Confidence In Hertzog Low

South African Premier's Prestige Shaken at Home by Course at Farley

By HERBERT BAILEY British United Press LONDON, Nov. 9.—"I feel like a stranger in a strange land," the remark is attributed to Premier Hertzog, who is being severely criticized by a section of the South African press for what is called poor tactics in refusing to participate in the social functions arranged in connection with the Imperial Conference, and the isolation in which he lives in London, which is relieved only by a small circle of his Dutch friends.

PRESTIGE DECLINES

South Africans in London say that Premier Hertzog's prestige is declining rapidly in South Africa, because he is neither satisfying the aspirations of the Nationalists nor meeting the wishes of the Empire Loyalists, and his efforts have been frustrated to the Conference by the insistence of other Dominion representatives that the growth of Empire shall proceed along traditional lines of natural growth rather than a written constitution.

IMPRESSED WITH FACTS

Premier Hertzog has a constitutional mind and finds that he is unable to accommodate his outlook to that of freedom of vision which Mackenzie King, Bruce and Coates enjoy. Premier Hertzog has also been impressed by the marshalling of facts by British foreign and Dominion office experts showing him why an independent South Africa would count for little in the affairs of the world, while it would be exposed to the greatest dangers, and why, on the other hand, a South Africa within the Empire would enjoy prestige, power and independence.

COMMON MOTIONS HEARD AT CAPITAL

The union awarded the following medals for the winter dates for which will be selected later: International Outdoor, Saranac, Lake N. Y.; International Indoor, Pittsburgh; National Outdoor, Detroit; National Indoor, Chicago; Canadian Championships, Quebec.

ADDRESSES MADE

Presentation Made by Dr. F. R. Taylor With Hon. H. A. McKeown Taking Part

Special to The Times-Star FREDERICTON, Nov. 9.—In the presence of some 50 members of the bar, including Dr. F. R. Taylor, president of the Barristers' Society, and Hon. J. B. M. Baxter, Premier and Attorney General, and of all members of the Appeal Court and several members of the Court of King's Bench, a portrait of Sir Douglas Hazen, Chief Justice of New Brunswick, was presented to the court and unveiled, permission to hang it upon the walls of the court room having been given. The portrait will be placed with the others, the line being unbroken since the time of Chief Justice Ludlow, 140 years ago with the exception of portraits of Chief Justices Saunders and Bliss.

EFFORT MADE TO SETTLE CONTROVERSIES ON MARIE'S TRIP

GREAT FALLS, Mont., Nov. 9.—Queen Marie took reluctant action yesterday to bring to an end the controversy and row which marked her tour of the Pacific Northwest during the last few days.

A member of her party announced that she had consented to an arrangement whereby Miss Lole Fuller, former dancer and friend of the Queen, and Miss Fuller's press agent, Miss May Birkhead, will leave the train within a few days.

SIR DOUGLAS REPLIES

After the addresses of Dr. Taylor and Hon. Mr. McKeown, Sir Douglas expressed his appreciation of the honor done him and of the support and courtesy which he had received from the bar since election to the Bench.

The portrait, which is slightly larger than the others on the walls of the court room, is a very good likeness of the Chief Justice, and is most interestingly stated regarding his judicial robes.

JUDGES PRESENT

The judges' seats on the Bench were occupied by Chief Justice Hazen, Mr. Justice White, Mr. Justice Grimes, Chief Justice Barry, Mr. Justice Byrne and Hon. H. A. McKeown. All the barristers' seats were filled.

CRIME INTENT BROADLY HINTED STE. ANNE FIRE

Reports Similar to Those Following 1922 Disaster Are Revived

NO CAUSE YET

Confagration Will Not Affect Pilgrimages, It Is Announced

Canadian Press STE. ANNE DE BEAUPRE, Que., Nov. 9.—The rumors which were afloat following the destruction of the shrine of Ste. Anne in 1922, and which broadly hinted at criminal influences being responsible for that conflagration, have been revived here in connection with the latest disaster to the famous sanctuary. Up to the present, no cause has been assigned as to the origin of the fire, and no report has yet been made by the police or by the Redemptorist Fathers, the custodians of the shrine.

MEET ALL CHARGES

Bank of France Buys Sufficient Foreign Exchange

PARIS, Nov. 9.—The Bank of France, acting for the French treasury, has bought sufficient foreign exchange to meet all payments of the government abroad during 1927, which will run considerably beyond the equivalent of \$100,000,000.

More than half will go in interest and sinking funds on the bonded debt held by individuals abroad, and \$80,000,000 in an installment debt payment to the Washington treasury, assuming that the Benger-Mellon settlement is ratified by both sides. Most of the remainder will go to the British government.

TREATY ABROGATION

China's Action Becomes of World-Wide Importance

LONDON, Nov. 9.—China has not a legal leg to stand on in its dramatic abrogation of the treaty of 1865, with Belgium, according to British opinion. It is believed that no court would uphold Peking's action in denouncing the treaty and stating that it would conclude no new treaty except on terms of equality, but it is likewise admitted to be difficult to pin the ever-changing Chinese situation down to technicalities. The view taken generally in Downing street is that while Peking's action tends to push the problem of China's foreign relations to the fore, there is no fear that the "Peking government" intends to mete similar treatment to other western powers who also have treaties with China.

FORT WORTH, Texas, Nov. 9.—Suit asking \$150,000 damages because he has been deprived of maintenance, education and support by the death of his father, was filed in district court here yesterday against the Rev. J. Frank Norris, fundamentalist Baptist preacher, on behalf of Elliott Chipps, 14, son of D. E. Chipps, whom Norris is charged with having shot and killed here last July.

PROTESTS SPEECH

Jugo-Slavia Minister's Remarks About Italy Being Checked up

BELGRADE, Jugo-Slavia, Nov. 9.—The Italian minister today made vigorous protest to the foreign office for a public speech in which Stefan Raditch, Minister of Education, is alleged to have called Premier Mussolini "an irresponsible fool" and to have declared that the "Italian people are gagged and enslaved."

EXPRESSES REGRET

Mussolini Sends Note to French Over Recent Riots

PARIS, Nov. 9.—Formal written expressions of regret for the anti-French incidents at Ventimiglia and Benghazi were handed to the French ambassador in Rome today by Premier Mussolini in the form of an "aide memoire." The French Foreign Office announces that, in view of this action and the satisfactory nature of Foreign Minister Briand's talk with the Italian ambassador in Paris yesterday, the government considers the incidents "closed." This visibly eases the situation between Paris and Rome, as the Riedotti Garibaldi affair, involving anti-Fascist activities on the Riviera, and the participation of Italians in the recent unsuccessful catan plot in French soil are considered purely police matters.

ROYAL PARTY SWARMED.

An Antwerp, where the Princess made her first landing on Belgian soil, the order of her new countrymen could not be dampened, and the Princess at times needed the vigorous elbow work of her husband and King Albert to extricate her from the welcoming throng.

On that occasion, a blaze erupted on the exterior wall of the temporary church, above the place where there was no contact with electric wires, and where humidity was high. It was extinguished by the fire department, but it was not infrequently to an extent.

TO CONTINUE WORK

Numerous messages of sympathy have been pouring in to Mr. Leclercq, superior of the Redemptorist Order here, from all over the world, and they have a chapel in the Hotel Lorraine, said Father Journault to a Canadian Press representative last night.

The fire will not affect the pilgrimages, said Father Journault, and next spring will be securely installed.

Whether they will construct another temporary shrine or not, had not been decided yet, but it is understood that the order will either construct a chapel in the Hotel Lorraine, or they will hasten the completion of a new church.

ITALY'S NEW LOAN

Final Effort to Stabilize National Economic Life

ROME, Italy, Nov. 9.—Italy's proposed flotation of a national loan to the amount of \$7,500,000,000 (approximately \$1,108,500,000) is intended to provide a breathing space between the initial and final victory in the nation's struggle to restore the value of the currency and place the national economic life on a sound basis. This is the view in official and financial circles, and the government is confident that all classes will accept the new measures in a co-operative spirit.

CONTROVERSIAL MEASURES DUE FOR HEARINGS

Autumn Sitting Promises to be Busy Until Christmas

STRIKE BILL UP

Peace Negotiations Off Until After Miners' Delegates Confer Tomorrow

Canadian Press LONDON, Nov. 9.—The autumn session of Parliament opening today promises to be an exceptionally busy one until the Christmas. Several measures of a highly controversial nature will come up for discussion.

The Conservatives have been hoping to pass a bill which would prevent any strike or lock-out without preliminary compulsory arbitration, but the programme is so full that it is now thought the bill has no chance of getting beyond the stage of introduction.

It is likely that some parliamentary action may be necessary in connection with the coal strike.

LOOK TO PARLIAMENT.

It is hoped in all quarters that any action taken by parliament will be toward a settlement of the controversy.

The prolonged discussions over the strike situation with the government will not be renewed until after the conference of the miners' delegate tomorrow. Hope is expressed that at this conference some agreement will be reached leading to peace between the miners and mine owners.

Lloyd George in Chair For Liberal Meeting

LONDON, Nov. 9.—The special meeting yesterday of the Liberal party was held with David Lloyd George presiding.

Sir Robert Hutchison was appointed chief whip in succession to Sir Godfrey Collins, who was appointed by Lord Oxford, and who opposed Mr. Lloyd George's election as leader of the party in the House of Commons. A feature of the meeting was that the whip was elected by the party as a whole instead of being chosen by the party leader as formerly. Notable absentees from the meeting were Sir John Simon, Walter Hume, and Sir Godfrey Collins.

Crown Prince Leopold's Bride Given Wonderful Reception As She Steps On Belgian Soil

BRUSSELS, Nov. 9.—Princess Astrid of Sweden, now the Duchess of Brabant and bride of Crown Prince Leopold of Belgium, yesterday was taken to the heart of the Belgian people with stirring enthusiasm that at times threatened to overwhelm her and her royal protectors.

