HERRIOT OPPOSES

British Foreign Office Suggests
Alternate Attendance as Way Out.

BY P. MOORE
(United Press Wireless.)

London, July 17.—Senator N. S. Belcourt, of Ottawa, is here in London all dressed up as Canadian envoy extraordinary and no place to go. Although he comes armed with full credentials issued under order-in-council by the Canadian Government as minister plenipotentiary in the inter-allied conference, questions of Canadian representation in these meetings is still unsettled.

There is a wide gulf of difference between the proposal of the British Government and the suggestion of the Canadian Government with the attitude and difficult situation of the French Premier as the real stumbling block.

Canada's Position

Canada insists that the Versailles precedent should be followed. There each dominion had its representative at every session and Canada maintains that this is her right on this occasion as a sister nation within the British Empire.

Premier Herriot opposes this system on the grounds that the increased size of the Empire delegation thus constituted will weaken his position at home and give former Premier Poincaré further opportunity to attack him and possibly to defeat him in the Chamber.

In consideration of Herriot's position the British foreign office wants the dominions to be represented by a panel system which will allow only one delegate from the dominions to sit at each session, the idea being that each dominion shall alternate in this representation.

(Canadian Press Cable).
Standeron, Transvaal, July 17.—General J. C. Smuts, addressing his constituents yesterday, said that while not wishing to minimize the importance of his party's defeat in the recent elections, he would point out that 188,000 votes were cast for the South African or Smuts party, 111,000 for the Nationalists, and 42,000 for Labor, yet despite this equality of the votes, the Nationalist-Labor party had a majority of 28 seats in the House.

FRENCH TRAGEDY
IS BEING PROBED

Clarete, Found Dead, Was
Former Husband of Madame
Caillaux.

By JOHN DE GANDT
(United Press Staff Correspondent).
Paris, July 17.—Coming as it does so closely after the granting of amnesty to Joseph Caillaux, the mysterious death of his former husband, the distinguished French journalist and officer of the Legion of Honor, has aroused rumors of scandal and caused official investigation to be started.

Clarete was formerly the husband of Madame Caillaux. His body, horribly mutilated apparently by a train, was found by a track walker near the railroad at Rennes.

Preliminary investigation has failed to reveal conclusive evidence as to whether or not death was accidental. It is apparently established that Clarete left Paris with 15 francs in his possession. His coat, buttoned, was found a mile away from where the body lay.

POSSIBILITY OF LOSING ADMIRAL
BEATTY HOTEL MAKES PEOPLE
ANXIOUS; EFFORT IS STILL ON

Small Subscriber as Well as Large Must Aid if St.
St. John is to Get This Great Prosperity Maker—
Final, Definite Word on the 26th.

Many are asking, "Can we afford a big hotel in St. John?" Others, "Can I afford during these times to subscribe for stock?" In contrast to this, those who have done the most thinking probably in connection with the matter are asking, "Can we afford to abandon the hotel?" and, "Can I afford not to subscribe, and thus be a party to a failure?" Which is the cheaper, which the better business proposition, and which augurs better for the individual and collective good of the community?

Thousands are now talking Admiral Beatty Hotel, and all agree as to the effect which will be produced if a promised announcement on Monday week is in the negative.

As predicted on Wednesday, a Citizens' Committee has co-operated with the hotel directors and promoters. An active organization is now in the making, and within 10 days announcement must be made as regards progress or abandonment of the hotel proposition.

Fleeced in Canada;
Britisher Suicides

(By United Press.)
London, July 17.—The dramatic suicide, yesterday, of William Damsie, a London grain merchant clerk, is attributed to the loss in Canada of £3,000, apparently through the operation of a gang of international crooks, who fleeced him during a recent visit to the Dominion.

Damsie had borrowed money from friends here and proceeded to Vancouver. Either there or in Montreal he entered into some scheme on behalf of his firm and then cabined he had lost his money "through the default of a colleague." Soon afterwards he returned to London and killed himself.

ANXIETY IS FELT IN BRITAIN FOR MACLAREN'S SAFETY

MacLaren has experienced more hardships and greater perils than any of the other world flight attempters and has been handicapped by accidents. His courageous lone flight has made him a national hero in England. He was delayed for weeks on the burning sands of India, and again by the monsoon season in the vicinity of Rangoon.

Tokio Report Assuring (Canadian Press Cable) Tokyo, July 17.—Although there has been no news received here up to this afternoon of A. Stuart MacLaren and his party since they left Lake Tashiro, at an early hour yesterday morning, anxiety is felt here as yet for their safety.

MacLaren should have completed a flight to Paramushiro Island, about 400 miles north of his starting point, by noon yesterday. However, it is believed likely that he landed at some intermediate point in the Kuriles, far from radio or other communication with the outside world. Broughton Bay, Shimushira Island, where the advance party for his flight laid down a fuel and supply base, is believed the most probable point of his landing.

The Japanese destroyer Isokaze has searched as far north as Shimushiro Island, without finding any trace of the aviators and the destroyer Hamakaze which was on duty at Paramushiro to aid the fliers, is searching southward there.

The original MacLaren party included, beside the commander, Flying Officer W. N. Penderleith and Sergeant R. H. Andrews. These three were joined here by Lieut. Colonel L. G. Broome, who led the advance party which laid down a number of supply dumps at points in the Kuriles, the Aleutians and Alaska, so that the missing are four in number.

The latest reports on the weather in the Kuriles, where the United States fliers were delayed by storm and fog, said it was cloudy, but that there was no wind, which circumstance is regarded as favorable to the fliers' safety. Search is continued.

SCIENCE CURES UNRULY CHILDREN

Simple Method is Used for Correcting Those With Bad Habits.

By MILTON MACKAYE (United Press) Washington, July 15.—Science has come to the rescue of the long-suffering parents of men and bad tempered children.

Experts in juvenile hygiene have discovered and developed the "synthetic disposition." By steady treatment, they can impose a new personality upon a child—change him from an ill-natured pest to a happy little fellow who "scatters sunshine in the home."

The latest bulletin of the Children's Bureau of the Department of Labor explains the method devised and made practical by Dr. D. A. Thom of Boston, pioneer in the field.

Bad temper, says Dr. Thom, is a mental sickness. He treats it as such and children as "patients," in what he calls his "habits" clinics.

Good Habits for Bad. The habit clinic creates mental health by substituting good habits for bad ones. Feeding problems, temper tantrums, pugnacity, shyness, enuresis, destructiveness, delinquency, they are all bad habits.

The clinic can cure children who respond to discipline with screams, kicking attacks of temper, children who are too retiring or too "bossy," children who begin to lie and steal, and children who won't eat the food they should.

Here is the method generally followed: Youngsters coming to the clinic are first given a physical examination to eliminate all organic trouble. Then, at home and the child's parents are visited by a social worker who reports on environment. Next a psychologist gives mental tests and makes a careful observation of the child's attitude and characteristics.

Finally a psychiatrist, with the information received, consults with the parents, examines the child, diagnoses the problem and plans a course of treatment.

A Particular Case. Dr. Thom cites the case of "A. A." aged 5, as one example of the clinic work. "A. A." would not eat the food given him, refused milk and vegetables, but was extremely fond of meat. As a result he was under weight, a peevish, stubborn, rebelled at authority and whined whenever thwarted.

The first treatment established good sleeping habits. The next necessitated attention to the mother of the methods used by children to obtain their own way. The child must not be given apples and candy when he refused milk, his rebellion and stubbornness must be ignored in order that he might learn that he could not gain his own ends in that way.

Next, the child had to eat the food, at meal times, placed before the child long enough for him to eat it. If he refused, it was taken away. He was given a reward when he ate.

The plan was explained to the child, and a chart given on which success at any meal was marked with a gold star. The child had to eat the food he had bad habits, and was eating all the wholesome foods he had previously refused.

At the end of the past year, Dr. Thom has handled 180 cases. Only 19 failed to show improvement, and 12 of those failures were found in families where the parents gave no co-operation.

DOMINION ENVOY UNABLE TO SIT AS REPRESENTATIVE

(Continued from page 1) The cables are being kept hot with negotiations between Whitehall and Ottawa trying to straighten out the tangle satisfactorily to all concerned.

Representatives Confer. (Canadian Press Cable) London, July 17.—The high commissioners of Canada, Australia, New Zealand and South Africa this morning conferred with the colonial secretary J. H. MAYNES WILL TRY SPEED IN IRELAND

Arrangements are Completed for St. John Man to Enter Races.

"Billy" Maynes, maritime quarter-mile champion, now is in London and will compete in the Irish games at Dublin on Aug. 12, according to cable advice from London today.

The sun advised proceeds of a game Tuesday night on the South End diamond between the Trojans and Royals, was forwarded to Maynes today, and this will cover his expenses and allow him to represent St. John and Canada.

The Tallent games, which are a revival of famous games held in Ireland so far back as 2,000 years ago, but which lapsed 700 years ago, have aroused considerable enthusiasm in athletic circles throughout the world, and competitors from United States, Great Britain, South Africa, India and far-off Japan will take part.

UNIQUE SIGNS POSTED AS WARNING TO SPEEDER. Motorists will have little excuse this summer. Towns throughout the country are very active in putting up warning signs, with the aim of better traffic regulations and of improved accident record. Here are several signs with varied appeal, as reported by one tourist:

"This is a good road. It will cost you money to burn it up."

"Slow down. Look before you sleep."

"Don't covet your neighbor's side of the road."

"Look out! You may meet a fool around the corner."

"Stop! Look, and Live!"

Enough From Him. She (coolly)—"Do you remember that once you proposed to me and I refused you?" He (trying to be gallant)—"Yes; that is one of my most beautiful memories."

Eat More Cheese!

If folks realized the remarkable food value of cheese it would be served at every meal, just like bread.

If folks could see the fresh clover pastures with bubbling springs, the cleanliness of dairies and cheese factories, the constant rigid inspection; if they could watch it being scientifically blended—then they would know why Kraft Cheese is different and always demand Kraft Cheese—no rind, no waste.

Views of Maritime Beauty Spots Cause Tourists to Inspect Them

The set of four illuminated pictures which had graced the window of the C. N. R. city ticket office, King street, for some time past, have been removed and another set substituted. The first of the new set is a scene on one of the rivers of Prince Edward Island, near Charlottetown, and shows the location of the Girls' camp. The tents are pitched close to the shore. A group of the girls is included in the picture.

Another is a scene of the majestic Restigouche, one of the finest of the many fishing streams of New Brunswick. There is found the fisherman with his rod poised just ready for the cast. Lake Edward, Quebec, is pictured in the third. A canoeist, evidently a fisherman returning with his day's catch, is seen approaching the wooded shore.

In the last picture the artist deserted the rustic scenes and introduced something urban in a view of a Quebec city street. The contrast between the dust and traffic of the city and the

girl to the General Public Hospital for further treatment.

The deep rich greens of the fields and trees, the blue of the water here and there broken by a white crest, was an attraction which caused many passers-by to stop to inspect the scene. Noticeable among the many who stopped were American tourists.

GIRL DRIFTS IN CANOE, BUT TWO BOYS DROWNED

Gets Ashore Three Days After Storm on Ontario Lake—Found in a Daze.

Brechin, Ontario, July 17.—Having drifted in a disabled sail canoe for three days and nights after her two

boy companions were drowned, Margaret Murchison, 16 years old, collapsed as rescuers found her, half crazed, struggling through the marshes skirting Lake Simcoe.

