NEW COUNCIL MAY WARM UP THINGS

Moncton Aldermen Start In To Use The Axe. RIGID ECONOMY. Ald. Welch says In Two Years Assessment Can Be Cut to \$60,000—Editor Hawke Is Still Angry and Ignores City Hall Proceedings.

MONCTON, Feb. 6.—(Special)—At last night's meeting of the city council Ald. D. I. Welch is discussing the city's financial matters and dealing with appropriations and expenditure rather than starting a large body of ratapans as he has done in the past. He is in judgment with proper and careful administration of civic affairs, the assessment in two years could be reduced to \$60,000. Last year the gross assessment was \$80,000. Judging by the way the new council is starting out there is a lively year ahead. One of the interesting features in connection with the newly elected council is the fact that the meetings are being held in the city hall, the old hall, namely, the Transcript. The council has held two meetings and no reporter from that paper has yet put in an appearance notwithstanding that the sessions have been more interesting than for some time. It is stated by Mr. Hawke's friends that he wants the present council to pass a resolution censuring the mayor and aldermen of last year in connection with the trouble between Mr. Ryan and himself. He has so far ignored the new council and it is said will not report meetings until some such action as referred to is taken. Members of the present council declare that no such resolution will be passed by them and notice of meetings will be the only invitation, the editor of the Transcript will get to attend the sessions. Considerable speculation exists as to whether Mr. Hawke will continue to ignore the council meetings or whether he will take back work.

THE PARENT-CHOQUETTE CASE QUEBEC, Feb. 6.—(Special)—At the opening of the Parent-Choquette case this morning Justice Laroc, declared that the alleged agreement amounted to an extinction of the action. Had such an agreement been entered in court by the plaintiff it might have been accepted. The court considered that to take advantage of such a document the defendant must enter a supplementary plea, and gave the defendant three days to file such a plea.

COAL OPERATORS SAY THAT THE THREATENED STRIKE WILL NOT LAST

It Will Surely Take Place, But They Are Ready and Expect It To End Quickly --Say It Will Fall by Its own weight

NEW YORK, Feb. 6.—According to the Tribune, an officer of one of the largest of the anthracite coal carrying companies said, yesterday, regarding the expected strike: "The strike will in all likelihood take place on April 1. The anthracite miners have had three years of unexampled prosperity since their strike was settled. They think that this was brought about by the methods used in the strike of 1902. The same methods, they think, are equally good today. Demands will be made which we cannot grant, and the strike will take place. It will not last long, as we are better prepared to handle it than when the last strike started."

ONE OF THE MURDERERS TELLS HIS STORY OF KILLING OF HARVIE

The Man, Stanley, Arrested Last Night, Admits He Had a Hand in It, but Says That David Fisher and His Son Jim Were the Real Murderers—David Fisher Arrested.

WINDSOR, N. S., Feb. 6.—(Special)—The capture of the man Stanley, accused of the murder of Freeman Harvie, was effected about a mile from Harville. The constable there drove to the house of David Fisher, on the Dawson road, and arrested Fisher and took both prisoners to Windsor and committed them to jail. Stanley, of his own accord, on his way out to Harville, said, when he was taken, he was on his way out to tell about the murder, that he was guilty of a part, but not all, old man Fisher and Jim had more to do with it than he had.

plan what was to be done. Harvie told him not to have them Fisher's there. He didn't mind the old man but he didn't want the rest of the woman and boy. Then he, Stanley, left Harvie in his own house and went up to Fisher's. The old man and Jim were not home. He asked where they were and was told they didn't know. He then returned to the Harvie house and heard loud talking in the cellar. He went down and looked into the cellar and asked who was there. They answered it was the old man, David Fisher and his son, Jim. He knew their voices. He asked what they were doing. They replied they were getting potatoes and turnips. He asked them if they didn't want a light. They said: "No don't bring me a light down here."

THREE KILLED IN TRAIN WRECK

THE TIMES NEW REPORTER

ANCIENT OF DAYS. IT IS CALLED SNOW.

It is generally believed, in view of yesterday's long discussion in the city council, that the Boyd Field sewer is still in the Boyd Field. This sewer was first brought to public attention shortly after Columbus discovered America, and it will be handed down to posterity as a sacred trust by the members of the present council. Whenever the citizens are weary of the monotony of existence, the Boyd Field sewer will be brought to their attention to stimulate them to renewed endeavor. It is an unexcused question whether it was the Boyd Field sewer that was in mind when he wrote the Brook; but men may come and men may go and it goes on forever.

