ammense asset. It includes the greatest bridge in the world—that at Quebec.

New ferry routes and car-ferry routes will be established.

Toronto's most valuable railway asset that comes to the nation is the sidings and terminals dll about the city.

No one can begin to enumerate the changes, consolidations and savings that can be effected clear across the continent by unifying Intercolonia, Transher. "There'll be an extra room for Every city and nearly every town in Canada is on the great consolidated Every city and nearly every town in Canada is on the great consolidated be a National Railways! No one can begin to outline the improvements that will follow putting the

Grand Trunk and Canadian Northern together in New Ontario, And we lieve that the Timiskaming and Northern Ontario will be taken into the National Railways, putting most of the mines of Ontario on one system. The nickel, gold, silver mines of Ontario will be on the National Railways!

Great big modern railway offices will have to be built in Toronto. ronto ought to come forward with sites and other aid for such block or blocks.

The consolidation of railway offices will result in the consolidation of ad. ministration staffs. A lot of officials, men clerks, other employes can be saved

and turned into other work. No one will be dumped, but turned into m efficient work. A lot of trackage that can be lifted will go to places where it can be used to more advantage. Unnecessary stations can be closed. Unnecessary ticket offices can be closed. In Toronto the Northern ticket office at Toronto and King, the Intercolonial, the C.N.R. in the Union Station can be closed, and so

clear across the continent. The freight yard managements of all the lines consolidated in the National Railways will save money and increase efficiency. Cartage lines, sleeping and diner car systems, news departments, hotels can be doubled up. A lot of legal officials, traffic solicitors, promoters will be saved, to no one's loss. In all probability the poorer branches of the Grand Trunk in Ontario will be turned over to the Hydro-Electric radials of the province.

The electrification of the National Railways will now be taken up. We will develop our water powers to make ourselves independent of steam coal brought to us from the States All the telegraph lines owned by the consolidated railways will be merged into one service with the government telegraphs and with the Great North-

Western Telegraph System. National telegraphs as well as national railways! Engineering propositions that could not be taken up by a single system may be tackled now. The real bridge crossing of the Don Valley in Toronto, books and you can run over them for instance, for the National Railways and the Canadian Pacific and radials and wheeled traffic will now be found. It will be even more revolutionary than the Bloor street viaduct! The great bulk of all thru freight traffic will be taken off the Esplanade and cross by the C.P.R. and C.N.R. joint trackage thru North Toronto station.

These great changes will not be effected in a day, but they will come along one after another in a rather surprising way. The people of Canada have come into the makings of a great people's railway and telegraph service. This not hurt the splendid Canadian Pacific System, but help it. Even these two ervices will find a way of working together.

At present, Australia and New Zealand and South Africa will follow Great Britain in supporting Canadian interests in Washington. It does not follow that they would do so, if each had an ambassador of its own there.

Moreover, it is certain that the British ambassador in Washington has in fact been able to protect Canadian interests more effectually than a Canadian ambassador could do. For years, he contended the line of the labor movement important business accomplished and sets the seal of approval upon the project which has been unint the labor movement. In the labor movement, we have a large audience of members of the labor party and others at the Labor Temple. Mr. Powers also predicted a Dominion general election in the very hear future with the rein the very near future with the return of a U.F.O.-Labor government.

"All the farmers are flocking to the cities." said the speaker. "I deny absolutely the statement made by our opponents that it is the lack of social conditions which has been responsible for the exodus of the farmer into the present second to none. agin. The speculators.

The speaker stated that he did not favor the appointment of commissions of inquiry into prices. They merely showed up the profiteers and then let the matter drop. In this way they afforded great laughs for the profiteers and aggrieved disappoinment for the people at large. There was only one way of dealing with those who either profiteered or who were burdened with altogether too much of the wealth of the country, and that was to imprison the profiteers and tax the others. That there was nothing to be gained by fixing prices was clear, said the speaker, when it was recalled that prices for cheese in Montreal were same cheese could be sold on the open market at 32 cents a pound, and chees exportation was made so profitable that the British market was considered a valuable one for the cheese men. Manipulation of markets spelt the manipulation and starvation of the people of the Dominion.

solong with Dye, played the substitute role of the well.

Now for Ottawa.