With Wilbur Hoskins and Edgar Smith, the girl set out from Big Bay Point on Friday in a light sailing craft. They had reached the middle of the lake, when a sudden storm descended upon them, partially overturning the boat and pitching its occupants into the water.

Hoskins and Smith, realizing that that disabled craft would not bear them all, shouted to their companion to "hang on," bade her adieu, and in the gathering gloom headed for the distant shore. They sank before they got out of sight, Miss Murchison said. She rode out the storm in the drifting craft and then for seventy-two hours drifted about the lake. The shifting winds grounded the boat on Concord Point. Rescuers found the girl there, groping and stumbling for way toward safety.

She recovered, it was said, unless pneumonia sets in.

Mother needn't worry about cleaning up after this party!

There's a Gold Seal Congoleum Art-Rug on the floor, and it has a non-absorbent, waterproof surface that can't be harmed by liquids, or spilled things of any kind. Nor can crumbs or dirt grind into it.

Congoleum Art-Rugs are sanitary, easy-to-clean, and durable—just the thing where children romp and play.

Just a few strokes of a damp mop make them spotless and bright as new. Then, too—there are no turned-up corners or edges to trip unwary feet, for Congoleum Rugs always lie flat without fastening of any kind.

Congoleum Rugs are made in a wide range of colorful patterns. And they are so low in price that it is sound economy to use them all over the house.

YESTERDAY'S CONVENTION.

The Provincial Government convention went on record yesterday in support of the policy of developing the water powers of the province, and endorsed the plan adopted in connection with the proposed development of Grand Falls. It also declared for the principle of free school books in the primary grades, and the extension of that principle when the finances of the province warrant such a course.

AGAINST PROHIBITION.

The Province of Saskatchewan decided yesterday by popular vote in favor of Government control of the sale of liquor, by official vendors, but against the sale of beer in licensed premises. This is a defeat of the prohibition law that has been in force in Saskatchewan. The province has followed the example of Manitoba and Alberta in declaring against absolute prohibition.

THE WEST AT ODDS.

The Province of British Columbia appears to resent very strongly the restoration of the Crow's Nest rates. The Vancouver Province says it is bitterly condemned by the manufacturers of the province, because it pushes them back out of several hundred miles of prairie territory. The British Columbia division of the Manufacturers' Association wants the Board of Railway Commissioners to make a broader investigation, reviewing the whole structure of transportation rates affecting the Western Provinces.

Press Comment

THE U. S. AND ARMENIA.

(Hamilton Herald.) The Democratic party of the United States, in its platform, demands 'justice for Armenia.' And yet the United States Government refused to accept a mandate for Armenia. If it had assumed obligations as Armenia's protector, it would have been in a position to guarantee justice for the Armenians instead of making futile demands for it.

THE DEADLY REVOLVER.

(Ottawa Journal.) Many decent citizens own revolvers. But they don't carry them outside their homes, and even in their homes one does not hear once in a year about a household being able to use a revolver against a burglar, although thousands of burglaries go on. And the police—when a policeman uses a revolver, he is generally hauled on the carpet, and is lucky if he is not reprimanded, or even discharged. In years, but rarely and certainly at some in the future, would extinguish the revolver, and which meanwhile and at once would lessen the number of weapons and ammunition available for persons liable to misuse them.

NO NEED OF ELECTION.

(Vancouver Province.) In spite of certain pressure from Quebec the Government at Ottawa is not disposed to bring on a general election at an early date. It has two sessions behind it, a third is almost gone and with its present support it can easily get through two more sessions before dissolution becomes necessary. The Government is in a considerably stronger position now than it was when it took office after the election in December, 1921. At that time it counted 117 members in the House, while the Conservatives had fifty. The Progressives sixty-two.

SENT UP FOR TRIAL.

(St. Stephen, July 16—R. H. Davis, alias Ryan, who was captured in St. John, charged with passing worthless checks on the border, was arraigned before Police Magistrate Vroom here today, and was sent up for trial in September. He was taken to St. Andrews jail to await trial.

EMERTAINS DISTRICT LODGE.

Dominion Lodge, I. O. G. T., entertained the district lodge at their hall, Murray street, Tuesday evening. There was a large attendance. Thomas Owens, District Chief Templar, was in the chair and gave an address on district work. George Kelly gave an address on ways and means of increasing the membership and attendance. Mrs. W. Edwards and the Misses Irvine gave short, interesting talks on the temperance activities of their respective lodges. T. B. Brown gave a reading on "The Best Way to Spoil a Lodge." Frank Morris spoke on lodge work. Refreshments were served by Mrs. J. Silliphant, Mrs. T. Cunningham and Mrs. T. B. Brown.

\$800 NEEDED FOR LADY BYNG CAMP

Those in Charge of Under-Nourished Hope Funds Can Be Raised

Miss H. Meiklejohn, director of the St. John Health Centre, estimates that with \$1,200 the Lady Byng camp for under-nourished children can be maintained until September with from 15 to 20 boys and girls in attendance all the time.

This is the first time that the health camp authorities have adopted permanent quarters and means considerable added expense. Last year only a day camp was run which, although it proved very helpful, the returning of the children to the city at night was bound to offset to a great extent the good that had been done.

The band concert this evening in King square will be given by the City Cornet Band, which consented to substitute for the Carleton Cornet Band, whose leader, William Janyon, preventive officer of Customs, was called to Boston on departmental business. C. Bridgen will be soloist this evening and will play "O Sole Mio" by Capus. Bandmaster Frank Waddington will present the following programme: March—Stonewall Brigade; Rubeush Waltz—Cloth of Gold; Jewell Selection—Bohemian Girl; Balf Fox trot—Hi-Lee-Hi-Lo; Schuster Selection—Reminiscences of Ireland; Godfrey Cornet solo—O Sole Mio; Capus Selection—H.M.S. Pinafore; Sullivan Fox trot—Covered Wagon Days; Selection—Reminiscences of Scotland; Morrissey Selection—Reminiscences of Scotland; Godfrey March—Marine Band; Greenwald God Save the King.

"TIZ" GLADDENS SORE, TIRED FEET

"Tiz" makes sore, burning, tired feet fairly dance with delight. Away go the aches and pains, the corns, callouses, blisters and bunions. "Tiz" draws out the acids and poisons that puff up your feet. No matter how hard you work, how long you dance, how far you walk, or how long you remain on your feet, "Tiz" brings restful foot comfort. "Tiz" is wonderful for tired, aching, swollen, smarting feet. Your feet just tingle for joy, shoes never hurt or seem tight. Get a box of "Tiz" now from any drug or department store. End foot torture forever—wear smaller shoes, keep your feet fresh, sweet and happy.

GARDEN PARTY IS GREAT SUCCESS

Great success attended the garden party on the St. Peter's grounds yesterday afternoon and last evening. The purpose of the event was to raise funds for the expenses of the grounds, which have been converted into a playground. Rev. Francis W. Hill, C. S. S. I., was in charge of the outing, which was conducted under the auspices of the Catholic Women's League, North End subdivision. Refreshments were served to a large number, the tea tables and booths being very attractively decorated. The men of the parish assisted in making the games go with a swing. Miss Sarah Lynch, president, and Miss M. H. McCloskey, past president, were joint general conveners for the ladies' section of the garden party committee. Mrs. Frank Fitzgerald and Mrs. M. A. Mullin were in charge of the tea tables and Miss N. Harrington and Miss Durick supervised the ice cream and beverages. Others who assisted were Mrs. Joseph Kennedy, Miss Kennedy, Miss Ena Higgins, Miss Helen Murphy, Miss Marion Murphy, Mrs. Margaret Corkery, Mrs. Joseph P. Quinn, Mrs. William O'Connor, Miss Kathleen Lundy and Miss Genevieve Dever, who is lady supervisor of the playground.

ANDOVER CAR IS REPORTED

The North End police have reported automobile No. 12717 for exceeding the speed limit on the Marsh road last night. The car is owned by a party in Andover, N. B., and it is not likely that the driver will appear in the local police court to answer to the charge.

SALVAGE CORPS HAS A HOLIDAY

Annual Picnic Held at Belyea's Point—Council Members Guests.

The annual outing of No. 1 Company Salvage Corps and Fire Police was held yesterday at Belyea's Point on the St. John River, and proved as good as, if not better than any ever held by this organization. The members were all on hand, and with a few invited guests, including the Mayor and members of the Common Council, spent a delightful time during the afternoon and evening. Fourteen automobiles left the fire station on Main street about 2:30 o'clock yesterday afternoon carrying a very happy party of men.

Manchester Robertson Allison Limited

Mr. Lister will come then for a camp for training leaders, similar to that held in March of this year, when the all Canada training camp was held with great success. The Gillwell camp would be opened soon at the Mouth of Keswick for one month, they said. "We made a special arrangement to train two leaders from the Salvation Army, as our 'good turn' for the day," said Mr. Stiles. "These leaders will be for the life saving scouts and will enter the camp on the same conditions as scout masters," he said. Every boy scout does a 'good turn' every day, so the heads must do their bit, too," he said. Those going from St. John to the Keswick-Gillwell training camp are L. L. Johnson, R. Edgar Adams, Donald S. Morrissey and Norman G. Smith. A friend of the movement gave money to pay all expenses for two leaders from each province for the All Canada Training Camp that was held in March, P. Watson, of Devon, was one of the boys who took advantage of this course. The commissioners left for Fredericton on the afternoon train to interview workers and stir up interest there.

UNVEIL MEMORIAL AT BEAUSEJOUR

Amherst, July 16.—One thousand people attended the unveiling ceremonies of the memorial tablet at Fort Beausejour this afternoon. Mrs. J. Wood, of Sackville, wife of former Governor Wood, unveiled the tablet. Historical addresses were delivered by H. A. Powell, K. C., St. John, who emphasized the present unity of the two races whose soldiers once fought for possession of the now historic fort; Dr. Clarence Webster, Shediac, historic sites commissioner; Major Edwards, Halifax; Harry Peers, president Nova Scotia Historical Society; Dr. M. A. B. Smith, Halifax; Father Cormier, Shediac, and others.

ADVENTURES OF THE TWINS

By Olive Roberts Barton

MRS. WOODCHUCK'S PHOTOGRAPH.

Nick set a chair for Mrs. Woodchuck in front of a curtain. Happy Go Lucky Park was very popular. Nancy and Nick and Mister Zip were as busy as robins after a rain storm, keeping it in order and having things all spick and span when the wood folk and meadow folk began to arrive with their pennies and lunches to spend the day.

one day when he was taking tickets at the gate. "If there doesn't come Mrs. Woodchuck all dressed up in her Sunday best. "How do you do, Mrs. Woodchuck. How are you today?" "Oh, I'm pretty well, thank you," said Mrs. Woodchuck breathlessly, for the groundhog lady was very fat and she had been hurrying. "Here's my 10 cents to get in," she panted. "But I didn't come to ride on the merry-ground or the roller coaster. I didn't even bring my lunch and I came off without the children because it's a secret."

your nose," corrected Mister Zip. "She got her words mixed." And so talking and explaining and apologizing and panting the Twins finally got fat Mrs. Woodchuck to the place where it said "Pictures taken while you wait!" And they went in. Nick set a chair for Mrs. Woodchuck in front of a curtain and then went behind a big camera to see how she looked. He put his head under a big black cloth and said, "Turn your head a little, Mrs. Woodchuck. That's just right. Now smile a little and show your teeth. That's just right. And now put your eyes up there where that little bird is!" "How can I put my eyes up where that little bird is when they're in my head, I'd like to know," demanded Mrs. Woodchuck.

known as "Two Toes" was killed by J. J. Williams after being tralled through ten feet of snow. Ranging over a territory of 300 square miles, "Two Toes" had killed thousands of dollars worth of cattle in the last few years. In 1923 she made her biggest known kill—twenty calves on two ranches—in one week. Her den was dug out and ten wolf cubs were taken alive and destroyed. The death of "Two Toes" marks the end of a long list of killings in the Highwood Mountains. In Taney County, Mo., a destructive old black wolf, locally called "The Old Black Devil," was captured in April. For years past this animal had been a terror to the farmers of this country and of Boone County, Ark. He was caught last year in Boone county but escaped, leaving a toe in the trap. Caught later near Omaha, Ark., he again got away. During the past winter he was caught twice by W. S. Beesley, of the United States Department of Agriculture, escaping each time, but the third time, in April, was fatal for him. Mr. Williams is employed in cooperative work between the Biological Survey and the Mountain State Fish and Game Commission, while Mr. Beesley is similarly engaged with the Biological Survey and the Missouri State Board of Agriculture.