LAWN TENNIS ASSOCIATION

Annual Meeting of the United States National Association Held in New York.

NEW YORK, Feb. 6.—The 25th annual meeting of the United States National Lawn Tennis Association, was held last night at the Waldorf-Astoria. Dr. James Dwight, of Boston, president of the association occupied the chair. Forty-six clubs were represented from all parts of the United States, out of a total membership of 100. The financial results for the year showed a slight deficit, a result of the visit of the team to England last year in an effort to win back the Dwight Davis international challenge cup. The balance on hand was \$3,277. The expenses in connection with the trip amounted to \$1,000 of which only \$1,125 was received from England as the association's share of the receipts.

FOURTEEN YEAR OLD BOY CANNOT REPEAT THE LORD'S PRAYER

Pitiful State of Affairs Brought to Light In the Police Court This Morning—Young Lad Whose Education Had Been Sadly Neglected.

Michael Harrigan, a resident of Brunswick, well known character from Brunswick street, charged two boys, Walter Cook and Thos. Clayton, in the police court this morning, with using abusive and profane language to him, and he also charged Cook with assault. The case took up a great deal of time, and during the proceedings Cook, who is fourteen years of age, gave the startling information that he could neither read nor write, nor did he know that there were such laws as the Ten Commandments.

THE LORD'S PRAYER

His father (who is blind), is severely afflicted. Judge Ritchie said, however, that in a city like this, where there are free schools, no boy should be without a fair education at least. Young Cook said he attended St. John's Church Sunday school, and his honor stated that the school of that church undoubtedly did not know of the case, or matters would be rectified.

THE LORD'S PRAYER

Cook was sworn after a little hesitancy and denied that he was on the roof at all and that he used abusive language. He stated that he was standing with one foot on the fence and the other on a pole assisting his brother to put up the clothes line. He stated that Harrigan and Lane both used abusive language. Cook further said that Harrigan hauled young Clayton off the fence. Thomas Clayton said he was fifteen years old and also denied using the abusive language or being on the roof.

THE LORD'S PRAYER

Harry Cook brother of one of the defendants said he was on the pole putting up the line and his brother was helping him. Clayton was also there but he heard neither one use abusive or profane language to the complainant.

THE LORD'S PRAYER

Joseph Cook, father of the boy, being blind was led over to the witness box and stated that on the night in question he heard Harrigan going into the yard yelling like a bull. He heard him use very improper language but did not hear the boys retaliate. Both he and Harrigan would have retained a series of discussions of an interesting nature that they have had before but for the timely intervention in the court.

THE LORD'S PRAYER

Mr. Mullin addressed the court for some time and asked for a dismissal on the ground that the weight of the evidence was in favor of the defence.

THE LORD'S PRAYER

His honor reviewed the case and referred to the disreputable young boys shown to old people in this city, and also the obscene, profane and vile language that small boys are using daily in the presence of men and women on the streets. The judge said he felt disposed to believe the evidence of Lane, who said that both boys used bad language and he fined them each \$8 or two months in jail with hard labor.

My Friend the Chauffeur.

By G. N. & A. M. WILLIAMSON, Author of 'THE Lightning Conductor', 'THE Princess Passes', etc.

(Continued.) IX. A Chapter of Revelations. Maida really was the prettiest thing ever created, when I looked down on her from Mamma's window, as she arranged flowers and cups and saucers on the table which the monk had carried out for her into the garden.

I don't believe our glorified chauffeur would have stopped talking motor talk and run about with his hands for Mamma or me as he did for Maida. And I wonder if one of us had adopted that little scowling of a feline dog, which Maida had given it a bath in the fountain and dried it with his pocket handkerchief.

That is often the way. If a girl has set her face against marriage and would rather be good to the poor than flirt, every man she's reluctantly forced to meet promptly falls in love with her, while all the thoroughly nice, normal female things like Mamma and me have to take a back seat.

By the way, Mamma and I are literally in the back seat on this automobile trip, but my name isn't Beechy Kidder if it's for any length of time. However, this reflection is only a parenthesis in the midst of breakfast, for we all had breakfast together in the monastery garden and were as 'gay as grigs'.

