A PROFITABLE PROFESSION FOR WOMEN

Paying from \$30 to \$45 a month and living, while in training.

McLean Hospital Training School for Nurses offers a three years' course in the care and treatment of nervous and mental diseases, with affiliations that also offer training in medical, surgical and obstetrical work. Instruction consists of lectures and practical work on the wards. Board, room and laundry are furnished and an allowance of \$30 per month for the first and second years, and \$45 per month for the third year. This course is open to young women who have had 4 years or equivalent in high school. Entrance January and September. For information apply at once to
MISS HELEN C. SINCLAIR, R.N., Supt. of Training School, Waverley, Massachusetts.

UNIVERSITY FEDERATION

From an Editorial in The Gazette—The New Catholic Weekly Newspaper of Halifax

Among the thinking men of Eastern Canada no question that has arisen within the past year has awakened more deep or more anxious interest than the question of University Federation. Our own Province of Nova Scotia indeed has always been profoundly concerned in matters educational, and if the present condition of our educational system is at fault, the cause must be sought not so much in the apathy of our people as in the misdirection of their efforts. It must not be thought that the movements towards federation necessarily implies censure upon any of our existing institutions of higher education. We have learned to look with justifiable pride upon our

Catholic colleges, which, in the face of innumerable obstacles, have persevered faithfully and well. We have noted the marked progress made within the last decade of the University of St. Francis Xavier at Antigonish and we have seen it grow to a position of prominence and respect in the minds of all the people of Eastern Canada, or indeed of all Canada, regardless of denominational belief. We have often been moved to admiration by the magnificent sacrifices made by the Catholics of Eastern Nova Scotia for their own college, the outstanding example of which was the raising of an endowment fund of half a million dollars in 1920. We have observed the deep and unswerving loyalty and devotion that

were borne to that splendid institution by all who had come under the happy spell of its ennobling influence, or under the gracious charm of its ripe scholarship. And what we say of St. Francis Xavier's we might say of other Catholic colleges in Eastern Canada. We instance St. Francis Xavier's because it is the best known of them all and because it has made the most marked progress during recent years.

Problems of the Future.
Great, however, as has been the work of our Catholic colleges in the past, it is to the present and the future that we must now look. What does the present hold and what the future promise? What are the problems of the future and how are our Catholic colleges prepared to meet them? We have said that the movement towards federation does not necessarily imply censure upon our existing institutions. But it is not censure upon a man or institution to say that someone or something better is available, and therefore if the scheme of university federation offers a more effective solution of the higher educational problems of today and tomorrow than is offered by our existing institutions we should accept that solution without hesitation and without regret.

A Federation of Equals.
We live in an age of specialists and super-specialists, an age of fierce competition and of bitter strife. The young man setting out into life today must have the best possible equipment or he will be driven to the wall. It is true that we are all architects of fate, but if we have not the proper tools to work with we are manifestly at a disadvantage as compared to the man whose equipment is the most perfect that modern training can give. The uni-

While Life Insurance stands watch over your home to cover the mortgage; to provide a fund to care for your wife and educate your children if you should die, or to support yourself in your own old age if you live—it is aiding Canada's industrial and commercial prosperity.

The trust funds formed by the payment of your premiums are invested in Government and municipal securities to build schools, roads, drains and bridges; to provide hospitals and welfare institutions; to establish justice, law and order—as well as being invested in mortgages, agriculture, transportation, industrial and other enterprises that go to develop Canada and make it a better place in which to live.

"Life Insurance serves as it waits."

Buy life insurance for the service it will render you individually, and the national service will follow. Seek the services of the life insurance representative, and he will advise how your life's program can be carried out even in the event of your premature death.

NEVER HAS ANY POLICYHOLDER LOST A DOLLAR THROUGH THE FAILURE OF A CANADIAN LIFE INSURANCE COMPANY.

LIFE INSURANCE SERVICE,

Oh, Happy Thought!

No more worrying over hiding that bald spot! By calling here and leaving an order for a toupee, in a short time all fear of baldness will be gone and you will be the possessor of a head of luxurious and natural hair.

We carry a full stock of wigs and toupees in all natural shades, with prices to suit the pocket.

Leave your order with us today.

iversity of today and tomorrow must be able to furnish that equipment or it cannot hope to prosper. All our Eastern Canadian colleges are under-endowed. None of them has sufficient financial support. None of them is able to enlarge or to improve its staff. It would like to enlarge or to add in order to meet the requirements of the time. We have in Nova Scotia five colleges preparing students for degrees in Arts. Five colleges doing practically the same work would seem to be an unnecessarily large number in a province whose population is only a half million. There must be a good deal of dissipation of energy, of duplication of equipment and buildings. Even the uneducated man would say that in unity would be strength and greater efficiency. This is precisely what the Carnegie Foundation Commissioners have said in their epic report on education in the maritime provinces.

Briefly, their suggestion is that the colleges of the maritime provinces should unite to form one central university. It is not a merger that is proposed—it is the throwing of all the colleges into a melting pot and the creating of one new institution out of the product of the pot. It is rather the planting of each college to a central point where each will continue its work under its old name, teaching every people of the province that it now teaches, yet combining with the other constituent colleges as regards those subjects which are not controversial in the denominational sense and which are properly university subjects. It is not correct to say that this or that in-

attention will be swallowed up by some other institution. What we shall have, if the scheme becomes a reality, is a number of colleges entering into a federation as equals and continuing as equals, each with an equal voice in the management of the new university.

The Patriotic Call.
The scheme may be considered from an educational and from a religious viewpoint. We have already briefly touched on the educational side, but there is one more phase in which this side might be considered, there is another and compelling argument to which little attention has been given and it is this: From patriotic motives alone the scheme should be accepted. It offers our great means, perhaps the only means whereby the eastern provinces of Canada may regain their lost prestige as parts of the dominion. The whole country still reels from the shock of war, is faced with a tremendous debt and with many other serious problems.

The solution of these problems requires the best brains and the best training that we have to give. Eastern Canada lags behind in the march of progress. Our resources are not adequately developed. Our people are leaving us. The immigration problem in Nova Scotia has been absorbed by the more vital problem of how to hold our own people. Much of our very best mental product leaves Nova Scotia, and why? The "Why" is, partly at any rate, that when our young men wish to pursue post-graduate work or any advanced work on special lines they have to leave Nova Scotia—they have to leave for Upper Canada or to the United States, and after observing the superior character of the educational institutions of our neighbors, they hesitate to return to a land which failed to serve them in their hour of need. Can there be any doubt that a great central institution ranking with the best on the continent, would bring about a change in these conditions? Can there be any doubt that from the scientific courses that could be followed at such a university there would go out scientific men who would remain in Eastern Canada to point out the scientific way to greater development of our latent resources, greater efficiency, to less waste? Can there be any doubt that there would follow a quickening of our whole economic life, a new interest and a new pride in our own country, a new hope in our own possibilities, with the result that instead of losing our youth in thousands every year to the United States and to the west, we should retain them here in our own land.

The Religious Viewpoint.
From the religious viewpoint the possibilities of the scheme are incalculable. If there is religious bigotry in Nova Scotia today it should be made to perish, and the surest way of causing it to perish is the way of personal contact and personal example. Sermons and writings are as nothing compared to the example of a single sincere Catholic. The sermons are not heard where our students, adequately safeguarded, would mingle with the students of other denominations in play and in study. Catholics have never asked for more than a fair hearing. They have always said "Here is our faith. We have nothing to fear and nothing to hide." An opportunity now presents itself for Catholics to put that faith prominently before a large number of the non-Catholic youth of this country every year, and in this way to remove any baseless prejudices which the bigots may entertain. Unless we are willing to face the prospect of ceaseless denominational bickering we should hasten to seize the most powerful weapon for its destruction that has ever been placed in our hands. If the federation will help the world, or a part of the world, Catholics should

Headaches

Are Usually Due to Constipation

When you are constipated, not enough of Nature's lubricating liquid is produced in the bowel to keep the food waste soft and moving. Doctors prescribe Nujol because it acts like this natural lubricant and thus replaces it.

Nujol is a lubricant—not a medicine or laxative—as it cannot cause gripes. Try it today.

not hold aloft. The position which Catholics should take in relation to movements of this kind is admirably stated by Father Cuthbert in an article in the "Ecclesiastical Review," November, 1919. Father Cuthbert is writing about the Church and reconstruction, but his words seem singularly appropriate as an epilogue to the religious phase of this discussion. He says: "The Church of today has to concern herself not with the thirteenth century nor the sixteenth, but with the present. It is her task now to enter into the mind and aspirations of the actual world before her that she may guide and direct in the way of truth and assist in creating a new order out of chaos. . . . As Catholics our attitude must be neither an attitude of unyielding opposition nor of unintelligent surrender; but of co-operation inspired at once by our faith in the teaching of the Church and by a Catholic sympathy with whatever is vital and good in the struggle for the world's betterment."

FORMER M. P. DEAD
Eloa, Ont., Oct. 21—John McGowan, ex-M. P., died at his home here yesterday. He was one of the best known men in this district. He was born in Greenock, Scotland, in 1845, coming to Canada in 1857. He took an active part in public affairs and was reeve of Peel Township for several years. He was first elected to the Ontario legislature in 1874, and as a Conservative to the dominion parliament in 1890, sitting for the old federal constituency of Central Wellington.

QUESTIONS FOR UNITED FARMERS

Important Matter for Debating Series in the West for Winter.

Winnipeg, Oct. 20.—Arrangements are now under way for a strenuous season of debating by the five hundred members of the United Farmers of Manitoba and starting early in December they will debate the advisability of the national and the application of proportionate representation in the provincial government along the lines of six rural municipalities with five members each, with Winnipeg, including St. Boniface and suburban municipalities, two constituencies with seven members each. These two subjects, with six others comprise the programme of the winter debating series for the coming winter. The other subjects listed for debate are:—

1.—Resolved that direct taxation should be substituted for all forms of indirect taxation now in operation in Canada.

2.—Resolved that the Sales Tax, as we have it in Canada, should be abolished.

3.—Resolved that it would be in the best interests of Canada that the dominion government should establish a national bank similar to that of the commonwealth of Australia.

4.—Resolved that the Canadian senate should be abolished.

5.—Resolved that equality of status as between the sexes should be recognized in all the relationships of life.

6.—Resolved that the marketing of all grains through the farmers' own trading companies now established is the best permanent solution of our grain marketing problem.

With the date definitely set for the annual convention at Brandon, July 9 to 12, many locals will soon be preparing resolutions to put before the convention. The evening of the first day of the conference will be given up to a special rally to be held with a view to strengthening the provincial campaign in preparation for the coming referendum.

Outlining the taxation proposals of the Retail Merchants' Association as presented to the organization at a recent meeting of the directors here, a circular letter is being issued to the district boards suggesting that some time be given to its discussion. Those proposals are:—

1.—Real property.—That real property continue to be used as the basis of taxation, land at value and belonging at two-thirds value, in villages, town and cities; land at value in rural municipalities.

2.—Income.—That there be included as a further basis the income derived

from persons, property and business except the income derived from the operation of land in rural municipalities of persons residing upon said land.

3.—License.—That licenses be used as a basis of revenue in all cases where such is necessary to reach business of a temporary character.

4.—Provincial revenue.—That moneys required by the provincial government from each municipality be obtained by the provincial government imposing a levy based upon an equalized assessment of the lands and buildings of the municipalities of Manitoba, and

Collection.—That all taxes on real property and that be collected by the municipalities.

G. FRED FISHER'S PLATFORM

No. 1—(a) The completion and signing of the contract with the New Brunswick Electric Power Commission for Musquash Power.
(b) The appointment of an independent Civic Hydro Electric Commission to construct a Civic Distribution System and operate same.
No. 2—Completion of Plans and Specifications for a Civic Distribution System.
No. 3—That an offer be made by the city to purchase the entire property of The New Brunswick Electric Power Company, at the sum named by the Supreme Court of New Brunswick, March 2, 1920, \$2,577,653.56. This sum to be the maximum, and the offer to remain open for ten days only.
No. 4—In the event of the offer not being accepted by the Power Company, in the event the city to proceed immediately with the construction of its own distribution system.