Although her coming into the land over which she may some day rule as queen, was under heaven, weeping after the actor of her new countrymen could not be dampened, and the Princess at times needed the vigorous elbow work of her husband and King Albert to extricate her from the welcoming throng.

The fire of Monday morning seemed to have broken out on the exterior wall of the temporary church, above the place where there was no contact with electric wires, and where humidity was high. It was extinguished by the fire department, but it was not infrequently to an extent.

YE MASTER MARINERS

(United Empire.)

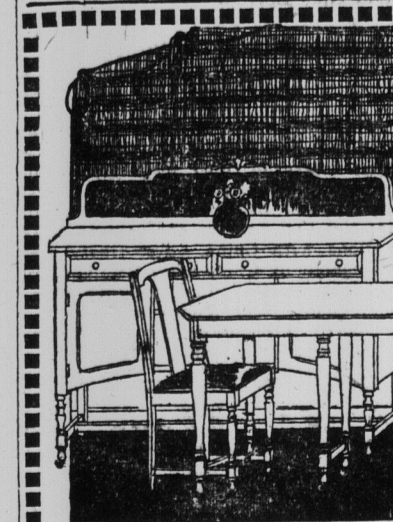

The announcement that a hundred men of the British merchant service have formed and registered the Company of Master Mariners will for most people not be wholly lacking in the element of surprise. What we owe to the mercantile marine is written in nearly every chapter of our history, and is always to be found between the lines of that history if not specifically mentioned. What its members did in the war is fresh in the least retentive of memories. "Honorable tradition is one of the strongest elements in national life," says the circular in which the aims and objects of the company are explained, and its formation would be justified if it did not more than remind the Empire of the tradition of the mercantile marine.

New York Youths Held For Theft of \$45,000

NEW YORK, Nov. 8.—Charged with stealing upwards of \$45,000 from the Bowers Savings Bank, two young bank tellers are lodged in Tombs prison, one of them badly cut about the face and hands, as the result of an attempt to jump through a seventh floor window while being questioned at the district attorney's office. The tellers, C. Russell Morton, of New Rochelle, and Clarence Oliver, of Brooklyn, are said to have confessed to stealing the money to bet on horse races.

RADIO COAL VERY POPULAR

Not for many a day has better hard coal been offered the public than the Consumers Coal Co., Limited, are offering this fall and coming winter. The coal they offer is American Anthracite, but of the highest grade only and for that reason they have given it the distinctive trade name of Radio, so as to assist their customers in buying. The Consumers Company have been specializing in Radio coal for years, and are constantly trying to improve quality service and preparation. Cheats and furnace sizes are well up to standard in size. Questioned about Welsh coal, they said it was very unlikely that any would arrive before the first of the year if at all during the winter.

Overcoats

There's a real knack in tailoring a fine overcoat— It must start with fabric that are warm yet smart, stylish yet serviceable. The design must ensure its hanging front the shoulders so true, so easy, that walking is a delight.

It must have tailoring so good that it fits graceful lines will last as long as the sturdy fabric of which it is made.

20th Century and our other Overcoats are that sort. They are a joy to own and wear. They are so exceptionally good that this season we are prepared to see more of them than ever before.

Right now is the very best time to come in and look them over.

AUTO VOLLEYS KILL 2 AT HERRIN, HURT 1

Machine Guns Are Believed Used in Attack; Police Chief Injured

HERRIN, Ill., Nov. 7.—Volleys fired from three automobiles on a State concrete highway, a short distance from Colp, near here, last night brought death to Mayor Jeff Stone, 51, and John Milroy, 21, a boxer friend, and resulted in injuries to Police Chief Keith. Machine guns are believed to have been used in the attack.

Stone and Milroy were struck down as they stood in front of the roadhouse of Pete Salmo, and Keith was shot in the hand as he started to run from the place after the unidentified assailants are said to have told him that they did not "want" him. After the shooting the party of gunmen drove off in the direction of Caterville.

Reports were current here today that Charles Birger, gang leader, had sworn vengeance on Stone for his political activities in last week's election because Stone had not supported the Republican ticket. Stone was recognized as a political leader.

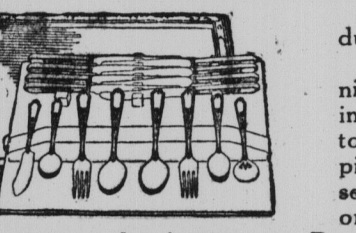

The mayor was exonerated the past summer of the murder of former Police Chief Freeman, when testimony was presented that Stone had fired in self-defense when the two men wrangled over conduct of the city government.

From far Italy comes this letter of gratitude for the more modern type of embalming service brought to Saint John by Frank W. Morris, 81 Princess St.—

"On opening that fine casket we were so relieved and comforted by the sight of our dear brother, just as though he had closed his eyes the minute before instead of months ago. The bloom of health and youth restored, all traces of pain gone—a last look at his father, as he really was, brought back to his little sons and his relatives. We all marvelled at this new kind of embalming and were most touched. We are so thankful for the many ways you have given us comfort."

ARMISTICE MILITARY BALL IN ARMORIES IS A BRILLIANT AFFAIR

Delightful in every detail was the Armistice military ball held in the Armories last evening, which proved to be one of the most largely attended as well as one of the most enjoyable and brilliant of the social functions of the season.

At one end of the hall a marquee provided ample and comfortable accommodation for "sitting out" and the gaily decorated bandstand was, as usual, in prominent position in the centre of the hall, from where the Fullerton Band provided excellent music.

A delicious supper was served downstairs between 11 and 12, while "extra" dance numbers were played by an orchestra of officers.

Among the many present were: Hon. L. P. D. Tilley and Mrs. Tilley, wearing black panne velvet with rhinestone trimmings and diamond tiara in her hair.

TUBERCULOSIS

LIFE insurance companies believe it to be good business to spend money in a campaign to destroy tuberculosis. Communities should be not less eager to have the disease stamped out.

Northern Ontario has been touched by a group of professional and financial men, who have returned very much impressed by the development going on in that region. The mining industry explains the activity. It causes the expenditure of large sums of money, the rise of small towns, and the development of farms to supply those towns with produce.

Mr. Thomas Robb, for twenty-three years General Manager and Secretary of the Shipping Federation of Canada, whose death occurred last night, was a strong advocate of increased shipping facilities at the port of Saint John. He saw a prosperous future for this port, if the facilities were provided. Mr. Robb was very widely known and highly esteemed in the shipping world, and his service during the war received special recognition.

On Saturday reference was made in this paper to the death of Mr. John T. O'Brien, and the loss to the port of Saint John. He was a well-known and successful business man, and his death is a great loss to the community in which he lived.

News and Views From The British Capital

LONDON, October 21, 1925.—Mr. James Bone's "The Perambulator in London," illustrated by his brother Muribred Bone, has graduated amongst the best sellers. And now comes another volume, "The Perambulator in Edinburgh," by the same curiously gifted author.

We learn also from the News Bulletin that a new Boys' Club, which will accommodate 5,000 boys and cost \$140,000, is being erected in Chicago. The Boys' Club Federation is now conducting in New York a course of six weeks of intensive study for workers with boys, and the teachers are experts in all lines of boys' work.

It is worth while to take note of what other cities are doing for the benefit of boys who need just such direction as boys' clubs provide.

Queer Quirks of Nature

NATURE CARVES THEM INTO STRANGE SHAPES

Iceberg Architecture

By ARTHUR N. PACK
ICEBERGS frequently are carved into fantastic shapes by the action of wind and water, and many tales are told by seafaring men of the curious pictures presented in some of the icebergs.

The steamer in the background is one of the vessels of the United States coast guard, on ice-patrol duty. Merchant steamers would give this berg a wide berth, once sighting it.

Poems I Love

By CHAS. HANSON TOWNE
"The Old Woman of the Roads," by

MR. COLUIN is one of the best of modern Irish poets. Drenched with Gaelic ardor, steeped in the folklore of Ireland, and with a supreme lyric gift, he is well equipped to interpret those tragic-gay people he knows so well.

Oh, to have a little house!
To own the hearth and stool and all
The heaped-up sods before the fire,
The pile of turf again! the wall!

To have a clock with weights and chains,
And pendulum swinging up and down!
A dresser filled, with shining delf,
Speckled with white and blue and brown!

I could be busy all the day
Cleaning and sweeping hearth and floor,
And fixing on their shelf again
My white and blue and speckled store!

I could be quiet there at night
Beside the fire, and by myself,
Sure of a bed and loath to leave
The ticking clock and shining delf.

Oh! but I'm weary of mist and dark,
And there's never there's never a brown!
And tired I am of bog and road,
And the crying wind and the lone-
some hush.

And I am praying to God on high,
And I'm praying him night and day,
For a little house—a house of my
own—
Out of the wind's and rain's way.

After Dinner Stories

THE manager of a factory was giving instructions to the young salesman who was starting on his initial trip. As the young man picked up his bag the chief said: "Good luck to you; write us important news."

The following day this message was received at the office: "Reached here safely. Good room with bath; feeling fine."
The manager wired back: "So glad; love and kisses; good-bye."

Odds and Ends

The Speediest Animals
A list of the speediest animals in the world has lately been made. Here it is: the greyhound, race horse, prong-horned antelope, hare, Texas jack-rabbit, common fox, coyote, bobcat, and grey wolf. The greyhound, the fastest of the lot, can travel for a short distance at the rate of 30 miles an hour. But none of these animals can keep that speed for any length of time. These records were calculated by means of a stop watch by noting the number of such animals made in a certain time. Then the length of the leap was measured.

Our Sense of Humor
Being kicked by a male is looked upon as a good joke by those who haven't been kicked. Sea-sickness always raises a smile upon the faces of those safe on land. And one of the famous Greek tragedies is never successful when given before a modern audience because the wife kills her husband with an axe and a man dies as a consequence considered a subject for uproarious mirth by moderns. The funniest thing in the world is our sense of humor.