WIN DISTINCTION IN MUSIC TESTS

The pass lists of the Faculty of Music of McGill University recently published show the names of several St. John young people. Miss Charlotte S. Heffer passed in all subjects of the semi-final examination for the Licentiate of Music, performers class, coming second in the list. Miss Gladys Styles, daughter of Rev. E. E. Styles, of Exmouth street Methodist church, took first place "with distinction." Miss E. E. Spence won distinction in singing and Miss J. L. W. Barker in theory in the senior grade. In most cases they all made high marks in other subjects. Miss K. M. Fox passed in the senior grade for organ playing.

In the list are mentioned with distinction two young people, who will soon be considered of St. John. Miss L. M. Hodgson and Miss G. M. Hodgson. They are the daughters of Mr. and Mrs. F. J. Hodgson, who will reside here in future, leaving Montreal, where Mr. Hodgson was manager of the Sun Life Assurance Company of Canada for nearly 14 years. Miss L. M. Hodgson is mentioned in the senior grade and Miss G. M. Hodgson in the junior and elementary grades in piano and violin, the former taking first place in theoretical music and passing with distinction in every subject in which she was examined.

Others from St. John who made good marks in piano and theory were Miss Vivian Collette, D. W. Leonard, E. C. Armstrong, C. A. Sheraton, E. J. Ledingham, D. E. Randless, O. J. Kirkpatrick, Doris M. Barbour, M. J. Grant, Ruby Isaacs, G. E. Stewart, A. M. Bustin, K. M. Fox, M. F. Sharpe, F. C. Kierstead, E. P. Sturdee, G. E. Stewart, H. G. L. Sleep, E. E. Spence and C. S. Heffer.

**GREAT ROBBERY
BAFFLES SLEUTHS**

Gem Theft in London Mansion Presents Study in Crime.

London, July 17.—The audacious robbery of part of Lady Ludlow's \$5,000,000 art treasure collection from Bath House, Piccadilly, still baffles the best brains of Scotland Yard. The crime presents problems on every side; it baffles with difficulties for the police, for the thief or thieves went about their task with an astonishing degree of apparent negligence, but have, nevertheless, contrived to leave very few and scanty clues upon which Divisional Detective-inspector Yanner and his men can work.

Lady Ludlow was formerly the wife of the late Sir Julius Wernher, multi-millionaire and diamond king, and it was his famous collection of historic jewels, consisting of glittering ornaments worn by queens and princesses of the 18th century, that was rifled.

Every article in this wonderful collection, which was without an equal in the world, was priceless from its historic value alone.

Police Theories.

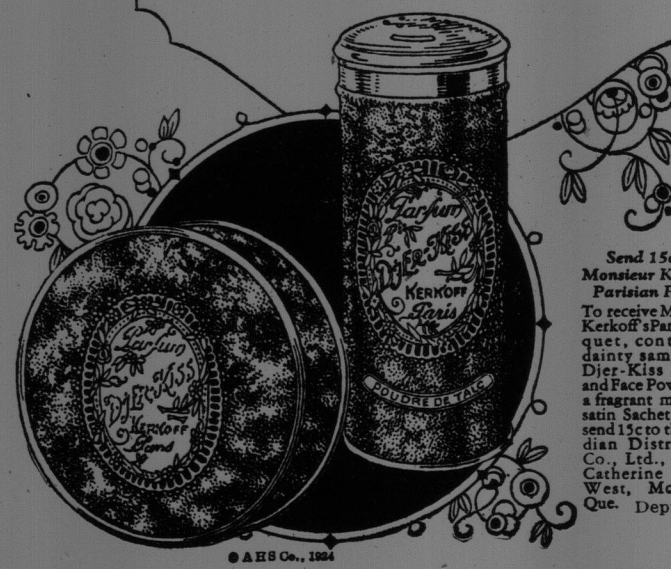

The two theories upon which the police have to work are that, either this is the work of an amateur in crime, or that it is the carefully planned and executed work of a professional thief. But such theory seems to totter when examined. There are amazing contradictions, baffling in their complexity. No great robbery of recent years has presented so many difficulties.

In these French poudres —the secret of Summertime Charm

Djer-Kiss FACE POWDER

How hot the sun these summer days! Yet how cooling, how refreshing this French Talc Djer-Kiss. Here is Talc of fairy-like softness and purity. Here is Talc as fresh and light as an ocean zephyr—fragranced in France with Parfums Djer-Kiss itself. After the bath, Djer-Kiss Talc, always.

easily disposed of. The magnificent plate of Lady Ludlow's own collection would have presented few difficulties to thieves. Plate is easily melted, and pure silver commands a good price. Moreover, it is easily disposed of to the "fences" or receivers who operate in the East End in Amsterdam and other centres.

The only theory which explains this fantastic act is that the thief or thieves did not want to be hampered with cumbersome articles, and selected the small and rare pieces.

Then, again, another improbability arises. Why should the most famous and easily-traced objects have been selected, objects which depend for their value on the perfection of their workmanship, without which they become merely so much silver, bronze or gold?

For instance, the unique Louis XV, tortoiseshell and gold inkstand, worth as an ocean zephyr—fragranced in France with Parfums Djer-Kiss itself. After the bath, Djer-Kiss Talc, always.

Within an hour of the reporting of the robbery Scotland Yard had sealed the England to the thieves. Trains, ports, air stations are all closely watched. It is therefore impossible that the haul has been smuggled out of England.

If the scant clues now available lead nowhere, it would seem likely that the solution of this mysterious robbery will come only when the thieves attempt to dispose of their loot. That may not be for a year—or even years. The value of the stolen treasures is put variously at \$500,000 to \$1,250,000. No robbery since 1875 has been accompanied with so many and so complex circumstances. In that year the Countess of Dudley was robbed at Paddington Station of her jewel case, containing gems valued at £50,000, under dramatic circumstances.

DIFFERENCES OVER EMPIRE FAIR

Larkin and Exhibition Authorities Dispute Over Foreign Lumber

Ottawa, July 17.—A long file of correspondence tabled in the House of Commons brings out a story of sharp differences between Hon. P. C. Larkin, Canadian High Commissioner in London, and the authorities of the Wembley Exhibition over the use of foreign lumber in the construction of the exhibition buildings. The differences came to such a point that Mr. Larkin, in January last, cabled to Premier King asking for authority to withdraw from the exhibition altogether and Premier King gave such authority. One of the charges was that United States pine was used in the construction of the Royal Dais.

FACE AFFECTED WITH ECZEMA

Also Behind Ears and On Limbs, Cuticura Heals.

"I was affected with eczema which broke out in a rash. I had it on my face, behind my ears and on my limbs. My skin was sore and red and my clothing aggravated it. It itched and burned causing me to scratch, and sometimes I could not sleep at night. My face was disfigured.

"I finally read an advertisement for Cuticura Soap and Ointment and sent for a free sample. I got relief so purchased more, and after using one box of Cuticura Ointment, with the Cuticura Soap, I was healed." (Signed) Miss Arvilla C. Cramer, 2639 Taylor St. N. E., Minneapolis, Minn.

Easily Digested Nourishment

GRAPE-NUTS STUFFED TOMATOES

6 firm, ripe tomatoes, 1 cup cold, creamed potatoes, 1/2 teaspoon salt, 1 pimento, 1 tablespoon butter, 1/4 cup Grape-Nuts, 1/4 teaspoon pepper.

When creamed potatoes form a part of the day's menu, there is nearly always a small portion left. An excellent way to utilize this is found in this recipe.

Wash and hollow six firm, ripe tomatoes, mix the hearts of the tomatoes with the cold creamed potatoes, season with salt and pepper to taste, add one pimento, finely minced and 1/2 cup of Grape-Nuts. Mix thoroughly, stuff the hollowed tomatoes, top with 1/2 teaspoon of butter to each tomato. Place in a shallow pan with a little warm water, and bake in a moderate oven for thirty or forty minutes. Serve hot. Cooked ome may be substituted for the potatoes.

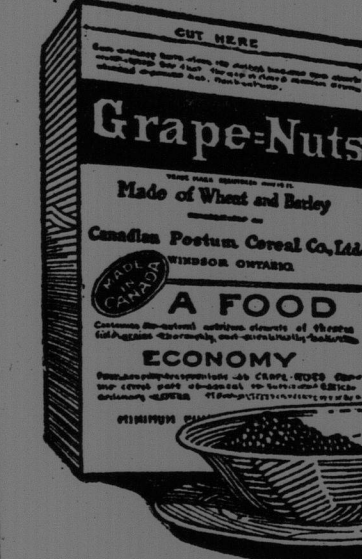

This recipe will serve six persons.

WARM summer days call for foods which are easily assimilated by your body—their goodness extracted with the least amount of effort.

Grape-Nuts is just such a food. Its vast store of phosphorus and iron, of the precious food elements of wheat and malted barley is concentrated by a long process of slow baking in a highly energizing form—easily assimilated by the body.

Grape-Nuts is the food you need right now. You need the nourishment of the whole wheat and malted barley from which it is made. You need the generous amount of bran roughage it contains.

Grape-Nuts is most appetizing, too. Its crisp, crunchy granules have a flavor all their own. And it is very economical to serve. Four teaspoonfuls are sufficient for a helping. Costs 1c per serving. Get a package for tomorrow from your grocer.

Will Be Tragedy For City If Beatty Hotel Project Fails

EXAMPLE SET
ST. JOHN BY FAR
WESTERN CITIES

Vancouver and Victoria are putting tourist business in first place

GOOD HOTELS HELP

Citizen Calls for Revival of the Old Fighting Spirit Here.

"It will be a tragedy for St. John if it fails immediately to proceed with the erection of the Admiral Beatty Hotel," remarked a citizen who recently returned from a visit to the Pacific coast.

"One of the progressive features of Victoria and Vancouver that impressed me most," he said, "was the fine hotel system of these two Pacific cities, and the increasing tourist patronage that they were receiving. Victoria is pressing much more vigorously for tourist traffic than it is for the advancement of its port or its industries, and there is no doubt that it is achieving great results in this line."