A CLEAR ISSUE

Mayor McLellan urged the city council to give the New Brunswick Electric Power Company's property a value of \$3,000,000.
Mr. G. Fred Fisher declared in his platform that the figure named by the supreme court in 1920, which was \$2,577,653.56, is the limit of what the city should pay for the whole property.

Mr. McLellan would have the city become liable for interest and dividends on \$1,381,944 more than the amount of the supreme court valuation. Mr. Fisher would save the city from that unnecessary burden.
Mr. McLellan would give the power company all it asks. Mr. Fisher would be willing to offer it what the supreme court named as the value. He sees no reason why the city should be bled any longer.

In view of the attitude of the two candidates on this question, it is not surprising that the citizens are rallying to Mr. Fisher's support. They too, believe the city has been bled long enough for the benefit of the company. They see that the Musquash development has opened the road to freedom, and they propose to traverse it. Either the city or the company must win. If the latter, then good-bye to hopes of industrial expansion which cheap light and power would bring. If the former, then the city will enter upon a new era, freed from monopoly and the necessity of paying dividends on watered stock, and enjoying rates for light and power which will encourage industry and lighten the burdens of the people.

The citizens are not merely asked to make a choice between men, but to reaffirm a principle already established at the last city election, free themselves from monopoly, and get light and power at cost. The choice between candidates is the more important because of their respective attitude toward the power company. In this respect Mr. Fisher stands on solid ground, and the citizens will best serve the present and future interests of St. John by giving him their undivided support. False assertions about taxation, threats of ruinous competition by a company which knows it cannot successfully compete, and all other tactics adopted to hoodwink the people and prevent them from getting cheap light and power will not conceal the fact that if the power company were the people lose. They must prevent that by defeating the candidate endorsed and wildly championed by the power company and its group of interested sympathizers.

How do the people of St. John like to be described by the New Brunswick Power Company advocates as an ignorant and foolish lot who permit themselves to be led around by a clique? The truth is that the struggle for the hold of the power company group is about to be broken, and it is trying to get a new grip. The people quite understand.

A singular, unexpected and remarkable eulogy of Mr. Lloyd George is that delivered by Hearst's paper, the New York American, which describes him as "the greatest prime minister England ever had," and declares that if he is retired "so much the worse for England."
The National Bank of Commerce of New York says trade in the United States, both wholesale and retail, is better than a year ago. The like is true of Canada.

THE PEOPLE'S CANDIDATE

The list of names signed to the nomination paper of Mr. G. Fred Fisher is instructive. It shows that he is not the candidate of any clique, but of the citizens at large. The list might have been extended to great length, but that was not necessary. The people are with Mr. Fisher and the cause for which he stands. The working organization in his interest is becoming daily more active, and should be joined by a large number of active workers in every ward, in order that no stone may be left unturned to bring an overwhelming victory at the polls. It is not Mr. Fisher's cause, but the cause of the people who want cheap light and power and freedom from monopoly. In Mr. Fisher they have a candidate who will stand four-square for the policy he has laid down, and which they approve. He will not be influenced to turn aside from the straight road to the accomplishment of that which the people desire. He is dependable. He has had, moreover, most valuable experience at City Hall, and will not go there as a novice. All the city's interests will be safe in his hands. Business men give him their confidence, and every citizen knows that he stands for the square deal. It should therefore be regarded as a pleasant duty to work for his election, and to make his majority a record one.

OF MUTUAL ADVANTAGE

Mr. Neville Chamberlain, M. P., in an interview this week made some interesting remarks to the Ottawa Citizen on the subject of immigration. We quote—
"Speaking of British emigration to Canada, Mr. Chamberlain said that while a few years ago, and particularly in his father's day, when the 'colonies' as they used to be known were talked of as places to emigrate to, Canada used to be the first thought. But of late there had been a silence, he said, with regard to Canada, while some astute advertising had been conducted in the Old Country by Australia and New Zealand. The result was people seemed to think first now of Australia and New Zealand, for the impression seemed to be abroad, he said, that Canada did not want them, for some reason or other, while the doors of the other two dominions mentioned seemed to be wide open. He suggested Canada should take a little trouble to advertise itself."
Addressing the Canadian Club of Ottawa, Mr. Chamberlain also discussed the question of immigration, and urged joint action by governments to transfer some of Britain's surplus population to Canada. The Journal reports—
"Britain had more than she could feed; Canada needed more people to develop her resources, to share her debts. If she needed more people, then surely she would see that they were of British blood. The special gifts of Britons did not all come through training. It was in the blood. Canadians did not risk swamping the breed of their fine herds of cattle by mixing them with inferior strains. Mr. Chamberlain urged that Canada should not do less for her people than for her cattle. He did not advise that all other immigration should be excluded. In Canada, however, wanted to keep the qualities that characterized the British race she must see that the main current of her immigration was from British sources."
Canadians generally will be in hearty agreement with the views of Mr. Chamberlain.

MR. LLOYD GEORGE

Mr. Lloyd George has ceased to be prime minister, because he has been deserted by one group of Conservative Unionists. He has not been deserted by all of them. Some of the ablest Unionist leaders, like Mr. Chamberlain, Earl Balfour, Lord Brienhead and Sir Robert Home, were opposed to the action of their party and have paid public tribute to the premier's invaluable services to the country. He is still the foremost figure in British politics, and his place in world-politics in recent years has been such that no hostile critic can rob him of the honors he has won. The immediate future is obscured by many conflicting elements, and the fate of coalition hangs in the balance. So astute a statesman as Mr. Lloyd George will not fail to study the situation from every angle, and his fighting qualities are such as to make him a formidable opponent, whatever course he may decide to adopt. The crisis has come somewhat earlier than he or anyone had anticipated, but that will perhaps give him the keener zest for the struggle that he is faced. For seven critical years he rode the storm, and if now he should find himself in a minority his achievements will stand as a brilliant record in British parliamentary history. The world has by no means heard the last of Mr. Lloyd George. He is far too good a fighting man to be lightly brushed aside.

LIGHTER VEIN

In No. Hurry.
He—I have a presentation that our engagement won't last.
She—Oh, Harry, don't say that; I hope it will last forever.—London Opinion.

Disguised.
Young Lady—Were you pleased with the new school, little boy?
Little Boy—Yes, when I was made we wash me face 'n' when I went home de store bit me 'cause a didn't know me.—The Antislave (Peekskill).

Friktion.
The insurance adjuster who had been investigating the fire turned to go.
"I came down here to find out the cause of this fire, and I have done so," he remarked.
"That's what I want to know. What caused it?" demanded the house-owner.
"It's a plain case of friction."
"What-ya-mean—friction?"
"The fire was undoubtedly caused by rubbing a three-cent insurance policy on a two-hundred-dollar house."—From Everybody's Magazine for November.

Her Plan.
Father—Betty, I'm shocked! Your mother and you are engaged to three young men.
Betty—Oh, well, papa, they are all football players, and when the season is over I can marry the survivor.—Boston Transcript.

THE WIDOWED BLACKBIRD

(London Times)
On one of the cold, rainy days of summer a blackbird was observed working furiously in a suburban vicarage garden. Although wet and bedraggled, she sought no shelter, but toiled on with feverish haste. First to a wet bank in the garden, then to an apple tree on the lawn, she passed backwards and forwards rapidly and unceasingly, carrying in each journey to the tree a little moss and mud. During a slight break in the down-pour, the now keenly-interested observer passed quietly across the lawn, and saw that the foundations of a home had been well and truly laid in a fork of the apple tree. The industrious bird continued her work, undeterred by the state of the weather, and untrammelled by any question of rates of wages or trade-union rules.

Soon the new house became a home, occupied by a thriving family. What, then, had become of the male blackbird, just when his love affairs had reached their crisis, and when the responsibilities of matrimony lay immediately before him? The howling of cats among the bushes suggested an answer. He had been seen, and he was seen, at the height of his happiness, and he was seen, and he was seen, a victim to the malice of one of his four-footed foes.
His mate received from the dwellers at the vicarage sympathy and help. With tender interest she was watched over during the brooding period, and nothing was done to disturb her. Then, on a certain Sunday evening, came trouble and anguish. The little blackbird, instead of sitting on her nest, was dashing wildly from tree to tree, and calling in angry and staccato notes, "Chip! chip! chip!"
Beneath the tree was aabby cat, evidently a personal and well-recognized foe, for the brave bird swooped down at it again and again, with the obvious intention of driving it away, and at each swoop the cat, with its outstretched claws, was seen to pounce down the tree in such a way as to make it unclimbable by cats.
During the successful fortnight the male blackbird fed his little family "single-handed," and watched over them with assiduous care. From time to time, cats of various hues passed over the lawn without attracting any particular attention, but whenever the tabby came into view, no matter what distance, immediately its presence was proclaimed by the anxious outcry and the fighting attitude of the little bird.

In due time, maternal love and solicitude had their reward. The fatherless fledglings stepped from the nest to neighboring twigs, and later, encouraged by their mother, flew to higher trees. And as they rose, the branches out of harm's way, their mother, at a higher level, looked down on them and gave vent to such remarks as "Some butter and some egg were beaten in it, and the whole flavored with orange-flower water and anubergs."

Pap appears to have been a great favorite with Sir Kenelm. Special reports were given particularly carefully for the adult and philosopher, notwithstanding that his contemporary, Locke, had practically relegated it to the dietary of children. To make wheaten flourery we are instructed to take three or four days, "strain out the milky water from it, and boil it up to a cream. The strained wheaten flour, water, and let it stand until it is cold. It should be eaten 'with white or Ribish wine or Cream or Milk of the same kind.'"
Sir Kenelm's deliberate opinion that stonery was a food suited to the adult and philosopher, notwithstanding that his contemporary, Locke, had practically relegated it to the dietary of children. To make wheaten flourery we are instructed to take three or four days, "strain out the milky water from it, and boil it up to a cream. The strained wheaten flour, water, and let it stand until it is cold. It should be eaten 'with white or Ribish wine or Cream or Milk of the same kind.'"

It is a pity that the volume practically consists of a series of recipes, and is full of learned disquisitions on the drinks and dishes which then found favor with English palates—a sufficient of solids as well as liquids for the satiating the curiosities of each, or the nicest palate.

Advocates of the simple life will be horrified to read how "to fatten young chickens in a wonderful degree." Part of this recipe is that the chickens be only milk, in another little trough by a meat-trough. Let a candle (Rly dissolved) stand by them all night, for seeing their meat, they will eat it all night long. Another poultry-fattening recipe is given: "Let a hen have a very strong ale to drink. They will be very drunk and sleep; then eat again."

NO INCREASE IN TAXES FOR HYDRO

Not a Single Hydro Municipality in Ontario Has Ever Paid One Cent in Taxes Toward Upkeep of Hydro System, Ontario Hydro Electric Power Commission Says in Telegram.

The following telegrams will explain themselves. They should serve to convince the citizens of St. John that the attempt by the Power Company to increase taxes is the impression that increased taxes might be needed to keep up the hydro system is a deliberate attempt to mislead the public and confuse the hydro issue:
F. A. Gaby,
Chief Engineer Ontario Hydro Electric Power Commission,
190 University Avenue, Toronto.
It has been publicly stated that if the city of St. John contracts for hydro at cost the citizens will be required to pay additional taxes. Do you know of any instance where a single hydro municipality in Ontario has paid one cent towards the upkeep of their hydro system through taxation? Please advise by wire.
EDITOR DAILY TELEGRAPH,
St. John, Oct. 18.
Not a single hydro municipality in the province of Ontario has ever paid one cent in taxes towards the upkeep of their hydro system. All charges in connection with the operation of the various municipal hydro systems are collected through the rates charged light and power consumers for the energy supplied.
Municipal utilities such as street lighting and water works and sewage pumping are supplied with power at actual cost based on annual adjustment according to the power commission act.
HYDRO ELECTRIC POWER COMMISSION OF ONTARIO.

Installed in this city, and have testimony of saving as high as thirty-six per cent.

WIEZELBROS SUPERIOR FOOTWEAR

GOVERNMENT AID FOR QUEBEC FIRE SUFFERERS
Ottawa, Oct. 21—(Canadian Press)—The federal government has granted the sum of \$25,000 to sufferers from forest fires in Quebec and North Temiskaming, Quebec. This is equal to the grant made by the Quebec provincial government some days ago.