More Globe Wheelers
Edmund Gosse's Journal "The World" motor cyclist, approach America. Already they have traveled from Paris to Peking. They have conquered the steep, tortuous passes and the intense cold of the Ural mountains, and have overcome the hazards of the roadless tundras of central Asia. They will cross the Pacific by a Seattle steamer line.

How Fathers Forget
(Dundalk Herald)
And now, as Halloween approacheth, we hear so many stories of clever stunts of the good old days that we wonder that "boys" who cut up capers then won't stand for "any such nonsense" by the rising generation. Age changes a man's ideas so.

A Three-ply Tie
(Border Cities Star)
Crown Prince Leopold of Belgium and Princess Astrid of Sweden will be spotted in their wedding ceremonies, civil, Protestant and Catholic. That ought to hold 'em, ought it not?

Keep up Burbank's Work
(Edmonton Journal)
A movement to establish a million-dollar Luther Burbank foundation to carry on the work of the famous plant culturist, who died recently, has been started.

Always on the Job
(Cincinnati Enquirer)
A little shine on her nose now worries daughter almost as much as a lot of dust on the furniture used to worry her mother.

They Never Come Back
(N. Y. Herald-Tribune)
Bread cast on the waters will return after many days. Would the same thing were true of golf balls.

Good Eating
(Philadelphia Inquirer)
Our idea of a well-balanced diet is one that contains 90 per cent. of the things we like.

Timely Views On World Topics

WHAT FASCISM HAS DONE AND INTENDS TO DO

By BENITO MUSSOLINI, Premier of Italy, in a Speech.

THE Fascist regime has established itself during the past year as an impregnable structure. In present times the life of individuals and of peoples is a little too fast, and it is necessary today to arrest it briefly, like a halt during a march, just long enough to review the work accomplished in the course of one year.

Here is a group of laws which has imposed, in the political realm, fundamental changes have been realized, conforming to our own doctrine, notably, the creation of a National Institute for Exports and Imports, the creation of a National Institute for the Protection of Motherhood and Infants.

The coup de grace was dealt to semi-feudalism by extending the power of the Provincial Prefects and the establishment of Podestats in villages and towns.

The first civilian air forces are growing through Italian skies and will be increased. I do not exaggerate if I say that today the whole armed forces of the nation are at their highest point of efficiency with regard to morale, discipline and preparedness.

In the domain of social and economic activities, the work of Fascism has been redeeming. The Fascist system gave to Italy in three months a law on the rights of authorship to literary men and artists, after they had vainly tried to obtain it for thirty years. We have created provincial and national economic councils and the National Institute for Exports and Imports and scientific bodies for the development of our national resources.

Now, after thirty years of debate, we have accomplished unification of banks of emission into one bank, an essential reform.

We are enlarging and utilizing the Ports of Genoa, Leghorn, Civitavecchia, Naples, Palermo, Catania, Cagliari, Bari, Ancona, Ravenna, Venice, Trieste and Fiume. The Italian merchant marine by pure pluck has won second place in Europe's mercantile fleet and fourth rank in the world's tonnage.

We have also organized systematic exploration of our soil to determine the existence of iron and petroleum. The work of reclamation continues actively. The Pontine marshes, which for 2,000 years awaited reclamation, are soon to be a salubrious and fertile zone, traversed by a direct Rome to Naples railway, which will be opened to traffic next year.

In the field, the farmers enlisted by Fascism with enthusiasm have won the battle of grain, producing 60,000,000 quintals, which demonstrates that victory is possible and will be attained.

POVERTY may be a blessing in disguise, but the disguise is perfect.

GARIBALDI INQUIRY SLOWED UP BY CODE FOUND IN NICE HOME

Accused of Being in Plot to Separate Catalonia From Spain

PARIS, Nov. 8.—Ricciotti Garibaldi, member of Italy's noted family, will within a few days probably have to face Col. Macis, leader of the conspiracy for the separation of Catalonia from Spain which was exposed by French police.

TO SLOW UP INQUIRY.

In the meantime the examination of Garibaldi will be slowed up in order to permit the translators to decipher a code found in his villa in Nice. Ricciotti had a short interview with his wife this morning, after which he obtained permission from the Ministry of the Interior to have luncheon outside the gloomy surroundings of France's police squares.

A radiogram was received there from Captain Rose, of the Valkyrie, reporting the Valkyrie lost and "crew saved except two."

The Middle-Aged Man Whose Wife Has Ceased to Thrill Him—Can a Desirable Woman Love More Than One Man in a Lifetime?—What Should a Young Man of Seventeen Talk to Girls About?

DEAR MISS DIX—I find that, having been married thirty years, I no longer feel toward my wife as I did in the first years of our married life. It does not thrill me to kiss her. In fact, kissing her has just got to be a habit, and I give her only a hurried peck on the cheek as I leave in the morning and return at night. On the other hand, I get a decided kick out of the companionship of other women. I am well thought of in the community and would not like to get the reputation of being a philanderer. What would you advise me to do? A TROUBLED MAN.

ANSWER: The best way to keep a good reputation is to deserve it, Mr. Man. You needn't worry about what people are saying about you behind your back if there is nothing they can tell that is to your discredit. So my advice to you is to keep in the middle of the road and forget all about kicks and thrills and wild women, which come high in a middle-aged man indulges himself in them.

And don't imagine that you have ceased to love your wife because you no longer have palpitation of the heart at the sound of her footstep and grow cold at her touch. That hectic chill-and-fever stage belongs to courtship. It is merely symptomatic and indicates a condition that may result in a genius case or love from which the patient may recover with no serious consequences whatever.

Nor need you be unduly alarmed because you no longer thrill at your wife's kisses. There is a strict time limit on thrills. They never last more than a quarter of a second, hence it is impossible that they should be dragged over thirty years.

Moreover, habit is death to thrills, and the assinine custom married people have of bestowing perfunctory kisses on each other every time they meet and part has taken the last vestige of pep out of the domestic kiss.

If married people had enough taste and discrimination to cut out the morning ham-and-egg osculation, which the man gives with his mind filled with catching his train and the woman receives with her thoughts occupied with what she will order for the road and if they would only kiss when they felt an especial rush of tenderness for each other, their kisses would still have warmth and flavor to them instead of being as flabby and tasteless as a cold buckwheat cake.

Of course you don't feel toward your wife as you did when you married her. She no longer is a bundle of surprises to you. You know her every mode and tense, and you can tell with mathematical exactness what she will do under any given circumstances.

But do you ever think how comforting that is, and how sustaining to know that there is one human being on whose loyalty and devotion you can absolutely depend?

You complain that you no longer feel like making love to her. Of course, you don't. You don't need to do so. Words are poor things between a couple who have been married thirty years. They don't need to be told that they are loved if they are loved, and if there is no love between them neither one can deceive the other.

Besides, who could stand thirty years of goose love-making? You might as well try to live on lollipops for that length of time.

Many middle-aged men make the terrible mistake of thinking they have ceased to love their wives because they are short on thrills and shy on romance.

They forget that the real test of a happy marriage is for the husband and wife to grow so much together and become so completely one that they lose consciousness of each other. You don't thrill over your right hand, but you are married for life if you lose it.

So be a good boy, Mr. Man, and quit hunting thrills. For what you will find is trouble. Perhaps there is not a great deal of pep in being a good and faithful husband, but there is lots of peace and happiness, and that is what you need.

DEAR MISS DIX—The other night a lot of us were discussing this question: "Can a desirable woman love more than one man in a lifetime?" We could not agree, and we decided to put the question up to you.

ANSWER: It depends upon the woman. There are some women who are one-man women and who love but one. They give everything that is in them of heart and soul to one man and have nothing left to give another. Forever after they are spiritually bankrupt.

But the women who are capable of this grand passion are few and far between, and even these few do not always find the man who can fall for them in all their powers of loving, so they often fritter away their hearts in a series of lesser loves.

The great majority of women can and do love many times. Indeed, one may say that the feminine heart is as adhesive as a porous plaster and can attach itself to almost anything masculine that is handy. As witness the kind of men that women care enough to marry.

If women ever died of broken hearts because of their lost loves, or went into a green and yellow melancholy on account of some faithless swain who kissed and rode away, those days are gone forever. The modern woman merely transplants her affections and wreathes them around another neck.

And she is just as fond of Jim as she used to be of Joe. Who is this strange? Few of us are ever fortunate enough to find any one individual who meets all of our needs, and so we love different people for different traits of character that they possess.

Thus it happens that a woman can sincerely love a man because he is good and kind and dependable, even if he is a trifle stodgy mentally, and if he dies, or she loses him, she can love equally well another man who is brilliant and gay and entertaining, and as variable and no more to be depended upon than the wind, and who brings her white hyacinths instead of feeding her on beetles.

Oh, yes, women can love more than once. They can love as often as the occasion demands. And they can love almost anything. In fact, the feminine motto is pretty much that of the old Florida sextet who used to sing, "I Must Love Somebody, and It Might As Well Be You."

DEAR MISS DIX—I am a young boy of 17, just beginning to step out with the girls, and I don't know what to say to them. What should I talk to them about?

ANSWER: There isn't any line of canned conversation that I can give you, son. Talk has to be cooked up on the spot and served piping hot off the griddle.

There are no people in the world so tiresome as those who have a set line of conversation that they hand out on all occasions, or who memorize jokes out of the funny papers, and recite them verbatim. And the professional story-teller is also anathema.

If you will forget yourself and not try to be entertaining, and just talk to girls as simply and naturally as you would to boys, you will find that you are interesting them.

No gabble along about whatever you are doing at the time—your school and games and parties, and don't try to be grown up and high-browed.

Generally speaking, everybody is interested in their own affairs, and girls like to be talked about themselves. Talk to them about anything and everything except love. That is one subject that you should not discuss with any girl for the next five years.