"Vancouver through its harbor commission, as well as through the Canadian Pacific Railway Company and the Canadian National Railway, is making great progress in the development and utilization of its port, but the leading objective of the city is tourist promotion. As a writer in one of the Vancouver papers recently remarked that: "The following will be concerned only with the more recent developments affecting Vancouver's life commercially and industrially. First, there is the tourist trade and, secondly the grain trade. Their chief virtue is that they put money directly into Vancouver's cash registers and are responsible for priceless advertising. Millions in new outside money that has never before passed through the hands of Vancouver merchants are being brought in by tourists and the grain business. The tourist traffic and the citrus crop—principally tourist traffic—gave Los Angeles her start."

"The tourist traffic through St. John," remarked the citizen, "requires that the city and the province be provided with hotels of the finest type, and that every possible effort be made to add to the city's attractions. We cannot afford to stand still, either in the promotion of tourist facilities or in the development of the port of St. John. We must keep both on the forward move."

Revive Fighting Spirit
"St. John has behind it an old fighting public spirit and now is the time that it should be revived. There are those who recall what that fighting spirit accomplished when the fire of 1877 practically destroyed the whole business section of the city. Sheriff Harding summoned a meeting of citizens at the time and when he told them that, notwithstanding the great fire loss that the city had suffered the city's credit was still undisturbed and it was the duty of all good citizens to strive to rebuild the city and add to its credit strength, practically every man who was present expressed his own sympathy with what the Sheriff had said, and they immediately turned out and went to work. The St. John of 1924 would soon speed ahead if this old progressive spirit was aroused."

ONTARIO SETS DATE FOR LIQUOR VOTE
Plebiscite to be Held on Oct. 23—Form of Question Later.

Toronto, July 17—Ontario citizens will pass upon the liquor issue on Thursday, October 23 next. Decision to hold a plebiscite upon that date, has, after careful consideration, been reached by the Government, and represents the fulfillment of Premier Ferguson's election-time pledge of a vote for the people "if and when public opinion demands it."

This is announced in the Mail and Empire this morning.

The form of the question to be voted upon is not yet being announced by the Prime Minister, but will be made public in plenty of time for the campaign purposes of both wet and dry forces.

The Prime Minister and his colleagues are desirous of giving the question the utmost deliberation and thought with the object of submitting a proposition, the vote upon which may be accepted as accurately representing majority public opinion.

Non-announcement of the question's form will be made in ample time to ensure its fair discussion and comprehension by the people.

The announcement is received with keen interest by all parties.

One trouble with many a wide-awake young fellow of today is he doesn't get wide awake until midnight. Being poor is all right except you haven't anything to do.

Get Set For a Season of "Wales" Styles

SOME NEW PICTURES OF THE PRINCE OF WALES. New York, July 17.—The Wales derby; the Wales frock coat; the Wales bow tie; the Wales cap, the Wales sweater, the U. S. and the Wales shirt. The style mentors of the U. S. are designing and patterning at fever heat in anticipation of the arrival of the Prince of Wales this fall. When the heir to England's throne arrives he will find his sartorial counterpart wherever he turns, it appears. In matters of men's styles it will be a Wales winter, from all present indications. The influence of the Prince's garb will be felt in everything from cuff-links to pajamas, the style setters predict.

Finder Gives a \$10,000 Pearl Necklace to the Wrong Woman

London, July 17.—Some young women in London or the provinces, probably the latter—is in possession of a \$10,000 pearl necklace which was picked up and given to her by a passing stranger. The necklace was lost by Mme. Olga Regier, a French lady staying at the Metropole Hotel. She visited the exhibition and on her return her necklace was missing. Mr. Smith, a taxicab proprietor, was walking outside the New Zealand building at Wembley when he kicked an object lying on the ground. Picking it up, he found it to be something which he took for a string of beads. Three young women were walking in front, and, holding out the necklace, he asked if they had lost anything. One of them turned round and took it, saying "Thank you."

C. P. R. CHIEF TELLS IN LONDON HOW ADVERTISING HELPED CANADA

E. W. Beatty Gives Address Before Advertising Clubs of the World.

London, July 17.—(Associated Press).—Indicating how advertising had fostered the growth of Canada, E. W. Beatty, head of the C. P. R. company, told the convention of Associated Advertising Clubs of the world today that since 1881 his road had spent \$67,000,000 on colonization in contrast to \$35,000,000 expended by the Canadian Government.

These figures, he said, included more than what might strictly be termed advertising, the colonization efforts having been directed at rather different types of settlers. The Canadian Pacific was particularly interested in getting settlers for the lands it had to sell, he said, while the Canadian Government directed its efforts more to securing settlers for its free homesteads of 160 acres each.

Tracing the part played by advertising in the building of Canada, which began today with the Jesuit missionaries in the days of the French dominion, Mr. Beatty said it was not until the Canadian Pacific appeared on the scene that an aggressive, consistent and comprehensive advertising campaign for the colonization of Canada was planned and directed from Canada itself. In the last 40 years, a campaign of invitation and welcome had been conducted, he asserted, in which the Canadian Pacific gave the example and set the pace.

Canada's snow and hard winters are among its greatest assets, Mr. Beatty declared. "Without that winter we should not be able to grow the hard wheat on which so much of the prosperity of the Canadian west depends, and which every miller in the United States desires for his choicest flour. Without that winter we should not have the fur-bearing animals and the fur trade which for 300 years has been one of Canada's basic industries. Without that winter we could not haul so economically as we do the products of our forests to our lumber and pulp mills. And last but not least, without that winter we could not have the virile, sturdy manhood which the whole world, particularly since the achievements of the Canadian Army in the great war, has come to identify with the Canadian race. So long as Canada has its winter, so long will Canadians be ready and able to bear the white man's burden."

The most important thing in any selling campaign is that the merchandising offered shall be worth selling, the speaker continued. "Therein lies the strength of Canada's position. Canada has had the confidence to advertise and to keep on advertising, because she knows that she has something worth while to offer. She has good agricultural land with markets for what that land can produce, she has almost unlimited natural resources in mines and forests, she has ample power at moderate cost for industrial

purposes; she has respect for law and order, and she has a climate in which white men can make homes. With such assets, Canada has no reason for hiding her light under a bushel. She has had ample justification for advertising her advantages, and that advertising has been of substantial benefit to the empire to which she is proud to belong."

Canada's greatest asset, Mr. Beatty said in conclusion was the courageous spirit of the people, "a spirit which breathes an unquenchable faith in the country's future. That spirit is possessed by Canadians in the highest degree, and that is why they look forward to their future with confidence and unimpeded morale."

BEQUESTS GIVE HOPE FOR INCREASING GOOD WORK OF HOME FOR INCURABLES

Reports of Annual Meeting Encouraging—Thirty-one Now Cared For.

The annual meeting of the subscribers to the Home for Incurables was held this afternoon at the institution, with J. S. Gregory, president, in the chair. Reports were received from F. B. Ellis, treasurer; P. F. Blanchet, auditor, and also from the president and the Women's Aid. These reports were encouraging. Thirty persons were in the home on July 1, according to the president's report, and there had been 15 applications for admission during the year. A high tribute was paid to S. D. Scott, a charter member of the board, who died last December in Vancouver, and a resolution of heartfelt sympathy was drawn up to be forwarded to the members of his family. The reports submitted were as follows:

President's Report. J. S. Gregory, president, reported as follows: "Your board, to the best of its ability, has carried on throughout the year the work entrusted to it, and is pleased to report that all matters in connection with the management of the home during the year have been highly satisfactory. The continued prosperity and usefulness of the home are outstanding facts and tell us simply and positively that in the near future increased accommodation must be provided if the pressing need is to be met and cared for."

UNCLE SAM'S REALTY. Washington, July 17.—The federal government has \$1,342,653,511.81 invested in real property, it has been found by the Federal Real Estate Board named by the Budget Bureau to appraise the holdings. The public domain and the national parks are not included in the appraisal.

BRITISH PRISON REFORM. Portsmouth, Eng., July 17.—Another step towards improving the morale of prisoners has been taken by British authorities. It has been decided to abolish the "broad areas" from prison clothes and to provide ordinary lounge suits for the inmates.

STILL FISHING AT 101. Clarion, Pa., July 17.—Clarion county assessors usually list men of advanced age as "invalids," but when William Kratoch, of St. Petersburg, aged 101, was granted a fishing license the assessor decided a change in the man's status was necessary. Kratoch is now listed as a "retired gentleman." The assessor ruled that a man of 101 years who could fish was not an invalid.

THE FELLOW WHO PAYS THE ADVERTISING BILL IS THE NON-ADVERTISER. He pays just as surely and certainly as if he went to his cash drawer and took the money out. The only difference is that the customers' dollars, instead of getting into his cash drawer, pass right by him and enter the cash drawer of the advertiser. He is paying for the other fellow's advertising but is not being benefited by it.

WHY NOT STOP PAYING THE ADVERTISING BILL OF YOUR COMPETITOR AND LET SOME OTHER FELLOW START PAYING FOR YOUR ADVERTISING THROUGH THE LOSS OF BUSINESS?

PULL THE CUSTOMERS' DOLLAR INTO YOUR STORE WITH ADVERTISING. Advertising is like a magnet—the stronger it is the harder it pulls. The better the advertising copy the greater the results.

LET THE NON-ADVERTISER CONTINUE TO PAY THE ADVERTISER'S ADVERTISING BILLS.

Table with financial data: Maintenance, Wages, Surplus, 1923, 1924.

Appendix herewith is a statement of the invested funds, verified by the auditor, together with his certificates of the correctness of the accounts. Respectfully submitted, F. B. ELLIS, Treasurer.

P. F. Blanchet C. A., auditor, reported the accounts correct. The report of the Women's Aid was as follows: Ladies and Gentlemen: In reviewing the year's record of the Women's Aid of the Home for Incurables have the pleasure of reporting very satisfactory conditions. Your committee has, as usual, shown a most commendable zeal in assisting the board of management in maintaining the efficiency of the institution, promoting the comfort and happiness of the out-in friends under its sheltering care.

The benevolent work carried on by the clergy for so many years, whereby the inmates have the joy and solace of divine service every Sunday afternoon, has been faithfully continued. Friends of the patients, and members of the Home, have the joy and privilege to note how deeply these ministrations are appreciated. Grateful thanks are tendered to the clergy and their choirs for this noble work, also to the Rev. H. A. Cody, who holds a weekday evening service at the home for the greater part of the year.

The admirable rule of weekly visiting by the members of the Women's Aid has been fairly well kept, the result of this system, intended to supplement the official visits of the Board of Management, being entered on the minutes at the regular monthly meetings.

The festive seasons of the year have been, as is customary, times of special effort to lighten and brighten the daily round of hospital life. In October a feast of eggs, fruit, cake and cheese was prepared, and these clever children a more delighted audience; next, a concert rendered by the fine hand of St. Mary's church; a treat of ice cream and hot chocolate, and a happy evening.

The generosity and thoughtful kindness of the King's Daughters in presenting a large gramophone to the home provides a pleasure which whittles away many a weary hour. We note with satisfaction the large number of additional records which have since been received, showing the sympathy of the public with the work of this beautiful charity. Once more we gratefully thank our good friends, one and all.

TO INVESTIGATE INDIAN'S DEATH Vancouver, B. C., July 16.—Chief Jimmy Harry, one of the best known chiefs of the Squamish Nation, is dead, and police are investigating the possibility of foul play. The Indian was picked up in the east end of the city in an unconscious condition from head injuries and sent to the hospital.

RECORD OF OREGON Salem, Ore., July 16.—(United Press).—Tucked safely away in the archives of the state of Oregon for more than three-quarters of a century, the first census of Oregon, one of the most interesting volumes in the keep of the state, has been brought to light.