BUMPED ABOUT BUT NOT BADLY HURT IN WRECK
Columbus, Ohio, Oct. 21—About one hundred passengers aboard B. & O. passenger train No. 88 were shaken up and a few were slightly injured last night when the train struck an open switch and plowed into a string of freight cars, just inside the city limits.
The engine overturned but all passengers came out of the wreck.

70° WARMTH GUARANTEED IN COLDEST WEATHER

More than a pipeless furnace—a complete system of circulating heat. You can have your whole house (every room) as warm as you want it in coldest weather.
Caloric will heat a house on any shape. There is no need for it to be a bungalow, and heat it cheaper than it can be heated with any other system. It will save from 1-3 to 1-2 the fuel and yet make your house more comfortable than it ever was before. Caloric is the original pipeless furnace. It has been on the market for over fifteen years and is therefore past the experimental stage. Years of service have perfected it, and it is now given to you as a finished product. Its many patented features, absolutely necessary for proper pipeless furnace operation, cannot be imitated. It is easy to install and is made by the largest manufacturer of hot air furnaces in the world.
Come to our store, or phone for our demonstrator and let us show you this wonderful heating system.
It would be our pleasure to give you names and addresses of users in our city that you talk with them and find out why the Caloric is the best.

NEW LAMP BURNS 94% AIR Beats Electric or Gas

A new oil lamp that gives an amazingly brilliant, soft, white light, even better than gas or electricity, has been tested by the U. S. government and thirty-five leading universities and found to be superior to ten ordinary lamps. It burns without odor, smoke or noise—no pumping up, is simple, clean, safe. Burns ninety-four per cent air and six per cent common kerosene (coal-oil).
The inventor, O. K. Johnson, 246 Craig street, west, Montreal, is offering to send a lamp on ten days' FREE trial, or even to give one FREE to the first user in each locality who will help him introduce it. Write him today for full particulars. Also ask him to explain how you can get the agency, and without experience or money make \$250 to \$500 per month.

FIFTEEN MINUTES OF RADIO EACH DAY

By Edward N. Davis
Formerly Technical Electrical Expert For U. S. Government

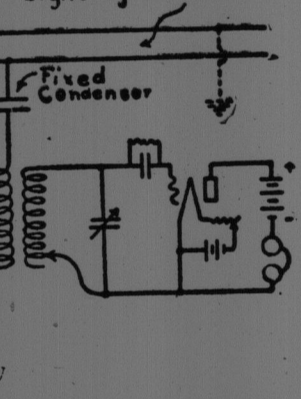

Lesson No. 135.

THE ELECTRIC LIGHTING SYSTEM AS AN ANTENNA.

Amateurs who have no available space in which to erect an outdoor antenna of the usual size and height have long made use of bell circuits, gas pipes, metal roofs, water pipes and other devices as substitutes for outside aerials for receiving purposes. A difference in potential exists between any two of these adjuncts to every house in which a wireless wave induces a certain voltage and with one serving as an aerial and the other as the ground it is possible to pick up radio signals for nearby stations on a crystal detector and from more distant stations by employing vacuum tubes as amplifiers.

More recently it has been demonstrated that the electric light wiring itself may be employed as an antenna if necessary steps are taken to prevent damage to the line or receiving set. One side of the lighting circuit is usually grounded so it is desirable to connect to the undergrounded side of the line. The connection to the receiving set is made through a special form of fixed condenser which is designed to withstand the high voltage of the lighting circuit which would flow through the receiving set direct to ground and thus back to the other side of the line if the condenser were not inserted to prevent this. The condenser offers little opposition to the passage of the radio frequency alternating currents which constitute the signals, but offers very great opposition to the flow of alternating current of relatively low frequency such as sixty cycle, the frequency of most lighting circuits.

Lighting Circuit

The fixed condenser for connection to the lighting circuit should be of good construction such as the mica dielectric type and may have several taps so that various capacities may be tried to secure the correct value of capacity for the particular lighting circuit in use. The other terminal of the condenser is connected directly to the terminal of the receiving set to which the antenna is connected when an outdoor aerial is employed.

The ground may be secured from the water pipe in the usual way when using the lighting circuit as an antenna. The results obtained with this receiving arrangement have been found to vary somewhat on different lighting circuits. Better signals are usually received on circuits which are run on porcelain knobs than on circuits which are run in the standard iron conduit.

Direct current lighting circuits generally work better for receiving purposes than alternating current circuits due to the absence of the low frequency of the A. C. circuits. Even on D. C. circuits, electric motors of elevators on the same line in the near vicinity of the receiving set cause a certain amount of interference. Static disturbances, however, are generally not so troublesome when using the lighting circuit as an antenna, although in some cases the disturbances caused by other electric devices on the line are more objectionable than static and may render the radio signals unreadable.

Great care should be exercised in making the connection to the lighting circuit to avoid short circuiting the series condenser. A direct short on the line will result which in addition to blowing the fuses in the light circuit may burn out the primary winding on the receiving set. Condensers constructed of paper and tin foil should never be employed since the voltage required to break down the insulation is not much greater than the voltage of the line and a fire may result if the condenser should break down. Good condensers in the form of a plug attachment to screw into any light socket may be purchased, but only approved devices should be used.

PRINCESS WHO IS TO MARRY THE FORMER KAISER

Early Life Under Rule of a Strict Father—Males of Family All Named Henry

Berlin, Oct. 20.—(A. P. by Mail)—Since the announcement of the engagement of former Emperor William to Princess Hermine of Russia, there are many stories being told of the early life of the princess and members of her family.

The family of Russia carries its history back to a period of centuries before that of the Hohenzollerns. Her father, the twenty-second reigning prince of his line, always held the reputation of being the house of Hohenzollern and all its works.

When Princess Hermine was four years old her mother died and her father, who was brought up in medieval surroundings by their father. The sisters are said to have been dressed in little better than rags, and to have lived in the almost bare rooms of a castle which their father refused to leave during the winter months.

The sisters, on growing up, rebelled against the tyranny of their parent and

all married against his wishes. Marie married an Austrian cavalry officer, Baron Guagnoni; Emma married Count Kuenstler and now lives in Hungary, and Ida married Prince Zu Stoberg-Rosla. Princess Hermine's husband, Prince Von Schomach-Carolath, came from a family whose history can be traced back to the 12th century.

The male members of the Rens family all bear the name of Henry, each one being numbered. By an arrangement made in 1701 the senior line, to which the Princess Hermine belongs, continues this enumeration up to a hundred and then begins with the next born as Henry I. The junior branch, which counts from the beginning of each century, when the first born is named Henry I. December 31 closes the century's list, no matter how far short of the hundred mark the names may be. The brother of Princess Hermine is Henry XIV.

RECENT WEDDINGS
Carpenter-Akerley.
On October 18, at the home of Mr. and Mrs. Eldon M. Akerley, Macdonald's Point, Queens County, their daughter, Miss Beatrice A. Akerley was united in marriage to Daniel G. Carpenter, of Cambridge, by Rev. David Patterson.

Lamb-Pitt.
At Kingston on Wednesday, Miss Ruth L. B. Pitt, of Reed's Point, was united in marriage with Everett E. Lamb, also of Reed's Point, by Rev. Henry Waterson.

McAllister-Wasson.
Miss Elsie Emma Wasson, daughter of Mr. and Mrs. J. A. Wasson, of Chipmunk, was united in marriage to Frederick M. McAllister, by Rev. L. H. Crandall, at the presence of immediate relatives, at the home of the bride's parents.

RECENT DEATHS
Robert Scott.
Robert E. Scott died last night at his residence in this city, at the age of forty-five, following a short illness. Mr. Scott was for the last thirty years in the employ of G. H. Hemenway & Sons, a member of Knox Presbyterian church. Mr. Scott was the son of the late William Scott. He leaves his mother and one brother, George A. Scott of Amherst. The funeral, which will be held on Monday afternoon at 2 o'clock, will be attended in a body by the Knights of Pythias.

Mrs. Mary Anne Petrie.
The death of Mrs. Mary Anne Petrie occurred on Wednesday, October 11, at her home in Maple Glen after a lengthy illness. She is survived by four sons, Arthur, of Newcastle; John, of Maple Glen; David, of Lowell, Mass., and Joseph, of St. John. The funeral was held on Friday.

Mrs. Amelia Leeman.
Mrs. Amelia Leeman, widow of Enoch Leeman, passed away at her home, 8 Courtney street, yesterday in her seventy-ninth year. She leaves four sons, one daughter and nine grandchildren. The sons are John of New Bedford, Mass.; Walter and Dick, at home, and Frank of East St. John. Mrs. Shirley Brown of East St. John, is a daughter. Mrs. Leeman came to this country, when nine years of age.

Cuticura Promotes Good Hair

Treatment: At night rub Cuticura Ointment into partings all over the scalp. Next morning shampoo with Cuticura Soap and hot water. Repeat in two weeks.

the hunters before Squire James M. Willis, who confiscated the duck and fined Whittingham \$20.

Major Rollinson appealed the decision on the ground his client, Mr. Whittingham, had a Federal permit. He wanted to send the wood-duck to Washington.

"Can't be had," announced the Squire, "that was the best duck I ever tasted. Sorry, but I saved the head, tail, feathers and feet. I'll have them ready as Exhibit A when the appeal is heard."

TRY SULPHUR ON AN ECZEMA SKIN

Costs Little and Overcomes Trouble Almost Over Night.

Any breaking out of the skin, even itchy, itching eczema, can be quickly overcome by applying Mentho-Sulphur, declares a noted skin specialist. Because of its germ-destroying properties, this sulphur preparation instantly brings ease from skin irritation, soothes and heals the eczema right up and leaves the skin clear and smooth.

Y. W. C. A. SEASON WELL OPENED

The season at the Y. W. C. A. recreational centre was opened last night with a grand rally at which hundreds of the girls and their relatives and friends attended.

KING STREET GERMAIN STREET MARKET SQUARE

AMERICANS ON RHINE EXPECT SAILING ORDERS

Detachment Leaving October 25 Regarded as Forerunner of a Final Movement Homeward.

Coblenz, Oct. 21.—The sailing of Overseas Casual Detachment 40 on board the steamer America from Bremen October 25 may be the beginning of a final movement homeward of all the remaining men of the American forces in Germany, if reports received here from Washington prove correct.

Detachment 49, composed of two officers and sixty-three men, will leave Coblenz in special cars October 23 for Bremen.

No special orders have been received from Washington, and meanwhile the American forces are carrying on their duties as usual. Many of the men accepted the report that they were to be sent back as troops and gathered in solemn little groups and talked over the situation. Most of them asserted that they would be well satisfied to remain on the Rhine. The Germans showed plainly that they would be sorry to have the Americans go, and evinced sadness over the prospect of having the French take charge of

KU KLUX KLAN IN HAWAII

Honolulu, Oct. 21.—Complaints that an organization known as the Filipino Ku Klux Klan is operating in the country districts of Oahu and other islands

have been received by Prosecutor Claus L. Roberts.

Prominent Filipinos have formally complained to Mr. Roberts that the Ku Klux society is terrorizing their countrymen, threatening them with various horrible punishments unless they become members. The Klan is said to have been organized six months ago and to have a membership of more than 2,000.

The Public Prosecutor is investigating with a view to taking legal action.

Many of the members, it is said, have wished to withdraw from the society, but fear to do so because of the penalties with which they are threatened. One member, missing several weeks, is believed to have been buried alive for violating the rules of the order, and several have been tied to stakes and whipped.

THE EVENING TIMES AND STAR, ST. JOHN, N. B., SATURDAY, OCTOBER 21, 1922

**MUSICAL THIEVES
GET FAMED 'CELLO**

Six, Led by a Connoisseur,
Smash New York Window
and Escape With a
\$1,500 Instrument.

New York, Oct. 21—A gang of six burglars, probably headed by a connoisseur, stole a \$1,500 Thompson cello made in 1780 from a musical instrument store near Times Square in the early morning and then attempted to head from another store window a \$1,200 cello bow, made a century ago by Francois Tourte, and said to be the finest cello bow in the world.

instruments worth a total of \$5,000 were stolen here.