"Oh, you are interested in somebody's future besides your own then?" "Who could help being in love?" "You look as if you might be in love," she said, "but I don't see anything about you that would lead me to think you were."

"No more than a feather," said he, "and I myself look as if I were, so presently I pretended to be tired, and running after the tolling car, asked Mr. Barrymore whether his weight would make much difference if I sat by him."

"Who was she?" I felt bound to inquire. "I was telling Miss Destré about her yesterday. She seemed interested. Miss Destré is very fond of history, isn't she?"

"Yes. But I'm tired talking of her now. I want to hear about the other historic. I suppose, if she was Italian, she never made her rhyme with 'nice'."

"Her husband made her rhyme with 'nice'?" "Her husband made her rhyme with 'nice'?" "Her husband made her rhyme with 'nice'?"

"I have been a terrible sufferer of piles for fourteen years and during all this time you can have an idea of how many kinds of medicine I tried. But I found no relief until I used the Pyramid Pile Cure."

ANOTHER REMINDER

The city was again reminded this morning that side by side with the many agencies which work for the development of true manhood and good citizenship there are at work influences which tend to degrade and destroy. Once more the police have been called upon to place a restraining hand upon mere youths caught in the very act of crime.

The citizens are not facing with sufficient seriousness and helpful energy the conditions that surround the lives of so many young people with evil influences. Now and then a youth with pistols in his pocket and somebody else's property in his hands is brought into court and punished. Now and then boys with minds poisoned by bad literature and bad company run away from home. Young girls are seen on the street corners late at night, and occasionally one is arrested for too flagrant a breach of good conduct.

The boy who commits a crime, or the girl who goes wrong is not the development of a day, but of years of baneful influence. It is not usually, though sometimes, the influence of home; but of the street. These young minds are active. They must be employed. They receive a good or an evil bent as the surroundings and the influences brought to bear upon them may dictate. This city has not provided for compulsory education. It is trifling with the question of manual training in the schools. It is going about its selfish pursuits and its pleasures, far too indifferent to the cry that comes from the children.

HEADS OF DEPARTMENTS

The city council yesterday invested the heads of the various civic departments with power to appoint and dismiss employees of the departments. This measure should have had a larger majority than it received, and it may be hoped that one argument urged secretly against it did not influence any of the aldermen. With regard to the suggestion that some of the heads of departments are not competent, the new order of things will prove or disprove this statement, and the aldermen will be able to endorse or dismiss the directors as the facts may determine. It may be hoped that it was not a desire to shift this responsibility which influenced any of the opponents of the measure. There was some talk about "back-bone," but also some evidence of it at yesterday's session of the council. Better departmental service should result from yesterday's decision, or the council should take the further step of getting more vigorous and able heads of departments.

THINK IT OVER

The city council to deal with matters of vital interest to the taxpayers. The waterworks affair will have to be closed up. There is a stack of claims for damages, from contractors, property owners and others. Without a strong and wise council the city might be led into costly and ill-considered law suits on the one hand, or very costly surrenders or compromises on the other. The assessment commission's report will be before the new council, and the action taken will deeply concern every taxpayer. The new order of things under which heads of departments are given greater power will be tested, and the heads of the departments will be on trial. The question of getting more wharves built and bringing St. John to the front as a centre for industrial development will be constantly before the people. In view of such facts, is it worth while to have a strong council? Or should the citizens be content merely to grumble, and pay?

WOMAN'S SPHERE

Women's clubs are a notable feature of life in Massachusetts cities and towns. No less than nine hundred delegates attended the State Federation meetings in Boston last week. Their point of view with regard to the entry of women into many fields of activity in competition with men—a question that is very widely discussed at present—is well set forth in the remarks of Mrs. Ethel Chubb Dorr of New York, who spoke on "Industrial Conditions Affecting Women." Among other things, Mrs. Dorr said:—"Not only the working men, but the majority of professional men, are utterly unable to support their families, and I do not think there are many women who want to be supported. It is true that women have been a disturbing element in the industrial world. They have rumored some trades, and even driven men out of them entirely, as in Newburg and Troy, which are veritable cities of the Amazon, but this is merely the result of the unscrupulousness or ignorance of employers who have taken advantage of woman's necessity to get her labor at wages incompatible with decent standards of living. Women have been blamed for underbidding men, but they are obliged to do so. It was the only possible way in which they could gain a foothold in industry. When men welcome them as fellow workers instead of treating them as intruders it will do much to remedy this evil." Mrs. Dorr's statement that many professional as well as working men cannot support their families may appear somewhat objectionable when stated so bluntly and without qualification, but it is far from being wholly inaccurate. A man living in a city and having a large family,