BURGULARS BURIED SAFE Stolen Strong Box, Looted of \$300, Found in Woods on Staten Island. New York, July 17.—Staten Island police have recovered a 300-pound safe which had been buried by burglars in the woods off Ocean Terrace, Concord. Recent rains washed away the dirt that had buried the safe.

INDIAN TOTS TO HAVE PRIMER Sitka, Alaska, July 17.—Miss Zoe Porter, primary instructor here, is preparing a special primary text book for Indian children. "The present accepted method of teaching," she said, "does not appeal to Indian children, who have never heard its topics before and do not understand; so I am compiling a book telling of their daily life, which they will understand and enjoy."

ENDORSE POLICIES OF PROVINCIAL GOVERNMENT

New Organization, in Convention, Pledges Support to Premier Veniot.

RESOLUTIONS

Development of Grand Falls, Free School Books Among Subjects Urged.

The new Provincial Government Association at its final session yesterday afternoon endorsed the policies of the local government since they assumed office in 1917. Both Premier Veniot and Hon. Dr. W. E. Foster, former leader of the party, were given hearty receptions when resolutions lauding their efforts in the Liberal party, were brought down. Both delivered stirring addresses.

The development of Grand Falls, continuation of Federal aid and the introduction of free school books were among the subjects urged upon by the convention.

The convention was one of the largest and most successful ever held in the province, according to many of those who were present. All the members of the Provincial Government with the exception of Hon. Dr. W. F. Roberts, Minister of Health, who is absent from the city, were in attendance, and nearly all the members of the local Legislature.

Afternoon Session When Colonel McMillan called the afternoon session to order, those who had been on the platform in the morning were joined by Hon. J. E. Michaud, Minister without portfolio, who with 15 delegates from Miramichi, the constituency most remote from St. John, had arrived here by motor during the morning.

The first business was the presentation of the report of the committee on nomination of officers for the new association, which was carried out by the chairman, Dr. W. E. Foster, and MacIver, of St. John. The following officers were recommended: President, Col. Alexander McMillan; secretary, E. J. Hennessy; treasurer, A. Neil McLean. St. John was recommended as the location of headquarters, and the committee also recommended that the Hon. J. E. Michaud, a vice-president who, with the executive, Louvin Arsenault, of Moncton, was named as assistant secretary, speaking the French language.

The report of the committee was adopted unanimously. Vice-presidents were then named as follows: Restigouche—John Harquail, Campbellton; Gloucester—C. T. Richard, Bathurst; Northumberland—Dr. W. T. Ryan, Boiestown; Kent—Alfred Bourgeois, Buctouche; Westmorland—Jas. McQueen, Shediac; Moncton City—John S. Magee. (Continued on page 11.)

BOY HURT BY EXPLOSION. Ignites Chemical Found in Street and May Be Blind. New York, July 17.—Frank Scarborough, ten years old, of Christopher street, found a bottle of white chemical on the sidewalk, lit it, and as a result may be blind for life. He was taken to St. Vincent's Hospital after an explosion, which was heard five blocks, had seared his face and eyes, brought a score of men and women running from apartment houses, and seriously frightened patients in the Northern Dispensary at 83 Christopher street.

The boy found the chemical in a box of refuse, which had been taken from the rooms of several students and placed on the sidewalk for removal. The material, some of which was left in the bottle after the explosion, will be analyzed. It is believed that the substance was used by the students in some photographic process.

INDIAN TOTS TO HAVE PRIMER Sitka, Alaska, July 17.—Miss Zoe Porter, primary instructor here, is preparing a special primary text book for Indian children. "The present accepted method of teaching," she said, "does not appeal to Indian children, who have never heard its topics before and do not understand; so I am compiling a book telling of their daily life, which they will understand and enjoy."

Resolutions Presented.

Eight resolutions were presented by I. C. Rand, K. C. Moncton, chairman of the resolutions committee, and each in turn was enthusiastically and unanimously adopted.

The first was as follows: "Whereas the Hon. Dr. W. E. Foster, on assuming the Premiership of this Province in 1917, was able to inaugurate and carry on until 1923, certain policies which have been of material and lasting benefit to this province, for which he deserves the recognition and appreciation of the people of the province as a whole, and especially of those who were proud to follow him as their leader; therefore

"Resolved, that the friends and supporters of the Provincial Government in convention assembled, extend to Hon. Dr. W. E. Foster their sincere appreciation of his efforts in behalf of the province, and express their regret that he was unable to remain longer at the head of our provincial affairs; and express the hope that, notwithstanding his retirement from the Premiership, he will still be able from time to time to give to his party the benefit of his knowledge and judgment in the administration of the affairs of the province."

Dr. Foster Speaks.
The reading of this resolution was greeted with vociferous cheering and applause. Hon. Dr. Foster, in response to the speaker, stepped to the platform, where he was again cheered and applauded. It was only after several minutes that he was allowed to speak. He said that he appreciated deeply the sentiments expressed in the resolution. The present meeting, he said, called to mind the convention of 1917 when the present Premier and E. S. Carter were named organizers for the province.

A platform which had been laid down at that time, Dr. Foster continued, had been carried out in part, with the exception of one plank—the division of the province into ridings, and there was still the question as to whether this could be done with justice to all parts of the country.

Confident Facing People.
He referred to the manifesto issued by him in 1920 and said that there was not a pledge therein that had not been carried out by the Government. He felt that the administration could face the people and be returned to office under its present leadership. The attendance at and the enthusiasm of the present meeting, he declared, was an evidence that the party was united and had no fear in standing for re-election. "The works of the Government in the province since 1917 stand as a monument to the Liberal Party," declared Dr. Foster. The Opposition, he observed, was without a platform and without one just criticism of the present administration.

Free School Books.
The following resolution was then presented: "Resolved, that this Convention approve of the policy of the free distribution of school books to children attending the primary school grades of the province, and urge the Government to consider the inauguration and extension of such policy, as the financial conditions of the province permit."

Two or three delegates arose and expressed the opinion that all school books in the public schools should be supplied by the Government. Premier Veniot said that this matter had been before the Government constantly and only the financial situation prevented it being put into effect before. He said that by making a start with the primary grades it would prepare the way for the general adoption of the scheme.

J. E. Tighe expressed the opinion that perhaps there were things which the province might well drop in favor of free school books for all. The resolution was passed.

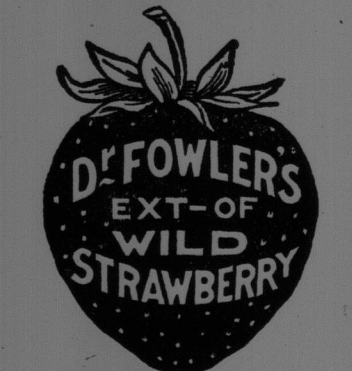

Health Policy Approved.
Approval of the Government's health policy was voiced in the following resolution, which was passed without discussion: "Resolved, that this Convention approve of the policy adopted in respect to the public health of the province and the system inaugurated for the tabulation of vital statistics, and express its appreciation of the good results being achieved in child welfare work, the prevention of communicable diseases and the lessening of infantile mortality."

Agricultural Policy.
The following resolution was then put to the meeting: "Resolved, that in the opinion of this convention the policy of the present Provincial Government which has achieved such splendid results in the interests of agriculture would produce still greater benefit thereto by the adoption of a more vigorous policy in the encouragement of the establishment of central creameries for the manufacture of butter and cheese in those farming districts where sufficient cream would be produced to warrant financial assistance to the creameries on the part of the Provincial Government. And in view of the large quantities of imported pork products that are being sold throughout the Maritime Provinces and with a view to encouraging a greater production of pork and dairy products by the people of the lower provinces and to avoid the present day surplus which is such in evidence in the spring and fall.

Be it further resolved that it would be advisable to establish an abattoir at some central locality in the Maritime Provinces to care for the ever increasing activities in the dairy and pork business. And further resolved that our agricultural industry in general should continue to receive the utmost possible encouragement on the part of the Government. A question, raised by one of the delegates regarding the possibility of a reduction in express rates to encourage agriculture, was answered by Premier Veniot. He said that the Government had appointed a committee to go into this matter and had already succeeded in having some of the rates reduced. It was still continuing its work, he added.

Federal Aid.
Resolutions approving the continuation of Federal aid for road improvement and the hydro policy of the Government were presented, as follows, and carried unanimously without question: "Whereas in 1919 the Federal Government adopted the policy of granting aid to the provinces in the construction and improvement of main trunk roads to the extent of 40 per cent of the cost of such roads, such grants as a whole not to exceed \$20,000,000 during a period of five years; and Whereas all the provinces of the Dominion with the exception of two, have to date expended the several amounts allotted to them within the time stipulated by Federal Aid Act; and Whereas the various provinces have undertaken the construction and improvement of such roads and have now reached a stage of partial completion thereof; and Whereas the said Federal aid has not been discontinued, New Brunswick has met with such widespread approval and to complete the application of that policy to the province as a whole, will be obliged to assume additional financial responsibility not originally contemplated. Be it, therefore Resolved, that this convention urge upon the Federal Government the continuance of such Federal aid for at least another period of five years.

COULD HARDLY DO ANY WORK

Since Taking Lydia E. Pinkham's Vegetable Compound This Woman Feels So Well

Keseville, N. Y.—"I cannot praise Lydia E. Pinkham's Vegetable Compound too highly for the good it has done for me. I was so much troubled with female weakness I could hardly do any work. I saw your advertisement in the paper, and read it to my husband. He had better try Lydia E. Pinkham's Vegetable Compound, so I bought six bottles, and by taking it I am now as well as I was. I am gaining strength and getting fleshy. My female troubles have vanished and I have never felt so well. The Liver Pills are the best I ever took. If you think my letter will encourage other sufferers you have my permission to use it as an advertisement."—Mrs. SARAH BLAISIE, Box 177, Keseville, N. Y.

Doing the housework for the average American family is some task, and many women lose their health in so doing. If you, as a housewife, are troubled with backache, irregularities, are easily tired out and irritable, or have other disagreeable ailments caused by some weakness, give Lydia E. Pinkham's Vegetable Compound a trial. Let it help you.

ance of Federal aid for road improvement and the hydro policy of the Government were presented, as follows, and carried unanimously without question:

"Whereas in 1919 the Federal Government adopted the policy of granting aid to the provinces in the construction and improvement of main trunk roads to the extent of 40 per cent of the cost of such roads, such grants as a whole not to exceed \$20,000,000 during a period of five years; and

Whereas all the provinces of the Dominion with the exception of two, have to date expended the several amounts allotted to them within the time stipulated by Federal Aid Act; and Whereas the various provinces have undertaken the construction and improvement of such roads and have now reached a stage of partial completion thereof; and

Whereas the said Federal aid has not been discontinued, New Brunswick has met with such widespread approval and to complete the application of that policy to the province as a whole, will be obliged to assume additional financial responsibility not originally contemplated. Be it, therefore

Resolved, that this convention urge upon the Federal Government the continuance of such Federal aid for at least another period of five years.

Better than ever

DOMINION ROYAL CORD TIRES—for years the standard of tire durability, mileage and tire values in Canada—the standard by which all tires are measured.

—now better than ever because of the two greatest features discovered in tire building since the cord tire itself was developed—the Web Cord process and Sprayed Rubber.

These features are exclusive in Dominion Royal Cord and U-cord Tires in Canada.

Dominion Royal Cord Tires, because of these new processes, now have greater uniformity of wear—more resiliency—more mileage—greater value than ever.