The burglars gave an intimation of a street-fight to interest watchmen and stragglers, while they attempted later to rob the window of the Rudolph Wurlitzer Company in Forty-second street just east of the Bush Terminal Building. In the course of the struggle they smashed the plate-glass window of the musical store with a chunk of cement, but did not make a hole big enough to reach the musical instruments, \$25,000 worth of which were on display.

Detectives were sent out from Police Headquarters in search of the instruments, most of which were distinctive and could easily be traced in pawnshops.

**'ELSIE SMITH' WAS
TYPEWRITER, NOT GIRL**

Chicago, Oct. 21—A typewriter has been carried on the payroll as a stenographer at the municipal contagious disease hospital, according to information announced by investigators engaged to check the institution's records.

The disclosure that \$30 a month was paid to the typewriter machine was made when search began for "Elsie Smith," to whom checks were drawn. Her address proved to be an automobile salesman. The checks had been endorsed to a former steward at the hospital.

Airplanes are used in the Holy Land to deliver mail.

Craft Helpless and About to
Sink When a Steamer
Comes Up—Rough Time
on Lake Huron.

Detroit, Mich., Oct. 18.—Bobbing up and down on huge waves created by the northeast gale that swept the upper lakes and rivers all day Tuesday, the skipper of the big lake freighter, Leonard B. Miller, discerned distress signals flying from a forty-foot

schooner that lay in the trough of the seas far out in Lake Huron.

By careful maneuvering the freighter was brought about and worked up to within hailing distance of the smaller craft. On it was Albert Moore, his wife and a Great Dane dog. At imminent risk of swamping the little schooner, the Miller lay to, and a rope ladder was dropped down the side, as the seas were too rough to permit of the launching of a life boat. Mrs. Moore was first to reach the life-saving rope. Moore, however, refused to leave until his dog was safe, so the crew made a lifting carriage from a piece of canvas and the canine was taken aboard. Moore followed, and the schooner was left to drift.

The story related by Moore was that he left Aux Sable early Tuesday morning believing it safe to cross Saginaw Bay. It was the intention to sail to Detroit, where the Moores planned to spend the winter. But the breeze turned to a gale and soon the little forty-foot schooner was in difficulty. All the sails were cut away, but still the seas continued to beat over the boat. Then two lifeboats were cast off as was also a small canoe. Meanwhile the boat was being hurried out into the middle of Lake Huron. Water began to pour in at the stern. Then while Mrs. Moore grasped the filler and tried to avoid heavy seas, her husband worked feverishly with the hand pump in an effort to keep the craft above water.

When it seemed as though death was just ahead, the freighter Miller loomed up in answer to the signals of distress that Moore had hoisted. The couple were landed here today.

MAY COMPLETE IN LONDON

Harvard and Yale Planning to Meet
English Varieties on Track.

Cambridge, Mass., Oct. 21—An international intercollegiate track meet in London next July between teams representing Harvard and Yale and Oxford and Cambridge is to be discussed with the British university authorities by William J. Bingham, assistant graduate manager of athletics at Harvard. Bingham is going abroad in December and is expected to complete plans for the meeting at that time.

LOCAL NEWS

A party of boys and girls, numbering 100 and ranging in years from twelve to sixteen, were entertained by the Misses Hazel Dick and Jessie Kennedy at the Studio last night. Dancing was enjoyed from 8 o'clock until 12.

A fire broke out in a children's clothing store in Main street, owned by Mrs. Bank, at 10:45 last night. An alarm was rung in and the chemical engine was soon on the scene. Considerable damage was done before the blaze was finally extinguished and the "all out" was sounded at 11:10.

P. C. Johnston was elected president of St. David's Church Men's Brotherhood last evening, at a meeting called for the election of officers and discussion of the programme for the coming winter. The other officers elected were: Vice-president, Robert Aird; treasurer, R. H. Anderson; secretary, D. W. H. Magee.

The boys and girls of the St. John High School entertained the Fredericton football team at a banquet in the Y. M. C. A. last night. After supper, speeches were given and a social evening was spent in games and music. Among those present were: Mr. and Mrs. W. J. S. Myles, R. H. Bennett and Miss Gale, of the High School staff, and Mrs. T. H. Sommerville.

A special meeting of the Marine Freight Handlers' Union was held last evening in Temperance Hall on the side. The meeting was largely attended, and William Lee, president of the local, occupied the chair. Plans for the coming winter port season was discussed and preparations were made for season's work.

A Ladies' Aid Society was formed at Red Head yesterday afternoon by the pastor, Rev. L. J. Watson and his wife. The following officers were elected: President, Miss Maud McAfee; vice-president, Mrs. George Harris; secretary-treasurer, Mrs. Fred Anthony; assistant secretary-treasurer, Opie Anthony. The first regular meeting will be held at the home of Mrs. George Harris on Wednesday, November 1, at 7:30 o'clock.

The regular meeting of the Trades and Labor Council was held last evening in the rooms in Prince William street with Felix McMullin, president of the council, in the chair. The meeting was not so largely attended as usual and the regular routine business was transacted.

VALUES LOVE AT 6 CENTS.

Jersey Jury Finds for Husband in
Allegation Suit.

Atlantic City, N. J., Oct. 21—A jury returned a verdict of six cents for Franz T. Voelker, baker and former member of the Atlantic City Tax Board, in his suit against Fred G. Nixon Nirdlinger, Philadelphia amusement man, for \$150,000 damages for the alleged alienation of the affections of Mrs. Voelker. The defence offered no testimony.

A letter written by Voelker four days before he filed suit for divorce to Nirdlinger, who was named as one of the respondents, was read. The defence contended that it showed Voelker to be on the most friendly terms with the defendant.

An effort was made through the testimony of Miss Lydia Palmer, sister of Mrs. Voelker, to prove Nirdlinger the father of a child born to Mrs. Voelker last year.

**How Will Your
Widow Speak?**

If you should die today, would your widow be able to say, as these widows have said?

- No. 1—"I feel that the whole amount will be required for expenses and educating my two little girls."
Mrs. E. A. Brown.
- No. 2—"I shall be able to keep my home together, for which I am truly grateful."
Jean King.
- No. 3—"The insurance will be a reminder of his love."
Mrs. R. Wilson.

THESE are actual quotations from a few of the many letters received from beneficiaries of North American Life policies.

If your death came shortly, would your widow be able to speak like these widows do? Would she look back and bless you for the kindly care you had given her during your life, and the foresight you had taken for her future?

We want to give you further information as to how you can best "protect her future." The attached coupon will bring you this information without obligation.

**What happened to this?
Poor Old Rich Man?**

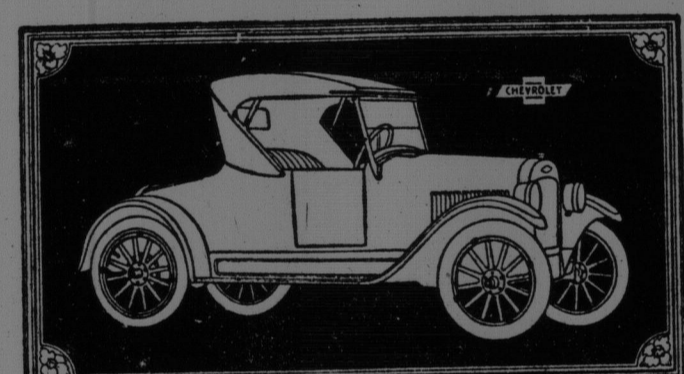

RUPERT HUGHES, who wrote Remembrance and directed the making of it, believes that a man is proud of having risen from poverty and small beginnings, whereas the average wife wants to forget, and wants everybody else to forget that she didn't always have money. Do you agree with him? "Pop" was a lovable old man, shrewd in business and capable, but so far as his family was concerned, "going it alone." He spoils his family and they in turn came to consider him as a kind of Purse of Fortunatus—able and willing to meet any demands they made on him.

Well, the old man plowed along, carrying the burdens, "shelling out," until something happened.

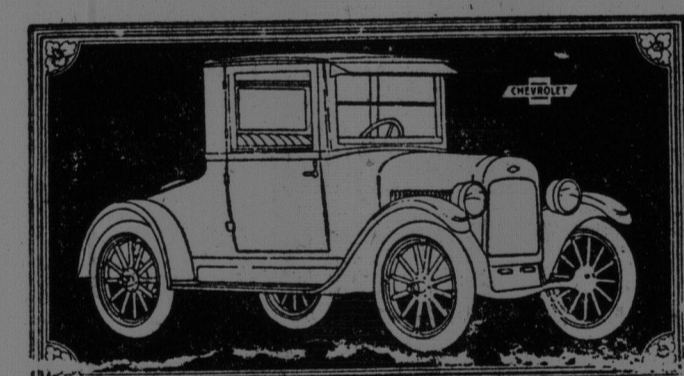

Remembrance has periods of pathos that will make you want to grip the old man's hand in sympathy; it has fun and humor, and it depicts the plight of some fathers so faithfully that you will remember Remembrance for many a long day. Take the family to see it. It's a wonderful picture.

Remembrance
A Goldwyn Picture.

Advertisers in The Times are requested to note that it is necessary to have change of copy or new copy delivered at the advertising department of The Times before 2.30 p.m. to ensure insertion in the next day's paper.

LOCAL NEWS

WHOSE WATCH?

A lady's wrist watch was found recently by the detective department in the vicinity of Crown street and is at the central police station awaiting a claimant who can prove ownership.

PRESENTATION

Jack W. Richards, in leaving the employ of Macaulay Bros. & Co., was made recipient of a nice gold mounted fountain pen last evening. Fred Bustin made the presentation with a speech on behalf of the employes.

A CLEVER WRITER

Readers of The Times will doubtless remember some articles on health subjects written by Mrs. J. Agnes, who was in St. John for a time as a member of the staff of the Victorian Order of Nurses. Mrs. Agnes, now in Ottawa, is a member of the Ottawa Press Club and of the Authors' Association, and verse from her pen is finding favor in the magazines.

BOARD OF HEALTH FIGURES

There were thirteen deaths recorded in the city this week from the following causes—Cerebral hemorrhage, two; enteric, pneumonia, scarlatina, myocarditis, cardiac disease, cerebral softening, cerebral meningitis, gastro-enteritis, premature birth, typhoid fever and carcinoma of prostate, one each. Ten marriages were recorded and twenty-three births, thirteen male and ten girls.

SUCCESSFUL HUNTERS

J. C. Purdy, O. P. Price and Frank Watson have returned home after enjoying a hunting trip in the woods back of Tracey. They succeeded in shooting two fine moose and a deer, which had a splendid spread of antlers, also a good bag of partridge. One of the moose heads had ten points and the other seven. While in the woods they met Henry C. Allen, New York attorney, who had succeeded in shooting a large moose.

MISSIONS

The men's mission in St. Peter's church will be brought to a close tomorrow evening. Services were held every morning and evening during the week at which stirring and eloquent sermons were delivered by Rev. Fathers Doyle, C. S. R., McAna, C. S. R., and O'Brien, C. S. R., three of the principal missionaries of the ecumenical congregation in Canada. The church was crowded to capacity at all the services. Tomorrow morning Rev. Father Moran will go to St. Bridget's church at Chapel Grove, where he will conduct a three days mission.

ST. PETER'S Y. M. A. PLANS

Preparations are being made for a grand re-opening of St. Peter's Y. M. A. on October 29. The rooms have been renovated and artistically painted and present an attractive appearance. Plans for a banner year are under way and from the present outlook the society should enjoy a good season. During the winter months a course of lectures will be delivered by prominent men in the province, debates will be held and all lines of athletics indulged in.

SUCCESSFUL SALE

A very successful sale was held this morning in the Syrian hall, Prince Edward street, by the King's Daughters under the leadership of Mrs. H. W. Robertson of the Doorkeepers Circle. She was assisted by Mrs. W. A. Nicholas, Mrs. George Folly, Miss Laura Ingham, Miss Susie McMurray, Mrs. W. J. Bingham, Mrs. R. D. Innes and Mrs. Bliss Smith, treasurer. Automobiles were loaned by Harry Warwick and Mrs. Cecil Mitchell. Indebtedness was also expressed to the George A. Knodell printing establishment for kindness extended in helping to make the sale a success. It is not known as yet how much was cleared.

POLICE COURT

A case against Frank J. Stewart, charged with assaulting Frank Kingston was set for this morning but was again postponed until Wednesday morning at ten o'clock.