but having a slender income, if that family insists on living up to the standard of wealthier neighbors, is obviously at a disadvantage, and must add to his own earnings that of other members of the family, whether sons or daughters. When a family of simple tastes and few wants could get along on a small expenditure, another whose members must, as the saying goes, "have all that is going," in the matter of expensive food and clothing and all kinds of entertainment, could not subsist without a larger income. Then there are many cases where for one good reason or another the daughters of a household must earn money. The higher cost of living and the broadening list of human wants make great demands upon the purse, even if keener competition did not lessen the average income of the very poor. Woman has entered the industrial and professional field through hard necessity, and way must be made for her, whether men like it or not.

The Montreal Gazette complacently observes: "The fact that Quebec will be the terminus for a time of the fast steamships on the St. Lawrence route is being commented on in some places as a blow at Montreal's trade. They do not understand Montreal's trade or what makes it who think that the loss of one steamer a week will affect it. The big trade of the river will come as it has been coming for years to where the men who control it have their headquarters."

The application of a degree of economy, coupled with a very mild winter, has made a very notable change in the balance sheet of the Intercolonial Railway. The revenue for the six months ending with December did not equal the expenses by some \$71,000, but the statement is better by \$400,000 than for the like period last year. The month of December showed a surplus, which is quite a remarkable fact.

Senator Templeman, the new minister of inland revenue, is a native of Ontario, and is 61 years old. He established the Almonte Gazette in 1869, and in 1884 went to Victoria, B. C. where he established and still publishes the Victoria Times. He was elected a member of the commons in 1896 and called to the senate the next year. Since 1902 he has been a member of the cabinet without portfolio.

The general impression seems to be that Hon. L. P. Brodeur will make a very good minister of marine and fisheries, and is 61 years old. He established the Almonte Gazette in 1869, and in 1884 went to Victoria, B. C. where he established and still publishes the Victoria Times. He was elected a member of the commons in 1896 and called to the senate the next year. Since 1902 he has been a member of the cabinet without portfolio.

The Board of Trade is to discuss the question of home-buying. It is stated that business goes to upper provinces departmental stores, which ought to come to St. John stores. The secret of the success of these departmental stores may be stated in one word—"Advertising."

One sees in the papers occasionally the heading, "Geyser-Grease Trial." Seems rather familiar—doesn't it?

Senator Templeman to be Minister of Inland Revenue and Hon. L. P. Brodeur of Marine.

Ottawa, Feb. 5.—(Special)—Tomorrow forenoon Hon. L. P. Brodeur will be sworn in minister of marine and fisheries, and Senator Templeman will be sworn in minister of inland revenue. This is in accordance with what has already been fore-mentioned in this correspondence.

AN EGYPTIAN TOMB

We sometimes pride ourselves on the achievements of the modern world. But in Boston last week Joseph Lindon Smith told of what he found in an Egyptian tomb of the eighteenth dynasty. He and his wife were the first to view its treasures. We quote:—"From this tomb the modern archaeologist carried out a bewildering number of objects of surpassing interest and marvellous beauty, all fresh and flawless—sumptuous cases, three beds, three chairs, a box containing alabaster jars in which the viscera of the dead were preserved; little ebony boxes, each containing an image of a servant for the dead; nested jars full of fruits, a beautiful chariot, and many other things. The chairs were strangely modern, one almost in the style of Louis XVI., and another in the style of the French empire. There were found also sofa cushions filled with goose feathers, and a basket trunk that looked as if it might have been made yesterday in Japan."

DATES FOR CAMP

Ottawa, Feb. 5.—(Special)—The annual military camps for 1906 in the maritime provinces will be held as follows: For St. John district, from 26th June to July 15th; district of Halifax, from 11th Sept. to 22nd Sept., and for district 12, from June 26th to July 7th.

LAST NIGHT IN THE THEATRES

New York Opera Company at York Theatre--Waite Comedy Co. at the Opera House.