Dominion Cord Tires made by the Web Cord process are as much better than cord tires made by the old method, as cord tires are better than fabric tires.

These great advantages come to you without increase in the price—they are extra value—more mileage—which do not add a cent to your cost of Dominion Cord Tires.

Dominion Tires are GOOD tires Royal Cords — U-cords

Funding of Motor Fees.

Whereas, since 1917 the roads of the province have been reconstructed and improved to such an extent as to receive the commendation of all persons using the same; and Whereas, these improvements have been brought about under the road policy adopted by the present administration in 1919 and 1920, whereby it was decided to fund the automobile fees for the improvement of secondary trunk, branch and by-roads, and to comply with the offer of Federal aid on main trunk roads; be it therefore

Resolved, that this convention approve of the road policy so adopted and carried out, and urge a continuance of the funding of automobile fees for the purpose originally intended.

And whereas, it has been represented that the Federal Government may discontinue Federal aid to our main trunk highways; be it further

Resolved, that should such aid be discontinued this convention be of opinion that the Government of the province should complete the reconstruction and improvement of the remaining main trunk roads as rapidly as the financial conditions of the province will warrant.

Hydro Policies.
Whereas, the Provincial Government has declared a policy of public ownership, ownership and control of the water powers of the province; and Whereas, the hydro development of such services to large classes and sections of the province to which such benefits have heretofore been denied; and

Whereas the Premier has committed the province to the policy of the development of the water powers of Grand Falls to be undertaken as soon as the international questions involved can be settled; be it therefore

Resolved, that this convention heartily approve of the policy of developing the water powers of New Brunswick in the manner carried on by the Government, and that it urge the proposed development of Grand Falls, the work to be undertaken as soon as the international questions relating to the St. John River and its tributaries are settled; and be it further

Resolved, that this convention approve of the action of the Provincial Government in aiding research work to determine the commercial feasibility of the development of tidal water power on the Petitcodiac River, and urge the Government to give all possible encouragement thereto.

Port Development.
At this point Premier Veniot arose and, remarking that the Provincial Government had been doing everything in its power to induce the Dominion Government to provide better transportation facilities for New Brunswick and the other Maritime Provinces, asked to be permitted to present the following resolution:

"Resolved, that this convention be of the opinion that the influence of the Provincial Government should be used to the utmost in an endeavor to obtain better transportation facilities for New Brunswick, and especially direct attention to greater development of our winter port and other ports suitable for trans-Atlantic shipment."

He said that the people in the north

Don't Hide Them With a Veil! Remove Them With Othine—Double Strength

This preparation for the removal of freckles is so successful in removing freckles and giving a clear, beautiful complexion that it is sold under guarantee to refund the money if it fails. Don't hide your freckles under a veil! Get an ounce of Othine and remove them. Even the first few applications should show a wonderful improvement, some of the lighter freckles vanishing entirely.

Be sure to ask the druggist for the double strength Othine; it is this that is sold on the money-back guarantee. Stenhouse, Ltd., 85 St. Francois Xavier St., Montreal, Que.

New Brunswick were one with the people in the south of the province in their desire for the proper development of St. John and other ports, in spite of rumblings which had been heard from time to time regarding their jealousy of the southern sections.

Veniot Is Endorsed.
The last resolution, and one that was the most enthusiastically received, was that in which Premier Veniot and his policies were endorsed and the support of all delegates pledged. It was as follows:

Whereas on the retirement from the Premiership of the province of Hon. Dr. W. E. Foster in February, 1923, the Hon. P. J. Veniot, Minister of Public Works, was called to fill this responsible position; and Whereas the Hon. P. J. Veniot since assuming the office of Premier has proven himself to be a capable and careful administrator in carrying out the policies of the Government; be it therefore

Resolved that the friends and supporters of the Provincial Government do heartily approve of the choice of the Hon. P. J. Veniot as successor to the Hon. Dr. W. E. Foster, and pledge him an energetic and whole-hearted support, and express the hope that he may long be spared to direct the destinies of our province.

Given Remarkable Ovation.
Prolonged cheering broke out immediately the reading of the resolution had been completed and continued for some time; it was again resumed as the Premier arose to speak and "For He's a Jolly Good Fellow," broke out in one corner of the hall and gradually took on volume until the whole of the throng in the big auditorium was contributing to the ovation. It was one of the most flattering receptions ever given a public man in the city of St. John. As the Premier addressed the gathering, he was frequently interrupted by cheers and hand-clapping.

He said that the resolution gave him added encouragement to go ahead and fight for the party and for New Brunswick; he was greatly moved by the wonderful reception which the resolution had been given by the meeting.

It was his honor, he continued, to be the first of French extraction ever to be called to the high position of Premier of New Brunswick, and on behalf, not only of himself, but of all the French-speaking population, he desired to express his earnest appreciation of the honor that had been done them and him by the English-speaking majority of the province. He said that he could frankly promise to carry on his duties as he had heretofore, to the best of his ability, without consideration for race or creed.

At one time, he said, the matter of race was one of the bitter political questions of the province, but now experience had convinced him that it had entirely disappeared from among both peoples. Of the 387,000 people in New Brunswick, he added, 182,000 were of French descent and he felt that the future destiny of the province depended on the whole-hearted union of the two peoples towards the one common end—the general prosperity of the country.

He congratulated and thanked the local committee for the excellent arrangements for the convention and, upon his suggestion, votes of thanks were tendered to the temporary chairman and secretary for their work.

He was proud to say that in St. John the old party was united and strong as ever.

Organizers to be Named.
The convention approved the appointment of two organizers for the party in the province, one of them to speak French and look after organization in the counties with mixed popu-

lations, the other to be English-speaking and work in the other constituencies.

The appointment of these two officials was left in the hands of the executive in consultation with the Premier.

In connection with the appointment, J. D. McKenna, M. L. A., Sussex, said that all the organizers in the world would be useless unless all the delegates present would, on their return to their homes, start work by which the organizers would receive the undivided support of the members of the party in their constituencies.

A hearty vote of thanks was extended to the members of the resolutions

committee and that which dealt with the nomination of officers for the new organization.

Before the meeting adjourned the Premier called on Hon. L. A. Dugal, referring to him as one who had done more to bring the present party into power than any other in the province. As he stepped to the platform, Mr. Dugal was cheered loudly.

He spoke first in English and then in French, saying that he was present to help along with the good work in which he had taken so great interest since 1912. He thanked the delegates for their wonderful tribute of applause. The meeting was brought to a close with the National Anthem.

A Bicycle Saved Tom \$15 A Month Rent

TOM Reid was sick of paying high rent for cramped quarters in the centre of the town. He only stayed on because he was close to his work.

One Sunday he went to the outskirts to see a friend, and right next door was a snug, cosy home to rent, with a large garden, for \$15 a month less than Tom was paying.

"I've wanted a place like this for years," said Tom, "but it's too far to walk from here to work, and I've never fancied hanging to a strap in a slow tiresome street car."

"Why not ride a bicycle to work?" suggested his friend. "I do. And it's just nice cycling distance. The first three months' saving in rent will pretty nearly pay for a C.C.M. Bicycle, which will last you for years."

"Good idea," said Tom. "I'll bring the wife out to see the place."

A month later Tom moved out to the new home, rode a bicycle to work, and spent part of his spare time in the garden.

At the end of the summer Tom felt like a new man. He was saving money on rent. He was living better and at less expense. And all made possible because a swift, easy-running C.C.M. Bicycle brought his suburban home within a few minutes of his downtown job.

There are scores of other men who could follow Tom's example with benefit to themselves and their families.

The C.C.M. dealer will make it easy for you by selling you a bicycle on easy payments. You can pay him from the rent you save.

What Is A Half Hour Worth?

J. P. Morgan figured that every hour of his time was worth \$1,000, says Bruce Barton, "and he had no patience with men who were late for appointments or who, when they came to see him, did not give him his money's worth in exchange for the time he took."

How much do you lose, in your business, by being too late—by trusting to inadequate transportation? Bruce Barton goes on to say that Lord Nelson declared he owed all of his success in life to having been a quarter of an hour before his time.

Just because you have never got around to buying the extra automobile you need, you may be losing sales, missing important business appointments. You are frequently a half-hour late and that means—too late.

There never was a time when motor cars were so inexpensive as right now. The used car columns of The Times-Star list scores of excellent autos which are in good condition and which will be had at most reasonable prices.

HEAVY HITTING FEATURES GAME

Portlands Defeat Clippers and Increase Lead in City League.

The Portlands increased their lead over the St. Roses last evening when they captured another game from the lowly Clippers, the score being this time 9 to 5.

Jumping on L. Sterling in the initial chapter and keeping up a steady bombardment during the game, the Portlands rolled up a total of 11 hits. The Clippers also contributed several lead errors at crucial times.

Hannah was on the mound for the winners and for four and two-thirds innings he did not allow the semblance of a hit. A scratch hit in the fifth frame by M. Griffin was followed by three clean hits in the sixth which added by a pass and an error, gave the Clippers four runs.

A feature of the game was a home run clout by Snodgrass in the sixth frame. Corrigan led off with two national catches, of foul flies near the wire netting back of third base.

Table with 5 columns: Player Name, A.B., R., H., P.O., A.E. Rows include Corrigan, Snodgrass, Gorman, Sparks, Logan, Hannah, Capson, Pierce, and Clippers.

WALTER JOHNSON HAS GREAT RECORD

He Made His Major League Debut Eighteen Years Ago.

Pitchers come and go in the majors, but Walter Johnson seems destined to go on forever, says Billy Evans. It will be a long time before baseball boasts another man like Johnson. Pitchers of the Cy Young and Walter Johnson type are few and far between.

Walter Johnson made his debut in the major league 18 years ago. Not another pitcher in the league at that time remains in active service. It was his good fortune to umpire the game in which Johnson made his debut. Detroit beat him, 2 to 1, after a hard struggle.

Recently Washington returned home in first place. 'T was the first time in the history of the club that the team has occupied so high a position in the race so late in the year. In the first place, with nine straight victories to its credit, Washington fans turned out to the extent of 25,000 to pay homage and tribute.

Nationals' Pitching Ace

Baseball celebrations are usually held in first place. Before a big crowd the home team invariably plays baseball. The crowd that turned out to welcome the Nationals was the biggest week-end crowd ever to see a game in Washington.

Manager Harris put it up to Walter Johnson to keep the fans in good humor. Ever since he joined the Washington club, Johnson has had to carry the pitching burden for his team. Did Johnson deliver? He seldom fails.

On this occasion he shut out the Athletics, making it a straight fight for the Nationals and his 10th shutout in the American League. As I stood back of the plate calling balls and strikes, I marvelled at Johnson's pitching as he mowed down the Athletics with consummate ease.

Fast Ball Shift Puzzles. While he did not constantly resort to the dazzling speed that early in his career made him famous, he always had something in reserve. As he struck out that dangerous hitter, Sammy Hale, on three fast balls, to end the game, the thought came to me that in a pinch his fast one was just as puzzling as 18 years ago. It seems that fate has ordained that I should work in many of Johnson's most remarkable games. I umpired his debut. Worked the three games in New York when he established a record by shutting out the Yankees in three successive contests. Officialled in another game in which he struck out 10 men in five innings, only to ease up with a rec-

She is the first to swim the River plate in the Argentine. This she did in 24 hours and 15 minutes, covering a distance of 26 1/2 miles. Miss Harrison is now in England training for a swim across the English channel, which she plans to attempt late in July.

ord in his grasp, when his team-mates got him a five-run lead. Record Means Nothing. If Johnson cared for records, in all probably every worth-while pitching feat would now be to his credit. Records, however, mean nothing to Johnson. He has always been a team player. Winning the ball game has always been his ambition, regardless of the score or hits.