Michael Michael was before the court this morning on a postponed case in which he is charged with having lured in his possession unlawfully. He had put up a \$50 deposit. The magistrate said W. M. Ryan for the prosecution would have to be present before the case could be taken up further, postponed it until Wednesday morning.

BY-LAW CASES

Guy Sears was charged this morning with erecting a staging on the sidewalk in Watson street, W. E., without a permit. He said he did not know that he was required to have a permit at the time, but that he had taken the staging down when he learned of it. He pleaded guilty and was fined \$8. He was reported by Sergeant O'Neil.

Andrew Heenan was fined \$10 for speeding in Douglas avenue on Thursday. Police McBrien said he had been going twenty-five miles an hour. Arthur Debow was reported by Policeman Chisholm for making the wrong turn at the north side of King street this morning and also for making the turn at twelve miles an hour. He was fined \$20.

RECITAL WAS ENJOYED

Miss Marguerite Porter, B. L. L., teacher of expression at Mount Allison Ladies' College, gave a recital in St. Matthew's church last evening. Miss Porter, a graduate of the Emerson School of Oratory, is a native of Chipman, N. B. There was a good-sized audience, and her readings were much appreciated.

Miss Adams played a piano solo. A male quartet, composed of Messrs. Barker, Smith, Mawhinney and Holder, sang several selections, and Miss Madeline Daley of St. Matthew's church sang two solos. The performers are all general favorites, so the evening was pleasantly spent. Many expressed their appreciation of the return to New Brunswick of such a talented interpreter of literature as Miss Porter.

YOU GET THE HEAT—BUT CHEAPER

By installing an Enterprise Pipeless Furnace, which gives you but one fire to tend for the entire house and costs but little more than the old-time heating stove. Ask Emerson & Fisher.

Nomination Papers Of G. Fred Fisher Filed

Placed in Hands of City Common Clerk Today—Upwards of 150 Names, and Many More Were Available—Committees Optimistic as to Success of Campaign.

The nomination papers of G. Frederick Fisher, the people's candidate for mayor in the civic election which will take place next month, were filed with H. E. Wardroper, the city common clerk between noon and one o'clock this afternoon. The papers contain the names of upwards of 150 of prominent citizens of the city and, it was said by the committee which had their circulation in hand, many more names could have been obtained if necessary. Less than two days were given to obtain the signatures which were taken, and only a portion of each day was devoted to the work. With the nomination papers in order and filed, the committees behind Mr. Fisher have all their time to devote to the work of the campaign. Never were election workers more enthusiastic and while they realize the dangers of over-confidence, they are very optimistic of the results.

The nomination papers were filed by J. MacMillan Trueman and bore the names of the following rate-payers—

- Jas. M. Magee, Lizzie J. McIntyre, J. B. Mahony, Frank B. D. Hopkins, W. L. Beville, F. A. Dykeman, James H. Pullen, Hedley S. Bissett, Catherine M. Hanington, R. W. Pugh, F. E. THEATRE FOLK MEET AT TABLE

Enjoyable Function Attended by Fifty at Bond's. Local 440 of the International Association of Theatre and Stage Employes held their annual banquet in Bond's last evening and fifty people attended, including, in addition to members, several invited guests. James Whitehouse, operator in the Opera House, presided and at his right was Secretary George Enos, operator of the Imperial Theatre. The unionized staff of all local theatres were present. The guests included Silas Casson, leader of the Opera House orchestra, who is president of the Musicians' Union; Secretary W. C. Bowden, Musical Director Jones of the Imperial orchestra; M. C. Ewing, Bob Ott, director of the company now showing in the Opera House; Mr. Lynch, of the company playing in Queen Square Theatre; Manager Walter H. Golding of the Imperial Theatre; Manager Smith of the Opera House, and other members of visiting organizations. Following a bounteous repast choruses and solos were sung.

The I. A. T. & S. E. is international in scope and deals with contract signing with theatres, uniformity of wages and hours of the men and in addition gives a basis for a satisfactory settlement of all matters which might arise between employes and employers. The function was a most enjoyable one and during the evening speeches disclosed a happy co-operation between the members of the association and the theatre owners.

TOMMY BURNS GROOMING NEW HEAVYWEIGHT

London, Oct. 20.—(A. P. by mail.)—Tommy Burns, ex-heavyweight champion, says he has found a new "white hope" in Robert Read, a gigantic Irish youth who has lived in Scotland since he was twelve years old. Read is now twenty-one. He is 6 feet 4 1/2 inches tall, weighs nearly 200 pounds, and has a reach of 85 1/2 inches, 7 1/2 inches more than Dempsey's. In a photograph sent to The Daily Mail, the British veteran's find tapers above him; Burns' head reaches only to Read's shoulders. Read has a good appearance, an athletic build, and is gaining fight experience in the rough and tumble life of the English traveling boxing show, a familiar sight at any small town carnival or country fair. Burns says that he has tried Read out and that he is not disappointed in him. "Last year Read won the amateur western district championship in Scotland," said Burns. "He is a quiet, gentlemanly boy. Of course he needs a lot of experience. Only time can tell whether he will develop into a real champion. The experience with the traveling boxing show, which he joined after winning the amateur championship, certainly won't do him any harm."

ONLY HAND AND BRAIN WORKERS ALLOWED VOTE

Current Elections in Soviet Russia Bar Those Who Hire Labor for Profit. Moscow, Oct. 21.—In elections of delegates to the village, provincial and government Soviet proceeding throughout Russia this month a large percentage of the Russians who, in previous years of the revolution, were entitled to vote, are now deprived of the ballot because, since the resumption of free trade, they have become "exploiters of labor." The Soviet Russian Constitution confines the right of the ballot to actual workers, whether with hand or brain to peasants and to soldiers. Many of those now "in trade" were, until this year, of necessity in these preferred classes. The government has issued strict instructions to election officials that the following persons must be prevented from voting in this year's elections: "Persons who employ hired labor for the purposes of profit; persons who live on unearned increment; private dealers, traders, and commercial agents, clerks, monks, and all employees or religious cults."

C. B. MINER IN ONTARIO CUTS THROAT IN FRENZY

Larder Lake, Ont., Oct. 21.—Daniel McDonald, miner and prospector, cut his throat in a fit of frenzy, induced, it is reported, by drinking home made spirits, and is dead. He hailed from Case Station.

PROVINCIAL RED CROSS IN SESSION

Preparations for a Membership Campaign Next Week—Some Interesting Reports.

R. T. Hayes, M. P. P., presided at the meeting of the Provincial Red Cross yesterday afternoon. The main business was the matter of the province-wide organization for the membership campaign and Miss Edith Davis, provincial secretary, and Mrs. G. A. Kuhring left for McAdam before the end of the meeting to speak at a meeting there. Miss Saunier gave an interesting report of her visit to the French districts on the North Shore. She said that there was great need for a public health nurse for the district. Mrs. Harold Lawrence reported of the visits of the Junior work supervisors to Grand Manan, Whitehead and Shippegan and of proposed visits to Carleton county. Mrs. H. J. Hooper also spoke appreciatively of the work of the Junior supervisors. Miss H. T. Melville reported of the five public health nurses at Minto, St. Stephen, Chatham, McAdam and Kelly's Beach. She recommended special training for Miss Moore, now at Kelly's Beach. The treasurer, C. H. Alan, reported total receipts of \$10,448.01; expenses, including nurses' salaries, \$478; Junior work, \$160; relief, \$26; post, \$65.50; bulletin and advertising, \$192.24; campaign, \$400; hut furnishings, \$140.40; public health programme, \$2,000.80; depot expenses, \$440, and a balance of \$6,284.42.

operation of the Travellers' Aid the girl was placed safely in the hands of relatives in a neighboring province. Arrangements have been made by your staff at the depot for the Sunday meeting to be held in the Imperial Theatre for the opening of the St. John campaign. Miss Frances Stetson and Mrs. E. T. Sturdee have assisted in this work.

To Aid the Local. Campaign envelopes have also been addressed to each member of the Red Cross in the city asking them to have their money ready for the collectors. In connection with this program in St. John many hours have been spent assisting with plans and preparations, etc. From the head office we have received our last grant so that from this on our work must be carried on alone. Surely after two years of Dominion assistance we can now prove that our work is indeed worth while. Sincerely after two years of Dominion assistance we can now prove that our work is indeed worth while. Sincerely after two years of Dominion assistance we can now prove that our work is indeed worth while.

WOMEN ADMIT 150 THEFTS.

Two Oakland Sisters "Found Game Fascinating and Needed Money." Oakland, Cal., Oct. 21—Miss Minnie Darrington and Mrs. Gertrude Stiles, sisters, under arrest here in connection with a robbery, admitted, according to the police, that they were implicated in 150 robberies in the San Francisco Bay district in the last two years. According to the police the young women said, "the game was fascinating and we needed the money." Both have children.

ALEXANDRA CHAPTER.

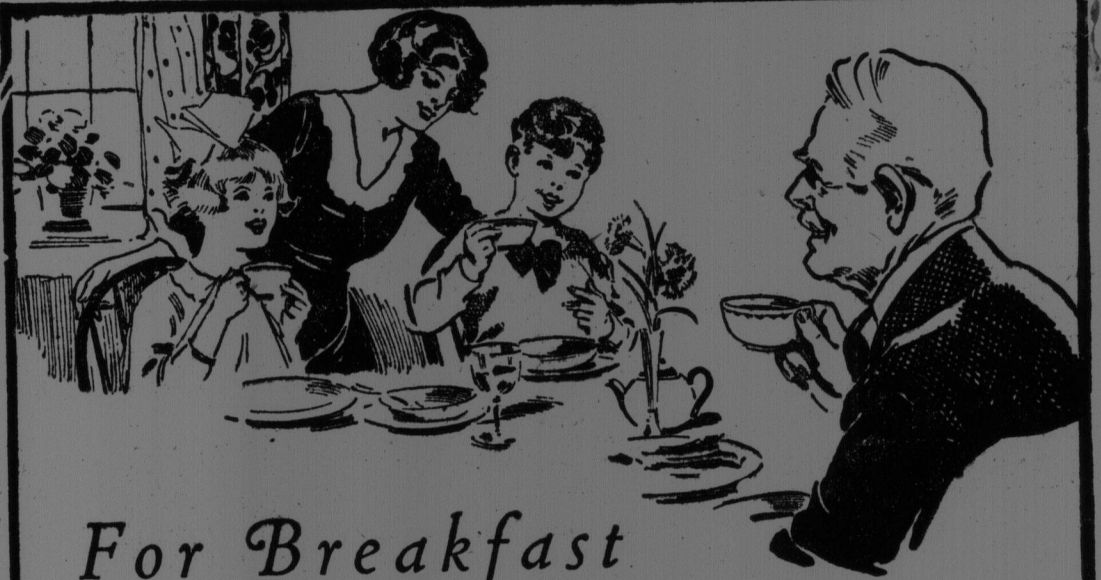

Alexandra Chapter of the Imperial Order of the Daughters of the Empire held an entertainment yesterday afternoon in the Temple building, Main street. The hall was attractively decorated. Mrs. R. A. Corbett, the regent, and Mrs. G. B. Taylor presided at the tea table. Mrs. Frederick Whelpley and Mrs. Walter Gregg formed a reception committee. The tea was served under the supervision of Mrs. John Kennedy, Mrs. Leonard Lingley was the conveyer of the home cooking and fancy work table and Mrs. George I. Higgins was in charge of the tickets. Mrs. Lester Mowry was in charge of the decoration committee.

DRUG SMUGGLER FINED \$25,000.

Hong Kong, Oct. 21—The Korean smuggler arrested last Thursday on a Japanese steamer from London on the charge of importing more than \$100,000 worth of narcotics, pleaded guilty and was fined \$25,000 with the alternative of one year's imprisonment. In addition he was sentenced to six months in jail at hard labor.

HOLYLAND APPOINTMENT.

London, Oct. 21—Brigadier-General Sir Gilbert Clayton has accepted the office of chief secretary of the Palestine government, in succession to Sir Wyndham Deedes, says an official announcement by the Colonial Office.