There are no alibis to offer, altho it has to be admitted that St. Patricks were weefully unlucky around Benedict's het. The fans were breathing in gasps when sure goals looked imminent. Two goals from outside the defence were practically gifts to the Ottawa sharpshoters, But every goal that goes in the het must be counted. Benedict played his usually good game in the nets for the winners. The defence, Boucher and Cleghorn, afforded him excellent protection. Cleghorn talled twice and Boucher once. Nighbor showed signs of his c'd-time form, Darragh looked the best of the forwards for Ottawa, and besides scoring two counters, he manbesides scoring two counters, he managed to get away with some effective ichecking. Cyril Dennenay was always to be found attending to his knitting.

VARSITY BEAT McGILL THREE EXTRA PERIODS

Toronto University is tied with McGill for the leadership of the intercollegiate senior series as a result of their thrilling 7 to 6 overtime victory on Saturday afterenson. Wright notched the winning goal for the Blue and White squad aftereighty-seven minutes of the closest hockey that has been witnessed in Canada for years. The local students were leading 3 to 0 at the conclusion of the first period, but Shag's crew came within one goal of tying it up in the second period. B. Anderson scored two goals in rapid succession for McGill, and with but hardly a minute to go Gouinlock, for Varsity, tied the score on a pass from McIntyre. Pandemonium reigned suppreme when the winning tally was scored. Both teams showed perceptible signs of weakness during the final period but stoutly refused to give in. Overtime was declared necessary to break the deadlock, and after the usual rest both teams showed perceptible signs of declared necessary to break the deadlock, and after the usual rest both teams for Outlined and hardly commenced when "Teddy" Behan grabbe fore. GREAT BOUTS FOR WRESTLING HONORS

Dope Upset.

The old dope pot was badly upset when Swartman and Gay hooked up for the 158-lb. championship. Nobody in the big house conceded Gay the slightest chance against Swartman, and were severely joited when Gay started off like a whirlwind and showed Swartman the way for the first five minutes. Swartman came back strong and had him in the worst kind of a hole thirty seconds later. Gay just managed to clear himself, and played a defensive game for the rest of the regulation time. When the bell rang for time up the referee could make no decision, and ordered another six-minute period. Gay started the overtime period on the aggressive, and was working hard. He tried the half-Nelson three times, but could not get his hold thru Swartman's alertness. Swartman almost had Gay at one time, and it was only a very quick piece of work on Gay's part that saved him at this critical moment. Gay got the decision at the expiration of the six minutes, Swartman took his defeat in splendid fashion, and offered absolutely no alibis, tho it was a known fact that he was suffering from a very bad right arm, that was injured in an accident a week ago. He was also ten pounds lighter than his opponent.

The battle that many came to see was in the 145-lb. class, between H. Adam and L. Dodds. This proved one of the most interesting bouts of the night, and was worth the price of admission alone. Both men started out good, with Adam having the better of things for the first four minutes, and Dodds pulling himself out of many bad holes in a manner that any wrestler would have reason to be proud of. Dodds assumed the aggressive for the next minute and made things hot. Adam came right back and got the first fall in 5 minutes and 30 seconds. He repeated the dose in 6 minutes and 20 seconds. Both men exhibited great strength and skill and were in splendid shape. Adam's resources were taxed to the limit, and his wonderful strength and science were demonstrated remarkably in the best bout seen around these parts for years.

Decision—No Fall.

Martin and Jacobs came together in the 135-lb. class, and broke about even for the first five minutes. Jacobs took his opponent to the mat with a pick but the same together in t Martin and Jacobs came together in the 135-ib. class, and broke about even for the first five minutes. Jacobs took is opponent to the mat with a nice hold, but lost it and got into a position that kept him hustling for some time before he got out of it and once more secured, and upper hand. From here on Jacobs and upper hand. From here on Jacobs and upper hand. From here on Jacobs and is some great work, but could not get a fall. He won a well-earned decision. McKeown and Elsen, ir the 125-lb. class, rushed things from the moment of the tightest holes possible, and were working very fast. Honors went about even until Elsen got McKeown into one of the tightest holes possible, and the wonder is that McKeown ever got out of it without a fall scored against him. After some more snappy work on both sides, McKeown got the hold that spelled victory for him. With this hold he was complete master of the situation, and registered the fall in 6 minutes and spelled victory for him. With this hold for mental for putting up the best exhibition of wrestling he had witnessed for many reasons as were much taken with Elsen's gameness and skill.