Stately Note Is Struck In Evening Creations

By MME. LISBETH. The stately note has not been neglected in the present day flare for frivolous clothes. It is accentuated in the three garments of lustrous velvet pictured. At the left is an evening wrap that has more than a suggestion of old-time modes. It is a loose cape of beige velvet on very simple lines with dolman sleeves, the fullness being caught up into finely shirred ribs behind the cuffs and at the shoulders. A mantle of lace in the same tone develops a hooded cape and edges the garment to the hemline. Cuffs and bottom are edged with fur in the same shade of beige. An interesting evening wrap in one collection was developed in pepper-mint green Salome velvet with a gray fox collar lined with chartreuse colored metal cloth. It had large flowing sleeves embroidered in an applied design of varicolored metal cloth, the figures of which were outlined in gold thread. An evening ensemble in delightful fabric combination was seen, the dress fashioned of an imported gold metal tissue which was very light in weight. It was made with a surplice top front and back, which crossed at the neckline, the ends falling at the side in a soft, full drape to below the skirt hem. In the wrap fabric bands of diaphanous black velvet in graduated widths alternated with bands of gold metal cloth.

BEHIND THE SCREEN

FOR some months Norma Talmadge has been talking of retirement. She wants to retire while still a box office drawing card and in the public favor. Her next picture for First National, which will probably be her last for that organization, is to be "Camille." Then she will make one or two pictures for United Artists before she leaves the screen, on which she has been such an outstanding figure since the early days of the movies. Norma Talmadge has long wanted to play the part of the Lady of the Mamelias, and while her version will be modern, her interpretation of the character will be based on the actual life story of Marie Duplessis.

Universal is hoping to make a number of pictures adapted from stories by Octavus Roy Cohen with entire control to Cohen, a southerner, does not believe there will be any aversion to the Negro films below the Mason-Dixon line. Disappointment over the box office of "The Sorrows of Satan," may cause a break between him and Famous Players-Lasky. Should the contract be dissolved by mutual agreement it will mean postponement of "The White Slave," in which Carol Dempster and Richard Dix were to have been featured, at least until a new director is assigned to the production. Griffith will probably return to United Artists, in which he is still interested, and will make his future releases on the West Coast. For \$50,000 Marshall Neilan has been engaged by Joseph M. ARTHUR BERNARDES

President Arthur Bernardes of Brazil indulges in no sport whatsoever, but seems to get a great deal of pleasure from occasional week-end trips to a small island in the bay of Rio de Janeiro, to and from which he travels in a small motor launch on every possible occasion. Previous presidents of Brazil have always spent their summer week-ends in Petropolis, a mountain resort near Rio de Janeiro, but Bernardes prefers the quiet solitude of this small island in the bay.

Bernardes is seldom seen in public. He never attends the theatre except occasional nights at the opera during the season, and he rarely attends receptions, balls or banquets. However he did attend the recent inauguration of the new race course here and seemed to enjoy the races.

HEALTH SERVICE

Hernia Is Dangerous and Needs Prompt Attention

By DR. MORRIS FISHBELN. When the human body develops, its walls are composed of sheets of fibrous tissue and muscles, covered by fat and skin. This body wall should be sufficient to hold the contents within and to sustain them in their proper position. Sometimes, however, as the body develops, weak spots appear in the wall through which the internal organs push their way, producing what is known as hernia or rupture. One of the most common types is that which occurs in infants and young children, appearing as a lump in the middle of the abdomen, which increases in size when the baby cries or coughs. The strain of coughing or crying forces certain parts of the abdominal wall to slip from their normal position into the weak spot in the wall. If the baby lies down and stops crying, the swelling will in most instances disappear if the material is pushed back into the abdomen with the finger. However, such pushing, which is called reducing the hernia, should be done preferably by a physician, since it may do damage to delicate internal organs. In many instances, the condition may be completely cured by the application of a proper bandage or strap which will hold the walls together until they close permanently. Trusses and elastic bandages of various kinds have been developed, some of them good, but many of them quite dangerous because of springs which force the walls to open wider and to enlarge the rupture. In very severe cases a simple operation is done in which the skin is opened and the underlying tissues sewed together, after returning the abdominal contents to their proper place in the cavity. The condition is one which should have prompt medical attention as soon as it is observed, because of the secondary dangerous possibilities.

FUR BANDING

The cape coat of this season often has a band of fur outlining the edge of the cape.

EVENING PUMPS

Very elaborate slippers for evening are made entirely of narrow silver braid woven together and bound with silver leather.

The New Hats Are Small and Varied.

Despite the agitation for larger dress hats, the small, tight fitting model remains the smart hat for day wear. Three brims are exploited in the day hats shown here.

At the top is the drooping brim which shades the eyes completely. This is in soft navy blue, with a bright blue grosgrain band ending in an unusual bow at the side. Below this is the narrower brim for those who cannot wear the extremely drooped brim. This is of nasturtium felt, and is most attractively worn with a kerchief in rich colors. The gray felt hat at the bottom turns up from the face, and shows a new treatment in its tab of the felt that fastens at the front over a cut steel button.

Menus For The Family

MENU HINT

A simple but sufficient and nourishing breakfast is necessary before starting work in snappy weather. Fresh fruit might be added to the menu printed below, although the raisins furnish iron for the system. To cook the old-fashioned oatmeal or rolled oats mix one cup meal with four cups boiling water in the double boiler. Add one and one-half hours. The raisins may be added after the first half hour of cooking or just before serving. The cereal may be cooked the night before and warmed up in the double boiler at breakfast time.

Sea-Sawing Along Broadway

SEE-SAWING up and down Broadway I saw the heavyweight scholar, Gene Tunney, who seems to be everywhere these days. "Gentleman Jim" has been a pug who seems to have caught on so well socially. He goes to a saloon, a night club, a reception, and there is "Gentleman Gene." One night I saw him with Dudley Malone, official lawyer for all the Utahites in the city of Greenland, and a big party of celebrities. "And there are those on Broadway who recall when he was a member of the Tin Pan Alloys, grinding out tunes to order. . . . Now he's quite the musical vogue, if you please. . . . Saw Mary Garden wandering about our city after a five-year absence. . . . And maybe, after her arguments with the Chicago Opera Company, she prefers Manhattan. . . . Also Harry Lauder has come to town. . . . And when he left the host he said in his best Scotch that, since he was 54 years of age, he'd better get away on his farewell tour. . . . "For I'm only going to make 20 more of them," he remarked. . . . Incidentally, Sir Harry brought Lady Lauder with him, and there are many Scotch gags going the rounds concerning this splendid act. . . . Saw Eddie Cantor, back from the movies, and he told me this one: "A little kid came up to the theatre where I was making personal appearances with my new picture. He asked me for six photographs. . . . "Six," said Cantor. "Why do you want so many?" . . . "There's a little girl on our street who got a picture of Ramon Novarro and she said she'd give me it for six Eddie Cantor pictures." . . . "I must be pretty good—six to one," remarked Eddie. . . .

They were cases where a person had sustained some slight injury—a cut, a burn, a wire-prick—and where the wound, being thought not serious enough for careful treatment, had been neglected. Blood-poisoning and death resulted. When you or your children sustain any injury, ensure against infection by applying Zam-Buk. HECLA Keeps Air Healthfully Humid

TO have the home filled with healthful, pleasant atmosphere there must be an even distribution to all warm air pipes of air with a natural moisture content. Hecla's large circular water pan distributes heat so evenly that a home heated to 70° with natural air is far more healthful and comfortable than at 80° of dry, lifeless heat. Think of the economy in fuel!

Low Maintenance Cost

You can save One Ton in Seven—actually 14%—more than \$2 on every ton of coal you buy because of the extra number of steel flanges welded into Hecla's steel-ribbed fire-pot. Not only is the radiation surface greatly increased, but the steel-ribbed fire-pot is everlasting—guaranteed for twenty years.

No Dust—No Gas—No Smoke

It is impossible to make a lasting joint when furnace radiators made with steel sides and iron tops and bottoms are cemented or bolted together, because steel expands and contracts more rapidly than iron. But Hecla's radiator has walls of Armo Iron welded to cast-iron tops and bottoms by fused joints that will hold everlasting. Thus living rooms are protected from the escape of gas and fine dust ash. Hecla is built in six sizes to heat any building—large or small.

Weddings

Handricks-Carson. A wedding of much interest to friends in Hampton and vicinity was solemnized at Dorchester, Mass., on Monday, October 25, when Rev. Henry E. Edenberg, rector of the Episcopal church, united in marriage Miss Mabel Alice Carson, daughter of the late John and Bertha Carson, of Hampton, N. B., to Harry Adrian Handricks, son of Mr. and Mrs. Nicholas Handricks, of Dorchester, Mass. The bride, who was unattended, was attired in a dress of marlboro crepe back satin and carried a bouquet of opium roses and maiden hair fern. Immediately after the ceremony the young couple left on a honeymoon trip to Bangor, Portland and other Maine cities. The bridegroom's gift to the bride was a substantial check. Both are well known in New Brunswick. The bride formerly made her home with her grandmother, Mrs. Matthew Yeomans, of Hampton, and was a popular telephone operator there. The bridegroom is a successful property owner and farmer of Perry's Point. Mr. and Mrs. Handricks will make their home in Dorchester, Mass. They have the best wishes of many friends in N. B.

The decorations were exceptionally attractive and colorful. From the central light of the hall extended twelve streamers of blue, green, yellow, pink and mauve, from each of which was suspended an umbrella of the same color, which shaded a white covered table, centered with a dainty basket to match. Each table seated four guests. A large serving table, above which was suspended two pink umbrellas, was centered with pink candies. The refreshments were served by Miss Mitchell and Mrs. Charles Nelson. A song table was in charge of Mrs. F. Hillman and Miss Annie Long. It was shaded with two blue umbrellas and was arranged with baskets of the same color, containing home made candy, which found ready purchasers. A rainbow arch made an effective background. Opposite the candy table at the other end of the room was an attractive network of the prevailing colors. Miss Louise Olive, seated at a table under a yellow umbrella, collected the supper tickets. Fifteen umbrellas in all fastened by an invisible cord floated in mid air and received much attention and admiration. Miss Etta Sampson was the convener of the party.