For Breakfast BAKER'S COCOA

No matter what your taste prompts you to drink in the morning, give the children BAKER'S COCOA. They need a pure and wholesome drink that has real food value,—nutritive qualities, not merely stimulative; and Baker's Cocoa will answer all their requirements. You would do well to drink it yourself, for you would find that its delicious flavor and aroma would be most pleasing and its food properties sustaining and satisfying.

widespread disposition to follow suit. Many stage fittings had been given by Chatham and Newcastle. Mrs. Charles Sargent, Mrs. A. C. D. MacKenzie, Miss C. Armstrong, Miss J. Robinson, Miss Crocker, Mrs. O. Nicholson, Mrs. Mabel, Mrs. W. Park and Miss L. Mahony had been the efficient committee for staging the pageant in Newcastle. Secretary's Report. The secretary's report was, in part, as follows: During the past month most of our time and energies have been spent on the activities concerning the campaign. As a result of the work of our campaign organizer we have the pleasure of reporting a reorganizer branch at Shediac. On the evening of the 12th, at Hampton, a most interesting gathering was held. Success, Jacques River, Benton, McAdam and St. Stephen are to be visited on request. Miss Saunier organized the north shore, and as a result our first returns have been sent in from Tracadie. From Riverside, Albert county, has come word of a most successful annual meeting, and St. Stephen plans holding its campaign on the 20th. The Chatham drive was planned for the 16th, following the production of the pageant for which they and Newcastle deserve the very highest praise and congratulation. Middle Sackville has sent us \$15 towards the hut furnishings. For the emergency work a request has come from the I. O. D. E. at St. Andrews and the Women's Institute have, as in the past, most generously to make one dozen garments a month. Our branches at St. Stephen, Lakeville, Kilburn and Clifton are assisting us in every way. Relief dispersed from the depot during the past month included blankets, pillows and other nursing supplies sent immediately on request of Miss Melville to the fever outbreak in Kent county for which Newcastle, Rexton and Chatham Red Cross branches also sent to Canadian Patriotic, East St. John Hospital, local relief, Lancaster Hospital and West St. John for a soldier's wife. Miss Petrie, one of our nurses trained at the V. O. N. last year, has taken up her work in Bathurst. The president of the Kilburn branch is spending the winter in England, and an interested substitute has been found to take her place. The president of Grand Manan branch will also be out of the province this winter. St. Stephen branch was sent literature, decorations

LANDLORDS FACE JAIL AND FINE

Health Dept. Will Prosecute if 68 Degrees is Not Furnished—Coal No Excuse.

New York, Oct. 21—Landlords who fail to provide sixty-eight degrees of heat in apartments when the outside temperature falls below fifty degrees will be held strictly to account by the Health Department, according to a statement last night by Acting Health Commissioner Frank J. Monaghan. Violation of this provision in the Sanitary Code is a misdemeanor, punishable by a fine or imprisonment or both. "The Health Department will only be lenient if it is convinced that effort have been made in good faith to get a supply of coal and that it has been impossible for the landlord to obtain it," said Dr. Monaghan. "But we do not think that efforts of landlords to get coal will be fruitless. We are co-operating with the Fuel Administration and we shall expect the landlord to do their duty." Dr. Monaghan said that complaint from tenants against landlords fail to supply sufficient heat would be acted upon promptly by the Health Department. The lowest point touched by the thermometer yesterday was forty-two degrees at 11 p. m. The highest temperature was fifty-eight at 4 p. m., and the average temperature was fifty. The average for the same day last year was sixty degrees.

JUDGE BEATS WIFE BEATER.

Fells Culprit Twice in Court and Then Imposes a Fine.

Wilkes-Barre, Pa., Oct. 21—Alderman Edward Burke of Pittston showed that he is a two-faced dispenser of justice when he treated Anthony Azakas, charged with wife-beating, to a dose of his own medicine. Azakas had been brought before the magistrate for blackening his wife's eye. Mrs. Azakas had told only part of her story when Alderman Burke shouted: "Wait a minute. I am getting tired of this. I am going to see how he likes it." With these remarks the magistrate came over the top of his desk, ordered Azakas to stand up and, as he did so, rapped him a hard one over the left eye. The defendant went down and the alderman ordered him to his feet. Azakas came up weeping and penitent, but a blow just above the other optic sent him to the floor again. Sobbingly Azakas begged for mercy. He came slowly to his feet, when a couple of stinging slaps to the right

WEDDING ANNIVERSARY.

Mr. and Mrs. J. Verner McLellan celebrated the twenty-fifth anniversary of their wedding last Thursday with a family gathering given at the residence of Mrs. Charles Coster, Princess street.

fectly contented in Russia. The correspondent has met both varieties. All of them have had interesting experiences, and those who have lived long in America, or the native born Americans who joined various colonies are bringing something of American methods and American standards to cities, villages and farms all over Russia.

At the present time, because of industrial difficulties, greater encouragement is extended to farmers to come to Russia than to industrial workers. Planters are now under way to bring over from the United States about 10,000 farmers for colonization in South Russia and Turkestan, where they will be encouraged to grow cotton. Of the farming groups already in Russia, one of the most successful is that in the Tamboff and Odessa governments, where the Russian-Americans have introduced tractors and other agricultural machinery and already have reaped one big harvest.

The correspondent has encountered more discontent among the industrial groups than among the farmers, but most of the little concerns started by factory workers from America seem to be more flourishing today than they were some months ago.

Among the industrial groups there are thirty tool and die workers who, under the name of the Link Tool Corporation group, are introducing die casting in Russia. There are also two groups of tailors, one long established, which has undergone varying fortunes and the other, just arrived, which brought \$75,000 worth of equipment, is preparing to turn out American cut clothes.

ROBS BANK AS HOUSE BURNS.
Lone Bandit Works Under Cover of Excitement Next Door.

Erie, Pa., Oct. 21—A lone bandit walked into the Lincoln Bank here and, after backing two clerks and a woman cashier against the wall, robbed the cashier's cage of \$2,400.

The robbery occurred while an adjoining building was burning, the robber working without interruption under cover of the excitement.

In Norway whalers' intestines are used in making gloves.

UNION FUNDS DISAPPEARED

Brotherhood Sues Former Grand President for Approximately \$200,000.

(Special to Montreal Gazette) Detroit, Oct. 18—If the man who drives spikes along a railroad right of way, or one who helps pump a hand car over a section, had wandered into the court of Judge Henry A. Mandell today, he would have heard something about where the \$8 union dues he pays annually goes.

Inside information on this point is being brought out in the trial of the suit of the United Brotherhood of Maintenance of Way Employees and Railroad Shop Laborers against Allen E. Barker, former grand president of the organization, for approximately \$200,000 of its funds, which it charged Barker had converted to his own use.

Before the business depression in 1920, the brotherhood had a membership of 400,000, which made its income \$3,200,000 a year. The money was rolling in; factories were started by the organization to make overalls and other equipment for its men, property was purchased, and it was planned to erect a big headquarters building in Detroit.

Mr. Barker, defendant in the present suit, was paid a salary of \$14,000 a year, and there were fourteen grand vice-presidents drawing a salary of \$5,000 a year each. Barker also had an unlimited expense account.

Checks he is said to have issued are the basis of the suit now in progress. On one score alone—"special organization work"—Barker was given checks totaling \$192,000 in a few months late

Summer time brings many children back to the old home—among pleasant memories renewed will be the Tea they used in childhood—"RED ROSE."

RED ROSE Crushed COFFEE pleases particular folks.

In 1919 and early in 1920, according to testimony introduced. A check for \$50,000 was sent to the Trades and Labor Council of Canada by Allen E. Barker, former international president of the Maintenance of Way Workers' organization for the purpose of fighting the "One Big Union" movement, according to testimony offered by the union today in its suit to recover \$200,000 Mr. Barker is alleged to have misappropriated.

George Seal, former grand secretary-treasurer, testified to the \$50,000 check, stating it was his understanding the money was to be used to strengthen existing labor organizations in the Dominion and to combat the propaganda for a union of all organizations which would have disrupted the brotherhood.

Other witnesses gave testimony to support the union's charge that funds designed for organization and other work were used by Mr. Barker in real estate ventures. Thirty pieces of property in Detroit were purchased by the former president it was alleged.

ASKS \$10,000 FOR LOST SMILES.

Buffalo, N. Y., Oct. 21—Nine-year-old Joe Bevilacqua is asking a jury in County Court to award him \$10,000 because he never again can smile. A year ago a touring car in which he was riding was demolished by a truck. His face was cut by flying glass and he lost control of the facial muscles. The suit is against the owners of both cars involved in the accident.

In United States theatres whale oil lamps were used at the beginning of the 19th century.

To Become Wealthy

At Age 65—

ONE only will be wealthy—

FOUR will be well-to-do and able to enjoy comfort and recreation—

FIVE will still be working for a living, with no prospect of relief from drudgery—

THIRTY-SIX will have died; in many cases leaving families enduring hardships—

FIFTY-FOUR will be dependent on friends, relatives or charity.

Is an Ambition That is Cherished by Many.

You, perhaps, have the same ambition. At least, you want to be well-to-do later on, and able to enjoy comfort and independence.

What Are Your Chances?

Experience shows that of 100 average healthy men 25 years of age, the following will be true at 65:

- 1 only will be wealthy.
- 4 will be well-to-do.
- 5 will be compelled to go on working for a living.
- 36 will be dead.
- 54 will be dependent upon friends, relatives or charity.

Facing These Facts

Can you afford to go along without a definite plan of saving and investment, uncertain whether you will be well-off or an object of charity?

There need be no such uncertainty about your future if you adopt the safe and definite plan of setting aside a deposit regularly each year for a Canada Life "Endowment at 65."

It will guarantee you in cash at age 65 the sum of \$2,000—\$5,000—\$10,000 or more.

It is a certainty—the full amount of your policy will be paid in any case, whether you live or die. Other investments may depreciate in value or fail. The

Endowment at 65

will take care of your home, your business, or your personal interests, as nothing else can.

Substantial dividends are allotted at intervals.

If these be allowed to remain at your credit each year instead of being withdrawn, the face of the policy will be payable earlier than the date set.

THE EVENING TIMES AND STAR, ST. JOHN, N. B., SATURDAY, OCTOBER 21, 1922

READY TO TAKE ST. PETER'S Y.M.A. CASE TO COURT

Y. M. A. Representative at
M. P. A. A. A. Annual Meeting

No Action Taken—No Payment to Athletes for Time Lost from Business—Records Allowed—A. W. Covey Again President.

(Canadian Press)
Amherst, Oct. 20.—A. W. Covey, St. John, was unanimously elected president of the Maritime Provinces Branch of the Amateur Athletic Union of Canada at the annual meeting of that body here this afternoon.

Other officers elected were: First vice-president, A. C. Mille, Halifax; second vice-president, S. F. Doyle, Charlottetown; third vice-president, Dr. W. A. Colt, Wolfville; secretary-treasurer, F. J. Legges, St. John.

Thomas K. Sweeney, representing St. Peter's, St. John, attacked the "Covey" affidavit, which requires maritime athletes to go on oath concerning their amateur standing and threatened legal action against the maritime branch if it failed at Toronto, October 19.

After protest by J. A. Hanway, K. C., St. Peter's were continued barred from

amateur standing. He said his club was ready to go to court to obtain its rights.

President Covey replied that the St. Peter's athletes could get amateur cards by signing the affidavit.

No action was taken following Mr. Sweeney's statement.

J. B. McBeath and other Moncton delegates advocated that the constitution be changed so as to allow payment to athletes for time lost from business. A motion to this effect was lost, 48 to 15.

G. L. Frowse and L. B. McMillan of Charlottetown, the records committee, recommended that the marks made by Phil MacDonald of Charlottetown, in the broad jump; Bill Halpinney of Charlottetown, in the pole vault, and Steve Kennedy of Halifax, in the hammer throw be accepted as maritime records. The record of Victor MacAuley of Windsor, in the five mile run at Pictou was recognized after discussion.

The high jump of L. A. Miller of Sussex, which he equalled the maritime record, was held up by the records committee on the ground that they were not sure of the quality of tapes used in measuring the jump. The meeting favored allowing Miller's record but no decision was made. Victor MacAuley's ten mile mark made on last Saturday in Halifax, was held up, pending measurement of the course.

St. Mary's and St. Joseph's clubs, Halifax, applied for the maritime boxing championships and the matter was referred to the board of governors.