Shirk had the better of Osborne for the first two minutes in the battle for the 115-lb. class title, but Osborne was not to be outdone and came back with a great flash of speed that had Shirk guessing for a while. They went seesaw for the next few minutes, until Shirk gained a point of vantage that nearly had Osborne's supporters gray-headed watching him struggle to clear himself. After some desperate efforts, he got on top and turned defeat into victory when he scored a fall just two seconds before the bell rang for time. Sprint Feature on Saturday Afternoon for Small But Select Field.

New Orleans, La., Feb. 21.-A capacity crowd was on hand for the first Saturday program provided by Secretary Campbell for the final meeting of the Jefferson Parish Fair Association, at Jefferson Park. Track conditions were much improved, but the course is still

The feature came in the three-quarter handicap for three-year-olds, fourth on the card. A small but select field of sprinters faced the starter. E. Cebrian's colors scored, American Ace romping home four lengths in front of Charlie olds, maidens, colts and geldings, 34 Leydecker. The winner was held in restraint by Garner in the early stages, but drew away handily when urged by his rider. American Ace was well fancied, opening at 7 to 5 and closing at 6 to 5. King's Champion ran third, a length in iront of iwin, which dropped back after going half a mile. Woodirap was excused, the racer failing to reach

the track from the Fair Grounds in time

was excused, the racer failing to reach the track from the Fair Grounds in time to go to the barrier.

Honolulu Boy accounted for the inile and a sixteenth handicap, winning by a neck from Omond. Wida gave the winner a good ride, keeping the gelding well up in the early stages, and outstayed Omond; which was held at liberal odds. The latter lost ground at the first turn, which cost him the big end of the purse. Bondage, which finished third, tired slightly in the final drive.

J. W. Schorr's two-year-old colt, John S. Reardon, again scored a handy win over H. P. Wnitney's Cointreau, when they hooked up in the opening race at three and a half furlongs. In the last meeting John S. Reardon trlumphed over the Wnitney star by a head. This afternoon a length separated the pair when they went under the wire. The winner also established a new track mark, running the three and a half furlongs in 422-5. Cointreau and Peerage were coupled as the H. P. Whitney-Greentree stable entry, and ruled favorite. John S. Reardon broke fast and held the others safe all the way. Cointreau, after a slow start, finished with a rush in the stretch run. Blemished beat out White Star for the short end. The lat-

solvent of political disorder. The tra-ditional loyalty of the Irish people to the laws of God will prevail in the full when the days of oppression have passed away forever and when our people have in their own hands the making of and the administration of their own laws. The murder campaign is denounced in a pastoral by Bishop Foley, of

Carlow, who says: "It is nothing short of appalling to think that a group of Irishmen, who in all probability profess the Catholic faith, should suffer themselves to be drawn or driven into a conspiracy for the purpose of taking human fire without a particle of justification from without a particle of justification from any source, human or divine."

NIPISSING EXTENSION HAS PROMISING VEIN

Helen Vein Discovered Last October Has Good Showings of Silver.

President A. J. Young of the Nipissing Extension Mines, Limited, has sent to shareholders a report in which is detailed the results of operations carried on at the property under the direction of Mine Manager Maj. E. H. Birkett, M.C., E.M. Active operations were begun last October, and the report shows what has been achieved up to Jan. 31 last.

Maj. Birkett says the most promising vein is the Helen which he discovered on October 10 last. It has an average width of one inch heavy smaltite with leaf silver in the wall rock. It has been stripped for 100 feet, still maintaining its character. Samples gave 330 ounces of silver to the ton, and the wall rock, after the leaf silver had been scraped off, 115 ounces of silver to the ton. Heavy cve burden and water prevented further stripping. The surface was broken and showed the vein to wider to 3 inches Small stringers of smaltite parallel the vein at some distance from it.

Maj. Birkett' strongly recommends carrying on the cross-cut to the Helen vein in addition to drifting north on the No. 2 vein, as he considers the Helen has great possibilities of making a good body of ore. has great possibilities of making a good body of ore. The company's balance sheet shows cash on hand of \$5,265.