Auxiliary Meeting In Trinity Today In Annual Session

The twenty-fourth annual meeting of the Women's Auxiliary of Trinity church opened this morning with a Holy Communion service conducted by Rev. C. Gordon Lawrence. There were a large number present and the meeting was a most successful one. During the service the annual thank offering was made. At the conclusion of the service a business session was held at which reports from officers were received and nominations for officers for the ensuing year carried out. The reports were encouraging and showed a substantial increase in membership. All pledges made during the year were successfully met. Mrs. C. Regan, extra cost a day treasurer reported \$41 receipts from that fund and \$225 mile box receipts.

Mrs. E. A. Schofield, president of the auxiliary, occupied the chair during the business session. The report of the secretary, Mrs. Wade MacBride, showed the membership to be one hundred and thirty-three. Eighteen meetings were held during the last year the average attendance being excellent. This afternoon the officers for the year will be elected. Rev. Wilfred E. Fuller will deliver an address during the meeting. At 4 o'clock a children's hour will be held when a pageant will be presented by the Saint John's Juniors under the direction of Mrs. G. B. Nichol.

JELLY DAY. Jelly Day of the Women's Hospital Aid is being observed today, Nov. 9, when the supplies of home made delicacies will be taken to the hospitals by the different convalescers. It has been pointed out that Jelly Day falling this year so near Thanksgiving Day may well be considered the way in which those who are blessed with good health may show their thankfulness for that good gift by remembering those who are less fortunate in this regard. Supplies of jams, jellies and preserves which had been received by the various convalescers on Saturday were comparatively small and it is hoped that today there will be so general and so generous a response that there may be very large quantities of the jellies to give to the institutions - the General Public and the County Hospital. Mrs. George Ewing, Duke street, is receiving the delicacies for the County Hospital from residents in the central section of the city and Mrs. Ralph Robertson, Middleburg street, is receiving the gifts of jellies for the General Public Hospital from residents in that locality. For residents in the North End, Mrs. T. H. Carter, Douglas avenue, is receiving jellies for both hospitals, and Mrs. F. T. Bertram, Gullford street, West Saint John, is receiving the contributions of jams and jellies from the residents of West Saint John for both hospitals also.

Mrs. John McMillan entertained informally on Saturday at bridge and tea in honor of Mrs. King Hazen, of Fredericton.

IMMIGRATION PLANS OF CANADA ARE NOW BLAMED

Morning Post, London, Comment on the Existing Situation

LONDON, Nov. 8.—Discussing migration within the Empire the Morning Post editorially remarks that in Canada there is work but no dole, while in England there is the dole, but not the work.

"There is a progressive deterioration in the dole system for the generation growing up which never has known any other way of life, accepting the dole without shame as a normal means of subsistence," the paper states.

The Post continues: "A vast new mining industry has sprung up in Canada in a few years comparative to South Africa's, but both the machinery and labor used are largely American, yet here we have a huge surplus of miners being forced into a chronic state of unemployment by the force of circumstances and Bolshevik propaganda. And while these realities are clamoring to be dealt with officials of migration in Canada go placidly on their appointed way, administering schemes foredoomed to failure. Ottawa spends its time imposing restrictions and Canada House in applying them."

"The antiquated basis of official schemes was laid down in the hungry forties of the nineteenth century. To this day in official schemes we have the fixed proportion that out of every four assisted migrants there must be an experienced agricultural laborer."

Yet the total population of agricultural workers in this country is only about 720,000, of which the great majority of unemployed do not want to leave their countryside.

"There is also a strong impression that the politics of Canada work against British settlement. It seems to us, if anything of consequence is to be done, it must be by agencies altogether outside political and official departments."

The Post concludes with the suggestion that the Canadian National and Canadian Pacific Railways whose interest dies in development might be trusted to put zeal and efficiency into this great affair of making the New World in correct balance with the old."

"Red's" name and fame drew 10,000 spectators to the game.

SCORE FIRST WIN BY DEFEATING MONCTON

Trojans Whitewash Visitors Here Yesterday by Score of 13 to 0

The Trojans scored their first victory in the N. B. Rugby League here yesterday, when they defeated the Moncton team by a score of 13 to 0, before 500 fans.

The first try was made by Bayly, who made a spectacular run through the visitors' line-up from the centre of the field. There was no score in the first half, with Trojans having the best of the territory play.

In the second period, Bayly made his sensational try, which was converted, making the score 5 to 0. Ten minutes later "Beet" Malcolm made the second try, which was not converted. Hollies made the third try after 25 minutes of play, which was converted by Bayly, this ending the scoring.

OUTSTANDING STARS.
For the winners Bayly, Malcolm, Hollies and Britt were perhaps the outstanding stars, while Peake at full-back for the Moncton team played a great game. Moncton's forward line showed up well in spots, but were outplayed by the locals who were on the ball from whistle to whistle.

A feature of the game was the going to the fans details of the U. N. B. Wanderers game at Halifax, won by the latter. As soon as the scores were made telegraph communication was held with the club house at the Allison grounds and the scores chalked up on boards erected near the lines.

The following is the line-up:
Trojans: Forwards—Moncton
Britt, Hollies, Armstrong, Strohous, Wilson, Malcolm, Siam, Howard, Brown, Noble.
Halves—Ayer, Price, Crowhurst, Drummond, Peters.
Quarters—Humphrey, Price, Wilson, Chandler, Lockhart, Daley.
Fullback—Peake.
Subs—McDaid, Burnside, Howard, Angevine.

First half—No score.
Second half—Bayly, 5 min.; convert, Bayly; Malcolm, 20 min.; Hollies, 25 min.; convert, Bayly. Total, 13-0.
Referee—Karl Fraser.

HURT IN RUNAWAY

PREMIERS NEAR COMPROMISE

Committee Working Hard on Claims Made by Hertzog

BY GEORGE HAMBLETON Canadian Press Staff Correspondent. LONDON, Nov. 8.—British genius for compromise is asserting itself in the deliberations of the Premiers' Committee on Inter-Imperial relations of the Imperial Conference.

The committee which has before it the most important problems of the conference, was hard at work again today and hopes to reach a definite conclusion by the end of the present week.

Such a treatment would be in the nature of a middle course. Premier J. B. M. Hertzog, who in his opening speech at the conference raised the issue of pressing for international recognition of independent national status for the dominions, would, it is believed, prefer a formal declaration of foreign countries on behalf of the associated nations of the British Commonwealth.

And truly Rowntree's is a quality Cocoa! Created two centuries ago, when none but the finest in quality and flavour found favour with the nobility, Rowntree's Cocoa quickly became England's favourite. WOLF CUBS OF CITY HIKE TO SEASIDE PARK

Crowd of 150 Boys Have Very Enjoyable Outing

A young army of 150 Wolf Cubs assembled at Seaside Park yesterday afternoon when the Cubs' grand hike was held and the attendance so far out-distanced the expectations of those in charge that there were nearly three times as many boys on hand as had been anticipated.

There were 10 packs represented, including the East Saint John pack, which liked all the way to the city side of the ferry floats. The boys of the city packs assembled at that point and were found to be so numerous that one pack had to remain behind and cross over on the ferry's next trip. The city packs joined the West Side packs at Tilton's Corner and hiked together to the grounds at Seaside Park, where they announced their arrival by giving a "grand howl" that startled the fishes in the Bay of Fundy, not to mention the grown-up humans in the neighborhood.

The weather was ideal for the hike

CHICAGO TO HAVE ENGLISH OPERAS

Season to Have Former Prize Fighter in Important Roles

CHICAGO, Nov. 9.—Mary Garden will have a new vehicle for her vocal and histrionic talents in "Judith," Honneger's one act opera, which will be given its American premiere this season by the Chicago Civic Opera company.

The opera, which has been given only a few times abroad, is described as extremely modern and very difficult. Miss Garden said that if the main role had been more than one act she never would have undertaken it. The opera will be sung in French.

At least four productions will be sung in the native tongue, including Eugene d'Albert's "Pisland," a popular work in Germany; "The Witch of Salem," by Charles Wakefield Cadman, American composer; Humperdinck's "Hansel and Gretel" and "A Light From St. Agnes," by Franke Harting. The latter, in one act and with libretto by Minnie Maddern Fiske, was given its world premiere here last year. Cadman's work was originally prepared for presentation last season, but was held over for its premiere this year.

Opening night will witness the first American appearances of Florence Misson, daughter of a country store keeper in Prescott, Wis., and Arold Lindt, otherwise Harold Lindau, a Swede who moved into the musical tempo by way of mining, sailing and prize fighting.

Electricity Guardian of the City's Life

LIGHT is the protector of our city streets—the enemy of the thief, the gunman and the marauder. Light has banished the evils of darkness and made our cities safe at night.

Light is the centre of our home life. Young hearts revel in abundant light—old eyes require it—electricity has supplied it.