Johnson cannot go on forever. They do say he is thinking of retiring this fall and buying a minor league club. Major league baseball will suffer a great loss if he does. Johnson cherishes one great desire, to pitch in a world series. Manager Harris of the Nationals is hopeful that he may give him that opportunity this fall.

TO PROMOTE SPEED SKATING CONTESTS

Despatch Says Rickard Will Invite Charlie Gorman to Compete.

"Tex" Rickard, famous promoter, has become interested in the speed-skating game and has appointed "Bobby" McLean, well-known here, as his representative to arrange a series of professional indoor meets this year in the big United States cities, according to a recent press despatch from Saratoga Lake, N. Y. The despatch adds that Charlie Gorman, United States national and international skating champion and holder of the world's record for the 440 yards, will be invited to compete. Asked about the matter this morning, Gorman said he had received no bid yet. He was asked what course he would pursue in case he did receive an offer and replied he was undecided.

Among the other well-known skaters who will be asked to appear are Arthur Staff, Oscar Mathieson, Thunberg, Olympic winner, Joe Moore, Edmund Lamy and Everett MacGowan.

LOCAL MAN WINS IN CANOE DOWN SOUTH

St. John's prowess in the rowing world has again been recognized. F. A. Mac Andrews has received word that his son, Aubrey H. had competed in the water sports at Fitchburg, North Carolina, on July 4, representing St. John, and won out against a dozen competitors in the canoe race. Aubrey H. Mac Andrews has been in forestry work with the United States Government since Syracuse University, where he was a student, closed for the summer.

MARTELLO DEFEAT LEAGUE LEADERS

The Martellos took the Intermediate League leaders, St. Luke's, to camp last evening on the Queen Square diamond by a score of 11-3. Features were a circuit-clout by Mac-Vickers of the Martellos and the pitching of Gerald Ring, Martellos' moundsman. Ring fanned 12 men in seven innings and allowed but three hits. The batteries were: For the Martellos, Ring and Goldie, and for St. Luke's, Williams, Kincaid and Stackhouse.

BINGEN WORTHY IS SOLD. Bingen Worthy, 2,150, campaigned successfully by L. R. Acker, of Halifax, on Maritime and Maine tracks, has been sold to J. P. Shea, Guysboro, for stock purposes. Starting in 25 races, Bingen Worthy never failed to get in the money and was rated as one of the gamest and strongest horses in the east.

NEED ONE GAME TO CLINCH SERIES

Victory Over Post Office Gives Water Men Substantial Lead.

The Water Department aggregation moved to within one game of the championship of the first series in the Civic and Civil Service League by defeating the Post Office on the North End grounds last evening, by the score of 24 to 10. The Water Works got away to a lead in the second inning and they were never headed. A bombardment of hits in the fourth, coupled with a series of errors, resulted in runs for the winners. Hammond twirled for the Post Office and he was batted hard and, in addition, was accorded poor support. Keeffe, who anchored the Water side for the winners, also was nicked fairly hard, but he received much better support.

The Water Department will meet the Customs tonight on the East End grounds, and should they cop tonight's battle they will up the first series. The Customs already have defeated the league leaders once and they are out to repeat tonight.

NEW ARRIVING CUBS INTERPERSONAL PASS

Pitching to Unoccupied Base to Evade Batter Now a Balk. An interesting and important ruling regarding the question of a pitcher passing a batsman intentionally was made recently by John A. Heydler, President of the National League. The ruling was brought about because of an unusual incident in the game between the Reds and Phillies in Cincinnati on June 9. In that game Wilbur Hubbell, the Philadelphia pitcher, acting under orders from manager Arthur Fletcher, threw four balls to first baseman Holke, thus passing Curtis Walker, the Cincinnati batsman, without having the catcher stand at one side and receive the balls which is forbidden now under the rules.

A runner was on third base at the time the incident happened. Allowing intentionally passing the batsman, ever was to delay the batter to take his base. President Heydler ruled that each of the throws to the first baseman should have been called a balk and not a ball. He sent the following bulletin to all the umpires on the National League staff: "When that pitcher (for the purpose of intentionally passing the batsman) deliberately threw four balls to the first baseman he made a fair play of the rule, and indirectly of the game. Rule 23, which has to do with penalizing a pitcher for delaying the game, cannot be taken advantage of in this manner. "If any more attempts of this kind are made, call a balk for each throw to first unless a runner is occupying that bag. You have full authority to do so under the rules."

The rule under which Fletcher had his pitcher evade the intentional pass rule provides that if a pitcher throws the ball to any player other than the catcher the action shall be called a balk. The purpose of the rule, however, was to impose a penalty on pitchers who delayed a game. This reads as follows: "If, after the batsman be standing at his proper position ready to strike at a pitched ball, the ball be thrown by the pitcher to any player other than the catcher when in the catcher's lines and within ten feet of the home base (except in an attempt to retire a base runner), each ball so thrown shall be called a balk."

SENATOR'S BOY MANAGER SUSPENDED INDEFINITELY

Washington, July 17.—Manager Stanley Johnson of the Washington American League baseball team, who was ejected from the game Monday by Umpire Holmes, has been indefinitely suspended. He will not enter the lineup until President Johnson officially disposes of his case.

ALEXANDER BREAKS WRIST OUT FOR SEASON

Chicago, July 17.—Grover Cleveland Alexander, veteran pitching ace of the Chicago Cubs, suffering from a broken wrist, will not pitch for at least a month, and probably not at all this season. Alexander, it was learned, has a fracture of the wrist, which two X-ray pictures failed to reveal since he was injured in Pittsburgh.

The pitching veteran has won 9 of 12 games this season. His injury is the first serious setback to the club this year, but it has almost ruined Chicago's hopes as a pennant contender.

SMALLPOX SCARE AFFECTS BATTING

Harry Heilmann Says Vaccination Made His Arm Sore.

Detroit, July 17.—When a major league player slumps in his batting he always has an alibi. Very often the excuses offered for the failure to hit are classes. You wonder where they dig them up. One of the big surprises of the present American League race has been the slump of Harry Heilmann, champion batsman of the organization prevented by Ban Johnson. For the first eight weeks of the season Heilmann was his old self with a mark around 400. Many of the critics opined that Heilmann had a great chance to win the most valuable player trophy for 1924.

Then inside of a couple of weeks, Heilmann's batting average dropped 50 points, only ending when he was removed from the lineup. Here is the way Harry explains it and his alibi seems logical: "A smallpox scare caused all of the Detroit players to be vaccinated as a preventive. Mine took with a vengeance, a badly swollen arm resulting. "I take a full swing at the ball. This was impossible with my sore arm. I was forced to use a chop swing. I simply couldn't time the ball. My batting slumped badly. "When the arm healed my timing of the ball was breaking 41 birds out of a bag of co-ordination between eye and swing. I simply couldn't get the ball safe."

I have done better of late, the slinging of my style, due to the vaccination arm, seems to have thrown me entirely off my stride."

MANY TAKE PART IN TRAP SHOOTING

L. McIntyre and L. S. DeVoe Win in Clay Bird Competition.

Trap shooting was enjoyed at Glen Falls last evening and some very good scores were made by the contestants. L. McIntyre and L. S. DeVoe tied for high gun, each breaking 41 birds out of 50. Ted Marsh, of Toronto, a member of the Olympic committee who selected the team to represent Canada, visited the range and tried his hand at the game. A test of the new gun and ammunition proved very interesting. The following are the scores of the participants, some of whom were making their initial appearance: Shot at Broke: L. S. DeVoe 41 M. J. Shiny 40 W. C. McIntyre 39 John Landry 38 T. Marsh 36 L. H. Hutton 35 F. H. Estabrooks 30 J. W. Niles 25 Chester Gandy 25 W. B. Baxter 25 14

YACHT CRUISE STARTS SATURDAY

Boats Leave R. K. Y. C. at 2:45 O'clock, Destined for Fredericton.

The Royal Kennebecasis Yacht Club fleet will sail on the annual cruise from this club moorings at Millville on Saturday afternoon next at 2:45 o'clock under command of Commodore James W. Barnes. The destination of the squadron is Fredericton. The first stop on Saturday evening will be Hendersson's Point or Brown's Flat. The fleet will anchor in Gagetown Creek for Sunday evening. On Monday the destination is expected to arrive at Fredericton on Tuesday. The fleet is expected to start down river from the capital on Thursday morning and be at anchor at Crystal Beach on Sunday morning at 10 o'clock, daylight time, to take up friends of the yachtmen so they will be able to be present at the service.

CANADIANS WINS PRIZE

Bisley Camp, July 16.—Private D. Burke, Ottawa, won the National Rifle Association's Bronze Medal, being the special prize for the competitor making the highest aggregate score in the first stage of a possible 105. 105 out of a possible 105. At the 200 yard range Burke made a possible of 35, but in the second range, at the 300 yards, secured 33. At the 600 yard range, the third and last of the first stage, he scored his possible for the day. Prize is the most coveted of all prizes by the marksmen of the British Empire. The second stage will be shot Friday.

DALTON TURNS IN ANOTHER VICTORY

Downs His Oldtime Rivals, the Royals, Last Night, by 8 to 2.

"Tack" Dalton took another fall out of his oldtime rivals the Royals, last evening on the South End grounds when the St. John the Baptists batted out an 8 to 2 victory and thereby considerably improved their standing in the league race which has about one more month to run. In addition, Dalton got a double at bat. Up to the fifth inning the score was tie, 2 all, but in that frame, the Saints landed heavily on Diggs' shoots and scored six runs. With one out, Earl Nelson went in the box and struck out Gaynes and Martin, ending the rally.

Another big crowd watched the game and applauded several good plays. Moran's hitting was a feature, he getting four clean hits in as many times in the four times up. Two double plays featured the game. Royals—A. B. R. H. P. O. A. E. R. MATHEWSON'S ARM HURT

Saratoga Lake, N. Y., July 17.—Christy Mathewson, president of the Boston Braves, is nursing a badly wrenched arm. While driving his automobile yesterday he was in collision with a car driven by George Watson of Lake Placid on the highway between Lake Placid and this village.

Ball Problems By Billy Evans

QUESTIONS.

1. First base is occupied. The batsman grounds to the first baseman, who steps on the bag and throws to catch the runner going to second. Is the runner forced or must he be touched with the ball?—L. L. S. 2. Why doesn't the infield rule apply with only first base occupied and less than two out?—G. B. M. 3. Can a balk be made by the pitcher while not standing on the rubber? For example, with a runner on first, the pitcher takes a position about a foot in back of the rubber, starts his windup and then snaps the ball to first, catching the runner napping.—R. H. M.

ANSWERS.

1. The moment the first baseman fields the ball and touches first base, retiring the batsman, he removes the force. That makes it necessary to touch the runner at second. Mere touching the bag ahead of the runner does not complete the out. 2. The infield fly rule was made to protect the baserunner and prevent double plays. If a batsman with only first occupied runs out his infield fly hit, there is never a chance to make a double play. If he fails to do so he should suffer a penalty. For that reason the infield rule does not apply with only first occupied and less than two out. 3. It is a balk. The pitcher has no right to start his delivery unless on the rubber in a position to pitch.