ANOTHER DECLINE **LOW-PRICED RAILS** IN GRAIN PRICES

Supply of Feed Grain Undis, Prominent Industrials Also posed of by Growers, Believed to Be Large.

Chicago, Feb. 21.-Corn slid down further in price today owing more or less to bearish forecasts of the government's coming report on farm reserves. The close was heavy, Ic to 1%c net lower, with May \$1.30% to \$1.30%, and July \$1.27% to \$1.27%. Oats lost %c to %c to %c, and provisions 22c to 40c.

Except for a brief interval soon after the opening, bears had the advantage in the corn market thruout the session. It was said that the government report soon to be issued would show an unusually large total of feed grain still undisally large total of feed grain still undis-posed of by growers. This gossip apparently gave fresh emphasis to selling pressure, due to belief that the Federal Grain Corporation had started to liqui-date big holdings of wheat and flour, that seemed likely to have no foreign outlet. Contrary announcements of possible renewal of flour buying on the part of the government tended temporarily to stimulate a little demand from shorts in the corp market, and so, too, did the canceling of freight restrictions east of Caicago. No other support developed, nowever, and the close was near the lowest level of the day.

Oats weakened with corn.

Provisions were depressed by the grain

in New York Market. New York, Feb. 22.—Ralls again furnished the motive power for today's short but moderatery active session, further heavy buying of low-priced issues with speculative possibilities being the chief features. Greatest activity and strength were displayed by Rock Island, Missouri Pacific, Texas Pacific, St. Louis and San Francisco, Chesapeake and Ohio, New York Central and New Haven, at extreme gains of 1 to 3 points. gains of 1 to 3 points.

Standard rails also rallied from their irregularity of the opening, when several of those issues reacted under pressure induced by further opposition to the railroad bill

road bill. Improvement among transportations later extended to several of the prominent industrials, notably American Woolen, Central Leather, which issued a favorable annual statement, and several of the motors, equipments and steels. At their maximum quotations these stocks were up 2 to 5 points, but profittaking incidental to the double holiday reduced many gains at the firm to strong close.

Sales amounted to 450,000 shares.

Domestic rails and industrials were the only steady features of the contracted bond market, Liberty issues again reacting, with a new low record for the 3½'s, at 96. Foreign bonds also shaded, United Kingdoms of 1937 breaking 1½ points.

Old United States bonds were unchanged on call during the week. Total sales (par value) were \$7,125,000.

The clearing house statement was noteworthy for still another reduction of actual loans and discounts, that item falling to about \$5,100,060,000, against almost \$9,375,000,000 in the first week of the year. Another decrease in reserves, however, left the total slightly over \$8,000,000. Sales amounted to 450,000 shares.

OLD KENABECK LOOMS

AS SILVER PRODUCER Finds on 130 and 200-Foot Level Ansay

The new finds of silver on the 130foot level and the 200-foot level in the Triangle Silver Mines, Limited, mining property, formerly owned by the Kenubeck Consolidated Silver Mines, Limited, Montreal concern, situated in Aul Township (two townships northwest of Coleman), in the Montreal River division of Timiskaming, Ontario, warrants extensive mining operations. All develop-ment so far points to the greater values leing at and below 200 feet. Rich values Leing at and below 200 feet. Rich silver vein matter and wall rock is now exposed on the 200-foot level, thus proving the district to be a producer of silver. Good surface finds are being made in Auld and Came Townships.

Samples of the rich sliver matter and wall rock above mentioned have been submitted to Milton Hersey Co., Limited, of Mongreal for assay by W. H. Jeffery, M.E., and they report as follows:

RUSH FOR FRENCH LOAN.

Paris, Feb. 21.—(French Wireless Service.)—A great rush of selling orders from clients anxious to have money available for subscription to the new loan is reported by brokers here. From the moment the banks opened their doors Thursday morning, they were filled with eager subscribers to the loan, and a great rush of business has continued. One marked effect of the new loan was a sharp rise in the exchange rate for the franc ir London.

Atlantic Sugar Continues Most Active Issue in Montreal Market.