The last quarter-century has seen greater advances in the science of illumination than all the centuries which have preceded it—advances due solely to the constant research and experiment of the manufacturers of electrical equipment. And notwithstanding the vast improvements

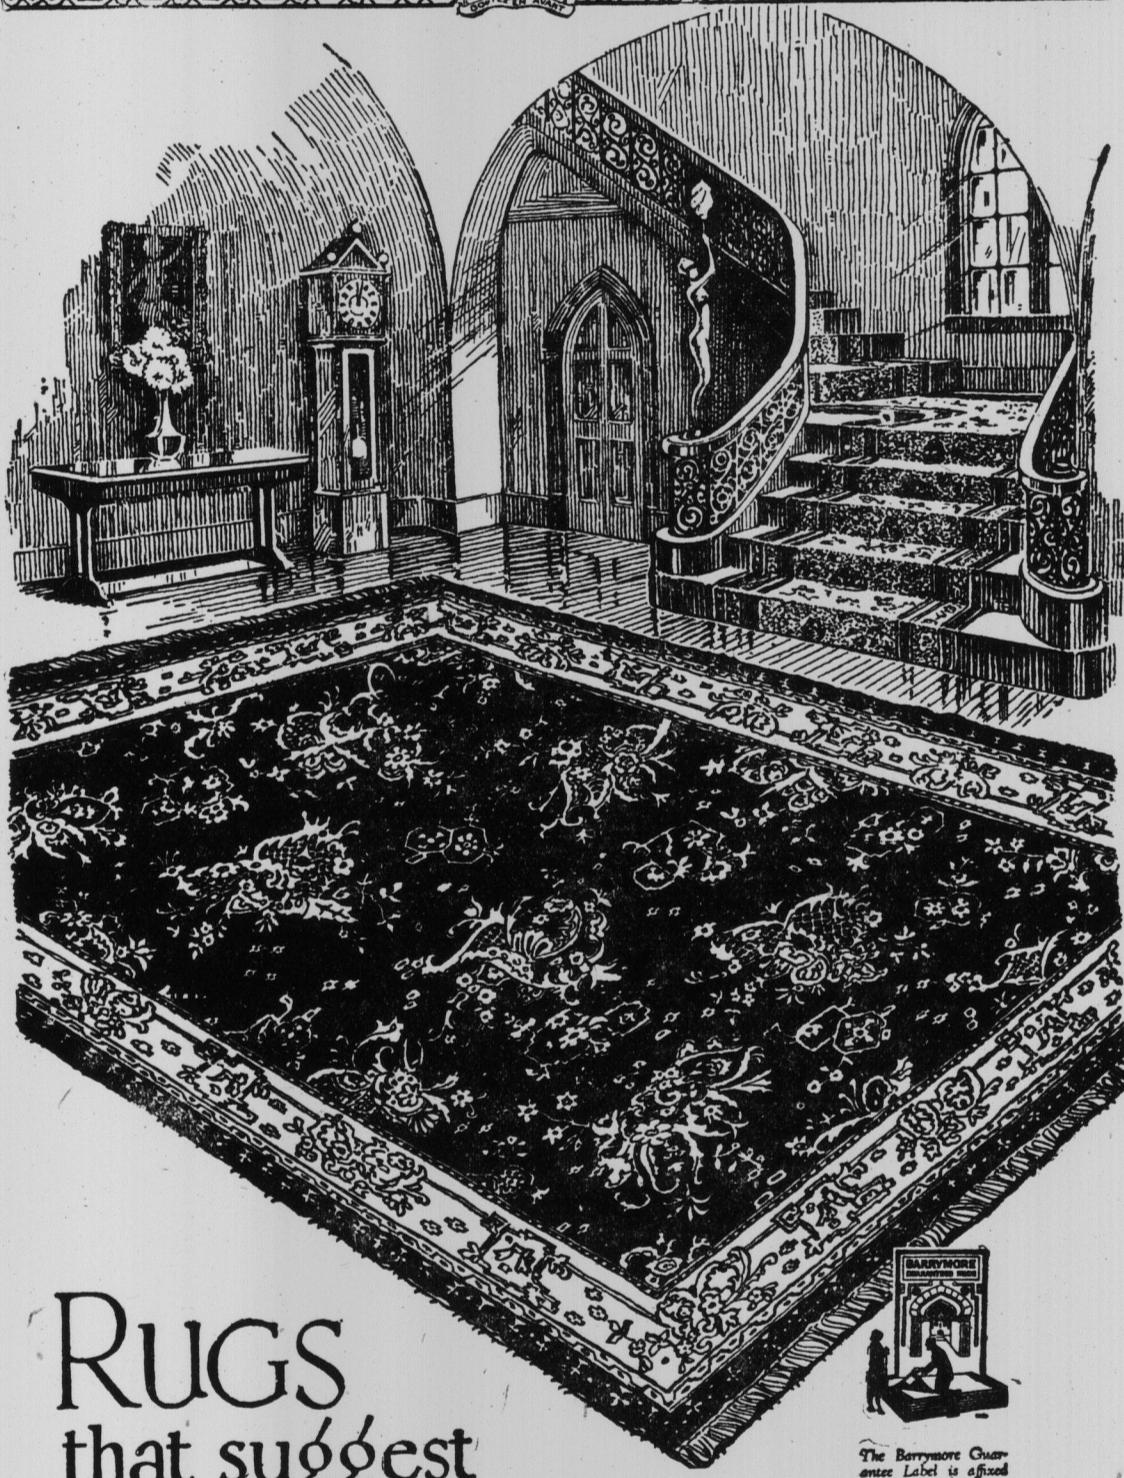

which have been made, the Edison Mazda Lamp costs less today than before the war.

Here in Canada, is an organization—the Canadian General Electric Company, Limited—which produces the famous Edison Mazda Lamp, in addition to the generating and transmission equipment for the hydro-electric plants, the transformers and insulators for power stations and the wiring systems for our homes and factories.

In making possible better light, the Canadian General Electric Company is helping to make Canada a safer, happier, brighter country.

Women Drivers Notice the Difference

THE greater driving ease that Imperial Ethyl Gasoline gives is something which women drivers immediately recognize.

With this new type of "cold weather" gasoline, there is no trying ordeal about starting. It is immediately responsive to the touch. In congested traffic, gear-shifting is minimized to the lowest possible limit. On difficult hills the nerve-racking "second-gear" grind is abolished. In any car, under every driving condition, engine knocks are absolutely eliminated.

Imperial Ethyl is a very special grade of quick-starting gasoline with Ethyl Brand of Anti-Knock Compound added. It gives you this unique combination of gasoline qualities with no sacrifice of mileage.

The Ethyl Compound, developed in the Research Laboratories of General Motors, adds the power qualities that make this gasoline "different."

CARLETON VETERANS AT SERVICE

On Sunday morning the Carleton Branch of the Canadian Legion, B. E. S. L., and the cadets of the New Albert school, headed by the Carleton Cornet Band, paraded to St. Jude's church. There were special seats for them and for the Women's Auxiliary of Brunswick Chapter, I. O. O. F., and the patients and staff of the Lancaster Military Hospital and members of the Common Council. C. H. Cochrane was in charge of the parade. Rev. J. H. A. Holmes preached an inspiring sermon.

In St. David's church on Sunday a wreath was placed on the memorial tablet by Corporal John Stewart-Henderson. H. G. Gibson sounded the Last Post, "In Flanders Field" was sung, and Mrs. Archibald, organist, played the Dead March in Saul.

LUDLOW STREET

In the Ludlow street Baptist church the Thanksgiving services were largely attended on Sunday. Fruit and vegetables were artistically arranged for decoration. Rev. W. A. Robbins, pastor of the church, preached appropriate sermons. In the evening instead of the customary roll call he asked the congregation to stand while he read the church constitution. At the close of the evening service the Lord's Supper was administered to a large number of communicants. The thank offering was presented in an envelope shaped like a turkey and was stuffed with dollar bills. A substantial sum was contributed in this way for the church funds.

The choir was assisted in rendering the special music by Miss Edith McGarritty who also gave two much appreciated vocal solos. At the evening service Miss Louise Burke and Miss Ethel Rupert sang a pleasing duet. At the Sunday school session in the afternoon R. H. Parsons, superintendent, presided and gave a talk on Thanksgiving also spoke of Armistice Day. E. F. Campbell told the children an interesting Thanksgiving story. The orchestra of the Sunday school gave pleasing selections.

MAIN STREET BAPTIST

The special services in the Main Street Baptist church Sunday were very largely attended and most impressive. In the morning the members of the C. G. I. T. group attended in a body and occupied the choir loft. Some of

them number took part in the service most capably. Miss Rachel McBay lead the responsive reading of the psalms and Miss Marion McLean read the scripture portion. A duet was very pleasingly rendered by Miss Helen Nobles and Miss Beryl Dean. Rev. M. S. Richardson addressed his sermon specially to the C. G. I. T. members.

In the evening there was a combined observance of Thanksgiving Day and Armistice Day. The tablet, commemorating those of the congregation who had made the supreme sacrifice, was draped with a Union Jack and decorated with a poppy wreath by returned men among the congregation. Flags were draped on the pulpit also. The organ loft was trimmed in green and rosy berries and a basket of fruit was placed in front of the pulpit. During the service vocal solos were very beautifully rendered by Miss E. Farlee and R. G. March.

REV. J. DUNLOP

At the Armistice and Thanksgiving service held in Charlotte Street Baptist church, Rev. James Dunlop preached a very eloquent sermon, taking as his text, "Let Us Forget."

Special services were held both morning and evening in the church. In the morning the message was a sermon on the "Explosion of Ingratitude." The services both morning and evening were largely attended, and the choir, under the leadership of Stanley Stone, very ably rendered a special program of Thanksgiving music.

Use a McClary Stove to Cook the Thanksgiving Turkey

For the housewife who roasts the holiday "bird" in an ordinary stove Thanksgiving means many unnecessary steps and the loss of much valuable time. Thousands, however, have learned the joy of possessing a McClary Stove.

The automatic control, its speediron element assures the success of the roast, and savory tender and juicy meats.

Insist on a McClary Electric for this Thanksgiving, you will appreciate its performance.

AGRICULTURISTS MEET AT DIGBY

John O. Turnbull re-elected President; F. W. Nicholls, Secretary-treasurer

DIGBY, Nov. 8—The annual meeting of the Digby County Agricultural Society was held in the Council Chambers of the Town Hall Saturday afternoon, and a good attendance of members were present from the sections of the municipality most interested in farming. The president, John O. Turnbull, presided.