The New York Opera Company opened its engagement in this city at the York theatre last evening, and the company proved itself strong in every particular, was the verdict of those who had the good fortune to witness Jack and the Beanstalk last night. The production staged last night is an old story, a fairy tale in fact, which for many a day has been told around many a family fireplace. Followed as it was with catchy songs, and pretty girls, arranged in a manner so as to claim the attention of the society lady as well as the embryo boy, Jack in the Beanstalk, delighted a crowded house last night. The scene of dawn in the prologue is beautiful, and in the forest are to be seen Old King Cole and his daughter, Princess Mary, in the costume of the forty thieves, Jack, the son of Old Mother Hubbard, rescues the two, and Jack falling in love with Mary, invents a tale of royal blood to his poverty-stricken domicile.

As the story runs the emporium of old Mother Hubbard is here and the cow is sold for a handful of beans. Jack has effected the trade, and his mother throws away the beans in disgust. The beans, however, came to his aid, and the beanstalk with their aid springs up. That is the way with some of George Campbell's things, who possesses the golden hen and the magic heart, which are the requisites to make Jack rich. Act two shows the giant's home and all the characters within his power. The fairies, however, again come to the rescue and while Rose is in great grief, "knock-out" drops are administered him, and fortified with the weapons of war, and the rest of the prologue escape.

In act three, as is to be expected, all are made happy. Winifred Florence, garbed as Jack, the hero, gained favor at the start of the performance. Pretty in appearance and graceful in her manner, she sang in a way that well deserved the plaudits of the spectators. Next was George Campbell, as Princess Mary, quite contrary, below the standard of excellence, allotted as she was so important a part. Dressed after the fashion of a tin god, P. McSarry played the prominent part of Old King Cole, Jolly Old King Cole, as each as only a first-rater can. A character, too, that will long be remembered as one "too funny to laugh at." Simbad, the sailor, Jack's companion. Natural in his humorous remarks, George Emmer kept the audience in stitches by his witty remarks. His imitation of a German hand, a train leaving the station, and other musical "stunts" were particularly amusing and clever. Solomon Tuberculous was in the hands of Jack Henderson, and his make-up to represent the Queen of the Fairies, was as good as a compliment as can be paid him. Little Miss Muffet, Old Mother Hubbard and the Old Woman in the Shoe, wife of the giant, played by Goldie Campbell, Helen Salinger and Lina Garvey respectively, were characters that could not have been in better hands.

Rose, the Giant, garbed as he was in a deeply proportioned costume, and a deep voice that went well with his loud part. His wonderfully large ears made a decided hit. The chorus girls, last, but by no means least, can always claim as much recognition as can money in society circles now-a-days. Beyond doubt, and everyone of them, costumed in their various hues, acquitted themselves admirably. The performance as a whole was excellent, and the company will well merit the large patronage they will undoubtedly receive during their stay in this city. Jack and the Beanstalk will be the bill tonight and Wednesday afternoon and evening.

At the Opera House.

The return engagement of the Waite Comedy Company was opened at the Opera House last night with Hal Reid's "Roanoke." The members of the company have made many friends in St. John was clearly evidenced by the enthusiastic reception accorded to the members. Prof. Virginia Dorrer was never seen to better advantage than in the role of Roanoke Peyton, the blind girl. The other members of the cast did excellent work, especially William Wagner, Fred Hixtable, The Imperial-Japanese troupe, The Sewidas, formed an interesting addition to the specialty list, and their juggling, balancing and acrobatic feats elicited enthusiastic applause as did the comedy cycling, singing and illustrated songs given by the Lawrence. Jack and the Beanstalk will be the bill tonight and Wednesday afternoon and evening.

Hon. W. P. Jones and T. C. L. Keichum, who have been attending the Bathurst liquor investigation, were at the Royal yesterday and left last evening for Woodstock.

About 10 o'clock last night an Englishman, whose name could not be learned fell in the rear of what was formerly No. 8 engine house, in St. John street, West End, and was quite severely bruised. He was taken to the Minnette House, where he is boarding and Dr. W. L. Ellis summoned. It was ascertained that there were no bones broken and that beyond a shaking up and some bruises he was not badly hurt.

JUST LIKE NEW YORK

Deputy Chief Jenkins and Detective Killeh Capture Two Burglars in Metropolitan Style.