Games Tonight

In the South End League tonight the Trojans meet the Machine Gunners. Kerr and Johnson will be the opposing twirlers. Tonight's game in the Intermediate League on the North End grounds will be between the Fairville Canucks and the Nationals should be of interest to the fans, as a win for the Nationals will tie the Canucks for first place. These teams have met five times, the Nationals having won three, lost one and tied one. This game will be the last in the league between these teams and both are out to win. Armstrong or Leary will pitch for the Nationals and Burgess or Nelson for the Canucks. The league standing is as follows: Won Lost Tie Canucks 9 8 1 Nationals 8 8 2 Martellos 4 8 0 St. Luke's 3 9 1

MARITIME MEET OFF UNTIL SEPT. 6

The Maritime track and field championships which were scheduled to be held at Halifax on August 16, have been set over until Sept. 6, owing to the Halifax Carnival regatta dates conflicting. This announcement was made last evening by A. W. Covey, president of the M. P. B. A. A. U. of C.

Few men care to linger over the hitherto unpleasant job of shaving. So the development of DERMUTATION means much to those who value their time. DERMUTATION is the scientific term for changing the character of "whiskers" from wiry bristles to soft, pliant wisps. DERMUTATION is the transformation in the beard caused by the lather of Mennen Shaving Cream. A process discovered by the Mennen Scientists reducing shaving time by half and adding supreme comfort to the skin. Mennen DERMUTATION takes place with any kind of water—hard or soft and at any temperature—ice cold, hot or warm. Just wet your brush—apply a half inch of Mennen Shaving Cream; instantly you have a rich, copious lather, that begins immediately to soften the beard by DERMUTATION. Among the ingredients composing Mennen's is also Boro-glycerine—a wonderful emollient. It relaxes and cleanses the pores. Your face is cleaner—smoother—more refreshed after a shave with Mennen's. Get a tube in the familiar green and white striped package and experience the shaving comfort that DERMUTATION brings.' Mennen Shaving Cream. The Mennen Company, Limited—Montreal, Que. S-303

TRUCK OWNERS CHARGE UNFAIR DISCRIMINATION

Ask Common Council to Tax All City Motor Vehicles Alike.

Equable taxation by the city on all motor vehicles was strongly advocated at this morning's committee session of the Common Council by a delegation of about 15 local owners of motor trucks. Spokesmen for the delegation charged unfair discrimination against motor truck owners who were compelled to pay eight different taxes on one truck, according to figures presented by C. H. Townshend, one of the speakers.

Mr. Townshend recalled that the similar delegation waited on the council last year, but said no satisfaction had been given. He and other owners considered it unjust that they be taxed on their trucks, while owners of pleasure automobiles, which use the city streets as motor trucks, escaped free. He also declared that very few city-owned trucks used the roads of the province, yet they were compelled to pay almost as much to the Provincial Government as to the city. He presented the following figures as taxes on a truck costing \$800:

Table with 2 columns: Tax Type and Amount. Includes Provincial license (\$22.00), Road patrol tax (4.75), Driver's license (2.00), City license (13.20), Workmen's Comp'n Bld. (6.00), City driver's license (1.00), Water tax (5.00), City assessment (24.15), Total (\$78.10).

The Mayor thought the city assessment was only about half the amount stated, while Commissioner Wigmore declared that the water department did not collect the water tax from truck owners. Even with this taken off, the Mayor expressed the opinion there was considerable justice in the case presented by the truck owners.

Mr. Townshend thought that all should be treated fairly. By means of these trucks, many people earned their living in the city. Pleasure cars, however, went scot free. He suggested off-hand that if a tax was necessary, it should apply to all, and that so much a pound be charged.

Commissioner Wigmore thought the truck owners should go to the Government. He said he could never see any justification for the government in taxing trucks that never went outside the city limits.

Commissioner Frink: "The Government needs the money—that's their justification."

Mayor Potts thought there would be little likelihood of any action in regard to this matter. He pledged his word, however, that the matter would receive the consideration and action of the Common Council. With this assurance, the delegation withdrew.

Want North End Grounds Another delegation composed of Charlie Gorman, champion speed skater, and A. T. Snodgrass, was heard in regard to proposals to convert the North End grounds into a centre for athletic activity to include baseball, football, running, speed-skating etc. Mr. Snodgrass presented the proposals verbally at first, but when he was asked by His Worship to put their application in writing, he withdrew and did so.

Commissioner Frink said that the Council had purchased this piece of ground for playgrounds at a cost of about \$12,000 and the original intention was to use it only for playgrounds purposes. He said that the proposal attempted to buy the Allison grounds from the city but this had been defeated.

The Common Clerk explained that the North End Improvement League had recently been incorporated to control these grounds and that so soon as the city solicitor returned, a formal lease would be drawn up between the city and the league.

In view of these facts, the Mayor said there was not anything the city could do respecting the application. He decided to notify Messrs. Gorman and Snodgrass to this effect.

J. R. Harkins, commissioner of Canadian National Parks, wrote setting out certain conditions for the proposed lease of the Fort Howe grounds by the city.

Commissioner Frink said he would bring in a report on Monday.

A recommendation from Commissioner Frink that the city build a retaining wall near the property of the Sterling Realty Company, Ltd., at 104 Metcalf street, was approved.

A request from Commissioner Harding that an extension of \$2,750 be granted him on an authorization to spend \$500 on repairs to the central police station was granted.

Would Abolish Top Wharfage Commissioner Bullock asked the Mayor if he had received any communication from the port committee of the Board of Trade in regard to top wharfage. The Mayor said he had not.

Mr. Bullock said he had been asked to bring the matter before the council. The port committee, he said, had advocated abolition of top wharfage charges on the ground that Portland, Me., was a free port, and by doing away with these rates St. John would be put in a better position to compete.

Commissioner Bullock said that the city collected \$127,000 last year from this source, and asked, if this was abolished, where would that amount be raised? Could the port afford to do without this revenue?

Commissioner Wigmore said if top wharfage rates were discarded there would be a big plea to do away with side rates as well.

Commissioner Bullock wanted to know if he had authority to write the Board of Trade committee that the council was opposed to an abolition of the rates.

The Mayor said Commissioner Bullock did not have authority. There was not anything definite from the committee before the council for action.

Commissioner Harding said he would like to arrange a test of the big motor-driven hook and ladder truck with the council members present. This was agreed to by the members and a date and time will be set.

The sons are Robert F. of Boston, George M., of Montreal, and Walter L., at home. The daughters are Mrs. John Oikel, of Lynn, and Mrs. Harry Chellis, of Bath, Maine. The funeral will take place from his late residence, 62 Protection street, West St. John, on Saturday afternoon at 2:30 o'clock.

TO REBUILD AFTER TUESDAY'S FIRE W. G. Clark Speaks of Plans—Were Tires Stolen? W. G. Clark, president of J. Clark & Son, Ltd., whose automobile premises in Germain street were badly damaged by fire on Tuesday evening, said this morning that there was a policy of \$2,000 on the building, a general insurance on the second-hand automobiles which were in the building at the time of the fire and which were mostly a total loss and no insurance on the 150 tires destroyed. Mr. Clark said that he was of the opinion that some of the tires which had been thrown out of the building to escape the fire had been stolen. His heaviest loss, he intimated, would be from the tires.

It is the intention of the company to re-build, Mr. Clark said, on the site of the destroyed building. Plans had not yet been determined on but he thought the new structure would be either brick or concrete.

The damage done by the fire, Mr. Clark estimated, would reach about \$15,000.

As Hiram Sees It "Hiram," said The Times reporter to Mr. Hiram Hornbeam, "what do you suppose the seagulls are thinking as they wing their way slowly up or down Courtney's Bay when a baseball game is in progress on the South End diamond?"

"They're likely thinkin' about where they'll get the next meal," said Hiram.

"Are you sure," said the reporter, "that the small boys haven't got them hired to retrieve the balls that are batted into the bay?"

"The boys," said Hiram, "don't need no help fer that job. Some o' them there South End fellers could swim half way across the Bay o' Fundy. The thing that surprises me is that some of 'em haint learnt to fly. We'll all be flyin' some day. An' we'll be taxed fer it, too—I'll bet a dollar. Yes, sir—we'll be taxed fer swimmin' out the air. That's about the only thing left. By Hen!"

A. C. Currie, Home From U. S., Says Tourist Outlook Good.

Alfred C. Currie, local agent for the Eastern Steamships, Ltd., arrived in the city this morning on the S. S. Prince Arthur. He had been on a business trip to Boston and New York. He said the passenger travel on the company's two steamers, the Prince Arthur and the Governor Dingley, continues heavy and that freights are slowly but steadily increasing. He attributes the latter to the fact time being made by the two liners. On his trip to New York he traveled on the new liners Boston and New York, which were only recently completed and are declared the most modern equipped passenger steamers on the Atlantic. He said that these steamers cost \$1,500,000 to construct and equip.

Other passengers on the Prince Arthur were: Sherman Patterson of Boston who came here on a visit to Misses Constance Ewing and Christina Higgins. They have been in training at the city swimming resort at the foot of Kennedy street and intend to make an attempt to swim from the scows to the opposite side of the river some time soon when tide conditions are favorable. They will be accompanied by Mark Burns, instructor, who has been taking a keen interest in their work.

The recent warm spell attracted hundreds to the swimming resort daily and the facilities were inadequate to accommodate all. A large number of boys and girls have been visiting the scows daily and receiving instructions in swimming. Since the first of the season many have progressed sufficiently to permit of them going into deeper water. In addition to teaching swimming, Mr. Burns is also assisting many in learning the proper method of diving. This has been making a great hit, and as a result many boys and girls give promise of developing into clever divers.

GIRLS PREPARE TO SWIM THE RIVER

Two Ready for Long Journey From the Swimming Scow.

Two young ladies of this city are planning on swimming across the St. John river. The young ladies are Misses Constance Ewing and Christina Higgins. WAS GREAT TIME FOR BOY SCOUTS

Trinity Troop at Mathers' Beach—Badges Won—Sports Held.

The Trinity troop of the Boy Scouts who returned from their summer camp at Mathers' Beach, Long Island, on Tuesday had a great outing. Just previous to their departure Dr. Peat and Dr. Chipman visited the camp and made a short inspection. During camp several tests and badges were passed including two tenderfoot badges, three second class badges, two camp cook badges, six athletes, one ambulance, one pioneer, one public healthman badge, two electricians, one for swimming and two firemen. In addition there were several star tests for the cubs.

On last Saturday sports were held. The winners were: Water bolting contests, James Wadwell and Wilbert Hart; cub races, Fred Jackson; scout races, Fred Wesley and Secord Gill; running high jump, Victor Regan; running broad jump, James Wadwell and Curtis Johnston; throwing cricket ball, Clayton Peacock, Albert Fogel; shot put, Wm. Ward; 100 yards swim, Victor Regan; handcap swim, Victor Regan; diving, Edgar Williams; signalling, W. Hart and Albert Fogel; tent inspection, tent No. 3, Ralph Whitney, Fred Wesley, Albert Fogel, Wm. Ward and Fred Wesley.

Through the kindness of Rev. R. E. J. Britton, "All Saints" church at Cliff-ton was used for the disposal of the scouts and Holy Communion was celebrated at 11 o'clock on Sunday morning by Rev. D. H. Loweth of Providence, R. I. Miss Swan of Boston sang an appropriate solo during the offertory. Mort. Breen kindly ferried the boys to the mainland.