The secretary-treasurer's report showed the society to be in a flourishing condition, both financially and in point of membership.

CROP REPORT.

The report on the crops for the year showed that in field crops the potato easily led with an excellent crop, practically free from blight and rot. In some parts of the county there was a very good hay crop, but the pasture were affected by the dry weather in the latter part of the season. The apple crop was almost a failure, great damage being done to the apples by the railroad worm, and a large part of the crop ruined thereby.

All field roots were fairly good except the turnips, which were affected with "clump root."

For breeding purposes the society have two thoroughbred Guernseys and three thoroughbred Jerseys in different sections of the municipality.

OFFICERS CHOSEN.

At the election of officers, John O. Turnbull was re-elected president; F. W. Nicholls re-elected secretary-treasurer, and James Trevo, of Brighton, vice-president. The directors are D. C. McKay, Jacob Trask, Gouby Nichols, Dr. McGregor, Jonathan Letteney.

Frank Gates was chosen to represent the society at the annual convention of the Nova Scotia Agricultural Society, W. W. Delong was substitute delegate.

TEMPORARY BASILICA AT SHRINE OF STE ANNE DESTROYED BY FIRE

Church Treasures at de Beaupre, Quebec, Are Burned With Loss of Half Million Dollars—Relic Is Scorched

STE. ANNE DE BEAUPRE, Que., Nov. 8.—Half a million dollars is the material loss sustained by the Order of The Redeptorist Fathers, guardians of the shrine of Ste. Anne, upon the conflagration which, for the second time within five years, destroyed their church with practically all its treasures and most of its relics.

The fire broke out around 1 o'clock this morning and before adequate effort could be directed towards fighting it, the sacred structure was a mass of smoking ruins.

Several valuable paintings and statues were saved, but the altar and the statue to which the faithful attribute all the miraculous powers were totally destroyed.

HOSPITAL PANIC AVERTED. There were no casualties although a panic in the nearby hospital which were a number of patients was narrowly averted by the nurses and attendants.

ROARING FURNACE. "I need not tell you," said Rev. Father Levesque in an interview, "that it would have been certain death for anybody to try to penetrate into the building at the time."

ESTIMATE OF DAMAGE. Asked what he estimated the loss at, Rev. Father Levesque could not give an exact figure but estimated that the total damages would amount to nearly half a million.

NEW ROOM OF RED CROSS ABOUT READY FOR OCCUPANCY

Premises in King Street Area, Secured by Local Society

The new room of the Saint John Red Cross Society is now in readiness for occupancy and it is expected that it will prove a great benefit in furthering the work of the local branch. The room, which has been secured, is the large hall on the left hand side on the first floor of the Sears' building in King street, formerly used by the Y. W. C. A. as a cafeteria. New floor covering has been donated by friends of the Red Cross and has been laid down and painted. A second hand stove has been purchased. A good chair has been loaned by the provincial Red Cross and office equipment has been loaned by E. L. Jarvis. The equipment of the home nursing classes has been transferred from the fourth storey in the Provincial Red Cross society to the new room. Mrs. I. F. Longley, president of the local branch, and her staff, who have been very busy in holding an afternoon tea for soldiers' wives as had been done last year. Those who attend the tea and express a desire to enroll in the home nursing classes will be registered for the class and any of their friends will also be received into membership. The classes last year were very popular and the soldiers' wives were very sorry when the season closed in the spring. They were taught not only home nursing but household arts.

USE OF ROOM

The new room of the Red Cross society is to be used for all of the business of the local branch and business meetings will be held there. It is also hoped to have the rooms used as a place for sewing and knitting meetings. Supplies of garments made up in readiness for the disposal of the Red Cross. The society has pledged itself to care for maternity cases among soldiers' families and to keep well supplied and ready to work for many volunteers to help in the work of making up the garments for the soldiers. Arrangements for knitting meetings have not been definitely made but are to be considered at an early date.

ST. MARTINS FLOCK EXPRESS THANKS

L. O. Celebrates Guy Fawkes Day; Baptists Await New Edifice

ST. MARTIN'S, Nov. 8.—On Friday evening, Guy Fawkes' Day, was commemorated by a basket social and dance held in the Masonic Hall under the auspices of Inevitable Loyal Orange Lodge, No. 16. Unfavorable weather greatly retarded the success of the entertainment. Yesterday some of the churches here conducted appropriate Thanksgivings, others held them a couple of weeks ago. The Baptists, owing to the loss of their church in the recent fire, are now holding their services in the hall. They are holding a series of musical selections. At the conclusion of the reading of the popular documents the procession was formed. Preceded by a number of archbishops and bishops and priests, Mr. Rouleau was also present. He was accompanied by the Rev. X. Cloutier, Bishop of Three Rivers, who was then conducted to the throne. Here Monsignor Rouleau was paid homage by his dioceses. The clerics, passing en file before archbishop throne, stopped and kissed a ring on the new Archbishop's hand, thereby pledging their fidelity and obedience. MR. ROULEAU FELICITATED Monsignor L. A. Paquet, former vicar-general of the diocese of Quebec, on behalf of the church, congratulated Mr. Rouleau on his elevation, while Mayor Martin, as chief magistrate of the city, Frank McCreery, president of the Irish Catholic Societies of the city, then pledged their fidelity and obedience to the English-speaking dioceses. Mr. Rouleau in a brief speech made suitable reply to the three addresses.

Brazilian Is Leader With Quebec Power Fairly Strong

INDUSTRIALS ARE ACTIVE IN GOTHAM

Various Chemical and Copper Issues Make Good Showing in N. Y.

Canadian Press MONTREAL, Nov. 9.—Trading on the local stock exchange at the opening of this morning was fairly brisk with prices revealing an irregular trend. Brazilian led the market, and after opening at 10 1/4 for a week-end gain of half a point, it eased back to 10 1/8 for a net advance of a quarter point. Quebec Power was the strong spot at 17 1/2, up one point. Shawinigan lost a half at 26 1/2. Steel of Canada advanced a half at 110. Laurentide sold unchanged at 10 1/4, and Steamships preferred moved forward a quarter at 2 1/4.

ANIMALS BELIEVED TO BE LIVING ON MARS

Mars is inhabited by some forms of animals, declared Dr. U. W. Campbell, president of the University of California and one of the foremost astronomers in the world. Dr. Campbell bases his conclusions from observations made while Mars was only 42,000,000 miles or more from earth. Above, picture of main building, Lick Observatory, California, at which Dr. Campbell makes his observations; below, Dr. Campbell at the 36-inch refractor of the observatory, studying the neighboring planet. That Mars takes on a color in the autumn, and a lighter dark hue in spring, and a lighter color in the autumn, and a lighter dark hue in the spring, comparable to seasonal changes on earth. Dr. Campbell believes in evidence of plants and animal life. Presence of water vapor and oxygen, necessary for the existence of life, also are indicated.

Morning Stock Letter

NEW YORK, Nov. 9.—All the rest of the stock market is overshadowed by the strength in U. S. Steel. This stock looks considerably higher. The size and the advance of buying indicates that something different is planned towards distributing part of the company's huge asset values to stockholders. We think steel common can still be purchased. Generally the market is still going up against an over-extended short position. From time to time we look for a great deal of irregularity with some issues selling considerably lower, but with the main trend, particularly those issues whose purchases we have recently recommended upward. General Motors is one stock which we think may sell lower in the near future despite strength in steel and other industrials. We look for a large extra cash distribution this week, and with the short interest in this issue large, there may be a considerable rally in motors between now and Friday morning. We believe, however, that we would sell long stocks. Consolidated Gas, we believe, will continue to move forward in anticipation of a favorable decision by the Supreme Court before the first of the year, and in anticipation of a possible merger of New York utilities. We continue to look for higher prices in the Northwest-ern rails and the best oils.

HALIFAX COMMENT

HALIFAX, N. S., Nov. 9.—Comments of local newspapers on yesterday's football game between Halifax Wanderers and University of New Brunswick.

HALIFAX COMMENT

Morning Chronicle—"The University team proved to be a very aggressive hard tackling plunging fifteen, always on the ball, and giving no quarter. The Wanderers had the better of the territory throughout, and controlled the ball from the scrum generally. The visitors favored a throw-in instead of the scrum, and had the edge on the locals in this respect. Both teams showed themselves to be good punters, but the champions used their punts to better advantage by placing them, more accurately, and by this means were able to advance the play into their opponents' territory."

HALIFAX COMMENT

Halifax Herald—"U. N. B. sustained their first defeat in two years yesterday, but they were up against a fifteen stronger by many degrees than any club they have met in that time. The collegians were expected to excel in their own division, but they failed to show the ability to handle the ball they have demonstrated in some other games, if all reports are true. But the much vaunted three-quarter line provide a disappointment yesterday."

Topping her other splendid performances in a story full of amusing surprises and human touches, Colleen Moore scored again at Queen Square Theatre in her latest First National production, "It Must Be Love."

The John McCormick production, directed by Alfred E. Green, gave Miss Moore every opportunity to display her versatile talent.

Besides Miss Moore's excellent performance, special mention goes to Jean Hersholt as the bluff father, and Bodil Rosing as the sympathetic mother.

Other interesting characterizations were played by Arthur Stone, Dorothy Seaton, Cleve Moore, Mary O'Brien and Ray Haller.

MOVIE GIVEN AS EVIDENCE IN COURT Shows Ship's Engines Working in Case Growing Out of Collision

PHILADELPHIA, Nov. 8—A motion picture, for the first time in the history of the federal courts of this district, was admitted in a lawsuit today as explanatory evidence.

The picture was that of the complicated steering machinery of the American oil tank steamer Manatway, and was exhibited to the court by the ship's owners as evidence that they were not responsible for a collision which almost sank the British cargo vessel Nevisian in the Delaware River off this port last January.