"Throw up your hands," came the order from the deputy. With a start the intruders turned and in a minute all was over. The two men, who had been in the store for some time, were taken into custody without objection. In fact they answered questions by laughing.

A telephone message had previously been sent to central police station and Sgt. Campbell was called to post himself at the corner door. The prisoners were then escorted to the station.

There were two unloaded pistols found on Myers, also a few keys and \$4.60. The jackknife found on McArthur was an exact duplicate of Mr. Williams' store key and how it was procured is as yet unexplained. Ninety-five cents were found on him also.

Some cents in the till had not been taken when the intruders were interrupted in their work. The prisoners were silent when questioned and seemed almost inclined to view the matter as a funny episode.

Myers was once an inmate of the reformatory. McArthur has never been under arrest before and belongs to a respectable family.

The puzzle now is where did the prisoners get the key to the Williams store? Neither of them ever worked there.

NOVA SCOTIA VILLAGE HAS HORRIBLE MURDER

Freeman Harvie, a Farmer of Elershouse, N. S., Done to Death—His Body and His Severed Head Found Under Potato Pile in His Cellar—Two Men Arrested.

Elershouse, N. S., Feb. 5.—(Special)—A ghastly murder was committed here on Friday night, at least that is the opinion of Freeman Harvie, whose dead and headless body was found in his own cellar this morning. At that time he was at work preparing notices for the school trustees, of which he was a collector for the town of Hants county.

Two men are under arrest on suspicion of having committed or having abetted in the crime—George Stanley, who says he came from London (Eng.), and pretended that he was agent of a company to install telephones, and James Fisher, a simple-minded young man, whom the authorities think was a participant in the crime by Stanley.

The body was found in the man's own cellar, under a pile of potatoes. The head was severed and in a bag some feet away. Stanley had pretended to buy the property from Harvie for \$1,000 a week ago, and was selling the stock and furniture for whatever he could get, saying that Harvie had gone to Halifax to see about the necessary legal papers.

The story of the tragedy is weird and ghastly, unparalleled in the criminal history of Nova Scotia. All day Saturday and Sunday with the headless body of the old man in the cellar, he, whom the authorities believe is the murderer, was going in and out of the house. He and others were eating and drinking with gusto in the rear kitchen, and he was sitting at bargain prices the dead man's goods and chattels.

This is not a farming country. It is peopled by a rich population of comparatively meagre means, but it was here that Stanley came ten days ago, alleging that he was the agent of the Western Union Telephone Company, and that he would install telephones in the farm houses for \$5 a year. He took some orders, but his most treacherous deal was a treacherous one when he is believed to have murdered on Friday night, cutting off the head and burying the body in the cellar, under a pile of potatoes.

The head, roughly chopped off, he used in a bag, which was covered over with a bucket.

The middle of last week, Stanley announced to David Fisher, a poor farmer who offered him board for \$2 per week, that he had bought Freeman Harvie's place, a few hundred yards distant, and that he wanted him to go and live on it and work it for \$400 a year, when the story to explain the old man's absence, saying that he had gone to Halifax to get the necessary legal papers.

Friday evening Stanley came to his landlady and said he wanted to borrow a knife to do a little job. They gave him the knife and it is believed he used it to

USED MEN AT THE OFFICE WOMEN IN THE HOME CHILDREN AT SCHOOL

Every day in the week and every week in the year men, women and children feel all used up and tired out.

The strain of business, the cares of home and social life and the task of study cause terrible suffering from heart and nerve troubles. The efforts put forth to keep up to the modern "high pressure" mode of life in this age soon wears out the strongest system, shatters the nerves and weakens the heart.

Thousands find life a burden and others an early grave. The strain on the system causes nervousness, palpitation of the heart, nervous prostration, sleeplessness, faint and dizzy spells, skip beats, weak and irregular pulse, moaning and sinking spells, etc. The blood becomes weak and watery and eventually causes death.

Milburn's Heart and Nerve Pills

are indicated for all diseases arising from a weak and debilitated condition of the heart or of the nerve centres. Mrs. Thos. Hall, Keldon, Ont., writes: "For the past two or three years I have been troubled with nervousness and heart failure, and the doctors failed to give me any relief. I decided at last to give Milburn's Heart and Nerve Pills a trial, and I would not now be without them if they cost twice as much. I have recommended them to my neighbors and friends."