Montreal, Feb. 22.—Atlantic Sugar was again the outstanding active stock in Saturday's stock market dealings here. Tho some profit-taking was again in evidence, the price closed at a gain of a large fraction, at 94½. National Breweries common was a feature of the market, rising to a new high of 206½, a gain of 4½ points, which it retained at the close of dealings. Riordon was strong, closing at a net gain of three points, at 183. Abitibi recovered four points, to 260; B. C. Fishing gained a point, at 61; Canadian Car preferred was up one, at par; Canadian General Electric up one point, at 106½; Carriage Factories up two points, at 39; Dominion Bridge, up one point, at 86½, were other features of interest. There was little to note of consequence in the bond market.

The Newest of the New Spring Weaves in Silks, Suitings and Dress Materials

Spring has come to Simpson's! Laden with the best expressions of the season's mode, as wrought out by ingenious weavers of rare silks or smart woollen fabrics for coat, suit or frock, the spacious department in which they are displayed presents a glorious array. The weaves, one and all, display the unsurpassed quality that has made Simpson's one of the foremost fabric shops on the continent.

An Unprecedented Season of Silks

is predicted, and so the Silk Section glories in a host of new fabrics that shift and change and gleam, and express some new beauty each time you see them. Radiance of color-exclusiveness of design are found in such lovely fabrics as:

Novelty Printed Georgettes

have exceeded the wearer's fondest dreams in beauty of color and design. Batik effects, mottled, floral, cubist, foulard, Oriental and frosted designs present the claim of navy and soft blues, with lighter tones of the same shade or contrasting tones. Yard 6.50

Printed Pussy Willows in the same colors and designs. Yard 8.50

Plain Georgettes in every street and dress shade and black. Yard, \$2.50 to \$5.00.

Satins in New Weaves

will enrapture you. Some of the foremost are Crepe Charmante (just arrived from France), Crepe Meteor, Grenadine Satin, Satin Duchesse, Satin Lunette, Satin Baronette, Pussy Willow and Kitten's Ear.

Kumsi-Kumsa for Sports

-has a spot in the sun this season. Behold giorious new designs — wonderful colorings, among which the most outstanding are huge block, floral and rich brocaded designs in jade green, teal duck blue, Bermuda, turquoise. etc. Yard 15.00

Peau de Peche---Loveliest Woollen Fabric

New shipments of this rich silk duvetyn, just here from Paris, reveal a softness of finish more irresistible than ever, and in colors glorious beyond description. Teal duck, royal, navy. Maeterlinck and midnight blue, castor, Bermuda, silver gray, tete de negre and gold. Yard. 11.00

Silvertone is Again a Favored Suiting Fabric It has a soft finish, akin to broadcloth, and colors feature many blues, fawns and browns,

Kitten's Ear Broadcloth A silken texture fabric with shimmering crepey surface. Blue is the color which here predominates, in new shades of midnight, marine, Maeterlinck and teal duck. Yard 8.50

Goldtone Velours for Coats and Wraps This new material comes in charming shades of blue, brown and fawn, in all of which there flickers that suggestion of gold whence comes its name. Yard, \$8.50 and \$10.00. Jerseys-More Popular Than Ever

Approved of by fashion for suits, frocks, and smocks, this fine tricotine weave features shades of silver, castor, marine, Pekin, navy and Foch blue and brown. Yard 6.50 Heathertone Jerseys—The smartest fabric for the golf costume, in blues, greens and browns. Special values, yard 6,50

This is a Season of Foulards

-and one must see the wealth of newness in design and coloring to realize to what heights this summery fabric may aspire. Designs favor the all-over conventional, large and small floral, ring, spot, square and rare old Eastern effects. Mostly on navy, brown and black grounds. Silk and satin finishes. Yard, \$4.50 and \$5.00.

Morning Glory Silks

This highest achievement in printed, dyed-in-the-skein sirk, bears a resemblance to foulard, but is of much softer, finer texture. Wonderful batik effects, trailing and verdure designs on Egyptian colorings of every conceivable color combination are here. Yard, \$8.50 and \$9.50.

Navy Taffeta is the Favored Dress Weave

Nine out of ten frocks adopt it this season, and here is a soft chiffon quality as low priced

Other shades and black are priced from \$2.95 to \$5.00. Shot Taffetas, in lovely two-tone colorings, such as amethyst and black, brown and Maeter-

Whitewear Taffetas, for summer afternoon frocks, are in fascinating pastel tones. Yard, \$3.50 to \$5.00.