The owners of the Nevisian sued for \$80,000 to \$100,000 damages, alleging the owners of the Manatway were negligent. Attorneys for the prosecution protested having the motion picture exhibited as evidence, but Judge Thompson cited other cases in which still photographs had been used to illustrate places and incidents and admitted the picture as having "evidential value."

The film was projected in a darkened room. It was intended to prove that it was impossible to delete a flaw in the steering apparatus while it was in motion, supporting the contention of the owners of the ship that the accident had been unavoidable, as the machinery had been inspected half an hour before the collision occurred and nothing wrong had been found.

START TRIDUUM IN CATHEDRAL ON WEDNESDAY

Will be for Youth and in Honor of St. Aloysius

A triduum in honor of St. Aloysius, patron of Catholic youth, will be opened in the Cathedral tomorrow morning at the 7 o'clock mass. It will be conducted by Rev. Bergin S. J., and will be for the boys and girls and young men and young women between the ages of 12 and 24. It will close on Saturday morning. Emphasis will be placed on the life of the saint's young days and those making the triduum will be asked to adopt a rule of life tending toward their spiritual advancement.

The result of two collections was announced in the Cathedral on Sunday. That for Peter's Pence on the previous Sunday was \$289.15 and that on All Souls Day \$282.88. The Devotion of the Forty Hours closed in Holy Trinity church on Sunday evening, Rev. C. J. Carroll was the preacher. In commending the Cathedral high tea to the generosity of the Catholic people His Lordship Bishop LeBlanc on Sunday said that the proceeds from this constituted practically the only means for reduction of the debt on the Cliff street school. The rental was sufficient only to take care of the building upkeep and insurance. He hoped that there would be a large patronage and a substantial sum for this fund this year.

RUSHING WORK ON RETAINING WALL

Builders Express View of Cause of Some Main Street Property Troubles

City workmen with concrete plant, hoisting gear and other apparatus are rushing the retaining wall job at 464 to 470 Main street to escape the first onslaught of cold weather. The condition menacing the buildings, one owned by Robert Carson estate and the other by E. N. Herrington, has been the hole of a hole in the earth, a hole of large rock dumped there years ago, at the time a roadway was hewed out of the rock. How the road leading from Main street to Rockland road.

These boulders dumped into the pit to build up Main street, rolled against the piling upon which the buildings stood. The work being done by the city has been retarded because of the necessity of removing this stone with hoisting gear, clearing the hole of its debris and building therein concrete forms for the new wall.

The southern side of Main street for years has been an expensive proposition to the city because of its retaining-wall and practical builders say such a lack of foresight in the method of filling in that part of the thoroughfare in days by hurried dumping of the boulders from big rock excavations made in other parts of town.

Residents of Beauce Hard Hit by Brokerage Firm Failure

QUEBEC, Nov. 8.—Over \$300,000 has been lost by residents of Beauce, especially at St. Joseph, through the liquidation of the brokerage firm of J. Vezeau, which is officially announced. The extent of the losses in certain cases is not known, but it is understood that investors of amounts varying between \$2,000 and \$10,000 including many estates are affected by the failure.

In the last two years Beauce county has been affected by several financial crashes which involved losses of nearly one million dollars in some instances. The receivers in charge of settling the latest failure contend that they will be able to pay about 20 per cent of the total of nearly \$300,000 involved.

MANY AT FUNERAL OF J. T. O'BRIEN

Requiem Mass Celebrated in Fairville Church; Tribute From Pastor

Stretching nearly half a mile in length the procession of mourners following the funeral of John T. O'Brien yesterday morning represented the largest funeral ever held in this city. The cortege was evidence of the great love and respect which Mr. O'Brien has inspired in all with whom he came in contact.

The funeral took place at 9 o'clock from St. Rose's church in Fairville to Holy Cross cemetery where interment was made. Members of the Saint John Council, No. 10 of Columbus and Benevolent Order of Elks, of which Mr. O'Brien had been a member, were present in large numbers. There were very numerous and most beautiful floral tributes and many spiritual offerings.

CHURCH THRONED.

The church has a seating capacity of 600 and was thronged to the doors. About 200 people unable to gain entrance to the church, remained outside throughout the service and joined in the funeral cortege as the procession moved toward the cemetery. Rev. Michael T. Murphy, parish priest, officiated at the funeral. He was assisted by Rev. J. J. Ryan, priest of the Church of the Assumption, and Rev. J. J. Ryan, sub-deacon, and Rev. C. J. Carroll, of Silver Falls, officiated at ceremonies. The committal service also was conducted by the same priests.

The choir of the church directed by the organist, Dr. O. Comeau, assisted in the rendering of the special music. As the remains were brought into the church the choir sang "Nearer My God to Thee." The choir chanted the solemn music of the solemn requiem high mass and during the offertory the "Pre-Jesu" was sung. The solemn music of Chopin's funeral march was played by Dr. Comeau as the funeral left the church on the way to the cemetery. The prayers at the grave were recited by Father O'Brien. The cortege extended from Millford Corner to the Fairville Baptist church, a distance of about half a mile and about 34 automobiles followed in the rear.

FLORAL TRIBUTES.

Floral offerings were received from the following: South Bay Fishing Club, Capitol Bottling Company, J. M. Curran, W. A. Ross, Dr. M. Curran, Commissioner and Mrs. R. W. Wigmore, Abram Garson, E. W. TRIBUTE FROM PASTOR

During his sermon on Sunday at St. Rose's Father Murphy paid a tribute to the late John T. O'Brien, who was a member of that congregation. After the usual announcements Father Murphy said in part: "It is with a deep sense of regret that I speak of the death of one of our parishioners, John T. O'Brien. The news of his death was a distinct shock to the community. He was a great citizen working always in the interests of the community, the province, and in fact for his fellow man. As a business man he was a great example for his exactness and better still for his honesty. His word was as good as his bond, so much so that anybody who knew him had implicit trust in him. His passing is a distinct loss to the parish, largely due to his good example that was outstanding before all men, always forgetful of himself that he might help others. If it could be said of him that he was selfish in any way that could only be in working out the salvation of his own immortal soul. This man left a name for business honesty and Christian life that will live long after him."

W. R. SCOTT DIES SUDDENLY AT EVENING MEAL

Young City Barrister Is Victim of Acute Indigestion Yesterday

The many friends of William R. Scott, a popular young barrister, residing at 224 Main street, were shocked last evening on learning of his sudden death at his home shortly after six o'clock. Death was due to acute indigestion.

Mr. Scott only arrived home about a week ago from Ottawa where he had been attending the Supreme Court of Canada. En route he visited relatives in Boston, and until stricken last evening was in apparently excellent health. He attended to some law duties in his office in the Dominion Bank building, 73 Prince William street, yesterday and about 6.05 o'clock arrived home. He sat down to his evening meal in the course of which he complained of a pain in his chest. He proceeded to his room to rest. A few minutes later he called his sister, Lena, who found him in distress. Miss Scott summoned Dr. C. H. Pratt, who arrived within a few minutes, but Mr. Scott was beyond medical aid and died within ten minutes.

MEMBER OF K. O. F.

The deceased was the youngest of the family, an enthusiastic yachtsman and beloved by a large circle of friends. He was a member of the Knights of Pythias, as well as a member of Union Lodge of Portland, in the Masonic Fraternity. Besides his father and mother, Mr. and Mrs. Alexander Scott, he leaves to mourn one sister, Miss Lena B. Scott, and two brothers, Messrs. Victor A. of Manchester Robertson Allison, staff, and Charles W. Scott, of the postal staff.

RAILWAY YARD IS CHANGING ASPECT

Razing of Buildings Gives Idea of Plan in Mind of Moncton Officials

The razing of a third building in Mill street, purchased some years ago by the Dominion government for new yard facilities in anticipation of a modern terminal, is conveying some idea of the plans on paper at Moncton for the clearing up of the old structures, leveling the yard space, laying tracks and general improvement of the property.

Three new stretches of track have been laid during the last five or six weeks. These will provide accommodation for possibly 10 extra freight cars during the winter rush and will pack solidly a space formerly used by the old grain elevator site, extending almost to the street line and filling out a gridiron of seven or eight distinct stretches on the northern side of the depot.

The straightening of the Lombard street line and rocky land at the rear of Paradise Row lots, has added accommodation to the government's yard and reclaimed it from the somewhat chaotic state of years past.

Funerals

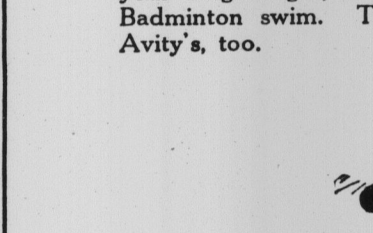

Miss Edith May McBeath
The funeral of Miss Edith May McBeath was held this afternoon from her late residence, 18 Orange street. Service was conducted by Rev. Dr. Poole of the German street Baptist church. A large number of floral tributes testified to the esteem in which she was held by a wide circle of friends. Interment was made in Fernhill.

As Hiram Sees It

"There's a priest in that canoe," says I to the town feller, plintin' to the patch of moonlight on Long Reach.
"That," says he, "is the ghost of Father Simon, goin' down to the Injuns settlement at Woodman's Point. He was up at Meductic for years—an' went with the Injuns on their war-raids—'visited their settlements on the river. That was in Villibon's time. John Gyles says he was always teachin' to the Injuns 'agin torturin' their captives—'an' tryin' to put a stop to it. Villibon wrote in 1698 that Father Simon was sick at Jimsyan'—that's the last we know about him. It's likely he died an' was buried there. What him an' other priests must've suffered—leavin' among the Injuns 'travelin' with 'em makes me wonder how they could do it. From what John Gyles tells about the life of the Injuns when they had him prisoner it must've been awful. 'Fath Simon was a good man accordin' to his lights. That was his ghost we see honesty and Christian life that will live long after him."