EDWARD COLE IN FOR LIFE

Albert County Man Who Killed His Chum in Maine Gets the Limit of the Law.

Portland, Me., Feb. 5.—Imprisonment for his natural life in the state prison at Thomaston was the sentence given Edward P. Cole, aged 24, of Rockland, for the murder of John Frank Steves, of Ellsworth (N.B.), by Judge Percival Hillebrand in the Superior Court here today. Cole's counsel announced during the day there would be no motion for a new trial.

Later Cole was brought into court and at 2:30 p. m. was sentenced. Before the sentence was read, Cole, in reply to Judge Hillebrand's question, if he had anything to say in his defence, said: "No, sir; not a word."

He will be taken to Thomaston tomorrow morning, probably on the 7 o'clock train.

Cole was found guilty in one hour and fifty minutes by a jury one week ago last Saturday, after a six-day trial. This was his second trial, the jury failing to agree at the previous one. Steves' body was found in the woods at Palmouth, April 23, 1905, with the skull fractured and the throat cut. He had been about twenty days.

BAXTER GOES TO PORTLAND

Big Police Sergeant a Witness in Red Beach Burglary Case.

Sergeant George Baxter, of the police force, left last evening for Portland (Me.) to give evidence at the trial of the Red Beach burglar suspects arrested here by him and Policeman William White.

More than ordinary interest is attached to the trip of the sergeant because there seems to be some doubt cast upon his and Policeman White's claim to the rewards offered for the apprehension of the men Ashton and Phelps. This doubt has not arisen in this province but in Maine and the friends of Deputy Sheriff Phinney are reported eager in their support of his right to the rewards.

It seems that the telegram sent to St. John noting the departure and probable movements of the fleeing criminals came from Deputy Phinney. The police have no doubt he sent similar telegrams to other places and that officers in different sections were stimulated to additional effort by the offer of the several rewards.

Sergeant George Baxter and Policeman White were fortunate enough to detect the escaping criminals and still more fortunate in being able to arrest them and their courage and quickness, it is held, probably saved another section of country from that kind of terrorism which has followed the course of one of the numbers.

Now the officers in this province are wondering what is the meaning of rewards for the apprehension of prisoners if those who take their lives in their hands to do more than their ordinary duty are not entitled to what is really their share.

 George D. Burton, Boston, Mass.
 Frank W. Gilford, Fairfield, Me.

This Company has power under its charter to Electrically or otherwise un-hair, tan, dye, wash, cleanse, bleach and otherwise treat Animal Furs, Hides, Skins, Textile and Porous Substances.

SOLE AND EXCLUSIVE RIGHTS
 The Company owns and controls all patents covering these new methods in Canada, Newfoundland and British West Indies.

THE CANADIAN ELECTRICAL PROCESS COMPANY, LIMITED, incorporated at Halifax, shall be the parent or holding Company, and encourage the formation of Subsidiary Companies throughout the Dominion of Canada and Newfoundland to operate one or more branches of the business which the parent Company under its patents controls. These Companies will be licensed to carry on various processes covered by the patents; a royalty or bonus in cash and

shares for the exclusive right to operate within a given territory under any one or more of said patented methods, arts or processes.

UP-TO-DATE ELECTRICAL TANNERY
 The Company will build, equip, and operate a thoroughly up-to-date tannery for the manufacture of leather by these processes, the advantages of which will be shown in the course of this statement.

PROCESS FULLY DEMONSTRATED
 The Company HAS HAD IN OPERATION at Halifax for some months, a demonstrating plant to illustrate the various processes, methods and inventions of unhairing, washing, dyeing, tanning and otherwise treating hides, skins and pelts. A number of leather merchants and prominent Nova Scotia boot and shoe manufacturers visited this plant and placed private marks upon certain hides, and noted the hour they were placed in the electric tanning tank, for the purpose of verifying the claims of the Company in the matter of time and labor saving, and the quality of leather produced. Their opinions are submitted in affidavits which may be seen on application.

ECONOMIES OF ELECTRICAL PROCESS
 Any ordinary tanning proposition is a good one today. But this one offered by the CANADIAN ELECTRICAL PROCESS COMPANY, LIMITED, is rendered particularly good by the amount of time, labor, space, power and interest charges saved by the electrical tanning process, not to mention the superior grade of leather which it produces, thus ensuring higher prices for the output.