It was decided that the length of the stay made by American touring baseball teams in the maritime provinces should be curtailed.

The meeting went on record as opposed to the attitude of the Ontario amateur officials in their recent declared intention of suspending Roy Chisholm, Halifax boxer, for withdrawing from the maritime branch if it failed at Toronto, October 19.

of Amherst, against the system of allowing clubs to be represented by proxies, it was decided that in future clubs must send delegates if they wished to be represented at the annual meeting.

A. W. COVEY ON SPORT OUTLOOK

Declares Amateurism May
Look Ahead to a Bigger
and Better Year.

Halifax, Oct. 21.—"Will amateur or independent sport receive the greater share of public patronage in the maritime provinces during 1923?" This question was asked of A. W. Covey, of St. John, president of the Maritime Provinces Branch of the Amateur Athletic Union of Canada. Mr. Covey is an athlete with an enviable record, having been quarter mile champion of the maritime provinces in 1922 and having competed in football, hockey and baseball. He has been a student of things athletic for twenty-five years. Here is the maritime president's reply:—

"Amateur sport will without question hold its place in the maritime provinces during the coming year. The present year has been the crucial one and as we more than held our own this year there is no reason to worry over what is to follow. The fact that conditions were such that we were forced to place every athlete on his honor as to his amateur standing does not prove that conditions were as bad by any means as they were supposed. While so many athletes were charged with offenses against the amateur rules that it was impossible to investigate all cases, it must be taken into consideration that most of the charges came from men who were mixed up with professional sport. Although several athletes against whom charges were made have taken the affidavit the professional promoters have not laid further charges except in one case and this they failed to substantiate.

"Apparently these promoters expected the amateur authorities to expel all the men against whom charges were

made and from those expelled they expected to strengthen their ranks.

"Amateur baseball never had such a following as it had in Nova Scotia during the last year. Prince Edward Island made a good start with baseball and the people took to the game in good style. In New Brunswick, where the pros were forced out into the open the amateurs did not receive much patronage until the month of August, when in several centres the fans left the pro game to follow the amateurs. Track and field sports had the best year in their history in the maritime provinces. Several records were broken and others were shaved closely. There are more good amateur athletes in the maritime provinces at present than ever before. Football is being taken up in the larger centres and will be strictly amateur.

"Amateur hockey will, without doubt receive a larger share of patronage than the pro game as the patronage of the latter has been growing less during the last year. Outside of Moncton there is no pro hockey in New Brunswick and now with a rink in St. John the amateur game will get a further impetus. We have no fear of the outcome. The professional promoters had high hopes that their charges of last January would bring to them the desired results of adding vast numbers to their ranks. As this did not happen the only logical conclusion to come to it that history will repeat itself and that the pro

game will die within a year or two as has been the case on former occasions.

"I thoroughly believe that the people of these provinces want to see sports for sport's sake. They want to know that it is clean and above board, and that the best athlete or best team is going to win irrespective of what the hangers on may desire.

"The amateur situation is not just what it might be because our association has had neither the money nor the time to go out into the smaller districts and organize. We feel, however, that the public generally now understand what our association really is and that athletes who wish to sell their ability may do so, but as far as we are concerned they must do it openly and not under the cloak of amateurism. The public also now understand that once a man sells his ability for money he cannot under any circumstances come back to amateur ranks.

"Summing the situation up every indication points to a bigger and better year for real amateur sport."

U. N. B. Defeats Moncton.
The U. N. B. football team defeated Moncton yesterday by a score of 8 to 0. They secured their points through a penalty kick. The Moncton team had the better of play throughout and kept the pigskin in the collegians territory during the greater part of the game.

ALLEGED VICTIM OF A \$300,000 ROBBERY HELD

Chicago Police are Told of
Auto Hold-up by New
York Gem Salesman.

Chicago, Oct. 21.—Max Moser, a New York jewelry salesman, who reported to the police that he was robbed of 250 unset diamonds, said to be valued at \$300,000, is being detained for further examination by the police. Moser said that he and Charles Morris entered Morris' automobile three men took possession of the car and took the pouch containing the stones from Moser. The robbers then cut the ignition wires on Morris' car, locked it, took the key and drove away in another car, according to Moser, who was corroborated by Morris, an insurance agent.

Mrs. Harry Lachman and Miss Betty Levy, who were with Moser earlier in the evening, told the police they warned him that a touring car was following them as they were walking along the street a short time before the robbery.

Moser said he lived at 562 West 180th street, New York, and represented three New York jewelry firms—Jacob Schoen of 4 Maiden Lane; Louis Whitelaw of 68 Nassau street and Samuel Lenkowsky & Son of 71 Nassau street.

The total loss in robberies of diamond brokers and salesmen in Chicago during the last two years amounts to more than \$2,000,000, according to police reports.

While the detectives were examining Moser today four armed handits held up S. W. Lew at 1,022 East Sixty-third street, taking \$80,000 jewelry from him.

ST. F. X. OUT OF AMALGAMATION

(Canadian Press Despatch.)
Antigonish, N. S., Oct. 20.—St. Francis Xavier College, Antigonish, will not enter the proposed confederation of the colleges of the maritime provinces, according to the almost unanimous declaration here today of the governors of the institution. The decision was embodied in resolution form which said that St. Francis would not enter the proposed federation and that the college would not be represented at the meetings of maritime colleges at Halifax on October 28 and 29, which would discuss federation.

In normal times France uses one third more coal than it produces.

For the man who dreads shaving

Countless numbers of men look upon shaving as a "necessary evil." They have not experienced the clean comfortable shave of the New Improved Gillette.

This razor brings a joy of shaving most men had hardly dared hope for. The keen-edged Gillette blade cuts clean through each hair without a suggestion of pulling. The razor glides softly over the face leaving it smooth and cool.

Ask your dealer to show you the New Improved Gillette.

Kola Krust
CORSIKAN
BRIAR

This is the Pipe of Peace

Why? Because it gives you a cooler, sweeter, more thoroughly enjoyable smoke than any other pipe under the sun. Note the crusted bowl—made from the finest quality Corsican Briar, treated under the famous Kola Process. In making this crusted bowl, a lot of the superfluous briar is cut away. This decreases its weight and greatly increases the air-cooled surface. You certainly will enjoy smoking a Kola Krust.

All Shapes and Sizes
One Dollar—Everywhere
Kola Krust or Kola Standard

DODGE BROTHERS BUSINESS SEDAN

With this car, Dodge Brothers have literally created a new type of sedan.

They have combined open car ruggedness with closed car protection and smartness.

They have demonstrated, once for all, that a sedan can be as practical and almost as inexpensive as an open touring car.

The body is built of hand-welded steel because steel is sturdy, and will take a permanent, oven-baked finish, eliminating forever the cost of repainting.

The seats are upholstered in attractive, genuine Spanish blue leather, because leather will wash and wear.

To further enlarge the car's usefulness, the rear seat, back and side cushions, seat frame and foot rest are quickly removable, giving sixty-four cubic feet of flat loading space in the rear compartment. The manifold uses made possible by this unique feature are readily imagined.

The top and rear quarters are of non-rumble, fabric construction, conforming with the present attractive vogue. From cord tires to curtain cords, the fittings, inside and out, are distinctive and complete.

In fact, every detail of the car emphasizes its striking adaptability to business as well as social use.

The price is \$1955 delivered, St. John.

OVERSEAS VETERANS MUST GUARD AGAINST HARDENING ARTERIES

Thousands of Canadian overseas veterans have not given sufficient thought to their health since returning. Physicians recognized that these brave men lived through more emotions during the war than most people encounter in a lifetime. Some lived fifteen years in three, four, or five. Doctors advised veterans to live cautiously.

While hardening of the arteries formerly developed after the forties birthday, the war upset this rule, for the reasons given. Veterans must keep fit. Blood pressure is regulated by the state of the arteries, and the best means of reducing blood pressure and preventing hardening of the arteries is by keeping the system well regulated.

Constipation must not be permitted to exert its harmful effects (it is the cause of auto-intoxication—self poisoning—headaches, biliousness, lack of energy, sleeplessness, indigestion, and hardening of arteries).

The use of medicines for constipation is harmful. Pure warm water, applied with the E. L. C. Code, is the natural method. It cleanses and purges the intestinal tract, removes the poisonous waste which accumulates there, and eliminates danger of hardening of the arteries by striking at the root of 90 per cent of human ailments.

The J. B. L. Cascade is shown and explained at E. Clinton Brown's, Druggist, Union and Water street, St. John, N. B.

Ask for the free booklet, "The What, Why, How, and the Way of Internal Bathing," or write direct to Tyrrell's Hygienic Institute, 168 College street, Toronto, Ont.

The World's Greatest Organist

Marcel Dupre, Grand Prie de Rome, Organist of Notre Dame Cathedral, Paris

Centenary Church

Tues., Oct. 24th
at 8.15 p. m.

The Programme Includes

Bech—Pantastic and Fugue in C minor.
D'Aquin—Noel avec variations.
Frank-Fantasia in A.
Viene—Finales of the third symphony.
Bourdon—The Chimes.
Dupre—Prelude and Fugue in G minor.
Improvised symphony on themes submitted by the audience.

Undoubtedly the Outstanding Musical Event of the Season

Tickets \$1.00. For sale by Gray & Richey, King street; E. G. Nelson, King street; Ross Drug Co., King street; Townsend Piano Co., King street; J. & A. McMillan, Prince William street; Lockhart & Ritchie, Prince William street; F. W. Munro, Main street.

Admission to this event will be rigidly limited to the normal seating capacity of the church. Tickets should be secured at once in order to avoid disappointment.

This is positively the only occasion, despite rumors to the contrary, on which M. Dupre will appear in this city.

Opera House

MAT. 2.15. EVE. 7.9.
10c, 15c, 25c. 15c, 25c, 35c.

BOB OTT

And his company of talented artists present

'My Mother'

A delightfully different show from anything yet seen in St. John.

BOB OTT will appear for the first time without his make-up.

TONIGHT
LOCAL TALENT NIGHT

Sat. Matinee, Singing Class and Sewing Dolls for the ladies and

greater momentum. Again, if a player running at top speed, in seeking to pass his opponent happens to lose his balance when tackled, he falls very heavily, and where a defender has blocked a ball the attacking player frequently wrenches his ankle or knee, owing to the sudden jerk with which he is brought up. It is from the latter cause that considerable number of injuries have been sustained.

Opponents of the "speed system" say that these accidents are unavoidable and must be expected so long as the present style of playing continues. They also charge that the value of speed or pace has been much over-rated and that time devoted to its development is not warranted by the results obtained, and they point to the result of the last two international matches with Scotland as justifying their criticisms.

In the last two internationals between England and Scotland, the English side was admittedly the faster, but was lacking in combination and the speed was soon reduced to helplessness by the determination and skillful anticipation of those whose business it was to keep the ball from entering the Scottish goal. At Birmingham last week the English forwards must have scored again and again if they had kept their heads when in the neighborhood of goal. They overran the half, shot wildly or hesitated until they were robbed, or they failed completely to place possession when tackled, or just before they were tackled, a colleague who was exceedingly well-placed to defeat the Scottish goal-keeper. There was peace in plenty in the English attack, but there was not enough skill.

MR. EDISON IS ASTONISHED

Sees at Big Schenectady Plant Electrical Marvels That Grew from His Inventions—First Visit in 25 Years.

Schenectady, N. Y., Oct. 21.—Thomas A. Edison, who has died in marvelous old age, was amazed at some of the things he saw in the General Electric Company laboratories on his first visit here in twenty-five years.

He saw a mercury boiler so much more efficient than steam that when it is perfected it will mean a saving of one-third in coal used to produce power. He saw a machine for registering the voice by light on a moving picture disc. There was peace in plenty in the English attack, but there was not enough skill.

These were some of the greater things that Edison thought might mean much in long-distance transmission of power and in the field where it will end, and he held a 100,000 candle power incandescent lamp which made his own first bulb seem like the glow of a flash of fire until Edison's incandescent bulb, the study of which has produced the vacuum tubes which as E. W. Rice, Jr., an officer of the company, said, "is destined to revolutionize our present methods of generation, transmission and utilization of electricity." So they called him "Mas-fac" and showed him things of which he had not dreamed when he blazed the path.