RAPID RESULTS OF PROCESS
 The process which the Company uses for unhairing and tanning are distinct inventions under separate patents BY THIS COMPANY'S NEW ELECTRICAL PROCESS THE LIGHTER SKINS ARE UN-

HAIRIED IN FROM THREE TO FOUR HOURS, AND THE HEAVIER SKINS IN TEN TO TWELVE.

The ordinary method of tanning heavy hides by bark or extract tannage consumes from three to six months, and for lighter skins from three to six weeks. BY THIS COMPANY'S NEW ELECTRICAL PROCESS THE LIGHTER SKINS ARE TANNED IN FROM FOUR TO SIX DAYS, AND THE HEAVIER HIDES IN TWENTY-FOUR DAYS OR LESS.

FURTHER SOURCES OF LARGE EARNINGS
 The Company also feels assured that owing to the great earning powers of this parent Company through its prospective holdings of shares in the Subsidiary Companies that will be formed throughout the Dominion of Canada and Newfoundland, to operate under the various rights of the Company, and through its own operations, which in time are sure to be extended, it will in the course of a few years be in receipt of greatly increased earnings from these sources.

BUSINESS MEN INTERESTED
 From the above facts investors may feel sure that money may be profitably and easily invested in this enterprise; and also be assured by the names of the men who have undertaken the promotion. They have invested in it after having convinced themselves that the process is all that is claimed for it. And, having given it a thorough test at the demonstrating plant referred to, are able to recommend it to the public with confidence.

THE PRACTICAL MANAGEMENT
 The practical management of the enterprise will be entrusted to an experienced man. The Company has made arrangements to obtain the services of one who has given the tanning industry and

electricity as applied to tanning under this Company's patents, the closest study, and who will also be interested as a shareholder in the Company, thus ensuring his very best efforts.

THE PROPOSITION
 The Canadian Electrical Process Company, Limited, has been incorporated to carry on the above objects with an authorized capital of \$500,000, divided into 5,000 shares of \$100 each per. 1,150 shares of the Capital stock will be 7 P. C. cumulative preferred, and 3,850 will rank as common shares.

Under an agreement with the patentee, this Company becomes owner of the patents above referred to, for Canada, Newfoundland and the British West Indies, for the sum of \$40,000 in cash and 3,000 shares of the common stock of the Company.

THE COMPANY OFFERS FOR PUBLIC SUBSCRIPTION 1,000 SHARES OF 7 P. C. CUMULATIVE PREFERENCE STOCK AT PAR. 150 shares have been subscribed, allotted and paid for and the balance of the sum realized from the sale of said shares less the usual commission, shall be used for the erection, equipment and operation of a modern tannery in which electrical methods will be used.

Preference shares will be entitled to a priority of earnings to the extent of 7 P. C. annually and such dividends shall be cumulative. These preference shares shall also rank ahead of the common stock of the Company as respects its property and assets. A further advantage offered to holders of preference stock, is the right to participate equally with holders of common stock, in excess profits over and above that required to pay a dividend of

7 P. C. annually on both classes of shares.

Further, the preferred stock of the Company shall not be increased without the consent of the majority of the preferred shares. In the event of the preferred stock of the Company being increased, holders of present preferred stock shall have the prior right to subscribe for them, proceeds turned over to the patentee on account of purchase price. From the sale of the 1,000 shares of preferred stock \$25,000 will be applied to the final payment of the sum due under the agreement. The

TERMS OF SUBSCRIPTION
 Application for shares must be accompanied by 25 P. C. of the value applied for. 25 P. C. more is payable 30 days after allotment and the balance, or 50 P. C. within 90 days after allotment. Due notice of allotment will be given and all payments are to be made to the

EMPIRE TRUST CO., HALIFAX, N. S.
 which is authorized to issue interim receipts to be exchanged later for stock certificates. Applications will also be received by any branch of the Royal Bank of Canada or the Union Bank of Halifax, and the same will be forwarded to the Empire Trust Company free of charge. Remittances may be made by cheque, post office or express order. The Company reserves the right to reject all or any part of the subscriptions which may be received.

SMALL SUBSCRIPTIONS WELCOMED
 Subscribers for one share are promised the same consideration and courtesy as those for a larger number, and investors of moderate sums are heartily invited to co-operate with the company in what is sure to prove a permanent and profitable investment.