Lighting Bolts Juggled for Him. Steinmetz juggled his lightning bolts for him, splintered wood and displaced metal in a flash of fire until Edison's particles; Langmuir showed him tubes that Edison thought might mean much in long-distance transmission of power and in the field where it will end, and he held a 100,000 candle power incandescent lamp which made his own first bulb seem like the glow of a flash of fire until Edison's incandescent bulb, the study of which has produced the vacuum tubes which as E. W. Rice, Jr., an officer of the company, said, "is destined to revolutionize our present methods of generation, transmission and utilization of electricity." So they called him "Mas-fac" and showed him things of which he had not dreamed when he blazed the path.

London Liked Kemal When He Was There A Few Months Ago

Vigorous, Handsome and of Pleasant Expression
—Franklin-Bouillon a Power Behind the
Scenes in France—Military Matters in Eng-
land—A Football Tragedy.

(From our own correspondent.)
London, Oct. 19.—Whatever their private views about the Near East crisis, and the policy of surrendering to the Turk all that we conquered him to attain, most people have a sneaking liking for Mustafa Kemal. Pasha. Able pencil portraits as well as photographs confirm the man in the street as an agreeable impression of a remarkably handsome fellow with a pleasant expression. And that is a popular belief for once supported by facts. Those who met Kemal only a few months ago in London know him as a most accomplished man of affairs and a gentleman of charming appearance and manners. This amazing big man of Turkey is a vigorous person in young middle-age, a bachelor with a villa three miles outside of sweltering Ankara on a comfortable hilltop. This residence was presented to Kemal by the municipality, and the great Pasha's official allowance, voted by the assembly which his personality dominates, is the equivalent of £40 a year. Obviously the one modern equipment of which Turkey stands in no need is Eric Geddes and his famous axe. The frugal Turk pays his lord protector less than we do our Whitehall doer-keeper.

Franklin-Bouillon.
The personality of M. Franklin-Bouillon has all the romance that surrounds those mysterious figures that posture a big history as powers behind the throne of royal authority. In all ages there have been men of an intense vitality or mentality, who have never held official status, but have exercised a dominating influence over events. The most conspicuous recent instance was, perhaps, Colonel House, the unofficial president of the U. S. during Woodrow Wilson's official reign at the White House. M. Franklin-Bouillon is almost, but not quite, half English and half French. He is, however, especially is not. His mother was a native of the Channel Islands, and his education was his university, but though he speaks our language with absolute purity and facility like a well-bred native, in temperament and characteristics he is essentially Gallic. He was the man who negotiated France's secret treaty with the Angora Government. That was a fatal coup so when the Kemalists were returning to the Cockpit of Antiquity, France sent Franklin-Bouillon to talk sense out of him. He is about fifty-two years old, full of vigor and zest, and a keen cynic. There must be habits of the Cafe Royal who remember him as a keen snooker and animated talker at his marble tables amid the after-dinner glitter and the maelstrom of talk and laughter on crowded nights before the war.

Big Greeks in London.
From one point of view it is perhaps unfortunate that the presence of M. Venizelos and Sir Basil Zaharoff in London should have been so widely advertised at this juncture. It might give rise to suspicious in certain quarters that there was more caballing going on between the cabinet and the Greek leader than there is. It might give rise to what they call "our pro-Greek" policy must not forget that the Greek themselves blame us for their military debacle, first because they say we encouraged their Asiatic adventures, and secondly, because we stopped them making military use of the neutral zones, thereby depriving their troops of a great chance of seizing Constantinople and out-manoeuvring Kemal. Nothing could be more ridiculous than the misleading suggestion, which is absolutely devoid of truth, that "our influence" have been instrumental in moulding our Near East policy. It is as absurd as the other canard, that a former member of the cabinet gave some color in a moment of personal pique, that the gine minister is specially "interested" in Greece by family business associations.

The Greek Legation.
It will be interesting to see if the developments in Greece result in change in the representation of that unhappy country in London. Risto Rangabe is an ardent royalist and has always been loyal to King Constantine, although when Mr. Venizelos came to power in connection with the treatment of the Balkan War prior to the great war he was in the secretarial entourage of Venizelos. Afterwards Mr. Rangabe became the representative of his country in Holland, and finally came to London, where he is very popular and is greatly respected by his diplomatic colleagues. By a curious irony the legation buildings in London, which were the gift of the Greek nation to the King, that lady, when her present husband was in power in Greece, purchased the building and presented the freehold to the government of that day. I understand that the figure was somewhere in the region of £38,000. Mr. and Mrs. Rangabe frequently entertained large and influential parties, and are

Drug Sale

Gets A Curtain Call

The ninety special savings on the every day toilet and drug needs of the entire family are available Monday. The crowds who came told us the time of the sale was too short, in spite of our insistence that our values are always the lowest.

So the list that would save you eleven dollars if you bought one of each holds good for Monday.

The Ross Drug Co.

Turks. I invited this Italian to ponder the auction sales of the big and little estates in this country, the melancholy array of houses for sale in Mayfair and Belgrave, the large increase in British people resident in Italy simply because their crippled incomes would not allow them to exist on any modest scale of comfort in their own country. And I called his attention to our formidable unemployed problem. He seemed politely impressed, but I think his absolutely mistaken preconception are ineradicable. It is these inevitable misconceptions that are slowly killing the spirit of the Entente resolving Europe into hostile nations again.

The pride of a regiment in its colors. It increases in proportion to the number of battle honors inscribed on them. After much delay, the War Office has issued its list in response to many regimental enquiries regarding the inscription of honors earned during the great war. Whitehall's decision is that there shall not be more than twenty-four all told, of which number not more than ten shall be 1914-18 honors.

On what basis these arbitrary figures were arrived at is beyond conjecture. Many units are bewildered over the decision, as they already possess to their credit more than the total number in question. The Gloucesters, for in-

sance, carry no fewer than thirty-three. The Highland Light Infantry have thirty, and among those more than twenty-four are the South Lancshires, Royal Welsh Fusiliers, South Staffordshires, Gordons, Black Watch and the Royal Scots. Apparently the selection of honors to be borne on colors is to be left in the hands of regimental committees, who will in due course make their suggestions and recommendations for War Office approval, and perhaps that will prove to be the best solution of the difficulty, though it has met with some adverse criticism in the service.

"Mabon's" Fortune.
The news that "Mabon," the patriarchal Welsh miners' leader and one of the most respected Labor M. P.'s of his day, left a fortune of £33,315 has caused a slight sensation. We may be quite certain it will be well advertised, and skilfully exploited, by those Bolshevik brethren within the Labor movement, who desire the overthrow of among most other established affairs, the present moderate men. But "Mabon" lived a long and simple life, during which he received for some years one of the Carnegie bequests, besides being a director of a miners' insurance concern, which was eventually amalgamated with another business under terms extremely favorable to "Mabon." A really careful man who avoids all unnecessary personal expenditure, and lives an absolutely simple life extending over a period of decades, need not exceed very moderate means to amass a small fortune. Any suggestion that Labor leaders as a rule are small millionaires, though it is now sure to be made, is merely ridiculous. "Mabon's" income for ten or twelve years must, with the Carnegie thousand a year, have been, counting also his parliamentary allowance of £400, about £2,000. Probably he would easily save £1,500 of this.

A Hyde Park Change.
It is sad news for the pretty West End nurses and also for their cherubic charges, the Mayfair babies, that the dashing Household Cavalry are leaving Knightsbridge. These superb troopers, with their full-dress helmets and jack-boots, and their smart light-fitting scarlet and black walking-out dress, have occupied the old cavalry barracks, running alongside the Serpentine, for many years, but no more will they lend enchantment to the view. Only a few N. C. O.'s and details remain behind to clean up and in a day or two even these heroes of the Ouda school of militarism will have vanished. Henceforth the Household Cavalry, formerly consisting of three fine regiments, will be two only. The Geddes axe has cut off the third, and the surviving two regiments will take alternate duty at the Regent Park and Windsor barracks—one year at home and one abroad, as the infantry and gunner artists remark. It appears that the Hyde Park barracks, dating back to 1794, will now be used by Foot Guards. Another service fact of general interest is the 200th anniversary of Admiralty Buildings, the Horse Guards in Whitehall, where Lord Nelson's body rested en route for St. Paul's after Trafalgar, and whose cobwebs of overhead wireless, according to gunroom report, nearly lost us the great war.

Rugby Events.
This early in the Rugby season it is fairly evident that in London the outstanding club this year will be Guy's Hospital. I said only the other day that I regarded them as one of the finest sides in the kingdom last season, when their record of victories in stiff games amply justified the view, and this season they are even stronger than before. They have secured some brilliant new men, all South Africans, in place of those who have dropped out at the end of their hospital career, and neither Blackheath nor the Harlequins, the two premier London clubs, are getting quite up to last season's form. There was one comic and rather embarrassing incident in Saturday's game at Twickenham between the Harlequins and Gloucester. A Gloucester half scored a scrambling try just on the line, and in the scramble lost his knife. As he lay on the ground, clutching his rags, he waved frantically towards the pavilion. Promptly there came running over to him the Gloucester trainer, bearing in one hand a small handbag and in the other a huge bottle of lotion. Eventually the position was made clear. New pants were forthcoming, and donned in a circle of another garments under the eyes of a mixed crowd of eight or ten thousand people is a sort of ordeal for a nervous athlete.

SEPTEMBER WHOLESALE PRICES—3 PER CENT. BELOW AUGUST'S
Washington, Oct. 21.—The average level of wholesale prices in September, the Department of Labor reported today, was about 11.3 per cent. lower than in August. The index number, representing comparative price levels of 404 different commodities, dropped from 155, as determined in August, to 133 in September.
Fuel and light materials were chiefly responsible for the reduction, the estimate said, having dropped ten per cent during the month. Farm products, building materials, textiles and clothing all showed small declines.

WOOLING BY FORCE FAILS.
Abductor of Independence (Mo.) Prize Beauty Admits Defeat.
Aurora, Ill., Oct. 21.—The flight of a sixteen-year-old Missouri beauty contest winner and a man who made her his captive so that he could make love to her ended here with the man, Frank Rawlings of Independence, Mo., in the hands of the police and the girl on the way home to that town.
Rawlings, who is married and the father of two children, told how he had employed the girl and fallen in love with her, then tricked her into his automobile. The journey touched a dozen towns in Missouri and Illinois before Rawlings was convinced that his plea for the girl's love were fruitless.
"I drove out of town with the idea of going so far that she would realize the hopelessness of the struggle and would become resigned," Rawlings told Chief of Police Michaels. "But she never surrendered in spite of her terror."
"I don't care what they do with me. I loved her and carried her off, but I could not win her. I am willing to pay the price."
The girl, who looked like a child, said that along the way Rawlings posed as her brother.
"Maybe they will hang him," she said. "In Missouri kidnapping is worse than in lots of places. But jail for life would be enough."

FARRAR SALE DISAPPOINTS.
Opera Singer's Effects Bring Only \$40,943.50, One-Fifth of Cost.
New York, Oct. 21.—The four day sale of Geraldine Farrar's operatic costumes, household effects, and personal belongings came to an end Wednesday with total receipts of \$40,943.50—about one-fifth of the estimated cost price. The final day's sale saw the disposal of many of Miss Farrar's finest costumes. Her \$11,000 court robes for "La re-

Society Brand Clothes

MADE IN CANADA

Good style for Fall indoors or out

For any sport or business wear your Society Brand Clothes will be good style. Design and fabric vary to suit all good taste, but the tailoring keeps to one simple standard of workmanship—the best—whether the price is \$30 or \$60. We recommend them to you because their lasting satisfaction is so certain.

Let us show you Double Service Fabrics—a Society Brand selection of the finest British and domestic woolsens and worsteds. They look better and wear longer.

Unusual Values at \$38 and \$41.00

Independence

Independence is not an indefinite something which just comes. It is a success quality which very few—in fact only four men out of every hundred at 65, have attained.

A Manufacturers Life policy is not only a stepping stone to independence; it is the very foundation upon which it can be built. Systematically setting aside a part of your income year by year will bring you well-earned independence in later life. Should you not live to old age your life insurance will create a fund that will help to maintain your dependents.

Build NOW for independence. Send for information regarding our Double Maturity Endowment Policy.
